In respond to the complaint that has been filed against the company "EE Construction & Renovation" with the city of Fort Pierce, we want to inform you that there were different reasons why the company hasn't finished the work.

Is because the company:

- Under estimate the value to perform the project
- Has to replace 50% of the plywood and to repair the damage beam by truss 2/8
- The owner did not want to collaborate and refused to deliver the money to finish the job.

After receiving the complaint letter from the city, the company has been taken action by using his own money and finish the job.
