Good Morning Selena,

Thank you for confirming. Please see the updated cost estimate below, created following the lighting layout in the attached plans.

Material: Conduit, handholes, cable, decorative poles, and fixtures - \$53,476.36

Labor: Trench work, conduit, handholes, cable, decorative poles, and fixture installation - \$25,897.57 (if the demo work is complete before FPUA commencing)

Total project cost: \$79,373.93

Please let me know if you have any questions or require any changes. If none, we will finalize a construction design plan internally.

Regards,

Thierry Sydne, E.I.

Good Afternoon Thierry!

Thank you for following up. Tracy and I discussed this earlier this morning, I just haven't had a chance to follow up yet.

To my knowledge, nothing has changed in the design so 19 lights is still the plan.

And yes, a revised/updated cost estimate is greatly appreciated.

Let me know if you need anything else

Good Afternoon Selena,

I spoke to Tracy yesterday, and she mentioned that Avenue B was moving along to the Commission. Please see the attached for previous correspondences.

Is 19 still the desired number of lights? I believe this number was determined from a staggered configuration with ~100 ft spacing between each light.

If so, I will provide an updated cost estimate for your reference.

Regards,

Thierry Sydne, E.I.
