

**David C. Baggett, P.E.**  
**Sr. Project Engineer**

**David Baggett** has 10 years of experience in civil engineering design, permitting, and construction across North, Central and South Florida. He has design experience with numerous municipal, commercial, industrial and residential projects across the various state water management districts.

Prior to joining EDC, he worked for the Florida Department of Environmental Protection (FDEP) as a lead permitting engineer and inspector in the Submerged Lands and Environmental Resource Program. In addition to civil engineering, Mr. Baggett has extensive experience as an environmental specialist in wetland and surface water delineation, soils, and ecology.

**Notable projects include:**

Tradition Master Planned Community: 2,500-acre master planned community in Port St. Lucie entailing planning, drainage design, utilities, permitting, earthwork, de-watering, and project estimating.

St. Lucie County DJ Wilcox Preserve Drainage Retrofit: Conversion of existing man-made lake to a regional water quality retrofit system with environmental restoration.

Martin County Right-of-Way Improvements at The Hammocks: Martin County roadway, utility, and drainage design serving a single-family residential neighborhood.
