2021 STREET RESURFACING PROGRAM

PORTLAND, OREGON

Upcoming Projects

FY - 2021

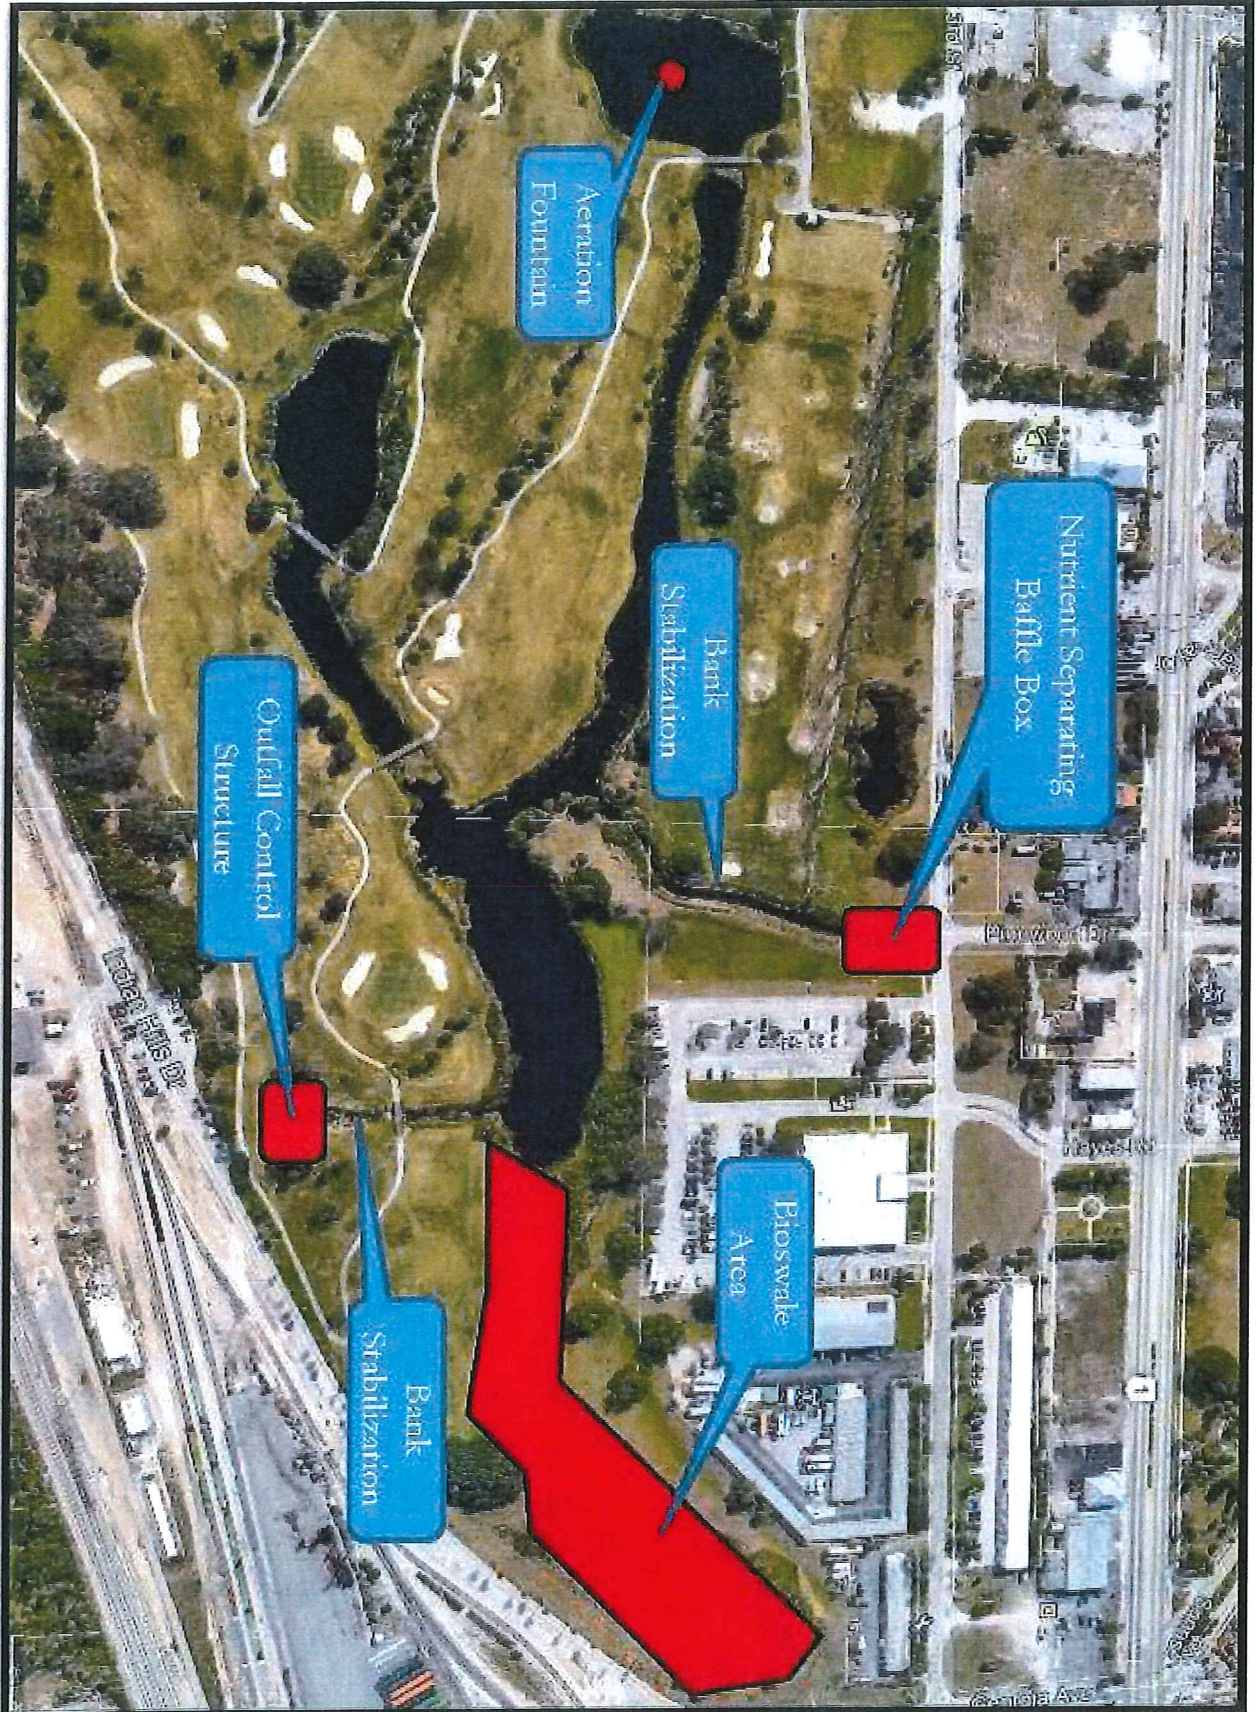

- **Stormwater Quality Projects:**

- **❖ Georgia Avenue Basin Improvements**

- Grant assisted project in which Surtax funding was used to leverage additional funding.
- Currently the 235 acre Georgia Avenue Basin, that receives runoff from a mixture of residential, commercial, and industrial parcels, drains through the Indian Hills Golf Course discharging directly into the Indian River Lagoon.
- The objective is to reduce pollutants generated by the various land uses
- A “Treatment Train” consisting of three “Best Management Practices” (BMP’s) are planned
 - Construction of bio-swale from inflow from the north
 - Construction of baffle box on inflow from the west
 - Placement of aeration fountain near southern inflow
 - Improvements will also construct an outfall structure to provide retention time in the main lake prior to discharge to the Indian River Lagoon

PROPOSED IMPROVEMENTS

Upcoming Projects

FY - 2021

- **Stormwater Quality Projects:**
 - ❖ **Georgia Avenue Basin Improvements**
 - STATUS
 - Grant awarded to City for \$1,188,000
 - Design contract awarded to Captec Engineering in the amount of \$143,000.00
 - 30% Design plans expected by end of June 2021.
