From: Darrell J. Drummond, Chairman 

cc: Nick Mimms, City Manager
Linda Cox, City Clerk
Advisory Committee Members
Rebecca Grohall, Planning & Urban Redevelopment Director

Date: July 12, 2017

Re: Advisory Committee Update

Please find attached backup information provided to the Advisory Committee over the course of its' existence dating back to May 25, 2016. Included in the information are all of the agendas and minutes from the meetings of the Committee.

I will be present at the City Commission meeting on July 17, 2017, to present an update on the status of the work of the Advisory Committee to date. As part of my report, I will outline the requests made of the City Commission and outside agencies, to assist the Committee in its' efforts to develop a recommendation to the Commission on the relocating of the wastewater facility off of its' current site on South Hutchinson Island. As part of my presentation, I have been charged by the Committee to seek further guidance from the Commission on the future actions requested of the Committee ahead of a final recommendation and report.

I look forward to speaking with the Commission on next Monday.
