RE: Veteran's Park Master Plan

DATE: May 1st, 2017

In 2007, the City undertook a Master Plan project for the area of Veteran's Park. After soliciting various proposals through an RFP, the City ultimately adopted a design and then engaged in several years of "fine tuning" to create the plan that was built for Veteran's Park. Several of the previous designs considered are included in this packet.

As the Backus Gallery has completed their expansion, one of the last areas not recently updated is the Shuffleboard courts. At several public meetings, the Commission seemed to support keeping the Shuffleboard Courts.

In effort to garner consensus, Staff is looking for feedback and direction regarding the Shuffleboard courts. A few options to consider:

- Keeping the Shuffleboard Courts
- Enter into a new Master Plan for this area
- Converting to another recreational amenity like Pickleball
- Removing the Shuffleboard courts and placing an Amphitheater
- Removing the Shuffleboard courts and using it for picnic tables
- Removing the Shuffleboard courts and placing additional sculptures and public art

Staff Recommendation

Provide feedback and consensus on a preferred option.
