Subject: security

Chief, I would like to commend your department in particular the Command person responsible for security at 10:00 pm on 02/20/16 at the Sunrise Theater. After exiting the performance my wife and I were greeted by the Police Officer stationed outside the main entrance. He made us feel safe as we had to walk a few blocks to our vehicle. He acknowledged us and stated to us " have a nice evening". That wasn't the end. After arriving at the public parking garage a marked patrol vehicle was observed inside the garage. I know from experience that Police Officers do not receive the respect that they deserve. I hope that everyone that exited that show felt the same way that my wife and I did.

A.R. Farella
