Roshini Lakram
5235 NW Jake Ct
Port St. Lucie FL. 34986

Property Address: 715 Citrus Ave.
Case # 16-2209

To Whom It May Concern,

The following repairs are completed:

- Windows repaired or glazed
- Electrical permit pulled for kitchen outlets
- smoke detectors installed
- seal all cracks in walls
- place outlet covers
- sprayed for rat and insects

The only item not addressed was the structural permit need to combine to house. We searched our original closing documents in the hope of finding a diagram or plans of the house. With no luck. The building department has no plans on the house either.

The structure of the house is as is since it was purchased. We were hoping to find any documentation on this to keep the house in its existing floor plan.

After exhausting searches and going back and forth with building department, I have no choice to combine the house. It is taking a lot longer than expected. I have had several unexpected personal issues, that has delayed progress, which includes the death of my son. So, I am asking for a little more time to complete this final step.

Sincerely

Roshini Lakram
