14. **COMMENTS FROM THE PUBLIC**

Any person who wishes to comment on any subject may be heard at this time. Please limit your comments to three (3) minutes or less, as directed by the Mayor, as this section of the Agenda is limited to thirty minutes. The City Commission will not be able to take any official actions under Comments from the Public. Speakers will address the Mayor, Commissioners, and the Public with respect. Inappropriate language will not be tolerated.

15. **COMMENTS FROM THE CITY MANAGER**

a. Reports

16. **COMMENTS FROM THE COMMISSION**

17. **ADJOURNMENT**

Immediately following adjournment, please move toward the doors and exit the chambers. This allows for the safe and courteous exit of all persons, and those on the dais. Conversations after the meeting should be held outside of chambers, in the foyer or elsewhere, but not in the commission chambers where lights will be out as soon as the chambers are empty.

Pursuant to Sec. 2-49, Fort Pierce Code of Ordinances, persons desiring to place an item on the agenda may make written request to the city manager no later than 5:00 p.m. fifteen (15) days preceding the regular city commission meeting. Such request must state the subject matter of the individual's appearance and should include any background materials pertinent to the issue. The city manager shall review the request to determine if the item might be handled administratively or whether the subject matter is an item of city business. If appropriate, the city manager shall submit the item for placement on the agenda to the city clerk no later than 5:00 p.m. ten (10) days preceding the regular city commission meeting. The mayor may impose a time limitation of five (5) minutes, or allow such additional time he or she determines necessary and appropriate for such person to make presentation. All reports, communications, ordinances, resolutions, contracts, documents or other materials to be submitted to the commission shall, no later than 12:00 noon on Wednesday prior to each meeting, be delivered to the city clerk and furnish each member thereof with a copy of the same prior to the regular meeting.

Pursuant to Section 286.0105, Florida Statutes, the City hereby advises you that if you or another person decide to appeal any decision made by the City Commission with respect to any matter considered at its meeting or hearing, that you or said person will need a record of the proceedings, and that for such purpose, affected persons may need to insure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based. This notice does not constitute consent by the City for the introduction or admission into evidence of otherwise inadmissible or irrelevant evidence, nor does it authorize challenges or appeals not otherwise allowed by law.

In accordance with the Americans with Disabilities Act and Section 286.26, Florida Statutes, persons with disabilities needing special accommodation to participate in this meeting should contact the City Clerk’s Office at (772) 467-3065 at least 48 hours prior to the meeting.

Received
NOV 29 2022
City of Fort Pierce
City Manager's Office

City of Fort Pierce
100 North US Highway 1
Fort Pierce, FL 34950

Dear Audria,

I wanted to take a moment to thank you and the entire team from The City of Fort Pierce for your Kick-Off Sponsorship of Treasure Coast Food Banks 8th annual "Pack the House" event.

Together, with the help of more than five-hundred dedicated volunteers, we were able to pack 15,000 food boxes for families this holiday season who might not know where their next meal will come from.

These food boxes will be paired with a protein item (turkey, hams, or chickens) and fresh produce then distributed through our network of more than 400 partner agencies and mobile pantry program in Indian River, Martin, St. Lucie, and Okeechobee Counties.

Thank you again for all that you do to support our mission to end hunger here in the communities we serve and across the Treasure Coast.

Best Regards,

Gary Porter
Director of Community Relations
gporter@tcfoodbank.org

Thank You!!

Re: Agreement for Purchase and Development of Fisherman's Wharf between Pierce 1 Marina, LLC ("Pierce 1"), the City of Fort Pierce (the "City") and the Fort Pierce Redevelopment Agency ("FPRA") dated August 16, 2021

Dear Mr. Mimms:

As you know, this law firm represents Pierce 1 Marina, LLC with respect to the above referenced Agreement (the "Agreement"). Enclosed is a copy of Old Republic Title Insurance Commitment No. 21133524 (the "Title Commitment"), committing to ensure Pierce 1 with respect to the conveyance of land contemplated by the Agreement. PDF copies of all of the title documents referenced in the title commitment are included with a copy of this letter being sent to you via email. I am sending you this letter on behalf of Pierce 1 to provide you with written notice of title objections, in accordance with the requirements of Paragraph 6 of the Agreement. Pierce 1's title objections are as follows:

1. Schedule B-II, No. 7 references Deed No. 20808 by the Trustees of the Internal Improvement Fund of Florida recorded in Deed Book 196, Page 285. This deed contains a right of reverter stating that the Grantee or its successors and assigns "shall never sell or convey or lease the above-described land or any part thereof to any private person, firm or corporation for any private use or purpose, it being the intention of this restriction that the said land shall be used solely for public purposes."

The deed also states that any violation of this condition "shall render this deed null and void and the above-described lands, shall in such event, revert to the Grantors or their successors". A release of this right of reverter from the Trustees of the Internal Improvement Fund of the State of Florida, satisfactory to the title company, must be obtained by the City and recorded in the Public Records.

2. Schedule B-II, No. 18 references the Fisherman's Wharf Bulkhead Boat Ramp and Basin (Phase 1) Project Agreement recorded in Official Records Book 4131, Page 2060. This agreement states that the County received grant funding from FIND for bulkhead design and construction on the property. It also states that the City, County and FPRA agree to dedicate the property as "an outdoor recreation area for the use and benefit of the general public" for minimum period of 25 years. A release or termination of this agreement, satisfactory to the title company, must be obtained by the City and FPRA and recorded in the Public Records.

3. Pierce 1 will have their surveyor plot the various easements and other applicable documents referenced in the title commitment. Pierce 1 reserves the right to make additional objections to any title or survey defects revealed by the survey.

In addition to the foregoing title objections, the City and FPRA will be required to comply with all Schedule B-I requirements set forth in the title commitment, which require action by either the City or FPRA. These items will need to be satisfied at or before closing, to the satisfaction of the title company, in order for the City and FPRA to convey marketable fee simple title at closing to Pierce 1. Pierce 1 reserves the right to object to any such B-I requirements that are not satisfied at or before closing. In particular, I would like to bring the following item to your attention:

1. Schedule B-I No. 5 references a Lease Agreement (also referenced in Schedule B-II, No. 10) between the City of Fort Pierce and St. Lucie County for Veterans Memorial Park, which encumbers a portion of the property (the "Lease"). We have been provided with a copy of a letter dated October 24, 2008 from then City Manager David Recor to then County Administrator Doug Anderson, giving notice that this Lease would be terminated effective November 14, 2008, pursuant to the terms of the Lease, due to the County vacating the leased property. However, no documentation of the termination of this Lease was recorded in the Public Records. An authorized officer of the City will be required to sign an Affidavit at or before closing confirming that the Lease was terminated, to be recorded in the Public Records.

After you have had the opportunity to review the foregoing, if you have any questions, please contact me to discuss these items further. Thank you.

Best regards,

W. Lee Dobbins

FISHERMAN'S WHARF BULKHEAD BOAT RAMP AND BASIN (PHASE 1) PROJECT AGREEMENT

THIS PROJECT AGREEMENT is made and entered into this 19 day of December, 2017, by and between the **CITY OF FORT PIERCE**, a Florida municipal corporation (the "City") the **FORT PIERCE REDEVELOPMENT AGENCY** (the "Agency") and **ST. LUCIE COUNTY**, a political subdivision of the State of Florida (the "County).

STATEMENTS OF INTENT

WHEREAS, the City and the County entered into an Interlocal Agreement on November 17, 2015 providing for cooperation between the parties in the development of the Port of Fort Pierce; and,

WHEREAS, the November 17, 2015 Interlocal Agreement provides that the parties may enter into an agreement for a specific project and attach the project agreement as an amendment to the Interlocal Agreement; and,

WHEREAS, the State of Florida Department of Transportation ("FDOT") hired a consultant, TranSystems to develop a conceptual plan for the development of Fisherman's Wharf at the Port of Fort Pierce; and,

WHEREAS, TranSystems presented the Conceptual Plan including three options to the governing bodies of the City and the County on May 15, 2015; and,

WHEREAS, in December 2016 the County received funding from the Florida Inland Navigation District (FIND") to develop a bulkhead design and submit a dredging permit for the Fisherman's Wharf Drainage Basin the location of which is depicted in a map attached as Exhibit "A"; and,

WHEREAS, the County has initiated the bulkhead design and obtained an FDEP permit; and,

WHEREAS, the County has applied for and received a grant from FIND to construct the Project; and,

WHEREAS, the FIND grant conditions require the owners of parcels benefitting from the proposed Project to agree that the Project Site will be dedicated to public use for a minimum period of twenty-five (25) years from the completion of the project; and,

WHEREAS, the County, the City and the Agency own property that will benefit from the improvements; and,

WHEREAS, the City, the Agency and the County desire to enter into a Project Agreement to satisfy

the FIND grant conditions needed to construct the bulkhead and dredging improvements to the Fisherman's Wharf Basin (the "Project").

NOW, THEREFORE, in consideration of the mutual promises contained herein, the City and the County agrees as follows:

1. The City, the Agency and the County shall coordinate their efforts through their respective Project Managers. The County's Project Manager is Port Engineer Kyle Croce, P.E. at (772) 462-1491.

2. **CONSTRUCTION OF BULKHEAD AND DREDGING IMPROVEMENTS - COOPERATION AND GRANT CONDITIONS:**

   The parties agree to cooperate in the construction of bulkhead and dredging improvements at Fisherman's Wharf as depicted in Exhibit "A" as follows:

   a. The parties agree to comply with the site dedication requirement set out in Exhibit "B" within thirty (30) days after completion of the Project.

3. **SUBSEQUENT PHASES – IMPLEMENTATION OF THE CONCEPTUAL PLAN:**

   The parties agree to cooperate in implementing subsequent phases of the Conceptual Plan including future projects until completed.

4. **TERMINATION**

   Either party may terminate this Agreement without cause by giving ninety (90) days prior written notice to the other party. Termination of this Agreement shall not operate to terminate the site dedication referenced in Paragraph 2.

5. **WHOLE AGREEMENT**

   This Agreement embodies the whole understanding of the parties. There are no promises, terms, conditions or obligations other than those contained herein; and this Agreement shall supersede all previous communications, representations, or agreements, either verbal or written, between the parties hereto.

6. **AMENDMENTS**

   The Agreement may only be amended by a written document signed by all parties and filed with the Clerk of Circuit Court of St. Lucie County, Florida.

7. NOTICES

All notices, requests, consents, and other communications required or permitted under this Agreement shall be in writing and shall be (as elected by the person giving such notice) hand delivered by messenger or courier service, telecommunicated, or mailed by registered or certified mail (postage prepaid) return receipt requested, addressed to:

FLORIDA INLAND NAVIGATION DISTRICT

SITE DEDICATION - The PROJECT SPONSOR also agrees that the PROJECT site shall be dedicated for the public use for a minimum period of twenty-five (25) years prior to or immediately following completion of the PROJECT, such dedication to be in the form of a deed, lease, management agreement or other legally binding document. Any change in such dedication shall require the prior approval of the DISTRICT. The PROJECT SPONSOR shall record evidence of such dedication within the Public Records of the County in which the PROJECT is located.

Draft Language Site Dedication

The Property identified in the Project Agreement Project # _____ has been acquired or developed by the project sponsor with financial assistance provided by the Florida Inland Navigation District (FIND) in accordance with Program statues. Pursuant to requirements of that rule, land already owned and then developed or land acquired by the project sponsor with grant assistance shall be dedicated in an outdoor recreation area for the use and benefit of the general public. Leased land developed by the project sponsor with program assistance shall be dedicated as an outdoor recreation area for the general public for a minimum of twenty-five (25) years after completion of development. If the project sponsor should convert any part of the project area or the facilities thereon, whether acquired or developed with grant assistance, to other than FIND approved recreational uses, the project sponsor shall replace the area and facilities at its own expense with FIND approved project of comparable or greater scope and quality. In lieu of such replacement, FIND may require return of grant funds disbursed to the project sponsor.

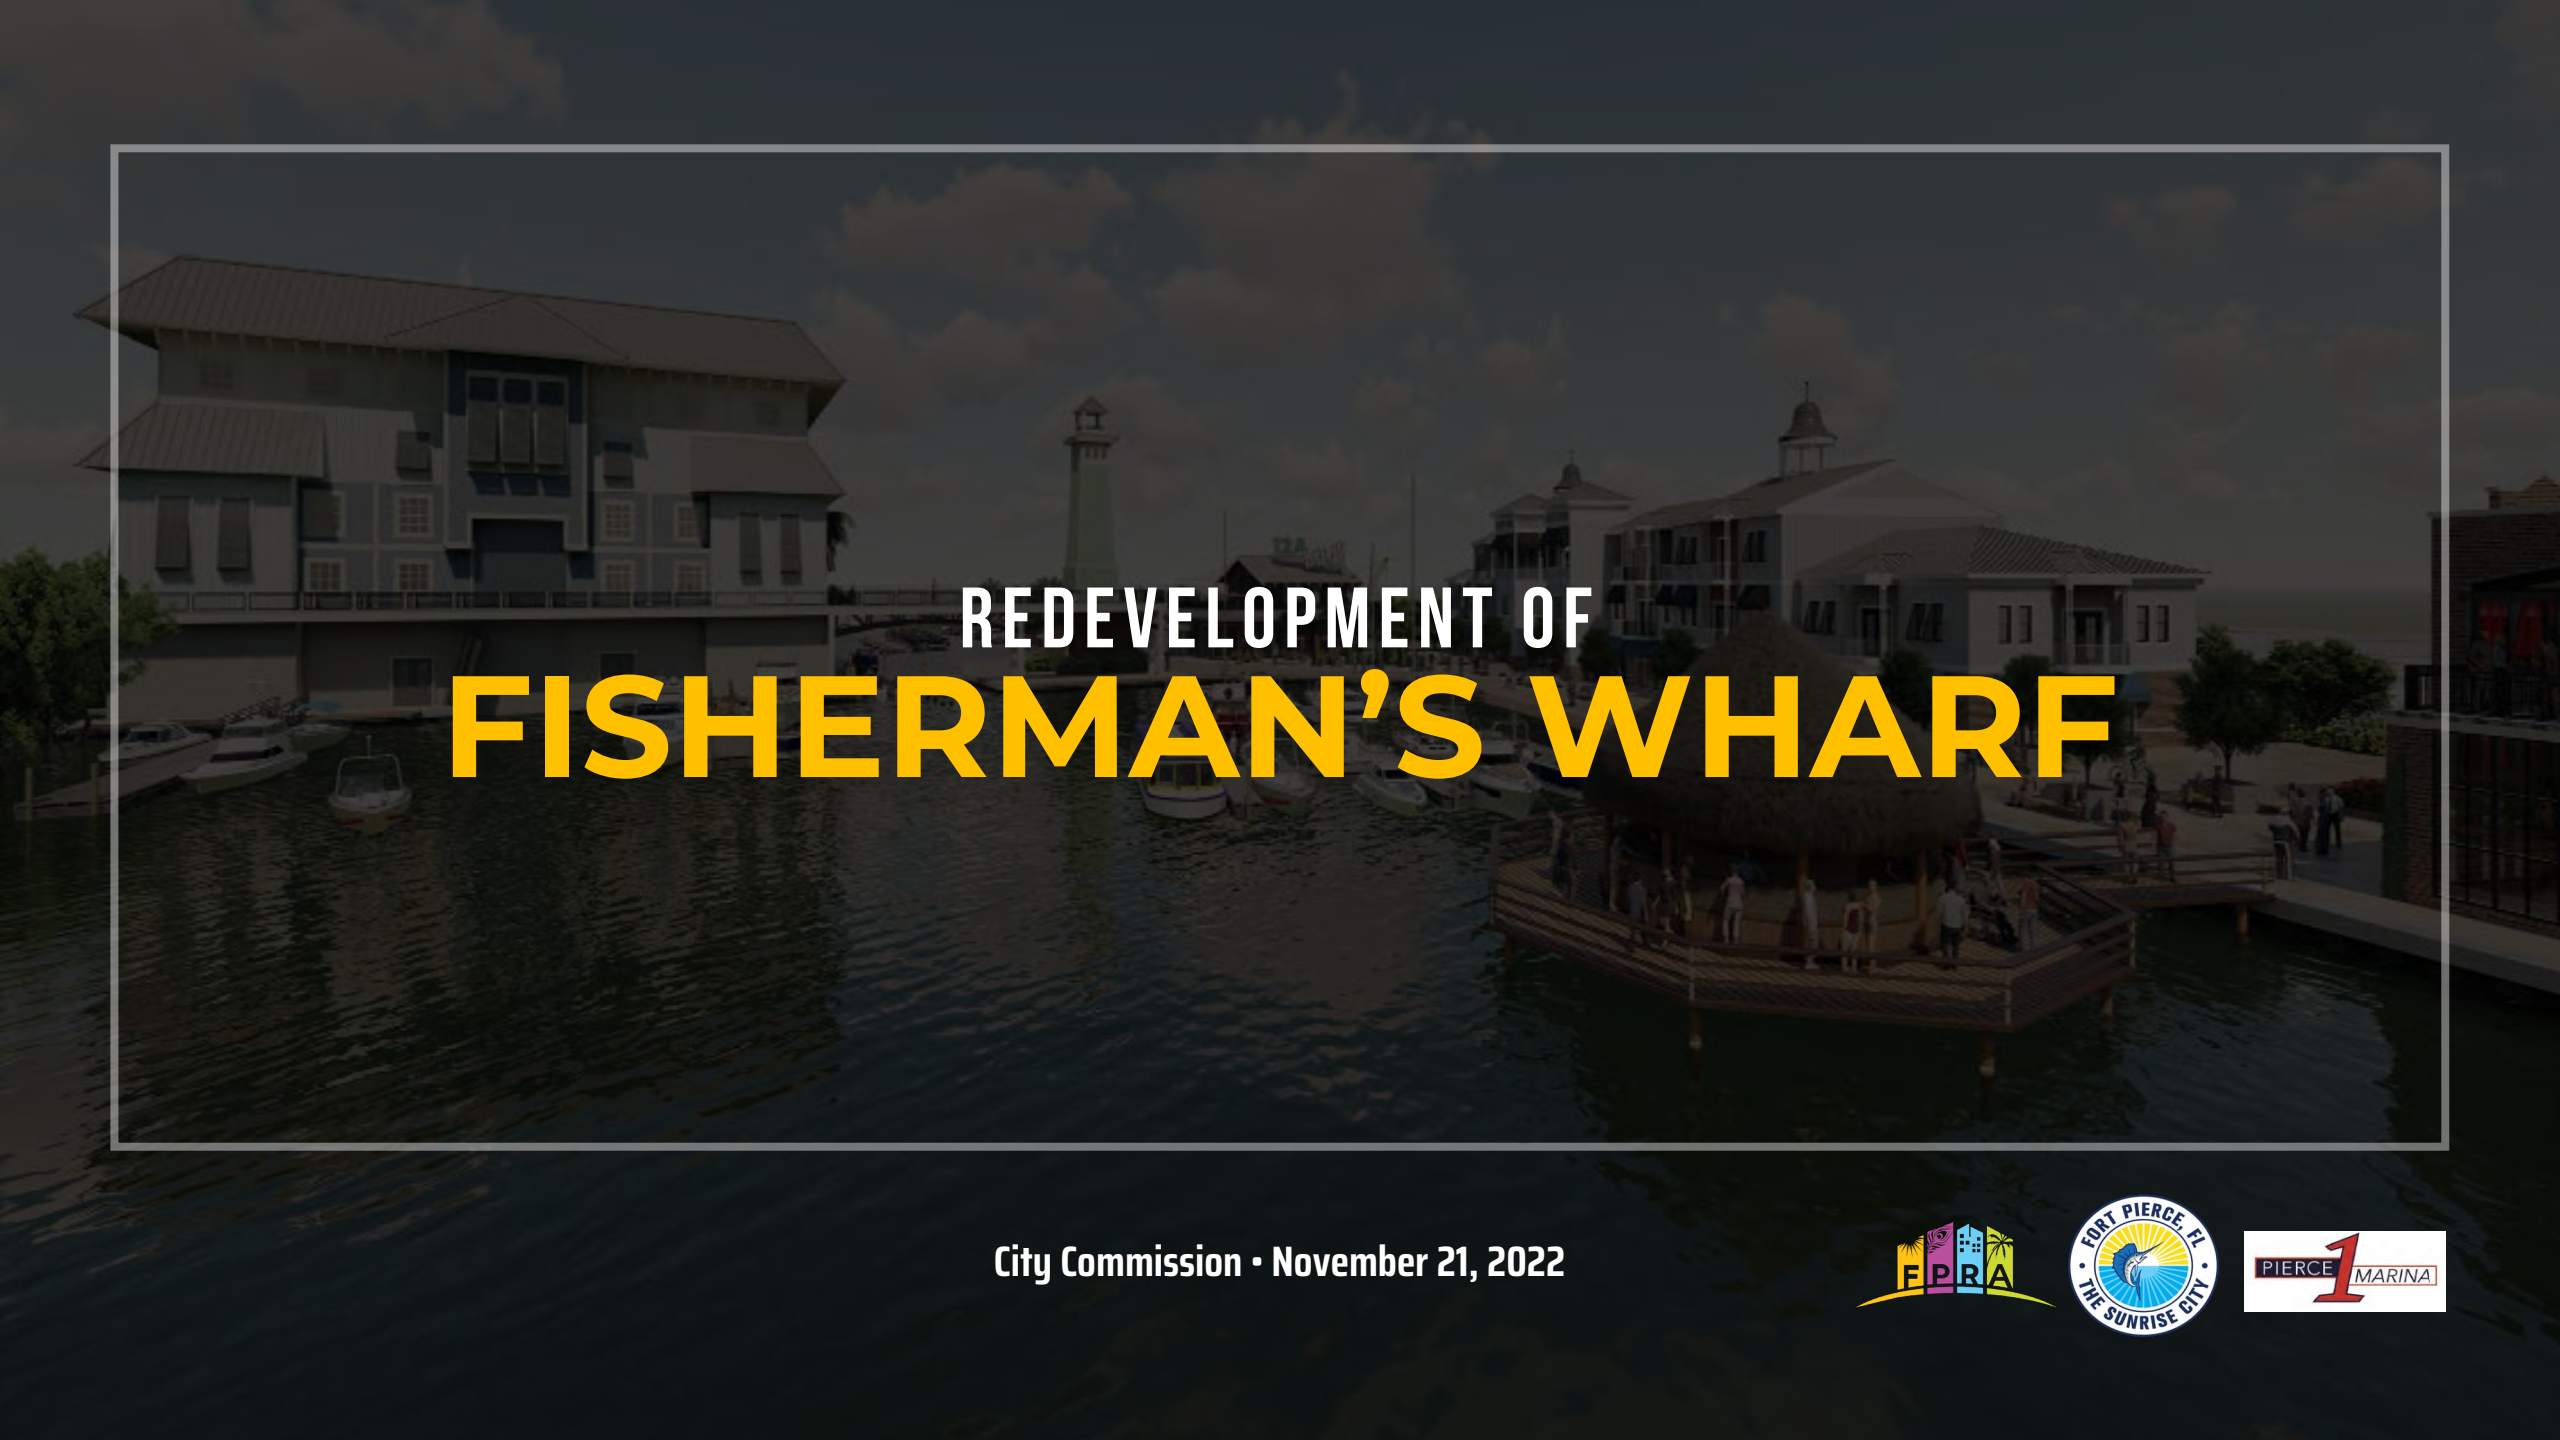

I certify that copies of the Notice of Limitation of Use/Site Dedication form, project agreement and project boundary map have been filed in the County Courthouse with the deed to the property on which the following grant is located:

REDEVELOPMENT OF
FISHERMAN'S WHARF

City Commission • November 21, 2022

Overview

- 3 parcels
- Approximately 3.2 acres
- Located at the southern end of the Port and acts as a buffer between the working port area and historic Downtown Fort Pierce.

Project Goals

Public Space/Waterfront: Create a unique place where people will want to visit and gather, in addition to shopping, dining, working and living. **Retaining waterfront accessibility to all residents and visitors and enhancing the waterfront for public use is a top priority.**

Economic Development: Achieve redevelopment of parcels that will **add to the tax base and stimulate the economic activity in the redevelopment area.**

Quality Design: Development will be of **high architectural quality and well-planned site design** for maximum efficiency while taking into consideration the surrounding parcels that are not included in this solicitation.

CRA Goals and Community Input: Development should bear in mind the goals outlined in the attached **CRA Plan** and feedback provided by the community in the attached Community Input Report.

Fisherman's Wharf Timeline

- Issued Request for Proposals for Redevelopment of Fisherman’s Wharf in June 2020.
- Executed Purchase and Development Agreement with Pierce 1 Marina on August 16, 2021.
- Subsequently executed two amendments extending the deadlines for the City to cure the title and survey objections.
- Deadline for City/FPRA to cure Title and Survey Objections: March 1, 2023

PUBLIC IMPROVEMENTS

- Enhanced public access to the waterfront
- Relocation / enhancement of public boat ramp
- ROW improvement of Fisherman's Wharf (street)
- Improved Public Parking

Public Access to Waterfront

Easement for Public Access. Pierce shall grant an easement giving public access through the Project to the waterfront, and along the Project's boardwalks, boat slips and marina basin. The location of such easement shall be set forth in the Site Plan and subject to review and approval by the City pursuant to the City's site plan review and approval process.

Pierce will obtain approval from the County and/or City, as needed for the **relocation of the existing boat ramp** (the "Boat Ramp") from the Property to a location outside of the Property. If Pierce does not terminate this Agreement as set forth in Paragraph 5.d below, then Pierce will be responsible for the entire cost to relocate the Boat Ramp and to repay the amount due to the Florida Inland Navigational District ("FIND") with respect to the grant for the existing Boat Ramp.

Second Amendment:
If the removal, discharge or cure of the Title Objection relating to the Fisherman's Wharf Bulkhead Boat Ramp and Basin (Phase 1) Project Agreement recorded in Official Records Book 4131, Page 2060 (the "Boat Ramp Agreement") requires any payment or contribution of land by Pierce, for the removal of the Boat Ramp Agreement as an encumbrance of the title to the Property or for the relocation of the boat ramp located thereon, then the value of such payment or contribution shall be subject to written approval by Pierce.

Title Objections

Trustees of the Internal Improvement Fund of Florida Reversionary Rights.

Fisherman’s Wharf Bulkhead Boat Ramp and Basin (Phase 1) Project Agreement and site dedication.

Fisherman’s Wharf Boat Ramp Agreement

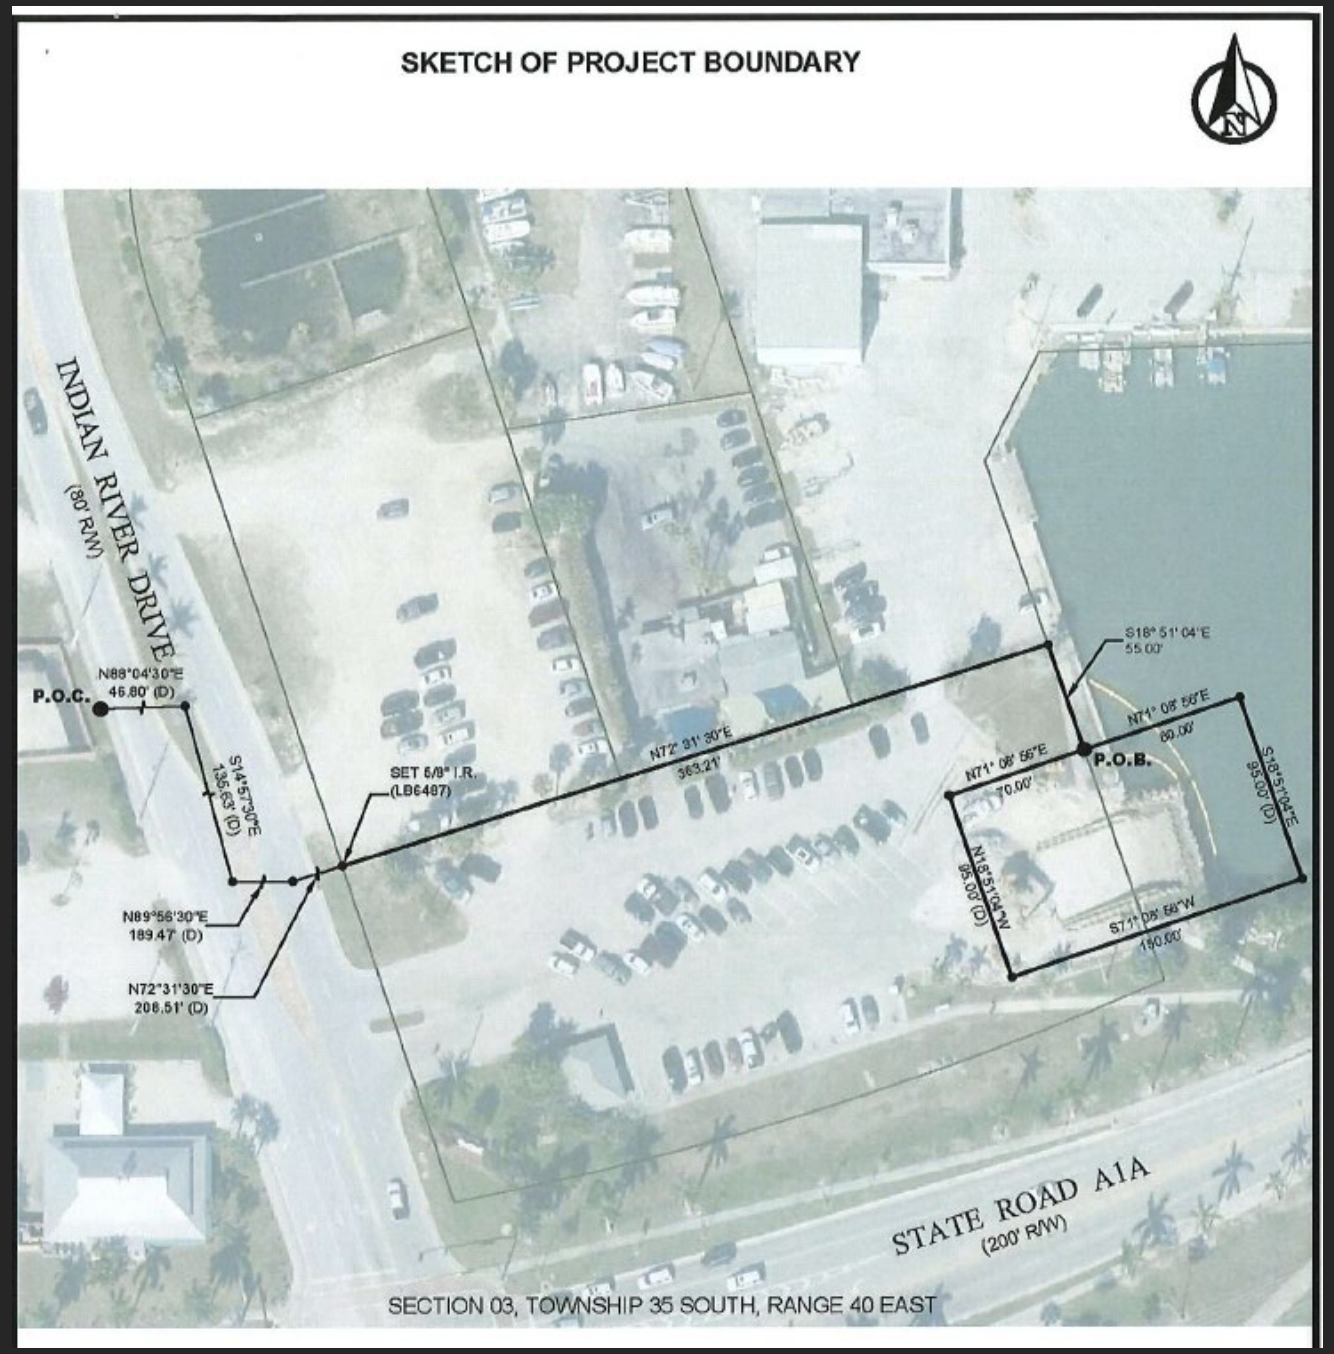

November 17, 2015

Interlocal Agreement to provide cooperation for development of Port of Fort Pierce

December 19, 2017

Fisherman’s Wharf Bulkhead Boat Ramp and Basin Project Agreement

March 29, 2022

Site Dedication executed to satisfy outstanding requirement from FIND Agreement.

Staff’s Recommendation

In order to cure title objections raised by the developer of Fisherman's Wharf, staff recommends the termination of the Fisherman's Wharf Bulkhead Boat Ramp and Basin (Phase I) Project Agreement.

Re: Purchase Approval for CentralSquare Annual Software Renewal

Submitted For: Devoshay Johnson, IT Manager, Information Technology

---

SUBJECT:

Approval of annual renewal of software maintenance and support for CentralSquare in the amount not to exceed $99,135.68.

SUMMARY:

Annual renewal of software maintenance and support.

RECOMMENDATION:

Approve CentralSquare Annual Maintenance fee in the amount not to exceed $99,135.68.

ALTERNATIVES:

Do not approve.

Renewal Order Total: 99,135.68 USD

Billing Information

Fees will be payable within 30 days of invoicing.

Please note that the Unit Price shown above has been rounded to the nearest two decimal places for display purposes only. The actual price may include as many as five decimal places. For example, an actual price of $21.37656 will be shown as a Unit Price of $21.38. The Total for this quote has been calculated using the actual prices for the product and/or service, rather than the Unit Price displayed above.

Prices shown do not include any taxes that may apply. Any such taxes are the responsibility of the Customer. This is not an invoice.

For customers based in the United States or Canada, any applicable taxes will be determined based on the laws and regulations of the taxing authority(ies) governing the "Ship To" location provided by Customer on the Renewal Order Form.

DATE: NOVEMBER 17, 2022

Service Required: (please circle or underline)

Review Documents | **Draft Document** | **Written Opinion Requested**

Attend Meetings | **Advise** | **Other:** _____

Upon review and/or "Approval as to Form and Correctness," the Department submitting the RLS is responsible for placement of any related item on a Commission or Board Agenda.

1. **Brief statement of the nature of the request or problem:** (Provide description of the issue and what is being requested of the City Attorney's office.) Review of Specific Authorization No 5 to RFQ No. 2016-014 as to form and correctness

2. **Discussion of the implications and the possible impact if not apparent from preceding information:** (Discuss any issues related to the underlying matter to assist with the City Attorney's analysis.)

3. **Time considerations and their significance:** (Note any deadlines, internal or external, that may affect the timeline for completion of the RLS, or may otherwise be pertinent.) We will be placing this item on the Commission Agenda for the meeting of December 19, 2022, pending approval of City Attorney.

4. **Are City funds required? If so, list approvals obtained for expenditure of funds:** (e.g., purchasing approval, Commission Approval at [date] Regular Meeting, finance approval.) Yes, funding will becoming from the Park's MSTU account.

5. **Factual background:** (Outline the facts related to the underlying matter to provide context for the request.)

    - City Attorney's office has reviewed previous authorizations
    - Tetra Tech was chosen for this design work and permitting because of their familiarity with the marina and permitting requirements with FDEP and the Army Corp.

6. **List and/or attach all related documents and known authorities (e.g., statute, ordinance, resolution, administrative code, legal case, RFP, bidder's response, contract, lease, letter, memorandum, prior legal opinion, deed, etc.):** (Requestor should investigate the issue and gather all documents/information pertaining to the matter from any other related departments *prior* to submitting the request to this office)**:**

    - RFQ No. 2016-014.

7. **Identify prior legal assistance on this or a related matter and the attorney who handled it:**

    City Attorney's office

8. **If this is a request for review of a contract, provide the following:**

    List of individuals who have read and approved the business terms and conditions of the contract and confirmed the ability to carry out the terms of the contract as they apply to the City Jack Andrews and Ed Seissiger have reviewed the document.

    a. **Insurance requirements that differ from the City's template insurance terms:** (The department should consult with the Risk Manager for each contract to determine whether there are any special insurance requirements.) Contractor's Insurance is on file with Purchasing

RFQ 2016-014 ADDITIONAL SERVICES

SPECIFIC AUTHORIZATION
No. 5

Pursuant to the provisions contained in the "Agreement for Professional Engineering Services" between the City of Fort Pierce (hereinafter referred to as "CITY") and Tetra Tech Inc. (Hereinafter referred to as "ENGINEER") dated Nov. 8, 2016 , authorizes the ENGINEER to provide services under the terms and conditions set forth herein and in the AGREEMENT, which is incorporated herein by reference as though set forth in full.

The CITY desires engineering additional services related to, hereinafter referred to as the "Project".

This Project is____ is not **X** an FDOT funded project.

Section 1 - Scope of Work

The scope of work (SOW) described herein was prepared in response to your request for engineering and environmental consulting for a sea plane base to be located adjacent to the City Marina.

TASK 1. Benthic Resource Survey
ENGINEER will perform a benthic survey for any submerged aquatic resources in the vicinity of the proposed ramp location. ENGINEER will prepare a report in support of the ERP application to state and federal agencies.

TASK 2. ERP Application Preparation and Processing
ENGINEER will prepare and submit an application to FDEP for an Environmental Resources Permit along with a CWA 404 and Section 10 Rivers and Harbors Act permit from the Corp of Engineers. Permit processing will require coordination with USACEs federal partners including NMFS Protected Resources Division and Habitat Conservation Division, and USFWS. ENGINEER will respond to 2 rounds of requests for information from each of the agencies. If the submerged lands under the ramp are not owned by the City, a lease will be needed. ENGINEER will coordinate with FDEP to secure the needed lease.

TASK 3. Topographic & Boundary Survey
ENGINEER will work with BSM & Associates to provide the following surveying scope of services:

Topographical Survey:

1. Prepare survey calculation file and field package information
2. Locate and establish horizontal control (State Plane Coordinates NAD 83 2011 Adjustment)
3. Set 2 on site benchmarks on North American Vertical Datum of 1988 (NAVD88)
4. Locate and Establish the Mean High-Water Line

5. Elevations to be collected no more than 50' apart and to extend 100' outside of proposed uplands improvements
6. Bathymetric Survey Data to be collected 100' waterward from the MHWL, extending 200' northerly and southerly of the proposed ramp
7. Location of all above ground improvements within 100' of the proposed improvements
8. Prepare a Topographic Survey in accordance with the guidelines established in Chapter 5J-17.052, pursuant to Chapter 472.027 of the Florida Statues.
9. Provide 3 certified paper copies of the Survey on 24 x 36
10. Provide digital electronic drawing in CAD and PDF format

Boundary Survey:

1. Prepare a Boundary Survey in accordance with the guidelines established in Chapter 5J-17.052, pursuant to Chapter 472.027 of the Florida Statues
2. Boundary Survey estimate does not include the location of all Interior Improvements
3. Provide 3 certified paper copies of the Survey on 24 x 36
4. Provide digital electronic drawing in CAD and PDF format

Task 4- Geotechnical Investigation

ENGINEER will work with Andersen Andre Consulting Engineers, Inc. (AACE) to provide the following Geotechnical Engineering scope of services:

1. Two (2) Standard Penetration Test (SPT) borings [ASTM D1586] to depths of about 50 feet below the existing ground surface.
2. Five (5) auger borings [ASTM D1452] to depths of about 7-10 feet below the existing ground surface.
3. Two (2) 6-ft deep exfiltration tests [SFWMD ERPIM] and Two (2) Double-Ring Infiltrometer (DRI) tests [ASTM D3385] are proposed herein.

AACE's project engineer will perform visual classification on the recovered samples and will coordinate a suitable laboratory testing program of select samples. Laboratory testing may include grain size, Atterberg limits, organic content, moisture content, etc.

AACE will perform engineering analysis of all data obtained to evaluate general subsurface conditions and to develop engineering recommendations to guide site preparation procedures, sheet pile design, pavement and drainage design, and any other pertinent geotechnical engineering aspects of the project.
The recommendations will be presented in a written report upon conclusion of the study, along with all data developed during the exploration and laboratory testing.

Task 5- Conceptual Engineering Design (30 Percent)

Tetra Tech will develop a conceptual engineering design based upon the Proposed Seaplane Terminal site plan, dated Oct. 2018 and provided by the City. The engineering design will include the following:

1. Site plan on existing topography/boundary survey
2. Conceptual Paving & Grading plan
3. Conceptual drainage design, and conceptual surface water management calculations
4. Preliminary utility coordination via Sunshine 811
5. Profile grade line of seaplane ramp

6. Preliminary site features including a boat/seaplane ramp, a seaplane parking area on pervious pavers, and a cul de sac .

7. Preliminary engineering will incorporate geometry, dimensions, and considerations presented in the USDOT FAA Advisory Circular for guidance on planning, designing, and constructing seaplane bases and associated facilities.

Deliverables for this task will be a PDF set of 30% design plans that will be submitted with the ERP permit application.

Assumptions for the Conceptual Site Plan

1. The site will be permitted to treat for water quality and discharge to either an existing stormwater management system or tide
2. No docks are proposed
3. Seaplanes will be able to drive up the ramp unaided by "haul out" land vehicles
4. Site Plan will be designed to accommodate 4 parked seaplanes
5. City will provide maximum seaplane dimensions (wingspan & seaplane length) that proposed site plan will accommodate
6. No fueling facilities are proposed
7. City will provide Tetra Tech with set back and landscape requirements for this project
8. No vehicle parking or handicap parking is required within the site plan
9. Proposed entrance cul de sac will be conceptually designed with a turning radius to accommodate firetrucks

Section 2 Deliverables:

1. Task 1 – Report of Benthic Resource Survey
2. Task 2 – Permit applications
3. Task 3 – Copies of topographical and boundary surveys
4. Task 4 – Copy of Geotechnical Report
5. Task 5 – Deliverables for this task will be a PDF set of 30% design plans that will be submitted with the ERP permit application.

Section 3 - Time of Performance

Execution of this AGREEMENT shall constitute Notice to Proceed (NTP). ENGINEER and CITY agree to the following schedule:

We will prepare a schedule of activities within 7 days of NTP. Pre-application and stake holder meetings would occur within 10 days of NTP. It is expected that we would begin field data collection with 3 weeks of the NTP.

Section 4 - Method and Amount of Compensation

4.1 CITY will compensate ENGINEER for services under this AGREEMENT in accordance with the payment method as set forth in Section 6 of the AGREEMENT.

4.2 ENGINEER is proposing to perform the above scope of work on a time and materials basis based on the rates listed in the appendix of this proposal.
The following estimated budgets are proposed for each task:

- TASK 1- Benthic Resource Survey- $3,936
- TASK 2- ERP Application Submittal and Processing- $21,482
- TASK 3- Topographic and Boundary Survey- $16,157
- TASK 4- Geotechnical Investigation- $11.042
- TASK 5- Conceptual Engineering Design (30 percent)- $25,608

Total Estimated Cost- $78,225

Section 5 - CITY's Responsibilities

CITY hereby designates City Engineer or designee as CITY's representative pursuant to Section 5 of the AGREEMENT.

Section 6 - Other Provisions

All applicable portions of the AGREEMENT not specifically modified herein shall remain in full force and effect and are incorporated by reference.

IN WITNESS WHEREOF, this AGREEMENT, consisting of four pages, has been fully executed on behalf of the ENGINEER by its duly authorized officer, and the CITY has the same to be duly executed in its name and in its behalf, effective as of the date herein above written.

Professional Services Agreement

FOR

Marina Permit Performance & Ecological Monitoring

RFQ No. 2016-014

Prepared by:

The City of Fort Pierce Department of Engineering
John R. Andrews, P.E., City Engineer
P.O. Box 1480
Ft. Pierce, FL 34954
(772) 467-3773

SERVICES AGREEMENT

This Agreement between City and Contractor ("Agreement") is made and entered into by and between the City of Fort Pierce, Florida, a municipal corporation ("City"), and Tetra Tech, Inc., a Delaware Corporation with its principal place of business at 759 South Federal Hwy, Suite 314 Stuart, FL. 34994 ("Contractor").

City and Contractor hereby agree as follows:

1. **Contractor Services.**

Contractor will provide the services as set forth in **Exhibit A**, Statement of Work included in RFQ No. 2016-014, attached hereto and incorporated for all purposes ("the Services"), to the satisfaction of City.

2. **Compensation.**

Total compensation to Contractor will not exceed "five hundred seventy six thousand nine hundred and thirty nine dollars" ($576,939.00) for the initial term of the Agreement, which includes all travel and expenses. Payment for services performed will be processed within thirty (30) days of receipt and approval of invoice and in accordance with the Florida Prompt Payment Act, Florida Statutes Section 218.70-79.

Upon completion of the Services and acceptance by City, Contractor will submit an invoice setting forth amounts due to Contractor. Each invoice will be accompanied by documentation that City may reasonably request to support the invoice amount. City will, within thirty (30) days from the date it receives an invoice and supporting documentation, approve or disapprove the amount reflected in the invoice. If City approves the amount or any portion of the amount, City will promptly pay to Contractor the amount approved so long as Contractor is not in default under this Agreement. If City disapproves any invoice amount, City will give Contractor specific reasons for its disapproval in writing. Contractor will submit invoices to City as follows:

City of Fort Pierce
Engineering Dept.
Attn: Ed Seissiger
100 N. US Hwy 1
Fort Pierce, FL. 34950

3. **Term.**

This Agreement is effective as of the date last signed below ("Effective Date") and will terminate on September 30, 2019 unless earlier terminated in accordance with Section 9.

4. **Licenses, Permits, Taxes, Fees, Laws and Regulations.**

4.1 Contractor warrants that it will obtain, maintain in effect, and pay the cost for all licenses, permits, or certifications that may be necessary for Contractor's

performance of this Agreement.

4.2 Contractor will be responsible for the payment of all taxes, excises, fees, payroll deductions, employee benefits (if any), fines, penalties or other payments required by federal, state, or local law or regulation in connection with Contractor's performance of this Agreement.

4.3 Contractor will comply with, and will be responsible for requiring its officers and employees to comply with, all applicable federal, state, and local laws and regulations.

5. Ownership and Use of Work Material.

5.1 All drawings, specifications, plans, computations, sketches, data, records, photographs, tapes, renderings, models, publications, statements, accounts, reports, studies, and other materials prepared by Contractor or any Contractor's subcontractors in connection with the Services (collectively, "Work Material"), whether or not accepted or rejected by City, are the sole property of City and for its exclusive use and reuse at any time without further compensation and without any restrictions.

5.2 Contractor grants and assigns to City all rights and claims of whatever nature and whether now or hereafter arising in and to the Work Material.

5.3 Contractor will deliver all Work Material to City upon expiration or termination of this Agreement. City will have the right to use the Work Material for the completion of the Services or otherwise. City may, at all times, retain the originals of the Work Material.

5.4 The Work Material will not be used or published by Contractor or any other party unless expressly authorized by City in writing. Contractor will treat all Work Material as confidential.

6. Confidentiality and Safeguarding of City Records; Press Releases.

6.1 Contractor shall not disclose, publish, or authorize others to disclose or publish, Work Material or other information pertaining to the Services assigned to Contractor by City or other information to which Contractor has had access during the term of this Agreement without the prior written approval of the City Attorney.

6.2 **Advertising.** Contractor will not make any press releases, public statements, or advertisement referring to the services or the engagement of Contractor as an independent Contractor of City in connection with the Agreement, or release any information relative to the Agreement for publication, advertisement or any other purpose without the prior written approval of City.

6.3 **Duration.** The restrictions and obligations under this Section will survive expiration or termination of this Agreement for any reason.

7. Public Records.

7.1 City strictly adheres to all statutes, court decisions and the opinions of the Florida Attorney General with respect to disclosure of public information under Chapter 119, Florida Statutes. In accordance with Chapter 119, Florida Statutes, Contractor shall comply with all public records laws, specifically to:

7.1.1 Keep and maintain public records required by City to perform the service.

7.1.2 Upon request from City's custodian of public records, provide City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

7.1.3 Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if Contractor does not transfer the records to City.

7.1.4 Upon completion of the contract, transfer, at no cost, to City all public records in possession of Contractor or keep and maintain public records required by City to perform the service. If Contractor transfers all public records to City upon completion of the contract, Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If Contractor keeps and maintains public records upon completion of the contract, Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to City, upon request from City's custodian of public records, in a format that is compatible with the information technology systems of City.

7.6 IF CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS THROUGH THE CITY CLERK AT 772-467-3065, lcox@City-ftpierce.com, 100 North U.S. 1, Fort Pierce, FL 34950.

8. **Independent Contractor.**

For all purposes of this Agreement and notwithstanding any provision of this Agreement to the contrary, Contractor is an independent Contractor and is not a state employee, partner, joint venturer, or agent of City. Contractor will not bind nor attempt to bind City to any agreement or contract. As an independent Contractor, Contractor is solely responsible for all taxes, withholdings, and other statutory or contractual obligations of any sort, including but not limited to workers' compensation insurance.

9. **Termination.**

9.1 If either party is in default of performance of any material obligation under this Agreement, the party that is not in default may give written notice of the default to the other party and if the party notified fails to correct the default within thirty (30) days or within such period fails to satisfy the party giving notice that the default does not exist, the party giving notice may terminate this Agreement upon expiration of the thirty (30) day period.

9.2 City may terminate this Agreement immediately in the event of the filing by or against Contractor of a petition for relief in bankruptcy or for receivership, or in the event that Contractor becomes insolvent.

9.3 The termination of this Agreement will not affect any right or remedy that has accrued to either party at the time of termination.

9.4 Upon termination of this Agreement, Contractor will deliver to the appropriate representative of City all Work Material related to the services performed by Contractor in the format requested by the City together with any keys, identification badges, or equipment owned by City.

9.5 Termination under Sections 9.1 or 9.6 will not relieve Contractor from liability for any default or breach under this Agreement or any other act or omission of Contractor.

9.6 City may terminate this Agreement, without cause, upon written notice to Contractor. At such time, Contractor will be compensated only for that work which has been satisfactorily competed to the date of termination. No compensation shall be paid for de-mobilization, take-down, disengagement wind-down or other costs incurred due to termination of this Agreement.

10. **Indemnification.**

Contractor will indemnify and hold harmless City, and its members, officials, officers, attorneys, employees, representatives and agents from all claims, demands, causes of action, and judgments for taxes, license fees, excises, fines, and penalties; for supplies, services, or merchandise purchased by Contractor; for wages and fringe benefits of Contractor's employees; and for injury or death of any person or damage to property that result directly or indirectly from the negligent or intentional acts or omissions of Contractor or its officers, agents, or employees in the performance of this Agreement.

11. **Insurance.**

11.1 Contractor shall, at its own expense, procure and maintain, with insurers acceptable to City, the types and amounts of insurance conforming to the minimum requirements set forth herein. Contractor shall not commence work until the required insurance is in force and evidence of insurance acceptable to City has been provided to and approved by City.

11.2 As evidence of compliance with the insurance required herein, Contractor shall furnish City with (a) a fully completed satisfactory Certificate of Insurance

(ACORD Form 25 or equivalent) evidencing all coverage required herein, with a copy of the actual notice of cancellation endorsement(s) as issued on the policy(ies) and a copy of the actual additional insured endorsement as issued on the Commercial General Liability policy, signed by an authorized representative of the insurer(s) verifying inclusion of City and its members, officials, officers and employees as Additional Insureds as Additional Insureds in the Commercial General Liability coverage; (b) the original of the policy(ies); or (c) other evidence satisfactory to City. Such evidence shall include thirty (30) days written notice of cancellation to City for all coverage.

11.3 To the extent Contractor is permitted to and elects to subcontract any of the work performed under this Agreement, Contractor will require all subContractors to provide insurance coverage complying with the requirements set forth herein and will provide City with evidence of such coverage prior to the commencement of the subContractor's work.

11.4 Until such insurance is no longer required by this Agreement, Contractor shall provide City with renewal or replacement evidence of insurance at least thirty (30) days prior to the expiration or termination of such insurance.

11.5 **Workers' Compensation/Employers' Liability.**

Such insurance shall be no more restrictive than that provided by the Standard Workers' Compensation Policy, as filed for use in Florida by the National Council on Compensation Insurance, without restrictive endorsements other than any endorsements required by NCCI or the State of Florida. In addition to coverage for the Florida Workers' Compensation Act, where appropriate, coverage is to be included for the Federal Employer's Liability Act and any other applicable Federal or State law. The policy shall also be endorsed to include NCCI endorsement WC 00 02 01A, **"Maritime Coverage Endorsement"** or its equivalent.

The policy must be endorsed to waive the insurer's right to subrogate against the City, and its members, officials, officers and employees in the manner which would result from the attachment of the NCCI Waiver Of Our Right To Recover From Others Endorsement (Advisory Form WC 00 03 13) with City, and its officials, officers and employees scheduled thereon or a blanket endorsement providing the waiver in the same manner as outlined in the Advisory Form WC 00 03 13.

The minimum amount of coverage (inclusive of any amount provided by an umbrella or excess policy) shall be:

Part One:	"Statutory"	
Part Two:	$1,000,000	(Each Accident)
	$1,000,000	(Disease-Policy Limit)
	$1,000,000	(Disease-Each Employee)

11.6 **Commercial General Liability.**

Such insurance shall be substantially equivalent to that provided by latest version of standard Commercial General Liability Form (ISO Form CG 00 01) as

filed for use in the State of Florida by the "Insurance Services Office (ISO) without any restrictive endorsements and acceptable to the City.
The City and its members, officials, officers and employees shall be included as an "Additional Insured" on a form no more restrictive than ISO Form CG 2010 (Additional Insured - Owners, Lessees, or CONTRACTORs).
The Policy must be endorsed to provide City with 30 days prior written notice of cancellation.
The minimum limits (inclusive of amounts provided by an umbrella or excess policy) shall be:

General Aggregate	$1,000,000
Products/Completed Operations Aggregate	$1,000,000
Personal and Advertising Injury	$1,000,000
Each Occurrence	$1,000,000
Fire Damage (any one fire)	$Nil
Medical Expense (any one person)	$Nil

11.7 **Automobile Liability.**
Such insurance shall be no more restrictive than that provided by Section II (Liability Coverage) of the most recent version of standard Business Auto Policy (ISO Form CA 00 01) without any restrictive endorsements, including coverage for liability contractually assumed, and shall cover all owned, non-owned, and hired autos used in connection with the performance of the work.

Such insurance shall not be subject to any aggregate limit and the minimum limits (inclusive of any amounts provided by an umbrella or excess policy) shall be:

Each Occurrence Bodily Injury
and Property Damage Liability Combined $1,000,000

11.8 **Watercraft Liability.**
To the extent watercraft are utilized in the performance of the services required in the agreement, Contractor shall purchase and maintain, or cause its subContractors to purchase and maintain, insurance which shall, at minimum, cover Contractor and subContractors for injuries or damage arising out of use of all owned, non-owned and hired watercraft.
The insurance shall include City and tis members, officials, officers and employees as additional insureds.
The Policy must be endorsed to provide City with 30 days prior written notice of cancellation.
The limits applicable to watercraft liability (inclusive of any amounts provided by an umbrella or excess policy) shall be:

Each Occurrence/Annual Aggregate $1,000,000

11.9 **Professional Liability Insurance.**
Such insurance shall be on a form acceptable to City and shall Contractor for those sources of liability arising out of the rendering or failure to render professional services in the performance of the services required in the

agreement, including any hold harmless and/or indemnification agreement. Coverage must either be on an occurrence basis; or, if on a claims made basis, the coverage must respond to all claims within (3) three years following the period for which coverage is required and which would have been covered had coverage been on an occurrence basis.

The policy must be endorsed to provide City with (30) thirty days written notice of cancellation.

The minimum limits (inclusive of any amounts provided by an umbrella or excess policy) shall be:

Each Claim/Occurrence	$1,000,000
Annual Aggregate	$1,000,000

11.10 **General Conditions.**

The insurance provided by Contractor shall apply on a primary basis to and shall not require contribution from, any other insurance or self-insurance maintained by City or City's members, officials, officers or employees. Any insurance, or self-insurance, maintained by City shall be in excess of, and shall not contribute with, the insurance provided by Contractor.

Except as otherwise specifically authorized in this Agreement, or for which prior written approval has been obtained hereunder, the insurance maintained by Contractor shall apply on a first dollar basis without application of a deductible or self-insured retention. Under limited circumstances, City may permit the application of a deductible or permit Contractor to self-insure, in whole or in part, one or more of the insurance coverage's required by this Agreement. Contractor shall pay on behalf of City or the City's officers or employees any deductible or self-insured retention applicable to a claim against the City or City's officers or employees. The required policies must be endorsed to provide City with thirty (30) days written notice of cancellation.

Compliance with these insurance requirements shall not limit the liability of Contractor. Any remedy provided to City by the insurance provided by City shall be in addition to and not in lieu of any other remedy (including, but not limited to, as an indemnitee of Contractor) available to City under this Agreement or otherwise.

Neither approval nor failure to disapprove insurance furnished by Contractor shall relieve Contractor from responsibility to provide insurance as required by this Agreement.

Certificates of Insurance must be completed as follows:

Certificate Holder:
City of Fort Pierce
Attn: Edward Seissiger
P.O. Box 1480
Fort Pierce, FL 34954-1480

Additional Insured for General Liability:
City of Fort Pierce and its members, officials, officers and employees

12. Written Authorization Required.

Contractor shall not make changes in the job scope or perform any additional work or provide any additional material, under this Agreement without first obtaining written authorization from City for such additional work or materials. Additional labor or materials provided without written authorization shall be done at Contractor's risk and without payment.

13. Notice.

All notices, requests, consents, and other communications required or permitted under this Agreement shall be in writing and shall be (as elected by the person giving such notice) hand delivered by messenger or courier service, telecommunicated, or mailed by registered or certified mail (postage prepaid) return receipt requested, addressed to:

As to City:
City of Fort Pierce
Purchasing Department
Attn: Gelencia Carter
100 N. US Hwy 1
Fort Pierce, FL. 34950

With a Copy To:
City of Fort Pierce
Engineering Department
Attn: Ed Seissiger
100 N. US Hwy 1
Fort Pierce, FL. 34950

As to Contractor:
Tetra Tech, Inc.
Attn: Brian Proctor
795 S. Federal Hwy, Suite 314
Stuart, FL. 34994-2936

14. Miscellaneous.

14.1 Assignment. Neither party may assign this Agreement, in whole or in part, without the prior written consent of the other party.

14.2 Representations and Warranties by Contractor. If Contractor is a corporation or a limited liability company, Contractor warrants, represents, covenants, and agrees that it is duly organized, validly existing and in good standing under the laws of the state of its incorporation or organization and is duly authorized and in good standing to conduct business in the State of Florida, that it has all necessary power and has received all necessary approvals to execute and deliver this Agreement, and the individual executing this Agreement on behalf of Contractor has been duly authorized to act for and bind Contractor.

14.3 Taxes. The City is exempt from Federal Excise and State Sales Taxes on direct purchases of tangible personal property. The City exemption number is on the face of the Purchase Order. Contractor shall not be exempt from paying sales

tax to their suppliers for materials to fulfill contractual obligations with the City Tax Exemption Number in securing such materials. This exemption does not apply to purchases of tangible personal property in the performance of contracts for the City.

14.4 Entire Agreement; Modifications. This Agreement supersedes all prior agreements, written or oral, between Contractor and City and will constitute the entire Agreement and understanding between the parties with respect to the subject matter hereof. This Agreement and each of its provisions will be binding upon the parties and may not be waived, modified, amended or altered except by a writing signed by authorized representatives of City and Contractor.

14.5 Force Majeure. Neither party hereto will be liable or responsible to the other for any loss or damage or for any delays or failure to perform due to causes beyond its reasonable control including, but not limited to, acts of God, strikes, epidemics, war, riots, civil unrest, flood, fire, tsunami, volcano, sabotage, air space closure, ground stop(s), a U.S. Department of State Travel Warning or any other circumstances of like character ("force majeure occurrence").

14.6 Venue; Governing Law. St. Lucie County, Florida, will be the proper place of venue for suit on or in respect of this Agreement. This Agreement and all of the rights and obligations of the parties hereto and all of the terms and conditions hereof will be construed, interpreted and applied in accordance with and governed by and enforced under the laws of the State of Florida.

14.7 Dispute Resolution. Any disputes relating to interpretation of the terms of this Agreement or a question of fact or arising under this Agreement shall be resolved through good faith efforts upon the part of the Contractor and City. Unless otherwise directed by City, Contractor shall carry on the work and maintain its progress schedule in accordance with the requirements of the Agreement and the determination of City or its representatives, pending resolution of the dispute. Any dispute which is not resolved by mutual agreement shall be decided by the City Manager who shall reduce the decision to writing. The decision of the City shall be final and conclusive.

14.8 Waivers. No delay or omission in exercising any right accruing upon a default in performance of this Agreement will impair any right or be construed to be a waiver of any right. A waiver of any default under this Agreement will not be construed to be a waiver of any subsequent default under this Agreement.

14.9 Conflict of Interest. Contractor represents that it presently has no interest and shall acquire no interest, either direct or indirect which would conflict in any manner with the performance of services required hereunder, as provided for in Section 112.311, Florida Statutes. Contractor further represents that no person having any interest shall be employed for said performance.

14.10 Verification of Employment Status. Contractor agrees that it shall bear the responsibility for verifying the employment status, under the Immigration Reform and Control Act of 1986 if all persons it employs in the performance of this Agreement.

14.11 Non Discrimination. Contractor covenants and agrees that Contractor shall not discriminate against any employee or applicant for employment to be employed in the performance of the Agreement with respect to hiring, tenure, terms, conditions or privileges of employment, or any matter directly or indirectly related to employment because of age, sex or physical handicaps (except where based on a bonafide occupational qualification); or because of marital status, race, color, religion, national origin or ancestry.

City and Contractor have executed and delivered this Agreement to be effective as of the Effective Date.

EXHIBIT A

STATEMENT OF WORK

Contractor's performance of the Services shall (1) conform to the specifications and requirements of that certain Request for Qualifications, RFQ No. 2016-014, which is incorporated by reference for all purposes, and (2) to the extent consistent with the RFQ, shall conform with Contractor's Response, dated June 28, 2016 ("Contractor's Response") which was submitted by Contractor in response to the Request for Qualifications and is incorporated by reference herein for all purposes. To the extent that the Request for Qualifications or Contractor's response conflicts with the terms of this Agreement, the terms of this Agreement shall control. To the extent that the Contractor's response conflicts with the Request for Qualifications, the Request for Qualifications shall control.

I. Project: Marina Permit Performance and Ecological Monitoring RFQ No. 2016-014

II. Services and/or Deliverables. Contractor will provide the following services and/or deliverables in support of the Project:

Services/Deliverables:

In June 2014, the City of Ft Pierce completed the construction of a 14.66 acre Island Breakwater System and the reconstruction of its marina facilities destroyed after the Hurricanes in 2004. The island breakwaters consist of 10 free form limestone islands, one large island made of sand armored with stone groins, and a tombolo point made of sand and stones. The State and Federal Permits issued for construction of these structures requires a minimum 5 years of ecological and structural stability monitoring of the islands, the compensatory mitigation and its surrounding environment. The objective of the monitoring is to establish that the islands are performing as planned without long term ecological harm and that the compensatory mitigation and other ecological features are progressing satisfactorily. The Scope of work is broken down into three separate primary tasks: ecological monitoring (habitats of the natural features of the islands and its seagrass mitigation), and performance monitoring for structural stability of the breakwater and State and Federal environment resource permitting as needed. To date, CONTRACTORs have completed the Baseline, Time Zero, First Semi-Annual and First Annual monitoring events.

2. SCOPE OF SERVICES

TASK 1 - PERFORMANCE MONITORING

The Scope of Work is for inspection and preparation of a monitoring report of the structural performance of the series of constructed breakwater islands located directly to the east of the Fort Pierce City Marina and waterfront. The Contractor must supply all labor and materials necessary to complete the required tasks. The issued state and federal permits required that the performance of the Islands be monitored in accordance with the approved Performance Monitoring Plan. There shall be three levels of inspections for the breakwater island structures.

These levels are as follows:

- Level 1 – Baseline survey after construction – ***Completed***
- Level 2 - Visual inspection:

  All Breakwater Islands shall be visually inspected each year and after severe weather and special incidents. If Watch List items from previous visual inspections are determined to be degrading or if significant anomalies are identified during the inspection, follow-up level 3 surveys shall be required in the affected island(s).

· Level 3 - Topographic and hydrographic surveys:

A regularly scheduled comprehensive hydrographic survey shall be performed on all Island breakwaters at three-year intervals (at conclusion of year two of this contract). This survey shall involve all islands, including those surveyed in interim years. A regularly scheduled hydrographic survey shall be performed on the seafloor within 400 feet of the structures annually. An effort shall be made to conduct the comprehensive topographic survey and the hydrographic surveys simultaneously. This will help to give an overview of the entire site at an identifiable moment in time.

A special Level 3 survey will be conducted on affected islands if required by the results of a regularly scheduled or severe weather triggered Level 2 survey.

The inspections are in accordance with the Performance Plan which utilizes a tiered inspection approach that adjusts the required frequency and complexity of the inspection components depending on the recorded performance of the island structures. The performance plan also provides requirements for weather-triggered and special event inspections of the site.

The inspection components include above and below water visual inspections, digital photographs, topographic surveys and hydrographic surveys, and inspection reports including damage assessments and repair recommendations. The resulting reports are required to be submitted, upon review and approval, to the Florida Department of Environmental Protection, the U.S. Army Corps of Engineers, The Florida Fish and Wildlife Conservation Commission, and the Federal Emergency Management Agency.

The inspector shall visually inspect each breakwater island for general damage caused by current, tide, wave action and severe weather. The inspections will include both above water and below water visual observations of all breakwater island components. Inspectors should note and photograph, at a minimum, any of the following anomalies:

1. Overall structural instability of the island.
2. Formation of voids in armor stone layer (missing armor stones)
3. Displaced armor stones
4. Loss of fines from between armor stones
5. Exposure of the underlayer of stone
6. Change in shape of an island
7. Change in elevation of areas on an island
8. Areas of apparent vegetation damage or loss
9. Appearance or change of scouring patterns at the toe of rock structures
10. Buildup of transported island and/or natural material in open water areas
11. Exposure of filter fabric layers
12. Exposure of marine mattress layers
13. Damage to exposed sections of marine mattress layers
14. Exposed sections of Geotextile tube core
15. Damage to exposed sections of Geotextile tube core.

Inspectors shall set foot on each island in order to create a detailed written and photo documented description of existing physical conditions.

Reports documenting the results of the visual inspections shall be prepared and submitted within one month of the completion of the visual inspection. The report shall document in writing and with digital photography, any significant conditions including but not limited to:

a. Overall structural instability of the island.
b. Displaced armor stones
c. Change in shape of island where the shoreline changes in horizontal position by 3 feet or more
d. Change in elevation of areas of island by +/- 0.5 foot or more
e. Appearance of scouring patterns at the toe of rock structures when the scour depression is

greater than 0.5 ft deep and/or two or more armor stones are displaced from the toe of the structure
f. Buildup of transported island and/or natural material in open water areas greater +/- 1 foot
g. Exposure of filter fabric layers
h. Exposure of marine mattress layers
i. Damage to exposed sections of marine mattress layers
j. Exposed sections of Geotextile Tube core
k. Damage to exposed sections of Geotextile tube core.

Minor anomalies shall be identified in a Watch list section of the report for particular evaluation during the next visual inspection. Watch List items will continue to be listed until anomalies are deemed "stabilized", repairs are required and/or the conditions are eliminated.

If a previous visual inspection identified specific Watch List items, the inspector shall carefully compare the condition of the previously reported items with their current condition and determine if the condition is stable or degrading. Conditions triggering a follow-up topographic and /or bathymetric survey include:

1. Degraded condition of a previously identified Watch List item.
2. A significant anomaly noted in the current inspection

Dive operations associated with performance monitoring activities shall be conducted following commercial diving standards. A written Health and Safety Dive Plan compliant with all OSHA 29 CFR Part 1910, Subpart T – Commercial Diving Operations standards and Association of Diving CONTRACTORs International (ADCI) standards must be prepared and approved by the City prior to commencing any in water activities. Additionally, qualifications of the dive team members must be provided and approved prior to in water activities.

Topographic Survey Description:

The topographic survey consists of a collection of three dimensional coordinate data points obtained with measured survey grade instrumentation. Survey data for the breakwater islands needs to be collected along the centerline of each island and on parallel transects running east/west spaced at 25 feet along the centerline, with points collected every 10 feet or less along each line. The number of data points collected on each island will be sufficient so that a surface model and contour map for each island structure can be created. The surface and contour map need to portray the actual elevations and outlines of each island at the time the survey was obtained. Contour lines need to be prepared from the resulting data in one foot intervals. A plan view and three (3) cross sections of each island need to be consistent with previous efforts. The cross sections need to compare the design cross section, the 2014 "As Built" cross section, the 2015 survey data cross section and the current year cross sectional data.

The islands have been stationed off and a series of land based benchmarks were established on the islands in 2014 to ascertain elevations on the breakwater Islands. These benchmarks are maintained on the site by the Fort Pierce City Marina. The benchmarks are to be used to assess changes in the island's structure over time or after storm events.

All topographic surveys coordinates are in feet and relative to the following datum's:

- Horizontal: Florida State Plane Coordinate System East Zone (901) Transverse Mercator Projection, North American Datum, 1983 (NAD83)
- Vertical: National Geodetic Vertical Datum, 1929 (NGVD 29)

Hydrographic Survey:

The bathymetric/hydrographic survey of the project needs to be performed with hydrographic survey equipment controlled by a GPS unit with sub-meter accuracy. The number of data points collected should be sufficient so that a surface model and contour map of the seafloor can be created. This surface model and contour map accurately portray the seafloor contours at the time of the survey. The survey boundaries start at the south side of the south causeway bridge and extend from western shore of the IRL east to the eastern right of way line of the ICW and extends south 400 feet of Tern Island. Survey data for the seafloor will be collected on parallel transects running east/west spaced at 25 feet along the centerline, with points collected 10 feet or less along each line.

The hydrographic survey coordinates are in feet and relative to the following datums:

- Horizontal: Florida State Plane Coordinate System East Zone (901) Transverse Mercator Projection, North American Datum, 1983 (NAD83)
- Vertical: National Geodetic Vertical Datum, 1929 (NGVD 29)

A portion of the data obtained from the bathymetric survey will be analyzed under the parameters stated in the USACE Permit #SAJ 1993-41787 (transects every 400 feet over an extension of 3200 feet in the ICWW Federal Channel in the area adjacent to the project). A full comparison of the pre-construction and post-construction condition, at time-zero and one-year, is included in the Appendix of the reports. The cross sections and the "Isopach" (change of surface elevation/depth comparison) will show areas of deposition and/or scouring have occurred in the ICWW Federal Channel.

TASK 2- ECOLOGICAL MONITORING:

The Project's approved Environmental Resources Permits require the monitoring of the constructed habitats on the islands, the off-site seagrass mitigation, and the seagrass recruitment around the islands. The permits for both FDEP and the USACE differ relative to frequency of monitoring events for each agency. Below we have listed the specific monitoring requirement along with frequency.

Coastal Dune/Least Tern Habitat:

Monitoring of the dune habitat will occur annually at the end of the growing season. The monitoring protocol includes the use of line transects and two-meter quadrats to identify percent survival of planted species and species naturally recruiting to the area. It must also document coverage of any exotic or nuisance species. Coastal dune monitoring transect locations are identified in the Monitoring Plan (2009) and adjusted in the field as necessary in order to capture representative conditions on site and ensure adequate spacing between transects. Four permanent coastal dune transects were established across the width of the Island by recording the beginning and end of each transect using a Trimble® Differential Global Positioning System (DGPS) and marking with PVC stakes. This will enable scientists to easily locate transects during future monitoring events. The dune transects range from 35 to 50 m, depending on the width of the Island at a given transect. Figure 1 illustrates the coastal dune vegetation transect locations. Quadrat stations were determined in the field by selecting evenly-spaced meter intervals along one dune transect and applying the same intervals at successive dune transects. Seven quadrats were placed along each of the four dune transects for a total of 28 dune stations. The fourth quadrat (Q4) of every transect is located on top of the berm where no vegetation was planted. A 2-m^2 quadrat was used to monitor dune habitat, alternating sides of the transect with each interval (i.e., Quadrat 1N=north side of transect, Quadrat 2=south side of transect, Quadrat 3N=north side of transect, etc.).

Mangroves:

Mangrove monitoring will occur annually for FDEP and semi-annually for USACE in years 2 and 3. Mangrove monitoring transect locations were identified in the Plan (2009) and adjusted in the field as necessary in order to capture representative conditions on site and ensure adequate spacing between transects. Four permanent mangrove transects were established on the western perimeter of the Island and five on the eastern/southern perimeter by recording the beginning and end of each transect using a Trimble® Differential Global Positioning System (DGPS) and marking with PVC stakes. Each of the nine mangrove transects on the Island are 30 meters (m) in length. Figure 1 illustrates the mangrove transect locations. Quadrat stations were determined in the field by haphazardly selecting locations at various meter intervals along one mangrove transect and applying the same intervals at successive mangrove transects. Six quadrats were placed along each of the nine mangrove transects for a total of 54 mangrove stations (24 on the west side and 30 on the east side). A two square-meter (2-m^2) quadrat centered on the transect will be used to sample mangrove habitat. All transects run from north to south/east to west.

Oysters:

Monitoring will be conducted semi-annually for the FDEP in year 2 and annually in year 3. For the USACE, the monitoring of oyster should be semi-annually for years 2 and 3. In order to account for oyster recruitment and survival on deployed oyster habitat, monitoring will occur bi-annually during the first two years post-deployment, and annually for the next three years (for a total of 5-years). For reasonable levels of success to be determined, recruitment, settlement, and survival of juvenile and adult oysters must be shown to increase over time. Although levels of spat recruitment or adult survivability may vary from year to year, an overall increase in community structure and area must be shown.

Haphazardly placed Vexar® mats (18 inches square in size with thirty-six (36) high shell fraction coquina fragments attached to each mat) were secured at the sampling locations throughout the selected constructed islands. This design is incorporated from a study conducted by Lisa Wall titled, "Recruitment and Restoration of the oyster, *Crassostrea virginica*, in Areas with Intense Boating Activity in Mosquito Lagoon, Florida in 2001." Thirteen (13) mats were sampled along both the protected and exposed sides of Tern Island and 1 or 2 two mats each for the freeform islands with created oyster habitat (Fishhook, Snook, Starfish, and Manatee) for a total of 19 monitoring stations. The mats will be removed in order to count the number of recruited oysters during monitoring. Once removed, the live oysters on each substrate shell will be counted and the mats subsequently returned to their original sampling locations. Photographic and written documentation of each mat will be used to track oyster recruitment and abundance over extended periods. All collected data will be utilized to find the number of spat or live oysters per recruitment mat and per meter square. An average will be taken for the number of species found per meter squared area.

Water quality parameters will be collected using a multi-parameter probe and data logger (e.g. YSI). Data to be collected included temperature, dissolved oxygen, pH, and conductivity. Finally, data will be collected on both floral and faunal diversity found within and around created oyster habitats, with particular attention paid to attached organisms and algae that may foul oyster habitat and affect spat settlement. A nearby background or control site was established for comparison to the project location. This natural oyster reef, located adjacent to the southeast portion of Jack Island, will be monitored using ¼-m^2 quadrats to count the number of live oysters.

The original proposed monitoring protocol has not been shown to be very effective due to limited substrate and optimal placement of mats in the intertidal zone. Additional haphazard transects were established to account for recruitment on the structure itself. See figure 2a for oyster transect locations.

Seagrass:

All seagrass monitoring will be performed annually with data collection to occur in May. For reasonable

levels of success to be determined, levels of recruitment, settlement, and survival of seagrasses in the project and mitigation areas must be shown to increase over time. Although the settlement of individual species of seagrass may vary, success is based on total area of seagrass coverage. In order to accurately assess and document the levels of recruitment, settlement, and survival of seagrasses in the project and mitigation areas, high resolution seagrass mapping will be conducted on an annual basis. Separate figures depicting and quantifying the areal cover by seagrasses species and percent cover class are required. Mapping results should be accurate and repeatable in order to assess changes over time. A pre-construction mapping output is provided as an example (see Figure 3a) of the surveys that have been completed to date. All staff responsible for collecting benthic data should be skilled in identification of benthic organisms of south Florida and have documented experience conducting high resolution benthic mapping and characterization.

Seagrass mapping will be conducted within five separate areas (marina survey, island breakwater survey area, seagrass area 1, spoil island SL-9A, dredge hole, and the propeller scar seagrass protection zone). The cumulative areal extent of the five survey areas is 114.1 acres. The marina survey (island breakwater survey) area includes a 400-foot (ft.) radius around the island breakwaters excluding the foot print of the Fort Pierce Marina lease boundary, and two of the three Corps permit-required survey areas (seagrass areas 2 and 3). The Corps-designated seagrass survey area 1 is described separately due its location. The three approved mitigation areas (spoil island SL-9A, dredge hole, and the propeller scar mapping [seagrass protection zone]) include a 100-ft. buffer surrounding the mitigation footprint. Figure 4 presents the extent and locations of each of the five surveys areas. Part of the mitigation for the USACE consisted of creation of 5 acres of seagrass in around the island breakwaters.

In addition to the mapping described above, eleven permanent transects were established within the marina survey area during the Time Zero monitoring event. Seagrass percent coverage will be recorded using 1 m^2 quadrats at ten evenly-spaced intervals along each of the eleven transects for a total of 110 replicates (10 quadrat samples per transect). A modified Braun-Blanquet (B-B) method (Braun-Blanquet, 1932; Fourqurean et al., 2001; Kirsch et al., 2005) will be used to determine seagrass cover. Each quadrat will be visually inspected for seagrass and assigned a cover-abundance scale value (B-B score). B-B scores will be assigned based on cover estimates of the total resource projection over the substrate when visually inspected from directly above.

Photographic documentation will be required for all survey activities. Representative images will be captured from known locations. GPS coordinates for each image or set of images will be required.

Limerock:

In order to account for hard-bottom species recruitment onto the installed lime-rock habitats, monitoring of all installed lime-rock islands. Recruitment, settlement, and survival of a variety of hard bottom species shall be documented over time. Hard-bottom communities are dominated by gorgonians, algae, sponges, and a few stony coral species. Success is based on an overall increase in biological community structure and the area must be shown to provide habitat for fish and invertebrate species. Additional roving diver observations will also be recorded for motile species. Visual inspections and photo-documentation shall be used to describe species found on and among the limerock (hard-bottom) habitat. Monitoring should be conducted semi-annually for FDEP. No limerock monitoring is required for USACE. A total of 15 transects and 45 quadrats (3 quadrats per transect) shall be monitored within the limerock habitat.

Table 1-1 Indicates event timelines for each associated task also which agency the reporting is required

Table 1-1. Summary of Project Permit Requirements

Monitoring Requirement	Parameter(s) Monitored	Schedule
Task 2 Ecological Monitoring	Seagrass mapping within 400 feet of Breakwaters, Areas, 1, 2, and 3 (USACE only)	July 2016+, May 2017+, May 2018+, May 2019+

City Commission Regular Meeting - 5:05 pm **11. f.**

Meeting Date: 12/19/2022

Re: Annual Maintenance of Floating Vegetated Mats at Indian Hills Recreation Area

SUBJECT:

Approval of proposal from Beemats, New Smyrna Beach, FL, in the amount of $171,072.00 for the annual harvesting, maintenance and re-nourishment of vegetated mats at the Indian Hills Recreation Area.

SUMMARY:

The Indian Hills Recreation Area stormwater treatment utilizes a vegetated floating wetland system to improve the water quality prior to discharging excess stormwater to the Indian River Lagoon. This system consists of mats made of a buoyant material fitted with perforated pots which are planted with specific aquatic plants to absorb and store excess nitrogen and phosphorus from the water column. A total of twelve (12) islands will be maintained every four (4) months, which consists of trimming the plants, collecting and composting the plant biomass, collecting samples for laboratory testing and reporting results of removed nutrients.

The floating mats have exceeded their life expectancy (7 years). A replacement program has been implemented to replace the old islands over a three-year period. In 2022 five mats were replaced and the anchoring systems refurbished. This year four islands will be replaced.

RECOMMENDATION:

Engineering recommends approval

ALTERNATIVES:

Train in-house staff on harvesting and replanting of the wetland system

RESPONSIBLE STAFF:

Engineering Department

COORDINATED WITH:

Beemats

FLORIDA LEAGUE OF CITIES

January 2023 Institute for Elected Municipal Officials I

The Florida League of Cities and the John Scott Dailey Florida Institute of Government are proud to bring you the ***Institute for Elected Municipal Officials I (IEMO I)***. This educational program is specially designed for *newly elected officials* and *those with less than one term in office.*

The Institute for Elected Municipal Officials I (IEMO I) program will take place on January 20-21, 2023 at the World Golf Village Renaissance St. Augustine Resort, 500 South Legacy Trail, St. Augustine, Florida 32092.

Who should attend IEMO?

Created in 1992, the *Institute for Elected Municipal Officials* was designed to help elected officials in Florida's municipalities to effectively meet the requirements of their elected role. Its intensive academic program offers a comprehensive overview of Florida municipal government, presented by a faculty of top professionals in the field. IEMO is a two-day program structured in a Friday through Saturday format and is offered four times per year at several different locations throughout the state.

Curriculum

Curriculum is divided into six instructional modules, taught in the following sequence:

- The Municipal Landscape in Florida
- Public Official's Liability
- Effective Council Techniques
- Budgeting and Accounting
- Taxes and Other Sources of Revenue
- Parliamentary Procedures Your City's Attorney: Roles and Responsibilities

These topics were selected to provide a comprehensive overview of the critical issues that are addressed by municipal government officials. It is suggested that participants review their municipal charter, policies and budget to prepare for the classes, and may want to bring these materials along. Speakers will provide hand-outs and resource material.

A certificate of attendance is provided upon successful completion of the program.
All classes must be attended

Hotel Reservations

Reservations are made online, through the designated reservation link, and must be completed by **Tuesday, January 10, 2023.** To take advantage of the special reduced room rate, mention the **Florida League of Cities / Institute for Elected Municipal Officials**. Room rate starting at $149.00++ per night. Complimentary self-parking. A credit card is required to guarantee reservations.

Cancelations

Cancelation/transfer requests must be received and confirmed in writing by Monday, January 17, 2022 to be eligible for a refund. A $25.00 processing fee will be applied to all cancelations and/or transfers. Transfers must take place within the fiscal year. Substitutions are accepted and encouraged. Refunds will be processed after the program. We reserve the right to cancel the IEMO training. If the training is canceled, registration fees will be refunded in full.

Schedule

Friday, January 20,2023

January 2023 Institute for Elected Municipal Officials I

The Florida League of Cities and the John Scott Dailey Florida Institute of Government are proud to bring you the ***Institute for Elected Municipal Officials I (IEMO I)***. This educational program is specially designed for *newly elected officials* and *those with less than one term in office.*

The Institute for Elected Municipal Officials I (IEMO I) program will take place on January 20-21, 2023 at the World Golf Village Renaissance St. Augustine Resort, 500 South Legacy Trail, St. Augustine, Florida 32092.

Who should attend IEMO?

Created in 1992, the *Institute for Elected Municipal Officials* was designed to help elected officials in Florida's municipalities to effectively meet the requirements of their elected role. Its intensive academic program offers a comprehensive overview of Florida municipal government, presented by a faculty of top professionals in the field. IEMO is a two-day program structured in a Friday through Saturday format and is offered four times per year at several different locations throughout the state.

Curriculum

Curriculum is divided into six instructional modules, taught in the following sequence:

- The Municipal Landscape in Florida
- Public Official's Liability
- Effective Council Techniques
- Budgeting and Accounting
- Taxes and Other Sources of Revenue
- Parliamentary Procedures Your City's Attorney: Roles and Responsibilities

These topics were selected to provide a comprehensive overview of the critical issues that are addressed by municipal government officials. It is suggested that participants review their municipal charter, policies and budget to prepare for the classes, and may want to bring these materials along. Speakers will provide hand-outs and resource material.

A certificate of attendance is provided upon successful completion of the program.
All classes must be attended

Hotel Reservations

Reservations are made online, through the designated reservation link, and must be completed by **Tuesday, January 10, 2023.** To take advantage of the special reduced room rate, mention the **Florida League of Cities / Institute for Elected Municipal Officials**. Room rate starting at $149.00++ per night. Complimentary self-parking. A credit card is required to guarantee reservations.

Cancelations

Cancelation/transfer requests must be received and confirmed in writing by Monday, January 17, 2022 to be eligible for a refund. A $25.00 processing fee will be applied to all cancelations and/or transfers. Transfers must take place within the fiscal year. Substitutions are accepted and encouraged. Refunds will be processed after the program. We reserve the right to cancel the IEMO training. If the training is canceled, registration fees will be refunded in full.

Schedule

Meeting Date: 12/19/2022

Re: Settlement of Opioid Litigation - Participation Agreement

Submitted For: Tanya Earley, City Attorney, City Attorney

SUBJECT:

Approval for Mayor to execute participant agreement for the potential settlement of Opioid Litigation.

SUMMARY:

On August 2, 2021, the City Commission passed Resolution 21-R44 approving participation in the settlement of a nationwide class action lawsuit against the makers and distributors of certain opioid drugs. The next step in the settlement process is the execution of participation agreements. The participation agreements release all claims against the settling defendants in exchange for the payment of settlement funds. Such funds will be distributed to Fort Pierce in accordance with regional and statewide agreements.

RECOMMENDATION:

Approval

ALTERNATIVES:

Disapproval of the proposed agreement.

RESPONSIBLE STAFF:

Tanya Earley, City Attorney

COORDINATED WITH:

City Attorney's Office

Fiscal Impact

Budgeted Y/N: N

Fiscal Year: 2023

OTHER INFORMATION:

Fort Pierce may receive a portion of settlement funds to be used to mitigate the effects of opioid abuse.

SUBDIVISION SETTLEMENT PARTICIPATION FORM

Governmental Entity:	State:
Authorized Official:	
Address 1:	
Address 2:	
City, State, Zip:	
Phone:	
Email:	

The governmental entity identified above ("*Governmental Entity*"), in order to obtain and in consideration for the benefits provided to the Governmental Entity pursuant to the Settlement Agreement and Release dated [_____], 2022, among Walmart (defined below), the State of Florida and its Office of the Attorney General ("*Walmart Settlement*"),[1] and acting through the undersigned authorized official, hereby elects to participate in the Walmart Settlement, release all Released Claims against all Releasees, and agrees as follows.

1. The Governmental Entity is aware of and has reviewed the Walmart Settlement, understands that all terms in this Subdivision Settlement Participation Form have the meanings defined therein, and agrees that by signing this Subdivision Settlement Participation Form, the Governmental Entity elects to participate in the Walmart Settlement and become a Participating Subdivision as provided therein.

2. The Governmental Entity shall immediately cease any and all litigation activities as to the Releasees and Released Claims and, within the later of 7 days following the entry of the Consent Judgment or 7 days of the Execution Date of this Subdivision Settlement Participation Form, voluntarily dismiss with prejudice any Released Claims that it has filed.

3. The Governmental Entity agrees to the terms of the Walmart Settlement pertaining to Subdivisions as defined therein.

4. By agreeing to the terms of the Walmart Settlement and expressly agreeing to the Releases provided for therein, the Governmental Entity is entitled to the benefits provided therein, including, if applicable, monetary payments beginning after the Effective Date of the Release.

5. The Governmental Entity agrees to use any monies it receives through the Walmart Settlement solely for the purposes provided therein.

6. The Governmental Entity submits to the jurisdiction of the Court for purposes limited to the Court's role as provided in, and for resolving disputes to the extent provided in, the Walmart Settlement.

[1] The defined terms in the Walmart Settlement shall have the same meaning in this Subdivision Settlement Participation Form.

7. The Governmental Entity has the right to enforce those rights given to it in the Walmart Settlement.

8. The Governmental Entity, as a Participating Subdivision, hereby becomes a Releasor for all purposes in the Walmart Settlement, including, but not limited to, all provisions of Section D and E, and along with all departments, agencies, divisions, boards, commissions, districts, instrumentalities of any kind and attorneys, and any person in their official capacity elected or appointed to serve any of the foregoing and any agency, person, or other entity claiming by or through any of the foregoing, and any other entity identified in the definition of Releasor, provides for a release to the fullest extent of its authority. As a Releasor, the Governmental Entity hereby absolutely, unconditionally, and irrevocably covenants not to bring, file, or claim, or to cause, assist or permit to be brought, filed, or claimed, or to otherwise seek to establish liability for any Released Claims against any Releasee in any forum whatsoever. The releases provided for in the Walmart Settlement are intended by the Parties to be broad and shall be interpreted so as to give the Releasees the broadest possible bar against any liability relating in any way to any Released Claims and extend to the full extent of the power of the Governmental Entity to release Claims. The Walmart Settlement shall be a complete bar to any Released Claim.

9. The Governmental Entity hereby takes on all rights and obligations of a Participating Subdivision as set forth in the Walmart Settlement.

10. In connection with the releases provided for in the Walmart Settlement, the Governmental Entity expressly waives, releases, and forever discharges any and all provisions, rights, and benefits conferred by any law of any state or territory of the United States or other jurisdiction, or principle of common law, which is similar, comparable, or equivalent to § 1542 of the California Civil Code, which reads:

    > **General Release; extent.** A general release does not extend to claims that the creditor or releasing party does not know or suspect to exist in his or her favor at the time of executing the release, and that if known by him or her would have materially affected his or her settlement with the debtor or released party.

    As a Releasor, the Governmental Entity may hereafter discover facts other than or different from those which it knows, believes, or assumes to be true with respect to the Released Claims, but the Governmental Entity hereby expressly waives and fully, finally, and forever settles, releases and discharges, upon the Effective Date of the Release, any and all Released Claims that may exist as of such date but which Releasors do not know or suspect to exist, whether through ignorance, oversight, error, negligence or through no fault whatsoever, and which, if known, would materially affect the Governmental Entity's decision to participate in the Walmart Settlement.

11. Nothing herein is intended to modify in any way the terms of the Walmart Settlement, to which the Governmental Entity hereby agrees. To the extent this Subdivision Settlement Participation Form is interpreted differently from the Walmart Settlement in any respect, the Walmart Settlement controls.

I have all necessary power and authorization to execute this Subdivision Settlement Participation Form on behalf of the Governmental Entity.

Re: Request Contract Award of The Oaks at Moore's Creek Phase II Infrastructure Improvements to PRP Construction Group, LLC - Ref. Bid No. 2023-007

Submitted For: John Andrews, City Engineer, Engineering

SUBJECT:

Approval to award the Oaks at Moore's Creek Phase II Infrastructure Improvements to the sole bidder, PRP Construction Group, LLC, in an amount not to exceed $635,449.15. This award request is $495.00 higher than the submitted bid which was corrected due to an error in addition by the proposer.

SUMMARY:

This project will extend Means Court between Avenue B and Moore's Creek to support a fifteen (15) lot affordable housing subdivision. Improvements to be constructed include curb and gutter, sidewalks, driveway aprons, drainage facilities, water distribution system, sanitary sewer collection system, natural gas main, street lighting, underground electric, and landscaping. This project was initially presented to the City Commission on November 15, 2021, where allocation of infrastructure funding in the amount of $722,352.69 was approved.

RECOMMENDATION:

Staff recommends approval.

ALTERNATIVES:

Deny and re-bid the project.

RESPONSIBLE STAFF:

Engineering

COORDINATED WITH:

Audria Moore-Wells, Special Projects Manager
FPUA

Fiscal Impact

Budgeted Y/N:	Y
Fiscal Year:	2023
Account:	See Below
Amount:	$635,449.15

FISCAL IMPACT:

Funding of the project shall be encumbered from the following sources:

- $331,882.08 from Road Impact Fees, Account No. 110-1111-563100
- $161,283.34 from SMU Contractual Services, Account No. 403-4300-534900
- $142,283.73 funding to be presented to the FPRA Board for final approval, January 2023

BID BOND

KNOW ALL MEN BY THESE PRESENTS, that we, PRP Construction Group, LLC. ----------, as Principal, and ---------- Atlantic Specialty Insurance Company ----------, as Surety, are held and firmly bound unto the City of Fort Pierce, hereinafter called the City, in the penal sum of ----- Ten Percent of Amount Bid ----- ---------- Dollars ($ ----- 10% -----), lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents. The Bid Bond amount shall be ten (10) percent of the Base Bid amount as entered on the Bid Form.

The condition of this obligation is such that whereas the principal has submitted the accompanying bid dated November 30th, 2022, for the Bid No: 2023-007 - The Oaks at Moore's Creek Phase II Subdivision Improvements (Avenue B to Moore's Creek)

NOW, THEREFORE, if the Principal shall not withdraw said bid within the period of time set forth in the Contract Documents, and shall within ten (10) calendar days after receipt of the Notice of Award enter into a written contract with the City in accordance with the bid as accepted, and if the Principal shall give the required bonds with good and sufficient sureties for the faithful performance and proper fulfillment of such contract and for the protection of subcontractors, laborers and material men, and if the Principal has provided the required evidence of insurance as set forth in the Contract Documents and complied with the Florida Department of Environmental Protection certifications and requirements, and all other contract provisions, or in the event of withdrawal of said bid within the periods specified, or the failure to enter into said contract, or failure to comply with FDEP requirements, or otherwise, if the Principal shall within sixty (60) days after request by the City to pay to the City the difference between the amount specified in said bid and the amount for which the City may procure the required work, if the latter amount be in excess of the former, then the above obligation shall be void and of no effect, otherwise to remain in full force and effect.

It is further agreed that if the City is required to utilize legal counsel to recover on this bond, it may also recover its costs relating thereto, including a reasonable amount for attorneys' fees and costs, including attorneys' fees and costs in appellate proceedings.

BID FORMS

IN WITNESS WHEREOF, the above parties have executed this instrument under their several seals this 30th day of November, 2022, the name and corporate seal of each corporate party being hereto affixed, and these presents duly signed by its undersigned representative pursuant to authority of its governing body.

Power of Attorney

KNOW ALL MEN BY THESE PRESENTS, that ATLANTIC SPECIALTY INSURANCE COMPANY, a New York corporation with its principal office in Plymouth, Minnesota, does hereby constitute and appoint: **Jorge L. Bracamonte, Jessie Sloan, Karla Tomaszewski**, each individually if there be more than one named, its true and lawful Attorney-in-Fact, to make, execute, seal and deliver, for and on its behalf as surety, any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof; provided that no bond or undertaking executed under this authority shall exceed in amount the sum of: **unlimited** and the execution of such bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof in pursuance of these presents, shall be as binding upon said Company as if they had been fully signed by an authorized officer of the Company and sealed with the Company seal. This Power of Attorney is made and executed by authority of the following resolutions adopted by the Board of Directors of ATLANTIC SPECIALTY INSURANCE COMPANY on the twenty-fifth day of September, 2012:

Resolved: That the President, any Senior Vice President or Vice-President (each an "Authorized Officer") may execute for and in behalf of the Company any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof, and affix the seal of the Company thereto; and that the Authorized Officer may appoint and authorize an Attorney-in-Fact to execute on behalf of the Company any and all such instruments and to affix the Company seal thereto; and that the Authorized Officer may at any time remove any such Attorney-in-Fact and revoke all power and authority given to any such Attorney-in-Fact.

Resolved: That the Attorney-in-Fact may be given full power and authority to execute for and in the name and on behalf of the Company any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof, and any such instrument executed by any such Attorney-in-Fact shall be as binding upon the Company as if signed and sealed by an Authorized Officer and, further, the Attorney-in-Fact is hereby authorized to verify any affidavit required to be attached to bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof.

This power of attorney is signed and sealed by facsimile under the authority of the following Resolution adopted by the Board of Directors of ATLANTIC SPECIALTY INSURANCE COMPANY on the twenty-fifth day of September, 2012:

Resolved: That the signature of an Authorized Officer, the signature of the Secretary or the Assistant Secretary, and the Company seal may be affixed by facsimile to any power of attorney or to any certificate relating thereto appointing an Attorney-in-Fact for purposes only of executing and sealing any bond, undertaking, recognizance or other written obligation in the nature thereof, and any such signature and seal where so used, being hereby adopted by the Company as the original signature of such officer and the original seal of the Company, to be valid and binding upon the Company with the same force and effect as though manually affixed.

IN WITNESS WHEREOF, ATLANTIC SPECIALTY INSURANCE COMPANY has caused these presents to be signed by an Authorized Officer and the seal of the Company to be affixed this twenty-seventh day of April, 2020.

END OF SECTION

Form **W-9**
(Rev. October 2007)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Give form to the requester. Do not send to the IRS.

Print or type See Specific Instructions on page 2.

Name (as shown on your income tax return)
PRP Construction Group, LLC

Business name, if different from above

Check appropriate box: ☐ Individual/Sole proprietor ☐ Corporation ☐ Partnership
☑ Limited liability company. Enter the tax classification (D=disregarded entity, C=corporation, P=partnership) ► S
☐ Other (see instructions) ►

☐ Exempt payee

Address (number, street, and apt. or suite no.)
8300 SW Springhaven Ave

Requester's name and address (optional)

City, state, and ZIP code
Indiantown, Fl. 34956

List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number
: :

or

Employer identification number
45 :3220690

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. See the instructions on page 4.

Sign Here Signature of U.S. person ► Peggy Bye Date ► 11/29/2022

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,

CITY OF FORT PIERCE BIDDER'S CHECKLIST

PROPOSAL TO
THE CITY OF FORT PIERCE

FOR

OAKS AT MOORE'S CREEK PHASE II SUBDIVISION IMPROVEMENTS (AVENUE B TO MOORE'S CREEK)

NAME OF BIDDER: PRP Construction Group, LLC

MAILING ADDRESS: 8300 SW Springhaven Ave, Indiantown, Fl. 34956

STREET ADDRESS: 8300 SW Springhaven Ave, Indiantown , Fl. 34956 (Zip Code)

PHONE NUMBER: 772-597-6923 Ext 1

To the: City of Fort Pierce

Pursuant to and in compliance with your notice inviting sealed proposals (Call for Bids), Instructions to Bidders, and the other documents relating thereto, the undersigned bidder, having familiarized himself with the terms of the Contract Documents, local conditions affecting the performance of the contract, and the cost of the Work at the place where the Work is to be done, hereby proposes and agrees to perform within the time stipulated in the Contract, including all of its component parts and everything required to be performed, and to provide and furnish any and all utility and transportation services necessary to perform the contract and complete in a workmanlike manner, all of the Work required in connection with the construction of said Work, all in strict conformity with the plans and/or details, specifications and other related Contract Documents included herein.

The undersigned Bidder acknowledges receipt of the following Addenda, which have been considered in preparation of this Bid:

No. 1	Dated 11/15/2022	No. _____	Dated _____
No. _____	Dated _____	No. _____	Dated _____
No. _____	Dated _____	No. _____	Dated _____

The undersigned Bidder agrees that the Work shall be completed within 180 calendar days according to the schedule and the Notice to Proceed set forth in these Documents.

The undersigned Bidder further agrees to pay liquidated damages as described herein and engineering and field inspection expenses, due to overtime work and avoidable delays, which shall be in addition to such other amounts for actual delay damages.

Bidder has stated all prices in numerals in accordance with Section 11.2 of the Instruction to Bidders in the blank space(s) provided for that purpose. Bidder has completed all portions of the Bid to avoid disqualification.

undersigned, as Bidder, declares that the Bid is made in good faith; that this proposal is made

without collusion with any person, firm, or corporation; and he proposes and agrees, if the proposal is accepted, that he will execute a contract with the City in the form set forth in the Contract Documents; that he will furnish the Contract Security Insurance Certificates; that he is aware that failure to properly comply with the requirements set out in the INSTRUCTIONS TO BIDDERS and elsewhere in the Contract Documents may result in a finding that the Bidder is non- responsive and a forfeiture of the Bid Security.

The undersigned Bidder agrees to furnish the required bonds and insurance and to enter into a contract within 10 days after receipt of Notice of Award and further agrees to complete the Work within the time period specified in the Notices to Proceed for each individual project.

The undersigned declares that he has had prior experiences in the type of Work required and has the necessary finances, personnel, working organization, and equipment available to execute the proposed Work.

Bids shall only be considered from those Bidders who have obtained these Contract Documents directly from the City either electronically or from Demand Star.

LIST OF MAJOR SUBCONTRACTORS

1. If awarded a contract as a result of this Bid, the major subcontractors used in the prosecution of the Work will be those listed below, and

2. The following list includes all subcontractors who will perform Work, and

3. The Bidder represents that the subcontractors listed below are financially responsible and are qualified to do the Work required, and

4. 60% of Work must be done by the General Contractor's entity.

If no major subcontractors are to be used, so state on this form.

Work to be Done	Name of Subcontractor	Address
Asphalt	Ranger Construction	4510 Glades Cut Off Rd, Fort Pierce, Fl. 34981
Signs & Striping	Hog Technologies	3920 SE Commerce Ave, Stuart, Fl 34997
Sod and Trees	East Coast Sod & Landscape	10700 Okeechobee Rd, Ft Pierce, Fl. 34945

Notice to Proceed shall be issued by the City with the specified Work to be completed as described in Section

8 of the General Conditions, within the number of days stated when each Project Contract Time begins to run as specified in the Notice to Proceed.

Work shall be completed, ready for final payment in accordance with Section 8 and 9 of the General Conditions.

Time is of the essence of this Contract and Contractor recognizes that the City will suffer financial loss if the Work, or portions authorized, is not completed within the number of days stated above. Accordingly, Contractor agrees to pay City the liquidated damages stated in the Agreement for each day after the time specified above that the Work is not complete in accordance with Sections 8 and 9 of the General Conditions and with the Agreement.

These liquidated damages are cumulative and additive and represent a reasonable estimate of City's expenses for extended delays. Furthermore, Contractor agrees to pay City expenses for inspection, engineering services, and administrative costs associated with such delay.

In addition to these amounts, there may be additional other amounts for delay damages incurred by City as a result of delays by Contractor. These actual delay damages will include, but not be limited to, delay damage settlements or awards, penalties, and professional fees incurred in connection with such settlements, awards, or penalties and fines imposed by regulatory agencies, contract damages, and loss of use.

ACCOMPANYING THIS PROPOSAL IS "bidders bond"
(Insert the word(s) "cashier's check," "bidder's bond," "certified check," or other security as provided by law, as the case may be), in an amount equal to at least 10% of the total amount of the bid, payable to the CITY OF FORT PIERCE the undersigned deposits above-named security as a proposal guarantee and agrees that it shall be forfeited to the City as liquidated damages in case this proposal is accepted by the City and the undersigned fails to execute a contract with the City as specified in the Contract Documents, accompanied by the required payment and faithful performance bonds, with sureties satisfactory to the City, and accompanied by the required certificates of insurance coverage and endorsements. Should the City be required to engage the services of an attorney in connection with the enforcement of this bid, bidder promises to pay City reasonable attorneys' fees and costs (including attorneys' fees and costs on appeals), incurred with or without suit.
The Work shall be performed under a State of Florida Contractor's License. Contract shall not be awarded unless proof of valid license(s) is provided, and license shall be appropriate for the nature of the Work.

The Bidder certifies that the following documents are included in the Bid and are complete:

1. Bid form, list of Addenda received, and authorized signatures.
2. Bid Bond with Power of Attorney attached.
3. Affidavit of Non-Collusion.
4. Trench Safety Act Form.

The Bidder further certifies that he will submit within ten (10) days of notification of the Apparent Successful Bidder:

1. List of Major Subcontractors

2. Payment Bond

3. Performance Bond

4. Agreement

5. Certificates of Insurance

NOTE: If bidder is a corporation, the legal name of the corporation shall be set forth below, together with signature(s) of the officer or officers authorized to sign contracts on behalf of the corporation and corporate seal; if bidder is a partnership, the true name of the firm shall be set forth below with the signature(s) of the partner or partners authorized to sign contracts in behalf of the partnership; and if the bidder is an individual, his signature shall be placed below.

SECTION 012

PUBLIC ENTITY AFFIDAVIT

SWORN STATEMENT UNDER SECTION 287.133(3)(a),
FLORIDA STATUTES, ON PUBLIC ENTITY CRIMES

THIS FORM MUST BE SIGNED IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICER AUTHORIZED TO ADMINISTER OATHS.

1. This sworn statement is submitted with Bid No. 2023-007 for The Oaks at Moore's Creek Phase II Subdivision Improvements (Avenue B to Moore's Creek)
2. This sworn statement is submitted by _____ PRP Construction Group, LLC (name of entity submitting sworn statement) whose business address is 8300 SW Springhaven Ave, Indiantown, Fl. 34956 and (if applicable) its Federal Employer Identification Number (FEIN) is 45-3220690 (If the entity has no FEIN, include the Social Security Number of the individual signing this sworn statement: _____.)

3. My name is Peggy Sheltra (please print name of individual signing) my relationship to the entity named above is President.

4. I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

5. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

6. I understand that an "affiliate" as defined in paragraph 287.133(1)(a), Florida Statutes, means:
   1. A predecessor or successor of a person convicted of a public entity crime: or
   2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima tacie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

7. I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers,

directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

8. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement.
(Please indicate which statement applies.)

__X__ Neither the entity submitting this sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members, or agents who are active in management of the entity, nor any affiliate of the entity have been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of the officers, directors, executives, partners, shareholders, employees, members, or agents who are active in management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989, AND **(Please indicate which additional statement applies.)**

_____ There has been a proceeding concerning the conviction before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. **(Please attach a copy of the final order.)**

_____ The person or affiliate was placed on the convicted vendor list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or affiliate from the convicted vendor list. **(Please attach a copy of the final order.)**

_____ The person or affiliate has not been placed on the convicted vendor list. **(Please describe any action taken by or pending with the Department of General Services.)**

SECTION 013

CERTIFICATION OF NON-SEGREGATED FACILITIES

The Bidder certifies that he does not maintain or provide for his employees any segregated facilities at any of his establishments, and that he does not permit his employees to perform their services at any location, under his control where segregated facilities are maintained. The Bidder certifies further that he will not maintain or provide for his employees any segregated facilities at any of his establishments, and that he will not permit his employees to perform their services at any location under his control where segregated facilities are maintained. The Bidder agrees that a breach of this certification will be a violation of the Equal Opportunity clause in any contract resulting from acceptance of this Bid. As used in this certification, the term "segregated facilities" means any waiting rooms, work areas, restrooms and washrooms, restaurants, and other eating areas, time clocks, locker rooms, and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated on the basis of race, color, religion, or national origin, because of habit, local custom, or otherwise. The Bidder agrees that (except where he has obtained identical certification from proposed subcontractors for specific time periods) he will obtain identical certifications from proposed subcontractors, exempt from the provisions of the Equal Opportunity clause, and that he will retain such certification in his files.

NOTE: The penalty for making false statements in offers is prescribed in 18 U.S.C. 1001.

TRENCH SAFETY ACT COMPLIANCE STATEMENT

BID NO. 2023-007

Instructions:

Chapter 90-96 of the Laws of Florida requires all contractors engaged by the City of Fort Pierce to comply with Occupational Safety and Health Administration Standard 29 C.F.R. s. 1926.650 Subpart P. All prospective contractors are required to sign the compliance statement and provide compliance cost information where indicated below. The costs for complying with the Trench Safety Act must be incorporated into this project's base bid.

Certify this form in the presence of a notary public or other officer authorized to administer oaths.

Certification:

1. I understand that Chapter 90-96 of the Laws of Florida (The Trench Safety Act) requires me to comply with OSHA Standard 29 C.F.R. s. 1926.650 Subpart P. I will comply with The Trench Safety Act and I will design and provide trench safety systems at all trench excavations in excess of five feet in depth for this project.

2. The estimated cost imposed by compliance with The Trench Safety Act will be:

   Five Hundred Seventy Five---------- Dollars
   (Written)
   ----------$575.00----------
   (Figures)

3. The amount listed above has been included within the Base Bid.

DRUG-FREE WORK PLACE FORM

The undersigned vendor in accordance with Florida Statute 287.087 hereby certifies that PRP Construction Group, LLC does:
(Name of Business)

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the commodities or contractual services that are proposed a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace thorough implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

PRIMARY AND NONCONTRIBUTORY – OTHER INSURANCE CONDITION

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART
LIQUOR LIABILITY COVERAGE PART
PRODUCTS/COMPLETED OPERATIONS LIABILITY COVERAGE PART

The following is added to the **Other Insurance** Condition and supersedes any provision to the contrary:

Primary And Noncontributory Insurance

This insurance is primary to and will not seek contribution from any other insurance available to an additional insured under your policy provided that:

(1) The additional insured is a Named Insured under such other insurance; and

(2) You have agreed in writing in a contract or agreement that this insurance would be primary and would not seek contribution from any other insurance available to the additional insured.

© Insurance Services Office, Inc., 2018

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

ADDITIONAL INSURED - OWNERS, LESSEES OR CONTRACTORS - SCHEDULED PERSON OR ORGANIZATION

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Name Of Additional Insured Person(s) Or Organization(s)	Location(s) Of Covered Operations
As required by written contract with the Named Insured that is executed by the parties to the contract prior to the commencement of work that is called for in the contract.	All locations which are afforded coverage under this policy.
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.	

A. **Section II – Who Is An Insured** is amended to include as an additional insured the person(s) or organization(s) shown in the Schedule, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by:

1. Your acts or omissions; or
2. The acts or omissions of those acting on your behalf;

in the performance of your ongoing operations for the additional insured(s) at the location(s) designated above.

However:

1. The insurance afforded to such additional insured only applies to the extent permitted by law; and
2. If coverage provided to the additional insured is required by a contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

B. With respect to the insurance afforded to these additional insureds, the following additional exclusions apply:

This insurance does not apply to "bodily injury" or "property damage" occurring after:

1. All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the location of the covered operations has been completed; or
2. That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

© Insurance Services Office, Inc., 2012

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

ADDITIONAL INSURED – OWNERS, LESSEES OR CONTRACTORS – COMPLETED OPERATIONS

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART
PRODUCTS/COMPLETED OPERATIONS LIABILITY COVERAGE PART

SCHEDULE

Name Of Additional Insured Person(s) Or Organization(s)	Location And Description Of Completed Operations
As required by written contract with the Named Insured that is executed by the parties to the contract prior to the commencement of work that is called for in the contract.	All locations which are afforded coverage under this policy.
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.	

A. **Section II – Who Is An Insured** is amended to include as an additional insured the person(s) or organization(s) shown in the Schedule, but only with respect to liability for "bodily injury" or "property damage" caused, in whole or in part, by "your work" at the location designated and described in the Schedule of this endorsement performed for that additional insured and included in the "products-completed operations hazard".

However:

1. The insurance afforded to such additional insured only applies to the extent permitted by law; and
2. If coverage provided to the additional insured is required by a contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

B. With respect to the insurance afforded to these additional insureds, the following is added to **Section III – Limits Of Insurance:**

If coverage provided to the additional insured is required by a contract or agreement, the most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the contract or agreement; or
2. Available under the applicable Limits of Insurance shown in the Declarations;

whichever is less.

This endorsement shall not increase the applicable Limits of Insurance shown in the Declarations.

© Insurance Services Office, Inc., 2012

WAIVER OF TRANSFER OF RIGHTS OF RECOVERY AGAINST OTHERS TO US (WAIVER OF SUBROGATION)

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART
ELECTRONIC DATA LIABILITY COVERAGE PART
LIQUOR LIABILITY COVERAGE PART
POLLUTION LIABILITY COVERAGE PART DESIGNATED SITES
POLLUTION LIABILITY LIMITED COVERAGE PART DESIGNATED SITES
PRODUCTS/COMPLETED OPERATIONS LIABILITY COVERAGE PART
RAILROAD PROTECTIVE LIABILITY COVERAGE PART
UNDERGROUND STORAGE TANK POLICY DESIGNATED TANKS

SCHEDULE

Name Of Person(s) Or Organization(s):
As required by written contract with the Named Insured that is executed by the parties to the contract prior to the commencement of work that is called for in the contract.
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

The following is added to Paragraph **8. Transfer Of Rights Of Recovery Against Others To Us** of **Section IV – Conditions:**

We waive any right of recovery against the person(s) or organization(s) shown in the Schedule above because of payments we make under this Coverage Part. Such waiver by us applies only to the extent that the insured has waived its right of recovery against such person(s) or organization(s) prior to loss. This endorsement applies only to the person(s) or organization(s) shown in the Schedule above.

THE OAKS AT MOORE'S CREEK PHASE II SUBDIVISION IMPROVEMENTS (AVENUE B TO MOORE'S CREEK)

BID NO. 2023-007

ADDENDUM NO. 1

The purpose of this addendum is to respond to questions submitted by potential bidders for clarification of the bid specifications and to provide a REVISED Bid Response Form:

1. **QUESTION:** Is there a geotechnical soils report for this project?

   ANSWER: **No, there are no soil reports for this project.**

2. **QUESTION:** Is there a project estimate?

   ANSWER: **No**

3. **QUESTION:** Could we get a copy of the bid schedule in excel format?

   The bid schedule was prepared utilizing Microsoft Word and not Excel.

4. **QUESTION:** How thick is the existing sidewalk in the location where the proposed drainage pipe form CS-1 to M-3 crosses?

   ANSWER: **This sidewalk should be 4" thick but may be 6" in certain areas.**

5. **QUESTION:** Are we construction the house pads in the lots? If so, what dimensions should we use for the pad?

   ANSWER: **No house pad construction is included in this contract.**

6. **QUESTION:** Does the City have an in-house crew that could do the stop bar striping and one sign? (the reason for this question is, that to get a striping company that can do thermoplastic striping and install one will be expensive due to the minimal amount of work)

   ANSWER: **No, there is additional roadway striping required as indicated on plan sheet 6 of 9.**

7. **QUESTION:** On page 8 of 9 in the plans, there is a detail for a concrete flume. I did not see a flume on the plans. Is there a concert flume included in this project?

ANSWER: **No flume construction is required**

8. **QUESTION:** The bid schedule, item 4, says "Construction Lay-out" excludes Sanitary. Will the City be providing lay-out and as-built information For the sanitary sewer main line and services? I did not see an explanation of this in the bid documents?

ANSWER: **No, all construction layout should be include in this line item. The bid form has been revised and is included with this RFI (Addendum No. 1).**

9. **QUESTION:** I am confused on the terminology on bid item #13. Item is called out a "Mitered Endwall" plans indicate this is a mitered end section not an endwall. Please verify are we are constructing mitered ends on the end of the pipes or endwalls?

ANSWER: **Mitered end sections as shown on the plans shall be constructed. The bid form has been revised and is included with this RFI (Addendum No. 1).**

10. **QUESTION:** Days for construction are shown as 90 days substantial and 120 days. This time frame seems short for the amount of work involved. Could the time frame be lengthened?

ANSWER: **The NTP will be issued once materials are obtained. We feel that the 120-day timeframe is sufficient to get the construction completed.**

All other conditions of this bid remain the same.

Please acknowledge receipt of this addendum and include it with your submittal.

PURCHASING
DEPARTMENT

City of Fort Pierce
DEC 01 2022
Engineering Dept.

TO: **John Andrews, City Engineer**

FROM: **Latonya Hubbard, Purchasing Agent** L. Hubbard

SUBJECT: **Bid No. 2023-007 ~ The Oaks at Moore's Creek Phase II Subdivision Improvements (Avenue B to Moore's Creek)**

DATE: **December 1, 2022**

To take precautionary measures and provide a more convenient way of responding to solicitations, the Purchasing Division has implemented an additional option for interested respondents to submit their response by email (E-Bidding). Also, the copy requirement has been modified. Interested respondents are now required to submit only one (1) original and one (1) copy.

Attached is the tabulation sheet for the above referenced bid. A copy of the submittal received can be found in the **Interdepartmental Shared (R) Drive**, Purchasing, subject bid number, saved as "Submittal and the companies name" for your review. The file is available for review in the Purchasing Division.

The invitation was sent to 823 vendors. Twenty-Three (23) vendors requested specifications with one (1) responding (4.34%) plus one "No Bid" (8.69% total response).

Recommendation to award memo should be forwarded to the Purchasing Division (copy to Director of Finance) prior to submitting an agenda item.

Expiration date is **January 30, 2023**. Commission approval must be completed by this date.

SHEET No. **1** OF **9**

GENERAL NOTES

1. Bidders, before submitting Bid, must examine the Contract Documents thoroughly, including plans, specifications and quantities and must familiarize himself/herself with the site, existing project conditions, and all federal, state and local laws, ordinances, rules, regulations and policies that may affect cost, progress or performance of the Project work required by the Contract Documents and study and carefully correlate Bidder's observations with the Contract Documents, including the contract quantities, and make written requests for interpretation to the City Engineer promptly after discovering any conflicts, errors, ambiguities or inconsistencies.

2. Quantities of work and material in the Bid Form or in the plans are approximate only and for the purpose of providing Bidder with information that he (she) may use as a general guidance for his or her own quantity take-off during computation of the unit price Bid and to provide unit prices to compute for the interim Applications for Payments, and additions/deletions to the Contract.

3. Project Superintendent: The contractor shall provide a qualified Superintendent to remain on the job site at all times when work is being performed. The Superintendent shall be present at the pre- construction meeting. The contractor shall notify the local utility company by letter prior to the preconstruction meeting appointing the Superintendent for this project including a formal resume showing qualifications.

4. Bidder or Contractor must familiarize himself (herself) with the Instructions to Bidders and General Conditions that are a part of the Contract Documents prior to the submittal of the Unit Price Bid.

5. Bidder is required, before submitting bid and prior to starting of the work, familiarize himself with utilities, easements, ect. that may affect the contract work. Though considerable effort has been made by the FPUA and the City to accurately locate existing drainage and utility lines and any appurtenances prior to design, locations, elevations, dimensions and conditions are approximate and must be confirmed prior to construction.

6. It is the responsibility of the Bidder or Contractor to verify elevations, locations and conditions prior to Bid submittal or starting of the work. Any damage to utilities, structures or services shall be repaired or replaced at the contractors expense in a manner that will be approved by the City Engineer.

7. All elevations shown on the Contract Documents are referenced to National American Vertical Datum (NAVD).

8. It is the responsibility of the Contractor to notify all utility companies two working days prior to excavation, as required by Chapter 77-153 F.S.. Contractor is responsible for the coordination of utility relocation, temporary services, or any disruption of said services.

9. Asphalt shall be sawcut, removed and replaced in accordance with the open cut details shown on plans. Asphalt edges shall be smooth and on a straight line.

10. All excess material, including, but not limited to, pipe, earthwork material, structures, etc., shall be the property of the City of Ft. Pierce. The City Engineer or his designee shall determine what or how much of the excess material shall be disposed of by Contractor. Cost of disposal of all excess material shall be included in the Bid.

11. Contractor shall remove and replace all pipes, culverts, structures and appurtenances damaged during construction at no expense to the City of Ft. Pierce.

12. The limits of construction shown on the approved drawings are the maximum limit for which items will be paid by the City. Any removals or replacements beyond the construction limits without the authorization of the City Engineer, shall not be paid to Contractor.

13. Two sets of As-built drawings, and one copy of a digital format disc prepared by a PLS must be submitted with the final payment request.

14. Whenever Contractor needs to remove existing storm sewers to facilitate the placement of new facilities indicated in drawings, he (she) shall replace pipes with material of reinforced concrete pipe. Replacement of storm sewers that have been disturbed must be determined jointly by the Contractor and the City Engineer. Replacement of pipe joints may be accomplished by the use of concrete collar, per FDOT Specifications.

15. The "Trench Safety Act" shall be incorporated into this contract as enacted by the Legislature of the State of Florida to be in effect as of October 1, 1990.

16. All inlets and pipe shall be protected during construction to prevent siltation in the drainage systems by way of temporary plugs and plywood or plastic covers over the inlets. The entire drainage systems shall be cleaned of all debris prior to final acceptance. All concrete shall be a minimum 3,000 PSI.

17. All proposed elevations refer to finished grades.

18. The contractor must obtain a water use permit prior to construction dewatering unless the work qualifies for a general permit pursuant to subsection 40E-20.302(4), F.A.C.

19. All construction must comply with the City of FT. Pierce Code of Ordinances and the FDOT Roadway and Traffic Design Standards, latest edition.

20. All disturbed areas shall be sodded upon completion of grading after as-built grade elevations are approved by the Engineer.

21. Backfill to be compacted in no greater than one (1) foot lifts to the density of the undisturbed adjacent soils.

22. There is to be no off-site hauling without prior approval and all excavated material shall be used on-site.

23. A stable permanent and accessible elevation reference shall be established on or within one hundred feet (100') of all permitted discharge structures no later than the submission of the certification to the water management district. The location of the elevation reference must be note on or within the certification report.

24. Pipe culverts and storm sewers shall be constructed and installed in accordance with section 430 F.D.O.T. Standard Specifications for Road and Bridge Construction, latest edition and City of Fort Pierce Specifications.

25. Erosion control measures shall be taken by contractor during construction as per FDOT Standard Index No. 102:

A. Silt Fence shall be installed along the entire perimeter of the project adjacent to any soil disturbing activities.
B. All drainage structures are to be protected during construction as per FDOT Index Standard No. 102.
C. All fencing, grading , signing, and sodding shall be maintained during the contract life. All damaged work shall be restored at no cost to the City.

26. No trees are to be removed or relocated without prior approval from the City of Fort Pierce field engineer (City permit required for any tree removal).

27. Complete "As-Built" information relative to location, size and depth of new pipes, manholes, inlets, etc. Shall be accurately recorded by the contractor and submitted (signed and sealed by a Florida certified P.L.S.) to the City of Fort Pierce, Engineering Department prior to final acceptance of the work. All record information on existing utility crossings encountered during construction, including but not limited to pipes, inlets, manholes, etc. Shall be recorded by a Florida registered surveyor and shown on the record drawings. The cost of signed and sealed as-builts shall be included in overall bid and no additional compensation will be allowed.

28. All drainage pipes shall be approved by City of Fort Pierce Engineering Department. The contractor shall construct a filter fabric jacket at all proposed storm sewer joints as per FDOT Index 280. Cost of the filter fabric jacket shall be included in unit pipe costs.

29. No existing base material removed in excavation shall be reused as proposed base material.

30. Staging and material storage shall not be conducted on abutting private property without written approval from the owner. Staging and storage shall be conducted within public R/W and /or construction easements (access license agreements).

4 OF **9**

SOD

1. THE SOD SHALL BE CERTIFIED TO MEET FLORIDA STATE PLANT BOARD SPECIFICATIONS, ABSOLUTELY TRUE TO VARIETAL TYPE AND FREE FROM WEEDS, FUNGUS, INSECTS AND DISEASE OF ANY KIND. ALL SODDED AREAS SHALL BE GRASSED AS SPECIFIED ON PLANS AND SURVIVAL GUARANTEED FOR NINETY DAYS FROM DATE OF REPLACEMENT. SURVIVAL OF ALL RELOCATED TREES SHALL BE GUARANTEED FOR 1 YEAR AFTER TRANSPLANTING.
2. SODDING SHALL CONSIST OF SITE PREPARATION, FURNISHING AND PLACING SOD, STAPLES AND FERTILIZER AND IRRIGATING AT THE RATES AND MANNER DESCRIBED IN THIS SPECIFICATION FOR THE DESIGNATED AREAS.
3. UNLESS NOTED OTHERWISE ON LANDSCAPE PLANS, SOD SHALL BE ARGENTINE BAHIA GRASS AND SHALL BE 12-INCH BY 12-INCH SQUARES OR OTHER COMMERCIALLY AVAILABLE RECTANGLES. THE SOD SHALL BE SUFFICIENTLY THICK (MINIMUM THICKNESS OF 2 INCHES) TO PROVIDE A DENSE STAND OF LIVE GRASS. THE SOD SHALL HAVE BEEN GROWN ON MINERAL SOIL. SOD SHALL BE LIVE, FRESH, AND UNINJURED AT THE TIME OF PLANTING AND SHALL BE PROTECTED FROM DRYING OUT BY SHADING AND WATERING FROM THE TIME IT IS DUG UNTIL PLANTING.
4. FERTILIZER SHALL BE EITHER IN THE LIQUID OR DRY FORM. FERTILIZER SHALL BE UNIFORM IN COMPOSITION, FREE-FLOWING AND SUITABLE FOR APPLICATION WITH STANDARD EQUIPMENT. THE FERTILIZER SHALL CONFORM TO THE FLORIDA FERTILIZER LAWS IN EFFECT ON THE DATE OF IT BEING PLACED AND SHALL BE DELIVERED IN BAGS, BOTTLES, DRUMS, OR OTHER CONVENIENT CONTAINERS, EACH FULLY LABELED AND BEARING THE NAME, TRADEMARK, ANALYSIS, AND WARRANTY OF THE PRODUCT. FERTILIZER SHALL HAVE AN AVAILABLE PLANT FOOD ANALYSIS OF 18-0-10 OR EQUIVALENT PLANT FOOD VALUE AND SHALL BE MIXED WITH THE TOP 3 TO 4 INCHES OF SOIL. FERTILIZER SHALL BE APPLIED AT THE RATE OF 1 POUND PER 1,000 SQ. FT. NOT TO EXCEED 2-4 LBS. PER YEAR. ALL FERTILIZERS MUST BE AT LEAST 50% SLOW RELEASE NITROGEN AND CONTAIN NO PHOSPHORUS UNLESS THE SITE HAS BEEN TESTED AND VERIFIED AS PHOSPHORUS DEFICIENT BY THE UF-IFAS EXTENSION OFFICE. ALL FERTILIZER APPLICATION SHALL BE IN ACCORDANCE WITH CITY OF FORT PIERCE ORDINANCES.

SOIL EROSION PLAN

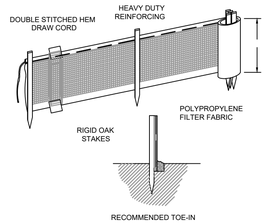

1. NO POLLUTION OR EROSION CAUSED BY THIS PROJECT WILL BE ALLOWED IN THE STORMWATER DRAINAGE SYSTEM. THE CONTRACTOR SHALL INSTALL ANY DEVICES NECESSARY TO PREVENT POLLUTION OR EROSION. THE COST OF POLLUTION AND EROSION CONTROL SHALL BE INCIDENTAL TO THE COST OF THE CONSTRUCTION.
2. PRIOR TO CONSTRUCTION, THE CONTRACTOR SHALL SUBMIT A SITE SPECIFIC SOIL EROSION CONTROL PLAN. IN GENERAL, THE SOIL EROSION CONTROL PLAN SHALL REQUIRE THAT ALL ON-SITE SOILS WILL REMAIN ON-SITE AND WILL NOT ERODE INTO THE ADJACENT ROADSIDE SWALES, ADJACENT PROPERTIES OR RETENTION DITCHES. ALL EXISTING SWALES SHALL REMAIN SODDED DURING CONSTRUCTION. THE CONTRACTOR SHALL SCARIFY ONLY AS NECESSARY TO CONSTRUCT THE PROJECT. THE CONTRACTOR SHALL SCARIFY AREAS TO PLACE VARIOUS PIPE WORK. AFTER PLACEMENT OF THE PIPE, THESE TRENCHES SHALL BE BACKFILLED AND COMPACTED TO 98% MODIFIED PROCTOR AASHTO T-180. PRIOR TO DISCHARGE FROM THE SITE, SILTATION BARRIERS SHALL BE UTILIZED AS PER THE MOST RECENT FLORIDA STORMWATER EROSION AND SEDIMENTATION CONTROL INSPECTOR'S MANUAL. THE DRAINAGE WHICH OUTFALLS TO THE RETENTION AREAS SHALL BE STABILIZED AND SODDED IMMEDIATELY UPON COMPLETION OF CONSTRUCTION. ANY DEWATERING OR PUMPING OF WATER INTO THE ROADSIDE SWALES OR RETENTION SWALES SHALL BE STAKED WITH SILTATION FENCES AS PER THE MOST RECENT FLORIDA STORMWATER EROSION AND SEDIMENTATION CONTROL INSPECTOR'S MANUAL TO AVOID FILLING THESE AREAS. UPON COMPLETION OF THE SITE WORK, ALL AREAS SHALL BE SODDED TO AVOID EROSION. CONTRACTOR IS REQUIRED TO COMPLY WITH ALL STATE WATER QUALITY CRITERIA. SPECIFICALLY, NO OFF-SITE DISCHARGES WILL BE ALLOWED WHICH EXCEED THE STATE TURBIDITY CRITERIA.

WATER QUALITY NOTES

1. THE CONTRACTOR MUST MAINTAIN A COPY OF THE LATEST LOCAL WATER MANAGEMENT DISTRICT SURFACE WATER PERMIT, COMPLETE WITH ALL CONDITIONS, ATTACHMENTS, EXHIBITS AND PERMIT MODIFICATIONS IN GOOD CONDITION AT THE CONSTRUCTION SITE. THE COMPLETE PERMIT MUST BE AVAILABLE FOR REVIEW UPON REQUEST BY DISTRICT REPRESENTATIVES. THE CONTRACTOR SHALL REVIEW THE COMPLETE PERMIT PRIOR TO COMMENCEMENT OF THE ACTIVITY AUTHORIZED BY THE PERMIT.
2. ALL ACTIVITIES SHALL BE IMPLEMENTED AS SET FORTH IN THE PLANS, SPECIFICATIONS AND PERFORMANCE CRITERIA AS APPROVED BY LOCAL SURFACE WATER PERMIT. ANY DEVIATION FROM THE PERMITTED ACTIVITY AND THE CONDITIONS FOR UNDERTAKING THAT ACTIVITY SHALL BE CONSIDERED A VIOLATION OF THE PERMIT. PRIOR TO ANY WORK COVERED BY A PERMIT FROM SOUTH FLORIDA WATER MANAGEMENT DISTRICT (SFWMD), A NOTICE OF CONSTRUCTION COMMENCEMENT (FORM 0960) MUST BE SUBMITTED TO SFWMD BY THE PERMITTEE OR AUTHORIZED AGENT.
3. PRIOR TO AND DURING CONSTRUCTION, THE CONTRACTOR SHALL IMPLEMENT AND MAINTAIN ALL EROSION AND SEDIMENT CONTROL MEASURES (BEST MANAGEMENT PRACTICES) REQUIRED TO RETAIN SEDIMENT ON-SITE AND TO PREVENT VIOLATIONS OF STATE WATER QUALITY STANDARDS. ALL PRACTICES MUST BE IN ACCORDANCE WITH THE GUIDELINES AND SPECIFICATIONS IN CHAPTER 6 OF THE FLORIDA LAND DEVELOPMENT MANUAL: A GUIDE TO SOUND LAND AND WATER MANAGEMENT (FLORIDA DEPARTMENT OF ENVIRONMENTAL REGULATIONS 1988), WHICH ARE HEREBY INCORPORATED BY REFERENCE, UNLESS A PROJECT'S SPECIFIC EROSION AND SEDIMENT CONTROL PLAN IS APPROVED AS PART OF THE SFWMD PERMIT, IN WHICH CASE THE PRACTICES MUST BE IN ACCORDANCE WITH THE PLAN. IF SITE'S SPECIFIC CONDITIONS REQUIRE ADDITIONAL MEASURES DURING ANY PHASE OF CONSTRUCTION OR OPERATION TO PREVENT EROSION OR CONTROL SEDIMENT, BEYOND THOSE SPECIFIED IN THE EROSION AND SEDIMENT CONTROL PLAN, THE CONTRACTOR SHALL IMPLEMENT ADDITIONAL BEST MANAGEMENT PRACTICES AS NECESSARY, IN ACCORDANCE WITH THE SPECIFICATIONS IN CHAPTER 6 OF THE FLORIDA LAND DEVELOPMENT MANUAL: A GUIDE TO SOUND LAND AND WATER MANAGEMENT (FLORIDA DEPARTMENT OF ENVIRONMENTAL REGULATION 1988). THE CONTRACTOR SHALL CORRECT ANY EROSION OR SHOALING THAT CAUSES ADVERSE IMPACTS TO THE WATER RESOURCES AT NO ADDITIONAL COST TO OWNER.
4. STABILIZATION MEASURES SHALL BE INITIATED FOR EROSION AND SEDIMENT CONTROL ON DISTURBED AREAS AS SOON AS PRACTICABLE IN PORTIONS OF THE SITE WHERE CONSTRUCTION ACTIVITIES HAVE TEMPORARY OR PERMANENTLY CEASED, BUT IN NO CASE MORE THAN SEVEN (7) DAYS AFTER THE CONSTRUCTION ACTIVITY IN THAT PORTION OF THE SITE HAS TEMPORARILY OR PERMANENTLY CEASED.

CLEAN-UP

1. THE CONTRACTOR SHALL MAINTAIN THE JOB SITE IN A NEAT CONDITION AT ALL TIMES AND SHALL RESTORE / REPAIR ALL DRIVEWAYS, SIDEWALKS, UTILITIES, LANDSCAPING, IRRIGATION SYSTEMS, ETC., AFFECTED BY CONSTRUCTION ACTIVITIES.
2. THE CONTRACTOR SHALL REMOVE ALL EXCESS MATERIALS, DEBRIS, EQUIPMENT, ETC., FROM THE JOBSITE IMMEDIATELY AFTER COMPLETION OF CONSTRUCTION OPERATIONS.
3. FOR FURTHER SITE MAINTENANCE REQUIREMENTS THE CONTRACTOR IS REFERRED TO THE "AGREEMENT BETWEEN OWNER AND CONTRACTOR".
4. UNLESS OTHERWISE SPECIFIED OR NOTED; ALL DISTURBED AREAS TO BE RESTORED BY CONTRACTOR TO PRE-CONSTRUCTION CONDITION OR BETTER PRIOR TO ACCEPTANCE BY THE OWNER OR LOCAL APPROVING AUTHORITY.

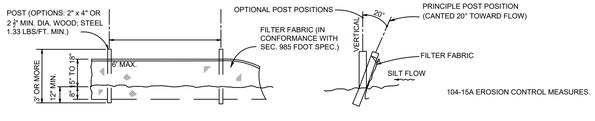

NOTES:

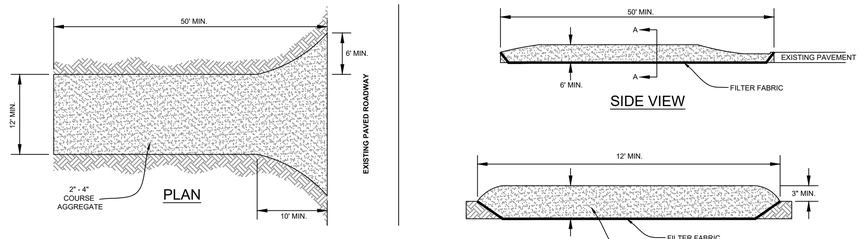

1. SILT FENCE SHALL BE INSTALLED PER MANUFACTURES SPECIFICATIONS PRIOR TO THE START OF CONSTRUCTION AND SHALL NOT BE REMOVED UNTIL CONSTRUCTION IS COMPLETE.
2. THE CONTRACTOR SHALL INSPECT AND REPAIR THE SILT FENCE AFTER EACH RAIN EVENT AND REMOVE SEDIMENT WHEN NECESSARY.
3. REMOVED SEDIMENT SHALL BE DEPOSITED IN AN AREA THAT WILL NOT CONTRIBUTE SEDIMENT OFFSITE AND CAN BE PERMANENTLY STABILIZED.
4. THE SILT FENCE SHALL BE PLACED ON SLOPE CONTOUR TO MAXIMIZE ITS PONDING EFFICIENCY.

COST OF FILTER FABRIC JACKET TO BE INCLUDED
IN COST OF PIPE CULVERTS
FOR ALL PIPE TYPES - CONCRETE PIPE SHOWN

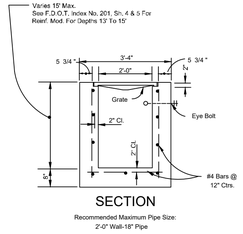

ALL STORM PIPE JOINTS SHALL BE WRAPPED

STORM PIPE JOINTS SHALL BE WRAPPED ACCORDING TO THIS DETAIL. COMPLETELY WRAP THE OUTSIDE OF EACH JOINT WITH EITHER A WOVEN OR NON-WOVEN FILTER FABRIC WHICH PROVIDES AN AOS OF A NO. 70 TO NO. 100 SIEVE (150 TO 212 um), A MINIMUM OF 24 INCHES (600 mm) IN WIDTH AND A LENGTH TO PROVIDE A MINIMUM OVERLAP OF 24 INCHES (600 mm). SECURE FILTER FABRIC AGAINST THE OUTSIDE OF THE PIPE BY STEEL OR PLASTIC STRAPPING OR BY OTHER METHODS APPROVED BY THE ENGINEER. (REF: F.D.O.T. INDEX 280 FOR DETAILS OF CONSTRUCTION).

FILTER FABRIC DETAIL

PLAN

SECTION

Recommended Maximum Pipe Size:
2'-0" Wall-18" Pipe

GENERAL NOTES

1. These inlets are suitable for bicycle and pedestrian areas and are to be used in ditches, medians and other areas subject to infrequent traffic loadings but are not to be placed in areas subject to any heavy wheel loads.

2. Inlets subject to minimal debris should be constructed without slots. Where debris is a problem inlets should be constructed with slots. Slotted inlets located within roadway clear zones and in areas accessible to pedestrians shall have traversable slots. The traversable slot modification is not adaptable to inlet Type H. Slots may be constructed at either or both ends as shown on plans.

3. Steel grates are to be used on all inlets where bicycle traffic is anticipated. Steel grates are to be used on all inlets with traversable slots. Either cast iron or steel grates may be used on inlets without slots where bicycle traffic is not anticipated. Either cast iron or steel grates may be used on all inlets with non-traversable slots. Subject to the selection described above, when Alternate G grate is specified in the plans, either the steel grate, hot dipped galvanized after fabrication, or the cast iron grate may be used, unless the plans stipulate the particular type.

4. Recommended maximum pipe sizes shown are for concrete pipe. Pipe sizes larger than those recommended must be checked for fit.

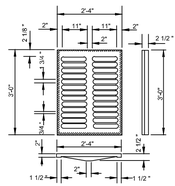

5. All exposed corners and edges of concrete are to be chamfered 3/4 ".

6. Pavement to be used on inlets without slots and inlets with non-traversable slots only when called for in the plans; but required on all traversable slot inlets. Cost to be included in contract unit price for inlets. Quantities shown are for information only.

7. Traversable slots constructed in existing inlets shall be paid for as inlets partial, and shall include the cost for slot openings, paving and any required replacement grates.

8. Sodding to be used on all inlets not located in paved areas and paid for under contract unit price for Sodding SY.

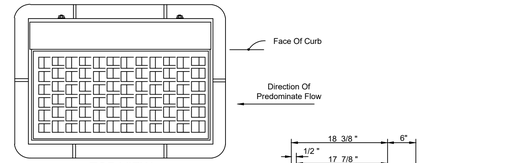

9. For supplementary details see F.D.O.T. Specifications Index No. 201.

FORT PIERCE UTILITIES AUTHORITY
WATER DISTRIBUTION NOTES

1. ALL CONSTRUCTION MATERIAL, INSTALLATION AND TESTING SHALL CONFORM TO THE STANDARD SPECIFICATIONS OF THE FORT PIERCE UTILITIES AUTHORITY.
2. WATER MAINS WHERE SPECIFIED AS POLYVINYL CHLORIDE (PVC) SHALL CONFORM TO AWWA C-900 OR C-905, PRESSURE CLASS 150, DR (18). WATER MAINS WHERE SPECIFIED AS POLYETHYLENE (PE) SHALL CONFORM TO AWWA C-901 OR C-906, STANDARD CODE DESIGNATION PE3408, PIPE CLASS 200, DIMENSION RATIO (DR) 17 FOR DIRECT BURY, (DR) 11 FOR DIRECTIONAL BORING, AND (DR) 9 FOR 2 INCH AND SMALLER PIPELINES.
3. WATER MAIN, WHERE SPECIFIED AS DUCTILE IRON PIPE , SHALL CONFORM TO ANSI/AWWA C151/A21.51 AND SHALL BE PRESSURE CLASS 250 (MINIMUM).
4. POLYVINYL CHLORIDE WATER MAIN SHALL BE BLUE IN COLOR OR WHITE IN COLOR WITH BLUE STRIPES. THE USE OF IDENTIFICATION TAPE ATTACHED TO THE TOP OF THE PIPE MAY BE USED IN LIEU OF MARKING ON THE PIPE, ALSO DIP PIPE SHALL REQUIRE THE USE OF IDENTIFICATION TAPE AND THAN WIRE.
5. FITTINGS SHALL BE DUCTILE IRON CONFORMING TO ANSI/AWWA C-110/A21.10, CLASS 250 MIN., CEMENT LINED AND FACTORY COATED
6. GATE VALVES SHALL BE MUELLER RESILIENT SEAT, KENNDY KEN-SEAL, AMERICAN OR APPROVED EQUAL. VALVES SHALL CONFORM TO AWWA C-509.
7. WATER LINES SHALL BE BACKFILLED AND COMPACTED IN ACCORDANCE WITH FPUA DESIGN AND CONSTRUCTION STANDARDS. THE CONTRACTOR SHALL SUBMIT CERTIFIED DENSITY TESTS AS REQUIRED BY FPUA ENGINEERING AND THE CITY, COUNTY, FDOT, IN CASES WHERE PAVED AREAS FALL WITHIN THE JURISDICTION OF LOCAL OR STATE AGENCIES, THE COMPACTION REQUIREMENTS SHALL NOT BE LESS THAN THE MINIMUM REQUIRED BY THE APPROPRIATE RESPONSIBLE AGENCY.
8. NO FIELD CHANGES OR DEVIATIONS FROM THE DESIGN SHALL BE MADE WITHOUT PRIOR APPROVAL OF THE FPUA ENGINEER AND CITY/COUNTY/FDOT ENGINEER.
9. THE CONTRACTOR SHALL NOTIFY FPUA ENGINEERING AND CITY/COUNTY/FDOT ENGINEERING 48 HOURS PRIOR TO COMMENCING CONSTRUCTION.
10. A PRE-CONSTRUCTION CONFERENCE BETWEEN THE ENGINEER, THE CONTRACTOR, FPUA, AND CITY/ COUNTY/FDOT ENGINEER SHALL BE MANDATORY PRIOR TO COMMENCEMENT OF CONSTRUCTION.
11. TRAFFIC CONTROL, BARRICADES, ETC., SHALL BE IN ACCORDANCE WITH THE FLORIDA DEPARTMENT OF TRANSPORTATION STANDARDS AND APPROVED BY THE CITY ENGINEER.
12. MINIMUM COVER SHALL BE 36 INCHES EXCEPT AS APPROVED BY THE UTILITIES ENGINEER AND CITY/ COUNTY/FDOT ENGINEER. PIPES WITH COVER LESS THAN 30 INCHES SHALL BE CONSTRUCTED OF DUCTILE IRON OR IN PVC CASING.
13. DISTURBED AREAS SHALL BE RESTORED IN CONFORMANCE WITH THE APPLICABLE GOVERNING AGENCY REQUIREMENTS.
14. EXISTING UTILITIES AND DRAINAGE SHALL BE FIELD VERIFIED PRIOR TO CONSTRUCTION AND PROTECTED BY THE CONTRACTOR.
15. WATER MAINS SHALL BE TESTED AND DISINFECTED IN ACCORDANCE WITH THE APPLICABLE FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION AND AWWA C-651 FOR DISINFECTION.

FORT PIERCE UTILITIES AUTHORITY
WATER DISTRIBUTION NOTES
CONTINUED

16. THE CONTRACTOR SHALL BE RESPONSIBLE FOR MAINTAINING EXISTING UTILITIES AND DRAINAGE.
17. THE CONTRACTOR SHALL FURNISH RECORD DRAWING INFORMATION TO THE ENGINEER INCLUDING LOCATIONS OF VALVES, FITTINGS, SERVICE CONNECTIONS, BLOWOFFS, AIR RELEASE VALVES, AND ANY OTHER PERTINENT INFORMATION NECESSARY TO LOCATE ITEMS CONSTRUCTED UNDER THIS PROJECT, AS REQUIRED BY THE UTILITIES ENGINEER.
18. THE CONTRACTOR SHALL TAP EXISTING LINES UNDER THE SUPERVISION OF THE FORT PIERCE UTILITIES AUTHORITY ONLY AFTER TESTING AND DISINFECTION HAS BEEN COMPLETED AND APPROVED ON THE TAPPING VALVE AND SLEEVE.
19. WATER MAIN SHALL BE MARKED BY THE USE OF CONTINUOUS 10 GAUGE THHN MULTI STRANDED WIRE (BLUE IN COLOR) AND IDENTIFICATION TAPE WITH "WATER" MARKED ON TAPE, PERMANENTLY ATTACHED TO THE TOP OF THE WATER MAIN IN ACCORDANCE WITH THE FORT PIERCE UTILITIES AUTHORITY SPECIFICATIONS.
20. SERVICE TAPS SHALL BE PLACED APPROXIMATELY TEN FEET AWAY FROM GATE VALVES, AS SHOWN, FOR TESTING. FOLLOWING TESTING AND STERILIZATION OF WATER LINE, CONTRACTOR SHALL PLACE A BRASS PLUG IN CORPORATION STOPS AND CURB STOPS SHALL BE REMOVED FROM TESTING LOCATIONS.
21. MECHANICAL RESTRAINTS TO BE USED ON ALL FITTINGS AND PLACED IN ACCORDANCE WITH MANUFACTURER'S OR ENGINEER'S RECOMMENDATIONS (WHICHEVER IS MORE STRINGENT) AND FPUA REQUIREMENTS.
22. ALL MAINS SHALL BE TESTED AT A MINIMUM OF 150 PSI. TESTING METHODS SHALL CONFORM TO AWWA C-600. – 2 HR MINIMUM TEST

$$L = \frac{SD(P)^{1/2}}{148,000}$$

L= LEAKAGE IN GPH
S= LENGTH OF PIPE IN FEET
D= PIPE DIAMETER IN INCHES
P= TESTING PRESSURE IN PSI

23. PRIOR TO ANY TESTING, ALL MAINS 6" IN DIA. AND LARGER SHALL HAVE A SWAB PASSED THRU THE ENTIRE LENGTH OF THE LINE. NOTE: SWAB SHOULD BE PLACED IN 1st. JOINT OF NEW LINE. END OF MAIN SHOULD BE "TURNED UP" AT 45% AND EXTENDED SO THAT SWABBING AND A FULL BORE FLUSH CAN BE ACCOMPLISHED. BLOW-OFF ASSY CAN THEN BE PLACED. WHERE LINES BRANCH, SWABS WILL BE PLACED IN BRANCH LINES AND SEQUENTIALLY SWABBED AND FLUSHED.
24. A MINIMUM SIX FEET AND PREFERABLY TEN FEET HORIZONTAL SEPARATION SHALL BE MAINTAINED BETWEEN THE WATER MAIN AND ANY WASTEWATER LINES. 6 INCHES MINIMUM VERTICAL SEPARATION IF WATER MAIN IS OVER WASTEWATER. WITH 12 INCHES IF WATER MAIN IS UNDER SHALL BE MAINTAINED BETWEEN THE WATER MAIN AND ANY WASTWATER LINES. THE DISTANCE SHALL BE MEASURED FROM OUTSIDE OF PIPE TO OUTSIDE OF PIPE OR STRUCTURE. WHERE THIS MINIMUM SEPARATION CANNOT BE MAINTAINED, THE CROSSING SHALL BE ARRANGED SO THAT THE WASTEWATER PIPE JOINTS AND THE WATER MAIN PIPE JOINTS ARE EQUIDISTANT FROM THE POINT OF CROSSING, AND THE WATER MAIN SHALL BE CONSTRUCTED OF DUCTILE IRON PIPE (DIP) AT THE CROSSING. SUFFICIENT LENGTHS OF DIP MUST BE USED TO PROVIDE A MINIMUM SEPARATION OF 10 FEET BETWEEN ANY TWO JOINTS. ALL JOINTS ON THE WATER MAIN WITHIN 20 FEET OF THE CROSSING MUST BE MECHANICALLY RESTRAINED. A MINIMUM VERTICAL CLEARANCE OF 6 INCHES MUST BE MAINTAINED AT ALL CROSSINGS.
25. WHERE A WATER MAIN IS TO BE INSTALLED BELOW A STORM DRAIN PIPE, A MINIMUM OF 6 INCHES OF VERTICAL CLEARANCE BETWEEN PIPES SHALL BE CONSTRUCTED OF DIP AT THE CROSSING, AND SHALL BE MECHANICALLY RESTRAINED WITHIN 20 FEET OF THE CROSSING.
26. CONTRACTOR SHALL COMPLY WITH FLORIDA TRENCH SAFETY ACT REQUIREMENTS.

FORT PIERCE UTILITIES AUTHORITY WASTEWATER CONSTRUCTION NOTES

1. ALL CONSTRUCTION MATERIAL, INSTALLATION AND TESTING SHALL CONFORM TO THE STANDARD SPECIFICATIONS OF THE FORT PIERCE UTILITIES AUTHORITY.
2. GRAVITY SEWER MAIN SHALL BE POLYVINYL CHLORIDE SDR-26, GREEN OR WHITE IN COLOR, GRAVITY SEWER MAIN SHALL HAVE LOCATOR TAPE WITH "SEWER" MARKED ON TAPE AND SHALL CONFORM TO ASTM D-3034.
3. THE MANHOLE BASE SHALL BE SET ON A FIRM, DRY AND STABLE OR COMPACTED BASE FOUNDATION. IF NECESSARY, THE CONTRACTOR SHALL UTILIZE ROCK TO PROVIDE A FIRM AND SUITABLE MANHOLE BASE FOUNDATION.
4. WASTEWATER LINES SHALL BE BACKFILLED AND COMPACTED IN ACCORDANCE WITH FPUA DESIGN AND CONSTRUCTION STANDARDS. THE CONTRACTOR SHALL SUBMIT CERTIFIED DENSITY TESTS AS REQUIRED BY FPUA ENGINEERING AND THE CITY ENGINEERING DEPARTMENT. IN CASES WHERE PAVED AREAS FALL WITHIN THE JURISDICTION OF LOCAL OR STATE AGENCIES, THE COMPACTION REQUIREMENTS SHALL NOT BE LESS THEN THE MINIMUM REQUIRED BY THE APPROPRIATE RESPONSIBLE AGENCY.
5. A 1% MINIMUM SLOPE SHALL BE MAINTAINED ON ALL SANITARY SERVICE LATERALS.
6. THE CONTRACTOR SHALL FURNISH RECORD DRAWING INFORMATION TO THE ENGINEER CONSISTING OF PIPE SIZES, LOCATION OF SERVICE TEE WYES, DIAMETER OF SERVICES, LOCATION OF ANY FITTINGS, FINAL RIM AND INVERT ELEVATION OF ALL MANHOLES AND ANY OTHER PERTINENT INFORMATION NECESSARY TO LOCATE ITEMS CONSTRUCTED UNDER THIS PROJECT.
7. MAINTAIN SIX FEET AND PREFERABLY 10 FEET HORIZONTAL DISTANCE BETWEEN WATER MAINS AND SEWER MAINS AS A MINIMUM.
8. WASTEWATER FORCE MAINS, WASTEWATER COLLECTION LINES, AND STORM SEWERS SHOULD CROSS UNDER WATER MAINS WHENEVER POSSIBLE. A MINIMUM VERTICAL DISTANCE OF 12 INCHES BETWEEN THE INVERT OF THE UPPER PIPE AND THE CROWN OF THE LOWER PIPE SHALL BE PROVIDED WHENEVER POSSIBLE. WHERE THIS MINIMUM SEPARATION CANNOT BE MAINTAINED, THE CROSSING SHALL BE ARRANGED SO THAT THE WASTEWATER PIPE JOINTS AND THE WATER PIPE JOINTS ARE EQUIDISTANCE FROM THE POINT OF CROSSING, AND THE WATER MAIN SHALL BE CONSTRUCTED OF DUCTILE IRON PIPE (DIP) AT THE CROSSING. SUFFICIENT LENGTHS OF DIP MUST BE USED TO PROVIDE A MINIMUM SEPARATION OF 10 FEET BETWEEN ANY TWO JOINTS. ALL JOINTS ON THE WATER MAIN WITHIN 20 FEET OF THE CROSSING MUST BE MECHANICALLY RESTRAINED. A MINIMUM VERTICAL CLEARANCE OF 6 INCHES MUST BE MAINTAINED AT ALL CROSSINGS.
9. A PRE-CONSTRUCTION CONFERENCE BETWEEN THE ENGINEER, THE CONTRACTOR, AND FPUA/CITY COUNTY/FDOT ENGINEER SHALL BE MANDATORY PRIOR TO THE COMMENCEMENT OF CONSTRUCTION.
10. NO FIELD CHANGES OR DEVIATIONS FORM THE DESIGN SHALL BE MADE WITHOUT PRIOR APPROVAL FPUA/CITY/COUNTY/FDOT ENGINEER.
11. TRAFFIC CONTROL, BARRICADES, ETC. SHALL BE IN ACCORDANCE WITH THE FLORIDA DEPARTMENT OF TRANSPORTATION STANDARDS.
12. CONTRACTOR SHALL NOTIFY FORT PIERCE UTILITIES AUTHORITY 48 HOURS PRIOR TO COMMENCING CONSTRUCTION.
13. WASTEWATER FORCE MAIN SHALL BE POLYVINYL CHLORIDE CONFORMING TO AWWA C-900, AND SHALL BE CLASS 150, DR-18.
14. WASTEWATER FORCE MAIN SHALL BE GREEN IN COLOR.
15. FITTINGS SHALL BE DUCTILE IRON, CONFORMING TO ANSI/AWWA C-110/A21.10 CLASS 250 MIN. AND INTERIOR EPOXY COATED.
16. WASTEWATER FORCE MAIN SHALL BE MARKED BY THE USE OF CONTINUOUS 10 GAUGE THHN WIRE (GREEN IN COLOR) PERMANENTLY ATTACHED TO THE TOP OF THE FORCE MAIN WITH LOCATOR TAPE MARKED "SEWER" ON TAPE IN ACCORDANCE WITH FPUA SPECIFICATIONS.
17. MINIMUM COVER SHALL BE 36 INCHES. PIPES WITH COVER LESS THAN 30 INCHES SHALL REQUIRE PRIOR APPROVAL OF THE UTILITIES ENGINEER AND SHALL BE CONSTRUCTED OF DUCTILE IRON PIPE.
18. EACH SERVICE LATERAL WILL BE MARKED WITH A LOCATOR BALL AS MANUFACTURED BY 3M CORPORATION, OR APPROVED EQUAL AS REQUIRED BY FPUA ENGINEER.
19. ALL MANHOLES SHALL HAVE SEWER RAIN GUARDS INSTALLED AS REQUIRED BY FPUA ENGINEER.
20. THE CONTRACTOR SHALL COMPLY WITH THE FLORIDA TRENCH SAFETY ACT REQUIREMENTS.

STANDARD SEPARATION STATEMENT FOR WATER / SEWER CONFLICTS

1. SANITARY SEWER, FORCE MAINS, AND STORM SEWERS SHOULD CROSS UNDER WATER MAINS WHENEVER POSSIBLE. SANITARY SEWERS, FORCE MAINS AND STORM SEWERS CROSSING UNDER WATER MAINS SHALL BE LAID TO PROVIDE A MINIMUM VERTICAL DISTANCE OF 6 INCHES, PREFERABLY 12 INCHES BETWEEN THE INVERT OF THE UPPER PIPE AND THE CROWN OF THE LOWER PIPE WHEN ABOVE, AND AT LEAST 12 INCHES OF SEPARATION WHEN THE WATER MAIN IS BELOW.

WHERE SANITARY SEWER, FORCE MAINS, STORM SEWERS MUST CROSS A WATER MAIN WITH LESS THAN 6 INCHES VERTICAL SEPARATION, BOTH THE SEWER AND WATER MAIN SHALL BE CONSTRUCTED OF DUCTILE IRON PIPE (DIP) CENTERED ON THE CROSSING. (DIP IS NOT REQUIRED FOR STORM SEWERS.) SUFFICIENT LENGTHS OF DIP MUST BE USED TO PROVIDE A MINIMUM SEPARATION OF 10 FEET BETWEEN TWO JOINTS. ALL JOINTS ON THE WATER MAIN WITHIN 20 FEET OF THE CROSSING MUST BE MECHANICALLY RESTRAINED.

ALL CROSSINGS SHALL BE ARRANGED SO THAT THE SEWER PIPE JOINTS AND WATER MAIN PIPE JOINTS ARE EQUIDISTANT FROM THE POINT OF CROSSING (PIPES CENTERED ON THE CROSSING). AT SUCH CROSSINGS PIPES SHALL BE ARRANGED SO THAT ALL WATER MAIN JOINTS ARE AT LEAST THREE FEET FROM ALL JOINTS IN SANITARY SEWER, FORCE MAINS, WASTEWATER FORCE MAINS, OR PIPELINES CONVEYING RECLAIMED WATER REGULATED UNDER PART III OF CHAPTER 62-610, F.A.C., AND AT LEAST SIX FEET FROM ALL JOINTS IN GRAVITY OR PRESSURE TYPE SANITARY SEWERS, WASTEWATER FORCE MAINS, OR PIPELINES CONVEYING RECLAIMED WATER NOT REGULATED UNDER PART III OF CHAPTER 62-610, F.A.C.

WHERE A NEW PIPE CONFLICTS WITH AN EXISTING PIPE WITH LESS THAN 6 INCHES VERTICAL CLEARANCE, THE NEW PIPE SHALL BE CONSTRUCTED OF DIP (EXCEPT STORM SEWERS) AND NEW PIPES SHALL BE ARRANGED TO MEET THE CROSSING REQUIREMENTS ABOVE.

2. A MINIMUM 3-FOOT HORIZONTAL SEPARATION SHALL BE MAINTAINED BETWEEN ANY TYPE OF STORM SEWER AND WATER MAIN IN PARALLEL INSTALLATIONS WHENEVER POSSIBLE.

A MINIMUM 3-FOOT, AND PREFERABLE 10-FOOT HORIZONTAL SEPARATION SHALL BE MAINTAINED BETWEEN VACUUM TYPE SANITARY SEWER AND WATER MAIN IN PARALLEL INSTALLATIONS WHENEVER POSSIBLE.

A MINIMUM 10-FOOT HORIZONTAL SEPARATION SHALL BE MAINTAINED BETWEEN "ONSITE SEWAGE TREATMENT AND DISPOSAL SYSTEM" AND WATER MAIN IN PARALLEL INSTALLATIONS WHENEVER POSSIBLE.

A MINIMUM 6-FOOT, AND PREFERABLE 10-FOOT HORIZONTAL SEPARATION SHALL BE MAINTAINED BETWEEN GRAVITY OR PRESSURE TYPE SANITARY SEWER, WASTEWATER FORCE MAIN, OR PIPELINE CONVEYING RECLAIMED WATER AND WATER MAIN IN PARALLEL INSTALLATIONS WHENEVER POSSIBLE. THE MINIMUM HORIZONTAL SEPARATION DISTANCE BETWEEN WATER MAINS AND GRAVITY-TYPE SANITARY SEWERS SHALL BE REDUCED TO 3 FOOT WHERE THE BOTTOM OF THE WATER MAIN IS LAID AT LEAST SIX INCHES ABOVE THE TOP OF THE SEWER

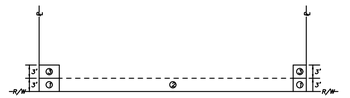

IN CASES WHERE IT IS NOT POSSIBLE TO MAINTAIN A 10-FOOT HORIZONTAL SEPARATION, THE WATER MAIN MUST BE LAID IN A SEPARATE TRENCH OR ON A UNDISTURBED EARTH SHELF LOCATED ON ONE SIDE OF THE SEWER OR FORCE MAIN AT SUCH AN ELEVATION THAT THE BOTTOM OF THE WATER MAIN IS AT LEAST 6 INCHES ABOVE THE TOP OF THE SEWER.

WHERE IT IS NOT POSSIBLE TO MAINTAIN A VERTICAL DISTANCE OF 6 INCHES IN PARALLEL INSTALLATIONS, THE WATER MAIN SHALL BE CONSTRUCTED OF DIP AND THE SEWER OR THE FORCE MAIN SHALL BE CONSTRUCTED OF DIP (EXCEPT STORM SEWER) WITH A MINIMUM VERTICAL DISTANCE OF 6 INCHES. THE WATER MAIN SHOULD ALWAYS BE ABOVE THE SEWER. JOINTS ON THE WATER MAIN SHALL BE LOCATED AS FAR APART AS POSSIBLE FROM JOINTS ON THE SEWER OR FORCE MAIN (STAGGERED JOINTS).

3. ALL DIP SHALL BE PRESSURE CLASS 250 MIN.. ADEQUATE PROTECTIVE MEASURES AGAINST CORROSION SHALL BE USED AS DETERMINED BY THE DESIGN ENGINEER.

GENERAL POLICY

WHERE COST JUSTIFIED AND OPERATIONALLY FEASIBLE, IT IS THE GENERAL POLICY OF THE F.P.U.A. TO PROVIDE WATER, ELECTRIC, SEWER AND GAS SERVICE FROM THE STREET SIDE OF A PIECE OF PROPERTY. DEPENDING ON FACTORS SUCH AS LOCATION OF EXISTING SUPPLY SOURCE FACILITIES, REAR OR SIDE LOT LINE SUPPLY MAY BE AUTHORIZED, BUT ONLY WITH PRIOR APPROVAL FROM THE F.P.U.A.

