Product Summary

Finally! A massage product designed for the comfort of women. The Chest Comfort Pillows position your female clients so they don't experience any pressure on their lower backs during the prone position. The Chest Comfort Pillows also work when lying face up.

Product Details

Female clients will appreciate our Chest Comfort Pillows! Our three-piece Chest Comfort Pillows position women so they experience no pressure on their breasts or lower backs when lying prone on a massage table. Simply slide the shoulder pillows under each of your clients' upper arms and position the pelvic pillow below their chests while they are lying face-down. The pelvic pillow can also be used under their lower backs when your clients are lying face-up! Each pillow is composed of small-cell foam and covered by oil and waterproof PU leather upholstery.
