Danny Drawdy      "Hey Frank it's uh Danny Drawdy about the uh Peter's Road projec- or uh property over here and I don't know if it's doing anything but much appreciation that ya'll jumped on it as hard as you have and you know the increased presence again, it might not being anything yet but a man at least ya'll are attacking it. My uh dealings with government in the past is always been you never got nothing done but with ya'll at the Fort Pierce Police ya'll really did attack it and uh definitely see the increased presence hopefully it will have a long term affect. Give me a call if you got anything.