NOTES:

1. *THE PREFERRED POINT OF CONNECTION TO THE F.P.U.A. WATER METER, AREA ③ SHALL BE LOCATED IN THE CORNER OF THE PROPERTY SELECTED BY THE F.P.U.A. AS THE BEST LOCATION FOR THE WATER METER. EVERY EFFORT WILL BE MADE TO SELECT THE CORNER WHERE TWO WATER SERVICES AND METERS CAN BE CONNECTED.*
2. *IF PHYSICAL BARRIERS OR OTHER OBSTACLES PREVENT THE CONNECTION OF THE BUILDING SERVICE LINE TO THE F.P.U.A. WATER SERVICE, WITHIN AREA ③ , THE F.P.U.A. ENGINEERING DEPARTMENT MAY AUTHORIZE THE CONNECTION ALONG THE PORTION OF THE R/W LINE MARKED AREA ② , OR ALONG THE PROPERTY LINES MARKED AREA ①.*
3. HORIZONTAL SEPARATION OF WATER AND WASTEWATER SERVICES SHOULD BE A MINIMUM OF 6 FEET AND PREFERABLY 10 FEET.
4. ALL METERS SHALL BE INSTALLED IN AN UNRESTRICTED AREA FOLLOWING EASE OF ACCESS AND PROVIDING ADEQUATE PROTECTION.
5. THE F.P.U.A. SHALL BE RESPONSIBLE FOR THE MAINTENANCE AND REPAIR OF THE WATER LATERAL WITHIN THE EASEMENT OR RIGHT-OF-WAY, UP TO THE POINT OF CONNECTION.

FAX: (615) 847-7068
www.biobarrier.com

BIO-BARRIER NOTES:

1. CONTRACTOR SHALL UTILIZE BIO-BARRIER ROOT PROTECTION (OR EQUAL, AS APPROVED BY ENGINEER) IN ALL AREAS WHERE PLANT MATERIAL IS INSTALLED 10' OR LESS TO ANY UTILITY LINE, CURB, ROADWAY, PAVED SURFACE (CONC. UNIT PAVER OR CONCRETE). REFER TO DETAILS ON THIS SHEET AND MANUFACTURER'S INSTALLATION RECOMMENDATIONS FOR ADDITIONAL NOTES, DETAILS AND METHODS.
2. CONTRACTOR SHALL INSTALL BIO-BARRIER PER MANUFACTURERS RECOMMENDATIONS.
3. BIO-BARRIER SHALL BE INSTALLED FOLLOWING THE CURING OF THE CONCRETE CURB/WALK/CONC. FOOTER BELOW PAVERS WHILE TRENCHES ARE STILL OPEN. BIO-BARRIER & IRRIGATTION PIPES ADJACENT TO BIO-BARRIER LOCATIONS SHALL BE PERFORMED CONCURRENTLY.
4. CONTRACTOR TO FOLLOW ALL SAFETY RECOMMENDATIONS AND ADHERE TO ALL WARNINGS, PER PRODUCT MANUFACTURER.
5. CONTRACTOR TO STORE BIO-BARRIER PRODUCT IN ORIGINAL CONTAINER & KEEP DRY UNTIL INSTALLATION. BIO-BARRIER SHALL BE PROTECTED FROM DIRECT SUNLIGHT DURING ALL PHASES OF CONSTRUCTION.
6. CONTRACTOR SHALL REMOVE FROM SITE ALL UNUSED PORTIONS OF BIO-BARRIER AND DISPOSE OF PER STATE AND LOCAL CODES.
7. IF CONC. UNIT PAVERS ARE INSTALLED WITH A BLUMP EDGE, THE PAVERS SHALL BE INSTALLED AS A BACKING FOR THE BIO-BARRIER.
8. CONTRACTOR SHALL REPORT ALL DISCREPENCIES/CONFLICTS TO ENGINEER PRIOR TO INSTALLATION.

ROOT CONTROL INSTALLATION
LINEAR APPLICATION

PLAN VIEW

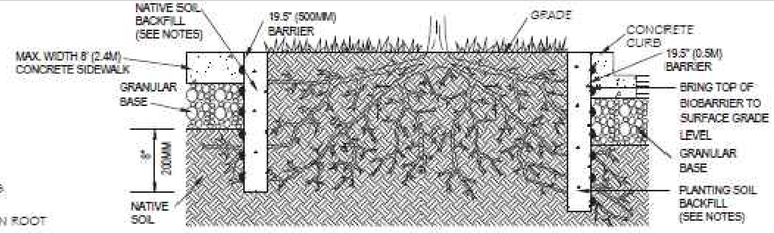

X - 10 FT. (3M) RECOMMENDED OR CONTINUOUS IF PLANTINGS ARE < 20 FT. (6M) APART

Y1** - LIMITED ONLY WITH RETROFIT INSTALLATION ROOT TRIMMING (TREE STABILITY)

Y2** - 3' MIN. FROM BACK OF CURB

Z - 5 FT. (1.5M) MINIMUM

**WHEN TREES ARE BETWEEN TWO PAVER AREAS OR WALLS WHERE THERE IS LESS THAN 10' CLEAR FOR PLANTING, PLANT MATERIAL SHALL BE CENTERED AS TO PROVIDE THE MAXIMUM DISTANCE FROM SUCH SURFACES.

SECTION B-B "RETROFIT PLANTING"

NOTES:

1. INSTALLATION TO BE COMPLETED IN ACCORDANCE WITH MANUFACTURER'S SPECIFICATIONS.
2. DO NOT SCALE DRAWINGS.
3. SEE PLANTING DETAILS FOR MORE INFORMATION.
4. AN ARBORIST SHOULD BE CONTACTED BEFORE EXTENSIVE CUTTING OF ROOTS.
5. FOR MAXIMUM PROTECTION IN HIGH ORGANIC SOILS (>10%), WITH AGGRESSIVE ROOT SPECIES (ESPECIALLY A RETROFIT INSTALLATION) AND/OR IN CLOSE PROXIMITY TO OLEFIN PLASTICS, SPRAY SATAURATE TRENCH WALLS WITH LIQUID TRIFLURALIN. MIX OR FILL TRENCH WITH SAND OR GRAVEL.
6. REPORT ALL DISCREPANCIES TO CONSULTANT PRIOR TO INSTALLATION.
7. CONTRACTORS NOTE: FOR PRODUCT AND PURCHASING INFORMATION VISIT www.CADdetails.com/info REFERENCE NUMBER 360-002

City Commission Regular Meeting - 5:05 pm **11. j.**

Meeting Date: 12/19/2022

Re: US Rep. Mast Option to Renew

Submitted For: Nick Mimms, City Manager, City Manager

SUBJECT:

Approval to renew Congressman Mast's lease for office space at City Hall for two (2) years commencing January 3, 2023.

SUMMARY:

Congressman Mast's current lease began July 1, 2021, and expires January 2, 2023. Pursuant to the terms of the lease agreement, Congressman Mast is exercising the option to renew the lease for two (2) years expiring January 2, 2025. The rent will remain at $250.00 per month.

RECOMMENDATION:

Staff recommends approval.

ALTERNATIVES:

Staff will proceed as directed by the City Commission.

RESPONSIBLE STAFF:

Nicholas C. Mimms, City Manager

COORDINATED WITH:

Jordan R. Sejour, District Director

Fiscal Impact

Budgeted Y/N:	N
Fiscal Year:	2023
Account:	TBD
Amount:	$250.00

OTHER INFORMATION:

Revenue increase of $250 per month.

District Office Lease Amendment – Instructions

THE OFFICE OF ADMINISTRATIVE COUNSEL MUST APPROVE THE DISTRICT OFFICE LEASE AMENDMENT AND ATTACHMENT PRIOR TO SIGNATURE.

The term for a District Office Lease Amendment for the 118th Congress may not commence prior to January 3, 2023.

Members should endeavor to lease space through the last day of a congressional term rather than the last day of a calendar year. For the 118th Congress, leases should end on January 2, 2025, not December 31, 2024.

- **The Member/Member-elect is required to personally sign all documents.**
- **A District Office Lease Attachment ("Attachment") for the 118th Congress must accompany an Amendment.**
- **Prior to either party signing a District Office Lease Amendment ("Amendment"), the Member/Member-elect must submit the proposed Amendment, accompanied by a copy of the District Office Lease Attachment for the 118th Congress, to the Office of Administrative Counsel ("Administrative Counsel") via e-mail in PDF form (leases@mail.house.gov or fax (202-226-0357)) for review and approval.**
- If Administrative Counsel determines that the proposed terms and conditions of the Amendment comply with applicable law and House Rules and Regulations, Administrative Counsel will notify the Member/Member-elect to proceed with signing of the Amendment.
- After the Amendment and the Attachment are signed by both parties, the Amendment and Attachment must be submitted to Administrative Counsel via e-mail in PDF form (leases@mail.house.gov) or fax (202-226-0357) for final approval.
- If approved, Administrative Counsel will notify the Office of Finance that monthly rental payments may begin. If changes are necessary, Administrative Counsel will contact the office of the Member/Member-elect.
- If you have any additional questions about District Office Leases, please contact Administrative Counsel by e-mail at leases@mail.house.gov.

Instructions for completing the Amendment:

- Section 1 — Insert the time period covering the previous lease that is being amended and the office's street address, including the city, state and ZIP.
- Section 2 — Insert the new termination date (if the lease is being extended). The Amendment must terminate on or before January 2, 2025. If the purpose of the Amendment is not to change the termination date, insert "N/A" in the space provided.
- Section 3 — Insert the monthly rent amount for the extended term. In the blank space, insert any changes or additions to the terms of the lease. If there are no other changes to your existing lease, write "NONE" in the space provided.

U.S. House of Representatives

Washington, D.C. 20515

District Office Lease Amendment

1. **Prior Lease Term.** The undersigned Landlord ("Lessor") and Member of the U. S. House of Representatives ("Lessee") agree that they previously entered into a District Office Lease ("Lease") (along with the District Office Lease Attachment), which covered the period from July 1, 2021 to January 2, 2023 for the lease of office space located at 100 North U.S. Highway 1, Suite 217 in the city, state and ZIP of Fort Pierce, FL 34950.

2. **Extended Term.** If applicable, the above referenced Lease is extended through and including January 2, 2025. (This District Office Lease Amendment ("Amendment") may not provide for an extension beyond January 2, 2025, which is the end of the constitutional term of the 118th Congress.)

3. **Rent and Any Other Changes.** The monthly rent for the extended term of the Lease shall now be $250.00. All other provisions of the existing Lease shall remain unchanged and in full effect, except for the following additional terms, which are modified as indicated in the space below [If no additional terms are to be modified, write the word "NONE" below].

NONE

4. **District Office Lease Attachment for 118th Congress.** This Amendment shall have no force and effect unless and until accompanied by an executed District Office Lease Attachment for the 118th Congress and the District Office Lease Attachment for the 118th Congress attached hereto supersedes and replaces any prior District Office Lease Attachment.

5. **Counterparts.** This Amendment may be executed in any number of counterparts and by facsimile copy, each of which shall be deemed to be an original but all of which together shall be deemed to be one and the same instrument.

6. **Section Headings.** The section headings of this Amendment are for convenience of reference only and shall not be deemed to limit or affect any of the provisions hereof.

[*Signature page follows.*]

District Office Lease Amendment

IN WITNESS WHEREOF, the parties have duly executed this District Office Lease Amendment as of the later date written below by the Lessor or the Lessee.

District Office Lease Attachment- Instructions

The District Office Lease Attachment ("Attachment") must accompany ***every*** Lease or Amendment submitted for a Member/Member-elect's District Office.

THE OFFICE OF ADMINISTRATIVE COUNSEL MUST APPROVE ANY LEASE, AMENDMENT, OR ATTACHMENT PRIOR TO SIGNATURE.

The term of a District Office Lease or Amendment for the 118th Congress may not commence prior to January 3, 2023.

Members should endeavor to lease space through the last day of a congressional term rather than the last day of a calendar year. For the 118th Congress, leases should end on January 2, 2025, not December 31, 2024.

- **The Member/Member-elect is required to personally sign the documents.**
- **The Lessor must complete the amenities checklist in Section A ("Lease Amenities"), including both the "required amenities" and "optional amenities" portions.**
- **Section B ("Additional Lease Terms") of the Attachment SHALL NOT have any provisions deleted or changed.**
- **Prior to either party signing a Lease or an Amendment, the Member/Member-elect must submit the proposed Lease or Amendment, accompanied by the Attachment, to the Office of Administrative Counsel ("Administrative Counsel") via e-mail in PDF form (leases@mail.house.gov) or fax (202-226-0357) for review and approval.**
- If Administrative Counsel determines that the proposed terms and conditions of the Lease or Amendment comply with applicable law and House Rules and Regulations, Administrative Counsel will notify the Member/Member-elect to proceed with the execution of the Lease or Amendment.
- Once signed by both parties, the Lease or the Amendment, accompanied by the Attachment, must be submitted to Administrative Counsel via e-mail in PDF form (leases@mail.house.gov) or fax (202-226-0357) for final approval.
- Without a properly signed and submitted Attachment, the Lease or Amendment cannot be approved by Administrative Counsel and payments will not be made.
- If approved, Administrative Counsel will notify the Office of Finance that monthly rental payments can begin. If changes are necessary, Administrative Counsel will contact the office of the Member/Member-elect.
- The parties agree that any changes for default, early termination, or cancellation of the Lease or Amendment which result from actions taken by or on behalf of the Lessee shall be the Lessee's sole responsibility and are not reimbursable from the Members' Representational Allowance.
- **Lessor shall provide a copy of any assignment, estoppel certificate, notice of a bankruptcy or foreclosure, or notice of a sale or transfer of the leased premises to Administrative Counsel via e-mail in PDF form (leases@mail.house.gov).**

District Office Lease Attachment

SECTION A
(Lease Amenities)

Section A sets forth the amenities provided by the Lessor to be included in the Lease. Except as noted below, the amenities listed are not required for all district offices.

To be completed by the Lessor (required amenities):

■ * **High-Speed Internet Available Within the Leased Space.**
Please list any internet providers known to provide service to the property:
Comcast

□ * **Interior Wiring CAT 5e or Better within Leased Space.**

To be completed by the Lessor (optional amenities):

■ Amenities are separately listed elsewhere in the Lease.
(The below checklist can be left blank if the above box is checked.)

The Lease includes (please check and complete all that apply):

■ Lockable Space for Networking Equipment.
■ Telephone Service Available.
■ Parking. _____ Assigned Parking Spaces
✓ _____ Unassigned Parking Spaces
□ General Off-Street Parking on an As-Available Basis
■ Utilities. Includes: Water and electric.
□ Janitorial Services. Frequency: _____
□ Trash Removal. Frequency: _____
□ Carpet Cleaning. Frequency: _____
□ Window Washing. □ Window Treatments.
□ Tenant Alterations Included In Rental Rate.
■ After Hours Building Access.
□ Office Furnishings. Includes: _____
■ Cable TV Accessible. If checked, Included in Rental Rate: □ Yes ■ No
■ Building Manager. ■ Onsite □ On Call Contact Name: Rick Stauffer

Phone Number: 772-359-0511 Email Address: N/A

District Office Lease Attachment

SECTION B
(Additional Lease Terms)

1. **Incorporated District Office Lease Attachment.** Lessor (Landlord) and Lessee (Member/Member-elect of the U.S. House of Representatives) agree that this District Office Lease Attachment ("Attachment") is incorporated into and made part of the Lease ("Lease") and, if applicable, District Office Lease Amendment ("Amendment") to which it is attached.

2. **Performance.** Lessor expressly acknowledges that neither the U.S. House of Representatives (the "House") nor its Officers are liable for the performance of the Lease. Lessor further expressly acknowledges that payments made by the Chief Administrative Officer of the House (the "CAO") to Lessor to satisfy Lessee's rent obligations under the Lease – which payments are made solely on behalf of Lessee in support of his/her official and representational duties as a Member of the House – shall create no legal obligation or liability on the part of the CAO or the House whatsoever. Lessee shall be solely responsible for the performance of the Lease and Lessor expressly agrees to look solely to Lessee for such performance.

3. **Modifications.** Any amendment to the Lease must be in writing and signed by the Lessor and Lessee. Lessor and Lessee also understand and acknowledge that the Administrative Counsel for the CAO ("Administrative Counsel") must review and give approval of any amendment to the Lease prior to its execution.

4. **Compliance with House Rules and Regulations.** Lessor and Lessee understand and acknowledge that the Lease shall not be valid, and the CAO will not authorize the disbursement of funds to the Lessor, until Administrative Counsel has reviewed the Lease to determine that it complies with the Rules of the House and the Regulations of the Committee on House Administration, and approved the Lease by signing the last page of this Attachment.

5. **Payments.** The Lease is a fixed term lease with monthly installments for which payment is due in arrears on or before the end of each calendar month. In the event of a payment dispute, Lessor agrees to contact the Office of Finance, U.S. House of Representatives, at 202-225-7474 to attempt to resolve the dispute before contacting Lessee.

6. **Void Provisions.** Any provision in the Lease purporting to require the payment of a security deposit shall have no force or effect. Furthermore, any provision in the Lease purporting to vary the dollar amount of the rent specified in the Lease by any cost of living clause, operating expense clause, pro rata expense clause, escalation clause, or any other adjustment or measure during the term of the Lease shall have no force or effect.

7. **Certain Charges.** The parties agree that any charge for default, early termination or cancellation of the Lease which results from actions taken by or on behalf of the Lessee shall be the sole responsibility of the Lessee and shall not be paid by the CAO on behalf of the Lessee.

8. **Death, Resignation or Removal.** In the event Lessee dies, resigns or is removed from office during the term of the Lease, the Clerk of the House may, at his or her sole option, either: (a) terminate the Lease by giving thirty (30) days' prior written notice to Lessor; or (b) assume the obligation of the Lease and continue to occupy the premises for a period not to exceed sixty (60) days following the certification of the election of the Lessee's successor. In the event the Clerk elects to terminate the Lease, the commencement date of such thirty (30) day termination notice

shall be the date such notice is delivered to the Lessor or, if mailed, the date on which such notice is postmarked.

9. **Term.** The term of the Lease may not exceed the constitutional term of the Congress to which the Lessee has been elected. The Lease may be signed by the Member-elect before taking office. Should the Member-elect not take office to serve as a Member of the 118th Congress, the Lease will be considered null and void.

10. **Early Termination.** If either Lessor or Lessee terminates the Lease under the terms of the Lease, the terminating party agrees to promptly file a copy of any termination notice with the Office of Finance, U.S. House of Representatives, Attn: Kellie Wilson, via e-mail at FCLeasePayments@mail.house.gov, and with the Administrative Counsel by e-mail at leases@mail.house.gov.

11. **Assignments.** Lessor shall provide thirty (30) days prior written notice to Lessee before assigning any of its rights, interests or obligations under the Lease, in whole or in part, by operation of law or otherwise. Lessor shall promptly file a copy of any such assignment notice with Administrative Counsel by e-mail at leases@mail.house.gov. Lessee and the House shall not be responsible for any misdirected payments resulting from Lessor's failure to file an assignment notice in accordance with this section.

12. **Sale or Transfer of Leased Premises.** Lessor shall provide thirty (30) days prior written notice to Lessee in the event (a) of any sale to a third party of any part of the leased premises, or (b) Lessor transfers or otherwise disposes of any of the leased premises, and provide documentation evidencing such sale or transfer in such notice. Lessor shall promptly file a copy of any such sale or transfer notice with Administrative Counsel by e-mail at leases@mail.house.gov.

13. **Bankruptcy and Foreclosure.** In the event (a) Lessor is placed in bankruptcy proceedings (whether voluntarily or involuntarily), (b) the leased premises is foreclosed upon, or (c) of any similar occurrence, Lessor agrees to promptly notify Lessee in writing. Lessor shall also promptly file a copy of any such notice via e-mail with the Office of Finance, U.S. House of Representatives, Attn: Kellie Wilson, via e-mail at FCLeasePayments@mail.house.gov, and with Administrative Counsel by e-mail at leases@mail.house.gov.

14. **Estoppel Certificates.** Lessee agrees to sign an estoppel certificate relating to the leased premises (usually used in instances when the Lessor is selling or refinancing the building) upon the request of the Lessor. Such an estoppel certificate shall require the review of Administrative Counsel, prior to Lessee signing the estoppel certificate. Lessor shall promptly provide a copy of any such estoppel certificate to Administrative Counsel by e-mail at leases@mail.house.gov.

15. **Maintenance of Common Areas.** Lessor agrees to maintain in good order, at its sole expense, all public and common areas of the building including, but not limited to, all sidewalks, parking areas, lobbies, elevators, escalators, entryways, exits, alleys and other like areas.

16. **Maintenance of Structural Components.** Lessor also agrees to maintain in good order, repair or replace as needed, at its sole expense, all structural and other components of the premises including, but not limited to, roofs, ceilings, walls (interior and exterior), floors, windows, doors, foundations, fixtures, and all mechanical, plumbing, electrical and air conditioning/heating

systems or equipment (including window air conditioning units provided by the Lessor) serving the premises.

17. **Lessor Liability for Failure to Maintain.** Lessor shall be liable for any damage, either to persons or property, sustained by Lessee or any of his or her employees or guests, caused by Lessor's failure to fulfill its obligations under Sections 15 and 16.

18. **Initial Alterations.** Lessor shall make any initial alterations to the leased premises, as requested by Lessee and subject to Lessor's consent, which shall not be unreasonably withheld. The cost of such initial alterations shall be included in the annual rental rate.

19. **Federal Tort Claims Act.** Lessor agrees that the Federal Tort Claims Act, 28 U.S.C. §§ 2671-80, satisfies any and all obligations on the part of the Lessee to purchase private liability insurance. Lessee shall not be required to provide any certificates of insurance to Lessor.

20. **Limitation of Liability.** Lessor agrees that neither Lessee nor the House nor any of the House's officers or employees will indemnify or hold harmless Lessor against any liability of Lessor to any third party that may arise during or as a result of the Lease or Lessee's tenancy.

21. **Compliance with Laws.** Lessor shall be solely responsible for complying with all applicable permitting and zoning ordinances or requirements, and with all local and state building codes, safety codes and handicap accessibility codes (including the Americans with Disabilities Act), both in the common areas of the building and the leased space of the Lessee.

22. **Electronic Funds Transfer.** Lessor agrees to accept monthly rent payments by Electronic Funds Transfer and agrees to provide the Office of Finance, U.S. House of Representatives, with all banking information necessary to facilitate such payments.

23. **Refunds.** Lessor shall promptly refund to the CAO, without formal demand, any payment made to the Lessor by the CAO for any period for which rent is not owed because the Lease has ended or been terminated.

24. **Conflict.** Should any provision of this Attachment be inconsistent with any provision of the attached Lease or attached Amendment, the provisions of this Attachment shall control, and those inconsistent provisions of the Lease or the Amendment shall have no force and effect to the extent of such inconsistency.

25. **Construction.** Unless the clear meaning requires otherwise, words of feminine, masculine or neuter gender include all other genders and, wherever appropriate, words in the singular include the plural and vice versa.

26. **Fair Market Value.** The Lease or Amendment is entered into at fair market value as the result of a bona fide, arms-length, marketplace transaction. The Lessor and Lessee certify that the parties are not relatives nor have had, or continue to have, a professional or legal relationship (except as a landlord and tenant).

27. **District Certification.** The Lessee certifies that the office space that is the subject of the Lease is located within the district the Lessee was elected to represent unless otherwise authorized by Regulations of the Committee on House Administration.

District Office Lease Attachment

28. **Counterparts.** This Attachment may be executed in any number of counterparts and by facsimile copy, each of which shall be deemed to be an original but all of which together shall be deemed to be one and the same instrument.

29. **Section Headings.** The section headings of this Attachment are for convenience of reference only and shall not be deemed to limit or affect any of the provisions hereof.

IN WITNESS WHEREOF, the parties have duly executed this District Office Lease Attachment as of the later date written below by the Lessor or the Lessee.

Instructions for Completing
U.S. House of Representatives
Substitute W-9 and ACH Vendor/Miscellaneous Payment Enrollment Form

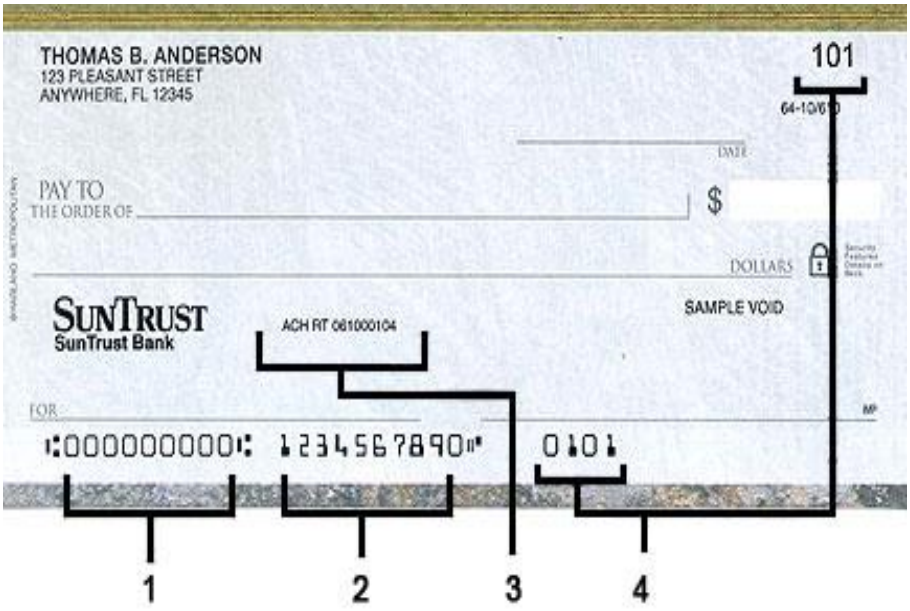

Section I - Agency Information – Includes the name and address, agency identifier, agency location code and telephone number for the House of Representatives.

Section II - Payee/Company Information – Print or type the name of the payee/company and address that will receive payment, social security or taxpayer ID number, contact person name, telephone number and email of the payee/company. Print or type the purchase order and remit to addresses if different from the payee/company address. Check the appropriate boxes for federal tax classification.

Section III - Financial Institution Information – Print or type the name and address of the payee/company's financial institution who will receive the ACH payment, ACH coordinator name and telephone number, nine-digit routing transit number, depositor (payee/company) account title and account number. Check the appropriate box for type of account. Payee/Company may include a voided check with this form.

ACH Account Information Located on a Check or Deposit Ticket

FINANCIAL INSTITUTION NAME	name of the financial institution to which the payments are to be directed
ROUTING TRANSIT NUMBER (RTN)	financial institution's 9 digit routing transit number; *found on the bottom of a check or deposit ticket or from your Financial Institution*
ACCOUNT TITLE	employee's or vendor's name on the account
ACCOUNT NUMBER	account number at the financial institution

1. Routing Transit Number (RTN) – nine digits located between two symbols. This number identifies the bank holding your account and check processing center.
2. Account number – this is your complete account number. Your account number can be up to 17 digits. Please include leading zeros.
3. ACH Routing Transit Number – Automated Clearing House routing number, use this number for your Routing Transit Number (RTN) if you bank with ***SunTrust Bank***.
4. Check number – This information is not necessary - do not provide

Section IV - Socio-Economic Information – Check the boxes for each category, if applicable: type of business, small disadvantaged business program, HUBZone program, emerging small business, women-owned business, other preference programs, Veteran owned status and size of business. Detailed information related to Small Business programs can be found at http://www.sba.gov/.

Section V - Certification of Data By Payee/Company – Print or type the name, title/position and phone number of the Authorized official. The Authorized official must sign and date the form.

RESOLUTION NO. 21-R33

A RESOLUTION OF THE CITY OF FORT PIERCE, FLORIDA AUTHORIZING THE **LEASE OF SPACE IN CITY HALL TO BRIAN MAST**, UNITED STATES REPRESENTATIVE; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, Section 13(d) of the City Charter allows for a department or agency of the State of Florida to apply to the City of Fort Pierce for lease of real property owned by the municipality for public or community interest and welfare; and

WHEREAS, Congressional District 18 United States Representative Brian Mast has requested a lease agreement for space in City Hall at 100 North U.S. #1, Fort Pierce, Florida, to be used as a District Office ; and

WHEREAS, the City of Fort Pierce is satisfied that such property is available for such use and is not needed for city purposes.

NOW, THEREFORE, BE IT RESOLVED by the City Commission of the City of Fort Pierce, Florida as follows:

SECTION 1. The City Commission does hereby authorize a Lease Agreement for Office Space at City Hall (as shown on Exhibit "A" attached hereto) with Congressional District 14 United States Representative Brian Mast for the purpose of a governmental public office and the rent shall be $250.00 per month.

SECTION 2. The Mayor is authorized to execute such Lease Agreement on behalf of the City.

SECTION 3. This resolution shall take effect immediately upon its adoption.

IN WITNESS WHEREOF, this Resolution has been duly adopted this 21st day of June 2021.

Linda Hudson

Linda Hudson, Mayor

ATTEST:

Linda W. Cox

Linda W. Cox, City Clerk

Approved as to Form
And Correctness:

Peter J. Sweeney, Esq.
City Attorney

Exhibit A
(Lease Agreement Attached)

NON-ASSIGNABLE
LEASE AGREEMENT FOR OFFICE SPACE AT CITY HALL

This agreement (Lease) for certain office space located at City Hall, made and entered into effective as of July 1, 2021, between the City of Fort Pierce, a Florida municipal Corporation (Lessor) and Brian Mast as United States Representative, Congressional District 18, (Lessee).

1. LEASED PREMISES

Lessor hereby leases to Lessee certain office space located at City Hall, 100 N. US Highway One, Fort Pierce, Florida, 34950. That office space is more particularly described as approximately 372 square feet of floor area at City Hall, as identified on the sketch in Exhibit "A" as Room 216 and Room 217, attached hereto (Leased Premises). Lessor also hereby grants to Lessee and Lessee's employees, agents, invitees, licensees and vendors the nonexclusive right to use the common areas of the building, including, but not limited to the bathrooms and conference rooms.

2. USE

Lessee shall use and occupy the Leased Premises for the purpose of a governmental public office for a United States Representative, Congressional District 18, and for no other purpose.

3. TERM

The term of this lease shall commence on July 1, 2021 and shall continue until expiration on January 2, 2023 (the Term) and may be extended as hereinafter provided. Notwithstanding anything to the contrary contained herein, Lessee and Lessor shall each have the right to terminate this lease upon thirty (30) days written notice by the terminating party delivered as hereinafter set forth.

4. OPTION TO RENEW

Provided this lease is in good standing and Lessee is not in default hereunder, Lessor hereby grants to Lessee the option to extend this lease for an additional two (2) years, with the same terms, covenants and conditions set forth in this lease, except as hereinafter specifically provided.

5. RENT

Lessee shall pay to Lessor in United States currency the sum of Two Hundred Fifty and 00/100 Dollars ($250.00) per month, payable in arrears by the last day of each rental month during the term of this lease.

Rent shall be paid to the following address:

City of Fort Pierce
c/o Finance Director
100 North US Highway 1
Fort Pierce, FL 34950

6. LESSEE AND LESSOR'S RESPONSIBILITIES

Lessee shall provide any office furnishings, pay for any telephones, computers or other accessory equipment and all electric services.

Lessor shall pay for all water, sewer, garbage and janitorial services. Lessor shall provide accessibility to the premises during normal business hours and shall provide access after hours.

7. LESSEE'S IMPROVEMENTS

All alterations, additions, improvements, decorations or installations, including but not limited to, railings, air-conditioning ducts or equipment, except moveable furniture, partitions and fixtures put in at the expense of the Lessee which can be removed by Lessee without causing any structural damages to the building and where Lessee reasonably repairs any damages to the Leased Premises due to removal of the fixture(s), shall become the property of the Lessor at the termination of this lease. Lessee shall pay the cost of any and all office improvements. Lessee shall obtain prior written consent from Lessor as to any alterations of the Leased Premises.

8. NOTICES

All notices or other communications hereunder shall be in writing and shall be deemed duly given in person or sent certified mail, return receipt requested, first class, postage prepaid and addressed as follows unless written notice of a change of address is given pursuant to the provisions of this Article.

IF TO LESSEE:

Brian Mast
United States Representative, Congressional District 18
100 N US Hwy 1
Fort Pierce FL 34950

IF TO LESSOR:

City Manager
City of Fort Pierce
100 North US Highway 1
Fort Pierce, FL 34950

9. ENTIRE AGREEMENT

It is understood and acknowledged there are no oral agreements between the parties hereto affecting this lease and House of Representatives District Office Lease Agreement and this lease and House District Lease Attachment supersedes and cancels any and all previous negotiations, arrangements, brochures, agreements and understandings, if any, between the parties hereto or displayed by Lessor to Lessee with respect to the lease specifically incorporated herein.

10. MODIFICATION OF LEASE

This lease may be modified only by mutual written agreement of both parties, and shall be non-assignable.

11. GOVERNING LAW

Federal law and the laws of the State of Florida shall govern the validity, performance and enforcement of this lease. Should either party institute legal action to enforce any provisions contained herein, it is agreed the venue of such action shall be in St. Lucie County, Florida; and both parties hereby waive any defenses to the contrary. This lease shall not be construed either for or against Lessee or Lessor, but shall be interpreted in accord with the general tenor of this language.

12. COMPLIANCE WITH LAW

Lessor covenants and warrants the building and the Leased Premises and any use or intended use thereof by Lessor presently complies with, and will continue throughout the term of this lease to comply with all applicable restrictive covenants, applicable zoning and subdivision ordinances and building codes, all applicable health and environmental laws and regulations, and all other applicable laws, rules and regulations including but not limited to the American with Disabilities Act of 1990, 42 USC 12101, et. seq. If Lessor receives notice from federal, state or other government body that they are not in compliance with any such covenant, ordinance, code, law or regulation, Lessor will promptly provide the Lessee with a copy of such notice and with a statement of Lessor's intended action to bring the building and the Leased Premises and Lessor's use thereof into compliance. The provisions of this paragraph 12 are material terms of this lease.

EXHIBIT "A"

District Office Lease Attachment- Instructions

The District Office Lease Attachment must accompany ***every*** Lease or Amendment submitted for a Member/Member-Elect's District Office.

NO LEASE, AMENDMENT OR ATTACHMENT CAN BE SIGNED BEFORE THEY HAVE BEEN APPROVED BY THE ADMINISTRATIVE COUNSEL.

The term of a District Office Lease or Amendment for the 117th Congress may not commence prior to January 3, 2021.

Members should endeavor to lease space through the last day of a congressional term rather than the last day of a calendar year. For the 117th Congress, leases should end on January 2, 2023, not December 31, 2022.

A few things to keep in mind:

A. **The Member/Member-Elect is required to personally sign the documents.**

B. **The Lessor must complete the amenities checklist in Section A ("Lease Amenities"), including both the "required amenities" and "optional amenities" portions.**

C. **The Member/Member-Elect must indicate in Section A ("Lease Amenities") whether the proposed leased space will serve as a flagship district office.**

D. **Section B ("Additional Terms and Conditions") of the Attachment SHALL NOT have any provisions deleted or changed.**

E. Even if rent is zero, an Attachment is still required.

F. **Prior to either party signing a Lease or Amendment, the Member/Member-Elect must submit the proposed Lease or Amendment, accompanied by a copy of the Attachment, to the Administrative Counsel for review and approval.** If the Administrative Counsel determines that the proposed terms and conditions of the Lease or Amendment are in compliance with applicable law and House Rules and Regulations, the Administrative Counsel will notify the Member/Member-Elect that (s)he may proceed with the execution of the Lease or Amendment. Please submit the proposed Lease or Amendment and Attachment either by e-mail in PDF form (leases@mail.house.gov) or by fax (202-226-0357).

G. Once signed by both parties, the Lease or Amendment along with the Attachment must be submitted to the Administrative Counsel for final approval. They may be sent by email in PDF form (leases@mail.house.gov) or by fax (202-226-0357).

H. Without a properly signed and submitted Attachment, the Lease or Amendment cannot be approved by the Administrative Counsel and payments will not be made. The parties agree that any charges for default, early termination or cancellation of the Lease or Amendment which result from actions taken by or on behalf of the Lessee shall be the sole responsibility of the Lessee, and are not reimbursable from the Member's Representational Allowance.

I. **Lessor shall provide a copy of any assignment, estoppel certificate, notice of a bankruptcy or foreclosure, or notice of a sale or transfer of the leased premises to the Administrative Counsel by e-mail in PDF form (leases@mail.house.gov).**

U.S. House of Representatives
Washington, D.C. 20515

District Office Lease Attachment

SECTION A
(Lease Amenities)

Section A sets forth the amenities provided by the Lessor to be included in the Lease and designates whether the leased space will be the Member/Member-Elect's flagship (primary) office. Except as noted below, the amenities listed are not required for all district offices.

To be completed by the Lessor (required amenities):

☐ * **High-Speed Internet Available Within the Leased Space.**
Please list any internet providers known to provide service to the property:

_____

☐ * **Interior Wiring CAT 5e or Better within Leased Space.**

To be completed by the Lessor (optional amenities):

☑ Amenities are separately listed elsewhere in the Lease.
(The below checklist can be left blank if the above box is checked.)

The Lease includes (please check and complete all that apply):

☐ Lockable Space for Networking Equipment.
☐ Telephone Service Available.
☐ Parking. ☐ _____ Assigned Parking Spaces
☐ _____ Unassigned Parking Spaces
☐ General Off-Street Parking on an As-Available Basis
☐ Utilities. Includes: _____
☐ Janitorial Services. Frequency: _____
☐ Trash Removal. Frequency: _____
☐ Carpet Cleaning. Frequency: _____
☐ Window Washing. ☐ Window Treatments.
☐ Tenant Alterations Included In Rental Rate.
☐ After Hours Building Access.
☐ Office Furnishings. Includes: _____
☐ Cable TV Accessible. If checked, Included in Rental Rate: O Yes O No
☐ Building Manager. O Onsite O On Call Contact Name: _____
Phone Number: _____ Email Address: _____

To be completed by the Member/Member-elect (required):

O The leased space will serve as my flagship (primary) District Office.
O The leased space will NOT serve as my flagship (primary) District Office.

Send completed forms to: Administrative Counsel, 217 Ford House Office Building, Washington, D.C. 20515.
Copies may also be faxed to 202-226-0357.

District Office Lease Attachment

SECTION B
(Additional Lease Terms)

1. **Incorporated District Office Lease Attachment.** Lessor (Landlord) and Lessee (Member/Member-Elect of the U.S. House of Representatives) agree that this District Office Lease Attachment ("Attachment") is incorporated into and made part of the Lease ("Lease") and, if applicable, District Office Lease Amendment ("Amendment") to which it is attached.

2. **Performance.** Lessor expressly acknowledges that neither the U.S. House of Representatives (the "House") nor its Officers are liable for the performance of the Lease. Lessor further expressly acknowledges that payments made by the Chief Administrative Officer of the House (the "CAO") to Lessor to satisfy Lessee's rent obligations under the Lease – which payments are made solely on behalf of Lessee in support of his/her official and representational duties as a Member of the House – shall create no legal obligation or liability on the part of the CAO or the House whatsoever. Lessee shall be solely responsible for the performance of the Lease and Lessor expressly agrees to look solely to Lessee for such performance.

3. **Modifications.** Any amendment to the Lease must be in writing and signed by the Lessor and Lessee. Lessor and Lessee also understand and acknowledge that the Administrative Counsel for the CAO ("Administrative Counsel") must review and give approval of any amendment to the Lease prior to its execution.

4. **Compliance with House Rules and Regulations.** Lessor and Lessee understand and acknowledge that the Lease shall not be valid, and the CAO will not authorize the disbursement of funds to the Lessor, until the Administrative Counsel has reviewed the Lease to determine that it complies with the Rules of the House and the Regulations of the Committee on House Administration, and approved the Lease by signing the last page of this Attachment.

5. **Payments.** The Lease is a fixed term lease with monthly installments for which payment is due in arrears on or before the end of each calendar month. In the event of a payment dispute, Lessor agrees to contact the Office of Finance of the House at 202-225-7474 to attempt to resolve the dispute before contacting Lessee.

6. **Void Provisions.** Any provision in the Lease purporting to require the payment of a security deposit shall have no force or effect. Furthermore, any provision in the Lease purporting to vary the dollar amount of the rent specified in the Lease by any cost of living clause, operating expense clause, pro rata expense clause, escalation clause, or any other adjustment or measure during the term of the Lease shall have no force or effect.

7. **Certain Charges.** The parties agree that any charge for default, early termination or cancellation of the Lease which results from actions taken by or on behalf of the Lessee shall be the sole responsibility of the Lessee, and shall not be paid by the CAO on behalf of the Lessee.

8. **Death, Resignation or Removal.** In the event Lessee dies, resigns or is removed from office during the term of the Lease, the Clerk of the House may, at his or her sole option, either: (a)

terminate the Lease by giving thirty (30) days' prior written notice to Lessor; or (b) assume the obligation of the Lease and continue to occupy the premises for a period not to exceed sixty (60) days following the certification of the election of the Lessee's successor. In the event the Clerk elects to terminate the Lease, the commencement date of such thirty (30) day termination notice shall be the date such notice is delivered to the Lessor or, if mailed, the date on which such notice is postmarked.

9. **Term.** The term of the Lease may not exceed the constitutional term of the Congress to which the Lessee has been elected. The Lease may be signed by the Member-Elect before taking office. Should the Member-Elect not take office to serve as a Member of the 117th Congress, the Lease will be considered null and void.

10. **Early Termination.** If either Lessor or Lessee terminates the Lease under the terms of the Lease, the terminating party agrees to promptly file a copy of any termination notice with the Office of Finance, U.S. House of Representatives, O'Neill Federal Building, Suite 3220, Attn: Jason Washington, Washington, D.C. 20515, and with the Administrative Counsel by e-mail at leases@mail.house.gov.

11. **Assignments.** Lessor shall provide thirty (30) days prior written notice to Lessee before assigning any of its rights, interests or obligations under the Lease, in whole or in part, by operation of law or otherwise. Lessor shall promptly file a copy of any such assignment notice with the Administrative Counsel by e-mail at leases@mail.house.gov. Lessee and the House shall not be responsible for any misdirected payments resulting from Lessor's failure to file an assignment notice in accordance with this section.

12. **Sale or Transfer of Leased Premises.** Lessor shall provide thirty (30) days prior written notice to Lessee in the event (a) of any sale to a third party of any part of the leased premises, or (b) Lessor transfers or otherwise disposes of any of the leased premises, and provide documentation evidencing such sale or transfer in such notice. Lessor shall promptly file a copy of any such sale or transfer notice with the Administrative Counsel by e-mail at leases@mail.house.gov.

13. **Bankruptcy and Foreclosure.** In the event (a) Lessor is placed in bankruptcy proceedings (whether voluntarily or involuntarily), (b) the leased premises is foreclosed upon, or (c) of any similar occurrence, Lessor agrees to promptly notify Lessee in writing. Lessor shall promptly file a copy of any such notice with the Office of Finance, U.S. House of Representatives, O'Neill Federal Building, Suite 3220, Attn: Jason Washington, Washington, D.C. 20515, and with the Administrative Counsel by e-mail at leases@mail.house.gov.

14. **Estoppel Certificates.** Lessee agrees to sign an estoppel certificate relating to the leased premises (usually used in instances when the Lessor is selling or refinancing the building) upon the request of the Lessor. Such an estoppel certificate shall require the review of the Administrative Counsel, prior to Lessee signing the estoppel certificate. Lessor shall promptly provide a copy of any such estoppel certificate to the Administrative Counsel by e-mail at leases@mail.house.gov.

District Office Lease Attachment

15. **Maintenance of Common Areas.** Lessor agrees to maintain in good order, at its sole expense, all public and common areas of the building including, but not limited to, all sidewalks, parking areas, lobbies, elevators, escalators, entryways, exits, alleys and other like areas.

16. **Maintenance of Structural Components.** Lessor also agrees to maintain in good order, repair or replace as needed, at its sole expense, all structural and other components of the premises including, but not limited to, roofs, ceilings, walls (interior and exterior), floors, windows, doors, foundations, fixtures, and all mechanical, plumbing, electrical and air conditioning/heating systems or equipment (including window air conditioning units provided by the Lessor) serving the premises.

17. **Lessor Liability for Failure to Maintain.** Lessor shall be liable for any damage, either to persons or property, sustained by Lessee or any of his or her employees or guests, caused by Lessor's failure to fulfill its obligations under Sections 15 and 16.

18. **Initial Alterations.** Lessor shall make any initial alterations to the leased premises, as requested by Lessee and subject to Lessor's consent, which shall not be unreasonably withheld. The cost of such initial alterations shall be included in the annual rental rate.

19. **Federal Tort Claims Act.** Lessor agrees that the Federal Tort Claims Act, 28 U.S.C. §§ 2671-80, satisfies any and all obligations on the part of the Lessee to purchase private liability insurance. Lessee shall not be required to provide any certificates of insurance to Lessor.

20. **Limitation of Liability.** Lessor agrees that neither Lessee nor the House nor any of the House's officers or employees will indemnify or hold harmless Lessor against any liability of Lessor to any third party that may arise during or as a result of the Lease or Lessee's tenancy.

21. **Compliance with Laws.** Lessor shall be solely responsible for complying with all applicable permitting and zoning ordinances or requirements, and with all local and state building codes, safety codes and handicap accessibility codes (including the Americans with Disabilities Act), both in the common areas of the building and the leased space of the Lessee.

22. **Electronic Funds Transfer.** Lessor agrees to accept monthly rent payments by Electronic Funds Transfer and agrees to provide the Office of Finance, U.S. House of Representatives, with all banking information necessary to facilitate such payments.

23. **Refunds.** Lessor shall promptly refund to the CAO, without formal demand, any payment made to the Lessor by the CAO for any period for which rent is not owed because the Lease has ended or been terminated.

24. **Conflict.** Should any provision of this Attachment be inconsistent with any provision of the attached Lease or attached Amendment, the provisions of this Attachment shall control, and those inconsistent provisions of the Lease or the Amendment shall have no force and effect to the extent of such inconsistency.

U.S. House of Representatives
Washington, D.C. 20515

District Office Lease Attachment

25. **Construction.** Unless the clear meaning requires otherwise, words of feminine, masculine or neuter gender include all other genders and, wherever appropriate, words in the singular include the plural and vice versa.

26. **Fair Market Value.** The Lease or Amendment is entered into at fair market value as the result of a bona fide, arms-length, marketplace transaction. The Lessor and Lessee certify that the parties are not relatives nor have had, or continue to have, a professional or legal relationship (except as a landlord and tenant).

27. **District Certification.** The Lessee certifies that the office space that is the subject of the Lease is located within the district the Lessee was elected to represent unless otherwise authorized by Regulations of the Committee on House Administration.

28. **Counterparts.** This Attachment may be executed in any number of counterparts and by facsimile copy, each of which shall be deemed to be an original but all of which together shall be deemed to be one and the same instrument.

29. **Section Headings.** The section headings of this Attachment are for convenience of reference only and shall not be deemed to limit or affect any of the provisions hereof.

IN WITNESS WHEREOF, the parties have duly executed this District Office Lease Attachment as of the later date written below by the Lessor or the Lessee.

ORDINANCE NO. 22-036

AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF FORT PIERCE, FLORIDA; AMENDING CHAPTER 34, ARTICLE I TO REDUCE THE NUMBER OF RESERVED SECTIONS; AMENDING CHAPTER 34, ARTICLE II, BY DELETING SECTIONS 34-35 THROUGH 34-62; AMENDING CHAPTER 34, ARTICLE II BY TITLE, AMENDING CHAPTER 34, ARTICLE II BY ADDING SECTIONS 34-16 THROUGH 34-62 TO ESTABLISH PARKING REGULATIONS; REPEALING ALL ORDINANCES OR PARTS THEREOF IN CONFLICT HEREWITH; PROVIDING A SEVERABILITY CLAUSE; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City of Fort Pierce continues to experience a high level of redevelopment in the downtown and waterfront areas that drastically increased the number of visitors to our community; and

WHEREAS, with the limited parking spaces available result in a large number of vehicles being parked illegally in ways that either damage public property or that are unsafe; and

WHEREAS, the City Commission finds it necessary to provide a set of parking rules and regulations to address the high volume of vehicles and related parking issues; and

WHEREAS, through consistent and successful enforcement of these parking restrictions, residents, visitors, and business owners can enjoy a safer and more friendly environment; and

NOW, THEREFORE, BE IT RESOLVED by the City Commission of the City ofFort Pierce, Florida as follows:

SECTION 1. Chapter 34, Article I – In General is hereby amended so that the same shall read thereinafter as follows:

Secs. 34-9—34-<u>15</u>. – Reserved.

SECTION 2. Chapter 34, Article II – Stopping, Standing and Parking, Sections 34-35 through 34-62 are hereby deleted in their entirety:

~~(a) Purpose. This section shall regulate the parking of vehicles within the city limits. All violations in the section are considered class I violations unless specified otherwise.~~

~~(b) Obedience to angle-parking signs or markings. Upon those streets which have been signed or marked by the traffic engineer for angle parking, no person shall stop, stand or park a vehicle other than at the angle to the curb or edge of the roadway indicated by such signs or markings.~~

~~(c) Permit for loading and unloading at an angle to the curb. No person shall stop, stand or park any vehicle at right angles to the curb for the purpose of loading or unloading of merchandise without a permit issued by the traffic engineer, or his authorized representative.~~

~~(d) Obstruction of traffic. No person shall park any vehicle upon a street in such a manner or under such conditions as to leave available less than ten feet of the width of the roadway for free movement of vehicular traffic. Where streets are not completely paved or curbs provided, the parking of a car shall not usurp more than 12 inches of the paved portion of the street.~~

~~(e) Alleys. No person shall stop, stand or park a vehicle within an alley in a business~~

district, except for the expeditious loading or unloading of materials, and in no event for a period of more than 20 minutes, and no person shall stop, stand or park a vehicle in any other alley in such a manner, or under such conditions as to leave available less than ten feet of the width of the roadway for the free movement of vehicular traffic. No person shall stop, stand or park a vehicle within an alley in such position as to block the driveway or entrance to any abutting property.

(f) Authority to remove and impound vehicles.

(1) Whenever any police officer finds a vehicle standing upon a street or alley in violation of any of the foregoing provisions of this article, such standing upon a street or alley in violation of any of the provisions of this article, such officer may move such vehicles or require the driver or person in charge of the vehicle to move the same to a position off the paved or improved or main traveled part of such street or alley.

(2) Whenever any police officer finds a vehicle unattended upon any street, bridge or causeway, or in any tunnel within the city where such vehicle constitutes an obstruction to traffic, such officer may provide for the removal of such vehicle in accordance with law.

(g) All-night parking. No person, except physicians or other persons on emergency calls, shall park a vehicle on any street marked to prohibit all-night parking and giving notice thereof, for a period of time longer than 30 minutes between the hours of 2:00 a.m. and 5:00 a.m. of any day.

(h) Parking for certain purposes. No person shall park a vehicle upon any street for the principal purpose of:

(1) Displaying such vehicle for sale.

(2) Washing, greasing or repairing such vehicle, except repairs necessitated by an emergency.

(3) Displaying advertising.

(4) Selling merchandise from such vehicle except in a duly established marketplace, or when so authorized or licensed under the ordinances of the city.

(5) Storage, or as junkage or dead storage, for more than five continuous days (120 hours).

(i) Standing or parking on one-way roadways. In the event a street includes two or more separate roadways and traffic is restricted to one direction upon any such roadway, no person shall stand or park a vehicle upon the left-hand side of such one-way roadway, unless signs are erected to permit such standing or parking.

(j) Passenger curb loading zone. No person shall stop, stand or park a vehicle for any purpose or period of time, except for the expeditious loading or unloading of passengers, in any place marked as a passenger curb loading zone during hours when the regulations applicable to such passenger curb loading zone are effective, and then only for a period not to exceed five minutes.

(k) Freight curb loading zone.

(1) No person shall stop, stand or park a vehicle for any purpose or length of time other than for the expeditious unloading and delivery or pickup and loading of materials in any place marked as a freight curb loading zone during hours when the provisions applicable to such zones are in effect. In no case shall the stop for loading and unloading of materials exceed 30 minutes.

(2) The driver of a vehicle may stop temporarily at a place marked as a freight

curb loading zone, for the purpose of and while actually engaged in loading or unloading passengers, when such stopping does not interfere with any motor vehicle used for the transportation of materials which is waiting to enter or about to enter such zone.

(l) Restricted parking zone. No person shall stop, stand or park a vehicle for any purpose or length of time in any restricted parking zone other than for the purpose to which parking in such zone is restricted, except that a driver of a passenger vehicle may stop temporarily in such zone, for the purpose of and while actually engaged in loading or unloading of passengers, when such stopping does not interfere with any vehicle which is waiting to enter or about to enter the zone for the purpose of parking in accordance with the purpose to which parking is restricted.

(m) Buses, taxicabs. The operator of a bus or taxicab shall not stop, stand or park upon any street in any business district at any place other than at a bus stop, or taxicab stand, respectively, except that this provision shall not prevent the operator of any such vehicle from temporarily stopping in accordance with other stopping, standing or parking regulations at any place for the purpose of and while engaged in the expeditious unloading or loading of passengers.

(n) Use of bus and taxicab stands. No person shall stop, stand or park a vehicle other than a bus in a bus stop, or other than a taxicab in a taxicab stand when such stop or stand has been officially designated and appropriately signed, except that the driver of a passenger vehicle may temporarily stop therein for the purpose of and while actually engaged in the expeditious loading or unloading of passengers when such stopping does not interfere with any bus or taxicab waiting to enter or about to enter such zone.

(o) Parking prohibited at all times. When signs are erected giving notice thereof, no person shall park a vehicle at any time upon any of the streets, sidewalks, sidewalk areas or other places so designated.

(p) Parking time limited on certain streets. When signs are erected giving notice thereof, no person shall stop, stand or park a vehicle for longer than the time designated by said signs at any time between those hours so stated by said signs on any day except Sundays and legal holidays.

(q) Parking in spaces for persons with disabilities. No person shall stop, stand, or park a vehicle within, or to obstruct, any space designated and marked as a disabled person parking space unless the vehicle displays adisabled parking permit or a license plate and the vehicle is transporting the person to whom the displayed permit is issued. Violation of this subsection is a Level III violation. All fines collected under this subsection will be collected in accordance with F.S. chs. 316 and 318.

(r) Parking in fire lanes. No person shall stop, stand, or park a vehicle, with the exception of allowing a disabled person to enter or exit the vehicle, in a fire lane located on any property within the city.

(s) Parking prohibited on city right-of-way. No person shall stop, stand or park a vehicle, either fully or partially, upon any right-of-way owned and maintained by the city.

(t) Violations of F.S. ch. 316. Supplemental to the provisions of this chapter, the city hereby adopts provisions relating to parking, traffic control, enforcement and penalties as outlined in the F.S. ch. 316.

(u) Exemptions. The prohibitions stated in this section shall not apply to city, county, state and/or utility worker vehicles while parked in conjunction with discharging their official duties.

(v) Penalty. A violation of any of the provisions of this section shall be deemed an infraction, a noncriminal violation which is not punishable by incarceration and for which there is no right to a trial by jury or a right to court-appointed counsel.

(w) Procedure. Any person cited for a violation of this section shall be deemed to be charged with a noncriminal violation and upon receiving notice of such shall:

(1) Within 30 calendar days pay to the city a fine, as provided for in chapter 2, for violation of on-street parking; off-street parking; illegal parking or blocking traffic. Upon the violator's failure to pay the appropriate sum as applicable within 30 calendar days after receipt of the notice of such violation or violations, the violator, shall pay an additional fine of $18.00.

(2) Within seven calendar days, post a bond which shall be equal in amount to the applicable penalty set forth in subsection (w)(1) of this section, plus $10.00, and sign a written request to appear before a special magistrate authorized by law to preside over a court or hearing adjudicating traffic infractions. Any person electing to appear before a special magistrate shall be subject to the maximum penalty provided by subsection (w)(1) of this section, as well as subject to any administrative costs assessed.

(3) Any person posting a bond as outlined in subsection (w)(2) of this section and who fails to appear at the hearing shall be considered as having forfeited said bond.

(4) If a person follows the procedure of either subsection (w)(1) or (3) of this section, he shall be deemed to have admitted the infraction and to have waived his right to a hearing on the commission of the infraction. Such admission shall not be used as evidence in any other proceeding.

Sec. 34-36. Impoundment of vehicles generally.

The police officers of the city are hereby authorized to remove a vehicle from any public street, park, lawn or parkway or from any private alley, drive, driveway or other privately-owned property and to cause the same to be impounded in the nearest garage or other place of safety, or in a garage designated or maintained by the police department or otherwise maintained by the city:

(1) When any vehicle shall be parked on any public park, lawn, parkway or in front of or so as to block entrances or driveways into public or private property from streets, avenues, highways or boulevards.

(2) When any vehicle shall be parked in any private alley, drive, driveway or on other privately-owned property without the permission or consent of the owner of such private alley, drive, driveway or property.

(3) When any vehicle is left unattended and parked upon a street and is so parked illegally as to constitute a hazard or obstruction to the normal movement of traffic.

(4) When any vehicle is left unattended and parked for an excessive period of time and in violation of any ordinance of the city or regulation of the city manager limiting the time for parking of vehicles on designated streets or parts of streets within the city.

(5) When a vehicle is so disabled as to constitute an obstruction to traffic or a hazard to persons or property and the persons in charge of the vehicle are by reason of physical injury or condition incapacitated to such an extent as to be unable to provide for its custody or removal.

Sec. 34-37. Parking trucks, buses.

(a) Definitions. For the purpose of this section, the term "truck" means any vehicle designed or operated for the transportation of property and whose body weight, or

~~whose combined body and load weight, exceeds one ton. The term "bus" means any vehicle designed or operated for the transportation of human beings and whose body weight, or whose combined body weight and load weight, exceeds one ton.~~

~~(b) Parking on certain city streets. When official traffic control devices have been installed giving notice thereof, no driver or operator of any bus or truck shall park on said streets.~~

~~Secs. 34-38—34-62. Reserved.~~

SECTION 3. Chapter 34, Article II – Stopping, Standing and Parking is hereby amended so that the same shall read thereinafter as follows:

ARTICLE II. ~~Stopping, Standing and~~ Parking

DIVISION 1. GENERAL PROVISIONS; ADMINISTRATIVE AUTHORITY; DEFINITIONS

Section 34-16. Title.

This chapter shall be known and may be cited as the "City of Fort Pierce Parking Ordinance."

Section 34-17. Applicability.

The provisions of this chapter shall apply throughout the corporate limits of the City and to the use of parking-related property owned or operated by the City.

Section 34-18. Definitions.

For the purpose of this chapter, certain abbreviations, terms, phrases, words, and their derivatives shall have the following meanings:

Calendar days mean and include Saturdays, Sundays, and legal holidays. Thus, in computing any period of time prescribed or allowed by this chapter, the day of the act, event, or default from which the designated period of time begins to run shall not be included; however, the last day of the period so computed shall be included, even if it is a Saturday, Sunday or legal holiday, any provision of this Code to the contrary notwithstanding.

Citation means a parking ticket issued for a violation of the Code as described in this chapter.

Commercial parking permit shall mean an identification credential affixed to a vehicle issued to a business by the City in accordance with the provisions of this section.

Commercial vehicle means:

(a) A vehicle designed, used or maintained primarily for the transportation of property, with a gross vehicle weight of 10,000 pounds or more; or

(b) Any bus, van, or truck with either a gross vehicle weight in excess of 10,000 pounds, or which is designed, used or maintained primarily for the transportation of unrelated persons for hire; or

(c) Any vehicle used in connection with any commercial enterprise that is identified by permanent or removable markings on both sides of the exterior of the vehicle, in letters not less than three (3) inches high, of the name of the company operating such vehicle.

Contractor parking permit shall mean an identification credential affixed to a vehicle issued to a contractor on a temporary basis by the City in accordance with the provisions of this section.

Delinquent status means a citation where payment is past due and includes citations that have not been paid, or for which a request for a parking violation hearing has not been made. A citation which has been found to be in violation after a hearing shall be in delinquent status if not paid within the time set. A violation set for a parking violation hearing which results in default shall immediately be in delinquent status. A citation will

remain in delinquent status until paid in full, unless dismissed or found not to be a violation.

Hearing officer means the code enforcement special magistrate assigned to hear parking violation hearings and challenges to parking citation violations and immobilization of vehicles in accordance with the provisions of this chapter.

Industrial equipment means farm tractors, implements, bulldozers, draglines, cranes, derricks, heavy earthmoving equipment normally used in farming excavation and/or heavy construction activities.

Non-motorized vehicle means any vehicle which does not have an attached source of mechanical energy such as an engine in order to make it move, but has to be attached, drawn, pushed, or pulled in order for it to be moved. Non-motorized vehicles include, but are not limited to, utility trailers, travel trailers, watercraft, boats, and watercraft or boat trailers.

Owner means any person, firm, corporation, or association controlling any motor vehicle or mobile home by right of purchase, gift, lease, or otherwise as defined under F.S. § 320.01, as of the date of the violation. The owner of a vehicle bearing a license plate that has been issued a citation shall be liable for payment of all penalties and costs.

Park or *parking* means the standing of a vehicle, whether occupied or not, otherwise than temporarily for the purpose of, and while actually engaged in loading or unloading merchandise or passengers.

Parking enforcement officer means a designated person who has successfully completed a parking enforcement officer training program established and approved by the Florida Criminal Justice Standards and Training Commission.

Parking violation hearing means a hearing by a hearing officer in which a driver or owner of a vehicle bearing a license plate that has been issued a citation, may contest the issuance of the citation. Parking violation hearings shall provide the opportunity for testimony and evidence to be presented and the rules of evidence shall be liberally construed to allow for the presentation of testimony and evidence. Parking violation hearings shall also be used by a person with standing to challenge the immobilization of a vehicle in a post-immobilization hearing.

Semitrailer means a semitrailer which is used or designed primarily for carrying commercial loads.

Stand or *standing* means the halting of a vehicle, whether occupied or not, otherwise than temporarily for the purpose of, and while actually engaged in receiving or discharging passengers.

Stop or stopping, when prohibited, means any halting, even momentarily, of a vehicle, whether occupied or not, except when necessary to avoid conflict with other traffic or to comply with the direction of a law enforcement officer or traffic-control sign or signal.

Vehicle means every device in, upon or by which any person or property is or may be transported or drawn upon any public street within the City, excepting devices moved by human power or used exclusively upon stationary rails or tracks.

Section 34-19. Administrative authority.

The provisions of this chapter shall be enforced by the City Manager or his or her designee.

Section 34-20. Authority to issue citations for parking tickets.

Parking enforcement officers, police officers and community service officers are authorized to issue parking tickets for violations of this chapter.

Section 34-21 – 34-25. – Reserved.

DIVISION 2. FEE AUTHORITY AND TYPES

Section 34-26. Fees—City Commission to establish.

The City Commission shall have the authority to set fees by resolution.

Section 34-27. Same—Types enumerated.

Fees may be charged for the following:

(1) Temporary Parking permits.

(2) Business Parking permits (for use in loading zones only).

(3) Marina Parking permits.

(4) Late payments.

(5) Immobilization and impoundment of vehicles as provided for in this chapter.

Section 34-28 – 34-30. – Reserved.

DIVISION 3. GENERAL PARKING REGULATIONS

Section 34-31. Parking in City lots, garages, public streets, and other property.

(a) *Improper Parking.* Any vehicle stopped, standing, or parked in a single parking space on any City owned or operated parking lot, garage, public street, or other property shall be parked within the lines marked for such single parking space. It is unlawful to stop, stand or park any vehicle across any such line or mark or to park such vehicle in any such way that the same shall not be within the area so designated by such lines or markings for that single parking space.

(b) *Height Restrictions.* No vehicle shall enter a parking garage which exceeds the height restriction posted on the clearance bar at the entrance of each garage.

(c) *Restricted Parking.* It is unlawful for an operator of a vehicle to stop, stand or park such vehicle in a space not designated or designed for its size.

(d) *Parking Time Limited.* When signs are erected giving notice of time limits, no person shall park a vehicle in any parking space and/or zone for a continuous period of time longer than that period of time designated by such signs. In order to enforce this provision no person shall roll the tires of a vehicle in an attempt to circumvent time restrictions enforcement prior to removing the vehicle from the parking space.

(e) *Parking prohibited/limited*. When signs are erected or pavement markings are installed giving notice thereof, no person shall park a vehicle at any time upon any of the streets, parking lots, sidewalks, sidewalk areas or other places so designated in a manner inconsistent with the provided signage or pavement markings.

(f) *Required distance from driveways.* It is unlawful for any person to stop, stand or park a vehicle, whether occupied or not, within ten (10) feet from the edge of a public or private driveway. It is unlawful for any person to stop, stand or park a vehicle across the street from a driveway if the street width is twenty-five (25) feet or less.

(g) *Minimum street clearance.* It is unlawful for any operator to stop, stand or park any vehicle upon a street, in a traffic lane, any alley or other city owned or operated property in such a manner or under such conditions as to leave available less than ten (10) feet of the width of the traffic lane or roadway for free movement of vehicular traffic, except that an operator may stop only during the actual loading or unloading of passengers or when necessary in obedience to traffic regulations or traffic signs or signals or directions from a police officer or community service officer. Where streets are not completely paved or curbs provided, the parking of a car shall not usurp more than 12 inches of the paved portion of the street.

(h) *Alleys*. No person shall stop, stand, or park a vehicle within an alley in a business district, except for the expeditious loading or unloading of materials, and in no event for a period of more than 20 minutes. No person shall stop, stand, or park a vehicle within an alley in such position as to block the driveway or entrance to any abutting property.

(i) *Oversized vehicle restrictions.* No motor vehicle, as defined by Florida Statues as may be amended, of eighty-six (86) inches or more in overall width (not including mirrors) shall be parked on any street, alley, or city owned or operated property, other than for loading and unloading, if parked adjacent to property designated by Chapter 125 of this Code as a residential zoning district.

(1) A written warning will be provided prior to the issuance of a citation. After twelve (12) hours, if the motor vehicle is parked in any prohibited location, a citation may be issued.

(2) Failure to move the motor vehicle in violation from streets, alleys, or City owned or operated property within two (2) hours after the issuance of a citation shall subject the motor vehicle to immobilization and/or impoundment as provided under this chapter.

(3) If it is determined that continued parking of the oversized motor vehicle creates an unsafe condition or is hazardous to the safety of the community, the Police Department may have the vehicle towed in accordance with Section 34-57 of this chapter.

(j) *Commercial /Industrial vehicle restrictions*.

(1) It shall be unlawful for any owner, agent, operator or person in charge of any commercial vehicle, industrial vehicle, or semitrailer, to park, stop, store or keep same on any public street, avenue, alley or other thoroughfare, or any right-of-way therewith, within any residential district in the city for a period exceeding one hour in any 24-hour period, each such period commencing at the time of the first stopping in the city.

(2) It shall be unlawful for any owner or lessee of real property in any residential district in the city to park on, cause to be parked on, or allow to be parked on his residential property, any commercial vehicle identified in the definition for commercial vehicle of this section, subsections (a) and (b), industrial vehicle, or semitrailer for the period exceeding one hour in any 24-hour period, unless same is in an enclosed garage. Each such period shall commence at the time of first stopping or parking. This restriction shall also apply to the owner, agent, operator, or person in charge of any such vehicle in the event said person is not the owner or lessee of said real property.

(3) The restrictions of this section shall not apply to the temporary parking of such vehicles on private property in residential districts whereon construction is underway, for which a current and valid building permit has been issued by the city, and said permit is properly displayed on the premises or any excavation or construction site whereon construction, clearing, removal of debris or other building and/or excavation activities are either currently under way or will commence within the next 24 hours. Industrial equipment used in lot clearing, tree trimming or removal, lawncare and related services, is also included, although a specific building permit may not be required; and, nothing in this section is intended to require a building permit where not otherwise required.

(4) The restrictions of this section of one hour parking limit in residential districts shall not apply to routine deliveries by tradesmen, or the use of trucks in making service calls, provided that such time in excess of one hour is actually in the course of business deliveries or servicing as the case may be.

(5) The restrictions of this section shall not apply to a situation where such vehicle becomes disabled, and as a result of such emergency is required to be parked within a residential district for longer than one hour. However, any such vehicle shall be removed from the residential district within 24 hours, by wrecker towing if necessary, regardless of the nature of the emergency.

(k) *Parking for certain purposes.* It is unlawful for any person to park any vehicle upon any City owned or operated lot, garage, street or other property for the primary purpose of:

(1) Displaying such vehicle for sale.

(2) Washing, greasing, or repairing such vehicle, except repairs necessitated by an emergency.

(3) Displaying advertising in accordance with Section 117-5 – Prohibited signs or sign characteristics.

(4) Selling food or merchandise from such vehicle except in a duly established special event, or when so authorized under the ordinances of the City in accordance with Section 22-361.

(l) *Parking on Right of Way.* It is unlawful to park in or on any right-of-way owned or maintained by the City, County or State except in designated parking spaces or parking lanes. For the purposes of this section, the term "right-of-way" shall have the definition provided in Section 32-8.

(m) *Parking to block stop signs.* No person shall stop, stand, or park a vehicle, with the exception to momentarily allow a person to enter or exit the vehicle, within fifteen (15) feet of a stop sign or stop bar.

(n) *Parking in opposing traffic lane.* No person shall stop, stand, or park a vehicle by means of crossing oncoming traffic and park so as to face opposing traffic flow. When parking in an angled parking space, the vehicle must be parked with the flow of traffic. Backing into an angled parking space is prohibited.

(o) *Parking in fire lanes*. No person shall stop, stand, or park a vehicle, with the exception of allowing a disabled person to enter or exit the vehicle, in a fire lane located on any property within the city. Violation of this subsection is a Level II violation.

(p) *Parking in spaces for persons with disabilities*. No person shall stop, stand, or park a vehicle within, or to obstruct, any space designated and marked as a disabled person parking space unless the vehicle displays a disabled parking permit issued under Section 316.1958 or Section 320.0848, Florida Statutes or a license plate issued under Sections 320.084, 320.0842, 320.0843, or 320.0845, Florida Statutes, and the vehicle is transporting the person to whom the displayed permit is issued. Violation of this subsection is a Level III violation.

(q) *Violations of Chapter 316, Florida Statutes*. Supplemental to the provisions of this chapter, the City hereby adopts provisions relating to parking, traffic control, enforcement and penalties as outlined in Chapter 316, Florida Statutes.

(r) *Exemptions*. The prohibitions stated in this section shall not apply to City, County, State and/or utility worker vehicles while parked in conjunction with discharging their official duties.

Section 34-32. Freight, loading and unloading spaces restricted.

(a) Spaces designated "loading zones" shall be restricted to commercial vehicles as defined in this section and other vehicles properly displaying a business parking permit and while actively engaged in the loading and unloading of materials or in cases of emergency.

(b) No person shall stop, stand, or park a vehicle for any purpose or length of time other than for the expeditious unloading and delivery or pickup and loading of materials in any place marked as a loading zone. In no case shall the stop for loading and unloading exceed thirty (30) minutes.

(c) For any continuous parking in the same space, a violation will be deemed to have occurred for each interval of time designated that the vehicle remains in that space.

Section 34-33. Continuous parking.

(a) It is unlawful for any person to permit a vehicle to remain in any parking space for more than twenty-four (24) hours in any non-residential zone, unless displaying a valid permit credential.

(b) It is unlawful for any person to permit a vehicle to remain in any parking space for more than (4) hours after a citation has been issued for violation of subsection (a) of this section.

(c) For any continuous parking in the same parking space, no more than one (1) offense under subsection (a) of this section and one (1) offense under subsection (b) of this section shall be deemed to have occurred on any one (1) date. In the case of any continuous parking in violation of subsection (a) or subsection (b) hereof covering parts of two (2) or more dates, one (1) offense under subsection (b) shall be deemed to have occurred on each of such dates.

Section 34-34. Electric vehicle charging station parking.

(a) No person shall park any vehicle in any parking space located in any City owned or operated parking garage or parking lot which is clearly marked as being reserved for the use of an electric vehicle charging station located within said parking garage or lot, unless such vehicle is using the electric vehicle charging station.

(b) It is unlawful for any person to permit a vehicle to remain in a parking space reserved for the charging of electric vehicles for more than four (4) hours.

Section 34-35. Special Events.

(a) When roads, City owned or maintained parking lots, parks or other City property are leased to a private party for a special event, consistent with Chapter 28, Article IV – Special Events, it is unlawful for a person to park any vehicle within the designated area without express permission from the event permit holder.

(b) It is unlawful for any person to permit a vehicle to remain in the leased special event area for more than two (2) hours after a citation has been issued for violation of subsection (a) of this section. If a vehicle remains parked after two (2) hours, the Police Department may have the vehicle towed in accordance with Section 34-57 of this chapter.

Section 34-36. Non-motorized vehicle parking prohibited.

Unless otherwise authorized in this Code, it shall be unlawful to park any non-motorized vehicle upon any street, alley, parking lot or City owned or operated property, for longer than twenty-four (24) consecutive hours. Failure to move the non-motorized vehicle in violation from streets, alleys, parking lot or city owned or operated property within two (2) hours after the issuance of a ticket shall subject the non-motorized vehicle to immobilization and/or impoundment as provided under this chapter.

Section 34-37 – 34-40. - Reserved

DIVISION 4. PERMITS, PERMIT REGULATIONS

Section 34-41. On-Street parking permits.

(a) The City Manager or his or her designee may grant and issue, renew, deny, or revoke on-street parking permits that, when properly displayed, will allow parking in a restricted parking space. Fees shall be assessed for an on-street parking permit. Requests for on-street parking permits shall be made in writing to the City.

Section 34-42. Business parking permits.

(a) Businesses may request a business parking permit for use of personal vehicles, used in the course of business, but that do not meet the definition of commercial vehicle as defined by this chapter, to allow parking within designated loading zones. Fees shall be assessed for a business parking permit. Requests for business parking permits shall be made in writing to the City.

(b) Business parking permits may be used only in loading zones in the downtown area of the City. Parking is restricted to the thirty-minute time limit as permitted by section 34-32(b) of this code.

(c) A business parking permit is valid only for the City fiscal year in which it was issued.

Section 34-43. Contractor parking permits.

(a) Contractors or business owners may request a temporary contractor parking permit to allow for the use of restricted parking spaces for the following:

(1) A vehicle which is actively used for construction, rehabilitation, or repair of a business located in the downtown area, wherein materials and tools must be readily accessible.

(2) Dumpsters that are required for the construction, rehabilitation, or repair of a business located in the downtown area.

(b) Specific conditions may be placed upon the permit holder based on time, location, safety concerns or other such conditions as are warranted. Failure to comply with such conditions may result in the permit being revoked.

(c) Requests shall be made to the City Manager or his/her designee and must include the time for which the permit will remain active. In no case will a contractor parking permit be issued for a time frame beyond that for which a building permit has been issued.

(d) Contractor parking permits shall be categorized as either "Limited", which provides for parking between the hours of 6:00 AM and 6:00 PM and is not space specific or "Unlimited", which provides for a specific space or spaces to be temporarily assigned to the permit holder.

Section 34-44. Marina parking permits.

(a) Marina tenants may request a marina parking permit for extended parking of personal vehicles. Fees shall be assessed for a marina parking permit. Requests for marina parking permits shall be made in writing to the City Marina.

(b) In addition to the rules provided in this section, all marina parking permit recipients must abide by the Fort Pierce City Marina Parking Rules and Regulations, as amended, which are available in the Marina Office.

(c) Unless located in the designated marina parking lot on the north side of the marina, vehicles may not be parked in one location for more than 10 days. Vehicles parked for more than 10 days must be located on the 3rd, 4th or 5th floor of the City Hall Parking Garage

(c) A marina parking permit expires upon the expiration or termination of permit holder's marina lease.

Section 34-45. Juror parking permits.

(a) The office of the Clerk of the Circuit Court for St. Lucie County is authorized to issue parking permits in accordance with this section

(b) Persons summoned for jury duty may be provided a temporary parking permit with the summons.

(1) Parking permits issued under this subsection (b) must be displayed on the dashboard if the vehicle is parked in a time-restricted parking space.

(2) Such parking permits are valid for one (1) day.

(c) Once selected to serve on a jury, all jury members may be provided a juror parking permit for parking throughout their time of service.

(1) Parking permits issued under this subsection (c) must be displayed on the dashboard if the vehicle is parked in a time-restricted parking space.

(2) Such parking permits are valid for up to seven (7) days and may be renewed as necessary.

Section 34-46. St. Lucie County Sheriff's Office parking permits.

(a) The St. Lucie County Sheriff's Office is authorized to issue parking permits to deputies assigned to the St. Lucie County Court House.

(b) Sheriff's Office parking permits are valid only in marked parking spaces located on the west side of Indian River Drive.

Section 34-47 – 34-50. – Reserved

DIVISION 5. PENALTIES AND ENFORCEMENT

Section 34-51. Issuance of parking citations; payment or contesting citations; penalties for parking violations; requesting a City review.

(a) A law enforcement officer, community service officer or parking enforcement officer who discovers a vehicle parked in violation of this chapter or other law may issue a

parking citation to a vehicle as identified by the license plate number, vehicle identification number, or with other specificity to ensure the vehicle in violation can be identified and deliver it to the driver; or if the vehicle is unattended, attach such citation to the vehicle in a conspicuous place.

(b) The parking citation shall provide:

(1) The date and time of issuance.

(2) The name or identification number of the officer or parking enforcement officer who issued the citation.

(3) A description of the violation.

(4) The penalty amount.

(5) The period of time in which it must be paid or set for a parking violation hearing before it is considered in delinquent status.

(6) The vehicle information.

(7) Information on how and where the citation may be paid; and

(8) Information on how the citation may be contested.

(c) The driver or owner of the vehicle which was issued a citation shall elect to pay the citation as described on the citation or request a parking violation hearing as described in paragraph (h). Failure to pay a citation, or request a parking violation hearing, within the specified time shall result in the citation being in delinquent status.

(d) Unless otherwise specifically provided in this section, the violation of any provision of this chapter relating to parking shall be a Class I noncriminal civil infraction pursuant to Section 1-106 of the Code of Ordinances.

(e) A violation of Section 34-31(p), enforcement of parking in spaces for persons with disabilities, shall be a Class III violation. Any penalty collected for such a violation may be deposited in a separate account to be used to defray expenses for administration of this violation; and to provide funds to improve accessibility and equal opportunity to qualified persons who have disabilities in the City and to provide funds to conduct public awareness programs in the City concerning persons who have disabilities.

(f) A violation of Section 34-31(o), parking in fire lanes, shall be a Class II violation.

(g) Any penalty not paid to the City within thirty (30) days of the date of the violation, unless a parking violation hearing has been requested, shall result in an additional penalty, which amount shall be set by Resolution plus any associated administrative fees pursuant to Section 1-105.

(h) A person who wishes to contest a citation without being assessed additional penalties or costs for delinquency shall complete and submit a written request for a parking violation hearing which must be received by the City within fourteen (14) calendar days of the date of the violation. A request for a parking violation hearing shall be on the form prescribed by the City. Requests shall include a complete name and address of the person contesting the hearing, and a phone number and e-mail address. A copy of the individual's driver's license, a copy of the parking citation and a description of the dispute must be included with the request for a hearing.

(i) The Department of Community Response shall conduct a preliminary review off all parking citation appeals within seven (7) days of receipt of the written request. The determination may:

(1) Affirm the issuance of the citation and the matter will be scheduled to be heard by the Special Magistrate.

(2) Find the appeal valid and dismiss the citation.

(3) Allow for a reduction in the penalty.

(j) Upon an affirmance under subsection (i)(1) or confirmation that the citation has not been paid, a notice of hearing will be issued. The City shall send a Notice of Hearing which states:

(1) The date, time, and location of the parking violation hearing.

(2) That a person who elects to contest the citation may be assessed a penalty of up to $500.00 if found in violation after a hearing by the Special Magistrate.

(3) That a person who elects to contest a violation and then fails to appear at the parking violation hearing shall be deemed to have waived his or her right to a hearing and may be found in violation by default subject to a penalty of up to $500.00, unless otherwise authorized or prohibited by law.

(4) That unpaid citations will be in delinquent status may be transferred to St. Lucie County Court.

(5) That vehicles bearing license plates which are identified as belonging to owners who have citations in delinquent status are subject to immobilization or impoundment as provided in this chapter.

(k) The Notice of Hearing shall be sent by certified mail to the address provided by the Florida Department of Transportation or to the person making the request for a parking violation hearing at the physical address, with a copy sent to the e-mail address provided in the request. A certification by the City that the Notice of Hearing was mailed to the physical address constitutes prima facie evidence that the person on the Notice of Hearing was served with the notice.

(l) A person who requests a parking violation hearing waives his or her right to pay the initial civil penalty amounts set forth in this chapter. The Special Magistrate, after a hearing, shall make a determination as to whether a parking violation has been committed and may impose a civil penalty not to exceed $500.00 unless otherwise authorized or prohibited by law, plus administrative costs.

Section 34-52. Cancellation or continuances of hearings; burden of proof; payment after hearing.

(a) A scheduled parking violation hearing will be cancelled if full payment of the pending violation(s) is made at least twenty-four (24) hours prior to the hearing date.

(b) Request for continuation of a scheduled parking violation hearing shall comply with the procedures outlined in the Special Magistrate Rules of Procedure, as may be amended.

(c) A finding of violation requires all penalties and costs to be paid within fourteen (14) calendar days unless additional time is granted by the Special Magistrate or the City.

(d) Failure to pay outstanding penalties or costs after a finding of a violation at a hearing shall result in the citation being transferred County Court for further proceedings.

Section 34-53. Additional penalties and enforcement to include immobilization and impoundment.

(a) The City of Fort Pierce is authorized to attach a device that is capable of immobilizing a vehicle as described in this chapter when:

(1) It is determined that the license plate number attached to a vehicle, or the owner of a vehicle owes one hundred fifty dollars ($150.00) or more to the City as a result of delinquent parking citations and related administration and late fees.

(2) A violation of section 34-36 exists, relating to non-motorized vehicles.

(3) A violation of section 34-31(i) exists, relating to motor vehicles of eighty-six (86) inches or more in overall width.

(b) In order to ensure the safety of the vehicle, an immobilized vehicle shall be impounded if the reason for the immobilization has not been resolved and the immobilization device has not been removed within twenty-four (24) hours of the immobilization.

Section 34-54. Immobilization of vehicles.

(a) Immobilization referred to in this chapter shall be by an immobilization device attached to the vehicle at the place where it is found, except that no vehicle shall be

immobilized on private property or within the traveled portion of any street or on any portion of a street when immobilization at such place would create a hazard to the public or to the traffic.

(b) At the same time as the immobilizing device is attached to the vehicle, a warning notice shall be affixed to the windshield or other prominent place on the vehicle stating that the immobilizing device has been so attached, cautioning the operator not to attempt to operate the vehicle while the immobilizing device is still attached and informing the operator that the vehicle is under immobilization, the reason for the immobilization, and where the proper person must go in order to arrange for the removal of the immobilization device or to request a post-immobilization hearing. Immobilization fees, including the administration fees for removal of the immobilization device, shall be paid to the City.

(c) A person with standing who wishes to request a post-immobilization hearing in front of a hearing officer shall follow the procedure set out under Section 34-51 of this chapter.

Section 34-55. Removal of immobilizing device unlawful.

It is unlawful for any person to attempt or to remove, damage, destroy or tamper with an immobilizing device affixed to a vehicle by the City. A violation of this section shall be a Class III infraction in accordance with City Code Section 1-106. Release of an immobilized vehicle will take place in accordance with section 34-56.

Section 34-56. Establishment of post-immobilization hearings.

(a) Any person wishing to challenge the immobilization of a vehicle pursuant to this chapter shall be entitled to a post-immobilization hearing before a Special Magistrate. Post-immobilization hearings shall be handled on the same date and time as parking violation hearings. A person who wishes to contest an immobilization without being assessed additional penalties or costs for impoundment shall post a bond for the entire amount in dispute and complete and submit a written request for post-immobilization hearing which must be received by the City within two (2) business days of the date of the immobilization. A request for a post-immobilization hearing shall be on the form provided by the City. Requests shall include a complete name and address of the person requesting a hearing, a phone number, e-mail address and a copy of the requestor's driver's license and vehicle registration. A description of the dispute must be included with the request for a hearing. Upon such request, a notice of hearing will be issued, confirming the time and date of the hearing

(b) Within one (1) business day following receipt of the request for post-immobilization hearing, the Department of Community Response shall conduct a preliminary review of the immobilization appeal. The determination may:
   a. Affirm the immobilization and the matter will be scheduled to be heard by the Special Magistrate.
   b. Find the appeal valid and allow the release of the immobilization device without penalty.

(c) Upon affirmance by the Department of Community Response, the City shall send a notice of hearing which states:

   (1) The date, time, and location of the post-immobilization hearing.

   (2) That a person who elects to contest the immobilization waives his or her right to pay the initial amount of the ticket due at the time of the immobilization unless a bond was posted.

   (3) That additional penalties and costs for the impoundment of the vehicle will continue to accrue until a hearing is held and a determination is made as to whether the vehicle was immobilized in accordance with chapter 34, Fort Pierce Code.

   (4) That a person who elects to contest a violation and then fails to appear shall be deemed to have waived his or her right to a hearing and any bond will be forfeited to the City.

(d) The Notice of Hearing shall be sent by mail or e-mail to the person making the request for a post-immobilization hearing to the physical address or e-mail address provided in the request. A certification by the City that the Notice of Hearing was mailed to the physical address or e-mail address provided on a post-immobilization request constitutes prima facie evidence that the person on the Notice of Hearing was served with the notice.

(e) The Special Magistrate, after a hearing, shall make a determination as to whether an immobilization was done in accordance with this chapter. If the Special Magistrate determines that the immobilization was not done in accordance with the applicable ordinances, statutes and regulations, the aggrieved party shall be entitled to a reimbursement of any bond, fines, costs, or penalties paid related to the contested immobilization or if the vehicle is still impounded, the vehicle shall be immediately released with a waiver of all fines, costs, and penalties.

Section 34-57. Impoundment of vehicles.

(a) Impoundment referred to in this chapter shall be done in accordance with Section 713.78, Florida Statutes. A vehicle impounded under this chapter will be subject to all liens and terms described in Chapter 713, Florida Statutes, in addition to payment of other applicable penalties and costs.

(b) The City of Fort Pierce is authorized to remove a vehicle from streets, City owned or operated off-street lots, parking structures, parks, beach and recreation areas, and other property within the City limits and to cause the same to be impounded in the nearest garage or other place of safety, or in a garage designated or maintained by the police department or otherwise maintained by the City, if any of the following occurs:

(1) When any vehicle shall be parked in front of or so as to block entrances or driveways into public or private property.

(2) When any vehicle is left unattended and parked upon a street and is so parked illegally as to constitute a hazard or obstruction to the normal movement of traffic.

(3) When any vehicle is left unattended and parked for an excessive period of time and in violation of any ordinance of the City or regulation limiting the time for parking of vehicles.

(4) When a vehicle is so disabled as to constitute an obstruction to traffic or a hazard to persons or property and the persons in charge of the vehicle are by reason of physical injury or condition incapacitated to such an extent as to be unable to provide for its custody or removal.

(5) When a vehicle is considered inoperable or abandoned due to expired registration or other condition that prevents the vehicle from being removed by the registered owner.

(6) As authorized under section 34-53(b), related to unresolved immobilization of vehicles.

Section 34-58. Release of immobilized or impounded vehicle.

(a) An immobilized vehicle under this chapter may be released by the City upon: payment of all parking fines, costs, and immobilization fees; a City review and determination to release the immobilization device without penalty; or upon a Special Magistrate finding in favor of the person challenging the immobilization.

(b) A vehicle impounded under this chapter may be released upon: payment of all parking penalties, costs, towing, storage, and administrative fees in accordance with F.S. § 713.78; or upon the posting of a cash or surety bond totaling all applicable amounts owed until the disposition of any hearing held in accordance with section F.S. § 713.78. A person who posts a bond under this section and fails to file a complaint within the time required under F.S. § 713.78 shall have waived his or her right to a hearing and the total amount of the posted bond shall be forfeited to the city.

Section 34-59. Disposition of unrecovered impounded vehicles.

Vehicles impounded under this chapter which are not recovered may be disposed of in accordance with F.S. § 713.78.

Section 34-60 – 34-62. – Reserved

SECTION 4. All ordinances of parts of ordinances in conflict herewith are andthe same shall be repealed and shall be of no further force or effect whatsoever.

SECTION 5. This ordinance is and the same shall become effective immediately upon final passage hereof.

SECTION 6. If any provision of this ordinance is held to be invalid, unconstitutional, or unenforceable for any reason by a court of competent jurisdiction, such invalidity shall not affect the validity of the remaining portions of this ordinance, which shall be deemed separate, distinct, and independent provisions to the fullest extent possible.

APPROVED AS TO
FORM AND CORRECTNESS:

Linda W. Cox
City Clerk

(SEAL)

ORDINANCE NO. 22-036

SECTION 1. Chapter 34, Article I – In General is hereby amended so that the same shall read thereinafter as follows:

Secs. 34-9—34-15. – Reserved.

SECTION 2. Chapter 34, Article II – Stopping, Standing and Parking, Sections 34-35 through 34-62 are hereby deleted in their entirety:

SECTION 3. Chapter 34, Article II – Stopping, Standing and Parking is hereby amended so that the same shall read thereinafter as follows:

ARTICLE II. Parking

DIVISION 1. GENERAL PROVISIONS; ADMINISTRATIVE AUTHORITY; DEFINITIONS

Section 34-16. Title.

This chapter shall be known and may be cited as the "City of Fort Pierce Parking Ordinance."

Section 34-17. Applicability.

The provisions of this chapter shall apply throughout the corporate limits of the City and to the use of parking-related property owned or operated by the City.

Section 34-18. Definitions.

For the purpose of this chapter, certain abbreviations, terms, phrases, words, and their derivatives shall have the following meanings:

Calendar days mean and include Saturdays, Sundays, and legal holidays. Thus, in computing any period of time prescribed or allowed by this chapter, the day of the act, event, or default from which the designated period of time begins to run shall not be included; however, the last day of the period so computed shall be included, even if it is a Saturday, Sunday or legal holiday, any provision of this Code to the contrary notwithstanding.

Citation means a parking ticket issued for a violation of the Code as described in this chapter.

Commercial parking permit shall mean an identification credential affixed to a vehicle issued to a business by the City in accordance with the provisions of this section.

Commercial vehicle means:

(a) A vehicle designed, used or maintained primarily for the transportation of property, with a gross vehicle weight of 10,000 pounds or more; or

(b) Any bus, van, or truck with either a gross vehicle weight in excess of 10,000 pounds, or which is designed, used or maintained primarily for the transportation of unrelated persons for hire; or

(c) Any vehicle used in connection with any commercial enterprise that is identified by permanent or removable markings on both sides of the exterior of the vehicle, in letters not less than three (3) inches high, of the name of the company operating such vehicle.

Contractor parking permit shall mean an identification credential affixed to a vehicle issued to a contractor on a temporary basis by the City in accordance with the provisions of this section.

Delinquent status means a citation where payment is past due and includes citations that have not been paid, or for which a request for a parking violation hearing has not been made. A citation which has been found to be in violation after a hearing shall be in delinquent status if not paid within the time set. A violation set for a parking violation hearing which results in default shall immediately be in delinquent status. A citation will remain in delinquent status until paid in full, unless dismissed or found not to be a violation.

Hearing officer means the code enforcement special magistrate assigned to hear parking violation hearings and challenges to parking citation violations and immobilization of vehicles in accordance with the provisions of this chapter.

Industrial equipment means farm tractors, implements, bulldozers, draglines, cranes, derricks, heavy earthmoving equipment normally used in farming excavation and/or heavy construction activities.

Non-motorized vehicle means any vehicle which does not have an attached source of mechanical energy such as an engine in order to make it move, but has to be attached, drawn, pushed, or pulled in order for it to be moved. Non-motorized vehicles include, but are not limited to, utility trailers, travel trailers, watercraft, boats, and watercraft or boat trailers.

Owner means any person, firm, corporation, or association controlling any motor vehicle or mobile home by right of purchase, gift, lease, or otherwise as defined under F.S. § 320.01, as of the date of the violation. The owner of a vehicle bearing a license plate that has been issued a citation shall be liable for payment of all penalties and costs.

Park or *parking* means the standing of a vehicle, whether occupied or not, otherwise than temporarily for the purpose of, and while actually engaged in loading or unloading merchandise or passengers.

Parking enforcement officer means a designated person who has successfully completed a parking enforcement officer training program established and approved by the Florida Criminal Justice Standards and Training Commission.

Parking violation hearing means a hearing by a hearing officer in which a driver or owner of a vehicle bearing a license plate that has been issued a citation, may contest the issuance of the citation. Parking violation hearings shall provide the opportunity for testimony and evidence to be presented and the rules of evidence shall be liberally construed to allow for the presentation of testimony and evidence. Parking violation hearings shall also be used by a person with standing to challenge the immobilization of a vehicle in a post-immobilization hearing.

Semitrailer means a semitrailer which is used or designed primarily for carrying commercial loads.

Stand or *standing* means the halting of a vehicle, whether occupied or not, otherwise than temporarily for the purpose of, and while actually engaged in receiving or discharging passengers.

Stop or stopping, when prohibited, means any halting, even momentarily, of a vehicle, whether occupied or not, except when necessary to avoid conflict with other traffic or to comply with the direction of a law enforcement officer or traffic-control sign or signal.

Vehicle means every device in, upon or by which any person or property is or may be transported or drawn upon any public street within the City, excepting devices moved by human power or used exclusively upon stationary rails or tracks.

Section 34-19. Administrative authority.

The provisions of this chapter shall be enforced by the City Manager or his or her designee.

Section 34-20. Authority to issue citations for parking tickets.

Parking enforcement officers, police officers and community service officers are authorized to issue parking tickets for violations of this chapter.

Section 34-21 – 34-25. – Reserved.

DIVISION 2. FEE AUTHORITY AND TYPES

Section 34-26. Fees—City Commission to establish.

The City Commission shall have the authority to set fees by resolution.

Section 34-27. Same—Types enumerated.

Fees may be charged for the following:

(1) Temporary Contractor Parking permits.

(2) Business Parking permits (for use in loading zones only).

(3) Marina Parking permits.

(4) Late payments.

(5) Immobilization and impoundment of vehicles as provided for in this chapter.

Section 34-28 – 34-30. – Reserved.

DIVISION 3. GENERAL PARKING REGULATIONS

Section 34-31. Parking in City lots, garages, public streets, and other property.

(a) *Improper Parking.* Any vehicle stopped, standing, or parked in a single parking space on any City owned or operated parking lot, garage, public street, or other property shall be parked within the lines marked for such single parking space. It is unlawful to stop, stand or park any vehicle across any such line or mark or to park such vehicle in any such way that the same shall not be within the area so designated by such lines or markings for that single parking space.

(b) *Height Restrictions.* No vehicle shall enter a parking garage which exceeds the height restriction posted on the clearance bar at the entrance of each garage.

(c) *Restricted Parking.* It is unlawful for an operator of a vehicle to stop, stand or park such vehicle in a space not designated or designed for its size.

(d) *Parking Time Limited.* When signs are erected giving notice of time limits, no person shall park a vehicle in any parking space and/or zone for a continuous period of time longer than that period of time designated by such signs. In order to enforce this provision no person shall roll the tires of a vehicle in an attempt to circumvent time restrictions enforcement prior to removing the vehicle from the parking space.

(e) *Parking prohibited/limited*. When signs are erected or pavement markings are installed giving notice thereof, no person shall park a vehicle at any time upon any of the streets, parking lots, sidewalks, sidewalk areas or other places so designated in a manner inconsistent with the provided signage or pavement markings.

(f) *Required distance from driveways.* It is unlawful for any person to stop, stand or park a vehicle, whether occupied or not, within ten (10) feet from the edge of a public or private driveway. It is unlawful for any person to stop, stand or park a vehicle across the street from a driveway if the street width is twenty-five (25) feet or less.

(g) *Minimum street clearance.* It is unlawful for any operator to stop, stand or park any vehicle upon a street, in a traffic lane, any alley or other city owned or operated property in such a manner or under such conditions as to leave available less than ten (10) feet of the width of the traffic lane or roadway for free movement of vehicular traffic, except that an operator may stop only during the actual loading or unloading of passengers or when necessary in obedience to traffic regulations or traffic signs or signals or directions from a police officer or community service officer. Where streets are not completely paved or curbs provided, the parking of a car shall not usurp more than 12 inches of the paved portion of the street.

(h) *Alleys*. No person shall stop, stand, or park a vehicle within an alley in a business district, except for the expeditious loading or unloading of materials, and in no event for a period of more than 20 minutes. No person shall stop, stand, or park a vehicle within an alley in such position as to block the driveway or entrance to any abutting property.

(i) *Oversized vehicle restrictions.* No motor vehicle, as defined by Florida Statues as may be amended, of eighty-six (86) inches or more in overall width (not including mirrors) shall be parked on any street, alley, or city owned or operated property, other than for loading and unloading, if parked adjacent to property designated by Chapter 125 of this Code as a residential zoning district.

(1) A written warning will be provided prior to the issuance of a citation. After twelve (12) hours, if the motor vehicle is parked in any prohibited location, a citation may be issued.

(2) Failure to move the motor vehicle in violation from streets, alleys, or City owned or operated property within two (2) hours after the issuance of a citation shall subject the motor vehicle to immobilization and/or impoundment as provided under this chapter.

(3) If it is determined that continued parking of the oversized motor vehicle creates an unsafe condition or is hazardous to the safety of the community, the Police Department may have the vehicle towed in accordance with Section 34-57 of this chapter.

(j) *Commercial /Industrial vehicle restrictions*.

(1) It shall be unlawful for any owner, agent, operator or person in charge of any commercial vehicle, industrial vehicle, or semitrailer, to park, stop, store or keep same on any public street, avenue, alley or other thoroughfare, or any right-of-way therewith, within any residential district in the city for a period exceeding one hour in any 24-hour period, each such period commencing at the time of the first stopping in the city.

(2) It shall be unlawful for any owner or lessee of real property in any residential district in the city to park on, cause to be parked on, or allow to be parked on his residential property, any commercial vehicle identified in the definition for commercial vehicle of this section, subsections (a) and (b), industrial vehicle, or semitrailer for the period exceeding one hour in any 24-hour period, unless same is in an enclosed garage. Each such period shall commence at the time of first stopping or parking. This restriction shall also apply to the owner, agent, operator, or person in charge of any such vehicle in the event said person is not the owner or lessee of said real property.

(3) The restrictions of this section shall not apply to the temporary parking of such vehicles on private property in residential districts whereon construction is underway, for which a current and valid building permit has been issued by the city, and said permit is properly displayed on the premises or any excavation or construction site whereon construction, clearing, removal of debris or other building and/or excavation activities are either currently under way or will commence within the next 24 hours. Industrial equipment used in lot clearing, tree trimming or removal, lawncare and related services, is also included, although a specific building permit may not be required; and, nothing in this section is intended to require a building permit where not otherwise required.

(4) The restrictions of this section of one hour parking limit in residential districts shall not apply to routine deliveries by tradesmen, or the use of trucks in making service calls, provided that such time in excess of one hour is actually in the course of business deliveries or servicing as the case may be.

(5) The restrictions of this section shall not apply to a situation where such vehicle becomes disabled, and as a result of such emergency is required to be parked within a residential district for longer than one hour. However, any such vehicle shall be removed from the residential district within 24 hours, by wrecker towing if necessary, regardless of the nature of the emergency.

(k) *Parking for certain purposes.* It is unlawful for any person to park any vehicle upon any City owned or operated lot, garage, street or other property for the primary purpose of:

(1) Displaying such vehicle for sale.

(2) Washing, greasing, or repairing such vehicle, except repairs necessitated by an emergency.

(3) Displaying advertising in accordance with Section 117-5 – Prohibited signs or sign characteristics.

(4) Selling food or merchandise from such vehicle except in a duly established special event, or when so authorized under the ordinances of the City in accordance with Section 22-361.

(l) *Parking on Right of Way.* It is unlawful to park in or on any right-of-way owned or maintained by the City, County or State except in designated parking spaces or parking lanes. For the purposes of this section, the term "right-of-way" shall have the definition provided in Section 32-8.

(m) *Parking to block stop signs.* No person shall stop, stand, or park a vehicle, with the exception to momentarily allow a person to enter or exit the vehicle, within fifteen (15) feet of a stop sign or stop bar.

(n) *Parking in opposing traffic lane.* No person shall stop, stand, or park a vehicle by means of crossing oncoming traffic and park so as to face opposing traffic flow. When parking in an angled parking space, the vehicle must be parked with the flow of traffic. Backing into an angled parking space is prohibited.

(o) *Parking in fire lanes*. No person shall stop, stand, or park a vehicle, with the exception of allowing a disabled person to enter or exit the vehicle, in a fire lane located on any property within the city. Violation of this subsection is a Level II violation.

(p) *Parking in spaces for persons with disabilities*. No person shall stop, stand, or park a vehicle within, or to obstruct, any space designated and marked as a disabled person parking space unless the vehicle displays a disabled parking permit issued under Section 316.1958 or Section 320.0848, Florida Statutes or a license plate issued under Sections 320.084, 320.0842, 320.0843, or 320.0845, Florida Statutes, and the vehicle is transporting the person to whom the displayed permit is issued. Violation of this subsection is a Level III violation.

(q) *Violations of Chapter 316, Florida Statutes*. Supplemental to the provisions of this chapter, the City hereby adopts provisions relating to parking, traffic control, enforcement and penalties as outlined in Chapter 316, Florida Statutes.

(r) *Exemptions*. The prohibitions stated in this section shall not apply to City, County, State and/or utility worker vehicles while parked in conjunction with discharging their official duties.

Section 34-32. Freight, loading and unloading spaces restricted.

(a) Spaces designated "loading zones" shall be restricted to commercial vehicles as defined in this section and other vehicles properly displaying a business parking permit and while actively engaged in the loading and unloading of materials or in cases of emergency.

(b) No person shall stop, stand, or park a vehicle for any purpose or length of time other than for the expeditious unloading and delivery or pickup and loading of materials in any place marked as a loading zone. In no case shall the stop for loading and unloading exceed thirty (30) minutes.

(c) For any continuous parking in the same space, a violation will be deemed to have occurred for each interval of time designated that the vehicle remains in that space.

Section 34-33. Continuous parking.

(a) It is unlawful for any person to permit a vehicle to remain in any parking space for more than twenty-four (24) hours in any non-residential zone, unless displaying a valid permit credential.

(b) It is unlawful for any person to permit a vehicle to remain in any parking space for more than (4) hours after a citation has been issued for violation of subsection (a) of this section.

(c) For any continuous parking in the same parking space, no more than one (1) offense under subsection (a) of this section and one (1) offense under subsection (b) of this section shall be deemed to have occurred on any one (1) date. In the case of any continuous parking in violation of subsection (a) or subsection (b) hereof covering parts of two (2) or more dates, one (1) offense under subsection (b) shall be deemed to have occurred on each of such dates.

Section 34-34. Electric vehicle charging station parking.

(a) No person shall park any vehicle in any parking space located in any City owned or operated parking garage or parking lot which is clearly marked as being reserved for

the use of an electric vehicle charging station located within said parking garage or lot, unless such vehicle is using the electric vehicle charging station.

(b) It is unlawful for any person to permit a vehicle to remain in a parking space reserved for the charging of electric vehicles for more than four (4) hours.

Section 34-35. Special Events.

(a) When roads, City owned or maintained parking lots, parks or other City property are leased to a private party for a special event, consistent with Chapter 28, Article IV – Special Events, it is unlawful for a person to park any vehicle within the designated area without express permission from the event permit holder.

(b) It is unlawful for any person to permit a vehicle to remain in the leased special event area for more than two (2) hours after a citation has been issued for violation of subsection (a) of this section. If a vehicle remains parked after two (2) hours, the Police Department may have the vehicle towed in accordance with Section 34-57 of this chapter.

Section 34-36. Non-motorized vehicle parking prohibited.

Unless otherwise authorized in this Code, it shall be unlawful to park any non-motorized vehicle upon any street, alley, parking lot or City owned or operated property, for longer than twenty-four (24) consecutive hours. Failure to move the non-motorized vehicle in violation from streets, alleys, parking lot or city owned or operated property within two (2) hours after the issuance of a ticket shall subject the non-motorized vehicle to immobilization and/or impoundment as provided under this chapter.

Section 34-37 – 34-40. - Reserved

DIVISION 4. PERMITS, PERMIT REGULATIONS

Section 34-41. On-Street parking permits.

(a) The City Manager or his or her designee may grant and issue, renew, deny, or revoke on-street parking permits that, when properly displayed, will allow parking in a restricted parking space. Fees shall be assessed for an on-street parking permit. Requests for on-street parking permits shall be made in writing to the City.

Section 34-42. Business parking permits.

(a) Businesses may request a business parking permit for use of personal vehicles, used in the course of business, but that do not meet the definition of commercial vehicle as defined by this chapter, to allow parking within designated loading zones. Fees shall be assessed for a business parking permit. Requests for business parking permits shall be made in writing to the City.

(b) Business parking permits may be used only in loading zones in the downtown area of the City. Parking is restricted to the thirty-minute time limit as permitted by section 34-32(b) of this code.

(c) A business parking permit is valid only for the City fiscal year in which it was issued.

Section 34-43. Contractor parking permits.

(a) Contractors or business owners may request a temporary contractor parking permit to allow for the use of restricted parking spaces for the following:

(1) A vehicle which is actively used for construction, rehabilitation, or repair of a business located in the downtown area, wherein materials and tools must be readily accessible.

(2) Dumpsters that are required for the construction, rehabilitation, or repair of a business located in the downtown area.

(b) Specific conditions may be placed upon the permit holder based on time, location, safety concerns or other such conditions as are warranted. Failure to comply with such conditions may result in the permit being revoked.

(c) Requests shall be made to the City Manager or his/her designee and must include the time for which the permit will remain active. In no case will a contractor parking permit be issued for a time frame beyond that for which a building permit has been issued.

(d) Contractor parking permits shall be categorized as either "Limited", which provides for parking between the hours of 6:00 AM and 6:00 PM and is not space specific or "Unlimited", which provides for a specific space or spaces to be temporarily assigned to the permit holder.

Section 34-44. Marina parking permits.

(a) Marina tenants may request a marina parking permit for extended parking of personal vehicles. Fees shall be assessed for a marina parking permit. Requests for marina parking permits shall be made in writing to the City Marina.

(b) In addition to the rules provided in this section, all marina parking permit recipients must abide by the Fort Pierce City Marina Parking Rules and Regulations, as amended, which are available in the Marina Office.

(c) Unless located in the designated marina parking lot on the north side of the marina, vehicles may not be parked in one location for more than 10 days. Vehicles parked for more than 10 days must be located on the 3rd, 4th or 5th floor of the City Hall Parking Garage.

(c) A marina parking permit expires upon the expiration or termination of permit holder's marina lease.

Section 34-45. Juror parking permits.

(a) The office of the Clerk of the Circuit Court for St. Lucie County is authorized to issue parking permits in accordance with this section

(b) Persons summoned for jury duty may be provided a temporary parking permit with the summons.

(1) Parking permits issued under this subsection (b) must be displayed on the dashboard if the vehicle is parked in a time-restricted parking space.

(2) Such parking permits are valid for one (1) day.

(c) Once selected to serve on a jury, all jury members may be provided a juror parking permit for parking throughout their time of service.

(1) Parking permits issued under this subsection (c) must be displayed on the dashboard if the vehicle is parked in a time-restricted parking space.

(2) Such parking permits are valid for up to seven (7) days and may be renewed as necessary.

Section 34-46. St. Lucie County Sheriff's Office parking permits.

(a) The St. Lucie County Sheriff's Office is authorized to issue parking permits to deputies assigned to the St. Lucie County Court House.

(b) Sheriff's Office parking permits are valid only in marked parking spaces located on the west side of Indian River Drive.

Section 34-47 – 34-50. – Reserved

DIVISION 5. PENALTIES AND ENFORCEMENT

Section 34-51. Issuance of parking citations; payment or contesting citations; penalties for parking violations; requesting a City review.

(a) A law enforcement officer, community service officer or parking enforcement officer who discovers a vehicle parked in violation of this chapter or other law may issue a parking citation to a vehicle as identified by the license plate number, vehicle identification number, or with other specificity to ensure the vehicle in violation can

be identified and deliver it to the driver; or if the vehicle is unattended, attach such citation to the vehicle in a conspicuous place.

(b) The parking citation shall provide:

(1) The date and time of issuance.

(2) The name or identification number of the officer or parking enforcement officer who issued the citation.

(3) A description of the violation.

(4) The penalty amount.

(5) The period of time in which it must be paid or set for a parking violation hearing before it is considered in delinquent status.

(6) The vehicle information.

(7) Information on how and where the citation may be paid; and

(8) Information on how the citation may be contested.

(c) The driver or owner of the vehicle which was issued a citation shall elect to pay the citation as described on the citation or request a parking violation hearing as described in paragraph (h). Failure to pay a citation, or request a parking violation hearing, within the specified time shall result in the citation being in delinquent status.

(d) Unless otherwise specifically provided in this section, the violation of any provision of this chapter relating to parking shall be a Class I noncriminal civil infraction pursuant to Section 1-106 of the Code of Ordinances.

(e) A violation of Section 34-31(p), enforcement of parking in spaces for persons with disabilities, shall be a Class III violation. Any penalty collected for such a violation may be deposited in a separate account to be used to defray expenses for administration of this violation; and to provide funds to improve accessibility and equal opportunity to qualified persons who have disabilities in the City and to provide funds to conduct public awareness programs in the City concerning persons who have disabilities.

(f) A violation of Section 34-31(o), parking in fire lanes, shall be a Class II violation.

(g) Any penalty not paid to the City within thirty (30) days of the date of the violation, unless a parking violation hearing has been requested, shall result in an additional penalty, which amount shall be set by Resolution plus any associated administrative fees pursuant to Section 1-105.

(h) A person who wishes to contest a citation without being assessed additional penalties or costs for delinquency shall complete and submit a written request for a parking violation hearing which must be received by the City within fourteen (14) calendar days of the date of the violation. A request for a parking violation hearing shall be on the form prescribed by the City. Requests shall include a complete name and address of the person contesting the hearing, and a phone number and e-mail address. A copy of the individual's driver's license, a copy of the parking citation and a description of the dispute must be included with the request for a hearing.

(i) The Department of Community Response shall conduct a preliminary review off all parking citation appeals within seven (7) days of receipt of the written request. The determination may:

(1) Affirm the issuance of the citation and the matter will be scheduled to be heard by the Special Magistrate.

(2) Find the appeal valid and dismiss the citation.

(3) Allow for a reduction in the penalty.

(j) Upon an affirmance under subsection (i)(1) or confirmation that the citation has not been paid, a notice of hearing will be issued. The City shall send a Notice of Hearing which states:

(1) The date, time, and location of the parking violation hearing.

(2) That a person who elects to contest the citation may be assessed a penalty of up to $500.00 if found in violation after a hearing by the Special Magistrate.

(3) That a person who elects to contest a violation and then fails to appear at the parking violation hearing shall be deemed to have waived his or her right to a hearing and may be found in violation by default subject to a penalty of up to $500.00, unless otherwise authorized or prohibited by law.

(4) That unpaid citations will be in delinquent status may be transferred to St. Lucie County Court.

(5) That vehicles bearing license plates which are identified as belonging to owners who have citations in delinquent status are subject to immobilization or impoundment as provided in this chapter.

(k) The Notice of Hearing shall be sent by certified mail to the address provided by the Florida Department of Transportation or to the person making the request for a parking violation hearing at the physical address, with a copy sent to the e-mail address provided in the request. A certification by the City that the Notice of Hearing was mailed to the physical address constitutes prima facie evidence that the person on the Notice of Hearing was served with the notice.

(l) A person who requests a parking violation hearing waives his or her right to pay the initial civil penalty amounts set forth in this chapter. The Special Magistrate, after a hearing, shall make a determination as to whether a parking violation has been committed and may impose a civil penalty not to exceed $500.00 unless otherwise authorized or prohibited by law, plus administrative costs.

Section 34-52. Cancellation or continuances of hearings; burden of proof; payment after hearing.

(a) A scheduled parking violation hearing will be cancelled if full payment of the pending violation(s) is made at least twenty-four (24) hours prior to the hearing date.

(b) Request for continuation of a scheduled parking violation hearing shall comply with the procedures outlined in the Special Magistrate Rules of Procedure, as may be amended.

(c) A finding of violation requires all penalties and costs to be paid within fourteen (14) calendar days unless additional time is granted by the Special Magistrate or the City.

(d) Failure to pay outstanding penalties or costs after a finding of a violation at a hearing shall result in the citation being transferred County Court for further proceedings.

Section 34-53. Additional penalties and enforcement to include immobilization and impoundment.

(a) The City of Fort Pierce is authorized to attach a device that is capable of immobilizing a vehicle as described in this chapter when:

(1) It is determined that the license plate number attached to a vehicle, or the owner of a vehicle owes one hundred fifty dollars ($150.00) or more to the City as a result of delinquent parking citations and related administration and late fees.

(2) A violation of section 34-36 exists, relating to non-motorized vehicles.

(3) A violation of section 34-31(i) exists, relating to motor vehicles of eighty-six (86) inches or more in overall width.

(b) In order to ensure the safety of the vehicle, an immobilized vehicle shall be impounded if the reason for the immobilization has not been resolved and the immobilization device has not been removed within twenty-four (24) hours of the immobilization.

Section 34-54. Immobilization of vehicles.

(a) Immobilization referred to in this chapter shall be by an immobilization device attached to the vehicle at the place where it is found, except that no vehicle shall be immobilized on private property or within the traveled portion of any street or on any

portion of a street when immobilization at such place would create a hazard to the public or to the traffic.

(b) At the same time as the immobilizing device is attached to the vehicle, a warning notice shall be affixed to the windshield or other prominent place on the vehicle stating that the immobilizing device has been so attached, cautioning the operator not to attempt to operate the vehicle while the immobilizing device is still attached and informing the operator that the vehicle is under immobilization, the reason for the immobilization, and where the proper person must go in order to arrange for the removal of the immobilization device or to request a post-immobilization hearing. Immobilization fees, including the administration fees for removal of the immobilization device, shall be paid to the City.

(c) A person with standing who wishes to request a post-immobilization hearing in front of a hearing officer shall follow the procedure set out under Section 34-51 of this chapter.

Section 34-55. Removal of immobilizing device unlawful.

It is unlawful for any person to attempt or to remove, damage, destroy or tamper with an immobilizing device affixed to a vehicle by the City. A violation of this section shall be a Class III infraction in accordance with City Code Section 1-106. Release of an immobilized vehicle will take place in accordance with section 34-56.

Section 34-56. Establishment of post-immobilization hearings.

(a) Any person wishing to challenge the immobilization of a vehicle pursuant to this chapter shall be entitled to a post-immobilization hearing before a Special Magistrate. Post-immobilization hearings shall be handled on the same date and time as parking violation hearings. A person who wishes to contest an immobilization without being assessed additional penalties or costs for impoundment shall post a bond for the entire amount in dispute and complete and submit a written request for post-immobilization hearing which must be received by the City within two (2) business days of the date of the immobilization. A request for a post-immobilization hearing shall be on the form provided by the City. Requests shall include a complete name and address of the person requesting a hearing, a phone number, e-mail address and a copy of the requestor's driver's license and vehicle registration. A description of the dispute must be included with the request for a hearing. Upon such request, a notice of hearing will be issued, confirming the time and date of the hearing

(b) Within one (1) business day following receipt of the request for post-immobilization hearing, the Department of Community Response shall conduct a preliminary review of the immobilization appeal. The determination may:
   a. Affirm the immobilization and the matter will be scheduled to be heard by the Special Magistrate.
   b. Find the appeal valid and allow the release of the immobilization device without penalty.

(c) Upon affirmance by the Department of Community Response, the City shall send a notice of hearing which states:

   (1) The date, time, and location of the post-immobilization hearing.

   (2) That a person who elects to contest the immobilization waives his or her right to pay the initial amount of the ticket due at the time of the immobilization unless a bond was posted.

   (3) That additional penalties and costs for the impoundment of the vehicle will continue to accrue until a hearing is held and a determination is made as to whether the vehicle was immobilized in accordance with chapter 34, Fort Pierce Code.

   (4) That a person who elects to contest a violation and then fails to appear shall be deemed to have waived his or her right to a hearing and any bond will be forfeited to the City.

(d) The Notice of Hearing shall be sent by mail or e-mail to the person making the request for a post-immobilization hearing to the physical address or e-mail address provided

in the request. A certification by the City that the Notice of Hearing was mailed to the physical address or e-mail address provided on a post-immobilization request constitutes prima facie evidence that the person on the Notice of Hearing was served with the notice.

(e) The Special Magistrate, after a hearing, shall make a determination as to whether an immobilization was done in accordance with this chapter. If the Special Magistrate determines that the immobilization was not done in accordance with the applicable ordinances, statutes and regulations, the aggrieved party shall be entitled to a reimbursement of any bond, fines, costs, or penalties paid related to the contested immobilization or if the vehicle is still impounded, the vehicle shall be immediately released with a waiver of all fines, costs, and penalties.

Section 34-57. Impoundment of vehicles.

(a) Impoundment referred to in this chapter shall be done in accordance with Section 713.78, Florida Statutes. A vehicle impounded under this chapter will be subject to all liens and terms described in Chapter 713, Florida Statutes, in addition to payment of other applicable penalties and costs.

(b) The City of Fort Pierce is authorized to remove a vehicle from streets, City owned or operated off-street lots, parking structures, parks, beach and recreation areas, and other property within the City limits and to cause the same to be impounded in the nearest garage or other place of safety, or in a garage designated or maintained by the police department or otherwise maintained by the City, if any of the following occurs:

(1) When any vehicle shall be parked in front of or so as to block entrances or driveways into public or private property.

(2) When any vehicle is left unattended and parked upon a street and is so parked illegally as to constitute a hazard or obstruction to the normal movement of traffic.

(3) When any vehicle is left unattended and parked for an excessive period of time and in violation of any ordinance of the City or regulation limiting the time for parking of vehicles.

(4) When a vehicle is so disabled as to constitute an obstruction to traffic or a hazard to persons or property and the persons in charge of the vehicle are by reason of physical injury or condition incapacitated to such an extent as to be unable to provide for its custody or removal.

(5) When a vehicle is considered inoperable or abandoned due to expired registration or other condition that prevents the vehicle from being removed by the registered owner.

(6) As authorized under section 34-53(b), related to unresolved immobilization of vehicles.

Section 34-58. Release of immobilized or impounded vehicle.

(a) An immobilized vehicle under this chapter may be released by the City upon: payment of all parking fines, costs, and immobilization fees; a City review and determination to release the immobilization device without penalty; or upon a Special Magistrate finding in favor of the person challenging the immobilization.

(b) A vehicle impounded under this chapter may be released upon: payment of all parking penalties, costs, towing, storage, and administrative fees in accordance with F.S. § 713.78; or upon the posting of a cash or surety bond totaling all applicable amounts owed until the disposition of any hearing held in accordance with section F.S. § 713.78. A person who posts a bond under this section and fails to file a complaint within the time required under F.S. § 713.78 shall have waived his or her right to a hearing and the total amount of the posted bond shall be forfeited to the city.

Section 34-59. Disposition of unrecovered impounded vehicles.

Vehicles impounded under this chapter which are not recovered may be disposed of in accordance with F.S. § 713.78.

ORDINANCE NO. 22-038

AN ORDINANCE BY THE CITY COMMISSION OF THE CITY OF FORT PIERCE, FLORIDA BY AMENDING **CHAPTER 109 OF THE CODE OF ORDINANCES ENTITLED "FLOODPLAIN MANAGEMENT**," TO AMEND DEFINITIONS; TO CLARIFY BASE FLOOD ZONE ELEVATION DETERMINATION CRITERIA; PROVIDING FOR APPLICABILITY; PROVIDING FOR SEVERABILITY; REPEALING ALL ORDINANCES OR PARTS OF ORDINANCES IN CONFLICT HEREWITH; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Legislature of the State of Florida has, in Chapter 166 – Municipalities, Florida Statutes, conferred upon local governments the authority to adopt regulations designed to promote the public health, safety, and general welfare of its citizenry; and

WHEREAS, Chapter 553, Florida Statutes, allows for local technical amendments to the Florida Building Code that provide for more stringent requirements than those specified in the Code and allows adoption of local administrative and local technical amendments to the Florida Building Code to implement the National Flood Insurance Program and incentives; and

WHEREAS, on February 16, 2021, there was adopted Ordinance 21-002 which ordinance amended Chapter 5, Article X(A) entitled "Floodplain Management" therein providing definitions and procedures that shall be amended to be consistent with the FEMA Policy to allow issuance of permits;

NOW, THEREFORE, BE IT ORDAINED by the City Commission of Fort Pierce, Florida:

SECTION 1. Chapter 109 Article I, Sec. 109-2(b) "Definitions," is hereby amended as follows:

Market value means the price at which a property will change hands between a willing buyer and a willing seller, neither party being under compulsion to buy or sell and both having reasonable knowledge of relevant facts. As used in this chapter, the term "market value" refers to the market value of buildings and structures, excluding the land and other improvements on the parcel. Market value ~~may~~ shall be established by a qualified independent appraiser (specifying it is based on pre-damage condition and all valuation data and/or appraisals shall be dated within six months of the permit application date), actual cash value estimate (replacement cost depreciated for age and quality of construction) prepared by a qualified independent appraiser, or current tax assessment building valuation data (as maintained in the records of the office of the county property appraiser) plus 20 percent. When a state of emergency has been declared, the building official may allow the valuation data and/or appraisal to be dated up to a maximum of one year prior of the date the emergency is declared.

SECTION 2. Chapter 109 Article II, Sec. 109-27(a) "Site plans and construction documents" is hereby amended as follows:

(a) *Information for development in flood hazard areas.* The site plan or construction documents for any development subject to the requirements of this chapter shall be drawn to scale and shall include, as applicable to the proposed development:

(1) Delineation of flood hazard areas, floodway boundaries and flood zones, base flood elevations, and ground elevations if necessary for review of the proposed development.

(2) Where base flood elevations or floodway data are not included on the FIRM or in the flood insurance study, they shall be established in accordance with subsection (b)(2) or (3) of this section.

(3) Where base flood elevations on the FIRM are rounded to the nearest foot, use the base flood elevation from the FIRM plus 0.4 foot to calculate the base flood elevation.

~~(3)~~(4) Where the parcel on which the proposed development will take place will have more than 50 lots or is larger than five acres and the base flood elevations are not included on the FIRM or in the flood insurance study, such elevations shall be established in accordance with subsection (b)(1) of this section.

~~(4)~~(5) Location of the proposed activity and proposed structures, and locations of existing buildings and structures; in coastal high hazard areas, new buildings shall be located landward of the reach of mean high tide.

~~(5)~~(6) Location, extent, amount, and proposed final grades of any filling, grading, or excavation.

~~(6)~~(7) Where the placement of fill is proposed, the amount, type, and source of fill material; compaction specifications; a description of the intended purpose of the fill areas; and evidence that the proposed fill areas are the minimum necessary to achieve the intended purpose.

~~(7)~~(8) Delineation of the coastal construction control line or notation that the site is seaward of the coastal construction control line, if applicable.

~~(8)~~(9) Extent of any proposed alteration of sand dunes or mangrove stands, provided such alteration is approved by the state department of environmental protection.

~~(9)~~(10) Existing and proposed alignment of any proposed alteration of a watercourse.

The floodplain administrator is authorized to waive the submission of site plans, construction documents, and other data that are required by this chapter but that are not required to be prepared by a registered design professional if it is found that the nature of the proposed development is such that the review of such submissions is not necessary to ascertain compliance with this chapter.

SECTION 3. APPLICABILITY.

For the purposes of jurisdictional applicability, this Ordinance shall apply in the City of Fort Pierce, Florida. This Ordinance shall apply to all applications for development, including building permit applications and subdivision proposals, submitted on or after the effective date of this Ordinance.

SECTION 4. SEVERABILITY.

The provisions of this Ordinance are declared to be severable and if any section, sentence, clause, or phrase of this Ordinance shall, for any reason, be held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining sections, sentences, clauses, and phrases of this Ordinance but shall remain in effect, it being the legislative intent that this Ordinance shall stand notwithstanding the invalidity of any part.

SECTION 5. EFFECTIVE DATE.

This Ordinance is and the same shall become effective immediately upon final passage hereof.

Re: Ordinance 22-040 Amendment to City Plat Process

Submitted For: Kev Freeman, Planning Director, Planning & Zoning

SUBJECT:

Legislative Hearing - Ordinance 22-040 - Amending the Code of Ordinances of the City at Chapter 121-Subdivisions, Sections 121-8, 121-9 and, 121-10 relating to the general provisions, review, and procedure for platting property. FIRST READING

SUMMARY:

The City of Fort Pierce Planning Department is proposing a Text Amendment to the Code of Ordinances, Chapter 121 - Subdivisions Sec. 121-8, 121-9 and 121-10. Plat specification. The proposed amendments are based on the recommendations of the St. Lucie County Development Review Task Force (2016). The task force comprised the St. Lucie Economic Development Council, the St. Lucie County Chamber of Commerce, and the Treasure Coast Builders Association (TCBA). The amended text incorporates the recommendations to:

- Incorporate an Optional Preliminary Plat process.
- Require that Final Plat follow State Statue (local requirements eliminated).

The proposed amendment was presented to the Planning Board at their November 14, 2022, meeting. The Planning Board recommended a minor modification to the proposed amendment (as presented today) and approved the request by vote of 5-0.

RECOMMENDATION:

Staff recommendation is for the City Commission to approve the amendments to streamline the City's plat process.

ALTERNATIVES:

1. Recommend Modified Approval.

or

2. Recommend Disapproval.

RESPONSIBLE STAFF:

Kev Freeman, Planning Director.

CITY COMMISSION

DECEMBER 19, 2022

TEXT AMENDMENT: PLAT PROCESS

1

SUMMARY

Approval of text amendments to City Code Sec. 121-8, 121-9 and 121-10; Plat Process

BACKGROUND

Proposed amendments are based on the recommendations of the St. Lucie County Development Review Task Force (2016). The task force comprised the St. Lucie Economic Development Council, the St. Lucie County Chamber of Commerce, and the Treasure Coast Builders Association (TCBA).

1. Preliminary Plat approval should be optional.
2. Final Plat should follow state statute (local requirements eliminated).

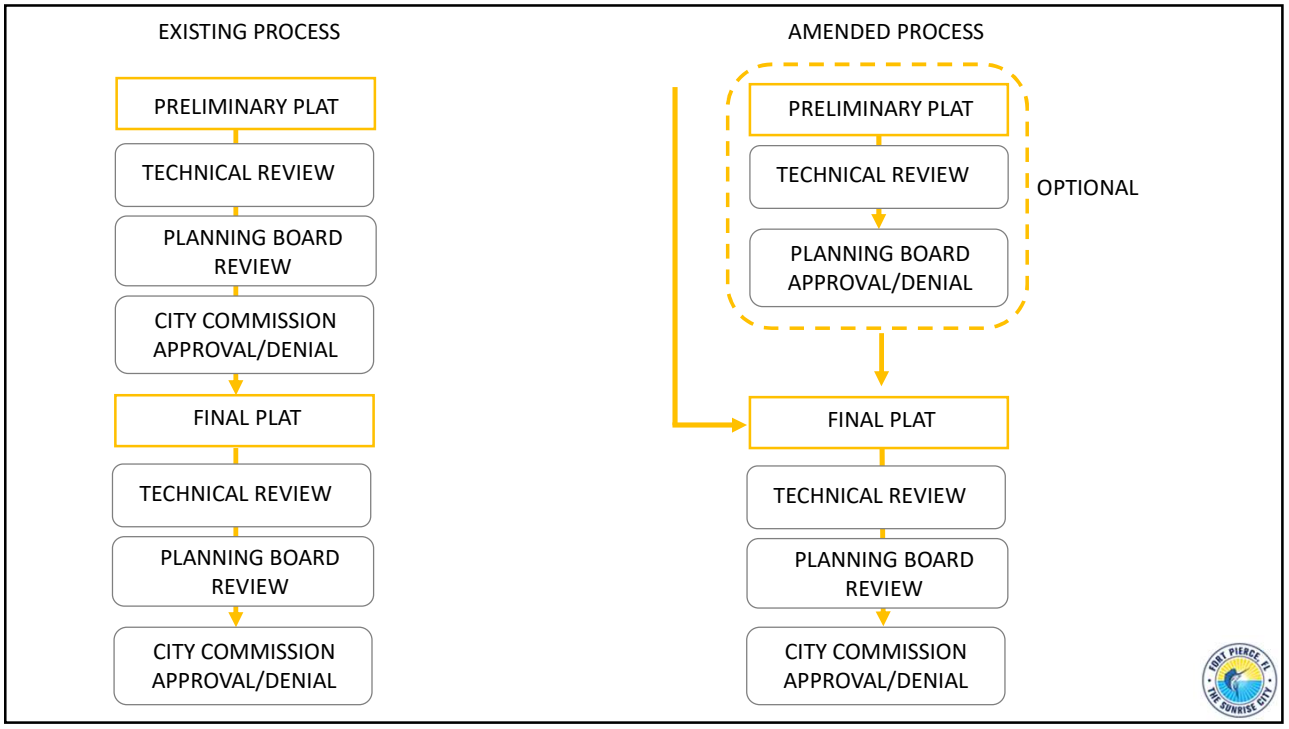

2

PROPOSED AMENDMENTS

Sections 121-8, 121-9, and 121-10 of the City Code of Ordinances

- Streamline the Preliminary Plat Process.
- Allow the Preliminary Plat Process to be optional.
- Require that Final Plat meet State Statute requirements.

3

4

PLANNING BOARD RECOMMENDATION

The proposed amendment was presented to the Planning Board at their November 14, 2022, meeting.

The Planning Board recommended a minor modification to the proposed amendment (as presented today) and approved the request by vote of 5-0.

5

RECOMMENDATION

Staff recommendation is for the City Commission to approve the amendments to streamline the City's plat process.

ALTERNATIVE RECOMMENDATION

1. Recommend Modified Approval.
or
2. Recommend Disapproval.

6

ORDINANCE NO. 22-040

AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF FORT PIERCE, FLORIDA, CHAPTER 121 – SUBDIVISIONS, SECTION 121-8,GENERAL PROVISIONS APPLICABLE TO SUBDIVISION OF LAND; SECTION 121-9, PLAT PROCEDURE; CITY PLANNING BOARD REVIEW; AND SECTION 121-10, PLAT SPECIFICATION; AMENDING THE PRELIMINARY PLAT SUBMITTAL REQUIREMENTS; STREAMLINING THE PRELIMINARY PLAT PROCESS; PROVIDING FOR AN OPTIONAL PRELIMINARY PLAT; AND SPECIFYING A FINAL PLAT BE CONSISTENT WITH STATE STATUE; PROVIDING FOR A SEVERABILITY CLAUSE; REPEALING ALL ORDINANCES OR PARTS THEREOF IN CONFLICT; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, in August 2016, the St. Lucie County Development Review Task Force, comprising the St. Lucie Economic Development Council, the St. Lucie County Chamber of Commerce, and the Treasure Coast Builders Association (TCBA) made certain recommendations with regard to improving the governmental processes of City of Fort Pierce, and

WHEREAS, the recommendations of the St. Lucie County Development Review Task Force included suggested amendments to the City's plat process such that the preliminary plat be optional, and that final plat standards and requirements follow state statute, and

WHEREAS, the City of Fort Pierce Planning Board held a properly noticed hearing at a regularly scheduled meeting to consider the revisions, and at their November 14th, 2022, meeting, voted 5 to 0 to recommend approval of the request.

NOW, THEREFORE BE IT ORDAINED by the City Commission of the City of Fort Pierce, Florida as follows:

SECTION 1. Chapter 121-8 through Chapter 121-10, are hereby amended so the same shall read as follows:

Sec. 121-8. General provisions applicable to subdivision of land.

It is the intent in the application of this chapter that the following shall apply to:

(1) Any person proposing to subdivide land within the city into lots proposed for development or sale shall submit to the planning director a plat or plats of the proposed subdivision which shall conform to all requirements set forth in this chapter.

(2) Any construction work undertaken on the proposed subdivision site prior to the receipt of final ~~preliminary~~ plat approval from the city commission shall be at the sole risk of the developer.

(3) No plats or plat of a proposed subdivision shall be recorded in the office of the clerk of the circuit court of the county until such plat or plats shall have received final approval, as certified herein, from the city commission.

(4) No land dedicated as a public street shall be accepted, opened, or improved nor shall any utilities or other facilities be installed therein, unless such streets shall have been accepted or opened as, or otherwise shall have received the legal status of, a public

street prior to the adoption of this chapter, or unless such street corresponds in its location and lines with a street shown on a plan approved by the city commission or on a plan made and adopted by said commission; provided, however, that the city commission may locate or construct or may accept for construction any other streets.

(5) No building permit shall be issued for, and no building or other structure shall be erected on, any lot unless such lot has legal description and access to a street which shall have been accepted or opened as, or shall have otherwise received the legal status of a public street.

(Code 1983, § 18-8; Ord. No. J-04, § 1, 2-18-1992)

Sec. 121-9. Plat procedure; ~~city planning board review.~~

(a) Preliminary plat approval. The subdivider may choose to proceed to Final Plat Review notwithstanding a submittal of a preliminary plat.

(1) The subdivider shall submit five copies of the preliminary plat to the planning director.

(2) The planning director will distribute the preliminary plat to all affected departments or agencies, including, but not limited to, the engineering department, public works department and utilities director. After review by the planning director and other affected departments and agencies, and when in compliance with city rules and regulations governing same, the preliminary plat will be forwarded to the planning board for determination ~~review~~.

(3) The city planning board shall review the proposed plat and make a determination of approval or denial. ~~recommendation to the city commission~~. If the board recommends disapproval, the reason shall be stated.

~~(4)The city commission shall hold a public hearing and approve, approve with conditions, or disapprove the preliminary plat.~~

~~(5)~~(4) Prior to submittal of the final plat, ~~M~~minor revisions to the preliminary plat may be approved by the planning director provided that such amendments do not involve an increase in the land area to be subdivided or an increase in the total number of lots to be created.

(b) Final plat approval.

(1) The subdivider shall submit five copies of the final plat to the planning director for approval of compliance with subdivision regulations.

(2) The planning director will distribute the final plat to affected departments and agencies, including, but not limited to, the engineering department, public works department and utilities director prior to forwarding the final plat to the city commission. After review by the planning director and other affected departments and agencies, and when in compliance with city rules and regulations governing same, the final plat will be forwarded to the city planning board for review.

(c) The city planning board shall consider whether the following standards have been met in its review of the application:

(1) Adequate vehicular access and traffic circulation to each lot in the proposed subdivision.

(2) That adopted levels of service (LOS) standards in the comprehensive plan are not adversely impacted by the proposed plat. If such standards are negatively affected that appropriate mitigation plans as described in this chapter are also included in the proposed plat.

(3) That other applicable comprehensive plan policies are addressed by the proposed plat.

(d) The city commission shall hold a public hearing and approve, approve with conditions, or disapprove the final plat.

(Code 1983, § 18-9; Ord. No. J-04, § 1, 2-18-1992)

Sec. 121-10. Plat specification.

(a) Preliminary plat specifications.

(1) The preliminary plat shall represent the entire area which the subdivider contemplates developing, including possible unit divisions not scheduled for immediate development.

(2) Five copies of the preliminary plat shall be submitted along with the application for preliminary plat approval to the planning director.

(3) The preliminary plat shall be prepared by a land surveyor registered in the state and shall contain the following information:

a. Proposed name of the subdivision.

b. Name and address of owner of record.

c. Name~~,~~ and address ~~and telephone number~~ of subdivider.

d. Scale, north arrow, and the date plat was drawn.

e. Boundary lines of the tract indicated by a heavy line giving approximate dimensions.

f. Boundary lines of lots, the a~~A~~pproximate number of lots, and typical lot sizes. ~~g. Divisions or state development, if any, proposed by the subdivider.~~

~~h. Natural and manmade features within the proposed subdivision, including drainage, channels, bodies of water, or other significant features.~~

~~i. Contour lines, having a one-foot interval.~~

~~j.~~g Development features such as rights-of-way and pavement widths, easements including their purpose and width, other dedications including their purpose.

~~k~~h. Names of adjacent platted subdivisions.

~~l. Names of adjacent unplatted property owners.~~

~~m. Location and size of nearest water, sewer and storm drainage lines that will serve the subdivision.~~

~~n. Certificate of preliminary plat preparation.~~

~~o. Vicinity sketch showing the relation of the proposed subdivision to adjoining property and the city.~~

~~p. Name and address of the engineer and/or surveyor who prepared the plat and design improvements be listed on the preliminary plat.~~

~~q. Certification from the developer's engineer whether federal, state, or local agencies have jurisdiction over the proposed project.~~

~~(4) After the preliminary plat has been approved by city commission, and before~~ Prior to the submission of a ~~the~~ final plat, the following detailed plans prepared by an engineer registered in the state, shall be submitted to the planning director for review and distribution to affected departments and/or agencies:

a. Two sets of construction plans of the proposed streets, including storm sewer and sanitary sewer and will show the following:

1. All lateral widths.

2. Centerline profile grade relative to elevations of adjacent properties at the right-of-way line.

3. Elevations at points of grade (tangent).

4. Curve data for horizontal and vertical curves.

5. Pipe size, grade and location of manholes, and inlets.

6. Stationing at intervals of 100 feet, minimum, and all of new construction.

b. Two sets of construction plans of the proposed water system that will serve the subdivision showing the size and location of mains and services.

c. Construction plans be drawn on profile paper having sheet size of 24 inches by 36 inches. Also, that plans be drawn at as large a scale as practicable.

d. Two sets of drainage plans, which may be part of the construction plans, and which shall conform to drainage requirements found in the South Florida Water Management District Permit Information Manual, Volume IV.

(5) Approval of the plans specified in subsection (a)(4) of this section must be received before construction commences.

(6) Whenever city utility authority electrical energy is proposed to be used, the subdivider shall consult with the utilities authority. The utilities authority shall arrange for the furnishing of electrical energy in accordance with the regulations of the city utility authority.

(7) Whenever city utility authority gas energy is proposed to be used, the subdivider shall consult with the utilities authority. The authority shall arrange for the furnishing of gas energy in accordance with the regulations of the city utility authority.

(b) Final plat specifications.

(1) If a preliminary plat has been approved, then ~~T~~the final plat shall substantially conform to the preliminary plat; it may, however, represent only that portion of the approved preliminary plat which the subdivider proposes to develop and record at any one time, provided that such portion conforms to the requirements of this chapter.

(2) The submittal of the final plat shall consist of the original drawing, and two Mylar reproducible prints thereof. The submission shall be to the planning director.

(3) The final plat shall be clearly and legibly drawn at a scale no less than one-inch equals 50 feet and shall be on sheets no smaller than 24 inches by 36 inches.

(4) In all other respects t~~T~~he final plat shall conform to the requirements of Florida Statutes Chapter 177 – Plats made for recording,~~con~~tain the following information: and include the certificate, as specified in subsection (c)(2) of this section.

~~a. Name of subdivision.~~

~~b. Name of subdivider.~~

~~c. Date of survey, date of plat drawing, graphic scale, north arrow.~~

~~d. Indication of reference bearings.~~

~~e. Location of tract (township, range, section) and acreage.~~

~~f. Index map, if more than one sheet is required to present map.~~

~~g. Boundaries of the tract with distances measured to the nearest 1/10 foot and angles to the nearest second. Tract boundaries shall be determined by accurate survey in the field.~~

~~h. Location of right-of-way widths, and names of all streets within and immediately adjoining the plat. Street name duplications shall be avoided, and all street names approved by the city commission.~~

~~i. Lot lines with dimensions to the nearest 1/100foot.~~

~~j. Location of all permanent tract boundary monuments.~~

~~k. Blocks lettered alphabetically or numbered numerically; within each block, lots or sites numbered in numerical order.~~

~~l. Location dimensions and purposes of: Easements; public service utility right-of-way lines, areas (other than streets) to be reserved, donated, or dedicated to public use; sites for other than residential use with notes stating their purpose and limitations; and any areas to be reserved by deed covenant for common uses of all property owners within the subdivision.~~

~~m. Certificates, as specified in subsection (c)(2) of this section.~~

(c) Plat certificates.

(1) The following certificates are required for a preliminary plat:

a. Appropriate space shall be provided on the preliminary plat for the following certificate:

CITY COMMISSION CERTIFICATE:

"Pursuant to the provisions of the Fort Pierce City Commission this plat was given Preliminary Approval by the City Commission at a meeting held on _____, 20___.

_____

City Clerk"

(2) The following certificates are required for final plat approval:

a. Before a final plat is submitted the subdivider shall have stamped or printed thereon, and signed, substantially as follows:

SURVEYORS CERTIFICATE:

"I hereby certify that this plat is true and correct and was prepared from an actual survey of the property made by me or under my supervision; that all monuments shown hereon actually exist, and their location, size, type and material adhere to the requirements of Chapter 177 Florida Statutes. _____, 20___.

_____

Registered Land Surveyor"

CERTIFICATE OF FINAL APPROVAL BY THE CITY COMMISSION:

"Pursuant to the provisions of the Fort Pierce City Commission this plat was given Final Approval by the City Commission at a meeting held on _____, 20___.

_____

City Clerk"

OWNER'S ACKNOWLEDGMENT:

(i) Must follow F.S. § 177.081.

(ii) Dedication. In connection with the description there shall be a dedication of the plat by the owners, whose signatures must be witnessed, and their executions of the dedication must be acknowledged in the same manner as deeds conveying lands are required to be witnessed and acknowledged; and in all cases the title, caption and dedication must agree. In case the dedication is to be made by a corporation then it shall be signed by the president or a vice-president, and by the secretary or an assistant secretary, respectively, of the corporation, by and with the authority of its board of directors.

SECTION 2. The provisions of this Ordinance are declared to be severable and if any section, sentence, clause, or phrase of this Ordinance shall, for any reason, be held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining sections, sentences, clauses, and phrases of this Ordinance which shall remain in effect, it being the legislative intent that this Ordinance shall stand notwithstanding the invalidity of any part.

SECTION 3. All ordinances or parts thereof that may be determined to be in conflict herewith are hereby repealed.

SECTION 4. This Ordinance shall be and become effective immediately upon final passage.

STATE OF FLORIDA

COUNTY OF ST. LUCIE

WE, THE UNDERSIGNED, Mayor Commissioner and the City Clerk of the City of Fort Pierce, Florida, do hereby certify that the foregoing and above Ordinance No. 22-040 was duly advertised in accordance with Section 171.044(2) of the Florida Statutes in the St. Lucie News Tribune on Sunday, _____, 2022 and Sunday, _____, 2022; copy of said Ordinance was made available at the office of the City Clerk to the public upon request; said Ordinance was duly introduced, read by title only, and passed on first reading by the City Commission of the City of Fort Pierce, Florida, on December 19, 2022; and was duly introduced, read by title only, and passed on second and final reading January 3, 2023, by the City Commission of the City of Fort Pierce, Florida.

SUBJECT:

Legislative Hearing - Ordinance 22-046: Review and approval of a Voluntary Annexation by owners, St Joseph FTP LLC and representative, Chris Ossa, P.E. – Kimley-Horn & Associates, Inc., to extend the territorial limits of the City of Fort Pierce, Florida, to include one (1) parcel at or near 2605 Kerr Street in Fort Pierce, FL 34947. The proposed Future Land Use designation for the subject property is GC, General Commercial, with a proposed Zoning designation of C-3, General Commercial Zone. Parcel ID: 2313-332-0000-010-0 FIRST READING

SUMMARY:

The applicant is requesting a voluntary annexation of one (1) parcel at or near approximately 2605 Kerr Street in Fort Pierce, Florida. The parcel ID is 2419-601-0016-000-2.

The subject property has St. Lucie County Future Land Use designation of Commercial (COM) and a St. Lucie County Zoning designation of Commercial Office (CO). The applicant is proposing Future Land Use designation of General Commercial Zone (C-3).

Pursuant to Comprehensive Plan policy 1.11.5 “properties annexed shall receive a land use designation compatible with the County land use designation, unless otherwise approved by the City Commission.” Staff has confirmed that the property is located within unincorporated St. Lucie County and is contiguous to the Fort Pierce City municipal boundary and within the FPUA service area. The subject proposed voluntary annexation is also consistent with Chapter 171.044, F.S., whereas the property is contiguous to a municipality and reasonably compact; and the annexation will not result in the creation of an enclave.

The current value of the properties is $84,200. Should the Application for Annexation be approved it could create a new source of ad-valorem tax revenue annually to the City of Fort Pierce if developed, depending on the millage rate per year, which currently is 6.9000. Currently the property is vacant.

RECOMMENDATION:

As proposed, the annexation meets the standards of the City’s Comprehensive Plan, specifically Policy Section 1.11 regarding annexations. Planning Staff recommends approval of the proposed annexation along with the Future Land Use designation of GC, General Commercial and the Zoning designation of C-3, General Commercial Zone.

ORDINANCE NO. 22-046

AN ORDINANCE EXTENDING THE TERRITORIAL LIMITS OF THE CITY OF FORT PIERCE, FLORIDA, TO INCLUDE ONE (1) PARCEL AT OR NEAR **2605 KERR STREET IN FORT PIERCE, FLORIDA** AND SHOWN ON EXHIBIT A; DIRECTING THE ST. LUCIE COUNTY PROPERTY APPRAISER TO ASSESS SAID PROPERTY AND PLACE IT ON THE CITY TAX ROLLS AS OF JANUARY 1, 2024; DIRECTING THE ST. LUCIE COUNTY TAX COLLECTOR TO COLLECT TAXES ON THE HEREIN DESCRIBED PROPERTY; ESTABLISHING THE ZONING DESIGNATION; ESTABLISHING THE LAND USE DESIGNATION; DIRECTING FILING OF THE ORDINANCE WITH THE CLERK OF THE CIRCUIT COURT AND CHIEF ADMINISTRATIVE OFFICER OF ST. LUCIE COUNTY; DIRECTING REVISION OF THE CHARTER BOUNDARY ARTICLE TO BE FILED WITH THE DEPARTMENT OF STATE AND SUBMITTED TO THE OFFICE OF ECONOMIC AND DEMOGRAPHIC RESEARCH; PROVIDING FOR A SEVERABILITY CLAUSE; REPEALING ALL ORDINANCES OR PARTS THEREOF IN CONFLICT HEREWITH; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, Part I, Chapter 171, Florida Statutes, sets forth a procedure for Municipal Annexation; and;

WHEREAS, in accordance with Section 171.044 of the Florida Statutes, the owner or owners of real property in an unincorporated area of a county which is contiguous to a municipality and reasonably compact may petition the governing body of said municipality that said property be annexed to the municipality; and

WHEREAS, the owners have submitted an application petitioning the property to be annexed to the municipality of the City of Fort Pierce; and

WHEREAS, the petition bears the signature(s) of current and/or former owner(s) of property in the area proposed to be annexed; and

WHEREAS, the City of Fort Pierce Planning Board, at their November 14th, 2022 meeting, voted unanimously to recommend Approval of the request; and

WHEREAS, in accordance with Policy Section 4.1.1 of the Joint Planning Agreement between the City of Fort Pierce and St. Lucie County, the City Planning Department has provided notice of this annexation by mail to the St. Lucie County Administrator's Office on October 25th, 2022, no fewer than thirty (30) days prior to the first reading of this annexation Ordinance by the City Commission of the City of Fort Pierce, Florida; and

WHEREAS, in accordance with Section 171.044(6) of the Florida Statutes, the City Planning Department has provided notice of this annexation, via certified mail, to the St. Lucie County Board of County Commissioners on October 25th, 2022, no fewer than ten (10) days prior to publishing or posting the ordinance notice; and

NOW, THEREFORE BE IT ORDAINED by the City Commission of the City of Fort Pierce, Florida as follows:

SECTION 1. The territorial limits of the City of Fort Pierce, Florida, are hereby extended, as depicted on Exhibit “A”, attached hereto, and incorporated herein; and annexed into the City:

Parcel ID: 2313-332-0000-010-0

LOTS 5, LESS EAST 5 FEET THEREOF, BLOCK 2, SEMINOLE PARK SUBDIVISION, ACCORDING TO THE PLAT THEREOF, RECORDED IN PLAT BOOK 10, PAGE 11, PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA.

Said properties containing approximately 0.23 acres and being generally located at or near 2605 Kerr Street in Fort Pierce, Florida.

SECTION 2. That the St. Lucie County Property Appraiser and the St. Lucie County Tax Collector are directed to place upon and add to the assessment roll, and to collect taxes on the land described in Exhibit “A” hereof as of January 1, 2023, and subsequent years, and to enter the same at such valuation that it will bear an equal and just proportion of taxes as of that date and subsequent years. The property tax classifications and exemptions currently in effect upon and applied to the land described in Exhibit "A" shall not be affected by this Ordinance, so long as the classifications and exemptions are consistent with the standards set forth by the Saint Lucie County Property Appraiser. Nothing in this Ordinance is intended to, or shall be construed as, a revocation or abrogation of the land's current Saint Lucie County Property Appraiser’s tax classifications and exemptions.

SECTION 3. That upon this ordinance becoming effective, the land herein described on Exhibit “A” and annexed into the territorial limits of the City of Fort Pierce shall be zoned General Commercial Zone (C-3) and assigned a Future Land Use Designation of General Commercial (GC), as depicted on Exhibit “B” attached hereto and incorporated herein.

SECTION 4. That in accordance with Section 171.044(3), this ordinance shall be filed with clerk of the circuit court, the chief administrative officer of St. Lucie County, and the Department of State within seven (7) days after adoption.

SECTION 5. That in accordance with Section 171.091, any change in the City boundaries through annexation shall revise the charter boundary article and shall be filed as a revision of the charter with the Department of State within thirty (30) days; and a copy of such revision shall be submitted to the Office of Economic and Demographic Research along with a statement specifying the population census effect and the affected land area.

SECTION 6. The provisions of this Ordinance are declared to be severable and if any section, sentence, clause, or phrase of this Ordinance shall, for any reason, be held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining sections, sentences, clauses, and phrases of this Ordinance but shall remain in effect, it being the legislative intent that this Ordinance shall stand notwithstanding the invalidity of any part.

SECTION 7. All ordinances or parts thereof that may be determined to be in conflict herewith are hereby repealed.

SECTION 8. This Ordinance shall be and become effective immediately upon final passage.

APPROVED AS TO FORM & CORRECTNESS:

PB Recommendation

The Planning Board, at their November 14th, 2022 meeting, voted unanimously to recommend Approval of the request.

Staff Recommendation

As proposed, the annexation meets the standards of the City's Comprehensive Plan, specifically Policy Section 1.11 regarding annexations.

- **The City's General Commercial (GC) Future Land Use allows a Floor Area Ratio (FAR) of 1.0. The St. Lucie County Future Land Use designation of Commercial (COM) also allows a FAR of 1.0.**
- **The Proposed FLU designation is considered to be suitable, having examined the character of the property, its topography, soils, and natural resources. (F.S. 163.3177 6(a) 8.)**

Planning Staff recommends approval of the proposed annexation.

City Commission Actions

Possible actions of the City Commission:

- **APPROVAL** of the proposed Annexation
    - Staff recommends approval
- **DISAPPROVAL** of the proposed Annexation.

Staff Recommendation

As proposed, the annexation meets the standards of the City's Comprehensive Plan, specifically Policy Section 1.11 regarding annexations.

- **The City's General Commercial (GC) Future Land Use allows a Floor Area Ratio (FAR) of 1.0. The St. Lucie County Future Land Use designation of Commercial (COM) also allows a FAR of 1.0.**
- **The Proposed FLU designation is considered to be suitable, having examined the character of the property, its topography, soils, and natural resources. (F.S. 163.3177 6(a) 8.)**

Planning Staff recommends approval of the proposed annexation.

Staff Analysis:

Request

The applicant is requesting a voluntary annexation of one (1) parcel at or near approximately 2605 Kerr Street in Fort Pierce, Florida. The parcel ID is 2419-601-0016-000-2.

The subject property has St. Lucie County Future Land Use designation of Commercial (COM) and a St. Lucie County Zoning designation of Commercial Office (CO). The applicant is proposing Future Land Use designation of General Commercial Zone (C-3).

Pursuant to Comprehensive Plan policy 1.11.5 "properties annexed shall receive a land use designation compatible with the County land use designation, unless otherwise approved by the City Commission." Staff has confirmed that the property is located within unincorporated St. Lucie County and is contiguous to the Fort Pierce City municipal boundary and within the FPUA service area. The subject proposed voluntary annexation is also consistent with Chapter 171.044, F.S., whereas the property is contiguous to a municipality and reasonably compact; and the annexation will not result in the creation of an enclave.

The current value of the properties is $84,200. Should the Application for Annexation be approved it could create a new source of ad-valorem tax revenue annually to the City of Fort Pierce if developed, depending on the millage rate per year, which currently is 6.9000. Currently the property is vacant.

Comprehensive Plan
Staff has reviewed the Comprehensive Plan and finds the proposed annexation is consistent with the following Objectives and Policies:

Objective 1.11 of the Comprehensive Plan: "Annex properties within the Fort Pierce Utilities Authority Boundary in an orderly manner that promotes efficiency of public service provision and economic vitality of the City."

The property is within the FPUA service boundary. Policy, 1.11.1 of the City Comprehensive Plan: "The City shall evaluate proposed annexations within the urban service boundary based upon the following criteria:

1. The ability of the City to provide public services at a level equal to or better than that available from the current service providers;
2. The ability of the City to provide public services at the City's adopted levels of service;
3. Whether the annexation would eliminate an unincorporated island or could be expanded to eliminate an unincorporated island; and
4. Whether the annexation would eliminate an irregularity or irregularities in the City's boundaries, thereby improving service delivery.

The subject property is located within an area that lies within both St. Lucie County as well as the City of Fort Pierce jurisdictions. However, the subject parcels abut properties to the west that are currently within the city limits of the City of Fort Pierce. The annexation of this property would assist in the City's effort to eliminate jurisdictional irregularities along the City's boundary and provide more efficient public services.

Pursuant to the Future Land Use Element of the Comprehensive Plan, annexations are reviewed for fiscal impacts, the effect upon adopted level of service standards for public facilities, and the elimination of the municipal boundary irregularities to improve service delivery.

Public Notification

In accordance with Policy Section 4.1.1 of the Joint Planning Agreement between the City of Fort Pierce and St. Lucie County, the City Planning Department will provide notice of this annexations by mail to the St. Lucie County Administrator's Office no fewer than thirty (30) days prior to the first reading of this annexation by the City Commission.

Technical Review Committee

All affected Departments have reviewed the submittals and provided comments regarding the proposed voluntary annexation application based on compliance with the requirements of the City Code and Comprehensive Plan and have no objections. The comments generated from the technical review and any responses by the applicant have been provided.

Planning Board Recommendation

The Planning Board, at their November 14th, 2022 meeting, voted unanimously to recommend Approval of the request.

Staff Recommendation

As proposed, the annexation meets the standards of the City's Comprehensive Plan, specifically Policy Section 1.11 regarding annexations. Planning Staff recommends approval of the proposed annexation along with the Future Land Use designation of GC, General Commercial and the Zoning designation of C-3, General Commercial Zone.

CITY OF FORT PIERCE

PLANNING BOARD

Planning Board Minutes

OF THE REGULAR MEETING OF THE FORT PIERCE CITY PLANNING BOARD HELD ON MONDAY, NOVEMBER 14, 2022, IN FORT PIERCE CITY HALL, COMMISSION CHAMBERS, 100 NORTH US HIGHWAY 1, FORT PIERCE, FLORIDA.

1. CALL TO ORDER

2. PLEDGE OF ALLEGIANCE

3. ROLL CALL

Present: Alexander Edwards; Nichelle Clemons; Bob Burdge; Anton Kreisl; Frank Creyaufmiller, Chairman

Absent: Harold Albury

Staff Present: Kev Freeman, Planning Director
Ryan Altizer, Planner
Alicia Rosenthal, Planning and Development Organizer

4. CONSIDERATION OF ABSENCES

Mr. Albury was excused from the meeting.

5. APPROVAL OF MINUTES

a. Minutes from the October 10, 2022 meeting

Motion was made by Bob Burdge, and seconded by Nichelle Clemons to approve the minutes from the October 10, 2022 meeting.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

6. **HEARING OF THE LOCAL PLANNING AGENCY**

a. **Future Land Use Map Amendment - Viva West - 3037 South Jenkins Road**

Mr. Altizer gave an overview of the application and stated the current Future Land Use is GC - General Commercial and the proposed Future Land Use is RM - Medium Density Residential. Chairman Creyaufmiller inquired if any meetings have been held with the Briargate neighborhood. Mr. Kreisl asked if there were any restrictions on land use of how close to the interstate the residences can be set. Mr. Freeman stated he is not aware of a community meeting with the Briargate neighborhood or of any additional restrictions on land use besides the setbacks. Mr. Freeman noted the Future Land Use change will reduce the intensity of the property.

Matthew Scott, Applicant Representative from Dunay, Miskel & Blackman Law Firm, stated he personally met with the Briargate neighborhood and the main concerns were buffering, traffic and drainage. Mr. Scott said another meeting will be held with the neighborhood at the site plan phase. Mr. Scott showed gave a brief presentation showing the variety of entry level cottage style homes and townhomes, along with the various amenities.

Steven Cooper, Engineer, spoke about the drainage, and he explained that Viva West will reduce the discharges in Briargate neighborhood, and the water not held on site will go into the canal controlled by North St. Lucie Water Control District.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission for the Future Land Use change located at 3037 S. Jenkins Road from GC, General Commercial to RM, Medium Density Residential.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

b. **Future Land Use Map Amendment - Allegra at Fort Pierce - Parcel IDs: 2419-111-0002-000-7 and 2419-113-0001-000-6**

Mr. Altizer gave an overview of the application and answered questions from the Board. He explained the request is to change the Future Land Use Map Amendment for two (2) parcels from GC, General Commercial to RM, Medium Density Residential. He highlighted the decrease in density for both commercial and residential land use.

Lee Dobbins, Applicant Representative, from Dean Mead Law Firm, explained that the northern parcel was recently annexed into the city and the change is for two parcels. Mr. Dobbins stated there has been two community meetings with the neighborhood and the concerns were with drainage, traffic and how the development fits in with the neighborhood. Mr Dobbins noted that the use will be less intense with less traffic and the neighborhood concerns can be addressed at the site plan stage. Mr. Dobbins answered questions from the Board on the number of rental units, ingress and egress off of 41st Street, and market research showing development is appropriate for the area.

Deborah Fournier, resident, showed pictures of her neighborhood flooding and, she wants a solution to the drainage issues.

Mr. Freeman stated that it is difficult for staff to guarantee a solution at this point, but staff can ensure that all local codes will have to be met for whatever is designed.

Patricia Ruby, resident, spoke against the application, highlighting traffic issues, flooding, crime and the main entrance needed to be located on Okeechobee Road instead of 41st Street.

Gina Grant, resident, has concerns with flooding and traffic. She suggested a traffic light be placed at 41st Street and Okeechobee Road.

Mr. Dobbins stated the intersection and turn lanes will change at the site plan stage and the change in the Future Land Use and Zoning will lower the possible traffic count. He highlighted that the development will capture their own drainage on site, and it will go to the outfall canal.

Motion was made by Nichelle Clemons, and seconded by Alexander Edwards to forward a recommendation of approval to the City Commission for the Future Land Use Map Amendment, change for two (2) parcels 2419-111-0002-000-7 and 2419-113-0001-000-6 from GC, General Commercial to RM, Medium Density Residential.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

7. NEW BUSINESS

a. Annexation - 7-Brew Drive-Thru - 2605 Kerr Street

Mr. Altizer gave an overview of the annexation. He stated the current Future Land Use is COM, Commercial (St. Lucie County) and the proposed Future Land Use is GC, General Commercial. The current zoning is CO, Commercial Office (St. Lucie County) and the proposed zoning is C-3, General Commercial Zone.

Chris Ossa, Engineer of Record from Kimley Horn & Associates, stated the client has no plans of keeping the billboard located on the property.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission for the annexation of 2605 Kerr Street.

AYE: Nichelle Clemons, Bob Burdge, Anton Kreisl, Alexander Edwards, Chairman Frank Creyaufmiller

Passed

b. Zoning Text Amendment - Edgartown Settlement Zoning District

This item was presented after item 7j.

Mr. Freeman stated he recommended this item going to the Historic Preservation Board for discussion purposes and then come back to the Planning Board for review.

Motion was made by Bob Burdge, and seconded by Nichelle Clemons to forward the Edgartown Settlement Zoning District Text Amendment to the Historic Preservation Board meeting for discussion and then come back to the Planning Board for review.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

c. **Zoning Text Amendment - Code of Ordinances, Chapter 121 - Subdivisions Sec. 121-8, 121-9 and 121-10. Plat specification**

This item was presented as the last item under New Business.

Chairman Creyaufmiller spoke to Mr. Freeman before the meeting to suggest that the amended Preliminary Plat process go to the Planning Board after the Technical Review instead of the City Commission. Chairman Creyaufmiller said the Planning Board function is to be an overview to the Planning department and the amendment is to streamline and speed up the process so when the final design work is done, the City Commission can review the final Plat

Mr. Freeman stated the text amendment was based on a recommendation from 2016 and recently a Preliminary Plat came in that did not meet the existing city requirements for a Preliminary Plat. He explained that a preliminary plat is preliminary to the final plat and the city seemed to have it backwards. Most of the details were provided at Preliminary and the Final Plat was almost an overview of the Preliminary Plat. Mr. Freeman said the recommendation is to have the Preliminary Plat meet the basic requirements to enable developments to move to building permit before final Certificate of Occupancy. The Final Plat will get everything in order for the final Certificate of Occupancy. Mr. Freeman highlighted the move is to streamline the Preliminary Plat Process by allowing the Preliminary Plat Process to be optional and require the Final Plat meet state statute requirements.

Motion was made by Bob Burdge, and seconded by Anton Kreisl to amend the proposed text amendment to include the Planning Board in exchange for the City Commission in the Preliminary Plat process.

AYE: Anton Kreisl, Alexander Edwards, Nichelle Clemons, Bob Burdge, Chairman Frank Creyaufmiller

Passed

d. **Zoning Atlas Map Amendment - Viva West - 3037 South Jenkins Road**

Mr. Altizer gave an overview of the application, and he stated the current zoning on the approximately 27.89 acre parcel is C-3, General Commercial Zone and the proposed zoning is R-4, Medium Density Residential Zone.

