Florida Department of Transportation  
District 4, Treasure Coast Operations  
Motor Carrier Department  
3601 Oleander Avenue  
Fort Pierce, FL 34982

Dear Mr. Kehres;

In connection with our conditional use approval in the City of Ft Pierce, we have been asked to provide a proposed commercial vehicle route from our metal recycling facility located at 3340 Enterprise Road in the City of Ft. Pierce.

Based on my conversation with St Lucie County Public Works staff, our customers will be encouraged to use the routes as indicated on the attached map. Therefore, please confirm the roadways on the attached diagram present the most efficient commercial vehicle route from US-1 and I-95 to the subject site. The intended routes are:

- 1. From I-95**, go east on Okeechobee Road to Virginia Avenue, turn right onto 125<sup>th</sup> Street S, right on Edwards Road, right onto Oleander to Bell St, right on Bell to Enterprise, then north to site.
- 2. From US-1**, west on Farmers Market Road, left on Oleander, right on Bell Road and right onto Enterprise Road ¼ mile to site.

Based on the information provided, please confirm the routes are sufficient for commercial vehicle traffic and provide the least impact to any residential neighborhoods.

If you have any questions, please contact me at your earliest convenience.

Regards,

**J. Frog.**
