RE: RG Towers-Sonic Lighting Plan- Section 22-58-D.8

There is no proposed lighting at the proposed development and hence section 22.58.D.8 below is not applicable

- 8)
 - a. A lighting plan which shows illumination of all interior and immediately adjoining streets as follows:
 - At least one (1) average footcandle for streets classified as collector classified as collector, arterial or higher;
 - b. At least five-tenths average footcandle for streets other than as described in the immediately foregoing subsection;
 - c. At least one (1) average footcandle for specially designated pedestrian walkways.

The uniformity ratio for lighting required by this section shall be an average/minimum ratio of ten (10) to one (1). There shall be included with the lighting plan a statement of a registered engineer or architect showing calculations demonstrating compliance with this section to the city engineer and such statement shall be subject to the city engineers approval. Subsequently a certificate of occupancy may not be issued until there is filed with the director a certificate from a registered engineer or architect of design that the lighting installation meets the requirements of this section

Sincerely,

A handwritten signature in blue ink that reads "Holly Valdez".