Matthew Scott, Applicant Representative, from the Dunay, Miskel, & Blackman Law Firm, made himself available for questions from the Board.

Motion was made by Nichelle Clemons, and seconded by Alexander Edwards to forward a recommendation of approval to the City Commission for the Zoning Atlas Map Amendment from C-3, General Commercial Zone to R-4, Medium Density Residential Zone for 3037 S. Jenkins Road.

AYE: Anton Kreisl, Alexander Edwards, Nichelle Clemons, Bob Burdge, Chairman Frank Creyaufmiller

Passed

e. **Zoning Atlas Map Amendment - Allegra at Fort Pierce - Parcel IDs: 2419-111-0002-000-7 and 2419-113-0001-000-6**

Mr. Altizer gave an overview of the application and stated the request is to change the two (2) parcels from C-3, General Commercial zone to R-4, Medium Density Residential zone.

Mr. Dobbins made himself available for questions from the Board.

Motion was made by Alexander Edwards, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission for the Zoning Map Amendment change of two (2) parcels 2419-111-0002-000-7 and 2419-113-0001-000-6 from C-3, General Commercial to R-4, Medium Density Residential.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

f. **Zoning Atlas Map Amendment - 805 Office Plaza - 805 Virginia Avenue**

Mr. Altizer gave an overview of the application. He said the request is for a Zoning Map Amendment, change for 805 Virginia Avenue from R-5, High Density Residential zoning, to C-3, General Commercial zoning.

Mr. Burdge asked the current uses in the strip center and if C-1 zoning would buffer the neighborhood better with C-3 zoning.

Brad Currie, Applicant Representative from Engineering, Design and Construction, stated the applicant has had to ask for Conditional Uses on the property since it was zoned R-5 and most of the zoning is the area is C-3.

Mr. Kreisl asked to see more information on the current uses to confirm that the current uses are consistent with the C-1 zoning and to assure that would not pose any issues with the applicant. He suggested the item be tabled.

Mr. Freeman said the item can continue to the next Planning Board meeting with staff's analysis based on the Planning Board's discussion points. Mr. Freeman noted considering spot zoning and the uses.

Mr. Currie said that Neighborhood Commercial use is not allowed in C-1 and that could become a problem, but there is not a big difference between C-1 and C-3 zoning. He stated that his client would like to get the most intense zoning as possible.

Mr. Burdge mentioned the tax benefit of C-1 over C-3, due to a higher appraisal value of C-3 zoning.

Motion was made by Bob Burdge, and seconded by Anton Kreisl to table the application for further investigation from staff regarding potential C-1 zoning.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

g. **Major Amendment to Planned Development - Red Hawk Rebar - 4280 Bandy Boulevard**

Mr. Altizer gave an overview of the application and provided brief history on the project. The City Commission of the City of Fort Pierce approved the Zoning Atlas Map Amendment to Planned Development along with an approved development plan on September 4, 2018. The original proposed development plan consisted of a 40,000 square foot manufacturing facility and the new proposal consists of a smaller footprint of approximately 32,000 square feet.

Dennis Murphy, Applicant Representative from Culpepper and Terpening, stated the application is the same except the building footprint has changed.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission with the following condition:

1. A completion certification by a landscape architect, cost estimate and landscape bond pursuant to City Code 123-6 shall be required before the Final Certificate of Occupancy is approved for the site.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

h. **Conditional Use - Brighter Care Adult Daycare - 415 Avenue A**

Mr. Altizer gave an overview of the application. He stated the daycare will be 4,892 square feet inside the Kraaz & Kraaz Building and the tentative capacity is approximately 10 patients.

Mr. Burdge asked if there will be the availability for a horseshoe drop off point for convenience and security.

Shantell Walkine, Applicant, stated she has been in the medical field for 40 years and, she wants to provide entertainment to elderly patients in Fort Pierce. Ms. Walkine said there is currently not covered parking at the location and there is the ability to utilize the horseshoe drop off point.

Motion was made by Bob Burdge, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

i. **Conditional Use - Longman Garage & Guest House - 1506 Thumb Point Drive**

Mr. Altizer gave an overview of the application. He stated the garage will be 1,974 square feet and the 2nd floor living (Guest House) will be an additional 1,974 square feet.

Mr. Freeman stated he received two objection e-mails from residences that are adjacent and close to the property. He stated they had concerns with the architecture, setbacks, appropriateness of the design and the location. Mr. Freeman noted that the state statute limits the Planning Board and City Commission on architectural developments on single family homes. He mentioned that there is an exception for property located in the CRA. He noted that the Conditional Use application does not require architectural guidelines and the South Beach Overlay has architectural elements for multifamily and non-residential development. Mr. Freeman stated that the Planning Board has no authority to condition the architecture but, they can limit the height.

Mr. Burdge asked if the current zoning allows for two homes on the parcel and if the guess house incorporates a kitchen. Mr. Kreisl asked the total square footage and if the current plan has kitchen facilities.

Mr. Freeman stated an additional dwelling unit cannot be granted on the property.

Board discussion ensued on the height of the building, the South Beach overlay height restrictions, and why the extra height is needed.

David Hicks, resident, spoke against the application. He stated the garage is too close to the property line, creates privacy issues and does not fit in the neighborhood with mostly one-story homes. Mr. Hicks showed the Board pictures of the survey, floor plan and what the garage would look like next to the single family home.

Sally Griffith, resident, spoke against the application. Mr. Griffith said she agrees with everything Mr. Hicks said, and she added the garage is too big, too commercial looking and does not fit in the neighborhood.

The applicant did not attend the meeting.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to disapprove the Conditional Use for the height of the garage and guest house because there is no compelling reason to allow the height restriction.

AYE: Nichelle Clemons, Bob Burdge, Anton Kreisl, Alexander Edwards, Chairman Frank Creyaufmiller

Passed

j. **Site Plan, Design Review and Conditional Use - Ballarena Multi-Family - 4701 Regina Drive**

Mr. Altizer gave an overview of the application. He stated the development will be a 114-Unit multifamily innovative residential development with six (6) townhomes and three (3) conventional apartment buildings. He noted the application requires approval of the Conditional Use for the additional maximum density bonus of two (2) units per acre. The density bonus qualifies because the landscaping plan provides for effective use, the site plan provides for creative placement of buildings and other facilities and the design elevations

provide for imaginative design features.

Dan Sorrow, Applicant Representative from Cotleur and Hearing, provided the Board with a detailed presentation. He stated the property is just under 10 acres with the site ingress and egress off of Weatherbee Road. Mr. Sorrow noted the various amenities being a tot lot, picnic and BBQ area, pool, gym, clubhouse, dog park and cultivating garden. He highlighted the up lighting on the Royal Palm trees along Weatherbee Road, the enhanced buffers along the south and east side of the property, on-street parallel parking and a sidewalk along Weatherbee Road and Regina Drive. Mr. Sorrow stated there will be 112 to 114 rental units all concrete block with impact glass. He said the development exceeded the landscape code by 13%.

Mr. Sorrow answered Chairman Creyaufmiller's question regarding Poinsettia Avenue. He stated the property owner owns one-half of Poinsettia Avenue, and it is part of the plan that will be dedicated for future right-of-way when the county wants to expand Poinsettia Avenue. Mr. Sorrow answered questions from the Board on school bus access and drop off and vehicle charging stations on the property,

Motion was made by Bob Burdge, and seconded by Anton Kreisl to forward a recommendation of approval for the Site Plan, Design Review and Conditional Use to the City Commission with the following four (4) conditions:

1. Prior to the issuance of Building Permit approval, provide colored elevations to demonstrate that the proposed building conforms to the specifications of City Code 125-314, Design Review.
2. Incorporate littoral zone plantings around the lake/retention pond per City Code Section 123-6.
3. A completion certification by a landscape architect, cost estimate and landscape bond pursuant to City Code 123-6 shall be required before the Final Certificate of Occupancy is approved for the site.
4. Prior to the issuance of any site clearing permits, the applicant shall provide a Tree Mitigation Survey and coordinate with the City of Ft. Pierce Arborist for the required mitigation of the City regulated trees proposed to be removed as a result of this site’s development/construction activity.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

8. **COMMENTS FROM THE PUBLIC**

Lainey Williams, Edgartown Representative from Jones Foster Law Firm, stated some modifications to the Edgartown Text Amendment would be best for the homeowners and residents. She stated that certain uses are permitted uses and not conditional uses and, they do not agree with the amplified sound in the zoning district. Ms. Williams said the DBA level is typical of a commercial area and suggested sound limiters be required on the property. She also noted the violations are not strong enough for the sound level.

Holly Theuns, resident and Vice-Chair of the Historic Preservation Board, said the city is lucky to have the Edgartown gem in downtown. She stated that she purchased and remodeled a 1905 house in Edgartown when the 2012 Edgartown ordinance was in place, which protected the residents of Edgartown against what is being experienced now.

9. DIRECTOR'S REPORT

There was no director's report.

10. BOARD COMMENTS

Chairman Creyaufmiller asked for Planning Board hard copy packets due to the difficulty in reviewing the drawings.

Warranty Deed

THIS WARRANTY DEED made this 14 day of May, 2021, between **CHRIS Q. BLOUNT, as Trustee for C.V. BLOUNT and JEANETTE H. BLOUNT, and CHRIS Q. BLOUNT,** party of the first part, whose post office address is 778 Bent Creek Dr., Fort Pierce, FL 34947, and **ST. JOSEPH FTP, LLC, a Florida limited liability company,** party of the second part, whose post office address is 966 Wildflower Way, Longwood, FL 32750.

Witnesseth:

That the said party of the first part, for and in consideration of the sum of $10.00 and other valuable consideration, to it in hand paid by the said party of the second part, the receipt whereof is hereby acknowledged, has granted, bargained and sold to the said party of the second part, its successors and assigns forever, the following described land, to wit:

Lot 5, less East 5 feet thereof, Block 2, Seminole Park Subdivision, according to the plat thereof, as recorded in Plat Book 10, Page 11, Public Records of St. Lucie County, Florida

TO HAVE AND TO HOLD the same in fee simple forever.

Subject to easements, restrictions and reservations of record not coupled with a right of reverter and taxes for the current year. THIS PROPERTY IS NOT NOW THE HOMESTEAD REAL PROPERTY OF GRANTOR AND NEITHER GRANTOR NOR ANY MEMBERS OF GRANTOR'S HOUSEHOLD RESIDE THEREON.

And the said party of the first part hereby covenants with said party of the second part that the party of the first part is lawfully seized of said land in fee simple; that the party of the first part has good right and lawful authority to sell and convey said land; that the party of the first part hereby fully warrants the title to said land and will defend the same against the lawful claims of all persons whomsoever.

CITY OF FORT PIERCE
NOTICE OF PROPOSED ANNEXATION

The City Commission of the City of Fort Pierce, Florida, pursuant to Chapter 171 of Florida State Statutes, and of the Code of Ordinances of the City of Fort Pierce, will on Monday, December 19, 2022 at 5:05 p.m., and Tuesday, January 3, 2023 at 5:05 p.m. hold Public Hearings on the enactment of the following proposed annexation ordinance on first and second readings, respectively, in the City Hall Commission Chambers, 100 North U.S. #1, Fort Pierce, Florida; said ordinances entitled:

Ordinance No. 22-046

AN ORDINANCE EXTENDING THE TERRITORIAL LIMITS OF THE CITY OF FORT PIERCE, FLORIDA, TO INCLUDE ONE (1) PARCEL AT OR NEAR 2605 KERR STREET IN FORT PIERCE, FLORIDA AND SHOWN ON EXHIBIT A; DIRECTING THE ST. LUCIE COUNTY PROPERTY APPRAISER TO ASSESS SAID PROPERTY AND PLACE IT ON THE CITY TAX ROLLS AS OF JANUARY 1, 2024; DIRECTING THE ST. LUCIE COUNTY TAX COLLECTOR TO COLLECT TAXES ON THE HEREIN DESCRIBED PROPERTY; ESTABLISHING THE ZONING DESIGNATION; ESTABLISHING THE LAND USE DESIGNATION; DIRECTING FILING OF THE ORDINANCE WITH THE CLERK OF THE CIRCUIT COURT AND CHIEF ADMINISTRATIVE OFFICER OF ST. LUCIE COUNTY; DIRECTING REVISION OF THE CHARTER BOUNDARY ARTICLE TO BE FILED WITH THE DEPARTMENT OF STATE AND SUBMITTED TO THE OFFICE OF ECONOMIC AND DEMOGRAPHIC RESEARCH; PROVIDING FOR A SEVERABILITY CLAUSE; REPEALING ALL ORDINANCES OR PARTS THEREOF IN CONFLICT HEREWITH; AND PROVIDING FOR AN EFFECTIVE DATE

All interested parties may appear at the Public Hearings and be heard with respect to the proposed annexation. Said proposed ordinance and application will be available for inspection in the City Clerk's Office, City Hall, 100 North U.S. #1, Fort Pierce, Florida.

Pursuant to Section 286.0105, Florida Statutes, the City hereby advises you that if you or another person decide to appeal any decision made by the City Commission with respect to any matter considered at its meeting or hearing, that you or said person will need a record of the proceedings, and that for such purpose, affected persons may need to insure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

In accordance with the Americans with Disabilities Act and Section 286.26, Florida Statutes, persons with disabilities needing special accommodation to participate in this meeting should contact the City Clerk's Office at (772) 467-3065 at least 48 hours prior to the meeting.

/s/ Linda W. Cox

Re: Conditional Use - Brighter Care Adult Daycare - 415 Avenue A - 2410-506-0005-000-3

SUBJECT:

Quasi-Judicial Hearing - Review and approval of an application for a Conditional Use submitted by Brighter Care Adult Daycare Center LLC to operate an adult daycare at 415 Avenue A Street Fort Pierce FL 34950. Parcel ID: 2410-506-0005-000-3

SUMMARY:

- In accordance with Sections 125-76 and 125-133 of the City Code, Article 5 of Chapter 125 of the City Code, the applicant is requesting the review and approval of a Conditional Use with No New Construction to allow for an Adult Daycare.
- The applicant is seeking to operate the adult daycare in an existing 4,892 square foot portion of an existing building.
- The applicant has submitted a floor plan that will consist of 748 square feet of office space, 132 square feet of serving area, 1,676 square feet of common area and 2,336 square feet of activity area
- Operation of the facility will be from 9:00 am to 4:00 pm, Monday through Friday.
- There will be a total of 4 employees and the site will accommodate approximately 10 patients. The Daycare is geared towards patients with dementia and other disabilities.

RECOMMENDATION:

The proposed use offers a provision of an adult daycare as a limited commercial use that is compatible with the surrounding neighborhood and is generally consistent with the City's Comprehensive Plan and Land Development Code with appropriate restrictions. Therefore, Staff recommends **APPROVAL.**

ALTERNATIVES:

- Approval with alternate conditions
- Denial

Applicant's Request: Approval of a Conditional Use with No New Construction to operate a 4,892 square-foot Adult Daycare Center

Location(s): 415 Avenue A

Parcel ID: 2410-506-0005-000-3

Future Land Use: General Commercial (GC)

Current Zoning: General Commercial (C-3)

Surrounding FLU:

North	East	South	West
GC (FP)	GC (FP)	GC (FP)	GC (FP)

Surrounding Zoning:

North	East	South	West
C-3 (FP)	C-3 (FP)	C-3 (FP)	C-3 (FP)

Utilities: FPUA

Staff Analysis:

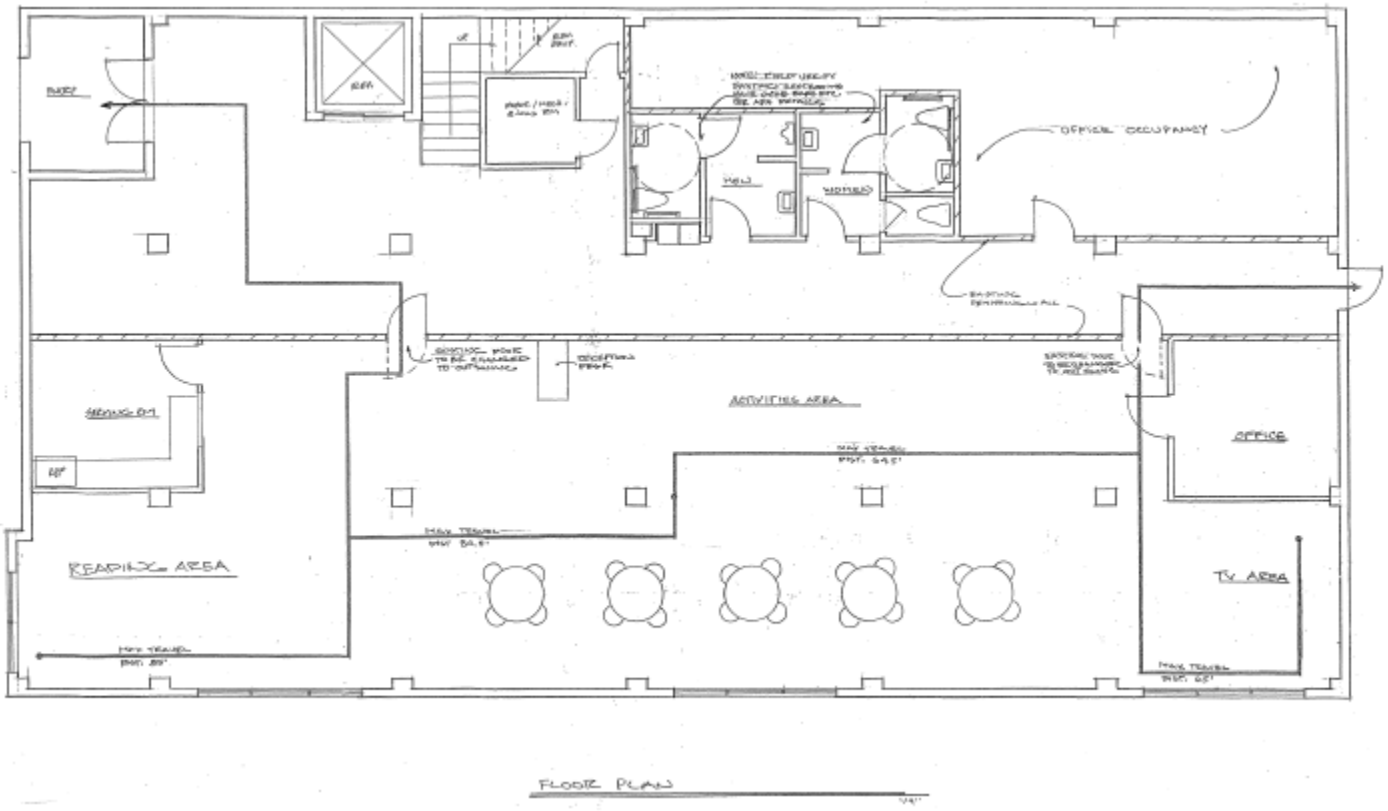

Request

In accordance with Sections 125-76 and 125-133 of the City Code, Article 5 of Chapter 125 of the City Code, the applicant is requesting the review and approval of a Conditional Use with No New Construction to allow for an Adult Daycare. The applicant is seeking to operate the adult daycare in an existing 4,892 square foot portion of an existing building. The property has a Future Land Use designation of General Commercial with a compatible zoning classification of General Commercial (C-3).

The property is located South of Avenue A and North of Orange Avenue, West of US Highway 1 and East of 5th Street. The surrounding uses are all general commercial.

The proposed facility is approximately 4,892 square-feet. The applicant has submitted a floor plan that will consist of 748 square feet of office space, 132 square feet of serving area, 1,676 square feet of common area and 2,336 square feet of activity area. No cooking will be performed at the center, but nutritious meals will be provided for the patient. The site is located inside the Kraaz & Kraaz Finance building with access to adequate parking spaces for the use of employees and visitors. The facility can be accessed by vehicle from the building entrance located on Avenue A and by Pedestrians on Orange Avenue and Avenue A.

Operation of the facility will be from 9:00 am to 4:00 pm, Monday through Friday. There will be a total of 4 employees and the site will accommodate approximately 10 patients. The Daycare is geared towards patients with dementia and other disabilities.

Brighter Care Adult Daycare Floor Plan

Future Land Use and Zoning

The GC designation provides for higher intensity commercial developments or horizontal and vertical mixed-use developments. Uses allowed within this designation include multifamily residential, intensive and general commercial, retail, service, offices, tourist/entertainment facilities, hotels/motels, parks and recreation, along with compatible public, quasi-public, and special uses. This land use designation allows for a maximum density of 15 dwelling units per acre and a maximum FAR of 1.0. Development shall include either commercial or mixed uses fronting major roadway corridors with higher intensity near major intersections. Residential uses may comprise up to 20 percent of the total floor area of the General Commercial future land use designation. Regarding zoning, the subject site is located within the C-3 district, which is intended to provide for a broad variety of business activities including shoppers' goods stores, convenience goods and service establishments, offices and tourist/entertainment facilities. Many public and semi-public uses are also appropriate. Compared to the C-4 zone, this district is more suitable for uses requiring a high degree of accessibility to vehicular traffic, low intensity uses on large tracts of land, most repair services and small warehousing and wholesaling operations. Although this zone should be located along or near arterial or collector streets, it is not the intent of this district to encourage the extension of strip commercial areas. Instead, it should promote concentrations of commercial activities.

Conditional Use

As stated in City Code Section 125-76, the purpose of the Conditional Use process is to allow, when desirable, uses that would not be appropriate generally or without restriction throughout a particular zoning district, but which, if controlled as to number, area, location, or relation to the neighborhood, would not adversely affect the public health, safety, comfort, good order, appearance, convenience, and the general welfare.

Technical Review Committee

All affected departments have reviewed the proposed Conditional Use with regards to the requirements of the City Code. Findings from the review by corresponding departments and the associated responses by the applicant are provided.

Planning Board Recommendation

The Planning Board, at their meeting on November 14th, 2022, voted unanimously to recommend Approval of the request.

Staff Recommendation

The proposed use offers a provision of an adult daycare as a limited commercial use that is compatible with the surrounding neighborhood and is generally consistent with the City's Comprehensive Plan and Land Development Code with appropriate restrictions. Therefore, Staff recommends **APPROVAL.**

FPUA W/WW Engineering: No comment on the conditional use application for the Brighter Care Adult Daycare located at 415 Avenue A.

This location is an active water and sewer customer of FPUA; Please contact 772-466-1600 Ext. 3428 if any modification to the existing water or sewer service is required.

FPUA Electric & Gas Engineering: Electric and Gas Engineering Department have reviewed the application – TRC Brighter Care Adult Daycare. Approved.

FPUA does not conduct photometric studies. If additional rental lights of the same type are desired to meet the code requirement, the customer will need to have prepared a photometric study showing the proposed locations of the additional lights. FPUA will then provide a cost estimate for the additional lighting. Please contact Sal Scimeca for additional lighting details, customer requirements and project coordination.

St. Lucie County Fire District

1. Please submit a completed application for Development/Site Plan Review (St. Lucie County Fire District Development & Site Plan Review Application). This form is available on-line at https://www.slcfd.com

2. Fire District review fees are due at the time of submittal. An abbreviated fee schedule is included on the application form.

3. Please send the Fire District electronic plans for the site and buildings.

4. Be advised, although there is no new construction planned for this project it will be subject to a New Business Inspection and possibly a Change of Occupancy Review. The project will have to meet all of the Occupancy requirements at that time to be in compliance with the currently adopted version of the *Florida Fire Prevention Code.*

Fort Pierce Engineering, Inc.

Dependable Mechanical, Electrical & Plumbing Design
CA# 28173

September 7, 2022

To: Chief Building Official, City of Fort Pierce, Florida

RE: 415 Avenue A, Fort Pierce, Florida, Report on Exterior Lighting

Sir:

This letter is to certify that at the subject building address the lighting of the means of egress from the north front door to the public way exceeds 5 fc and thus complies with FBC 1008.2.3.

This is also to certify that the private parking spaces at the subject address are illuminated by Fort Pierce Utilities Authority rental lights and this lighting system does not comply with the City of Fort Pierce Municipal Code Chapter 22, Article IV, Section 22-60. Measured values were between 0.5 and 0.8 fc.

Recommendation: That FPUA research and procure an LED upgrade for its decorative acorn fixtures with sufficient lumens and distribution to comply with Section 22-60. FPUA may need to add poles and fixtures to achieve compliance. It is also recommended that tree branches creating shadows on the parking lot surface be trimmed back.

Sincerely,

9/7/22

Timothy C. Trewyn, PE FL 61580
Electrical Engineer

BUSINESS PLAN & POLICY

AUG 2022

. Recent Medical assistant/phlebotomy

. Healthcare and Business Administration

. Love swimming, Reading, Traveling, and spending Time with family and friends.

CITY OF FORT PIERCE
NOTICE OF PUBLIC HEARING

The City Commission of the City of Fort Pierce, Florida, pursuant to Section 125-37 of the Code of Ordinances of the City of Fort Pierce, will on Monday, December 19, 2022, hold a Public Hearing in the City Hall Commission Chambers, 100 North U.S. Highway 1, Fort Pierce, Florida, at their meeting which begins at 5:05 p.m., to consider review and approval of the following:

1. Application for a Conditional Use with New Construction & Design Review submitted by applicant Brighter Care Adult Daycare LLC to construct an adult daycare at 415 Avenue A, more specifically located at Parcel Control Number: 2410-506-0005-000-3.

All interested parties may appear at the meeting and be heard with respect to the Applications. Said applications will be available for inspection in the City Clerk's Office, City Hall, 100 North U.S. Highway 1, Fort Pierce, Florida.

ANY PERSON SEEKING TO APPEAL THE DECISION OF THE CITY COMMISSION AS TO THE FOREGOING IS ADVISED THAT A RECORD OF PROCEEDINGS IS REQUIRED IN ANY SUCH APPEAL AND THAT SUCH PERSON MAY NEED TO ENSURE THAT A VERBATIM RECORD OF PROCEEDINGS IS MADE INCLUDING THE TESTIMONY AND EVIDENCE UPON WHICH THE APPEAL IS TO BE BASED.

In accordance with the Americans with Disabilities Act and Section 286.26, Florida Statutes, persons with disabilities needing special accommodation to participate in this meeting should contact the City Clerk’s Office at (772) 467-3065 at least 48 hours prior to the meeting.

CITY OF FORT PIERCE
NOTICE OF PUBLIC HEARING

The City Commission of the City of Fort Pierce, Florida, pursuant to Section 125-37 of the Code of Ordinances of the City of Fort Pierce, will on Monday, December 19, 2022, hold a Public Hearing in the City Hall Commission Chambers, 100 North U.S. Highway 1, Fort Pierce, Florida, at their meeting which begins at 5:05 p.m., to consider review and approval of an application for a Conditional Use with New Construction & Design Review submitted by applicant Brighter Care Adult Daycare LLC to construct an adult daycare at 415 Avenue A, more specifically located at Parcel Control Number: 2410-506-0005-000-3.

All interested parties may appear at the meeting and be heard with respect to the Applications. Said applications will be available for inspection in the City Clerk's Office, City Hall, 100 North U.S. Highway 1, Fort Pierce, Florida.

ANY PERSON SEEKING TO APPEAL THE DECISION OF THE CITY COMMISSION AS TO THE FOREGOING IS ADVISED THAT A RECORD OF PROCEEDINGS IS REQUIRED IN ANY SUCH APPEAL AND THAT SUCH PERSON MAY NEED TO ENSURE THAT A VERBATIM RECORD OF PROCEEDINGS IS MADE INCLUDING THE TESTIMONY AND EVIDENCE UPON WHICH THE APPEAL IS TO BE BASED.

In accordance with the Americans with Disabilities Act and Section 286.26, Florida Statutes, persons with disabilities needing special accommodation to participate in this meeting should contact the City Clerk's Office at (772) 467-3065 at least 48 hours prior to the meeting.

Re: Site Plan (Development and Design Review) and Conditional Use - Ballarena Multi-Family - 4701 Regina Drive

Submitted For: Kev Freeman, Planning Director, Planning & Zoning

SUBJECT:

Quasi-Judicial Hearing - Review and approval of an application for a Site Plan (Development and Design Review) with a Conditional Use to construct a 114-unit multi-family innovative residential development with a 2,534 square foot clubhouse, 800 square foot pool, and associated site improvements at or near 4701 Regina Drive in Fort Pierce, Florida, more specifically located at Parcel Control Number: 3403-501-0025-000-5.

SUMMARY:

In accordance with Sections 125-37, 125-313, 125-314, 125-237, and 125-243 of the City Code, the applicant is requesting the review and approval for a Site Plan (Development and Design Review) and Conditional Use to construct a 114-unit multi-family innovative residential development with a 2,534 square foot clubhouse, 800 square foot pool, and associated site improvements. In accordance with City Code Section 125-243, the applicant is requesting approval for a Conditional Use with New Construction for an Innovative Residential Development that consists of 114 multi-family units. Without the addition of the requested density bonus, the proposed site plan is allowed 112 units. The applicant is taking advantage of an additional two (2) units per acre Density Bonus outlined in Section 125-243.

RECOMMENDATION:

The proposed Site Plan (Development and Design Review) and Conditional Use applications adhere to the requirements of the City Land Development Code and guidelines of the City's Comprehensive Plan and does not appear to adversely affect the public health, safety, convenience, and general welfare. Therefore, Staff recommends **APPROVAL** of the requested applications with the following conditions:

1. Prior to the issuance of Building Permit approval, provide colored elevations to demonstrate that the proposed building conforms to the specifications of City Code 125-314, Design Review.

2. Incorporate littoral zone plantings around the lake/retention pond per City Code Section 123-6.

3. A completion certification by a landscape architect, cost estimate and landscape bond pursuant to City Code 123-6 shall be required before the Final Certificate of Occupancy is approved for the site.

4. Prior to the issuance of any site clearing permits, the applicant shall provide a Tree Mitigation Survey and coordinate with the City of Ft. Pierce Arborist for the required mitigation of the City regulated trees proposed to be removed as a result of this site's development/construction activity.

Innovative Residential Development (Conditional Use)

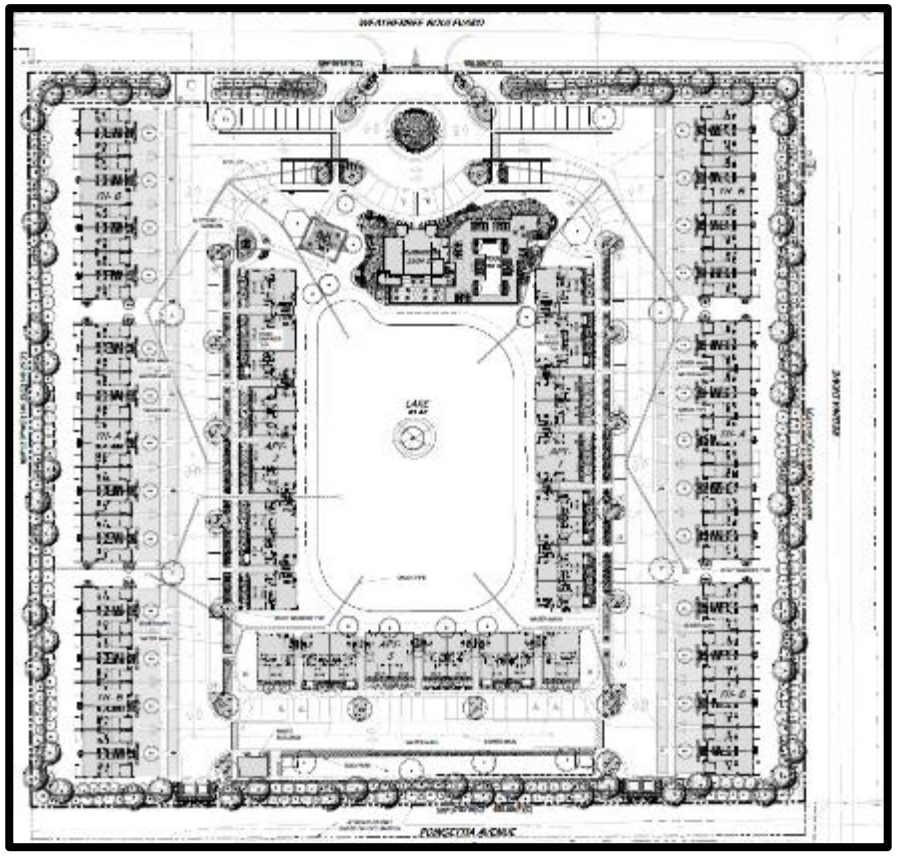

The application requires approval of the Conditional Use for the additional maximum Density Bonus of two (2) units per acre and qualifies for the following reasons:

1) **The landscaping plan provides for effective use of existing vegetation and for streetscapes, pedestrian ways, bicycle paths, areas near buildings, open spaces and recreation areas. Landscaping of this proposed Innovative Residential Development exceeds the requirements in section 125-314 for landscaped area by ten percent, for the amount trees by ten percent and in terms of qualitative characteristics of the landscaping. The code minimum for total of trees is 168, the applicant has provided 303 trees. This exceeds the minimum requirement by 13%.**

2) **The site plan provides for creative placement of buildings and other facilities in terms of visual focal points, use of existing physical features such as topography, views, sun and wind orientation, the circulation pattern, variation in building setbacks and/or building and facility groupings.**

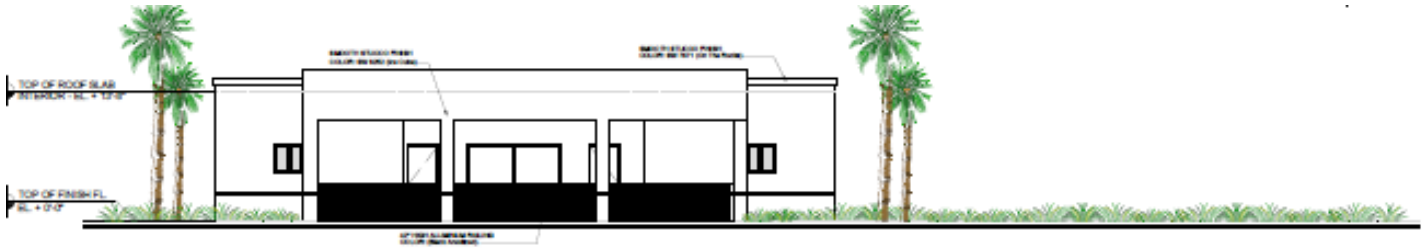

3) **The design elevations provide for imaginative design features including architectural styles, harmonious use of building materials, varied use of housing types and other design elements of the innovative residential development. The architecture includes a neo-modern design with balconies, pitched roofs, window canopies, and open-air stairway spaces.**

Landscape Plan

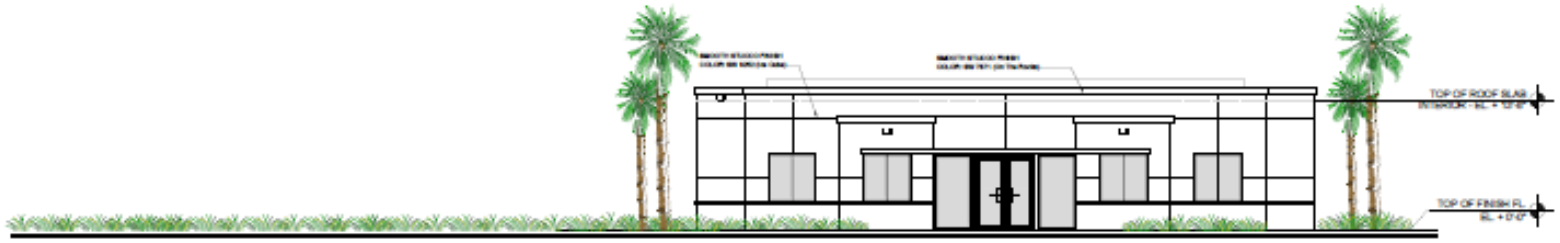

- **Trees to be planted are (7) Purple Bougainvillea Standard, (4) Gumbo Limbo, (10) Small-leaf Clusia, (25) Silver Buttonwood, (2) Royal Poinciana, (20) Japanese Blueberry, (16) Jatropha, (28) Japanese Privet, (193) Slash Pine, (82) South Florida Slash Pine, (55) South Live Oak, (23) Sky Climber Live Oak, and (2) Purple Trumpet.**
- **Palms to be planted are (16) Double Christmas, (3) Bismark, (5) Medjool Date, (33) Double Alexander, (6) Triple Alexander, (23) Royal Palm, (84) Mitigation Cabbage Palm, and (26) Double Montgomery.**
- **2,136 Shrubs**
- **7,337 Ground Covers**
- **New Irrigation will be installed.**

Staff Analysis:

Request

In accordance with Sections 125-37, 125-313, 125-314, 125-237, and 125-243 of the City Code, the applicant is requesting the review and approval for a Site Plan (Development and Design Review) and Conditional Use to construct a 114-unit multi-family innovative residential development with a 2,534 square foot clubhouse, 800 square foot pool, and associated site improvements. In accordance with City Code Section 125-243, the applicant is requesting approval for a Conditional Use with New Construction for an Innovative Residential Development that consists of 114 multi-family units. Without the addition of the requested density bonus, the proposed site plan is allowed 112 units. The applicant is taking advantage of an additional two (2) units per acre Density Bonus outlined in Section 125-243.

Development Review (Site Plan)

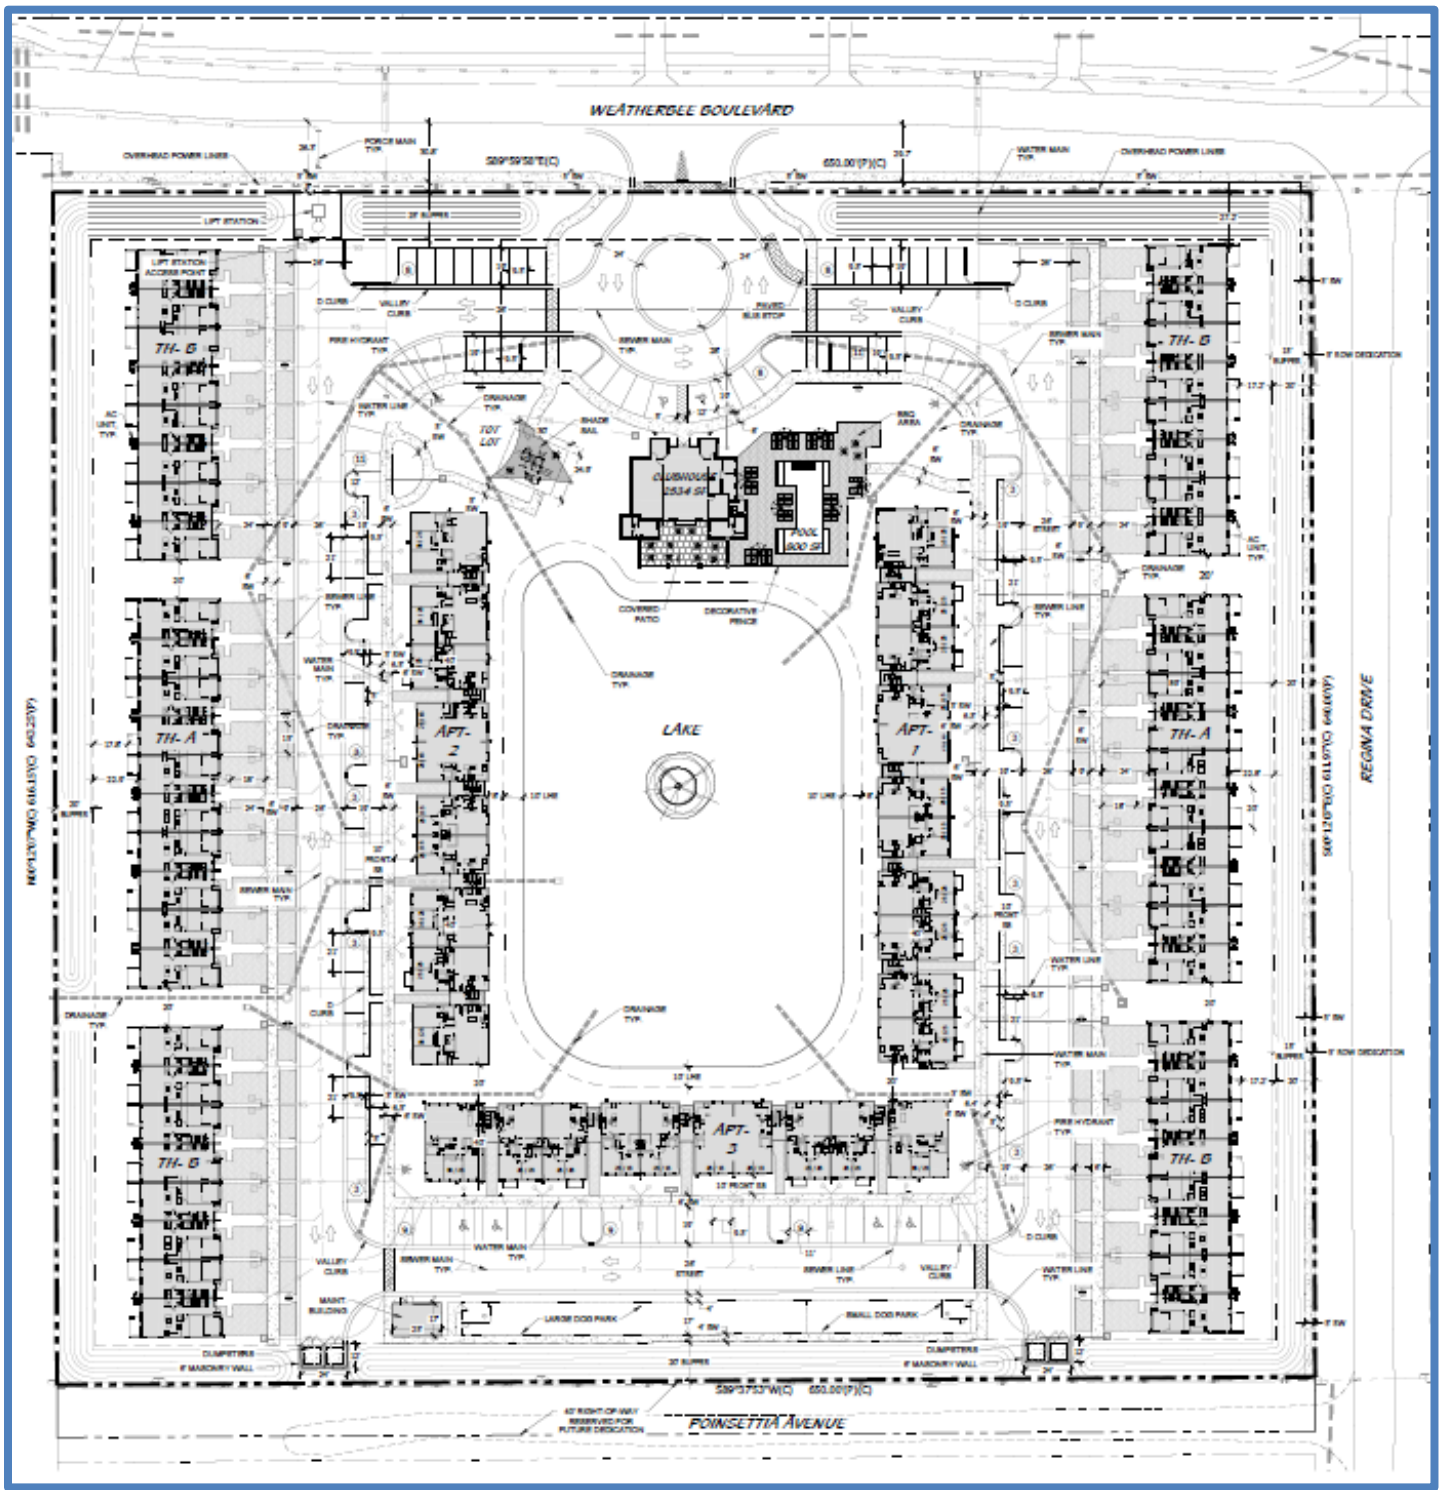

The project is proposed on the approximately 9.574 acres of land located at or near the southwest corner of East Weatherbee Road and Regina Drive in Fort Pierce, FL. The site plan consists of a 114-unit multi-family innovative residential development with a 2,534 square foot clubhouse, 800 square foot pool, and associated site improvements. City of Fort Pierce Code Section 125-315 requires 1.5 parking spaces for each dwelling unit, the applicant providing 203 parking spaces. for the administration and maintenance building. The required parking spaces for 114 dwelling units is 171 spaces; the applicant has provided well above the required spaces with six (6) of those spaces being designated as handicap. The site plan will consist of a mixture of nine (9) townhomes and conventional apartment buildings. The proposed townhome buildings include two (2) – 10-unit, 3-Bedroom buildings and four (4) – 8-unit, 3-bedroom buildings. The proposed conventional apartment buildings include two (2) – 20-unit, 2 & 3-bedroom building and one (1) – 22-unit, 2 & 3-bedroom building. The maximum proposed building height is 22.8 feet from existing grade.

Onsite amenities include a clubhouse, pool, tot lot with playground equipment and benches, a lake with a fountain feature, a barbeque area with tables, a fenced large dog-park, and a fenced small dog-park. There is one (1) vehicle access point into the site from Weatherbee Road with two (2) pedestrian-only access points from the north property line connecting to the Weatherbee Road southside sidewalk. The proposed site also includes an abundance of pedestrian pathways, such as internal sidewalks and striped crosswalks, throughout the development.

Proposed Site Plan

Development Review (Landscaping)

The plant list that the applicant is proposing consists of a total of 467 trees, 196 palms, and 2,136 shrubs. The applicant is also proposing to remove, replace, and mitigate trees, plant shrubs, and install irrigation. The plans will involve the following:

- Trees to be planted are (7) Purple Bougainvillea Standard, (4) Gumbo Limbo, (10) Small-leaf Clusia, (25) Silver Buttonwood, (2) Royal Poinciana, (20) Japanese Blueberry, (16) Jatropha, (28) Japanese Privet, (193) Slash Pine, (82) South Florida Slash Pine, (55) South Live Oak, (23) Sky Climber Live Oak, and (2) Purple Trumpet.
- Palms to be planted are (16) Double Christmas, (3) Bismark, (5) Medjool Date, (33) Double Alexander, (6) Triple Alexander, (23) Royal Palm, (84) Mitigation Cabbage Palm, and (26) Double Montgomery.
- Shrubs proposed for the site include (8) Lemon Bromeliad, (2) Pinot Noir Bromeliad, (2) Gainsville Blue Agave, (2) Imperialis Bromeliad, (810) Red Tipped Cocoplum, (527) Small-leaf Clusia, (45) Eleanor Roosevelt Croton, (47) Franklin Roosevelt Croton, (62) Magnificent Croton, (39) Queen Emma Crinum, (70) Green Island Ficus, (7) Firespike, (60) Dwarf Podocarpus, (120) Podocarpus, (70) Orange Bird of Paradise, and (265) Sweet Viburnum.
- Ground Covers proposed for the site include Raspberry Bromeliad, Green Cocoplum, Red Tip Cocoplum, Mammey Croton, Magnificent Croton, Green Island Ficus, Dwarf Yauponn Holly, Yellow Maui Ixora, Ixora Nora Grant, Wax Jasmine, Pink Muhly Grass, Variegated Pittosporum, Dwarf Podocarpus, Panama Rose, Dwarf Schefflera, Sand Cord Grass, Blue Porterweed, and Dwarf Fakahatchee Grass.
- New Irrigation will be installed.

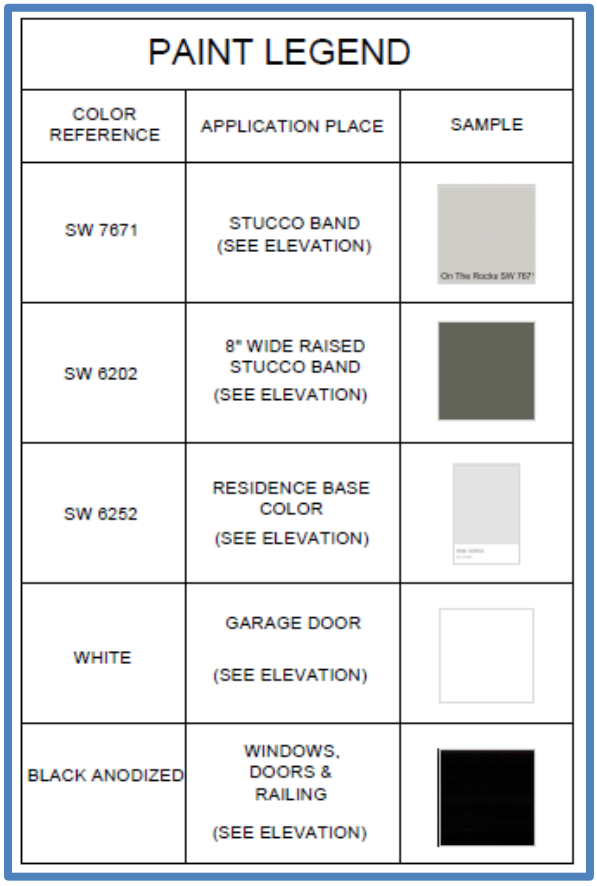

Proposed Landscape Plan

Design Review (Architecture)

The project is situated at or near the southwest corner of Weatherbee Road and Regina Drive. Weatherbee Road is a major east-west corridor consisting of mostly institutional, commercial, and residential developments from Sunrise Boulevard to the west and East Midway Road to the east. The institutional-commercial-residential corridor reflects older and newer structures of varying architectural styles developed over the past several years. The subject site plan architecture will subsequently have a neutral design to accommodate their co-habitation.

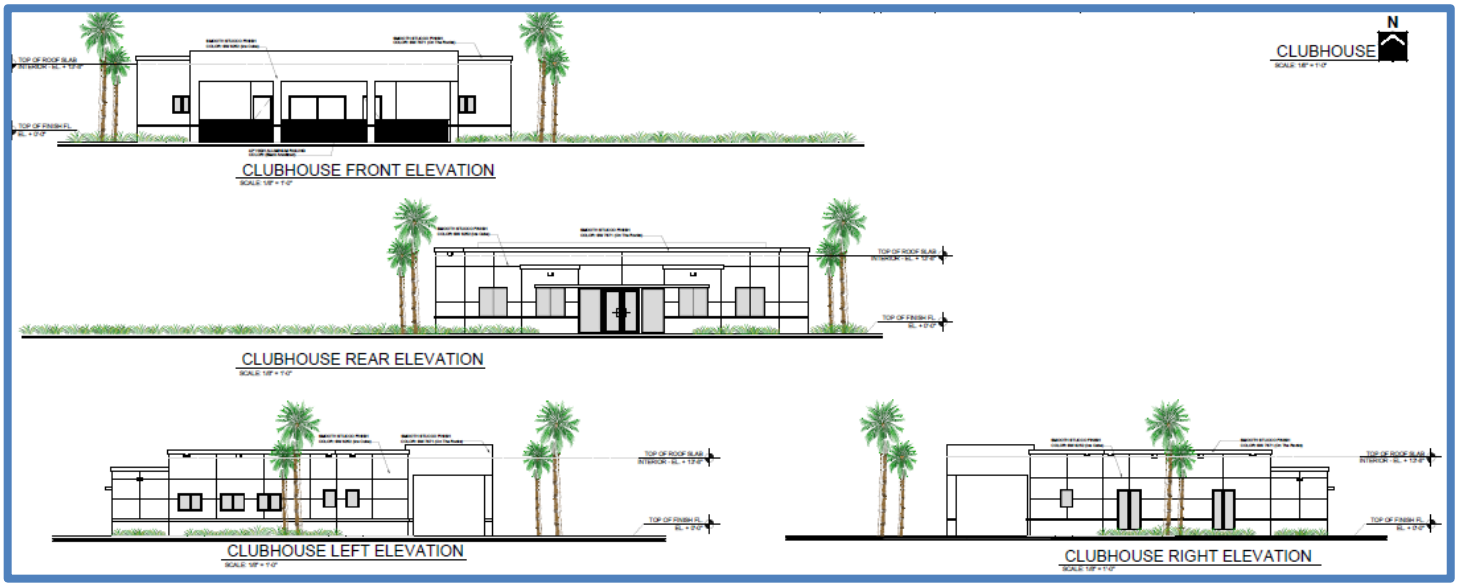

The building design of the proposed development is compliant with the City Design Review code outlined under City Code Section 125-314. The proposed design, including landscape features, is architecturally compatible with the surrounding structures. The building facades have a smooth stucco finish with an on the rock (SW 7671) and ice cube (SW 6252) color. Also, there are 8" wide raised stucco bands to simulate siding boards which are of a cast iron color (SW 6202). In general, exterior building components and all the proposed elements & colors are compatible with the architectural style of the proposed development and neighboring buildings. The applicant has not provided a color scheme.

22-Unit Conventional Apartment Elevations

Conditional Use

In accordance with City Code Section 125-243, the applicant is requesting approval for a Conditional Use with New Construction for an Innovative Residential Development that consists of 114 multi-family units. Without the addition of the requested density bonus, the proposed site plan is allowed 112 units. The applicant is taking advantage of an additional two (2) units per acre Density Bonus outlined in Section 125-243.

Innovative residential developments are developments which achieve a more creative and imaginative housing environment than normally occurs by use of the clustering technique, by employing various other methods to achieve distinctiveness and excellence in siting, design and/or landscaping. Density bonuses and reductions in various building restrictions are used to encourage these developments. Densities will not exceed the level which the city commission determines is appropriate due to natural features of the area, public facility and service needs and capacities, transportation needs and capacities and compatibility with nearby development.

Density bonuses awarded for the following criteria are cumulative:

(1) ***Landscaping***. *The gross density may be increased up to one unit per acre for landscaping plans which provide for effective use of existing vegetation and/or for approved landscape plans for streetscapes, pedestrian ways, bicycle paths, areas near buildings, open spaces and/or recreation areas. This increased density may only be awarded if the landscaping of the innovative residential development will exceed the requirements in section 125-314 for landscaped area by ten percent, for amount of trees by ten percent and/or in terms of qualitative characteristics of the landscaping.*
(2) ***Siting***. *The gross density may be increased (up to one-half unit per acre in R-3 and R-4 zones and one unit per acre in an R-5 zone) for creative placement of buildings and/or other facilities in terms of visual focal points, use of existing physical features such as topography, views, sun and wind orientation, the circulation pattern, variation in building setbacks and/or building and facility groupings.*

(3) ***Design***. *The gross density may be increased (up to one-half unit per acre in R-3 and R-4 zones and one unit per acre in an R-5 zone) for imaginative design features including architectural styles, harmonious use of building materials, varied use of housing types and/or other design elements of the innovative residential development.*

The application requires approval of the Conditional Use for the additional maximum Density Bonus of two (2) units per acre and qualifies for the following reasons:

1) The landscaping plan provides for effective use of existing vegetation and for streetscapes, pedestrian ways, bicycle paths, areas near buildings, open spaces and recreation areas. Landscaping of this proposed Innovative Residential Development exceeds the requirements in section 125-314 for landscaped area by ten percent, for the amount trees by ten percent and in terms of qualitative characteristics of the landscaping. The code minimum for total of trees is 168, the applicant has provided 303 trees. This exceeds the minimum requirement by 13%.
2) The site plan provides for creative placement of buildings and other facilities in terms of visual focal points, use of existing physical features such as topography, views, sun and wind orientation, the circulation pattern, variation in building setbacks and/or building and facility groupings.
3) The design elevations provide for imaginative design features including architectural styles, harmonious use of building materials, varied use of housing types and other design elements of the innovative residential development. The architecture includes a neo-modern design with balconies, pitched roofs, window canopies, and open-air stairway spaces.

Technical Review Committee
All affected departments have reviewed the proposed Site Plan (Development Review and Design Review) and Conditional Use with regards to the requirements of the City Code. Findings from the review by corresponding departments and the associated responses by the applicant are provided.

Planning Board Recommendation
The Planning Board, at their November 14th, 2022 meeting, voted unanimously to recommend Approval of the request.

Staff Recommendation
The proposed Site Plan (Development and Design Review) and Conditional Use applications adhere to the requirements of the City Land Development Code and guidelines of the City's Comprehensive Plan and does not appear to adversely affect the public health, safety, convenience, and general welfare. Therefore, Staff recommends **APPROVAL** of the requested applications with the following conditions:

1. Prior to the issuance of Building Permit approval, provide colored elevations to demonstrate that the proposed building conforms to the specifications of City Code 125-314, Design Review.

2. Incorporate littoral zone plantings around the lake/retention pond per City Code Section 123-6.

3. A completion certification by a landscape architect, cost estimate and landscape bond pursuant to City Code 123-6 shall be required before the Final Certificate of Occupancy is approved for the site.

4. Prior to the issuance of any site clearing permits, the applicant shall provide a Tree Mitigation Survey and coordinate with the City of Ft. Pierce Arborist for the required mitigation of the City regulated trees proposed to be removed as a result of this site's development/construction activity.

ADVISORY COMMENTS:

At the time of DPCR application;

1. E. Weatherbee Road and Regina Drive are Saint Lucie County (SLC) roadways. A driveway connection permit shall be approved by SLC.
2. Saint Lucie County shall advise for turn lanes and any further roadway improvements along the E. Weatherbee Road right of way.
3. A permit shall be required to outfall to the North Saint Lucie River Water Control District (NSLRWCD) canal.
4. A South Florida Water Management District (SFWMD) permit shall be required.
5. The project shall have a Florida Fish and Wildlife Conservation Commission (FFWCC) Gopher Tortoise Permit in place prior to conducting any land clearing operations as the submitted Environmental Assessment indicates that gopher tortoises are present on the site.
6. The drainage plan was reviewed conceptually and will be reviewed in depth.

RE: Potential Transportation Impact Review (PTIR)
Ballarena Townhomes and Apartments 2ND RESUBMITTAL
4701 Regina Drive
Fort Pierce, Florida

Dear Mr. Gilmore:

As the Federal and State-designated agency responsible for transportation planning for the City of Fort Pierce, City of Port St. Lucie, St. Lucie Village, and St. Lucie County, the St. Lucie Transportation Planning Organization (St. Lucie TPO) has completed another PTIR with regard to the above-referenced proposed development. The proposed development consists of 52 townhome units and 62 apartment units on a 9.57-acre property that is currently vacant.

PTIRs of the proposed development previously were completed on February 15th and July 14th, 2022. Based on the review of the 2nd resubmittal, the following comment remains from the previous two PTIRs:

- **Traffic Data:** The Traffic Analysis utilizes traffic counts from 2019/20. The applicant states that the "analyses were not updated because both traffic count sets rely on 2020 data, so there would be no substantial differences between the analyses." However, the traffic counts from 2019/20 rely on 2017 data for a number of the roadway segments in the area as identified in the 2019/20 Traffic Counts provided with the Traffic Analysis. The Traffic Analysis should be updated with the latest data which is the 2022 Traffic Counts.

Please contact me should any additional information or clarification be required with regard to this PTIR.

Sincerely,

Peter Buchwald

Peter Buchwald
Executive Director

Development Review Committee
Site Plan Sign-Off Sheet

Site Plan Name: Ballarena Townhomes

Site Plan Number: unk

Division: **St. Lucie County Fire District**

DRC Member: **Captain Wayne Boyer, Lieutenant Salomon Rincon, Lieutenant Andres Elizondo**

Phone #: **772-621-3322**

Review Date: 1/11/2022, 5/31/2022, 9/27/2022

I have reviewed the above referenced site plan and determined the following:

Site Plan Approved ☐

Site Plan Approved with Conditions: ☒
(List all conditions in full format on how you wish for them to be listed in the development order)

Site Plan Rejected (give reasons): ☐

Required revisions or reasons for rejection (attach additional sheets if necessary):

The Following Revisions Are Necessary:

1. ~~Please submit a completed application for Development/Site Plan Review (St. Lucie County Fire District Development & Site Plan Review Application). This form is available on-line at https://www.slcfd.com~~ **Received 5/27/2022**

2. ~~Fire District review fees are due at the time of submittal. An abbreviated fee schedule is included on the application form.~~ **Received 5/27/2022**

3. ~~Please provide an electronic copy of the Site Plan (pdf format).~~ **Received 5/27/2022**

4. A separate review and permit is required for Underground Fire Mains connected to standpipes or sprinkler systems**.**

5. Fire hydrants (shall be) are provided for buildings other than detached one-and-two-family dwellings IAW both of the following 1) The maximum distance to a fire hydrant from the closest point in the building shall not exceed 400 feet. 2) The maximum distance between fire hydrants shall not exceed 500 feet. NFPA 1:18.5.3. Please provide fire flow calculations for hydrants.

6. An approved water supply capable of supplying the required fire flow for fire protection (shall be) is identified to all premises upon which facilities, buildings, or portions of buildings which are to be constructed or moved into the jurisdiction. The approved water supply shall be in accordance with NFPA 1:18.4. See “Needed NFPA Fire Flow Calculator Spreadsheet”.

7. Fire Hydrants (shall be) are provided for detached one- and two-family dwellings IAW both of the following: 1) The maximum distance to a fire hydrant from the closet point on the building shall not exceed 600 feet. 2) The maximum distance between fire hydrants shall not exceed 800 feet. NFPA 1:18.5.2.

8. Per NFPA 1114 Chapter 9, Section 1.3. Prior to the final occupancy of any building, the permitted water supply for fire protection, including fire hydrants and fire suppression systems, shall be installed, tested, and acceptable to the AHJ (SLCFD).
9. Security gates must either be manned 24 hour/day or provide an access control key switch on the control panel to allow for Fire Department entry in an emergency. Security gates must maintain a clear width of 12 feet when open and provide a means to open the gates manually upon loss of power.
10. A fire department access road shall extend to within 50 ft (15 m) of at least one exterior door that can be opened from the outside and that provides access to the interior of the building. NFPA 1.18.2.3.2.1.

11. Where a one- or two-family dwelling, or townhouse, is protected with an approved automatic sprinkler system that is installed in accordance with NFPA 13D or NFPA 13R, as applicable, the distance in 18.2.3.2.1 shall be permitted to be increased to 150 ft (46 m). NFPA 1.18.2.3.2.1.1.
12. 18.2.3.3 Multiple Access Roads. More than one fire department access road shall be provided when it is determined by the AHJ that access by a single road could be impaired by vehicle congestion, condition of terrain, climatic conditions, or other factors that could limit access.
13. Fire department connections shall be located on the street side of buildings and shall be located and arranged so that hose lines can be readily attached to the inlets without interference from any nearby objects, including buildings, fences, landscaping, or other fire department connections. The locations of connections shall be based upon the access requirement s of the fire department.

14. The distance allowed between the fire department connection and a fire hydrant shall be no more than one hundred fifty (150) feet as a vehicle travels.

15. Minimum Size of Water Mains a. The minimum size of water mains for supplying water for firefighting purposes shall be six (6) inches. b. The minimum size of water mains supplying hydrants on a dead end main shall be eight (8) inches. c. The maximum number of hydrants located on a dead end main shall be one (1). d. Grid or Tee systems shall be supplied by a minimum of an eight (8) inch looped main. Exceptions may be granted based on the capacity of the water distribution system but in no case shall the main size be less than six (6) inches. e. The minimum size water main(s) shall be determined by the needed fire flow as established by the Fire Marshal and based on the current Insurance Service Office (ISO) requirements.

CITY OF FORT PIERCE

PLANNING BOARD

Planning Board Minutes

OF THE REGULAR MEETING OF THE FORT PIERCE CITY PLANNING BOARD HELD ON MONDAY, NOVEMBER 14, 2022, IN FORT PIERCE CITY HALL, COMMISSION CHAMBERS, 100 NORTH US HIGHWAY 1, FORT PIERCE, FLORIDA.

1. CALL TO ORDER

2. PLEDGE OF ALLEGIANCE

3. ROLL CALL

Present: Alexander Edwards; Nichelle Clemons; Bob Burdge; Anton Kreisl; Frank Creyaufmiller, Chairman

Absent: Harold Albury

Staff Present: Kev Freeman, Planning Director
Ryan Altizer, Planner
Alicia Rosenthal, Planning and Development Organizer

4. CONSIDERATION OF ABSENCES

Mr. Albury was excused from the meeting.

5. APPROVAL OF MINUTES

a. Minutes from the October 10, 2022 meeting

Motion was made by Bob Burdge, and seconded by Nichelle Clemons to approve the minutes from the October 10, 2022 meeting.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

6. **HEARING OF THE LOCAL PLANNING AGENCY**

a. **Future Land Use Map Amendment - Viva West - 3037 South Jenkins Road**

Mr. Altizer gave an overview of the application and stated the current Future Land Use is GC - General Commercial and the proposed Future Land Use is RM - Medium Density Residential. Chairman Creyaufmiller inquired if any meetings have been held with the Briargate neighborhood. Mr. Kreisl asked if there were any restrictions on land use of how close to the interstate the residences can be set. Mr. Freeman stated he is not aware of a community meeting with the Briargate neighborhood or of any additional restrictions on land use besides the setbacks. Mr. Freeman noted the Future Land Use change will reduce the intensity of the property.

Matthew Scott, Applicant Representative from Dunay, Miskel & Blackman Law Firm, stated he personally met with the Briargate neighborhood and the main concerns were buffering, traffic and drainage. Mr. Scott said another meeting will be held with the neighborhood at the site plan phase. Mr. Scott showed gave a brief presentation showing the variety of entry level cottage style homes and townhomes, along with the various amenities.

Steven Cooper, Engineer, spoke about the drainage, and he explained that Viva West will reduce the discharges in Briargate neighborhood, and the water not held on site will go into the canal controlled by North St. Lucie Water Control District.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission for the Future Land Use change located at 3037 S. Jenkins Road from GC, General Commercial to RM, Medium Density Residential.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

b. **Future Land Use Map Amendment - Allegra at Fort Pierce - Parcel IDs: 2419-111-0002-000-7 and 2419-113-0001-000-6**

Mr. Altizer gave an overview of the application and answered questions from the Board. He explained the request is to change the Future Land Use Map Amendment for two (2) parcels from GC, General Commercial to RM, Medium Density Residential. He highlighted the decrease in density for both commercial and residential land use.

Lee Dobbins, Applicant Representative, from Dean Mead Law Firm, explained that the northern parcel was recently annexed into the city and the change is for two parcels. Mr. Dobbins stated there has been two community meetings with the neighborhood and the concerns were with drainage, traffic and how the development fits in with the neighborhood. Mr Dobbins noted that the use will be less intense with less traffic and the neighborhood concerns can be addressed at the site plan stage. Mr. Dobbins answered questions from the Board on the number of rental units, ingress and egress off of 41st Street, and market research showing development is appropriate for the area.

Deborah Fournier, resident, showed pictures of her neighborhood flooding and, she wants a solution to the drainage issues.

Mr. Freeman stated that it is difficult for staff to guarantee a solution at this point, but staff can ensure that all local codes will have to be met for whatever is designed.

Patricia Ruby, resident, spoke against the application, highlighting traffic issues, flooding, crime and the main entrance needed to be located on Okeechobee Road instead of 41st Street.

Gina Grant, resident, has concerns with flooding and traffic. She suggested a traffic light be placed at 41st Street and Okeechobee Road.

Mr. Dobbins stated the intersection and turn lanes will change at the site plan stage and the change in the Future Land Use and Zoning will lower the possible traffic count. He highlighted that the development will capture their own drainage on site, and it will go to the outfall canal.

Motion was made by Nichelle Clemons, and seconded by Alexander Edwards to forward a recommendation of approval to the City Commission for the Future Land Use Map Amendment, change for two (2) parcels 2419-111-0002-000-7 and 2419-113-0001-000-6 from GC, General Commercial to RM, Medium Density Residential.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

7. NEW BUSINESS

a. Annexation - 7-Brew Drive-Thru - 2605 Kerr Street

Mr. Altizer gave an overview of the annexation. He stated the current Future Land Use is COM, Commercial (St. Lucie County) and the proposed Future Land Use is GC, General Commercial. The current zoning is CO, Commercial Office (St. Lucie County) and the proposed zoning is C-3, General Commercial Zone.

Chris Ossa, Engineer of Record from Kimley Horn & Associates, stated the client has no plans of keeping the billboard located on the property.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission for the annexation of 2605 Kerr Street.

AYE: Nichelle Clemons, Bob Burdge, Anton Kreisl, Alexander Edwards, Chairman Frank Creyaufmiller

Passed

b. Zoning Text Amendment - Edgartown Settlement Zoning District

This item was presented after item 7j.

Mr. Freeman stated he recommended this item going to the Historic Preservation Board for discussion purposes and then come back to the Planning Board for review.

Motion was made by Bob Burdge, and seconded by Nichelle Clemons to forward the Edgartown Settlement Zoning District Text Amendment to the Historic Preservation Board meeting for discussion and then come back to the Planning Board for review.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

c. **Zoning Text Amendment - Code of Ordinances, Chapter 121 - Subdivisions Sec. 121-8, 121-9 and 121-10. Plat specification**

This item was presented as the last item under New Business.

Chairman Creyaufmiller spoke to Mr. Freeman before the meeting to suggest that the amended Preliminary Plat process go to the Planning Board after the Technical Review instead of the City Commission. Chairman Creyaufmiller said the Planning Board function is to be an overview to the Planning department and the amendment is to streamline and speed up the process so when the final design work is done, the City Commission can review the final Plat

Mr. Freeman stated the text amendment was based on a recommendation from 2016 and recently a Preliminary Plat came in that did not meet the existing city requirements for a Preliminary Plat. He explained that a preliminary plat is preliminary to the final plat and the city seemed to have it backwards. Most of the details were provided at Preliminary and the Final Plat was almost an overview of the Preliminary Plat. Mr. Freeman said the recommendation is to have the Preliminary Plat meet the basic requirements to enable developments to move to building permit before final Certificate of Occupancy. The Final Plat will get everything in order for the final Certificate of Occupancy. Mr. Freeman highlighted the move is to streamline the Preliminary Plat Process by allowing the Preliminary Plat Process to be optional and require the Final Plat meet state statute requirements.

Motion was made by Bob Burdge, and seconded by Anton Kreisl to amend the proposed text amendment to include the Planning Board in exchange for the City Commission in the Preliminary Plat process.

AYE: Anton Kreisl, Alexander Edwards, Nichelle Clemons, Bob Burdge, Chairman Frank Creyaufmiller

Passed

d. **Zoning Atlas Map Amendment - Viva West - 3037 South Jenkins Road**

Mr. Altizer gave an overview of the application, and he stated the current zoning on the approximately 27.89 acre parcel is C-3, General Commercial Zone and the proposed zoning is R-4, Medium Density Residential Zone.

Matthew Scott, Applicant Representative, from the Dunay, Miskel, & Blackman Law Firm, made himself available for questions from the Board.

Motion was made by Nichelle Clemons, and seconded by Alexander Edwards to forward a recommendation of approval to the City Commission for the Zoning Atlas Map Amendment from C-3, General Commercial Zone to R-4, Medium Density Residential Zone for 3037 S. Jenkins Road.

AYE: Anton Kreisl, Alexander Edwards, Nichelle Clemons, Bob Burdge, Chairman Frank Creyaufmiller

Passed

e. **Zoning Atlas Map Amendment - Allegra at Fort Pierce - Parcel IDs: 2419-111-0002-000-7 and 2419-113-0001-000-6**

Mr. Altizer gave an overview of the application and stated the request is to change the two (2) parcels from C-3, General Commercial zone to R-4, Medium Density Residential zone.

Mr. Dobbins made himself available for questions from the Board.

Motion was made by Alexander Edwards, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission for the Zoning Map Amendment change of two (2) parcels 2419-111-0002-000-7 and 2419-113-0001-000-6 from C-3, General Commercial to R-4, Medium Density Residential.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

f. **Zoning Atlas Map Amendment - 805 Office Plaza - 805 Virginia Avenue**

Mr. Altizer gave an overview of the application. He said the request is for a Zoning Map Amendment, change for 805 Virginia Avenue from R-5, High Density Residential zoning, to C-3, General Commercial zoning.

Mr. Burdge asked the current uses in the strip center and if C-1 zoning would buffer the neighborhood better with C-3 zoning.

Brad Currie, Applicant Representative from Engineering, Design and Construction, stated the applicant has had to ask for Conditional Uses on the property since it was zoned R-5 and most of the zoning is the area is C-3.

Mr. Kreisl asked to see more information on the current uses to confirm that the current uses are consistent with the C-1 zoning and to assure that would not pose any issues with the applicant. He suggested the item be tabled.

Mr. Freeman said the item can continue to the next Planning Board meeting with staff's analysis based on the Planning Board's discussion points. Mr. Freeman noted considering spot zoning and the uses.

Mr. Currie said that Neighborhood Commercial use is not allowed in C-1 and that could become a problem, but there is not a big difference between C-1 and C-3 zoning. He stated that his client would like to get the most intense zoning as possible.

Mr. Burdge mentioned the tax benefit of C-1 over C-3, due to a higher appraisal value of C-3 zoning.

Motion was made by Bob Burdge, and seconded by Anton Kreisl to table the application for further investigation from staff regarding potential C-1 zoning.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

g. **Major Amendment to Planned Development - Red Hawk Rebar - 4280 Bandy Boulevard**

Mr. Altizer gave an overview of the application and provided brief history on the project. The City Commission of the City of Fort Pierce approved the Zoning Atlas Map Amendment to Planned Development along with an approved development plan on September 4, 2018. The original proposed development plan consisted of a 40,000 square foot manufacturing facility and the new proposal consists of a smaller footprint of approximately 32,000 square feet.

Dennis Murphy, Applicant Representative from Culpepper and Terpening, stated the application is the same except the building footprint has changed.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission with the following condition:

1. A completion certification by a landscape architect, cost estimate and landscape bond pursuant to City Code 123-6 shall be required before the Final Certificate of Occupancy is approved for the site.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

h. **Conditional Use - Brighter Care Adult Daycare - 415 Avenue A**

Mr. Altizer gave an overview of the application. He stated the daycare will be 4,892 square feet inside the Kraaz & Kraaz Building and the tentative capacity is approximately 10 patients.

Mr. Burdge asked if there will be the availability for a horseshoe drop off point for convenience and security.

Shantell Walkine, Applicant, stated she has been in the medical field for 40 years and, she wants to provide entertainment to elderly patients in Fort Pierce. Ms. Walkine said there is currently not covered parking at the location and there is the ability to utilize the horseshoe drop off point.

Motion was made by Bob Burdge, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

i. **Conditional Use - Longman Garage & Guest House - 1506 Thumb Point Drive**

Mr. Altizer gave an overview of the application. He stated the garage will be 1,974 square feet and the 2nd floor living (Guest House) will be an additional 1,974 square feet.

Mr. Freeman stated he received two objection e-mails from residences that are adjacent and close to the property. He stated they had concerns with the architecture, setbacks, appropriateness of the design and the location. Mr. Freeman noted that the state statute limits the Planning Board and City Commission on architectural developments on single family homes. He mentioned that there is an exception for property located in the CRA. He noted that the Conditional Use application does not require architectural guidelines and the South Beach Overlay has architectural elements for multifamily and non-residential development. Mr. Freeman stated that the Planning Board has no authority to condition the architecture but, they can limit the height.

Mr. Burdge asked if the current zoning allows for two homes on the parcel and if the guess house incorporates a kitchen. Mr. Kreisl asked the total square footage and if the current plan has kitchen facilities.

Mr. Freeman stated an additional dwelling unit cannot be granted on the property.

Board discussion ensued on the height of the building, the South Beach overlay height restrictions, and why the extra height is needed.

David Hicks, resident, spoke against the application. He stated the garage is too close to the property line, creates privacy issues and does not fit in the neighborhood with mostly one-story homes. Mr. Hicks showed the Board pictures of the survey, floor plan and what the garage would look like next to the single family home.

Sally Griffith, resident, spoke against the application. Mr. Griffith said she agrees with everything Mr. Hicks said, and she added the garage is too big, too commercial looking and does not fit in the neighborhood.

The applicant did not attend the meeting.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to disapprove the Conditional Use for the height of the garage and guest house because there is no compelling reason to allow the height restriction.

AYE: Nichelle Clemons, Bob Burdge, Anton Kreisl, Alexander Edwards, Chairman Frank Creyaufmiller

Passed

j. **Site Plan, Design Review and Conditional Use - Ballarena Multi-Family - 4701 Regina Drive**

Mr. Altizer gave an overview of the application. He stated the development will be a 114-Unit multifamily innovative residential development with six (6) townhomes and three (3) conventional apartment buildings. He noted the application requires approval of the Conditional Use for the additional maximum density bonus of two (2) units per acre. The density bonus qualifies because the landscaping plan provides for effective use, the site plan provides for creative placement of buildings and other facilities and the design elevations

provide for imaginative design features.

Dan Sorrow, Applicant Representative from Cotleur and Hearing, provided the Board with a detailed presentation. He stated the property is just under 10 acres with the site ingress and egress off of Weatherbee Road. Mr. Sorrow noted the various amenities being a tot lot, picnic and BBQ area, pool, gym, clubhouse, dog park and cultivating garden. He highlighted the up lighting on the Royal Palm trees along Weatherbee Road, the enhanced buffers along the south and east side of the property, on-street parallel parking and a sidewalk along Weatherbee Road and Regina Drive. Mr. Sorrow stated there will be 112 to 114 rental units all concrete block with impact glass. He said the development exceeded the landscape code by 13%.

Mr. Sorrow answered Chairman Creyaufmiller's question regarding Poinsettia Avenue. He stated the property owner owns one-half of Poinsettia Avenue, and it is part of the plan that will be dedicated for future right-of-way when the county wants to expand Poinsettia Avenue. Mr. Sorrow answered questions from the Board on school bus access and drop off and vehicle charging stations on the property,

Motion was made by Bob Burdge, and seconded by Anton Kreisl to forward a recommendation of approval for the Site Plan, Design Review and Conditional Use to the City Commission with the following four (4) conditions:

1. Prior to the issuance of Building Permit approval, provide colored elevations to demonstrate that the proposed building conforms to the specifications of City Code 125-314, Design Review.
2. Incorporate littoral zone plantings around the lake/retention pond per City Code Section 123-6.
3. A completion certification by a landscape architect, cost estimate and landscape bond pursuant to City Code 123-6 shall be required before the Final Certificate of Occupancy is approved for the site.
4. Prior to the issuance of any site clearing permits, the applicant shall provide a Tree Mitigation Survey and coordinate with the City of Ft. Pierce Arborist for the required mitigation of the City regulated trees proposed to be removed as a result of this site’s development/construction activity.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

8. **COMMENTS FROM THE PUBLIC**

Lainey Williams, Edgartown Representative from Jones Foster Law Firm, stated some modifications to the Edgartown Text Amendment would be best for the homeowners and residents. She stated that certain uses are permitted uses and not conditional uses and, they do not agree with the amplified sound in the zoning district. Ms. Williams said the DBA level is typical of a commercial area and suggested sound limiters be required on the property. She also noted the violations are not strong enough for the sound level.

Holly Theuns, resident and Vice-Chair of the Historic Preservation Board, said the city is lucky to have the Edgartown gem in downtown. She stated that she purchased and remodeled a 1905 house in Edgartown when the 2012 Edgartown ordinance was in place, which protected the residents of Edgartown against what is being experienced now.

9. DIRECTOR'S REPORT

There was no director's report.

10. BOARD COMMENTS

Chairman Creyaufmiller asked for Planning Board hard copy packets due to the difficulty in reviewing the drawings.

Design Review Application Checklist
(City Code of Ordinances 125-314)

Submittal for Administrative Approval

a. A survey (1" = 30' minimum scale) of property lines, existing topography and the location of trees meeting the tree protection regulations of section 123-66, location of bordering streets and, if applicable, wetlands and beaches.
b. A site analysis study to include a discussion of specimen trees and other natural vegetation, access, significant topography, wetlands, buffers, setbacks, views, orientation, the surrounding built environment, and other site features that may influence design elements.
c. A draft written narrative describing the design intent of the project, its goals, and objectives and how it reflects the site analysis study results.
d. Context photographs of neighboring uses and architectural styles.
e. Photographs and/or drawings of architectural buildings or objects that serve as a precedent for the proposed building design. Models should be taken from local exemplary buildings, either existing or demolished. Documentation of such buildings is available in the city's planning department.
f. Photographs of all existing structures located on the property. If existing structures on the property are more than fifty (50) years of age, documentation of these structures with data from the Florida Master Site File form is also required.
g. Conceptual site plan (to scale) showing proposed location of all buildings, structures, parking areas, signs and landscaping.
h. Landscape plan, at the same scale as the site plan. The planning director or designee may request enlarged plans of detailed planting areas. Planting schedule with sizes of proposed plantings must be included.
i. Accurate color rendering of proposed signs showing dimensions, type of lettering, materials and actual color samples that demonstrates cohesiveness with the project design.
j. Exterior elevations showing architectural character, external architectural features, and streetscape of the proposed development, including materials, colors, shadow lines and landscaping. The street elevation shall encompass the entire proposed project and generally identify the major elements of the adjacent two (2) properties on either side of the site. If the adjacent properties are vacant or underutilized, a diagram shall be provided that identifies the mass and form that is allowable under current zoning. If the street elevation must be drawn at such a scale as to render architectural details of the building unreadable, drawings of individual buildings at a larger scale should be provided as well.
k. Design review concurrent with conceptual development plan procedure according to subsection 125-313 is also available.

Submittal for Board Approval

a. A written narrative describing how the project conforms to administrative approval and design review guidelines of this section.
b. A final site plan meeting the requirements of section 125-313.
c. A final site lighting plan that meets the requirements of subsection 125-313(d)(8).
d. A final landscape plan that meets the requirements of articles II and III of chapter 123.
e. Final floor plans and elevation drawings (1/8" = 1'-0" minimum scale), as detailed under administrative approval, showing exterior building materials and colors with architectural sections and details to adequately describe the project.
f. A color board (11"x17" maximum) containing actual color samples of all exterior finishes, keyed to the elevations, and indicating the manufacturer's name and color designation.

Re: **Project Name:** Ballarena Multi-Family
Application Description : Site Plan submittal
Application Item : Narrative
CH Project No.: 21-0326

Site Description :

Parcel ID :	3403-501-0025-000-5
Site Address :	4701 Regina Dr
Parcel Size (AC) :	9.57 Acre
Proposed MF residential Units :	114 Units.
Density:	11.90 DU's/ AC

Planning and Zoning Department,

On behalf of the applicant, Ballarena Construction, Cotleur & Hearing is submitting this application for the review of a proposed site plan. Please accept this as our request to develop 114 multi-family units on the subject site. The remainder of this narrative will provide necessary information surrounding the project site, located on 4701 Regina Drive.

The parcel is located on East Weatherbee Rd, between Poinsettia Ave and Regina Dr (See attached location map). This 9.57-acre site is currently vacant and is in the R-4 zoning district with a future land use of Residential Medium (RM). Multifamily dwelling units and townhomes are permitted uses within R-4 Zoning District as per the *City Code* outlined under **Sec. 125-187***., Allowed Use.* The site will include a main ingress/egress off E. Weatherbee Road.

Description of the proposed development on the subject property:

The site includes six (6) townhome complexes; four (4) buildings containing nine (9) units each, and two (2) building containing eight (8) units each, for a total of 52 townhome lots. The site also includes three (3) multifamily apartment buildings. Two of these buildings contain 20 units while the third contains 22 units. The proposed development is considered innovative in nature due to the mixed use of townhomes and apartment buildings on the site. Additionally, other creative features

1934 COMMERCE LANE • SUITE 1
JUPITER, FLORIDA • 33458
561.747.6336 561.747.1377

include a tot lot, picnic area, barbeque area, pool, office/gym, and garden area. Finally, there will be a lake area of approximately 0.70 acres to act as a centerpiece for the proposed development. These features intend to achieve a more creative and imaginative housing environment.

It is acknowledged that the maximum gross density in this district shall not exceed 12 units per acre for the innovative residential development. The conceptual site plan demonstrates compliancewith this density by proposing 11.90 units per acre. Additionally, there are at least two (2) parking spaces allocated for each unit on the proposed site plan, totaling to 281 spaces. The multifamily apartments and townhomes will not surpass 45 feet in height.

Architectural character of the proposed development:

The building design of the proposed development is compliant with the City Design Review code outlined under **sec.125-314.** The proposed design, including landscape features, is architecturally compatible with the surrounding structures. The building facades have a smooth stucco finish with an on the rock (SW 7671) and ice cube (SW 6252) color. Also, there are 8” wide raised stucco bands to simulate siding boards which are of a cast iron color (SW 6202). In general, exterior building components and all the proposed elements & colors are compatible with the architectural style of the proposed development and neighboring buildings.

Natural environment of the subject property:

There is no native upland habitat located on site. The environmental assessment report acknowledges that there is native vegetation present, but they are not considered to be native habitat due to not having significant associations. Please see attached environmental assessment report representing sample of vegetative species observed during the site visit.

Furthermore, there are no wetlands present on site. However, there is a lake of less than one (1) acre located within central north portion of the subject site. As stated above, the existing lake acts as a focal point for the proposed development. Environmental surveyor also conducted a pedestrian survey to investigate for the presence of any listed plant or animal. Per environmental report, Gopher Tortoises were detected on site. A Gopher Tortoise Permit will be obtained by an authorized agent to relocate the tortoises prior to any land clearing activities. Apart from this, no other animal or plant species were found on site. Please see attached environmental assessment report for detailed information on existing environmental condition of the subject property.

Lastly, the proposed multifamily project is suitable for the additional density bonuses, as the site plan satisfies the City Code outlined under **Sec. 125.243** and **Sec. 125-236** and Future Land Use Comprehensive Plan, **Goal 1, Policy 1.1.7 and 1.1.8.** A brief justification letter explaining how this project contributes to the City's density bonus incentives was submitted to the Planning Director on 08/31/2021.

We look forward to discussing the project with you during the Technical Review Committee (TRC) meeting. If you have any questions or if you need additional information, please do not hesitate to contact me at dsorrow@cotleur-hearing.com or by calling 561-747-6336.

Sincerely,

Daniel T. Sorrow, AICP, RLA, LEED AP BD+C

Density Bonus Justification Letter

Ballarena Multifamily Site

Jennifer Hofmeister, Planning Director
City of Fort Pierce
Planning Department
100 North U.S.1
Fort Pierce, FL 34950

Re: Project Name: Ballarena Multifamily Site at 4701 Regina Dr.
Application Type: Ballarena Multifamily Site Plan
Parcel ID: 3403-501-0025-000-5
Justification: Density Bonus Justification for Ballarena MF Site
CH Project No: 21-0326

Dear Ms. Hofmeister,

On behalf of the applicant, Ballarena Construction, we are writing this letter to seek a density bonus for the Ballarena multifamily project located at 4701 Regina Dr. As mentioned in the pre-application narrative, the applicant proposes to build 114 multifamily residential units on a 9.57-acre parcel. The project site is currently vacant and is in the R-4 (medium density residential) zoning district with a future land use of RM (Residential Medium).

The applicant has attended a pre-application meeting with the city staff on the 8th of August 2021. Per our discussion with staff, the project site qualifies to acquire the density bonus. This letter provides a brief justification on how this project contributes to the innovative residential development initiative and fulfills the Future Land Use policy with respect to density bonus incentives.

As outlined under City Code **Sec**. **125-194(e)** and **Sec.125-243**, the permitted density for the project site is 12 units per acre, since the proposed development is considered innovative due to the mixed-use of townhomes and apartment buildings on site. Also, the proposed multifamily and townhomes units have been placed in a creative way around the existing 0.70-acre lake. Other bonus proposed features include a tot lot, picnic area, barbeque area, pool, office/gym, and garden area. All the proposed features intend to achieve a more creative and imaginative housing environment; thus the proposed project qualifies to increase the gross density up to one-half unit per acre per City Code outlined under **Sec.125-243(e).** Additionally, the proposed development is compatible with adjacent development and fulfill the City Code outlined under **Sec.125-243(h).**

1934 COMMERCE LANE • SUITE 1
JUPITER, FLORIDA • 33458
561.747.6336 561.747.1377

Furthermore, the project site is located within a one-fourth mile radius of a transit stop. Therefore, the applicant seeks to increase the maximum allowable density on site in exchange for in-kind support for the Future Land Use Element of the Comprehensive Plan, Goal 1, **Policy 1.1.7.** Per this policy, the City will allow a density bonus of five (5) dwelling units per acre above the maximum permitted density for developments located within one-fourth miles of a multimodal transit center or transit stop. Also, as outlined under City Code **Sec. 125-326 (a),** this project fulfills the purpose of the density bonuses. The multifamily project site is located within 0.6 miles (10 minutes of walkable distance) from the Wetherbee Elementary School. Living close to the school will increase the level of security and it will help residents to avoid unnecessary automobile trips and minimize traffic congestion during peak hours. Specifically, this project contributes to lower the cost of public services and promote a more sustainable community.

As mentioned above, the proposed multifamily project is suitable for the additional density bonuses, as the site plan satisfies the City Code outlined under **Sec. 125.243** and **Sec. 125-236** and Future Land Use Comprehensive Plan, **Goal 1, Policy 1.1.7** and **1.1.8.**

Lastly, due to the creative features of the proposed development and the site context, this project will contribute significantly to the City's Innovative Residential Development initiative.

We look forward to continue working with the City on this project and are available to answer any questions or concerns you may have at this time. Please let us know if you need any further information from us.

Sincerely,

City of Fort Pierce
Planning Department
100 N US Hwy 1
Fort Pierce, FL 34950

Re:	Project Name:	Ballarena Townhomes- 4701 Regina Drive
	City Project Number:	#21-07000032
	Application Description :	Site Plan application
	CH Project No.:	21-0326

- **Public Works**

1. Written response has not been provided with regards to preapplication comments dated August 2021 or TRC comments dated February 2022.
    a. If the access will be gated, County codes shall be followed.
        i. **Comment Response: The community will not be gated.**
    b. A five-foot (5') wide sidewalk is required along the property's Poinsettia Avenue frontage. The County may accept a fee-in-lieu of construction for the section west of the access.
        i. **Comment Response: A 40' ROW dedication shall be provided along Poinsettia Avenue in lieu of a 5' sidewalk.**
    c. Provide confirmation directly to the County of applicant reimbursement for a third-party review of the TIA. Upon confirmation, the report will be directed for review.
        i. **Comment Response: See attached confirmation provided for the TIA review.**
    d. Plans have not been prepared addressing preapplication comments dated August 9, 2021.
        i. **Comment Response: Please see plans reflecting updates to unresolved comments.**

2. County Land Development Codes state local road right-of-way width minimum for rural section as 70'. [Section 7.05.03] Dedication of ½ of the deficient width, 5 FT shall be provided from this site for Regina Drive.
    COMMENT RESPONSE: A 5' ROW dedication has been provided along the eastern boundary for Regina Drive.

1934 COMMERCE LANE • SUITE 1
JUPITER, FLORIDA • 33458
561.747.6336 561.747.1377

3. As required, sidewalks are to be provided along all property frontage of road right-of-way. Access to Regina does not dictate the need for a sidewalk or remove the criteria if no access is requested. Please depict a 5 FT sidewalk along Regina Drive. You may request a Fee-In-Lieu-Of construction. Staff may not support the request. We will coordinate with City staff and the school board.
COMMENT RESPONSE: A 5' sidewalk has been provided along Regina Drive.

4. Dimensions are not provided from the roadway to the sidewalk as drawn along Weatherbee Road. Proper clearance shall be provided. Please locate the sidewalk along the right-of-way line.
COMMENT RESPONSE: Please see site plan for provided dimensions.

5. The plans do not indicate the maintenance path to the lift station. This shall be from internal access. Separate access from Weatherbee shall be avoided.
COMMENT RESPONSE: Lift station access is provided internally from the 26' street.

6. Why is the buffer reduced between the dumpsters and adjacent single-family residences?
COMMENT RESPONSE: The dumpsters will be buffered from the single-family residences by a hedge row, groundcovers, and silver buttonwood trees. There is an additional 40-feet of property along Poinsettia Ave which further separates the homes south of Poinsettia Ave from the apartment community. The applicant is interested in proposing the additional 40' as reserved for future dedication.

7. The Traffic Report has not been reviewed as confirmation for third party payment had not been provided. Provide confirmation directly to the County of applicant reimbursement for a third-party review of the TIA. Upon confirmation, the report will be directed for review. Please coordinate with Kori Benton, AICP, SLC Planning Manager.
COMMENT RESPONSE: Confirmation has been provided for the TIA. See attached confirmation provided for the TIA review.

8. The plan does not appear to include street light(s) at the entrance. It is recommended that lighting be provided for the entrance that properly lights the sidewalk crossing.
COMMENT RESPONSE: The photometric plan meets the footcandle illumination level as set forth by City of Ft. Pierce land development regulations. The photometric plan takes into consideration entrance lighting without creating light pollution beyond our property lines.

9. For the County to accept the Poinsettia Avenue ROW as is, please provide written notice from emergency services (Fire Dept.) that a turn-a-round will not be required at the west end.
COMMENT RESPONSE: Please see attached confirmation from the Fire Marshall that the current access is sufficient for the project. The applicant is not proposing any changes to Poinsettia Avenue. No access is provided to or from the project to Poinsettia Avenue. Poinsettia Avenue will continue to operate in the same manner that currently exists.

- **Fort Pierce Engineering Department**

1. The site plan proposes a 10' Lake Maintenance Easement however there is no direct access to the lake. How will maintenance vehicles, equipment and machinery access the lake?

COMMENT RESPONSE: "On the south end of Apartment Banks #1 and #2 and north of Apartment Bank #3 there are 20' wide gaps between the buildings to allow for maintenance equipment to gain access to the stormwater system's wet pond. Ten foot (10') wide drainage easements will be provided over all drainage pipes to provide legal access in these areas."

ADVISORY COMMENTS:
At the time of DPCR application;

2. E. Weatherbee Road and Regina Drive are Saint Lucie County (SLC) roadways. A driveway connection permit shall be approved by SLC.
3. Saint Lucie County shall advise for turn lanes and any further roadway improvements along the E. Weatherbee Road right of way.
4. A permit shall be required to outfall to the North Saint Lucie River Water Control District (NSLRWCD) canal.
5. A South Florida Water Management District (SFWMD) permit shall be required.
6. The project shall have a Florida Fish and Wildlife Conservation Commission (FFWCC) Gopher Tortoise Permit in place prior to conducting any land clearing operations as the submitted Environmental Assessment indicates that gopher tortoise are present on the site.
7. The drainage plan was reviewed conceptually and will be reviewed in depth.
   COMMENT RESPONSE: Comments acknowledged.

- **St. Lucie Transportation Planning Organization**

1. Traffic Data: The Traffic Analysis utilizes traffic counts from 2019/20. The Traffic Analysis should be updated with the 2021 Traffic Counts.
   COMMENT RESPONSE: The analyses were not updated because both traffic count sets rely on 2020 data, so there would be no substantial differences between the analyses.

2. Missing Sidewalks: The Site Plan does not include sidewalks along Regina Drive and Poinsettia Avenue. Sidewalks should be provided along Weatherbee Road, Regina Drive, and Poinsettia Avenue for pedestrian safety and connectivity.
   COMMENT RESPONSE: A sidewalk has been provided along Weatherbee Road and Regina Drive. A 40' ROW dedication for future dedication is being proposed for Poinsettia Avenue. The 40' right of way is being proposed as a dedication to the county instead of providing the sidewalk within the current right of way limits.

1934 COMMERCE LANE • SUITE 1
JUPITER, FLORIDA • 33458
561.747.6336 561.747.1377

3. Street Design and Traffic Circulation and Safety: The interior roadways are designed and labeled as "streets" but function as parking lot aisles because of the adjacent perpendicular parking spaces which significantly increase potential vehicle conflicts. To improve traffic circulation and safety, the perpendicular parking spaces should be reconfigured or eliminated, or the townhomes should be redesigned with rear-loading garages so that the "streets" more appropriately function as alleys.
   COMMENT RESPONSE: 90-degree surface parking spaces along the north-south oriented streets have been replaced with parallel spaces and an adjacent tree lawn. Spaces have been removed from the southern most parking aisle and replaced with a dog park.

I trust that the answers to the comments included in this resubmittal are complete and will allow this project to be approved at the earliest possible date. Please contact this office with any questions you may have in your review of this information

Subject: Re: 407 Weatherbee Ballarena project access

Anna,

This layout will suffice as the entryway is wide enough with a divided median. Let me know if this will work for you. I have cc'd Lt. Andres Elizondo as he is the point of contact for site planning moving forward.

Thank you so much and stay safe,

Subject: 407 Weatherbee Ballarena project access

Good Morning Wayne,

I'm attached a copy of the last site plan that was submitted for the Ballarena project along Weatherbee Road. Can you provide a written notice of confirmation that we meet code for emergency services and do not require another access point for the project? The main loop is 26' wide across so there are 2 lanes going in and 2 lanes going out of the site. I've also attached a similar project (Verano casitas) where we used the same circulation pattern with a 26' wide street as a reference.

Thank you,

Anna Erickson, PLA, ASLA

These drawings are the property of the architect and are not to be used for extensions or on other projects except by agreement in writing with the architect. Immediately report any discrepancies to the architect.

LANDSCAPE NOTES

ALL PLANT MATERIAL SHALL BE FLORIDA NUMBER 1 OR BETTER AS DEFINED BY THE DIVISION OF PLANT INDUSTRY 'FLORIDA GRADES AND STANDARDS' LATEST EDITION.

ALL LANDSCAPE SHALL CONFORM TO THE REQUIREMENTS OF THE CITY OF FORT PIERCE LAND DEVELOPMENT REGULATIONS. THE CITY OF FORT PIERCE LANDSCAPE CODE (LDRs) SHALL GOVERN IN THE EVENT OF A CONFLICT.

VEGETATION REMOVAL PERMITS ARE REQUIRED PRIOR TO REMOVING, CLEARING OR STRIPPING ANY VEGETATION FROM THE PROPERTY.

AT THE TIME OF BUILDING PERMIT, THE APPLICANT SHALL EXECUTE HOLD HARMLESS AGREEMENTS WITH ALL APPLICABLE UTILITIES FOR LANDSCAPING WITHIN UTILITY EASEMENTS.

THE LANDSCAPE CONTRACTOR SHALL NOT MAKE ANY SUBSTITUTIONS AND/ OR CHANGES WITHOUT THE AUTHORIZATION OF THE CITY OF FORT PIERCE, THE OWNER AND THE LANDSCAPE ARCHITECT.

THE LANDSCAPE CONTRACTOR SHALL REVIEW THE PROJECT DRAINAGE AND UTILITY PLANS PRIOR TO CONSTRUCTION AND AVOID ALL CONFLICTS. THE LANDSCAPE CONTRACTOR SHALL VERIFY THE LOCATION OF ALL UNDERGROUND UTILITIES PRIOR TO COMMENCING WORK.

THE LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL PERMITS.

THE CONTRACTOR SHALL COORDINATE THE PLANTING AND TRIMMING OF STREET TREES TO ENSURE FULL VISIBILITY TO TRAFFIC CONTROL AND SAFETY SIGNAGE

TREES SHALL BE POSITIONED TO AVOID CONFLICTS WITH SIGNAGE AND SITE LIGHTING. LARGER TREES WILL BE PROVIDED AT INTERSECTIONS WHERE DEEMED NECESSARY.

ALL VEGETATION SHALL BE SELECTED AND POSITIONED SO THAT IT DOES NOT PRESENT OBSTRUCTIONS TO THE LINE OF SIGHT AT INTERSECTIONS PURSUANT TO SECTION 27-1262(a)(9)(c) OF THE CITY OF FORT PIERCE CODE.

ALL ABOVE GROUND UTILITIES I.E. TRANSFORMERS, SWITCH BOXES, AC CONDENSERS AND ALIKE SHALL BE FULLY SCREENED FROM VIEW ON THREE SIDES WITH LANDSCAPING. THE LANDSCAPING SHALL TO THE TALLEST POINT OF SAID EQUIPMENT AT TIME OF PLANTING.

ALL TREES SHALL BE LOCATED WITHIN A MULCH PLANTING BED WITH A MINIMUM OF TWO (2) FEET OF CLEARANCE TO THE EDGE OF THE BED.

SOD AND IRRIGATION SHALL BE INSTALLED IN ANY ADJACENT RIGHT OF WAY BETWEEN THE SIDEWALK AND THE CURB.

ALL SOD SHALL BE STENOTAPHRUM SECONDATUS FLORITAM-PALMETTO (ST. AUGUSTINE SOD).

TREES WITHIN PLANTING ISLANDS LESS THAN FIVE (5) FEET IN WIDTH SHALL BE LOCATED TO AVOID CONFLICTS WITH THE OVERHANG OF VEHICLES.

TYPE D RAISED CONCRETE CURBING SHALL BE PROVIDED AROUND ALL PLANTING ISLANDS WITHIN VEHICULAR USE AREAS.

TREES AT ENTRANCE WAYS AND WITHIN SIGHT TRIANGLES SHALL BE TRIMMED IN SUCH A FASHION TO MINIMIZE SITE VISIBILITY CONFLICTS. CLEAR VISIBILITY SHALL BE MAINTAINED BETWEEN 30 INCHES AND 7 FEET, TEN FOOT BY THIRTY FOOT SIGHT VISIBILITY TRIANGLES SHALL BE PROVIDED AT THE INTERSECTIONS WITH THE PUBLIC RIGHT OF WAY. IN ADDITION ALL LANDSCAPING SHALL CONFORM TO THE REQUIREMENTS OF FOOT INDEX 546.

EARTH BERMS SHALL NOT EXCEED A 3:1 SLOPE 4:1 SLOPES OR GREATER ARE PREFERABLE.

ALL TREES PLANTED UNDER OR ADJACENT TO FPL POWER LINES WILL COMPLY WITH THE FPL RIGHT TREE IN THE RIGHT PLACE GUIDELINES (REV 5/95)

PERIMETER TREES AT THE TIME OF PLANTING SHALL BE SPACED IN A WAY THAT COMPLEMENTS THE SPACING OF ANY EXISTING TREES ON ADJACENT DEVELOPED AREAS.

ALL LANDSCAPE ISLANDS AND BEDS SHALL BE FREE FROM SHELL ROCK AND CONSTRUCTION DEBRIS, EXCAVATED TO A DEPTH OF 30 INCHES OR TO CLEAN NATIVE SOILS AND FILLED WITH THE SPECIFIED BACKFILL MIXTURE.

ALL LANDSCAPE ISLANDS SHALL INCORPORATE THE INSTALLATION OF MOUNDING OF NATIVE SOILS A MINIMUM OF SIX INCHES (6") ABOVE THE TOP OF CURB.

19.5" 'BIO BARRIER' ROOT BARRIER SHALL BE PROVIDED FOR SHADE TREES PLANTED WITHIN SIX (6') FEET OF PUBLIC CURBS, SIDEWALKS OR PUBLIC RIGHT OF WAYS. ALL ROOT BARRIER SHALL BE INSTALLED IN ACCORDANCE WITH THE MANUFACTURES RECOMMENDATIONS. THE TOTAL LENGTH OF THE ROOT BARRIERS SHALL BE 20' ADJACENT TO THE SIDEWALK AND 20' ADJACENT TO THE CURB.

ALL AREAS SHALL BE FULLY IRRIGATED IN ACCORDANCE WITH THE REQUIREMENTS OF THE CITY OF FORT PIERCE. THE IRRIGATION WATER SOURCE SHALL BE WELL WATER FOR COMMON AREAS AND POTABLE WATER AROUND THE BUILDING FOUNDATION.

CATCH BASINS AND DRAINAGE SHALL NOT BE LOCATED WITH IN REQUIRED PERIMETER BUFFERS OR PRESERVE AREAS.

THE IRRIGATION SYSTEM SHALL BE DESIGNED TO PROVIDE 100% OVERLAP COVERAGE TO ALL LANDSCAPE AND SOD AREAS.

THE IRRIGATION SYSTEM SHALL BE EQUIPPED WITH A RAIN SENSOR/CUT OFF SWITCH IN ACCORDANCE WITH STATE AND LOCAL REQUIREMENTS.

EXISTING TREES AND VEGETATION TO REMAIN SHALL BE STAKED AND BARRICADED PRIOR TO ANY LAND CLEARING. TREES TO BE RELOCATED SHALL BE ROOT PRUNED AND PROTECTED DURING CONSTRUCTION.

ALL TREES PROPOSED TO BE PRESERVED ON SITE SHALL BE PROTECTED IN ACCORDANCE WITH THE PROCEDURES OUTLINED IN DIVISION IV., VEGETATION REMOVAL REQUIREMENTS IN THE CITY OF FORT PIERCE CODE PRIOR TO THE ISSUANCE OF A C.O.

ANY AREA DESIGNATED WITH EXISTING VEGETATION TO REMAIN THAT IS DISTURBED DURING CONSTRUCTION WILL BE RESTORED WITH NATIVE PLANTINGS.

EXISTING TREES PRESERVED OR RELOCATED ON SITE SHALL BE PRUNED ACCORDING TO ANSI A300 STANDARDS OR BY AN ISA CERTIFIED ARBORIST.

ALL EXISTING LANDSCAPING AND TREES TO REMAIN SHALL BE BARRICADED WITH ORANGE CONSTRUCTION BARRICADE. THE BARRICADE SHALL BE INSTALLED AT THE DRIP LINE OF THE TREE/PALM OR AT THE EDGE OF THE SHRUB MASS. BARRICADES SHALL REMAIN IN PLACE THROUGHOUT THE DURATION OF CONSTRUCTION.

EXISTING, SUITABLE NATIVE VEGETATION LOCATED WITHIN THE PROPOSED DEVELOPMENT AREAS SHALL BE RELOCATED TO SUPPLEMENT THE LANDSCAPING. NATIVE VEGETATION SHALL BE RELOCATED BY TREE SPADE OR CRANE. PRIOR TO THE CLEARING OF THE SITE THE APPLICANT SHALL IDENTIFY ALL NATIVE VEGETATION TO BE RELOCATED.

RELOCATION METHODOLOGY: EXISTING NATIVE VEGETATION DETERMINED TO BE SUITABLE FOR RELOCATION SHALL BE RELOCATED TO TARGET AREAS USING HYDROLOGIC TREE SPADES. THE SIZE OF SPADE SHALL VARY FROM 90" TO 45" DEPENDING ON THE SIZE AND TYPE OF VEGETATION TO BE MOVED. THE APPLICANT SHALL IDENTIFY PRIOR TO THE CLEARING OF THE SITE ALL EXISTING NATIVE VEGETATION TO BE RELOCATED. FOLLOWING RELOCATION, VEGETATION SHALL BE WATERED DAILY FOR A PERIOD NOT LESS THAN 90 DAYS AFTER WHICH IT SHALL BE WATERED ON AN AS NEED BASIS TO INSURE SURVIVAL. AT A MINIMUM THE APPLICANT SHALL INSURE 60% SURVIVAL FOR ALL RELOCATED PLANT MATERIAL.

MULCH - CYPRESS

LANDSCAPE SPECIFICATIONS

1. GENERAL LANDSCAPE REQUIREMENTS

LANDSCAPE CONTRACT WORK INCLUDES, BUT IS NOT LIMITED TO, SOIL PREPARATION, FINE OR FINISH GRADING, FURNISHING AND INSTALLING PLANT MATERIAL, WATERING, STAKING, GUYING AND MULCHING.

PLANT SIZE AND QUALITY

TREES, PALMS, SHRUBS, GROUNDCOVERS:
PLANT SPECIES AND SIZES SHALL CONFORM TO THOSE INDICATED ON THE DRAWINGS, NOMENCLATURE SHALL CONFORM TO STANDARD PLANT NAMES 1942 EDITION. ALL NURSERY STOCK SHALL BE IN ACCORDANCE WITH GRADES AND STANDARDS FOR NURSERY PLANTS PARTS I & II, LATEST EDITION PUBLISHED BY THE FLORIDA DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES, UNLESS SPECIFIED OTHERWISE. ALL PLANTS SHALL BE FLORIDA GRADE NUMBER 1 OR BETTER AS DETERMINED BY THE FLORIDA DIVISION OF PLANT INDUSTRY.

ALL CONTAINER GROWN MATERIAL SHALL BE HEALTHY, VIGOROUS, WELL-ROOTED PLANTS AND ESTABLISHED IN THE CONTAINER IN WHICH THEY ARE SOLD. THE PLANTS SHALL HAVE TOPS OF GOOD QUALITY AND BE IN A HEALTHY GROWING CONDITION.

AN ESTABLISHED CONTAINER GROWN PLANT SHALL BE TRANSPLANTED INTO A CONTAINER AND GROWN IN THAT CONTAINER SUFFICIENTLY LONG ENOUGH FOR THE NEW FIBROUS ROOTS TO HAVE DEVELOPED SO THAT THE ROOT MASS WILL RETAIN ITS SHAPE AND HOLD TOGETHER WHEN REMOVED FROM THE CONTAINER.

STANDARD PLANTING MIXTURE SHALL BE ONE (1) PART RECYCLED ORGANIC MATERIAL ADDED TO THREE (3) PARTS EXISTING NATIVE SOIL.

REPLACEMENT SOIL SHALL BE USED AS SPECIFIED TO REPLACE EXISTING SOILS THAT ARE DETERMINED BY THE LANDSCAPE ARCHITEC TO BE UNSUITABLE FOR PLANTING, IE. ROAD BASE, PAVEMENT, ETC. REPLACMENT SOIL MIX SHALL CONTAIN 60% SAND AND 40% MUCK. SAND SHALL BE 100% CLEAN NATIVE SAND SCREENED TO 1/4" AND MUCK SHALL BE 100% CLEAN ORGANIC NATIVE MUCK SCREENED TO 1/2". ALL SOIL SHALL BE MIXED PRIOR TO DELIVERY ON SITE.

MULCH SHALL BE SHREDDED MELALEUCA, EUCALYPTUS OR GRADE "A" RECYCLED. ALL MULCH IS TO BE APPLIED TO A DEPTH OF 3", EXCEPT AS OTHERWISE NOTED.

FERTILIZER IN BACKFILL MIXTURE FOR ALL PLANTS SHALL CONSIST OF MILORGANITE ACTIVATED SLUDGE MIXED WITH THE BACKFILL AT A RATE OF NOT LESS THAN 50 LBS. PER CUBIC YARD.

FERTILIZER FOR TREES AND SHRUBS MAY BE TABLET FORM OR GRANULAR. GRANULAR FERTILIZER SHALL BE UNIFORM IN COMPOSITION, DRY AND FREE-FLOWING. THIS FERTILIZER SHALL BE DELIVERED TO THE SITE IN THE ORIGINAL UNOPENED BAGS, EACH BEARING THE MANUFACTURER'S STATEMENT OF ANALYSIS, AND SHALL MEET THE FOLLOWING REQUIREMENTS: 16% NITROGEN, 2% PHOSPHORUS, 12% POTASSIUM, PLUS IRON. TABLET FERTILIZER (AGRIFORM OR EQUAL) IN 21 GRAM SIZE SHALL MEET THE FOLLOWING REQUIREMENTS: 20% NITROGEN, 10% PHOSPHORUS AND 5% POTASSIUM.

FERTILIZER WILL BE APPLIED AT THE FOLLOWING RATES:

PLANT SIZE	16-7-12	AGRIFORM TABLETS (21 GRAM)
1 GAL.	1/4 LB.	1
3 GAL.	1/3 LB.	3
7-15 GAL.	1/2 LB.	6
1"-6" CALIPER	2 LBS./1" CALIPER	2 PER 1" CALIPER
6" AND LARGER	3 LBS./1" CALIPER	2 PER 1" CALIPER

"FLORIDA EAST COAST PALM SPECIAL" SHALL BE APPLIED TO ALL PALMS AT INSTALLATION AT A RATE OF ½ LB. PER INCH OF TRUNK UNLESS OTHERWISE SPECIFIED.

FIELD GROWN TREES AND PALMS PREVIOUSLY ROOT PRUNED SHALL OBTAIN A ROOT BALL WITH SUFFICIENT ROOTS FOR CONTINUED GROWTH WITHOUT RESULTING SHOCK.

CONTRACTOR SHALL NOT MARK OR SCAR TRUNK IN ANY FASHION.

PLANTS SHALL BE WATERED AS NECESSARY OR WITHIN 24 HOURS AFTER NOTIFICATION BY THE LANDSCAPE ARCHITECT.

THE LOCATIONS OF PLANTS, AS SHOWN IN THESE PLANS, ARE APPROXIMATE. THE FINAL LOCATIONS MAY BE ADJUSTED TO ACCOMMODATE UNFORESEEN FIELD CONDITIONS. MAJOR ADJUSTMENTS TO THE LAYOUT ARE TO BE APPROVED BY THE LANDSCAPE ARCHITECT.

ALL PLASTIC FABRIC SHALL BE REMOVED FROM PLANT MATERIAL AT TIME OF INSTALLATION.

ALL TREES MUST BE STAKED AS SHOWN ON THE PLANTING DETAILS WITHIN 24 HOURS OF PLANTING. STAKES TO REMAIN FOR A MINIMUM OF 9 MONTHS, BUT NO LONGER THAN 18 MONTHS. CONTRACTOR IS RESPONSIBLE FOR MAINTENANCE AND REMOVAL OF THE STAKES.

ALL TREES MUST BE PRUNED AS PER LANDSCAPE ARCHITECT'S DIRECTION. SABAL PALMS MAY BE HURRICANE CUT.

ALL SHRUBS, TREES AND GROUND COVER WILL HAVE IMPROVED SOIL AS PER PLANTING SOIL NOTES. THE SOILS SHALL BE PLACED IN THE HOLE WITH HAND TROWEL PRESSING ONLY IS NOT ACCEPTABLE.

DO NOT ALLOW AIR POCKETS TO FORM WHEN BACKFILLING. ALL TREES SHALL BE SPIKED IN UTILIZING WATER AND A TREE BAR.

THE LANDSCAPE CONTRACTOR SHALL WATER, MULCH, WEED, PRUNE, AND OTHERWISE MAINTAIN ALL PLANTS, INCLUDING SOD, UNTIL COMPLETION OF CONTRACT OR ACCEPTANCE BY LANDSCAPE ARCHITECT. SETTLED PLANTS SHALL BE RESET TO PROPER GRADE, PLANTING SAUCERS RESTORED, AND DEFECTIVE WORK CORRECTED.

THE LANDSCAPE CONTRACTOR SHALL AT ALL TIMES KEEP THE PREMISES FREE FROM ACCUMULATION OF WASTE MATERIALS OR DEBRIS CAUSED BY HIS CREWS DURING THE PERFORMANCE OF THE WORK. UPON COMPLETION OF THE WORK, THE CONTRACTOR SHALL PROMPTLY REMOVE ALL WASTE MATERIALS, DEBRIS, UNUSED PLANT MATERIAL, EMPTY PLANT CONTAINERS AND ALL EQUIPMENT FROM THE PROJECT SITE.

UPON COMPLETION OF THE WORK, THE LANDSCAPE CONTRACTOR SHALL NOTIFY THE LANDSCAPE ARCHITECT AND REQUEST A FINAL INSPECTION. ANY ITEMS THAT ARE JUDGED INCOMPLETE OR UNACCEPTABLE BY THE LANDSCAPE ARCHITECT OR OWNER'S REPRESENTATIVE SHALL BE CORRECTED BY THE LANDSCAPE CONTRACTOR WITHIN 14 DAYS.

ALL LABOR AND MATERIAL FOR SOIL AMENDMENTS AND FERTILIZER THAT IS REQUIRED TO INSURE THE SUCCESSFUL ESTABLISHMENT AND SURVIVAL OF THE PROPOSED VEGETATION, AS WELL AS ALL THE COST FOR THE REMOVAL OF UNSUITABLE OR EXCESS BACKFILL MATERIAL, SHALL BE INCLUDED IN THE CONTRACTOR'S BID TO PERFORM THE WORK REPRESENTED IN THIS PLAN SET.

2. PLANTING TREES

EXCAVATE PIT AS PER PLANTING DETAILS.

BACKFILL AROUND BALL WITH STANDARD PLANTING MIXTURE AND SLIGHTLY COMPACT, WATER THOROUGHLY AS LAYERS ARE PLACED TO ELIMINATE VOIDS AND AIR POCKETS. BUILD A 6" HIGH BERM OF STANDARD PLANTING MIXTURE BEYOND EDGE OF EXCAVATION. APPLY 3" (AFTER SETTLEMENT) OF MULCH EXCEPT WITHIN 6" OF TRUNK.

PRUNE TREE TO REMOVE DAMAGED BRANCHES, IMPROVE NATURAL SHAPE AND THIN OUT STRUCTURE. DO NOT REMOVE MORE THAN 15% OF BRANCHES. DO NOT PRUNE BACK TERMINAL LEADER.

GUY AND STAKE TREE IN ACCORDANCE WIT THE STAKING DETAILS IMMEDIATELY AFTER PLANTING.

3. PLANTING SHRUBS

LAYOUT SHRUBS TO CREATE A CONTINUOUS SMOOTH FRONT LINE AND FILL IN BEHIND.

EXCAVATE PIT OR TRENCH TO 1-1/2 TIMES THE DIAMETER OF THE BALLS OR CONTAINERS OR 1'-0" WIDER THAN THE SPREAD OF ROOTS FOR POSITIONING AT PROPER HEIGHT. BACKFILL AROUND PLANTS WITH STANDARD PLANTING MIXTURE. COMPACTED TO ELIMINATE VOIDS AND AIR POCKETS. FORM GUAGE SLIGHTLY DISHED AND BERMED AT EDGES OF EXCAVATION. APPLY 3" OF MULCH EXCEPT WITHIN 3" OF STEMS.

PRUNE SHRUBS TO REMOVE DAMAGED BRANCHES, IMPROVE NATURAL SHAPE AND THIN OUT STRUCTURE. DO NOT REMOVE MORE THAN 15% OF BRANCHES.

4. PLANTING GROUND COVER

LOOSEN SUBGRADE TO DEPTH OF 4" IN AREAS WHERE TOPSOIL HAS BEEN STRIPPED AND SPREAD SMOOTH.

SPACE PLANTS AS OTHERWISE INDICATED. DIG HOLES LARGE ENOUGH TO ALLOW SPREADING OF ROOTS. COMPACT BACKFILLTO ELIMINATE VOIDS AND LEAVE GRADE SLIGHTLY DISHED AT EACH PLANT. WATER THOROUGHLY. APPLY 3" OF MULCH OVER ENTIRE PLANTING BED, LIFTING PLANT FOLIAGE ABOVE MULCH.

DURING PERIODS OF HOT SUN AND/OR WIND AT TIME OF PLANTING, PROVIDE PROTECTIVE COVER FOR SEVERAL DAYS OR AS NEEDED.

5. PLANTING LAWNS

SODDING: SOD TYPE SPECIFIED ON PLANT LIST SHALL BE MACHINE STRIPPED NOT MORE THAN 24 HOURS PRIOR TO LAYING.

LOOSEN SUBGRADE TO DEPTH OF 4" AND GRADE WITH TOPSOIL EITHER PROVIDED ON SITE OR IMPORTED STANDARD PLANTING MIX TO FINISH DESIGN ELEVATIONS. ROLL PREPARED LAWN SURFACE. WATER THOROUGHLY, BUT DO NOT CREATE MUDDY SOIL CONDITION.

FERTILIZE SOIL AT THE RATE OF APPROXIMATELY 10 LBS. PER 1,000 S.F. SPREAD FERTILIZER OVER THE AREA TO RECEIVE GRASS BY USING AN APPROVED DISTRIBUTION DEVICE CALIBRATED TO DISTRIBUTE THE APPROPRIATE QUANTITY. DO NOT FERTILIZE WHEN WIND VELOCITY EXCEEDS 15 M.P.H. THOROUGHLY MIX FERTILIZER INTO THE TOP 2" OF TOPSOIL.

LAY SOD STRIPS WITH TIGHT JOINTS, DO NOT OVERLAP. STAGGER STRIPS TO OFFSET JOINTS IN ADJACENT COURSES. WORK SIFTED STANDARD PLANTING MIXTURE INTO MINOR CRACKS BETWEEN PIECES OF SOD AND REMOVE EXCESS SOIL DEPOSITS FROM SODDED AREAS. SOD ON SLOPES GREATER THAN 3:1 SHALL BE STAKED IN PLACE. ROLL OR STAMP LIGHTLY AND WATER THOROUGHLY WITH A FINE SPRAY IMMEDIATELY AFTER PLANTING.

6. MISCELLANEOUS LANDSCAPE WORK

LANDSCAPE MAINTENANCE

MAINTAIN LANDSCAPE WORK UNTIL FINAL ACCEPTANCE IS ISSUED BY THE OWNER'S REPRESENTATIVE. INCLUDE WATERING, WEEDING, CULTIVATING, RESTORATION OF GRADE, MOWING AND TRIMMING GRASS, PRUNING TREES AND SHRUBS, PROTECTION FROM INSECTS AND DISEASES, REFILLING AND SIMILAR OPERATIONS AS NEEDED TO INSURE NORMAL GROWTH AND GOOD HEALTH FOR LIVE PLANT MATERIAL.

PLANT MATERIAL SUBSTITUTION

NO SUBSTITUTION OF PLANT MATERIAL, TYPE OR SIZES WILL BE PERMITTED WITHOUT AUTHORIZATION FROM THE LANDSCAPE ARCHITECT.

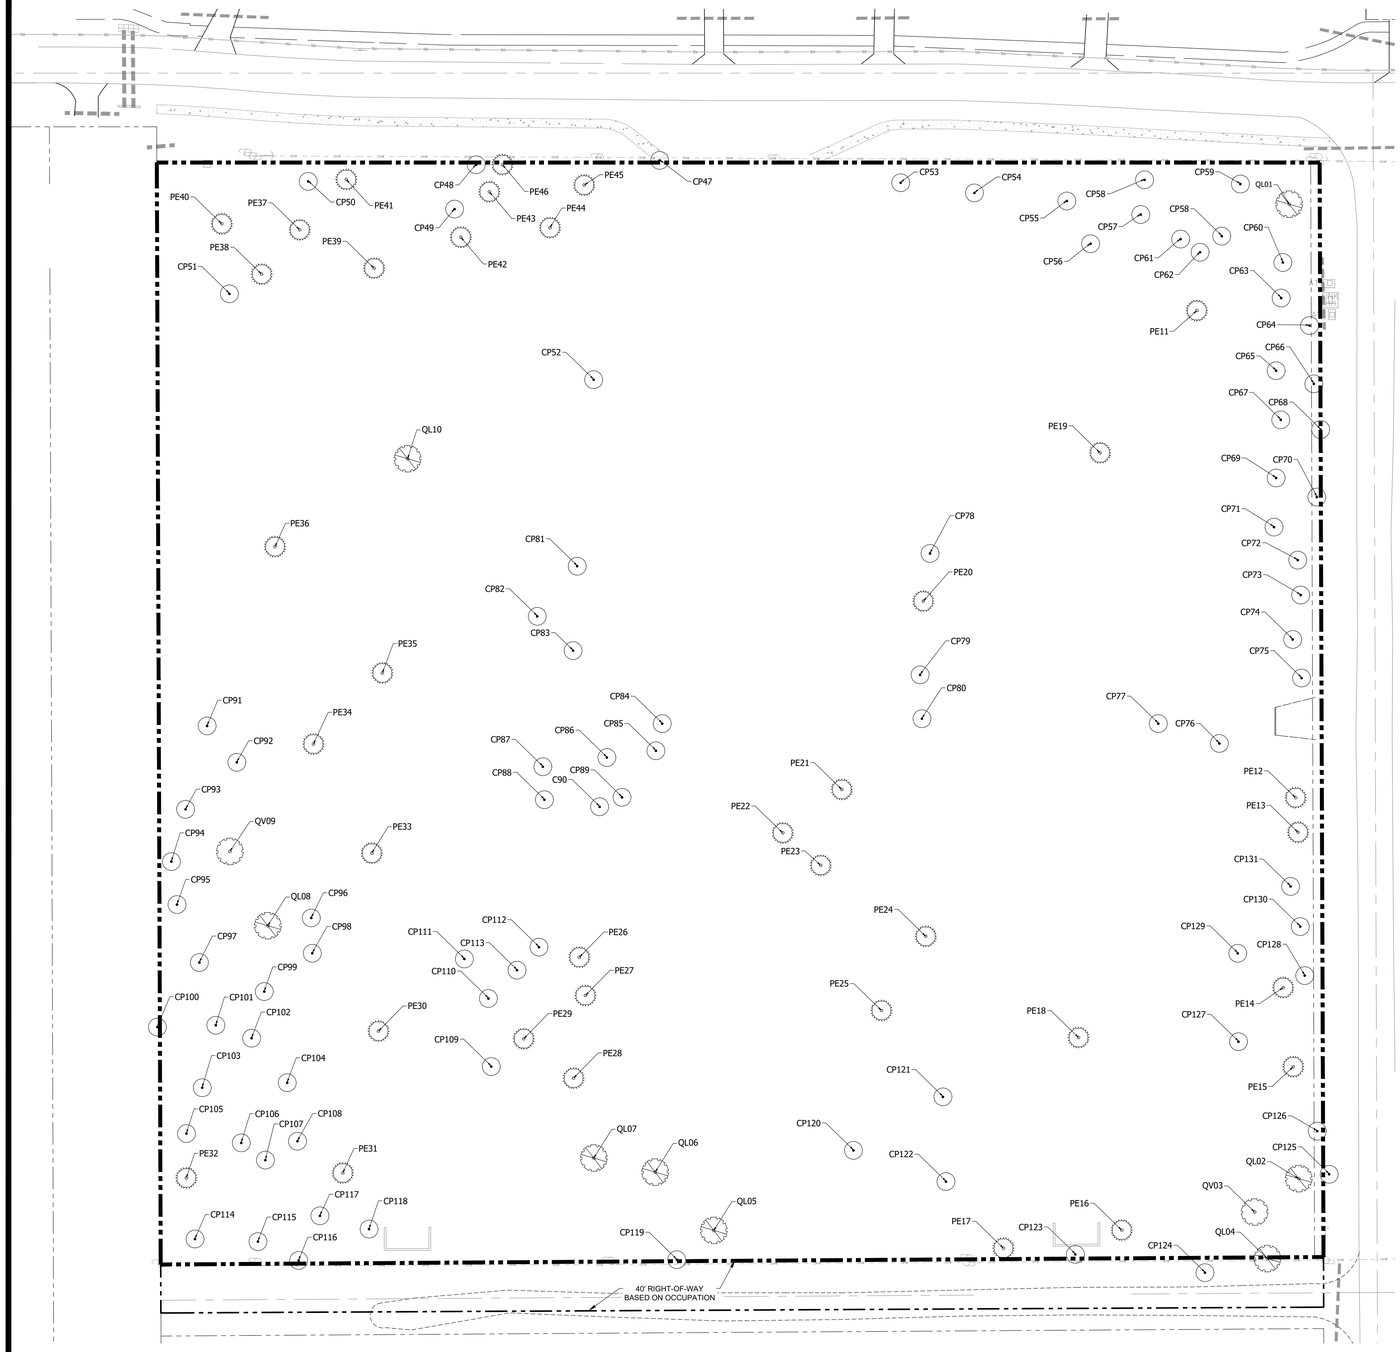

PLANTING BED PREPARATION

ALL PLANTING BEDS SHALL BE PROPERLY PREPARED PRIOR TO THE COMMENCEMENT OF ANY PLANTING. PLANTING AREAS, INCLUDING LAWNS SHALL BE FREE OF ALL WEEDS AND NUISANCE VEGETATION. IF TORPEDO GRASS (PANICUM REPENS) IS PRESENT OR ENCOUNTERED DURING PLANTING, THE LANDSCAPE CONTRACTOR SHALL STOP ALL PLANTING UNTIL IT CAN BE DEMONSTRATED THAT IT HAS BEEN COMPLETELY REMOVED OR ERADICATED. THERE SHALL BE NO EXCEPTIONS TO THIS PROVISION.

ALL LANDSCAPE ISLANDS AND BEDS WILL BE FREE OF SHELL ROCK AND CONSTRUCTION DEBRIS AND WILL BE EXCAVATED TO A DEPTH OF 30 INCHES OR TO CLEAN, NATIVE SOIL AND FILLED WITH THE SPECIFIED REPLACEMENT SOIL.

LANDSCAPE WARRANTY

THE LANDSCAPE CONTRACTOR SHALL GUARANTEE ALL PLANT MATERIAL FOR A PERIOD OF SIX (6) MONTHS FROM THE DATE OF CONDITIONAL ACCEPTANCE IN WRITING

Dear Mr. Ballarena,

EDC, Inc. (EDC) has completed this Environmental Assessment (EA) for the above referenced property. The purpose of this evaluation was to conduct a review of the above listed parcels by means of site visit, review of available aerial photography, listed species review, review of soil resources, and review of environmental regulations pertaining to this parcel.

The following report details the findings of our on-site and desktop investigations of the properties as they pertain to the City of Fort Pierce developmental review regulations.

Please contact the undersigned if you have any questions regarding this report.

Respectfully submitted,
EDC, Inc.

Madison Quinones, BS
Field Biologist

Prepared By:
EDC, Inc.
10250 SW Village Parkway
Port St Lucie, Florida 34987
(772) 223-5200

The subject property evaluated as part of this Environmental Assessment consists of one tax parcel (Parcel ID # 3403-501-0025-000-5) comprised of 9.00 acres. The property is classified by the St. Lucie County Property Appraiser as Vacant Residential (land use code 0000) and is located within the Future Land Use and Zoning Designation of Medium Density Residential (RM and R-4). The subject property is located off the southwest corner of E Weatherbee Road and Regina Drive in Fort Pierce, Florida. The subject property is further located within Section 03, Township 36 South, and Range 40 East.

This environmental assessment was completed as a precursor to permitting and review by governmental agencies as an applicable document for the supporting information associated with a building permit or land development application. EDC, Inc. staff visited the property on June 2, 2021 in order to ascertain the status and composition of any critical habitats, such as wetlands and native uplands that may be onsite.

VEGETATION:

It is the opinion of EDC that there is no native upland habitat located on site. The upland habitat consisted of the following FLUCCS (Florida Land Use & Cover Classification System) code; Urban Land in transition without positive indicators of intended activity (193). It is important to note that there is native vegetation present, but the native vegetation does not have significant associations and is therefore not considered to be native habitat. Significant exotic vegetation associations were found along the canal adjoining the western property boundary and along Poinsettia Avenue adjoining the southern property boundary. In addition, the understory of the subject property has been cleared and maintained. The following table lists a representative sample of vegetative species observed during the site visit:

Common Name	Species Name
Cabbage Palm	*Sabal Palmetto*
Wax Myrtle	*Myrica cerifera*
Slash Pine	*Pinus elliottii var. densa*
Saw Palmetto	*Serenoa repens*
Live Oak	*Quercus virginiana*
St. Augustine Grass	*Stenotaphrum secundatum*
Fakahatchee Grass	*Tripsacum dactyloides*
Elderberry	*Sambucus nigra (subsp.) canadensis*
Common Cattail	*Typha latifolia*
Grapevine*	*Vitis rotundifolia*
Dog Fennel*	*Eupatorium capillifolium*
Brazilian Pepper**	*Schinus terebinthifolia*
Earleaf Acacia**	*Acacia auriculiformis*
Cogongrass**	*Imperata cylindrica*
Rosary Pea**	*Abrus precatorius*
Creeping Oxeye**	*Sphagneticola trilobata*
Johnson Grass**	*Sorghum halepense*
Caesar Weed**	*Urena lobata*
Carrotwood**	*Cupaniopsis anacardioides*
Old World Climbing Fern**	*Lygodium microphyllum*
Air Potato**	*Dioscorea bulbifera*

***Nuisance Vegetation**
****Exotic/Invasive Vegetation**

WETLAND DELINEATION:

According to aerial photographs and site visit, it appears that there are no State jurisdictional wetlands on site. Based on the State definition, a wetland consists of three components: 1) hydric soils, 2) wetland plants, and 3) hydrologic indicators. None of these components were found during the field reconnaissance on the property. However, there is a lake less than 10 acres in size located off the center of the northern property boundary of the subject property. The lake was excavated around 1994 according to Google Earth aerial images.

Please refer to the attached Florida Land Use and Cover Classification System (FLUCCS) map for the approximate location of the habitats identified onsite.

WILDLIFE EVALUATION:

EDC, Inc. conducted a pedestrian survey throughout the property to investigate for the presence of any plant or animal State/Federally listed species. Potentially occupied gopher tortoise (*Gopherus polyphemus*) burrows were observed on site. Prior to any land clearing activities, a Florida Fish and Wildlife Conservation Commission (FFWCC) Gopher Tortoise Permit obtained by an Authorized Gopher Tortoise Agent, is required to relocate the tortoises. Please refer to attached site maps for location of identified gopher tortoise burrows. Each burrow was marked in the field with orange flagging. Please note that a 100% Gopher Tortoise Survey was not conducted during the site reconnaissance and will be required to obtain the relocation permit.

No other listed animal or plant species were observed on site.

SOIL COMPOSITION:

Based on a review of the U.S. Department of Agriculture (USDA) Web Soil Survey the subject property is composed of:

Ankona and Farmton sands – The Ankona and Farmton series consist of very deep, very poorly drained, slowly permeable soils. These sands formed in sandy and loamy marine sediments. A water table is within depths of 6 to 18 inches for 1 to 4 months, primarily in the winter and early spring and it is at depths of 18 to 40 inches for 6 months or more during the rest of the year in most years. Ankona and Farmton soils are found in broad flats and depressional areas. Typical vegetation consists of longleaf pine, slash pine, saw palmetto, wax myrtle, gallberry, fetterbush, creeping bluestem, chalky bluestem, lopsided Indian grass, low panicums and pineland threeawn. Depressional areas are dominated by marsh vegetation consisting of maidencane, cutgrass, sand cordgrass, and St. John's wort.

Riviera sand, frequently ponded, 0 to 2% slopes – This poorly drained, nearly level soil is found in hammocks and along drainage ways. The surface layer is dark gray brown fine sand about 5 inches thick. The soil has a water table at a depth of less than 10 inches for 2 to 4 months in most years and at a depth of 10 to 30 inches for most of the rest of the year. Permeability is rapid in the surface and subsurface layers and is slow to very slow in the subsoil, and rapid in the substratum. Natural vegetation includes cabbage palms and scattered longleaf pine and slash pine and an understory of wax myrtle and saw palmetto. The most common native grasses are pineland threeawn and blue maidencane. Broom sedges, creeping bluestem, paspalum, sand cordgrass and panicums are typical grasses for this soil.

Waveland sand – This is a nearly level, poorly drained soil found in broad open areas of the flatwoods. The natural vegetation associated with this soil type is slash pine and an understory of saw palmetto, gallberry, fetterbush, running oak, and dwarf huckleberry. Grasses are pineland threeawn, bluestem and panicum. Typically, the surface layer is dark gray sand with a

light gray and grayish brown subsurface layer. Under natural conditions, this soil is not suited to cultivate crops or for pasture because of ponding. However, if intensive management, soil improving measures and a good water control system are implemented, the soil is suitable for vegetable crops and pasture.

Immokalee fine sand – This is a poorly drained soil is found in broad areas of flatwoods. Typically the surface layer is very dark gray fine sand about 6 inches thick. The subsurface layer extends to a depth of 35 inches and is fine sand. The seasonal high water table in Immokalee soil is at a depth of 6 to 8 inches from June through September. During the remainder of the year it is typically at a depth of 18 to 40 inches. Natural vegetation consists of slash pine and scattered oak with an understory of saw palmetto, gallberry, fetterbush, pineland threeawn, chalky bluestem, and Indian grass. This soil is poorly suited for crops and citrus. Water control measures are needed to overcome excessive wetness.

SITE HISTORY:

After reviewing aerial images provided by Google Earth and the St. Lucie County Property Appraiser, the lake located onsite was excavated around 1994. During the same time period, large clearings are evident in the 1994 aerial in the northwest and southeast corners of the property as well as smaller clearings evident throughout the site. From 1994 to the present, additional clearing of the site has occurred and the understory has been cleared and maintained.

CITY OF FORT PIERCE REGULATIONS:

The following lists the City of Fort Pierce Code of Ordinances that pertain to the subject property. As part of the local approval process, the applicant will be required to comply with the below items.

Section 123-64: *No person shall remove a protected tree situated on land within the city, without first obtaining a tree removal permit. Any native tree at least 14 inches in DBH and palms which have a minimum clear trunk (CT) of 10 feet, shall be preserved and protected (**Sec. 123-66**).*

Protected trees, as described above, were identified on site. A tree removal permit and associated tree survey will be required prior to the clearing and development of land.

Section 123-66.d: *Mitigation is required for the loss of protected trees via onsite preservation, relocating, or replanting and shall exceed the minimum landscape requirements. In addition, replacement trees shall be replaced at a ratio of one inch DBH for each inch of DBH removed. If onsite mitigation is not suitable for project development, the applicant may, with city approval, contribute monies in satisfaction of the applicant's mitigation requirement of which will be placed in a fund entitled the City of Fort Pierce Tree Preservation Funds.*

This site will require a tree mitigation plan as part of the building permit or land development application process due to the existence of protected trees located on site.

SUMMARY:

The subject property evaluated as part of this Environmental Assessment consists of one tax parcel (Parcel ID # 3403-501-0025-000-5) comprised of 9.00 acres. The property is classified by the St. Lucie County Property Appraiser as Vacant Residential (land use code 0000) and is located within the Future Land Use and Zoning Designation of Medium Density Residential (RM and R-4). The subject property is located off the southwest corner of E Weatherbee Road and Regina Drive in Fort Pierce, Florida. The subject property is further located within Section 03, Township 36 South, and Range 40 East.

It is the professional opinion of EDC that no native upland or wetland habitats are located on site. However, protected trees (any native tree with at least 14 inches DBH and/or palm with a minimum CT of 10 feet) were observed on site and a tree removal permit, and associated tree survey, will be required prior to the clearing and development of land. This will also require the submittal of a tree mitigation plan as part of the building permit or land development application process.

Lastly, evidence of the listed species gopher tortoise (*Gopherus polyphemus*), was observed during the site reconnaissance. Prior to any land clearing activities, a Florida Fish and Wildlife Conservation Commission (FFWCC) Gopher Tortoise Permit obtained by an Authorized Gopher Tortoise Agent, is required to relocate the tortoises. Please refer to the attached site maps for location of identified gopher tortoise burrows. Each burrow was marked in the field with orange flagging. Please note that a 100% Gopher Tortoise Survey was not conducted during the site reconnaissance and will be required to obtain the relocation permit.

SURVEYORS NOTES AND REPORT:

1. REPRODUCTIONS OF THIS MAP ARE NOT VALID WITHOUT THE SIGNATURE AND ORIGINAL RAISED SEAL OF A FLORIDA LICENSED SURVEYOR AND MAPPER. THIS SURVEY CANNOT BE TRANSFERRED OR ASSIGNED WITHOUT THE SPECIFIC WRITTEN PERMISSION OF ENGINEERING, DESIGN AND CONSTRUCTION, INC. IT IS A VIOLATION OF CHAPTER 5J–17, FLORIDA ADMINISTRATIVE CODE, TO ALTER THIS SURVEY WITHOUT THE EXPRESS PRIOR WRITTEN CONSENT OF THE SURVEYOR. ADDITIONS AND/OR DELETIONS MADE TO THE FACE OF THIS SURVEY WILL MAKE THIS SURVEY INVALID.
2. THE LAST DATE OF FIELD WORK WAS JUNE 16TH, 2021.
3. CURRENT DESCRIPTION(S) SHOWN HEREON PROVIDED BY: THE CLIENT. A TITLE SEARCH FOR THIS PROPERTY HAS NOT BEEN ABSTRACTED TO SHOW MATTERS OF RECORD SUCH AS EASEMENTS OR OTHER ENCUMBRANCES OR RESTRICTIONS.
4. PARCELS CONTAIN A TOTAL OF 9.574 ACRES, MORE OR LESS.
5. THE EXPECTED USE OF THE LAND, AS CLASSIFIED IN CHAPTER 5J–17.050–053, FLORIDA ADMINISTRATIVE CODE, IS "RESIDENTIAL/MEDIUM DENSITY." THE MINIMUM RELATIVE DISTANCE ACCURACY FOR THIS TYPE OF BOUNDARY SURVEY IS 1 FOOT IN 10,000 FEET. THIS SURVEY EXCEEDS THE REQUIRED DISTANCE ACCURACY.
6. THIS BOUNDARY SURVEY HAS BEEN REFERENCED TO THE FLORIDA STATE PLANE COORDINATE SYSTEM–EAST ZONE, NAD 83 (1990).
7. SUB–SURFACE IMPROVEMENTS INCLUDING UNDERGROUND UTILITIES, UTILITY SERVICES, WERE NOT LOCATED AS PART OF THIS SURVEY.
8. REVISIONS SHOWN HEREON DO NOT REPRESENT A "FIELD SURVEY UPDATE" UNLESS OTHERWISE NOTED.
9. BEARINGS SHOWN HERON ARE BASED UPON THE NORTH LINE OF SECTION 3, TOWNSHIP 36 SOUTH, RANGE 40 EAST, ST. LUCIE COUNTY, FLORIDA PER THE LINE LABELED HERON AS (BEARING BASIS) AND ALL OTHER BEARINGS ARE RELATIVE THERETO. DISTANCES ARE IN U.S. SURVEY FEET AND DECIMAL PARTS THEREOF.
10. ELEVATIONS SHOWN HEREON ARE RELATIVE TO THE NORTH AMERICAN VERTICAL DATUM OF 1988 (NAVD88) AND ARE BASED ON NATIONAL GEODETIC SURVEY CONTROL MONUMENTS DESIGNATED "Y 403" AND "Z 403", HAVING PUBLISHED ELEVATIONS OF 13.45 FEET AND 14.98 FEET.
11. THIS SITE WAS SURVEYED UTILIZING TRIMBLE/SPRECTRA HARDWARE TOGETHER WITH SPECTRA SURVEY PRO REALTIME PROCESSING AND WAS BASED ON TRIMBLES "VRS NOW" NETWORK AND/OR THE FLORIDA PERMANENT REFERENCE NETWORK (FPRN). THE PROCEDURES AND NETWORK DESIGN MEETS THE GEODETIC ACCURACY STANDARDS AND SPECIFICATIONS FOR USING GPS RELATED POSITIONING AS SET FORTH BY THE FEDERAL GEODETIC CONTROL COMMITTEE IN THE MOST CURRENT PUBLICATION FOR 3RD ORDER CLASS ONE FOR HORIZONTAL CONTROL SURVEYS.
12. IN SOME INSTANCES, GRAPHIC REPRESENTATIONS AND SYMBOLS SHOWN HAVE BEEN EXAGGERATED TO MORE CLEARLY ILLUSTRATE THE RELATIONSHIP BETWEEN PHYSICAL IMPROVEMENTS AND/OR LOT LINES. THE DIMENSIONS SHOWN SHALL CONTROL THE LOCATION, OF THE IMPROVEMENTS, OVER THE SCALED POSITIONS.
13. THE OWNERSHIP OF PERIMETER FENCES, WALLS, HEDGES AND LANDSCAPING, IF ANY, SHOWN HEREON ARE NOT KNOWN AND ARE NOT LISTED AS ENCROACHMENTS. THEIR RELATIVE LOCATION IS SHOWN IN RELATION TO THE BOUNDARY LINES SHOWN.
14. THE SURVEY MAP SHOWN HEREON DOES NOT NECESSARILY CONTAIN ALL OF THE INFORMATION OBTAINED OR DEVELOPED BY THE UNDERSIGNED SURVEYOR IN HIS FIELD WORK, OFFICE WORK OR RESEARCH.
15. THE PROPERTY WHICH IS THE SUBJECT OF THIS SURVEY APPEARS TO BE SITUATE IN AN AREA OF MINIMAL FLOOD HAZARD AT THIS TIME PURSUANT TO F.E.M.A. FIRM NUMBER 12111C0189K, HAVING AN EFFECTIVE DATE OF FEBRUARY 19, 2020. FOR APPROXIMATE DELINEATION OF THE FLOOD ZONE LIMITS, REFER TO AFOREMENTIONED FIRM PANELS.

Re: 407 E. Weatherbee, Fort Pierce FL

Dear Mr. Ballarena:

O'Rourke Engineering & Planning has completed the analysis of the proposed development located on Weatherbee Road west of Regina Drive and north of Poinsettia Avenue in Ft. Pierce, St. Lucie County, Florida. The steps in the analysis and the ensuing results are presented herein.

It has been a pleasure working with you. If you have any questions or comments, please give me a call.

Respectfully submitted,

O'Rourke Engineering & Planning

Susan E. O'Rourke, P.E.

INTRODUCTION

O'Rourke Engineering & Planning was retained to prepare a traffic analysis for the proposed 407 E. Weatherbee development located on Weatherbee Road, north of Poinsettia Avenue, west of Regina Drive in Ft. Pierce, St. Lucie County, Florida. The project takes access from a full access driveway on Weatherbee Road. The purpose of this report is to determine the project's impact on the surrounding roadway system and its compliance with concurrency requirements.

In order to make the determination, the following analytical steps were taken:

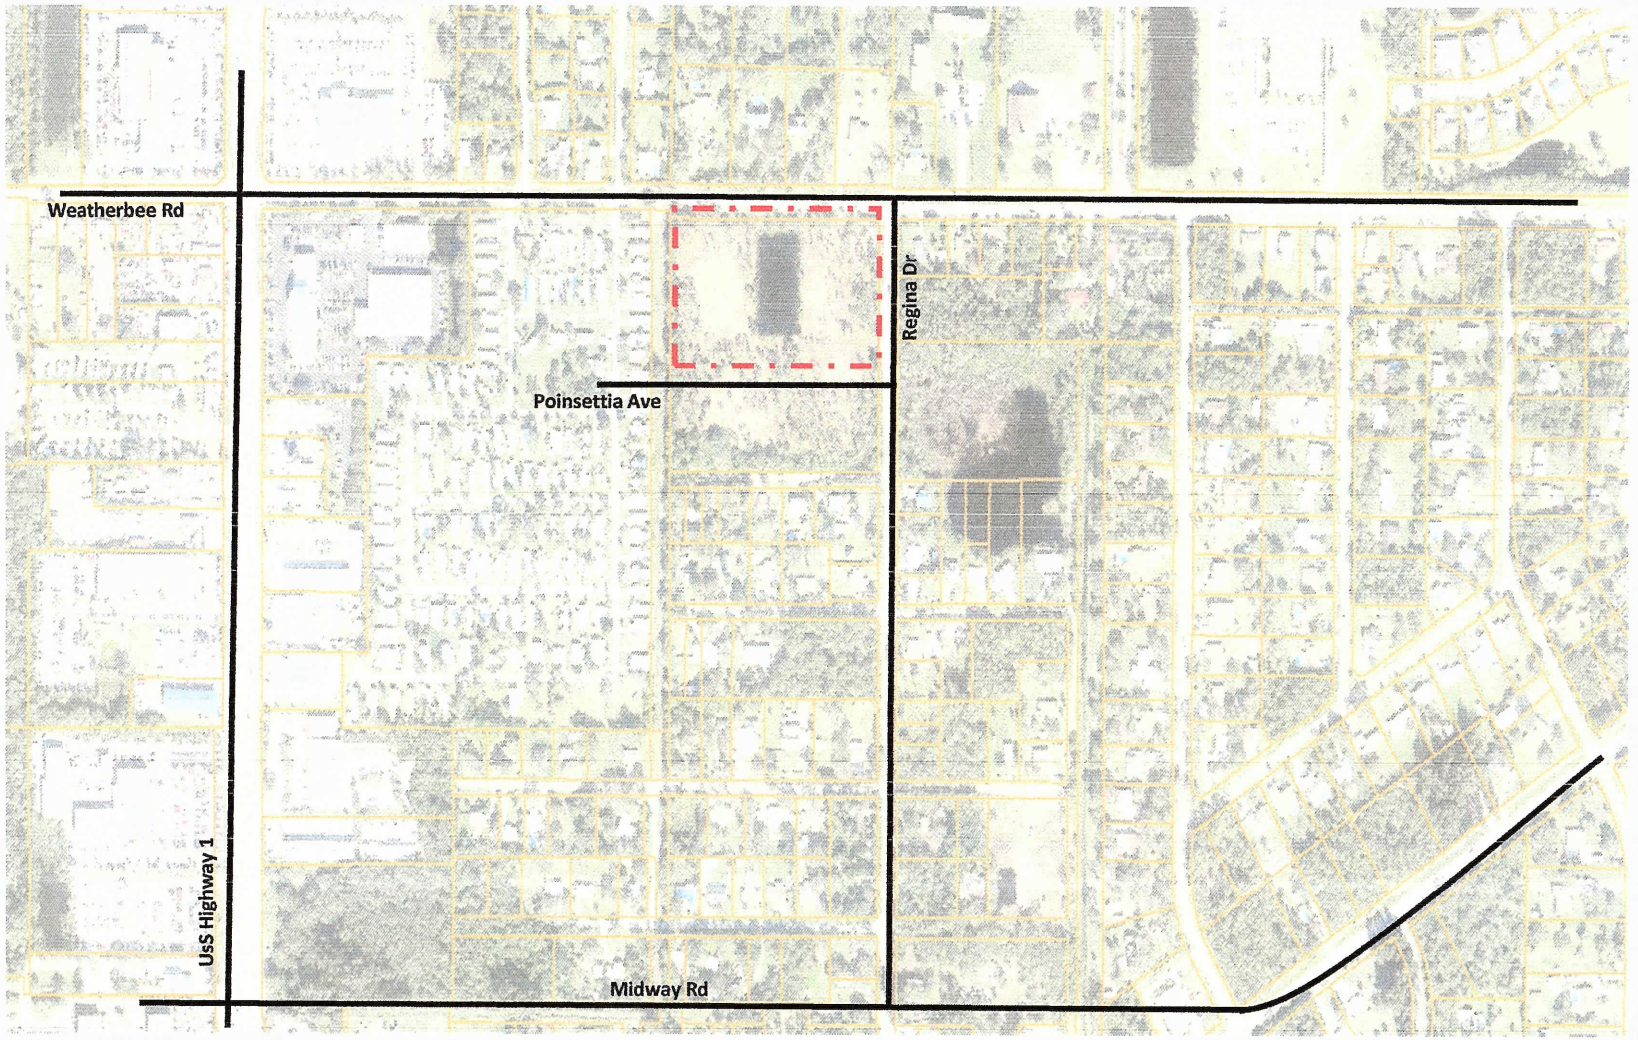

- summary of the project
- summary of existing lane geometrics
- summary of the existing traffic volumes
- assessment of project traffic
- determination of study area
- assignment other traffic plus growth
- evaluation of total traffic

Each of these steps is outlined herein.

PROJECT DESCRIPTION

The 407 E. Weatherbee development proposes 114 Low Rise multi-family units. The project is expected to be completed in 2025. The site is currently vacant. The project's general location is shown in **Figure 1**.

Appendix A includes a site plan of the project.

NTS O'ROURKE ENGINEERING & PLANNING 22 SE Seminole Street Stuart, Fl, 34994 Job Number: SR21062.0 | Date: 10/13/2022	Legend = Site Location	Figure 1 Project Location 407 E. Weatherbee

EXISTING CONDITIONS

The study area is defined as the roadways upon which the project has an impact of 3% of the level of service capacity of the roadway and 1% on the adjacent link. Once the project traffic was assigned, the study area was refined based on the impact percentages.

The study area roadways were defined in terms of existing lane geometrics and existing traffic volumes.

Existing Lane Geometrics and Traffic Control

The study area was reviewed to determine the existing number and type of lanes, and the traffic control along the roadway. Each roadway is described below.

- Weatherbee Road is a two-lane urban collector with a general east/ west alignment.
- US Highway 1 is a four-lane urban principal arterial with a north/south alignment.
- Regina Drive is a two-lane local roadway with a north/south alignment.
- Midway Road is a two-lane urban minor arterial roadway with an east/west alignment.

Existing Traffic Volumes/ Service Volume

Traffic volumes were obtained from the St. Lucie County TPO and FDOT. The count data along with the number of lanes and the associated peak hour/peak direction service volumes will be summarized in the upcoming sections of the report. The service volumes were developed based on the functional classification contained in the County Comprehensive Plan and the St. Lucie County Traffic Counts and Level of Service Report. The 2020 FDOT Quality Level of Service was used to augment data included in the St. Lucie TPO 2022 Level of Service Report. These documents are included in **Appendix B.**

PROJECT TRAFFIC

To estimate traffic generated by the development, the ITE Trip Generation, 10th Edition trip rates for Multi Family (Land Use Code 220) were applied to estimate the trips generated by the proposed development. These calculations are shown in **Tables 1a, 1b, and 1c**.

As shown, the project will generate 806 new daily trips. There will be 58 AM peak hour trips with 14 entering the project and 44 trips exiting the project. The project will generate 70 new PM peak hour trips. There will be 44 trips entering the project and 26 trips exiting the project in the PM peak hour.

Table 1A - Trip Generation - Daily

Land Use	ITE Code	Intensity	Units	Trip Generation Rate	Directional Split		Gross Trips

Total							**44**	**26**	**70**

Source: Trip Generation Manual 11th Edition

PROJECT DISTRIBUTION/ ASSIGNMENT/IMPACT

The project traffic was distributed by general geographic direction and then assigned to the roadway network.

Distribution/ Assignment – This general distribution led to an assignment of trips based on the anticipated ultimate destinations and the roadway paths used to reach those destinations. The project assignment is shown in **Figure 2.**

Impact – Tables 2a and 2b summarize the project impact as a percent of service volume capacity. Significant is defined as 1% or more on an adjacent link and 3% or more on all other links. As shown, the project is significant on E. Weatherbee Road.

OTHER PROJECT TRAFFIC/GROWTH RATE

Existing traffic volumes on Weatherbee Road were grown using a 3-year historical growth rate. The historical growth rate was calculated as 0.57% using the historical AADT from FDOT Florida Traffic Online from 2018 to 2021. Therefore, a minimum growth rate of 1% was applied to the analysis. Fort Pierce planners indicated an expansion to the Gator Acres residential development is proposed. The application and traffic analysis have not yet been submitted. However, it is expected there is sufficient capacity on Weatherbee Road to accommodate the expansion. Additionally, there is a proposed self-storage warehouse being proposed in the vicinity of the project. The trips associated with this project were included as committed trips in the analysis.

Details of the background traffic are included in **Appendix C**.

LINK ANALYSIS / REVIEW

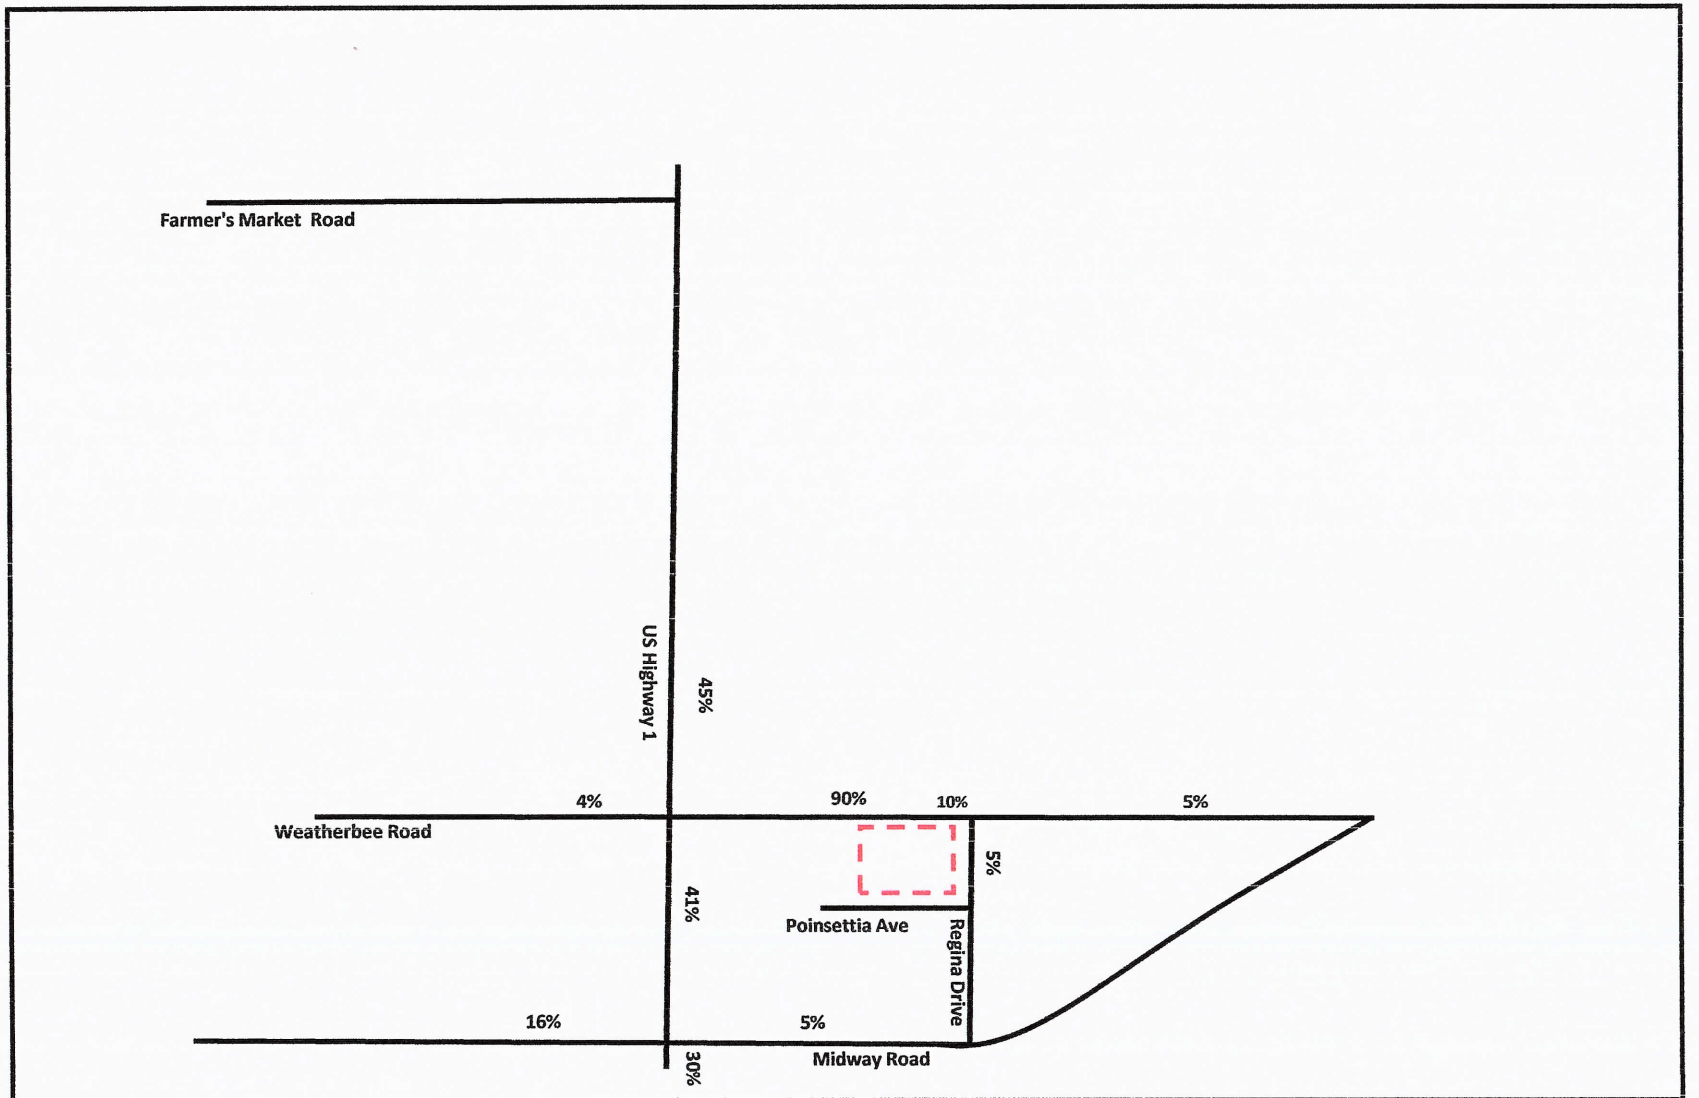

The adjacent link of Weatherbee Road was analyzed further to ensure it will meet concurrency. **Tables 3a and 3b** summarize the results of the link analysis. As shown, all roadways will operate at acceptable levels of service at project buildout.

INTERSECTION ANALYSIS

The intersection of US Highway 1 at W. Weatherbee Road was analyzed for the AM and PM peak hours. A turning movement count was conducted at the intersection on June 29, 2021. A peak season factor of 1.09 was applied to the count, which is the average of the seasonal factor east of US 1 and west of US 1. Project traffic and background growth were then added. These total traffic volumes were then analyzed with HCS.

The intersection will operate at Level of Service C in the AM and PM peak hours at project build out.

The intersection data is shown in **Appendix D.**

DRIVEWAY ANALYSIS

The project will have one driveway. Driveway 1 will be a full access driveway on E. Weatherbee Road. **Figure 3** shows the driveway volumes for the AM and PM peak hours. Driveway 1 and Weatherbee Road were analyzed using HCS. The analysis shows the driveway will operate at an acceptable Level of Service B at project buildout.

