REF: Appeal Case # 14-0324 and Case # 13-1046

To Whom It May Concern,

We are requesting an appeal on the outcome of the decision that was made on July 15, 2015 in regards to the financial fines on the above stated case numbers. We feel that these fines are very high in regards to the code violation. We feel that we are being punished for something that mother nature created with the tree falling down, but yet we are the ones that have to pay the fines. As we had stated in the request for reduction statement we have inherited this situation when we bought the property and feel as though we are being punished for someone else abandoning the property. As I have stated it has cost us quite an amount to remove the tree and many hours to clean up the yard and get this property in compliance. We took on this project so that we were assured that it would be fixed and cleaned properly so that we could continue to make our neighborhood a nice place to live. When we take the expense for the third lien and from what I understand the total will be around \$3,000. This amount is a big hit for us and at this time we just can't absorb such an amount as well as trying to take on the expense of fixing up this property. Even though we were giving ten months to pay it is still a huge expense at \$300.00 per month. So we our asking the City of Ft. Pierce to please reconsider this fine and show lenience towards this situation and understanding and fairness for us. We appreciate your understanding and would like to thank you for your help.

Sincerely,

David Buryanek
