Subject: Animal Care and Control

Mayor -

I have to sing the praises of Animal Care and Control. Today Kim responded to a call I made about a dog that has been in the neighborhood loose (but with a collar) for at least two days. She ended up catching the dog and called to let me know that she did. She also told me the breed and all sorts of extra tidbits about it. It was obvious she is passionate about her job.

I imagine you might get most contact from citizens regarding complaints but, honestly, for all the absurdly large amount of dogs that end up loose in the neighborhood (I wish pet owners were more responsible), Animal Care and Control personnel are always responsive and usually successful at capturing all different sorts of temperaments.

Know they are doing a great job.

Regards,

Liesl Marelli
