You may be thinking about applying for Social Security retirement benefits. You should decide when to start receiving retirement benefits based on your individual and family circumstances. This letter gives you information to help you make this important decision. It also explains that the easiest way to apply is by going online at www.socialsecurity.gov/retireonline, our secure website.

Deciding When to Retire

Figuring out the best time to collect your retirement benefits is a personal decision. In some cases, the month you choose could mean higher benefits for you and your family.

Your full retirement age is 66. At full retirement age, you can start receiving unreduced benefits. You may also decide to wait until a later age. If you choose to delay receiving your benefits, your benefit will increase by 8 percent for each year you do not receive benefits up to age 70. Your benefits will no longer increase when you reach age 70.

Please see the enclosed fact sheet for more information to help you decide when to retire. You can also go to our Retirement Estimator at www.ssa.gov/estimator on the Internet.

When You Decide to Start Receiving Retirement Benefits

Once you decide on the best age to start collecting retirement benefits, you must file an application. After you apply we can decide if you qualify for benefits. You may apply for retirement benefits up to 3 months before the month you want your benefits to start.

Your Medicare premium amount of \$1,394.20 for medical insurance was not paid within the time limit. Therefore, your medical insurance coverage has stopped. Your last month of coverage is March 2012. Benefits will not be paid for any medical services you receive after your last month of coverage.

Information About Medicare

Your hospital insurance coverage will continue.

If you decide in the future that you would like to have medical insurance coverage again, you will have to wait until the next general enrollment period. A general enrollment period takes place in January, February, and March of each year and coverage would begin the following July.

The monthly premium for medical insurance may be 10 percent higher for each 12-month period in which you are eligible for medical insurance but do not have it.

You may also be able to enroll during a special enrollment period. You can do this if you meet all of the conditions listed below:

- Your health insurance coverage is under an employer's plan because you or your spouse is working, and
- You have had health insurance coverage under that plan since you became age 65.

You may enroll for Medicare medical insurance at any time you are covered under the group health plan. However, you may wait and enroll during the 8-month period that begins when the work ends or your coverage under the plan ends, whichever occurs first.

We will send you a new health insurance card. It will show that you are entitled to hospital insurance.

What Social Security Means To You

This *Social Security Statement* can help you plan for your financial future. It provides estimates of your Social Security benefits under current law and updates your latest reported earnings.

Please read this *Statement* carefully. If you see a mistake, please let us know. That's important because your benefits will be based on our record of your lifetime earnings. We recommend you keep a copy of your *Statement* with your financial records.

Social Security is for people of all ages...

We're more than a retirement program. Social Security also can provide benefits if you become disabled and help support your family after you die.

Work to build a secure future...

Social Security is the largest source of income for most elderly Americans today, but Social Security ~~was never intended to be your only source of~~ income when you retire. You also will need other savings, investments, pensions or retirement accounts to make sure you have enough money to live comfortably when you retire.

Saving and investing wisely are important not only for you and your family, but for the entire country. If you want to learn more about how and why to save, you should visit www.mymoney.gov, a federal government website dedicated to teaching all Americans the basics of financial management.

About Social Security's future...

Social Security is a compact between generations. Since 1935, America has kept the promise of

security for its workers and their families. Now, however, the Social Security system is facing serious financial problems, and action is needed soon to make sure the system will be sound when today's younger workers are ready for retirement.

Without changes, in 2033 the Social Security Trust Fund will be able to pay only about 75 cents for each dollar of scheduled benefits.* We need to resolve these issues soon to make sure Social Security continues to provide a foundation of protection for future generations.

Social Security on the Net...

Visit www.socialsecurity.gov on the Internet to learn more about Social Security. You can read publications, including *When To Start Receiving Retirement Benefits*; use our Retirement Estimator to obtain immediate and personalized estimates of future benefits; and when you're ready to apply for benefits, use our improved online application—It's so easy!

Michael J. Astrue
Commissioner

* These estimates are based on the intermediate assumptions from the Social Security Trustees' Annual Report to the Congress.