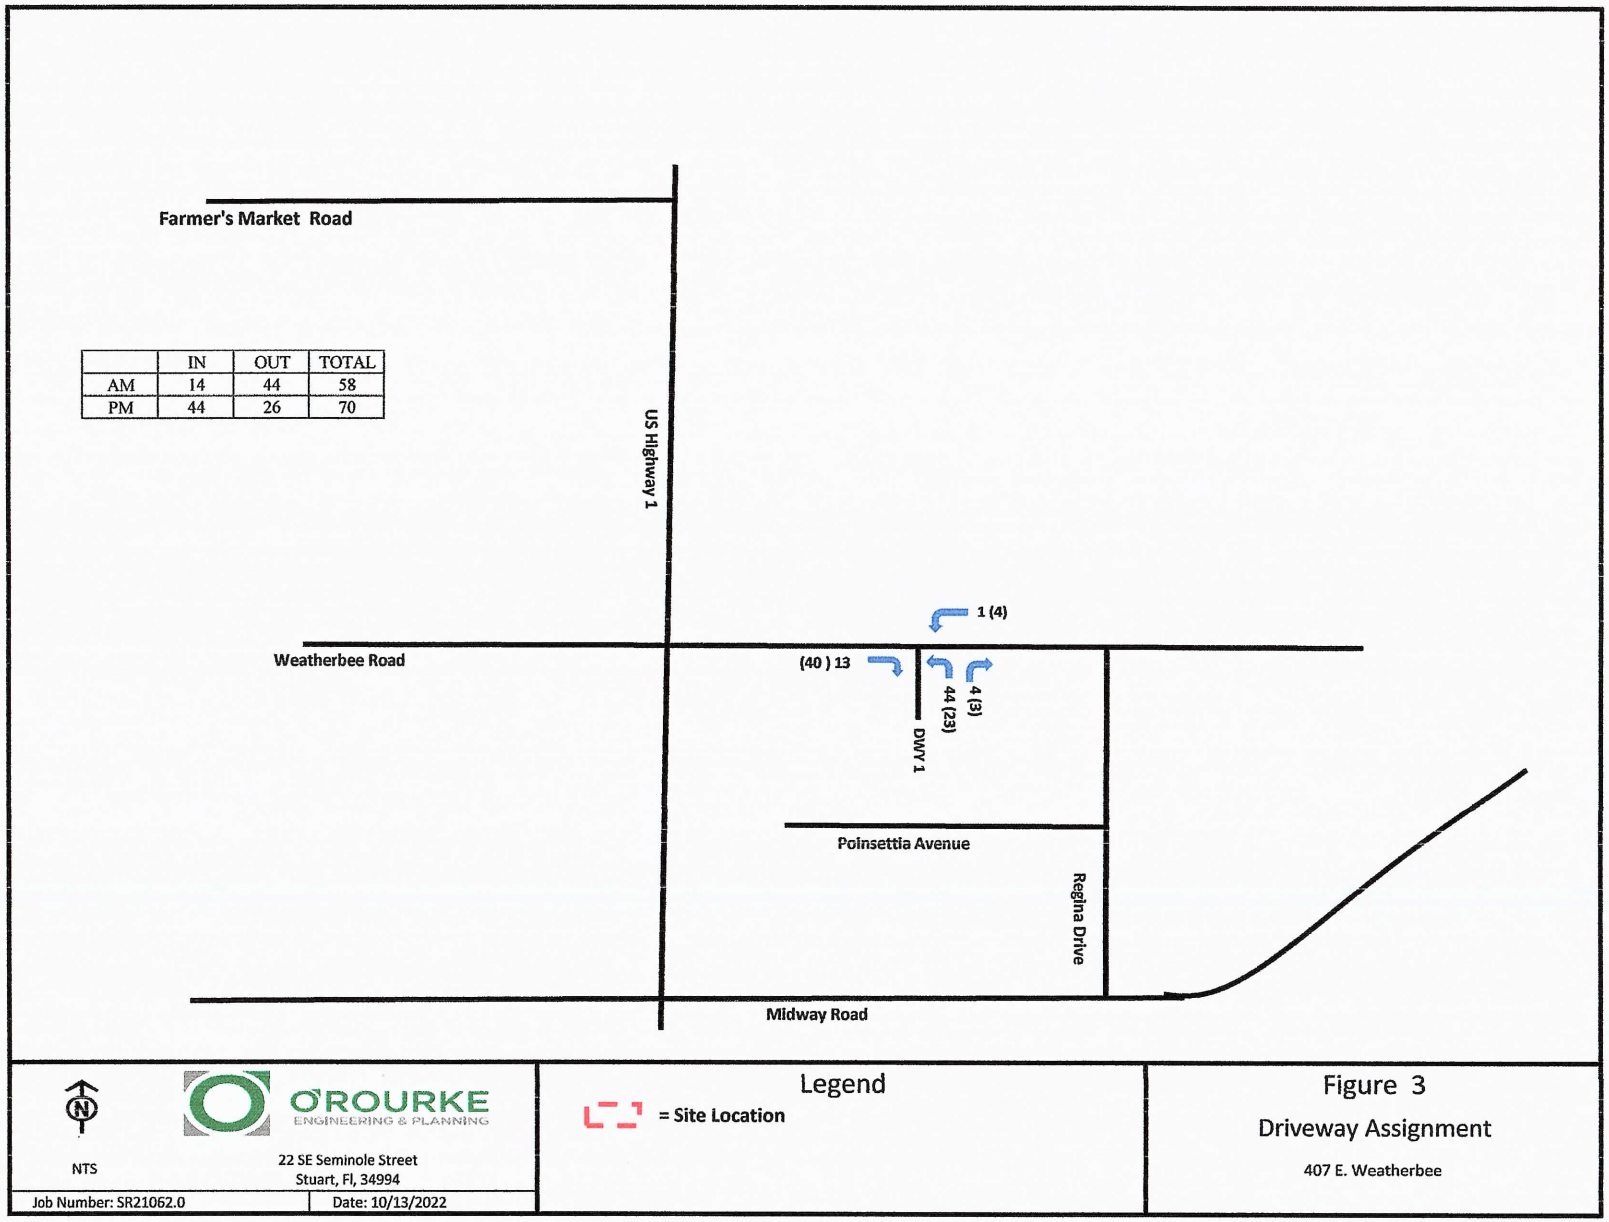

The project driveway was also analyzed to determine if turn lanes are warranted at the project driveway. The FDOT Access Management Guidebook November 2019 was used to determine the need for a right-turn lane. With a speed limit of 45 MPH or less, a right-turn lane is recommended when right turning vehicles exceed 80 vehicles in the peak hour. With a peak hour right-turning volume of 40 vehicles, a right-turn lane is not recommended.

The need for a left-turn lane was evaluated using NCHRP 279 based on the percent of left turns and the approaching and opposing volumes. The left-turn volume is less than 1% of the approach traffic with an approach volume of 272 and an opposing volume of 309. Using the two-lane 40 MPH graph, a left-turn lane is not warranted.

Appendix E includes the driveway analysis and turn-lane data.

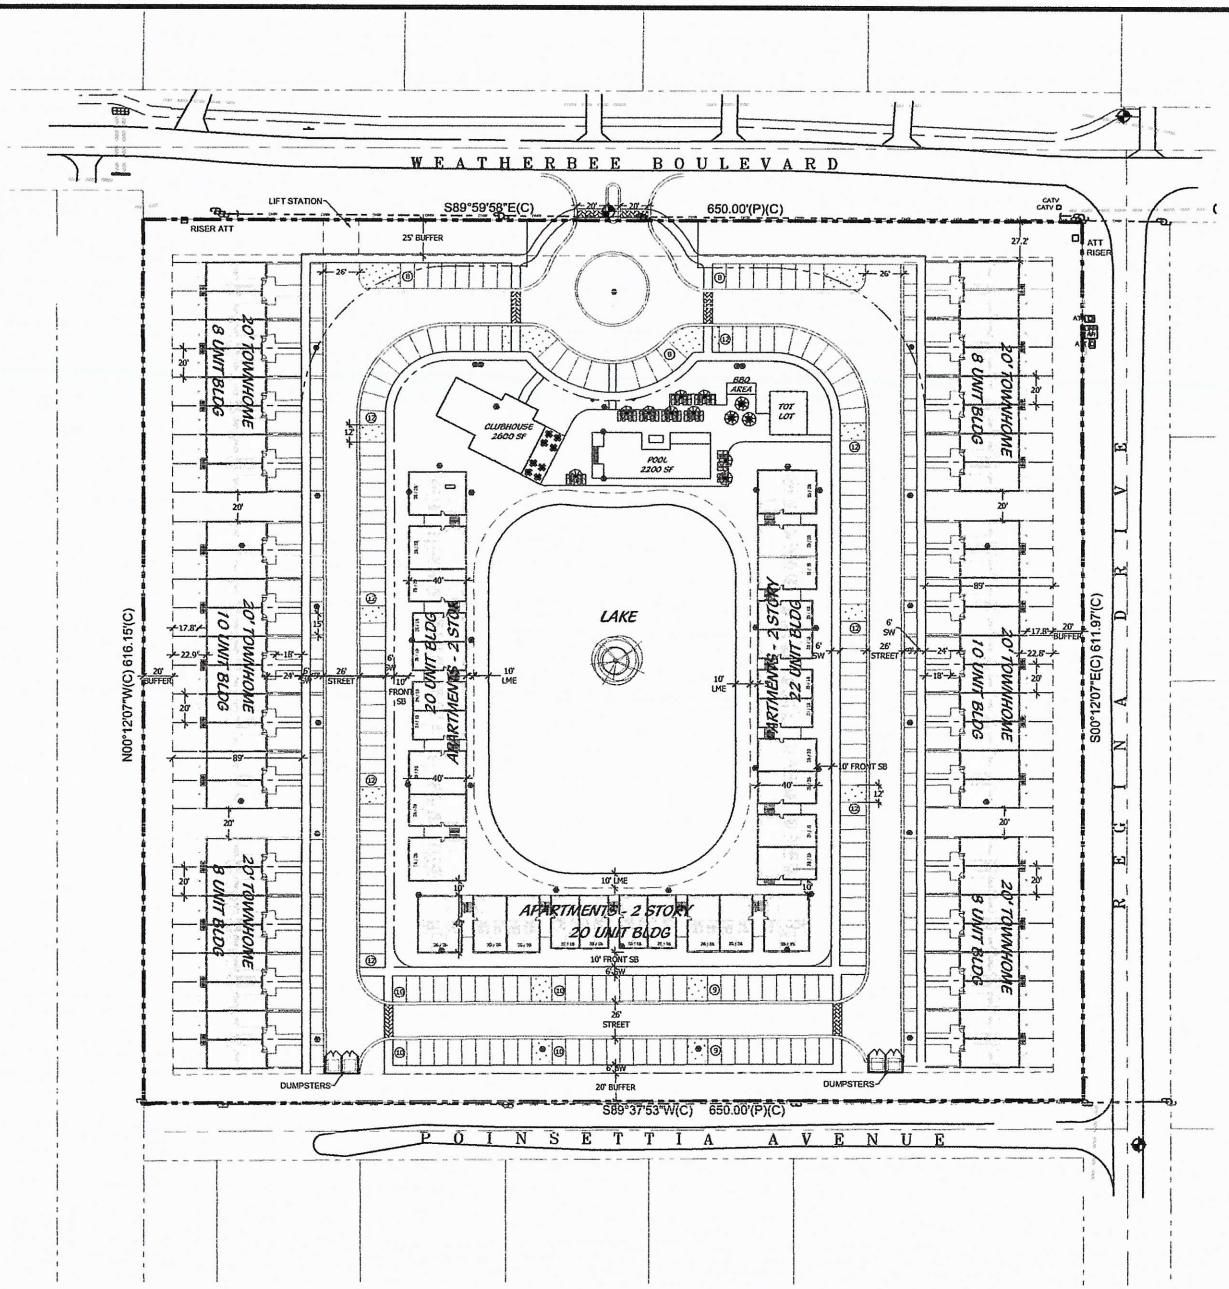

CONCLUSION

With 58 net AM peak hour trips and 70 net new PM peak hour trips, all links and intersections operate at acceptable levels of service with the existing roadway network. Therefore, the project meets the requirements for concurrency.

* **NOTE:** A six digit number in the "STATION ID" column identifies segment counted by FDOT
* Volumes shown were adjusted using FDOT Seasonal Factors
* AADT = Annual Average Daily Traffic (volumes for both directions where applicable)
* **NOTE:** If the Last Count Year is older than the year of the report, the AADT is projected from historical traffic count data.
* **Counts with an ID format of 6 digits have data extracted from FDOT count stations.**

TABLE 7 Generalized **Peak Hour Directional** Volumes for Florida's Urbanized Areas

January 2020

INTERRUPTED FLOW FACILITIES

STATE SIGNALIZED ARTERIALS

Class I (40 mph or higher posted speed limit)

Lanes	Median	B	C	D	E
1	Undivided	*	830	880	**
2	Divided	*	1,910	2,000	**
3	Divided	*	2,940	3,020	**
4	Divided	*	3,970	4,040	**

Class II (35 mph or slower posted speed limit)

Lanes	Median	B	C	D	E
1	Undivided	*	370	750	800
2	Divided	*	730	1,630	1,700
3	Divided	*	1,170	2,520	2,560
4	Divided	*	1,610	3,390	3,420

Non-State Signalized Roadway Adjustments

(Alter corresponding state volumes by the indicated percent.)

Non-State Signalized Roadways - 10%

Median & Turn Lane Adjustments

Lanes	Median	Exclusive Left Lanes	Exclusive Right Lanes	Adjustment Factors
1	Divided	Yes	No	+5%
1	Undivided	No	No	-20%
Multi	Undivided	Yes	No	-5%
Multi	Undivided	No	No	-25%
–	–	–	Yes	+ 5%

One-Way Facility Adjustment

Multiply the corresponding directional volumes in this table by 1.2

BICYCLE MODE[2]

(Multiply vehicle volumes shown below by number of directional roadway lanes to determine two-way maximum service volumes.)

Paved Shoulder/Bicycle Lane Coverage	B	C	D	E
0-49%	*	150	390	1,000
50-84%	110	340	1,000	>1,000
85-100%	470	1,000	>1,000	**

PEDESTRIAN MODE[2]

(Multiply vehicle volumes shown below by number of directional roadway lanes to determine two-way maximum service volumes.)

Sidewalk Coverage	B	C	D	E
0-49%	*	*	140	480
50-84%	*	80	440	800
85-100%	200	540	880	>1,000

BUS MODE (Scheduled Fixed Route)[3]

(Buses in peak hour in peak direction)

Sidewalk Coverage	B	C	D	E
0-84%	> 5	≥ 4	≥ 3	≥ 2
85-100%	> 4	≥ 3	≥ 2	≥ 1

UNINTERRUPTED FLOW FACILITIES

FREEWAYS

Core Urbanized

Lanes	B	C	D	E
2	2,230	3,100	3,740	4,080
3	3,280	4,570	5,620	6,130
4	4,310	6,030	7,490	8,170
5	5,390	7,430	9,370	10,220
6	6,380	8,990	11,510	12,760

Urbanized

Lanes	B	C	D	E
2	2,270	3,100	3,890	4,230
3	3,410	4,650	5,780	6,340
4	4,550	6,200	7,680	8,460
5	5,690	7,760	9,520	10,570

Freeway Adjustments

Auxiliary Lane	Ramp Metering
+ 1,000	+ 5%

UNINTERRUPTED FLOW HIGHWAYS

Lanes	Median	B	C	D	E
1	Undivided	580	890	1,200	1,610
2	Divided	1,800	2,600	3,280	3,730
3	Divided	2,700	3,900	4,920	5,600

Uninterrupted Flow Highway Adjustments

Lanes	Median	Exclusive left lanes	Adjustment factors
1	Divided	Yes	+5%
Multi	Undivided	Yes	-5%
Multi	Undivided	No	-25%

[1]Values shown are presented as peak hour directional volumes for levels of service and are for the automobile/truck modes unless specifically stated. This table does not constitute a standard and should be used only for general planning applications. The computer models from which this table is derived should be used for more specific planning applications. The table and deriving computer models should not be used for corridor or intersection design, where more refined techniques exist. Calculations are based on planning applications of the HCM and the Transit Capacity and Quality of Service Manual.

[2] Level of service for the bicycle and pedestrian modes in this table is based on number of vehicles, not number of bicyclists or pedestrians using the facility.

[3] Buses per hour shown are only for the peak hour in the single direction of the higher traffic flow.

* Cannot be achieved using table input value defaults.

** Not applicable for that level of service letter grade. For the automobile mode, volumes greater than level of service D become F because intersection capacities have been reached. For the bicycle mode, the level of service letter grade (including F) is not achievable because there is no maximum vehicle volume threshold using table input value defaults.

CITY OF FORT PIERCE
NOTICE OF PUBLIC HEARING

The City Commission of the City of Fort Pierce, Florida, pursuant to Section 125-37 of the Code of Ordinances of the City of Fort Pierce, will on Monday, December 19, 2022, hold a Public Hearing in the City Hall Commission Chambers, 100 North U.S. Highway 1, Fort Pierce, Florida, at their meeting which begins at 5:05 p.m., to consider review and approval of an application for a Site Plan (Development and Design Review) with a Conditional Use to construct a 114-unit multi-family innovative residential development with a 2,534 square foot clubhouse, 800 square foot pool, and associated site improvements at or near 4701 Regina Drive in Fort Pierce, Florida, more specifically located at Parcel Control Number: 3403-501-0025-000-5.

All interested parties may appear at the meeting and be heard with respect to the Applications. Said applications will be available for inspection in the City Clerk's Office, City Hall, 100 North U.S. Highway 1, Fort Pierce, Florida.

ANY PERSON SEEKING TO APPEAL THE DECISION OF THE CITY COMMISSION AS TO THE FOREGOING IS ADVISED THAT A RECORD OF PROCEEDINGS IS REQUIRED IN ANY SUCH APPEAL AND THAT SUCH PERSON MAY NEED TO ENSURE THAT A VERBATIM RECORD OF PROCEEDINGS IS MADE INCLUDING THE TESTIMONY AND EVIDENCE UPON WHICH THE APPEAL IS TO BE BASED.

In accordance with the Americans with Disabilities Act and Section 286.26, Florida Statutes, persons with disabilities needing special accommodation to participate in this meeting should contact the City Clerk's Office at (772) 467-3065 at least 48 hours prior to the meeting.

Re: FLUMA - Allegra at Fort Pierce - 3000 Virginia Avenue - Parcel IDs: 2419-111-0002-000-7 & 2419-113-0001-000-6

Submitted For: Kev Freeman, Planning Director, Planning & Zoning

---

SUBJECT:

Legislative Hearing - Ordinance 22-041 - Review and approval of a Future Land Use Map Amendment by owners 135058, 136681 and 11765663 Canada, Inc and applicant Rebecca Grohall of MBV Engineering to change the future land use from General Commercial, GC to Medium Density Residential, RM, at approximately 3000 Virginia Avenue Fort Pierce, FL 34947. Parcel IDs: 2419-111-0002-000-7 & 2419-113-0001-000-6

SUMMARY:

In accordance with Sections 125-37 and 125-133 of the City Code, the applicant is requesting the review and approval of a FLUMA from GC, General Commercial, to RM, Medium Density Residential.

RECOMMENDATION:

The requested Application for a Future Land Use Map Amendment meets the criteria specified in Section 125-136 of the City Code, the Comprehensive Plan, and does not adversely affect the public health, safety, convenience, and general welfare. Therefore, Staff recommends APPROVAL of the proposed FLUMA from GC, General Commercial, to RM, Medium Density Residential.

ORDINANCE NO. 22-041

AN ORDINANCE BY THE CITY COMMISSION OF THE CITY OF FORT PIERCE, FLORIDA; **AMENDING THE FUTURE LAND USE MAP OF THE COMPREHENSIVE PLAN TO CHANGE THE DESIGNATION OF PROPERTY GENERALLY LOCATED AT OR NEAR 3000 VIRGINIA AVE, FROM GENERAL COMMERCIAL, GC, TO MEDIUM DENSITY RESIDENTIAL, RM;** PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR REPEAL OF ORDINANCES OR PARTS THEREOF IN CONFLICT; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the subject property is generally located at or near 3000 Virginia Ave, within the City of Fort Pierce, Florida, representing approximately 32.0 acres of land; and

WHEREAS, the subject property is included in a proposed site plan for a multi-family development; and

WHEREAS, the subject property is also included in a zoning atlas amendment; and

WHEREAS, the subject property, generally located at or near 3000 Virginia Ave, is presently designated GC, General Commercial; and

WHEREAS, the City seeks a future land use amendment of the subject property, generally located at or near 3000 Virginia Ave, from GC, General Commercial to RM, Medium Density Residential; and

WHEREAS, the proposed future land use amendment is consistent with the comprehensive plan, and will not have an adverse effect on the ability of the City to satisfy land and water use needs, and meet transportation demands and provide community facilities and services, and will promote and protect the public health, safety and general welfare as required by City Code section 125-136; and

WHEREAS, the City of Fort Pierce Planning Board, at their November 14th, 2022, meeting, voted to recommend approval of the proposed Future Land Use Amendment for this parcel; and

WHEREAS, the City of Fort Pierce has adopted a Comprehensive Plan known as the City of Fort Pierce Comprehensive Plan adopted by Ordinance No. L-136, as subsequently amended; and

WHEREAS, changing the future land use designation requires an amendment to the Comprehensive Plan, pursuant to section 163.3187, Florida Statutes; and

WHEREAS, the City of Fort Pierce Planning Board having been duly designated as the Local Planning Agency pursuant to section 163.3174 et seq., Florida Statutes,

and having held a public hearing thereon, has considered this proposed amendment to the Comprehensive Plan and submitted its recommendations thereon to the City Commission; and

WHEREAS, two (2) public hearings with due notice have been held by the City Commission to inform the public and receive comments and objections; and

WHEREAS, the City of Fort Pierce desires to hereby formally adopt this amendment to the City's Comprehensive Plan.

NOW, THEREFORE, BE IT ORDAINED by the City Commission of the City of Fort Pierce, Florida as follows:

SECTION 1. The preceding "whereas" clauses are ratified and incorporated as the legislative intent of this ordinance.

SECTION 2. The Comprehensive Plan of the City of Fort Pierce is hereby amended as follows:

From and after the effective date hereof, the following property legally described respectively as:

Parcel IDs: 2419-111-0002-000-7 & 2419-113-0001-000-6

LEGAL DESCRIPTIONS:

19 35 40 THAT PART OF N 3/4 OF NE 1/4 OF NE 1/4 LYG S OF CANAL 7-LESS VIRGINIA AV AND HARTMAN RD R/W- AND THAT PART OF SE 1/4 OF NW 1/4 OF NE 1/4 LYG S OF CANAL 7 AND E OF CANAL 29 (17.83 AC)

AND

19 35 40 S 1/2 OF S 1/2 OF NE 1/4 OF NE 1/4-LESS HARTMAN RD R/W- AND NW 1/4 OF SE 1/4 OF NE 1/4 LYG N AND E OF FIVE MILE CREEK(14.17 AC) (OR 3631-594)

Containing 32.0 acres, more or less

Said property being generally located at or near 3000 Virginia Ave, in Fort Pierce, Florida shall be and the Future Land Use Designation is hereby changed from GC, General Commercial to RM, Medium Density Residential, as depicted on Exhibit “A”, attached hereto and incorporated herein.

SECTION 3. The provisions of this Ordinance are declared to be severable and if any section, sentence, clause, or phrase of this Ordinance shall, for any reason, be held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining sections, sentences, clauses, and phrases of this Ordinance, which shall

remain in effect, it being the legislative intent that this Ordinance shall stand notwithstanding the invalidity of any part.

SECTION 4. All ordinances or parts of ordinances in conflict herewith are and the same shall be repealed and shall be of no further force or effect whatsoever.

SECTION 5. This Ordinance shall become effective immediately upon final passage.

APPROVED AS TO FORM & CORRECTNESS:

Standards for Review

Pursuant to Article IX, City Code of Ordinances, a proposed change of district or text may be initiated by the city commission, the city planning board or by petition of one or more of the property owners or affected residents within the area proposed to be changed or affected by a change in the district map or text.

The following standards must be satisfied per Section 125-136 of the City Code prior to the approval of the requested amendment:

(1) The amendment is consistent with the Comprehensive Plan.
(2) The amendment will not have an adverse effect on the ability of the City to:
    a. Satisfy land and water use needs; and
    b. Meet transportation demands and provide community facilities and services.
(3) The amendment will promote and protect the public health, safety, and general welfare.

The proposed amendment is consistent with and furthers the Goals, Objectives, and Policies of the City's Comprehensive Plan. The Zoning Atlas Map Amendment promotes and protects the public health, safety, and general welfare as the request as proposed is in character and similar with the surrounding area, land uses and zoning designations

Technical Review Committee

All affected City and County Departments have reviewed the proposed Future Land Use Map and there were no comments from the TRC.

Planning Board Recommendation

The Planning Board, at their meeting on November 14th, 2022, voted unanimously to recommend Approval of the request.

Staff Recommendation Future Land Use Map Amendment

The requested Application for a Future Land Use Map Amendment meets the criteria specified in Section 125-136 of the City Code, the Comprehensive Plan, and does not adversely affect the public health, safety, convenience, and general welfare. Therefore, Staff recommends APPROVAL of the proposed FLUMA from GC, General Commercial, to RM, Medium Density Residential.

PLANNING DEPARTMENT Florida

Application for Future Land Use Map Amendment

☐ Future Land Use Map Amendment – Large Scale (>10 acres)

■ Future Land Use Map Amendment – Small Scale (< 100 acres)

In accordance with Chapter 163.3187, Florida Statutes, The City of Fort Pierce will consider applications for land use changes on parcels in excess of 10 aces ("Large Scale Amendments") only twice each calendar year. The City Commission will consider applications for land use changes on parcels less than or equal to 10 acres with a maximum density of 10 units per acres or less at any time during the calendar year. You are encouraged to schedule a pre-application meeting with the planning staff and to submit your application up to three months in advance of the application deadline.

Application submission shall include the following:

- **TRC** (*Initial Submission): One (1) original and (8) paper copies of the application and support documents and provide one (1) electronic copy of the application packet as described below.
- **Planning Board**: One (1) original and (13) paper copies of the application and support documents and provide one (1) electronic copy of the application packet as described below.
- **City Commission**: One (1) original and (11) paper copies of the application and support documents and provide one (1) electronic copy of the application packet as described below.

In addition to a complete application, packets shall include:

- ☐ Warranty Deed & Legal Description
- ☐ St. Lucie County Property Record Card
- ☐ Statement of why there is a need for the proposed future land use map amendment and how the amendment will result in an orderly and logical development pattern; statements how amendment(s) are consistent with Comprehensive Plan; how future land use designation is compatible with future land use designations and existing land uses surrounding the amended lands; identify future land use designations and existing land uses within a ½ mile of the subject property that have the same or greater type of proposed future land use designation; data and analysis to support conclusions.
- ☐ Current Survey
- ☐ Environmental Study
- ☐ Traffic Impact Report
- ☐ *** Capacity Analysis-Separate Form
- ☐ Drainage Analysis
- ☐ Historical Report
- ☐ 1 CD of all documents submitted in PDF
- ☐ Other_____

1. Property Address/Location: 3000 Virginia Avenue
2. Property Tax ID(s): 2419-111-0002-000-7 and 2419-113-0001-000-6
3. Total Acreage: 29.13
4. Existing Future Land Use Designation: GC
5. Existing Zoning Classification: C3
6. Proposed Zoning Classification: R4
7. Other applications being submitted concurrent with this application, if any: Rezoning to R4
8. Describe the existing uses, improvements and structures on the amendment lands: Both parcels are vacant
9. Are there any identified or possible historical structures on the amendment lands? N/A
10. The reason for making this request: These properties have sat vacant for decades, the northern parcel was used for agricultural purposes prior to the 90s. Previous proposed commercial developments have not been built, the applicants believe the time is right to increase the supply of multi-family housing to meet the demands for achievable housing.

11. Capacity Analysis:

I. Site Data:

	Existing Use	Future Land Use	Zoning
North	Commercial	City: GC	City: C3
South	Residential	County	County: RS-3
East	Commercial and residential	County: COM, RU	County: CG, RM-5 and RS-3
West	Vacant Commercial	City: GC and County RU	City: C3 County RM-5

	Future Land Use	Zoning Classification	Maximum Intensity Residential: Dwelling Units per Acre Other: Square Footage	Total Acreage	Flood Zone
Current	GC	C3	15 du/ac, FAR of 1.0	29.13	X
Proposed	RM	R4	12.36 (after density bonus)	29.13	N/A

II. Public Facilities Information:

A. Potable Water:	
Average Use	Residential: 100 gallons per day per person (du x 2.6= persons x 100 gpd = demand) Other: 0.125 gallons per day per square foot 93,600 gpd
Demand Analysis	Maximum 93,600 gpd
Current Zoning	Total gallons per day 113,360
Proposed Zoning	Total gallons per day 93,600
Change in Demand	**Total gallons per day** -19,760

B. Wastewater:	
Average Use	Residential: 100 gallons per day per person (du x 2.6= persons x 100 gpd = demand) Other: 0.1 gallons per day per square foot 93,600 gpd
Demand Analysis	Maximum 93,600 gpd
Current Zoning	Total gallons per day 113,360
Proposed Zoning	Total gallons per day 93,600
Change in Demand	**Total gallons per day** -19,760

C. Parks and Recreation (Residential Classifications Only):
(Du x 2.6 = persons + 44,227 = population /LOS)

Park Type	LOS	Existing Population Park Demand	Proposed Population Park Demand	Change in Demand
Regional	20 acres per 1,000 people	23.2	18.8	-4.4
Urban District	5 acres per 1,000 people	5.67	4.7	-0.97
Community	2.5 acres per 1,000 people	2.83	2.35	-0.48
Neighborhood	1.36 acres per 1,000 people	1.54	1.28	-0.26

D. Public Schools (Residential Classifications Only):
Single Family: (du x 0.405 = students/70% K-8/30% High)
Multi-family: (du x 0.207 = students/70% K-8/30% High)

	K-8	High
School Name	Lawnwood Elem. /Dan McCarty	Central
City	Fort Pierce	Fort Pierce
Distance	2.0 mi	4.0 mi
Current Zoning Enrollment Demand	64	27
Proposed Zoning Enrollment Demand	53	22
Change in Demand	-11	-5

E. Solid Waste: 2 yard serves 15 units, 4 yard serves 30 units, 6 yard serves 45 units, 8 yard serves 60 units	
Demand Analysis	Maximum
Current Zoning	Eight 8 yard dumpsters = 64 yards
Proposed Zoning	Six 8 yard dumpsters = 48 yards
Change in Demand	REDUCTION OF Two 8 yard dumpsters = 16 yards

F. Stormwater: Potential increase in volume discharged due to increased impervious coverage, reduced groundwater seepage or loss of surface water storage impacting Adopted LOS of 25-year 3-day storm Pre vs. Post Runoff (Storm sewers to convey 5 year- 1 day storm event; Canals to convey 3 year – 1 day storm event)	
Impact	All stormwater will meet the adopted LOS and City, as well as Regional and State requirements.

G. Transportation Analysis:
Most recent ITE Code for use; HCM Roadway Capacity

	AADT	AM/PM Peak Hour Trips
Demand Analysis	Maximum	Maximum
Current Zoning	3192	244 am peak, 292 pm peak
Proposed Zoning	2635	202 am peak, 241 pm peak
Change in Demand	Trips -557	Trips - 42 am peak, -51 pm peak
Impact to Capacity	decrease to current capacity based upon zoning

Re: The Brownstone Group/Virginia Avenue Cottages

Ladies and Gentlemen:

This letter will confirm that FORT PIERCE HARTMAN, LLC., a Florida limited liability company, ("**Owner**") is the owner of record of that certain property described in **Exhibit "A"**, attached hereto and made a part hereof (the "**Property**").

Owner hereby authorizes MBV ENGINEERING, INC., a Florida corporation to act as it's agent for the purpose of filing applications for a future land use amendment, zoning change and site plan approval for the Property, and any related land use applications, allowing for the development of multifamily residential units on the Property, and the processing of such applications to final approval by the City of Fort Pierce.

Sincerely,

(SIGNATURE PAGES FOLLOW)

3000 Virginia Avenue
Fort Pierce, St. Lucie County, Florida

EDC, Inc. has completed this Phase I Environmental Site Assessment (ESA) Report in compliance with the American Society for Testing and Materials (ASTM) format E 1527-13 for the above-referenced property. The purpose of this evaluation was to identify recognized environmental conditions as defined in ASTM E 1527-13.

Based on the results of the Phase I ESA conducted at the subject property, no unresolved recognized environmental conditions have been identified in connection with the subject property, and no further assessment is warranted at this time.

Further, please note that an environmental liens or activity and use limitations search was not performed for the subject property. In accordance with ASTM E 1527-13, it is the responsibility of the User of this report to undertake a review of reasonable ascertainable recorded land title records and lien records for environmental liens or activity and use limitations recorded against or relating to the subject property. In the event that any are identified, please contact EDC, Inc. immediately for further evaluation.

EDC, Inc. appreciates this opportunity to provide environmental services to you. Please contact me if you have any questions regarding this report.

Respectfully submitted,
EDC Inc.

1.0 SUMMARY

The subject property evaluated as part of this Phase I Environmental Site Assessment (ESA) consists of one (1) tax parcels (Parcel IDs: 2419-111-0002-000-7) comprised of 17.83 acres of general commercial land according to the St. Lucie County Property Appraiser. The subject parcel is located at 3000 Virginia Avenue, Fort Pierce, St. Lucie County, FL. The subject parcel maintains the following Section/Township/Range description: Section 19, Township 35 South and Range 40 East. Please refer to the Site Location Map presented in **Appendix A** for a visual explanation of the subject property**.**

[NOTE: Please review this report in its entirety for a full description of our evaluation, procedures, and findings.]

Based on the findings of this Phase I ESA conducted in accordance with American Society for Testing and Materials (ASTM) format E1527-13, we conclude the following:

1. We found no evidence of recognized environmental conditions with respect to past uses of the subject property based on our field observations, historical research, and public records review.

2. We found no evidence of obvious surface discharges such as stained soil or pavement, no indications of solid or liquid waste dumping or disposal, underground storage tanks (USTs), septic systems, seeps, unusual odors, stressed vegetation, or roads/paths with no outlet likely to have been used for disposal of hazardous wastes or petroleum products at the subject property.

3. Adjoining properties that formerly or currently generate(d) hazardous waste or use(d) hazardous materials were identified based on our regulatory database review.

4. We identified eight (8) Leaking Underground Storage Tank (LUST) facilities within the minimum search distance as specified by ASTM-E standards. The facility was found to be closed and in compliance. Please refer to **Table 3** for more information.

5. We identified one (1) Aboveground Storage Tank (AST) facilities within the minimum search distance as specified by the ASTM-E standards. The facility is located on the target property and was found to be in compliance. Please refer to **Table 3** for more information.

Based on the conclusions of the Phase I ESA conducted at the referenced site, EDC, Inc. did not find evidence of unresolved recognized environmental conditions and further assessment is not warranted at this time.

Please note that an environmental liens or activity and use limitations search was not performed for the subject property. In accordance with ASTM E 1527-13, it is the responsibility of the User of this report to undertake a review of reasonable ascertainable recorded land title records and lien records for environmental liens or activity and use limitations recorded against or relating to the subject property. In the event that any are identified, please contact EDC, Inc immediately for further evaluation and we will run the environmental liens search.

It is important to note that in order to remain eligible for CERCLA liability protections, continuing obligations will need to be followed at the subject property. The User has the continuing

obligation not to impede the integrity and effectiveness of activity and land use limitations, the duty to take reasonable steps to prevent releases, and the duty to comply with legally required release reporting obligations.

2.0 INTRODUCTION

2.1 PURPOSE

The purpose of this assessment is to conduct an evaluation of the past and current uses of the subject property and surrounding properties to identify recognized environmental conditions in connection with the subject property.

The term “recognized environmental conditions” means the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the subject property or into the ground, groundwater, or surface water of the subject property. This environmental assessment was conducted in accordance with the guidelines of the ASTM E 1527-13 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process. This assessment was also intended to identify potential off-site contaminant sources within the distances set forth in ASTM E 1527-13.

2.2 DETAILED SCOPE OF SERVICES

The contracted scope of services consists of the preparation of a Phase I ESA of the subject property in accordance with the guidelines set forth in ASTM E 1527-13. The purpose of the ASTM E 1527-13 Standard Practice for Environmental Site Assessments is to define good commercial and customary practice in the United States of America for conducting an environmental site assessment with respect to the range of contaminants within the scope of Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C. §9601) and petroleum products.

The scope of work does not include soil or groundwater sampling; contamination assessment/delineation; an evaluation of asbestos, lead-based paint, radon, wetlands, lead in drinking water, environmental compliance, threatened & endangered species, cultural resources, industrial hygiene, health and safety, ecological resources, indoor air quality; site geotechnics (soils, foundations, site retention, etc.) or construction materials testing. If necessary, EDC, Inc. can provide these additional services.

2.3 SIGNIFICANT ASSUMPTIONS

No environmental site assessment can wholly eliminate uncertainty regarding the potential for recognized environmental conditions in connection with a property. Performance of a Phase I ESA in conformance with ASTM E 1527-13 is intended to reduce, but not eliminate, uncertainty regarding the potential for recognized environmental conditions in connection with a property. This assessment is site-specific, and all appropriate inquiry does not mean an exhaustive assessment of a clean property.

2.4 LIMITATIONS AND EXCEPTIONS

The findings of this report represent our professional judgment. These findings are relevant to the dates of our site work and the information cited herein. This report should not be relied upon to represent property conditions on other dates or at locations other than those specifically cited within this report.

The following limitations were encountered during completion of this Phase I ESA:

- Data gaps were encountered in the historical aerial photograph review due to the lack of available photographs as early as 1944 and in five-year intervals as preferred by ASTM-E standards. Based on our review of the available aerial photographs along with additional historical information found during review of other sources, the data gap does not appear to be significant to the findings of this report and does not appear to constitute as a data failure.

- The chain-of-title documentation or recorded land title records for environmental liens or activity and use limitations currently recorded against or relating to the subject property were not provided to EDC, Inc. during completion of this Phase I ESA.

2.5 SPECIAL TERMS AND CONDITIONS

Any special terms and conditions associated with this Phase I ESA are included in the Environmental Consulting Services Agreement and the Addendum to Contractual Agreements between EDC, Inc. and The Brownstone Group.

In addition, EDC shall not be held liable for any incorrect advice, judgment or decision based on any inaccurate information supplied by the user, current owner, or their designees.

2.6 USER RELIANCE

This report is intended for the sole use of EDC Inc. and The Brownstone Group. Its contents may not be relied upon by other parties without the explicit written consent of EDC, Inc.

In accepting this report, all parties herein mentioned agree to the Environmental Consulting Services Agreement and the Addendum to Contractual Agreements between EDC, Inc. and The Brownstone Group.

3.0 SITE DESCRIPTION

3.1 LOCATION AND LEGAL DESCRIPTION

The subject property is located within Section 19, Township 35 South and Range 40 East at 3000 Virginia Avenue in Fort Pierce, Florida. More specifically, the subject property consists of 17.83 acres of vacant general commercial property. The legal description for the tax parcel is as follows;

2419-111-0002-000-7: 19 35 40 THAT PART OF N 3/4 OF NE 1/4 OF NE 1/4 LYG S OF CANAL 7-LESS VIRGINIA AV AND HARTMAN RD R/W- AND THAT PART OF SE 1/4 OF NW1/4 OF NE 1/4 LYG S OF CANAL 7 ANDE OF CANAL 29 (17.83 AC).

This location is vacant commercial according to the St. Lucie County Property Appraisers in Fort Pierce, St. Lucie County, Florida. The subject property is currently vacant general commercial land (Land Use Code 1000). Visual representation of the property boundary, aerial photographs, and property appraiser cards are presented in **Appendix A**.

3.2 PROPERTY AND VICINITY CHARACTERISTICS

At the time of this assessment, the subject property consisted of 17.83 acres of vacant commercial land. The property vicinity is characterized primarily by agricultural and residential properties. Please refer to the Site Location Map in **Appendix A**.

3.3 CURRENT USE OF THE PROPERTY

At the time of the site reconnaissance, the subject property consisted of 17.83 acres of vacant commercial land, it is unused for agricultural production at this time.

3.4 STRUCTURES, ROADS, AND/OR OTHER IMPROVEMENTS WITHIN THE PROPERTY

The subject property shows evidence of use as an old citrus grove, which has since been abandoned and re-zoned for commercial use. A large canal surrounds the property along the northwest property boundary. A billboard does exist on the subject property.

3.5 CURRENT USE OF ADJOINING PARCELS

Currently, the parcels adjoining the site are used as follows:

TABLE 1
Description of Adjoining Parcels

Direction From Site	Description of Current Use
North	Orange Blossom Business Center; Commercial Retail
East	Residential Use; Single-Family Homes
South	Vacant General Commercial
West	Commercial Retail

None of the current uses of the adjoining properties appear likely to indicate the presence of recognized environmental conditions in connection with the subject property.

4.0 USER PROVIDED INFORMATION

The User did not provide EDC with information pertaining to the following sections. This information was collected by EDC, Inc.

4.1 TITLE RECORDS

According to the St. Lucie County Property Appraiser's Report, the current owner of the parcel located at 3000 Virginia Avenue is 11765663 Canada, Inc. They are located in Mount Royal, Quebec Canada H4N 2P7. The Deed is dated November 27th, 2020. Previous ownership data is not listed. This is the last known sale of the subject parcel.

The User did not contract EDC, Inc. to acquire a chain-of-title for the parcels comprising the subject property, which typically contains information regarding historical site ownership.

4.2 ENVIRONMENTAL LIENS OR ACTIVITY AND USE LIMITATIONS

The User did not provide information on any environmental liens or activity and use limitations on the subject property that are filed or recorded under federal, tribal, state, or local laws.

Please note that an environmental liens or activity and use limitations search report was not acquired by EDC, Inc. for the parcel comprising the subject property. In order to qualify for due diligence, the User of this report may be required to contact a title company to confirm that there are no environmental liens or activity and use limitations filed for the parcel comprising the subject property. In the event that any are identified, please contact EDC, Inc. immediately for further evaluation.

4.3 SPECIALIZED KNOWLEDGE

The User did not provide any specialized knowledge or experience that may pertain to recognized environmental conditions in connection with the subject property.

4.4 VALUATION REDUCTION FOR ENVIRONMENTAL ISSUES

Information pertaining to the assessed value of the subject property is included in the St. Lucie County Property Appraiser's Report presented in **Appendix A.**

4.5 OWNER, PROPERTY MANAGER, AND OCCUPANT INFORMATION

According to the St. Lucie County Property Appraiser's Report, the current owners of the subject property is 11765663 Canada, Inc. They are located in Mount Royal, Quebec Canada H4N 2P7. Please refer to the St. Lucie County Property Appraiser's Report included in **Appendix A**. The subject property consists of one tax parcel that is comprised of 17.83 acres of general commercial land.

4.6 REASON FOR PERFORMING PHASE I ESA

The User stated the reason for requesting this Phase I ESA was for Due Diligence associated with purchasing of the property. Therefore, the User contracted EDC, Inc. to perform this Phase I ESA in conjunction with a real estate transaction for the prospective owner to satisfy one of the requirements to qualify for the innocent purchaser defense, contiguous property owner or bona fide prospective purchaser limitations on CERCLA liability.

4.7 COMMONLY KNOWN OR REASONABLY ASCERTAINABLE INFORMATION ABOUT THE PROPERTY

The User did not provide any information regarding any specific chemicals that are present or were once present at the subject property, spills or other chemical releases that have taken place at the subject property, or any environmental cleanups that have taken place at the subject property.

5.0 RECORDS REVIEW

The purpose of the records review is to obtain and review records that will help identify recognized environmental conditions in connection with the site. Accuracy and completeness of record information varies among information sources, including government sources. Record information is often inaccurate or incomplete. Standard sources that are reasonably ascertainable were reviewed by EDC, Inc. for this Phase I ESA.

5.1 STANDARD ENVIRONMENTAL RECORD SOURCES

As part of this assessment, we reviewed information sources to obtain existing information pertaining to a release of hazardous substances or petroleum products on or near the site. EDC, Inc. obtained an ASTM radius map report through Environmental Data Resources, Inc. (EDR). A copy of the EDR report is contained in **Appendix B**. EDC, Inc. also reviewed other available standard environmental record sources at the Florida Department of Environmental Protection (FDEP), as needed. The following state, county, and federal sources were consulted during this record review:

State, County, and Tribal Database Review (FDEP and MCHD)

- FDEP, Leaking Underground Storage Tanks (LUST)
- FDEP, Leaking Aboveground Storage Tanks (LAST)
- FDEP, Registered Underground Storage Tanks (UST)
- FDEP, Registered Aboveground Storage Tanks (AST)
- FDEP, State Hazardous Waste Sites (SHWS)
- FDEP, Solid Waste Facility/Landfill Sites (SWL/LF)
- FDEP, State Brownfield Areas (BROWNFIELDS)
- FDEP, Voluntary Cleanup Sites (VCP)
- FDEP, Institutional Controls & Engineering Controls Registry (IC & EC)

Federal Database Review [United States Environmental Protection Agency (EPA)

- EPA, National Priorities List (NPL), including Delisted and Proposed NPL Sites and Federal Superfund Liens
- EPA, Comprehensive Environmental Response Compensation and Liability Act Information System (CERCLIS)
- EPA, CERCLIS No Further Remedial Action Planned (CERCLIS-NFRAP)
- EPA, RCRA Treatment, Storage, and Disposal Facilities (RCRA-TSDF)
- EPA, RCRA Corrective Action Report Facilities (CORRACTS)
- EPA, RCRA Generators List (RCRA), including Large Quantity Generators (LQG), Small Quantity Generators (SQG) and Conditionally Exempt Small Quantity Generators (CESQG)
- EPA, Institutional Controls & Engineering Controls Registry (US IC & US EC)
- EPA, Emergency Response Notification System List (ERNS)

Table 2 lists the approximate minimum search distances used during this assessment as set forth in ASTM E 1527-05.

TABLE 2 Approximate Minimum Search Distances – ASTM E 1527-05	
Source	**Search Distance**

State and Tribal Institutional Control/Engineering Control Registries	Site only
State and Tribal Voluntary Cleanup Sites	0.5 mile
State and Tribal Brownfield Sites	0.5 mile

5.1.1 FEDERAL, FLORIDA STATE, AND ST. LUCIE COUNTY RECORDS REVIEW

According to information provided by EDR and/or the FDEP Web-Based Map Application for Waste Management Division Facilities, the subject property is not listed in the federal, state or county databases. Please refer to **Table 3** for a summary of information regarding these facilities. Please refer to the FDEP and groundwater flow maps in **Appendix A**, EDR report in **Appendix B**, and supplemental documents in **Appendix C** for details.\

State/Federal Database Descriptions for Table 3	
Database Abbreviation	**Description**
AST	Registered Aboveground Storage Tanks.
DWM CONTAM	A listing of active or known sites. The listing includes sites that need cleanup but are not actively being working on because the agency currently does not have funding (primarily petroleum and dry cleaning).
ECHO	ECHO (Enforcement & Compliance History Information) provides integrated compliance

	and enforcement information for about 800,000 regulated facilities nationwide.
FINDS	Facility Index System. FINDS contains both facility information and 'pointers' to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).
FL FINANCIAL ASSURANCE	A listing of financial assurance information for underground storage tank facilities and/or a list of hazardous waste facilities required to provide financial assurance under RCRA.
HW GEN	Small Quantity Hazardous Waste Generators are regulated under the federal Resource Conservation and Recovery Act (RCRA) and applicable state regulations as generators of hazardous wastes in quantities greater than 100 Kg but less than 1,000 Kg in any one calendar month. Large Quantity Generators of Hazardous Waste are tracked in this coverage based on their notification to the Department of Environmental Protection as to their handler status, or based on inspections conducted at their facilities. These facilities are regulated under the federal Resource Conservation and Recovery Act (RCRA) and applicable state regulations as generators of hazardous wastes in quantities equal to or greater than 1,000 Kg in any one calendar month.
INST CONTROL	The registry is a database of all contaminated sites in the state of Florida which are subject to institutional and engineering controls.
LUST	Leaking Underground Storage Tank Incident Reports. LUST records contain an inventory of reported leaking underground storage tank incidents. Not all states maintain these

	records, and the information stored varies by state.
NPDES	General information regarding NPDES (National Pollutant Discharge Elimination System) permits.
RCRA-VSQG	RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.
RCRA NONGEN / NLR	RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.
RESP PARTY	Open, inactive and closed responsible party sites.
UST	Registered Underground Storage Tanks. UST's are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA) and must be registered with the state department responsible for administering the UST program. Available information varies by state program.

TABLE 3 State/Federal Database Facility Identified Within Minimum Search Distance			
Facility	**Location**	**Database**	**File Review Summary**
EDS Fort Pierce Texaco 4101 Okeechobee Road Fort Pierce, FL 33450 EDR ID: 1020451313 Beverage Station 4101 Okeechobee Road Fort Pierce, FL 34947 EDR ID: U001373122	0.045 miles N	EDR HIST AUTO LUST UST CLEANUP SITES DWM CONTAIN FINANCIAL ASSURANCE NPDES	According to the EDR report, the facility is a former fuel facility, with records stopping 1993. According to the EDR report, the DEP monitors all wastewater that is being discharged into the environment. A fuel spill consisting of leaded and unleaded gas occurred in 1988 when a UST was overfilled and left unmaintained. In Aug. of 2020, a Compliance Assistance letter was issued, stating the facility was potentially non-compliant. On June 11, 2021 a Remedial Action Plan was reviewed and approved, establishing a strategy to achieve cleanup objectives. The site is currently undergoing Remedial Action and in compliance with associated requirements. Based on this, the likelihood of the subject property being affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
Firestone Store 4160 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1000881247 Firestone #1857-004324-B 4160 Okeechobee Road Fort Pierce, FL 34947 EDR ID: U001373008	0.049 miles NW	RCRA-VSQG FINDS ECHO LUST UST AST	According to the EDR and ECHO report, this facility had no record of violations and tanks were removed and the facility was closed in February of 1993. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
Hess Corporation #09386 4696 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1004684404 Shell-Okeechobee 4696 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1000843296	0.102 miles W	RCRA-VSQG FINDS ECHO LUST UST SPILLS FINANCIAL ASSURANCE	According to the EDR and Oculus Reports, a Site Rehabilitation Completion Order was issued on May 9, 2019 for a discharge that occurred on September 25, 1997. However, a Compliance Assistance Offer was issued due to a potential non-compliance after an inspection on March 25, 2021. Violations were minor and did not involve the movement of contaminants off-site.

			However, due to the proximity to the site, EDC recommends the user monitor the continued compliance of the site. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
Becker Indian River Fruit Co. Inc. 4710 Okeechobee Road Fort Pierce, FL 34947 EDR ID: U001373065	0.124 miles W	UST	According to the EDR report, an underground storage tank was registered in 1987. There was free product discovered in test well, after a test well installer incidentally damaged the storage tank. This was resolved in 1993 after the damaged tank was removed and virgin fill replaced the area impacted by the free product leak, and the area no longer tested positive for product in the soil. Due this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
Sears Roebuck & Co. 4204 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1015741349 Sears Roebuck & Co. #2005 4204 Okeechobee Road Fort Pierce, FL 34947 EDR ID: U001372937 Sears Roebuck & Co. 4204 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1014468984	0.158 miles NW	RCRA NONGEN / NLR LUST UST RCRA-VSQG	According to the EDR and Oculus reports, on December 3, 2004 a Site Rehabilitation Completion Order (SRCO) was issued by the FDEP for a discharge on Dec 29, 1998. Monitoring wells were then abandoned. Due this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
Belk Lindsey Co Inc 4100 Okeechobee Road Fort Pierce, FL 33450 EDR ID: U001373091	0.205 miles NW	UST	According to the EDR and Oculus reports, historical records of an underground storage tank are present. There was no documentation available of any spills or violations. This tank has been removed. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.

Tractor Supply Company #505 4888 Okeechobee Road Fort Pierce, FL 33450 EDR ID: 1016955841	0.211 miles SW	RCRA-VSQG	According to the EDR report, a Conditionally Exempt Small Quantity Generator was permitted for this parcel. This property did store Hazardous Materials; but no spills or contamination records were found. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
Indian River Oil Co. 3700 Okeechobee Road Fort Pierce, FL 34947 EDR ID: S120043074	0.323 miles NE	LUST UST FINANCIAL ASSURANCE	According to the EDR and Oculus reports, a Compliance Assistance Offer was issued on May 31, 2018 for storage tanks on this parcel. However, it was for failure to pay fees and display placards, not failure of structural integrity and discharge of contaminants. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
Ft Pierce Contacting Corp. 1819 Totten Road Fort Pierce, FL 34947 EDR ID: U100373016	0.336 miles N	LUST UST AST	According to the EDR and Oculus reports, a Site Rehabilitation Completion Order was issued on August 30, 2013. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
ABCA McClinton Property Walmart #973 5100 Okeechobee Road Fort Pierce, FL 34947 EDR ID: S107938607 Walmart #973 McClinton Property Okeechobee Rd & McNeil Rd Fort Pierce, FL 34947 EDR ID: S117361413	0.387 mi W	INST CONTROL DWM CONTAM FINANCIAL ASSURANCE HW GEN RESP PARTY	According to the EDR and Oculus reports, a site inspection occurred on December 6, 2016 and was determined to be in compliance. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
Circle K #7506 2301 S 35th Street & Virginia Ave. Fort Pierce, FL 34981 EDR ID: 1000822408	0.398 mi NE	LUST UST FINANCIAL ASSURANCE	According to the EDR and Oculus reports, on March 16, 2021 this facility received and In Compliance Letter from the DEP. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please

			refer to **Appendix C** for supporting documentation.
Murphy USA #5709 5110 Okeechobee Road Fort Pierce, FL 34950 EDR ID: U003699249	0.417 mi SW	LUST UST FINANCIAL ASSURANCE	According to the EDR and Oculus reports, a Compliance Assistance Offer was issued on April 9, 2019. Minor components were identified as needing replacement. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.

In addition to reviewing the EDR report, EDC, Inc. performed reconnaissance of the property vicinity to identify any sites not mapped by EDR due to inadequate or inaccurate address information and to look for unregistered facilities. No facilities of concern were observed within the vicinity of the subject property during field reconnaissance performed by EDC, Inc.

5.2 ADDITIONAL ENVIRONMENTAL RECORDS

The following is a list of some of the additional environmental records that were searched as part of the EDR Radius Map Report: Priority Ranking List (PRIORITYCLEANERS), Formerly Used Defense Sites (FUDS), Records of Decision (ROD), Mines Master Index File (US MINES), Toxic Chemical Release Inventory System (TRIS), Risk Management Plans (RMP), Underground Injection Wells Database Listing (UIC), Drycleaning Facilities (DRYCLEANERS), and PCB Transformer Registration Database (PCB TRANSFORMER).

EDC searched the FDEP Consolidated Web-Based Map Application for Waste Management Division facilities (e.g., solid waste facilities, storage tanks, dry cleaning sites, hazardous waste generators, etc.) located on the subject property and adjoining properties. The map is available for review in **Appendix A**. The search included the Storage Tank Regulation, Solid Waste, Site investigation, Hazardous Waste Program, and the Waste Cleanup database, among others. The database did not reveal any new findings on the property.

EDC reviewed the Florida Department of Community Affairs (DCA) Florida Radon Protection Map for Large Buildings and New Single Family Homes and Duplexes. More than 5% of new large buildings in St. Lucie County are expected to have annual average radon levels above the EPA action level and fewer than 5% new homes are expected to have elevated radon levels. The map indicated that the general area where the site is located (St. Lucie County) is designated as Federal EPA Radon Zone 3. This criteria states that the counties within this zone are those with a predicted radon level less than 2 pCi/L or otherwise known as low risk.

5.3 PHYSICAL SETTING SOURCES

According to the EDR report, USGS topographic quadrangle map, soil survey, and regulatory files available regarding properties of environmental concern in the property vicinity were reviewed as sources for obtaining information regarding the physical setting of the subject property and surrounding vicinity.

Based on our site reconnaissance, review of USGS maps, aerial photographs, the location of the subject property, and the present environmental related conditions of adjacent and nearby properties, there is little to no potential for migration of petroleum product or hazardous waste contamination from off-site sources.

5.3.1 TOPOGRAPHY

The USGS topographic quadrangle map titled “Fort Pierce” was referenced as a source for obtaining information regarding the physical setting of the subject property and surrounding vicinity. The subject property is located at an elevation of approximately 19 feet above sea level.

According to the EDR Report, the groundwater within the minimum search distances is flowing southwest away from the property. A copy of the USGS Quadrangle Map is provided as **Appendix B**.

5.3.2 SOILS/GEOLOGY

The general geology of St. Lucie County is characterized by the Caloosahatchee Marl which underlies the entire area, is of Pliocene age, and consists mainly of sand and varying amounts of shell. The Fort Thompson Formation rests uncomfortably on the Caloosahatchee Marl; dips from west to east; is of Pleistocene age; and consists of a series of alternating beds of limestone, shells, sand, and marl. The Anastasia Formation which is of Pleistocene age and rests uncomfortably on the Fort Thompson Formation forms the backbone of the coastal ridge, is exposed in several places along the ocean shoreline, and consists of sand and shell beds and thin, discontinuous layers of sandy limestone and sandstone. Pamlico Sand of the late Pleistocene age mantles the entire area and is the basic material in which most of the mineral soils have formed.

According to the United States Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS) Web Soil Survey, surficial soils at the subject property are classified as the following:

Chobee loamy fine sand - depressional is a nearly level, very poorly drained soil with a thick black surface layer. It is found in marshy depressions and on flood plains along streams. In most years the water table is within a depth of 10 inches for 6 to 9 months and between 10 to 40 inches for 3 to 6 months. This soil is continuously flooded for 1 to 6 months in many places. Natural vegetation includes sand cordgrass and swamp hardwoods. If drainage and water control are adequate, this soil is well suited to vegetables and improved pasture grasses.

Riviera fine sand - This poorly drained, nearly level soil is found in hammocks and along drainage ways. The surface layer is dark gray brown fine sand about 5 inches thick. The soil has a water table at a depth of less than 10 inches for 2 to 4 months in most years and at a depth of 10 to 30 inches for most of the rest of the year. Permeability is rapid in the surface and subsurface layers and is slow to very slow in the subsoil, and rapid in the substratum. Natural vegetation includes cabbage palms and scattered longleaf pine and slash pine and an understory of wax myrtle and saw palmetto. The most common native grasses are pineland threeawn and blue maidencane. Broom sedges, creeping bluestem, paspalum, sand cordgrass and panicums are typical grasses for this soil.

Winder loamy sand - This poorly drained, nearly level soil found in hammocks and along drainage ways. The surface layer typically is black loamy sand that is 6 inches thick. The water table is within a depth of 10 inches of the surface for 2 to 4 months and between a depth of 10

to 40 inches for most of the rest of the year. The natural vegetation associated with this soil type includes cabbage palm, willow oak, scattered long leaf and slash pine and an understory of wax myrtle and saw palmetto. This soil has high potential for dwellings without basements, small commercial buildings, local roads and streets.

5.3.3 HYDROGEOLOGY

The general hydrogeology of St. Lucie County includes two aquifer systems, the surficial and the Floridan aquifer systems. Both aquifer systems are multilayered and are variable in physical and chemical properties. The surficial aquifer system is the most widely used source of drinking water in St. Lucie County. In most parts of the county, the aquifer system contains freshwater that is easily obtainable for low-cost domestic supply. The surficial aquifer system within St. Lucie County consists of undifferentiated sediments that overlie the greenish-gray clayey sands of the intermediate confining unit (Hawthorn Formation). The surficial aquifer system consists of a relatively thin unit of undifferentiated sand, silt, and shell of Pleistocene to Holocene age overlying more permeable zones composed of thin layers of sand, silt, and clay inter-bedded with layers of limestone, coarse sand, and shell of Pliocene age. In some places, the permeable beds are absent and wells are drilled into the deeper sand, shell, and silt layers of Late Miocene age. These deeper wells also are classified as surficial aquifer system wells.

According to the Hydrological Gradient map in the EDR report, the direction of groundwater flow in the vicinity of the subject property appears to flow southwest.

5.4 HISTORICAL USE INFORMATION ON THE PROPERTY

According to the earliest available aerial photograph (1944), the 17.83 acres that make up the subject property were developed as, what appears to be, a citrus grove. In addition, a canal and Okeechobee road are tangent with the subject parcel's northwest boundary. The surrounding area slowly become developed with residential and commercial activity, as seen in aerials from years 1958 and 1970. The subject parcel remains used for agriculture until the mid-1990s, when a noticeable lack of management can be observed. From this point, the parcel remains as is, with no improvements or development.

Reasonably ascertainable aerial photographs are available for the time period back to 1944 until the present, but not necessarily or consistently in five-year intervals or as early as 1940 as preferred by ASTM E standards. The lack of aerial photographs from as early as 1940 and in consistent five-year intervals is noted as a data gap. Based on the review of available aerial photographs and other standard historical sources, the use of the subject property during the timeframe of the data gap has been adequately ascertained. Therefore, the data gap does not materially impact the performance of this Phase I ESA and is not regarded as a data failure.

5.4.1 AERIAL PHOTOGRAPHY REVIEW

In order to evaluate the previous land uses of the subject property and surrounding area, reasonably ascertainable aerial photographs were reviewed. The aerial photographs provide a progressive overview of the subject property and surrounding properties. We reviewed the 1944 to 2017 aerial photographs obtained from the Florida Department of Transportation, the State University System of Florida, EDR aerial report, the St. Lucie County Property Appraiser's Website, and Google Earth. Please note that copies of the aerial photographs reviewed during completion of this Phase I ESA are included within this report and can be found in **Appendix B**. Descriptions of EDC, Inc. observations are outlined in **Table 4**.

TABLE 4 Summary of Aerial Photograph Observations		
Photograph Date	**Photograph Quality**	**Remarks**
1944	Poor	The entire property is developed as, what appears to be, a citrus grove. The surrounding area was developed with agricultural activity. Okeechobee Road is present.
1958	Poor	No significant changes to the subject property. To the east, residential structures can be observed.
1969	Poor	No other significant changes to the subject property or its vicinity were observed since the previous aerial photograph.
1970	Very Poor	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.
1980	Poor	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.
1992	Fair	No significant changes to the subject property. Neighboring parcels to the North and Northwest now show evidence of commercial and retail development.
1994	Fair	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.
1999	Fair	Vegetation on the subject property is beginning to recruit and overgrow the former agriculture fields. No significant changes to the vicinity of the subject property were observed since the previous aerial.
2007	Good	The subject property shows further evidence agriculture activities have been abandoned. Residential construction is beginning to the northwest on the parcel across Okeechobee Road.
2010	Good	No significant changes to the subject property – the residential construction to the northwest is complete.
2013	Very Good	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.
2017	Very Good	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.

5.4.2 PROPERTY OWNERSHIP RECORDS

The current Owners of the subject property are 11765663 Canada Inc. This is confirmed by the St. Lucie County Property Appraiser's Report, which is presented in **Appendix A**.

The User did not contract EDC, Inc. to acquire a chain-of-title for the parcel comprising the subject property, which typically contains information regarding historical site ownership.

5.4.3 SANBORN FIRE INSURANCE MAP REVIEW

According to information provided by EDR, fire insurance maps generated by the Sanborn Map Company are not available for review for the subject property. The Certified Sanborn Map Report is provided in **Appendix B** following the EDR database report.

5.4.4 CITY DIRECTORY REVIEW

Historical street directories listing the former businesses at the street addresses of the subject property and adjoining properties were reviewed by EDC, Inc. during completion of this Phase I ESA. Business names listed in the directories were reviewed to try to determine if businesses generated, used, stored, or disposed of hazardous waste materials. The review did not produce any properties that represented an environmental concern.

5.4.5 LAND USE RECORDS

According to the St. Lucie County Property Appraiser's Report, the Future Land Use for the subject property is commercial. The subject property is located near government owned and another vacant commercial parcels. The table below (**Table 5**) details the structures that are located on the adjoining parcels that surround the subject property according to the St. Lucie County Property Appraiser's Report:

TABLE 5
Description of Adjoining Parcels

Parcel ID #	No. of Structures	Type of Structure	Size (Ac)	Year Built
2419-113-0001-000-6	0	Vacant Commercial	14.19	N/A
2419-111-0004-000-1	0	Vacant Gov't – R.O.W.	1.61	N/A
2419-111-0003-000-4	0	Vacant Gov't – Canal	6.51	N/A

5.4.6 OTHER HISTORICAL SOURCES

A Historical Topographic Map Report was obtained from EDR during completion of this Phase I ESA. The USGS topographic quadrangle map titled "Fort Pierce", which includes the subject property, was available for the following years: 1949, 1950, 1970, 1972, 1983, 2012, 2015 and 2018 descriptions of our review of the historical topographic maps are outlined in **Table 6**. The Historical Topographic Map Report is provided in **Appendix B** following the EDR database report.

TABLE 6
Summary of Historical Topographic Map Observations

Map Date	Remarks
1949	The 17.83 acres that make up the subject property is developed as, what appears to be, a grove. Okeechobee Road is present
1950	There are no significant changes since the previous topographical image.
1970	The subject property is still designated for agriculture, residential development can be observed.
1972	The surrounding areas all remain in use as agriculture.
1983	Residential and commercial development has significantly increased.

2012	Roads have been widened and improved to fit the area's needs.
2015	There are no significant changes since the previous topographical image.
2018	There are no significant changes since the previous topographical image.

No other historical sources were reviewed during this assessment.

5.5 HISTORICAL USE INFORMATION ON ADJOINING PARCELS

None of the past uses of the parcels adjoining the subject property appear likely to indicate recognized environmental conditions in connection with the subject property.

6.0 INFORMATION FROM SITE RECONNAISSANCE

The objective of the site reconnaissance is to obtain information indicating the likelihood of identifying recognized environmental conditions in connection with the subject property. On a visit to the subject property, the property shall be visually and/or physically observed, and any structure(s) located on the subject property to the extent not obstructed by bodies of water, adjacent buildings, or other obstacles shall be observed.

On January 14, 2022, a site reconnaissance of the subject property was completed by a representative of EDC, Inc. The purpose was to evaluate the current conditions of the subject property and to obtain information indicating the likelihood of identifying recognized environmental conditions in connection with the subject property.

6.1 METHODOLOGY AND LIMITING CONDITIONS

The site reconnaissance included visually and/or physically observing the periphery of the subject property and the periphery of the structures located on the subject property. Aerial photographs are included in **Appendix B**. Site photographs are included in **Appendix D**.

6.2 GENERAL SITE SETTING

The subject property consists of one tax parcel that is comprised of 17.83 acres of vacant commercial land located within an area of commercial and residential properties in Fort Pierce, FL. The Parcel ID is 2419-111-0002-000-7.

6.3 EXTERIOR OBSERVATIONS

During our site reconnaissance, the subject property was vacant commercial, formerly used for agricultural purposes. There are two frontage billboard towers on site. No dipping vats or any other recognized environmental concerns were identified on the property. No structures were observed on the property.

We found no evidence of obvious surface discharges such as stained soil or pavement, no indication of solid or liquid waste dumping or disposal, no evidence of USTs, unusual odors, pits, stressed vegetation, or roads/paths with no outlet likely to have been used for disposal of hazardous wastes or petroleum products on the subject property. Please refer to **Appendix D** to review the site photographs.

6.4 INTERIOR OBSERVATIONS

During our site reconnaissance, no enclosed structures were found onsite.

7 INTERVIEWS

7.1 INTERVIEW WITH SITE OWNER

EDC, Inc. has not received any communication response from the current site owner.

7.2 INTERVIEW WITH SITE MANAGER

Please refer Section 7.1 for information regarding the Owner/User Interview. Interview documentation is included in **Appendix E**.

7.3 INTERVIEW WITH OCCUPANTS

Please refer Section 7.1 for information regarding the Owner/User Interview. Interview documentation is included in **Appendix E**.

7.4 INTERVIEW WITH LOCAL GOVERNMENT OFFICIALS

No local government officials were interviewed during the completion of this Phase I ESA.

7.5 INTERVIEW WITH USER

Please refer Section 7.1 for information regarding the Owner/User Interview.

7.6 INTERVIEW WITH OTHERS

No other individuals were interviewed during the completion of this Phase I ESA.

8 FINDINGS

Based on our field observations, historical research, public records review, and interviews conducted in accordance with ASTME, the findings of this Phase I ESA are as follows:

- We identified eight (8) Leaking Underground Storage Tank (LUST) facilities within the minimum search distance as specified by ASTM-E standards. The facility was found to be closed and in compliance. Please refer to **Table 3** for more information.

- We identified one (1) Aboveground Storage Tank (AST) facilities within the minimum search distance as specified by the ASTM-E standards. The facility is located on the target property and was found to be in compliance. Please refer to **Table 3** for more information.

9 OPINION

The following is our opinion pertaining to the findings referenced above:

- We found no evidence indicating the subject property being adversely affected by any facilities in the vicinity of the subject property.

10 CONCLUSIONS

We have performed this Phase I ESA in conformance with the scope and limitations of ASTM Practice E 1527-13. The subject property consists of one tax parcels that is comprised of approximately 17.83 acres of vacant commercial land. The subject property is located at 3000 Virginia Avenue, in Fort Pierce, St. Lucie County, Florida and is located within the following Section/Township/Range; Section 09, Township 35 South and Range 40 East (Parcel ID: 2419-111-0002-000-7). Any exception to or deletions from this practice are described in Sections 2.2, 2.3, and 2.4 of this report. This assessment has revealed no evidence of unresolved recognized environmental conditions in connection with the subject property and no further assessment is warranted at this time.

Please note that an environmental liens or activity and use limitations search was not performed for the subject property. In accordance with ASTM E 1527-13, it is the responsibility of the User of this report to undertake a review of reasonable ascertainable recorded land title records and lien records for environmental liens or activity and use limitations recorded against or relating to the subject property. In the event that any are identified, please contact EDC, Inc. immediately for further evaluation.

In order to remain eligible for CERCLA liability protections, continuing obligations will need to be followed at the subject property. The User has the continuing obligation not to impede the integrity and effectiveness of activity and land use limitations, the duty to take reasonable steps to prevent releases, and the duty to comply with legally required release reporting obligations.

11 DEVIATIONS

EDC, Inc. prepared this Phase I ESA in compliance with ASTM E 1527-13.

The following data gaps were encountered during completion of this Phase I ESA:

- Data gaps were encountered in the historical aerial photograph review due to the lack of available photographs as early as 1940 and in five-year intervals as preferred by ASTM-E standards. Based on our review of the available aerial photographs along with additional historical information found during review of other sources, the data gap does not appear to be significant to the findings of this report and does not appear to constitute as a data failure.

- The chain-of-title documentation or recorded land title records for environmental liens or activity and use limitations currently recorded against or relating to the subject property were not provided to EDC, Inc. during completion of this Phase I ESA.

12 ADDITIONAL SERVICES

Under the terms of the agreement between EDC, Inc. and The Brownstone Group, no additional services are being provided in association with this Phase I ESA.

13 REFERENCES

References reviewed during the Phase I ESA are documented in **Appendix F**.

14 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

Please refer to the title page for signatures of the environmental professionals who prepared and reviewed this Phase I ESA.

15 QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

This assessment was completed by Anthony A. Adams, BS, Senior Biologist, and reviewed by Tobin R. Overdorf, MS, MBA, Vice President, both employees of EDC, Inc. We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312 and we have specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the site. We have developed and performed the all-appropriate inquiries in conformance with the standards and practices outlined in 40 CFR Part 312. Qualifications of personnel participating in this assessment are provided in **Appendix G**.

Reference: Phase I Environmental Site Assessment
Hartman Road – 14 acres
Fort Pierce, Florida

EDC, Inc. has completed this Phase I Environmental Site Assessment (ESA) Report in compliance with the American Society for Testing and Materials (ASTM) format E 1527-13 for the above-referenced property. The purpose of this evaluation was to identify recognized environmental conditions as defined in ASTM E 1527-13.

Based on the results of the Phase I ESA conducted at the subject property, no unresolved recognized environmental conditions have been identified in connection with the subject property, and no further assessment is warranted at this time.

Further, please note that an environmental liens or activity and use limitations search was not performed for the subject property. In accordance with ASTM E 1527-13, it is the responsibility of the User of this report to undertake a review of reasonable ascertainable recorded land title records and lien records for environmental liens or activity and use limitations recorded against or relating to the subject property. In the event that any are identified, please contact EDC, Inc. immediately for further evaluation.

EDC, Inc. appreciates this opportunity to provide environmental services to you. Please contact me if you have any questions regarding this report.

Respectfully submitted,
EDC Inc.

1.0 SUMMARY

The subject property evaluated as part of this Phase I Environmental Site Assessment (ESA) consists of one (1) tax parcel (Parcel ID: 2419-113-0001-000-6) comprised of 14.17 acres. The property is classified by the St. Lucie County Property Appraiser as vacant commercial property (land use code 1000). The subject property is located on the west side of S 41st Street, south of Virginia Avenue, and southeast of Okeechobee Road in Fort Pierce, Florida. The subject property is further located within Section 19, Township 35 South and Range 40 East. Please refer to the Site Location Map presented in **Appendix A** for a visual explanation of the subject property**.**

[NOTE: Please review this report in its entirety for a full description of our evaluation, procedures, and findings.]

Based on the findings of this Phase I ESA conducted in accordance with American Society for Testing and Materials (ASTM) format E1527-13, we conclude the following:

1. We found no evidence of unresolved recognized environmental conditions with respect to past uses of the subject property based on our field observations, historical research, and public records review.

2. We found no indications of hazardous waste dumping or disposal, underground storage tanks (USTs), septic systems, seeps, unusual odors, stressed vegetation, or roads/paths with no outlet likely to have been used for disposal of hazardous wastes or petroleum products at the subject property.

3. We found nine (9) Underground Storage Tank (UST) facilities within the minimum search distance as specified by ASTM-E standards. Three facilities were found to be out of compliance and one facility is undergoing remedial action. Please refer to **Table 3** for further details.

4. We found two (2) Aboveground Storage Tank (AST) facilities within the minimum search distance as specified by ASTM-E standards. One of the facilities was found to be out of compliance. Please refer to **Table 3** for further details.

5. We found eight (8) Leaking Underground Storage Tank (LUST) facilities within the minimum search distance as specified by ASTM-E standards. Three facilities were found to be out of compliance and one facility is undergoing remedial action. Please refer to **Table 3** for further details.

6. We found four (4) Very small quantity generator (VSQG) facilities within the minimum search distance as specified by ASTM-E standards. All facilities were found to be in compliance. Please refer to **Table 3** for further details.

7. We found three (3) Department of Waste Management Contamination (DWM CONTAM) facilities within the minimum search distance as specified by ASTM-E standards. Two of the facilities were found to be out of compliance. Please refer to **Table 3** for further details.

Based on the conclusions of the Phase I ESA conducted at the referenced site, EDC, Inc. did not find evidence of unresolved recognized environmental conditions and further assessment is not warranted at this time.

Please note that an environmental liens or activity and use limitations search was not performed for the subject property. In accordance with ASTM E 1527-13, it is the responsibility of the User of this report to undertake a review of reasonable ascertainable recorded land title records and lien records for environmental liens or activity and use limitations recorded against or relating to the subject property. In the event that any are identified, please contact EDC, Inc immediately for further evaluation and we will run the environmental liens search.

It is important to note that in order to remain eligible for CERCLA liability protections, continuing obligations will need to be followed at the subject property. The User has the continuing obligation not to impede the integrity and effectiveness of activity and land use limitations, the duty to take reasonable steps to prevent releases, and the duty to comply with legally required release reporting obligations.

2.0 INTRODUCTION

2.1 PURPOSE

The purpose of this assessment is to conduct an evaluation of the past and current uses of the subject property and surrounding properties to identify recognized environmental conditions in connection with the subject property.

The term “recognized environmental conditions” means the presence of likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the subject property or into the ground, groundwater, or surface water of the subject property. This environmental assessment was conducted in accordance with the guidelines of the ASTM E 1527-13 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process. This assessment was also intended to identify potential off-site contaminant sources within the distances set forth in ASTM E 1527-13.

2.2 DETAILED SCOPE OF SERVICES

The contracted scope of services consists of the preparation of a Phase I ESA of the subject property in accordance with the guidelines set forth in ASTM E 1527-13. The purpose of the ASTM E 1527-13 Standard Practice for Environmental Site Assessments is to define good commercial and customary practice in the United States of America for conducting an environmental site assessment with respect to the range of contaminants within the scope of Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C. §9601) and petroleum products.

The scope of work does not include soil or groundwater sampling; contamination assessment/delineation; an evaluation of asbestos, lead-based paint, radon, wetlands, lead in drinking water, environmental compliance, threatened & endangered species, cultural resources, industrial hygiene, health and safety, ecological resources, indoor air quality; site geotechnics (soils, foundations, site retention, etc.) or construction materials testing. If necessary, EDC, Inc. can provide these additional services.

2.3 SIGNIFICANT ASSUMPTIONS

No environmental site assessment can wholly eliminate uncertainty regarding the potential for recognized environmental conditions in connection with a property. Performance of a Phase I ESA in conformance with ASTM E 1527-13 is intended to reduce, but not eliminate, uncertainty regarding the potential for recognized environmental conditions in connection with a property. This assessment is site-specific, and all appropriate inquiry does not mean an exhaustive assessment of a clean property.

2.4 LIMITATIONS AND EXCEPTIONS

The findings of this report represent our professional judgment. These findings are relevant to the dates of our site work and the information cited herein. This report should not be relied upon to represent property conditions on other dates or at locations other than those specifically cited within this report.

The following limitations were encountered during completion of this Phase I ESA:

- Data gaps were encountered in the historical aerial photograph review due to the lack of available photographs in five-year intervals as preferred by ASTM-E standards. Based on our review of the available aerial photographs along with additional historical information found during review of other sources, the data gap does not appear to be significant to the findings of this report and does not appear to constitute as a data failure.

- The chain-of-title documentation or recorded land title records for environmental liens or activity and use limitations currently recorded against or relating to the subject property were not provided to EDC, Inc. during completion of this Phase I ESA.

2.5 SPECIAL TERMS AND CONDITIONS

Any special terms and conditions associated with this Phase I ESA are included in the Environmental Consulting Services Agreement and the Addendum to Contractual Agreements between EDC, Inc. and Brownstone Group.

In addition, EDC shall not be held liable for any incorrect advice, judgment or decision based on any inaccurate information supplied by the user, current owner, or their designees.

2.6 USER RELIANCE

This report is intended for the sole use of EDC Inc. and Brownstone Group. Its contents may not be relied upon by other parties without the explicit written consent of EDC, Inc.

In accepting this report, all parties herein mentioned agree to the Environmental Consulting Services Agreement and the Addendum to Contractual Agreements between EDC, Inc. and Brownstone Group.

3.0 SITE DESCRIPTION

3.1 LOCATION AND LEGAL DESCRIPTION

The subject property is located within Section 19, Township 35 South and Range 40 East on the west side of S 41st Street, south of Virginia Avenue, and southeast of Okeechobee Road in Fort Pierce, Florida. More specifically, the subject property consists of one tax parcel comprised of 14.17 acres of vacant commercial. The legal description for the tax parcels is as follows, 19 35 40 S 1/2 OF S 1/2 OF NE 1/4 OF NE 1/4-LESS HARTMAN RD R/W- AND NW 1/4 OF SE 1/4 OF NE 1/4 LYG N AND E OF FIVE MILE CREEK(14.17 AC) (OR 3631-594).

Visual representation of the property boundary, aerial photographs, and property appraiser cards are presented in **Appendix A**.

3.2 PROPERTY AND VICINITY CHARACTERISTICS

At the time of this assessment, the subject property consisted of 14.17 acres of vacant commercial property. The property vicinity is characterized primarily by residential, commercial, and vacant commercial properties. Please refer to the Site Location Map in **Appendix A**.

3.3 CURRENT USE OF THE PROPERTY

At the time of the site reconnaissance, the subject property consisted of 14.17 acres of vacant commercial property comprised of urban open forest and temperate hammock.

3.4 STRUCTURES, ROADS, AND/OR OTHER IMPROVEMENTS WITHIN THE PROPERTY

The subject property is undeveloped and does not consist of any improvements.

3.5 CURRENT USE OF ADJOINING PARCELS

Currently, the parcels adjoining the site are used as follows:

TABLE 1
Description of Adjoining Parcels

Direction From Site	Description of Current Use
North	Vacant commercial
East	S 41st Street and residential properties
South	Residential properties and NSLRWCD canal
West	NSLRWCD canal

None of the current uses of the adjoining properties appear likely to indicate the presence of recognized environmental conditions in connection with the subject property.

4.0 USER PROVIDED INFORMATION

The User did not provide EDC with information pertaining to the following sections. This information was collected by EDC, Inc.

4.1 TITLE RECORDS

According to the St. Lucie County Property Appraiser's Report, the current owner of the subject property is Fort Pierce Hartman LLC.

The User did not contract EDC, Inc. to acquire a chain-of-title for the parcels comprising the subject property, which typically contains information regarding historical site ownership. The last known sale of the property was on May 9, 2014 by Stream Asset Holdings LLC.

4.2 ENVIRONMENTAL LIENS OR ACTIVITY AND USE LIMITATIONS

The User did not provide information on any environmental liens or activity and use limitations on the subject property that are filed or recorded under federal, tribal, state, or local laws.

Please note that an environmental liens or activity and use limitations search report was not acquired by EDC, Inc. for the parcel comprising the subject property. In order to qualify for due diligence, the User of this report may be required to contact a title company to confirm that there are no environmental liens or activity and use limitations filed for the parcel comprising the subject property. In the event that any are identified, please contact EDC, Inc. immediately for further evaluation.

4.3 SPECIALIZED KNOWLEDGE

The User did not provide any specialized knowledge or experience that may pertain to recognized environmental conditions in connection with the subject property.

4.4 VALUATION REDUCTION FOR ENVIRONMENTAL ISSUES

The User did not provide any information on the purchase price being paid for the subject property. Information pertaining to the assessed value of the subject property is included in the Saint County Property Appraiser's Report presented in **Appendix A**.

4.5 OWNER, PROPERTY MANAGER, AND OCCUPANT INFORMATION

According to the St. Lucie County Property Appraiser's Report, the current owner of the subject property is Fort Pierce Hartman LLC. Please refer to the St. Lucie County Property Appraiser's Report included in **Appendix A**.

4.6 REASON FOR PERFORMING PHASE I ESA

The User stated the reason for requesting this Phase I ESA was for Due Diligence associated with purchasing of the property. Therefore, the User contracted EDC, Inc. to perform this Phase I ESA in conjunction with a real estate transaction for the prospective owner to satisfy one of the requirements to qualify for the innocent purchaser defense, contiguous property owner or bona fide prospective purchaser limitations on CERCLA liability.

4.7 COMMONLY KNOWN OR REASONABLY ASCERTAINABLE INFORMATION ABOUT THE PROPERTY

The User did not provide any information regarding any specific chemicals that are present or were once present at the subject property, spills or other chemical releases that have taken place at the subject property, or any environmental cleanups that have taken place at the subject property.

5.0 RECORDS REVIEW

The purpose of the records review is to obtain and review records that will help identify recognized environmental conditions in connection with the site. Accuracy and completeness of record information varies among information sources, including government sources. Record information is often inaccurate or incomplete. Standard sources that are reasonably ascertainable were reviewed by EDC, Inc. for this Phase I ESA.

5.1 STANDARD ENVIRONMENTAL RECORD SOURCES

As part of this assessment, we reviewed information sources to obtain existing information pertaining to a release of hazardous substances or petroleum products on or near the site. EDC, Inc. obtained an ASTM-E radius map report through Environmental Data Resources, Inc. (EDR). A copy of the EDR report is contained in **Appendix B**. EDC, Inc. also reviewed other available standard environmental record sources at the Florida Department of Environmental Protection (FDEP), as needed. The following state, county, and federal sources were consulted during this record review:

State, County, and Tribal Database Review (FDEP and MCHD)

- FDEP, Leaking Underground Storage Tanks (LUST)
- FDEP, Leaking Aboveground Storage Tanks (LAST)
- FDEP, Registered Underground Storage Tanks (UST)
- FDEP, Registered Aboveground Storage Tanks (AST)
- FDEP, State Hazardous Waste Sites (SHWS)
- FDEP, Solid Waste Facility/Landfill Sites (SWL/LF)
- FDEP, State Brownfield Areas (BROWNFIELDS)
- FDEP, Voluntary Cleanup Sites (VCP)
- FDEP, Institutional Controls & Engineering Controls Registry (IC & EC)

Federal Database Review [United States Environmental Protection Agency (EPA)

- EPA, National Priorities List (NPL), including Delisted and Proposed NPL Sites and Federal Superfund Liens
- EPA, Comprehensive Environmental Response Compensation and Liability Act Information System (CERCLIS)
- EPA, CERCLIS No Further Remedial Action Planned (CERCLIS-NFRAP)
- EPA, RCRA Treatment, Storage, and Disposal Facilities (RCRA-TSDF)
- EPA, RCRA Corrective Action Report Facilities (CORRACTS)
- EPA, RCRA Generators List (RCRA), including Large Quantity Generators (LQG), Small Quantity Generators (SQG) and Conditionally Exempt Small Quantity Generators (CESQG)

- EPA, Institutional Controls & Engineering Controls Registry (US IC & US EC)
- EPA, Emergency Response Notification System List (ERNS)

Table 2 lists the approximate minimum search distances used during this assessment as set forth in ASTM E 1527-05.

TABLE 2

5.1.1 FEDERAL, FLORIDA STATE, AND ST. LUCIE COUNTY RECORDS REVIEW

According to information provided by EDR and/or the FDEP Web-Based Map Application for Waste Management Division Facilities, the subject property is not listed in the federal, state or county databases. Please refer to **Table 3** for a summary of information regarding these facilities. Please refer to the FDEP and groundwater flow maps in **Appendix A**, EDR report in **Appendix B**, and supplemental documents in **Appendix C** for supporting documentation.

State/Federal Database Descriptions for Table 3	
Database Abbreviation	**Description**
AST	Registered aboveground storage tank locations.
CLEANUP SITES	
DWM CONTAM	
ECHO	ECHO (Enforcement & Compliance History Information) provides integrated compliance and enforcement information for about 800,000 regulated facilities nationwide.
FDEP	Florida Department of Environmental Protection is the state's lead agency for environmental management and stewardship, protecting our air, water and land.
FINDS	Facility Index System. FINDS contains both facility information and 'pointers' to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).
FINANCIAL ASSURANCE	A list of hazardous waste facilities required to provide financial assurance under RCRA.
HW GEN	Small Quantity Hazardous Waste Generators are regulated under the federal Resource Conservation and Recovery Act (RCRA) and applicable state regulations as generators of hazardous wastes in quantities greater than 100 Kg but less than 1,000 Kg in any one calendar month. Large Quantity Generators of Hazardous Waste are tracked in this coverage based on their notification to the Department of Environmental Protection as to their handler status, or based on inspections conducted at their facilities. These facilities are regulated under the federal Resource Conservation and Recovery Act (RCRA) and applicable state regulations as generators of hazardous wastes in quantities equal to or greater than 1,000 Kg in any one calendar month.

INST CONTROL	
LUST	
NEXUS	Nexus is a user-friendly search interface to retrieve documents from DEP's OCULUS archival database which houses permits and other publicly available documents.
NPDES	General information regarding NPDES(National Pollutant Discharge Elimination System) permits.
PFAS	
RCRA NONGEN/NLR	
RCRA-SQG	RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.
RCRA-VSQG	RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

SPILLS	
UST	Registered Underground Storage Tanks. UST's are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA) and must be registered with the state department responsible for administering the UST program. Available information varies by state program.

TABLE 3 State/Federal Database Facility Identified Within Minimum Search Distance			
Facility	**Location**	**Database**	**File Review Summary**
Firestone Store 4160 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1000881247 EDR ID: U001373008 EPA ID: FLD982138836	Approximately 0.096 miles northwest of the subject property	RCRA-VSQG FINDS ECHO LUST UST AST	According to the EDR Report and Oculus documents, this facility is open and is described as a fuel user/non-retail facility. This facility submitted a discharge reporting form on December 22, 1988 and no cleanup was required. According to the ECHO report, the date of last compliance monitoring for RCRA was on February 1, 1990 and no violations were identified. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being in compliance. Please refer to **Appendix C** for supporting documentation.
HESS Corporation #09386 4696 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1004684404 EPA ID: FLD984261610	Approximately 0.132 miles west of the subject property	RCRA-VSQG FINDS ECHO	According to the EDR Report, no violations have been identified for this facility. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being in compliance. Please refer to **Appendix C** for supporting documentation.
Shell-Okeechobee 4696 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1000843296	Approximately 0.132 miles west of the subject property	LUST UST SPILLS FL FINANCIAL ASSURANCE 3	According to the EDR Report and Oculus documents, this facility is open is described as a retail station facility. The facility submitted a discharge reporting form on September 25, 1997 and cleanup was completed on May 16, 2019. Another discharge reporting form was submitted September 25, 1997 and No Further Action was approved on May 9, 2019. According to the most recent FDEP inspection report, the facility was found to be in major out of compliance on March 23, 2021. The violations included failure to perform annual tests on equipment, water/regulated substances not timely removed, and failure to conduct visual inspections. The likelihood of the subject property being adversely affected by the facility appears low due to there being no reports of contamination. Please refer to **Appendix C** for supporting documentation.
Becker Indian River Fruit CO 4710 Okeechobee Road Fort Pierce, FL 34947 EDR ID: U001373065	Approximately 0.150 miles west of the subject property	UST	According to the EDR Report and Oculus documents, this facility is closed and is described as an agricultural facility. The site has had two USTs removed on June 30, 1987. There was potential petroleum contamination during the removal of the

			tanks. No further action was approved in 2003 according to a letter to FDEP. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being in compliance. Please refer to **Appendix C** for supporting documentation.
Beverage Station 4101 Okeechobee Road Fort Pierce, FL 34947 EDR ID: U001373122	Approximately 0.202 miles north/northeast of the subject property	LUST UST CLEANUP SITE DWM CONTAM FL FINANCIAL ASSURANCE 3 WASTEWATER	According to the EDR Report and Oculus documents, this facility is open and is described as a retail station facility. The subject property submitted a discharge reporting form on July 19, 1988. Remedial action is ongoing. According to the Natural Attenuation Monitoring Report from March 23, 2022, contaminants such as dissolved benzene concentrations have been detected above State Groundwater Cleanup Target Levels (GCTLs) for eight consecutive sampling events dating back to July 2018. Based on the recent samplings from 2020-2022, the contamination plume is confined to the site. According to a FDEP letter issued on April 5, 2022, the Natural Attenuation Monitoring Report was approved and remedial action should begin soon. The likelihood of the subject property being adversely affected by the facility appears low due to the contamination being confined onsite and the site planned to undergo remedial action. Please refer to **Appendix C** for supporting documentation.
Sears Roebucks & CO #2005 4204 Okeechobee Road Fort Pierce, FL 34947 EDR ID: U001372937 EDR ID: 1015741349 EDR ID: 1014468984 EPA ID: FLD984251082 EPA ID: FLTMP8901794	Approximately 0.203 miles north/northwest of the subject property	LUST UST RCRA NONGEN/NLR RCRA-VSQG	According to the EDR Report and Oculus documents, this facility is closed and is described as a fuel user/non-retail facility. The facility submitted a discharge reporting form on December 29, 1998 and cleanup was completed on December 3, 2004. No violations were identified at this facility. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being closed and in compliance. Please refer to **Appendix C** for supporting documentation.
Tractor Supply CO #505 4888 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1016955841 EPA ID: FLR000210914	Approximately 0.232 miles west of the subject property	RCRA-VSQG	According to the EDR and Nexus documents, FDEP conducted a Hazardous Waste Inspection on February 4, 2019 and the facility was found to be in compliance. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being in compliance. Please

			refer to **Appendix C** for supporting documentation.
Indian River State College – Training Area 4600 Kirby Loop Fort Pierce, FL 34981 EDR ID: S125296659	Approximately 0.387 miles south/southwest of the subject property	CLEANUP SITE DWM CONTAM SITE INV SITES PFAS	According to the EDR Report and Oculus documents, a Preliminary Assessment was conducted at the facility in June 2019 where concentrations of per- and polyfluoroalkyl substances (PFAS) were detected above FDEP's CTLs in soil and groundwater. The PFAS are believed to have come from the use of aqueous film forming foam (AFFF) used by firefighting or in this case, fire-training facilities to extinguish hydrocarbon fires. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being located at a down gradient from the subject property as well as located outside of the subject property's vector encroachment area of concern. Please refer to **Appendix C** for supporting documentation.
WAL-MART Supercenter #973 5100 Okeechobee Road Fort Pierce, FL 34947 EDR ID: S107938607	Approximately 0.417 miles west of the subject property	INST CONTROL DWM CONTAM FL FINANCIAL ASSURANCE 3 HW GEN RESP PARTY	According to the EDR Report and Nexus documents, FDEP conducted a Hazardous Waste Inspection on December 6, 2016 and the facility was found to be in compliance. According to a letter from FDEP dated June 26, 2020, the facility is currently permitted as No Active Hazardous Waste Treatment, Storage, or Disposal Permit. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being in compliance. Please refer to **Appendix C** for supporting documentation.
Murphy USA #5709 5110 Okeechobee Road Fort Pierce, FL 34950 EDR ID: U003699249	Approximately 0.435 miles west/southwest of the subject property	LUST UST FL FINANCIAL ASSURANCE 3	According to the EDR Report and Oculus documents, this facility is open and is described as a retail station. The facility submitted a discharge reporting form on August 11, 2010 and cleanup was completed on June 15, 2017. According to the FDEP inspection conducted on March 15, 2022, the facility was found to be in major out of compliance. The facility consisted of the following violations, failure to provide documentation, equipment repair needed, improper maintenance of records, and inaccessible areas for inspection. The likelihood of the subject property being adversely affected by the facility appears low due to there being no reports of contamination and the facility being located at a down gradient from the subject property.

			Please refer to **Appendix C** for supporting documentation.
Indian River Oil CO 3700 Okeechobee Road Fort Pierce, FL 34947 EDR ID: S120043074	Approximately 0.445 miles northeast of the subject property	LUST AST FL FINANCIAL ASSURANCE 3	According to the EDR Report and Oculus documents, this facility is closed and is described as a bulk storage facility. The facility submitted a discharge reporting form on September 26, 1988 and cleanup was completed on May 24, 2013. FDEP conducted an inspection on July 19, 2018 and the facility was found to be in minor out of compliance. The violations included over due financial responsibility. The likelihood of the subject property being adversely affected by the facility appears low due to there being no reports of contamination. Please refer to **Appendix C** for supporting documentation.
WALMART #973 McClinton Property Okeechobee Rd & McNeil Rd Fort Pierce, FL 34947 EDR ID: S117361413	Approximately 0.452 miles west of the subject property	RESP PARTY	According to the EDR report, there are no reports of violations for this facility. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being in compliance. Please refer to **Appendix C** for supporting documentation.
Circle K #7506 2301 S 35th St & Virginia Ave Fort Pierce, FL 34981 EDR ID: 1000822408	Approximately 0.470 miles east/northeast of the subject property	LUST UST FL FINANCIAL ASSURANCE 3	According to the EDR Report and Oculus documents, this facility is open and is described as a fuel user/non-retail facility. The facility submitted a discharge reporting form on January 22, 1997 and cleanup was completed on February 19, 2001. FDEP conducted an inspection on March 4, 2021 and the facility was found to be in compliance. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being in compliance. Please refer to **Appendix C** for supporting documentation.
Fort Pierce Contracting Corp 1819 Totten Road Fort Pierce, FL 34947 EDR ID: U001373016	Approximately 0.483 miles north/northeast of the subject property	LUST UST AST	According to the EDR Report and Oculus documents, this facility is closed and is described as a fuel user/non-retail facility. The facility submitted a discharge reporting form on August 22, 1991 and cleanup was completed on August 30, 2013. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being in compliance. Please refer to **Appendix C** for supporting documentation.

In addition to reviewing the EDR report, EDC, Inc. performed reconnaissance of the property vicinity to identify any sites not mapped by EDR due to inadequate or inaccurate address

information and to look for unregistered facilities. No facilities of concern were observed within the vicinity of the subject property during field reconnaissance performed by EDC, Inc.

5.2 ADDITIONAL ENVIRONMENTAL RECORDS

The following is a list of some of the additional environmental records that were searched as part of the EDR Radius Map Report: Priority Ranking List (PRIORITYCLEANERS), Formerly Used Defense Sites (FUDS), Records of Decision (ROD), Mines Master Index File (US MINES), Toxic Chemical Release Inventory System (TRIS), Risk Management Plans (RMP), Underground Injection Wells Database Listing (UIC), Drycleaning Facilities (DRYCLEANERS), and PCB Transformer Registration Database (PCB TRANSFORMER).

EDC searched the FDEP Consolidated Web-Based Map Application for Waste Management Division facilities (e.g., solid waste facilities, storage tanks, dry cleaning sites, hazardous waste generators, etc.) located on the subject property and adjoining properties. The map is available for review in **Appendix A**. The search included the Storage Tank Regulation, Solid Waste, Site investigation, Hazardous Waste Program, and the Waste Cleanup database, among others. Any new findings revealed on the database are included in **Table 3**.

EDC reviewed the Florida Department of Community Affairs (DCA) Florida Radon Protection Map for Large Buildings and New Single Family Homes and Duplexes. More than 5% of new large buildings in St. Lucie County are expected to have annual average radon levels above the EPA action level and fewer than 5% new homes are expected to have elevated radon levels. The map indicated that the general area where the site is located (St. Lucie County) is designated as Federal EPA Radon Zone 3. This criteria states that the counties within this zone are those with a predicted radon level less than 2 pCi/L or otherwise known as low risk

5.3 PHYSICAL SETTING SOURCES

According to the EDR report, USGS topographic quadrangle map, soil survey, and regulatory files available regarding properties of environmental concern in the property vicinity were reviewed as sources for obtaining information regarding the physical setting of the subject property and surrounding vicinity.

Based on our site reconnaissance, review of USGS maps, aerial photographs, the location of the subject property, and the present environmental related conditions of adjacent and nearby properties, there is little to no potential for migration of petroleum product or hazardous waste contamination from off-site sources.

5.3.1 TOPOGRAPHY

The USGS topographic quadrangle maps titled “Fort Pierce” and “Fort Pierce NW” was referenced as a source for obtaining information regarding the physical setting of the subject property and surrounding vicinity. The subject property is located at an elevation of approximately 10.25 feet above sea level.

According to the EDR Report, the groundwater within the minimum search distances is flowing south. A copy of the USGS Quadrangle Map is provided as **Appendix B**.

5.3.2 SOILS/GEOLOGY

The general geology of St. Lucie County is characterized by the Caloosahatchee Marl which underlies the entire area, is of Pliocene age, and consists mainly of sand and varying amounts of shell. The Fort Thompson Formation rests uncomfortably on the Caloosahatchee Marl; dips from west to east; is of Pleistocene age; and consists of a series of alternating beds of limestone, shells, sand, and marl. The Anastasia Formation which is of Pleistocene age and rests uncomfortably on the Fort Thompson Formation forms the backbone of the coastal ridge, is exposed in several places along the ocean shoreline, and consists of sand and shell beds and thin, discontinuous layers of sandy limestone and sandstone. Pamlico Sand of the late Pleistocene age mantles the entire area and is the basic material in which most of the mineral soils have formed.

According to the United States Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS) Web Soil Survey, surficial soils at the subject property are classified as the following:

Riviera fine sand, frequently ponded, 0 to 2% slopes – This poorly drained, nearly level soil is found in hammocks and along drainage ways. The surface layer is dark gray brown fine sand about 5 inches thick. The soil has a water table at a depth of less than 10 inches for 2 to 4 months in most years and at a depth of 10 to 30 inches for most of the rest of the year. Permeability is rapid in the surface and subsurface layers and is slow to very slow in the subsoil, and rapid in the substratum. Natural vegetation includes cabbage palms and scattered longleaf pine and slash pine and an understory of wax myrtle and saw palmetto. The most common native grasses are pineland threeawn and blue maidencane. Broom sedges, creeping bluestem, paspalum, sand cordgrass and panicums are typical grasses for this soil.

Winder loamy sand – This is a poorly drained, nearly level soil found in hammocks and along drainage ways. The surface layer typically is black loamy sand that is 6 inches thick. The water table is within a depth of 10 inches of the surface for 2 to 4 months and between a depth of 10 to 40 inches for most of the rest of the year. The natural vegetation associated with this soil type includes cabbage palm, willow oak, scattered long leaf and slash pine and an understory of wax myrtle and saw palmetto. This soil has high potential for dwellings without basements, small commercial buildings, local roads and streets.

5.3.3 HYDROGEOLOGY

The general hydrogeology of St. Lucie County includes two aquifer systems, the surficial and the Floridan aquifer systems. Both aquifer systems are multilayered and are variable in physical and chemical properties. The surficial aquifer system is the most widely used source of drinking water in St. Lucie County. In most parts of the county, the aquifer system contains freshwater that is easily obtainable for low-cost domestic supply. The surficial aquifer system within St. Lucie County consists of undifferentiated sediments that overlie the greenish-gray clayey sands of the intermediate confining unit (Hawthorn Formation). The surficial aquifer system consists of a relatively thin unit of undifferentiated sand, silt, and shell of Pleistocene to Holocene age overlying more permeable zones composed of thin layers of sand, silt, and clay inter-bedded with layers of limestone, coarse sand, and shell of Pliocene age. In some places, the permeable beds are absent and wells are drilled into the deeper sand, shell, and silt layers of Late Miocene age. These deeper wells also are classified as surficial aquifer system wells.

According to the Hydrological Gradient map in the EDR report, the direction of groundwater flow in the vicinity of the subject property appears to flow south.

5.4 HISTORICAL USE INFORMATION ON THE PROPERTY

According to the earliest available aerial photograph (1944), the subject property consisted of an operational grove that appeared to be out of production sometime between 1970 and 1980. The vegetation located onsite has since then reclaimed the site and, in some areas, returned to a native temperate hammock.

Reasonably ascertainable aerial photographs are available for the time period back to 1940 until the present, but not necessarily or consistently in five-year intervals or as early as 1940 as preferred by ASTM E standards. The lack of aerial photographs in consistent five-year intervals or as early as 1940 is noted as a data gap. Based on the review of available aerial photographs and other standard historical sources, the use of the subject property during the timeframe of the data gap has been adequately ascertained. Therefore, the data gap does not materially impact the performance of this Phase I ESA and is not regarded as a data failure.

5.4.1 AERIAL PHOTOGRAPHY REVIEW

In order to evaluate the previous land uses of the subject property and surrounding area, reasonably ascertainable aerial photographs were reviewed. The aerial photographs provide a progressive overview of the subject property and surrounding properties. We reviewed the 1944 to 2017 aerial photographs obtained from the Florida Department of Transportation, the State University System of Florida, EDR aerial report, the St. Lucie County Property Appraiser's Website, and Google Earth. Please note that copies of the aerial photographs reviewed during completion of this Phase I ESA are included within this report and can be found in **Appendix A and B**. Descriptions of EDC, Inc. observations are outlined in **Table 4**.

TABLE 4
Summary of Aerial Photograph Observations

Photograph Date	Photograph Quality	Remarks
1944	Fair (EDR)	The subject property consists of a grove with a vehicle path running east to west through the subject property. The adjoining properties and general vicinity consisted of groves and possible grazing land. A North St. Lucie River Water Control District (NSLRWCD) canal, a part of the Fivemile Creek, runs along the western property boundary of the subject property. Okeechobee Road is north/northeast of the subject property and S 41st Street adjoins the eastern property boundary of the subject property.
1958	Fair (EDR)	Virginia Avenue has been developed and connects to Okeechobee Road, northeast of the subject property. Residential properties have been developed along Virginia Avenue. No other significant changes to the subject property or its vicinity were observed since the previous aerial photograph.
1969	Fair (EDR)	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.
1970	Poor (EDR)	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.

1980	Poor (EDR)	The subject property grove appears to be inactive. A residential subdivision has been developed adjoining the southeast corner of the subject property. No other significant changes to the subject property or its vicinity were observed since the previous aerial photograph.
1992	Fair (EDR)	The subject property vegetation has become dense. A commercial plaza has been developed north of Okeechobee Road. A mix store/office building and gas station have been developed west of the subject property. No other significant changes to the subject property or its vicinity were observed since the previous aerial photograph.
1994	Poor (EDR)	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.
1999	Poor (EDR)	The grove on the adjoining property to the north appears to be inactive and is becoming overgrown with vegetation. No other significant changes to the subject property or its vicinity were observed since the previous aerial photograph.
2007	Poor (EDR)	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.
2010	Fair (EDR)	The vegetation on the adjoining property to the north is becoming very dense. No other significant changes to the subject property or its vicinity were observed since the previous aerial photograph.
2013	Good (EDR)	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.
2017	Good (EDR)	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.

5.4.2 PROPERTY OWNERSHIP RECORDS

The current Owner of the subject property is Fort Pierce Hartman LLC. This is confirmed by the St. Lucie County Property Appraiser's Report, which is presented in **Appendix A**.

The User did not contract EDC, Inc. to acquire a chain-of-title for the parcel comprising the subject property, which typically contains information regarding historical site ownership.

5.4.3 SANBORN FIRE INSURANCE MAP REVIEW

According to information provided by EDR, fire insurance maps generated by the Sanborn Map Company are not available for review for the subject property. The Certified Sanborn Map Report is provided in **Appendix B** following the EDR database report.

5.4.4 CITY DIRECTORY REVIEW

Historical street directories listing the former businesses at the street addresses of the subject property and adjoining properties were reviewed by EDC, Inc. during completion of this Phase I ESA. Business names listed in the directories were reviewed to try to determine if businesses generated, used, stored, or disposed of hazardous waste materials. The review did not produce any properties that represented an environmental concern that the EDR Report did not already produce.

5.4.5 LAND USE RECORDS

According to the St. Lucie County Property Appraiser's Report, the Future Land Use for the subject property is General Commercial (GC). The subject property is located within a Commercial (C-3) zoning district. The table below (**Table 5**) details the structures that are located on the adjoining parcels that surround the subject property according to the St. Lucie County Property Appraiser's Report:

TABLE 5
Description of Adjoining Parcels

Parcel ID #	No. of Structures	Type of Structure	Size (Sq. Ft)	Year Built
2419-111-0002-000-7	0	Vacant Commercial	N/A	N/A
N/A	0	S 41st Street	N/A	N/A
N/A	0	Lazy Hammock Lane	N/A	N/A
2419-501-0008-000-6	0	Vacant Residential	N/A	N/A
2419-501-0007-000-9	1	Single-Family Home	4,856	1978
2419-501-0006-000-2	1	Single-Family Home	4,492	1987
2419-501-0005-000-5	1	Single-Family Home	5,572	1977
2419-501-0004-000-8	1	Single-Family Home	7,296	1978
2419-111-0003-000-4	0	NSLRWCD Canal	N/A	N/A

5.4.6 OTHER HISTORICAL SOURCES

A Historical Topographic Map Report was obtained from EDR during completion of this Phase I ESA. The USGS topographic quadrangle maps titled "Fort Pierce" and "Fort Pierce NW", which includes the subject property, was available for the following years: 1949, 1950, 1970, 1972, 1983, 2012, 2015, and 2018 descriptions of our review of the historical topographic maps are outlined in **Table 6**. The Historical Topographic Map Report is provided in **Appendix B** following the EDR database report.

TABLE 6
Summary of Historical Topographic Map Observations

Map Date	Remarks
1949	The subject property, adjoining properties, and general vicinity consist of groves. The vehicle path is evident running east to west through the subject property. Fivemile creek runs along the western property boundary of the subject property. Okeechobee Road is north/northwest of the subject property. S 41st Street adjoins the eastern property boundary of the subject property.
1950	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous topographic map.
1970	Increased development is evident along Okeechobee Road, southwest and northeast of the subject property. There has also been an increase in development south of the subject property.
1972	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous topographic map.
1983	The subject property appears to no longer be operating as a grove. I-95 has been developed west of the subject property and there is a general increase in development within the general vicinity of the subject property. Virginia Avenue connects to Okeechobee Road, northeast of the subject property.
2012	The subject property and adjoining property to the north have been reclaimed by dense vegetation.

2015	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous topographic map.
2018	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous topographic map.

No other historical sources were reviewed during this assessment.

5.5 HISTORICAL USE INFORMATION ON ADJOINING PARCELS

None of the past uses of the parcels adjoining the subject property appear likely to indicate recognized environmental conditions in connection with the subject property.

6.0 INFORMATION FROM SITE RECONNAISSANCE

The objective of the site reconnaissance is to obtain information indicating the likelihood of identifying recognized environmental conditions in connection with the subject property. On a visit to the subject property, the property shall be visually and/or physically observed, and any structure(s) located on the subject property to the extent not obstructed by bodies of water, adjacent buildings, or other obstacles shall be observed.

On April 11, 2022 a site reconnaissance of the subject property was completed by a representative of EDC, Inc. The purpose was to evaluate the current conditions of the subject property and to obtain information indicating the likelihood of identifying recognized environmental conditions in connection with the subject property.

6.1 METHODOLOGY AND LIMITING CONDITIONS

The site reconnaissance included visually and/or physically observing the periphery of the subject property and the periphery of the structures located on the subject property. Aerial photographs are included in **Appendix A and B**. Site photographs are included in **Appendix D**.

6.2 GENERAL SITE SETTING

The subject property consists of one (1) tax parcel (Parcel ID: 2419-113-0001-000-6) comprised of 14.17 acres. The property is classified by the St. Lucie County Property Appraiser as vacant commercial property (land use code 1000). The subject property is located on the west side of S 41st Street, south of Virginia Avenue, and southeast of Okeechobee Road in Fort Pierce, Florida.

6.3 EXTERIOR OBSERVATIONS

During our site reconnaissance, the subject property consisted of 14.17 acres of vacant commercial property comprised of approximately 4.70 acres of temperate hammock and 9.47 acres of urban open forest. The subject property adjoins the access easement for the North St. Lucie River Water Control District (NSLRWCD) canal which contains of the Fivemile Creek. In addition, there is a dirt road (labeled as Home Place Lane) running through the southern portion of the site, from Lazy Hammock Lane west to the canal.

We found no evidence of obvious surface discharges such as stained soil or pavement, no indication of solid or liquid waste dumping or disposal, no evidence of USTs, unusual odors, pits, stressed vegetation, or roads/paths with no outlet likely to have been used for disposal of hazardous wastes or petroleum products on the subject property. Please refer to **Appendix D** to review the site photographs.

6.4 INTERIOR OBSERVATIONS

During our site reconnaissance, no structures were located onsite.

7 INTERVIEWS

7.1 INTERVIEW WITH SITE OWNER

EDC, Inc. provided the User with the Owner/User Questionnaire to provide to the land owner. The purpose of the questionnaire is to obtain information regarding the owner's knowledge of recognized environmental conditions in connection with the subject property. EDC has not yet received the completed questionnaire. A copy of the questionnaire is included in **Appendix E**.

7.2 INTERVIEW WITH SITE MANAGER

Please refer to Section 7.1 for information regarding the Owner/User Interview. Interview documentation is included in **Appendix E.**

7.3 INTERVIEW WITH OCCUPANTS

Please refer to Section 7.1 for information regarding the Owner/User Interview. Interview documentation is included in **Appendix E**.

7.4 INTERVIEW WITH LOCAL GOVERNMENT OFFICIALS

EDC, Inc. contacted Andy Jensen with Palm Beach County Environmental Resources Management (ERM) to obtain information on an inspection he conducted on a nearby facility that was found to be out of compliance. He stated that the facility has not yet returned to compliance. Please refer to **Table 3** and **Appendix C** for more information.

7.5 INTERVIEW WITH USER

EDC, Inc. provided the User with the Owner/User Questionnaire, to obtain information regarding their knowledge of recognized environmental conditions in connection with the subject property. EDC has not yet received the completed questionnaire. A copy of the questionnaire is included in **Appendix E**.

7.6 INTERVIEW WITH OTHERS

No other interviews were conducted during the completion of this report.

8 FINDINGS

Based on our field observations, historical research, public records review, and interviews conducted in accordance with ASTME, the findings of this Phase I ESA are as follows:

- We found nine (9) Underground Storage Tank (UST) facilities within the minimum search distance as specified by ASTM-E standards. Three facilities were found to be out of compliance and one facility is undergoing remedial action. Please refer to **Table 3** for further details.

- We found two (2) Aboveground Storage Tank (AST) facilities within the minimum search distance as specified by ASTM-E standards. One of the facilities was found to be out of compliance. Please refer to **Table 3** for further details.

- We found eight (8) Leaking Underground Storage Tank (LUST) facilities within the minimum search distance as specified by ASTM-E standards. Three facilities were found to be out of compliance and one facility is undergoing remedial action. Please refer to **Table 3** for further details.

- We found four (4) Very small quantity generator (VSQG) facilities within the minimum search distance as specified by ASTM-E standards. All facilities were found to be in compliance. Please refer to **Table 3** for further details.

- We found three (3) Department of Waste Management Contamination (DWM CONTAM) facilities within the minimum search distance as specified by ASTM-E standards. Two of the facilities were found to be out of compliance. Please refer to **Table 3** for further details.

9 OPINION

The following is our opinion pertaining to the findings referenced above:

- We found no evidence indicating the subject property being adversely affected by any facilities in the vicinity of the subject property.

10 CONCLUSIONS

We have performed this Phase I ESA in conformance with the scope and limitations of ASTM Practice E 1527-13. The subject property consists of one (1) tax parcel (Parcel ID: 2419-113-0001-000-6) comprised of 14.17 acres. The property is classified by the St. Lucie County Property Appraiser as vacant commercial property (land use code 1000). The subject property is located on the west side of S 41st Street, south of Virginia Avenue, and southeast of Okeechobee Road in Fort Pierce, Florida. The subject property is located within an area of commercial, vacant commercial and residential properties. Any exception to or deletions from this practice are described in Sections 2.2, 2.3, and 2.4 of this report. This assessment has revealed no evidence of unresolved recognized environmental conditions in connection with the subject property and no further assessment is warranted at this time.

Please note that an environmental liens or activity and use limitations search was not performed for the subject property. In accordance with ASTM E 1527-13, it is the responsibility of the User of this report to undertake a review of reasonable ascertainable recorded land title records and lien records for environmental liens or activity and use limitations recorded against or relating to the subject property. In the event that any are identified, please contact EDC, Inc. immediately for further evaluation.

In order to remain eligible for CERCLA liability protections, continuing obligations will need to be followed at the subject property. The User has the continuing obligation not to impede the integrity and effectiveness of activity and land use limitations, the duty to take reasonable steps to prevent releases, and the duty to comply with legally required release reporting obligations.

11 DEVIATIONS

EDC, Inc. prepared this Phase I ESA in compliance with ASTM E 1527-13.

The following data gaps were encountered during completion of this Phase I ESA:

- Data gaps were encountered in the historical aerial photograph review due to the lack of available photographs in five-year intervals or as early as 1940 as preferred by ASTM-E standards. Based on our review of the available aerial photographs along with additional historical information found during review of other sources, the data gap does not appear to be significant to the findings of this report and does not appear to constitute as a data failure.

- The chain-of-title documentation or recorded land title records for environmental liens or activity and use limitations currently recorded against or relating to the subject property were not provided to EDC, Inc. during completion of this Phase I ESA.

12 ADDITIONAL SERVICES

Under the terms of the agreement between EDC, Inc. and Brownstone Group, no additional services are being provided in association with this Phase I ESA.

13 REFERENCES

References reviewed during the Phase I ESA are documented in **Appendix F**.

14 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

Please refer to the title page for signatures of the environmental professionals who prepared and reviewed this Phase I ESA.

15 QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

This assessment was completed by Madison Quinones, BS, AWB®, Project Scientist, and reviewed by Tobin R. Overdorf, MS, MBA, Vice President, both employees of EDC, Inc. We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312 and we have specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the site. We have developed and performed the all appropriate inquiries in conformance with the standards and practices outlined in 40 CFR Part 312. Qualifications of personnel participating in this assessment are provided in **Appendix G**.

Project Narrative

Allegra at Fort Pierce – Rezoning and Future Land Use Map Amendment

These two applications represent a request for a Rezoning and an Amendment to the Future Land Use for this project. Collectively, two parcels comprise this site and once the real estate transaction is closed, they will be brought into Unity of Title for this development. The northern parcel is not within the Municipal boundaries, and an Annexation Application has already been filed. We have previously met to discuss a multi-family residential project. The two parcels represent 29.13 acres, and we are currently seeking an R4 Zoning Designation as well as Multi-family RM land use classification.

This land has been vacant, and while commercial developments have been proposed and approved for this site, no commercial development has actually been built. Both parcels currently have a C-3 General Commercial zoning allowing for up to 15 du/acre as well as commercial development. The Land Use on both parcels is a corresponding GC -General Commercial.

In general, in applying for an R4/RM designation – the general intensity/density is lowered than existing C3/GC designations. This is reflected on the capacity analysis for both applications. The City, and surrounding area, finds itself in a deficit for quality housing and additional housing options. A multi-family development would serve the area and help with unmet housing needs for Lawnwood Regional, the Indian River State College, and local employers. Through the site plan process, we can demonstrate how the site will be compatible with the surrounding area. To the north is the Renaissance Business Park, itself a generator for employment. To the east is IRSC and a mix of Commercial and Residential, to the south it is residential, and to the west it is vacant. The compatibility to the single family residential homes are key to this project. To that end, the Applicant is reviewing and plans to utilize additional buffering on the east and southern edges through the use of landscaping, existing tree coverage and stormwater ponds. This will be formalized in the site plan application.

A site plan will be applied for, but in the meantime, the Applicant would like to start moving forward on the rezoning and change of land use. As backup materials, I have included the

- Warranty Deeds with legal descriptions
- St. Lucie Property Appraiser Record Cards
- This letter serves as the Statement of Need
- Current Survey
- Environmental Study
- Traffic Impact Report – the applications provide a trip generation for the project. A full Traffic Impact Report. The Traffic Impact analysis included utilizes the ITE generation rates for Multi Family Developments (ITE Code 220).

- Drainage and Historical Report: The Phase 1 and Environmental Reports both provide summaries of the history of the properties and their soils as it relates to drainage. As site design moves forward, geotechnical analysis can be provided to show the subsurface soils. Aerial imagery indicates both properties are historically vacant, with the more northern most parcel used for Agricultural purposes – either citrus or horticulture.

LEGAL DESCRIPTION:

(ORB 4518, PG 2088)
THAT PART OF THE SOUTHEAST ONE–QUARTER (S.E. 1/4) OF THE NORTHWEST ONE-QUARTER (N.W. 1/4) OF THE NORTHEAST ONE–QUARTER (N.E. 1/4) OF SECTION 19, TOWNSHIP 35 SOUTH, RANGE 40 EAST, ST. LUCIE COUNTY, FLORIDA; LYING SOUTH OF NORTH ST. LUCIE RIVER DRAINAGE DISTRICT CANAL NO. 7 AND EAST OF NORTH ST. LUCIE RIVER DRAINAGE DISTRICT CANAL NO. 29, A.K.A. FIVE MILE CREEK, AND THAT PART OF THE NORTH THREE FOURTHS (N. 3/4) OF THE NORTHEAST ONE–QUARTER (N.E. 1/4) OF THE NORTHEAST ONE–QUARTER (N.E. 1/4) OF SECTION 19, TOWNSHIP 35 SOUTH, RANGE 40 EAST, ST. LUCIE COUNTY, FLORIDA, LYING SOUTHERLY OF NORTH ST. LUCIE RIVER DRAINAGE DISTRICT CANAL NO. 7 AND SOUTH OF VIRGINIA AVENUE, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

COMMENCING AT THE NORTHEAST CORNER OF SAID SECTION 19, THENCE SOUTH 2°08'11" EAST ALONG THE EAST LINE OF SAID SECTION 19 A DISTANCE OF 149.60 FEET TO THE SOUTH RIGHT–OF–WAY LINE OF VIRGINIA AVENUE (100.00 FEET RIGHT–OF–WAY) THENCE SOUTH 89°58'49" WEST ALONG SAID SOUTH RIGHT–OF–WAY LINE A DISTANCE OF 15.00 FEET TO THE WEST RIGHT–OF–WAY LINE OF "HARTMAN ROAD" AND THE POINT OF BEGINNING OF THIS DESCRIPTION, THENCE CONTINUE SOUTH 89°58'49" WEST ALONG SAID SOUTH RIGHT–OF–WAY LINE OF VIRGINIA AVENUE A DISTANCE OF 333.61 FEET TO THE SOUTHERLY RIGHT–OF–WAY LINE OF CANAL NO. 7 OF ,THE NORTH ST. LUCIE RIVER DRAINAGE DISTRICT AS DEPICTED ON SHEET 1 OF 4 OF THE FLORIDA STATE TURNPIKE AUTHORITY RIGHT–OF–WAY MAP FOR STATE ROAD NO. 70, THENCE SOUTH 52°36'39" WEST ALONG SAID SOUTHERLY RIGHT–OF–WAY LINE A DISTANCE OF 1354.68 FEET TO THE EASTERLY RIGHT–OF–WAY LINE OF NORTH ST. LUCIE RIVER DRAINAGE DISTRICT CANAL NO. 29 (FIVE MILE CREEK) AS SHOWN ON THAT RIGHT–OF–WAY MAP ON FILE WITH THE ST. LUCIE COUNTY MAPPING DIVISION, THENCE SOUTH 57°53'56" EAST ALONG SAID EASTERLY RIGHT–OF–WAY LINE A DISTANCE OF 162.93 FEET TO A POINT OF CURVE, THENCE SOUTHERLY ALONG SAID RIGHT–OF–WAY LINE ALONG THE ARC OF A CIRCULAR CURVE TO THE RIGHT (CONCAVE SOUTHWESTERLY) HAVING A RADIUS OF 357.48 FEET, A CENTRAL ANGLE OF 1°03'46", AN ARC DISTANCE OF 6.63 FEET TO THE EAST LINE OF THE SOUTHEAST ONE–QUARTER (S.E. 1/4) OF THE NORTHWEST ONE-QUARTER (N.W. 1/4) OF THE NORTHEAST ONE–QUARTER (N.E. 1/4) OF SAID SECTION 19, THENCE NORTH 1°40'25" WEST ALONG SAID EAST A DISTANCE OF 61.89 FEET TO THE SOUTH LINE OF THE NORTH THREE–FOURTHS (N. 3/4) OF THE NORTHEAST ONE–QUARTER (N.E. 1/4) OF THE NORTHEAST ONE QUARTER (N.E. 1/4) OF SAID SECTION 19, THENCE NORTH 88°48'53" EAST ALONG SAID SOUTH LINE A DISTANCE OF 1299.16 FEET TO THE SAID WEST RIGHT–OF–WAY LINE OF HARTMAN ROAD, THENCE NORTH 2°08'11" WEST ALONG SAID WEST RIGHT–OF–WAY LINE, LYING 15.00 FEET WEST OF AND PARALLEL WITH THE EAST LINE OF SAID SECTION 19, A DISTANCE OF 824.70 FEET TO THE POINT OF BEGINNING.

EXCLUDING ADDITIONAL RIGHT OF WAY DESCRIBED AS PARCEL NUMBER 111 IN (ORB 787, PG, 57), (ORB 787, PG, 76) AND (ORB 808, PG 184) OF THE PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA. SUBJECT TO EASEMENTS, RIGHT OF WAYS AND RESTRICTIONS OF RECORD.

SURVEYOR'S NOTES

1. THIS SURVEY DOES NOT DETERMINE OR INDICATE LAND OWNERSHIP.
2. THE SURVEYOR DID NOT RESEARCH OR ABSTRACT THE LAND RECORDS FOR RIGHTS–OF–WAY, EASEMENTS, RESERVATIONS, DEED RESTRICTIONS, ZONING REGULATIONS, SETBACKS, LAND USE PLAN DESIGNATIONS, LIENS, MURPHY ACT RIGHTS–OF–WAY, AREAS OF LOCAL CONCERN, OR OTHER SIMILAR JURISDICTIONAL DETERMINATIONS. TO THE EXTENT THAT THIS TYPE OF INFORMATION IS SHOWN, IT IS SHOWN SOLELY ON THE BASIS OF INFORMATION PROVIDED BY THE CLIENT OR INFORMATION OTHERWISE KNOWN TO THE SURVEYOR AND MAY NOT BE COMPLETE.
3. UNDERGROUND UTILITIES, BUILDING FOUNDATIONS, AND OTHER UNDERGROUND FIXED IMPROVEMENTS WERE NOT LOCATED, UNLESS OTHERWISE INDICATED. TO THE EXTENT THAT THIS TYPE OF INFORMATION IS SHOWN, IT IS SHOWN SOLELY ON THE BASIS OF SURFACE INDICATIONS OBSERVED BY THE SURVEYOR AND MAY NOT BE COMPLETE.
4. JURISDICTIONAL WETLANDS AND ENDANGERED OR THREATENED SPECIES HABITAT, IF ANY, THAT MAY EXIST ON OR AROUND THE SURVEY SITE WERE NOT DETERMINED OR LOCATED.
5. THE SURVEY DATE IS THE FIELD DATE SHOWN IN THE TITLE BLOCK, NOT THE SIGNATURE DATE.
6. BEARINGS BASED ON THE ASSUMPTION THAT THE EAST LINE OF SECTION 19 TOWNSHIP 35 SOUTH, RANGE 40 EAST OF ST. LUCIE COUNTY BEARS S02°18'11"E PER DESCRIPTION.
7. LOT DIMENSIONS ARE PER LEGAL DESCRIPTION "(D)" UNLESS OTHERWISE NOTED.
8. FLOOD ZONE "X", FLOOD INSURANCE RATE MAP NUMBER 12111C0186J, DATED FEBRUARY 16, 2012.
9. THIS SURVEY WAS PREPARED WITH THE BENEFIT OF TITLE COMMITMENT ORDER NUMBER 1013329–44593.00002, DATED 12/12/21 AT 8:00AM PROVIDED BY FIDELITY NATIONAL TITLE INSURANCE COMPANY.

THIS BOUNDARY SURVEY WAS PERFORMED FOR THE PURPOSE OF ANNEXATION, ENGINEERING DESIGN AND PERMITTING. I HEREBY CERTIFY TO THE BEST OF MY KNOWLEDGE AND BELIEF THIS IS A TRUE, ACCURATE AND COMPLETE DEPICTION OF A FIELD SURVEY PERFORMED UNDER MY DIRECTION AND COMPLETED ON 02/21/2022. I FURTHER CERTIFY THAT SAID DRAWING IS IN COMPLIANCE WITH THE STANDARDS OF PRACTICE AS SET FORTH BY THE FLORIDA BOARD OF PROFESSIONAL SURVEYORS AND MAPPERS, IN CHAPTER 5J–17, FLORIDA ADMINISTRATIVE CODE PURSUANT TO SECTION 472.027, FLORIDA STATUTES.

SITE LOCATION: PORTION OF THE NE 1/4 OF THE NE 1/4 OF SECTION 19–35–40

SITE AREA: 15.08± ACRES

TYPE OF SURVEY: BOUNDARY/TOPOGRAPHIC (COMMERCIAL PROPERTY)

DATE OF DATA ACQUISITION: SEE FIELD DATE LISTED BELOW

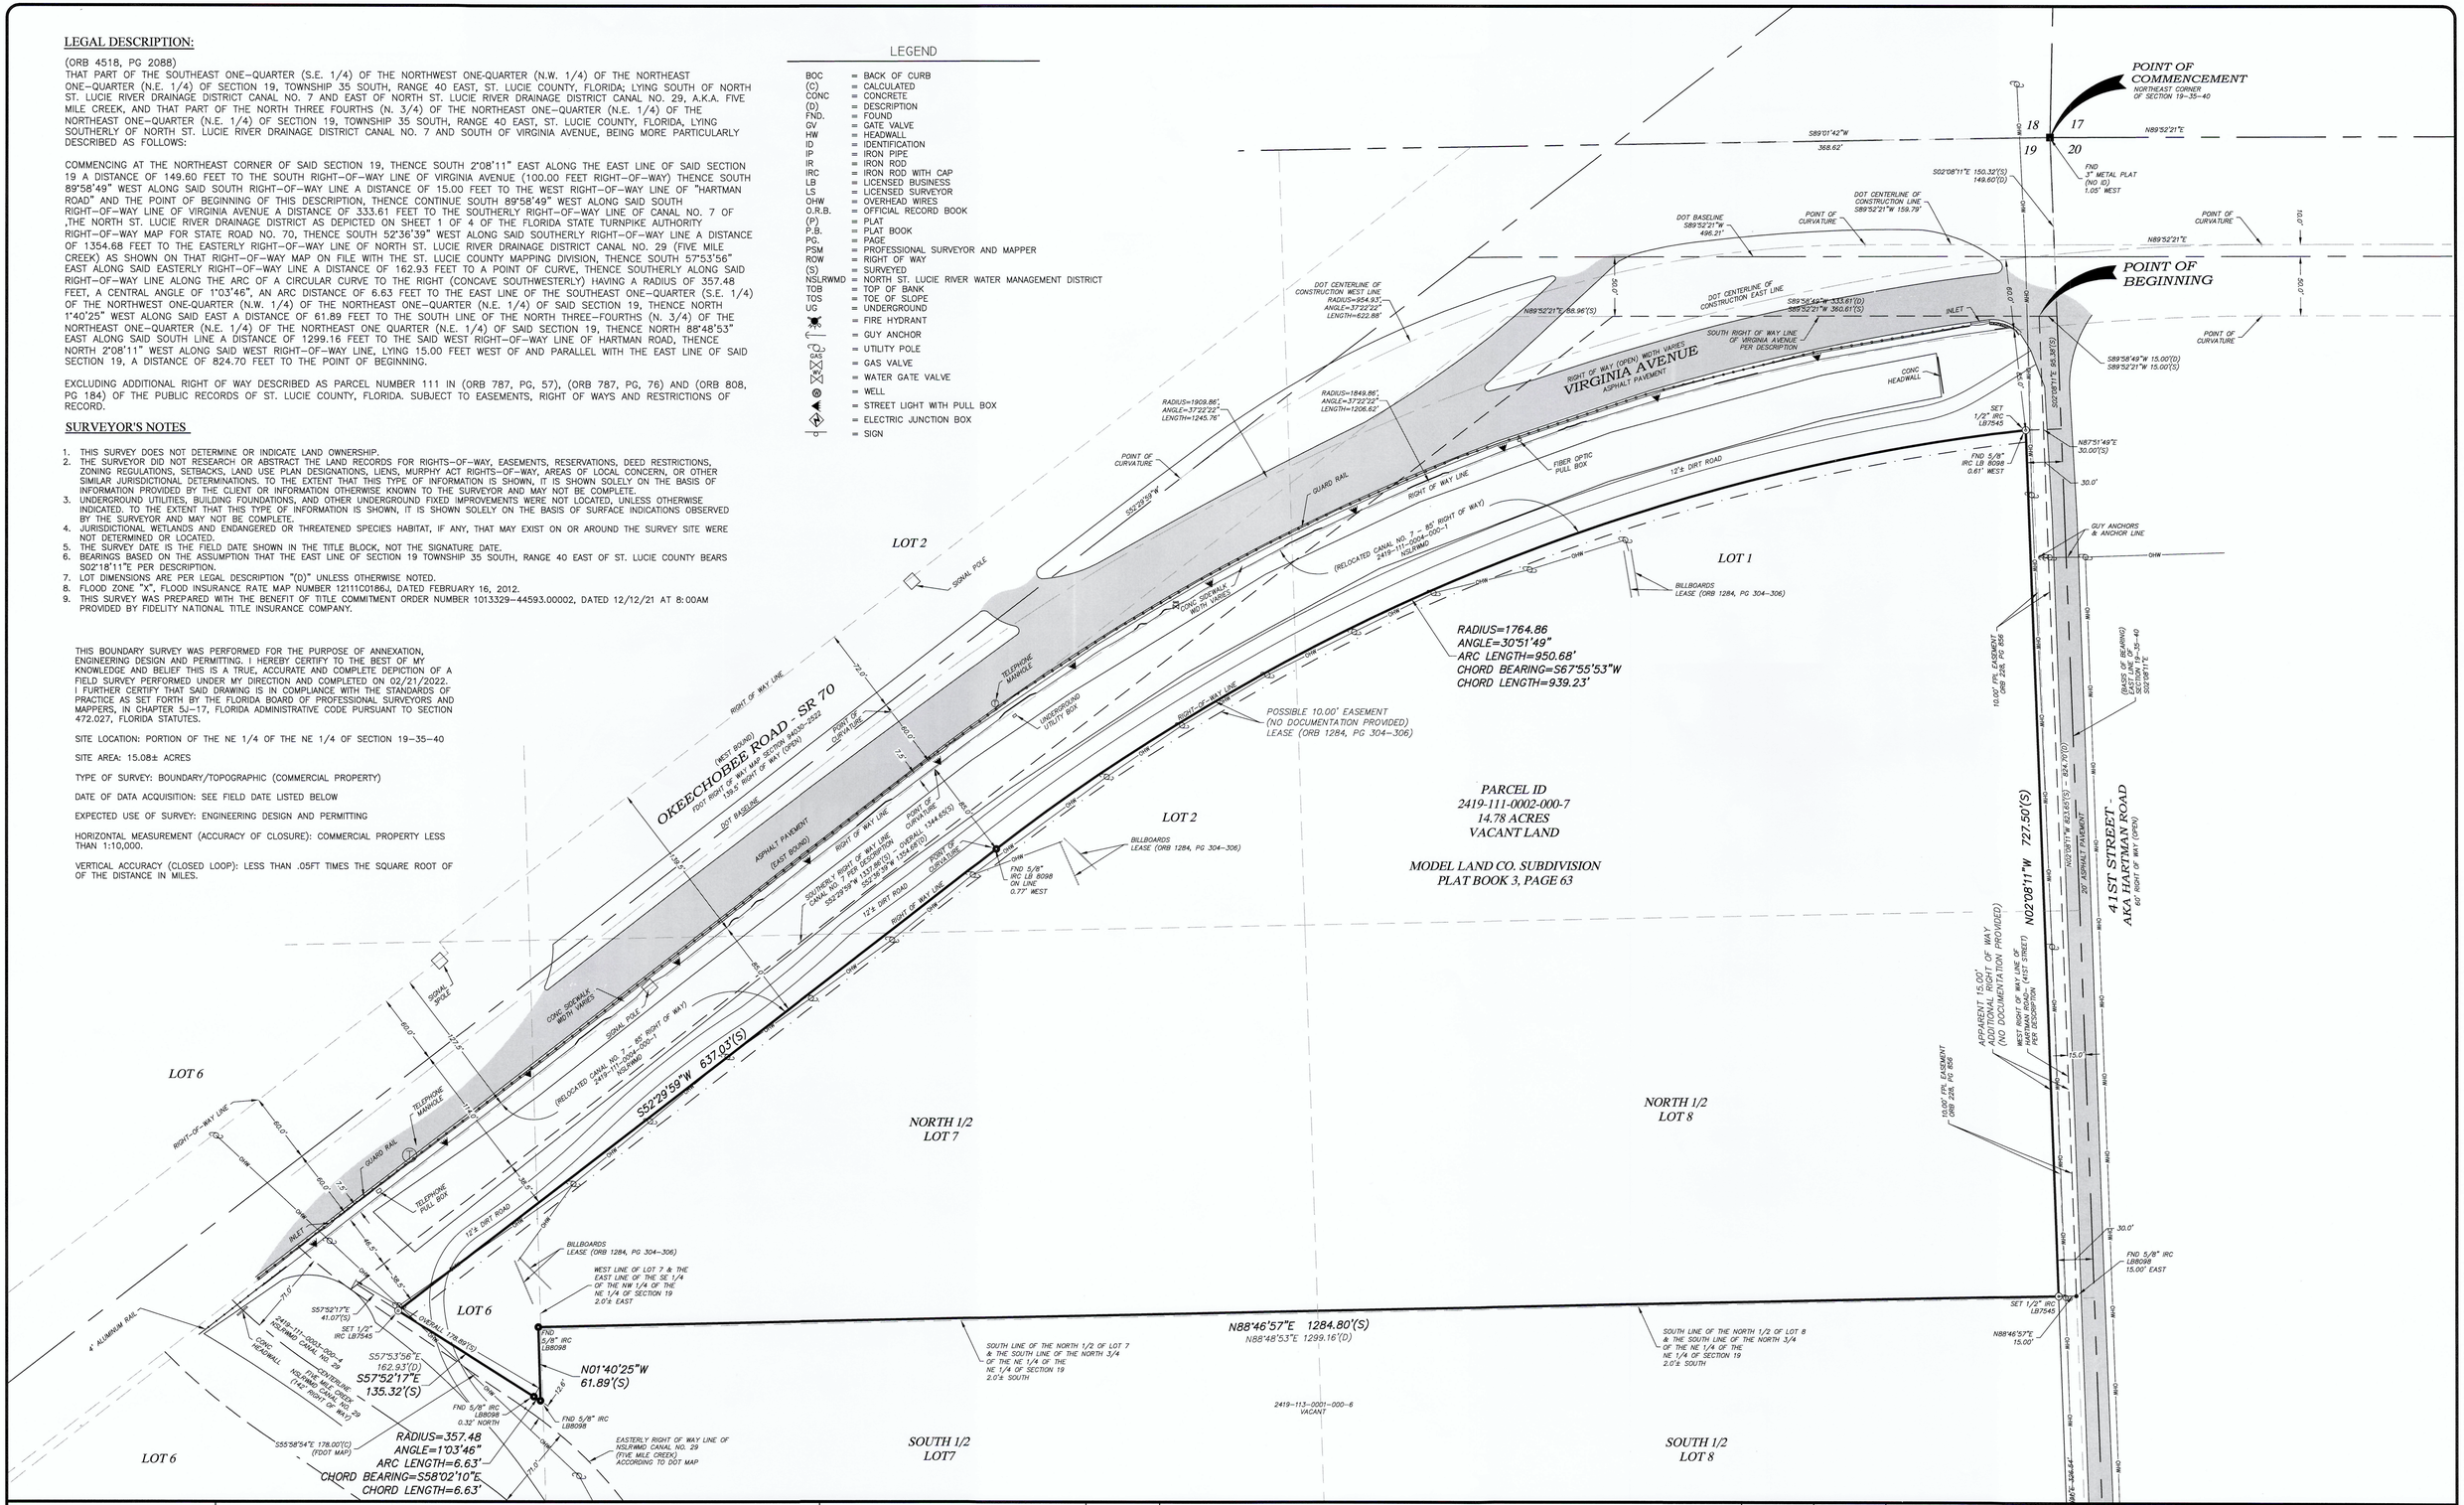

EXPECTED USE OF SURVEY: ENGINEERING DESIGN AND PERMITTING

HORIZONTAL MEASUREMENT (ACCURACY OF CLOSURE): COMMERCIAL PROPERTY LESS THAN 1:10,000.

VERTICAL ACCURACY (CLOSED LOOP): LESS THAN .05FT TIMES THE SQUARE ROOT OF OF THE DISTANCE IN MILES.

RE: Notice of Community Informational Meeting on **Thursday, September 1, 2022 at 6pm**

Dear Neighbor:

The Brownstone Group has submitted an Annexation, Small Scale Comprehensive Plan Map Amendment, and Rezoning application to the City of Ft. Pierce.

There are two properties included with this request, see below (parcels 2419-113-0001-000-6 and 2419-111-0002-000-7, aka 3000 Virginia Ave). One is within the city limits of Ft. Pierce and the other is in unincorporated county. Our first request is an annexation of the unincorporated property into the city limits of Ft. Pierce. Our second and third requests are to change the future land use and zoning on both properties from commercial to the following in the City of Ft. Pierce:

- Future Land Use: RM (medium density residential)
- Zoning: R-4 (medium density residential zone)

We will have a conceptual site plan available for review at the meeting. The proposed project consists of a medium density, gated 360-unit multi-family development comprised of three-story

buildings. The units are a mix of one- and two-bedrooms. The development includes large landscape buffers to the south and east, separating single-family from the development. Additionally, no balconies will face adjacent residential uses and all amenities will be located on internal portions of the site.

Please join us for an informational meeting to discuss the requests in more detail, answer your questions, and have a useful dialogue on how the proposed development may better meet the community's needs. We will then continue through the review and public hearing process for this request.

COMMUNITY INFORMATIONAL MEETING

DATE: September 1, 2022

TIME: 6:00pm to 7:00pm

PLACE: Havert L. Fenn Center
Multi-purpose Room
2000 Virginia Avenue
Fort Pierce, Florida 34982

If you have any questions prior to the community meeting or are unable to attend, please contact me at 210-669-3081 or via email at jeremy@tbsg.com.

Best Regards,

Jeremy Mears
Development Partner

Community Meeting Notes – Ft. Pierce

Details

Date: September 1, 2022 at 6pm

Location: Fenn Center

Attendance: 11 community residents, plus Jeremy Mears and Kelly Hyvonen (see attached sign-in sheet)

Invitations: Mailed to property owners within 500' of the subject properties

Attachments: Sign in sheet, meeting invitation, 500' buffer map

Discussion Points

The following concerns and topics were discussed:

- There is an existing driveway through the pond to the south that will need to be addressed
- Stormwater concerns, surrounding neighborhoods have preexisting issues from Five Mile Creek already, they say the mall across the street floods also
- Flooding of Five Mile Creek and concerns that the development will make the flooding worse
- The community wants water and sewer service
- Is there a need for this product?
- What is the design of the stormwater pond?
- One gentleman in the audience stated he was going to raise issues with further development until the County takes care of the Five Mile Creek flooding problems

500' Buffer Map

Community Meeting Notes – Ft. Pierce

Details

Date: October 27, 2022 at 6pm

Location: Fenn Center

Attendance: 10 community residents, plus Jeremy Mears and Kelly Hyvonen (see attached sign-in sheet). About half the participants attended the first community meeting as well.

Invitations: Mailed to property owners within 1000' of the subject properties

Attachments: Sign in sheet, meeting invitation, 1000' buffer map

Discussion Points

The following concerns and topics were discussed:

- Concerns with the intersection of 41st Street and Virginia Ave. Traffic backs up at the unsignalized intersection. Frequency of traffic incidents at this intersection. Some attendees thought connecting directly to Okeechobee Road would be better where traffic lights already exist.
    - Response: The necessary upgrades or proportionate fair share payment would be determined during the site plan process. Discussion about what FDOT will and won't allow for connection to the proposed multi-family use. At a previous conversation with FDOT staff, they asked that this proposed development connect to 41st Street and not Okeechobee which would require a crossing over the drainage canal.
- Crime and drug dealing and comparing nearby apartment developments.
    - Response: The proposed development would be a professionally managed and staffed rental apartment complex. Background checks are required for tenants. This is a market rate class A development that would be geared toward professionals and couples. The developer suggested that a couple apartments may be able to be rented to law enforcement or public safety for a reduced rate.
- Flooding of Five Mile Creek and overall stormwater concerns.
    - Response: The developer does not have control of the Five Mile Creek drainage, however, post-development, this site would retain all stormwater and reduce the runoff that currently flows unrestricted to the right-of-ways and Creek.
- Allowing more children in the area where there are also cows.
- Road noise from Okeechobee.
    - Response: Large areas of natural vegetation will be preserved along the east and south portions of the site that will not only continue to block road noise, but will reduce visibility of any development on the site. The three story buildings will also act to reduce road noise above and beyond what the vegetation on site does currently.
- Maintaining natural vegetative buffer between the homes on the west side of Lazy Hammock Lane and the southern retention pond indicated on the concept plan.

- Response: The participants in the meeting were appreciative of the 80-90’ additional natural vegetative buffers between the proposed development and existing single-family residences to the east and south.

RE: Notice of expanded follow-up Community Informational Meeting on
Thursday, October 27, 2022 at 6pm

Dear Neighbor:

The Brownstone Group has submitted an Annexation, Small Scale Comprehensive Plan Map Amendment, and Rezoning application to the City of Ft. Pierce. The Annexation was recently approved, and the Map Amendment and Rezoning will be processed together.

We held a community meeting on September 1 and sent invitations to all property owners within 500' of the subject property, which is standard notification procedure. That meeting was well attended with useful dialogue. We explained the project and the steps that we would be taking in the future to secure the necessary zoning to change the property from commercial to residential for the purposes of a multi-family residential use. See the Project Summary on page 2.

We have received feedback from the City of Ft. Pierce that some members of the community are reaching out with concerns about not being informed about what is proposed with this project. It is important for us to be transparent and share our information with those impacted the most. Therefore, we are holding a second community meeting and doubling the property owner notification buffer to 1000'. Note that those who have decided to keep their mailing addresses out of public records will not be notified because their information is not available.

Please join us for an informational meeting to discuss the requests in more detail, answer your questions, and have a useful dialogue on how the proposed development may better meet the community's needs. We will then continue through the review and public hearing process. If your property is more than 500' from the subject properties, this will be the first notice you received.

COMMUNITY INFORMATIONAL MEETING

DATE: Thursday, October 27, 2022

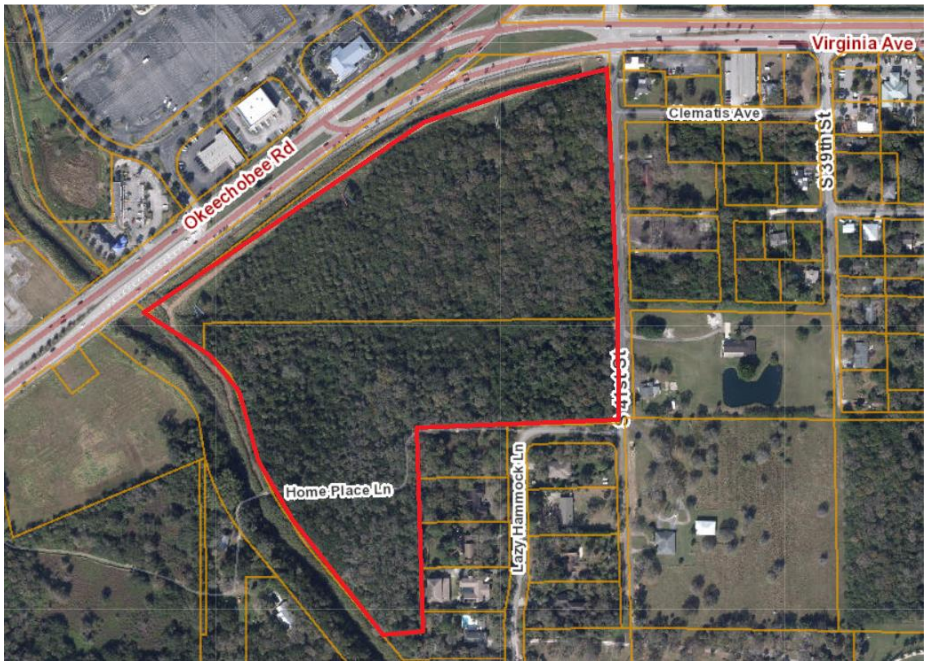

TIME: 6:00pm to 7:00pm

PLACE: Havert L. Fenn Center
Multi-purpose Room
2000 Virginia Avenue
Fort Pierce, Florida 34982

Project Summary
There are two properties included with this request shown on the map below (parcels 2419-113-0001-000-6 and 2419-111-0002-000-7, aka 3000 Virginia Ave). The remaining requests that will go before the City of Ft. Pierce are:

- Future Land Use: Change from commercial to RM (medium density residential)
- Zoning: Change from commercial to R-4 (medium density residential zone)

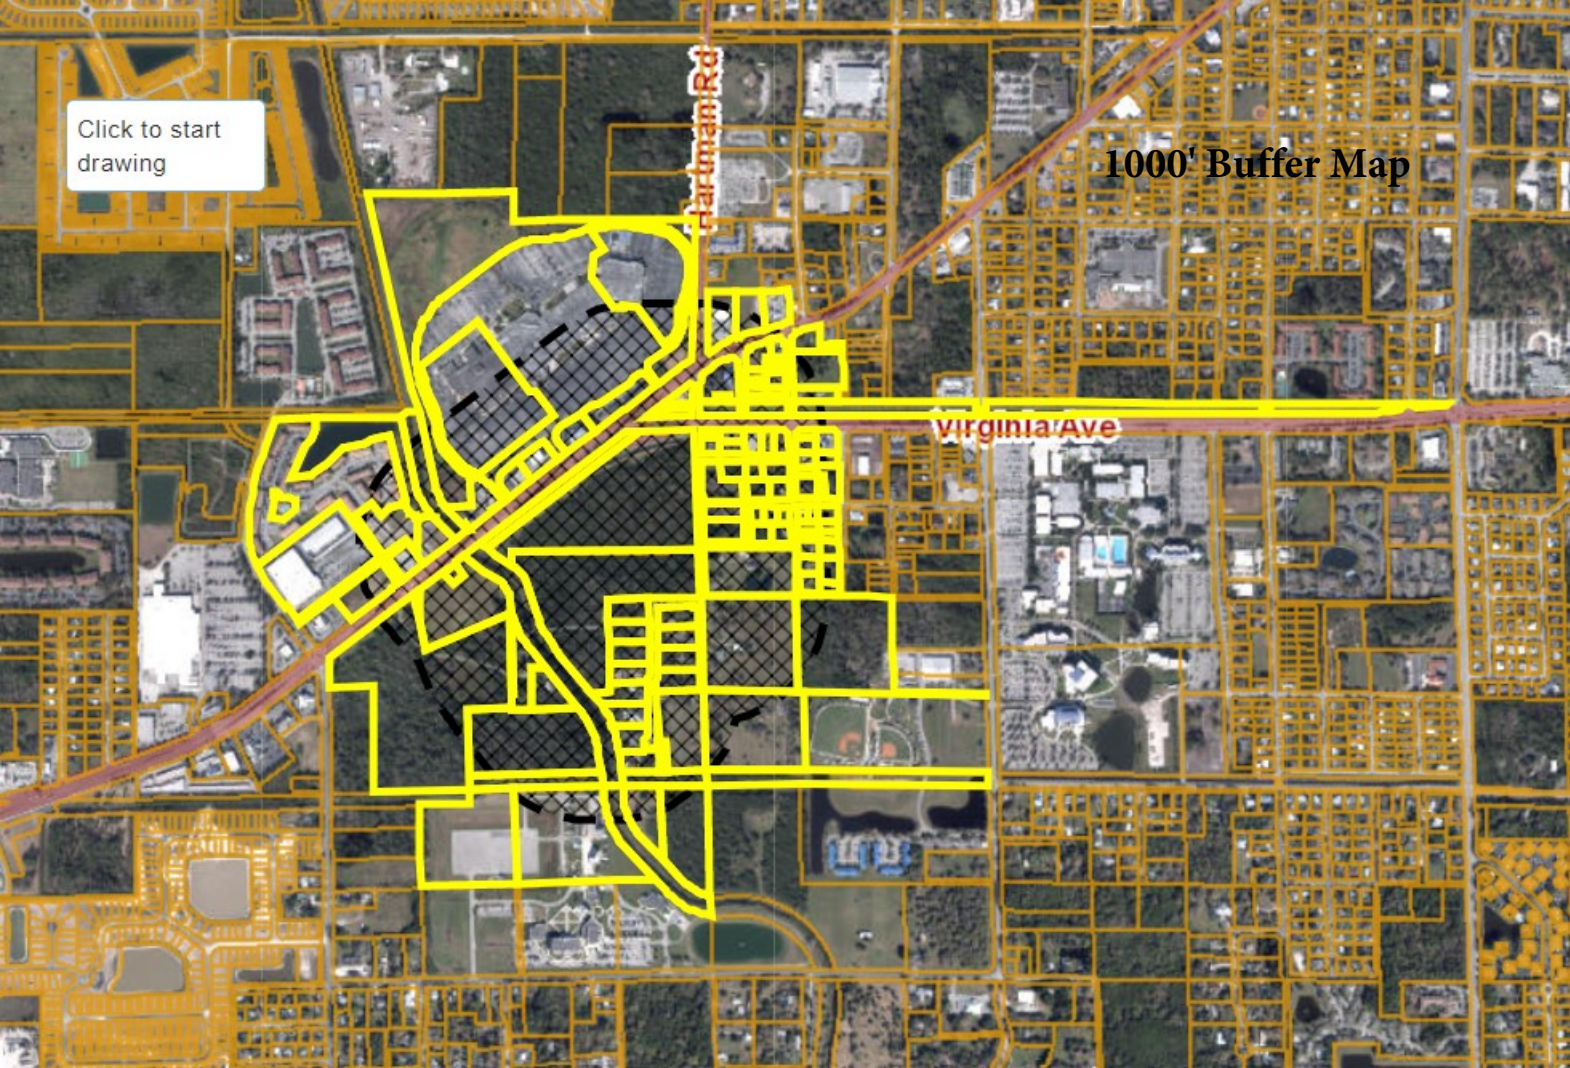

The proposed project consists of a medium density, gated 360-unit multi-family development comprised of three-story buildings. The units are a mix of one- and two-bedrooms. The development includes large landscape buffers to the south and east, separating single-family from the development. Additionally, no balconies will face adjacent residential uses and all amenities will be located on internal portions of the site. We will have a conceptual site plan available for review at the meeting or via email.

If you have any questions prior to the community meeting or are unable to attend, please contact me at 210-669-3081 or via email at jeremy@tbsg.com.

Best Regards,

Jeremy Mears
Development Partner

Dear Mr. Mears,

EDC, Inc. (EDC) has completed this Environmental Assessment (EA) for the above referenced property. The purpose of this evaluation was to conduct a review of the above listed parcel by means of site visit, review of available aerial photography, listed species review, review of soil resources, and review of environmental regulation pertaining to this parcel.

The following report details the findings of our on-site and desktop investigations of the properties as they pertain to Martin County regulations.

Please contact the undersigned if you have any questions regarding this report.

Respectfully submitted,
EDC, Inc.

ENVIRONMENTAL ASSESSMENT

Parcel ID: 2419-111-0002-000-7
3000 Virginia Avenue
Fort Pierce, FL

Date: January 22, 2022
Project #22-102

Prepared For:
Jeremy Mears
The Brownstone Group
6517 Maple Ridge
Houston, TX 77081
(210)-669-3081

Prepared By:
EDC, Inc.
10250 SW Village Parkway
Port St Lucie, Florida 34987
(772) 223-5200

The subject property evaluated as part of this Environmental Assessment consists of an approximately 17.83 acre parcel (Parcel ID #2419-111-0002-000-7), located at 3000 Virginia Avenue, Fort Pierce, Florida. The parcel is currently undeveloped.

This environmental assessment was completed as a precursor to permitting and review by a governmental agency as an applicable document for the supporting information associated with a building permit or land development application. EDC, Inc. staff visited the property on January 21, 2022, in order to ascertain the status and composition of any critical habitats, such as wetlands and native uplands that may be onsite.

VEGETATION:

It is the opinion of EDC that there is no native upland habitat located on site, as it is overrun with Category I and II invasive plants as identified by Florida Exotic Pest Plant Council (FLEPPC). This site consists of the following vegetation; An upper-level canopy consisting of mainly Cabbage Palm (*Sabal palmetto)*, Brazilian Pepper (*Schinus terebinthifolia*), and scattered Swamp White Oak (*Quercus bicolor*). A heavy presence of Arrowhead Vine (*Syngonium podophyllum*) should be noted climbing on mature trees. The understory was observed to be rife with invasives – Coral Ardisia (*Ardisia crenata*), Shoebutton Ardisia (*Ardisia elliptica*), Surinam Cherry (*Eugenia uniflora*) and Caesar weed (*Urena lobata*) made up the vast majority. Native plants that should be noted, yet scattered sparingly throughout the property are Wild Coffee (*Psychotria nervosa*) and Dwarf Palmetto (*Sabal minor*).

The site is bordered to the north by a canal, with an access road that goes to power stations and a billboard. Along this road the following species are present: Guinea grass (*Megathyrsus maximus*), Cogon grass (*Imperata cylindrica*).

WETLAND DELINEATION:

According to aerial photographs, it appears that there are no wetlands on site. A site visit confirmed this observation. Based on the State definition, a wetland consists of three components: 1). Hydric soils. 2). Wetland plants. 3). Hydrologic patterns. Not all three of these components were found during the field reconnaissance on the property. However, this property is under South Florida Water Management District (SFWMD) Permit No. 56-00658-S, due to the property including the canal.

WILDLIFE EVALUATION:

EDC, Inc. conducted a pedestrian survey throughout the property to investigate for the presence of any plant or animal listed species. No gopher tortoises or any other state or federally listed animal species were found on site.

SOIL COMPOSITION:

Based on a review of the USDA Web Soil the site is composed of:

Chobby loamy fine sand (3.8%) - depressional is a nearly level, very poorly drained soil with a thick black surface layer. It is found in marshy depressions and on flood plains along streams. In most years the water table is within a depth of 10 inches for 6 to 9 months and between 10 to 40 inches for 3 to 6 months. This soil is continuously flooded for 1 to 6 months in many places. Natural vegetation includes sand cordgrass and swamp hardwoods. If drainage and water control are adequate, this soil is well suited to vegetables and improved pasture grasses.

Riviera fine sand (9.6%) - This poorly drained, nearly level soil is found in hammocks and along drainage ways. The surface layer is dark gray brown fine sand about 5 inches thick. The soil has a water table at a depth of less than 10 inches for 2 to 4 months in most years and at a depth of 10 to 30 inches for most of the rest of the year. Permeability is rapid in the surface and subsurface layers and is slow to very slow in the subsoil, and rapid in the substratum. Natural vegetation includes cabbage palms and scattered longleaf pine and slash pine and an understory of wax myrtle and saw palmetto. The most common native grasses are pineland threeawn and blue maidencane. Broom sedges, creeping bluestem, paspalum, sand cordgrass and panicums are typical grasses for this soil.

Winder loamy sand (86.6%) - This poorly drained, nearly level soil found in hammocks and along drainage ways. The surface layer typically is black loamy sand that is 6 inches thick. The water table is within a depth of 10 inches of the surface for 2 to 4 months and between a depth of 10 to 40 inches for most of the rest of the year. The natural vegetation associated with this soil type includes cabbage palm, willow oak, scattered long leaf and slash pine and an understory of wax myrtle and saw palmetto. This soil has high potential for dwellings without basements, small commercial buildings, local roads and streets.

ST LUCIE COUNTY REGULATIONS

According to the St Lucie County Property Appraiser's Report, the subject property has a land use code of 1000 Vacant Commercial.

Sec. 6.00.05 - Vegetation Removal Permit must be obtained in compliance with the Land Development Code (LDC).
Sec. 6.00.05.D.2 - Palm trees that are cleared must be mitigated for at a rate of 1:1.
Sec. 11.05.06.B - The individual locations of all native vegetation, that meets the minimum sizes outlined in Table 1 in Section 6.00.05(D), that are located within all areas of proposed improvement and within twenty (20) feet of all proposed improvement areas shall be shown on the illustrative plan. An official tree survey may be necessary to locate native hardwood trees that are protected by the LDC.

SUMMARY:

It is the professional opinion of EDC that there is no native upland habitat on site. A former agricultural property that has been left unmaintained for years allowed a heavy presence of non-native and exotic plants to establish. This eliminated any chance at native habitat establishing itself. The density of invasive species present, combined with remnant agricultural impacts have made the land ideal for new development. Additionally, no gopher tortoises or any other listed animal species were found on site. Furthermore, while this property is under SFWMD Permit No. 56-00658-S, wetlands were not found on site. A tree survey will be required for development in St. Lucie County, as well as an Environmental Impact Report.

LOCAL PLANNING AGENCY

NOTICE IS HEREBY GIVEN, pursuant to Sections 163.3174(4)(a) and 163.3184(a), F.S., the Planning Board, as the Local Planning Agency, of the City of Fort Pierce will hold a public hearing on Monday, September 12th, 2022, at 2:00 P.M., in the City Hall Commission Chambers, 100 N. U.S. 1, Fort Pierce, Florida. The public hearing will be on an application submitted by the representative, Rebecca Grohall, AICP (MBV Engineering), and applicant, Jeremy Mears for a Future Land Use Map Amendment for one (1) parcel of land to change the future land use designation from GC, General Commercial to RM, Medium Density Residential. Said parcel is generally located at or near the northwest corner of Lazy Hammock Lane and South 41st Street.

The legal description of the parcel is as follows:

A PORTION OF THE EAST 1/2 OF THE NORTHEAST 1/4 OF SECTION 19, TOWNSHIP 35 SOUTH, RANGE 40 EAST, ST. LUCIE COUNTY, FLORIDA; LYING EAST OF NORTH ST. LUCIE RIVER DRAINAGE DISTRICT CANAL NO. 29, ALSO KNOWN AS "FIVE MILE CREEK", BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS: COMMENCING AT THE NORTHEAST CORNER OF SAID SECTION 19; THENCE S02°08'11"E ALONG THE EAST LINE OF SAID SECTION 19 A DISTANCE OF 245.70 FEET; THENCE S87°51'49"W A DISTANCE OF 30.00 FEET TO THE INTERSECTION OF A DISTANCE OF 30.00 FEET TO THE INTERSECTION OF A DISTANCE OF 30.00 FEET TO THE INTERSECTION OF THE SOUTH RIGHT OF WAY LINE OF RELOCATED CANAL NO. 7 WITH THE WEST RIGHT-OF-WAY LINE OF 41ST STREET, ALSO KNOWN AS "HARTMAN ROAD"; THENCE S02°08'11"E ALONG SAID WEST RIGHT OF WAY LINE A DISTANCE OF 727.50 FEET TO THE NORTH LINE OF THE SOUTH 1/2 OF LOT 8 OF MODEL LAND COMPANY SUBDIVISION AS RECORDED IN PLAT BOOK 3, PAGE 63 OF THE PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA, ALSO BEING THE NORTH LINE OF THE SOUTH 1/2 OF THE SOUTHEAST 1/4 OF THE NORTHEAST 1/4 OF THE NORTHEAST 1/4 OF SAID SECTION 19 AND THE POINT OF BEGINNING OF THE HEREIN DESCRIBED PROPERTY; THENCE CONTINUE S02°08'11"E ALONG THE WEST RIGHT OF WAY LINE OF 41ST STREET A DISTANCE OF 326.54 FEET TO THE SOUTH LINE OF AFOREMENTIONED LOT 8 AND THE NORTH LINE OF LAZY HAMMOCK SUBDIVISION AS RECORDED IN PLAT BOOK 17, PAGE 18 OF THE PUBLIC RECORDS OF ST. O'ROURKE
ENGINEERING & PLANNING

August 22, 2022
Revised August 24, 2022

Ms. Rebecca Grohall, AICP
MBV Engineering
1835 20th Street
Vero Beach, FL 32960

Re: Allegra at Fort Pierce - LUPA

Dear Ms. Grohall:

O'Rourke Engineering & Planning has completed the analysis of the traffic impacts associated with the change in land use from General Commercial to Medium Density Residential for the 29.13 acres on Virginia Avenue in Ft. Pierce, St. Lucie County. **Figure 1** illustrates the project location. The analysis is presented below.

