Images and drawings shown are for general illustrative purposes only and may not be an exact representation of the product. It is the responsibility of the building owner, contractor, installer, and design professional to determine applicable regulations, building codes, and accepted industry practices to verify the appropriateness of this product for a specific project. Oil canning is an inherent characteristic of light-gauge, cold-formed metal products and does not affect the integrity of panels. Talk to an EMF representative about striations, narrower panel widths and other options that can minimize oil canning.
