2	The valuation indicated on roofing permit 16-1343 was \$1,800.00; the valuation indicated on roofing permit 16-338 was \$2,400.00. The amount indicated on the proposal for roof work is \$5,000.00 and the amount indicated on Mr. Mager's cost breakdown is \$16,295.00.
3	Mr. Feliciano has paid \$32,920.00, \$6,420.00 more than the original proposed amount, and not all work done in the proposal has been completed. Mr. Mager has stated he has taken a personal loss of \$5,795.00.

To whom it may concern:

This complaint made by Mr. Feliciano concerning work performed at 1002 Avenue E is completely absurd. Ripped off? I have enclosed the costs for all work performed on the project. The fact is this former crack house should have been torn down. I tried to put this structure back in to a livable condition and it ended up costing me \$5795. I spent \$38,715 on renovations and clean up and Mr. Feliciano paid \$32,920 resulting in a personal loss of \$5795, and the work is still not finished. I took the loss and now he is making a complaint? Lot of nerve. Since Mr. Feliciano thinks that he know so much about construction he has now indicated to me that he will be finishing the house renovations himself. Good luck Mr. Feliciano with the money pit!

Hey Terry. Never heard from you about the plugs for the range and dryer.  
 Sorry about that will cal from the job tomorrow  
 Ok  
 Terry can you give me an update and when you will be finished.  
 I hope 2 weeks electrician screwed up a few things including the stove receptis!  
 Receptical will fix  
 Did you check the dryer receptical  
 Yes it's not there having another electrician finish up  
 Oh boy that guy did mess up  
 Can I get 1000 for the week 7100 remaining  
 What progress has been done this week?  
 Patching and painting bedrooms getting ready to tile bedrooms  
 Ok  
 Go ahead  
 Thanks  
 Hey can I get an update?  
 Garage door installed and reframed garage painted front columns painted washer dryer removed cabinets tomorrow  
 This is bill, don't have a garage on that property so I think this is not my update.

Right not your update here's yours had to remove the popcorn from various ceiling areas re taped and sparkled blocked out cracked. Bedroom picture window and drywalled majority of interior paint done will start installing all missing doors and trim And tile new electrician to correct mistakes wall leak at north side wall of t v room were outside slab is higher than the floor will try to figure out a solution  
 Ok thanks  
 Can we get another payment of 1000 this week leaving 6000 remaining  
 Do you have a clear end date, I never got the info for the plugs for the dryer and stove.  
 Constant surprises on this one the latest flooding in the t v room because the outside slab is higher than the inside slab the new electrician will be here next week to take care of the plugs I want to finish this as bad as you do let's hope two more weeks  
 Never got an answer on a payment ??  
 Gonna be up there today to check on the progress, I will call you from the property  
 Hi Terry, I was talking with Nathan and his solution to the flooding at the side door is to eliminate the door and put a cement curb to stop water from coming in.  
 That's what I had suggested  
 That sounds like a good solution. The other leak is coming off the drip edge and needs metal flashing and the stucco doesn't meet the roof so it needs stucco too! AA  
 Right also I am going to frame out the soffit around the flat deck  
 Ok.

I am a little concerned about the electric. We haven't tested any of the wiring. It would be a shame to have to tear up the finished drywall to fix any issue.  
 Having it checked out next Monday Tuesday  
 Good ahead with the payment, but can I get a little faster progress.  
 Will put on the full court press next week  
 Thanks  
 Hey just noticed no electric for where the water heater would go as well as the dryer.  
 I know  
 Ok

Hey Terry, what's going on with the house?  
Have to drywall patch all the walls where new wiring installed went to the utility dept yesterday and was told that I would have to have a walk thru with the building dept if we patch the walls and claim the wire was existing might not have to get a permit  
Can you give me a status please.  
All walls patched and painted where new electric wires installed electrical inspection on Friday  
Thank you, I will go up on Friday  
Inspector just left inside ok passed just need 4 battery smoke detectors want main line on outside under meter box replaced with p v c pipe and service line bolted to the wall will do next week and call him back told him all interior wiring was existing he didn't say anything about a separate electrical permit hope we don't need one  
Meeting the electrician at the house tomorrow will call for another insp on Thursday  
Ok thanks  
Inspection set for tomorrow?  
Yes

What's this about a credit card dispute regarding your account for 28003333?  
You will now need a plumbing permit and an electrical permit and if that money comes out of my acct I will be out 8350 on your job tried to do the right thing and finish it for you but instead getting screwed thanks  
I would have paid it all after completion.  
I have been real nice for almost a year  
So are we going to part company ?

You are the one that hung up on me. I have always paid for work done but for a long time you have just taken advantage of me being nice.  
Taken advantage how???

Dude this has been going on since February, even you have to know that is way too fucking long.  
We know that are you planning on finishing it yourself  
I was going to put the kitchen cabinets in myself, if that is what you mean.  
No I mean completing whatever work is left electric plumbing flooring the entire job  
Can we talk on the phone, instead of texting  
Sure I'll call in a couple of hours  
Ok talk to you then.