Traffic Analysis

The proposed change in land use has to compare the trip generation associated with the worst-case traffic generator in the existing future land use to the worst-case traffic generator in the proposed future land use. The 29.13 acres has an existing future land use of General Commercial. The existing FLU could be commercial or a mix of commercial and residential. Commercial use would allow a floor are ratio of 1.0 allowing 1,268,903 square feet of building. Medical office and retail shopping would be two high trip generators. The proposed future land use is Medium Density Residential allowing 360 dwelling units. **Attachment A** provides the land use category details from the Fort Pierce Comprehensive Plan along with the ITE Trip Generation data.

Table 1 summarizes the trip generation of the worst case under the existing future land use for retail versus the 360 units. As shown, the change in land use would result in a decrease of 20,561 daily trips, 286 AM peak hour trips and 2,097 PM peak hour trips when considering the existing future land use as retail.

Table 2 summarizes the trip generation for the medical office versus the 360 units. As shown, the change in land use would result in a decrease of 30,349 daily trips, 1,181 AM peak hour trips and 2,587 PM peak hour trips when considering the existing future land use as medical office.

Because there is a decrease in trip generation land use, additional analyses are not required.

22 SE Seminole Street I Stuart, FL 34994 I 772-781-7918
SEORourke@comcast.net

Conclusion

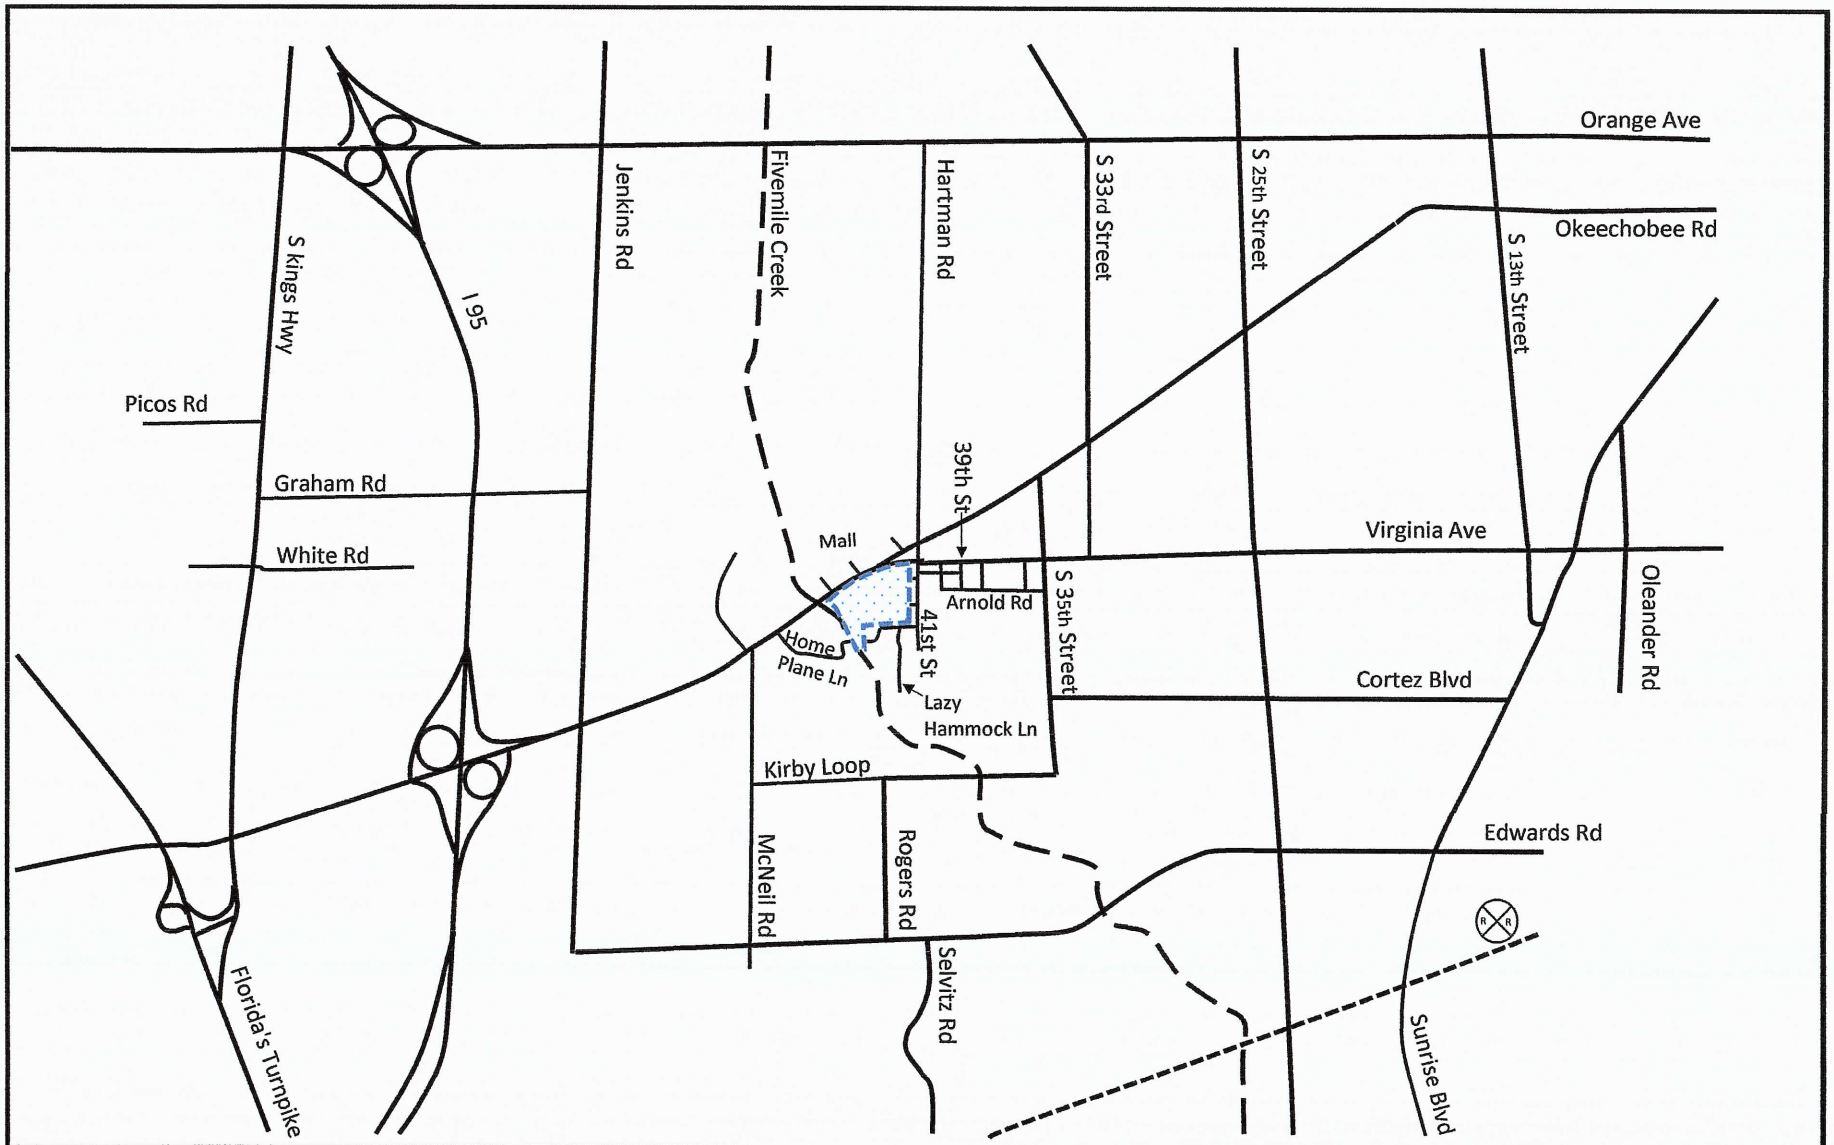

The trip generation analysis demonstrates that the change in land use will result in a decrease in trip generation potential on the development. Therefore, the proposed Land Use Plan Amendment will be supported by the existing Comprehensive Plan.

It has been a pleasure working with you.

CITY OF FORT PIERCE
NOTICE OF PUBLIC HEARING

The City Commission of the City of Fort Pierce, Florida, pursuant to Section 125-37 of the Code of Ordinances of the City of Fort Pierce, and Sections 166.041 (3)(a) and 163.3187 of Florida State Statutes, will on Monday, December 19, 2022 at 5:05 p.m. and Tuesday January 3, 2022 at 5:05 p.m., hold Public Hearings on the enactment of the proposed ordinance on first and second readings, respectively, in the City Hall Commission Chambers, 100 North U.S. #1, Fort Pierce, Florida, to consider review and approval of the following:

ORDINANCE 22-041 AN ORDINANCE BY THE CITY COMMISSION OF THE CITY OF FORT PIERCE, FLORIDA; **AMENDING THE FUTURE LAND USE MAP OF THE COMPREHENSIVE PLAN TO CHANGE THE DESIGNATION OF PROPERTY GENERALLY LOCATED AT OR NEAR 3000 VIRGINIA AVE, FROM GENERAL COMMERCIAL, GC, TO MEDIUM DENSITY RESIDENTIAL, RM;** PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR REPEAL OF ORDINANCES OR PARTS THEREOF IN CONFLICT; PROVIDING FOR AN EFFECTIVE DATE.

Subject Property: Parcel IDs: 2419-111-0002-000-7 & 2419-113-0001-000-6

Display Map of Subject Property
****Insert Map Here ****

All interested parties may appear at the meeting and be heard with respect to the ordinance. Said ordinance will be available for inspection in the City Clerk's Office, City Hall, 100 North U.S. #1, Fort Pierce, Florida.

ANY PERSON SEEKING TO APPEAL THE DECISION OF THE CITY COMMISSION AS TO THE FOREGOING IS ADVISED THAT A RECORD OF PROCEEDINGS IS REQUIRED IN ANY SUCH APPEAL AND THAT SUCH PERSON MAY NEED TO ENSURE THAT A VERBATIM RECORD OF PROCEEDINGS IS MADE INCLUDING THE TESTIMONY AND EVIDENCE UPON WHICH THE APPEAL IS TO BE BASED.

In accordance with the Americans with Disabilities Act and Section 286.26, Florida Statutes, persons with disabilities needing special accommodation to participate in this meeting should contact the City Clerk's Office at (772) 467-3065 at least 48 hours prior to the meeting.

Re: Rezoning - Allegra at Fort Pierce - Parcel IDs: 2419-111-0002-000-7 & 2419-113-0001-000-6

SUBJECT:

Quasi-Judicial Hearing - Ordinance 22-042 - Review and approval of a Zoning Map Amendment by owners 135058, 136681 and 11765663 Canada, Inc and applicant Rebecca Grohall of MBV Engineering to change the zoning from General Commercial, C-3, to Medium Density Residential, R-4, at approximately 3000 Virginia Avenue Fort Pierce, FL 34947. Parcel IDs: 2419-111-0002-000-7 & 2419-113-0001-000-6

SUMMARY:

In accordance with Sections 125-37 and 125-133 of the City Code, the applicant is requesting the review and approval of a Rezoning from C-3, General Commercial, to R-4, Medium Density Residential

RECOMMENDATION:

The requested Application for Zoning Atlas Map Amendment meet the criteria specified in Section 125-136 of the City Code, the Comprehensive Plan, and does not adversely affect the public health, safety, convenience, and general welfare. Therefore, Staff recommends APPROVAL of the proposed Rezoning from C-3, General Commercial, to R-4, Medium Density Residential.

Form Started By: Ryan Altizer Started On: 12/07/2022 03:09 PM
Final Approval Date: 12/09/2022

ORDINANCE NO. 22-042

AN ORDINANCE BY THE CITY COMMISSION OF THE CITY OF FORT PIERCE, FLORIDA; **REZONING THE PROPERTY GENERALLY LOCATED AT OR NEAR 3000 VIRGINIA AVE, FROM GENERAL COMMERCIAL (C-3) TO MEDIUM DENSITY RESIDENTIAL (R-4);** PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR REPEAL OF ORDINANCES OR PARTS THEREOF IN CONFLICT; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the subject property is generally located at or near 3000 Virginia Ave, within the City of Fort Pierce, Florida, representing approximately 32.93 acres of land; and

WHEREAS, The City of Fort Pierce has applied for rezoning of the subject property generally located at Virginia Ave from General Commercial, C-3 to Medium Density Residential, R-4; and

WHEREAS, the proposed zoning atlas map amendment (rezoning) is consistent with the comprehensive plan, will not have an adverse effect on the ability of the city to satisfy land and water use needs; and meet transportation demands and provide community facilities and services, and will promote and protect the public health, safety and general welfare as required by City Code 125-136; and

WHEREAS, the City of Fort Pierce Planning Board, at their November 14th 2022, meeting, voted to recommend approval of the request; and

WHEREAS, the City seeks a future land use amendment of the subject property, generally located at or near 3000 Virginia Ave, from GC, General Commercial to RM, Medium Density Residential; and

WHEREAS, the proposed future land use amendment is consistent with the comprehensive plan, and will not have an adverse effect on the ability of the City to satisfy land and water use needs, and meet transportation demands and provide community facilities and services, and will promote and protect the public health, safety and general welfare as required by City Code section 125-136; and

WHEREAS, the City of Fort Pierce Planning Board, at their November 14th 2022, meeting, voted to recommend approval of the request; and

NOW, THEREFORE, BE IT ORDAINED by the City Commission of the City of Fort Pierce, Florida as follows:

SECTION 1. From and after the effective date hereof, the following described property is hereby rezoned as follows:

From and after the effective date hereof, the following property legally described respectively as:

Parcel IDs: 2419-111-0002-000-7 & 2419-113-0001-000-6

LEGAL DESCRIPTIONS:

19 35 40 THAT PART OF N 3/4 OF NE 1/4 OF NE 1/4 LYG S OF CANAL 7-LESS VIRGINIA AV AND HARTMAN RD R/W- AND THAT PART OF SE 1/4 OF NW 1/4 OF NE 1/4 LYG S OF CANAL 7 AND E OF CANAL 29 (17.83 AC)

AND

19 35 40 S 1/2 OF S 1/2 OF NE 1/4 OF NE 1/4-LESS HARTMAN RD R/W- AND NW 1/4 OF SE 1/4 OF NE 1/4 LYG N AND E OF FIVE MILE CREEK(14.17 AC) (OR 3631-594)

Containing 32.0 acres, more or less

Said property being generally located at or near 3000 Virginia Ave in Fort Pierce, Florida shall be and the Zoning Designation is hereby changed from General Commercial, C-3 to Medium Density Residential, R-4, as depicted on Exhibit “A”, attached hereto and incorporated herein.

SECTION 2. The provisions of this Ordinance are declared to be severable and if any section, sentence, clause, or phrase of this Ordinance shall, for any reason, be held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining sections, sentences, clauses, and phrases of this Ordinance, which shall remain in effect, it being the legislative intent that this Ordinance shall stand notwithstanding the invalidity of any part.

SECTION 3. All ordinances or parts of ordinances in conflict herewith are and the same shall be repealed and shall be of no further force or effect whatsoever.

SECTION 4. This Ordinance shall become effective immediately upon final passage.

APPROVED AS TO FORM & CORRECTNESS:

Applicant's Request: Approval of a Rezoning from C-3, General Commercial, to R-4, Medium Density Residential.

Location(s): 3000 Virginia Ave (approx.)

Parcel ID: 2419-111-0002-000-7 & 2419-113-0001-000-6

Future Land Use: General Commercial (GC)

Current Zoning: General Commercial (C-3)

Surrounding Zoning:

North	East	South	West
C-3 (FP)	GC (SLC)/RM-5 (SLC)	RS-3 (SLC)	C-3 (FP)

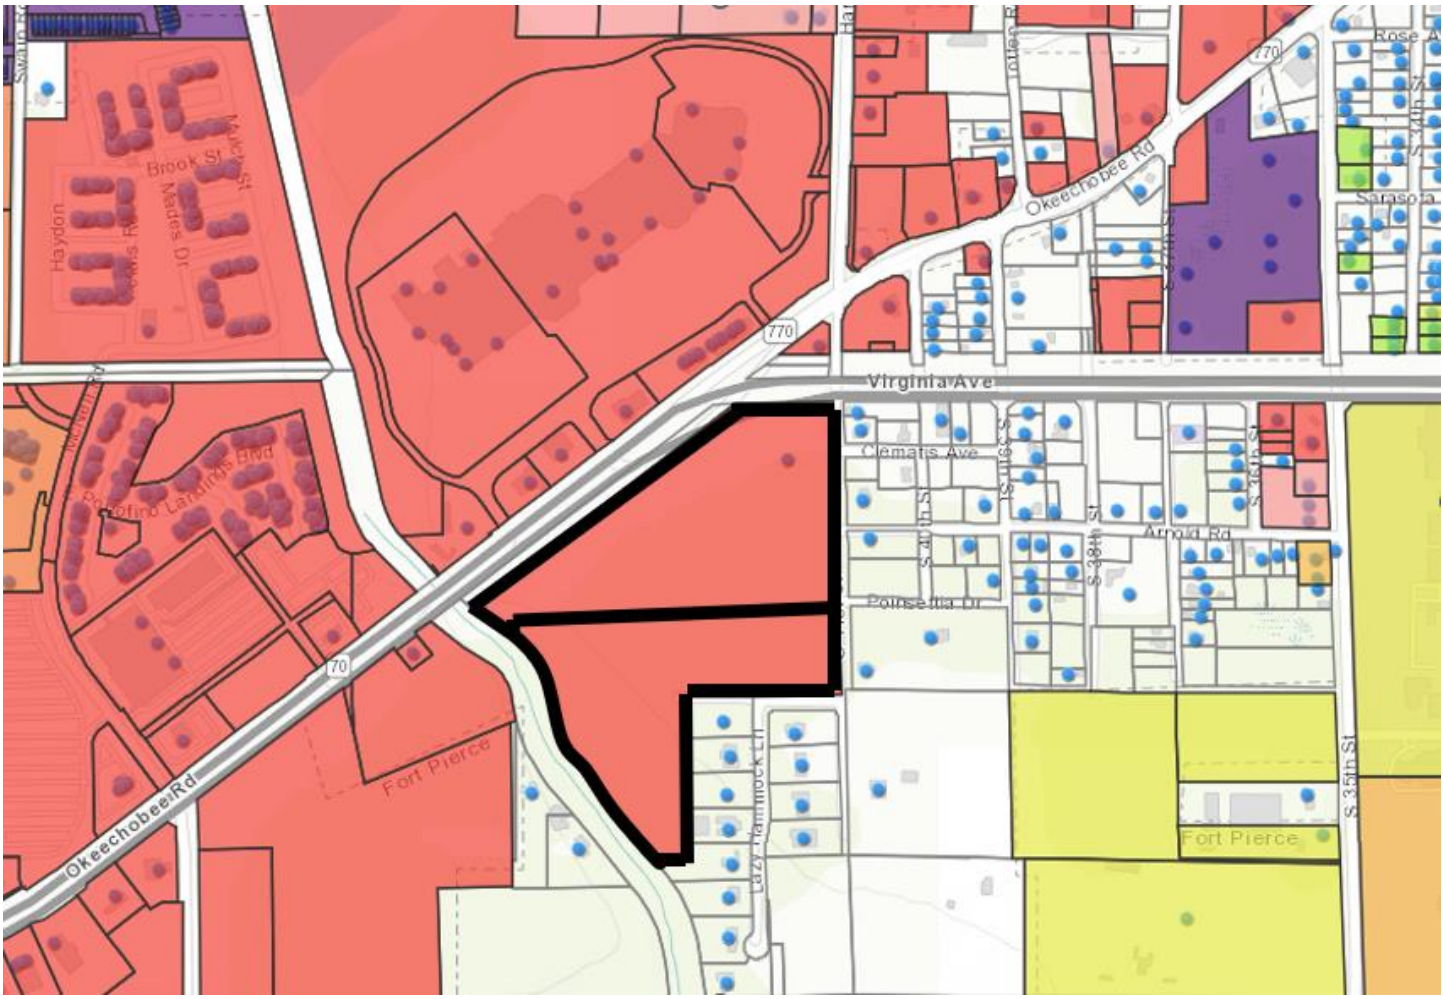

Utilities: FPUA

Staff Analysis:

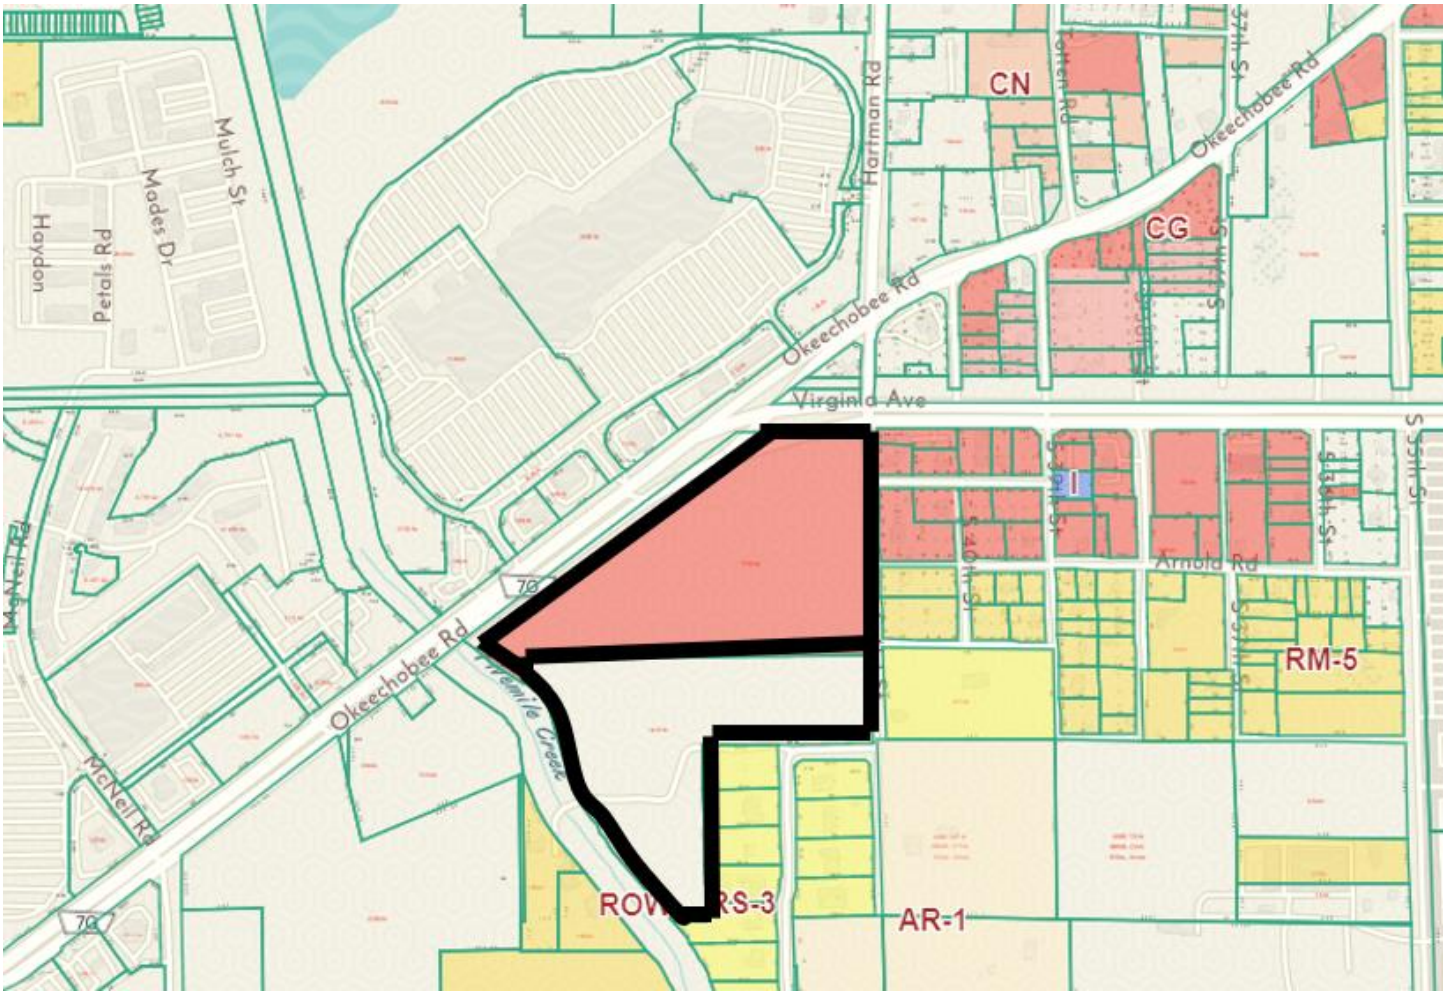

Request

In accordance with Sections 125-37 and 125-133 of the City Code, the applicant is requesting the review and approval of a Rezoning from C-3, General Commercial, to R-4, Medium Density Residential

As displayed on the map below, the 32.93-acre subject property is surrounded by properties zoned as General Commercial (C-3) in Fort Pierce's jurisdiction and General Commercial (CG), Residential Multi-Family, 5 du/ac (RM-5) and Residential Single-Family, 3du/ac (RS-3) in St. Lucie County's jurisdiction.

Ft. Pierce Zoning Map

St. Lucie County Zoning Map

Zoning Designation Comparison

The subject property currently has a Zoning designation that is General Commercial (C-3). The General Commercial (C-3) district is intended and is more suitable for uses requiring a high degree of accessibility to vehicular traffic, low intensity uses on large tracts of land, general commercial and retail uses and most repair services and small warehousing and wholesaling operations are also permitted.

The requested zoning of Medium Density Residential (R-4) is designed to accommodate a variety of housing types, including conventional single-family dwellings, duplexes and, where desirable, townhome dwellings, mobile homes or multifamily housing with three or more dwelling units. Maximum gross densities should generally not exceed ten units per acre for conventional developments and 12 units per acre for innovative residential developments. This intensity of

residential use is envisioned for locations which have public water and sewer service and which have adequate access to arterial or collector streets.

Standards for Review

Pursuant to Article IX, City Code of Ordinances, a proposed change of district or text may be initiated by the city commission, the city planning board or by petition of one or more of the property owners or affected residents within the area proposed to be changed or affected by a change in the district map or text.

The following standards must be satisfied per Section 125-136 of the City Code prior to the approval of the requested amendment:

(1) The amendment is consistent with the Comprehensive Plan.
(2) The amendment will not have an adverse effect on the ability of the City to:
    a. Satisfy land and water use needs; and
    b. Meet transportation demands and provide community facilities and services.
(3) The amendment will promote and protect the public health, safety, and general welfare.

The proposed amendment is consistent with and furthers the Goals, Objectives, and Policies of the City's Comprehensive Plan. The Zoning Atlas Map Amendment promotes and protects the public health, safety, and general welfare as the request as proposed is in character and similar with the surrounding area, land uses and zoning designations

Technical Review Committee

All affected City and County Departments have reviewed the proposed Zoning Atlas Map Amendment and there were no comments from the TRC.

Planning Board Recommendation

The Planning Board, at their meeting on November 14th, 2022, voted unanimously to recommend Approval of the request.

Staff Recommendation Zoning Atlas Amendment

The requested Application for Zoning Atlas Map Amendment meet the criteria specified in Section 125-136 of the City Code, the Comprehensive Plan, and does not adversely affect the public health, safety, convenience, and general welfare. Therefore, Staff recommends APPROVAL of the proposed Rezoning from C-3, General Commercial, to R-4, Medium Density Residential.

Request

In accordance with Sections 125-37 and 125-133 of the City Code, the applicant is requesting the review and approval of a Rezoning from C-3, General Commercial, to R-4, Medium Density Residential

As displayed on the map below, the 32.93-acre subject property is surrounded by properties zoned as General Commercial (C-3) in Fort Pierce's jurisdiction and General Commercial (CG), Residential Multi-Family, 5 du/ac (RM-5) and Residential Single-Family, 3du/ac (RS-3) in St. Lucie County's jurisdiction.

Ft. Pierce Zoning Map

St. Lucie County Zoning Map

Zoning Designation Comparison

The subject property currently has a Zoning designation that is General Commercial (C-3). The General Commercial (C-3) district is intended and is more suitable for uses requiring a high degree of accessibility to vehicular traffic, low intensity uses on large tracts of land, general commercial and retail uses and most repair services and small warehousing and wholesaling operations are also permitted.

The requested zoning of Medium Density Residential (R-4) is designed to accommodate a variety of housing types, including conventional single-family dwellings, duplexes and, where desirable, townhome dwellings, mobile homes or multifamily housing with three or more dwelling units. Maximum gross densities should generally not exceed ten units per acre for conventional developments and 12 units per acre for innovative residential developments. This intensity of

residential use is envisioned for locations which have public water and sewer service and which have adequate access to arterial or collector streets.

Standards for Review

Pursuant to Article IX, City Code of Ordinances, a proposed change of district or text may be initiated by the city commission, the city planning board or by petition of one or more of the property owners or affected residents within the area proposed to be changed or affected by a change in the district map or text.

The following standards must be satisfied per Section 125-136 of the City Code prior to the approval of the requested amendment:

(1) The amendment is consistent with the Comprehensive Plan.
(2) The amendment will not have an adverse effect on the ability of the City to:
    a. Satisfy land and water use needs; and
    b. Meet transportation demands and provide community facilities and services.
(3) The amendment will promote and protect the public health, safety, and general welfare.

The proposed amendment is consistent with and furthers the Goals, Objectives, and Policies of the City's Comprehensive Plan. The Zoning Atlas Map Amendment promotes and protects the public health, safety, and general welfare as the request as proposed is in character and similar with the surrounding area, land uses and zoning designations

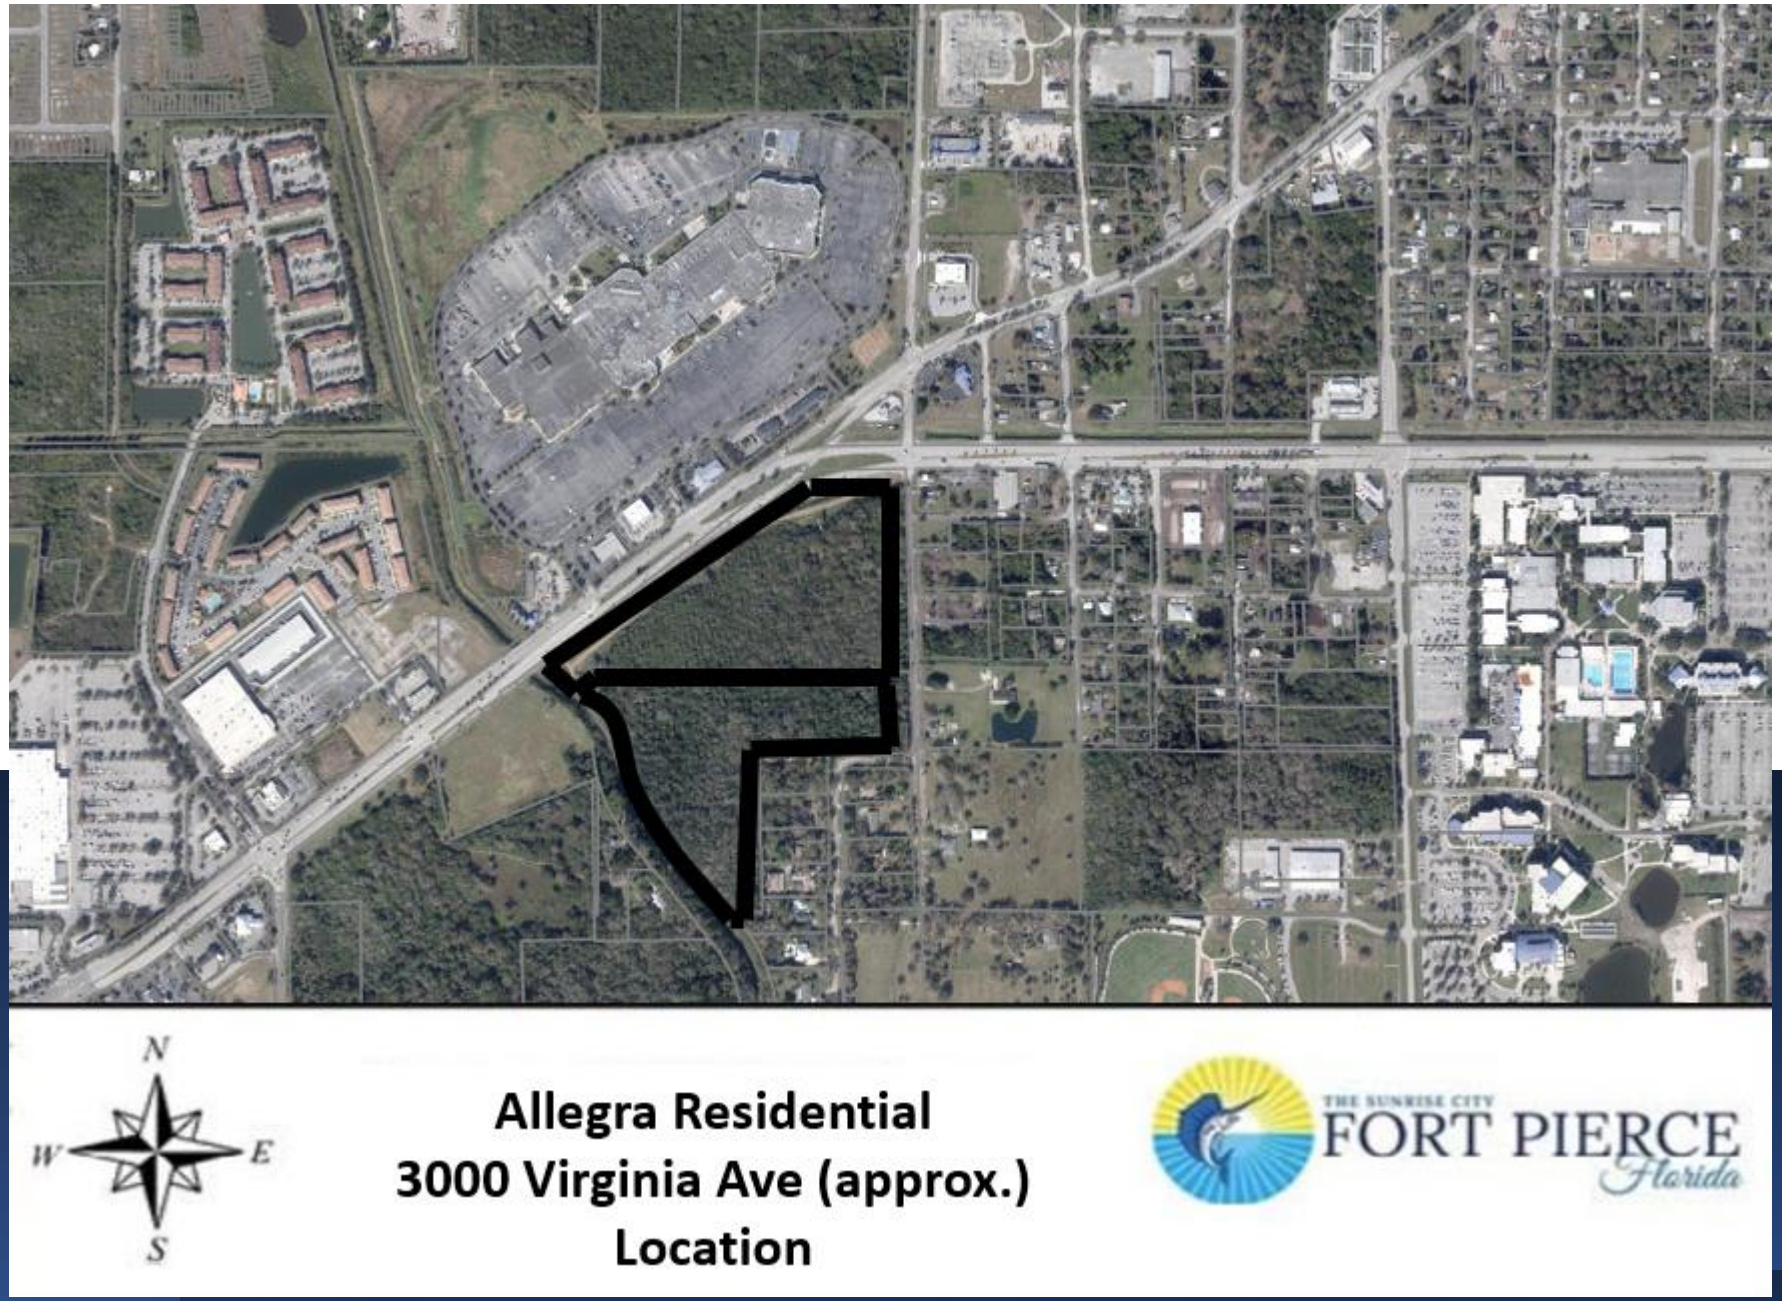

Technical Review Committee

All affected City and County Departments have reviewed the proposed Zoning Atlas Map Amendment and there were no comments from the TRC.

Staff Recommendation Zoning Atlas Amendment

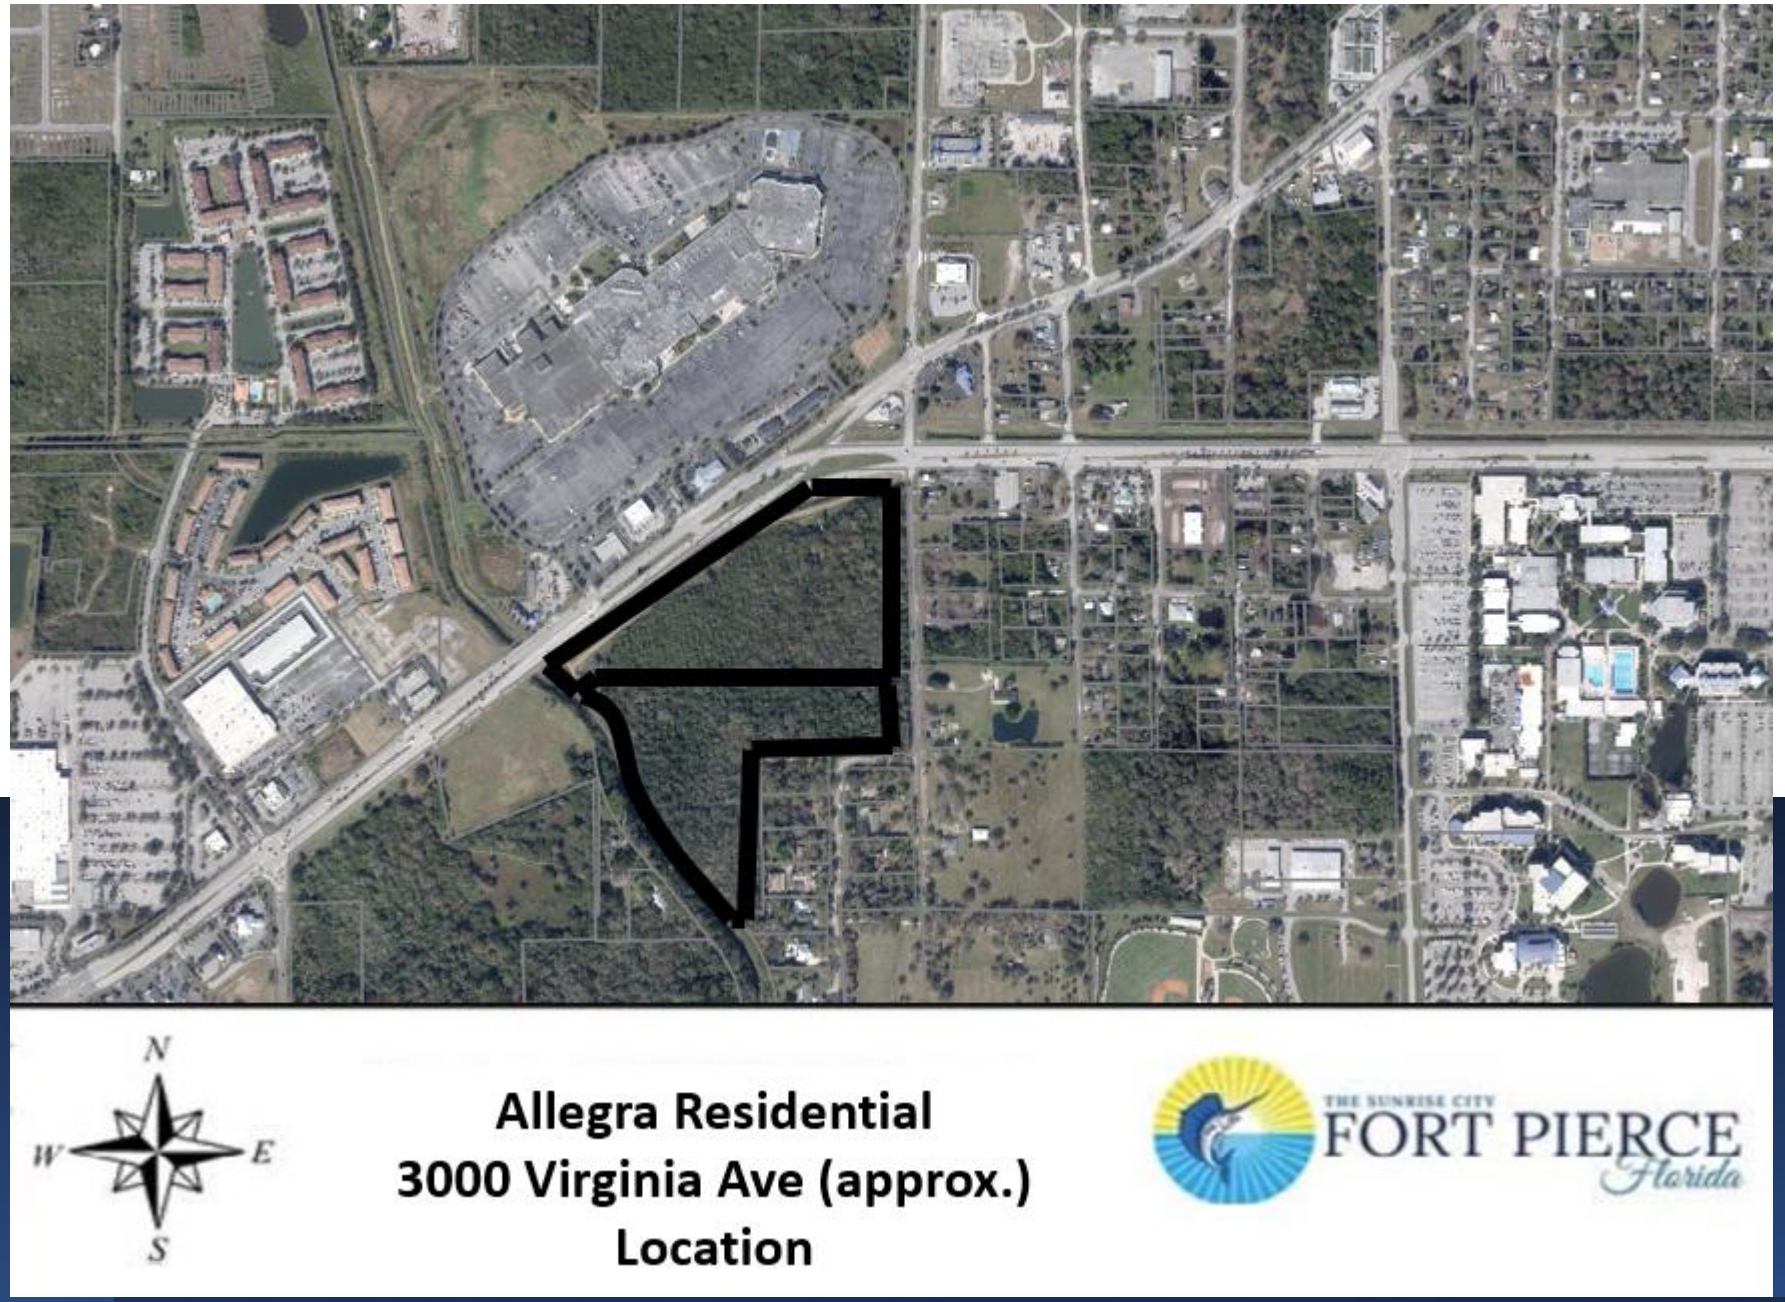

The requested Application for Zoning Atlas Map Amendment meet the criteria specified in Section 125-136 of the City Code, the Comprehensive Plan, and does not adversely affect the public health, safety, convenience, and general welfare. Therefore, Staff recommends APPROVAL of the proposed Rezoning from C-3, General Commercial, to R-4, Medium Density Residential.

PLANNING DEPARTMENT Florida

Application for Future Land Use Map Amendment

☐ Future Land Use Map Amendment – Large Scale (>10 acres)

■ Future Land Use Map Amendment – Small Scale (< 100 acres)

In accordance with Chapter 163.3187, Florida Statutes, The City of Fort Pierce will consider applications for land use changes on parcels in excess of 10 aces ("Large Scale Amendments") only twice each calendar year. The City Commission will consider applications for land use changes on parcels less than or equal to 10 acres with a maximum density of 10 units per acres or less at any time during the calendar year. You are encouraged to schedule a pre-application meeting with the planning staff and to submit your application up to three months in advance of the application deadline.

Application submission shall include the following:

- **TRC** (*Initial Submission): One (1) original and (8) paper copies of the application and support documents and provide one (1) electronic copy of the application packet as described below.
- **Planning Board**: One (1) original and (13) paper copies of the application and support documents and provide one (1) electronic copy of the application packet as described below.
- **City Commission**: One (1) original and (11) paper copies of the application and support documents and provide one (1) electronic copy of the application packet as described below.

In addition to a complete application, packets shall include:

- ☐ Warranty Deed & Legal Description
- ☐ St. Lucie County Property Record Card
- ☐ Statement of why there is a need for the proposed future land use map amendment and how the amendment will result in an orderly and logical development pattern; statements how amendment(s) are consistent with Comprehensive Plan; how future land use designation is compatible with future land use designations and existing land uses surrounding the amended lands; identify future land use designations and existing land uses within a ½ mile of the subject property that have the same or greater type of proposed future land use designation; data and analysis to support conclusions.
- ☐ Current Survey
- ☐ Environmental Study
- ☐ Traffic Impact Report
- ☐ *** Capacity Analysis-Separate Form
- ☐ Drainage Analysis
- ☐ Historical Report
- ☐ 1 CD of all documents submitted in PDF
- ☐ Other_____

1. Property Address/Location: 3000 Virginia Avenue
2. Property Tax ID(s): 2419-111-0002-000-7 and 2419-113-0001-000-6
3. Total Acreage: 29.13
4. Existing Future Land Use Designation: GC
5. Existing Zoning Classification: C3
6. Proposed Zoning Classification: R4
7. Other applications being submitted concurrent with this application, if any: Rezoning to R4
8. Describe the existing uses, improvements and structures on the amendment lands: Both parcels are vacant
9. Are there any identified or possible historical structures on the amendment lands? N/A
10. The reason for making this request: These properties have sat vacant for decades, the northern parcel was used for agricultural purposes prior to the 90s. Previous proposed commercial developments have not been built, the applicants believe the time is right to increase the supply of multi-family housing to meet the demands for achievable housing.

11. Capacity Analysis:

Re: The Brownstone Group/Virginia Avenue Cottages

Ladies and Gentlemen:

This letter will confirm that FORT PIERCE HARTMAN, LLC., a Florida limited liability company, ("**Owner**") is the owner of record of that certain property described in **Exhibit "A"**, attached hereto and made a part hereof (the "**Property**").

Owner hereby authorizes MBV ENGINEERING, INC., a Florida corporation to act as it's agent for the purpose of filing applications for a future land use amendment, zoning change and site plan approval for the Property, and any related land use applications, allowing for the development of multifamily residential units on the Property, and the processing of such applications to final approval by the City of Fort Pierce.

Sincerely,

(SIGNATURE PAGES FOLLOW)

3000 Virginia Avenue
Fort Pierce, St. Lucie County, Florida

EDC, Inc. has completed this Phase I Environmental Site Assessment (ESA) Report in compliance with the American Society for Testing and Materials (ASTM) format E 1527-13 for the above-referenced property. The purpose of this evaluation was to identify recognized environmental conditions as defined in ASTM E 1527-13.

Based on the results of the Phase I ESA conducted at the subject property, no unresolved recognized environmental conditions have been identified in connection with the subject property, and no further assessment is warranted at this time.

Further, please note that an environmental liens or activity and use limitations search was not performed for the subject property. In accordance with ASTM E 1527-13, it is the responsibility of the User of this report to undertake a review of reasonable ascertainable recorded land title records and lien records for environmental liens or activity and use limitations recorded against or relating to the subject property. In the event that any are identified, please contact EDC, Inc. immediately for further evaluation.

EDC, Inc. appreciates this opportunity to provide environmental services to you. Please contact me if you have any questions regarding this report.

Respectfully submitted,
EDC Inc.

1.0 SUMMARY

The subject property evaluated as part of this Phase I Environmental Site Assessment (ESA) consists of one (1) tax parcels (Parcel IDs: 2419-111-0002-000-7) comprised of 17.83 acres of general commercial land according to the St. Lucie County Property Appraiser. The subject parcel is located at 3000 Virginia Avenue, Fort Pierce, St. Lucie County, FL. The subject parcel maintains the following Section/Township/Range description: Section 19, Township 35 South and Range 40 East. Please refer to the Site Location Map presented in **Appendix A** for a visual explanation of the subject property**.**

[NOTE: Please review this report in its entirety for a full description of our evaluation, procedures, and findings.]

Based on the findings of this Phase I ESA conducted in accordance with American Society for Testing and Materials (ASTM) format E1527-13, we conclude the following:

1. We found no evidence of recognized environmental conditions with respect to past uses of the subject property based on our field observations, historical research, and public records review.

2. We found no evidence of obvious surface discharges such as stained soil or pavement, no indications of solid or liquid waste dumping or disposal, underground storage tanks (USTs), septic systems, seeps, unusual odors, stressed vegetation, or roads/paths with no outlet likely to have been used for disposal of hazardous wastes or petroleum products at the subject property.

3. Adjoining properties that formerly or currently generate(d) hazardous waste or use(d) hazardous materials were identified based on our regulatory database review.

4. We identified eight (8) Leaking Underground Storage Tank (LUST) facilities within the minimum search distance as specified by ASTM-E standards. The facility was found to be closed and in compliance. Please refer to **Table 3** for more information.

5. We identified one (1) Aboveground Storage Tank (AST) facilities within the minimum search distance as specified by the ASTM-E standards. The facility is located on the target property and was found to be in compliance. Please refer to **Table 3** for more information.

Based on the conclusions of the Phase I ESA conducted at the referenced site, EDC, Inc. did not find evidence of unresolved recognized environmental conditions and further assessment is not warranted at this time.

Please note that an environmental liens or activity and use limitations search was not performed for the subject property. In accordance with ASTM E 1527-13, it is the responsibility of the User of this report to undertake a review of reasonable ascertainable recorded land title records and lien records for environmental liens or activity and use limitations recorded against or relating to the subject property. In the event that any are identified, please contact EDC, Inc immediately for further evaluation and we will run the environmental liens search.

It is important to note that in order to remain eligible for CERCLA liability protections, continuing obligations will need to be followed at the subject property. The User has the continuing

obligation not to impede the integrity and effectiveness of activity and land use limitations, the duty to take reasonable steps to prevent releases, and the duty to comply with legally required release reporting obligations.

2.0 INTRODUCTION

2.1 PURPOSE

The purpose of this assessment is to conduct an evaluation of the past and current uses of the subject property and surrounding properties to identify recognized environmental conditions in connection with the subject property.

The term “recognized environmental conditions” means the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the subject property or into the ground, groundwater, or surface water of the subject property. This environmental assessment was conducted in accordance with the guidelines of the ASTM E 1527-13 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process. This assessment was also intended to identify potential off-site contaminant sources within the distances set forth in ASTM E 1527-13.

2.2 DETAILED SCOPE OF SERVICES

The contracted scope of services consists of the preparation of a Phase I ESA of the subject property in accordance with the guidelines set forth in ASTM E 1527-13. The purpose of the ASTM E 1527-13 Standard Practice for Environmental Site Assessments is to define good commercial and customary practice in the United States of America for conducting an environmental site assessment with respect to the range of contaminants within the scope of Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C. §9601) and petroleum products.

The scope of work does not include soil or groundwater sampling; contamination assessment/delineation; an evaluation of asbestos, lead-based paint, radon, wetlands, lead in drinking water, environmental compliance, threatened & endangered species, cultural resources, industrial hygiene, health and safety, ecological resources, indoor air quality; site geotechnics (soils, foundations, site retention, etc.) or construction materials testing. If necessary, EDC, Inc. can provide these additional services.

2.3 SIGNIFICANT ASSUMPTIONS

No environmental site assessment can wholly eliminate uncertainty regarding the potential for recognized environmental conditions in connection with a property. Performance of a Phase I ESA in conformance with ASTM E 1527-13 is intended to reduce, but not eliminate, uncertainty regarding the potential for recognized environmental conditions in connection with a property. This assessment is site-specific, and all appropriate inquiry does not mean an exhaustive assessment of a clean property.

2.4 LIMITATIONS AND EXCEPTIONS

The findings of this report represent our professional judgment. These findings are relevant to the dates of our site work and the information cited herein. This report should not be relied upon to represent property conditions on other dates or at locations other than those specifically cited within this report.

The following limitations were encountered during completion of this Phase I ESA:

- Data gaps were encountered in the historical aerial photograph review due to the lack of available photographs as early as 1944 and in five-year intervals as preferred by ASTM-E standards. Based on our review of the available aerial photographs along with additional historical information found during review of other sources, the data gap does not appear to be significant to the findings of this report and does not appear to constitute as a data failure.

- The chain-of-title documentation or recorded land title records for environmental liens or activity and use limitations currently recorded against or relating to the subject property were not provided to EDC, Inc. during completion of this Phase I ESA.

2.5 SPECIAL TERMS AND CONDITIONS

Any special terms and conditions associated with this Phase I ESA are included in the Environmental Consulting Services Agreement and the Addendum to Contractual Agreements between EDC, Inc. and The Brownstone Group.

In addition, EDC shall not be held liable for any incorrect advice, judgment or decision based on any inaccurate information supplied by the user, current owner, or their designees.

2.6 USER RELIANCE

This report is intended for the sole use of EDC Inc. and The Brownstone Group. Its contents may not be relied upon by other parties without the explicit written consent of EDC, Inc.

In accepting this report, all parties herein mentioned agree to the Environmental Consulting Services Agreement and the Addendum to Contractual Agreements between EDC, Inc. and The Brownstone Group.

3.0 SITE DESCRIPTION

3.1 LOCATION AND LEGAL DESCRIPTION

The subject property is located within Section 19, Township 35 South and Range 40 East at 3000 Virginia Avenue in Fort Pierce, Florida. More specifically, the subject property consists of 17.83 acres of vacant general commercial property. The legal description for the tax parcel is as follows;

2419-111-0002-000-7: 19 35 40 THAT PART OF N 3/4 OF NE 1/4 OF NE 1/4 LYG S OF CANAL 7-LESS VIRGINIA AV AND HARTMAN RD R/W- AND THAT PART OF SE 1/4 OF NW1/4 OF NE 1/4 LYG S OF CANAL 7 ANDE OF CANAL 29 (17.83 AC).

This location is vacant commercial according to the St. Lucie County Property Appraisers in Fort Pierce, St. Lucie County, Florida. The subject property is currently vacant general commercial land (Land Use Code 1000). Visual representation of the property boundary, aerial photographs, and property appraiser cards are presented in **Appendix A**.

3.2 PROPERTY AND VICINITY CHARACTERISTICS

At the time of this assessment, the subject property consisted of 17.83 acres of vacant commercial land. The property vicinity is characterized primarily by agricultural and residential properties. Please refer to the Site Location Map in **Appendix A**.

3.3 CURRENT USE OF THE PROPERTY

At the time of the site reconnaissance, the subject property consisted of 17.83 acres of vacant commercial land, it is unused for agricultural production at this time.

3.4 STRUCTURES, ROADS, AND/OR OTHER IMPROVEMENTS WITHIN THE PROPERTY

The subject property shows evidence of use as an old citrus grove, which has since been abandoned and re-zoned for commercial use. A large canal surrounds the property along the northwest property boundary. A billboard does exist on the subject property.

3.5 CURRENT USE OF ADJOINING PARCELS

Currently, the parcels adjoining the site are used as follows:

TABLE 1
Description of Adjoining Parcels

Direction From Site	Description of Current Use
North	Orange Blossom Business Center; Commercial Retail
East	Residential Use; Single-Family Homes
South	Vacant General Commercial
West	Commercial Retail

None of the current uses of the adjoining properties appear likely to indicate the presence of recognized environmental conditions in connection with the subject property.

4.0 USER PROVIDED INFORMATION

The User did not provide EDC with information pertaining to the following sections. This information was collected by EDC, Inc.

4.1 TITLE RECORDS

According to the St. Lucie County Property Appraiser's Report, the current owner of the parcel located at 3000 Virginia Avenue is 11765663 Canada, Inc. They are located in Mount Royal, Quebec Canada H4N 2P7. The Deed is dated November 27th, 2020. Previous ownership data is not listed. This is the last known sale of the subject parcel.

The User did not contract EDC, Inc. to acquire a chain-of-title for the parcels comprising the subject property, which typically contains information regarding historical site ownership.

4.2 ENVIRONMENTAL LIENS OR ACTIVITY AND USE LIMITATIONS

The User did not provide information on any environmental liens or activity and use limitations on the subject property that are filed or recorded under federal, tribal, state, or local laws.

Please note that an environmental liens or activity and use limitations search report was not acquired by EDC, Inc. for the parcel comprising the subject property. In order to qualify for due diligence, the User of this report may be required to contact a title company to confirm that there are no environmental liens or activity and use limitations filed for the parcel comprising the subject property. In the event that any are identified, please contact EDC, Inc. immediately for further evaluation.

4.3 SPECIALIZED KNOWLEDGE

The User did not provide any specialized knowledge or experience that may pertain to recognized environmental conditions in connection with the subject property.

4.4 VALUATION REDUCTION FOR ENVIRONMENTAL ISSUES

Information pertaining to the assessed value of the subject property is included in the St. Lucie County Property Appraiser's Report presented in **Appendix A.**

4.5 OWNER, PROPERTY MANAGER, AND OCCUPANT INFORMATION

According to the St. Lucie County Property Appraiser's Report, the current owners of the subject property is 11765663 Canada, Inc. They are located in Mount Royal, Quebec Canada H4N 2P7. Please refer to the St. Lucie County Property Appraiser's Report included in **Appendix A**. The subject property consists of one tax parcel that is comprised of 17.83 acres of general commercial land.

4.6 REASON FOR PERFORMING PHASE I ESA

The User stated the reason for requesting this Phase I ESA was for Due Diligence associated with purchasing of the property. Therefore, the User contracted EDC, Inc. to perform this Phase I ESA in conjunction with a real estate transaction for the prospective owner to satisfy one of the requirements to qualify for the innocent purchaser defense, contiguous property owner or bona fide prospective purchaser limitations on CERCLA liability.

4.7 COMMONLY KNOWN OR REASONABLY ASCERTAINABLE INFORMATION ABOUT THE PROPERTY

The User did not provide any information regarding any specific chemicals that are present or were once present at the subject property, spills or other chemical releases that have taken place at the subject property, or any environmental cleanups that have taken place at the subject property.

5.0 RECORDS REVIEW

The purpose of the records review is to obtain and review records that will help identify recognized environmental conditions in connection with the site. Accuracy and completeness of record information varies among information sources, including government sources. Record information is often inaccurate or incomplete. Standard sources that are reasonably ascertainable were reviewed by EDC, Inc. for this Phase I ESA.

5.1 STANDARD ENVIRONMENTAL RECORD SOURCES

As part of this assessment, we reviewed information sources to obtain existing information pertaining to a release of hazardous substances or petroleum products on or near the site. EDC, Inc. obtained an ASTM radius map report through Environmental Data Resources, Inc. (EDR). A copy of the EDR report is contained in **Appendix B**. EDC, Inc. also reviewed other available standard environmental record sources at the Florida Department of Environmental Protection (FDEP), as needed. The following state, county, and federal sources were consulted during this record review:

State, County, and Tribal Database Review (FDEP and MCHD)

- FDEP, Leaking Underground Storage Tanks (LUST)
- FDEP, Leaking Aboveground Storage Tanks (LAST)
- FDEP, Registered Underground Storage Tanks (UST)
- FDEP, Registered Aboveground Storage Tanks (AST)
- FDEP, State Hazardous Waste Sites (SHWS)
- FDEP, Solid Waste Facility/Landfill Sites (SWL/LF)
- FDEP, State Brownfield Areas (BROWNFIELDS)
- FDEP, Voluntary Cleanup Sites (VCP)
- FDEP, Institutional Controls & Engineering Controls Registry (IC & EC)

Federal Database Review [United States Environmental Protection Agency (EPA)

- EPA, National Priorities List (NPL), including Delisted and Proposed NPL Sites and Federal Superfund Liens
- EPA, Comprehensive Environmental Response Compensation and Liability Act Information System (CERCLIS)
- EPA, CERCLIS No Further Remedial Action Planned (CERCLIS-NFRAP)
- EPA, RCRA Treatment, Storage, and Disposal Facilities (RCRA-TSDF)
- EPA, RCRA Corrective Action Report Facilities (CORRACTS)
- EPA, RCRA Generators List (RCRA), including Large Quantity Generators (LQG), Small Quantity Generators (SQG) and Conditionally Exempt Small Quantity Generators (CESQG)
- EPA, Institutional Controls & Engineering Controls Registry (US IC & US EC)
- EPA, Emergency Response Notification System List (ERNS)

Table 2 lists the approximate minimum search distances used during this assessment as set forth in ASTM E 1527-05.

TABLE 2 Approximate Minimum Search Distances – ASTM E 1527-05

State and Tribal Voluntary Cleanup Sites	0.5 mile
State and Tribal Brownfield Sites	0.5 mile

5.1.1 FEDERAL, FLORIDA STATE, AND ST. LUCIE COUNTY RECORDS REVIEW

According to information provided by EDR and/or the FDEP Web-Based Map Application for Waste Management Division Facilities, the subject property is not listed in the federal, state or county databases. Please refer to **Table 3** for a summary of information regarding these facilities. Please refer to the FDEP and groundwater flow maps in **Appendix A**, EDR report in **Appendix B**, and supplemental documents in **Appendix C** for details.\

State/Federal Database Descriptions for Table 3	
Database Abbreviation	**Description**
AST	Registered Aboveground Storage Tanks.
DWM CONTAM	A listing of active or known sites. The listing includes sites that need cleanup but are not actively being working on because the agency currently does not have funding (primarily petroleum and dry cleaning).
ECHO	ECHO (Enforcement & Compliance History Information) provides integrated compliance

	and enforcement information for about 800,000 regulated facilities nationwide.
FINDS	Facility Index System. FINDS contains both facility information and 'pointers' to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).
FL FINANCIAL ASSURANCE	A listing of financial assurance information for underground storage tank facilities and/or a list of hazardous waste facilities required to provide financial assurance under RCRA.
HW GEN	Small Quantity Hazardous Waste Generators are regulated under the federal Resource Conservation and Recovery Act (RCRA) and applicable state regulations as generators of hazardous wastes in quantities greater than 100 Kg but less than 1,000 Kg in any one calendar month. Large Quantity Generators of Hazardous Waste are tracked in this coverage based on their notification to the Department of Environmental Protection as to their handler status, or based on inspections conducted at their facilities. These facilities are regulated under the federal Resource Conservation and Recovery Act (RCRA) and applicable state regulations as generators of hazardous wastes in quantities equal to or greater than 1,000 Kg in any one calendar month.
INST CONTROL	The registry is a database of all contaminated sites in the state of Florida which are subject to institutional and engineering controls.
LUST	Leaking Underground Storage Tank Incident Reports. LUST records contain an inventory of reported leaking underground storage tank incidents. Not all states maintain these

	records, and the information stored varies by state.
NPDES	General information regarding NPDES (National Pollutant Discharge Elimination System) permits.
RCRA-VSQG	RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.
RCRA NONGEN / NLR	RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.
RESP PARTY	Open, inactive and closed responsible party sites.
UST	Registered Underground Storage Tanks. UST's are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA) and must be registered with the state department responsible for administering the UST program. Available information varies by state program.

TABLE 3 State/Federal Database Facility Identified Within Minimum Search Distance			
Facility	**Location**	**Database**	**File Review Summary**
EDS Fort Pierce Texaco 4101 Okeechobee Road Fort Pierce, FL 33450 EDR ID: 1020451313 Beverage Station 4101 Okeechobee Road Fort Pierce, FL 34947 EDR ID: U001373122	0.045 miles N	EDR HIST AUTO LUST UST CLEANUP SITES DWM CONTAIN FINANCIAL ASSURANCE NPDES	According to the EDR report, the facility is a former fuel facility, with records stopping 1993. According to the EDR report, the DEP monitors all wastewater that is being discharged into the environment. A fuel spill consisting of leaded and unleaded gas occurred in 1988 when a UST was overfilled and left unmaintained. In Aug. of 2020, a Compliance Assistance letter was issued, stating the facility was potentially non-compliant. On June 11, 2021 a Remedial Action Plan was reviewed and approved, establishing a strategy to achieve cleanup objectives. The site is currently undergoing Remedial Action and in compliance with associated requirements. Based on this, the likelihood of the subject property being affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
Firestone Store 4160 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1000881247 Firestone #1857-004324-B 4160 Okeechobee Road Fort Pierce, FL 34947 EDR ID: U001373008	0.049 miles NW	RCRA-VSQG FINDS ECHO LUST UST AST	According to the EDR and ECHO report, this facility had no record of violations and tanks were removed and the facility was closed in February of 1993. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
Hess Corporation #09386 4696 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1004684404 Shell-Okeechobee 4696 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1000843296	0.102 miles W	RCRA-VSQG FINDS ECHO LUST UST SPILLS FINANCIAL ASSURANCE	According to the EDR and Oculus Reports, a Site Rehabilitation Completion Order was issued on May 9, 2019 for a discharge that occurred on September 25, 1997. However, a Compliance Assistance Offer was issued due to a potential non-compliance after an inspection on March 25, 2021. Violations were minor and did not involve the movement of contaminants off-site.

			However, due to the proximity to the site, EDC recommends the user monitor the continued compliance of the site. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
Becker Indian River Fruit Co. Inc. 4710 Okeechobee Road Fort Pierce, FL 34947 EDR ID: U001373065	0.124 miles W	UST	According to the EDR report, an underground storage tank was registered in 1987. There was free product discovered in test well, after a test well installer incidentally damaged the storage tank. This was resolved in 1993 after the damaged tank was removed and virgin fill replaced the area impacted by the free product leak, and the area no longer tested positive for product in the soil. Due this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
Sears Roebuck & Co. 4204 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1015741349 Sears Roebuck & Co. #2005 4204 Okeechobee Road Fort Pierce, FL 34947 EDR ID: U001372937 Sears Roebuck & Co. 4204 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1014468984	0.158 miles NW	RCRA NONGEN / NLR LUST UST RCRA-VSQG	According to the EDR and Oculus reports, on December 3, 2004 a Site Rehabilitation Completion Order (SRCO) was issued by the FDEP for a discharge on Dec 29, 1998. Monitoring wells were then abandoned. Due this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
Belk Lindsey Co Inc 4100 Okeechobee Road Fort Pierce, FL 33450 EDR ID: U001373091	0.205 miles NW	UST	According to the EDR and Oculus reports, historical records of an underground storage tank are present. There was no documentation available of any spills or violations. This tank has been removed. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.

Tractor Supply Company #505 4888 Okeechobee Road Fort Pierce, FL 33450 EDR ID: 1016955841	0.211 miles SW	RCRA-VSQG	According to the EDR report, a Conditionally Exempt Small Quantity Generator was permitted for this parcel. This property did store Hazardous Materials; but no spills or contamination records were found. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
Indian River Oil Co. 3700 Okeechobee Road Fort Pierce, FL 34947 EDR ID: S120043074	0.323 miles NE	LUST UST FINANCIAL ASSURANCE	According to the EDR and Oculus reports, a Compliance Assistance Offer was issued on May 31, 2018 for storage tanks on this parcel. However, it was for failure to pay fees and display placards, not failure of structural integrity and discharge of contaminants. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
Ft Pierce Contacting Corp. 1819 Totten Road Fort Pierce, FL 34947 EDR ID: U100373016	0.336 miles N	LUST UST AST	According to the EDR and Oculus reports, a Site Rehabilitation Completion Order was issued on August 30, 2013. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
ABCA McClinton Property Walmart #973 5100 Okeechobee Road Fort Pierce, FL 34947 EDR ID: S107938607 Walmart #973 McClinton Property Okeechobee Rd & McNeil Rd Fort Pierce, FL 34947 EDR ID: S117361413	0.387 mi W	INST CONTROL DWM CONTAM FINANCIAL ASSURANCE HW GEN RESP PARTY	According to the EDR and Oculus reports, a site inspection occurred on December 6, 2016 and was determined to be in compliance. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.
Circle K #7506 2301 S 35th Street & Virginia Ave. Fort Pierce, FL 34981 EDR ID: 1000822408	0.398 mi NE	LUST UST FINANCIAL ASSURANCE	According to the EDR and Oculus reports, on March 16, 2021 this facility received and In Compliance Letter from the DEP. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please

			refer to **Appendix C** for supporting documentation.
Murphy USA #5709 5110 Okeechobee Road Fort Pierce, FL 34950 EDR ID: U003699249	0.417 mi SW	LUST UST FINANCIAL ASSURANCE	According to the EDR and Oculus reports, a Compliance Assistance Offer was issued on April 9, 2019. Minor components were identified as needing replacement. Due to this, the likelihood of the subject property being adversely affected by this facility appears low. Please refer to **Appendix C** for supporting documentation.

In addition to reviewing the EDR report, EDC, Inc. performed reconnaissance of the property vicinity to identify any sites not mapped by EDR due to inadequate or inaccurate address information and to look for unregistered facilities. No facilities of concern were observed within the vicinity of the subject property during field reconnaissance performed by EDC, Inc.

5.2 ADDITIONAL ENVIRONMENTAL RECORDS

The following is a list of some of the additional environmental records that were searched as part of the EDR Radius Map Report: Priority Ranking List (PRIORITYCLEANERS), Formerly Used Defense Sites (FUDS), Records of Decision (ROD), Mines Master Index File (US MINES), Toxic Chemical Release Inventory System (TRIS), Risk Management Plans (RMP), Underground Injection Wells Database Listing (UIC), Drycleaning Facilities (DRYCLEANERS), and PCB Transformer Registration Database (PCB TRANSFORMER).

EDC searched the FDEP Consolidated Web-Based Map Application for Waste Management Division facilities (e.g., solid waste facilities, storage tanks, dry cleaning sites, hazardous waste generators, etc.) located on the subject property and adjoining properties. The map is available for review in **Appendix A**. The search included the Storage Tank Regulation, Solid Waste, Site investigation, Hazardous Waste Program, and the Waste Cleanup database, among others. The database did not reveal any new findings on the property.

EDC reviewed the Florida Department of Community Affairs (DCA) Florida Radon Protection Map for Large Buildings and New Single Family Homes and Duplexes. More than 5% of new large buildings in St. Lucie County are expected to have annual average radon levels above the EPA action level and fewer than 5% new homes are expected to have elevated radon levels. The map indicated that the general area where the site is located (St. Lucie County) is designated as Federal EPA Radon Zone 3. This criteria states that the counties within this zone are those with a predicted radon level less than 2 pCi/L or otherwise known as low risk.

5.3 PHYSICAL SETTING SOURCES

According to the EDR report, USGS topographic quadrangle map, soil survey, and regulatory files available regarding properties of environmental concern in the property vicinity were reviewed as sources for obtaining information regarding the physical setting of the subject property and surrounding vicinity.

Based on our site reconnaissance, review of USGS maps, aerial photographs, the location of the subject property, and the present environmental related conditions of adjacent and nearby properties, there is little to no potential for migration of petroleum product or hazardous waste contamination from off-site sources.

5.3.1 TOPOGRAPHY

The USGS topographic quadrangle map titled “Fort Pierce” was referenced as a source for obtaining information regarding the physical setting of the subject property and surrounding vicinity. The subject property is located at an elevation of approximately 19 feet above sea level.

According to the EDR Report, the groundwater within the minimum search distances is flowing southwest away from the property. A copy of the USGS Quadrangle Map is provided as **Appendix B**.

5.3.2 SOILS/GEOLOGY

The general geology of St. Lucie County is characterized by the Caloosahatchee Marl which underlies the entire area, is of Pliocene age, and consists mainly of sand and varying amounts of shell. The Fort Thompson Formation rests uncomfortably on the Caloosahatchee Marl; dips from west to east; is of Pleistocene age; and consists of a series of alternating beds of limestone, shells, sand, and marl. The Anastasia Formation which is of Pleistocene age and rests uncomfortably on the Fort Thompson Formation forms the backbone of the coastal ridge, is exposed in several places along the ocean shoreline, and consists of sand and shell beds and thin, discontinuous layers of sandy limestone and sandstone. Pamlico Sand of the late Pleistocene age mantles the entire area and is the basic material in which most of the mineral soils have formed.

According to the United States Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS) Web Soil Survey, surficial soils at the subject property are classified as the following:

Chobee loamy fine sand - depressional is a nearly level, very poorly drained soil with a thick black surface layer. It is found in marshy depressions and on flood plains along streams. In most years the water table is within a depth of 10 inches for 6 to 9 months and between 10 to 40 inches for 3 to 6 months. This soil is continuously flooded for 1 to 6 months in many places. Natural vegetation includes sand cordgrass and swamp hardwoods. If drainage and water control are adequate, this soil is well suited to vegetables and improved pasture grasses.

Riviera fine sand - This poorly drained, nearly level soil is found in hammocks and along drainage ways. The surface layer is dark gray brown fine sand about 5 inches thick. The soil has a water table at a depth of less than 10 inches for 2 to 4 months in most years and at a depth of 10 to 30 inches for most of the rest of the year. Permeability is rapid in the surface and subsurface layers and is slow to very slow in the subsoil, and rapid in the substratum. Natural vegetation includes cabbage palms and scattered longleaf pine and slash pine and an understory of wax myrtle and saw palmetto. The most common native grasses are pineland threeawn and blue maidencane. Broom sedges, creeping bluestem, paspalum, sand cordgrass and panicums are typical grasses for this soil.

Winder loamy sand - This poorly drained, nearly level soil found in hammocks and along drainage ways. The surface layer typically is black loamy sand that is 6 inches thick. The water table is within a depth of 10 inches of the surface for 2 to 4 months and between a depth of 10

to 40 inches for most of the rest of the year. The natural vegetation associated with this soil type includes cabbage palm, willow oak, scattered long leaf and slash pine and an understory of wax myrtle and saw palmetto. This soil has high potential for dwellings without basements, small commercial buildings, local roads and streets.

5.3.3 HYDROGEOLOGY

The general hydrogeology of St. Lucie County includes two aquifer systems, the surficial and the Floridan aquifer systems. Both aquifer systems are multilayered and are variable in physical and chemical properties. The surficial aquifer system is the most widely used source of drinking water in St. Lucie County. In most parts of the county, the aquifer system contains freshwater that is easily obtainable for low-cost domestic supply. The surficial aquifer system within St. Lucie County consists of undifferentiated sediments that overlie the greenish-gray clayey sands of the intermediate confining unit (Hawthorn Formation). The surficial aquifer system consists of a relatively thin unit of undifferentiated sand, silt, and shell of Pleistocene to Holocene age overlying more permeable zones composed of thin layers of sand, silt, and clay inter-bedded with layers of limestone, coarse sand, and shell of Pliocene age. In some places, the permeable beds are absent and wells are drilled into the deeper sand, shell, and silt layers of Late Miocene age. These deeper wells also are classified as surficial aquifer system wells.

According to the Hydrological Gradient map in the EDR report, the direction of groundwater flow in the vicinity of the subject property appears to flow southwest.

5.4 HISTORICAL USE INFORMATION ON THE PROPERTY

According to the earliest available aerial photograph (1944), the 17.83 acres that make up the subject property were developed as, what appears to be, a citrus grove. In addition, a canal and Okeechobee road are tangent with the subject parcel's northwest boundary. The surrounding area slowly become developed with residential and commercial activity, as seen in aerials from years 1958 and 1970. The subject parcel remains used for agriculture until the mid-1990s, when a noticeable lack of management can be observed. From this point, the parcel remains as is, with no improvements or development.

Reasonably ascertainable aerial photographs are available for the time period back to 1944 until the present, but not necessarily or consistently in five-year intervals or as early as 1940 as preferred by ASTM E standards. The lack of aerial photographs from as early as 1940 and in consistent five-year intervals is noted as a data gap. Based on the review of available aerial photographs and other standard historical sources, the use of the subject property during the timeframe of the data gap has been adequately ascertained. Therefore, the data gap does not materially impact the performance of this Phase I ESA and is not regarded as a data failure.

5.4.1 AERIAL PHOTOGRAPHY REVIEW

In order to evaluate the previous land uses of the subject property and surrounding area, reasonably ascertainable aerial photographs were reviewed. The aerial photographs provide a progressive overview of the subject property and surrounding properties. We reviewed the 1944 to 2017 aerial photographs obtained from the Florida Department of Transportation, the State University System of Florida, EDR aerial report, the St. Lucie County Property Appraiser's Website, and Google Earth. Please note that copies of the aerial photographs reviewed during completion of this Phase I ESA are included within this report and can be found in **Appendix B**. Descriptions of EDC, Inc. observations are outlined in **Table 4**.

TABLE 4 Summary of Aerial Photograph Observations		
Photograph Date	**Photograph Quality**	**Remarks**
1944	Poor	The entire property is developed as, what appears to be, a citrus grove. The surrounding area was developed with agricultural activity. Okeechobee Road is present.
1958	Poor	No significant changes to the subject property. To the east, residential structures can be observed.
1969	Poor	No other significant changes to the subject property or its vicinity were observed since the previous aerial photograph.
1970	Very Poor	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.
1980	Poor	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.
1992	Fair	No significant changes to the subject property. Neighboring parcels to the North and Northwest now show evidence of commercial and retail development.
1994	Fair	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.
1999	Fair	Vegetation on the subject property is beginning to recruit and overgrow the former agriculture fields. No significant changes to the vicinity of the subject property were observed since the previous aerial.
2007	Good	The subject property shows further evidence agriculture activities have been abandoned. Residential construction is beginning to the northwest on the parcel across Okeechobee Road.
2010	Good	No significant changes to the subject property – the residential construction to the northwest is complete.
2013	Very Good	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.
2017	Very Good	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.

5.4.2 PROPERTY OWNERSHIP RECORDS

The current Owners of the subject property are 11765663 Canada Inc. This is confirmed by the St. Lucie County Property Appraiser's Report, which is presented in **Appendix A**.

The User did not contract EDC, Inc. to acquire a chain-of-title for the parcel comprising the subject property, which typically contains information regarding historical site ownership.

5.4.3 SANBORN FIRE INSURANCE MAP REVIEW

According to information provided by EDR, fire insurance maps generated by the Sanborn Map Company are not available for review for the subject property. The Certified Sanborn Map Report is provided in **Appendix B** following the EDR database report.

5.4.4 CITY DIRECTORY REVIEW

Historical street directories listing the former businesses at the street addresses of the subject property and adjoining properties were reviewed by EDC, Inc. during completion of this Phase I ESA. Business names listed in the directories were reviewed to try to determine if businesses generated, used, stored, or disposed of hazardous waste materials. The review did not produce any properties that represented an environmental concern.

5.4.5 LAND USE RECORDS

According to the St. Lucie County Property Appraiser's Report, the Future Land Use for the subject property is commercial. The subject property is located near government owned and another vacant commercial parcels. The table below (**Table 5**) details the structures that are located on the adjoining parcels that surround the subject property according to the St. Lucie County Property Appraiser's Report:

TABLE 5
Description of Adjoining Parcels

Parcel ID #	No. of Structures	Type of Structure	Size (Ac)	Year Built
2419-113-0001-000-6	0	Vacant Commercial	14.19	N/A
2419-111-0004-000-1	0	Vacant Gov't – R.O.W.	1.61	N/A
2419-111-0003-000-4	0	Vacant Gov't – Canal	6.51	N/A

5.4.6 OTHER HISTORICAL SOURCES

A Historical Topographic Map Report was obtained from EDR during completion of this Phase I ESA. The USGS topographic quadrangle map titled "Fort Pierce", which includes the subject property, was available for the following years: 1949, 1950, 1970, 1972, 1983, 2012, 2015 and 2018 descriptions of our review of the historical topographic maps are outlined in **Table 6**. The Historical Topographic Map Report is provided in **Appendix B** following the EDR database report.

TABLE 6
Summary of Historical Topographic Map Observations

Map Date	Remarks
1949	The 17.83 acres that make up the subject property is developed as, what appears to be, a grove. Okeechobee Road is present
1950	There are no significant changes since the previous topographical image.
1970	The subject property is still designated for agriculture, residential development can be observed.
1972	The surrounding areas all remain in use as agriculture.
1983	Residential and commercial development has significantly increased.

2012	Roads have been widened and improved to fit the area's needs.
2015	There are no significant changes since the previous topographical image.
2018	There are no significant changes since the previous topographical image.

No other historical sources were reviewed during this assessment.

5.5 HISTORICAL USE INFORMATION ON ADJOINING PARCELS

None of the past uses of the parcels adjoining the subject property appear likely to indicate recognized environmental conditions in connection with the subject property.

6.0 INFORMATION FROM SITE RECONNAISSANCE

The objective of the site reconnaissance is to obtain information indicating the likelihood of identifying recognized environmental conditions in connection with the subject property. On a visit to the subject property, the property shall be visually and/or physically observed, and any structure(s) located on the subject property to the extent not obstructed by bodies of water, adjacent buildings, or other obstacles shall be observed.

On January 14, 2022, a site reconnaissance of the subject property was completed by a representative of EDC, Inc. The purpose was to evaluate the current conditions of the subject property and to obtain information indicating the likelihood of identifying recognized environmental conditions in connection with the subject property.

6.1 METHODOLOGY AND LIMITING CONDITIONS

The site reconnaissance included visually and/or physically observing the periphery of the subject property and the periphery of the structures located on the subject property. Aerial photographs are included in **Appendix B**. Site photographs are included in **Appendix D**.

6.2 GENERAL SITE SETTING

The subject property consists of one tax parcel that is comprised of 17.83 acres of vacant commercial land located within an area of commercial and residential properties in Fort Pierce, FL. The Parcel ID is 2419-111-0002-000-7.

6.3 EXTERIOR OBSERVATIONS

During our site reconnaissance, the subject property was vacant commercial, formerly used for agricultural purposes. There are two frontage billboard towers on site. No dipping vats or any other recognized environmental concerns were identified on the property. No structures were observed on the property.

We found no evidence of obvious surface discharges such as stained soil or pavement, no indication of solid or liquid waste dumping or disposal, no evidence of USTs, unusual odors, pits, stressed vegetation, or roads/paths with no outlet likely to have been used for disposal of hazardous wastes or petroleum products on the subject property. Please refer to **Appendix D** to review the site photographs.

6.4 INTERIOR OBSERVATIONS

During our site reconnaissance, no enclosed structures were found onsite.

7 INTERVIEWS

7.1 INTERVIEW WITH SITE OWNER

EDC, Inc. has not received any communication response from the current site owner.

7.2 INTERVIEW WITH SITE MANAGER

Please refer Section 7.1 for information regarding the Owner/User Interview. Interview documentation is included in **Appendix E**.

7.3 INTERVIEW WITH OCCUPANTS

Please refer Section 7.1 for information regarding the Owner/User Interview. Interview documentation is included in **Appendix E**.

7.4 INTERVIEW WITH LOCAL GOVERNMENT OFFICIALS

No local government officials were interviewed during the completion of this Phase I ESA.

7.5 INTERVIEW WITH USER

Please refer Section 7.1 for information regarding the Owner/User Interview.

7.6 INTERVIEW WITH OTHERS

No other individuals were interviewed during the completion of this Phase I ESA.

8 FINDINGS

Based on our field observations, historical research, public records review, and interviews conducted in accordance with ASTME, the findings of this Phase I ESA are as follows:

- We identified eight (8) Leaking Underground Storage Tank (LUST) facilities within the minimum search distance as specified by ASTM-E standards. The facility was found to be closed and in compliance. Please refer to **Table 3** for more information.

- We identified one (1) Aboveground Storage Tank (AST) facilities within the minimum search distance as specified by the ASTM-E standards. The facility is located on the target property and was found to be in compliance. Please refer to **Table 3** for more information.

9 OPINION

The following is our opinion pertaining to the findings referenced above:

- We found no evidence indicating the subject property being adversely affected by any facilities in the vicinity of the subject property.

10 CONCLUSIONS

We have performed this Phase I ESA in conformance with the scope and limitations of ASTM Practice E 1527-13. The subject property consists of one tax parcels that is comprised of approximately 17.83 acres of vacant commercial land. The subject property is located at 3000 Virginia Avenue, in Fort Pierce, St. Lucie County, Florida and is located within the following Section/Township/Range; Section 09, Township 35 South and Range 40 East (Parcel ID: 2419-111-0002-000-7). Any exception to or deletions from this practice are described in Sections 2.2, 2.3, and 2.4 of this report. This assessment has revealed no evidence of unresolved recognized environmental conditions in connection with the subject property and no further assessment is warranted at this time.

Please note that an environmental liens or activity and use limitations search was not performed for the subject property. In accordance with ASTM E 1527-13, it is the responsibility of the User of this report to undertake a review of reasonable ascertainable recorded land title records and lien records for environmental liens or activity and use limitations recorded against or relating to the subject property. In the event that any are identified, please contact EDC, Inc. immediately for further evaluation.

In order to remain eligible for CERCLA liability protections, continuing obligations will need to be followed at the subject property. The User has the continuing obligation not to impede the integrity and effectiveness of activity and land use limitations, the duty to take reasonable steps to prevent releases, and the duty to comply with legally required release reporting obligations.

11 DEVIATIONS

EDC, Inc. prepared this Phase I ESA in compliance with ASTM E 1527-13.

The following data gaps were encountered during completion of this Phase I ESA:

- Data gaps were encountered in the historical aerial photograph review due to the lack of available photographs as early as 1940 and in five-year intervals as preferred by ASTM-E standards. Based on our review of the available aerial photographs along with additional historical information found during review of other sources, the data gap does not appear to be significant to the findings of this report and does not appear to constitute as a data failure.

- The chain-of-title documentation or recorded land title records for environmental liens or activity and use limitations currently recorded against or relating to the subject property were not provided to EDC, Inc. during completion of this Phase I ESA.

12 ADDITIONAL SERVICES

Under the terms of the agreement between EDC, Inc. and The Brownstone Group, no additional services are being provided in association with this Phase I ESA.

13 REFERENCES

References reviewed during the Phase I ESA are documented in **Appendix F**.

14 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

Please refer to the title page for signatures of the environmental professionals who prepared and reviewed this Phase I ESA.

15 QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

This assessment was completed by Anthony A. Adams, BS, Senior Biologist, and reviewed by Tobin R. Overdorf, MS, MBA, Vice President, both employees of EDC, Inc. We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312 and we have specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the site. We have developed and performed the all-appropriate inquiries in conformance with the standards and practices outlined in 40 CFR Part 312. Qualifications of personnel participating in this assessment are provided in **Appendix G**.

Hartman Road – 14 acres
Fort Pierce, Florida

EDC, Inc. has completed this Phase I Environmental Site Assessment (ESA) Report in compliance with the American Society for Testing and Materials (ASTM) format E 1527-13 for the above-referenced property. The purpose of this evaluation was to identify recognized environmental conditions as defined in ASTM E 1527-13.

Based on the results of the Phase I ESA conducted at the subject property, no unresolved recognized environmental conditions have been identified in connection with the subject property, and no further assessment is warranted at this time.

Further, please note that an environmental liens or activity and use limitations search was not performed for the subject property. In accordance with ASTM E 1527-13, it is the responsibility of the User of this report to undertake a review of reasonable ascertainable recorded land title records and lien records for environmental liens or activity and use limitations recorded against or relating to the subject property. In the event that any are identified, please contact EDC, Inc. immediately for further evaluation.

EDC, Inc. appreciates this opportunity to provide environmental services to you. Please contact me if you have any questions regarding this report.

Respectfully submitted,
EDC Inc.

1.0 SUMMARY

The subject property evaluated as part of this Phase I Environmental Site Assessment (ESA) consists of one (1) tax parcel (Parcel ID: 2419-113-0001-000-6) comprised of 14.17 acres. The property is classified by the St. Lucie County Property Appraiser as vacant commercial property (land use code 1000). The subject property is located on the west side of S 41st Street, south of Virginia Avenue, and southeast of Okeechobee Road in Fort Pierce, Florida. The subject property is further located within Section 19, Township 35 South and Range 40 East. Please refer to the Site Location Map presented in **Appendix A** for a visual explanation of the subject property**.**

[NOTE: Please review this report in its entirety for a full description of our evaluation, procedures, and findings.]

Based on the findings of this Phase I ESA conducted in accordance with American Society for Testing and Materials (ASTM) format E1527-13, we conclude the following:

1. We found no evidence of unresolved recognized environmental conditions with respect to past uses of the subject property based on our field observations, historical research, and public records review.

2. We found no indications of hazardous waste dumping or disposal, underground storage tanks (USTs), septic systems, seeps, unusual odors, stressed vegetation, or roads/paths with no outlet likely to have been used for disposal of hazardous wastes or petroleum products at the subject property.

3. We found nine (9) Underground Storage Tank (UST) facilities within the minimum search distance as specified by ASTM-E standards. Three facilities were found to be out of compliance and one facility is undergoing remedial action. Please refer to **Table 3** for further details.

4. We found two (2) Aboveground Storage Tank (AST) facilities within the minimum search distance as specified by ASTM-E standards. One of the facilities was found to be out of compliance. Please refer to **Table 3** for further details.

5. We found eight (8) Leaking Underground Storage Tank (LUST) facilities within the minimum search distance as specified by ASTM-E standards. Three facilities were found to be out of compliance and one facility is undergoing remedial action. Please refer to **Table 3** for further details.

6. We found four (4) Very small quantity generator (VSQG) facilities within the minimum search distance as specified by ASTM-E standards. All facilities were found to be in compliance. Please refer to **Table 3** for further details.

7. We found three (3) Department of Waste Management Contamination (DWM CONTAM) facilities within the minimum search distance as specified by ASTM-E standards. Two of the facilities were found to be out of compliance. Please refer to **Table 3** for further details.

Based on the conclusions of the Phase I ESA conducted at the referenced site, EDC, Inc. did not find evidence of unresolved recognized environmental conditions and further assessment is not warranted at this time.

Please note that an environmental liens or activity and use limitations search was not performed for the subject property. In accordance with ASTM E 1527-13, it is the responsibility of the User of this report to undertake a review of reasonable ascertainable recorded land title records and lien records for environmental liens or activity and use limitations recorded against or relating to the subject property. In the event that any are identified, please contact EDC, Inc immediately for further evaluation and we will run the environmental liens search.

It is important to note that in order to remain eligible for CERCLA liability protections, continuing obligations will need to be followed at the subject property. The User has the continuing obligation not to impede the integrity and effectiveness of activity and land use limitations, the duty to take reasonable steps to prevent releases, and the duty to comply with legally required release reporting obligations.

2.0 INTRODUCTION

2.1 PURPOSE

The purpose of this assessment is to conduct an evaluation of the past and current uses of the subject property and surrounding properties to identify recognized environmental conditions in connection with the subject property.

The term “recognized environmental conditions” means the presence of likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the subject property or into the ground, groundwater, or surface water of the subject property. This environmental assessment was conducted in accordance with the guidelines of the ASTM E 1527-13 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process. This assessment was also intended to identify potential off-site contaminant sources within the distances set forth in ASTM E 1527-13.

2.2 DETAILED SCOPE OF SERVICES

The contracted scope of services consists of the preparation of a Phase I ESA of the subject property in accordance with the guidelines set forth in ASTM E 1527-13. The purpose of the ASTM E 1527-13 Standard Practice for Environmental Site Assessments is to define good commercial and customary practice in the United States of America for conducting an environmental site assessment with respect to the range of contaminants within the scope of Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C. §9601) and petroleum products.

The scope of work does not include soil or groundwater sampling; contamination assessment/delineation; an evaluation of asbestos, lead-based paint, radon, wetlands, lead in drinking water, environmental compliance, threatened & endangered species, cultural resources, industrial hygiene, health and safety, ecological resources, indoor air quality; site geotechnics (soils, foundations, site retention, etc.) or construction materials testing. If necessary, EDC, Inc. can provide these additional services.

2.3 SIGNIFICANT ASSUMPTIONS

No environmental site assessment can wholly eliminate uncertainty regarding the potential for recognized environmental conditions in connection with a property. Performance of a Phase I ESA in conformance with ASTM E 1527-13 is intended to reduce, but not eliminate, uncertainty regarding the potential for recognized environmental conditions in connection with a property. This assessment is site-specific, and all appropriate inquiry does not mean an exhaustive assessment of a clean property.

2.4 LIMITATIONS AND EXCEPTIONS

The findings of this report represent our professional judgment. These findings are relevant to the dates of our site work and the information cited herein. This report should not be relied upon to represent property conditions on other dates or at locations other than those specifically cited within this report.

The following limitations were encountered during completion of this Phase I ESA:

- Data gaps were encountered in the historical aerial photograph review due to the lack of available photographs in five-year intervals as preferred by ASTM-E standards. Based on our review of the available aerial photographs along with additional historical information found during review of other sources, the data gap does not appear to be significant to the findings of this report and does not appear to constitute as a data failure.

- The chain-of-title documentation or recorded land title records for environmental liens or activity and use limitations currently recorded against or relating to the subject property were not provided to EDC, Inc. during completion of this Phase I ESA.

2.5 SPECIAL TERMS AND CONDITIONS

Any special terms and conditions associated with this Phase I ESA are included in the Environmental Consulting Services Agreement and the Addendum to Contractual Agreements between EDC, Inc. and Brownstone Group.

In addition, EDC shall not be held liable for any incorrect advice, judgment or decision based on any inaccurate information supplied by the user, current owner, or their designees.

2.6 USER RELIANCE

This report is intended for the sole use of EDC Inc. and Brownstone Group. Its contents may not be relied upon by other parties without the explicit written consent of EDC, Inc.

In accepting this report, all parties herein mentioned agree to the Environmental Consulting Services Agreement and the Addendum to Contractual Agreements between EDC, Inc. and Brownstone Group.

3.0 SITE DESCRIPTION

3.1 LOCATION AND LEGAL DESCRIPTION

The subject property is located within Section 19, Township 35 South and Range 40 East on the west side of S 41st Street, south of Virginia Avenue, and southeast of Okeechobee Road in Fort Pierce, Florida. More specifically, the subject property consists of one tax parcel comprised of 14.17 acres of vacant commercial. The legal description for the tax parcels is as follows, 19 35 40 S 1/2 OF S 1/2 OF NE 1/4 OF NE 1/4-LESS HARTMAN RD R/W- AND NW 1/4 OF SE 1/4 OF NE 1/4 LYG N AND E OF FIVE MILE CREEK(14.17 AC) (OR 3631-594).

Visual representation of the property boundary, aerial photographs, and property appraiser cards are presented in **Appendix A**.

3.2 PROPERTY AND VICINITY CHARACTERISTICS

At the time of this assessment, the subject property consisted of 14.17 acres of vacant commercial property. The property vicinity is characterized primarily by residential, commercial, and vacant commercial properties. Please refer to the Site Location Map in **Appendix A**.

3.3 CURRENT USE OF THE PROPERTY

At the time of the site reconnaissance, the subject property consisted of 14.17 acres of vacant commercial property comprised of urban open forest and temperate hammock.

3.4 STRUCTURES, ROADS, AND/OR OTHER IMPROVEMENTS WITHIN THE PROPERTY

The subject property is undeveloped and does not consist of any improvements.

3.5 CURRENT USE OF ADJOINING PARCELS

Currently, the parcels adjoining the site are used as follows:

TABLE 1
Description of Adjoining Parcels

Direction From Site	Description of Current Use
North	Vacant commercial
East	S 41st Street and residential properties
South	Residential properties and NSLRWCD canal
West	NSLRWCD canal

None of the current uses of the adjoining properties appear likely to indicate the presence of recognized environmental conditions in connection with the subject property.

4.0 USER PROVIDED INFORMATION

The User did not provide EDC with information pertaining to the following sections. This information was collected by EDC, Inc.

4.1 TITLE RECORDS

According to the St. Lucie County Property Appraiser's Report, the current owner of the subject property is Fort Pierce Hartman LLC.

The User did not contract EDC, Inc. to acquire a chain-of-title for the parcels comprising the subject property, which typically contains information regarding historical site ownership. The last known sale of the property was on May 9, 2014 by Stream Asset Holdings LLC.

4.2 ENVIRONMENTAL LIENS OR ACTIVITY AND USE LIMITATIONS

The User did not provide information on any environmental liens or activity and use limitations on the subject property that are filed or recorded under federal, tribal, state, or local laws.

Please note that an environmental liens or activity and use limitations search report was not acquired by EDC, Inc. for the parcel comprising the subject property. In order to qualify for due diligence, the User of this report may be required to contact a title company to confirm that there are no environmental liens or activity and use limitations filed for the parcel comprising the subject property. In the event that any are identified, please contact EDC, Inc. immediately for further evaluation.

4.3 SPECIALIZED KNOWLEDGE

The User did not provide any specialized knowledge or experience that may pertain to recognized environmental conditions in connection with the subject property.

4.4 VALUATION REDUCTION FOR ENVIRONMENTAL ISSUES

The User did not provide any information on the purchase price being paid for the subject property. Information pertaining to the assessed value of the subject property is included in the Saint County Property Appraiser's Report presented in **Appendix A**.

4.5 OWNER, PROPERTY MANAGER, AND OCCUPANT INFORMATION

According to the St. Lucie County Property Appraiser's Report, the current owner of the subject property is Fort Pierce Hartman LLC. Please refer to the St. Lucie County Property Appraiser's Report included in **Appendix A**.

4.6 REASON FOR PERFORMING PHASE I ESA

The User stated the reason for requesting this Phase I ESA was for Due Diligence associated with purchasing of the property. Therefore, the User contracted EDC, Inc. to perform this Phase I ESA in conjunction with a real estate transaction for the prospective owner to satisfy one of the requirements to qualify for the innocent purchaser defense, contiguous property owner or bona fide prospective purchaser limitations on CERCLA liability.

4.7 COMMONLY KNOWN OR REASONABLY ASCERTAINABLE INFORMATION ABOUT THE PROPERTY

The User did not provide any information regarding any specific chemicals that are present or were once present at the subject property, spills or other chemical releases that have taken place at the subject property, or any environmental cleanups that have taken place at the subject property.

5.0 RECORDS REVIEW

The purpose of the records review is to obtain and review records that will help identify recognized environmental conditions in connection with the site. Accuracy and completeness of record information varies among information sources, including government sources. Record information is often inaccurate or incomplete. Standard sources that are reasonably ascertainable were reviewed by EDC, Inc. for this Phase I ESA.

5.1 STANDARD ENVIRONMENTAL RECORD SOURCES

As part of this assessment, we reviewed information sources to obtain existing information pertaining to a release of hazardous substances or petroleum products on or near the site. EDC, Inc. obtained an ASTM-E radius map report through Environmental Data Resources, Inc. (EDR). A copy of the EDR report is contained in **Appendix B**. EDC, Inc. also reviewed other available standard environmental record sources at the Florida Department of Environmental Protection (FDEP), as needed. The following state, county, and federal sources were consulted during this record review:

State, County, and Tribal Database Review (FDEP and MCHD)

- FDEP, Leaking Underground Storage Tanks (LUST)
- FDEP, Leaking Aboveground Storage Tanks (LAST)
- FDEP, Registered Underground Storage Tanks (UST)
- FDEP, Registered Aboveground Storage Tanks (AST)
- FDEP, State Hazardous Waste Sites (SHWS)
- FDEP, Solid Waste Facility/Landfill Sites (SWL/LF)
- FDEP, State Brownfield Areas (BROWNFIELDS)
- FDEP, Voluntary Cleanup Sites (VCP)
- FDEP, Institutional Controls & Engineering Controls Registry (IC & EC)

Federal Database Review [United States Environmental Protection Agency (EPA)

- EPA, National Priorities List (NPL), including Delisted and Proposed NPL Sites and Federal Superfund Liens
- EPA, Comprehensive Environmental Response Compensation and Liability Act Information System (CERCLIS)
- EPA, CERCLIS No Further Remedial Action Planned (CERCLIS-NFRAP)
- EPA, RCRA Treatment, Storage, and Disposal Facilities (RCRA-TSDF)
- EPA, RCRA Corrective Action Report Facilities (CORRACTS)
- EPA, RCRA Generators List (RCRA), including Large Quantity Generators (LQG), Small Quantity Generators (SQG) and Conditionally Exempt Small Quantity Generators (CESQG)

- EPA, Institutional Controls & Engineering Controls Registry (US IC & US EC)
- EPA, Emergency Response Notification System List (ERNS)

Table 2 lists the approximate minimum search distances used during this assessment as set forth in ASTM E 1527-05.

TABLE 2
Approximate Minimum Search Distances – ASTM E 1527-05

Source	Search Distance

5.1.1 FEDERAL, FLORIDA STATE, AND ST. LUCIE COUNTY RECORDS REVIEW

According to information provided by EDR and/or the FDEP Web-Based Map Application for Waste Management Division Facilities, the subject property is not listed in the federal, state or county databases. Please refer to **Table 3** for a summary of information regarding these facilities. Please refer to the FDEP and groundwater flow maps in **Appendix A**, EDR report in **Appendix B**, and supplemental documents in **Appendix C** for supporting documentation.

State/Federal Database Descriptions for Table 3	
Database Abbreviation	**Description**
AST	Registered aboveground storage tank locations.
CLEANUP SITES	
DWM CONTAM	
ECHO	ECHO (Enforcement & Compliance History Information) provides integrated compliance and enforcement information for about 800,000 regulated facilities nationwide.
FDEP	Florida Department of Environmental Protection is the state's lead agency for environmental management and stewardship, protecting our air, water and land.
FINDS	Facility Index System. FINDS contains both facility information and 'pointers' to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).
FINANCIAL ASSURANCE	A list of hazardous waste facilities required to provide financial assurance under RCRA.
HW GEN	Small Quantity Hazardous Waste Generators are regulated under the federal Resource Conservation and Recovery Act (RCRA) and applicable state regulations as generators of hazardous wastes in quantities greater than 100 Kg but less than 1,000 Kg in any one calendar month. Large Quantity Generators of Hazardous Waste are tracked in this coverage based on their notification to the Department of Environmental Protection as to their handler status, or based on inspections conducted at their facilities. These facilities are regulated under the federal Resource Conservation and Recovery Act (RCRA) and applicable state regulations as generators of hazardous wastes in quantities equal to or greater than 1,000 Kg in any one calendar month.

INST CONTROL	
LUST	
NEXUS	Nexus is a user-friendly search interface to retrieve documents from DEP's OCULUS archival database which houses permits and other publicly available documents.
NPDES	General information regarding NPDES(National Pollutant Discharge Elimination System) permits.
PFAS	
RCRA NONGEN/NLR	
RCRA-SQG	RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.
RCRA-VSQG	RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.
SITE INV SITES	
SPILLS	
UST	Registered Underground Storage Tanks. UST's are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA) and must be registered with the state department responsible for administering the UST program. Available information varies by state program.

TABLE 3 State/Federal Database Facility Identified Within Minimum Search Distance			
Facility	**Location**	**Database**	**File Review Summary**
Firestone Store 4160 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1000881247 EDR ID: U001373008 EPA ID: FLD982138836	Approximately 0.096 miles northwest of the subject property	RCRA-VSQG FINDS ECHO LUST UST AST	According to the EDR Report and Oculus documents, this facility is open and is described as a fuel user/non-retail facility. This facility submitted a discharge reporting form on December 22, 1988 and no cleanup was required. According to the ECHO report, the date of last compliance monitoring for RCRA was on February 1, 1990 and no violations were identified. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being in compliance. Please refer to **Appendix C** for supporting documentation.
HESS Corporation #09386 4696 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1004684404 EPA ID: FLD984261610	Approximately 0.132 miles west of the subject property	RCRA-VSQG FINDS ECHO	According to the EDR Report, no violations have been identified for this facility. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being in compliance. Please refer to **Appendix C** for supporting documentation.
Shell-Okeechobee 4696 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1000843296	Approximately 0.132 miles west of the subject property	LUST UST SPILLS FL FINANCIAL ASSURANCE 3	According to the EDR Report and Oculus documents, this facility is open is described as a retail station facility. The facility submitted a discharge reporting form on September 25, 1997 and cleanup was completed on May 16, 2019. Another discharge reporting form was submitted September 25, 1997 and No Further Action was approved on May 9, 2019. According to the most recent FDEP inspection report, the facility was found to be in major out of compliance on March 23, 2021. The violations included failure to perform annual tests on equipment, water/regulated substances not timely removed, and failure to conduct visual inspections. The likelihood of the subject property being adversely affected by the facility appears low due to there being no reports of contamination. Please refer to **Appendix C** for supporting documentation.
Becker Indian River Fruit CO 4710 Okeechobee Road Fort Pierce, FL 34947 EDR ID: U001373065	Approximately 0.150 miles west of the subject property	UST	According to the EDR Report and Oculus documents, this facility is closed and is described as an agricultural facility. The site has had two USTs removed on June 30, 1987. There was potential petroleum contamination during the removal of the

			tanks. No further action was approved in 2003 according to a letter to FDEP. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being in compliance. Please refer to **Appendix C** for supporting documentation.
Beverage Station 4101 Okeechobee Road Fort Pierce, FL 34947 EDR ID: U001373122	Approximately 0.202 miles north/northeast of the subject property	LUST UST CLEANUP SITE DWM CONTAM FL FINANCIAL ASSURANCE 3 WASTEWATER	According to the EDR Report and Oculus documents, this facility is open and is described as a retail station facility. The subject property submitted a discharge reporting form on July 19, 1988. Remedial action is ongoing. According to the Natural Attenuation Monitoring Report from March 23, 2022, contaminants such as dissolved benzene concentrations have been detected above State Groundwater Cleanup Target Levels (GCTLs) for eight consecutive sampling events dating back to July 2018. Based on the recent samplings from 2020-2022, the contamination plume is confined to the site. According to a FDEP letter issued on April 5, 2022, the Natural Attenuation Monitoring Report was approved and remedial action should begin soon. The likelihood of the subject property being adversely affected by the facility appears low due to the contamination being confined onsite and the site planned to undergo remedial action. Please refer to **Appendix C** for supporting documentation.
Sears Roebucks & CO #2005 4204 Okeechobee Road Fort Pierce, FL 34947 EDR ID: U001372937 EDR ID: 1015741349 EDR ID: 1014468984 EPA ID: FLD984251082 EPA ID: FLTMP8901794	Approximately 0.203 miles north/northwest of the subject property	LUST UST RCRA NONGEN/NLR RCRA-VSQG	According to the EDR Report and Oculus documents, this facility is closed and is described as a fuel user/non-retail facility. The facility submitted a discharge reporting form on December 29, 1998 and cleanup was completed on December 3, 2004. No violations were identified at this facility. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being closed and in compliance. Please refer to **Appendix C** for supporting documentation.
Tractor Supply CO #505 4888 Okeechobee Road Fort Pierce, FL 34947 EDR ID: 1016955841 EPA ID: FLR000210914	Approximately 0.232 miles west of the subject property	RCRA-VSQG	According to the EDR and Nexus documents, FDEP conducted a Hazardous Waste Inspection on February 4, 2019 and the facility was found to be in compliance. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being in compliance. Please

			refer to **Appendix C** for supporting documentation.
Indian River State College – Training Area 4600 Kirby Loop Fort Pierce, FL 34981 EDR ID: S125296659	Approximately 0.387 miles south/southwest of the subject property	CLEANUP SITE DWM CONTAM SITE INV SITES PFAS	According to the EDR Report and Oculus documents, a Preliminary Assessment was conducted at the facility in June 2019 where concentrations of per- and polyfluoroalkyl substances (PFAS) were detected above FDEP's CTLs in soil and groundwater. The PFAS are believed to have come from the use of aqueous film forming foam (AFFF) used by firefighting or in this case, fire-training facilities to extinguish hydrocarbon fires. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being located at a down gradient from the subject property as well as located outside of the subject property's vector encroachment area of concern. Please refer to **Appendix C** for supporting documentation.
WAL-MART Supercenter #973 5100 Okeechobee Road Fort Pierce, FL 34947 EDR ID: S107938607	Approximately 0.417 miles west of the subject property	INST CONTROL DWM CONTAM FL FINANCIAL ASSURANCE 3 HW GEN RESP PARTY	According to the EDR Report and Nexus documents, FDEP conducted a Hazardous Waste Inspection on December 6, 2016 and the facility was found to be in compliance. According to a letter from FDEP dated June 26, 2020, the facility is currently permitted as No Active Hazardous Waste Treatment, Storage, or Disposal Permit. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being in compliance. Please refer to **Appendix C** for supporting documentation.
Murphy USA #5709 5110 Okeechobee Road Fort Pierce, FL 34950 EDR ID: U003699249	Approximately 0.435 miles west/southwest of the subject property	LUST UST FL FINANCIAL ASSURANCE 3	According to the EDR Report and Oculus documents, this facility is open and is described as a retail station. The facility submitted a discharge reporting form on August 11, 2010 and cleanup was completed on June 15, 2017. According to the FDEP inspection conducted on March 15, 2022, the facility was found to be in major out of compliance. The facility consisted of the following violations, failure to provide documentation, equipment repair needed, improper maintenance of records, and inaccessible areas for inspection. The likelihood of the subject property being adversely affected by the facility appears low due to there being no reports of contamination and the facility being located at a down gradient from the subject property.

			Please refer to **Appendix C** for supporting documentation.
Indian River Oil CO 3700 Okeechobee Road Fort Pierce, FL 34947 EDR ID: S120043074	Approximately 0.445 miles northeast of the subject property	LUST AST FL FINANCIAL ASSURANCE 3	According to the EDR Report and Oculus documents, this facility is closed and is described as a bulk storage facility. The facility submitted a discharge reporting form on September 26, 1988 and cleanup was completed on May 24, 2013. FDEP conducted an inspection on July 19, 2018 and the facility was found to be in minor out of compliance. The violations included over due financial responsibility. The likelihood of the subject property being adversely affected by the facility appears low due to there being no reports of contamination. Please refer to **Appendix C** for supporting documentation.
WALMART #973 McClinton Property Okeechobee Rd & McNeil Rd Fort Pierce, FL 34947 EDR ID: S117361413	Approximately 0.452 miles west of the subject property	RESP PARTY	According to the EDR report, there are no reports of violations for this facility. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being in compliance. Please refer to **Appendix C** for supporting documentation.
Circle K #7506 2301 S 35th St & Virginia Ave Fort Pierce, FL 34981 EDR ID: 1000822408	Approximately 0.470 miles east/northeast of the subject property	LUST UST FL FINANCIAL ASSURANCE 3	According to the EDR Report and Oculus documents, this facility is open and is described as a fuel user/non-retail facility. The facility submitted a discharge reporting form on January 22, 1997 and cleanup was completed on February 19, 2001. FDEP conducted an inspection on March 4, 2021 and the facility was found to be in compliance. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being in compliance. Please refer to **Appendix C** for supporting documentation.
Fort Pierce Contracting Corp 1819 Totten Road Fort Pierce, FL 34947 EDR ID: U001373016	Approximately 0.483 miles north/northeast of the subject property	LUST UST AST	According to the EDR Report and Oculus documents, this facility is closed and is described as a fuel user/non-retail facility. The facility submitted a discharge reporting form on August 22, 1991 and cleanup was completed on August 30, 2013. The likelihood of the subject property being adversely affected by the facility appears low due to the facility being in compliance. Please refer to **Appendix C** for supporting documentation.

In addition to reviewing the EDR report, EDC, Inc. performed reconnaissance of the property vicinity to identify any sites not mapped by EDR due to inadequate or inaccurate address

information and to look for unregistered facilities. No facilities of concern were observed within the vicinity of the subject property during field reconnaissance performed by EDC, Inc.

5.2 ADDITIONAL ENVIRONMENTAL RECORDS

The following is a list of some of the additional environmental records that were searched as part of the EDR Radius Map Report: Priority Ranking List (PRIORITYCLEANERS), Formerly Used Defense Sites (FUDS), Records of Decision (ROD), Mines Master Index File (US MINES), Toxic Chemical Release Inventory System (TRIS), Risk Management Plans (RMP), Underground Injection Wells Database Listing (UIC), Drycleaning Facilities (DRYCLEANERS), and PCB Transformer Registration Database (PCB TRANSFORMER).

EDC searched the FDEP Consolidated Web-Based Map Application for Waste Management Division facilities (e.g., solid waste facilities, storage tanks, dry cleaning sites, hazardous waste generators, etc.) located on the subject property and adjoining properties. The map is available for review in **Appendix A**. The search included the Storage Tank Regulation, Solid Waste, Site investigation, Hazardous Waste Program, and the Waste Cleanup database, among others. Any new findings revealed on the database are included in **Table 3**.

EDC reviewed the Florida Department of Community Affairs (DCA) Florida Radon Protection Map for Large Buildings and New Single Family Homes and Duplexes. More than 5% of new large buildings in St. Lucie County are expected to have annual average radon levels above the EPA action level and fewer than 5% new homes are expected to have elevated radon levels. The map indicated that the general area where the site is located (St. Lucie County) is designated as Federal EPA Radon Zone 3. This criteria states that the counties within this zone are those with a predicted radon level less than 2 pCi/L or otherwise known as low risk

5.3 PHYSICAL SETTING SOURCES

According to the EDR report, USGS topographic quadrangle map, soil survey, and regulatory files available regarding properties of environmental concern in the property vicinity were reviewed as sources for obtaining information regarding the physical setting of the subject property and surrounding vicinity.

Based on our site reconnaissance, review of USGS maps, aerial photographs, the location of the subject property, and the present environmental related conditions of adjacent and nearby properties, there is little to no potential for migration of petroleum product or hazardous waste contamination from off-site sources.

5.3.1 TOPOGRAPHY

The USGS topographic quadrangle maps titled “Fort Pierce” and “Fort Pierce NW” was referenced as a source for obtaining information regarding the physical setting of the subject property and surrounding vicinity. The subject property is located at an elevation of approximately 10.25 feet above sea level.

According to the EDR Report, the groundwater within the minimum search distances is flowing south. A copy of the USGS Quadrangle Map is provided as **Appendix B**.

5.3.2 SOILS/GEOLOGY

The general geology of St. Lucie County is characterized by the Caloosahatchee Marl which underlies the entire area, is of Pliocene age, and consists mainly of sand and varying amounts of shell. The Fort Thompson Formation rests uncomfortably on the Caloosahatchee Marl; dips from west to east; is of Pleistocene age; and consists of a series of alternating beds of limestone, shells, sand, and marl. The Anastasia Formation which is of Pleistocene age and rests uncomfortably on the Fort Thompson Formation forms the backbone of the coastal ridge, is exposed in several places along the ocean shoreline, and consists of sand and shell beds and thin, discontinuous layers of sandy limestone and sandstone. Pamlico Sand of the late Pleistocene age mantles the entire area and is the basic material in which most of the mineral soils have formed.

According to the United States Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS) Web Soil Survey, surficial soils at the subject property are classified as the following:

Riviera fine sand, frequently ponded, 0 to 2% slopes – This poorly drained, nearly level soil is found in hammocks and along drainage ways. The surface layer is dark gray brown fine sand about 5 inches thick. The soil has a water table at a depth of less than 10 inches for 2 to 4 months in most years and at a depth of 10 to 30 inches for most of the rest of the year. Permeability is rapid in the surface and subsurface layers and is slow to very slow in the subsoil, and rapid in the substratum. Natural vegetation includes cabbage palms and scattered longleaf pine and slash pine and an understory of wax myrtle and saw palmetto. The most common native grasses are pineland threeawn and blue maidencane. Broom sedges, creeping bluestem, paspalum, sand cordgrass and panicums are typical grasses for this soil.

Winder loamy sand – This is a poorly drained, nearly level soil found in hammocks and along drainage ways. The surface layer typically is black loamy sand that is 6 inches thick. The water table is within a depth of 10 inches of the surface for 2 to 4 months and between a depth of 10 to 40 inches for most of the rest of the year. The natural vegetation associated with this soil type includes cabbage palm, willow oak, scattered long leaf and slash pine and an understory of wax myrtle and saw palmetto. This soil has high potential for dwellings without basements, small commercial buildings, local roads and streets.

5.3.3 HYDROGEOLOGY

The general hydrogeology of St. Lucie County includes two aquifer systems, the surficial and the Floridan aquifer systems. Both aquifer systems are multilayered and are variable in physical and chemical properties. The surficial aquifer system is the most widely used source of drinking water in St. Lucie County. In most parts of the county, the aquifer system contains freshwater that is easily obtainable for low-cost domestic supply. The surficial aquifer system within St. Lucie County consists of undifferentiated sediments that overlie the greenish-gray clayey sands of the intermediate confining unit (Hawthorn Formation). The surficial aquifer system consists of a relatively thin unit of undifferentiated sand, silt, and shell of Pleistocene to Holocene age overlying more permeable zones composed of thin layers of sand, silt, and clay inter-bedded with layers of limestone, coarse sand, and shell of Pliocene age. In some places, the permeable beds are absent and wells are drilled into the deeper sand, shell, and silt layers of Late Miocene age. These deeper wells also are classified as surficial aquifer system wells.

According to the Hydrological Gradient map in the EDR report, the direction of groundwater flow in the vicinity of the subject property appears to flow south.

5.4 HISTORICAL USE INFORMATION ON THE PROPERTY

According to the earliest available aerial photograph (1944), the subject property consisted of an operational grove that appeared to be out of production sometime between 1970 and 1980. The vegetation located onsite has since then reclaimed the site and, in some areas, returned to a native temperate hammock.

Reasonably ascertainable aerial photographs are available for the time period back to 1940 until the present, but not necessarily or consistently in five-year intervals or as early as 1940 as preferred by ASTM E standards. The lack of aerial photographs in consistent five-year intervals or as early as 1940 is noted as a data gap. Based on the review of available aerial photographs and other standard historical sources, the use of the subject property during the timeframe of the data gap has been adequately ascertained. Therefore, the data gap does not materially impact the performance of this Phase I ESA and is not regarded as a data failure.

5.4.1 AERIAL PHOTOGRAPHY REVIEW

In order to evaluate the previous land uses of the subject property and surrounding area, reasonably ascertainable aerial photographs were reviewed. The aerial photographs provide a progressive overview of the subject property and surrounding properties. We reviewed the 1944 to 2017 aerial photographs obtained from the Florida Department of Transportation, the State University System of Florida, EDR aerial report, the St. Lucie County Property Appraiser's Website, and Google Earth. Please note that copies of the aerial photographs reviewed during completion of this Phase I ESA are included within this report and can be found in **Appendix A and B**. Descriptions of EDC, Inc. observations are outlined in **Table 4**.

TABLE 4
Summary of Aerial Photograph Observations

Photograph Date	Photograph Quality	Remarks
1944	Fair (EDR)	The subject property consists of a grove with a vehicle path running east to west through the subject property. The adjoining properties and general vicinity consisted of groves and possible grazing land. A North St. Lucie River Water Control District (NSLRWCD) canal, a part of the Fivemile Creek, runs along the western property boundary of the subject property. Okeechobee Road is north/northeast of the subject property and S 41st Street adjoins the eastern property boundary of the subject property.
1958	Fair (EDR)	Virginia Avenue has been developed and connects to Okeechobee Road, northeast of the subject property. Residential properties have been developed along Virginia Avenue. No other significant changes to the subject property or its vicinity were observed since the previous aerial photograph.
1969	Fair (EDR)	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.
1970	Poor (EDR)	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.

1980	Poor (EDR)	The subject property grove appears to be inactive. A residential subdivision has been developed adjoining the southeast corner of the subject property. No other significant changes to the subject property or its vicinity were observed since the previous aerial photograph.
1992	Fair (EDR)	The subject property vegetation has become dense. A commercial plaza has been developed north of Okeechobee Road. A mix store/office building and gas station have been developed west of the subject property. No other significant changes to the subject property or its vicinity were observed since the previous aerial photograph.
1994	Poor (EDR)	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.
1999	Poor (EDR)	The grove on the adjoining property to the north appears to be inactive and is becoming overgrown with vegetation. No other significant changes to the subject property or its vicinity were observed since the previous aerial photograph.
2007	Poor (EDR)	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.
2010	Fair (EDR)	The vegetation on the adjoining property to the north is becoming very dense. No other significant changes to the subject property or its vicinity were observed since the previous aerial photograph.
2013	Good (EDR)	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.
2017	Good (EDR)	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous aerial.

5.4.2 PROPERTY OWNERSHIP RECORDS

The current Owner of the subject property is Fort Pierce Hartman LLC. This is confirmed by the St. Lucie County Property Appraiser's Report, which is presented in **Appendix A**.

The User did not contract EDC, Inc. to acquire a chain-of-title for the parcel comprising the subject property, which typically contains information regarding historical site ownership.

5.4.3 SANBORN FIRE INSURANCE MAP REVIEW

According to information provided by EDR, fire insurance maps generated by the Sanborn Map Company are not available for review for the subject property. The Certified Sanborn Map Report is provided in **Appendix B** following the EDR database report.

5.4.4 CITY DIRECTORY REVIEW

Historical street directories listing the former businesses at the street addresses of the subject property and adjoining properties were reviewed by EDC, Inc. during completion of this Phase I ESA. Business names listed in the directories were reviewed to try to determine if businesses generated, used, stored, or disposed of hazardous waste materials. The review did not produce any properties that represented an environmental concern that the EDR Report did not already produce.

5.4.5 LAND USE RECORDS

According to the St. Lucie County Property Appraiser's Report, the Future Land Use for the subject property is General Commercial (GC). The subject property is located within a Commercial (C-3) zoning district. The table below (**Table 5**) details the structures that are located on the adjoining parcels that surround the subject property according to the St. Lucie County Property Appraiser's Report:

TABLE 5
Description of Adjoining Parcels

Parcel ID #	No. of Structures	Type of Structure	Size (Sq. Ft)	Year Built
2419-111-0002-000-7	0	Vacant Commercial	N/A	N/A
N/A	0	S 41st Street	N/A	N/A
N/A	0	Lazy Hammock Lane	N/A	N/A
2419-501-0008-000-6	0	Vacant Residential	N/A	N/A
2419-501-0007-000-9	1	Single-Family Home	4,856	1978
2419-501-0006-000-2	1	Single-Family Home	4,492	1987
2419-501-0005-000-5	1	Single-Family Home	5,572	1977
2419-501-0004-000-8	1	Single-Family Home	7,296	1978
2419-111-0003-000-4	0	NSLRWCD Canal	N/A	N/A

5.4.6 OTHER HISTORICAL SOURCES

A Historical Topographic Map Report was obtained from EDR during completion of this Phase I ESA. The USGS topographic quadrangle maps titled "Fort Pierce" and "Fort Pierce NW", which includes the subject property, was available for the following years: 1949, 1950, 1970, 1972, 1983, 2012, 2015, and 2018 descriptions of our review of the historical topographic maps are outlined in **Table 6**. The Historical Topographic Map Report is provided in **Appendix B** following the EDR database report.

TABLE 6
Summary of Historical Topographic Map Observations

Map Date	Remarks
1949	The subject property, adjoining properties, and general vicinity consist of groves. The vehicle path is evident running east to west through the subject property. Fivemile creek runs along the western property boundary of the subject property. Okeechobee Road is north/northwest of the subject property. S 41st Street adjoins the eastern property boundary of the subject property.
1950	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous topographic map.
1970	Increased development is evident along Okeechobee Road, southwest and northeast of the subject property. There has also been an increase in development south of the subject property.
1972	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous topographic map.
1983	The subject property appears to no longer be operating as a grove. I-95 has been developed west of the subject property and there is a general increase in development within the general vicinity of the subject property. Virginia Avenue connects to Okeechobee Road, northeast of the subject property.
2012	The subject property and adjoining property to the north have been reclaimed by dense vegetation.

2015	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous topographic map.
2018	No significant changes to the subject property, adjoining properties, or the vicinity of the subject property were observed since the previous topographic map.

No other historical sources were reviewed during this assessment.

5.5 HISTORICAL USE INFORMATION ON ADJOINING PARCELS

None of the past uses of the parcels adjoining the subject property appear likely to indicate recognized environmental conditions in connection with the subject property.

6.0 INFORMATION FROM SITE RECONNAISSANCE

The objective of the site reconnaissance is to obtain information indicating the likelihood of identifying recognized environmental conditions in connection with the subject property. On a visit to the subject property, the property shall be visually and/or physically observed, and any structure(s) located on the subject property to the extent not obstructed by bodies of water, adjacent buildings, or other obstacles shall be observed.

On April 11, 2022 a site reconnaissance of the subject property was completed by a representative of EDC, Inc. The purpose was to evaluate the current conditions of the subject property and to obtain information indicating the likelihood of identifying recognized environmental conditions in connection with the subject property.

6.1 METHODOLOGY AND LIMITING CONDITIONS

The site reconnaissance included visually and/or physically observing the periphery of the subject property and the periphery of the structures located on the subject property. Aerial photographs are included in **Appendix A and B**. Site photographs are included in **Appendix D**.

6.2 GENERAL SITE SETTING

The subject property consists of one (1) tax parcel (Parcel ID: 2419-113-0001-000-6) comprised of 14.17 acres. The property is classified by the St. Lucie County Property Appraiser as vacant commercial property (land use code 1000). The subject property is located on the west side of S 41st Street, south of Virginia Avenue, and southeast of Okeechobee Road in Fort Pierce, Florida.

6.3 EXTERIOR OBSERVATIONS

During our site reconnaissance, the subject property consisted of 14.17 acres of vacant commercial property comprised of approximately 4.70 acres of temperate hammock and 9.47 acres of urban open forest. The subject property adjoins the access easement for the North St. Lucie River Water Control District (NSLRWCD) canal which contains of the Fivemile Creek. In addition, there is a dirt road (labeled as Home Place Lane) running through the southern portion of the site, from Lazy Hammock Lane west to the canal.

We found no evidence of obvious surface discharges such as stained soil or pavement, no indication of solid or liquid waste dumping or disposal, no evidence of USTs, unusual odors, pits, stressed vegetation, or roads/paths with no outlet likely to have been used for disposal of hazardous wastes or petroleum products on the subject property. Please refer to **Appendix D** to review the site photographs.

6.4 INTERIOR OBSERVATIONS

During our site reconnaissance, no structures were located onsite.

7 INTERVIEWS

7.1 INTERVIEW WITH SITE OWNER

EDC, Inc. provided the User with the Owner/User Questionnaire to provide to the land owner. The purpose of the questionnaire is to obtain information regarding the owner's knowledge of recognized environmental conditions in connection with the subject property. EDC has not yet received the completed questionnaire. A copy of the questionnaire is included in **Appendix E**.

7.2 INTERVIEW WITH SITE MANAGER

Please refer to Section 7.1 for information regarding the Owner/User Interview. Interview documentation is included in **Appendix E.**

7.3 INTERVIEW WITH OCCUPANTS

Please refer to Section 7.1 for information regarding the Owner/User Interview. Interview documentation is included in **Appendix E**.

7.4 INTERVIEW WITH LOCAL GOVERNMENT OFFICIALS

EDC, Inc. contacted Andy Jensen with Palm Beach County Environmental Resources Management (ERM) to obtain information on an inspection he conducted on a nearby facility that was found to be out of compliance. He stated that the facility has not yet returned to compliance. Please refer to **Table 3** and **Appendix C** for more information.

7.5 INTERVIEW WITH USER

EDC, Inc. provided the User with the Owner/User Questionnaire, to obtain information regarding their knowledge of recognized environmental conditions in connection with the subject property. EDC has not yet received the completed questionnaire. A copy of the questionnaire is included in **Appendix E**.

7.6 INTERVIEW WITH OTHERS

No other interviews were conducted during the completion of this report.

8 FINDINGS

Based on our field observations, historical research, public records review, and interviews conducted in accordance with ASTME, the findings of this Phase I ESA are as follows:

- We found nine (9) Underground Storage Tank (UST) facilities within the minimum search distance as specified by ASTM-E standards. Three facilities were found to be out of compliance and one facility is undergoing remedial action. Please refer to **Table 3** for further details.

- We found two (2) Aboveground Storage Tank (AST) facilities within the minimum search distance as specified by ASTM-E standards. One of the facilities was found to be out of compliance. Please refer to **Table 3** for further details.

- We found eight (8) Leaking Underground Storage Tank (LUST) facilities within the minimum search distance as specified by ASTM-E standards. Three facilities were found to be out of compliance and one facility is undergoing remedial action. Please refer to **Table 3** for further details.

- We found four (4) Very small quantity generator (VSQG) facilities within the minimum search distance as specified by ASTM-E standards. All facilities were found to be in compliance. Please refer to **Table 3** for further details.

- We found three (3) Department of Waste Management Contamination (DWM CONTAM) facilities within the minimum search distance as specified by ASTM-E standards. Two of the facilities were found to be out of compliance. Please refer to **Table 3** for further details.

9 OPINION

The following is our opinion pertaining to the findings referenced above:

- We found no evidence indicating the subject property being adversely affected by any facilities in the vicinity of the subject property.

10 CONCLUSIONS

We have performed this Phase I ESA in conformance with the scope and limitations of ASTM Practice E 1527-13. The subject property consists of one (1) tax parcel (Parcel ID: 2419-113-0001-000-6) comprised of 14.17 acres. The property is classified by the St. Lucie County Property Appraiser as vacant commercial property (land use code 1000). The subject property is located on the west side of S 41st Street, south of Virginia Avenue, and southeast of Okeechobee Road in Fort Pierce, Florida. The subject property is located within an area of commercial, vacant commercial and residential properties. Any exception to or deletions from this practice are described in Sections 2.2, 2.3, and 2.4 of this report. This assessment has revealed no evidence of unresolved recognized environmental conditions in connection with the subject property and no further assessment is warranted at this time.

Please note that an environmental liens or activity and use limitations search was not performed for the subject property. In accordance with ASTM E 1527-13, it is the responsibility of the User of this report to undertake a review of reasonable ascertainable recorded land title records and lien records for environmental liens or activity and use limitations recorded against or relating to the subject property. In the event that any are identified, please contact EDC, Inc. immediately for further evaluation.

In order to remain eligible for CERCLA liability protections, continuing obligations will need to be followed at the subject property. The User has the continuing obligation not to impede the integrity and effectiveness of activity and land use limitations, the duty to take reasonable steps to prevent releases, and the duty to comply with legally required release reporting obligations.

11 DEVIATIONS

EDC, Inc. prepared this Phase I ESA in compliance with ASTM E 1527-13.

The following data gaps were encountered during completion of this Phase I ESA:

- Data gaps were encountered in the historical aerial photograph review due to the lack of available photographs in five-year intervals or as early as 1940 as preferred by ASTM-E standards. Based on our review of the available aerial photographs along with additional historical information found during review of other sources, the data gap does not appear to be significant to the findings of this report and does not appear to constitute as a data failure.

- The chain-of-title documentation or recorded land title records for environmental liens or activity and use limitations currently recorded against or relating to the subject property were not provided to EDC, Inc. during completion of this Phase I ESA.

12 ADDITIONAL SERVICES

Under the terms of the agreement between EDC, Inc. and Brownstone Group, no additional services are being provided in association with this Phase I ESA.

13 REFERENCES

References reviewed during the Phase I ESA are documented in **Appendix F**.

14 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

Please refer to the title page for signatures of the environmental professionals who prepared and reviewed this Phase I ESA.

15 QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

This assessment was completed by Madison Quinones, BS, AWB®, Project Scientist, and reviewed by Tobin R. Overdorf, MS, MBA, Vice President, both employees of EDC, Inc. We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312 and we have specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the site. We have developed and performed the all appropriate inquiries in conformance with the standards and practices outlined in 40 CFR Part 312. Qualifications of personnel participating in this assessment are provided in **Appendix G**.

Project Narrative

Allegra at Fort Pierce – Rezoning and Future Land Use Map Amendment

These two applications represent a request for a Rezoning and an Amendment to the Future Land Use for this project. Collectively, two parcels comprise this site and once the real estate transaction is closed, they will be brought into Unity of Title for this development. The northern parcel is not within the Municipal boundaries, and an Annexation Application has already been filed. We have previously met to discuss a multi-family residential project. The two parcels represent 29.13 acres, and we are currently seeking an R4 Zoning Designation as well as Multi-family RM land use classification.

This land has been vacant, and while commercial developments have been proposed and approved for this site, no commercial development has actually been built. Both parcels currently have a C-3 General Commercial zoning allowing for up to 15 du/acre as well as commercial development. The Land Use on both parcels is a corresponding GC -General Commercial.

In general, in applying for an R4/RM designation – the general intensity/density is lowered than existing C3/GC designations. This is reflected on the capacity analysis for both applications. The City, and surrounding area, finds itself in a deficit for quality housing and additional housing options. A multi-family development would serve the area and help with unmet housing needs for Lawnwood Regional, the Indian River State College, and local employers. Through the site plan process, we can demonstrate how the site will be compatible with the surrounding area. To the north is the Renaissance Business Park, itself a generator for employment. To the east is IRSC and a mix of Commercial and Residential, to the south it is residential, and to the west it is vacant. The compatibility to the single family residential homes are key to this project. To that end, the Applicant is reviewing and plans to utilize additional buffering on the east and southern edges through the use of landscaping, existing tree coverage and stormwater ponds. This will be formalized in the site plan application.

A site plan will be applied for, but in the meantime, the Applicant would like to start moving forward on the rezoning and change of land use. As backup materials, I have included the

- Warranty Deeds with legal descriptions
- St. Lucie Property Appraiser Record Cards
- This letter serves as the Statement of Need
- Current Survey
- Environmental Study
- Traffic Impact Report – the applications provide a trip generation for the project. A full Traffic Impact Report. The Traffic Impact analysis included utilizes the ITE generation rates for Multi Family Developments (ITE Code 220).

- Drainage and Historical Report: The Phase 1 and Environmental Reports both provide summaries of the history of the properties and their soils as it relates to drainage. As site design moves forward, geotechnical analysis can be provided to show the subsurface soils. Aerial imagery indicates both properties are historically vacant, with the more northern most parcel used for Agricultural purposes – either citrus or horticulture.

LEGAL DESCRIPTION:

(ORB 4518, PG 2088)
THAT PART OF THE SOUTHEAST ONE–QUARTER (S.E. 1/4) OF THE NORTHWEST ONE-QUARTER (N.W. 1/4) OF THE NORTHEAST ONE–QUARTER (N.E. 1/4) OF SECTION 19, TOWNSHIP 35 SOUTH, RANGE 40 EAST, ST. LUCIE COUNTY, FLORIDA; LYING SOUTH OF NORTH ST. LUCIE RIVER DRAINAGE DISTRICT CANAL NO. 7 AND EAST OF NORTH ST. LUCIE RIVER DRAINAGE DISTRICT CANAL NO. 29, A.K.A. FIVE MILE CREEK, AND THAT PART OF THE NORTH THREE FOURTHS (N. 3/4) OF THE NORTHEAST ONE–QUARTER (N.E. 1/4) OF THE NORTHEAST ONE–QUARTER (N.E. 1/4) OF SECTION 19, TOWNSHIP 35 SOUTH, RANGE 40 EAST, ST. LUCIE COUNTY, FLORIDA, LYING SOUTHERLY OF NORTH ST. LUCIE RIVER DRAINAGE DISTRICT CANAL NO. 7 AND SOUTH OF VIRGINIA AVENUE, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

COMMENCING AT THE NORTHEAST CORNER OF SAID SECTION 19, THENCE SOUTH 2°08'11" EAST ALONG THE EAST LINE OF SAID SECTION 19 A DISTANCE OF 149.60 FEET TO THE SOUTH RIGHT–OF–WAY LINE OF VIRGINIA AVENUE (100.00 FEET RIGHT–OF–WAY) THENCE SOUTH 89°58'49" WEST ALONG SAID SOUTH RIGHT–OF–WAY LINE A DISTANCE OF 15.00 FEET TO THE WEST RIGHT–OF–WAY LINE OF "HARTMAN ROAD" AND THE POINT OF BEGINNING OF THIS DESCRIPTION, THENCE CONTINUE SOUTH 89°58'49" WEST ALONG SAID SOUTH RIGHT–OF–WAY LINE OF VIRGINIA AVENUE A DISTANCE OF 333.61 FEET TO THE SOUTHERLY RIGHT–OF–WAY LINE OF CANAL NO. 7 OF ,THE NORTH ST. LUCIE RIVER DRAINAGE DISTRICT AS DEPICTED ON SHEET 1 OF 4 OF THE FLORIDA STATE TURNPIKE AUTHORITY RIGHT–OF–WAY MAP FOR STATE ROAD NO. 70, THENCE SOUTH 52°36'39" WEST ALONG SAID SOUTHERLY RIGHT–OF–WAY LINE A DISTANCE OF 1354.68 FEET TO THE EASTERLY RIGHT–OF–WAY LINE OF NORTH ST. LUCIE RIVER DRAINAGE DISTRICT CANAL NO. 29 (FIVE MILE CREEK) AS SHOWN ON THAT RIGHT–OF–WAY MAP ON FILE WITH THE ST. LUCIE COUNTY MAPPING DIVISION, THENCE SOUTH 57°53'56" EAST ALONG SAID EASTERLY RIGHT–OF–WAY LINE A DISTANCE OF 162.93 FEET TO A POINT OF CURVE, THENCE SOUTHERLY ALONG SAID RIGHT–OF–WAY LINE ALONG THE ARC OF A CIRCULAR CURVE TO THE RIGHT (CONCAVE SOUTHWESTERLY) HAVING A RADIUS OF 357.48 FEET, A CENTRAL ANGLE OF 1°03'46", AN ARC DISTANCE OF 6.63 FEET TO THE EAST LINE OF THE SOUTHEAST ONE–QUARTER (S.E. 1/4) OF THE NORTHWEST ONE-QUARTER (N.W. 1/4) OF THE NORTHEAST ONE–QUARTER (N.E. 1/4) OF SAID SECTION 19, THENCE NORTH 1°40'25" WEST ALONG SAID EAST A DISTANCE OF 61.89 FEET TO THE SOUTH LINE OF THE NORTH THREE–FOURTHS (N. 3/4) OF THE NORTHEAST ONE–QUARTER (N.E. 1/4) OF THE NORTHEAST ONE QUARTER (N.E. 1/4) OF SAID SECTION 19, THENCE NORTH 88°48'53" EAST ALONG SAID SOUTH LINE A DISTANCE OF 1299.16 FEET TO THE SAID WEST RIGHT–OF–WAY LINE OF HARTMAN ROAD, THENCE NORTH 2°08'11" WEST ALONG SAID WEST RIGHT–OF–WAY LINE, LYING 15.00 FEET WEST OF AND PARALLEL WITH THE EAST LINE OF SAID SECTION 19, A DISTANCE OF 824.70 FEET TO THE POINT OF BEGINNING.

EXCLUDING ADDITIONAL RIGHT OF WAY DESCRIBED AS PARCEL NUMBER 111 IN (ORB 787, PG, 57), (ORB 787, PG, 76) AND (ORB 808, PG 184) OF THE PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA. SUBJECT TO EASEMENTS, RIGHT OF WAYS AND RESTRICTIONS OF RECORD.

SURVEYOR'S NOTES

1. THIS SURVEY DOES NOT DETERMINE OR INDICATE LAND OWNERSHIP.
2. THE SURVEYOR DID NOT RESEARCH OR ABSTRACT THE LAND RECORDS FOR RIGHTS–OF–WAY, EASEMENTS, RESERVATIONS, DEED RESTRICTIONS, ZONING REGULATIONS, SETBACKS, LAND USE PLAN DESIGNATIONS, LIENS, MURPHY ACT RIGHTS–OF–WAY, AREAS OF LOCAL CONCERN, OR OTHER SIMILAR JURISDICTIONAL DETERMINATIONS. TO THE EXTENT THAT THIS TYPE OF INFORMATION IS SHOWN, IT IS SHOWN SOLELY ON THE BASIS OF INFORMATION PROVIDED BY THE CLIENT OR INFORMATION OTHERWISE KNOWN TO THE SURVEYOR AND MAY NOT BE COMPLETE.
3. UNDERGROUND UTILITIES, BUILDING FOUNDATIONS, AND OTHER UNDERGROUND FIXED IMPROVEMENTS WERE NOT LOCATED, UNLESS OTHERWISE INDICATED. TO THE EXTENT THAT THIS TYPE OF INFORMATION IS SHOWN, IT IS SHOWN SOLELY ON THE BASIS OF SURFACE INDICATIONS OBSERVED BY THE SURVEYOR AND MAY NOT BE COMPLETE.
4. JURISDICTIONAL WETLANDS AND ENDANGERED OR THREATENED SPECIES HABITAT, IF ANY, THAT MAY EXIST ON OR AROUND THE SURVEY SITE WERE NOT DETERMINED OR LOCATED.
5. THE SURVEY DATE IS THE FIELD DATE SHOWN IN THE TITLE BLOCK, NOT THE SIGNATURE DATE.
6. BEARINGS BASED ON THE ASSUMPTION THAT THE EAST LINE OF SECTION 19 TOWNSHIP 35 SOUTH, RANGE 40 EAST OF ST. LUCIE COUNTY BEARS S02°18'11"E PER DESCRIPTION.
7. LOT DIMENSIONS ARE PER LEGAL DESCRIPTION "(D)" UNLESS OTHERWISE NOTED.
8. FLOOD ZONE "X", FLOOD INSURANCE RATE MAP NUMBER 12111C0186J, DATED FEBRUARY 16, 2012.
9. THIS SURVEY WAS PREPARED WITH THE BENEFIT OF TITLE COMMITMENT ORDER NUMBER 1013329–44593.00002, DATED 12/12/21 AT 8:00AM PROVIDED BY FIDELITY NATIONAL TITLE INSURANCE COMPANY.

THIS BOUNDARY SURVEY WAS PERFORMED FOR THE PURPOSE OF ANNEXATION, ENGINEERING DESIGN AND PERMITTING. I HEREBY CERTIFY TO THE BEST OF MY KNOWLEDGE AND BELIEF THIS IS A TRUE, ACCURATE AND COMPLETE DEPICTION OF A FIELD SURVEY PERFORMED UNDER MY DIRECTION AND COMPLETED ON 02/21/2022. I FURTHER CERTIFY THAT SAID DRAWING IS IN COMPLIANCE WITH THE STANDARDS OF PRACTICE AS SET FORTH BY THE FLORIDA BOARD OF PROFESSIONAL SURVEYORS AND MAPPERS, IN CHAPTER 5J–17, FLORIDA ADMINISTRATIVE CODE PURSUANT TO SECTION 472.027, FLORIDA STATUTES.

SITE LOCATION: PORTION OF THE NE 1/4 OF THE NE 1/4 OF SECTION 19–35–40

SITE AREA: 15.08± ACRES

TYPE OF SURVEY: BOUNDARY/TOPOGRAPHIC (COMMERCIAL PROPERTY)

DATE OF DATA ACQUISITION: SEE FIELD DATE LISTED BELOW

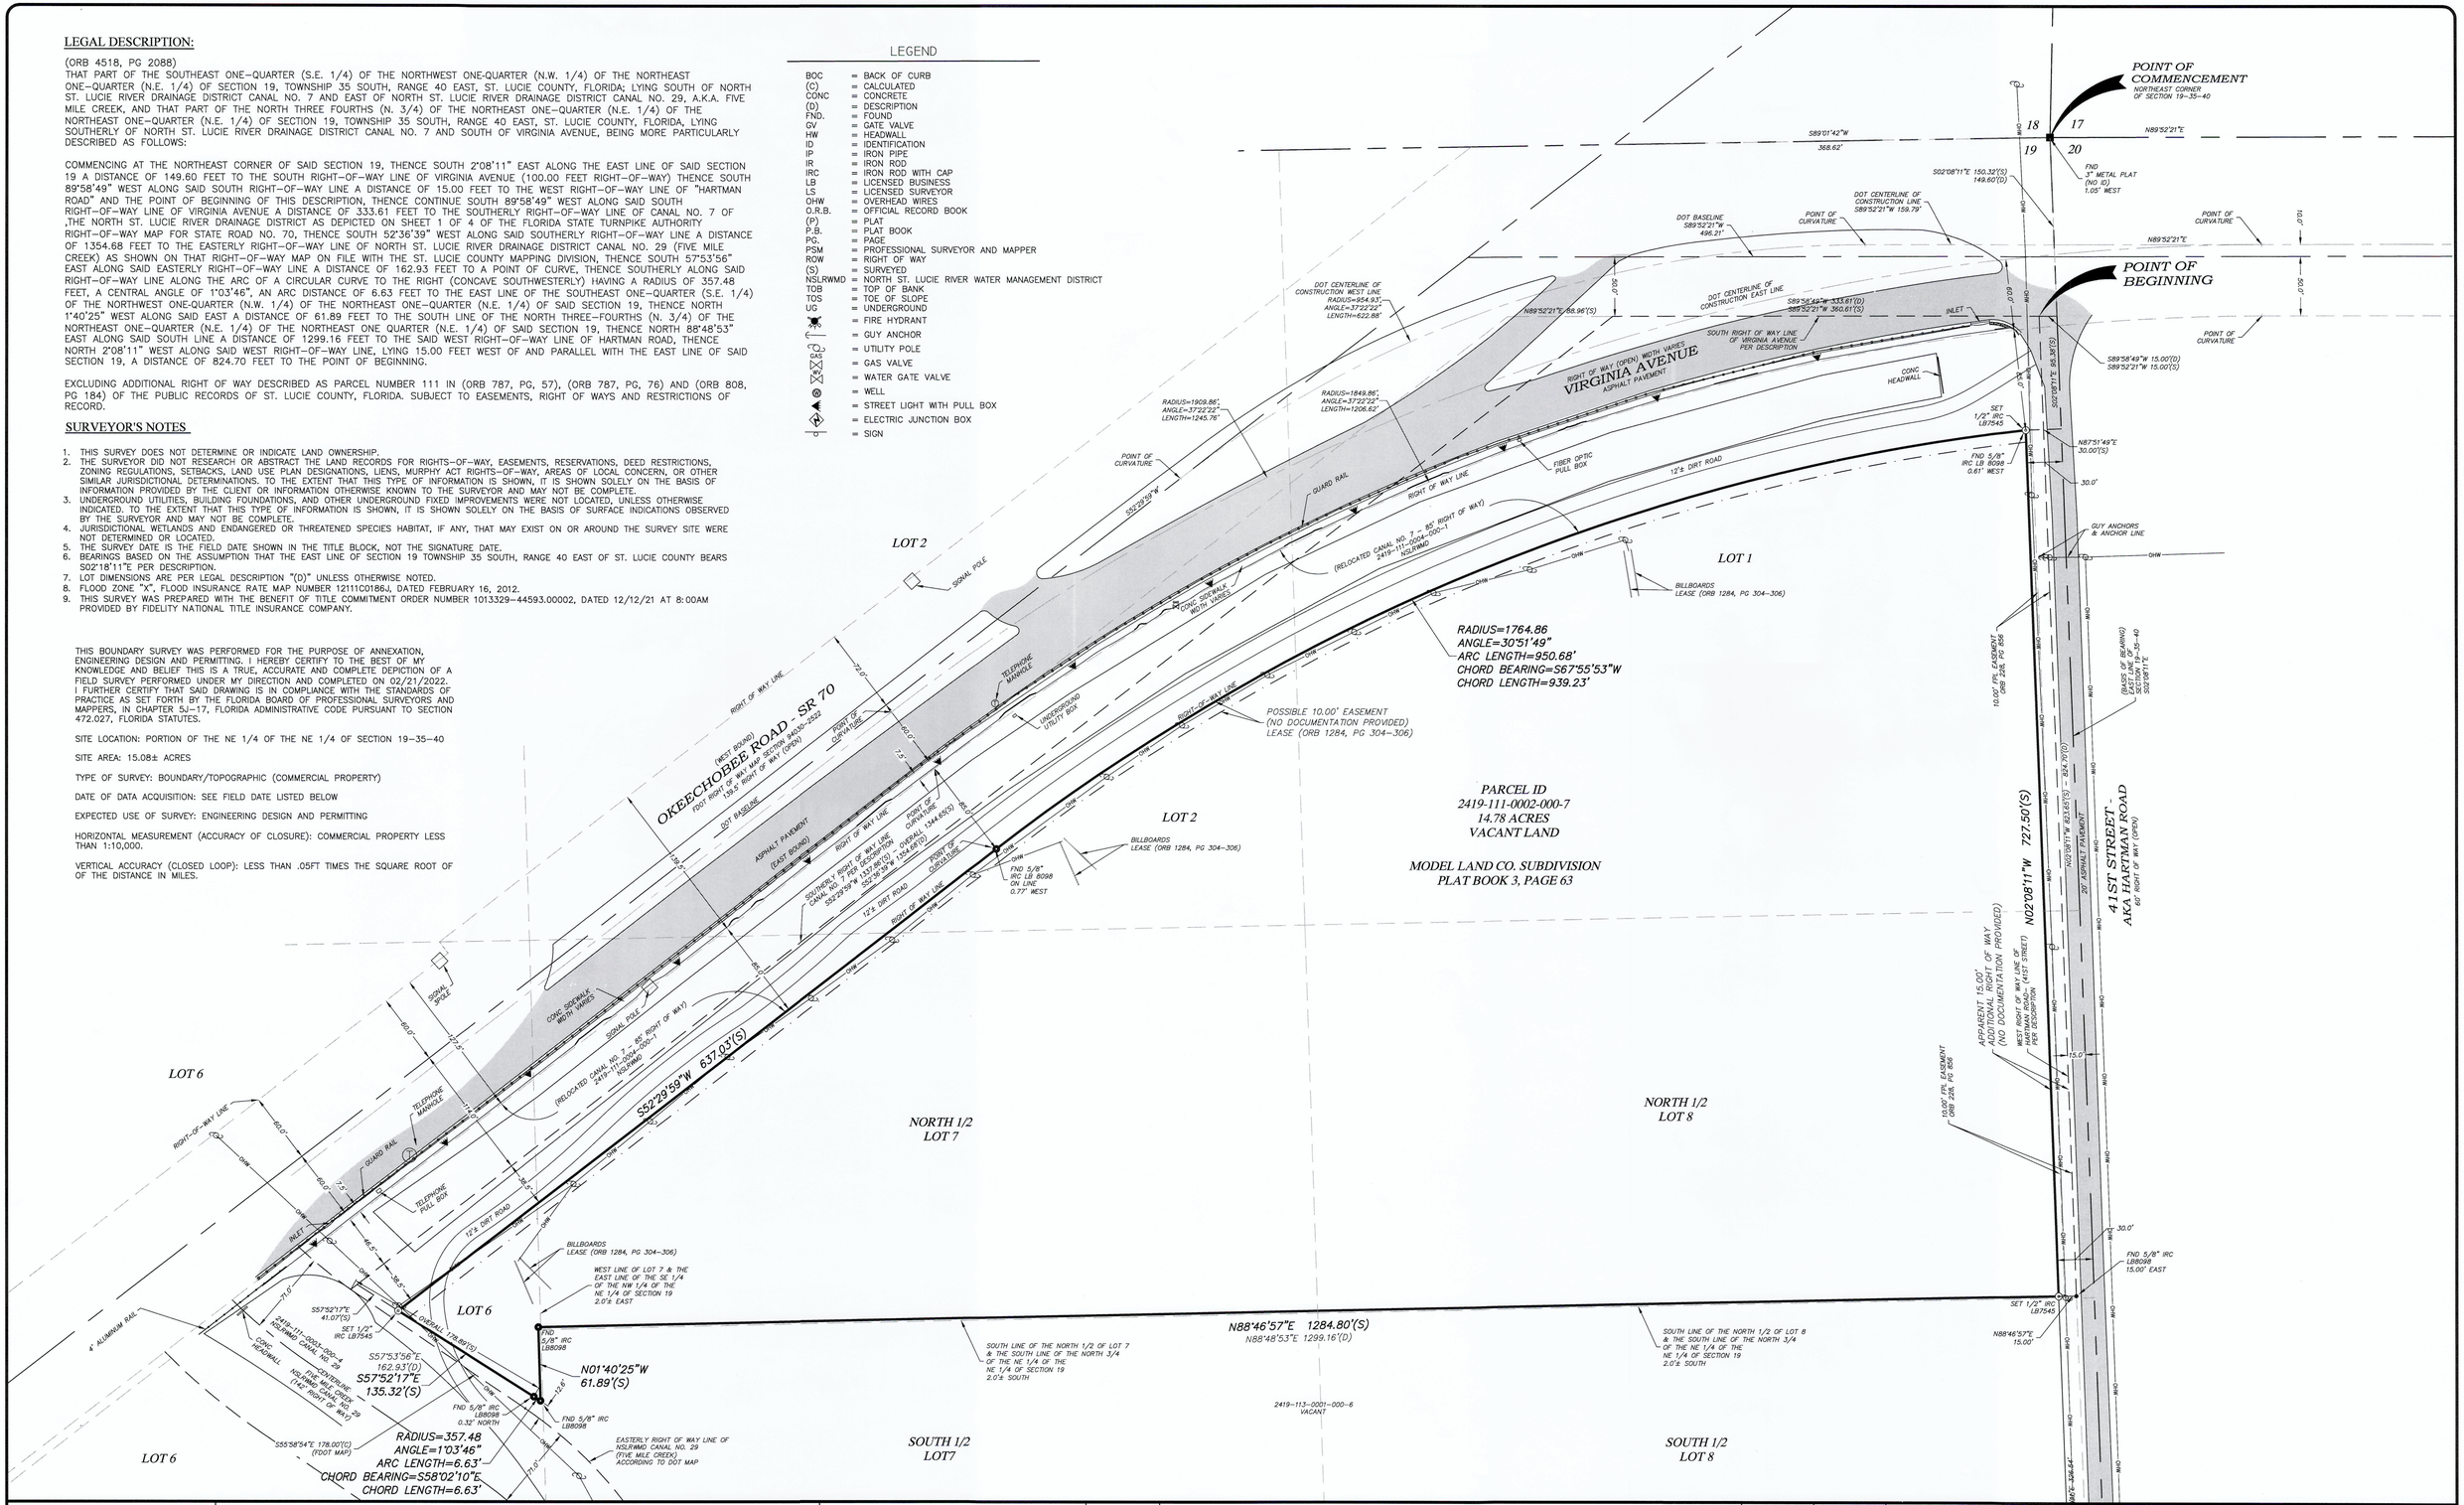

EXPECTED USE OF SURVEY: ENGINEERING DESIGN AND PERMITTING

HORIZONTAL MEASUREMENT (ACCURACY OF CLOSURE): COMMERCIAL PROPERTY LESS THAN 1:10,000.

VERTICAL ACCURACY (CLOSED LOOP): LESS THAN .05FT TIMES THE SQUARE ROOT OF OF THE DISTANCE IN MILES.

RE: Notice of Community Informational Meeting on **Thursday, September 1, 2022 at 6pm**

Dear Neighbor:

The Brownstone Group has submitted an Annexation, Small Scale Comprehensive Plan Map Amendment, and Rezoning application to the City of Ft. Pierce.

There are two properties included with this request, see below (parcels 2419-113-0001-000-6 and 2419-111-0002-000-7, aka 3000 Virginia Ave). One is within the city limits of Ft. Pierce and the other is in unincorporated county. Our first request is an annexation of the unincorporated property into the city limits of Ft. Pierce. Our second and third requests are to change the future land use and zoning on both properties from commercial to the following in the City of Ft. Pierce:

- Future Land Use: RM (medium density residential)
- Zoning: R-4 (medium density residential zone)

We will have a conceptual site plan available for review at the meeting. The proposed project consists of a medium density, gated 360-unit multi-family development comprised of three-story

buildings. The units are a mix of one- and two-bedrooms. The development includes large landscape buffers to the south and east, separating single-family from the development. Additionally, no balconies will face adjacent residential uses and all amenities will be located on internal portions of the site.

Please join us for an informational meeting to discuss the requests in more detail, answer your questions, and have a useful dialogue on how the proposed development may better meet the community's needs. We will then continue through the review and public hearing process for this request.

COMMUNITY INFORMATIONAL MEETING

DATE: September 1, 2022

TIME: 6:00pm to 7:00pm

PLACE: Havert L. Fenn Center
Multi-purpose Room
2000 Virginia Avenue
Fort Pierce, Florida 34982

If you have any questions prior to the community meeting or are unable to attend, please contact me at 210-669-3081 or via email at jeremy@tbsg.com.

Best Regards,

Jeremy Mears
Development Partner

Community Meeting Notes – Ft. Pierce

Details

Date: September 1, 2022 at 6pm

Location: Fenn Center

Attendance: 11 community residents, plus Jeremy Mears and Kelly Hyvonen (see attached sign-in sheet)

Invitations: Mailed to property owners within 500' of the subject properties

Attachments: Sign in sheet, meeting invitation, 500' buffer map

Discussion Points

The following concerns and topics were discussed:

- There is an existing driveway through the pond to the south that will need to be addressed
- Stormwater concerns, surrounding neighborhoods have preexisting issues from Five Mile Creek already, they say the mall across the street floods also
- Flooding of Five Mile Creek and concerns that the development will make the flooding worse
- The community wants water and sewer service
- Is there a need for this product?
- What is the design of the stormwater pond?
- One gentleman in the audience stated he was going to raise issues with further development until the County takes care of the Five Mile Creek flooding problems

500' Buffer Map

Community Meeting Notes – Ft. Pierce

Details

Date: October 27, 2022 at 6pm

Location: Fenn Center

Attendance: 10 community residents, plus Jeremy Mears and Kelly Hyvonen (see attached sign-in sheet). About half the participants attended the first community meeting as well.

Invitations: Mailed to property owners within 1000' of the subject properties

Attachments: Sign in sheet, meeting invitation, 1000' buffer map

Discussion Points

The following concerns and topics were discussed:

- Concerns with the intersection of 41st Street and Virginia Ave. Traffic backs up at the unsignalized intersection. Frequency of traffic incidents at this intersection. Some attendees thought connecting directly to Okeechobee Road would be better where traffic lights already exist.
    - Response: The necessary upgrades or proportionate fair share payment would be determined during the site plan process. Discussion about what FDOT will and won't allow for connection to the proposed multi-family use. At a previous conversation with FDOT staff, they asked that this proposed development connect to 41st Street and not Okeechobee which would require a crossing over the drainage canal.
- Crime and drug dealing and comparing nearby apartment developments.
    - Response: The proposed development would be a professionally managed and staffed rental apartment complex. Background checks are required for tenants. This is a market rate class A development that would be geared toward professionals and couples. The developer suggested that a couple apartments may be able to be rented to law enforcement or public safety for a reduced rate.
- Flooding of Five Mile Creek and overall stormwater concerns.
    - Response: The developer does not have control of the Five Mile Creek drainage, however, post-development, this site would retain all stormwater and reduce the runoff that currently flows unrestricted to the right-of-ways and Creek.
- Allowing more children in the area where there are also cows.
- Road noise from Okeechobee.
    - Response: Large areas of natural vegetation will be preserved along the east and south portions of the site that will not only continue to block road noise, but will reduce visibility of any development on the site. The three story buildings will also act to reduce road noise above and beyond what the vegetation on site does currently.
- Maintaining natural vegetative buffer between the homes on the west side of Lazy Hammock Lane and the southern retention pond indicated on the concept plan.

- Response: The participants in the meeting were appreciative of the 80-90’ additional natural vegetative buffers between the proposed development and existing single-family residences to the east and south.

RE: Notice of expanded follow-up Community Informational Meeting on
Thursday, October 27, 2022 at 6pm

Dear Neighbor:

The Brownstone Group has submitted an Annexation, Small Scale Comprehensive Plan Map Amendment, and Rezoning application to the City of Ft. Pierce. The Annexation was recently approved, and the Map Amendment and Rezoning will be processed together.

We held a community meeting on September 1 and sent invitations to all property owners within 500' of the subject property, which is standard notification procedure. That meeting was well attended with useful dialogue. We explained the project and the steps that we would be taking in the future to secure the necessary zoning to change the property from commercial to residential for the purposes of a multi-family residential use. See the Project Summary on page 2.

We have received feedback from the City of Ft. Pierce that some members of the community are reaching out with concerns about not being informed about what is proposed with this project. It is important for us to be transparent and share our information with those impacted the most. Therefore, we are holding a second community meeting and doubling the property owner notification buffer to 1000'. Note that those who have decided to keep their mailing addresses out of public records will not be notified because their information is not available.

Please join us for an informational meeting to discuss the requests in more detail, answer your questions, and have a useful dialogue on how the proposed development may better meet the community's needs. We will then continue through the review and public hearing process. If your property is more than 500' from the subject properties, this will be the first notice you received.

