Subject: Ocean Village Clubhouse – 2400 S. Ocean Drive – TRC Comments & Conditions

Fort Pierce Planning Department

Comments & Conditions:

1. Per City Code Section 123.-6. – Required Bond., Provide a completion certification by the landscape architect, a landscape cost estimate sheet, and a security bond, certified deposit (CD), cashier's check or a certified check upon a solvent local bank conditioned to secure 100 percent of the supply and installation cost of the landscaping improvements required. **A Landscape Bond, Certification of Completion by a Certified Landscape Architect, and a Cost Estimate List must be provided prior to receiving Certificate of Occupancy.**
2. Please provide a color overlay of the proposed landscaping and consider more shade trees.
3. Please provide color elevations of the proposed clubhouse.

Fort Pierce Engineering Department

Please see the attached document from the Engineering Department

Fort Pierce Utility Authority

FPUA W/WW Engineering: The Proposed facility will require a grease trap because of the proposed kitchen. A transition sewer manhole will be required at FPUA's point of service on the service lateral.

Please submit 3 complete sets of utility construction plan along with a completed plan review and commercial service application to the Water and Wastewater Engineering Department located at 1701 S 37th Street Fort Pierce Florida for review. For more information please contact Lugey Dawson at 772 466 1600 ext. 3428.

FPUA Electric & Gas Engineering: Approved. Electric service is existing and available. Please provide electric load information for the new service and AutoCAD drawing. Customer will be responsible for all conduits (primary and secondary), transformer pad and secondary conductors. For more information and project coordination, please contact Sal Scimeca.

|--|---|------------------------------|
| <input checked="" type="checkbox"/> Recommend | <input type="checkbox"/> Do Not Recommend | |
| <input checked="" type="checkbox"/> Site Plan Approval | <input type="checkbox"/> Building Permit | <input type="checkbox"/> C/O |

Developer, Owner, Engineer, Contractor and other members of the Development Team must be aware, the above recommendation is based only on the construction requirements of the engineering plans and other engineering documentation approved by this department. The Development Team shall be responsible for the compliance with other City department requirements and all approved documents, as well as Local, State and Federal regulations. The development requirements for this project may necessitate additional construction requirements that are not subject to this department's review for approval.

- See attached for advisory comments

ENGINEERING ADVISORY COMMENTS:

1. The drainage plan was reviewed conceptually, and a thorough review of the plan will be conducted at time of Site Work Permit application.
2. Required permitting for the project may include South Florida Water Management District and Florida Department of Environmental Protection (NPDES Permit and CCCL General Permit).

hydrant from the closest point in the building shall not exceed 400 feet. 2) The maximum distance between fire hydrants shall not exceed 500 feet. NFPA 1:18.5.3. Please provide fire flow calculations for hydrants.

6. An approved water supply capable of supplying the required fire flow for fire protection (shall be) is identified to all premises upon which facilities, buildings, or portions of buildings which are to be constructed or moved into the jurisdiction. The approved water supply shall be in accordance with NFPA 1:18.4. See "Needed NFPA Fire Flow Calculator Spreadsheet".
7. Per NFPA 1114 Chapter 9, Section 1.3. Prior to the final occupancy of any building, the permitted water supply for fire protection, including fire hydrants and fire suppression systems, shall be installed, tested, and acceptable to the AHJ (SLCFD).
8. Be advised: Dimensions of largest vehicle are as follows: 38 tons or 77k lbs, 47.5 ft. total length, 21.5 ft. wheel base, 10.5 ft. total width, 41.5 degree turning radius.
9. Site Plans shall include all necessary fire department access roadways and fire lanes as determined by the Fire Marshal. At least 13 feet 6 inches nominal vertical clearance shall be provided and maintained over the full width of all means of access. Including, but not limited to trees, canopies, etc., as referred to in Exhibit "A," attached hereto.
Minimum roadway pavement width (two-way traffic) shall be twenty (20) feet.
Minimum roadway pavement width (one-way traffic) shall be twelve (12) feet.
10. Two-Way Radio Enhancement Systems/BDAS shall be installed, inspected and operationally tested in accordance with the manufacturer's published requirements, by the local fire department, and comply with the most current edition of the Florida Fire Prevention Code and its incorporated standards and codes. Pre-surveys of radio signal strength shall be submitted to the Fire Marshal in the form of heat signature mapping or a certification document of radio signal strength provided by a licensed engineer.
11. The Fire District reserves the right for future comments at the site plan & building construction phase.
