Provides thorough and up-to-date information

Management:

Takes the initiative
A take charge type
Willing to take full responsibility

The following information provided by Mr. Anon was collaborated by his former boss at the City of Port St. Lucie.

Question 17 from the Mr. Amon’s Supplemental Questionnaire Should you become a finalist candidate, we will perform education, credit, civil, criminal, and motor vehicle court records, internet search and reference checks on you. In doing so, will we find anything that you need to explain in advance?

-No. However, TC Palm ran several articles of an old investigation of which I was not the subject of the investigation in Port St. Lucie. There was an ancillary allegation that I made a “term of endearment”, i.e., sweetie, which I denied. As a result, I was never the subject of an investigation and was never written up or discipline in any manner. I thought it died until I was seeking the City of Sebastian job when it re-surfaced. Again, as I told the TC Palm, I was not the subject, all was denied, and I was never discipline in any fashion [PERIOD]. In fact the current City of Port St. Lucie City Attorney, James Stokes, my old boss, corroborated that I was never discipline and in fact continued working with the city for over 1 -1/2 years until I left on my own.