COMMUNITY INFORMATIONAL MEETING

DATE: Thursday, October 27, 2022

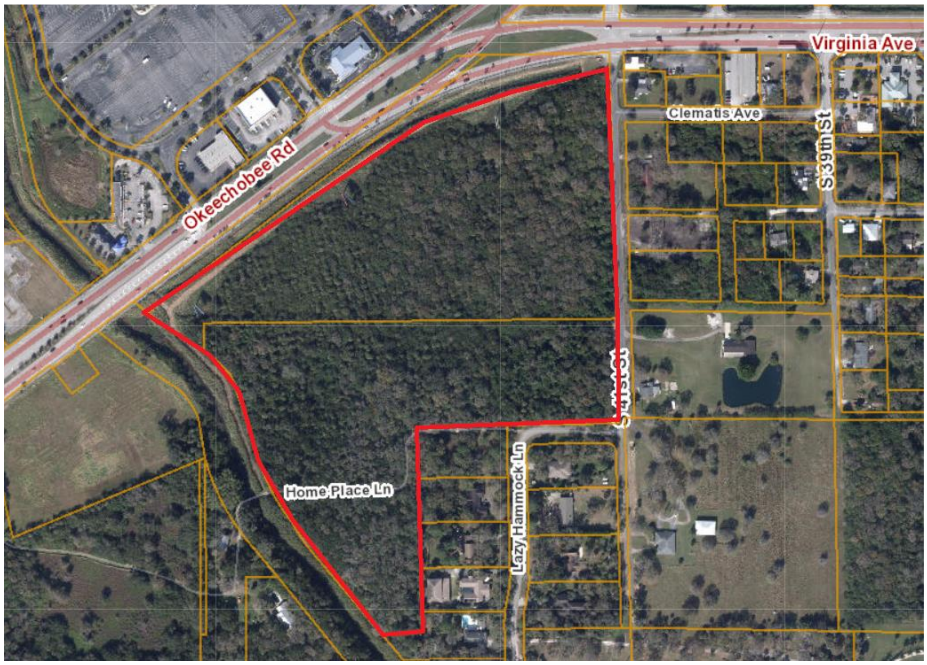

TIME: 6:00pm to 7:00pm

PLACE: Havert L. Fenn Center
Multi-purpose Room
2000 Virginia Avenue
Fort Pierce, Florida 34982

Project Summary
There are two properties included with this request shown on the map below (parcels 2419-113-0001-000-6 and 2419-111-0002-000-7, aka 3000 Virginia Ave). The remaining requests that will go before the City of Ft. Pierce are:

- Future Land Use: Change from commercial to RM (medium density residential)
- Zoning: Change from commercial to R-4 (medium density residential zone)

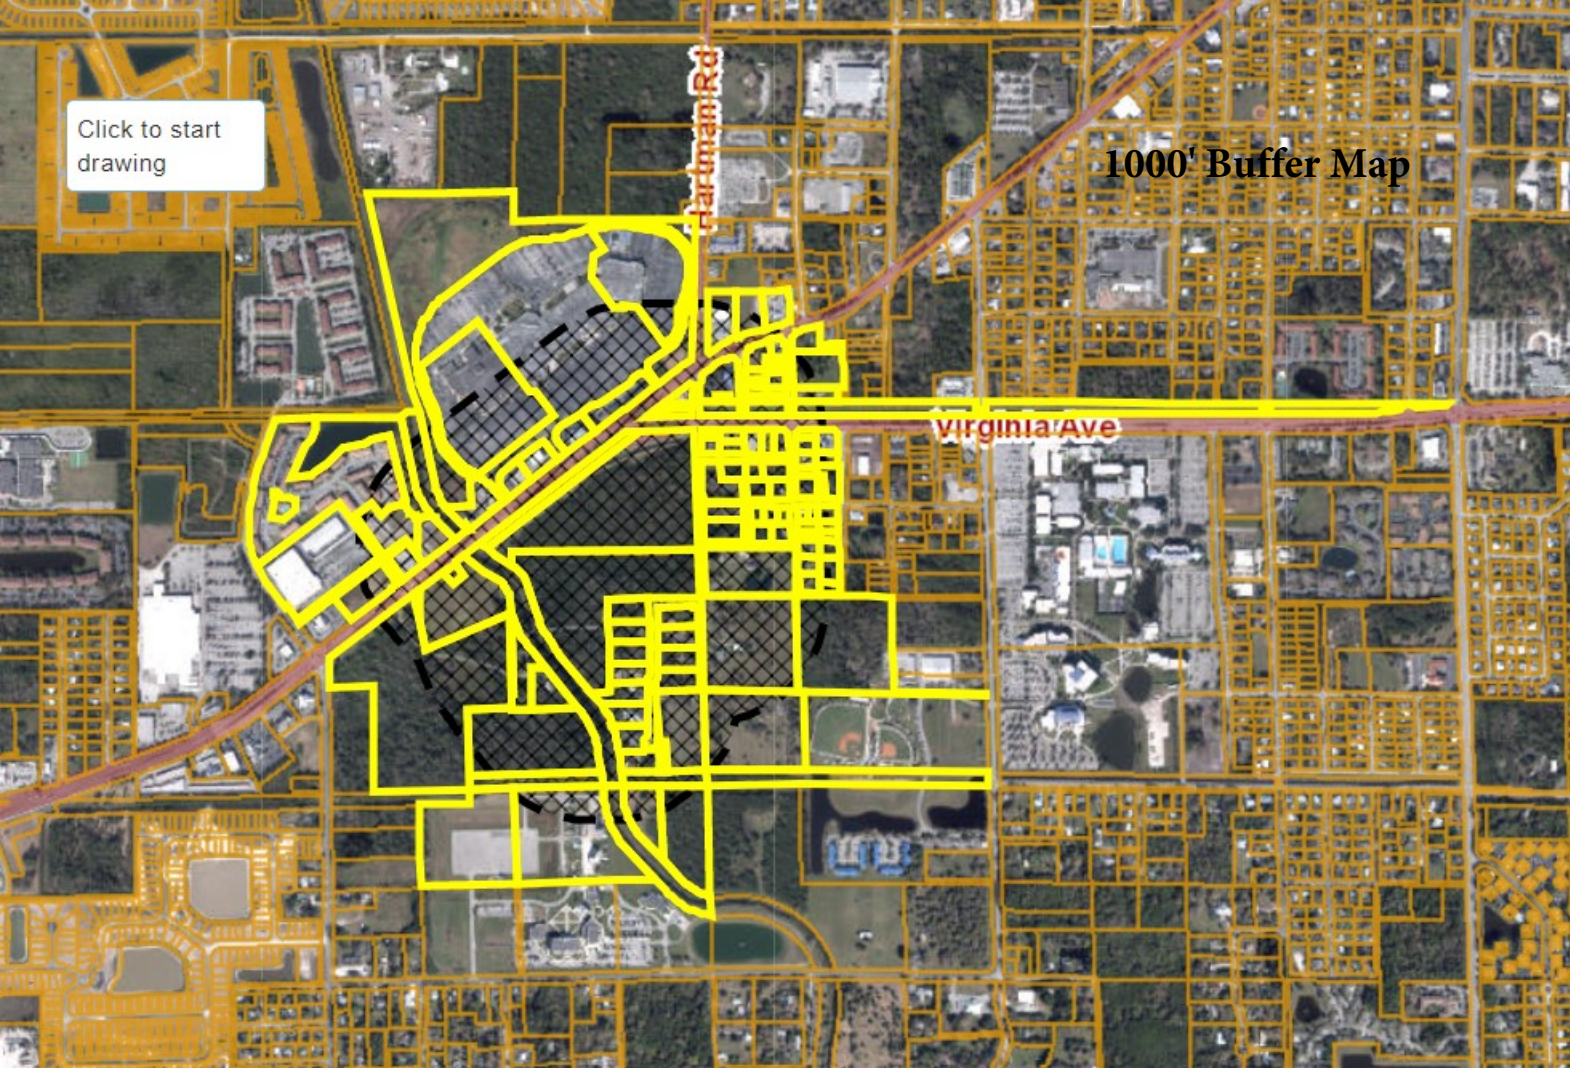

The proposed project consists of a medium density, gated 360-unit multi-family development comprised of three-story buildings. The units are a mix of one- and two-bedrooms. The development includes large landscape buffers to the south and east, separating single-family from the development. Additionally, no balconies will face adjacent residential uses and all amenities will be located on internal portions of the site. We will have a conceptual site plan available for review at the meeting or via email.

If you have any questions prior to the community meeting or are unable to attend, please contact me at 210-669-3081 or via email at jeremy@tbsg.com.

Best Regards,

Jeremy Mears
Development Partner

Dear Mr. Mears,

EDC, Inc. (EDC) has completed this Environmental Assessment (EA) for the above referenced property. The purpose of this evaluation was to conduct a review of the above listed parcel by means of site visit, review of available aerial photography, listed species review, review of soil resources, and review of environmental regulation pertaining to this parcel.

The following report details the findings of our on-site and desktop investigations of the properties as they pertain to Martin County regulations.

Please contact the undersigned if you have any questions regarding this report.

Respectfully submitted,
EDC, Inc.

ENVIRONMENTAL ASSESSMENT

Parcel ID: 2419-111-0002-000-7
3000 Virginia Avenue
Fort Pierce, FL

Date: January 22, 2022
Project #22-102

Prepared For:
Jeremy Mears
The Brownstone Group
6517 Maple Ridge
Houston, TX 77081
(210)-669-3081

Prepared By:
EDC, Inc.
10250 SW Village Parkway
Port St Lucie, Florida 34987
(772) 223-5200

The subject property evaluated as part of this Environmental Assessment consists of an approximately 17.83 acre parcel (Parcel ID #2419-111-0002-000-7), located at 3000 Virginia Avenue, Fort Pierce, Florida. The parcel is currently undeveloped.

This environmental assessment was completed as a precursor to permitting and review by a governmental agency as an applicable document for the supporting information associated with a building permit or land development application. EDC, Inc. staff visited the property on January 21, 2022, in order to ascertain the status and composition of any critical habitats, such as wetlands and native uplands that may be onsite.

VEGETATION:

It is the opinion of EDC that there is no native upland habitat located on site, as it is overrun with Category I and II invasive plants as identified by Florida Exotic Pest Plant Council (FLEPPC). This site consists of the following vegetation; An upper-level canopy consisting of mainly Cabbage Palm (*Sabal palmetto)*, Brazilian Pepper (*Schinus terebinthifolia*), and scattered Swamp White Oak (*Quercus bicolor*). A heavy presence of Arrowhead Vine (*Syngonium podophyllum*) should be noted climbing on mature trees. The understory was observed to be rife with invasives – Coral Ardisia (*Ardisia crenata*), Shoebutton Ardisia (*Ardisia elliptica*), Surinam Cherry (*Eugenia uniflora*) and Caesar weed (*Urena lobata*) made up the vast majority. Native plants that should be noted, yet scattered sparingly throughout the property are Wild Coffee (*Psychotria nervosa*) and Dwarf Palmetto (*Sabal minor*).

The site is bordered to the north by a canal, with an access road that goes to power stations and a billboard. Along this road the following species are present: Guinea grass (*Megathyrsus maximus*), Cogon grass (*Imperata cylindrica*).

WETLAND DELINEATION:

According to aerial photographs, it appears that there are no wetlands on site. A site visit confirmed this observation. Based on the State definition, a wetland consists of three components: 1). Hydric soils. 2). Wetland plants. 3). Hydrologic patterns. Not all three of these components were found during the field reconnaissance on the property. However, this property is under South Florida Water Management District (SFWMD) Permit No. 56-00658-S, due to the property including the canal.

WILDLIFE EVALUATION:

EDC, Inc. conducted a pedestrian survey throughout the property to investigate for the presence of any plant or animal listed species. No gopher tortoises or any other state or federally listed animal species were found on site.

SOIL COMPOSITION:

Based on a review of the USDA Web Soil the site is composed of:

Chobby loamy fine sand (3.8%) - depressional is a nearly level, very poorly drained soil with a thick black surface layer. It is found in marshy depressions and on flood plains along streams. In most years the water table is within a depth of 10 inches for 6 to 9 months and between 10 to 40 inches for 3 to 6 months. This soil is continuously flooded for 1 to 6 months in many places. Natural vegetation includes sand cordgrass and swamp hardwoods. If drainage and water control are adequate, this soil is well suited to vegetables and improved pasture grasses.

Riviera fine sand (9.6%) - This poorly drained, nearly level soil is found in hammocks and along drainage ways. The surface layer is dark gray brown fine sand about 5 inches thick. The soil has a water table at a depth of less than 10 inches for 2 to 4 months in most years and at a depth of 10 to 30 inches for most of the rest of the year. Permeability is rapid in the surface and subsurface layers and is slow to very slow in the subsoil, and rapid in the substratum. Natural vegetation includes cabbage palms and scattered longleaf pine and slash pine and an understory of wax myrtle and saw palmetto. The most common native grasses are pineland threeawn and blue maidencane. Broom sedges, creeping bluestem, paspalum, sand cordgrass and panicums are typical grasses for this soil.

Winder loamy sand (86.6%) - This poorly drained, nearly level soil found in hammocks and along drainage ways. The surface layer typically is black loamy sand that is 6 inches thick. The water table is within a depth of 10 inches of the surface for 2 to 4 months and between a depth of 10 to 40 inches for most of the rest of the year. The natural vegetation associated with this soil type includes cabbage palm, willow oak, scattered long leaf and slash pine and an understory of wax myrtle and saw palmetto. This soil has high potential for dwellings without basements, small commercial buildings, local roads and streets.

ST LUCIE COUNTY REGULATIONS

According to the St Lucie County Property Appraiser's Report, the subject property has a land use code of 1000 Vacant Commercial.

Sec. 6.00.05 - Vegetation Removal Permit must be obtained in compliance with the Land Development Code (LDC).
Sec. 6.00.05.D.2 - Palm trees that are cleared must be mitigated for at a rate of 1:1.
Sec. 11.05.06.B - The individual locations of all native vegetation, that meets the minimum sizes outlined in Table 1 in Section 6.00.05(D), that are located within all areas of proposed improvement and within twenty (20) feet of all proposed improvement areas shall be shown on the illustrative plan. An official tree survey may be necessary to locate native hardwood trees that are protected by the LDC.

SUMMARY:

It is the professional opinion of EDC that there is no native upland habitat on site. A former agricultural property that has been left unmaintained for years allowed a heavy presence of non-native and exotic plants to establish. This eliminated any chance at native habitat establishing itself. The density of invasive species present, combined with remnant agricultural impacts have made the land ideal for new development. Additionally, no gopher tortoises or any other listed animal species were found on site. Furthermore, while this property is under SFWMD Permit No. 56-00658-S, wetlands were not found on site. A tree survey will be required for development in St. Lucie County, as well as an Environmental Impact Report.

LOCAL PLANNING AGENCY

NOTICE IS HEREBY GIVEN, pursuant to Sections 163.3174(4)(a) and 163.3184(a), F.S., the Planning Board, as the Local Planning Agency, of the City of Fort Pierce will hold a public hearing on Monday, September 12th, 2022, at 2:00 P.M., in the City Hall Commission Chambers, 100 N. U.S. 1, Fort Pierce, Florida. The public hearing will be on an application submitted by the representative, Rebecca Grohall, AICP (MBV Engineering), and applicant, Jeremy Mears for a Future Land Use Map Amendment for one (1) parcel of land to change the future land use designation from GC, General Commercial to RM, Medium Density Residential. Said parcel is generally located at or near the northwest corner of Lazy Hammock Lane and South 41st Street.

The legal description of the parcel is as follows:

A PORTION OF THE EAST 1/2 OF THE NORTHEAST 1/4 OF SECTION 19, TOWNSHIP 35 SOUTH, RANGE 40 EAST, ST. LUCIE COUNTY, FLORIDA; LYING EAST OF NORTH ST. LUCIE RIVER DRAINAGE DISTRICT CANAL NO. 29, ALSO KNOWN AS "FIVE MILE CREEK", BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS: COMMENCING AT THE NORTHEAST CORNER OF SAID SECTION 19; THENCE S02°08'11"E ALONG THE EAST LINE OF SAID SECTION 19 A DISTANCE OF 245.70 FEET; THENCE S87°51'49"W A DISTANCE OF 30.00 FEET TO THE INTERSECTION OF A DISTANCE OF 30.00 FEET TO THE INTERSECTION OF A DISTANCE OF 30.00 FEET TO THE INTERSECTION OF THE SOUTH RIGHT OF WAY LINE OF RELOCATED CANAL NO. 7 WITH THE WEST RIGHT-OF-WAY LINE OF 41ST STREET, ALSO KNOWN AS "HARTMAN ROAD"; THENCE S02°08'11"E ALONG SAID WEST RIGHT OF WAY LINE A DISTANCE OF 727.50 FEET TO THE NORTH LINE OF THE SOUTH 1/2 OF LOT 8 OF MODEL LAND COMPANY SUBDIVISION AS RECORDED IN PLAT BOOK 3, PAGE 63 OF THE PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA, ALSO BEING THE NORTH LINE OF THE SOUTH 1/2 OF THE SOUTHEAST 1/4 OF THE NORTHEAST 1/4 OF THE NORTHEAST 1/4 OF SAID SECTION 19 AND THE POINT OF BEGINNING OF THE HEREIN DESCRIBED PROPERTY; THENCE CONTINUE S02°08'11"E ALONG THE WEST RIGHT OF WAY LINE OF 41ST STREET A DISTANCE OF 326.54 FEET TO THE SOUTH LINE OF AFOREMENTIONED LOT 8 AND THE NORTH LINE OF LAZY HAMMOCK SUBDIVISION AS RECORDED IN PLAT BOOK 17, PAGE 18 OF THE PUBLIC RECORDS OF ST. O'ROURKE
ENGINEERING & PLANNING

August 22, 2022
Revised August 24, 2022

Ms. Rebecca Grohall, AICP
MBV Engineering
1835 20th Street
Vero Beach, FL 32960

Re: Allegra at Fort Pierce - LUPA

Dear Ms. Grohall:

O'Rourke Engineering & Planning has completed the analysis of the traffic impacts associated with the change in land use from General Commercial to Medium Density Residential for the 29.13 acres on Virginia Avenue in Ft. Pierce, St. Lucie County. **Figure 1** illustrates the project location. The analysis is presented below.

Traffic Analysis

The proposed change in land use has to compare the trip generation associated with the worst-case traffic generator in the existing future land use to the worst-case traffic generator in the proposed future land use. The 29.13 acres has an existing future land use of General Commercial. The existing FLU could be commercial or a mix of commercial and residential. Commercial use would allow a floor are ratio of 1.0 allowing 1,268,903 square feet of building. Medical office and retail shopping would be two high trip generators. The proposed future land use is Medium Density Residential allowing 360 dwelling units. **Attachment A** provides the land use category details from the Fort Pierce Comprehensive Plan along with the ITE Trip Generation data.

Table 1 summarizes the trip generation of the worst case under the existing future land use for retail versus the 360 units. As shown, the change in land use would result in a decrease of 20,561 daily trips, 286 AM peak hour trips and 2,097 PM peak hour trips when considering the existing future land use as retail.

Table 2 summarizes the trip generation for the medical office versus the 360 units. As shown, the change in land use would result in a decrease of 30,349 daily trips, 1,181 AM peak hour trips and 2,587 PM peak hour trips when considering the existing future land use as medical office.

Because there is a decrease in trip generation land use, additional analyses are not required.

22 SE Seminole Street I Stuart, FL 34994 I 772-781-7918
SEORourke@comcast.net

Conclusion

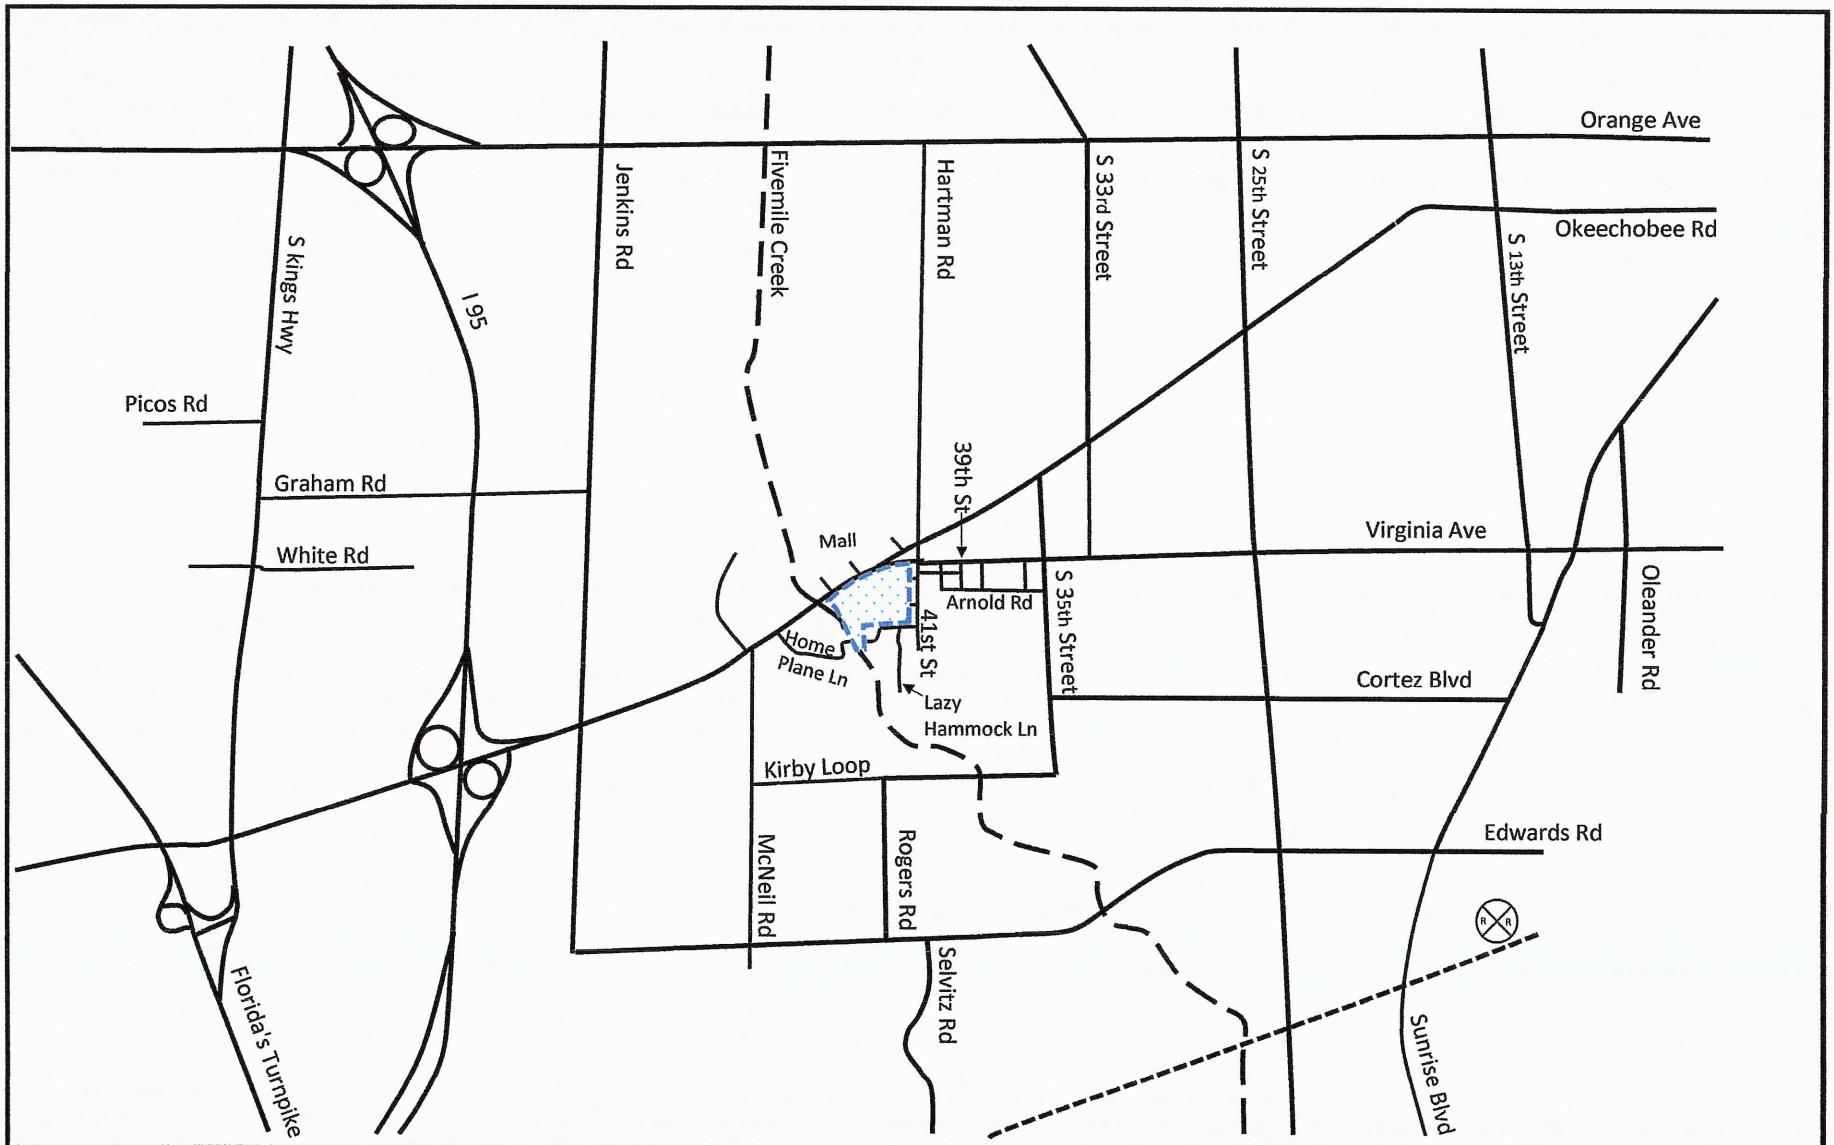

The trip generation analysis demonstrates that the change in land use will result in a decrease in trip generation potential on the development. Therefore, the proposed Land Use Plan Amendment will be supported by the existing Comprehensive Plan.

It has been a pleasure working with you.

CITY OF FORT PIERCE
NOTICE OF PUBLIC HEARING

The City Commission of the City of Fort Pierce, Florida, pursuant to Section 125-37 of the Code of Ordinances of the City of Fort Pierce, and Sections 166.041 (3)(a) and 163.3187 of Florida State Statutes, will on Monday, December 19, 2022 at 5:05 p.m. and Tuesday, January 3, 2022 at 5:05 p.m., hold Public Hearings on the enactment of the proposed ordinance on first and second readings, respectively, in the City Hall Commission Chambers, 100 North U.S. #1, Fort Pierce, Florida, to consider review and approval of the following:

ORDINANCE NO. 20-042 AN ORDINANCE BY THE CITY COMMISSION OF THE CITY OF FORT PIERCE, FLORIDA; **REZONING THE PROPERTY GENERALLY LOCATED AT OR NEAR 3000 VIRGINIA AVE, FROM GENERAL COMMERCIAL (C-3) TO MEDIUM DENSITY RESIDENTIAL (R-4)**; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR REPEAL OF ORDINANCES OR PARTS THEREOF IN CONFLICT HEREWITH; AND PROVIDING FOR AN EFFECTIVE DATE.

Subject Property: Parcel IDs: 2419-111-0002-000-7 & 2419-113-0001-000-6

All interested parties may appear at the meeting and be heard with respect to the ordinance. Said ordinance will be available for inspection in the City Clerk's Office, City Hall, 100 North U.S. #1, Fort Pierce, Florida.

ANY PERSON SEEKING TO APPEAL THE DECISION OF THE CITY COMMISSION AS TO THE FOREGOING IS ADVISED THAT A RECORD OF PROCEEDINGS IS REQUIRED IN ANY SUCH APPEAL AND THAT SUCH PERSON MAY NEED TO ENSURE THAT A VERBATIM RECORD OF PROCEEDINGS IS MADE INCLUDING THE TESTIMONY AND EVIDENCE UPON WHICH THE APPEAL IS TO BE BASED.

In accordance with the Americans with Disabilities Act and Section 286.26, Florida Statutes, persons with disabilities needing special accommodation to participate in this meeting should contact the City Clerk’s Office at (772) 467-3065 at least 48 hours prior to the meeting.

Meeting Date: 12/19/2022

Re: Ordinance 22-043 - Major Amendment to a Planned Development - Red Hawk Rebar - 4280 Bandy Boulevard FIRST READING

Submitted For: Kev Freeman, Planning Director, Planning & Zoning

SUBJECT:

Quasi-Judicial Hearing - Ordinance 22-043 **-** Review and approval of a Zoning Map Amendment by owners, Red Hawk Rebar, LLC and the representative, Culpepper & Terpening, Inc. for a Major Amendment to an approved Planned Development by reducing the proposed building footprint from 40,000 square feet to 32,000 square feet, and site improvement changes, at 4280 Bandy Boulevard, Fort Pierce, FL 34981. Parcel ID: 2431-505-0008-000-6 FIRST READING

SUMMARY:

In accordance with Sections 125-37, 125-133, 125-136, and 125-212 of the City Code, the applicant is requesting the review and approval of a Major Amendment to the previously approved Planned Development and Site Plan. City Code Section 125-212 requires an application for a major amendment with modifications and expired development plan to follow the same procedure as set forth for a new planned development. The City Commission of the City of Fort Pierce approved the Zoning Atlas Map Amendment to Planned Development along with an approved development plan on September 4, 2018. The Redhawk Rebar Facility is a Planned Development (PD) for the purpose of constructing a manufacturing facility that transforms already fabricated rebars into components for the commercial constructions process. The parcel is located on an approximately 3.57-acre tract of land owned by the parties specified on the first page. The proposed manufacturing facility will be located within Fort Pierce Industrial Park, on a formerly cleared parcel that was never developed, which is just west of Selvitz Road and south of Glades Cut Off Road.
The original proposed development plan consisted of a 40,000 sq. ft. manufacturing facility, of which 8,000 sq. ft. provides office space, Faze I - 16,000 sq. ft. industrial building, Phase 2 - 16,000 sq. ft. industrial building and a 4,000 sq. ft. area for covered staging of finished product. The new proposal consists of a smaller footprint of approximately 32,000 sq. ft. The plan also incorporates a railroad spur to accommodate deliveries to and from the site, vehicular parking, site lighting, landscaping, and storm water facilities to support the proposed plant. The original development plan proposed completion within two phases, designated to commence in the fall of 2018 and be completed within two years of Planned Development Approval (August 2020). The new proposal consists or no phasing. The estimated construction start date is Winter 2022/2023 with a completion of Summer 2023. The work shifts are presented to be standard hours of operation from approximately 7 AM to 5 PM.

RECOMMENDATION:

The requested Application for a Major Amendment to a Planned Development meets the criteria specified in Sections 125-136 and 125-212 of the City Code, the Comprehensive Plan, and does not adversely affect the public health, safety, convenience, and general welfare; Therefore, Staff recommends that the Planning Board forward a recommendation of **APPROVAL** to the City Commission with the following condition:

1. A completion certification by a landscape architect, cost estimate and landscape bond pursuant to City Code 123-6 shall be required before the Final Certificate of Occupancy is approved for the site.

ALTERNATIVES:

- Approval with alternative conditions
- Denial

ORDINANCE NO. 22-043

AN ORDINANCE BY THE CITY COMMISSION OF THE CITY OF FORT PIERCE, FLORIDA; **AMENDING** THE PLANNED DEVELOPMENT PLAN FOR THE PROPERTY GENERALLY LOCATED AT OR NEAR **4280 BANDY BOULEVARD** AND KNOWN AS RED HAWK REBAR PLANNED DEVELOPMENT; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR REPEAL OF ORDINANCES OR PARTS THEREOF IN CONFLICT HEREWITH; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the subject property is generally located at or near 4280 Bandy Boulevard within the City of Fort Pierce, Florida, representing approximately 3.565 acres of land more or less; and

WHEREAS, the City Commission of the City of Fort Pierce approved the Zoning Atlas Map Amendment to Planned Development along with an approved development plan on September 4, 2018; and

WHEREAS, the representative, Culpepper & Terpening, Inc., has submitted a development review application for a major amendment with modifications to the Planned Development and to reinstate the expired development plan, for review and approval by the City; and

WHEREAS, City Code Section 125-212 requires an application for a major amendment with modifications to follow the same procedure as set forth for a new planned development; and

WHEREAS, City Code Section 125-212 requires an applicant for reinstatement of a development plan after expiration to follow the same procedure as set forth for a new planned development; and

WHEREAS, the City of Fort Pierce Planning Board, at their November 14, 2022, meeting, voted unanimously to recommend approval of the request; and

NOW, THEREFORE BE IT ORDAINED by the City Commission of the City of Fort Pierce, Florida as follows:

SECTION 1. The provisions of this Ordinance are declared to be severable and if any section, sentence, clause, or phrase of this Ordinance shall, for any reason, be held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining sections, sentences, clauses, and phrases of this Ordinance which shall remain in effect, it being the legislative intent that this Ordinance shall stand notwithstanding the invalidity of any part.

SECTION 2. The Development Plan is depicted on Exhibit “A” is hereby approved with this Ordinance.

SECTION 3. The Sketch and Legal Description is depicted Exhibit “B” is hereby approved with this Ordinance.

SECTION 4. All ordinances or parts thereof that may be determined to be in conflict herewith are hereby repealed.

SECTION 5. This Ordinance shall be and become effective immediately upon final passage.

APPROVED AS TO FORM & CORRECTNESS:

Major Amendment to a Planned Development

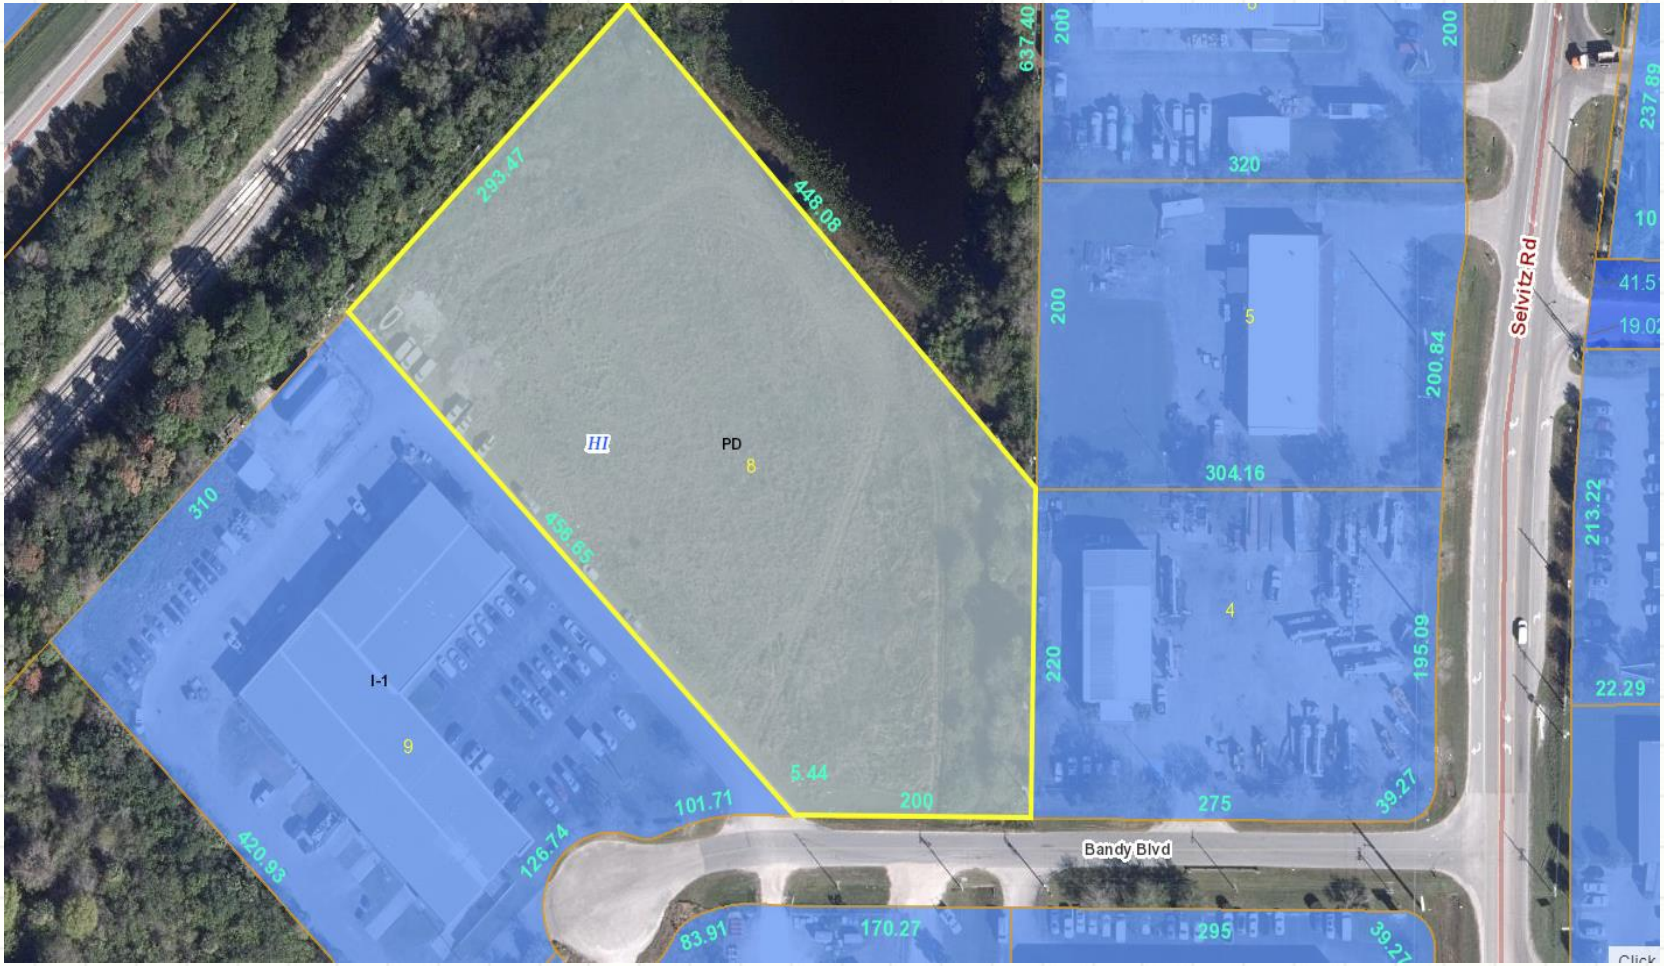

4280 Bandy Boulevard

Location Map

- **Approx. 3.565 acres +/-**

FLU-Zoning Map

Major Amendment

In accordance with Sections 125-37, 125-133, 125-136, and 125-212 of the City Code, the applicant is requesting the review and approval of a Major Amendment to the previously approved Planned Development and Site Plan. City Code Section 125-212 requires an application for a major amendment with modifications and expired development plan to follow the same procedure as set forth for a new planned development.

- **Staff recommends <u>Approval</u> of the request**

  - ❑ **Consistent with Section 125-212 & 125-136 of City Code & the Comprehensive Plan.**
  - ❑ **Does not adversely affect the public health, safety, convenience and general welfare.**

History

- **The City Commission of the City of Fort Pierce approved the Zoning Atlas Map Amendment to Planned Development along with an approved development plan on September 4, 2018. The Redhawk Rebar Facility is a Planned Development (PD) for the purpose of constructing a manufacturing facility that transforms already fabricated rebars into components for the commercial constructions process.**

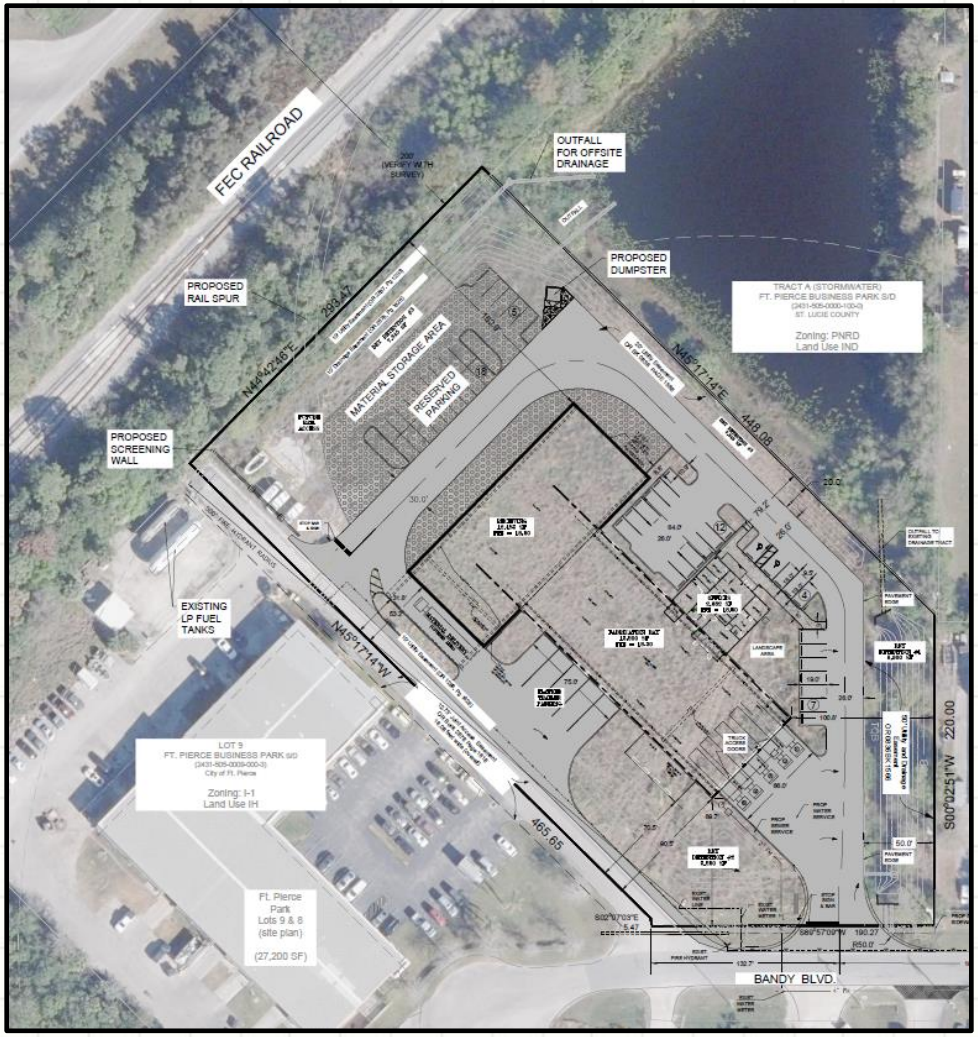

- **The original proposed development plan consisted of a 40,000 sq. ft. manufacturing facility, of which 8,000 sq. ft. provides office space, Faze I - 16,000 sq. ft. industrial building, Phase 2 - 16,000 sq. ft. industrial building and a 4,000 sq. ft. area for covered staging of finished product. The new proposal consists of a smaller footprint of approximately 32,000 sq. ft.**

Original PD Development Plan

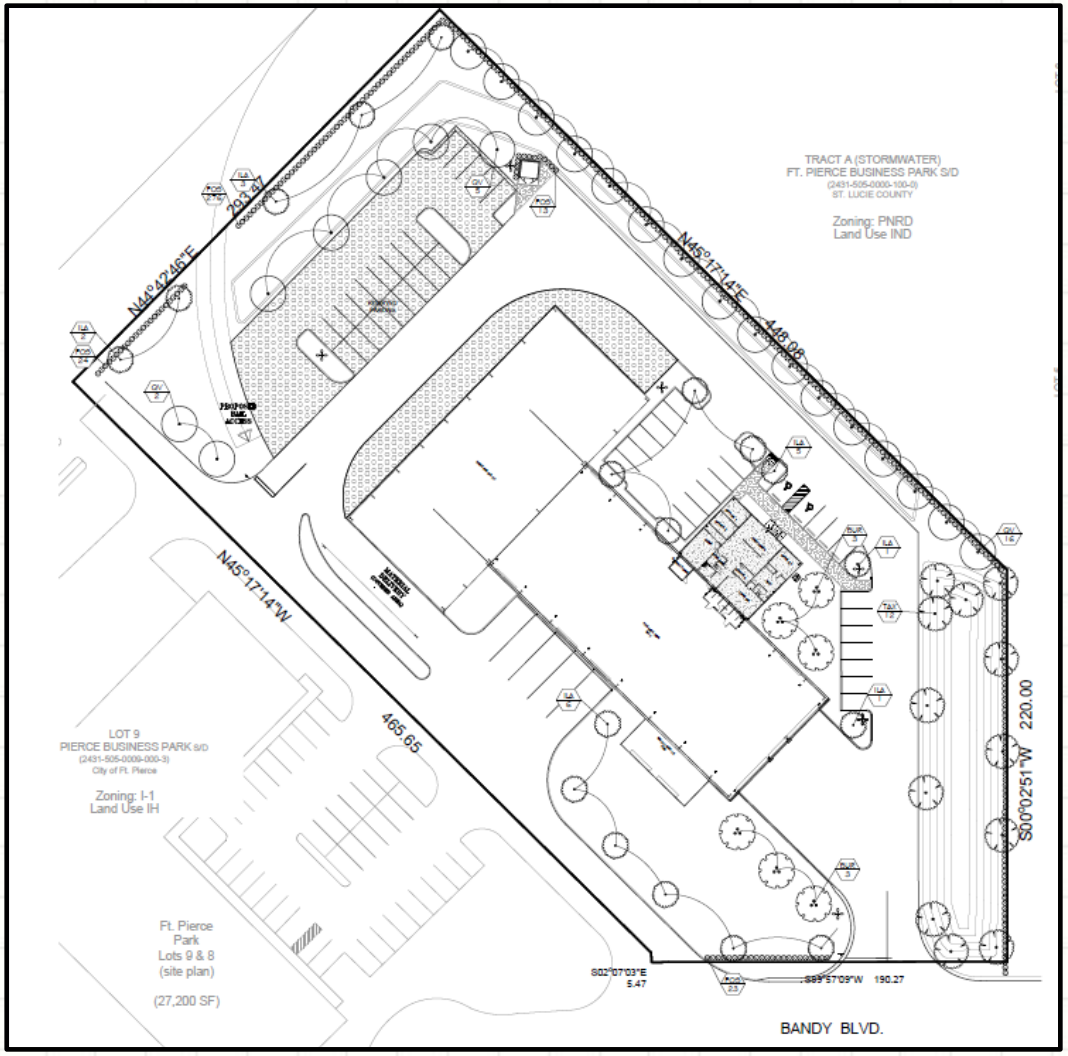

40,000 sq. ft. manufacturing facility, of which 8,000 sq. ft. provides office space, Faze I - 16,000 sq. ft. industrial building, Phase 2 - 16,000 sq. ft. industrial building and a 4,000 sq. ft. area for covered staging of finished product.

New PD Development Plan

The site plan consists of an approximately 32,000 square foot Manufacturing Facility with 2,382-sf of office space, a 12,475-sf receiving area, and a 15,200-sf fabrication bay.

Landscape Plan

- **Trees to be planted are (6) Gumbo Limbo, (16) Eagleston Holly, (23) Live Oak, and (12) Bald Cypress.**
- **Shrubs proposed for the site include (336) Florida Privet.**
- **Ground Covers proposed for the site include Argentine Bahia Sod.**
- **New Irrigation will be installed.**

PB Recommendation

The Planning Board, at their November 14th, 2022 meeting, voted unanimously to recommend Approval of the request.

Staff Recommendation
Major Amendment

The requested Application for a Major Amendment to a Planned Development meets the criteria specified in Sections 125-136 and 125-212 of the City Code, the Comprehensive Plan, and does not adversely affect the public health, safety, convenience, and general welfare; Therefore, Staff recommends that the Planning Board forward a recommendation of APPROVAL to the City Commission with the following condition:

1. **A completion certification by a landscape architect, cost estimate and landscape bond pursuant to City Code 123-6 shall be required before the Final Certificate of Occupancy is approved for the site.**

City Commission Actions (Major Amendment)

Possible actions of the City Commission:

- **APPROVAL** of the proposed Major Amendment with no changes
- **APPROVAL** of the proposed Major Amendment with changes.
- **DISAPPROVAL** of the proposed Major Amendment

Staff Analysis:

Request & Background

In accordance with Sections 125-37, 125-133, 125-136, and 125-212 of the City Code, the applicant is requesting the review and approval of a Major Amendment to the previously approved Planned Development and Site Plan. City Code Section 125-212 requires an application for a major amendment with modifications and expired development plan to follow the same procedure as set forth for a new planned development. The City Commission of the City of Fort Pierce approved the Zoning Atlas Map Amendment to Planned Development along with an approved development plan on September 4, 2018. The Redhawk Rebar Facility is a Planned Development (PD) for the purpose of constructing a manufacturing facility that transforms already fabricated rebars into components for the commercial constructions process. The parcel is located on an approximately 3.57-acre tract of land owned by the parties specified on the first page. The proposed manufacturing facility will be located within Fort Pierce Industrial Park, on a formerly cleared parcel that was never developed, which is just west of Selvitz Road and south of Glades Cut Off Road.

The original proposed development plan consisted of a 40,000 sq. ft. manufacturing facility, of which 8,000 sq. ft. provides office space, Faze I - 16,000 sq. ft. industrial building, Phase 2 - 16,000 sq. ft. industrial building and a 4,000 sq. ft. area for covered staging of finished product. The new proposal consists of a smaller footprint of approximately 32,000 sq. ft.

The plan also incorporates a railroad spur to accommodate deliveries to and from the site, vehicular parking, site lighting, landscaping, and storm water facilities to support the proposed plant. The original development plan proposed completion within two phases, designated to commence in the fall of 2018 and be completed within two years of Planned Development Approval (August 2020). The new proposal consists or no phasing. The estimated construction start date is Winter 2022/2023 with a completion of Summer 2023. The work shifts are presented to be standard hours of operation from approximately 7 AM to 5 PM.

Standards for Review

The following standards must be satisfied per Section 125-136 of the City Code prior to the approval of the requested amendment:

(1) The amendment is consistent with the comprehensive plan;

(2) The amendment will not have an adverse effect on the ability of the City to:

a. Satisfy land and water use needs; and

b. Meet transportation demands and provide community facilities and services; and

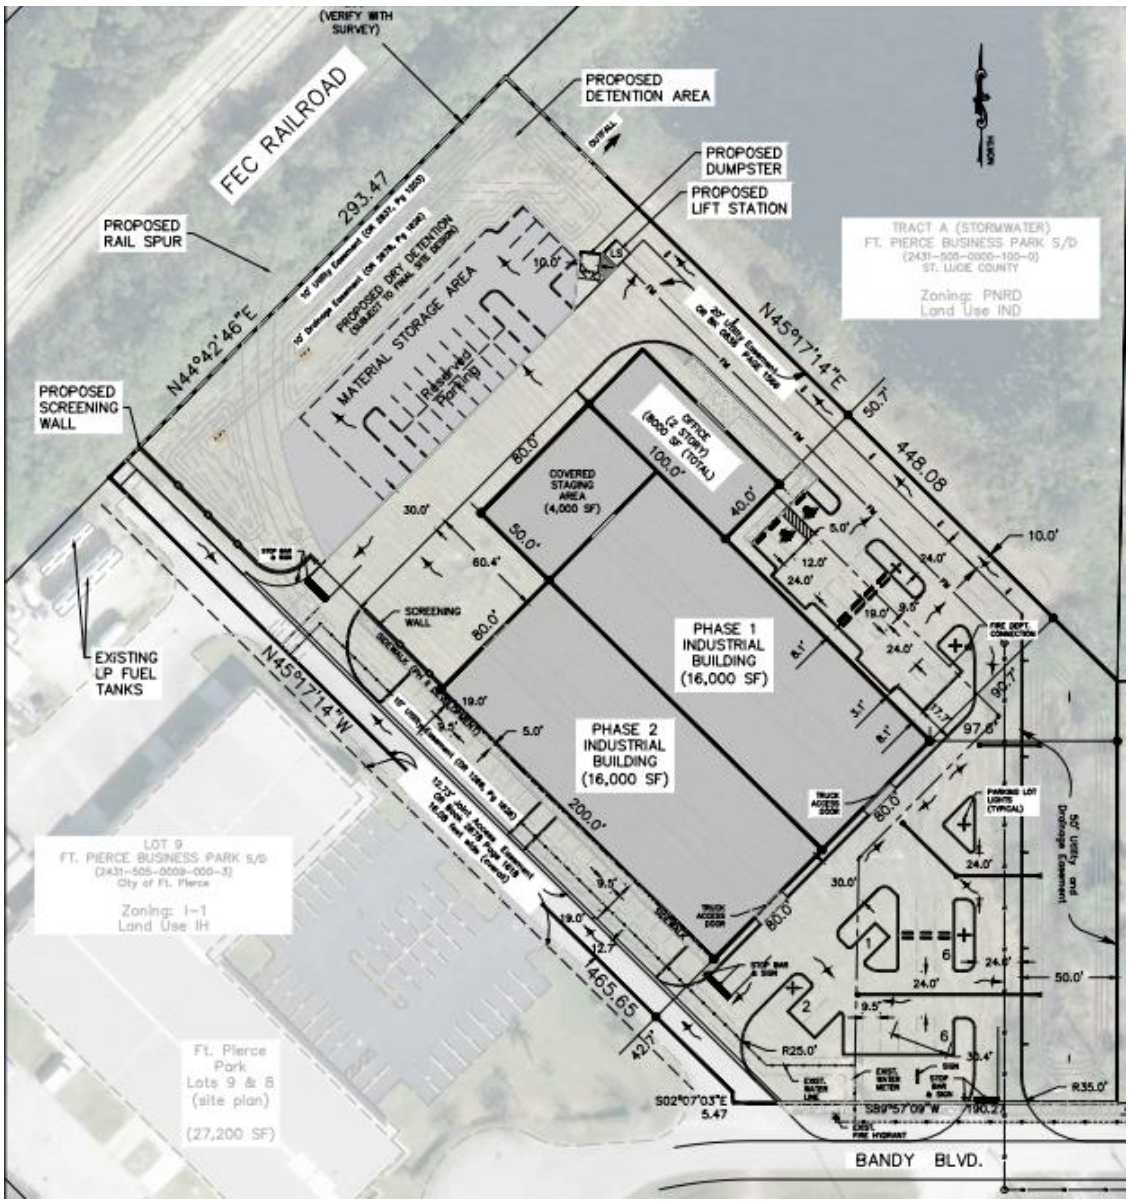

(3) The amendment will promote and protect the public health, safety and general welfare.

The proposed amendment is consistent with the Goals, Objectives, and Policies of the City's Comprehensive Plan and is consistent with the concurrent request to amend the FLU designation of the parcel. Furthermore, the amendment does not appear to have an adverse effect on the ability of the City to satisfy land and water use needs, meet transportation demands, and provide community facilities and services. The presented amendment promotes and protects the public health, safety and

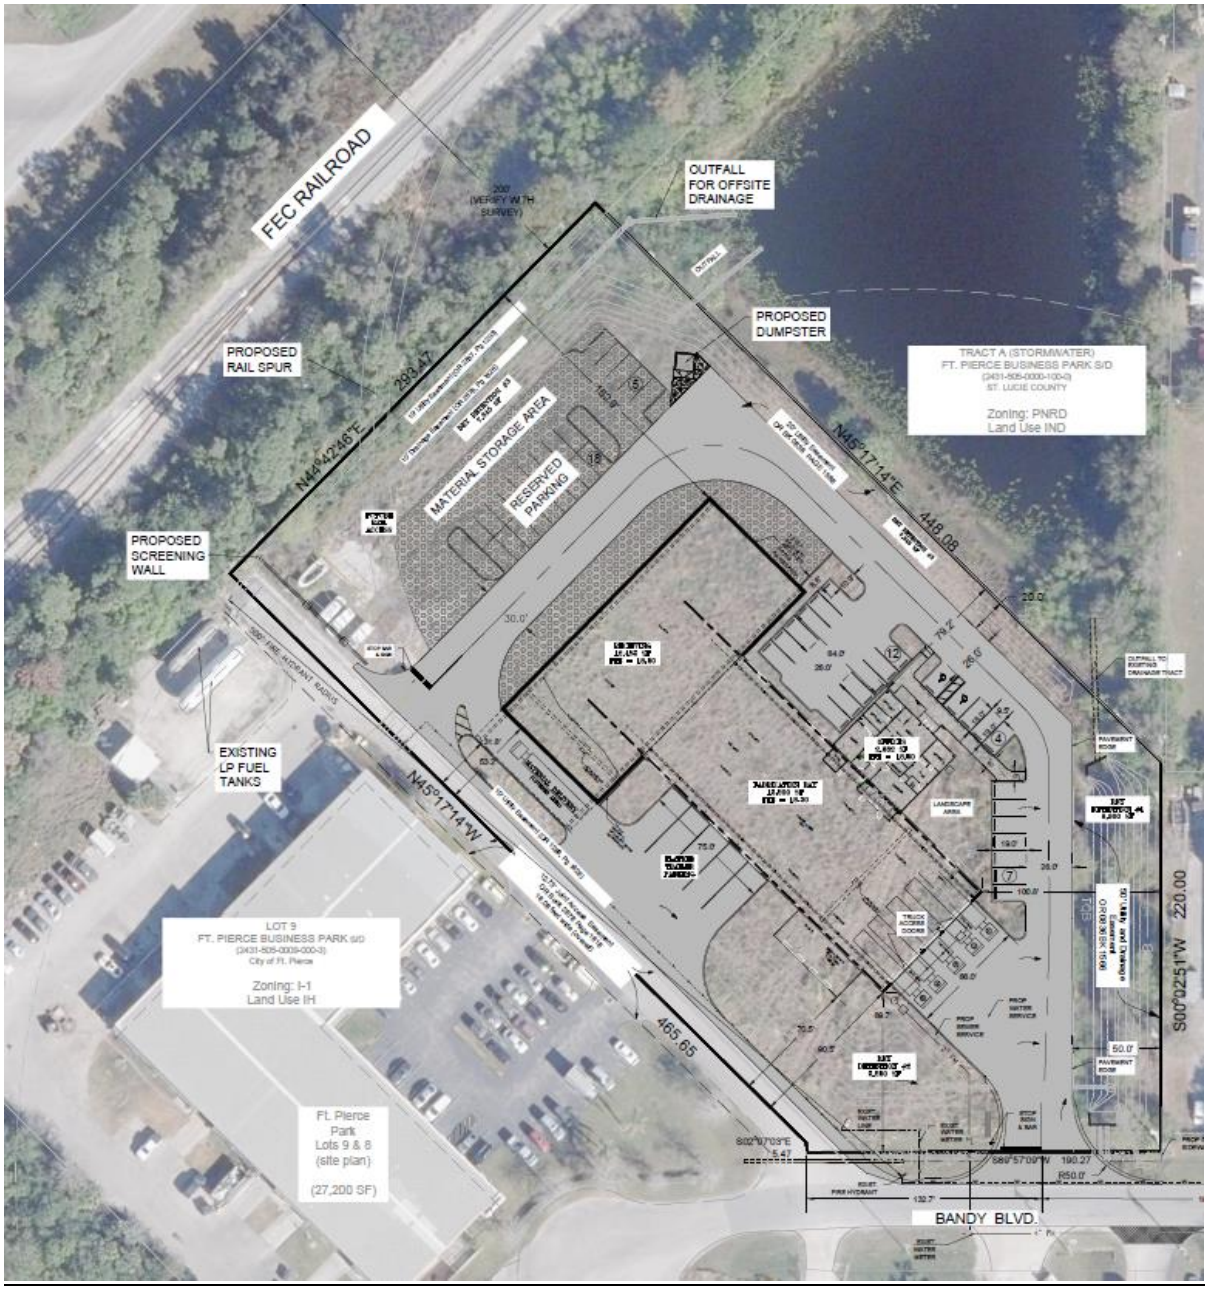

general welfare through the increased variety and access to neighborhood goods and services while ensuring minimal impacts to neighboring residential districts.

Development Review (Site Plan)

The project is proposed on the approximately 3.565 acres of land in the Fort Pierce Industrial Park, consisting of one (1) parcel of land located at or near 4280 Bandy Boulevard in Fort Pierce, FL. The site plan consists of an approximately 32,000 square foot Manufacturing Facility with 2,382-sf of office space, a 12,475-sf receiving area, and a 15,200-sf fabrication bay. City of Fort Pierce Code Section 125-315 requires 1 parking space for each 1,000 square feet of gross floor area, the applicant is only providing forty-six (46) parking spaces with two (2) of those spaces being designated as handicap.

Original Site Plan

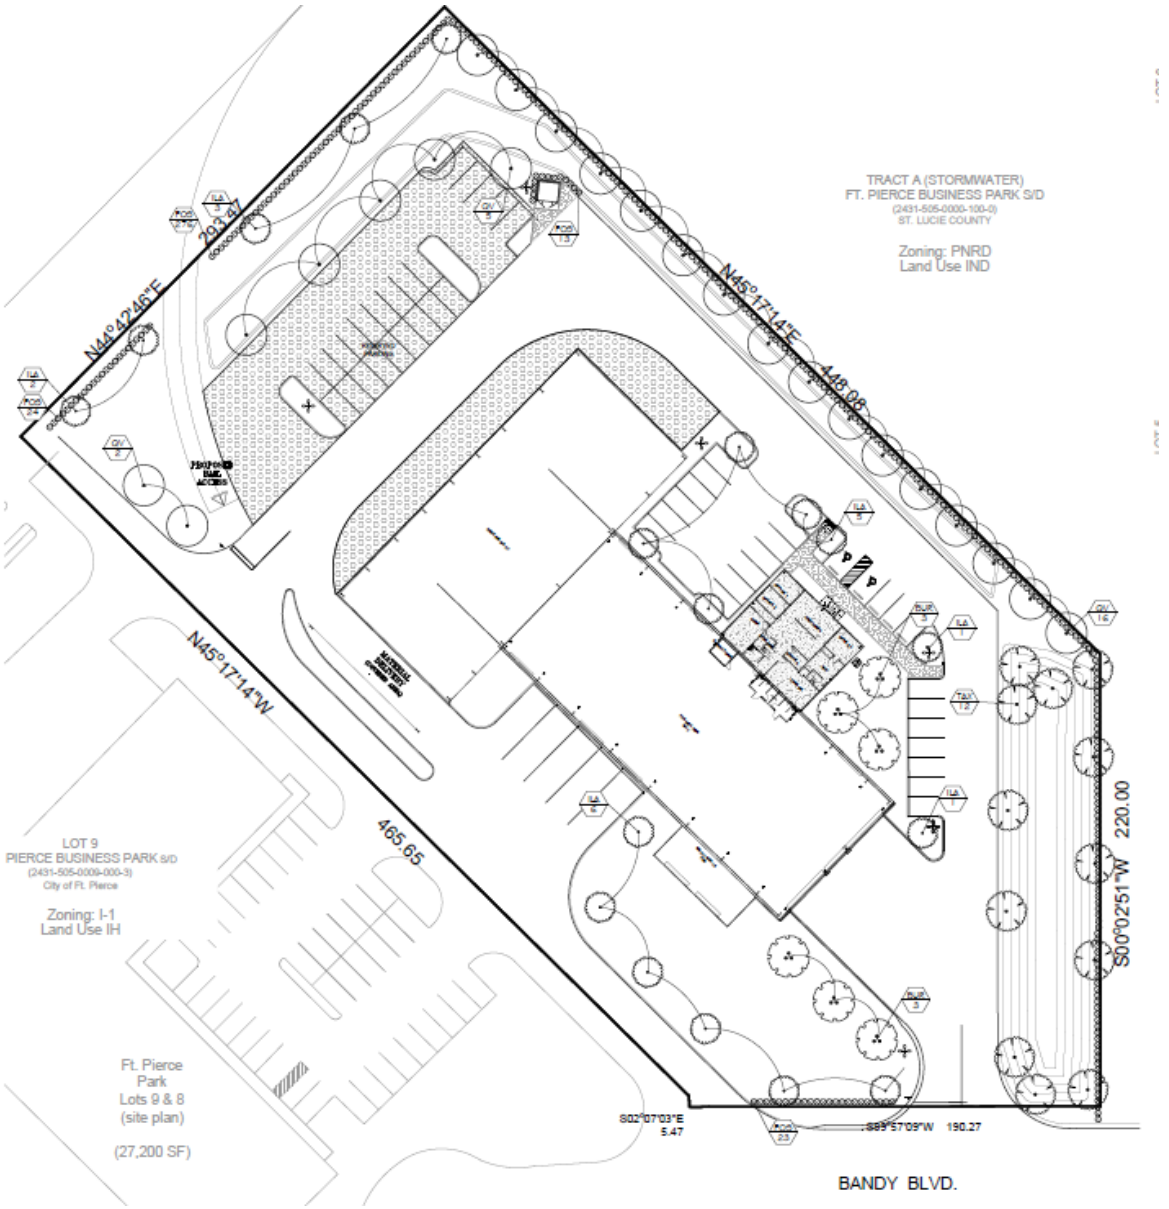

Proposed Site Plan

Development Review (Landscaping)

The plant list that the applicant is proposing consists of a total of 59 trees and 336 shrubs. The applicant is also proposing to install irrigation. The plans will involve the following:

- Trees to be planted are (6) Gumbo Limbo, (16) Eagleston Holly, (23) Live Oak, and (12) Bald Cypress.
- Shrubs proposed for the site include (336) Florida Privet.
- Ground Covers proposed for the site include Argentine Bahia Sod.
- New Irrigation will be installed.

Landscape Plan

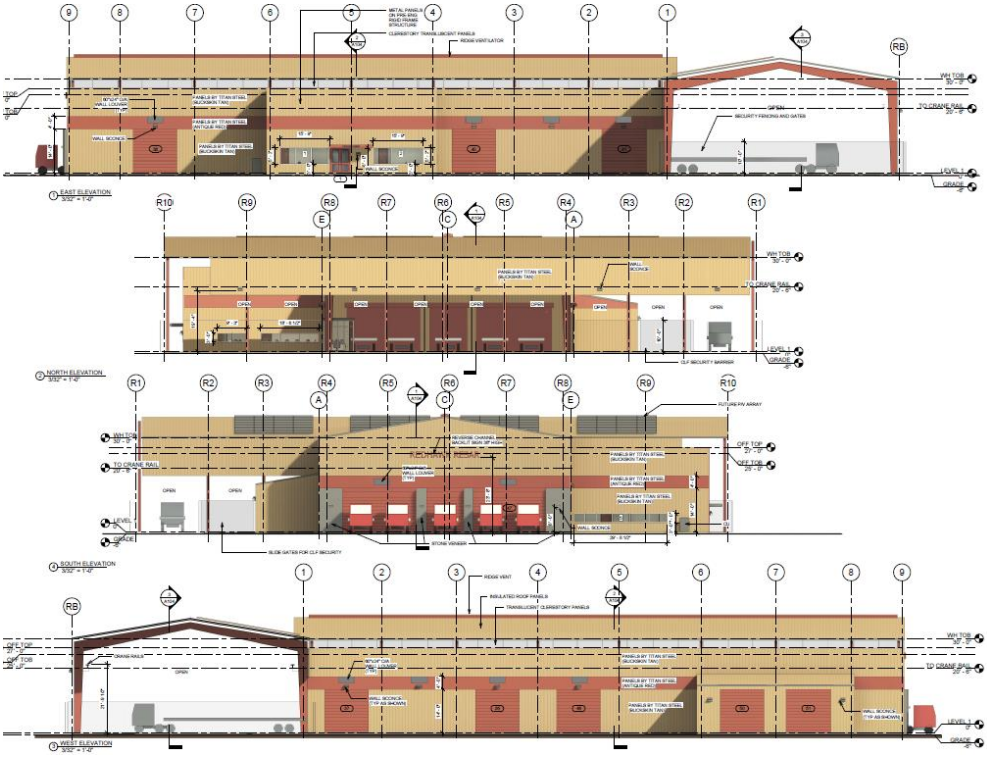

Design Review (Architecture)

The site is surrounded by light and heavy industrial uses. The industrial corridor reflects older and newer structures of varying architectural styles developed over the past several years. The subject site plan architecture will subsequently have a neutral design to accommodate their co-habitation.

The building design will utilize natural oolitic stone, bright earthy colors, and decorative metal venting to blend with the existing site. Integrating eco-friendly aspects such as solar panels, natural cooling systems and on-site nature preservation areas.

The following design elements have been integrated into the project to address the site environment, function as a working building, and give curb appeal from the street as well as the rail line.

- **Local trees and additional flora for landscaping**
- **Decorative stone walls on both industrial and office buildings**
- **Modern ventilation panels for passive cooling**
- **Solar Panels**
- **Fence with columns along street sides**
- **Clearstory windows for natural/diffused lighting**
- **Gopher Tortoise Preservation area to maintain existing fauna on site**
- **Rail access to cut down on street traffic and truck emissions**
- **Earth tone accent colors to blend with natural surrounding**
- **Fountain for retention pond aeration and appearance**
- **Industrial Style building to match, but enhance surrounding area**

Technical Review Committee

All affected departments have reviewed the proposed Application for a Major Amendment to a Planned Development for consistency with the requirements of the City Code. Findings and comments from review by affected departments, and the corresponding responses and plan amendments by the applicant are provided for consideration.

Planning Board Recommendation

The Planning Board, at their November 14th, 2022 meeting, voted unanimously to recommend Approval of the request.

Staff Recommendation – Major Amendment to a Planned Development

The requested Application for a Major Amendment to a Planned Development meets the criteria specified in Sections 125-136 and 125-212 of the City Code, the Comprehensive Plan, and does not adversely affect the public health, safety, convenience, and general welfare; Therefore, Staff recommends **APPROVAL** to the City Commission with the following condition:

1. A completion certification by a landscape architect, cost estimate and landscape bond pursuant to City Code 123-6 shall be required before the Final Certificate of Occupancy is approved for the site.

PROJECT: Redhawk Rebar – Bandy Boulevard

REF: TRC App. #

TO: Vennis Gilmore

FROM: David Hays

The following comments are offered by SLC PW - Engineering:

1. Bandy Boulevard is an existing paved roadway with roadside swales and in the County maintenance program. No additional right-of-way is requested at this time.
2. For sites with frequent truck accessing, the minimum radius of return for the driveway is 50'.
3. Our records indicate the SWMS is maintained by the association.
4. The FM shall be directional drill under the roadway or repairs shall be per county PW standards. Forht FM extension and installation within the County ROW, please provide an application to Trevor Workman in the Engineering Division.
5. A driveway permit is required for the access.
6. For discussion regarding these comments and response, please contact me at 772-462-1491, haysd@stlucieco.org.

TECHNICAL REVIEW PROJECT # 22-41100002
Major Amendment to PD Site Plan – Red Hawk Rebar

Comments

FPUA W/WW Engineering: Concept approved as noted:

Water and Wastewater (via forcemain) services are currently available to serve the subject property. To connect to these services please submit the Utility Plan (2 complete sets) along with a completed plan review and commercial service application to FPUA's Water and Wastewater Engineering department, at 1701 S 37th Street Fort Pierce Florida 34947. Please see the Developer's Responsibilities on the FPUA website for important steps to guide through the entire process including utility details, specifications and permit applications. For questions please contact Shane Ostrander sostrander@FPUA.com or 772-466-1600 ext 3468

Note:
-As shown the site plan there is an existing 8" water main along the northern right of way of Bandy Blvd.
-A 12" force main is located in the eastern right of way of Selvitz Road.

FPUA Electric & Gas Engineering: Electric and Gas Engineering Department have reviewed the application – TRC Red Hawk Rebar – 4280 Bandy Blvd. Approved.

Electric service is available to the site (from the north side of the property). Please provide electric load information and AutoCAD drawing. Customer will be responsible for all transformer pads, conduits and secondary conductors. For more information and project coordination, please contact Sal Scimeca.

COMMENT FORM

Meeting Date: 8.18.22
Property Address: Major Amendment to Planned Development Site Plan – Red Hawk Rebar - 4280 Bandy Boulevard

Please be advised that the project may trigger the requirements indicated below:

☑ 1. Building Official or his representative has no comment at the time of this meeting, but reserves submission of comments upon completion of the official plan review.

☐ 2. Pre-construction meeting with the City's Building Department is requested.

☑ 3. Any construction will need to meet the requirements of the Florida Building Code 7th Edition.

☐ 4. Means of egress is required.

☐ 5. Means of ingress is required.

☐ 6. Must meet the following Accessibility requirements:

- ☐ Accessible route
- ☐ Handicapped parking spaces
- ☐ Means of egress

☐ 7. Change of Use required

- ☐ to include a signed and sealed Life Safety Plan
- ☐ to include a signed and sealed detailed comprehensive building plan.

☐ 8. Property exists in Special Flood Hazard Area. All Federal and State requirements shall be addressed.

☐ 9. Flood Development Permit required.

☑ 10. Building Permit required.

☑ 11. Signed and sealed construction drawings required.

☑ 12. Will need to meet the Fire Code.

☐ 13. Sprinkler system is required.

☐ 14. Smoke alarm system is required.

CITY OF FORT PIERCE

PLANNING BOARD

Planning Board Minutes

OF THE REGULAR MEETING OF THE FORT PIERCE CITY PLANNING BOARD HELD ON MONDAY, NOVEMBER 14, 2022, IN FORT PIERCE CITY HALL, COMMISSION CHAMBERS, 100 NORTH US HIGHWAY 1, FORT PIERCE, FLORIDA.

1. CALL TO ORDER

2. PLEDGE OF ALLEGIANCE

3. ROLL CALL

Present: Alexander Edwards; Nichelle Clemons; Bob Burdge; Anton Kreisl; Frank Creyaufmiller, Chairman

Absent: Harold Albury

Staff Present: Kev Freeman, Planning Director
Ryan Altizer, Planner
Alicia Rosenthal, Planning and Development Organizer

4. CONSIDERATION OF ABSENCES

Mr. Albury was excused from the meeting.

5. APPROVAL OF MINUTES

a. Minutes from the October 10, 2022 meeting

Motion was made by Bob Burdge, and seconded by Nichelle Clemons to approve the minutes from the October 10, 2022 meeting.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

6. **HEARING OF THE LOCAL PLANNING AGENCY**

a. **Future Land Use Map Amendment - Viva West - 3037 South Jenkins Road**

Mr. Altizer gave an overview of the application and stated the current Future Land Use is GC - General Commercial and the proposed Future Land Use is RM - Medium Density Residential. Chairman Creyaufmiller inquired if any meetings have been held with the Briargate neighborhood. Mr. Kreisl asked if there were any restrictions on land use of how close to the interstate the residences can be set. Mr. Freeman stated he is not aware of a community meeting with the Briargate neighborhood or of any additional restrictions on land use besides the setbacks. Mr. Freeman noted the Future Land Use change will reduce the intensity of the property.

Matthew Scott, Applicant Representative from Dunay, Miskel & Blackman Law Firm, stated he personally met with the Briargate neighborhood and the main concerns were buffering, traffic and drainage. Mr. Scott said another meeting will be held with the neighborhood at the site plan phase. Mr. Scott showed gave a brief presentation showing the variety of entry level cottage style homes and townhomes, along with the various amenities.

Steven Cooper, Engineer, spoke about the drainage, and he explained that Viva West will reduce the discharges in Briargate neighborhood, and the water not held on site will go into the canal controlled by North St. Lucie Water Control District.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission for the Future Land Use change located at 3037 S. Jenkins Road from GC, General Commercial to RM, Medium Density Residential.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

b. **Future Land Use Map Amendment - Allegra at Fort Pierce - Parcel IDs: 2419-111-0002-000-7 and 2419-113-0001-000-6**

Mr. Altizer gave an overview of the application and answered questions from the Board. He explained the request is to change the Future Land Use Map Amendment for two (2) parcels from GC, General Commercial to RM, Medium Density Residential. He highlighted the decrease in density for both commercial and residential land use.

Lee Dobbins, Applicant Representative, from Dean Mead Law Firm, explained that the northern parcel was recently annexed into the city and the change is for two parcels. Mr. Dobbins stated there has been two community meetings with the neighborhood and the concerns were with drainage, traffic and how the development fits in with the neighborhood. Mr Dobbins noted that the use will be less intense with less traffic and the neighborhood concerns can be addressed at the site plan stage. Mr. Dobbins answered questions from the Board on the number of rental units, ingress and egress off of 41st Street, and market research showing development is appropriate for the area.

Deborah Fournier, resident, showed pictures of her neighborhood flooding and, she wants a solution to the drainage issues.

Mr. Freeman stated that it is difficult for staff to guarantee a solution at this point, but staff can ensure that all local codes will have to be met for whatever is designed.

Patricia Ruby, resident, spoke against the application, highlighting traffic issues, flooding, crime and the main entrance needed to be located on Okeechobee Road instead of 41st Street.

Gina Grant, resident, has concerns with flooding and traffic. She suggested a traffic light be placed at 41st Street and Okeechobee Road.

Mr. Dobbins stated the intersection and turn lanes will change at the site plan stage and the change in the Future Land Use and Zoning will lower the possible traffic count. He highlighted that the development will capture their own drainage on site, and it will go to the outfall canal.

Motion was made by Nichelle Clemons, and seconded by Alexander Edwards to forward a recommendation of approval to the City Commission for the Future Land Use Map Amendment, change for two (2) parcels 2419-111-0002-000-7 and 2419-113-0001-000-6 from GC, General Commercial to RM, Medium Density Residential.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

7. NEW BUSINESS

a. Annexation - 7-Brew Drive-Thru - 2605 Kerr Street

Mr. Altizer gave an overview of the annexation. He stated the current Future Land Use is COM, Commercial (St. Lucie County) and the proposed Future Land Use is GC, General Commercial. The current zoning is CO, Commercial Office (St. Lucie County) and the proposed zoning is C-3, General Commercial Zone.

Chris Ossa, Engineer of Record from Kimley Horn & Associates, stated the client has no plans of keeping the billboard located on the property.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission for the annexation of 2605 Kerr Street.

AYE: Nichelle Clemons, Bob Burdge, Anton Kreisl, Alexander Edwards, Chairman Frank Creyaufmiller

Passed

b. Zoning Text Amendment - Edgartown Settlement Zoning District

This item was presented after item 7j.

Mr. Freeman stated he recommended this item going to the Historic Preservation Board for discussion purposes and then come back to the Planning Board for review.

Motion was made by Bob Burdge, and seconded by Nichelle Clemons to forward the Edgartown Settlement Zoning District Text Amendment to the Historic Preservation Board meeting for discussion and then come back to the Planning Board for review.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

c. **Zoning Text Amendment - Code of Ordinances, Chapter 121 - Subdivisions Sec. 121-8, 121-9 and 121-10. Plat specification**

This item was presented as the last item under New Business.

Chairman Creyaufmiller spoke to Mr. Freeman before the meeting to suggest that the amended Preliminary Plat process go to the Planning Board after the Technical Review instead of the City Commission. Chairman Creyaufmiller said the Planning Board function is to be an overview to the Planning department and the amendment is to streamline and speed up the process so when the final design work is done, the City Commission can review the final Plat

Mr. Freeman stated the text amendment was based on a recommendation from 2016 and recently a Preliminary Plat came in that did not meet the existing city requirements for a Preliminary Plat. He explained that a preliminary plat is preliminary to the final plat and the city seemed to have it backwards. Most of the details were provided at Preliminary and the Final Plat was almost an overview of the Preliminary Plat. Mr. Freeman said the recommendation is to have the Preliminary Plat meet the basic requirements to enable developments to move to building permit before final Certificate of Occupancy. The Final Plat will get everything in order for the final Certificate of Occupancy. Mr. Freeman highlighted the move is to streamline the Preliminary Plat Process by allowing the Preliminary Plat Process to be optional and require the Final Plat meet state statute requirements.

Motion was made by Bob Burdge, and seconded by Anton Kreisl to amend the proposed text amendment to include the Planning Board in exchange for the City Commission in the Preliminary Plat process.

AYE: Anton Kreisl, Alexander Edwards, Nichelle Clemons, Bob Burdge, Chairman Frank Creyaufmiller

Passed

d. **Zoning Atlas Map Amendment - Viva West - 3037 South Jenkins Road**

Mr. Altizer gave an overview of the application, and he stated the current zoning on the approximately 27.89 acre parcel is C-3, General Commercial Zone and the proposed zoning is R-4, Medium Density Residential Zone.

Matthew Scott, Applicant Representative, from the Dunay, Miskel, & Blackman Law Firm, made himself available for questions from the Board.

Motion was made by Nichelle Clemons, and seconded by Alexander Edwards to forward a recommendation of approval to the City Commission for the Zoning Atlas Map Amendment from C-3, General Commercial Zone to R-4, Medium Density Residential Zone for 3037 S. Jenkins Road.

AYE: Anton Kreisl, Alexander Edwards, Nichelle Clemons, Bob Burdge, Chairman Frank Creyaufmiller

Passed

e. **Zoning Atlas Map Amendment - Allegra at Fort Pierce - Parcel IDs: 2419-111-0002-000-7 and 2419-113-0001-000-6**

Mr. Altizer gave an overview of the application and stated the request is to change the two (2) parcels from C-3, General Commercial zone to R-4, Medium Density Residential zone.

Mr. Dobbins made himself available for questions from the Board.

Motion was made by Alexander Edwards, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission for the Zoning Map Amendment change of two (2) parcels 2419-111-0002-000-7 and 2419-113-0001-000-6 from C-3, General Commercial to R-4, Medium Density Residential.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

f. **Zoning Atlas Map Amendment - 805 Office Plaza - 805 Virginia Avenue**

Mr. Altizer gave an overview of the application. He said the request is for a Zoning Map Amendment, change for 805 Virginia Avenue from R-5, High Density Residential zoning, to C-3, General Commercial zoning.

Mr. Burdge asked the current uses in the strip center and if C-1 zoning would buffer the neighborhood better with C-3 zoning.

Brad Currie, Applicant Representative from Engineering, Design and Construction, stated the applicant has had to ask for Conditional Uses on the property since it was zoned R-5 and most of the zoning is the area is C-3.

Mr. Kreisl asked to see more information on the current uses to confirm that the current uses are consistent with the C-1 zoning and to assure that would not pose any issues with the applicant. He suggested the item be tabled.

Mr. Freeman said the item can continue to the next Planning Board meeting with staff's analysis based on the Planning Board's discussion points. Mr. Freeman noted considering spot zoning and the uses.

Mr. Currie said that Neighborhood Commercial use is not allowed in C-1 and that could become a problem, but there is not a big difference between C-1 and C-3 zoning. He stated that his client would like to get the most intense zoning as possible.

Mr. Burdge mentioned the tax benefit of C-1 over C-3, due to a higher appraisal value of C-3 zoning.

Motion was made by Bob Burdge, and seconded by Anton Kreisl to table the application for further investigation from staff regarding potential C-1 zoning.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

g. **Major Amendment to Planned Development - Red Hawk Rebar - 4280 Bandy Boulevard**

Mr. Altizer gave an overview of the application and provided brief history on the project. The City Commission of the City of Fort Pierce approved the Zoning Atlas Map Amendment to Planned Development along with an approved development plan on September 4, 2018. The original proposed development plan consisted of a 40,000 square foot manufacturing facility and the new proposal consists of a smaller footprint of approximately 32,000 square feet.

Dennis Murphy, Applicant Representative from Culpepper and Terpening, stated the application is the same except the building footprint has changed.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission with the following condition:

1. A completion certification by a landscape architect, cost estimate and landscape bond pursuant to City Code 123-6 shall be required before the Final Certificate of Occupancy is approved for the site.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

h. **Conditional Use - Brighter Care Adult Daycare - 415 Avenue A**

Mr. Altizer gave an overview of the application. He stated the daycare will be 4,892 square feet inside the Kraaz & Kraaz Building and the tentative capacity is approximately 10 patients.

Mr. Burdge asked if there will be the availability for a horseshoe drop off point for convenience and security.

Shantell Walkine, Applicant, stated she has been in the medical field for 40 years and, she wants to provide entertainment to elderly patients in Fort Pierce. Ms. Walkine said there is currently not covered parking at the location and there is the ability to utilize the horseshoe drop off point.

Motion was made by Bob Burdge, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

i. **Conditional Use - Longman Garage & Guest House - 1506 Thumb Point Drive**

Mr. Altizer gave an overview of the application. He stated the garage will be 1,974 square feet and the 2nd floor living (Guest House) will be an additional 1,974 square feet.

Mr. Freeman stated he received two objection e-mails from residences that are adjacent and close to the property. He stated they had concerns with the architecture, setbacks, appropriateness of the design and the location. Mr. Freeman noted that the state statute limits the Planning Board and City Commission on architectural developments on single family homes. He mentioned that there is an exception for property located in the CRA. He noted that the Conditional Use application does not require architectural guidelines and the South Beach Overlay has architectural elements for multifamily and non-residential development. Mr. Freeman stated that the Planning Board has no authority to condition the architecture but, they can limit the height.

Mr. Burdge asked if the current zoning allows for two homes on the parcel and if the guess house incorporates a kitchen. Mr. Kreisl asked the total square footage and if the current plan has kitchen facilities.

Mr. Freeman stated an additional dwelling unit cannot be granted on the property.

Board discussion ensued on the height of the building, the South Beach overlay height restrictions, and why the extra height is needed.

David Hicks, resident, spoke against the application. He stated the garage is too close to the property line, creates privacy issues and does not fit in the neighborhood with mostly one-story homes. Mr. Hicks showed the Board pictures of the survey, floor plan and what the garage would look like next to the single family home.

Sally Griffith, resident, spoke against the application. Mr. Griffith said she agrees with everything Mr. Hicks said, and she added the garage is too big, too commercial looking and does not fit in the neighborhood.

The applicant did not attend the meeting.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to disapprove the Conditional Use for the height of the garage and guest house because there is no compelling reason to allow the height restriction.

AYE: Nichelle Clemons, Bob Burdge, Anton Kreisl, Alexander Edwards, Chairman Frank Creyaufmiller

Passed

j. **Site Plan, Design Review and Conditional Use - Ballarena Multi-Family - 4701 Regina Drive**

Mr. Altizer gave an overview of the application. He stated the development will be a 114-Unit multifamily innovative residential development with six (6) townhomes and three (3) conventional apartment buildings. He noted the application requires approval of the Conditional Use for the additional maximum density bonus of two (2) units per acre. The density bonus qualifies because the landscaping plan provides for effective use, the site plan provides for creative placement of buildings and other facilities and the design elevations

provide for imaginative design features.

Dan Sorrow, Applicant Representative from Cotleur and Hearing, provided the Board with a detailed presentation. He stated the property is just under 10 acres with the site ingress and egress off of Weatherbee Road. Mr. Sorrow noted the various amenities being a tot lot, picnic and BBQ area, pool, gym, clubhouse, dog park and cultivating garden. He highlighted the up lighting on the Royal Palm trees along Weatherbee Road, the enhanced buffers along the south and east side of the property, on-street parallel parking and a sidewalk along Weatherbee Road and Regina Drive. Mr. Sorrow stated there will be 112 to 114 rental units all concrete block with impact glass. He said the development exceeded the landscape code by 13%.

Mr. Sorrow answered Chairman Creyaufmiller's question regarding Poinsettia Avenue. He stated the property owner owns one-half of Poinsettia Avenue, and it is part of the plan that will be dedicated for future right-of-way when the county wants to expand Poinsettia Avenue. Mr. Sorrow answered questions from the Board on school bus access and drop off and vehicle charging stations on the property,

Motion was made by Bob Burdge, and seconded by Anton Kreisl to forward a recommendation of approval for the Site Plan, Design Review and Conditional Use to the City Commission with the following four (4) conditions:

1. Prior to the issuance of Building Permit approval, provide colored elevations to demonstrate that the proposed building conforms to the specifications of City Code 125-314, Design Review.
2. Incorporate littoral zone plantings around the lake/retention pond per City Code Section 123-6.
3. A completion certification by a landscape architect, cost estimate and landscape bond pursuant to City Code 123-6 shall be required before the Final Certificate of Occupancy is approved for the site.
4. Prior to the issuance of any site clearing permits, the applicant shall provide a Tree Mitigation Survey and coordinate with the City of Ft. Pierce Arborist for the required mitigation of the City regulated trees proposed to be removed as a result of this site’s development/construction activity.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

8. **COMMENTS FROM THE PUBLIC**

Lainey Williams, Edgartown Representative from Jones Foster Law Firm, stated some modifications to the Edgartown Text Amendment would be best for the homeowners and residents. She stated that certain uses are permitted uses and not conditional uses and, they do not agree with the amplified sound in the zoning district. Ms. Williams said the DBA level is typical of a commercial area and suggested sound limiters be required on the property. She also noted the violations are not strong enough for the sound level.

Holly Theuns, resident and Vice-Chair of the Historic Preservation Board, said the city is lucky to have the Edgartown gem in downtown. She stated that she purchased and remodeled a 1905 house in Edgartown when the 2012 Edgartown ordinance was in place, which protected the residents of Edgartown against what is being experienced now.

9. DIRECTOR'S REPORT

There was no director's report.

10. BOARD COMMENTS

Chairman Creyaufmiller asked for Planning Board hard copy packets due to the difficulty in reviewing the drawings.

DESIGN INTENT NARRATIVE

March 27, 2018

Goals and Objectives:

> *Design a pre-fabricated metal Light-Industrial Building with attached administrative offices, storage areas and rail access. Using natural oolitic stone, bright earthy colors, and decorative metal venting to blend with the existing site. Integrating eco-friendly aspects such as solar panels, natural cooling systems and on site nature preservation areas.*

The following design elements have been integrated into the project to address the site environment, function as a working building and give curb appeal from the street as well as the rail line.

- Local trees and additional flora for landscaping
- Decorative stone walls on both industrial and office buildings
- Modern ventilation panels for passive cooling
- Solar Panels
- Fence with columns along street sides
- Clearstory windows for natural/diffused lighting
- Gopher Tortoise Preservation area to maintain existing fauna on site
- Rail access to cut down on street traffic and truck emissions
- Earth tone accent colors to blend with natural surrounding
- Fountain for retention pond aeration and appearance
- Industrial Style building to match, but enhance surrounding area

Sincerely,
David Scott Trautman,

Architect

Warranty Deed

This Warranty Deed made this 19th day of **July, 2018** between **A&D INVESTMENTS OF THE TREASURE COAST LLC, a Florida limited liability company** whose post office address is **656 NW BUCK HENDRY WAY, Stuart, FL 34994**, grantor, and **Red Hawk Rebar LLC., a Florida limited liability company** whose post office address is **255 Alhambra Circle, Suite 500, Coral Gables, FL 33134**, grantee:

(Whenever used herein the terms "grantor" and "grantee" include all the parties to this instrument and the heirs, legal representatives, and assigns of individuals, and the successors and assigns of corporations, trusts and trustees)

Witnesseth, that said grantor, for and in consideration of the sum of TEN AND NO/100 DOLLARS ($10.00) and other good and valuable considerations to said grantor in hand paid by said grantee, the receipt whereof is hereby acknowledged, has granted, bargained, and sold to the said grantee, and grantee's heirs and assigns forever, the following described land, situate, lying and being in **Saint Lucie County, Florida** to-wit:

Lot 8, FORT PIERCE BUSINESS PARK, according to the map or plat thereof, as recorded in Plat Book 27, Page(s) 6, 6A through 6B, of the Public Records of St. Lucie County, Florida.

Parcel Identification Number: 2431-505-0008-0006

Subject to taxes for 2018 and subsequent years; covenants, conditions, restrictions, easements, reservations and limitations of record, if any.

Together with all the tenements, hereditaments and appurtenances thereto belonging or in anywise appertaining.

To Have and to Hold, the same in fee simple forever.

And the grantor hereby covenants with said grantee that the grantor is lawfully seized of said land in fee simple; that the grantor has good right and lawful authority to sell and convey said land; that the grantor hereby fully warrants the title to said land and will defend the same against the lawful claims of all persons whomsoever; and that said land is free of all encumbrances, except taxes accruing subsequent to **December 31, 2017**.

In Witness Whereof, grantor has hereunto set grantor's hand and seal the day and year first above written.

Signed, sealed and delivered in our presence:

September 1, 2022

Mr. Jack Andrews, PE, City Engineer
City of Ft. Pierce Public Works Department
100 North US #1
Ft. Pierce, Florida 34950

Subject: Red Hawk Rebar (Ft. Pierce) – Planned Development Site Plan/ Response to Comments

Dear Mr. Andrews:

In response to your comments to the Ft. Pierce TRC in regard to the above referenced site plan project, please allow us this opportunity to address each of the items raised in your review:

****

ENGINEERING COMMENTS:

1. **Provide the dimensions of the site's western driveway entrance and drive aisle.**

Additional site dimensioning has been provided on the project site plan.

2. **The previous approved site plan provided a 6-foot concrete sidewalk within the proposed Brandy Boulevard right-of-way extending the width of the applicant's property directly adjacent, however this amendment does not. The site plan shall be revised to provide at minimum a 5-foot sidewalk.**

A 5 foot wide sidewalk has been provided to the project site plan. This walk remains a part of our site construction plan documents that will be submitted to the City following our site plan approval actions.

3. **Provide the appropriate concrete wheel stops at parking spaces along with concrete curbing, if required, to comply with the requirements, set forth in the City of Fort Pierce Code of Ordinance Section 125-315.**

Concrete wheel stops have been provided at all locations except where a parking stall adjoins a sidewalk curb. All parking areas are bordered by a Type 'D', or equivalent, curbing, except as may be noted in certain particular locations the site construction plans.

4. **The parking spaces adjacent to dry detention area #1 denotes 17-feet. All parking spaces shall be 19-feet deep as per City of Fort Pierce Code or Ordinance Section 123-315.**

All parking stalls have a minimum depth of 19 feet, except for those parking stalls adjacent to the front office sidewalk. Those are 18 feet in depth (one foot overhang into the sidewalk.

5. **What are the proposed sizes of the dry detention areas?**

Refer to the project site plan. Added notations have been made to the dry detention areas.

6. **Dry detention area #1 is shown within the limits of a proposed 4" water main, relocate either the dry detention area or the 4" water main.**

All utility locations have been adjusted so not to encroach into any dry detention facilities.

7. Dry detention area #2 is shown within the limits of a proposed 6" water main and 4" force main, relocate either the dry detention area or 6" water main and 4" force main.

All utility locations have been adjusted so not to encroach into any dry detention facilities.

8. How will the stormwater run-off at the driveway entrances and edge of property be managed?

All waters on site will be directed to the perimeter dry detention areas that will eventually flow into the overall subdivisions stormwater ponds, lying north/northeast of our project site.

9. No landscaping shall be allowed within the dry detention areas.

Review of the City Codes on this general topic has not identified where there is a specific prohibition on providing/integrating landscaping into, or in close proximity with, any proposed dry detention areas. It is noted that certain vegetation types planted within proximity to a retention/pretreatment area have been shown to have a positive impact on the removal of excess nutrients from the site's stormwaters. As part of our efforts a nutrient reduction, within the dry detention areas shown on the project plans, including side slopes, landscaping is proposed to be grass only, except that at the top of the retention bank areas, final sculpting of these areas will be done so that the placement of the indicated Bald Cypress and Live Oak trees, which are required to meet the City landscape codes, can be provided for and not impede either the function of carrying capacity of these areas. The planting of these required trees along the top of bank will not impeded the flow of waters through these dry detention areas. Maintenance of these on-site areas will be the responsibility of the property owners, unless otherwise addressed through the prior platting dedications of the Ft. Pierce Business Park Subdivision.

10. The Site Drainage note shall be updated to reference "Chapters 32 and 121 and the Standard Specifications Adopted by the City Commission on February 3, 1973, as Amended".

Comments acknowledged.

11. The General Notes shall be updated to

a. "A project must comply Sections 119, 123, and 125 of the City of Fort Pierce Code of Ordinances".

b. "Parking space striping shall conform to Section 125-315".

ADVISORY COMMENTS:

1. The Environmental Assessment submitted identifies the presence of gopher tortoise burrows and possible other threatened species, all Federal and State local permit and approvals shall be obtained prior to DPCR approval.

Comments acknowledged.

2. The drainage plan was reviewed conceptually and will be reviewed in depth at the time of DPCR approval.

Comments acknowledged.

3. The Boundary and Topography survey submitted was a photocopy and dated April 2019. An original signed and sealed dated within one year of the DPCR application shall be required.

Comments acknowledged. An updated site survey will be provided under separate cover.

****

We trust that these responses are satisfactory to your review and if there are any additional questions, please do not hesitate to let us know.

Sincerely

Dennis J. Murphy

Subject: Red Hawk Rebar (Ft. Pierce) – Planned Development Site Plan
Response to Comments

Dear Mr. Gilmore

In response to the comments provided to you from the Ft. Pierce Utility Authority (FPUA) in regard to the above referenced site plan project, please allow us this opportunity to address each of the items raised their your review. We have sent them your attention as the official clearing house for these site plan related matters:

****

TECHNICAL REVIEW PROJECT # 22-41100002
Major Amendment to PD Site Plan – Red Hawk Rebar
August 18, 2022

Comments

1) **FPUA W/WW Engineering:** Concept approved as noted:

Water and Wastewater (via forcemain) services are currently available to serve the subject property. To connect to these services please submit the Utility Plan (2 complete sets) along with a completed plan review and commercial service application to FPUA's Water and Wastewater Engineering department, at 1701 S 37th Street Fort Pierce Florida 34947. Please see the Developer's Responsibilities on the FPUA website for important steps to guide through the entire process including utility details, specifications and permit applications. For questions please contact Shane Ostrander sostrander@FPUA.com or 772-466-1600 ext 3468

Note:
-As shown the site plan there is an existing 8" water main along the northern right of way of Bandy Blvd.
-A 12" force main is located in the eastern right of way of Selvitz Road.

Site Plan Approval/ Comments acknowledged.

2) **FPUA ELECTRIC & GAS ENGINEERING:**
Electric and Gas Engineering Department have reviewed the application – TRC Red Hawk Rebar – 4280 Bandy Blvd. --- Approved.

Electric service is available to the site (from the north side of the property). Please provide electric load information and AutoCAD drawing. Customer will be responsible for all transformer pads, conduits and secondary conductors. For more information and project coordination, please contact Sal Scimeca.

Sal Scimeca
Engineering Technician II
Electric and Gas Engineering
1701 S. 37th Street, Fort Pierce, FL 34947
Office: (772)466-1600 Ext. 6957
sscimeca@fpua.com

Gas service is available to the site (from Selvitz Road). Please provide a copy of the gas riser diagram with the anticipated load (if developer is interested in natural gas service to the propose complex). For more information and incentive available, please contact Billy Dupre.

Billy Dupre
Business Development Representative Gas Operations
1701 S. 37th Street, Fort Pierce, FL 34947
Bdupre@fpua.com
Office: (772)-466-1600 Ext.4705

Utility easement will be required for all propose FPUA electric and gas facilities within the site (Located outside the existing utility easement areas).

Note: FPUA will make every effort to accommodate new developments and upgrades to existing services as much as possible with on-hand material, while maintaining a responsible maintenance stock. However, in most cases, the provision of service is entirely dependent on the lead times provided by equipment manufacturers. Certain key items could be unobtainable for over a year.

Please find attached a copy of the FPUA GIS map (Electric and Gas).

Site Plan Approval/ Comments acknowledged.

****

We trust that these responses are satisfactory to your review and if there are any additional questions, please do not hesitate to let us know.

Sincerely

DJ Murphy

September 1, 2022

Mr. David Hays, PE
St Lucie County Public Works Department
2300 Virginia Avenue
Ft. Pierce, Florida 34982

Subject: Red Hawk Rebar (Ft. Pierce) – Planned Development Site Plan

Dear Mr. Hays

In response to your comments to the Ft. Pierce TRC in regard to the above referenced site plan project, please allow us this opportunity to address each of the items raised in your review:

****

1. **Bandy Boulevard is an existing paved roadway with roadside swales and in the County maintenance program. No additional right-of-way is requested at this time.**

Comment acknowledged.

2. **For sites with frequent truck accessing, the minimum radius of return for the driveway is 50'.**

All entry drives have been modified so that they are a minimum of 50Ft entry radii.

3. **Our records indicate the SWMS is maintained by the association.**

The dedication pages for the Plat indicate that the drainage and utility easements have been dedicated to the public, and are arguably the maintenance responsibility of the public, not any private association. Is this the County's understanding of this matter as well, or do you have a different take on the matter? I have attached a copy of the recorded plat for the Ft. Pierce Business Park subdivision for your reference.

4. **The FM shall be directional drill under the roadway or repairs shall be per county PW standards. Forht (for the) FM extension and installation within the County ROW, please provide an application to Trevor Workman in the Engineering Division.**

Comment acknowledged,

5. **A driveway permit is required for the access.**

Comment acknowledged.

6. **For discussion regarding these comments and response, please contact me at 772-462- 1491, haysd@stlucieco.org.**

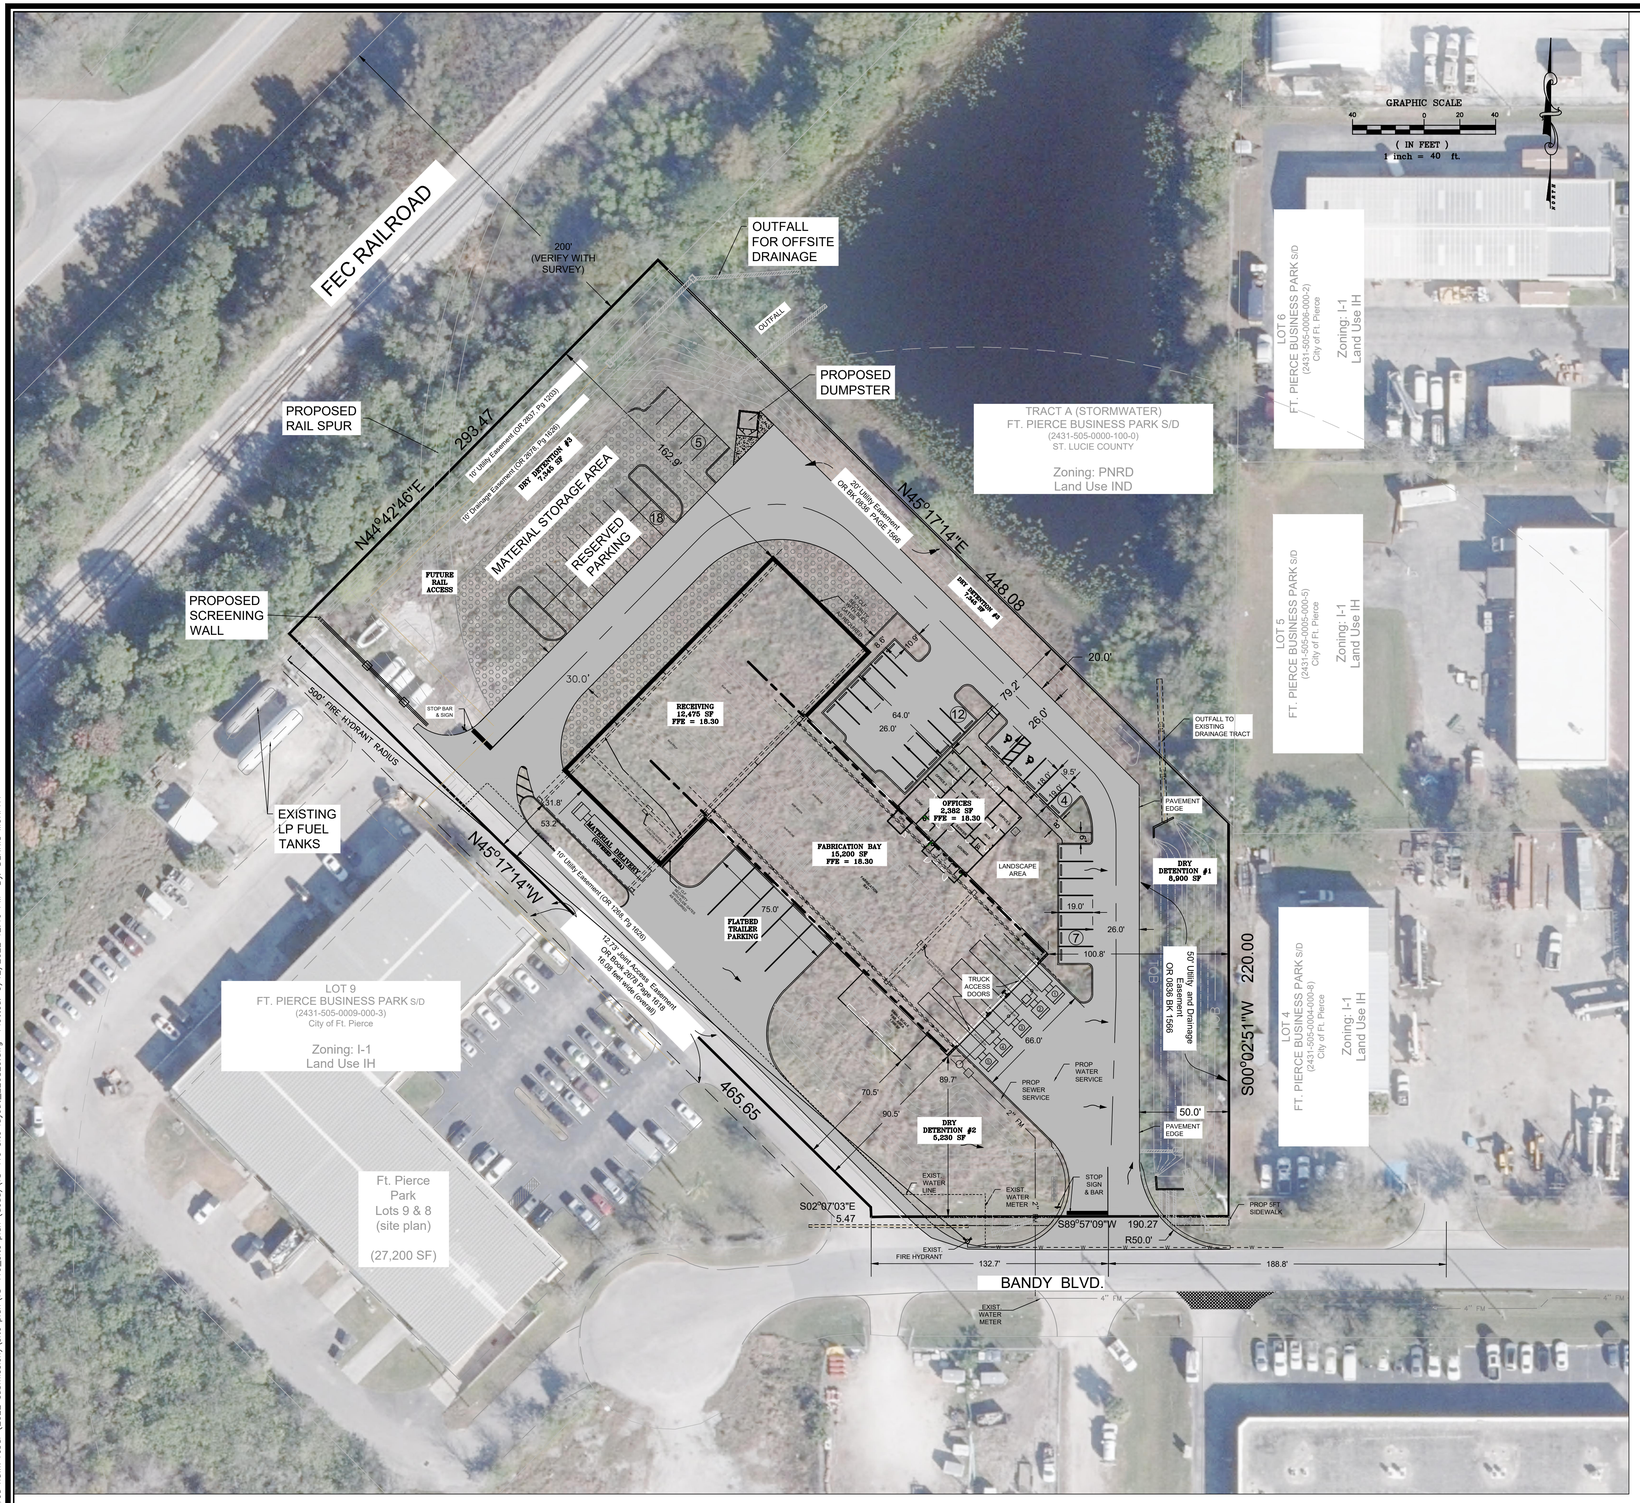

Thank you. We will reach out as necessary for the permitting of this project.

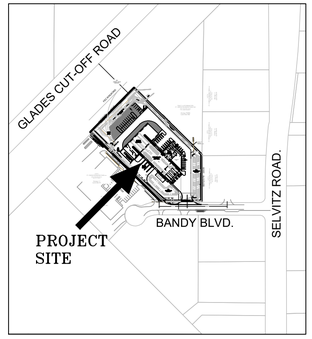

We trust that these responses are satisfactory to your review and if there are any additional questions, please do not hesitate to let us know.

****

Sincerely

Dennis J. Murphy
Principal Planner

Environmental:

1.) **Project Name:**
Redhawk Rebar Fabrication Plant (Ft. Pierce)

2.) **Location:**
4280 Bandy Boulevard, Ft. Pierce, Florida 34981

3.) **Project Description:**
Metal Rebar Fabrication Facility, with Rail Access

4.) **Sec/Town/Range:**
Section 27/ Range 35S/ Township 40E

5.) **Tax Map** 24-31n

6.) **Parcel ID Numbers:** 2431-505-0008-000-6

7.) **Gross Site Area:** 3.52 Acres 153,331 sq feet

8.) **Zoning:** I-1 (Industrial Light) 3.52 acres

9.) **Land Use:** IH (Industrial Heavy) 3.52 acres

10.) **Site Density/Intensity:**
Maximum FAR (Nonresidential) - 1 .0 (Maximum Coverage by Buildings (60%))

11.) **Development Schedule:**
Start: ~~Fall 2018~~ Winter 2022/23
Complete: Summer ~~2019~~ 2023

12.) **Flood Zone:**
The project site is located in Flood Zone X (Area of Minimal Flood Hazard), according to the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Map Number 12111C0188J, Feb 16, 2012.

13.) **Site Coverage[1]:**

	acreage	sq feet	% of site	FAR[2]
Buildings (all types)	~~0.9~~ 0.7	~~40,000~~ 31,057	~~26%~~ 20%	~~0.26~~ 0.21
Roadways/Parking	~~1.7~~ 1.1	~~74,500~~ 47,000	~~49%~~ 31%	~~n/a~~ n/a
Other Impervious	~~0.2~~ 0.4	~~10,670~~ 18,000	~~7%~~ 12%	~~n/a~~ n/a
Open Space/ Landscape	~~0.6~~ 1.3	~~28,161~~ 57,274	~~18%~~ 37%	~~n/a~~ n/a
Lakes	0.0	-	0%	n/a
Totals	~~3.5~~ 3.5	~~153,331~~ 153,331	~~100%~~ 100%	

Notes:
1.) All areas are approximate and subject to change as part of final construction plans.
2.) FAR coverage based on total bldg sq ft (~~40,000~~ 32,000)/ gross lot area.

14.) **Parking:**
required parking - 1.18 space/ 1000 sq feet building area

Building Area (000's)	SP/1,000 sf	=	req'd	provid
~~41~~	~~1.18~~		~~48.38~~	~~49~~
31	1.18		36.58	46
				7

handicapped parking required (based on Code required parking) 4%

code req'd pkg	HC pkg req'd	HC Pkg
~~49~~ 37	2 (public accessable)	2

15.) **Building Hgt.:**
Maximum Bldg. Hgt. 65 feet

16.) **Utility Service:**

Water Service (Utility)	FPUA	Electric Service	FPUA
Sewage Service (Utility)	FPUA	Telcom Service (backbone)	ATT
Re-Use Water (Utility)	n/a	Cable Service (primary)	Comcast

All utility services will be placed underground.

17.) **Refuse**
Trash and Solid Waste is collected by Ft. Pierce approved waste haulers.

18.) **Site Lighting:**
Site lighting of the parking and site storage areas will be provided through a combination of wall-mounted fixtures on the side of the buildings or through the placement of several independent poles located along the perimeter of the travel way and site storage area. All on-site lighting will comply with the City footcandle requirement.

18.) **Site Drainage (preliminary):**
The existing drainage system shall be utilized and a new dry detention system will be constructed to provide for the additional construction. Storm drainage facilities shall conform to Chapters 32 and 121 and the Standard Specifications Adopted by the City Commission on February 3, 1973, as Amended.

19.) **City of Ft. Pierce General Notes:**
A. A project must comply Sections 119, 123, and 125 of the City of Fort Pierce Code of Ordinances.
B. Parking space striping shall conform to Section 125-315.

City Ft. Pierce Project Number:
 # 22-41100002 (Site Data table amended through 22.08.29)

REDHAWK REBAR MANUFACTURING FACILITY
FORT PIERCE

Prepared By:

Culpepper and Terpening, Inc.
2980 S. 25th Street, Fort Pierce, FL
Authorization # 4286

Introduction:

Redhawk Rebar (Redhawk) is proposing to construct a new 40,000 square-foot, manufacturing facility on a 1.3 acre parcel of land, located west of CR 611B/Selvitz Road, approximately 1 mile south of CR 611/Edwards Road and 1.2 miles north of Midway Road in St. Lucie County, Florida. This facility will be constructed in two (2) phases, each approximately 20,000 square feet in area. Phase 1 construction is projected to begin in late 2018, and Phase two is projected to begin no sooner than 2021.

The particular property under Site Plan review is referenced as Lot 8 of the Ft. Pierce Business Park PNRD Subdivision, and was the subject of a previous Site Plan approval granted by St. Lucie County in 1990 for the commercial/industrial project referred to as Ft. Pierce Business Park, Lot 8 & 9. That particular project, included the adjoining Lot 9 of this subdivision, where the first 27,200 square feet of the project was constructed. Under St. Lucie County development guidelines, since a principal portion of this previously approved site plan was completed, the balance of the site plan project (the Ft. Pierce Business Park, Lot 8 & 9) and its associated impacts are considered to be 'vested' for future permitting purpose. The previously approved building on Lot 8 (totaling 32,000 sf) was never built.

This traffic statement addresses the net change in anticipated trip impacts to be generated by the operation of the Redhawk facility, after buildout, onto the local area transportation network.

Trip Generation:

Trip generation rates for the Redhawk facility are based on the ITE (Institute of Transportation Engineers) Trip Generation Manual (10th Edition), using the land use code #140, Manufacturing Use. Applying the rates under this heading to the proposed Redhawk site results in a project impact summary as follows:

TRIP RATES/ PER 1,000 SQ FEET (BY PHASE)

	TRIP RATE/1,000 SF			ADT	AM PEAK HR	PM PEAK HR
RATE/ SQ FT	3.82	PH 1	20,000	76.4		
AM PEAK	0.79		20,000		15.8	
PM PEAK	0.75		20,000			15.0
RATE/ SQ FT	2.13	PH 2	20,000	76.4		
AM PEAK	0.39		20,000		15.8	
PM PEAK	0.4		20,000			15.0
				152.8	31.6	30.0

Based on the application of these trip rates, the Average Daily Trip (ADT) generation for this particular land use category, at buildout, results in an estimated 152.8 trip impacts onto the local area network. Noting that the subject site has already received a prior site plan approval from St. Lucie County (1990) for development of up to 32,000 square feet of industrial/commercial uses, and as an existing approved development project, the trip impacts from this property are presumably already factored as part of the existing plus committed (E+C) impacts onto the area network, it may be concluded that there are no 'new impacts' from the *first phase and approximately half of the second phase of* development on this location onto the area network. In the case of the second phase of the proposed, since 12,000 square feet can be seen as being 'vested', only 6,000 square feet needs to be addressed.

Applying these same rates as shown in the above Trip Generation Table, the projected impacts from this remaining 6,000 square feet onto the local area network are estimated to be:

TRIP RATES/ PER 1,000 SQ FEET (Net New Area)

	TRIP RATE/1,000 SF			ADT	AM PEAK HR	PM PEAK HR
RATE/ SQ FT	2.13	PH 2	6,000	22.92		
AM PEAK	0.39		6,000		4.7	
PM PEAK	0.4		6,000			4.5
				22.92	4.7	4.5

Background Traffic:

Existing background traffic within the radius of impact from the project site includes CR 611/Edwards Road; CR 611B/Selvitz Road; CR 709/Glades Cutoff Road and CR 712/West Midway Road.

The existing traffic volumes provided in the Fall 2017 St. Lucie County TPO Traffic Counts and Level of Service (LOS) Report show that CR 611B/Selvitz Road has an AADT of 11,000 from CR 712/W. Midway Road to CR 611/Edwards Road. In addition, the PM peak hour directional volume of this roadway north of CR 712/W. Midway Road is 883, and south of CR 611/Edwards Road is 764.

CR 611/Edwards Road has an AADT of 10,500 west of CR 611B/Selvitz Road and 14,500 to the east. The PM peak hour directional volume west of CR 611B/Selvitz Road is 549 and east to SR 615/South 25th Street is 781.

CR 709/Glades Cutoff Road has an AADT of 9,100 from CR 712/Midway Road to Jenkins Road and 6,176 from Jenkins Road to CR 611B/Selvitz Road. The PM peak hour directional volume north of CR 712/W. Midway Road is 545 and south of CR 611B/Selvitz Road is 377.

CR 712/W. Midway Road has an AADT of 20,500 west of CR 611B/Selvitz Road and 17,500 to the east. The PM peak hour directional volume west of CR 611B/Selvitz Road is 1,085 and east to CR 615/South 25th Street is 896.

Trip Distribution:

It is conservatively estimated that the project distribution of trips on CR 611B/Selvitz Road are such that approximately 80% of the overall trips will come from the north and 20% from the south. The distribution is based upon the assumption that the majority of employees and deliveries will be from the Fort Pierce

area. Trip distribution is the basis for determining the estimated NET NEW trips coming from this project site onto the roadway network.

Trip distribution is anticipated to be as follows:

- CR 611/Edwards Road North of Site: 75%
- CR 709/Glades Cutoff Road North of Site: 5%
- CR 712/Midway Road South of Site: 20%

Trip Assignment:

Based on the trip distribution assignments outlined above, the ***net new trip*** assignments are as follows:

Roadway Link	%	ADT	PM Peak Hr. Dir.
Selvitz Road			
North of Midway	20%	4.6 vpd	1.0 vph
South of Edwards	75%	17.3 vpd	3.8 vph
Edwards Road			
East of Selvitz	70%	16.1 vpd	3.5 vph
West of Selvitz	5%	1.2 vpd	.3 vph
Glades Cutoff			
East of Midway	5%	1.2 vpd	.3 vph
West of Selvitz	5%	1.2 vpd	.3 vph
Midway Road			
East of Selvitz	10%	2.3 vpd	.5 vph
West of Selvitz	10%	2.3 vpd	.5 vph

Roadway Network Capacity/LOS:

Based on the trip distribution and traffic assignment to the local roadway network, as well as both the ADT LOS and Peak Hour Service Capacity thresholds provided from the Florida FDOT 2018 Quality/Level of Service Handbook and TPO Level of Service Report, the roadway links within the radius of impact are anticipated to operate as follows:

Roadway	ADT Existing/Build-out at Horizon Year*		ADT LOS D Capacity	ADT Post-Development /LOS		Change From Existing Condition	PM Peak Hr/LOS Capacity	PM PK Hr Directional Volumes/LOS		Change From Existing Condition
	2018	2023								
Selvitz Road										
N. of Midway Rd	11,110	11,700	12,510	11,700	D	No	700	942	F	No
S. of Edwards Rd	11,413	12,018	12,510	12,018	F	No	790	816	E	No
Edwards Road										
West of Selvitz	10,605	11,169	12,510	11,169	D	No	700	587	C	No
East of Selvitz	14,645	15,415	12,510	15,415	F	No	880	834	D	No
Glades Cutoff Road										

Roadway	ADT Existing/Build-out at Horizon Year*		ADT LOS D Capacity	ADT Post-Development /LOS		Change From Existing Condition	PM Peak Hr/LOS Capacity	PM PK Hr Directional Volumes/LOS		Change From Existing Condition
	2018	2023								
East of Midway Rd	9,191	9,683	12,510	9,683	D	No	790	583	D	No
West of Selvitz Rd	6,238	6,579	12,510	6,579	C	No	830	405	C	No
W. Midway Road										
East of Selvitz Rd	17,675	18,600	30,770	18,600	C	No	1,610	956	C	No
West of Selvitz Rd	20,705	21,784	12,510	21,784	F	No	920	1,156	F	No

*Based on applying a 1.0% growth rate factor. Project trips are based on impact change.

De Minimis Impacts:

A development which meets the following 'de minimis' impact threshold may be looked at as being exempt from the requirements of Sec. 22-218 – Concurrency Assessment, City of Ft. Pierce Code of Ordinances, if:

a. An impact that would not affect more than one percent of the maximum volume at the adopted level of service of the affected transportation facility as determined by the director of transportation.

b. An impact for which the sum of the existing roadway volumes and the projected volumes from approved projects on a transportation facility does not exceed one hundred ten (110) per cent of the maximum volume at the adopted level of service of the affected transportation facility.

c. An impact that would not exceed the adopted level of service standard of any affected designated hurricane evacuation routes.

The proposed Redhawk Rebar facility will add a total of 24 new ADT trips to the local area transportation network. The impacts of the distribution of these trips onto this network results in a net effect of less than one (1) percent of the maximum service volume at the adopted Level of Service (LOS) for both the daily and PM peak hour traffic conditions on CR 611B/Selvitz Road, south of CR 611/Edwards Road and CR 611/Edwards Road, east of CR 61B/Selvitz Road.

Conclusions:

The development of the Redhawk Rebar facility will result in an average of 24 *net new trips* per day, at buildout. Based on the LOS D capacity for Average Daily Traffic and the adopted peak hour service capacity, there are no mitigation impacts required from this project onto the surrounding roadway network.

I. INTRODUCTION -

This Environmental Assessment documents and summarizes the various natural resources and man-made alterations present on a property referred to as the Red Hawk Rebar site. The project site, as shown on Figure 1 in Appendix A, is ±3.6 acres, and is located on the north side of Bandy Boulevard, west of Selvitz Road, and east of Glades Cut-Off Road. It lies within Section 31, Township 35 South, Range 40 East in the City of Fort Pierce, St. Lucie County, Florida (see Figure 2, USGS Quadrangle Map in Appendix A).

II. GENERAL PROPERTY DESCRIPTION –

The property is bounded to the northeast by a man-made excavated lake, to the east by commercial development, to the south by Bandy Boulevard, to the southwest by commercial development, and to the northwest by a drainage ditch and the FEC railroad and Glades Cut-Off Road (please refer to Figure 3, 2017 Aerial Photograph, in Appendix A for surrounding conditions). The property is undeveloped and is mostly comprised of mowed pasture grasses with scattered native and exotic vegetation and a man-made ditch. Detailed discussions of land cover types are described in subsequent sections of this report.

III. SOIL TYPES –

A Soils Report generated by the United States Department of Agriculture/Natural Resources Conservation Service is provided in Appendix B of this report. The soils report identifies mainly sand-based soils throughout the project site, all of which are considered poorly drained.

IV. EXISTING LAND COVER TYPES –

The following is a summary of the land cover types and vegetative communities found on the subject site. Land cover and vegetative community classifications are mapped based on the Florida Land Use, Cover and Forms Classification System (FLUCCS) developed by the Florida Department of Transportation. Field reconnaissance and aerial photograph interpretation were employed in the mapping of the vegetative communities on the subject property. The vegetative community descriptions include discussions of potential wildlife habitat provided by the various resources present in those communities.

There are several different FLUCCS classifications currently present on the site based on fieldwork conducted by EW Consultants, Inc. in July, 2018. They include: Undeveloped Land Within Urban Areas (191); Brazilian Pepper (422); Ditches (510), and Roads (814). A land cover

map of the observed vegetative community types is included as Figure 4 in the Appendix A of this report. The land cover types observed on the property are described as follows:

Upland Inventory

191 Undeveloped Land Within Urban Areas

This is a sub-category of the FLUCCS Open Land classification and includes areas where undeveloped lands within urban areas have street patters but no structures or indication of intended use. The undeveloped land is the dominant land cover type and is found across the full extent of the property. This area has previously been cleared and consists of exotic grasses and ruderal weeds that are maintained by routine mowing. Some portions of the edges of this upland habitat, especially at the eastern portion of the property contain some larger woody vegetation and trees. The grass dominated portions of this land cover type contain Bahia grass, smut grass, cogon grass, guinea grass, beggars ticks, sand spur grass, ragweed, jack-in-the-bush, and dog fennel. Trees and other woody vegetation include native laurel oak, wax myrtle, and cabbage palm, and exotic Brazilian pepper and earleaf acacia. Listed species such as gopher tortoises frequently use open grassy habitats for burrowing and foraging. Their presence has been confirmed within this habitat based on the July, 2018 site investigation.

422 Brazilian Pepper

Thickets of the exotic Brazilian pepper tree exist off-site to the northwest of the property and have become established and extend into the northwestern portion of the property. These trees typically dominate a landscape and prevent desirable native plant species from establishing by shading the forest floor. This land cover type provides minimal wildlife habitat, although the state listed gopher tortoise may use the trees' root system for burrowing. No such burrows were identified within the Brazilian pepper area during the July 2018 site investigation.

814 Roads

Located along the southwestern portion of the site is a portion of a paved driveway used for accessing the parking lot of the existing adjacent industrial building.

Other Surface Waters

510 Ditches

One man-made drainage ditch occurs on the property and is located in the eastern portion of the project site. Although some emergent vegetation is present, the ditch is in poor ecological condition and offers minimal foraging opportunities for wildlife. Emergent vegetation includes Carolina willow, Mexican primrose willow, smartweed, and lanceleaf arrowhead.

V. WILDLIFE AND LISTED SPECIES EVALUATION -

Preliminary field observations made during the July, 2018 site visit indicate that the property does not support a significant variety of wildlife species. The table below lists the species that were directly observed, or evidence of their presence was noted through indirect means, such as scat, tracks, or burrows. In general, the entire property is dominated by non-native invasive vegetation and when coupled with routine maintenance (mowing) this property provides poor suitability for wildlife except for gopher tortoises, marsh rabbits, doves, and feral hogs (also exotic). Given the anthropogenic disturbances and its setting within an industrial and commercial landscape, the site does not provide the habitat suitable to host a large variety of listed species. Below is a table of observed listed and non-listed wildlife on-site:

Common Name	Scientific Name	On-Site Locations	Status	Occurrence
Raccoon	*Procyon lotor*	Throughout site	Not listed	Directly observed
Hog	*Sus scrofa*	Throughout site	Not listed	Indirectly observed (rooting)
Mourning Dove	*Zanaida macroura*	Throughout site	Not listed	Directly observed
Marsh rabbit	*Sylvilagus palustris*	Throughout site	Not listed	Directly observed
Gopher Tortoise	*Gopherus polyphemus*	Undeveloped lands	Threatened – State	Indirectly observed (burrows)

*Florida's Endangered and Threatened Species
May, 2017, Florida Fish & Wildlife Conservation Commission

While their presence was not detected either directly or indirectly, a number of other species may occur due to the site's habitats and habitats adjacent to the site. In particular, the open grassy area, the ditch, and the adjacent lake may provide habitat and foraging opportunities for a number of listed species, which are outlined in the below table.

Common Name	Latin Name	Likely Location	Legal Status	Occurrence
Roseate Spoonbill	*Ajaia ajaja*	In/around the ditch and offsite lake	Threatened – State	Not directly observed, but suitable habitat is present
Reddish Egret	*Egretta rufescens*	In/around the ditch and offsite lake	Threatened – State	Not directly observed, but suitable habitat is present
Little Blue Heron	*Egretta caerulea*	In/around the ditch and offsite lake	Threatened – State	Not directly observed, but suitable habitat is present
Tricolored Heron	*Egretta tricolor*	In/around the ditch and offsite lake	Threatened – State	Not directly observed, but suitable habitat is present
Wood Stork	*Mycteria amricana*	In/around the ditch and offsite lake	Threatened – State and Federal	Not directly observed, but suitable habitat is present
Florida Sandhill Crane	*Grus canadensis pratensis*	In/around the open areas	Threatened - State	Not directly observed, but suitable habitat is present
Florida burrowing owl	*Athene cunicularia floridana*	In/around the open grassy areas	Threatened – State	Not directly observed, but suitable habitat is present
Eastern Indigo Snake	*Drymarchon corais couperi*	In the open grassy areas; gopher tortoise commensal	Threatened – State and Federal	Not directly observed, but suitable habitat is present
American Alligator	*Alligator mississippiensis*	In/around the ditch and offsite lake	State and Federal – Threatened (similarity of appearance to American crocodile)	Not directly observed, but suitable habitat is present

*Florida's Endangered and Threatened Species
May, 2017, Florida Fish & Wildlife Conservation Commission

The confirmed presence of potentially occupied gopher tortoise burrows represents the only listed species identified on-site during the July 2018 site visit. Gopher tortoises are listed as a state-designated threatened species and are protected by state law, Chapter 68A-27, Florida Administrative Code. Within 90 days prior to any clearing activities, a complete gopher tortoise survey covering 100% of the area slated for clearing on-site must be conducted. If impacts to gopher tortoise burrows as a result of land alterations cannot be avoided, a permit must be obtained from Florida Fish and Wildlife Conservation Commission (FFWCC) to relocate gopher tortoises to a permitted recipient site.

The FFWCC's database was searched in order to identify wading bird colonies near the project site. The foraging range for the state and federally-listed listed wood stork is 18.6 miles. Since several wading bird colonies exist within that distance of the project site (mainly along the Indian River Lagoon), it would be considered within the wood stork's foraging range (see Figure 5 in Appendix A).

Although the bald eagle has been de-listed, the birds and their nests are still protected under the federal Bald and Golden Eagle Protection Act. Although no such nests or individuals were observed during the site visit, this area of St. Lucie County contains sufficient mature pine trees and waterways to support bald eagle populations. This is evident by Figure 6 in Appendix A, which shows recorded eagle nests locations within 10 miles of the project site. The closest recorded nest is SL006 just east of I-95 by the Wal-Mart Distribution center, approximately one mile from the project site.

No state or federally listed plant species were observed on-site.

MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:24,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service
Web Soil Survey URL:
Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: St. Lucie County, Florida
Survey Area Data: Version 10, Oct 6, 2017

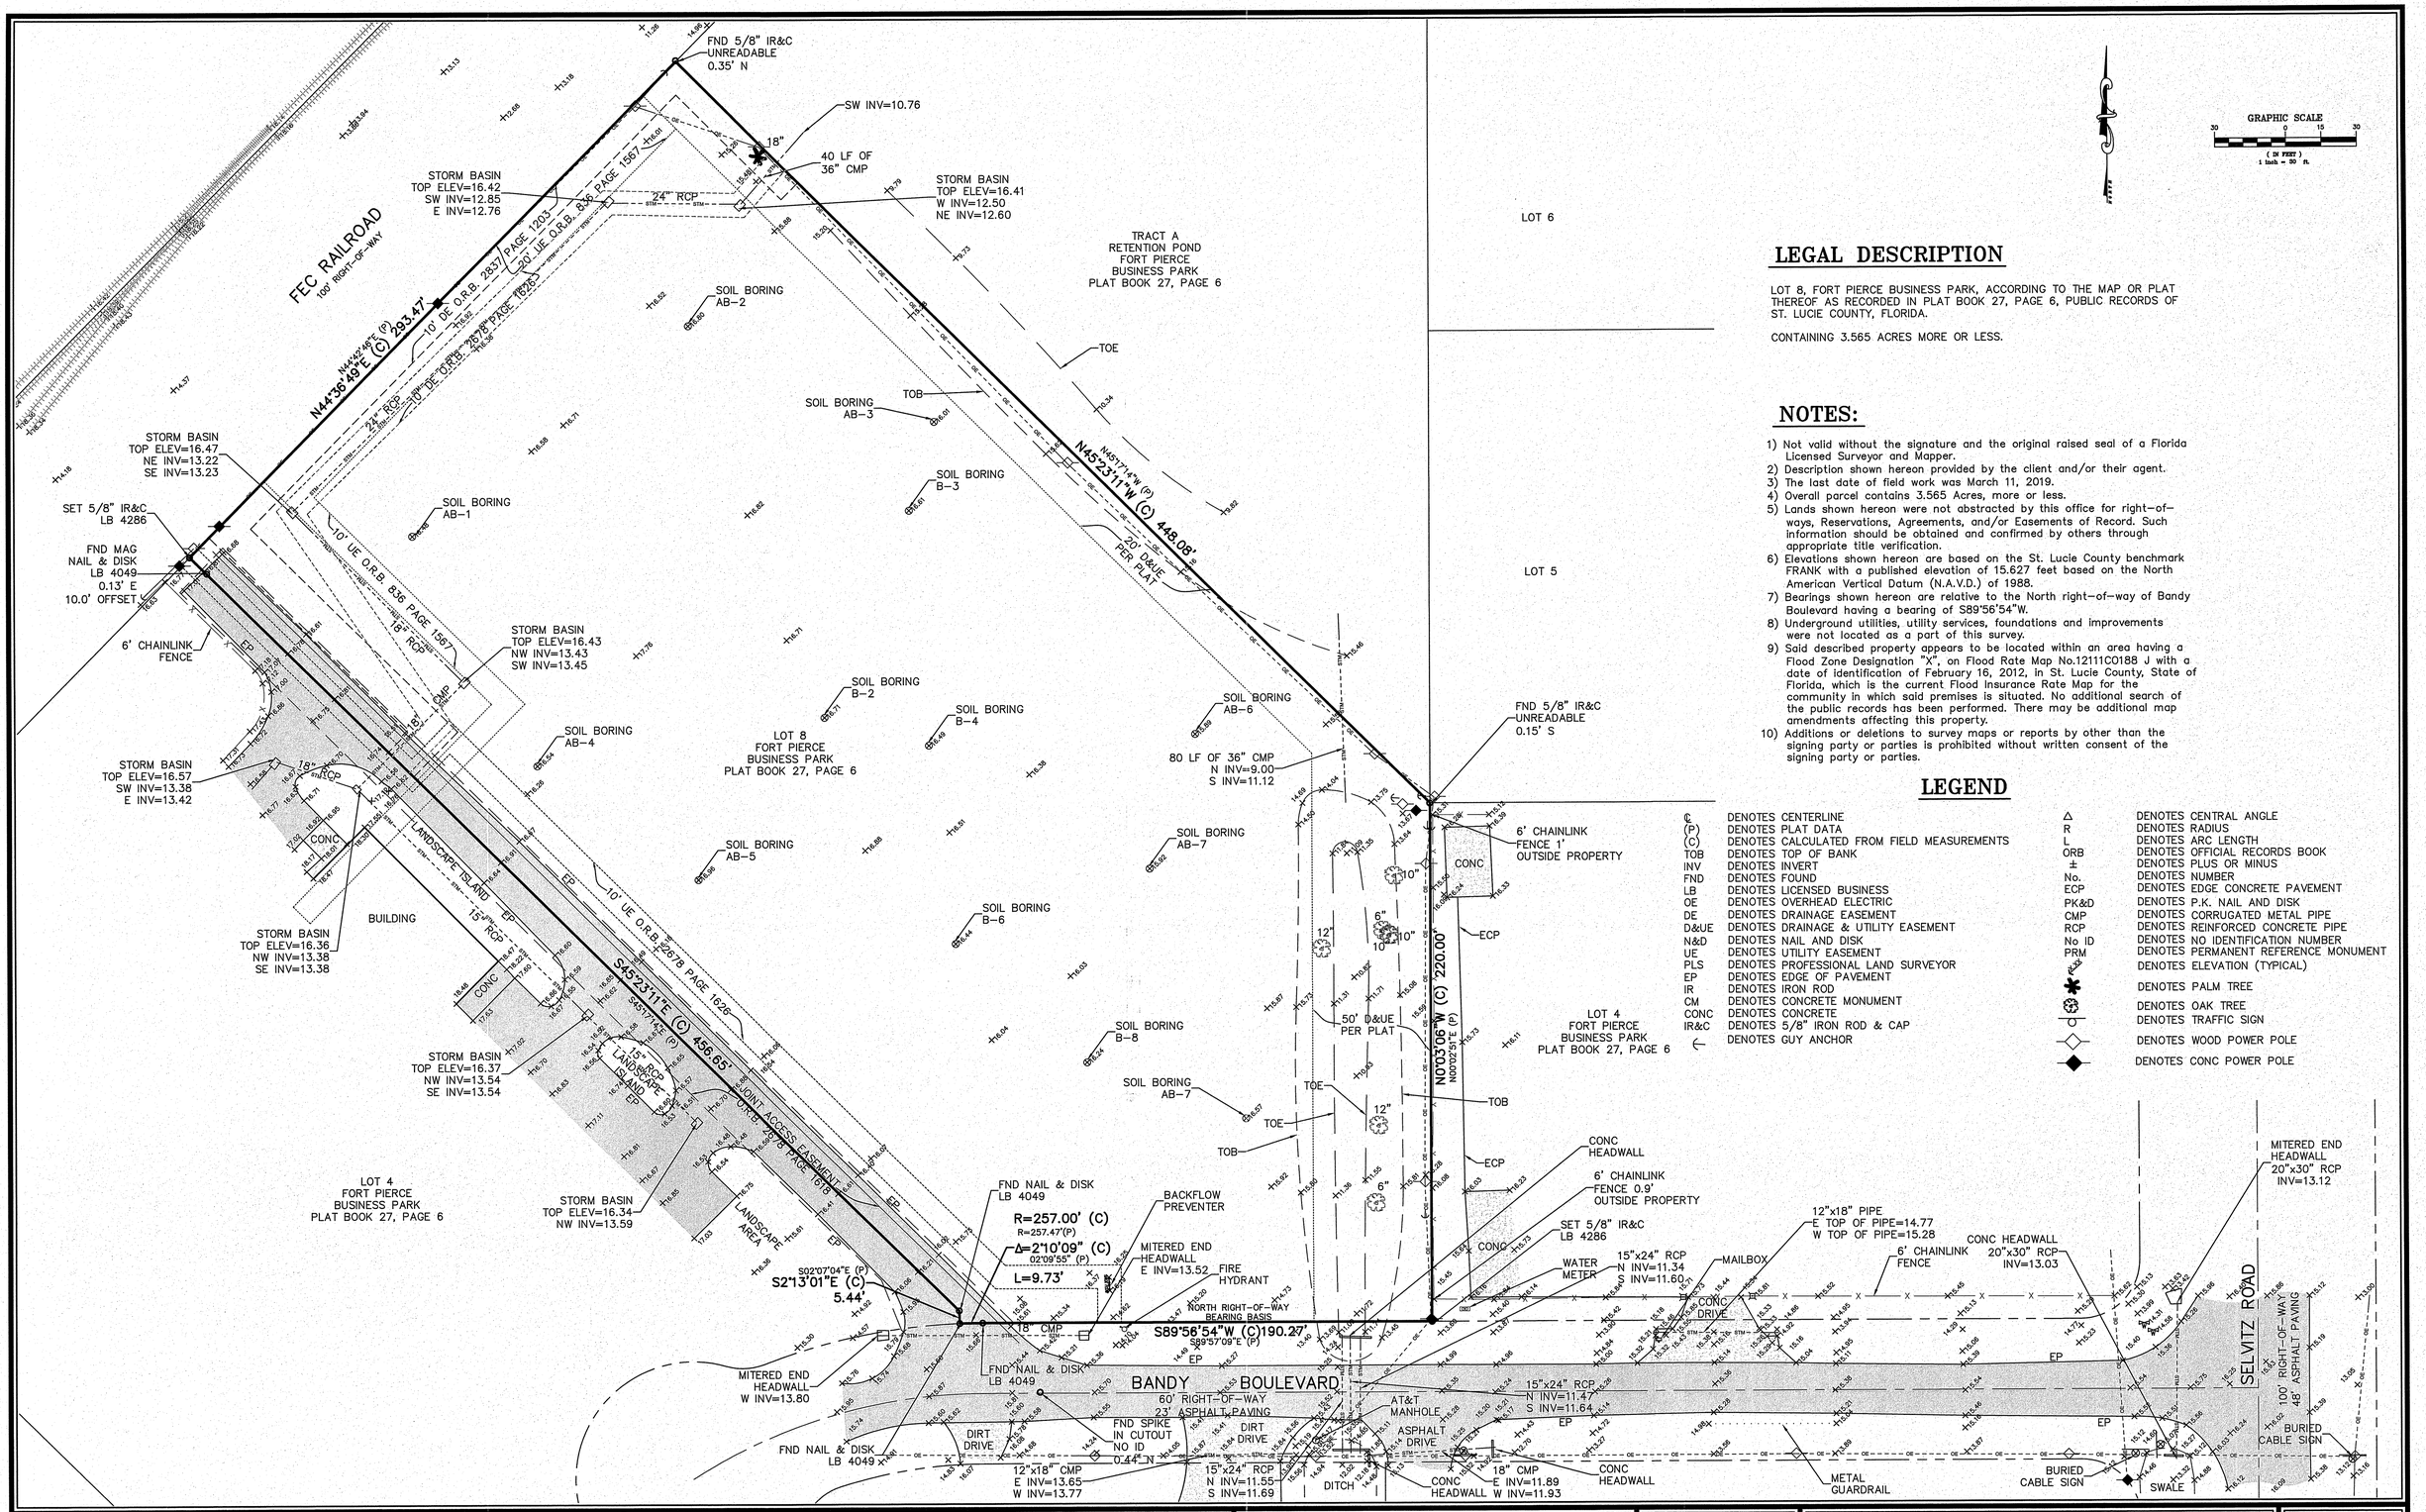

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

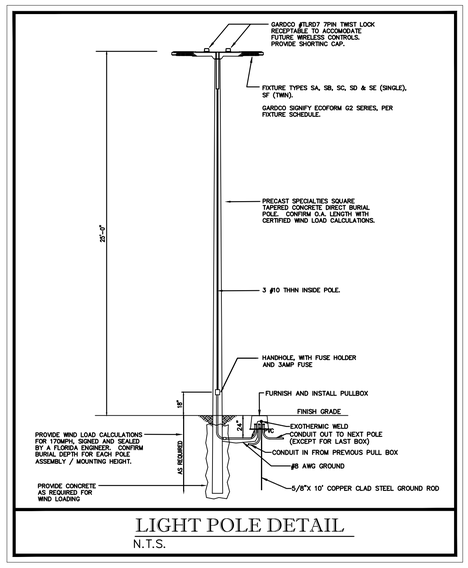

Date(s) aerial images were photographed: Dec 31, 2009—Dec 15, 2017

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

JOB No. ######
SHEET E1.1

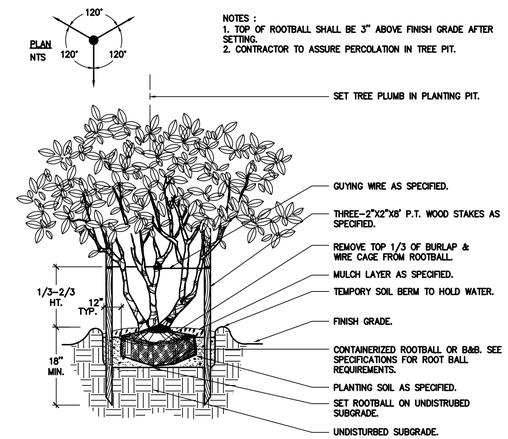

GENERAL LANDSCAPE NOTES

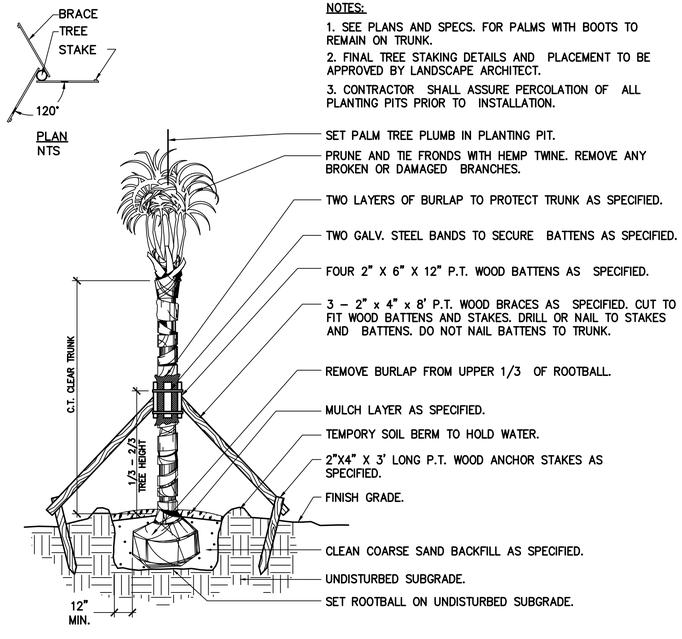

- THE WORK CONSISTS OF THE PROVISION OF ALL MATERIALS AND WORK AS CALLED FOR ON THE LANDSCAPE PLANS, SPECIFICATIONS AND AS HEREIN SPECIFIED. THIS WORK SHALL INCLUDE, BUT IS NOT LIMITED TO, THE SUPPLYING OF ALL PLANT MATERIALS SPECIFIED, THE FURNISHING OF ALL LABOR, EQUIPMENT, WATER, ELECTRICITY, EQUIPMENT AND ALL MATERIALS CALLED FOR AND IN PERFORMING ALL OPERATIONS IN CONNECTION WITH THE LANDSCAPE INSTALLATION. FURTHER, THE WORK SHALL INCLUDE MAINTAINING OF ALL PLANTS AND PLANTING AREAS UNTIL FINAL ACCEPTANCE BY THE OWNER AND FULFILLING ALL GUARANTEE PROVISIONS. THE LANDSCAPE CONTRACTOR SHALL ASSIGN A QUALIFIED PROJECT MANAGER AND FIELD SUPERVISOR TO WORK DIRECTLY WITH THE LANDSCAPE ARCHITECT AND SUPERVISE THE WORK AT ALL TIMES THROUGH FINAL OWNER ACCEPTANCE.
- ALL INSTALLATION OF PLANT MATERIAL SHALL COMPLY WITH APPLICABLE JURISDICTIONAL CODES. THE CONTRACTOR IS RESPONSIBLE FOR OBTAINING ALL PERMITS ASSOCIATED WITH HIS WORK.
- ALL ON-SITE EXISTING CONDITIONS INCLUDING SURFACE AND SUBSURFACE UTILITIES, GRADES, DIMENSIONS AND SOIL CONDITIONS SHALL BE VERIFIED BY THE LANDSCAPE CONTRACTOR BEFORE CONSTRUCTION BEGINS. THE LANDSCAPE CONTRACTOR SHALL BECOME FAMILIAR WITH ALL PLANS PREPARED BY OTHERS THAT AFFECT THE LANDSCAPE AND IRRIGATION WORK. ANY DISCREPANCIES SHALL BE BROUGHT TO THE ATTENTION OF THE LANDSCAPE ARCHITECT.
- EVERY POSSIBLE SAFEGUARD SHALL BE TAKEN TO PROTECT BUILDING SURFACES, EQUIPMENT, FURNISHINGS AND EXISTING PLANTING AREAS TO REMAIN INCLUDING LAWN. THE CONTRACTOR IS RESPONSIBLE FOR ANY DAMAGE OR INJURY TO PERSON OR PROPERTY THAT MAY OCCUR AS A RESULT OF NEGLIGENCE IN THE EXECUTION OF THE CONTRACTOR'S WORK.
- THE CONTRACTOR SHALL INTERFACE WITH OTHER WORK BEING PERFORMED BY OTHER CONTRACTORS. IT WILL BE NECESSARY FOR THE CONTRACTOR TO COORDINATE AND SCHEDULE ACTIVITIES, WHERE NECESSARY, WITH OTHER CONTRACTORS AND THEIR SUBCONTRACTORS. THE LANDSCAPE CONTRACTOR SHALL INSURE THAT THEIR WORK DOES NOT IMPACT ESTABLISHED OR PROJECTED DRAINAGE PATTERNS.
- PRIOR TO PLANTING INSTALLATION, THE CONTRACTOR SHALL CONFIRM THE AVAILABILITY OF ALL THE SPECIFIED PLANT MATERIALS AND MAKE ARRANGEMENTS WITH THE LANDSCAPE ARCHITECT TO REVIEW AND MUTUALLY FIELD TAG AGREED UPON PLANT MATERIALS AT LEAST 2 WEEKS PRIOR TO PROCUREMENT AND DELIVERY TO THE JOB SITE. REPRESENTATIVE THE LANDSCAPE ARCHITECT MAY ALLOW SAMPLES OF SHRUBS AND GROUNDCOVER TO BE PROVIDED BY THE LANDSCAPE CONTRACTOR IN LIEU OF FIELD VISITS.
- ALL PLANT MATERIAL SHALL MEET OR EXCEED THE REQUIREMENTS FOR FLORIDA NO. 1 QUALITY IN ACCORDANCE WITH THE GRADES AND STANDARDS FOR NURSERY PLANTS PUBLISHED BY THE STATE OF FLORIDA, DEPARTMENT OF AGRICULTURE, CURRENT EDITION.
- ALL PLANT MATERIAL SIZES SPECIFIED ARE MINIMUM SIZES. ALL CONTAINER AND TREE CALIPER SIZES ARE MINIMUM. CONTAINER OR CALIPER SIZE MAY BE INCREASED IF NECESSARY TO PROVIDE OVERALL PLANT SIZE SPECIFIED.
- THE LANDSCAPE CONTRACTOR SHALL PROVIDE ANY SPECIFIED B&B TREES FROM A 'ROOTS-PLUS' NURSERY SOURCE. CONTACT 'ROOTS PLUS' GROWERS ASSOCIATION AT (800) 837-4011 FOR NAMES OF NURSERIES. ALL OTHER TREES TO BE CONTAINER GROWN OR AS SPECIFIED.
- ALL PLANT MATERIAL SHALL BE SUBJECT TO APPROVAL AT THE JOB SITE BY THE LANDSCAPE ARCHITECT PRIOR TO INSTALLATION. WHEN DELIVERED PLANT MATERIAL DOES NOT COMPLY WITH THE REQUIREMENTS, THE LANDSCAPE ARCHITECT RESERVES THE RIGHT TO REJECT SUCH PLANTS AND REQUIRE THE LANDSCAPE CONTRACTOR TO REPLACE REJECTED WORK AND CONTINUE SPECIFIED MAINTENANCE UNTIL REINSPECTED AND FOUND TO BE ACCEPTABLE. THE LANDSCAPE CONTRACTOR SHALL REMOVE REJECTED PLANTS AND MATERIALS FROM THE PLANTING SITE WITHIN 48 HOURS AND REPLACE WITH ACCEPTABLE MATERIALS.
- NO PLANT SUBSTITUTIONS WILL BE PERMITTED WITHOUT PRIOR WRITTEN APPROVAL FROM THE LANDSCAPE ARCHITECT. IF SPECIFIED PLANT MATERIALS ARE NOT AVAILABLE, IDENTIFY THE EXTENT AND QUANTITY IN WRITING TOGETHER WITH A RECOMMENDED SUBSTITUTION THAT MEETS OR EXCEEDS THE INITIAL REQUIREMENT.
- THE LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR REMOVING EXISTING VEGETATION AS REQUIRED AND PREPARING PLANTING AREAS PRIOR TO INSTALLATION OF PLANT MATERIALS.
- THE LANDSCAPE CONTRACTOR SHALL TEST PROJECT SOILS TO VERIFY THAT THE SOILS ON-SITE ARE ACCEPTABLE FOR PROPER GROWTH OF PLANT MATERIALS AND ADEQUATE DRAINAGE IN PLANT BEDS AND PLANTERS. THE LANDSCAPE CONTRACTOR SHALL COORDINATE THE LOCATION, AND PROCUREMENT OF EXISTING ON-SITE SOIL SAMPLES WITH THE LANDSCAPE ARCHITECT. REPRESENTATIVE SAMPLES SHALL BE SUBMITTED TO A CERTIFIED TESTING LABORATORY FOR ANALYSIS. THE FINDINGS, TOGETHER WITH RECOMMENDATIONS FOR AMENDING THE SOILS SHALL BE REVIEWED AND APPROVED BY THE OWNER AND LANDSCAPE ARCHITECT PRIOR TO DELIVERY AND INSTALLATION OF PLANT MATERIALS AT THE JOB.
- THE LANDSCAPE CONTRACTOR SHALL INSURE ADEQUATE VERTICAL DRAINAGE IN ALL PLANT BEDS AND PLANTERS. VERTICAL DRILLING THROUGH HARDPAN AND COMPACTED FILL SHALL BE ACCOMPLISHED TO INSURE DRAINAGE.
- ALL PLANTING BEDS SHALL BE STAKED IN ACCORDANCE WITH THE PLANS AND APPROVED BY THE LANDSCAPE ARCHITECT PRIOR TO PLANTING. THE LANDSCAPE CONTRACTOR SHALL PROVIDE STAKES OR IRRIGATION FLAGS TO LOCATE THE EDGES OF ALL SHRUB AND GROUNDCOVER PLANT BEDS AND INDIVIDUAL TREES AND PALMS. THE CONTRACTOR SHALL FIELD STAKE THE LOCATION OF ALL PLANT BED OUTLINES AND INDIVIDUAL TREES AND OBTAIN THE LANDSCAPE ARCHITECT'S APPROVAL PRIOR TO DELIVERY AND INSTALLATION OF THE PLANT MATERIAL. IF EXISTING CONDITIONS DO NOT ALLOW THE DESIGN TO BE LAYED OUT AS SHOWN, NOTIFY THE LANDSCAPE ARCHITECT IMMEDIATELY.
- ALL PROPOSED TREES SHALL BE INSTALLED EITHER ENTIRELY IN OR ENTIRELY OUT OF PLANTING BEDS. PLANTING BED OUTLINES SHALL NOT BE OBSTRUCTED AND SHALL BE SMOOTH AND FLOWING. IF TREES ARE LOCATED OUTSIDE PLANTING BEDS IN SOD AREAS, MAINTAIN A MINIMUM 3' WIDE OFFSET TO ALLOW FOR MOWERS TO MANEUVER.
- THE PLANT QUANTITIES SHOWED ON THE LANDSCAPE CONTRACT DOCUMENTS ARE FOR THE CONVENIENCE OF THE LANDSCAPE CONTRACTOR. THE LANDSCAPE CONTRACTOR IS RESPONSIBLE FOR VERIFYING ALL QUANTITIES AND REPORTING ANY DISCREPANCIES TO THE LANDSCAPE ARCHITECT FOR CLARIFICATION PRIOR TO CONTRACT AWARD AND COMMENCEMENT OF WORK.
- THE LANDSCAPE CONTRACTOR SHALL VERIFY THE EXTENT OF SOD WORK IN THE FIELD. THE CONTRACTOR SHALL BE RESPONSIBLE FOR PROVIDING GRASS SOD IN THE AREAS SHOWN ON THE PLAN IN SUFFICIENT QUANTITY TO PROVIDE FULL COVERAGE. ADDITIONAL SOD REQUIRED WILL BE ADJUSTED BASED ON A SQUARE FOOTAGE UNIT PRICE. AREAS TO BE SODDED SHALL BE AMENDED PER SOILS REPORT TO PROVIDE REQUIRED NUTRIENTS AND SOIL PH OF BETWEEN 6.0 AND 7.0.

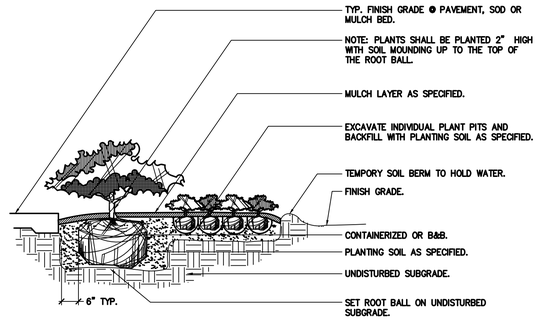

GENERAL LANDSCAPE NOTES (CONT.)

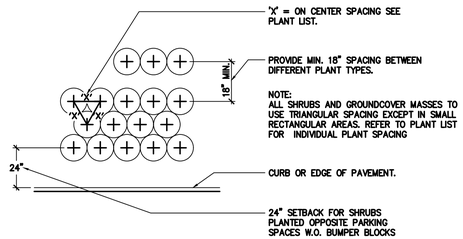

- THE CONTRACTOR SHALL BE RESPONSIBLE FOR PROVIDING PLANTS, SPACED AS SPECIFIED ON THE PLANT LIST. WHEN INSTALLING SHRUBS IN PLANTING BEDS, SPACING OF MATERIAL SHALL TAKE PRECEDENCE OVER QUANTITY OF MATERIALS INDICATED FOR PLANTING AREAS. NOTIFY LANDSCAPE ARCHITECT IMMEDIATELY IF SUCH SITUATIONS ARISE. SHRUB AND GROUNDCOVER SPACING IS GENERALLY INDICATED ON THE PLANT LIST FOR ALL 'MASS PLANTINGS'. ACCENT SHRUBS AND TREES THAT ARE NOT PART OF MASS PLANTINGS SHALL BE SPACED AS SHOWN ON THE PLANS.
- THE LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR THE STABILITY AND PLUMB CONDITION OF ALL INSTALLED PLANT MATERIALS AND REPLACING ANY DAMAGED PLANT MATERIAL WITH PLANTS OF EQUAL KIND, SIZE AND CONDITION AT NO ADDITIONAL COST TO THE OWNER. NO CHAINS OR CABLES SHALL BE USED WHEN INSTALLING PLANT MATERIALS. IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO PREVENT PLANTS AND TREES FROM FALLING OR BEING BLOWN OVER, AND TO REPLACE ALL PLANTS WHICH ARE DAMAGED DUE TO INADEQUATE GUYING OR STAKING, AT NO ADDITIONAL COST TO THE OWNER. THE CONTRACTOR SHALL REMOVE ALL STAKING MATERIALS THE END OF THE WARRANTY PERIOD AND DISPOSE OFFSITE.
- ALL PLANTING BEDS SHALL BE TOP-DRESSED WITH A 3" LAYER OF MULCH AS SPECIFIED. ALL TREES SHALL HAVE A 3" THICK MULCH RING PLACED AROUND THE BASE OF THE TRUNK. THE LANDSCAPE SCOPE OF WORK INCLUDES MULCHING AS AN INTEGRAL PART THE PROJECT AND NOT AS A SEPARATE COST OR WORKS ITEM.
- ALL PLANT MATERIALS SHALL RECEIVE ADEQUATE WATERING BY THE LANDSCAPE CONTRACTOR AS REQUIRED UNTIL THE LANDSCAPE IRRIGATION SYSTEM IS FULLY OPERATIONAL AND UNTIL FINAL ACCEPTANCE BY OWNER.
- ALL EXISTING PLANT BEDS TO REMAIN WITHIN THE CONSTRUCTION LIMIT LINE SHALL BE LEFT UNDISTURBED. EXISTING TREES TO REMAIN, AS NOTED ON THE DRAWINGS, SHALL BE LEFT UNDISTURBED AND PROTECTED BY WOODEN BARRICADES ERECTED AT THE PERIMETER OF THE TREE DRIP LINE (S). NO VEHICLE SHALL TRAVERSE THIS AREA NOR SHALL ANY STORAGE OF MATERIALS OR EQUIPMENT BE PERMITTED WITHIN THE AREA OF THE TREE DRIPLINE(S). ANY EXISTING PLANT BEDS OR TREES DAMAGED BY CONSTRUCTION ACTIVITY SHALL BE REPLACED BY THE RESPONSIBLE PARTY AT THEIR OWN EXPENSE.
- NO TREES SHALL BE PLANTED WITHIN DESIGNATED UTILITY CORRIDORS, PUBLIC RIGHT OF WAY (WITHOUT RIGHT OF WAY UTILIZATION PERMIT) NOR ANY PLANTS LOCATED WITHIN FOUR FEET (4') OF ANY SWALE CENTERLINE IDENTIFIED ON THE DRAWINGS. FIELD ADJUST AS NECESSARY AND REVIEW ADJUSTMENTS WITH THE LANDSCAPE ARCHITECT PRIOR TO INSTALLATION.
- THE CONTRACTOR SHALL BE RESPONSIBLE FOR PROVIDING EFFECTIVE TRAFFIC CONTROL AND REMOVAL OF ALL DEBRIS AND EXCAVATED BACKFILL OFF-SITE ON A DAILY BASIS AT NO ADDITIONAL COST TO THE OWNER.
- SEE LANDSCAPE SPECIFICATIONS FOR FURTHER REQUIREMENTS.

HORIZ. SCALE: NTS
VERT. SCALE: N\A
JOB No.
SHEET 2 of 2

LOCATION MAP NOT TO SCALE

Landscape Notes:

1. All plants shall conform to established nursery grades and standards, to be Florida No. 1 or better, and shall be free ofdisease sand insects at the time of installation.
2. Trees shall be a minimum of (12) feet in height and have a caliper of two and one-half (2 ½) inches at four and one half (4 ½) feet above the ground when installed.
3. All required trees, except palms, shall have a minimum of five (5) feet of clear trunk and a minimum five (5) foot canopy spread at the time of planting.
4. All palm trees shall have a minimum clear trunk of ten (10) feet when installed. Three palm trees are equal to one shade tree having a mature canopy spread of fifteen (15) feet.
5. Shrubs shall be a minimum of twenty-four (24) inches in height above grade immediately after planting. 25% of all shrubs shall be Florida native.
6. Groundcovers, other than grass, shall be planted in a manner as to present a finished appearance and reasonably complete coverage within four (4) months after planting.
7. Turf grass shall be installed using solid sod and shall be either Bahia or St. Augustine sod.
8. All landscape areas other than sod will be provided a mulch cover of at least three (3) inches. Cypress mulch shall not be used.
9. All landscaping within vehicular use areas shall be protected by a six inch non-mountable curb
10. All existing native vegetation found on the site and is not in direct conflict with the proposed building or parking areas shall be left undisturbed. A suitable protective barrier, constructed of metal, wood, safety fencing, or other durable material will be placed around the staked out locations of existing native vegetation.
11. No fill materials, construction materials, concrete, paint, chemicals, or other foreign materials shall be stored, deposited, or disposed of within any areas that have been staked or fenced off as being undisturbed native vegetation areas.
12. Existing understory shall be maintained in areas of undisturbed native vegetation.
13. All Category 1 exotic plant species will be eradicated from the site.
14. Conspicuous, durable barricades will be erected around each individual tree or areas of vegetation that are to be preserved. In the event that any protective barricades are removed or altered and land clearing or construction work is being conducted on the site, all work at the site will be stopped until the barriers are restored and any necessary corrective actions taken to repair or replant any vegetation removed or damaged as a result of these encroachments.
15. All landscape will be irrigated with an in-ground irrigation system.

City of Fort Pierce Landscape Requirements:

Vehicular Use Area along Right of Way

120 linear feet x 10 = 1,200 square feet of required landscape area

1,200/300 = 4 trees required

Vehicular Use Area along Property Lines

367' (north) + 220 (south)+ 340' (west) linear feet x 10 =9,270square feet of required landscape area

9,720/200 = 46 trees required

Interior Vehicular Use Area

60, 252 square feet of Vehicular Use Area

60,252/30 = 2,008.4square feet of required landscape area

2008.4/100 = 20 trees required

Total Trees Required = 70Trees @ 2.5"D.B.H. (175" total D.B.H.)

Total Trees Provided = 59 Trees @ 3" D.B.H. (177" total D.B.H.)

Total Landscape Area Provided =12,500 +square feet

CITY OF FORT PIERCE
NOTICE OF PUBLIC HEARING

The City Commission of the City of Fort Pierce, Florida, pursuant to Section 125-37 of the Code of Ordinances of the City of Fort Pierce, and Sections 166.041 (3)(a) and 163.3187 of Florida State Statutes, will on Monday, December 19, 2022 at 5:05 p.m. and Tuesday, January 3, 2023 at 5:05 p.m., hold Public Hearings on the enactment of the proposed ordinance on first and second readings, respectively, in the City Hall Commission Chambers, 100 North U.S. #1, Fort Pierce, Florida, to consider review and approval of the following:

ORDINANCE NO. 22-043 - AN ORDINANCE BY THE CITY COMMISSION OF THE CITY OF FORT PIERCE, FLORIDA; AMENDING THE PLANNED DEVELOPMENT PLAN FOR THE PROPERTY GENERALLY LOCATED AT OR NEAR 4280 BANDY BOULEVARD AND KNOWN AS RED HAWK REBAR PLANNED DEVELOPMENT; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR REPEAL OF ORDINANCES OR PARTS THEREOF IN CONFLICT HEREWITH; AND PROVIDING FOR AN EFFECTIVE DATE.

Subject Property: Parcel ID: 2431-505-0008-000-6

All interested parties may appear at the meeting and be heard with respect to the ordinance. Said ordinance will be available for inspection in the City Clerk's Office, City Hall, 100 North U.S. #1, Fort Pierce, Florida.

ANY PERSON SEEKING TO APPEAL THE DECISION OF THE CITY COMMISSION AS TO THE FOREGOING IS ADVISED THAT A RECORD OF PROCEEDINGS IS REQUIRED IN ANY SUCH APPEAL AND THAT SUCH PERSON MAY NEED TO ENSURE THAT A VERBATIM RECORD OF PROCEEDINGS IS MADE INCLUDING THE TESTIMONY AND EVIDENCE UPON WHICH THE APPEAL IS TO BE BASED.

In accordance with the Americans with Disabilities Act and Section 286.26, Florida Statutes, persons with disabilities needing special accommodation to participate in this meeting should contact the City Clerk's Office at (772) 467-3065 at least 48 hours prior to the meeting.

Re: Ordinance 22-044 - Future Land Use Map Amendment - 3037 South Jenkins Road

Submitted For: Kev Freeman, Planning Director, Planning & Zoning

---

SUBJECT:

Legislative Hearing - Ordinance 22-044 - Review and approval of a Future Land Use Amendment by owners, Kiva Development, LLC, and representative, Matthew H. Scott, Esq. of Dunay, Miskel, & Blackman, LLP, to change the future land use from General Commercial, GC, to Medium Density Residential, RM, at or near 3037 S Jenkins Road Fort Pierce, FL 34981. Parcel ID: 2325-111-0001-000-2. FIRST READING

SUMMARY:

Approval of Future Land Use Map Amendments (FLUMA) of one parcel (1) from GC, General Commercial to RM, Medium Density Residential.

RECOMMENDATION:

The requested Applications for Future Land Use Map Amendments meets the criteria specified in Section 121-136 of the City Code, the Comprehensive Plan, and does not adversely affect the public health, safety, convenience, and general welfare; Therefore, Staff recommends **APPROVAL** to the City Commission.

Final Approval Date: 12/09/2022

ORDINANCE NO. 22-044

AN ORDINANCE BY THE CITY COMMISSION OF THE CITY OF FORT PIERCE, FLORIDA; **AMENDING THE FUTURE LAND USE MAP OF THE COMPREHENSIVE PLAN TO CHANGE THE DESIGNATION OF ONE (1) PARCEL GENERALLY LOCATED AT OR NEAR 3037 SOUTH JENKINS ROAD, FROM CITY OF FORT PIERCE (GC) GENERAL COMMERCIAL TO CITY OF FORT PIERCE (RM) MEDIUM DENSITY RESIDENTIAL;** PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR REPEAL OF ORDINANCES OR PARTS THEREOF IN CONFLICT HEREWITH; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the subject property is generally located at or near 3037 South Jenkins Road, within the City of Fort Pierce, Florida, representing approximately 27.89 acres of land more or less; and

WHEREAS, the subject property is presently designated GC, General Commercial; and

WHEREAS, the applicant seeks a Future Land Use Map Amendment of the subject property, generally located at or near 3037 South Jenkins Road, from GC, General Commercial to RM, Medium Density Residential; and

WHEREAS, the proposed Future Land Use Map Amendment is consistent with the comprehensive plan, and will not have an adverse effect on the ability of the city to satisfy land and water use needs, and meet transportation demands and provide community facilities and services, and will promote and protect the public health, safety and general welfare as required by City Code section 125-136; and

WHEREAS, the City of Fort Pierce Planning Board, at their November 14th, 2022 meeting, voted unanimously to recommend approval of the proposed Future Land Use Map Amendment for this parcel; and

WHEREAS, the City of Fort Pierce has adopted a Comprehensive Plan known as the City of Fort Pierce Comprehensive Plan adopted by Ordinance No. 19-033, as subsequently amended; and

WHEREAS, changing the future land use designation requires an amendment to the Comprehensive Plan, pursuant to section 163.3187, Florida Statutes; and

WHEREAS, the City of Fort Pierce Planning Board having been duly designated as the Local Planning Agency pursuant to section 163.3174 et seq., Florida Statutes, and having held a public hearing thereon, has considered this proposed amendment to the Comprehensive Plan and submitted its recommendations thereon to the City Commission; and

WHEREAS, two (2) public hearings with due notice have been held by the City Commission to inform the public and receive comments and objections; and

WHEREAS, the City of Fort Pierce desires to hereby formally adopt this amendment to the City's Comprehensive Plan.

NOW, THEREFORE, BE IT ORDAINED by the City Commission of the City of Fort Pierce, Florida as follows:

SECTION 1. The preceding "whereas" clauses are ratified and incorporated as the legislative intent of this ordinance.

SECTION 2. The Comprehensive Plan of the City of Fort Pierce is hereby amended as follows:

From and after the effective date hereof, the following property legally described as:

Parcel ID: 2325-111-0001-000-2

LEGAL DESCRIPTION:

A PARCEL OF LAND IN THE NORTHEAST QUARTER OF SECTION 25, TOWNSHIP 35 SOUTH, RANGE 39 EAST, ST. LUCIE COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

FROM THE NORTHEAST CORNER OF AFORESAID SECTION 25, RUN SOUTH 00°14'22" EAST, 40.50 FEET; THENCE RUN NORTH 88°24'08" WEST, 40.00 FEET TO THE WEST RIGHT-OF-WAY LINE FOR JENKINS ROAD AND THE POINT OF BEGINNING; THENCE CONTINUE NORTH 88°24'08" WEST, 1,555.91 FEET TO THE EAST RIGHT-OF-WAY LINE FOR INTERSTATE HIGHWAY 95; THENCE RUN SOUTH 10°04'59" WEST, ALONG SAID RIGHT-OF-WAY LINE, 518.75 FEET; THENCE SOUTH 00°26'58" WEST, ALONG SAIDE RIGHT-OF-WAY LINE, 695.45 FEET; THENCE RUN SOUTH 89°22'09" EAST, ALONG THE NORTH LINE OF THE SOUTHWEST QUARTER OF THE NORTHEAST QUARTER, A DISTANCE OF 328.11 FEET; THENCE RUN NORTH 00°19'41" EAST, 669.97 FEET TO THE SOUTHWEST CORNER OF THE NORTH HALF OF THE NORTHEAST QUARTER OF THE NORTHEAST QUARTER; THENCE RUN SOUTH 88°37'18" EAST, 1,283.41 FEET TO THE WEST RIGHT-OF-WAY LINE OF JENKINS ROAD; THENCE RUN NORTH 00°14'22" WEST, ALONG SAID RIGHT-OF-WAY LINE, 624.56 FEET TO THE POINT OF BEGINNING.

SAID PARCEL CONSISTING OF 1,215,767 SQUARE FEET OR 27.89 ACRES MORE OR LESS

Said property being generally located at or near 3037 South Jenkins Road, in Fort Pierce, Florida shall be, and the Future Land Use Designation is hereby changed from GC, General Commercial, to RM, Medium Density Residential, as depicted on Exhibit "A", attached hereto, and incorporated herein.

SECTION 3. The provisions of this Ordinance are declared to be severable and if any section, sentence, clause, or phrase of this Ordinance shall, for any reason, be held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining sections, sentences, clauses, and phrases of this Ordinance which shall remain in effect, it being the legislative intent that this Ordinance shall stand notwithstanding the invalidity of any part.

SECTION 4. All ordinances or parts of ordinances in conflict herewith are and the same shall be repealed and shall be of no further force or effect whatsoever.

SECTION 5. This Ordinance is and the same shall become effective immediately upon final passage.

APPROVED AS TO FORM & CORRECTNESS:

_____

Tanya M. Earley, Esq.
City Attorney

STATE OF FLORIDA

COUNTY OF ST. LUCIE

WE, THE UNDERSIGNED, Mayor Commissioner and the City Clerk of the City of Fort Pierce, Florida, do hereby certify that the foregoing and above Ordinance No.22-044 was duly advertised accordance with section 163.3187, Florida Statutes by display advertising in the St. Lucie News Tribune on December 4th, 2022; copy of said Ordinance was made available at the office of the City Clerk to the public upon request; said Ordinance was duly introduced, read by title only, and passed on first reading by the City Commission of the City of Fort Pierce, Florida, on December 19th, 2022; and was duly introduced, read by title only, and passed on second and final reading January 3rd, 2023, by the City Commission of the City of Fort Pierce, Florida.

IN WITNESS HEREWITH, we hereunto set our hands and affix the Official Seal of the City of Fort Pierce, Florida, this 4th day of January 2023.

Staff Analysis:

Request & Background

In accordance with Sections 125-37, 125-133, and 125-136 of the City Code and Chapter 163.3184, F.S., the applicant is requesting the review and approval of a Future Land Use Map Amendment from GC, General Commercial to RM, Medium Density Residential for one (1) parcel of land. The applicant is also requesting review and approval of a Zoning Atlas Map Amendment (Rezoning) from C-3, General Commercial Zone to R-4, Medium Density Residential Zone.

Standards for Review

The following standards must be satisfied per Section 125-136 of the City Code prior to the approval of the requested amendment:

(1) The amendment is consistent with the comprehensive plan;

(2) The amendment will not have an adverse effect on the ability of the City to:

a. Satisfy land and water use needs; and

b. Meet transportation demands and provide community facilities and services; and

(3) The amendment will promote and protect the public health, safety and general welfare.

The proposed amendment is consistent with the Goals, Objectives, and Policies of the City's Comprehensive Plan and is consistent with the concurrent request to amend the FLU designation of the parcel. Furthermore, the amendment does not appear to have an adverse effect on the ability of the City to satisfy land and water use needs, meet transportation demands, and provide community facilities and services. The presented amendment promotes and protects the public health, safety and general welfare through the increased variety and access to neighborhood goods and services while ensuring minimal impacts to neighboring residential districts.

Future Land Use & Zoning Designation Comparison

The subject site currently has one (1) parcel with a FLU designation of GC, General Commercial. The proposed Medium Density Residential designation is intended for parcels that are best suited for multifamily residential uses ranging in density from six and one-half to 12 dwelling units per acre. This category allows small-lot single family units and multifamily dwellings including duplexes, condominiums, and townhomes. Limited commercial uses intended to serve the residential uses shall be allowed. Compatible public, quasi-public, and special uses including parks, churches, non-profit clubs, schools, and daycare facilities shall also be allowed. This category

combines the previously allowed Medium Density Residential (Rme) and Moderate Density Residential (Rmo) categories.

The subject site is seeking a Future Land Use designation of RM, Medium Density Residential for the parcel to be consistent with the applicant's proposed multi-family site plan.

When comparing both designations the Medium Density Residential designation would be considered a less intense designation compared to the General Commercial designation. Also, when developing a project, all parcels associated with the project should the same Future Land Use and compatible Zoning, so that there are not any inconsistencies in the enforcement of the Land Development Code on the project. This request is an appropriate measure to ensure that the proposed development can be developed under the same set of standards of its chosen Zoning district and Future Land Use designation. Lastly, Residential is not as appropriate for a General Commercial Future Land Use designation as it is for a Medium Density Residential Future Land Use, especially considering the size and scale of the proposed future development.

Technical Review Committee

All affected departments have reviewed the proposed Applications for a Future Land Use Map Amendment and Zoning Atlas Map Amendment for consistency with the requirements of the City Code. Findings and comments from review by affected departments, and the corresponding responses and plan amendments by the applicant are provided for consideration.

Planning Board Recommendation

The Planning Board, at their November 14th, 2022 meeting, voted unanimously to recommend Approval of the request.

Staff Recommendation Future Land Use Map Amendment

The requested Applications for Future Land Use Map Amendments meets the criteria specified in Section 121-136 of the City Code, the Comprehensive Plan, and does not adversely affect the public health, safety, convenience, and general welfare; Therefore, Staff recommends **APPROVAL** to the City Commission.

Staff Recommendation Zoning Atlas Map Amendment

The requested Application for a Zoning Atlas Map Amendment meets the criteria specified in 125-207 and 126-136 of the City Code, the Comprehensive Plan, and does not adversely affect the public health, safety, convenience, and general welfare; Therefore, Staff recommends **APPROVAL** to the City Commission.

Subject: Viva West Multi-Family Development – 2325-111-0001-000-2 (W. Side of S. Jenkins Road)- TRC Comments for April 21, 2022 meeting

Fort Pierce Planning Department

1. **Please submit a detailed narrative/project description and a detailed narrative for Design Review. A detailed project description was checked off on the back of the Development Review Application but not submitted.**

2. Per City Code Section 125-314. – Design Review; provide color elevations and a color board of all angles of the proposed development. **Please provide color elevations and color elevations of the street-views as well.**

3. **Please remove all monument signs from the site plan. Signs will be reviewed during the Building Permit process.**

4. Per City Code Section 125-315. – Off-Street Parking and Loading (j) Lighting. (1)(b): For multi-structure residential complexes, educational facilities, churches or other uses other than as set forth in the other immediately preceding subsection, **a minimum average of one footcandle is required.**

5. **A completion certification by a landscape architect, cost estimate, and landscape bond pursuant to City Code 123-6 shall be required before the Final Certificate of Occupancy is approved for the site.**

6. Will there be any additional dumpster areas or trash compactors?

7. Is this a complete rental community?

Comments may be forthcoming

St. Lucie County Planning Department

- St. Lucie County Planning requests the City to initiate a third-party review of the presented Traffic Impact Report.
- Encourage preservation of native trees/habitat where feasible – exploring natural buffering from I-95 & larger lot SF abutting the site.
- Encourage future pedestrian and vehicular interconnectivity, where feasible, to future commercial development to the north
- Project is on the West* Side of Jenkins

St. Lucie County PW/Engineering

The following comments are offered by SLC PW – Engineering:

1. The traffic report will be required to be reviewed by the County's 3rd party consultant at the cost of the applicant.
2. Dimension the gate setback from the ultimate ROW line.
3. A Site Development Permit from the County will be required for the driveway connection to Jenkins Road. Please coordinate application submittals with Grant Chambers at Chambersg@stlucieco.org
4. For discussion regarding these comments and response, please contact me at 772-462-1491, haysd@stlucieco.org or Grant Chambers at 772-462-2741, chambersg@stlucieco.org.

St. Lucie County Fire District

The Following Revisions Are Necessary:

1. Please submit a completed application for Development/Site Plan Review (St. Lucie County Fire District Development & Site Plan Review Application). This form is available on-line at https://www.slcfd.com
2. Fire District review fees are due at the time of submittal. An abbreviated fee schedule is included on the application form.
3. Please send the Fire District electronic plans for the site and buildings.

4. A separate review and permit is required for Underground Fire Mains connected to standpipes or sprinkler systems.

5. Fire department access roads provided in accordance with 18.2.3 shall be provided at the start of a project and shall be maintained throughout construction. (NFPA 1 16.1.4). Surface. Fire department access roads shall be designed and maintained to support the imposed loads of fire apparatus and shall be provided with an all-weather driving surface. (NFPA 1.18.2.3.5.2.5)

6. Security gates must either be manned 24 hour/day or provide an access control key switch on the control panel to allow for Fire Department entry in an emergency. Security gates must maintain a clear width of 12 feet when open and provide a means to open the gates manually upon loss of power.
7. Be advised: Dimensions of largest vehicle are as follows: 38 tons or 77k lbs, 47.5 ft. total length, 21.5 ft. wheel base, 10.5 ft. total width, 41.5 degree turning radius.

8. A fire department access road shall extend to within 50 ft (15 m) of at least one exterior door that can be opened from the outside and that provides access to the interior of the building. NFPA 1.18.2.3.2.1.

9. Where a one- or two-family dwelling, or townhouse, is protected with an approved automatic sprinkler system that is installed in accordance with NFPA 13D or NFPA 13R, as applicable, the distance in 18.2.3.2.1 shall be permitted to be increased to 150 ft (46 m). NFPA 1.18.2.3.2.1.1.

10. 18.2.3.3 Multiple Access Roads. More than one fire department access road shall be provided when it is determined by the AHJ that access by a single road could be impaired by vehicle congestion, condition of terrain, climatic conditions, or other factors that could limit access.

11. Fire hydrants (shall be) are provided for buildings other than detached one-and-two-family dwellings IAW both of the following 1) The maximum distance to a fire hydrant from the closest point in the building shall not exceed 400 feet. 2) The maximum distance between fire hydrants shall not exceed 500 feet. NFPA 1:18.5.3. Please provide fire flow calculations for hydrants.

12. Fire Hydrants (shall be) are provided for detached one- and two-family dwellings IAW both of the following: 1) The maximum distance to a fire hydrant from the closet point on the building shall not exceed 600 feet. 2) The maximum distance between fire hydrants shall not exceed 800 feet. NFPA 1:18.5.2.

13. Where underground water mains and hydrants are to be provided, they shall be installed, completed, and in service prior to commencing construction work on any structure. It is not intended to prohibit the construction of non-combustible structure foundation elements such as foundations and footings prior to the completion of underground water mains and hydrants (NFPA 1 16.4.3.1.3).

14. An approved water supply capable of supplying the required fire flow for fire protection (shall be) is identified to all premises upon which facilities, buildings, or portions of buildings which are to be constructed or moved into the jurisdiction. The approved water supply shall be in accordance with NFPA 1:18.4. See "Needed NFPA Fire Flow Calculator Spreadsheet".

15. Per NFPA 1114 Chapter 9, Section 1.3. Prior to the final occupancy of any building, the permitted water supply for fire protection, including fire hydrants and fire suppression systems, shall be installed, tested, and acceptable to the AHJ (SLCFD).

16. Minimum Size of Water Mains
a. The minimum size of water mains for supplying water for firefighting purposes shall be six (6) inches. b. The minimum size of water mains supplying hydrants on a dead end main shall be eight (8) inches. c. The maximum number of hydrants located on a dead end main shall be one (1). d. Grid or Tee systems shall be supplied by a minimum of an eight (8) inch looped main. Exceptions may be granted based on the capacity of the water distribution system but in no case shall the main size be less than six (6) inches. e. The minimum size water main(s) shall be determined by the needed fire flow as established by the Fire Marshal and based on the current Insurance Service Office (ISO) requirements.

17. Two-Way Radio Enhancement Systems/BDAS shall be installed, inspected and operationally tested in accordance with the manufacturer's published requirements, by the local fire department, and comply with the most current edition of the Florida Fire Prevention Code and its incorporated standards and codes. Pre-surveys of radio signal strength shall be submitted to the Fire Marshal in the form of heat signature mapping or a certification document of radio signal strength provided by a licensed engineer.

St Lucie County School Board

The St. Lucie County School District has reviewed the above reference project and we have the following comments:

1. Are there any provision being proposed for a school bus stop at this location? As a best practice we do not want to place a bus stop on the arterial roadways where we have alternative. Can a proper location for school bus pull into the complex to pick up students incorporating a good location student to stand/wait for bus at the bus stop.
2. The closest K-8 school is Samuel Gaines Academy is in proximity or walking distance to the project. Please address how a safe route to the school will be developed understanding that there are long term plans to widen Jenkins Roads. How can that safe passage be provided until the road is widened? The aerial photograph below shows the sidewalk just north of the site on the east right-of-way.
3. The LDR required sidewalks on the adjacent roadways, they are not shown on the plans.

Please feel free to contact me if you have any questions.

1. Jenkins Road is a St. Lucie County owned and maintained roadway; please coordinate with the County for Right-of-Way dedications, and driveway connections.

2. The owner/engineer is responsible for obtaining all required permits (SFWMD, NSLRWCD, DFW, etc).

3. Survey calls out Jenkins Road with FDOT Right-of-way; please show the existing Right-of-Way width

4. Please label the NSLRWCD Right-of-Way width.

Traffic Study (O'Rourke):
Page 1 states site is located EAST of Jenkins, this site is located WEST of Jenkins Road.

Site Plan:

1. Plan shows 40' Right-of-Way dedication; how will this impact the entrance layout?
2. How is mitigation handled for Wetland 3?
3. Per Section 125-313 of the Land Development Code, the following items are required for a site plan submittal:

14. A storm drainage plan which indicates the techniques used to control drainage. The plan shall include:

(i) Location and elevations of all existing and proposed drainage facilities within the site plan area and adjacent vicinity for 100 feet in all directions;

(ii) Retention areas and exfiltration systems;

(iii) Length, width, depth and direction of flow for all canals and ditches;

(iv) Storm sewers and appurtenances;

(v) Contour lines at one-foot intervals; and

(vi) A note indicating that all storm drainage facilities shall conform to chapters 32 and 121 and the Standard Specifications adopted by the city commission on February 13, 1973, as amended.

15. A design review plan which meets the requirements of Section 125-314.

Resubmittal Process: Paper copies of the resubmittal shall be submitted directly to the Engineering Department while electronic copies shall be routed through the Building Department. All electronic copies shall be identical to the hard copy submittal, i.e. signed and sealed plans, calculations, etc.

Comments

FPUA W/WW Engineering: Concept approved.

Water and wastewater services are available to serve the subject properties. To connect to these services please submit Utility Plan (2 complete sets) along with a completed plan review and commercial service application to FPUA's Water and Wastewater Engineering department, at 1701 S 37th Street Fort Pierce Florida 34947. Please see the Developer's Responsibilities page on the FPUA website for important steps to guide through the entire process including utility details and permit applications (see link). Details and Specifications can be found at W/WW Engineering Page. For any additional questions please contact Shane Ostrander sostrander@fpua.com.

Note:
FPUA does not accept 10" diameter mains.

FPUA Electric & Gas Engineering: Approved.

Electric service is available to the site (from S. Jenkins Road). Please provide electric load information and AutoCAD drawing. Customer will be responsible for all transformer pads, conduits and secondary conductors. For more information and project coordination, please contact Sal Scimeca.

Sal Scimeca
Engineering Technician II
Electric and Gas Engineering
Office: (772)466-1600 Ext. 6957
sscimeca@fpua.com

Gas service is available to the site (from Okeechobee Road). Please provide a copy of the gas riser diagram with the anticipated load (if developer is interested in natural gas service to the propose complex). For more information and incentive available, please contact Billy Dupre.

Billy Dupre
Business Development Representative
Gas Operations
1701 S. 37th Street, Fort Pierce, FL 34947
Bdupre@fpua.com
Office: (772)-466-1600 Ext.4705
Utility easement will be required for all propose FPUA electric and gas facilities within the site.

Note: FPUA will make every effort to accommodate new developments and upgrades to existing services as much as possible with on-hand material, while maintaining a responsible maintenance stock. However, in most cases, the provision of service is entirely dependent on the lead times provided by equipment manufacturers. Certain key items could be unobtainable for over a year.

Please find attached copies of the FPUA GIS maps (Electric and Gas).

If the developer should have any questions, please have them contact the individual listed above.

FORT PIERCE UTILITIES AUTHORITY
"Community Proud"

Developer's Responsibilities for Utility Connection

The purpose of this document is to provide clear direction for connecting a project to the Fort Pierce Utilities Authority (FPUA) water and wastewater system.

Note that approval through the City of Fort Pierce or Saint Lucie County site plan approval process does not constitute approval of your detailed utility plans through FPUA. The steps required for FPUA approval are listed below. All Forms, Standards and Specifications, Standard Details, etc. can be downloaded from our website under the Doing Business with FPUA link then W/WW Engineering Downloads.

1. Visit www.FPUA.com and become familiar with our Standards and Specifications. Standard details are provided .pdf format for easy transfer onto your construction plans. These details are updated often and you are responsible for obtaining the most current specifications.

   (http://www.fpua.com/Business/StartStopNewServices/DevelopmentServicesWWWDownloads.aspx)

2. It is recommended at this time to contact schedule a pre-design conference with an FPUA Project Manager.

3. Submit payment for Engineering plan review and inspection services fee as per U.A. Resolution 2011-06. You may calculate this fee yourself or contact our office and we shall prepare and fax/e-mail an invoice to you. If you elect to calculate the fee yourself in an effort to expedite the submittal process, keep in mind that your calculations are subject to FPUA approval. This fee must be paid prior to the return of your first plan submittal, permits, etc. Review fees are based on:

   $500 Flat charge per development
   plus $20 per water equivalent residential connection (WERC) at 300 gallons per day
   plus $20 per sewer equivalent residential connection (SERC) at 240 gallons per day

   Note: For multi-family developments, (more than two units per building) each unit represents 70% of one WERC and 87.5% of one SERC.

4. Submit 2 initial sets of detailed utility drawings to 1701 S. 37th Street, Fort Pierce, FL 34947. Submit 3 sets of drawings.

   Note: Reference section 1.22 of the General Design & Construction Standards for Drawing/CAD requirements. Failure to adhere to requirements will result in utility plan denial. Allow 30-day response time. It may take several submittals to receive an approved design.

5. Submit any required permits (Draft) with your initial construction plans. Please use the Water and Wastewater FDEP Permit forms provided on the website as the pertinent information is always current.

6. Submit a Notice of Intent to Discharge Form with your initial construction plans. Should you need an Application for Wastewater Discharge Permit, you will be contacted by our Pretreatment Coordinator.

7. Upon plan approval, you will receive one set of the submitted plans stamped approved or approved as noted and any applicable permits executed.
8. Execute and submit a Water and Wastewater Supply Agreement at the time of final plan submittal. This is a three party document outlining the requirements of the project owner and project engineer.
9. If your property is outside the City Limits, the property owner will be required to sign an Annexation Agreement. Please utilize the following procedure to complete the agreement: provide your FPUA Project Manager with the following information for the property owner: Name, Contact Number, Site Address, Mailing Address, Parcel ID Number

   Our office will provide this information to our attorney, R.N. Koblegard, who will prepare an annexation agreement and their office will call the property owner to schedule an appointment to sign the agreement and will thereafter record the agreement. The service fees, which are subject to change and are payable to Mr. Koblegard at the time the agreement is signed, range from $50 - $400.

   Note that until the approval and acceptance of the Plans and Permits, the execution of the Annexation Agreement, Supply Agreement, and Payment of Capital Improvement Charges, Accrued Guaranteed Revenue Charges, and other associated fees, the project cannot move forward to the construction phase.

10. Submit five sets of shop drawings for all sanitary structures and manufacturer's cut sheets for all materials. These submittals will be reviewed and may be returned approved or revise and resubmit if major deficiencies are found.
11. Contact your FPUA Project Manager to schedule a pre-construction meeting.
12. When your project is getting about 90% complete, please contact your FPUA Project Manager to schedule a post-construction meeting. At that meeting, you will need to have your turnover package complete. All items in the turnover package must be complete prior to scheduling a walk-through. Listed below are the items in the turnover package:

    a. Bill of Sale/Cost and Quantities (utilize form on website)
    b. FDEP Water/Wastewater Certification
    c. DDC Data Sheet to include device number, manufacturer, installation date, test date and results, and device size
    d. Record Drawings – Need Two Sets of Paper Copy Drawings (As-Builts are not accepted)
    e. Gravity Sewer Inspection DVD
    f. Lift Station Start Up
    g. Lift Station O & M Manuals (FPUA Owned Only)
    h. Private Lift Station/Collection System Application (if applicable)

13. If your project requires an easement, the property owner will be required to sign an Easement Form. Please complete the attached form Request for Preparation of Easement and return to your FPUA Project Manager.

    Our office will provide this information to our attorney, who will prepare an easement and their office will call the property owner to schedule an appointment to sign it and will thereafter record the easement. The service fees, which are subject to change and are payable to Mr. Koblegard at the time the easement is signed, are $250 plus recording costs.

14. The following items need to be received prior to any meters being installed or chain being removed from DDC:

    a. All Fees Paid (meter, DDC, deposits, New Account Setup Fees, etc.)
    b. Final Inspection/Walk-Through
    c. Punch List Complete
    d. Contractor's Affidavit and Release of Lien (utilize form on website)
    e. Executed Easement
    f. Memorandum from Applicable Right-of-Way Agency (Agency Granting Permit) that Project is Acceptable to Them
    g. Record Drawings – After Review and Approval, Need Two Sets Paper Copy, One Set of Mylars and One CD in AutoCad Format.

DDC Installation Procedures

Below are the procedures for the installation of a DDC for unmetered fire

- Fire/Mechanical Plans (offsite to device only) approved by FPUA Project Manager (PM)
- Submittals approved by PM, with an approved set provided to Water Distribution (WD)
- PM will acquire DDC installer contact information at pre-construction meeting and provide to WD
- DDC contractor must be licensed with certification in backflow device installation and testing. Proof of certification must be provided to WD prior to pressure test
- Upon notification of the need for a DDC, Engineering Coordinator (EC) e-mails Key Accounts (KA) with device size and account information
- KA sets up account and creates service order which charges $40 Initiation of Service Charge and alerts WD, via service order, of the DDC being installed
- Contractor installs standpipes, concrete pad, and DDC under direct supervision of Water/Wastewater/Natural Gas Engineering Inspector to ensure compliance with clearances and adequate work space for future testing, maintenance, and repairs. Inspector locks device with chain after installation
- Prior to scheduling the backflow certification test through the inspector, all lines to and from the device must be chlorinated and pressure tested per their respective agencies
- WD Service Foreman must be notified (via Inspector) at least 24 hours prior to the test. Service Foreman must be present for the test and re-locks the OS&Y in the closed position after test. The test sheet must be given to WD either directly after the test or arrangements should be made to receive the test results. Engineering does not need a copy of the test results; WD will notify inspector of the test results
- If at any time after the DDC installation the lock or chain has been found cut, the Revenue Protection Officer will be notified immediately. **Tampering or removal of the lock and/or chain will result in a Tampering Fee of $200 and all associated fees according to the current FPUA Resolution. (WD will do a T-Tamper-Water service order; Revenue Protection Officer will go to site, take pictures, and bill tampering fee)**
- After final walk-thru, EC will send Meter Installation Authorization (MIA) Form to WD Administrative Coordinator authorizing removal of the chain and begin billing
- WD will remove the chain and add the DDC information to the account, including the device number and billing rate
- EC will send Cost and Quantities to Finance to record the asset

REQUEST FOR PREPARATION OF EASEMENT

1. CUSTOMER NAME AND ADDRESS

_____

_____

_____

_____

2. CUSTOMER CONTACT PERSON, ADDRESS AND PHONE NUMBER

_____

_____

_____

_____

_____

_____

_____

6. EASEMENT TO BE PREPARED AT THE COST OF

_____ PROPERTY/BUSINESS OWNER

_____ FPUA

7. PROJECT SCHEDULED COMMENCEMENT DATE _____

8. ATTACH SKETCH OF EASEMENT

SEQUENCE OF EVENTS IN PREPARATION OF EASEMENT

1. Complete Request for Preparation of Easement. When at all possible, all easements should be done on one form.

2. Forward completed Request form to FPUA Attorney.

3. FPUA Attorney will order title search.

4. Upon receipt of title search, FPUA Attorney will email identity of owner and any mortgagees to FPUA Contact Person.

5. FPUA Contact Person will contact Customer/Owner to determine willingness to sign an easement and inform the Owner of the need for the lender, if any, to join in easement.

6. If Customer/Owner is willing to sign an easement, FPUA Contact Person will so advise FPUA Attorney, and an easement will be prepared.

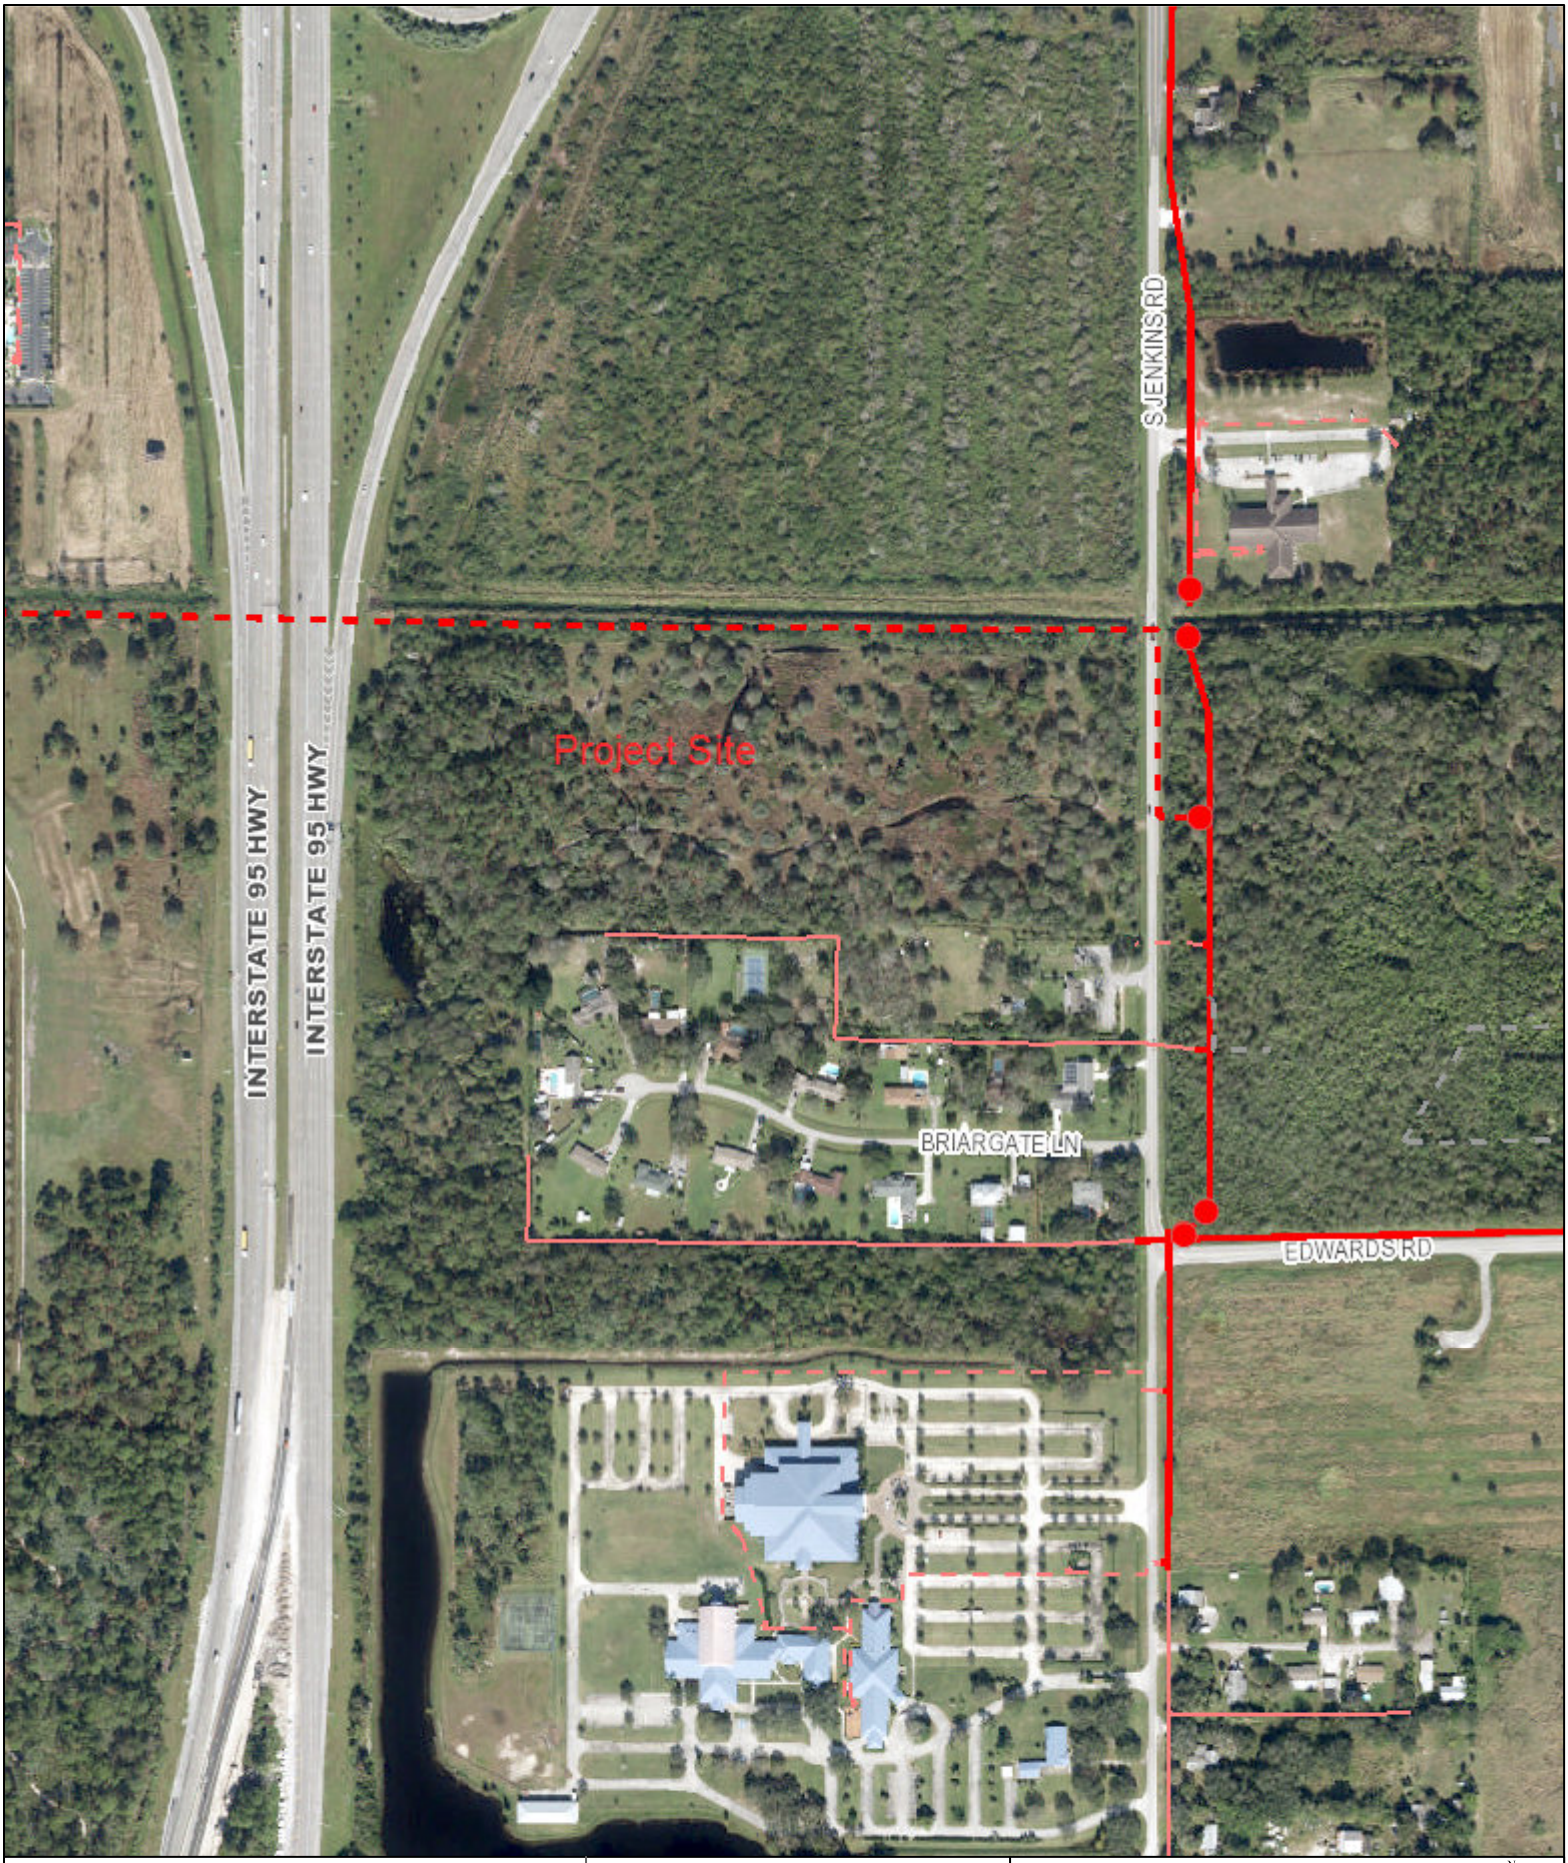

7. FPUA Attorney will call Customer/Owner to make arrangements to have the easement signed. In the alternative, if Contact Person wishes, the easement and other documents can be emailed to FPUA Contact Person to have signed. FPUA Contact Person will then return the signed easement/documents to FPUA Attorney.

8. FPUA Attorney will record the signed easement/documents and will return the recorded easement to Water/Wastewater Engineering to the Engineering Coordinator.

9. Engineering Coordinator assigns a Utilities Easement Number, scans and saves easement document, and records in the MS Access Easement Database.

10. Engineering Coordinator gives the easement to the technician assigned to put on GIS. Technician draws easement on GIS and gives to Project Manager for verification.

11. Upon verification, Project Manager gives Engineering Coordinator original recorded easement. Engineering Coordinator places in fireproof file cabinet.

CITY OF FORT PIERCE

PLANNING BOARD

Planning Board Minutes

OF THE REGULAR MEETING OF THE FORT PIERCE CITY PLANNING BOARD HELD ON MONDAY, NOVEMBER 14, 2022, IN FORT PIERCE CITY HALL, COMMISSION CHAMBERS, 100 NORTH US HIGHWAY 1, FORT PIERCE, FLORIDA.

1. CALL TO ORDER

2. PLEDGE OF ALLEGIANCE

3. ROLL CALL

Present: Alexander Edwards; Nichelle Clemons; Bob Burdge; Anton Kreisl; Frank Creyaufmiller, Chairman

Absent: Harold Albury

Staff Present: Kev Freeman, Planning Director
Ryan Altizer, Planner
Alicia Rosenthal, Planning and Development Organizer

4. CONSIDERATION OF ABSENCES

Mr. Albury was excused from the meeting.

5. APPROVAL OF MINUTES

a. Minutes from the October 10, 2022 meeting

Motion was made by Bob Burdge, and seconded by Nichelle Clemons to approve the minutes from the October 10, 2022 meeting.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

6. **HEARING OF THE LOCAL PLANNING AGENCY**

a. **Future Land Use Map Amendment - Viva West - 3037 South Jenkins Road**

Mr. Altizer gave an overview of the application and stated the current Future Land Use is GC - General Commercial and the proposed Future Land Use is RM - Medium Density Residential. Chairman Creyaufmiller inquired if any meetings have been held with the Briargate neighborhood. Mr. Kreisl asked if there were any restrictions on land use of how close to the interstate the residences can be set. Mr. Freeman stated he is not aware of a community meeting with the Briargate neighborhood or of any additional restrictions on land use besides the setbacks. Mr. Freeman noted the Future Land Use change will reduce the intensity of the property.

Matthew Scott, Applicant Representative from Dunay, Miskel & Blackman Law Firm, stated he personally met with the Briargate neighborhood and the main concerns were buffering, traffic and drainage. Mr. Scott said another meeting will be held with the neighborhood at the site plan phase. Mr. Scott showed gave a brief presentation showing the variety of entry level cottage style homes and townhomes, along with the various amenities.

Steven Cooper, Engineer, spoke about the drainage, and he explained that Viva West will reduce the discharges in Briargate neighborhood, and the water not held on site will go into the canal controlled by North St. Lucie Water Control District.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission for the Future Land Use change located at 3037 S. Jenkins Road from GC, General Commercial to RM, Medium Density Residential.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

b. **Future Land Use Map Amendment - Allegra at Fort Pierce - Parcel IDs: 2419-111-0002-000-7 and 2419-113-0001-000-6**

Mr. Altizer gave an overview of the application and answered questions from the Board. He explained the request is to change the Future Land Use Map Amendment for two (2) parcels from GC, General Commercial to RM, Medium Density Residential. He highlighted the decrease in density for both commercial and residential land use.

Lee Dobbins, Applicant Representative, from Dean Mead Law Firm, explained that the northern parcel was recently annexed into the city and the change is for two parcels. Mr. Dobbins stated there has been two community meetings with the neighborhood and the concerns were with drainage, traffic and how the development fits in with the neighborhood. Mr Dobbins noted that the use will be less intense with less traffic and the neighborhood concerns can be addressed at the site plan stage. Mr. Dobbins answered questions from the Board on the number of rental units, ingress and egress off of 41st Street, and market research showing development is appropriate for the area.

Deborah Fournier, resident, showed pictures of her neighborhood flooding and, she wants a solution to the drainage issues.

Mr. Freeman stated that it is difficult for staff to guarantee a solution at this point, but staff can ensure that all local codes will have to be met for whatever is designed.

Patricia Ruby, resident, spoke against the application, highlighting traffic issues, flooding, crime and the main entrance needed to be located on Okeechobee Road instead of 41st Street.

Gina Grant, resident, has concerns with flooding and traffic. She suggested a traffic light be placed at 41st Street and Okeechobee Road.

Mr. Dobbins stated the intersection and turn lanes will change at the site plan stage and the change in the Future Land Use and Zoning will lower the possible traffic count. He highlighted that the development will capture their own drainage on site, and it will go to the outfall canal.

Motion was made by Nichelle Clemons, and seconded by Alexander Edwards to forward a recommendation of approval to the City Commission for the Future Land Use Map Amendment, change for two (2) parcels 2419-111-0002-000-7 and 2419-113-0001-000-6 from GC, General Commercial to RM, Medium Density Residential.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

7. NEW BUSINESS

a. Annexation - 7-Brew Drive-Thru - 2605 Kerr Street

Mr. Altizer gave an overview of the annexation. He stated the current Future Land Use is COM, Commercial (St. Lucie County) and the proposed Future Land Use is GC, General Commercial. The current zoning is CO, Commercial Office (St. Lucie County) and the proposed zoning is C-3, General Commercial Zone.

Chris Ossa, Engineer of Record from Kimley Horn & Associates, stated the client has no plans of keeping the billboard located on the property.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission for the annexation of 2605 Kerr Street.

AYE: Nichelle Clemons, Bob Burdge, Anton Kreisl, Alexander Edwards, Chairman Frank Creyaufmiller

Passed

b. Zoning Text Amendment - Edgartown Settlement Zoning District

This item was presented after item 7j.

Mr. Freeman stated he recommended this item going to the Historic Preservation Board for discussion purposes and then come back to the Planning Board for review.

Motion was made by Bob Burdge, and seconded by Nichelle Clemons to forward the Edgartown Settlement Zoning District Text Amendment to the Historic Preservation Board meeting for discussion and then come back to the Planning Board for review.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

c. **Zoning Text Amendment - Code of Ordinances, Chapter 121 - Subdivisions Sec. 121-8, 121-9 and 121-10. Plat specification**

This item was presented as the last item under New Business.

Chairman Creyaufmiller spoke to Mr. Freeman before the meeting to suggest that the amended Preliminary Plat process go to the Planning Board after the Technical Review instead of the City Commission. Chairman Creyaufmiller said the Planning Board function is to be an overview to the Planning department and the amendment is to streamline and speed up the process so when the final design work is done, the City Commission can review the final Plat

Mr. Freeman stated the text amendment was based on a recommendation from 2016 and recently a Preliminary Plat came in that did not meet the existing city requirements for a Preliminary Plat. He explained that a preliminary plat is preliminary to the final plat and the city seemed to have it backwards. Most of the details were provided at Preliminary and the Final Plat was almost an overview of the Preliminary Plat. Mr. Freeman said the recommendation is to have the Preliminary Plat meet the basic requirements to enable developments to move to building permit before final Certificate of Occupancy. The Final Plat will get everything in order for the final Certificate of Occupancy. Mr. Freeman highlighted the move is to streamline the Preliminary Plat Process by allowing the Preliminary Plat Process to be optional and require the Final Plat meet state statute requirements.

Motion was made by Bob Burdge, and seconded by Anton Kreisl to amend the proposed text amendment to include the Planning Board in exchange for the City Commission in the Preliminary Plat process.

AYE: Anton Kreisl, Alexander Edwards, Nichelle Clemons, Bob Burdge, Chairman Frank Creyaufmiller

Passed

d. **Zoning Atlas Map Amendment - Viva West - 3037 South Jenkins Road**

Mr. Altizer gave an overview of the application, and he stated the current zoning on the approximately 27.89 acre parcel is C-3, General Commercial Zone and the proposed zoning is R-4, Medium Density Residential Zone.

Matthew Scott, Applicant Representative, from the Dunay, Miskel, & Blackman Law Firm, made himself available for questions from the Board.

Motion was made by Nichelle Clemons, and seconded by Alexander Edwards to forward a recommendation of approval to the City Commission for the Zoning Atlas Map Amendment from C-3, General Commercial Zone to R-4, Medium Density Residential Zone for 3037 S. Jenkins Road.

AYE: Anton Kreisl, Alexander Edwards, Nichelle Clemons, Bob Burdge, Chairman Frank Creyaufmiller

Passed

e. **Zoning Atlas Map Amendment - Allegra at Fort Pierce - Parcel IDs: 2419-111-0002-000-7 and 2419-113-0001-000-6**

Mr. Altizer gave an overview of the application and stated the request is to change the two (2) parcels from C-3, General Commercial zone to R-4, Medium Density Residential zone.

Mr. Dobbins made himself available for questions from the Board.

Motion was made by Alexander Edwards, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission for the Zoning Map Amendment change of two (2) parcels 2419-111-0002-000-7 and 2419-113-0001-000-6 from C-3, General Commercial to R-4, Medium Density Residential.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

f. **Zoning Atlas Map Amendment - 805 Office Plaza - 805 Virginia Avenue**

Mr. Altizer gave an overview of the application. He said the request is for a Zoning Map Amendment, change for 805 Virginia Avenue from R-5, High Density Residential zoning, to C-3, General Commercial zoning.

Mr. Burdge asked the current uses in the strip center and if C-1 zoning would buffer the neighborhood better with C-3 zoning.

Brad Currie, Applicant Representative from Engineering, Design and Construction, stated the applicant has had to ask for Conditional Uses on the property since it was zoned R-5 and most of the zoning is the area is C-3.

Mr. Kreisl asked to see more information on the current uses to confirm that the current uses are consistent with the C-1 zoning and to assure that would not pose any issues with the applicant. He suggested the item be tabled.

Mr. Freeman said the item can continue to the next Planning Board meeting with staff's analysis based on the Planning Board's discussion points. Mr. Freeman noted considering spot zoning and the uses.

Mr. Currie said that Neighborhood Commercial use is not allowed in C-1 and that could become a problem, but there is not a big difference between C-1 and C-3 zoning. He stated that his client would like to get the most intense zoning as possible.

Mr. Burdge mentioned the tax benefit of C-1 over C-3, due to a higher appraisal value of C-3 zoning.

Motion was made by Bob Burdge, and seconded by Anton Kreisl to table the application for further investigation from staff regarding potential C-1 zoning.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

g. **Major Amendment to Planned Development - Red Hawk Rebar - 4280 Bandy Boulevard**

Mr. Altizer gave an overview of the application and provided brief history on the project. The City Commission of the City of Fort Pierce approved the Zoning Atlas Map Amendment to Planned Development along with an approved development plan on September 4, 2018. The original proposed development plan consisted of a 40,000 square foot manufacturing facility and the new proposal consists of a smaller footprint of approximately 32,000 square feet.

Dennis Murphy, Applicant Representative from Culpepper and Terpening, stated the application is the same except the building footprint has changed.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission with the following condition:

1. A completion certification by a landscape architect, cost estimate and landscape bond pursuant to City Code 123-6 shall be required before the Final Certificate of Occupancy is approved for the site.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

h. **Conditional Use - Brighter Care Adult Daycare - 415 Avenue A**

Mr. Altizer gave an overview of the application. He stated the daycare will be 4,892 square feet inside the Kraaz & Kraaz Building and the tentative capacity is approximately 10 patients.

Mr. Burdge asked if there will be the availability for a horseshoe drop off point for convenience and security.

Shantell Walkine, Applicant, stated she has been in the medical field for 40 years and, she wants to provide entertainment to elderly patients in Fort Pierce. Ms. Walkine said there is currently not covered parking at the location and there is the ability to utilize the horseshoe drop off point.

Motion was made by Bob Burdge, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

i. **Conditional Use - Longman Garage & Guest House - 1506 Thumb Point Drive**

Mr. Altizer gave an overview of the application. He stated the garage will be 1,974 square feet and the 2nd floor living (Guest House) will be an additional 1,974 square feet.

Mr. Freeman stated he received two objection e-mails from residences that are adjacent and close to the property. He stated they had concerns with the architecture, setbacks, appropriateness of the design and the location. Mr. Freeman noted that the state statute limits the Planning Board and City Commission on architectural developments on single family homes. He mentioned that there is an exception for property located in the CRA. He noted that the Conditional Use application does not require architectural guidelines and the South Beach Overlay has architectural elements for multifamily and non-residential development. Mr. Freeman stated that the Planning Board has no authority to condition the architecture but, they can limit the height.

Mr. Burdge asked if the current zoning allows for two homes on the parcel and if the guess house incorporates a kitchen. Mr. Kreisl asked the total square footage and if the current plan has kitchen facilities.

Mr. Freeman stated an additional dwelling unit cannot be granted on the property.

Board discussion ensued on the height of the building, the South Beach overlay height restrictions, and why the extra height is needed.

David Hicks, resident, spoke against the application. He stated the garage is too close to the property line, creates privacy issues and does not fit in the neighborhood with mostly one-story homes. Mr. Hicks showed the Board pictures of the survey, floor plan and what the garage would look like next to the single family home.

Sally Griffith, resident, spoke against the application. Mr. Griffith said she agrees with everything Mr. Hicks said, and she added the garage is too big, too commercial looking and does not fit in the neighborhood.

The applicant did not attend the meeting.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to disapprove the Conditional Use for the height of the garage and guest house because there is no compelling reason to allow the height restriction.

AYE: Nichelle Clemons, Bob Burdge, Anton Kreisl, Alexander Edwards, Chairman Frank Creyaufmiller

Passed

j. **Site Plan, Design Review and Conditional Use - Ballarena Multi-Family - 4701 Regina Drive**

Mr. Altizer gave an overview of the application. He stated the development will be a 114-Unit multifamily innovative residential development with six (6) townhomes and three (3) conventional apartment buildings. He noted the application requires approval of the Conditional Use for the additional maximum density bonus of two (2) units per acre. The density bonus qualifies because the landscaping plan provides for effective use, the site plan provides for creative placement of buildings and other facilities and the design elevations

provide for imaginative design features.

Dan Sorrow, Applicant Representative from Cotleur and Hearing, provided the Board with a detailed presentation. He stated the property is just under 10 acres with the site ingress and egress off of Weatherbee Road. Mr. Sorrow noted the various amenities being a tot lot, picnic and BBQ area, pool, gym, clubhouse, dog park and cultivating garden. He highlighted the up lighting on the Royal Palm trees along Weatherbee Road, the enhanced buffers along the south and east side of the property, on-street parallel parking and a sidewalk along Weatherbee Road and Regina Drive. Mr. Sorrow stated there will be 112 to 114 rental units all concrete block with impact glass. He said the development exceeded the landscape code by 13%.

Mr. Sorrow answered Chairman Creyaufmiller's question regarding Poinsettia Avenue. He stated the property owner owns one-half of Poinsettia Avenue, and it is part of the plan that will be dedicated for future right-of-way when the county wants to expand Poinsettia Avenue. Mr. Sorrow answered questions from the Board on school bus access and drop off and vehicle charging stations on the property,

Motion was made by Bob Burdge, and seconded by Anton Kreisl to forward a recommendation of approval for the Site Plan, Design Review and Conditional Use to the City Commission with the following four (4) conditions:

1. Prior to the issuance of Building Permit approval, provide colored elevations to demonstrate that the proposed building conforms to the specifications of City Code 125-314, Design Review.
2. Incorporate littoral zone plantings around the lake/retention pond per City Code Section 123-6.
3. A completion certification by a landscape architect, cost estimate and landscape bond pursuant to City Code 123-6 shall be required before the Final Certificate of Occupancy is approved for the site.
4. Prior to the issuance of any site clearing permits, the applicant shall provide a Tree Mitigation Survey and coordinate with the City of Ft. Pierce Arborist for the required mitigation of the City regulated trees proposed to be removed as a result of this site’s development/construction activity.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

8. **COMMENTS FROM THE PUBLIC**

Lainey Williams, Edgartown Representative from Jones Foster Law Firm, stated some modifications to the Edgartown Text Amendment would be best for the homeowners and residents. She stated that certain uses are permitted uses and not conditional uses and, they do not agree with the amplified sound in the zoning district. Ms. Williams said the DBA level is typical of a commercial area and suggested sound limiters be required on the property. She also noted the violations are not strong enough for the sound level.

Holly Theuns, resident and Vice-Chair of the Historic Preservation Board, said the city is lucky to have the Edgartown gem in downtown. She stated that she purchased and remodeled a 1905 house in Edgartown when the 2012 Edgartown ordinance was in place, which protected the residents of Edgartown against what is being experienced now.

9. DIRECTOR'S REPORT

There was no director's report.

10. BOARD COMMENTS

Chairman Creyaufmiller asked for Planning Board hard copy packets due to the difficulty in reviewing the drawings.

11. ADJOURNMENT

THE SUNRISE CITY
FORT PIERCE
PLANNING DEPARTMENT
Florida

Application for Future Land Use Map Amendment

☒ Future Land Use Map Amendment – Large Scale (>10 acres)

☐ Future Land Use Map Amendment – Small Scale (<10 acres)

In accordance with Chapter 163.3187, Florida Statutes, The City of Fort Pierce will consider applications for land use changes on parcels in excess of 10 aces ("Large Scale Amendments") only twice each calendar year. The City Commission will consider applications for land use changes on parcels less than or equal to 10 acres with a maximum density of 10 units per acres or less at any time during the calendar year. You are encouraged to schedule a pre-application meeting with the planning staff and to submit your application up to three months in advance of the application deadline.

Application submission shall include the following:

●**TRC** (*Initial Submission): One (1) original and (8) paper copies of the application and support documents and provide one (1) electronic copy of the application packet as described below.

●**Planning Board**: One (1) original and (13) paper copies of the application and support documents and provide one (1) electronic copy of the application packet as described below.

●**City Commission**: One (1) original and (11) paper copies of the application and support documents and provide one (1) electronic copy of the application packet as described below.

In addition to a complete application, packets shall include:

- ☐ Warranty Deed & Legal Description
- ☐ St. Lucie County Property Record Card
- ☐ Statement of why there is a need for the proposed future land use map amendment and how the amendment will result in an orderly and logical development pattern; statements how amendment(s) are consistent with Comprehensive Plan; how future land use designation is compatible with future land use designations and existing land uses surrounding the amended lands; identify future land use designations and existing land uses within a ½ mile of the subject property that have the same or greater type of proposed future land use designation; data and analysis to support conclusions.
- ☐ Current Survey
- ☐ Environmental Study
- ☐ Traffic Impact Report
- ☐ *** Capacity Analysis-Separate Form
- ☐ Drainage Analysis
- ☐ Historical Report
- ☐ 1 CD of all documents submitted in PDF
- ☐ Other_____

1. Property Address/Location: east side of S. Jenkins Rd. between Edwards Rd. & Okeechobee Rd.
2. Property Tax ID(s): 2325-111-0001-000-2
3. Total Acreage: 27.89
4. Existing Future Land Use Designation: GC (General Commercial)
5. Existing Zoning Classification: C-3 (General Commercial)
6. Proposed Zoning Classification: R-4 Medium Density Residential
7. Other applications being submitted concurrent with this application, if any: Rezoning application to change the zoning designation from C-3 to R-4
8. Describe the existing uses, improvements and structures on the amendment lands: The property is unimproved
9. Are there any identified or possible historical structures on the amendment lands? no
10. The reason for making this request: The land use and zoning amendment requests will allow the property to be developed with a residential development containing 140 cottage style apartment units.

11. **Capacity Analysis:**

I. Site Data:

	Existing Use	Future Land Use	Zoning
North	Vacant Land	GC	C-3
South	Single-family Residential	RL	R-2
East	KOA Campground	BC	PD
West	I-95	GC	CP-1

	Future Land Use	Zoning Classification	Maximum Intensity Residential: Dwelling Units per Acre Other: Square Footage	Total Acreage	Flood Zone
Current	GC	C-3	1,214,888 sq. ft.	27.89	X
Proposed	RM	R-4	334	27.89	N/A

II. Public Facilities Information:

A. Potable Water:	
Average Use	Residential: 100 gallons per day per person (du x 2.6= persons x 100 gpd = demand) Other: 0.125 gallons per day per square foot 334 du x 2.6 = 868 persons
Demand Analysis	Maximum 868 x 100 = 86,800 gpd
Current Zoning	Total gallons per day 0.125 x 1,214,888 = 151,861 pgd
Proposed Zoning	Total gallons per day 86,800 gpd
Change in Demand	**Total gallons per day** 151,861 - 86,800 = 65,061 gpd decrease

B. Wastewater:	
Average Use	Residential: 100 gallons per day per person (du x 2.6= persons x 100 gpd = demand) Other: 0.1 gallons per day per square foot 334 du x 2.6 = 868 persons
Demand Analysis	Maximum 868 x 100 = 86,800 gpd
Current Zoning	Total gallons per day 0.1 x 1,214,888 = 121,488 gpd
Proposed Zoning	Total gallons per day 86,800 gpd
Change in Demand	**Total gallons per day** 121,488 - 86,800 = 34,688 gpd decrease

C. Parks and Recreation (Residential Classifications Only): 334 du x 2.6 = 868 persons + 44,227 = 45,095
(Du x 2.6 = persons + 44,227 = population /LOS)

Park Type	LOS	Existing Population Park Demand	Proposed Population Park Demand	Change in Demand
Regional	20 acres per 1,000 people	0	45.09/20 = 2.25	2.25 acres
Urban District	5 acres per 1,000 people	0	45.09/5 = 9.01	9.01 acres
Community	2.5 acres per 1,000 people	0	45.09/2.5 = 18.03	18.03 acres
Neighborhood	1.36 acres per 1,000 people	0	45.09/1.36 = 33.15	33.15 acres

D. Public Schools (Residential Classifications Only):
Single Family: (du x 0.405 = students/70% K-8/30% High) 344 du x 0.405 = 139 students 70% = 97 students; 30% = 42 students
Multi-family: (du x 0.207 = students/70% K-8/30% High)

	K-8	High
School Name	Chester A. Moore Elementary	Dan McCarthy Middle/Ft. Pierce Central High
City	Ft. Pierce	Ft. Pierce
Distance	5.4 miles	4.4 miles/3.7 miles
Current Zoning Enrollment Demand	0	o
Proposed Zoning Enrollment Demand	97	42
Change in Demand	97	42

E. Solid Waste:
2 yard serves 15 units, 4 yard serves 30 units, 6 yard serves 45 units, 8 yard serves 60 units

Demand Analysis	Maximum
Current Zoning	None
Proposed Zoning	334 units = 5(8 yard unit); 1 (6 yard unit)
Change in Demand	increase in 46 yards

F. Stormwater: Potential increase in volume discharged due to increased impervious coverage, reduced groundwater seepage or loss of surface water storage impacting Adopted LOS of 25-year 3-day storm Pre vs. Post Runoff (Storm sewers to convey 5 year- 1 day storm event; Canals to convey 3 year – 1 day storm event)	
Impact	The proposed surface water management (swm) system will include site grading and a series of inlets which direct stormwater to a proposed wet retention/detention system. The proposed swm shall be designed to limit post development discharge to pre-development rates up to and including a 25 year, 72 hour storm. Storm sewers to be designed to convey at least a 5 year, 1 day storm. The system will also meet the discharge limitations (2"/24 hours) for the outfall canal owned and operated by North St. Lucie River Water Control District (NSLRWCD), Min Finished Floor elevation to be at or above the 100 year storm.

G. Transportation Analysis: Most recent ITE Code for use; HCM Roadway Capacity		
	AADT	**AM/PM Peak Hour Trips**
Demand Analysis	Maximum	Maximum
Current Zoning	18,792	AM-850 PM-3,407
Proposed Zoning	1,108	AM-126 PM-164
Change in Demand	Trips (17,684)	Trips AM-(724) PM-(3,243)
Impact to Capacity	No impact to capacity as the trips for the proposed zoning & land use are less than the trips under the existing zoning & land use.

Application for Zoning Atlas Map Amendment

Application submission shall include the following:

●**TRC** (*Initial Submission): One (1) original and (8) paper copies of the application and support documents and provide one (1) electronic copy of the application packet as described below.

●**Planning Board**: One (1) original and (16) paper copies of the application and support documents and provide one (1) electronic copy of the application packet as described below.

●**City Commission**: One (1) original and (11) paper copies of the application and support documents and provide one (1) electronic copy of the application packet as described below.

In addition to a complete application, packets shall include:

- ☐ Warranty Deed & Legal Description
- ☐ St. Lucie County Property Record Card
- ☐ Statement of why there is a need for the proposed future land use map amendment and how the amendment will result in an orderly and logical development pattern; statements how amendment(s) are consistent with Comprehensive Plan; how future land use designation is compatible with future land use designations and existing land uses surrounding the amended lands; identify future land use designations and existing land uses within a ½ mile of the subject property that have the same or greater type of proposed future land use designation; data and analysis to support conclusions.
- ☐ Current Survey
- ☐ Environmental Study
- ☐ Traffic Impact Report
- ☐ *** Capacity Analysis-Separate Form
- ☐ Drainage Analysis
- ☐ Historical Report
- ☐ 1 CD of all documents submitted in PDF
- ☐ Other_____

1. Property Address/Location: east side of S. Jenkins Rd. between Edwards Rd. & Okeechobee Rd.
2. Property Tax ID(s): 2325-111-0001-000-2
3. Total Acreage: 27.89
4. Existing Future Land Use Designation: GC (General Commercial)
5. Existing Zoning Classification: C-3 (General Commercial)
6. Proposed Zoning Classification: R-4 Medium Density Residential
7. Other applications being submitted concurrent with this application, if any: Land Use Plan Map Amendment

8. Describe the existing uses, improvements and structures on the amendment lands: The property is unimproved

9. Are there any identified or possible historical structures on the amendment lands? no

10. The reason for making this request: he land use and zoning amendment requests will allow the property to be developed with a residential development containing 140 cottage style apartment units.

SPECIAL WARRANTY DEED

This Special Warranty Deed is executed effective the 16th day of July, 2019, by **LAND HOLDING, LLC**, with an address of The Tower at PNC Plaza, 300 Fifth Avenue, Pittsburgh, PA 15222-2401 (hereinafter referred to as "Grantor"), to **KIVA DEVELOPMENT, LLC,** a Florida limited liability company, with an address of 2239 Abrams Road, Eustis, Florida 32726 (hereinafter referred to as "Grantee").

Witnesseth, that the said Grantor, for and in consideration of the sum of $10.00, in hand paid by the said Grantee, the receipt whereof is hereby acknowledged, hereby grants, bargains, sells, aliens, remises, releases, conveys, and confirms unto the Grantee all of that certain real property situate in the **County of St. Lucie, State of Florida**, *to wit*:

See **Exhibit "A"** attached hereto and made a part hereof.

Together with all tenements, hereditaments, and appurtenances thereon.

Wherever used herein, the terms "Grantor" and "Grantee" shall be deemed to include the parties to this Deed, the heirs, legal representatives, and assigns of individuals, and the successors and assigns of any partnership, corporation, or limited liability company. The singular shall be deemed to include the plural, and vice versa, where the context so permits or requires.

Grantor hereby covenants with said Grantee that the Grantor is lawfully seized of said real property in fee simple; that Grantor has good right and lawful authority to sell and convey said real property; that Grantor hereby fully warrants the title to said real property and will defend the same against the lawful claims of all persons claiming by, through, or under Grantor, but no other; and that said real property is free of all encumbrances, except taxes accruing subsequent to December 31, 2018, and except the matters and restrictions of record.

In Witness Whereof, the said Grantor has signed and sealed these presents the day and year first above written.

Community	2.5 acres per 1,000 people	0	45.09/2.5 = 18.03	18.03 acres
Neighborhood	1.36 acres per 1,000 people	0	45.09/1.36 = 33.15	33.15 acres

D. Public Schools (Residential Classifications Only): 344 du x 0.405 = 139 students
Single Family: (du x 0.405 = students/70% K-8/30% High)
Multi-family: (du x 0.207 = students/70% K-8/30% High) 70% = 97 students; 30% = 42 students

	K-8	High
School Name	Chester A. Moore Elementary	Dan McCarthy Middle/Ft. Pierce Central High
City	Ft. Pierce	Ft. Pierce
Distance	5.4 miles	4.4 miles/3.7 miles
Current Zoning/FLU Enrollment Demand	0	0
****Proposed Zoning/FLU Enrollment Demand**	97	42
****Change in Demand**	97	42

E. Solid Waste: Residential (2 yard serves 15 units, 4 yard serves 30 units, 6 yard serves 45 units, 8 yard serves 60 units)	
Demand Analysis	Maximum
Current Zoning/FLU	None
****Proposed Zoning/FLU**	334 units = 5(8 yard unit); 1 (6 yard unit)
***Change in Demand**	increase in 46 yards

F. Stormwater:
Potential increase in volume discharged due to increased impervious coverage, reduced groundwater seepage or loss of surface water storage impacting Adopted LOS of 25-year 3-day storm Pre vs. Post Runoff (Storm sewers to convey 5 year- 1 day storm event; Canals to convey 3 year – 1 day storm event)

Impact	The proposed surface water management (swm) system will include site grading and a series of inlets which direct stormwater to a proposed wet retention/detention system. The proposed swm shall be designed to limit post development discharge to pre-development rates up to and including a 25 year, 72 hour storm. Storm sewers to be designed to convey at least a 5 year, 1 day storm. The system will also meet the discharge limitations (2"/24 hours) for the outfall canal owned and operated by North St. Lucie River Water Control District (NSLRWCD), Min Finished Floor elevation to be at or above the 100 year storm.

III. Transportation Analysis: *Complete ITE Trip Generation Form (Attached)*

G. Transportation Analysis: Complete ITE Trip Generation Data Form Most recent ITE Code for use; HCM Roadway Capacity		
	AADT	**AM/PM Peak Hour Trips**
Demand Analysis	Maximum	Maximum
Current Zoning/FLU	18,792	AM-850 PM-3,407
****Proposed Zoning/FLU**	1,108	AM-126 PM-164
***Change in Demand**	Trips (17,684)	Trips AM-(724) PM-(3,243)
Impact to Capacity	No impact to capacity as the trips for the proposed zoning & land use are less than the trips under the existing zoning & land use.	

IV. Project Description

PHASING			
Is this project (phase) part of a larger project?	☐ Yes	☑ No	
If yes, enumerate each phase, the number of units or square footage in each phase and beginning/completion date.			
Total Project: Residential Units: 140	Single Family:	Multifamily: 140	
Non-residential (square footage): None			
Mixed-use (describe use): None			
(If this is a single phase project, name it Phase I – Total) Phase I-total 140			

RESIDENTIAL DATA

Type	**Phase**	**Number of Units**	**Acres**	**Expected beginning date**	**Expected completion date**
Single-family, detached	I	140	27.89		
Single-family, attached					
Multi-family					
Other (specify)					

NON-RESIDENTIAL DATA					
Type(s) specify	**Phase**	**Square footage**	**Acres**	**Expecting beginning date**	**Expected completion date**
N/A					

A. Indicate whether the proposed project will be eliminating any existing recreational facilities. If yes, detail the number and type being eliminated. ☐ Yes ☑ No

B. 1. Does this application involve demolition or re-use of any structure(s)? ☐ Yes ☑ No
If yes, what is the size of the structure(s) to be demolished or re-used? N/A

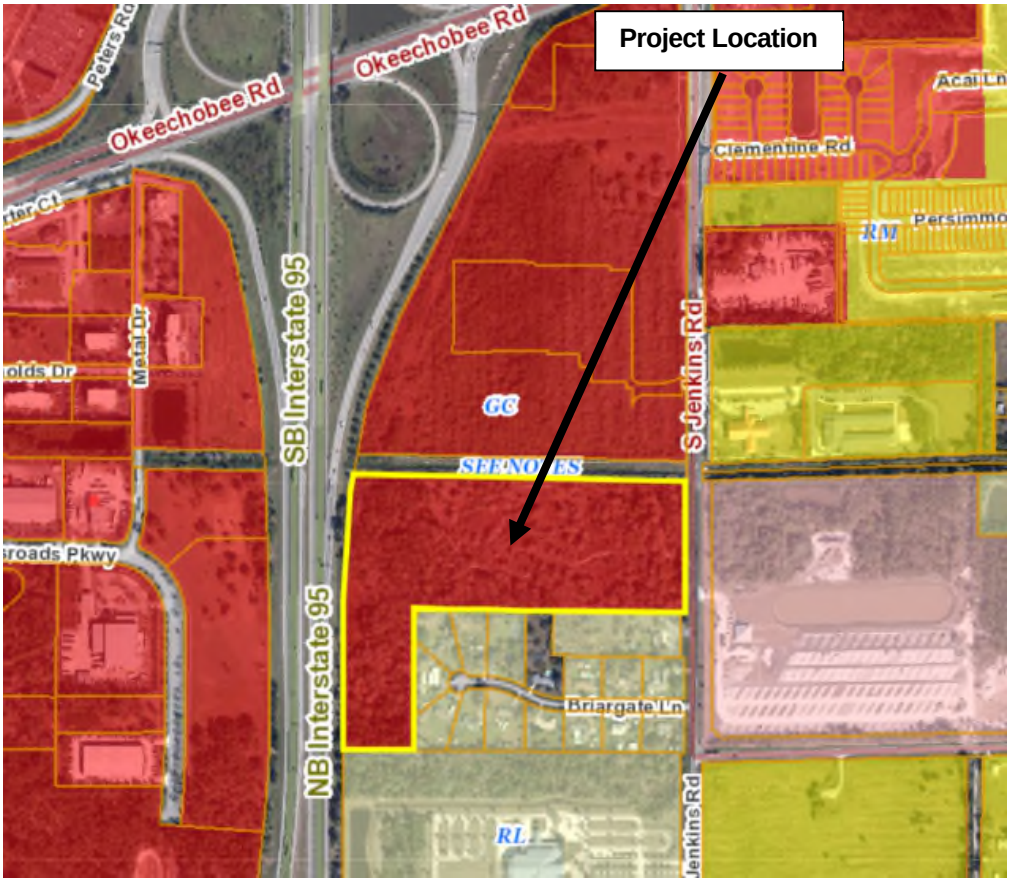

2. What is the current use of the structure to be demolished or re-used? N/A

3. Are you claiming trip credits for the demolition or re-use of a structure(s) at the site? ☐ Yes ☑ No
If yes, provide estimates of credits for each previous use at the site. (Attach sheet with calculations)

C. Exemptions Requested: None

** Complete section if requesting a change in zoning, future land use, or expanding

Marshall Property Services, LLC
Jenkins Road Cottage-Style Homes
Land Use Plan Amendment
& Zoning Atlas Map Amendment
Statement of Need

Marshall Property Services, LLC ("Petitioner") proposes developing a new residential project comprised of 140 dwelling units with associated amenities ("Project"), thereby making a substantial investment in the Jenkins Road area and creating a new housing opportunity for the community. Petitioner proposes naming the new development "Viva Treasure Coast West." To allow for the Project, Petitioner hereby requests approval of a Land Use Plan Amendment, Rezoning, Site Plan and Design Review.

Kiva Development, LLC ("Owner") is the current owner of the subject property located on the east side of South Jenkins Road between Edwards Road and Okeechobee Road (PCN # 2325-111-0001-000-2) (the "Property"). Petitioner has placed the Property under contract and as such Owner has authorized the submission of the aforementioned applications. The Property is a +/- 27.89 acre site, located in the City of Fort Pierce ("City"), St. Lucie County ("County"). The Property has a future land use designation ("FLUM") of GC, General Commercial. The Property's zoning designation is C-3, General Commercial.

For the Land Use Plan Amendment, Petitioner respectfully requests approval to amend the Property's land use from GC to RM, Medium Density Residential, which is the same land use as the property at the intersection of South Jenkins Road and Edwards Road, approximately 728 feet south of the Property. Concurrently, Petitioner requests a Rezoning of the Property from C-3 to R-4, Medium Density Residential, which is also the same zoning district as the property at the intersection of South Jenkins Road and Edwards Road. Per Section 125-187(g) of the City Code, detached residences, townhomes, duplexes, and multi-dwelling buildings are permitted by right in the R-4 zoning district with the ideal density of 10 -12 units per acre. The Project is proposed at 5.1 units per acre for a total of 140 units.

Per the City's Future Land Use Map Amendment and Zoning Atlas Map Amendment, Petitioner must demonstrate compliance with the criteria listed below for approval of future land use or zoning map amendment:

1. **Statement of why there is a need for the proposed future land use map amendment and how the amendment will result in an orderly and logical development pattern.**

   The proposed changes in land use and zoning are necessary to allow for residential development on the Property and will result in an orderly and logical development pattern, as the surrounding area has residential development and gets gradually more commercial/intense along Jenkins Road as it approaches the intersection with Okeechobee Road to the north.

14 S.E. 4th Street, Suite 36, Boca Raton, FL 33432 | Tel: (561) 405-3300 | Fax: (561) 409-2341 | www.dmbblaw.com

The Property currently has a future land use designation of GC (General Commercial). A canal abuts the Property directly to the north. The parcel to the north of this canal also contains a GC land use designation and is undeveloped. The parcel directly south of the Property contains a RL (Low Density Residential) land use designation and is developed with single-family homes while the parcel to the east has a BC (Boundary Commercial) land use designation and is developed with a KOA campground. Abutting the Property to the west is I-95. Some years ago, the subject Property had a residential land use designation.

Amending the future land use designation on the Property from GC to RM (Medium Density Residential) will result in an orderly and logical development pattern as it will amend the land use designation to be compatible with the surrounding land use designations and residential uses. The amendment will allow the Property to be developed with a maximum of 334 dwelling units. While the RM land use designation will allow this many units, the Applicant is proposing to develop 140 cottage-style homes. This proposed use is less intense than any uses permitted under the existing GC land use designation. The residential use will not generate any loud noises onto the adjacent residential uses that would be caused by trash pick-up and loading areas from permitted commercial uses. Furthermore, the residential uses will generate less traffic than a commercial development permitted under the existing CG land use designation. The traffic report included with this amendment shows a daily decrease of 17,684 trips with the proposed RM land use designation.

2. Statements on how the amendment(s) are consistent with Comprehensive Plan.

This amendment is consistent with the following policies in the City of Ft. Pierce Comprehensive Plan:

FLU 1.1.3 Policy:
The City shall ensure that future land use designations are compatible with adjacent land uses both within and outside the City boundary.

As stated above, the Property currently has a future land use designation of GC. Abutting the Property to north is a canal. The parcel to the north of this canal also contains a GC land use designation and is undeveloped. The parcel directly south of the Property contains a RL land use designation and is developed with single-family homes while the parcel to the east has a BC land use designation and is developed with a KOA campground. Abutting the Property to the west is I-95.

This amendment will change the land use designation on the Property to be more compatible with the surrounding residential uses than the existing GC land use designation. The proposed residential use will be less impactful on the surrounding neighborhood than the commercial uses permitted under the GC land use category.

1.6.1Policy:
Land use regulations shall require that facilities and services meet the established LOS standards, and are available concurrent with the impacts of development.

The attached capacity analysis included with this request show that adequate public service facilities are available for the proposed amendment. The amendment will have a significant decrease on the demand for public facility uses.

14 S.E. 4th Street, Suite 36, Boca Raton, FL 33432 | Tel: (561) 405-3300 | Fax: (561) 409-2341 | www.dmbblaw.com

TE 2.2.7 Policy:
Proposed land use changes shall evaluate the net difference in traffic impacts between the current land use and the proposed land use. Any change in land use which exceeds the LOS standard for a roadway shall also be accompanied by a strategy to address the impact. The strategy may consist of a capacity or operational improvement or implementation of a mobility strategy. The LOS evaluation shall be completed using professionally accepted transportation engineering methodology including generalized roadway and detailed roadway analysis as needed.

Included with this application is a traffic report showing that the existing GC land use designation will generate 18,792 daily trips, while the proposed RM land use designation will generate 1,108 daily trips. This is a decrease of 17,684 trips. In addition to the decrease in daily trips, the amendment will result in a decrease of 724 AM peak hour trips and 3,243 PM peak hour trips. Therefore, this amendment will not increase the volume of trips or decrease the level of service standards on the surrounding roadways.

3. Statements on how the future land use designation is compatible with future land use designations and existing land uses surrounding the amended lands; identify future land use designations and existing land uses within a ½ mile of the subject property that have the same or greater type of proposed future land use designation.

The Property currently has a future land use designation of GC. Abutting the Property to the north is a canal. The parcel to the north of this canal also contains a GC land use designation and is undeveloped. The parcel directly south of the Property contains a RL land use designation and is developed with single-family homes while the parcel to the east has a BC land use designation and is developed with a KOA campground. Abutting the Property to the west is I-95.

The proposed RM land use designation is compatible with the surrounding land use designations to the south and east of the Property. Other than the adjacent KOA campground, the surrounding parcels to the south and east contain RM and RL future land use designations. All of these parcels are currently developed with residential units, are currently under construction for the development of residential units or will be developed with residential units in the future. Amending the land use designation on the Property from GC to RM will ensure the Property is compatible with the character of the existing surrounding residential land uses.

While the parcels to the west and north contain a GC land use designation, the Property is bifurcated from the parcels to the west by I-95. Heading north from the Property, the parcels are located on Okeechobee Road, a major commercial corridor. The GC land use designation is appropriate for these parcels as they are located along a high traffic commercial corridor. While the Property is within ½ mile radius of these parcels, the less intense RM land use designation is appropriate for the Property as it is not located along Okeechobee Road and is directly adjacent to existing single-family homes. In essence, the proposed land use and zoning change will create an appropriate and gradual transition in intensity going south to north on the west side of Jenkins Road.

14 S.E. 4th Street, Suite 36, Boca Raton, FL 33432 | Tel: (561) 405-3300 | Fax: (561) 409-2341 | www.dmbblaw.com

Re: Parcel No. 2325-111-0001-000-2, Jenkins Road, Fort Pierce, Florida
ACES File No. 21126

Dear Mr. Smith,

Andrew Conklin Environmental Services, LLC (ACES) has completed a review of environmental issues associated with the above-referenced ±27.89-acre property, located on the west side of Jenkins Road in Fort Pierce, Florida. Figure 1 depicts the location of the subject site, and Figure 2 is a recent aerial photograph of the site depicting current conditions thereon. On June 30, 2021, ACES inspected the property for the presence of wetlands, surface waters, protected species, and indications of protected species habitat. The purpose of our study was to estimate the current extent of wetlands and protected species habitat on the site. To assess the presence and extent of wetlands, we implemented the jurisdictional wetland identification methodologies of the South Florida Water Management District (SFWMD) and the U.S. Army Corps of Engineers (ACOE), which incorporate an analysis of on-site vegetation, soils, and hydrology to determine the presence or absence of state-jurisdictional wetlands. Where jurisdictional wetlands were found to exist, ACES marked their landward extent by tying sequentially-numbered surveyor's flagging tape to vegetation at each change in the contour of the wetland, and identified their boundaries on a recent aerial photograph of the site. The likelihood of protected species habitation was determined by identifying the various vegetative communities, habitat types, and species indicators currently present on the site, and referencing these against standards and indicators used by the Florida Fish and Wildlife Conservation Commission (FWC) and the U.S. Fish and Wildlife Service (USFWS). Following is a presentation of our findings.

Soil Types

The USDA Natural Resource Conservation Service (NRCS) identifies two different soil types on the property (see Figure 3). Soil maps are used by the environmental regulatory agencies as a general guideline to determine the likelihood of wetland and upland conditions on reviewed properties; soils more commonly associated with wetland conditions potentially indicate areas of lower elevation and greater surface hydrology, whereas soil types that are more commonly associated with uplands are expected to exhibit fewer or no wetland characteristics. Potentially hydric (i.e., wetland) soil types are listed in the *Hydric Soils of Florida Handbook* (Victor W. Carlisle, et al., 2000). ACES sampled soil types throughout the subject property by excavating 6-inch diameter, 12-inch deep cylindrical plugs from the surface, and assessing the soil profiles and characteristics of each plug. Following are brief descriptions of the soil types that are mapped on the subject site, compared to our observations of current soil conditions.

Ankona and Farmton Sands – NRCS Code No. 2: This is a nearly level, poorly drained sandy soil formed from sandy and loamy marine deposits, found on flats of mesic or hydric lowlands. The water table is typically 6 to 18 inches below the surface in most years. This soil is not listed in the *Hydric Soils of Florida Handbook*

This non-hydric soil type is mapped within the majority of the site. Soils in the mapped area mostly consist of non-hydric sand. However, two slightly depressional areas exist where soils qualify as hydric, either containing mucky-textured sand or sand exhibiting mineral stripping within the upper six inches.

Nettles and Oldsmar Sands – NRCE Code No. 25: This is a nearly level, poorly drained sandy soil formed from sandy and loamy marine deposits, found on flats of mesic or hydric lowlands. The water table is typically 6 to 18 inches below the surface in most years. The *Hydric Soils of Florida Handbook* lists this soil type as a hydric soil in only 8 percent of the areas in which it is mapped.

This typically non-hydric soil type is mapped over the east end of the site and in a lobe that extends onto the northern boundary of the property. Most of the soils in these areas are composed of non-hydric sand. However, one area near the east end of the site contains hydric sandy soils exhibiting mineral stripping within the upper six inches.

The NRCS shows a general correspondence to existing conditions, except that three areas of hydric soil exist on the site. The current extent of hydric soils on the site generally corresponds to the location of wetlands as shown on Figure 4.

Community Types

Using the Florida Land Use, Cover and Forms Classification System (FLUCFCS) as a guideline, ACES categorized the different natural communities and land uses on the subject site according to FLUCFCS designations and code numbers. Figure 4 depicts the different FLUCFCS communities on the property. The major FLUCFCS categories on the site are:

Mixed Rangeland – FLUCFCS Code No. 630: This category describes the community that dominates the east half of the site, covering a total of approximately 9.04 acres. It contains a widely spaced canopy of Darlington's oak, slash pine, Brazilian pepper, and cabbage palm over scattered patches of saw palmetto and gallberry, with a ground cover of Bahia grass, St. Augustine grass, Spanish needles, smutgrass, Johnson grass, southern fox grape, caesarweed, low panicum, and carpet grass. Underlying soils are composed of non-hydric sand imbedded with small sandy organic bodies. No wetland hydrologic indicators were observed.

Pine Flatwoods – FLUCFCS Code No. 411: This forested upland community exists over most of the western part of the site, covering a total of about 9.47 acres. It contains a mixed canopy of slash pine, Darlington's oak, and cabbage palm over a patchy midstory of saw palmetto, gallberry, holly, and guava, and a sparse ground cover of southern fox grape, caesarweed, and shiny blueberry. Soils are composed of non-hydric sand imbedded with small sandy organic bodies. No wetland hydrologic indicators were observed.

Temperate Hardwoods – FLUCFCS Code No. 425: This forested upland community is located along the part of the southern site boundary, the east end of the site, and along the northern property boundary. The total area occupied by this community is estimated at 6.28 acres. It

contains a canopy of Darlington's oak, Brazilian pepper, cabbage palm, and scattered slash pine over a ground cover of herbaceous species similar to those noted for the Mixed Rangeland community. The southern area also contains patches of saw palmetto, gallberry, and winged sumac, with some wiregrass and shiny blueberry in the ground cover. Underlying soils are composed of non-hydric loamy sand imbedded with small sandy organic bodies. An extensive subsurface layer of compacted gravel is also present near the site entrance. No wetland hydrologic indicators were noted in this community.

Freshwater Marsh – FLUCFCS Code No. 641: This non-forested wetland is located along part of the western site boundary, where it covers approximately 0.95 acres. It is vegetated with a variety of herbaceous wetland species, including flat sedge, torpedo grass, buttonweed, smartweed, swamp fern, duck potato, cattails, and three-square. Brazilian pepper, cabbage palm, and wax myrtle are present on the landward edges. Soils are hydric, consisting of mucky-textured sand and sand imbedded with large mucky organic bodies. Hydrologic indicators suggest that this community is saturated to the surface or inundated virtually year-round. This wetland is identified as Wetland 1 on Figure 4.

Wet Prairie – FLUCFCS Code No. 643: This non-forested wetland community is in two areas in the east half of the site. Wetland 2 is approximately 0.70 acres and Wetland 3 is about 1.45 acres (see Figure 4). Both wetlands are dominated by herbaceous wetland species, including Virginia chain fern, swamp fern, redroot, yellow-eyed grass, and American cupscale. Some Darlington oak and cabbage palm are also scattered in this community. Underlying soils are mildly hydric, being composed of sand exhibiting mineral stripping in the upper six inches. Hydrologic indicators include the presence of sphagnum moss on the ground. This community is saturated to the surface during most of the rainy season, with extended periods of standing water following heavy rains.

Thus, the entire property contains approximately 24.79 acres of uplands and 3.1 acres of wetlands. All of the wetlands fall under the jurisdiction of SFWMD. If impacts are proposed to any of the wetlands, permits to do so must be obtained from this agency. Following is a discussion of potential wetland permitting and mitigation issues for this site.

Wetland Considerations

In general, SFWMD requires that all proposed wetland impacts be justified by the permittee, who is responsible for demonstrating that all reasonable efforts have been made to design the project in a way that avoids or minimizes wetland impacts. Simply put, in most cases, all proposed wetland impacts must clearly be demonstrated as unavoidable. An exception is made when wetland mitigation is provided that is regionally significant, such as the purchase of credits at a wetland mitigation bank that includes the project site within its service area; in such cases, an applicant is not required to avoid or minimize wetland impacts.

In addition to direct wetland impacts (dredging or filling within wetlands), SFWMD usually requires an applicant to also consider the extent of secondary wetland impacts. Secondary wetland impacts are those potentially adverse effects to wetlands that occur due to the proximity of human activities (i.e., noise, traffic, pollution, lighting, human intrusion, pets, yard waste, etc.). To protect against secondary impacts, SFWMD encourages applicants to preserve a naturally-vegetated upland buffer around all portions of wetlands that are to remain undisturbed. The buffer must be at least 15 feet wide, with a minimum average width of at least 25 feet, and needs to be in natural vegetation (supplemental

planting may be required). In all areas where the minimum buffer cannot be provided, SFWMD will assess secondary impacts extending into the adjacent wetlands. The extent of secondary impacts is determined on a case-by-case basis, but is typically determined by extending a 100 to 200 foot radius into the affected wetland from each point where an adequate upland buffer cannot be provided. Although this may result in a large area of assessed secondary wetland impacts, such impacts are considered to be significantly less adverse than direct impacts. Thus, although secondary wetland impacts do add to the amount of mitigation that an applicant must provide to satisfy SFWMD (if they are assessed), they are typically only a small percentage of the whole. Since SFWMD recognizes the long-term value of on-site wetland preservation and enhancement, the secondary wetland impact issue can frequently be addressed by the placement of a conservation easement over remaining on-site wetlands and their adjacent upland buffers (as applicable).

For this site, the purchase of wetland mitigation credits appears to be an option, since the site falls within the service area of at least one SFWMD-permitted mitigation bank. The purchase of mitigation bank credits is often the most cost-effective and expedient option, and provides the greatest amount of flexibility when it comes to site design. The quality of the wetlands on this site are expected to be evaluated as low to moderate, due to their proximity to development and highways, degradation by off-road traffic, historical disturbances, and the presence of nuisance species (i.e., Brazilian pepper, torpedo grass, cattails, etc.). The Uniform Mitigation Assessment Method (UMAM) is used by SFWMD to assess and calculate environmental losses (Functional Loss, or FL) associated with wetland impacts, and environmental gains (Functional Gain, or FG) associated with wetland mitigation. Based on our UMAM analysis of the site, we expect that on-site wetlands would be scored between 47 and 70 percent value and function. Thus, each acre of wetlands approved for impact on this site by SFWMD is expected to result in an FL of between 0.47 and 0.70. To provide sufficient mitigation, an FG of 0.47 to 0.70 per acre of impact would need to be provided. The corresponding cost of wetland mitigation is expected to be between $35,250 and $52,500 per acre of wetland impacts. The specific cost will depend on a variety of factors, including wetland confirmation by state personnel, the findings of a detailed state -approved UMAM evaluation, and the extent of wetland impacts proposed by the applicant.

The time associated with wetland permitting is expected to be between three to five months for SFWMD. In addition to the cost of wetland mitigation, there are other consulting costs associated with quantification, qualification, and permitting of wetlands on the site. Wetland permit application development (±$2,500), on-site jurisdictional confirmation with SFWMD staff (±$600), and other related ancillary costs and fees are expected to amount to between $4,000 and $5,000. Surveying and engineering costs will also apply, although it is not in our purview to estimate these.

Protected Species

On the date of our site assessment, ACES examined the property for any indications of habitation by protected wildlife species. This included inspecting the property for direct visual and auditory evidence of protected species themselves, as well as assessing the site for the presence of secondary indicators, such as burrows, nests, nesting cavities, scat, tracks, trails, rookeries, etc. Following is a discussion identifying the extent to which protected species are thought to be using the site, and the procedures by which such concerns can be addressed during the project permitting process.

> Gopher Tortoises (*Gopherus polyphemus*): Gopher tortoises are protected as a Threatened species by the Florida Fish and Wildlife Conservation Commission (FWC). Gopher tortoises require habitat that includes well-drained sandy soils for burrowing, open sunlit areas for

nesting, and adequate herbaceous forage. Tortoise burrows are classified as "Abandoned" (burrow collapsed, filled with debris, or otherwise obviously not used for quite some time) or "Potentially Occupied" (any burrow that does not meet the definition of Abandoned). On this property, the relatively shallow depth to the seasonal high-water table may preclude suitable tortoise burrowing conditions. However, we did observe some evidence of tortoise occupation on the site. One Potentially-Occupied burrow and one Abandoned burrow were found in the vicinity of Wetland 3 (see Figure 4). This confirms that at least some tortoises occupy the property. Based on the habitat conditions we observed, our preliminary estimate is that there is a relatively low number of tortoises on the site, probably no more than five, using up to 10 burrows.

FWC requires that all tortoises that are likely to be displaced by proposed development be identified through a formal survey, and safely relocated under an off-site gopher tortoise conservation permit from FWC prior to site clearing. In order to determine the number of tortoises that will be affected by site development, it will be necessary to complete a formal tortoise survey over all potentially suitable habitat that is proposed for development on this site. We estimate there is a total of about 15 to 20 acres of sparsely-populated tortoise habitat on the site. Costs associated with tortoise permitting include the 100% survey and mapping of all tortoise habitat (approx. $4,000), developing and submitting the tortoise relocation application to FWC ($650.00), and excavating all potentially-occupied burrows on the site with a backhoe (assuming 10 burrows, the projected cost is $3,500). In addition, FWC will charge an application fee of $220, and the property receiving the relocated tortoises charges $2,200 per tortoise to cover long-term management costs (assuming 5 tortoises, that cost would be $11,000). So, under a hypothetical 10 burrows excavated and 5 tortoises relocated, the total cost (including the tortoise survey) would be approximately $19,370 (actual cost could be more or less depending on the results of the tortoise survey and relocation).

Timing of the tortoise permitting process is linked to the expected project start date. FWC requires that the survey data be no more than 90 days old prior to excavating tortoises under the authority of a permit. Furthermore, FWC requires that an applicant provide documentation from local government confirming that the proposed project that will necessitate tortoise relocation is imminent; without this documentation, the permit is unlikely to be issued. Therefore, the tortoise survey is recommended to take place no more than two months prior to the anticipated project start date. Once the application is submitted, most tortoise permits can be acquired within two to three weeks (assuming all required documentation is provided). After the permit is issued, relocation can occur as long as predicted weather temperatures do not drop below 50 degrees Fahrenheit for 72 hours after the relocation is completed.

Eastern Indigo Snake (*Drymarchon corais couperi*): This federally-listed threatened species can occupy virtually all native Florida habitats, including flatwoods, upland scrub, and wetlands, typically ranging over very large areas and frequently utilizing gopher tortoise burrows for shelter. No signs of this species were observed during our site inspection. Barring the direct sighting of this species, no special permit for potential impacts to it is expected to be necessary to acquire.

Wading Birds: Protected wading birds may occasionally be present within the wetland communities for foraging purposes, including tricolored heron and sandhill crane. There is no

rookery habitat on the site to support nesting of these species, and none of these species were observed on the site during our inspection. Although it is possible that these species may be present from time to time in on-site wetlands on a transitory foraging basis, such behavior is opportunistic, and not indicative of critical reliance on any on-site natural resources. Therefore, no special permits for potential impacts to these species are expected to be required.

Wood Stork (*Mycteria americana*): Wood stork nesting habitat is not present on the site. However, the on-site wetland community does provide foraging habitat for this federally-listed endangered species. Direct impacts to wood storks are not an issue for this site, just potential impacts to wood stork Suitable Foraging Habitat (SFH). However, even if potential impacts to wood stork SFH are assessed, any wetland mitigation proposed for this project should also suffice to meet any wood stork mitigation requirements that might apply.

Bald Eagle (*Haliaeetus leucocephalus*): No recorded bald eagle nests exist on or near the subject site, and no eagle nests or eagle activity were observed on the site. The nearest recorded eagle nest is approximately 0.75 miles south of the site. Therefore, it is not expected that potential impacts to this species will need to be addressed prior to site development.

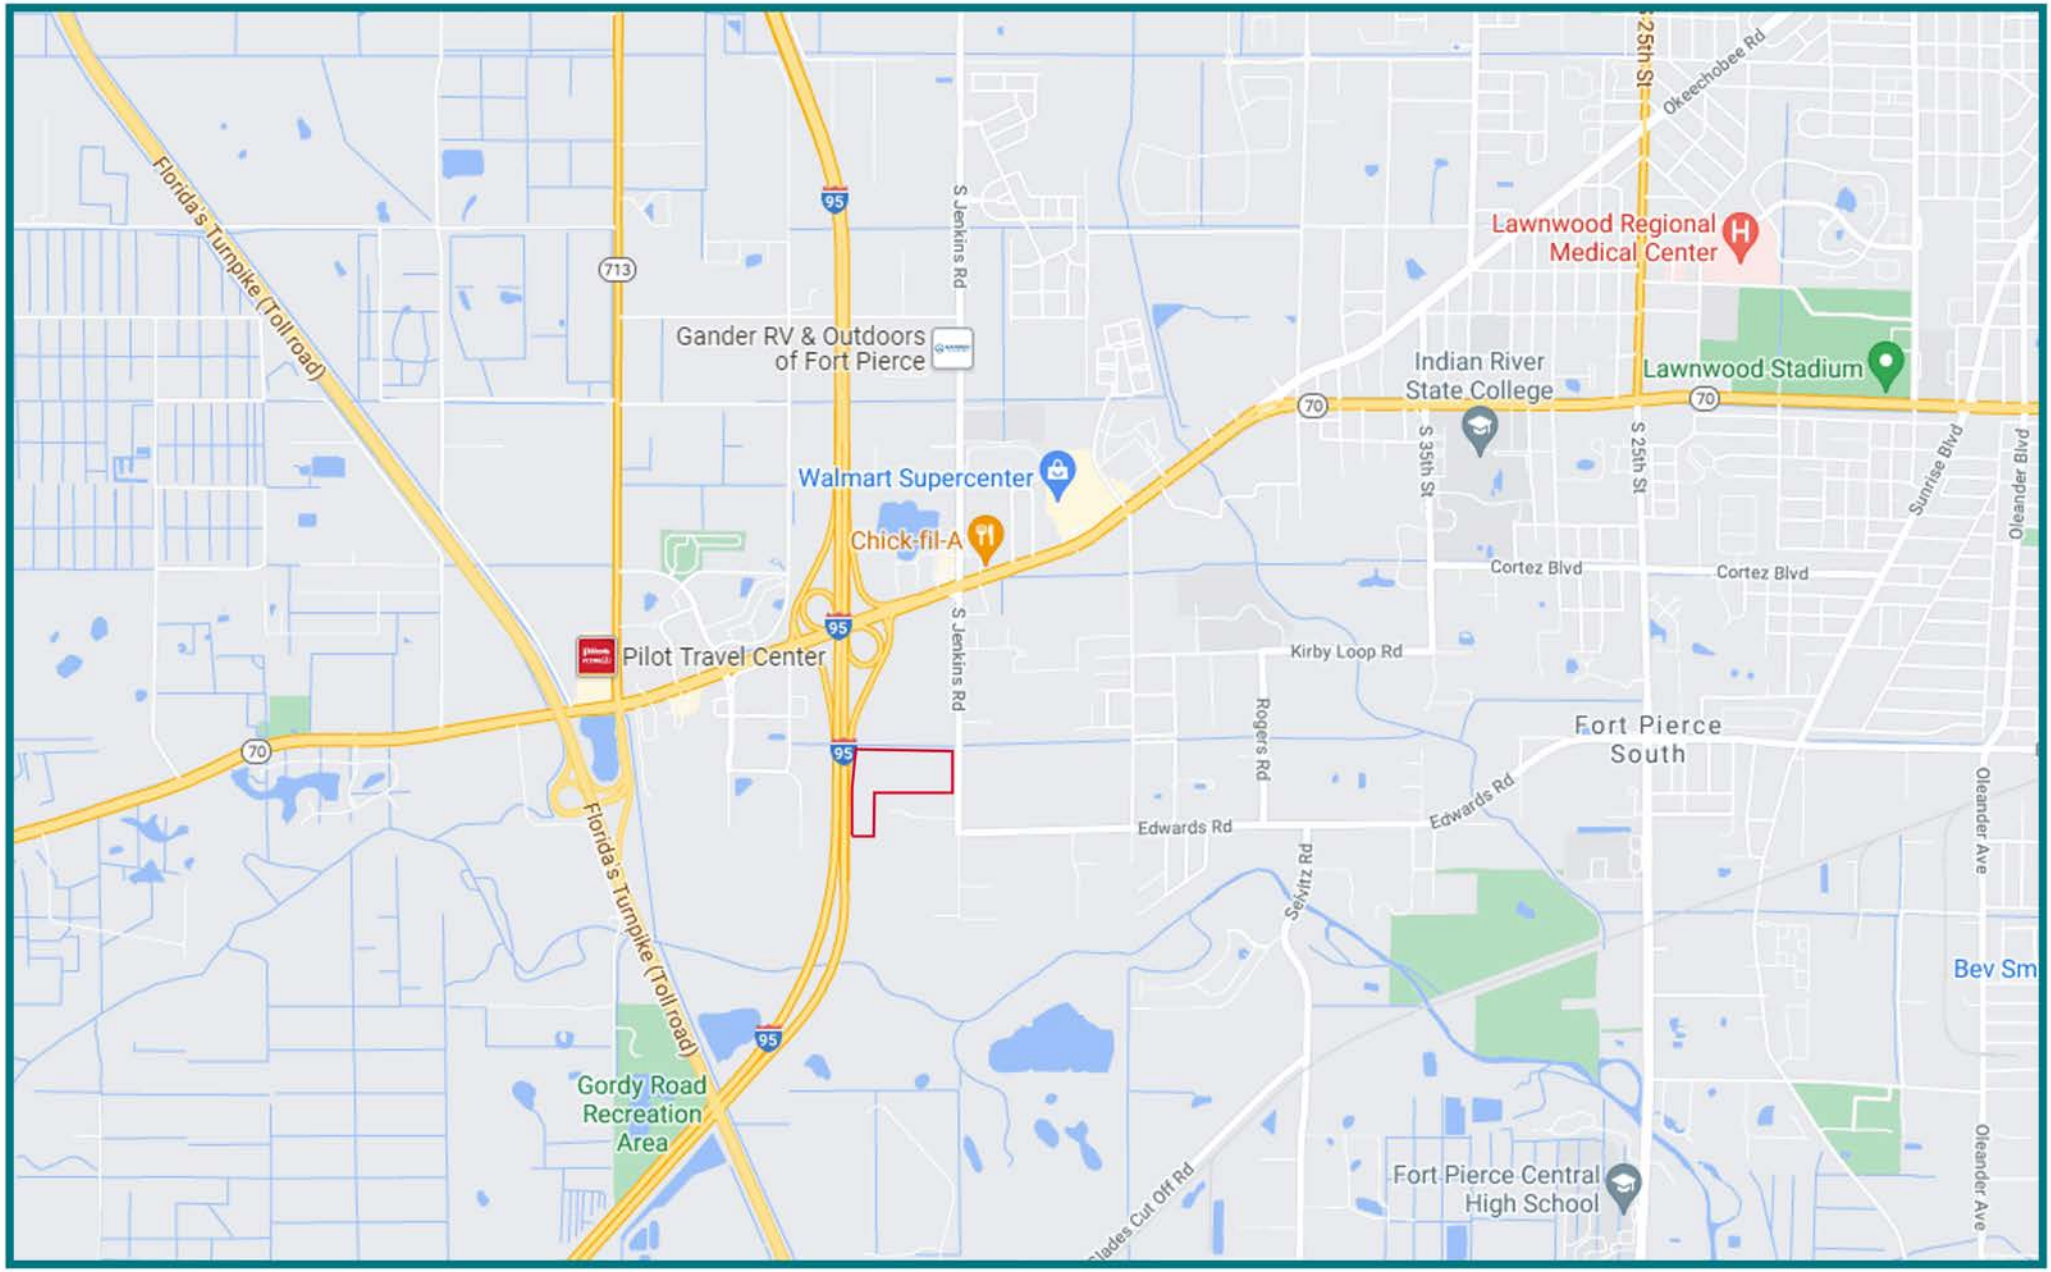

Summary and Conclusion

ACES has completed an environmental assessment of Parcel No. 2325-111-0001-000-2, Jenkins Road, Fort Pierce, Florida. It is our determination that approximately 24.79 acres of uplands and 3.1 acres of SFWMD-jurisdictional wetlands are present on the site. If impacts are proposed to wetlands, then a permit will be needed from SFWMD, and mitigation will be required to compensate for direct and secondary wetland impacts. Although permitting for impacts to wood stork SFH is not expected to be required, the mitigation provided for wetland impacts (if applicable) should also be sufficient to compensate for any wood stork impacts that might be assessed. A small population of protected gopher tortoises are present on the site; a formal gopher tortoise survey will need to be completed prior to site development to determine the number of tortoises that will need to be permitted for relocation. ACES is committed to working with you through all aspects of the environmental permitting and mitigation processes for this project and will provide a proposal for any and all services upon request. Upon your review of this report, should you have any questions or need any additional information, please do not hesitate to contact us.

Sincerely,

Andrew Conklin – President, ACES, LLC

1.0 EXECUTIVE SUMMARY

At the request of Marshall Property Services LLC, GFA International, Inc. (GFA) conducted a Phase I Environmental Site Assessment (Phase I ESA) of a 27.89-acre vacant property (Parcel Number 2325-231-0001-000-4) located west of South Jenkins Road in Fort Pierce, St. Lucie County, Florida; herein referred to as the "subject property" or "site." Accordingly, Marshall Property Services LLC, and its successors and/or assigns are hereby authorized to rely on this Phase I ESA report in relation to financing for the above referenced site subject to any qualifications stated herein.

This Phase I ESA Update was performed in general accordance with American Society for Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments (ASTM Practice E 1527-13) and was conducted following the scope of work and any limitations as outlined in **Sections 2.4 and 2.5** and our proposal letter to dated June 7, 2021. This Phase I ESA. The purpose of the Phase I ESA was to identify, to the extent feasible pursuant to ASTM E 1527-13, *recognized environmental conditions* (*RECs*) and *vapor encroachment conditions* (*VECs*) in connection with the property. The purpose and objective of the Phase I ESA was met through the performance of four components: records and site history review, site reconnaissance, interviews, and preparation of the Phase I ESA report. UES performed the Phase I ESA per ASTM Practice E 1527-13, which is equivalent to the U.S. Environmental Protection Agency (EPA) final rule for All Appropriate Inquiry (AAI) and may be used to comply with the provisions of the Federal AAI Rule as set forth in 40 CFR 312. Non-scope considerations, as defined in our proposal letter, as well as in the standard practice, were not addressed.

The use of ASTM Practice E1527-13 is intended to permit a user to satisfy one of the requirements of the Landowner Liability Protections (LLPs) to qualify for the "innocent landowner, contiguous property owner, or bona fide prospective purchaser" limitations to liability with respect to the range of contaminants within the scope of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) and including petroleum products. This practice has been used as a guide to ensure appropriate inquiry into the environmental characteristics and condition of the property consistent with good commercial or customary practice as defined at 42 USC §9601(35)(B). The research was conducted between July 6, 2021 and July 14, 2021 by Robert Crowell, P.G., Senior Geologist.

Robert Crowell, P.G., of UES performed a walk-through site reconnaissance of accessible areas of the subject property on July 12, 2021. In addition, observations were made of the immediately adjacent properties. Any limiting conditions encountered during the course of this assessment are included in **Section 2.4**.

According to site information and data supplied by the client and the St. Lucie County Property Appraiser's office, the subject property is an approximate 27.89-acre "L-shaped" vacant parcel containing woodlands and clearings. No current building structures are located on the property.

Based on historical sources reviewed, a review of regulatory agency files, and interviews, the subject property contained undeveloped pastureland. No evidence was identified of previous active agricultural activity on the subject property.

UES reviewed a series of historical aerial photographs between 1944 and 2017 depicting the subject property. The site and vicinity within each aerial photograph were examined to identify historical site activities. Particular emphasis was placed on any evidence of dumping, landfilling or other uncontrolled activities that may have occurred on the subject property and vicinity. The subject property appeared to be used as pastureland until approximately the 1990s when the property became primarily dense woodlands. No evidence of previous active agricultural use on the subject property was identified. No building structures (except for possible livestock feeders) were noted on the subject property in any of the aerial photographs reviewed.

A search of available environmental records was conducted by Environmental Data Resources, Inc.® (EDR); this report meets the government records search requirements of ASTM Standard Practice for Environmental Site Assessments, E 1527-13. The subject property was not listed in any of the databases searched. Several sites of concern were identified by EDR within the ASTM search radius. Detailed discussions regarding these facilities are provided in **Section 5.1**. Based on the distance, direction, topographic relations and/or estimated groundwater flow, absence of releases, and/or remediation actions to date or ongoing, the identified sites do not appear to pose a threat to the subject property.

A Vapor Encroachment Screening (VES) was performed to identify to the extent feasible pursuant to the procedures presented in the Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transaction (ASTM E2600-15). As specified in ASTM E2600-15 criteria, a records search was performed of federal and state, tribal as a part of a Tier 1 Screening evaluation to determine the likely presence of *Vapor Encroachment Conditions* (*VECs*). No VECs were identified.

This assessment has revealed no evidence of *VECs* in connection with the subject property.

This assessment has revealed no *RECs* in connection with the subject property.

This assessment revealed no controlled *RECs* in connection with the subject property.

This assessment revealed no historical *RECs* in connection with the subject property.

Discarded trash/debris was observed on the property. The trash/debris consisted of inert materials and therefore, is not considered a *REC*. This may be in violation of the Florida Statutes 403.413 ("Florida Litter Law"). The discarded trash/debris should be removed for proper disposal.

2.0 INTRODUCTION

Universal Engineering Sciences (UES) was retained by Marshall Property Services, LLC (Client) to conduct a Phase I Environmental Site Assessment (Phase I ESA) of a 27.89-acre vacant property (Parcel Number 2325-231-0001-000-4) located west of South Jenkins Road in Fort Pierce, St. Lucie County, Florida; herein referred to as the "subject property" or "site". The Site location is shown in **Figure 1**. A Site Sketch showing the subject property and surrounding areas is included as **Figure 2**. Accordingly, Marshall Property Services LLC and its successors and/or assigns are hereby authorized to rely on this Phase I ESA report in relation to financing for the above referenced site subject to any qualifications stated herein.

2.1 Purpose

As outlined in UES' proposal letter[1], the purpose of the Phase I ESA was to identify, to the extent feasible pursuant to the American Standard for Testing and Materials (ASTM) E 1527-13, *recognized environmental conditions* (*RECs)*[2] *controlled environmental conditions*[3], *historical environmental conditions*[4] , *business environmental risks (BERs)*[5], and *Vapor Encroachment Conditions (VECs)*[6] in connection with the property. UES performed the Phase I ESA scope of work in conformance with the standard practice, as outlined in ASTM E 1527-13 and as set forth in

[1] The use of the ASTM E 1527-13 practice was strictly limited to the scope set forth in our proposal dated June 7, 2021 to Marshall Property Services, LLC, and, authorized and returned to our offices on July 6, 2021.

[2] The term *recognized environmental conditions* means the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property 1) due to any release to the environment; 2) under conditions indicative of a release to the environment; or 3) under conditions that pose a material threat of a future release to the environment The term is not intended to include *de minimis* conditions that generally do not present a material risk of harm to public health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be *de minimis* are not considered as *recognized environmental conditions*.

[3] The term *controlled environmental conditions* means a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (e.g., as evidenced by the issuance of a NFA letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (e.g., property use restrictions, AULs, institutional controls, or engineering controls).

[4] The term *historical environmental conditions* means a past release of any hazardous substances or petroleum products that has occurred in connection with the subject property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (e.g., property use restrictions, AULs, institutional controls, or engineering controls).

[5] The term *business environmental risk* means a condition that can have a material environmental or environmentally driven impact on the business associated with the current or planned use of a parcel of commercial real estate, not necessarily limited to those environmental issues required to be investigated in this practice.

[6] The term *vapor encroachment conditions* means the presence or likely presence of contaminants of concern vapors in the sub-surface of the subject property caused by the release of vapors from contaminated soil or groundwater either on or near the subject property.

40 CFR Part 312. The purpose of the ASTM E 1527 practice is to define good commercial and customary practice for conducting an environmental site assessment of a parcel of commercial real estate with respect to the range of contaminants within the scope of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), including petroleum products. As such, this practice is intended to permit a user to satisfy one of the requirements of the Landowner Liability Protections (LLPs) to qualify for the "innocent landowner, contiguous property owner, or bona fide prospective purchaser" limitations to CERCLA liability: that is, the practices that constitute "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice" as defined in 42 USC § 9601(35)(B).

2.2 Detailed Scope of Services and Non-Scope Considerations

The purpose of the Phase I ESA was met through the performance of four primary components: a site history and records review, site reconnaissance, interviews, and preparation of the Phase I ESA report. Non-scope considerations, or those issues considered to be of potential environmental concern at a property outside the scope of the ASTM E 1527-13 practice, were not addressed. More specifically, non-scope considerations which were not included within UES' Phase I ESA scope of work included, but were not limited to: asbestos containing materials, radon, lead-based paint, lead in drinking water, wetlands, regulatory compliance, cultural and historical risks, industrial hygiene, health and safety, ecological resources, endangered species, indoor air quality (with exception of vapor intrusion due to a release of hazardous substances or petroleum compounds), and high voltage power lines. In accordance with ASTM E 1527-13, Section 13.1.5, no assessment of such non-scope considerations is required for appropriate inquiry as defined in the standard practice.

2.3 Significant Assumptions

For the purpose of this Phase I Environmental Site Assessment, UES has made the following assumptions concerning the assessment of on-site and off-site *RECs*:

- Facilities, which use, generate, store, transport or dispose of hazardous wastes or petroleum products maintain the proper licenses with local, state and/or federal agencies.

- All discharges, releases, or violations related to the use, generation, storage, transportation or disposal, of hazardous substances or petroleum products are reported to appropriate agencies as soon as possible, and all reported discharges have been listed in regulatory files.

- UES has assumed that the information sources utilized for this assessment provided complete and accurate information. Evaluations presented in this report are based exclusively on information provided by available public records, and observations made during the site visit.

2.4 Limitations and Exceptions

No specific limitations, exceptions, or deletions from the scope of work, as set forth by the ASTM Practice E 1527-13 were established for the purpose of this Phase I ESA.

No warranty is made regarding the accuracy of the documentation and information supplied by individuals, subcontractors, or governmental agencies consulted in the course of this assessment. UES has relied in good faith upon representations, documentation, and information furnished by individuals and subcontractors noted in the report with respect to operations and existing property conditions and historic uses of the property to the extent that they have not been contradicted by data obtained from other sources. Accordingly, UES accepts no responsibility for any deficiency or misstatements contained in this report as a result of misstatements, omissions, misrepresentations, or fraudulent acts of persons interviewed or parties subcontracted during the course of this assessment. The consultant has been retained for the expressed purpose of gathering, interpreting, and reporting available data.

While this report can be used as a guide, it must be understood that it is neither a rejection nor an endorsement of the property. Problematic environmental conditions that were not identifiable through the scope of this investigation may still exist on the property. The results of the Phase I ESA are not, and cannot, be interpreted as a representation or guarantee that no environmental conditions may exist on or beneath or around the property. This study was not intended to be a definitive assessment of contamination at the subject property. It must also be understood that changing circumstances in the environment and in the use of the property can substantially alter the conclusions and information contained in this report. The consultant accepts no liability for the property. It is the sole responsibility of the client and/or user of this report.

It is further understood by the client that a complete evaluation of business environmental risk associated with a parcel of commercial real estate may necessitate investigation beyond that identified in this Phase I ESA. Certain environmental conditions may exist on a property that are beyond the scope of this Phase I ESA and the practice by which this Phase I ESA was completed in conformance with but may warrant consideration by parties to a commercial real estate transaction. The appropriateness of including an investigation of any such conditions should be evaluated by the client, based upon, among other factors, the nature of the property and the reasons for performing the assessment (for example, a more comprehensive evaluation of business environmental risk).

An Environmental Information Questionnaire (EIQ) is utilized by UES to obtain documentation of environmentally sensitive information derived from the owner, occupant, or client during the course of the assessment. The EIQ is completed by the lead assessor. The completed EIQ is included in **Appendix A**.

2.5 Special Terms and Conditions

No special terms and conditions were established for the purpose of the Phase I ESA.

2.6 Reliance

Marshall Property Services LLC and its successors and/or assigns are hereby authorized to rely on this Phase I ESA report in relation to financing for the above referenced property subject to any qualifications stated herein. UES offers no use or rights to this report to any other party regardless of the circumstance. Reliance of this report to any other party is strictly prohibited without the written consent from Marshall Property Services LLC, and UES.

3.0 SITE DESCRIPTION

3.1 Location and Legal Description

The subject property is approximately 27.89 acres in size consists of one "L-shaped" parcel located west of South Jenkins in Fort Pierce, St. Lucie County, Florida. South Jenkins Road borders a portion of the subject property to the east. The right of way to Interstate 95 (I-95) borders the subject property to the west. The legal description for the subject property, as reported by the St. Lucie County Property Appraiser website are attached in **Appendix B**.

3.2 Site and Vicinity General Characteristics

The subject property is "L-shaped" and occupies approximately 27.89 acres. The property is vacant consisting of dense woodland and open unmaintained grassy areas. The topography of the subject property is relatively flat. Several unpaved paths were noted on the subject property.

3.3 Current Use of the Property

The subject property is vacant consisting of maintained grass and clustered trees and dense woodlands/scrub brush.

3.4 Structures, Roads and Other Improvements

No building structures are located on the subject property.

3.5 Current Uses of the Adjoining Properties

Abutters to the subject property include the following:

To the North: A drainage ditch (NSLRWCD Canal 39) borders the subject property to the north. Vacant property containing dense woodlands/scrub brush is located south of the ditch. This property was historically agricultural (citrus and row crops), pastureland and a grass aircraft runway.

To the East: The right of way to South Jenkins Road borders the subject property to the east followed by a vacant property containing woodlands and a Recreational Vehicle (RV) Park/Campground (KOA). Single-family residences along the terminus of Briargate Road are located to the east of the southern "panhandle" portion of the subject property.

To the South: A church (Iglesia Esmirna) borders the eastern portion of the subject property to the south. Single-family residences along Briargate Road are located to the south of the central portion of the subject property. A church (Westside Church) is located to the south of the southern "panhandle" portion of the subject property.

To the West: the right of way to I-95 borders the subject property to the west.

4.0 USER PROVIDED INFORMATION

A completed User Questionnaire is included in **Appendix A**.

4.1 Title Records

According to title information available online from the St. Lucie County Clerk of the Court Records Department, the title to the property was granted to Kiva Development, LLC.

4.2 Environmental Liens or Activity and Use Limitations

At the request of GFA, an Environmental Lien Search (ELS) Report was prepared by Security First Title Resource, Inc. The ELS report is included as **Appendix C**. No environmental liens or Activity and Use Limitations (AULs) were recorded for the subject property.

4.3 Specialized Knowledge

The user communicated no specialized knowledge or experience that is material to *RECs* in connection with the property.

4.4 Commonly Known or Reasonably Ascertainable Knowledge

The user communicated no commonly known knowledge or reasonable ascertainable knowledge that is material to *RECs* in connection with the property.

4.5 Valuation Reduction for Environmental Issues

The user communicated no valuation reduction of the purchase price of the subject property due to environmental issues.

4.6 Owner, Property Manager, and Occupant Information

The current owner of the subject property is listed in St. Lucie County records as Kiva Development, LLC. The property is currently vacant land.

4.7 Reason for Performing Phase I ESA

The Client is considering purchasing or refinancing the subject property. The Phase I ESA was performed as part of the due diligence associated with the potential property financial transaction. The ASTM E 1527 practice defines good commercial and customary practices for conducting an environmental site assessment with respect to the range of contaminants within the scope of the CERCLA, including petroleum. As such, this practice is intended to permit a user to satisfy one of the requirements to qualify for the innocent landowner defense to CERCLA liability (“appropriate inquiry into previous ownership and uses of the property consistent with good commercial and customary practice”) as defined in 42 USC § 9601(35)(B).

4.8 Other

This Phase I ESA was performed for Marshall Property Services, LLC and is required for financing of the property.

5.0 RECORDS REVIEW

5.1 Standard Environmental Record Sources

As part of this Environmental Site Assessment, a review of applicable Federal and state environmental regulatory databases was conducted. This entailed a review of facility listings available through the appropriate agency databases. As specified in ASTM E1527-13 criteria, a records search was performed of federal, state, tribal, and local environmental/regulatory agency databases, and lists, to identify environmental permits, incidents, complaints, violations, response actions, contamination assessment planning and reporting, and remedial activities relating to owners, operators, and tenants on the subject property. In addition, environmental databases were reviewed for all adjoining and adjacent property addresses, and certain properties up to a one-mile radius from the subject property. The databases were obtained through Environmental Data Resources, Inc.® (EDR). A copy of the regulatory database search report from EDR is provided in **Appendix D**.

EDR's regulatory information inquiries and reviews were conducted using currently available Regional U.S. Environmental Protection Agency (EPA), the State of Florida Department of Environmental Protection (FDEP), and St. Lucie County records as needed. A search of available environmental records was conducted by EDR. This EDR database search review meets the government records search requirements of ASTM Standard Practice for Environmental Site Assessments, E 1527-13.

The following table provides a summary of nearby facilities listed on searched regulatory databases, as reported in the EDR report:

Database	Subject Property	Within 1/8 mile	1/8 - 1/4 mile	1/4 - 1/2 mile	1/2 - 1 mile	Greater than 1 mile

Notes: NR = Not Requested at this search distance

The subject property was not listed in any of the databases searched. The EDR database search identified facility within the ASTM search radius. UES reviewed pertinent files and documents in the Florida Department of Environmental Protection (FDEP) Oculus database.

1. Facility Name: **SMIRNA Pentecostal Church**
Facility Address: 3115 Jenkins Road
Location: Adjacent South
Database Info: FINDS, ECHO, NPDES
Regulatory Info: This facility was listed in the Facility Index System (FINDS) database because it has a National Pollutant Discharge Elimination System (NPDES) permit. A Generic Storm-Water Discharge NPDES Permit for Storm-Water Discharge from Large and Small Construction Projects was approved on March 1, 2008. No inspection reports were found in the files. Based on the information reviewed, this facility does not pose a *REC* to the subject property.

2. Facility Name: **Independent Classic**
Facility Address: 2900 Jenkins Road
Location: 200 feet Northeast (across South Jenkins Road)
Database Info: FINDS, ECHO, NPDES
Regulatory Info: This address correlates with Grace Church. A Generic Storm-Water Discharge NPDES Permit for Storm-Water Discharge from Large and Small Construction Projects was approved on March 6, 2020 and terminated on August 14, 2020. This permit may be for an excavated pond on the Grace Church property(visible in the 2021 aerial photograph) that appears to be associated with the construction of the adjacent RV park/campground. No inspection reports were found in the files. Based on the information reviewed, this facility does not pose a *REC* to the subject property.

3. Facility Name: **Diamond R. Fertilizer**
Facility Address: South Jenkins Road and Edwards Road
Location: 675 feet Southeast
Database Info: LUST, Responsible Party
Regulatory Info: A discharge of 74 gallons of diesel within the Edwards Road right of way (near the Jenkins Road intersection) occurred on May 4, 2016 when a tractor-trailer operated by Diamond R. Fertilizer jackknifed. Initial Remedial Actions included excavation and removal of 7.33 tons of impacted soil from three separate source areas within the Edwards Road right of way. The source removal activities were completed in June 2016. A Source Removal Report (SRR) was submitted to the FDEP in June 2017. The SSR indicated that soil impacts were limited to the upper 4 inches of soil. Confirmatory soil samples collected from each of the three source removal areas after the source removal did not indicate soil impacts above the State Soil Cleanup Target Levels (SCTLs). The SRR recommended "No Further Action". No Further Action was approved by the FDEP in a letter dated July 7, 2017. Based on the information reviewed and the initial remedial action efforts, the identified listed facility does not pose a *REC* to the subject property.

4. Facility Name: **KOA Jenkins Road**
Facility Address: No Address Information Provided
Location: 200 feet East-Southeast (across South Jenkins Road)
Database Info: FINDS, ECHO, NPDES
Regulatory Info: This facility was listed in the FINDS database because it has a NPDES permit. A Generic Storm-Water Discharge NPDES Permit for Storm-Water Discharge from Large and Small Construction Projects was approved on February 27, 2020. An FDEP inspection report dated November 13, 2020 indicated the facility to be "in compliance". The permit was terminated on March 31, 2021. Based on the information reviewed, this facility does not pose a REC to the subject property.

5. Facility Name: **North St. Lucie River Control District**
Facility Address: 2721 South Jenkins Road
Location: 1,600 Feet North to Former AST Area
Database Info: LUST
Regulatory Info: This facility is located on the property to the north. Three (3) aboveground storage tanks (ASTs) were registered in 1987. A Discharge Reporting Form (DRF) was filed on January 30, 1992. The site was enrolled in the State-funded petroleum cleanup program. A limited assessment consisting of field-screening soils with an organic vapor analyzer (OVA) and installing/sampling one temporary monitoring well in the "worst case area" was conducted in 1993. No impacts to soil or groundwater were identified. The report recommended "No Further Action" stating that the source had

been abated and no impacts to soil or groundwater were identified. It appears that because of the site's low priority score, no additional assessment or remediation was conducted until 2019, when a Low Site Score Initiative (LSSI) assessment was conducted. A LSSI SAR was submitted in December 2019. A total of 22 soil borings and 4 monitoring wells were installed and sampled. No impacts to soil or groundwater were identified. The groundwater was sampled on two occasions (July 2019 and October 2019). A "LSSI No Further Action Order" was approved by the FDEP on January 17, 2020. The monitoring wells were subsequently abandoned. Based on the information reviewed, which includes the LSSI No Further Action Order, this facility does not pose a *REC* to the subject property.

6. Facility Name: **Bottling Group, Inc.**
Facility Address: 3620 Crossroads Parkway
Location: 1,000 feet West (across I-95)
Database Info: FINDS, ECHO, NPDES
Regulatory Info: This facility was listed in the FINDS database because it has a NPDES permit. Two Generic Storm-Water Discharge NPDES Permits for Storm-Water Discharge from Large and Small Construction Projects were approved on August 15, 2019 and November 15, 2020, respectively. An inspection report dated March 16, 2020 indicated the facility to be in compliance. Based on the information reviewed, this facility does not pose a *REC* to the subject property.

7. Facility Name: **Ryder Truck Rental**
Facility Address: 3711 Crossroads Parkway
Location: 1,000 feet West (across I-95)
Database Info: AST
Regulatory Info: In October 2019, two 12,000-gallon aboveground storage tanks (ASTs) were removed and replaced with one new 20,000-gallon AST. A Tank Closure Assessment Report (TCAR) was submitted on January 8, 2020. According to the TCAR, a small release of diesel occurred during piping removal. Visibly impacted soil was excavated using hand tools and containerized in drums for proper disposal. Confirmatory soil and groundwater samples did not exceed SCTLs or GCTLs. Based on the information reviewed, this facility does not pose a *REC* to the subject property.

8. Facility Name: **Yellow Freight Trucking**
Facility Address: I-95/Okeechobee Road
Location: 2,000 feet North/Northwest
Database Info: Responsible Party
Regulatory Info: A discharge of 125 gallons of diesel occurred on June 11, 1994 as a result of a vehicle accident along the northbound lane of I-95 approximately 100

yards north of the interchange with Okeechobee Road Initial remedial actions included removal of 48.23 tons of impacted soil. No Further Action was approved by the FDEP on August 9, 1995. Based on the file review and distance, the identified listed facility does not pose a *REC* to the subject property.

5.2 Orphan Sites

Facilities that cannot be accurately mapped due to inaccurate or missing data in the address are identified by EDR as "Orphan Sites". As part of the EDR database report review, UES attempts to geographically locate orphan sites identified by EDR.UES examined the Orphan Sites list and did not identify any nearby sites to the subject property.

5.3 Vapor Encroachment Screening

A Tier 1 Vapor Encroachment Screening (VES) for the subject property consistent with ASTM E2600-15, "*Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions"* was completed to comply with ASTM E 1527-13. The E2600-15 standard provides guidance on identifying and evaluating vapor migration at contaminated properties. Two conclusions are possible as a result of the VES: 1) A Vapor Encroachment Condition *(VEC)* exists; or 2) a *VEC* does not exist.

The purpose of a Vapor Encroachment Screening (VES) is to identify to the extent feasible pursuant to the procedures presented in the Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transaction (ASTM E2600-15). The VES is intended to be used independently or in conjunction with, but not as a replacement of, existing Practice E1527-13 Phase I ESA.

As specified in ASTM E2600-15 criteria, a records search was performed of federal and state, tribal environmental databases as a part of a Tier 1 Screening evaluation. This screening was performed to identify environmental permits, incidents, complaints, violations, response actions, contamination assessment planning and reporting, and remedial activities relating to owners, operators, and tenants on the subject property. In addition, environmental databases were reviewed for all adjoining and adjacent property addresses, and certain properties up to a third of a mile around the subject property, measured from the nearest subject property boundary.

The following table provides a summary of nearby facilities listed on searched regulatory databases to identify the area of concern as reported in the EDR report:

Standard Environmental Record Resource	Approximate Minimum Search Distance-Surrounding the site (miles)			
	Chemicals of Concern		Petroleum Hydrocarbon Chemicals of concern	
	Subject Property	Within 1/3 mile	On site	1/10 mile
FEDERAL RECORDS				
NPL	0	0	0	0
SEMS (CERCLIS)	0	0	0	0
RCRA CORRACTS	0	0	0	0
RCRA non-CORRACTS TSD	0	0	0	0
RCRA	0	0	0	0
Institutional/Engineering Control Registries	0	NR	0	NR
ERNS	0	NR	0	NR
STATE AND TRIBAL RECORDS				
NPL	0	0	0	0
Landfill and/or solid waste disposal sites	0	0	0	0
LUST	0	0	0	0
Registered storage tanks lists	0	NR	0	0
Institutional control/engineering control registries	0	NR	0	NR
Voluntary cleanup sites	0	0	0	0
Brownfields	0	0	0	0

Notes: NR = Not Requested at this search distance.

Based on a review of available data, a *VEC* in connection with the subject property does not or is not likely to exist.

5.4 Additional Environmental Record Sources

No previous environmental investigation reports for the subject property were provided by the client or found in the review of regulatory agency records.

Based on all the information obtained, and the standard record sources utilized during the course of this assessment, no additional record sources were deemed necessary for the purpose of identifying *RECs* associated with the subject property.

6.0 PHYSICAL SETTING SOURCES

A preliminary review of available physical setting source information was performed that consisted of physiographic, subsurface geologic, regional groundwater information, and local well field protection maps of the subject area.

6.1 Review of USGS Topographic Map

A United States Geological Survey (USGS) 7.5-Minute Series Topographic Map FORT PIERCE NW, FL (1983) was examined to determine the geographical features at and around the subject property. The north portion of the subject property site is located at an approximate elevation of 18 feet above mean sea level (amsl). The east portion of property is depicted as cleared land. The west/southwest portions of property are depicted as vegetated. South Jenkins Road is depicted to the east. I-95 is depicted to the west. Ten Mile Creek is depicted approximately 2,000 feet to the south. No building structures, surface water bodies, marshy areas, mines, or borrow pits are depicted on the subject property.

6.2 Site Soils

The United States Department of Agriculture, Soil Conservation Service, "Soil Survey of St. Lucie County Area, Florida" (Watts and Stankey, 1980) was reviewed. Additionally, the Web Soil Survey (WSS) from the National Resource Conservation Service was reviewed. The Soil Survey identifies the predominant site soils as Ankona Sand (Map Unit 2) and Nettles Sand (Map Unit 25). Soils in these categories are described below:

Ankona Sand (Map Unit 2): This unit comprises approximately 75 percent of the subject property. This is a nearly-level, poorly drained soil on broad flatwoods. Typically, the surface layer is sand about 11 inches thick. It is black in the upper 3 inches and dark gray in the lower 8 inches. The subsurface layer contains light gray sand approximately 38 inches thick. The subsoil extends to a depth of 57 inches. It is black, moderately cemented sand in the upper 10 inches and grayish-brown sandy loam in the lower 9 inches. The substratum contains olive-gray loamy fine sand to a depth of 80 inches or more. The water table is within a depth of 10 inches for 1 to 4 months and within a depth of 10 to 40 inches for 6 to 9 months in most years. The water table recedes to a depth below 40 inches during dry periods. Permeability is rapid in the surface and subsurface layers, very slow to slow in the subsoil, and moderate to rapid in the substratum.

Nettles Sand (Map Unit 25): According to the soil survey, this unit comprises 25 percent of the subject property in the eastern one-quarter of the property. This is a nearly-level, poorly drained soil in broad flatwoods. Typically, the surface layer is 11 inches thick and contains black sand in the upper 5 inches, very dark gray sand in the next 3 inches, and dark fine-grained sand in the lower 3 inches. The subsurface layer is 22 inches thick and contains light gray sand. The subsoil extends to a depth of 90 inches or more. The upper 6 inches of the subsoil contains black to reddish brown fine sand and weakly-cemented organic matter. T next 16 inches contains dark reddish brown loamy sand. The lower part of the subsoil contains pale olive gray loamy sand. The permeability is rapid in the surface and subsurface layers and slow in the subsoil. In natural conditions, the water table is at a depth of 10 to 40 inches for 4 to 6 months. It is at a depth of less than 10 inches for 2 to 4 months.

6.3 Site Geology and Hydrogeology

Two major aquifers are located in Martin County; the non-artesian shallow aquifer and the artesian Floridan aquifer (Lichtler, 1960). The shallow aquifer is the principal source of water in Martin County. The aquifer extends from a few feet below land surface to a depth of approximately 150 feet at the coast and thins to the west. The shallow aquifer is composed of the recent Pamlico Sand formation, Pleistocene-age Anastasia Formation and the Upper-Miocene-age Tamiami Formation. The shallow aquifer is underlain by a thick section of less permeable sediments that are predominantly sandy clay, fine sand and marl, the Miocene-age Hawthorn Group. This formation forms the upper confining layer to the underlying Floridan aquifer, consisting of a thick sequence of permeable limestones of Miocene and pre-Miocene age. In Martin County, the Floridan aquifer yields brackish water and is used mainly for irrigation.

Based on previous assessment data collected in 2005 at the subject property, the average depth to the water table at the subject property is estimated to be less than 5 feet below land surface. Groundwater in the shallow water-table aquifer beneath the subject property is estimated to flow southeast. Groundwater in the shallow aquifer generally flows from areas of higher elevation towards the coast or streams where it can discharge as baseflow. Water infiltrates the aquifer from rainfall and discharges as baseflow to streams, to the coast, by evapotranspiration, and downward recharge to deeper aquifers. Local groundwater flow (flow direction and velocity) may be influenced by the proximity of water-supply wells and local surface-water management. The specific groundwater flow beneath the subject property can only be determined by field methods.

7.0 HISTORICAL USE INFORMATION ON THE SUBJECT PROPERTY

The objective of consulting historical sources is to develop a history of the previous uses of the subject property, in order to help identify the likelihood of past uses having led to *RECs* in connection with the property. Only those sources deemed reasonably ascertainable were reviewed, pursuant to the standard practice.

7.1 Fire Insurance Maps

Sanborn® Fire Insurance Maps were not available for the subject property.

7.2 City Directories

Because the property has been historically undeveloped with no known historical address, city directory listings for the subject property were not available.

7.3 Historical Topographic Maps

UES reviewed four available historical topographic maps (1950 1970, 1967, 1983, and 2012). Copies of topographic maps are provided in **Appendix E**. The following observations for the subject property are made:

The 1950 map depicts the subject property as undeveloped, mostly vegetated land. One circular-shaped low-lying wet area is depicted along the west property boundary. Another low-lying wet area is depicted just outside the northwest property corner. A landing strip (aircraft runway) for a private airport is depicted to the north. Ten Mile Creek is depicted approximately 2,000 feet to the south. The 1970 map depicts the subject property similar to the 1950 map. The 1983 map depicts the subject property similar to the previous maps. The landing strip and private airport are no longer depicted. I-95 is depicted under construction adjacent to the west. A residential development along Briargate Road is now depicted to the south/east. The 2012 map does not show individual features but does not depict significant changes. No building structures, marshy area symbols, mines, or borrow pits are depicted on the subject property in any of the topographic maps reviewed.

7.4 Historical Aerial Photograph Review

Aerial photographs dated 1944, 1950, 1958, 1969, 1980, 1992, 1994, 1999, 2007, 2010, 2013 and 2017 were obtained from EDR. An aerial photograph from 2021 was reviewed from the Google Earth website. The subject property is visible in all the photographs. Historical aerial photographs are provided in **Figures 4 through 14**. A general description of each photograph using current names and identifiers follows.

.

1944: The subject property appears as pastureland with low-growth vegetation (grass) and scattered trees. One circular-shaped, low-lying wet area is visible along the west property boundary and extending offsite to the west. Jenkins Road is visible as an unpaved roadway at its current location along the east property boundary. A drainage ditch is visible along the north property boundary.

1950: The subject property appears to be essentially unchanged from the previous photograph.

1958: The subject property appears to be essentially unchanged from the previous photograph. Small paths (possibly livestock trails) are visible on the property. A small ditch is now visible along the south boundary and turning south at the

"panhandle" portion of the property. An unidentifiable object (possibly a livestock feeder) is noted near the center of the subject property.

1969: The subject property appears to be essentially unchanged from the previous photograph.

1980: The subject property no longer appears as active pastureland. The vegetation has increased in density, especially in the west portion of the site. A few small areas with unidentifiable objects (possibly discarded debris and/or disturbed soil) is noted in the south-central portion of the property.

1992: The vegetation on the subject property has again increased in density. An unpaved trail is now visible crossing through the center of the property. An area of disturbed soil is visible at the east end of this trail near South Jenkins Road.

1994: The subject property appears to be essentially unchanged from the previous photograph.

1999: The subject property appears to be essentially unchanged from the previous photograph.

2007: The subject property appears to be essentially unchanged from the previous photograph. The vegetation has increased in density.

2010: The subject property appears to be essentially unchanged from the previous photograph. A new unpaved trail is now visible in the south "panhandle" portion of the property.

2013: The subject property appears to be essentially unchanged from the previous photograph.

2017: The subject property appears to be essentially unchanged from the previous photograph. Dense vegetation is now reclaiming the previous visible unpaved trails.

2021: This photograph was viewed on the Google Earth website. Several unpaved trails are visible crossing through the subject property. Unidentifiable objects that appear to be discarded debris are now visible in the northeast portion of the property.

7.5 Previous Environmental Investigations

No previous environmental investigation reports for the subject property were provided by the

client or found in the review of regulatory agency records.

8.0 HISTORICAL USE INFORMATION ON ADJOINING PROPERTIES

8.1 Fire Insurance Maps

Sanborn® Fire Insurance Maps were not available for the adjoining properties.

8.2 City Directories

City Directory listings for surrounding addresses in the 2900 to 3300 block of South Jenkins Road were reviewed in varying-year intervals from 1992 until 2017. St Peter Lutheran Church was identified at 2900 South Jenkins Road beginning in 2005. No listings that appear to be involved with petroleum, dry cleaning or other industrial business were reported within the address range reviewed.

8.3 Historical Topographic Maps

The 1950 map depicts the surrounding area as undeveloped, mostly vegetated land a low-lying wet area is depicted just outside the northwest property corner. A landing strip (aircraft runway) for a private airport is depicted to the north. An unpaved trail is depicted along the south property boundary. Ten Mile Creek is depicted approximately 2,000 feet to the south. The 1970 map depicts the surrounding areas similar to the 1950 map. The landing strip and private airport are no longer depicted in the 1983 map. I-95 is depicted under construction adjacent to the west. A residential development along Briargate Road is now depicted to the south/east. The 2012 map does not show individual features but does not depict significant changes. No marshy area symbols, mines, or borrow pits are depicted on the surrounding properties in any of the topographic maps reviewed.

8.4 Historical Aerial Photographs

1944: The adjacent properties to the south and west appear as pastureland with scattered trees similar to the subject property. South Jenkins Road is visible as an unpaved road at its current location along the east property boundary. The adjacent property east of South Jenkins Road appears as pastureland. A drainage ditch is visible along the north property boundary. The property north of the ditch appears as agricultural land (citrus). However, the citrus operation does not appear to be active. A semi-circular shaped low-lying area is noted adjacent to the northwest

property corner. A large area that has been cleared for row crops is noted to the north-northwest surrounding the wet area.

1950: The citrus trees to the north have been removed. East-to-west crowns and troughs are visible in the area of the former citrus trees. The row crops to the north-northwest are no longer visible. This area now appears as pastureland.

1958: A small building (possibly a house) and two tall cylindrical-shaped objects (possibly silos) are noted along South Jenkins Road adjacent to the southeast property corner. The adjacent properties still appear as pastureland, but some small ditches are now visible. A strip of grass (north-to-south) is visible on the adjacent property to the north. This was a former aircraft landing strip. It does not extend to the subject property.

1969: A road (Briargate Road) and 13 residential structures (houses) are now visible on the adjacent property to the south. The small building structure south of the southeast property corner is again visible. The two tall cylindrical-shaped objects are no longer seen. The adjacent property to the north appears as improved pastureland. The grass aircraft landing strip is no longer visible. A pond (elliptical in shape) has been constructed adjacent to the northwest property corner.

1980: Interstate 95 (I-95) and its interchange with Okeechobee Road are now visible and appear to be under construction to the west and northwest. The adjacent property to the north now appears as active row crops. Two additional houses (now a total of 15) are noted along Briargate Road to the south. South Jenkins Road now appears to be paved.

1992: The construction of I-95 and its interchange to the west and northwest appears to be completed. The adjacent property to the north again appears to be active agricultural row crops. The adjacent property to the east of South Jenkins Road now appears as woodlands. A building that appears to be a church is now visible approximately 700 feet to the southeast of the south property panhandle.

1994: The surrounding areas appear to be essentially unchanged from the previous photograph.

1999: The surrounding areas appear to be essentially unchanged from the previous photograph.

2007: The surrounding areas appear to be essentially unchanged from the previous photograph. Commercial development is noted to the west of I-95.

2010: The church to the south has expanded to the north with a new, larger building approximately 500 feet southeast of the south property panhandle. The parking lot for the church is within 150 feet of the south property panhandle. A new church

building (Grace Church) is now visible approximately 200 feet to the northeast (across South Jenkins Road).

2013: The agricultural row crop fields adjacent to the north no longer appear to be active. This area has become overgrown with dense vegetation. The remaining surrounding areas appear to be essentially unchanged.

2017: The surrounding areas appear to be essentially unchanged from the previous photograph.

2021: This photograph was viewed on the Google Earth website. A recreational vehicle (RV) park/campground (KOA) has been constructed and is now visible to the east/southeast across South Jenkins Road. A constructed large elliptical-shaped lake associated with the RV park/campground is now visible. The remaining surrounding areas appear to be essentially unchanged.

9.0 SITE RECONNAISSANCE INFORMATION

9.1 Methodology and Limiting Conditions

The objective of the site reconnaissance is to obtain information indicating the likelihood of identifying *RECs* in connection with the property. UES personnel visually and physically observed the property not obstructed by bodies of water, adjacent buildings, or other obstacles, such as high-standing vegetation. Robert P. Crowell, P.G., Senior Geologist with UES performed a walk-through reconnaissance at the subject property on July 12, 2021. The subject property boundaries were based on the information provided by the Client. Photographs of the subject property taken during site reconnaissance are included as **Appendix F**.

9.2 General Site Setting

Within the scope of this Phase I ESA, UES noted the uses and conditions of the subject property, to the extent visually or physically observed during the site visit. The subject property was observed to be vacant land containing woodlands and clearings. Several unpaved trails were observed on the subject property.

9.3 Hazardous Substances in Connection with Identified Uses

No hazardous substances were observed on the subject property during site reconnaissance.

9.4 Storage Tanks

No evidence of petroleum underground storage tank systems (vent pipes, fill ports, pipelines, or access ways indicating underground storage tanks) were observed on the subject property during the site visit.

9.5 Odors

No noxious or unusual odors were detected on the property during the site reconnaissance.

9.6 Pools of Liquid

Several areas in the west part of the property containing standing surface water from recent rains were observed on the subject property.

9.7 Drums

No drums were observed on the subject property.

9.8 Hazardous Substance and Petroleum Products Containers

No hazardous waste or petroleum product containers were observed on the subject property.

9.9 Unidentified Substance Containers

No unidentified substance containers were observed on the property during the site visit.

9.10 Indications of Polychlorinated Biphenyls

No electrical transformers or other equipment that may contain polychlorinated biphenyls (PCBs) were observed on the subject property.

9.11 Indications of Pits, Ponds or Lagoons

No evidence of pits, ponds, or lagoons; stained soil or pavement; stressed vegetation; solid waste disposal, waste burial, wastewater discharges, septic systems; or potable or irrigation wells was observed on the subject property.

9.12 Indications of Solid Waste Disposal

Numerous areas of discarded trash and debris was observed on the subject property. The debris included tires, mattresses, scrap roofing materials (shingles) scrap metal, scrap concrete, wood scrap, asphalt chunks, one 250-gallon high density polyethylene (HDPE) chemical storage tank (empty with vegetation observed), several water-treatment cylinders, beverage containers and food wrappers. Some of the debris was covered by dense vegetation precluding precise inspection. This discarded trash is considered as *de minimis* but may be in violation of Florida Statues 403.413 ("Florida Litter Law").

9.13 Other Observations

A recreational vehicle (camper) and a boat on a trailer (possible squatter residence) was observed in the northwest corner of the property.

A tent (possible transient home) was observed on the subject property. Evidence of past transient resident activity was observed on the subject property.

10.0 INFORMATION FROM INTERVIEWS

10.1 Interview with Owner

No owner interviews were conducted.

10.2 Interview with Site Manager

The subject property is currently vacant.

10.3 Interviews with Local Government Officials

UES conducted a file review on the Florida Department of Environmental Protection's online OCULUS system regarding the subject property and surrounding properties identified during the records review. Information obtained during the interview is included in this report.

11.0 DATA GAPS AND FAILURE

11.1 Data Gaps

No owner interviews were conducted. Based on the historical data obtained in the records review, this data gap does not appear to be significant. Dense vegetation may have precluded precise inspection to some areas of the property. No significant data gaps were identified during the preparation of this Phase I ESA.

11.2 Data Failure

A data failure occurs when the review of historical information, does not identify the use of a property back to the first development or to 1940 (whichever is earlier). The earliest available record for the site dates back to a 1944 aerial photograph, which depicts the subject property and surrounding areas as pastureland. Based on visible observations made and a review of the available historical resources, this data failure does not pose a *REC* in connection with the subject property.

12.0 FINDINGS

UES was retained by Marshall Property Services, LLC to conduct a Phase I Environmental Site Assessment of a 27.89-acre vacant property (Parcel Number 2325-231-0001-000-4) located west of South Jenkins Road in Fort Pierce, St. Lucie County, Florida. Any limitations, exceptions, or deletions from this practice are described in this report.

12.1 *VECs*

Based on our research and site reconnaissance, no *VECs* were identified in connection with the subject property.

12.2 RECs

Based on our research and site reconnaissance, no *RECs* were identified in connection with the subject property.

12.3 Controlled Environmental Conditions

Based on our research and site reconnaissance, no *controlled RECs* were identified in connection with the subject property.

12.4 Historical Environmental Conditions

Based on our research and site reconnaissance, no *historical RECs* were identified in connection with the subject property.

12.5 *De minimis* Conditions

De minimis conditions identified in relation to the subject property include numerous areas of discarded trash/debris that was observed on the property. The trash/debris consisted of inert materials and therefore, is not considered a *REC*.

.

13.0 OPINION

It is the opinion of UES that no further assessment or investigation is necessary at this time. The discarded debris on the property should be removed for proper disposal.

14.0 CONCLUSIONS

UES has performed a Phase I Environmental Site Assessment (Phase I ESA) of a 27.89-acre vacant property (Parcel Number 2325-231-0001-000-4) located west of South Jenkins Road in Fort Pierce, St. Lucie County, Florida. The assessment was performed in general conformance with the scope and limitations of ASTM Practice E 1527-13. Any exceptions to, or deletions from, this practice are described in this report.

This assessment has revealed no evidence of *VECs* in connection with the subject property.

This assessment has revealed no *RECs* in connection with the subject property.

This assessment revealed no controlled *RECs* in connection with the subject property.

This assessment revealed no historical *RECs* in connection with the subject property.

Discarded trash/debris was observed on the property. The trash/debris consisted of inert materials and therefore, is not considered a *REC*. This may be in violation of the Florida Statutes 403.413 ("Florida Litter Law"). The discarded trash/debris should be removed for proper disposal.

15.0 DEVIATIONS

No deviations from the standard practices occurred during the Phase I ESA. No other deviations regarding budgets, due dates, or limitations were encountered during the course of this Phase I ESA.

16.0 ADDITIONAL SERVICES

The purpose of the Phase I ESA was met through the performance of four components: records review, site reconnaissance, interviews, and preparation of the Phase I ESA report. Non-scope considerations, or those issues considered to be of potential environmental concern at a property outside the scope of the ASTM E 1527-13 practice, were not addressed. More specifically, non-scope considerations which were not included within UES' Phase I ESA scope of work included, but were not limited to: asbestos containing materials, radon, lead-based paint, lead in drinking water, wetlands, regulatory compliance, cultural and historical risks, industrial hygiene, health and safety, ecological resources, endangered species, indoor air quality (with exception of vapor intrusion due to a release of hazardous substances or petroleum compounds), and high voltage power lines. In accordance with ASTM E 1527-13, Section 13.1.5, no assessment of such non-scope considerations is required for appropriate inquiry as defined in the standard practice.

16.1 Suspect Asbestos Containing Materials

No current building structures are located on the subject property. No suspected asbestos containing materials were observed on the subject property.

16.2 Lead-Based Paint

The property is vacant with no current building structures. No structures with painted surfaces were observed on the subject property.

16.3 Radon

Radon is a naturally-occurring radioactive gas generated from the decay of radium. It cannot be seen, smelled, or tasted. Indoor radon levels, which are dependent upon the construction of the building and the concentration of radon in the underlying soils, are more commonly a potential area of concern for buildings that have a basement. Based on the "Florida Statewide Radiation Study" prepared by Geomet Technologies, Inc., for the Florida Institute of Phosphate Research in November 1987, St. Lucie County has a low potential for radon. For that study, a total of 31 indoor radon samples were collected in St. Lucie County. Radon concentrations ranged from 0.2 picoCuries per liter (pCi/L) to 1.0 pCi/L. None of the 31 samples tested contained radon above the USEPA guidance concentration of 4.0 pCi/L.

The USEPA has designated St. Lucie County as a Zone 3, the lowest radon potential (EPA's Map of Radon Zones-Florida, United States Environmental Protection Agency, Office of Radiation and Indoor Air, September 1993). The predicted indoor radon concentration for Zone 3 is less than 2 pCi/L. Based on the referenced data, the potential for radon exposure, exceeding the USEPA guidance levels at the subject property is low.

16.3 Lead in Drinking Water

Fort Pierce Utilities Authority (FPUA) is anticipated for future potable water supply. According to the FPUA website, the 90th percentile lead concentration in 2019 (latest results available) was 0.7 parts per billion (ppb). This is below the Action Level (State Drinking Water Standard and Maximum Contaminant Level) of 15 ppb. Based on the referenced data, the potential for lead in drinking water exposure exceeding the Action Level at the subject property is low.

16.4 Wetlands

A wetlands determination was not performed as part of this assessment. The National Wetlands Inventory (NWI) map does not identify wetland areas on the subject property. A low-lying area was noted in historical aerial photographs and areas of standing water were noted in the west portion of the property. A wetlands determination may be prudent.

16.5 Wellfield Protection Zones

UES reviewed the City of Fort Pierce Comprehensive Plan, GOP Map 1-4 dated February 2011, "Well Locations and Wellfield Protection Zones". The subject property is not located within a wellfield protection zone.

Question		Observed During Site Visit	
1a. Is the property used for an *industrial* use?	☐Yes)	☒ No	☐ Unk
1b. Is any *adjoining property* used for an industrial use.	☐Yes	☒ No	☐ Unk
2a. Did you observe evidence or do you have any prior knowledge the *property* has been used for an industrial use in the past.	☐Yes	☒ No	☐ Unk
2b. Did you observe evidence or do you have any prior knowledge that any *adjoining property* has been used for an industrial use in the past.	☐Yes	☒ No	☐ Unk
3a. Is the *property* used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility (if applicable, identify which)?	☐Yes	☒ No	☐ Unk
3b. Is any *adjoining property* used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility (if applicable, identify which)?	☐Yes	☒ No	☐ Unk

Question	Observed During Site Visit		
4a. Did you observe evidence or do you have any prior knowledge that the *property* has been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility (if applicable, identify which)?	☐ Yes	☒ No	☐ Unk
4b. Did you observe evidence or do you have any prior knowledge that any *adjoining property* has been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility (if applicable, identify which)?	☐ Yes	☒ No	☐ Unk
5a. Are there currently any damaged or discarded automotive or industrial batteries, pesticides, paints, or other chemicals in individual containers of >5 gal (19 L) in volume or 50 gal (190 L) in the aggregate, stored on or used at the *property* or at the facility.	☐ Yes	☒ No	☐ Unk

Question	Observed During Site Visit		
5b. Did you observe evidence or do you have any prior knowledge that there have been previously any damaged or discarded automotive or industrial batteries, or pesticides, paints, or other chemicals in individual containers of >5 gal (19 L) in volume or 50 gal (190 L) in the aggregate, stored on or used at the *property* or at the facility?	☐Yes	☒ No	☐ Unk
6a. Are there currently any industrial drums (typically 55 gal (208 L) or sacks of chemicals located on the property or at the facility?	☐Yes	☒ No	☐ Unk
6b. Did you observe evidence or do you have any prior knowledge that there have been previously any industrial *drums (*typically 55 gal (208 L) or sacks of chemicals located on the property or at the facility?	☐Yes	☒ No	☐ Unk
7a. Did you observe evidence or do you have any prior knowledge that *fill dirt* has been brought onto the property that originated from a contaminated site?	☐Yes	☒ No	☐

Question	Observed During Site Visit		
7b. Did you observe evidence or do you have any prior knowledge that *fill dirt* has been brought onto the property that is of an unknown origin?	☐Yes	☒ No	☐ Unk
8a. Are there currently any *pits*, *ponds*, or *lagoons* located on the *property* in connection with waste treatment or waste disposal?	☐Yes	☒ No	☐ Unk
8b. Did you observe evidence or do you have any prior knowledge that there have been previously, any *pits, ponds*, or *lagoons* located on the property in connection with waste treatment or waste disposal.	☐Yes	☒ No	☐ Unk
9a. Is there currently any stained soil on the *property*.	☐Yes	☒ No	☐ Unk
9b. Did you observe evidence or do you have any prior knowledge that there has been previously, any stained soil on the *property*?	☐Yes	☒ No	☐ Unk
10a. Are there currently any registered or unregistered storage tanks (above or underground) located on the *property*?	☐Yes	☒ No	☐ Unk

Question	Observed During Site Visit		
10b. Did you observe evidence or do you have any prior knowledge that there have been previously, any registered or unregistered storage tanks (above or underground) located on the *property*.	☐Yes	☒ No	☐ Unk
11a. Are there currently any vent pipes, fill pipes, or access ways indicating a fill pipe protruding from the ground on the *property* or adjacent to any structure located on the *property*?	☐Yes	☒ No	☐ Unk
11b. Did you observe evidence or do you have any prior knowledge that there have been previously, any vent pipes, or access ways indicating a fill pipe protruding from the ground on the *property* or adjacent to any structure located on the *property*?	☐Yes	☒ No	☐ Unk
12a. Is there currently evidence of leaks, spills or staining by substances other than water, or foul odors, associated with any flooring, drains, walls, ceilings, or exposed grounds on the property.	☐Yes	☒ No	☐ Unk

Question	Observed During Site Visit		
12b. Did you observe evidence or do you have any prior knowledge that there have been previously any leaks, spills, or staining by substances other than water, or foul odors, associated with any flooring drains, walls, ceilings or exposed grounds on the property?	☐ Yes	☒ No	☐ Unk
13a. If the property is served by a private well or non-public water system, is there evidence or do you have prior knowledge that contaminates have been identified in the well of system that exceed guidelines applicable to the water system?	☐ Yes	☒ No	☐ Unk
13b. If the property is served by a private well or non-public water system, is there evidence or do you have prior knowledge that the well has been designated as contaminated by any government environmental / health agency?	☐ Yes	☒ No	☐ Unk

Question			
14. Does the *owner* or *occupant* of the *property* have any knowledge of environmental liens or governmental notification relating to past or recurrent violations of environmental laws with respect to the *property* or any facility located on the *property*?	☐Yes	☒ No	☐ Unk
15a. Has the owner or occupant of the property been informed of the past existence of *hazardous substances* or *petroleum products* with respect to the *property* or any facility located on the *property*?	☐Yes	☒ No	☐ Unk
15b. Has the *owner* or *occupant* of the *property* been informed of the current existence of *hazardous substances* or *petroleum products* with respect to the *property* or any facility located on the *property*?	☐Yes	☒ No	☐ Unk
15c. Has the *owner* or *occupant* of the *property* been informed of the past existence of environmental violations with respect to the *property* or any facility located on the *property*?	☐Yes	☒ No	☐ Unk

Observed During Site Visit

Question			
15d. Has the *owner* or *occupant* of the *property* been informed of the current existence of environmental violations with respect to the *property* or any facility located on the *property*?	☐Yes	☒ No	☐ Unk
16. Does the owner or *occupant* of the *property* or facility have any knowledge of any *environmental site assessment* of the *property* or facility that indicated the presence of *hazardous substances* or *petroleum products* on, or contamination of, the *property* or recommended further assessment of the *property*?	☐Yes	☒ No	☐ Unk
17. Does the *owner* or *occupant* of the *property* know of the any past, threatened, or pending lawsuits or administrative proceedings concerning a release or threatened of any *hazardous substance* or *petroleum products* involving the *property* by owner or occupant of the *property*?	☐Yes	☒ No	☐ Unk

Observed During Site Visit

Question	Observed During Site Visit		
18a. Does the *property* discharge waste water (not including sanitary waste or storm water) onto or adjacent to the property and/or into a storm water system?	☐Yes	☒ No	☐ Unk
18b.Does the *property* discharge waste water (not including sanitary waste or storm water) onto or adjacent to the property and/or into a sanitary sewer system?	☐Yes	☒ No	☐ Unk
19. Did you observe evidence or do you have any prior knowledge that any *hazardous substances* or *petroleum products,* unidentified waste materials, tires, automotive or industrial batteries, or any other waste materials have been dumped above grade, buried and/or burned on the *property?*	☐Yes	☒ No	☐ Unk
20. Is there a transformer, capacitor, or any hydraulic equipment for which there are any records indicating the presence of PCB's?	☐Yes	☒ No	☐ Unk

Government Records / Historical Sources Inquiry

(See guide, Section 10)

21. Do any of the following Federal government record systems list the property or any property within the search distance noted below:

Database	Approximate Minimum Search Distance, miles (kilometers)		
Federal NPL site list	1.0 (1.6)	☐Yes	☒No
Federal Delisted NPL site list	0.5 (0.8)	☐Yes	☒No
Federal SEMS (CERCLIS) list	0.5 (0.8)	☐Yes	☒No
Federal SEMS (CERCLIS) NFRAP site list	0.5 (0.8)	☐Yes	☒No
Federal RCRA CORRACTS facilities list	1.0 (1.6)	☐Yes	☒No
Federal RCRA non-CORRACTS TSD facilities list	0.5 (0.8)	☐Yes	☒No
Federal RCRA generators list	Property and adjoining properties	☐Yes	☒No
Federal institutional control/engineering control registries	Property only	☐Yes	☒No
Federal ERNS list	Property only	☐Yes	☒No

State and tribal lists of hazardous waste sites identified for investigation or remediation:

Database	Approximate Minimum Search Distance, miles (kilometers)		
State–and tribal equivalent NPL	1.0 (1.6)	☐Yes	☒No
State–and tribal equivalent CERCLIS	0.5 (0.8)	☐Yes	☒No
State-and tribal landfill and/or solid waste disposal site lists	0.5 (0.8)	☐Yes	☒No
State-and tribal leaking storage tanks lists	0.5 (0.8)	☒Yes	☐No
State-and tribal registered storage tanks lists	0.25 (0.4)	☒Yes	☐No
State and tribal institutional control/engineering control registries	0.25 (0.4)	☐Yes	☒No
State and tribal voluntary cleanup sites	0.5 (0.8)	☐Yes	☒No
State and tribal Brownfield sites	0.5 (0.8)	☐Yes	☒No

22.	Based upon a review of fire insurance maps 10.2.3 or local street directories (10.2.3), all as specified in the guide, are any buildings or other improvements on the property or on an adjoining property identified as having been used for an industrial use or uses likely to lead to contamination of the property?	☐ Yes	☒ No	☐ Unk

USER/CLIENT QUESTIONNAIRE

(To be completed and returned to GFA International)

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability relief and Brownfields Revitalization Act of 2001 (*the "Brownfields Amendments),* the *user* must provide the following information (if available) to the *environmental professional*. Failure to provide this information could result in a determination that "*all appropriate inquiry"* is not complete.

GENERAL INFORMATION

User/Client Name(s): Marshall Property Services, LLC

Property name / address: Parcel # 2325-111-0001-000-2; 27.89 acres, West side of Jenkins Road, Fort Pierce, Florida

Property Type: Unimproved Land

Type of Property Transaction: Purchase

Reason Phase I ESA is Required: Purchase

Site Contact(s): Charles Marshall P. E. 317-800-0385

(1.)Environmental cleanup liens that are filed or recorded against the site (40 CFR 312.25). Are you aware of any environmental cleanup liens against the *property* that are filed or recorded under federal, tribal, state, or local law?

No

(2.)Activity and land use limitations (AULs) that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26). Are you aware of any AULs, such as *engineering controls*, land use restrictions or *institutional controls* that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state, or local law?

No

(3.)Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28). As the *user* of this ESA do you have any specialized knowledge or experience related to the *property* or nearby properties? For example, are you involved in the same line of business as the current or former *occupants* of the property or an adjoining *property* so that you would have specialized knowledge of the chemicals and processes used by this type of business?

No

*(4.)*Relationship of the purchase price to the fair market value of the *property* if it were not contaminated (40 CFR 312.29). Does the purchase price being paid for this *property* reasonably reflect the fair market value of the *property*? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the *property*?

Yes

*(5.)*Commonly known or reasonably ascertainable information about the property (40 CFR 312.30). Are you aware of commonly known or *reasonably ascertainable* information about the *property* that would help the *environmental professional* to identify conditions indicative of releases or threatened releases? For example, as *user,*

a. Do you know the past uses of the *property*? No

b. Do you know of specific chemicals that are present or once were present at the *property*? No

c. Do you know of spills or other chemical releases that have taken place at the *property*? No

d. Do you know of any environmental cleanups that have taken place at the *property*? No

*(6.)*The degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31). As the *user* of this *ESA,* based on your knowledge and experience related to the *property* are there any *obvious* indicators that point to the presence or likely presence of contamination at the *property*?

No

SIGNATURE

It is understood that the information presented in this form is an integral part of the Phase I ESA process. GFA International will evaluate and rely on this information in the development of the final Phase I ESA Report.

The Environmental Lien Search Report (ELS) provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering control and institutional controls.
Our in house professional abstractors / title examiners, following established procedure, use client supplied property data, such as property address, map, parcel number etc. to search for:

- parcel information and / or legal description
- search for ownership information
- research official recorded land title documents
- provide a copy of the deed
- search for environmental encumbering instrument (s) associated with the deed
- provide a copy of any environmental encumbrance (s) based upon a review of key words in the Instrument (s) (title, parties involved, and description).

Below is the property data information and Environmental Lien Search report of the subject property for a period ending July 02, 2021.

A copy of the current vesting deed is attached hereto and made a part hereof.

SPECIAL WARRANTY DEED

This Special Warranty Deed is executed effective the 16th day of July, 2019, by **LAND HOLDING, LLC**, with an address of The Tower at PNC Plaza, 300 Fifth Avenue, Pittsburgh, PA 15222-2401 (hereinafter referred to as "Grantor"), to **KIVA DEVELOPMENT, LLC**, a Florida limited liability company, with an address of 2239 Abrams Road, Eustis, Florida 32726 (hereinafter referred to as "Grantee").

Witnesseth, that the said Grantor, for and in consideration of the sum of $10.00, in hand paid by the said Grantee, the receipt whereof is hereby acknowledged, hereby grants, bargains, sells, aliens, remises, releases, conveys, and confirms unto the Grantee all of that certain real property situate in the **County of St. Lucie, State of Florida**, *to wit*:

See **Exhibit "A"** attached hereto and made a part hereof.

Together with all tenements, hereditaments, and appurtenances thereon.

Wherever used herein, the terms "Grantor" and "Grantee" shall be deemed to include the parties to this Deed, the heirs, legal representatives, and assigns of individuals, and the successors and assigns of any partnership, corporation, or limited liability company. The singular shall be deemed to include the plural, and vice versa, where the context so permits or requires.

Grantor hereby covenants with said Grantee that the Grantor is lawfully seized of said real property in fee simple; that Grantor has good right and lawful authority to sell and convey said real property; that Grantor hereby fully warrants the title to said real property and will defend the same against the lawful claims of all persons claiming by, through, or under Grantor, but no other; and that said real property is free of all encumbrances, except taxes accruing subsequent to December 31, 2018, and except the matters and restrictions of record.

In Witness Whereof, the said Grantor has signed and sealed these presents the day and year first above written.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

State and tribal leaking storage tank lists

LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the Department of Environmental Protection's PCTO1--Petroleum Contamination Detail Report.

A review of the LUST list, as provided by EDR, and dated 01/25/2021 has revealed that there are 5

LUST sites within approximately 0.5 miles of the target property.

State and tribal registered storage tank lists

AST: Shortly after the Sept 11 event, the DEP was instructed to remove the detail about some of the storage tank facilities in the state from their reports. Federal-owned facilities and bulk storage facilities are included in that set.

A review of the AST list, as provided by EDR, has revealed that there are 2 AST sites within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
RYDER TRUCK RENTAL	3711 CROSSROADS PARK	W 1/8 - 1/4 (0.225 mi.)	D11	16
Database: AST, Date of Government Version: 01/26/2021 Facility-Site Id: 9601175 Facility Status: CLOSED Facility Status: CLOSED				
RYDER TRUCK RENTAL #	3711 CROSSROADS PKY	W 1/8 - 1/4 (0.225 mi.)	D14	31
Database: AST, Date of Government Version: 01/26/2021 Facility-Site Id: 9601149 Facility Status: OPEN Facility Status: OPEN				

TANKS: This listing includes storage tank facilities that do not have tank information. The tanks have either be closed or removed from the site, but the facilities were still registered at some point in history.

A review of the TANKS list, as provided by EDR, and dated 01/26/2021 has revealed that there is 1 TANKS site within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page

ADDITIONAL ENVIRONMENTAL RECORDS

Records of Emergency Release Reports

HMIRS: The Hazardous Materials Incident Report System contains hazardous material spill incidents reported to the Department of Transportation. The source of this database is the U.S. EPA.

A review of the HMIRS list, as provided by EDR, and dated 03/22/2021 has revealed that there is 1 HMIRS site within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
Not reported	3711 CROSSROADS PARK	W 1/8 - 1/4 (0.225 mi.)	D12	17

Other Ascertainable Records

FINDS: The Facility Index System contains both facility information and "pointers" to other sources of information that contain more detail. These include: RCRIS; Permit Compliance System (PCS); Aerometric Information Retrieval System (AIRS); FATES (FIFRA [Federal Insecticide Fungicide Rodenticide Act] and TSCA Enforcement System, FTTS [FIFRA/TSCA Tracking System]; CERCLIS; DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes); Federal Underground Injection Control (FURS); Federal Reporting Data System (FRDS); Surface Impoundments (SIA); TSCA Chemicals in Commerce Information System (CICS); PADS; RCRA-J (medical waste transporters/disposers); TRIS; and TSCA. The source of this database is the U.S. EPA/NTIS.

A review of the FINDS list, as provided by EDR, and dated 02/03/2021 has revealed that there are 3 FINDS sites within approximately 0.25 miles of the target property.

Environmental Interest/Information System:
US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Environmental Interest/Information System:
US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 04/27/2021

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 02/22/2021

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

State and tribal institutional control / engineering control registries

ENG CONTROLS: Institutional Controls Registry

The registry is a database of all contaminated sites in the state of Florida which are subject to engineering controls. Engineering Controls encompass a variety of engineered remedies to contain and/or reduce contamination, and/or physical barriers intended to limit access to property. ECs include fences, signs, guards, landfill caps, provision of potable water, slurry walls, sheet pile (vertical caps), pumping and treatment of groundwater, monitoring wells, and vapor extraction systems.

BSRA: Brownfield Site Rehabilitation Agreements Listing
The BSRA provides DEP and the public assurance that site rehabilitation will be conducted in accordance with Florida Statutes and DEP's Contaminated Site Cleanup Criteria rule. In addition, the BSRA provides limited liability protection for the voluntary responsible party. The BSRA contains various commitments by the voluntary responsible party, including milestones for completion of site rehabilitation tasks and submittal of technical reports and plans.
It also contains a commitment by DEP to review technical reports according to an agreed upon schedule. Only those brownfield sites with an executed BSRA are eligible to apply for a voluntary cleanup tax credit incentive pursuant to Section 376.30781, Florida Statutes.

BROWNFIELDS AREAS: Brownfields Areas Database
A "brownfield area" means a contiguous area of one or more brownfield sites, some of which may not be contaminated, that has been designated as such by a local government resolution. Such areas may include all or portions of community redevelopment areas, enterprise zones, empowerment zones, other such designated economically deprived communities and areas, and Environmental Protection Agency (EPA) designated brownfield pilot projects. This layer provides a polygon representation of the boundaries of these designated Brownfield Areas in Florida.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

HIST FTTS INSP: FIFRA/TSCA Tracking System Inspection & Enforcement Case Listing
A complete inspection and enforcement case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

FL Cattle Dip. Vats: Cattle Dipping Vats

From the 1910's through the 1950's, these vats were filled with an arsenic solution for the control and eradication of the cattle fever tick. Other pesticides, such as DDT, were also widely used. By State law, all cattle, horses, mules, goats, and other susceptible animals were required to be dipped every 14 days. Under certain circumstances, the arsenic and other pesticides remaining at the site may present an environmental or public health hazard.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Northeast Map:	5656797 FORT PIERCE, FL
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

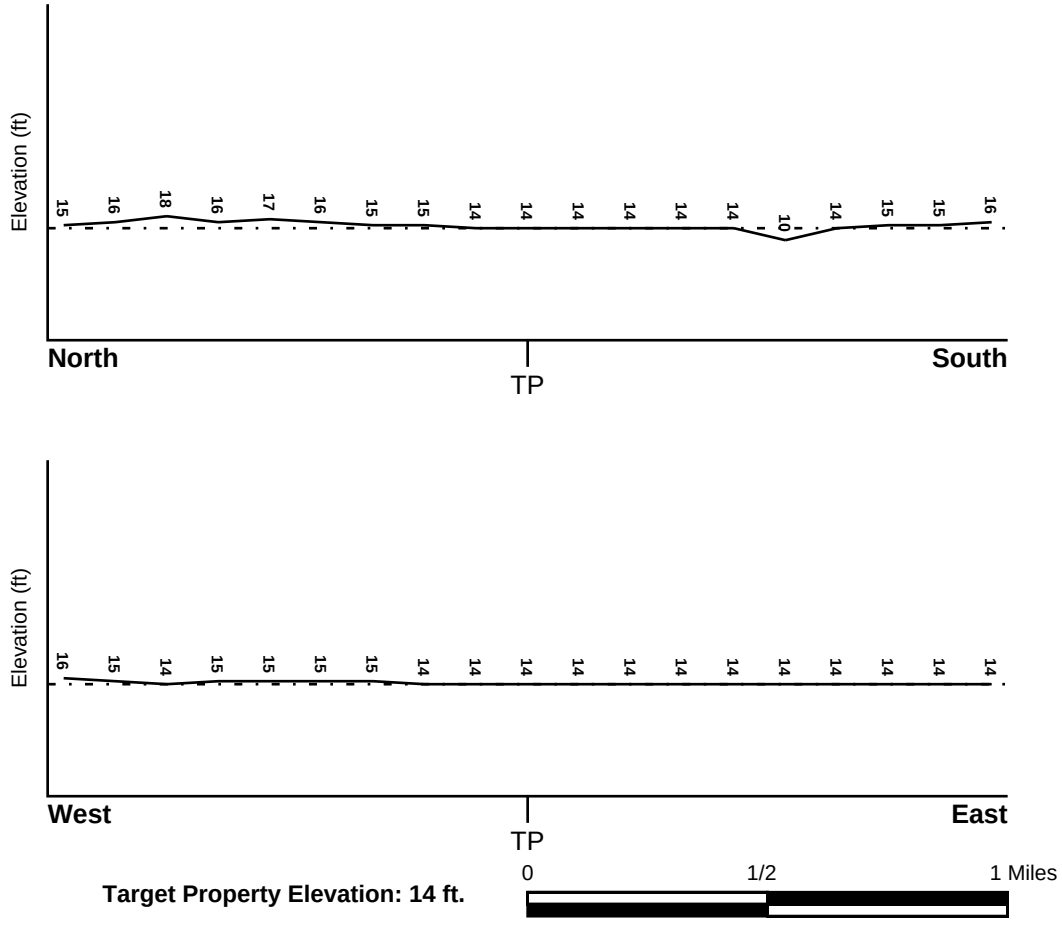

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSE

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Target Property Elevation: 14 ft.

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
12111C0167J	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
12111C0186J	FEMA FIRM Flood data

12111C0188J	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
FORT PIERCE NW	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
Not Reported		

* ©1996 Site−specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Ankona

Soil Surface Texture: sand

Hydrologic Group: Class C/D - Drained/undrained hydrology class of soils that can be drained and classified.

Soil Drainage Class: Poorly drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 31 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	7 inches	38 inches	sand	Granular materials (35 pct. or less passing No. 200), Fine Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 5.5 Min: 3.6
2	38 inches	48 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Fine Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 5.5 Min: 3.6
3	48 inches	57 inches	sandy loam	Granular materials (35 pct. or less passing No. 200), Fine Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 5.5 Min: 3.6

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
4	57 inches	79 inches	loamy fine sand	Granular materials (35 pct. or less passing No. 200), Fine Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 5.5 Min: 3.6
5	0 inches	7 inches	sand	Granular materials (35 pct. or less passing No. 200), Fine Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 5.5 Min: 3.6

Soil Map ID: 2

Soil Component Name: Nettles

Soil Surface Texture: sand

Hydrologic Group: Class B/D - Drained/undrained hydrology class of soils that can be drained and are classified.

Soil Drainage Class: Poorly drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 31 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information

5	55 inches	79 inches	fine sandy loam	Granular materials (35 pct. or less passing No. 200), Fine Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 4 Min: 0.42	Max: 7.8 Min: 5.1

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

APPENDIX G

Qualifications of Environmental Professionals

Robert P. Crowell, P.G.

Environmental Department Manager, Port St. Lucie office

Mr. Crowell has over 30 years of experience in environmental consulting in South Florida. He has led and served as project manager for hundreds of environmental assessment and remediation projects. Mr. Crowell has performed Environmental Site Assessments (ESAs) in Florida, Georgia, Mississippi, Louisiana, California, Minnesota, Pennsylvania, West Virginia, South Carolina, and the U.S. Virgin Islands.

Education

- Bachelor of Science (B.S.) Geology, 1984, University of South Florida, Tampa, Florida

Experience

- Universal Engineering, Inc. (previously GFA International, Inc.) Port St. Lucie, FL, 2016-Present
- ARCADIS U.S., Inc. (previously Geraghty & Miller, Inc.), West Palm Beach, FL, 1991-2015.
- Roux Associates, Inc., Huntington, NY 1984-1991.

Licenses

- Professional Geologist (P.G.) , Florida (#1748) and Kentucky (#1215)
- AHERA Licensed Asbestos in Buildings Inspector
- OSHA HAZWOPER 40-Hour and Annual 8-Hour Refresher
- OSHA HAZWOPER Supervisor
- Transportation Worker Identification Credential (TWIC)

Key Project Experience:

- Served as lead Environmental Professional (EP) and Project Manager for Phase I and Phase II ESAs in accordance with ASTM E-1527 and All Appropriate Inquiry (AAI) for over five hundred (500) property transfers. Sites have included large and small manufacturing facilities, newspaper and other printing plants, citrus groves, agricultural land, oil and gas pipeline facilities, undeveloped land, automobile dealership and automotive repair facilities, airport facilities, aircraft manufacturing and aerospace facilities, marinas and boat dealerships, residential apartment and condominium complexes, commercial office buildings, medical facilities, nursing home and assisted living facilities, shopping centers, dry cleaning facilities, power generation facilities, agricultural research facilities, mining facilities, self-storage facilities, port and other maritime industry facilities, renewable energy (wind and solar) facilities, waste treatment facilities, railroad facilities, a 107-acre former County correctional facility (closed prison) and right of ways for roadway expansion. Many of the assessments were performed as part of a “portfolio” of multiple properties included in a single transaction.

- Served as Project Manager for an Underground Storage Tank (UST) Closure Assessment forremoval of two 10,000-gallon USTs at a former citrus grove in St. Lucie County, Florida in February 2016. The project consisted of field-screening of 53 soil samples for volatile organic vapors, collection and analysis of confirmatory soil samples, installation of a monitoring well and collection and collection of a groundwater sample. Mr. Crowell was involved with all aspects of the project and prepared a Tank Closure Assessment

Report, which was submitted to the Florida Department of Environmental Protection. The site achieved "No Further Action" status.

- Served as Project Manager and lead assessor for the investigation and remediation of a toluene release at a manufacturing facility in Pompano Beach, Florida. The assessment required the installation of multiple depth clustered monitoring wells for determination of the horizontal and vertical extent of groundwater impacts. A recovery well was utilized for contaminant extraction and the facility's existing air-stripping system (for its process water) was utilized for treatment of recovered groundwater. Use of the existing air-striping system resulted in significant cost savings to the Client. Coinciding with plant closing, the three toluene underground storage tanks and impacted soils in the vicinity of the tanks were excavated and removed. Hot-spot removal of groundwater using a series vacuum extraction events at one location was performed. The site achieved "No Further Action" status in following Post Active Remediation Monitoring (PARM). The monitor and recovery wells were properly abandoned.

- Served as Task Manager for the Contamination Evaluation and Screening (CSE) portion of a Project Development and Environmental (PD&E) study of the intersection of 20th Street (State Road 60) amd 43rd Avenue (County Road 611) in Vero Beach, Indian River County, Florida. The CSE evaluated every property within the proposed right of way expansion and assigned a risk ranking value to each property for its potential for contamination. The CSE was incorporated into a PD&E report which evaluated many components of the right of way improvements.

- Served as Project Manager and lead assessor for investigation and remediation of lead impacts to soil and groundwater at a former battery manufacturing facility in West Palm Beach, Florida. Remediation efforts included soil excavation and groundwater extraction-and-treatment from "hot spots". Groundwater monitoring showed that lead concentrations had stabilized and the plume had been reduced in size. A risk-based closure (No Further Action with Controls) was approved by the FDEP.

- Served as Project Manager performing contamination assessment activities for arsenic impacts to soil and groundwater at a golf course maintenance facilityin Palm Beach Gardens, Florida. Soils in the vicinity of a former washdown area were excavated and removed as part of the source removal. Groundwater monitoring showed that arsenic concentrations had stabilized and the plume had been reduced in size. A risk-based closure (No Further Action with Controls) was approved by the FDEP.

- Performed AHERA-compliant asbestos in buildings surveys at numerous sites in Florida.

- Served as Project Manager for a Site Inspection (SI) including soil and groundwater sampling of a former small-arms firing range at a former U.S. Army base in Hobe Sound, Florida. The project was completed under Formerly-Used Defense Site (FUDS) program. The project included preparing a Work Plan, Quality Assurance Plan, and Health and Safety Plan, conducting Technical Project Plan (TPP) meetings with project stakeholders, and preparing the SI report. The project was designed to utilize X-Ray Fluorescence (XRF) technology which allowed for evaluation of lead in soil samples with a sizable reduction of cost for laboratory analysis.

- Served as Project Manager for preparation and implementation of a Dewatering Plan for 100 feet of petroleum pipeline replacement in Port Everglades, Florida. The dewatering activities lasted for 24 days. A total of 589,602 gallons of water was removed for treatment and recycling. Prepared a technical report documenting the pipeline replacement and dewatering. The dewatering plan and technical reports were approved by the South Florida Water Management District and the Broward County Environmental Protection and Growth Management Department.

- Served as Project Manager for assessment and remediation of petroleum impacts at a former 4,000-acre agricultural property in St. Lucie County containing citrus groves. The initial assessment began as a Phase I and II ESA. Several Recognized Environmental Conditions (RECs) were identified and assessed as part of the Phase II ESA. Impacts to soil and groundwater were identified adjacent to two underground fuel tanks at the grove maintenance area. Served as Project Manager for implementation of a Tank Closure Assessment and a Site Assessment. The remediation was achieved by source removal/soil excavation and Post Active Remediation Monitoring (PARM). The site achieved "No Further Action" status following PARM.

- Served as Project Manager for assessment and remediation of petroleum and arsenic impacts at a former agricultural property. The initial assessment began as a Phase I and II ESA of a ±300-acre agricultural parcel for future residential development. Four separate impacted areas (three by petroleum in areas of former USTs and ASTs) and one by arsenic in the area of the former farm operations were identified. The three petroleum areas were remediated using source removal and monitoring. Each of these three areas achieved "No Further Action" status. The arsenic-impacted area was remediated by extraction of groundwater through a series of dewatering socks and soil excavation. Mr. Crowell was involved with preparation of the Dewatering Plan and permit approval, and negotiating with Palm Beach County Utilities Department for acceptance of the removed groundwater. The site achieved "No Further Action" status following PARM. The monitor wells were properly abandoned. The site has been redeveloped for residential use.

- Served as Project Manager for assessment and remediation for two separate petroleum releases at a mushroom growing facility in Zellwood, Orange County, Florida. The remediation systems for both areas consist of multi-phase extraction from recovery wells. The treated groundwater is discharged to separate on-site infiltration galleries. One of the releases was eligible for funding under the State Petroleum Cleanup Program. The second release was not eligible. Site work for both areas was scheduled to be performed during single mobilizations for cost saving purposes.

- Served as Project Manager for more than 80 wind energy projects in various states. Projects included due diligence assessments, wind farm site location, permitting, and construction. Responsibilities included conducting Phase I and II ESAs, coordinating with the Program Manager, tracking budgets, reviewing and approving client invoices.

- Served as Project Manager for closure assessment and removal of a 12,000-gallon aboveground kerosene tank and more than 4,000 linear feet of underground pipeline at

a former landscape nursery facility in Palm Beach County, Florida. The AST and underground pipeline provided fuel to heaters in numerous shadehouses located throughout the property. The assessment was designed to test soil at every location where the 20-foot lengths of pipeline connected, at every “T” or “L” connector, and every stub-up to a heater. Source removal activities were completed at each location where impacted soil was identified.

This record search is for informational purposes only and does NOT constitute a project review. This search only identifies resources recorded at the Florida Master Site File and does NOT provide project approval from the Division of Historical Resources. In response to your request on October 25, 2021, the Florida Master Site File lists no cultural resources recorded for a designated area located near I-95 and Jenkins Road; parcel control number of # 2325-111-0001-000-2., Florida

When interpreting the results of our search, please consider the following information:
#

- **This search area may contain *unrecorded* archaeological sites, historical structures or other resources even if previously surveyed for cultural resources.**
- **Because vandalism and looting are common at Florida sites, we ask that you limit the distribution of location information on archaeological sites.**
- **While many of our records document historically significant resources, the documentation of a resource at the Florida Master Site File does not necessarily mean the resource is historically significant.**
- **Federal, state and local laws require formal environmental review for most projects. This search DOES NOT constitute such a review. If your project falls under these laws, you should contact the Compliance and Review Section of the Division of Historical Resources at** CompliancePermits@dos.MyFlorida.com

Please do not hesitate to contact us if you have any questions regarding the results of this search.

Sincerely,

Eman M. Vovsi, Ph.D.

Staff Comment Responses
February 18, 2022

Planning Department

1. Provide entry gate detail such as turning radii, elevation, detail, location, etc.
   Response: Please refer to the attached site plan. The proposed gate is shown, along with the provided stacking and turn-around.

2. Provide screening detail of the proposed trash compactor.
   Response: Based on staff comments, including coordination with Solid Waste, it was decided to proceed with curbside pickup.

3. Consider individual waste collection bins or multiple compactors rather than one compactor due to the number of residences and lot size. The City's Solid Waste Division will be providing comments next week.
   Response: Based on staff comments, including coordination with Solid Waste, it was decided to proceed with curbside pickup.

4. Provide service confirmation from Waste Management/Solid Waste pertaining to individual trash/recycle bins or various compactors.
   Response: Based on staff comments, including coordination with Solid Waste, it was decided to proceed with curbside pickup.

5. Revise site data to include the Proposed FLU designation.
   Response: Please refer to the proposed site plan.

6. Provide the proposed d.u of the proposed development.
   Response: Please refer to the proposed site plan.

7. Provide the proposed building to building setbacks (label as typical), setbacks from building to the property line, and setbacks from any accessory structures to the property line(s) on the site plan drawing.
   Response: Please refer to the proposed site plan.

14 S.E. 4th Street, Suite 36, Boca Raton, FL 33432 | Tel: (561) 405-3300 | Fax: (561) 409-2341 | www.dmbblaw.com

8. Confirm each of the proposed townhomes and other residential units comply with the required lot size set forth by Code Sec. 125-194 (b) (1).
   Response: The project is single ownership, therefore, not applicable.

9. Provide location of proposed mechanical equipment and pads. If the mechanical equipment is on the roof, provide roof detail.
   Response: Please refer to the proposed site plan.

10. Provide screening material/method of the proposed mechanical equipment.
    Response: Please refer to the proposed site plan.

11. Provide sidewalks throughout the entire development.
    Response: Please refer to the proposed site plan.

12. Confirm the proposed development will provide the necessary shrub and tree requirements.
    Response: Please refer to the proposed Landscape Plan.

13. Consider additional parking to accommodate potential guests/visitors.
    Response: Please refer to the proposed site plan.

14. Revise parking calculations to include parking space breakdowns such as driveway spaces and garage spaces.
    Response: Please refer to the proposed site plan, parking calcs are included.

15. Consider more amenities such as an amenity center, community pool, pocket parks at various locations, or other facilities.
    Response: Please refer to the proposed site plan. Playground, Dog Parks, Pool/Clubhouse all proposed at this time.

16. Provide elevations of a "typical" townhome, single family, and apartment.
    Response: Please refer to the architectural plans.

17. Label the proposed townhome units, single family, and apartment.
    Response: Entire facility is rental apartments and support structures.

18. As St. Lucie County does not have barrier walls with I-95, please consider moving all the units that are positioned next to the I-95 eastward and provide a landscape barrier to the west.
    Response: See the Proposed Site Plan and Landscape Plans. Additional buffering has been added.

19. Correct the zoning request on the site data. The one listed is a county designation. Additionally, provide the proposed Future Land Use amendment on the site data.
    Response: Please refer to the proposed site plan

14 S.E. 4th Street, Suite 36, Boca Raton, FL 33432 | Tel: (561) 405-3300 | Fax: (561) 409-2341 | www.dmbblaw.com

20. Please provide a detail of the 6-foot fence proposed. Please ensure it is decorative.
    Response: See attached fence detail

21. Please consider enhancing the public spaces and recreational areas by incorporating a community pool, and smaller pocket parks.
    Response: Please refer to the proposed site plan. Additional recreation and amenities have been added throughout the facility.

22. Are all of the Townhouses one-bedroom units?
    Response: Please refer to the proposed site plan. There are three different unit types (1, 2 and 3 bedrooms.)

23. What is the anticipated monthly rent?
    Response: That has not been determined, based on Market conditions at the time of opening.

24. School District may require a bus stop if this development is not age-restricted.
    Response: Acknowledged

25. Please complete an Address Request Form at the time of formal submittal. **https://www.cityoffortpierce.com/DocumentCenter/View/3281/Address-Request-**
    Response: Noted.

26. A landscape plan will be required at the time of formal submittal that includes a Tree Survey, Tree Disposition Plan, and Tree Mitigation. Please show littoral plantings for the proposed lake.
    Response: See the Proposed Landscape Plan

27. Additional comments may be provided at the Pre-Application meeting.
    Response: Acknowledged.

28. Note that all fees for advertising, mailing, and signs shall be paid upfront with the application fees. These fees can be found on the City website under the Planning Departments page under "*Public Notice Fee*".
    Response: Acknowledged

Fort Pierce Engineering Department

1. While the 10' rear setback for the units at the west end of the project meets the minimum landscape buffer requirement, it is highly suggested that a minimum 20' landscape buffer be provided as originally permitted through St. Lucie County. This would provide a greater separation between the existing single-family subdivision and this development.
   Response: A 20' buffer is proposed. Please refer to the proposed site plan

2. Continue the sidewalk at the western roadway, south side of the road.
   Response: Sidewalks provide adequate connectivity, as requested. Please refer to the proposed site plan

14 S.E. 4th Street, Suite 36, Boca Raton, FL 33432 | Tel: (561) 405-3300 | Fax: (561) 409-2341 | www.dmbblaw.com

3. Add a "T" turnaround or other means for vehicles to turnaround at the dead end situation, north part of the project.
   Response: The site plan was revised to address the dead end

4. Is this development to be gated? If so, provide the vehicle queuing capabilities between the gate and the Jenkins Road R/W.
   Response: See the Proposed site plan. The project will, include an unmanned gated access with adequate stacking and turnaround feature.

5. Provide the dimensions of all drive aisles, parking stalls, and driveways.
   Response: Please refer to the proposed site plan

6. Provide the required 5' handicapped access aisle at the handicap parking stall situated at the mail kiosk. Also, know that this perpendicular parking stall shall have the associated minimum 26' driveway aisle per Section 125.
   Response: Please refer to the proposed site plan

7. Continue the sidewalk along the rear of the two parallel parking stalls located across from the mail kiosk.
   Response: Please refer to the proposed site plan

8. Is the trash compactor open for utilization by the residents? If so, continue the sidewalk along the north side of the driveway.
   Response: The Trash compactor has been eliminated with curbside pickup proposed.

9. Provide a sidewalk along Jenkins Road or proof of payment in lieu of to SLC if mandated by the County.
   Response: Acknowledged. Payment in lieu will be proposed.

10. The applicant shall contact SLC for information pertaining to required Jenkins Road improvements and possible R/W donation.
    Response: Please refer to the proposed site plan. The needed row dedication is shown and all setbacks based on the new row line.

14 S.E. 4th Street, Suite 36, Boca Raton, FL 33432 | Tel: (561) 405-3300 | Fax: (561) 409-2341 | www.dmbblaw.com

St. Lucie County PW/Engineering

The following comments are offered by SLC PW – Engineering:

1. A traffic report will be required for review by the County's 3rd party consultant at the cost of the applicant.
   Response: Acknowledged.

2. Jenkins Road is identified on the County's Right-of-Way protection Plan. A ROW dedication will be required along Jenkins Road. Please provide a current boundary survey to confirm the existing ROW width in this location.
   Response: Acknowledged. Based on the needed row, the site plan is drawn.

3. Gated access shall comply with section 7.10.15 of the County's land development code or the City's code regarding gated access, whichever is more stringent.
   Response: Please refer to the proposed site plan. The proposed unmanned gated access was designed per the County's Code criteria.

4. A Site Development Permit from the County will be required for the driveway connection to Jenkins Road. Please coordinate application submittals with Grant Chambers at Chambersg@stlucieco.org
   Response: Acknowledged

5. Provide written response directly to the County for review. The city does not provide.
   Response: Acknowledged

6. For discussion regarding these comments and response, please contact me at 772-462-1491, haysd@stlucieco.org or Grant Chambers at 772-462-2741, chambersg@stlucieco.org.
   Response: Acknowledged

Fort Pierce Solid Waste Division

1. This site location will need a minimum of four (4) 8 yard commercial dumpsters with enclosures to satisfy the needs of this community. Also as mentioned, SW does not think it is best to deliver resident carts to this community for several reasons:

   - Multi-Family rental community with over 100 units
   - Billing issues (every customer will be responsible to pay the ready to serve fee + the service fee which will change frequently with move in/move out residents
   - We will have to deliver multiple carts (green, blue and black carts)
   - Storage space for all residential carts
   - Concerns of multiple trucks entering the community daily which may causes an unnecessary risk to the community

Response: Acknowledged.

8. FPUA will require utility easements for all proposed FPUA facilities on the site. Attached are GIS maps of the existing electric and gas facilities.
   Response: Noted.

St. Lucie County Fire District
No Comments Received (Please Contact)

Florida Department of Transportation
Approval of the application would allow the location of residential development directly adjacent to Interstate 95 (less than 13 ft from the right of way line at its closest point). Truck traffic will generate additional noise as vehicles decelerate exiting I-95 at State Road 70. If not already required by existing City development regulations, the City should encourage the developer to protect residents from noise impacts. The closeness of the proposed development to a source of traffic-generated noise is a concern the developer should recognize when design and construction is undertaken. To eliminate the potential noise intrusion into new communities, proper distance relationships need to be applied between residential units and the roadway. For residences, the Department recommends a 400-foot setback from edge of pavement for a multi-lane Interstate roadway. Additionally, to minimize noise intrusion, enhancements such as double-glazed glass windows, sound absorptive insulation, and door treatments that meet HUD specifications should be encouraged.

Response: Acknowledged

O'ROURKE
ENGINEERING & PLANNING

October 10, 2022

Mr. Charles Marshall, P.E.
Marshall Property Services, LLC
4400 East 100 North
Shelbyville, IN 46176

Re: Jenkins Road Multifamily- LUPA

Dear Mr. Marshall:

O'Rourke Engineering & Planning has completed the analysis of the traffic impacts associated with the change in land use from General Commercial to Multi -family medium density for the 27.89 acres on Jenkins Road in Ft. Pierce, St. Lucie County. **Figure 1** illustrates the project location. The analysis is presented below.

Traffic Analysis

The proposed change in land use has to compare the trip generation associated with the worst-case traffic generator in the existing future land use to the worst- case traffic generator in the proposed future land use. The 27.89 acres has an existing future land use of General Commercial. Under commercial land use, an FAR of 1.0 is allowed. Applying the 1.0 FAR to 27.89 acres yields 1,214,888 square feet. A worst- case scenario would be retail/commercial such as shopping center.

The proposed future land use is multi- family residential. Under multi-family medium density, a maximum of 12 units per acres is allowed. At 12 units per acre, the project would yield 334 dwelling units. The actual site plan reflects fewer dwelling units. However, the Analysis for comprehensive plans requires the highest allowable density to be considered.

The trip generation associated with each of the potential uses, was calculated using ITE Trip Generation, 11th Edition. **Table 1** summarizes the trip generation and the change in trip generation.

As shown, the change in land use would result in a decrease in 28,227 daily trips, 562 AM peak hour trips and 2,596 PM peak hour trips.

Because there is a decrease in land use, additional analyses are not required.

22 SE Seminole Street I Stuart, FL 34994 I 772-781-7918
SEORourke@comcast.net

Conclusion

The trip generation analysis demonstrates that the change in land use will result in a decrease in trip generation potential on the development.

It has been a pleasure working with you.

Respectfully submitted,
O'ROURKE ENGINEERING

SURVEYOR'S NOTES

1. BEARINGS AS SHOWN HEREON ARE BASED ON STATE PLANE COORDINATES, REFERENCE THE NORTH AMERICAN DATUM OF 1983/2011 ADJUSTED (N.A.D. 83/11), FLORIDA EAST ZONE, U.S. SURVEY FEET, REFERENCE A BEARING OF N88°55'59"W ALONG THE NORTH LINE OF THE NORTHEAST QUARTER SECTION OF SECTION 25.
2. THIS SURVEY IS BASED ON A CLOSED GEOMETRIC FIGURE EXCEEDING A HORIZONTAL CLOSURE OF 1:10,000.
3. WELL-IDENTIFIED FEATURES IN THIS SURVEY AND MAP HAVE BEEN MEASURED TO AN ESTIMATED HORIZONTAL POSITIONAL ACCURACY OF 0.10 FEET.
4. THERE WAS NO ATTEMPT TO LOCATE ANY SUBSURFACE FOUNDATIONS.
5. NO UNDERGROUND UTILITIES WERE LOCATED OR SHOWN HEREON.
6. THIS SURVEY IS NOT VALID WITHOUT THE SIGNATURE AND ORIGINAL RAISED SEAL OF A FLORIDA LICENSED SURVEYOR UNLESS DIGITALLY SIGNED.
7. THIS SURVEY WAS DONE IN THE FIELD UTILIZING GLOBAL POSITIONING SYSTEM (G.P.S.) WITH REAL TIME KINEMATIC (R.T.K.). ALL DISTANCES GIVEN ARE GRID DISTANCES. THE SCALE FACTOR AT "Z 525" IS 0.99998756.
8. ELEVATIONS AS SHOWN HEREON REFERENCE NORTH AMERICAN VERTICAL DATUM 1988 (N.A.V.D 88), REFERENCE NATIONAL GEODETIC SURVEY ST LUCIE COUNTY BENCHMARK "Z 525", ELEVATION = 17.78 FEET. ELEVATIONS AS SHOWN HAVE BEEN MEASURED TO AN ESTIMATED VERTICAL POSITIONAL ACCURACY OF 0.1 FEET.
9. THIS PROPERTY IS LOCATED IN FEDERAL FLOOD ZONE X, REFERENCE FEMA MAP COMMUNITY NO. 120286, PANEL 0167, SUFFIX J, EFFECTIVE DATE FEBRUARY 16, 2012. NO SEARCH FOR MAP MODIFICATIONS HAS BEEN DONE BY THIS SURVEYOR.
10. ALL TREES AS ILLUSTRATED ON THIS SURVEY WERE SUPPLIED BY CLIENT. SEE SHEET 6 THROUGH 9 FOR DETAILED INFORMATION.
11. THIS SURVEY IS SUPPORTED BY A TITLE COMMITMENT ISSUED BY FIRST AMERICAN TITLE INSURANCE COMPANY. REFERENCE FILE NO. 1062-5405759 DATED MAY 19, 2021 @ 8:00 AM. REFERENCE THE FOLLOWING EXCEPTIONS IN SCHEDULE BII:

9. Ordinance No. I-267 by City of Fort Pierce, Florida recorded in Book 1971, Page 1301. APPLIES TO SUBJECT PARCEL; INCORPORATES PARCEL INTO CITY OF FORT PIERCE.

SURVEYOR'S CERTIFICATE

I HEREBY CERTIFY THAT THE "BOUNDARY SURVEY" AS SHOWN HEREON IS A TRUE AND CORRECT REPRESENTATION OF A FIELD SURVEY MADE UNDER MY DIRECTION AND CHARGE ON JULY 29, 2021 THROUGH AUGUST 11, 2021 AND SAID "BOUNDARY SURVEY" IS TRUE AND ACCURATE TO THE BEST OF MY KNOWLEDGE AND BELIEF. IT IS FURTHER CERTIFIED THAT THIS "BOUNDARY SURVEY" COMPLIES WITH THE STANDARDS OF PRACTICE FOR "BOUNDARY SURVEY" SET FORTH BY THE FLORIDA BOARD OF PROFESSIONAL SURVEYORS AND MAPPERS IN CHAPTER 5J-17, FLORIDA ADMINISTRATIVE CODE, PURSUANT TO SECTION 472.027, FLORIDA STATUTES.

CITY OF FORT PIERCE NOTICE OF PUBLIC HEARING TO AMEND THE FUTURE LAND USE MAP OF THE COMPREHENSIVE PLAN

The City Commission of the City of Fort Pierce, Florida, pursuant to Section 125-37 of the Code of Ordinances of the City of Fort Pierce, and Sections 166.041 (3)(a) and 163.3187 of Florida State Statutes, will on Monday, December 19, 2022 at 5:05 p.m. and Tuesday, January 3, 2023 at 5:05 p.m. hold Public Hearings on the enactment of the proposed ordinance on first and second readings, respectively, in the City Hall Commission Chambers, 100 North U.S. #1, Fort Pierce, Florida, to consider review and approval of the following:

ORDINANCE 22-044 AN ORDINANCE BY THE CITY COMMISSION OF THE CITY OF FORT PIERCE, FLORIDA; AMENDING THE FUTURE LAND USE MAP OF THE COMPREHENSIVE PLAN TO CHANGE THE DESIGNATION OF ONE (1) PARCEL GENERALLY LOCATED AT OR NEAR 3037 SOUTH JENKINS ROAD, FROM CITY OF FORT PIERCE (GC) GENERAL COMMERCIAL TO CITY OF FORT PIERCE (RM) MEDIUM DENSITY RESIDENTIAL; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR REPEAL OF ORDINANCES OR PARTS THEREOF IN CONFLICT HEREWITH; AND PROVIDING FOR AN EFFECTIVE DATE.

All interested parties may appear at the meeting and be heard with respect to the ordinance. Said ordinance will be available for inspection in the City Clerk's Office, City Hall, 100 North U.S. #1, Fort Pierce, Florida.

ANY PERSON SEEKING TO APPEAL THE DECISION OF THE CITY COMMISSION AS TO THE FOREGOING IS ADVISED THAT A RECORD OF PROCEEDINGS IS REQUIRED IN ANY SUCH APPEAL AND THAT SUCH PERSON MAY NEED TO ENSURE THAT A VERBATIM RECORD OF PROCEEDINGS IS MADE INCLUDING THE TESTIMONY AND EVIDENCE UPON WHICH THE APPEAL IS TO BE BASED.

In accordance with the Americans with Disabilities Act and Section 286.26, Florida Statutes, persons with disabilities needing special accommodation to participate in this meeting should contact the City Clerk's Office at (772) 467-3065 at least 48 hours prior to the meeting.

ORDINANCE NO. 22-045

AN ORDINANCE BY THE CITY COMMISSION OF THE CITY OF FORT PIERCE, FLORIDA; **REZONING THE PROPERTY GENERALLY LOCATED AT OR NEAR 3037 SOUTH JENKINS ROAD, FROM C-3, GENERAL COMMERCIAL ZONE TO R-4, MEDIUM DENSITY RESIDENTIAL ZONE;** PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR REPEAL OF ORDINANCES OR PARTS THEREOF IN CONFLICT HEREWITH; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the subject property is generally located at or near 3037 South Jenkins Road within the City of Fort Pierce, Florida, representing approximately 27.89 acres of land, more or less; and

WHEREAS, the applicant, has applied for rezoning of the subject property generally located at or near 3037 South Jenkins Road from (C-3) General Commercial Zone to (R-4) Medium Density Residential Zone; and

WHEREAS, the proposed zoning atlas map amendment (rezoning) is consistent with the comprehensive plan, will not have an adverse effect on the ability of the city to satisfy land and water use needs; and meet transportation demands and provide community facilities and services, and will promote and protect the public health, safety and general welfare as required by City Code 125-136; and

WHEREAS, the City of Fort Pierce Planning Board, at their November 14th, 2022, meeting, voted unanimously to recommend approval of the request; and

NOW, THEREFORE BE IT ORDAINED by the City Commission of the City of Fort Pierce, Florida as follows:

SECTION 1. From and after the effective date hereof, the following described properties are hereby rezoned as follows:

Parcel ID: 2325-111-0001-000-2

From and after the effective date hereof, the following property legally described as:

LEGAL DESCRIPTION:

A PARCEL OF LAND IN THE NORTHEAST QUARTER OF SECTION 25, TOWNSHIP 35 SOUTH, RANGE 39 EAST, ST. LUCIE COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

FROM THE NORTHEAST CORNER OF AFORESAID SECTION 25, RUN SOUTH 00°14’22” EAST, 40.50 FEET; THENCE RUN NORTH 88°24’08” WEST, 40.00 FEET TO THE WEST RIGHT-OF-WAY LINE FOR JENKINS ROAD AND THE POINT OF BEGINNING; THENCE CONTINUE NORTH 88°24’08” WEST, 1,555.91 FEET TO THE EAST RIGHT-OF-WAY LINE FOR INTERSTATE HIGHWAY 95; THENCE RUN SOUTH 10°04’59” WEST, ALONG SAID RIGHT-OF-WAY LINE, 518.75 FEET; THENCE SOUTH 00°26’58” WEST, ALONG SAIDE RIGHT-OF-WAY LINE, 695.45 FEET; THENCE RUN SOUTH 89°22’09” EAST, ALONG THE NORTH LINE OF THE SOUTHWEST QUARTER OF THE NORTHEAST QUARTER, A DISTANCE OF 328.11 FEET; THENCE RUN NORTH 00°19’41” EAST, 669.97 FEET TO THE SOUTHWEST CORNER OF THE

NORTH HALF OF THE NORTHEAST QUARTER OF THE NORTHEAST QUARTER; THENCE RUN SOUTH 88°37'18" EAST, 1,283.41 FEET TO THE WEST RIGHT-OF-WAY LINE OF JENKINS ROAD; THENCE RUN NORTH 00°14'22" WEST, ALONG SAID RIGHT-OF-WAY LINE, 624.56 FEET TO THE POINT OF BEGINNING.

SAID PARCEL CONSISTING OF 1,215,767 SQUARE FEET OR 27.89 ACRES MORE OR LESS

Said property being generally located at or near 3037 South Jenkins Road in Fort Pierce, Florida shall be and the Zoning Designation is hereby changed from (C-3) General Commercial Zone to (R-4) Medium Density Residential Zone, as depicted on Exhibit "A" and Exhibit "B," attached hereto and incorporated herein.

SECTION 2. The provisions of this Ordinance are declared to be severable and if any section, sentence, clause, or phrase of this Ordinance shall, for any reason, be held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining sections, sentences, clauses, and phrases of this Ordinance which shall remain in effect, it being the legislative intent that this Ordinance shall stand notwithstanding the invalidity of any part.

SECTION 3. All ordinances or parts thereof that may be determined to be in conflict herewith are hereby repealed.

SECTION 4. This Ordinance shall be and become effective immediately upon final passage.

APPROVED AS TO FORM & CORRECTNESS:

Staff Analysis:

Request & Background

In accordance with Sections 125-37, 125-133, and 125-136 of the City Code and Chapter 163.3184, F.S., the applicant is requesting the review and approval of a Future Land Use Map Amendment from GC, General Commercial to RM, Medium Density Residential for one (1) parcel of land. The applicant is also requesting review and approval of a Zoning Atlas Map Amendment (Rezoning) from C-3, General Commercial Zone to R-4, Medium Density Residential Zone.

Standards for Review

The following standards must be satisfied per Section 125-136 of the City Code prior to the approval of the requested amendment:

(1) The amendment is consistent with the comprehensive plan;

(2) The amendment will not have an adverse effect on the ability of the City to:

a. Satisfy land and water use needs; and

b. Meet transportation demands and provide community facilities and services; and

(3) The amendment will promote and protect the public health, safety and general welfare.

The proposed amendment is consistent with the Goals, Objectives, and Policies of the City's Comprehensive Plan and is consistent with the concurrent request to amend the FLU designation of the parcel. Furthermore, the amendment does not appear to have an adverse effect on the ability of the City to satisfy land and water use needs, meet transportation demands, and provide community facilities and services. The presented amendment promotes and protects the public health, safety and general welfare through the increased variety and access to neighborhood goods and services while ensuring minimal impacts to neighboring residential districts.

Future Land Use & Zoning Designation Comparison

The subject site currently has one (1) parcel with a FLU designation of GC, General Commercial. The proposed Medium Density Residential designation is intended for parcels that are best suited for multifamily residential uses ranging in density from six and one-half to 12 dwelling units per acre. This category allows small-lot single family units and multifamily dwellings including duplexes, condominiums, and townhomes. Limited commercial uses intended to serve the residential uses shall be allowed. Compatible public, quasi-public, and special uses including parks, churches, non-profit clubs, schools, and daycare facilities shall also be allowed. This category

combines the previously allowed Medium Density Residential (Rme) and Moderate Density Residential (Rmo) categories.

The subject site is seeking a Future Land Use designation of RM, Medium Density Residential for the parcel to be consistent with the applicant's proposed multi-family site plan.

When comparing both designations the Medium Density Residential designation would be considered a less intense designation compared to the General Commercial designation. Also, when developing a project, all parcels associated with the project should the same Future Land Use and compatible Zoning, so that there are not any inconsistencies in the enforcement of the Land Development Code on the project. This request is an appropriate measure to ensure that the proposed development can be developed under the same set of standards of its chosen Zoning district and Future Land Use designation. Lastly, Residential is not as appropriate for a General Commercial Future Land Use designation as it is for a Medium Density Residential Future Land Use, especially considering the size and scale of the proposed future development.

Technical Review Committee

All affected departments have reviewed the proposed Applications for a Future Land Use Map Amendment and Zoning Atlas Map Amendment for consistency with the requirements of the City Code. Findings and comments from review by affected departments, and the corresponding responses and plan amendments by the applicant are provided for consideration.

Planning Board Recommendation

The Planning Board, at their November 14th, 2022 meeting, voted unanimously to recommend Approval of the request.

Staff Recommendation Future Land Use Map Amendment

The requested Applications for Future Land Use Map Amendments meets the criteria specified in Section 121-136 of the City Code, the Comprehensive Plan, and does not adversely affect the public health, safety, convenience, and general welfare; Therefore, Staff recommends **APPROVAL** to the City Commission.

Staff Recommendation Zoning Atlas Map Amendment

The requested Application for a Zoning Atlas Map Amendment meets the criteria specified in 125-207 and 126-136 of the City Code, the Comprehensive Plan, and does not adversely affect the public health, safety, convenience, and general welfare; Therefore, Staff recommends **APPROVAL** to the City Commission.

Subject: Viva West Multi-Family Development – 2325-111-0001-000-2 (W. Side of S. Jenkins Road)- TRC Comments for April 21, 2022 meeting

Fort Pierce Planning Department

1. **Please submit a detailed narrative/project description and a detailed narrative for Design Review. A detailed project description was checked off on the back of the Development Review Application but not submitted.**

2. Per City Code Section 125-314. – Design Review; provide color elevations and a color board of all angles of the proposed development. **Please provide color elevations and color elevations of the street-views as well.**

3. **Please remove all monument signs from the site plan. Signs will be reviewed during the Building Permit process.**

4. Per City Code Section 125-315. – Off-Street Parking and Loading (j) Lighting. (1)(b): For multi-structure residential complexes, educational facilities, churches or other uses other than as set forth in the other immediately preceding subsection, **a minimum average of one footcandle is required.**

5. **A completion certification by a landscape architect, cost estimate, and landscape bond pursuant to City Code 123-6 shall be required before the Final Certificate of Occupancy is approved for the site.**

6. Will there be any additional dumpster areas or trash compactors?

7. Is this a complete rental community?

Comments may be forthcoming

St. Lucie County Planning Department

- St. Lucie County Planning requests the City to initiate a third-party review of the presented Traffic Impact Report.
- Encourage preservation of native trees/habitat where feasible – exploring natural buffering from I-95 & larger lot SF abutting the site.
- Encourage future pedestrian and vehicular interconnectivity, where feasible, to future commercial development to the north
- Project is on the West* Side of Jenkins

St. Lucie County PW/Engineering

The following comments are offered by SLC PW – Engineering:

1. The traffic report will be required to be reviewed by the County's 3rd party consultant at the cost of the applicant.
2. Dimension the gate setback from the ultimate ROW line.
3. A Site Development Permit from the County will be required for the driveway connection to Jenkins Road. Please coordinate application submittals with Grant Chambers at Chambersg@stlucieco.org
4. For discussion regarding these comments and response, please contact me at 772-462-1491, haysd@stlucieco.org or Grant Chambers at 772-462-2741, chambersg@stlucieco.org.

St. Lucie County Fire District

The Following Revisions Are Necessary:

1. Please submit a completed application for Development/Site Plan Review (St. Lucie County Fire District Development & Site Plan Review Application). This form is available on-line at https://www.slcfd.com
2. Fire District review fees are due at the time of submittal. An abbreviated fee schedule is included on the application form.
3. Please send the Fire District electronic plans for the site and buildings.

4. A separate review and permit is required for Underground Fire Mains connected to standpipes or sprinkler systems.

5. Fire department access roads provided in accordance with 18.2.3 shall be provided at the start of a project and shall be maintained throughout construction. (NFPA 1 16.1.4). Surface. Fire department access roads shall be designed and maintained to support the imposed loads of fire apparatus and shall be provided with an all-weather driving surface. (NFPA 1.18.2.3.5.2.5)

6. Security gates must either be manned 24 hour/day or provide an access control key switch on the control panel to allow for Fire Department entry in an emergency. Security gates must maintain a clear width of 12 feet when open and provide a means to open the gates manually upon loss of power.
7. Be advised: Dimensions of largest vehicle are as follows: 38 tons or 77k lbs, 47.5 ft. total length, 21.5 ft. wheel base, 10.5 ft. total width, 41.5 degree turning radius.

8. A fire department access road shall extend to within 50 ft (15 m) of at least one exterior door that can be opened from the outside and that provides access to the interior of the building. NFPA 1.18.2.3.2.1.

9. Where a one- or two-family dwelling, or townhouse, is protected with an approved automatic sprinkler system that is installed in accordance with NFPA 13D or NFPA 13R, as applicable, the distance in 18.2.3.2.1 shall be permitted to be increased to 150 ft (46 m). NFPA 1.18.2.3.2.1.1.

10. 18.2.3.3 Multiple Access Roads. More than one fire department access road shall be provided when it is determined by the AHJ that access by a single road could be impaired by vehicle congestion, condition of terrain, climatic conditions, or other factors that could limit access.

11. Fire hydrants (shall be) are provided for buildings other than detached one-and-two-family dwellings IAW both of the following 1) The maximum distance to a fire hydrant from the closest point in the building shall not exceed 400 feet. 2) The maximum distance between fire hydrants shall not exceed 500 feet. NFPA 1:18.5.3. Please provide fire flow calculations for hydrants.

12. Fire Hydrants (shall be) are provided for detached one- and two-family dwellings IAW both of the following: 1) The maximum distance to a fire hydrant from the closet point on the building shall not exceed 600 feet. 2) The maximum distance between fire hydrants shall not exceed 800 feet. NFPA 1:18.5.2.

13. Where underground water mains and hydrants are to be provided, they shall be installed, completed, and in service prior to commencing construction work on any structure. It is not intended to prohibit the construction of non-combustible structure foundation elements such as foundations and footings prior to the completion of underground water mains and hydrants (NFPA 1 16.4.3.1.3).

14. An approved water supply capable of supplying the required fire flow for fire protection (shall be) is identified to all premises upon which facilities, buildings, or portions of buildings which are to be constructed or moved into the jurisdiction. The approved water supply shall be in accordance with NFPA 1:18.4. See "Needed NFPA Fire Flow Calculator Spreadsheet".

15. Per NFPA 1114 Chapter 9, Section 1.3. Prior to the final occupancy of any building, the permitted water supply for fire protection, including fire hydrants and fire suppression systems, shall be installed, tested, and acceptable to the AHJ (SLCFD).

16. Minimum Size of Water Mains
a. The minimum size of water mains for supplying water for firefighting purposes shall be six (6) inches. b. The minimum size of water mains supplying hydrants on a dead end main shall be eight (8) inches. c. The maximum number of hydrants located on a dead end main shall be one (1). d. Grid or Tee systems shall be supplied by a minimum of an eight (8) inch looped main. Exceptions may be granted based on the capacity of the water distribution system but in no case shall the main size be less than six (6) inches. e. The minimum size water main(s) shall be determined by the needed fire flow as established by the Fire Marshal and based on the current Insurance Service Office (ISO) requirements.

17. Two-Way Radio Enhancement Systems/BDAS shall be installed, inspected and operationally tested in accordance with the manufacturer's published requirements, by the local fire department, and comply with the most current edition of the Florida Fire Prevention Code and its incorporated standards and codes. Pre-surveys of radio signal strength shall be submitted to the Fire Marshal in the form of heat signature mapping or a certification document of radio signal strength provided by a licensed engineer.

St Lucie County School Board

The St. Lucie County School District has reviewed the above reference project and we have the following comments:

1. Are there any provision being proposed for a school bus stop at this location? As a best practice we do not want to place a bus stop on the arterial roadways where we have alternative. Can a proper location for school bus pull into the complex to pick up students incorporating a good location student to stand/wait for bus at the bus stop.
2. The closest K-8 school is Samuel Gaines Academy is in proximity or walking distance to the project. Please address how a safe route to the school will be developed understanding that there are long term plans to widen Jenkins Roads. How can that safe passage be provided until the road is widened? The aerial photograph below shows the sidewalk just north of the site on the east right-of-way.
3. The LDR required sidewalks on the adjacent roadways, they are not shown on the plans.

Please feel free to contact me if you have any questions.

ENGINEERING
DEPARTMENT

TO : Planning Department

FROM : Selena Griffett, P.E. – Project Engineer

THRU : John Andrews, P.E. – City Engineer

RE : Viva West (West side of Jenkins)
Rezone, FLUMA, and Site Plan
22-07000006

DATE : April 11, 2022

This is to advise you that we have completed the review of the following documents as received by this office on April 1, 2022:

☐ Development Permit Compliance Review ☒ Site Plan

☐ Construction Drawings ☐ Test Reports & Related Documents

☐ Executed Construction Contract ☐ Record Drawings

☐ Permits

Based on our reviews and appropriate site final inspection, we

☐ Recommend ☒ Do Not Recommend

☐ Variance Approval ☒ Site Plan Approval ☐ DPCR Approval ☐ C/O

Developer, Owner, Engineer, Contractor, and other members of the Development Team must be aware, the above recommendation is based only on the construction requirements of the engineering plans and other engineering documentation approved by this department. The Development Team shall be responsible for the compliance with other City department requirements and all approved documents, as well as Local, State and Federal regulations. The development requirements for this project may necessitate additional construction requirements that are not subject to this department's review for approval.

☒ See attached for Engineering Comments

100 NORTH US 1, FORT PIERCE, FLORIDA 34950 • CITYOFFORTPIERCE.COM • TEL: 772.467.3000 • FAX: 772.460.6847

1. Jenkins Road is a St. Lucie County owned and maintained roadway; please coordinate with the County for Right-of-Way dedications, and driveway connections.

2. The owner/engineer is responsible for obtaining all required permits (SFWMD, NSLRWCD, DFW, etc).

3. Survey calls out Jenkins Road with FDOT Right-of-way; please show the existing Right-of-Way width

4. Please label the NSLRWCD Right-of-Way width.

Traffic Study (O'Rourke):
Page 1 states site is located EAST of Jenkins, this site is located WEST of Jenkins Road.

Site Plan:

1. Plan shows 40' Right-of-Way dedication; how will this impact the entrance layout?
2. How is mitigation handled for Wetland 3?
3. Per Section 125-313 of the Land Development Code, the following items are required for a site plan submittal:

14. A storm drainage plan which indicates the techniques used to control drainage. The plan shall include:

(i) Location and elevations of all existing and proposed drainage facilities within the site plan area and adjacent vicinity for 100 feet in all directions;

(ii) Retention areas and exfiltration systems;

(iii) Length, width, depth and direction of flow for all canals and ditches;

(iv) Storm sewers and appurtenances;

(v) Contour lines at one-foot intervals; and

(vi) A note indicating that all storm drainage facilities shall conform to chapters 32 and 121 and the Standard Specifications adopted by the city commission on February 13, 1973, as amended.

15. A design review plan which meets the requirements of Section 125-314.

Resubmittal Process: Paper copies of the resubmittal shall be submitted directly to the Engineering Department while electronic copies shall be routed through the Building Department. All electronic copies shall be identical to the hard copy submittal, i.e. signed and sealed plans, calculations, etc.

TECHNICAL REVIEW PROJECT # 22-07000006
Rezone, FLUMA & Site Plan-Viva West

Comments

FPUA W/WW Engineering: Concept approved.

Water and wastewater services are available to serve the subject properties. To connect to these services please submit Utility Plan (2 complete sets) along with a completed plan review and commercial service application to FPUA's Water and Wastewater Engineering department, at 1701 S 37th Street Fort Pierce Florida 34947. Please see the Developer's Responsibilities page on the FPUA website for important steps to guide through the entire process including utility details and permit applications (see link). Details and Specifications can be found at W/WW Engineering Page. For any additional questions please contact Shane Ostrander sostrander@fpua.com.

Note:
FPUA does not accept 10" diameter mains.

FPUA Electric & Gas Engineering: Approved.

Electric service is available to the site (from S. Jenkins Road). Please provide electric load information and AutoCAD drawing. Customer will be responsible for all transformer pads, conduits and secondary conductors. For more information and project coordination, please contact Sal Scimeca.

Sal Scimeca
Engineering Technician II
Electric and Gas Engineering
Office: (772)466-1600 Ext. 6957
sscimeca@fpua.com

Gas service is available to the site (from Okeechobee Road). Please provide a copy of the gas riser diagram with the anticipated load (if developer is interested in natural gas service to the propose complex). For more information and incentive available, please contact Billy Dupre.

Billy Dupre
Business Development Representative
Gas Operations
1701 S. 37th Street, Fort Pierce, FL 34947
Bdupre@fpua.com
Office: (772)-466-1600 Ext.4705
Utility easement will be required for all propose FPUA electric and gas facilities within the site.

Note: FPUA will make every effort to accommodate new developments and upgrades to existing services as much as possible with on-hand material, while maintaining a responsible maintenance stock. However, in most cases, the provision of service is entirely dependent on the lead times provided by equipment manufacturers. Certain key items could be unobtainable for over a year.

Please find attached copies of the FPUA GIS maps (Electric and Gas).

If the developer should have any questions, please have them contact the individual listed above.

FORT PIERCE UTILITIES AUTHORITY
"Community Proud"

Developer's Responsibilities for Utility Connection

The purpose of this document is to provide clear direction for connecting a project to the Fort Pierce Utilities Authority (FPUA) water and wastewater system.

Note that approval through the City of Fort Pierce or Saint Lucie County site plan approval process does not constitute approval of your detailed utility plans through FPUA. The steps required for FPUA approval are listed below. All Forms, Standards and Specifications, Standard Details, etc. can be downloaded from our website under the Doing Business with FPUA link then W/WW Engineering Downloads.

1. Visit www.FPUA.com and become familiar with our Standards and Specifications. Standard details are provided .pdf format for easy transfer onto your construction plans. These details are updated often and you are responsible for obtaining the most current specifications.

   (http://www.fpua.com/Business/StartStopNewServices/DevelopmentServicesWWWDownloads.aspx)

2. It is recommended at this time to contact schedule a pre-design conference with an FPUA Project Manager.

3. Submit payment for Engineering plan review and inspection services fee as per U.A. Resolution 2011-06. You may calculate this fee yourself or contact our office and we shall prepare and fax/e-mail an invoice to you. If you elect to calculate the fee yourself in an effort to expedite the submittal process, keep in mind that your calculations are subject to FPUA approval. This fee must be paid prior to the return of your first plan submittal, permits, etc. Review fees are based on:

   $500 Flat charge per development
   plus $20 per water equivalent residential connection (WERC) at 300 gallons per day
   plus $20 per sewer equivalent residential connection (SERC) at 240 gallons per day

   Note: For multi-family developments, (more than two units per building) each unit represents 70% of one WERC and 87.5% of one SERC.

4. Submit 2 initial sets of detailed utility drawings to 1701 S. 37th Street, Fort Pierce, FL 34947. Submit 3 sets of drawings.

   Note: Reference section 1.22 of the General Design & Construction Standards for Drawing/CAD requirements. Failure to adhere to requirements will result in utility plan denial. Allow 30-day response time. It may take several submittals to receive an approved design.

5. Submit any required permits (Draft) with your initial construction plans. Please use the Water and Wastewater FDEP Permit forms provided on the website as the pertinent information is always current.

6. Submit a Notice of Intent to Discharge Form with your initial construction plans. Should you need an Application for Wastewater Discharge Permit, you will be contacted by our Pretreatment Coordinator.

7. Upon plan approval, you will receive one set of the submitted plans stamped approved or approved as noted and any applicable permits executed.
8. Execute and submit a Water and Wastewater Supply Agreement at the time of final plan submittal. This is a three party document outlining the requirements of the project owner and project engineer.
9. If your property is outside the City Limits, the property owner will be required to sign an Annexation Agreement. Please utilize the following procedure to complete the agreement: provide your FPUA Project Manager with the following information for the property owner: Name, Contact Number, Site Address, Mailing Address, Parcel ID Number

   Our office will provide this information to our attorney, R.N. Koblegard, who will prepare an annexation agreement and their office will call the property owner to schedule an appointment to sign the agreement and will thereafter record the agreement. The service fees, which are subject to change and are payable to Mr. Koblegard at the time the agreement is signed, range from $50 - $400.

   Note that until the approval and acceptance of the Plans and Permits, the execution of the Annexation Agreement, Supply Agreement, and Payment of Capital Improvement Charges, Accrued Guaranteed Revenue Charges, and other associated fees, the project cannot move forward to the construction phase.

10. Submit five sets of shop drawings for all sanitary structures and manufacturer's cut sheets for all materials. These submittals will be reviewed and may be returned approved or revise and resubmit if major deficiencies are found.
11. Contact your FPUA Project Manager to schedule a pre-construction meeting.
12. When your project is getting about 90% complete, please contact your FPUA Project Manager to schedule a post-construction meeting. At that meeting, you will need to have your turnover package complete. All items in the turnover package must be complete prior to scheduling a walk-through. Listed below are the items in the turnover package:

    a. Bill of Sale/Cost and Quantities (utilize form on website)
    b. FDEP Water/Wastewater Certification
    c. DDC Data Sheet to include device number, manufacturer, installation date, test date and results, and device size
    d. Record Drawings – Need Two Sets of Paper Copy Drawings (As-Builts are not accepted)
    e. Gravity Sewer Inspection DVD
    f. Lift Station Start Up
    g. Lift Station O & M Manuals (FPUA Owned Only)
    h. Private Lift Station/Collection System Application (if applicable)

13. If your project requires an easement, the property owner will be required to sign an Easement Form. Please complete the attached form Request for Preparation of Easement and return to your FPUA Project Manager.

    Our office will provide this information to our attorney, who will prepare an easement and their office will call the property owner to schedule an appointment to sign it and will thereafter record the easement. The service fees, which are subject to change and are payable to Mr. Koblegard at the time the easement is signed, are $250 plus recording costs.

14. The following items need to be received prior to any meters being installed or chain being removed from DDC:

    a. All Fees Paid (meter, DDC, deposits, New Account Setup Fees, etc.)
    b. Final Inspection/Walk-Through
    c. Punch List Complete
    d. Contractor's Affidavit and Release of Lien (utilize form on website)
    e. Executed Easement
    f. Memorandum from Applicable Right-of-Way Agency (Agency Granting Permit) that Project is Acceptable to Them
    g. Record Drawings – After Review and Approval, Need Two Sets Paper Copy, One Set of Mylars and One CD in AutoCad Format.

DDC Installation Procedures

Below are the procedures for the installation of a DDC for unmetered fire

- Fire/Mechanical Plans (offsite to device only) approved by FPUA Project Manager (PM)
- Submittals approved by PM, with an approved set provided to Water Distribution (WD)
- PM will acquire DDC installer contact information at pre-construction meeting and provide to WD
- DDC contractor must be licensed with certification in backflow device installation and testing. Proof of certification must be provided to WD prior to pressure test
- Upon notification of the need for a DDC, Engineering Coordinator (EC) e-mails Key Accounts (KA) with device size and account information
- KA sets up account and creates service order which charges $40 Initiation of Service Charge and alerts WD, via service order, of the DDC being installed
- Contractor installs standpipes, concrete pad, and DDC under direct supervision of Water/Wastewater/Natural Gas Engineering Inspector to ensure compliance with clearances and adequate work space for future testing, maintenance, and repairs. Inspector locks device with chain after installation
- Prior to scheduling the backflow certification test through the inspector, all lines to and from the device must be chlorinated and pressure tested per their respective agencies
- WD Service Foreman must be notified (via Inspector) at least 24 hours prior to the test. Service Foreman must be present for the test and re-locks the OS&Y in the closed position after test. The test sheet must be given to WD either directly after the test or arrangements should be made to receive the test results. Engineering does not need a copy of the test results; WD will notify inspector of the test results
- If at any time after the DDC installation the lock or chain has been found cut, the Revenue Protection Officer will be notified immediately. **Tampering or removal of the lock and/or chain will result in a Tampering Fee of $200 and all associated fees according to the current FPUA Resolution. (WD will do a T-Tamper-Water service order; Revenue Protection Officer will go to site, take pictures, and bill tampering fee)**
- After final walk-thru, EC will send Meter Installation Authorization (MIA) Form to WD Administrative Coordinator authorizing removal of the chain and begin billing
- WD will remove the chain and add the DDC information to the account, including the device number and billing rate
- EC will send Cost and Quantities to Finance to record the asset

REQUEST FOR PREPARATION OF EASEMENT

6. EASEMENT TO BE PREPARED AT THE COST OF

_____ PROPERTY/BUSINESS OWNER

_____ FPUA

7. PROJECT SCHEDULED COMMENCEMENT DATE _____

8. ATTACH SKETCH OF EASEMENT

SEQUENCE OF EVENTS IN PREPARATION OF EASEMENT

1. Complete Request for Preparation of Easement. When at all possible, all easements should be done on one form.

2. Forward completed Request form to FPUA Attorney.

3. FPUA Attorney will order title search.

4. Upon receipt of title search, FPUA Attorney will email identity of owner and any mortgagees to FPUA Contact Person.

5. FPUA Contact Person will contact Customer/Owner to determine willingness to sign an easement and inform the Owner of the need for the lender, if any, to join in easement.

6. If Customer/Owner is willing to sign an easement, FPUA Contact Person will so advise FPUA Attorney, and an easement will be prepared.

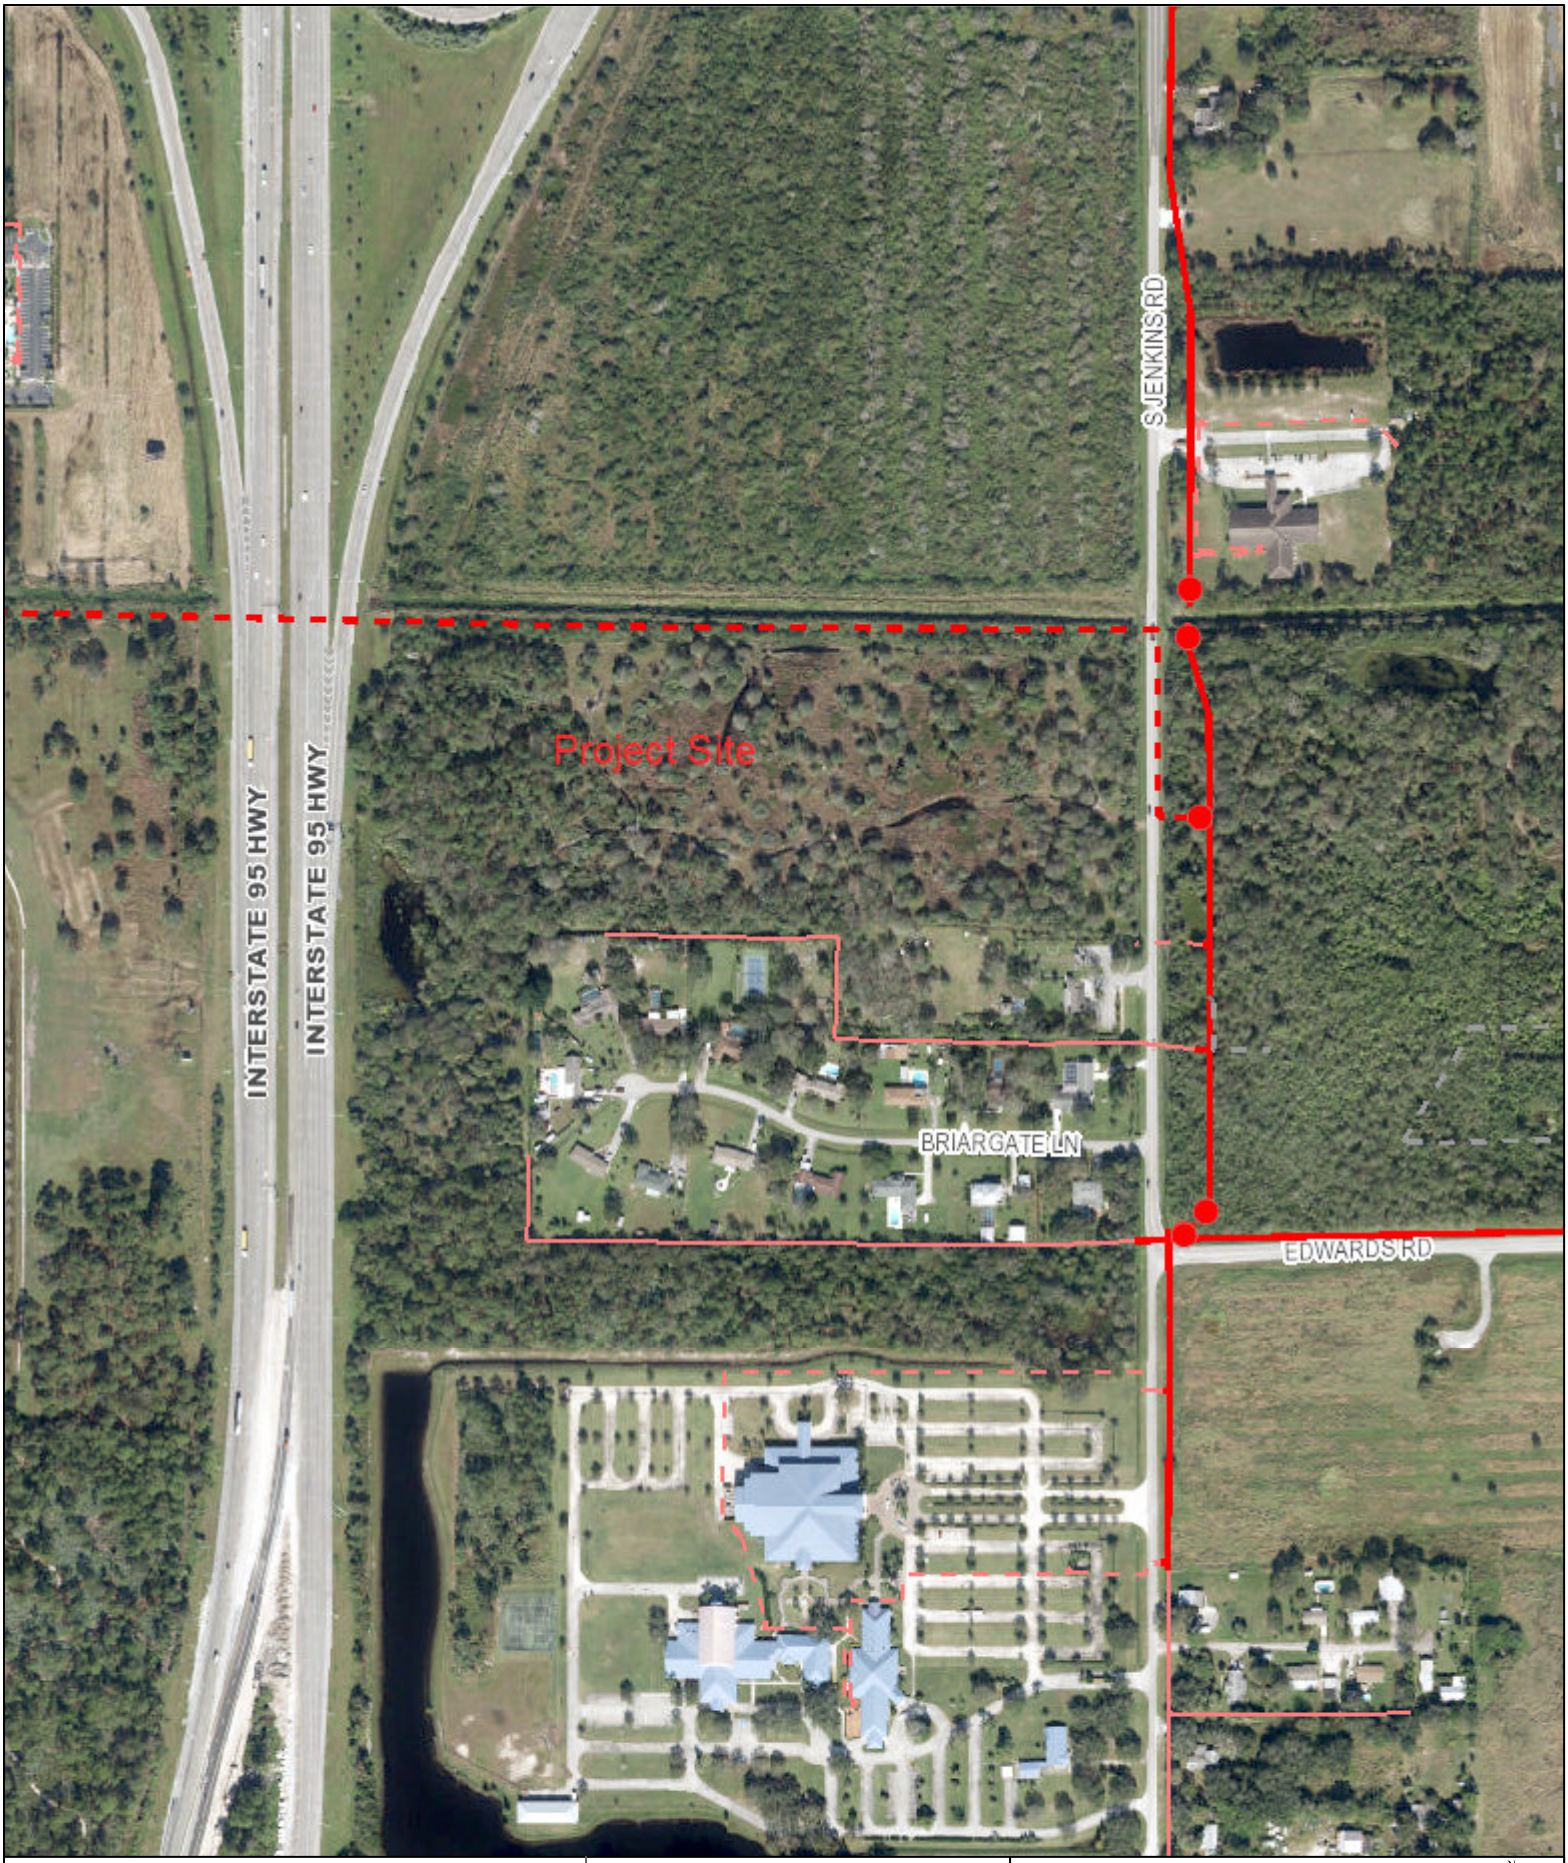

7. FPUA Attorney will call Customer/Owner to make arrangements to have the easement signed. In the alternative, if Contact Person wishes, the easement and other documents can be emailed to FPUA Contact Person to have signed. FPUA Contact Person will then return the signed easement/documents to FPUA Attorney.

8. FPUA Attorney will record the signed easement/documents and will return the recorded easement to Water/Wastewater Engineering to the Engineering Coordinator.

9. Engineering Coordinator assigns a Utilities Easement Number, scans and saves easement document, and records in the MS Access Easement Database.

10. Engineering Coordinator gives the easement to the technician assigned to put on GIS. Technician draws easement on GIS and gives to Project Manager for verification.

11. Upon verification, Project Manager gives Engineering Coordinator original recorded easement. Engineering Coordinator places in fireproof file cabinet.

CITY OF FORT PIERCE

PLANNING BOARD

Planning Board Minutes

OF THE REGULAR MEETING OF THE FORT PIERCE CITY PLANNING BOARD HELD ON MONDAY, NOVEMBER 14, 2022, IN FORT PIERCE CITY HALL, COMMISSION CHAMBERS, 100 NORTH US HIGHWAY 1, FORT PIERCE, FLORIDA.

1. CALL TO ORDER

2. PLEDGE OF ALLEGIANCE

3. ROLL CALL

Present: Alexander Edwards; Nichelle Clemons; Bob Burdge; Anton Kreisl; Frank Creyaufmiller, Chairman

Absent: Harold Albury

Staff Present: Kev Freeman, Planning Director
Ryan Altizer, Planner
Alicia Rosenthal, Planning and Development Organizer

4. CONSIDERATION OF ABSENCES

Mr. Albury was excused from the meeting.

5. APPROVAL OF MINUTES

a. Minutes from the October 10, 2022 meeting

Motion was made by Bob Burdge, and seconded by Nichelle Clemons to approve the minutes from the October 10, 2022 meeting.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

6. **HEARING OF THE LOCAL PLANNING AGENCY**

a. **Future Land Use Map Amendment - Viva West - 3037 South Jenkins Road**

Mr. Altizer gave an overview of the application and stated the current Future Land Use is GC - General Commercial and the proposed Future Land Use is RM - Medium Density Residential. Chairman Creyaufmiller inquired if any meetings have been held with the Briargate neighborhood. Mr. Kreisl asked if there were any restrictions on land use of how close to the interstate the residences can be set. Mr. Freeman stated he is not aware of a community meeting with the Briargate neighborhood or of any additional restrictions on land use besides the setbacks. Mr. Freeman noted the Future Land Use change will reduce the intensity of the property.

Matthew Scott, Applicant Representative from Dunay, Miskel & Blackman Law Firm, stated he personally met with the Briargate neighborhood and the main concerns were buffering, traffic and drainage. Mr. Scott said another meeting will be held with the neighborhood at the site plan phase. Mr. Scott showed gave a brief presentation showing the variety of entry level cottage style homes and townhomes, along with the various amenities.

Steven Cooper, Engineer, spoke about the drainage, and he explained that Viva West will reduce the discharges in Briargate neighborhood, and the water not held on site will go into the canal controlled by North St. Lucie Water Control District.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission for the Future Land Use change located at 3037 S. Jenkins Road from GC, General Commercial to RM, Medium Density Residential.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

b. **Future Land Use Map Amendment - Allegra at Fort Pierce - Parcel IDs: 2419-111-0002-000-7 and 2419-113-0001-000-6**

Mr. Altizer gave an overview of the application and answered questions from the Board. He explained the request is to change the Future Land Use Map Amendment for two (2) parcels from GC, General Commercial to RM, Medium Density Residential. He highlighted the decrease in density for both commercial and residential land use.

Lee Dobbins, Applicant Representative, from Dean Mead Law Firm, explained that the northern parcel was recently annexed into the city and the change is for two parcels. Mr. Dobbins stated there has been two community meetings with the neighborhood and the concerns were with drainage, traffic and how the development fits in with the neighborhood. Mr Dobbins noted that the use will be less intense with less traffic and the neighborhood concerns can be addressed at the site plan stage. Mr. Dobbins answered questions from the Board on the number of rental units, ingress and egress off of 41st Street, and market research showing development is appropriate for the area.

Deborah Fournier, resident, showed pictures of her neighborhood flooding and, she wants a solution to the drainage issues.

Mr. Freeman stated that it is difficult for staff to guarantee a solution at this point, but staff can ensure that all local codes will have to be met for whatever is designed.

Patricia Ruby, resident, spoke against the application, highlighting traffic issues, flooding, crime and the main entrance needed to be located on Okeechobee Road instead of 41st Street.

Gina Grant, resident, has concerns with flooding and traffic. She suggested a traffic light be placed at 41st Street and Okeechobee Road.

Mr. Dobbins stated the intersection and turn lanes will change at the site plan stage and the change in the Future Land Use and Zoning will lower the possible traffic count. He highlighted that the development will capture their own drainage on site, and it will go to the outfall canal.

Motion was made by Nichelle Clemons, and seconded by Alexander Edwards to forward a recommendation of approval to the City Commission for the Future Land Use Map Amendment, change for two (2) parcels 2419-111-0002-000-7 and 2419-113-0001-000-6 from GC, General Commercial to RM, Medium Density Residential.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

7. NEW BUSINESS

a. Annexation - 7-Brew Drive-Thru - 2605 Kerr Street

Mr. Altizer gave an overview of the annexation. He stated the current Future Land Use is COM, Commercial (St. Lucie County) and the proposed Future Land Use is GC, General Commercial. The current zoning is CO, Commercial Office (St. Lucie County) and the proposed zoning is C-3, General Commercial Zone.

Chris Ossa, Engineer of Record from Kimley Horn & Associates, stated the client has no plans of keeping the billboard located on the property.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission for the annexation of 2605 Kerr Street.

AYE: Nichelle Clemons, Bob Burdge, Anton Kreisl, Alexander Edwards, Chairman Frank Creyaufmiller

Passed

b. Zoning Text Amendment - Edgartown Settlement Zoning District

This item was presented after item 7j.

Mr. Freeman stated he recommended this item going to the Historic Preservation Board for discussion purposes and then come back to the Planning Board for review.

Motion was made by Bob Burdge, and seconded by Nichelle Clemons to forward the Edgartown Settlement Zoning District Text Amendment to the Historic Preservation Board meeting for discussion and then come back to the Planning Board for review.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

c. **Zoning Text Amendment - Code of Ordinances, Chapter 121 - Subdivisions Sec. 121-8, 121-9 and 121-10. Plat specification**

This item was presented as the last item under New Business.

Chairman Creyaufmiller spoke to Mr. Freeman before the meeting to suggest that the amended Preliminary Plat process go to the Planning Board after the Technical Review instead of the City Commission. Chairman Creyaufmiller said the Planning Board function is to be an overview to the Planning department and the amendment is to streamline and speed up the process so when the final design work is done, the City Commission can review the final Plat

Mr. Freeman stated the text amendment was based on a recommendation from 2016 and recently a Preliminary Plat came in that did not meet the existing city requirements for a Preliminary Plat. He explained that a preliminary plat is preliminary to the final plat and the city seemed to have it backwards. Most of the details were provided at Preliminary and the Final Plat was almost an overview of the Preliminary Plat. Mr. Freeman said the recommendation is to have the Preliminary Plat meet the basic requirements to enable developments to move to building permit before final Certificate of Occupancy. The Final Plat will get everything in order for the final Certificate of Occupancy. Mr. Freeman highlighted the move is to streamline the Preliminary Plat Process by allowing the Preliminary Plat Process to be optional and require the Final Plat meet state statute requirements.

Motion was made by Bob Burdge, and seconded by Anton Kreisl to amend the proposed text amendment to include the Planning Board in exchange for the City Commission in the Preliminary Plat process.

AYE: Anton Kreisl, Alexander Edwards, Nichelle Clemons, Bob Burdge, Chairman Frank Creyaufmiller

Passed

d. **Zoning Atlas Map Amendment - Viva West - 3037 South Jenkins Road**

Mr. Altizer gave an overview of the application, and he stated the current zoning on the approximately 27.89 acre parcel is C-3, General Commercial Zone and the proposed zoning is R-4, Medium Density Residential Zone.

Matthew Scott, Applicant Representative, from the Dunay, Miskel, & Blackman Law Firm, made himself available for questions from the Board.

Motion was made by Nichelle Clemons, and seconded by Alexander Edwards to forward a recommendation of approval to the City Commission for the Zoning Atlas Map Amendment from C-3, General Commercial Zone to R-4, Medium Density Residential Zone for 3037 S. Jenkins Road.

AYE: Anton Kreisl, Alexander Edwards, Nichelle Clemons, Bob Burdge, Chairman Frank Creyaufmiller

Passed

e. **Zoning Atlas Map Amendment - Allegra at Fort Pierce - Parcel IDs: 2419-111-0002-000-7 and 2419-113-0001-000-6**

Mr. Altizer gave an overview of the application and stated the request is to change the two (2) parcels from C-3, General Commercial zone to R-4, Medium Density Residential zone.

Mr. Dobbins made himself available for questions from the Board.

Motion was made by Alexander Edwards, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission for the Zoning Map Amendment change of two (2) parcels 2419-111-0002-000-7 and 2419-113-0001-000-6 from C-3, General Commercial to R-4, Medium Density Residential.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

f. **Zoning Atlas Map Amendment - 805 Office Plaza - 805 Virginia Avenue**

Mr. Altizer gave an overview of the application. He said the request is for a Zoning Map Amendment, change for 805 Virginia Avenue from R-5, High Density Residential zoning, to C-3, General Commercial zoning.

Mr. Burdge asked the current uses in the strip center and if C-1 zoning would buffer the neighborhood better with C-3 zoning.

Brad Currie, Applicant Representative from Engineering, Design and Construction, stated the applicant has had to ask for Conditional Uses on the property since it was zoned R-5 and most of the zoning is the area is C-3.

Mr. Kreisl asked to see more information on the current uses to confirm that the current uses are consistent with the C-1 zoning and to assure that would not pose any issues with the applicant. He suggested the item be tabled.

Mr. Freeman said the item can continue to the next Planning Board meeting with staff's analysis based on the Planning Board's discussion points. Mr. Freeman noted considering spot zoning and the uses.

Mr. Currie said that Neighborhood Commercial use is not allowed in C-1 and that could become a problem, but there is not a big difference between C-1 and C-3 zoning. He stated that his client would like to get the most intense zoning as possible.

Mr. Burdge mentioned the tax benefit of C-1 over C-3, due to a higher appraisal value of C-3 zoning.

Motion was made by Bob Burdge, and seconded by Anton Kreisl to table the application for further investigation from staff regarding potential C-1 zoning.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

g. **Major Amendment to Planned Development - Red Hawk Rebar - 4280 Bandy Boulevard**

Mr. Altizer gave an overview of the application and provided brief history on the project. The City Commission of the City of Fort Pierce approved the Zoning Atlas Map Amendment to Planned Development along with an approved development plan on September 4, 2018. The original proposed development plan consisted of a 40,000 square foot manufacturing facility and the new proposal consists of a smaller footprint of approximately 32,000 square feet.

Dennis Murphy, Applicant Representative from Culpepper and Terpening, stated the application is the same except the building footprint has changed.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission with the following condition:

1. A completion certification by a landscape architect, cost estimate and landscape bond pursuant to City Code 123-6 shall be required before the Final Certificate of Occupancy is approved for the site.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

h. **Conditional Use - Brighter Care Adult Daycare - 415 Avenue A**

Mr. Altizer gave an overview of the application. He stated the daycare will be 4,892 square feet inside the Kraaz & Kraaz Building and the tentative capacity is approximately 10 patients.

Mr. Burdge asked if there will be the availability for a horseshoe drop off point for convenience and security.

Shantell Walkine, Applicant, stated she has been in the medical field for 40 years and, she wants to provide entertainment to elderly patients in Fort Pierce. Ms. Walkine said there is currently not covered parking at the location and there is the ability to utilize the horseshoe drop off point.

Motion was made by Bob Burdge, and seconded by Nichelle Clemons to forward a recommendation of approval to the City Commission.

AYE: Alexander Edwards, Nichelle Clemons, Bob Burdge, Anton Kreisl, Chairman Frank Creyaufmiller

Passed

i. **Conditional Use - Longman Garage & Guest House - 1506 Thumb Point Drive**

Mr. Altizer gave an overview of the application. He stated the garage will be 1,974 square feet and the 2nd floor living (Guest House) will be an additional 1,974 square feet.

Mr. Freeman stated he received two objection e-mails from residences that are adjacent and close to the property. He stated they had concerns with the architecture, setbacks, appropriateness of the design and the location. Mr. Freeman noted that the state statute limits the Planning Board and City Commission on architectural developments on single family homes. He mentioned that there is an exception for property located in the CRA. He noted that the Conditional Use application does not require architectural guidelines and the South Beach Overlay has architectural elements for multifamily and non-residential development. Mr. Freeman stated that the Planning Board has no authority to condition the architecture but, they can limit the height.

Mr. Burdge asked if the current zoning allows for two homes on the parcel and if the guess house incorporates a kitchen. Mr. Kreisl asked the total square footage and if the current plan has kitchen facilities.

Mr. Freeman stated an additional dwelling unit cannot be granted on the property.

Board discussion ensued on the height of the building, the South Beach overlay height restrictions, and why the extra height is needed.

David Hicks, resident, spoke against the application. He stated the garage is too close to the property line, creates privacy issues and does not fit in the neighborhood with mostly one-story homes. Mr. Hicks showed the Board pictures of the survey, floor plan and what the garage would look like next to the single family home.

Sally Griffith, resident, spoke against the application. Mr. Griffith said she agrees with everything Mr. Hicks said, and she added the garage is too big, too commercial looking and does not fit in the neighborhood.

The applicant did not attend the meeting.

Motion was made by Anton Kreisl, and seconded by Nichelle Clemons to disapprove the Conditional Use for the height of the garage and guest house because there is no compelling reason to allow the height restriction.

AYE: Nichelle Clemons, Bob Burdge, Anton Kreisl, Alexander Edwards, Chairman Frank Creyaufmiller

Passed

j. **Site Plan, Design Review and Conditional Use - Ballarena Multi-Family - 4701 Regina Drive**

Mr. Altizer gave an overview of the application. He stated the development will be a 114-Unit multifamily innovative residential development with six (6) townhomes and three (3) conventional apartment buildings. He noted the application requires approval of the Conditional Use for the additional maximum density bonus of two (2) units per acre. The density bonus qualifies because the landscaping plan provides for effective use, the site plan provides for creative placement of buildings and other facilities and the design elevations

provide for imaginative design features.

Dan Sorrow, Applicant Representative from Cotleur and Hearing, provided the Board with a detailed presentation. He stated the property is just under 10 acres with the site ingress and egress off of Weatherbee Road. Mr. Sorrow noted the various amenities being a tot lot, picnic and BBQ area, pool, gym, clubhouse, dog park and cultivating garden. He highlighted the up lighting on the Royal Palm trees along Weatherbee Road, the enhanced buffers along the south and east side of the property, on-street parallel parking and a sidewalk along Weatherbee Road and Regina Drive. Mr. Sorrow stated there will be 112 to 114 rental units all concrete block with impact glass. He said the development exceeded the landscape code by 13%.

Mr. Sorrow answered Chairman Creyaufmiller's question regarding Poinsettia Avenue. He stated the property owner owns one-half of Poinsettia Avenue, and it is part of the plan that will be dedicated for future right-of-way when the county wants to expand Poinsettia Avenue. Mr. Sorrow answered questions from the Board on school bus access and drop off and vehicle charging stations on the property,

Motion was made by Bob Burdge, and seconded by Anton Kreisl to forward a recommendation of approval for the Site Plan, Design Review and Conditional Use to the City Commission with the following four (4) conditions:

1. Prior to the issuance of Building Permit approval, provide colored elevations to demonstrate that the proposed building conforms to the specifications of City Code 125-314, Design Review.
2. Incorporate littoral zone plantings around the lake/retention pond per City Code Section 123-6.
3. A completion certification by a landscape architect, cost estimate and landscape bond pursuant to City Code 123-6 shall be required before the Final Certificate of Occupancy is approved for the site.
4. Prior to the issuance of any site clearing permits, the applicant shall provide a Tree Mitigation Survey and coordinate with the City of Ft. Pierce Arborist for the required mitigation of the City regulated trees proposed to be removed as a result of this site’s development/construction activity.

AYE: Bob Burdge, Anton Kreisl, Alexander Edwards, Nichelle Clemons, Chairman Frank Creyaufmiller

Passed

8. **COMMENTS FROM THE PUBLIC**

Lainey Williams, Edgartown Representative from Jones Foster Law Firm, stated some modifications to the Edgartown Text Amendment would be best for the homeowners and residents. She stated that certain uses are permitted uses and not conditional uses and, they do not agree with the amplified sound in the zoning district. Ms. Williams said the DBA level is typical of a commercial area and suggested sound limiters be required on the property. She also noted the violations are not strong enough for the sound level.

Holly Theuns, resident and Vice-Chair of the Historic Preservation Board, said the city is lucky to have the Edgartown gem in downtown. She stated that she purchased and remodeled a 1905 house in Edgartown when the 2012 Edgartown ordinance was in place, which protected the residents of Edgartown against what is being experienced now.

9. DIRECTOR'S REPORT

There was no director's report.

10. BOARD COMMENTS

Chairman Creyaufmiller asked for Planning Board hard copy packets due to the difficulty in reviewing the drawings.

Application for Future Land Use Map Amendment

☒ Future Land Use Map Amendment – Large Scale (>10 acres)

☐ Future Land Use Map Amendment – Small Scale (<10 acres)

In accordance with Chapter 163.3187, Florida Statutes, The City of Fort Pierce will consider applications for land use changes on parcels in excess of 10 aces ("Large Scale Amendments") only twice each calendar year. The City Commission will consider applications for land use changes on parcels less than or equal to 10 acres with a maximum density of 10 units per acres or less at any time during the calendar year. You are encouraged to schedule a pre-application meeting with the planning staff and to submit your application up to three months in advance of the application deadline.

Application submission shall include the following:

●**TRC** (*Initial Submission): One (1) original and (8) paper copies of the application and support documents and provide one (1) electronic copy of the application packet as described below.

●**Planning Board**: One (1) original and (13) paper copies of the application and support documents and provide one (1) electronic copy of the application packet as described below.

●**City Commission**: One (1) original and (11) paper copies of the application and support documents and provide one (1) electronic copy of the application packet as described below.

In addition to a complete application, packets shall include:

- ☐ Warranty Deed & Legal Description
- ☐ St. Lucie County Property Record Card
- ☐ Statement of why there is a need for the proposed future land use map amendment and how the amendment will result in an orderly and logical development pattern; statements how amendment(s) are consistent with Comprehensive Plan; how future land use designation is compatible with future land use designations and existing land uses surrounding the amended lands; identify future land use designations and existing land uses within a ½ mile of the subject property that have the same or greater type of proposed future land use designation; data and analysis to support conclusions.
- ☐ Current Survey
- ☐ Environmental Study
- ☐ Traffic Impact Report
- ☐ *** Capacity Analysis-Separate Form
- ☐ Drainage Analysis
- ☐ Historical Report
- ☐ 1 CD of all documents submitted in PDF
- ☐ Other_____

1. Property Address/Location: east side of S. Jenkins Rd. between Edwards Rd. & Okeechobee Rd.
2. Property Tax ID(s): 2325-111-0001-000-2
3. Total Acreage: 27.89
4. Existing Future Land Use Designation: GC (General Commercial)
5. Existing Zoning Classification: C-3 (General Commercial)
6. Proposed Zoning Classification: R-4 Medium Density Residential
7. Other applications being submitted concurrent with this application, if any: Rezoning application to change the zoning designation from C-3 to R-4
8. Describe the existing uses, improvements and structures on the amendment lands: The property is unimproved
9. Are there any identified or possible historical structures on the amendment lands? no
10. The reason for making this request: The land use and zoning amendment requests will allow the property to be developed with a residential development containing 140 cottage style apartment units.

11. **Capacity Analysis:**

I. Site Data:

	Existing Use	Future Land Use	Zoning
North	Vacant Land	GC	C-3
South	Single-family Residential	RL	R-2
East	KOA Campground	BC	PD
West	I-95	GC	CP-1

	Future Land Use	Zoning Classification	Maximum Intensity Residential: Dwelling Units per Acre Other: Square Footage	Total Acreage	Flood Zone
Current	GC	C-3	1,214,888 sq. ft.	27.89	X
Proposed	RM	R-4	334	27.89	N/A

II. Public Facilities Information:

A. Potable Water:	
Average Use	Residential: 100 gallons per day per person (du x 2.6= persons x 100 gpd = demand) Other: 0.125 gallons per day per square foot 334 du x 2.6 = 868 persons
Demand Analysis	Maximum 868 x 100 = 86,800 gpd
Current Zoning	Total gallons per day 0.125 x 1,214,888 = 151,861 pgd
Proposed Zoning	Total gallons per day 86,800 gpd
Change in Demand	**Total gallons per day** 151,861 - 86,800 = 65,061 gpd decrease

B. Wastewater:	
Average Use	Residential: 100 gallons per day per person (du x 2.6= persons x 100 gpd = demand) Other: 0.1 gallons per day per square foot 334 du x 2.6 = 868 persons
Demand Analysis	Maximum 868 x 100 = 86,800 gpd
Current Zoning	Total gallons per day 0.1 x 1,214,888 = 121,488 gpd
Proposed Zoning	Total gallons per day 86,800 gpd
Change in Demand	**Total gallons per day** 121,488 - 86,800 = 34,688 gpd decrease

C. Parks and Recreation (Residential Classifications Only): 334 du x 2.6 = 868 persons + 44,227 = 45,095
(Du x 2.6 = persons + 44,227 = population /LOS)

Park Type	LOS	Existing Population Park Demand	Proposed Population Park Demand	Change in Demand
Regional	20 acres per 1,000 people	0	45.09/20 = 2.25	2.25 acres
Urban District	5 acres per 1,000 people	0	45.09/5 = 9.01	9.01 acres
Community	2.5 acres per 1,000 people	0	45.09/2.5 = 18.03	18.03 acres
Neighborhood	1.36 acres per 1,000 people	0	45.09/1.36 = 33.15	33.15 acres

D. Public Schools (Residential Classifications Only):
Single Family: (du x 0.405 = students/70% K-8/30% High) 344 du x 0.405 = 139 students 70% = 97 students; 30% = 42 students
Multi-family: (du x 0.207 = students/70% K-8/30% High)

	K-8	High
School Name	Chester A. Moore Elementary	Dan McCarthy Middle/Ft. Pierce Central High
City	Ft. Pierce	Ft. Pierce
Distance	5.4 miles	4.4 miles/3.7 miles
Current Zoning Enrollment Demand	0	o
Proposed Zoning Enrollment Demand	97	42
Change in Demand	97	42

E. Solid Waste:
2 yard serves 15 units, 4 yard serves 30 units, 6 yard serves 45 units, 8 yard serves 60 units

Demand Analysis	Maximum
Current Zoning	None
Proposed Zoning	334 units = 5(8 yard unit); 1 (6 yard unit)
Change in Demand	increase in 46 yards

F. Stormwater: Potential increase in volume discharged due to increased impervious coverage, reduced groundwater seepage or loss of surface water storage impacting Adopted LOS of 25-year 3-day storm Pre vs. Post Runoff (Storm sewers to convey 5 year- 1 day storm event; Canals to convey 3 year – 1 day storm event)	
Impact	The proposed surface water management (swm) system will include site grading and a series of inlets which direct stormwater to a proposed wet retention/detention system. The proposed swm shall be designed to limit post development discharge to pre-development rates up to and including a 25 year, 72 hour storm. Storm sewers to be designed to convey at least a 5 year, 1 day storm. The system will also meet the discharge limitations (2"/24 hours) for the outfall canal owned and operated by North St. Lucie River Water Control District (NSLRWCD), Min Finished Floor elevation to be at or above the 100 year storm.

G. Transportation Analysis: Most recent ITE Code for use; HCM Roadway Capacity		
	AADT	**AM/PM Peak Hour Trips**
Demand Analysis	Maximum	Maximum
Current Zoning	18,792	AM-850 PM-3,407
Proposed Zoning	1,108	AM-126 PM-164
Change in Demand	Trips (17,684)	Trips AM-(724) PM-(3,243)
Impact to Capacity	No impact to capacity as the trips for the proposed zoning & land use are less than the trips under the existing zoning & land use.

Potential increase in volume discharged due to increased impervious coverage, reduced groundwater seepage or loss of surface water storage impacting Adopted LOS of 25-year 3-day storm Pre vs. Post Runoff (Storm sewers to convey 5 year- 1 day storm event; Canals to convey 3 year – 1 day storm event)

Impact	The proposed surface water management (swm) system will include site grading and a series of inlets which direct stormwater to a proposed wet retention/detention system. The proposed swm shall be designed to limit post development discharge to pre-development rates up to and including a 25 year, 72 hour storm. Storm sewers to be designed to convey at least a 5 year, 1 day storm. The system will also meet the discharge limitations (2"/24 hours) for the outfall canal owned and operated by North St. Lucie River Water Control District (NSLRWCD), Min Finished Floor elevation to be at or above the 100 year storm.

III. Transportation Analysis

G. Traffic
Most recent ITE Code for use; HCM Roadway Capacity

	AADT	AM/PM Peak Hour Trips
Demand Analysis	Maximum	Maximum
Current Zoning	18,792	AM-850 PM-3,407
Proposed Zoning	1,108	AM-126 PM-164
Change in Demand	Trips (17,684)	Trips AM-(724) PM-(3,243)
Impact to Capacity	No impact to capacity as the trips for the proposed zoning & land use are less than the trips under the existing zoning & land use.

SPECIAL WARRANTY DEED

This Special Warranty Deed is executed effective the 16th day of July, 2019, by **LAND HOLDING, LLC**, with an address of The Tower at PNC Plaza, 300 Fifth Avenue, Pittsburgh, PA 15222-2401 (hereinafter referred to as "Grantor"), to **KIVA DEVELOPMENT, LLC,** a Florida limited liability company, with an address of 2239 Abrams Road, Eustis, Florida 32726 (hereinafter referred to as "Grantee").

Witnesseth, that the said Grantor, for and in consideration of the sum of $10.00, in hand paid by the said Grantee, the receipt whereof is hereby acknowledged, hereby grants, bargains, sells, aliens, remises, releases, conveys, and confirms unto the Grantee all of that certain real property situate in the **County of St. Lucie, State of Florida**, *to wit*:

See **Exhibit "A"** attached hereto and made a part hereof.

Together with all tenements, hereditaments, and appurtenances thereon.

Wherever used herein, the terms "Grantor" and "Grantee" shall be deemed to include the parties to this Deed, the heirs, legal representatives, and assigns of individuals, and the successors and assigns of any partnership, corporation, or limited liability company. The singular shall be deemed to include the plural, and vice versa, where the context so permits or requires.

Grantor hereby covenants with said Grantee that the Grantor is lawfully seized of said real property in fee simple; that Grantor has good right and lawful authority to sell and convey said real property; that Grantor hereby fully warrants the title to said real property and will defend the same against the lawful claims of all persons claiming by, through, or under Grantor, but no other; and that said real property is free of all encumbrances, except taxes accruing subsequent to December 31, 2018, and except the matters and restrictions of record.

In Witness Whereof, the said Grantor has signed and sealed these presents the day and year first above written.

Marshall Property Services, LLC
Jenkins Road Cottage-Style Homes
Land Use Plan Amendment
& Zoning Atlas Map Amendment
Statement of Need

Marshall Property Services, LLC ("Petitioner") proposes developing a new residential project comprised of 140 dwelling units with associated amenities ("Project"), thereby making a substantial investment in the Jenkins Road area and creating a new housing opportunity for the community. Petitioner proposes naming the new development "Viva Treasure Coast West." To allow for the Project, Petitioner hereby requests approval of a Land Use Plan Amendment, Rezoning, Site Plan and Design Review.

Kiva Development, LLC ("Owner") is the current owner of the subject property located on the east side of South Jenkins Road between Edwards Road and Okeechobee Road (PCN # 2325-111-0001-000-2) (the "Property"). Petitioner has placed the Property under contract and as such Owner has authorized the submission of the aforementioned applications. The Property is a +/- 27.89 acre site, located in the City of Fort Pierce ("City"), St. Lucie County ("County"). The Property has a future land use designation ("FLUM") of GC, General Commercial. The Property's zoning designation is C-3, General Commercial.

For the Land Use Plan Amendment, Petitioner respectfully requests approval to amend the Property's land use from GC to RM, Medium Density Residential, which is the same land use as the property at the intersection of South Jenkins Road and Edwards Road, approximately 728 feet south of the Property. Concurrently, Petitioner requests a Rezoning of the Property from C-3 to R-4, Medium Density Residential, which is also the same zoning district as the property at the intersection of South Jenkins Road and Edwards Road. Per Section 125-187(g) of the City Code, detached residences, townhomes, duplexes, and multi-dwelling buildings are permitted by right in the R-4 zoning district with the ideal density of 10 -12 units per acre. The Project is proposed at 5.1 units per acre for a total of 140 units.

Per the City's Future Land Use Map Amendment and Zoning Atlas Map Amendment, Petitioner must demonstrate compliance with the criteria listed below for approval of future land use or zoning map amendment:

1. **Statement of why there is a need for the proposed future land use map amendment and how the amendment will result in an orderly and logical development pattern.**

   The proposed changes in land use and zoning are necessary to allow for residential development on the Property and will result in an orderly and logical development pattern, as the surrounding area has residential development and gets gradually more commercial/intense along Jenkins Road as it approaches the intersection with Okeechobee Road to the north.

14 S.E. 4th Street, Suite 36, Boca Raton, FL 33432 | Tel: (561) 405-3300 | Fax: (561) 409-2341 | www.dmbblaw.com

The Property currently has a future land use designation of GC (General Commercial). A canal abuts the Property directly to the north. The parcel to the north of this canal also contains a GC land use designation and is undeveloped. The parcel directly south of the Property contains a RL (Low Density Residential) land use designation and is developed with single-family homes while the parcel to the east has a BC (Boundary Commercial) land use designation and is developed with a KOA campground. Abutting the Property to the west is I-95. Some years ago, the subject Property had a residential land use designation.

Amending the future land use designation on the Property from GC to RM (Medium Density Residential) will result in an orderly and logical development pattern as it will amend the land use designation to be compatible with the surrounding land use designations and residential uses. The amendment will allow the Property to be developed with a maximum of 334 dwelling units. While the RM land use designation will allow this many units, the Applicant is proposing to develop 140 cottage-style homes. This proposed use is less intense than any uses permitted under the existing GC land use designation. The residential use will not generate any loud noises onto the adjacent residential uses that would be caused by trash pick-up and loading areas from permitted commercial uses. Furthermore, the residential uses will generate less traffic than a commercial development permitted under the existing CG land use designation. The traffic report included with this amendment shows a daily decrease of 17,684 trips with the proposed RM land use designation.

2. Statements on how the amendment(s) are consistent with Comprehensive Plan.

This amendment is consistent with the following policies in the City of Ft. Pierce Comprehensive Plan:

FLU 1.1.3 Policy:
The City shall ensure that future land use designations are compatible with adjacent land uses both within and outside the City boundary.

As stated above, the Property currently has a future land use designation of GC. Abutting the Property to north is a canal. The parcel to the north of this canal also contains a GC land use designation and is undeveloped. The parcel directly south of the Property contains a RL land use designation and is developed with single-family homes while the parcel to the east has a BC land use designation and is developed with a KOA campground. Abutting the Property to the west is I-95.

This amendment will change the land use designation on the Property to be more compatible with the surrounding residential uses than the existing GC land use designation. The proposed residential use will be less impactful on the surrounding neighborhood than the commercial uses permitted under the GC land use category.

1.6.1Policy:
Land use regulations shall require that facilities and services meet the established LOS standards, and are available concurrent with the impacts of development.

The attached capacity analysis included with this request show that adequate public service facilities are available for the proposed amendment. The amendment will have a significant decrease on the demand for public facility uses.

14 S.E. 4th Street, Suite 36, Boca Raton, FL 33432 | Tel: (561) 405-3300 | Fax: (561) 409-2341 | www.dmbblaw.com

TE 2.2.7 Policy:
Proposed land use changes shall evaluate the net difference in traffic impacts between the current land use and the proposed land use. Any change in land use which exceeds the LOS standard for a roadway shall also be accompanied by a strategy to address the impact. The strategy may consist of a capacity or operational improvement or implementation of a mobility strategy. The LOS evaluation shall be completed using professionally accepted transportation engineering methodology including generalized roadway and detailed roadway analysis as needed.

Included with this application is a traffic report showing that the existing GC land use designation will generate 18,792 daily trips, while the proposed RM land use designation will generate 1,108 daily trips. This is a decrease of 17,684 trips. In addition to the decrease in daily trips, the amendment will result in a decrease of 724 AM peak hour trips and 3,243 PM peak hour trips. Therefore, this amendment will not increase the volume of trips or decrease the level of service standards on the surrounding roadways.

3. Statements on how the future land use designation is compatible with future land use designations and existing land uses surrounding the amended lands; identify future land use designations and existing land uses within a ½ mile of the subject property that have the same or greater type of proposed future land use designation.

The Property currently has a future land use designation of GC. Abutting the Property to the north is a canal. The parcel to the north of this canal also contains a GC land use designation and is undeveloped. The parcel directly south of the Property contains a RL land use designation and is developed with single-family homes while the parcel to the east has a BC land use designation and is developed with a KOA campground. Abutting the Property to the west is I-95.

The proposed RM land use designation is compatible with the surrounding land use designations to the south and east of the Property. Other than the adjacent KOA campground, the surrounding parcels to the south and east contain RM and RL future land use designations. All of these parcels are currently developed with residential units, are currently under construction for the development of residential units or will be developed with residential units in the future. Amending the land use designation on the Property from GC to RM will ensure the Property is compatible with the character of the existing surrounding residential land uses.

While the parcels to the west and north contain a GC land use designation, the Property is bifurcated from the parcels to the west by I-95. Heading north from the Property, the parcels are located on Okeechobee Road, a major commercial corridor. The GC land use designation is appropriate for these parcels as they are located along a high traffic commercial corridor. While the Property is within ½ mile radius of these parcels, the less intense RM land use designation is appropriate for the Property as it is not located along Okeechobee Road and is directly adjacent to existing single-family homes. In essence, the proposed land use and zoning change will create an appropriate and gradual transition in intensity going south to north on the west side of Jenkins Road.

14 S.E. 4th Street, Suite 36, Boca Raton, FL 33432 | Tel: (561) 405-3300 | Fax: (561) 409-2341 | www.dmbblaw.com

Re: Parcel No. 2325-111-0001-000-2, Jenkins Road, Fort Pierce, Florida
ACES File No. 21126

Dear Mr. Smith,

Andrew Conklin Environmental Services, LLC (ACES) has completed a review of environmental issues associated with the above-referenced ±27.89-acre property, located on the west side of Jenkins Road in Fort Pierce, Florida. Figure 1 depicts the location of the subject site, and Figure 2 is a recent aerial photograph of the site depicting current conditions thereon. On June 30, 2021, ACES inspected the property for the presence of wetlands, surface waters, protected species, and indications of protected species habitat. The purpose of our study was to estimate the current extent of wetlands and protected species habitat on the site. To assess the presence and extent of wetlands, we implemented the jurisdictional wetland identification methodologies of the South Florida Water Management District (SFWMD) and the U.S. Army Corps of Engineers (ACOE), which incorporate an analysis of on-site vegetation, soils, and hydrology to determine the presence or absence of state-jurisdictional wetlands. Where jurisdictional wetlands were found to exist, ACES marked their landward extent by tying sequentially-numbered surveyor's flagging tape to vegetation at each change in the contour of the wetland, and identified their boundaries on a recent aerial photograph of the site. The likelihood of protected species habitation was determined by identifying the various vegetative communities, habitat types, and species indicators currently present on the site, and referencing these against standards and indicators used by the Florida Fish and Wildlife Conservation Commission (FWC) and the U.S. Fish and Wildlife Service (USFWS). Following is a presentation of our findings.

Soil Types

The USDA Natural Resource Conservation Service (NRCS) identifies two different soil types on the property (see Figure 3). Soil maps are used by the environmental regulatory agencies as a general guideline to determine the likelihood of wetland and upland conditions on reviewed properties; soils more commonly associated with wetland conditions potentially indicate areas of lower elevation and greater surface hydrology, whereas soil types that are more commonly associated with uplands are expected to exhibit fewer or no wetland characteristics. Potentially hydric (i.e., wetland) soil types are listed in the *Hydric Soils of Florida Handbook* (Victor W. Carlisle, et al., 2000). ACES sampled soil types throughout the subject property by excavating 6-inch diameter, 12-inch deep cylindrical plugs from the surface, and assessing the soil profiles and characteristics of each plug. Following are brief descriptions of the soil types that are mapped on the subject site, compared to our observations of current soil conditions.

Ankona and Farmton Sands – NRCS Code No. 2: This is a nearly level, poorly drained sandy soil formed from sandy and loamy marine deposits, found on flats of mesic or hydric lowlands. The water table is typically 6 to 18 inches below the surface in most years. This soil is not listed in the *Hydric Soils of Florida Handbook*

This non-hydric soil type is mapped within the majority of the site. Soils in the mapped area mostly consist of non-hydric sand. However, two slightly depressional areas exist where soils qualify as hydric, either containing mucky-textured sand or sand exhibiting mineral stripping within the upper six inches.

Nettles and Oldsmar Sands – NRCE Code No. 25: This is a nearly level, poorly drained sandy soil formed from sandy and loamy marine deposits, found on flats of mesic or hydric lowlands. The water table is typically 6 to 18 inches below the surface in most years. The *Hydric Soils of Florida Handbook* lists this soil type as a hydric soil in only 8 percent of the areas in which it is mapped.

This typically non-hydric soil type is mapped over the east end of the site and in a lobe that extends onto the northern boundary of the property. Most of the soils in these areas are composed of non-hydric sand. However, one area near the east end of the site contains hydric sandy soils exhibiting mineral stripping within the upper six inches.

The NRCS shows a general correspondence to existing conditions, except that three areas of hydric soil exist on the site. The current extent of hydric soils on the site generally corresponds to the location of wetlands as shown on Figure 4.

Community Types

Using the Florida Land Use, Cover and Forms Classification System (FLUCFCS) as a guideline, ACES categorized the different natural communities and land uses on the subject site according to FLUCFCS designations and code numbers. Figure 4 depicts the different FLUCFCS communities on the property. The major FLUCFCS categories on the site are:

Mixed Rangeland – FLUCFCS Code No. 630: This category describes the community that dominates the east half of the site, covering a total of approximately 9.04 acres. It contains a widely spaced canopy of Darlington's oak, slash pine, Brazilian pepper, and cabbage palm over scattered patches of saw palmetto and gallberry, with a ground cover of Bahia grass, St. Augustine grass, Spanish needles, smutgrass, Johnson grass, southern fox grape, caesarweed, low panicum, and carpet grass. Underlying soils are composed of non-hydric sand imbedded with small sandy organic bodies. No wetland hydrologic indicators were observed.

Pine Flatwoods – FLUCFCS Code No. 411: This forested upland community exists over most of the western part of the site, covering a total of about 9.47 acres. It contains a mixed canopy of slash pine, Darlington's oak, and cabbage palm over a patchy midstory of saw palmetto, gallberry, holly, and guava, and a sparse ground cover of southern fox grape, caesarweed, and shiny blueberry. Soils are composed of non-hydric sand imbedded with small sandy organic bodies. No wetland hydrologic indicators were observed.

Temperate Hardwoods – FLUCFCS Code No. 425: This forested upland community is located along the part of the southern site boundary, the east end of the site, and along the northern property boundary. The total area occupied by this community is estimated at 6.28 acres. It

contains a canopy of Darlington's oak, Brazilian pepper, cabbage palm, and scattered slash pine over a ground cover of herbaceous species similar to those noted for the Mixed Rangeland community. The southern area also contains patches of saw palmetto, gallberry, and winged sumac, with some wiregrass and shiny blueberry in the ground cover. Underlying soils are composed of non-hydric loamy sand imbedded with small sandy organic bodies. An extensive subsurface layer of compacted gravel is also present near the site entrance. No wetland hydrologic indicators were noted in this community.

Freshwater Marsh – FLUCFCS Code No. 641: This non-forested wetland is located along part of the western site boundary, where it covers approximately 0.95 acres. It is vegetated with a variety of herbaceous wetland species, including flat sedge, torpedo grass, buttonweed, smartweed, swamp fern, duck potato, cattails, and three-square. Brazilian pepper, cabbage palm, and wax myrtle are present on the landward edges. Soils are hydric, consisting of mucky-textured sand and sand imbedded with large mucky organic bodies. Hydrologic indicators suggest that this community is saturated to the surface or inundated virtually year-round. This wetland is identified as Wetland 1 on Figure 4.

Wet Prairie – FLUCFCS Code No. 643: This non-forested wetland community is in two areas in the east half of the site. Wetland 2 is approximately 0.70 acres and Wetland 3 is about 1.45 acres (see Figure 4). Both wetlands are dominated by herbaceous wetland species, including Virginia chain fern, swamp fern, redroot, yellow-eyed grass, and American cupscale. Some Darlington oak and cabbage palm are also scattered in this community. Underlying soils are mildly hydric, being composed of sand exhibiting mineral stripping in the upper six inches. Hydrologic indicators include the presence of sphagnum moss on the ground. This community is saturated to the surface during most of the rainy season, with extended periods of standing water following heavy rains.

Thus, the entire property contains approximately 24.79 acres of uplands and 3.1 acres of wetlands. All of the wetlands fall under the jurisdiction of SFWMD. If impacts are proposed to any of the wetlands, permits to do so must be obtained from this agency. Following is a discussion of potential wetland permitting and mitigation issues for this site.

Wetland Considerations

In general, SFWMD requires that all proposed wetland impacts be justified by the permittee, who is responsible for demonstrating that all reasonable efforts have been made to design the project in a way that avoids or minimizes wetland impacts. Simply put, in most cases, all proposed wetland impacts must clearly be demonstrated as unavoidable. An exception is made when wetland mitigation is provided that is regionally significant, such as the purchase of credits at a wetland mitigation bank that includes the project site within its service area; in such cases, an applicant is not required to avoid or minimize wetland impacts.

In addition to direct wetland impacts (dredging or filling within wetlands), SFWMD usually requires an applicant to also consider the extent of secondary wetland impacts. Secondary wetland impacts are those potentially adverse effects to wetlands that occur due to the proximity of human activities (i.e., noise, traffic, pollution, lighting, human intrusion, pets, yard waste, etc.). To protect against secondary impacts, SFWMD encourages applicants to preserve a naturally-vegetated upland buffer around all portions of wetlands that are to remain undisturbed. The buffer must be at least 15 feet wide, with a minimum average width of at least 25 feet, and needs to be in natural vegetation (supplemental

planting may be required). In all areas where the minimum buffer cannot be provided, SFWMD will assess secondary impacts extending into the adjacent wetlands. The extent of secondary impacts is determined on a case-by-case basis, but is typically determined by extending a 100 to 200 foot radius into the affected wetland from each point where an adequate upland buffer cannot be provided. Although this may result in a large area of assessed secondary wetland impacts, such impacts are considered to be significantly less adverse than direct impacts. Thus, although secondary wetland impacts do add to the amount of mitigation that an applicant must provide to satisfy SFWMD (if they are assessed), they are typically only a small percentage of the whole. Since SFWMD recognizes the long-term value of on-site wetland preservation and enhancement, the secondary wetland impact issue can frequently be addressed by the placement of a conservation easement over remaining on-site wetlands and their adjacent upland buffers (as applicable).

For this site, the purchase of wetland mitigation credits appears to be an option, since the site falls within the service area of at least one SFWMD-permitted mitigation bank. The purchase of mitigation bank credits is often the most cost-effective and expedient option, and provides the greatest amount of flexibility when it comes to site design. The quality of the wetlands on this site are expected to be evaluated as low to moderate, due to their proximity to development and highways, degradation by off-road traffic, historical disturbances, and the presence of nuisance species (i.e., Brazilian pepper, torpedo grass, cattails, etc.). The Uniform Mitigation Assessment Method (UMAM) is used by SFWMD to assess and calculate environmental losses (Functional Loss, or FL) associated with wetland impacts, and environmental gains (Functional Gain, or FG) associated with wetland mitigation. Based on our UMAM analysis of the site, we expect that on-site wetlands would be scored between 47 and 70 percent value and function. Thus, each acre of wetlands approved for impact on this site by SFWMD is expected to result in an FL of between 0.47 and 0.70. To provide sufficient mitigation, an FG of 0.47 to 0.70 per acre of impact would need to be provided. The corresponding cost of wetland mitigation is expected to be between $35,250 and $52,500 per acre of wetland impacts. The specific cost will depend on a variety of factors, including wetland confirmation by state personnel, the findings of a detailed state -approved UMAM evaluation, and the extent of wetland impacts proposed by the applicant.

The time associated with wetland permitting is expected to be between three to five months for SFWMD. In addition to the cost of wetland mitigation, there are other consulting costs associated with quantification, qualification, and permitting of wetlands on the site. Wetland permit application development (±$2,500), on-site jurisdictional confirmation with SFWMD staff (±$600), and other related ancillary costs and fees are expected to amount to between $4,000 and $5,000. Surveying and engineering costs will also apply, although it is not in our purview to estimate these.

Protected Species

On the date of our site assessment, ACES examined the property for any indications of habitation by protected wildlife species. This included inspecting the property for direct visual and auditory evidence of protected species themselves, as well as assessing the site for the presence of secondary indicators, such as burrows, nests, nesting cavities, scat, tracks, trails, rookeries, etc. Following is a discussion identifying the extent to which protected species are thought to be using the site, and the procedures by which such concerns can be addressed during the project permitting process.

> Gopher Tortoises (*Gopherus polyphemus*): Gopher tortoises are protected as a Threatened species by the Florida Fish and Wildlife Conservation Commission (FWC). Gopher tortoises require habitat that includes well-drained sandy soils for burrowing, open sunlit areas for

nesting, and adequate herbaceous forage. Tortoise burrows are classified as "Abandoned" (burrow collapsed, filled with debris, or otherwise obviously not used for quite some time) or "Potentially Occupied" (any burrow that does not meet the definition of Abandoned). On this property, the relatively shallow depth to the seasonal high-water table may preclude suitable tortoise burrowing conditions. However, we did observe some evidence of tortoise occupation on the site. One Potentially-Occupied burrow and one Abandoned burrow were found in the vicinity of Wetland 3 (see Figure 4). This confirms that at least some tortoises occupy the property. Based on the habitat conditions we observed, our preliminary estimate is that there is a relatively low number of tortoises on the site, probably no more than five, using up to 10 burrows.

FWC requires that all tortoises that are likely to be displaced by proposed development be identified through a formal survey, and safely relocated under an off-site gopher tortoise conservation permit from FWC prior to site clearing. In order to determine the number of tortoises that will be affected by site development, it will be necessary to complete a formal tortoise survey over all potentially suitable habitat that is proposed for development on this site. We estimate there is a total of about 15 to 20 acres of sparsely-populated tortoise habitat on the site. Costs associated with tortoise permitting include the 100% survey and mapping of all tortoise habitat (approx. $4,000), developing and submitting the tortoise relocation application to FWC ($650.00), and excavating all potentially-occupied burrows on the site with a backhoe (assuming 10 burrows, the projected cost is $3,500). In addition, FWC will charge an application fee of $220, and the property receiving the relocated tortoises charges $2,200 per tortoise to cover long-term management costs (assuming 5 tortoises, that cost would be $11,000). So, under a hypothetical 10 burrows excavated and 5 tortoises relocated, the total cost (including the tortoise survey) would be approximately $19,370 (actual cost could be more or less depending on the results of the tortoise survey and relocation).

Timing of the tortoise permitting process is linked to the expected project start date. FWC requires that the survey data be no more than 90 days old prior to excavating tortoises under the authority of a permit. Furthermore, FWC requires that an applicant provide documentation from local government confirming that the proposed project that will necessitate tortoise relocation is imminent; without this documentation, the permit is unlikely to be issued. Therefore, the tortoise survey is recommended to take place no more than two months prior to the anticipated project start date. Once the application is submitted, most tortoise permits can be acquired within two to three weeks (assuming all required documentation is provided). After the permit is issued, relocation can occur as long as predicted weather temperatures do not drop below 50 degrees Fahrenheit for 72 hours after the relocation is completed.

Eastern Indigo Snake (*Drymarchon corais couperi*): This federally-listed threatened species can occupy virtually all native Florida habitats, including flatwoods, upland scrub, and wetlands, typically ranging over very large areas and frequently utilizing gopher tortoise burrows for shelter. No signs of this species were observed during our site inspection. Barring the direct sighting of this species, no special permit for potential impacts to it is expected to be necessary to acquire.

Wading Birds: Protected wading birds may occasionally be present within the wetland communities for foraging purposes, including tricolored heron and sandhill crane. There is no

rookery habitat on the site to support nesting of these species, and none of these species were observed on the site during our inspection. Although it is possible that these species may be present from time to time in on-site wetlands on a transitory foraging basis, such behavior is opportunistic, and not indicative of critical reliance on any on-site natural resources. Therefore, no special permits for potential impacts to these species are expected to be required.

Wood Stork (*Mycteria americana*): Wood stork nesting habitat is not present on the site. However, the on-site wetland community does provide foraging habitat for this federally-listed endangered species. Direct impacts to wood storks are not an issue for this site, just potential impacts to wood stork Suitable Foraging Habitat (SFH). However, even if potential impacts to wood stork SFH are assessed, any wetland mitigation proposed for this project should also suffice to meet any wood stork mitigation requirements that might apply.

Bald Eagle (*Haliaeetus leucocephalus*): No recorded bald eagle nests exist on or near the subject site, and no eagle nests or eagle activity were observed on the site. The nearest recorded eagle nest is approximately 0.75 miles south of the site. Therefore, it is not expected that potential impacts to this species will need to be addressed prior to site development.

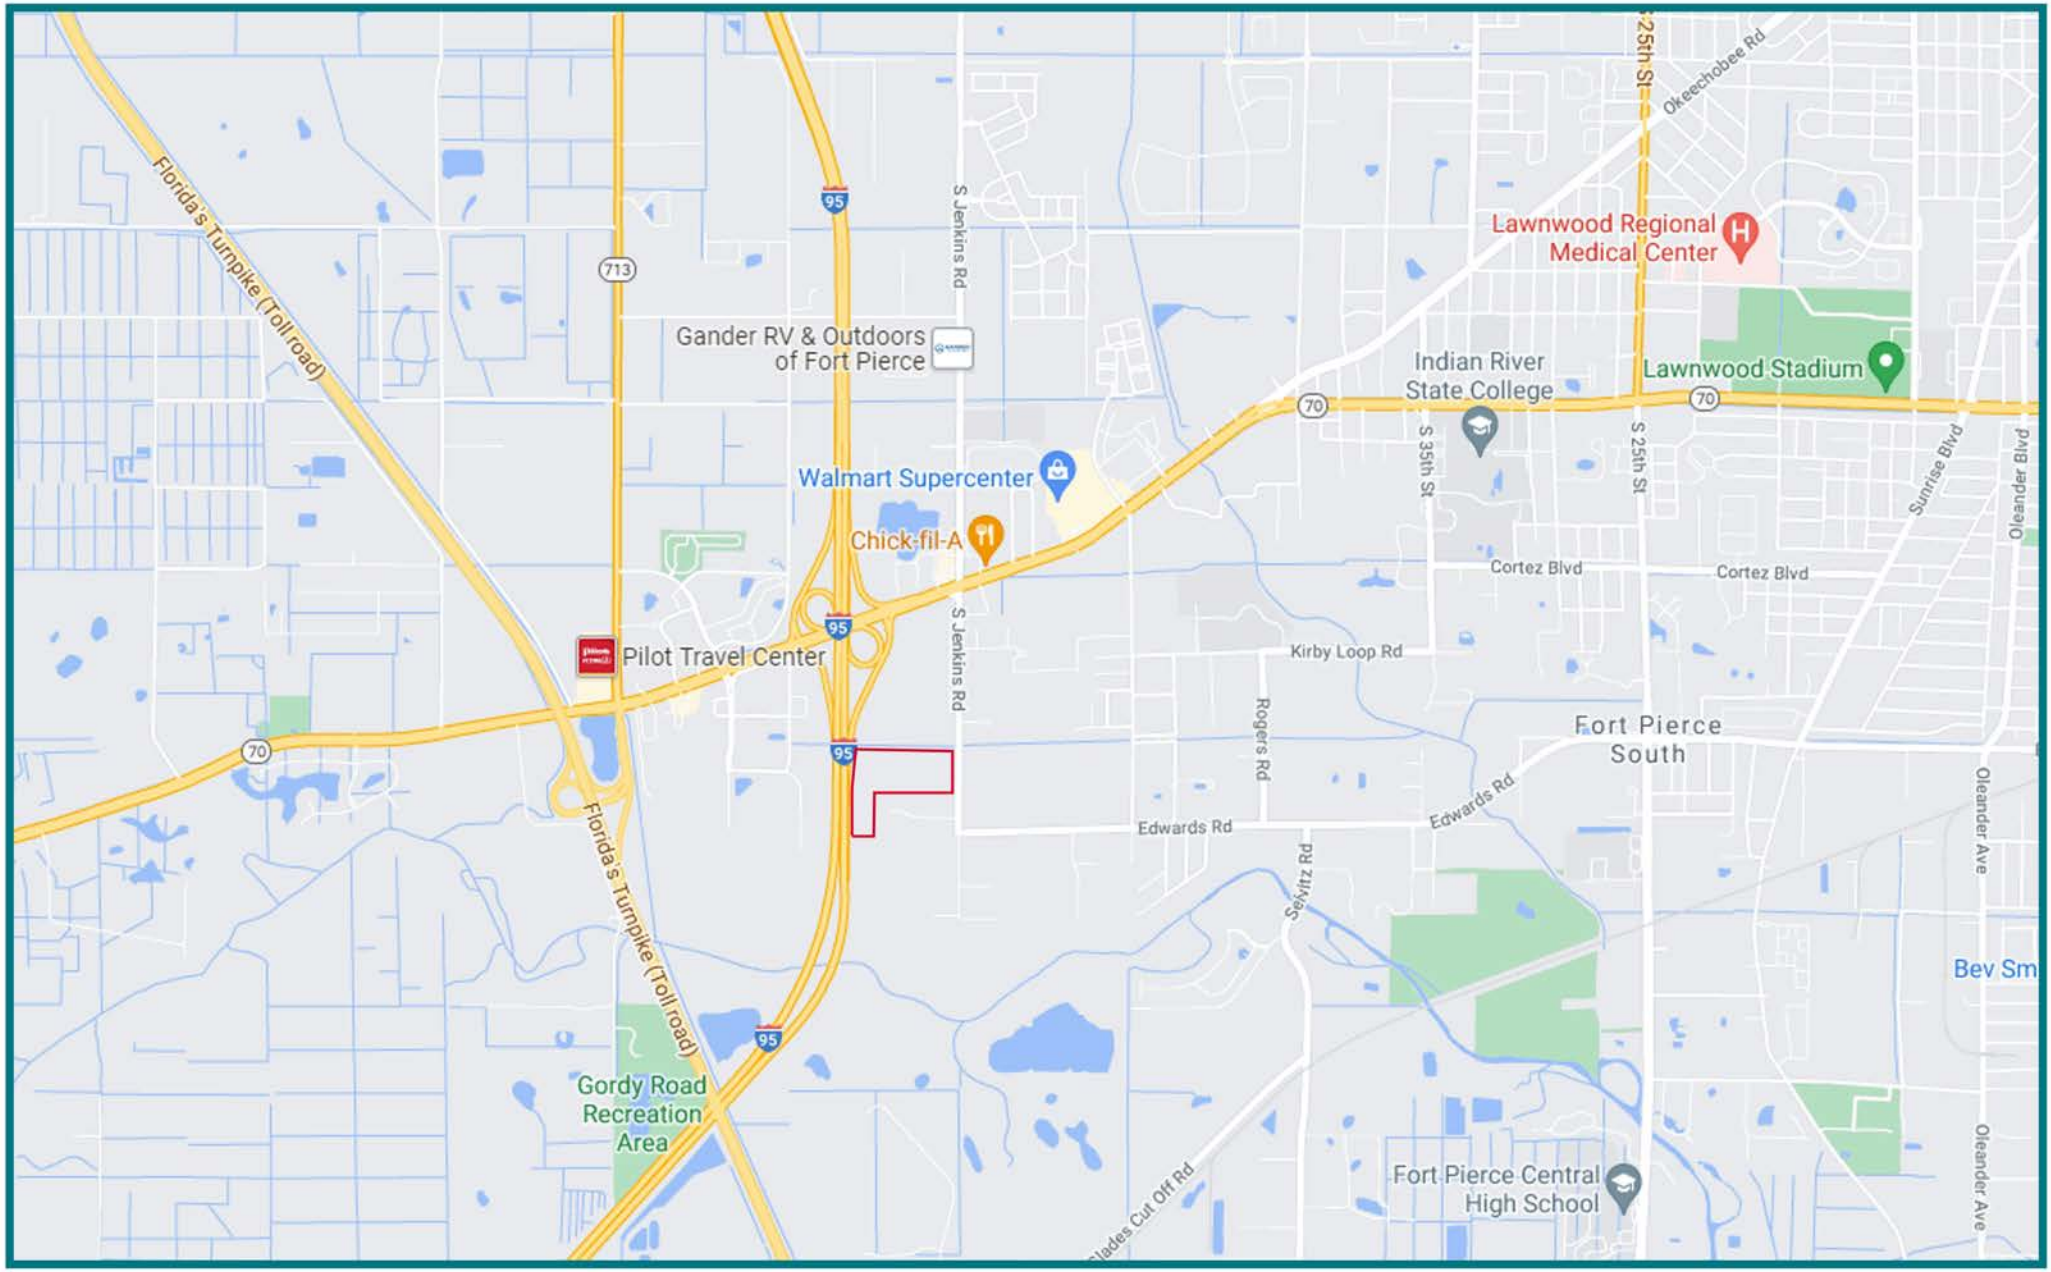

Summary and Conclusion

ACES has completed an environmental assessment of Parcel No. 2325-111-0001-000-2, Jenkins Road, Fort Pierce, Florida. It is our determination that approximately 24.79 acres of uplands and 3.1 acres of SFWMD-jurisdictional wetlands are present on the site. If impacts are proposed to wetlands, then a permit will be needed from SFWMD, and mitigation will be required to compensate for direct and secondary wetland impacts. Although permitting for impacts to wood stork SFH is not expected to be required, the mitigation provided for wetland impacts (if applicable) should also be sufficient to compensate for any wood stork impacts that might be assessed. A small population of protected gopher tortoises are present on the site; a formal gopher tortoise survey will need to be completed prior to site development to determine the number of tortoises that will need to be permitted for relocation. ACES is committed to working with you through all aspects of the environmental permitting and mitigation processes for this project and will provide a proposal for any and all services upon request. Upon your review of this report, should you have any questions or need any additional information, please do not hesitate to contact us.

Sincerely,

Andrew Conklin – President, ACES, LLC

1.0 EXECUTIVE SUMMARY

At the request of Marshall Property Services LLC, GFA International, Inc. (GFA) conducted a Phase I Environmental Site Assessment (Phase I ESA) of a 27.89-acre vacant property (Parcel Number 2325-231-0001-000-4) located west of South Jenkins Road in Fort Pierce, St. Lucie County, Florida; herein referred to as the "subject property" or "site." Accordingly, Marshall Property Services LLC, and its successors and/or assigns are hereby authorized to rely on this Phase I ESA report in relation to financing for the above referenced site subject to any qualifications stated herein.

This Phase I ESA Update was performed in general accordance with American Society for Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments (ASTM Practice E 1527-13) and was conducted following the scope of work and any limitations as outlined in **Sections 2.4 and 2.5** and our proposal letter to dated June 7, 2021. This Phase I ESA. The purpose of the Phase I ESA was to identify, to the extent feasible pursuant to ASTM E 1527-13, *recognized environmental conditions* (*RECs*) and *vapor encroachment conditions* (*VECs*) in connection with the property. The purpose and objective of the Phase I ESA was met through the performance of four components: records and site history review, site reconnaissance, interviews, and preparation of the Phase I ESA report. UES performed the Phase I ESA per ASTM Practice E 1527-13, which is equivalent to the U.S. Environmental Protection Agency (EPA) final rule for All Appropriate Inquiry (AAI) and may be used to comply with the provisions of the Federal AAI Rule as set forth in 40 CFR 312. Non-scope considerations, as defined in our proposal letter, as well as in the standard practice, were not addressed.

The use of ASTM Practice E1527-13 is intended to permit a user to satisfy one of the requirements of the Landowner Liability Protections (LLPs) to qualify for the "innocent landowner, contiguous property owner, or bona fide prospective purchaser" limitations to liability with respect to the range of contaminants within the scope of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) and including petroleum products. This practice has been used as a guide to ensure appropriate inquiry into the environmental characteristics and condition of the property consistent with good commercial or customary practice as defined at 42 USC §9601(35)(B). The research was conducted between July 6, 2021 and July 14, 2021 by Robert Crowell, P.G., Senior Geologist.

Robert Crowell, P.G., of UES performed a walk-through site reconnaissance of accessible areas of the subject property on July 12, 2021. In addition, observations were made of the immediately adjacent properties. Any limiting conditions encountered during the course of this assessment are included in **Section 2.4**.

According to site information and data supplied by the client and the St. Lucie County Property Appraiser's office, the subject property is an approximate 27.89-acre "L-shaped" vacant parcel containing woodlands and clearings. No current building structures are located on the property.

Based on historical sources reviewed, a review of regulatory agency files, and interviews, the subject property contained undeveloped pastureland. No evidence was identified of previous active agricultural activity on the subject property.

UES reviewed a series of historical aerial photographs between 1944 and 2017 depicting the subject property. The site and vicinity within each aerial photograph were examined to identify historical site activities. Particular emphasis was placed on any evidence of dumping, landfilling or other uncontrolled activities that may have occurred on the subject property and vicinity. The subject property appeared to be used as pastureland until approximately the 1990s when the property became primarily dense woodlands. No evidence of previous active agricultural use on the subject property was identified. No building structures (except for possible livestock feeders) were noted on the subject property in any of the aerial photographs reviewed.

A search of available environmental records was conducted by Environmental Data Resources, Inc.® (EDR); this report meets the government records search requirements of ASTM Standard Practice for Environmental Site Assessments, E 1527-13. The subject property was not listed in any of the databases searched. Several sites of concern were identified by EDR within the ASTM search radius. Detailed discussions regarding these facilities are provided in **Section 5.1**. Based on the distance, direction, topographic relations and/or estimated groundwater flow, absence of releases, and/or remediation actions to date or ongoing, the identified sites do not appear to pose a threat to the subject property.

A Vapor Encroachment Screening (VES) was performed to identify to the extent feasible pursuant to the procedures presented in the Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transaction (ASTM E2600-15). As specified in ASTM E2600-15 criteria, a records search was performed of federal and state, tribal as a part of a Tier 1 Screening evaluation to determine the likely presence of *Vapor Encroachment Conditions* (*VECs*). No VECs were identified.

This assessment has revealed no evidence of *VECs* in connection with the subject property.

This assessment has revealed no *RECs* in connection with the subject property.

This assessment revealed no controlled *RECs* in connection with the subject property.

This assessment revealed no historical *RECs* in connection with the subject property.

Discarded trash/debris was observed on the property. The trash/debris consisted of inert materials and therefore, is not considered a *REC*. This may be in violation of the Florida Statutes 403.413 ("Florida Litter Law"). The discarded trash/debris should be removed for proper disposal.

2.0 INTRODUCTION

Universal Engineering Sciences (UES) was retained by Marshall Property Services, LLC (Client) to conduct a Phase I Environmental Site Assessment (Phase I ESA) of a 27.89-acre vacant property (Parcel Number 2325-231-0001-000-4) located west of South Jenkins Road in Fort Pierce, St. Lucie County, Florida; herein referred to as the "subject property" or "site". The Site location is shown in **Figure 1**. A Site Sketch showing the subject property and surrounding areas is included as **Figure 2**. Accordingly, Marshall Property Services LLC and its successors and/or assigns are hereby authorized to rely on this Phase I ESA report in relation to financing for the above referenced site subject to any qualifications stated herein.

2.1 Purpose

As outlined in UES' proposal letter[1], the purpose of the Phase I ESA was to identify, to the extent feasible pursuant to the American Standard for Testing and Materials (ASTM) E 1527-13, *recognized environmental conditions* (*RECs)*[2] *controlled environmental conditions*[3], *historical environmental conditions*[4] , *business environmental risks (BERs)*[5], and *Vapor Encroachment Conditions (VECs)*[6] in connection with the property. UES performed the Phase I ESA scope of work in conformance with the standard practice, as outlined in ASTM E 1527-13 and as set forth in

[1] The use of the ASTM E 1527-13 practice was strictly limited to the scope set forth in our proposal dated June 7, 2021 to Marshall Property Services, LLC, and, authorized and returned to our offices on July 6, 2021.

[2] The term *recognized environmental conditions* means the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property 1) due to any release to the environment; 2) under conditions indicative of a release to the environment; or 3) under conditions that pose a material threat of a future release to the environment The term is not intended to include *de minimis* conditions that generally do not present a material risk of harm to public health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be *de minimis* are not considered as *recognized environmental conditions*.

[3] The term *controlled environmental conditions* means a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (e.g., as evidenced by the issuance of a NFA letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (e.g., property use restrictions, AULs, institutional controls, or engineering controls).

[4] The term *historical environmental conditions* means a past release of any hazardous substances or petroleum products that has occurred in connection with the subject property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (e.g., property use restrictions, AULs, institutional controls, or engineering controls).

[5] The term *business environmental risk* means a condition that can have a material environmental or environmentally driven impact on the business associated with the current or planned use of a parcel of commercial real estate, not necessarily limited to those environmental issues required to be investigated in this practice.

[6] The term *vapor encroachment conditions* means the presence or likely presence of contaminants of concern vapors in the sub-surface of the subject property caused by the release of vapors from contaminated soil or groundwater either on or near the subject property.

40 CFR Part 312. The purpose of the ASTM E 1527 practice is to define good commercial and customary practice for conducting an environmental site assessment of a parcel of commercial real estate with respect to the range of contaminants within the scope of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), including petroleum products. As such, this practice is intended to permit a user to satisfy one of the requirements of the Landowner Liability Protections (LLPs) to qualify for the "innocent landowner, contiguous property owner, or bona fide prospective purchaser" limitations to CERCLA liability: that is, the practices that constitute "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice" as defined in 42 USC § 9601(35)(B).

2.2 Detailed Scope of Services and Non-Scope Considerations

The purpose of the Phase I ESA was met through the performance of four primary components: a site history and records review, site reconnaissance, interviews, and preparation of the Phase I ESA report. Non-scope considerations, or those issues considered to be of potential environmental concern at a property outside the scope of the ASTM E 1527-13 practice, were not addressed. More specifically, non-scope considerations which were not included within UES' Phase I ESA scope of work included, but were not limited to: asbestos containing materials, radon, lead-based paint, lead in drinking water, wetlands, regulatory compliance, cultural and historical risks, industrial hygiene, health and safety, ecological resources, endangered species, indoor air quality (with exception of vapor intrusion due to a release of hazardous substances or petroleum compounds), and high voltage power lines. In accordance with ASTM E 1527-13, Section 13.1.5, no assessment of such non-scope considerations is required for appropriate inquiry as defined in the standard practice.

2.3 Significant Assumptions

For the purpose of this Phase I Environmental Site Assessment, UES has made the following assumptions concerning the assessment of on-site and off-site *RECs*:

- Facilities, which use, generate, store, transport or dispose of hazardous wastes or petroleum products maintain the proper licenses with local, state and/or federal agencies.

- All discharges, releases, or violations related to the use, generation, storage, transportation or disposal, of hazardous substances or petroleum products are reported to appropriate agencies as soon as possible, and all reported discharges have been listed in regulatory files.

- UES has assumed that the information sources utilized for this assessment provided complete and accurate information. Evaluations presented in this report are based exclusively on information provided by available public records, and observations made during the site visit.

2.4 Limitations and Exceptions

No specific limitations, exceptions, or deletions from the scope of work, as set forth by the ASTM Practice E 1527-13 were established for the purpose of this Phase I ESA.

No warranty is made regarding the accuracy of the documentation and information supplied by individuals, subcontractors, or governmental agencies consulted in the course of this assessment. UES has relied in good faith upon representations, documentation, and information furnished by individuals and subcontractors noted in the report with respect to operations and existing property conditions and historic uses of the property to the extent that they have not been contradicted by data obtained from other sources. Accordingly, UES accepts no responsibility for any deficiency or misstatements contained in this report as a result of misstatements, omissions, misrepresentations, or fraudulent acts of persons interviewed or parties subcontracted during the course of this assessment. The consultant has been retained for the expressed purpose of gathering, interpreting, and reporting available data.

While this report can be used as a guide, it must be understood that it is neither a rejection nor an endorsement of the property. Problematic environmental conditions that were not identifiable through the scope of this investigation may still exist on the property. The results of the Phase I ESA are not, and cannot, be interpreted as a representation or guarantee that no environmental conditions may exist on or beneath or around the property. This study was not intended to be a definitive assessment of contamination at the subject property. It must also be understood that changing circumstances in the environment and in the use of the property can substantially alter the conclusions and information contained in this report. The consultant accepts no liability for the property. It is the sole responsibility of the client and/or user of this report.

It is further understood by the client that a complete evaluation of business environmental risk associated with a parcel of commercial real estate may necessitate investigation beyond that identified in this Phase I ESA. Certain environmental conditions may exist on a property that are beyond the scope of this Phase I ESA and the practice by which this Phase I ESA was completed in conformance with but may warrant consideration by parties to a commercial real estate transaction. The appropriateness of including an investigation of any such conditions should be evaluated by the client, based upon, among other factors, the nature of the property and the reasons for performing the assessment (for example, a more comprehensive evaluation of business environmental risk).

An Environmental Information Questionnaire (EIQ) is utilized by UES to obtain documentation of environmentally sensitive information derived from the owner, occupant, or client during the course of the assessment. The EIQ is completed by the lead assessor. The completed EIQ is included in **Appendix A**.

2.5 Special Terms and Conditions

No special terms and conditions were established for the purpose of the Phase I ESA.

2.6 Reliance

Marshall Property Services LLC and its successors and/or assigns are hereby authorized to rely on this Phase I ESA report in relation to financing for the above referenced property subject to any qualifications stated herein. UES offers no use or rights to this report to any other party regardless of the circumstance. Reliance of this report to any other party is strictly prohibited without the written consent from Marshall Property Services LLC, and UES.

3.0 SITE DESCRIPTION

3.1 Location and Legal Description

The subject property is approximately 27.89 acres in size consists of one "L-shaped" parcel located west of South Jenkins in Fort Pierce, St. Lucie County, Florida. South Jenkins Road borders a portion of the subject property to the east. The right of way to Interstate 95 (I-95) borders the subject property to the west. The legal description for the subject property, as reported by the St. Lucie County Property Appraiser website are attached in **Appendix B**.

3.2 Site and Vicinity General Characteristics

The subject property is "L-shaped" and occupies approximately 27.89 acres. The property is vacant consisting of dense woodland and open unmaintained grassy areas. The topography of the subject property is relatively flat. Several unpaved paths were noted on the subject property.

3.3 Current Use of the Property

The subject property is vacant consisting of maintained grass and clustered trees and dense woodlands/scrub brush.

3.4 Structures, Roads and Other Improvements

No building structures are located on the subject property.

3.5 Current Uses of the Adjoining Properties

Abutters to the subject property include the following:

To the North: A drainage ditch (NSLRWCD Canal 39) borders the subject property to the north. Vacant property containing dense woodlands/scrub brush is located south of the ditch. This property was historically agricultural (citrus and row crops), pastureland and a grass aircraft runway.

To the East: The right of way to South Jenkins Road borders the subject property to the east followed by a vacant property containing woodlands and a Recreational Vehicle (RV) Park/Campground (KOA). Single-family residences along the terminus of Briargate Road are located to the east of the southern "panhandle" portion of the subject property.

To the South: A church (Iglesia Esmirna) borders the eastern portion of the subject property to the south. Single-family residences along Briargate Road are located to the south of the central portion of the subject property. A church (Westside Church) is located to the south of the southern "panhandle" portion of the subject property.

To the West: the right of way to I-95 borders the subject property to the west.

4.0 USER PROVIDED INFORMATION

A completed User Questionnaire is included in **Appendix A**.

4.1 Title Records

According to title information available online from the St. Lucie County Clerk of the Court Records Department, the title to the property was granted to Kiva Development, LLC.

4.2 Environmental Liens or Activity and Use Limitations

At the request of GFA, an Environmental Lien Search (ELS) Report was prepared by Security First Title Resource, Inc. The ELS report is included as **Appendix C**. No environmental liens or Activity and Use Limitations (AULs) were recorded for the subject property.

4.3 Specialized Knowledge

The user communicated no specialized knowledge or experience that is material to *RECs* in connection with the property.

4.4 Commonly Known or Reasonably Ascertainable Knowledge

The user communicated no commonly known knowledge or reasonable ascertainable knowledge that is material to *RECs* in connection with the property.

4.5 Valuation Reduction for Environmental Issues

The user communicated no valuation reduction of the purchase price of the subject property due to environmental issues.

4.6 Owner, Property Manager, and Occupant Information

The current owner of the subject property is listed in St. Lucie County records as Kiva Development, LLC. The property is currently vacant land.

4.7 Reason for Performing Phase I ESA

The Client is considering purchasing or refinancing the subject property. The Phase I ESA was performed as part of the due diligence associated with the potential property financial transaction. The ASTM E 1527 practice defines good commercial and customary practices for conducting an environmental site assessment with respect to the range of contaminants within the scope of the CERCLA, including petroleum. As such, this practice is intended to permit a user to satisfy one of the requirements to qualify for the innocent landowner defense to CERCLA liability (“appropriate inquiry into previous ownership and uses of the property consistent with good commercial and customary practice”) as defined in 42 USC § 9601(35)(B).

4.8 Other

This Phase I ESA was performed for Marshall Property Services, LLC and is required for financing of the property.

5.0 RECORDS REVIEW

5.1 Standard Environmental Record Sources

As part of this Environmental Site Assessment, a review of applicable Federal and state environmental regulatory databases was conducted. This entailed a review of facility listings available through the appropriate agency databases. As specified in ASTM E1527-13 criteria, a records search was performed of federal, state, tribal, and local environmental/regulatory agency databases, and lists, to identify environmental permits, incidents, complaints, violations, response actions, contamination assessment planning and reporting, and remedial activities relating to owners, operators, and tenants on the subject property. In addition, environmental databases were reviewed for all adjoining and adjacent property addresses, and certain properties up to a one-mile radius from the subject property. The databases were obtained through Environmental Data Resources, Inc.® (EDR). A copy of the regulatory database search report from EDR is provided in **Appendix D**.

EDR's regulatory information inquiries and reviews were conducted using currently available Regional U.S. Environmental Protection Agency (EPA), the State of Florida Department of Environmental Protection (FDEP), and St. Lucie County records as needed. A search of available environmental records was conducted by EDR. This EDR database search review meets the government records search requirements of ASTM Standard Practice for Environmental Site Assessments, E 1527-13.

The following table provides a summary of nearby facilities listed on searched regulatory databases, as reported in the EDR report:

Notes: NR = Not Requested at this search distance

The subject property was not listed in any of the databases searched. The EDR database search identified facility within the ASTM search radius. UES reviewed pertinent files and documents in the Florida Department of Environmental Protection (FDEP) Oculus database.

1. Facility Name: **SMIRNA Pentecostal Church**
Facility Address: 3115 Jenkins Road
Location: Adjacent South
Database Info: FINDS, ECHO, NPDES
Regulatory Info: This facility was listed in the Facility Index System (FINDS) database because it has a National Pollutant Discharge Elimination System (NPDES) permit. A Generic Storm-Water Discharge NPDES Permit for Storm-Water Discharge from Large and Small Construction Projects was approved on March 1, 2008. No inspection reports were found in the files. Based on the information reviewed, this facility does not pose a *REC* to the subject property.

2. Facility Name: **Independent Classic**
Facility Address: 2900 Jenkins Road
Location: 200 feet Northeast (across South Jenkins Road)
Database Info: FINDS, ECHO, NPDES
Regulatory Info: This address correlates with Grace Church. A Generic Storm-Water Discharge NPDES Permit for Storm-Water Discharge from Large and Small Construction Projects was approved on March 6, 2020 and terminated on August 14, 2020. This permit may be for an excavated pond on the Grace Church property(visible in the 2021 aerial photograph) that appears to be associated with the construction of the adjacent RV park/campground. No inspection reports were found in the files. Based on the information reviewed, this facility does not pose a *REC* to the subject property.

3. Facility Name: **Diamond R. Fertilizer**
Facility Address: South Jenkins Road and Edwards Road
Location: 675 feet Southeast
Database Info: LUST, Responsible Party
Regulatory Info: A discharge of 74 gallons of diesel within the Edwards Road right of way (near the Jenkins Road intersection) occurred on May 4, 2016 when a tractor-trailer operated by Diamond R. Fertilizer jackknifed. Initial Remedial Actions included excavation and removal of 7.33 tons of impacted soil from three separate source areas within the Edwards Road right of way. The source removal activities were completed in June 2016. A Source Removal Report (SRR) was submitted to the FDEP in June 2017. The SSR indicated that soil impacts were limited to the upper 4 inches of soil. Confirmatory soil samples collected from each of the three source removal areas after the source removal did not indicate soil impacts above the State Soil Cleanup Target Levels (SCTLs). The SRR recommended "No Further Action". No Further Action was approved by the FDEP in a letter dated July 7, 2017. Based on the information reviewed and the initial remedial action efforts, the identified listed facility does not pose a *REC* to the subject property.

4. Facility Name: **KOA Jenkins Road**
Facility Address: No Address Information Provided
Location: 200 feet East-Southeast (across South Jenkins Road)
Database Info: FINDS, ECHO, NPDES
Regulatory Info: This facility was listed in the FINDS database because it has a NPDES permit. A Generic Storm-Water Discharge NPDES Permit for Storm-Water Discharge from Large and Small Construction Projects was approved on February 27, 2020. An FDEP inspection report dated November 13, 2020 indicated the facility to be "in compliance". The permit was terminated on March 31, 2021. Based on the information reviewed, this facility does not pose a REC to the subject property.

5. Facility Name: **North St. Lucie River Control District**
Facility Address: 2721 South Jenkins Road
Location: 1,600 Feet North to Former AST Area
Database Info: LUST
Regulatory Info: This facility is located on the property to the north. Three (3) aboveground storage tanks (ASTs) were registered in 1987. A Discharge Reporting Form (DRF) was filed on January 30, 1992. The site was enrolled in the State-funded petroleum cleanup program. A limited assessment consisting of field-screening soils with an organic vapor analyzer (OVA) and installing/sampling one temporary monitoring well in the "worst case area" was conducted in 1993. No impacts to soil or groundwater were identified. The report recommended "No Further Action" stating that the source had

been abated and no impacts to soil or groundwater were identified. It appears that because of the site's low priority score, no additional assessment or remediation was conducted until 2019, when a Low Site Score Initiative (LSSI) assessment was conducted. A LSSI SAR was submitted in December 2019. A total of 22 soil borings and 4 monitoring wells were installed and sampled. No impacts to soil or groundwater were identified. The groundwater was sampled on two occasions (July 2019 and October 2019). A "LSSI No Further Action Order" was approved by the FDEP on January 17, 2020. The monitoring wells were subsequently abandoned. Based on the information reviewed, which includes the LSSI No Further Action Order, this facility does not pose a *REC* to the subject property.

6. Facility Name: **Bottling Group, Inc.**
Facility Address: 3620 Crossroads Parkway
Location: 1,000 feet West (across I-95)
Database Info: FINDS, ECHO, NPDES
Regulatory Info: This facility was listed in the FINDS database because it has a NPDES permit. Two Generic Storm-Water Discharge NPDES Permits for Storm-Water Discharge from Large and Small Construction Projects were approved on August 15, 2019 and November 15, 2020, respectively. An inspection report dated March 16, 2020 indicated the facility to be in compliance. Based on the information reviewed, this facility does not pose a *REC* to the subject property.

7. Facility Name: **Ryder Truck Rental**
Facility Address: 3711 Crossroads Parkway
Location: 1,000 feet West (across I-95)
Database Info: AST
Regulatory Info: In October 2019, two 12,000-gallon aboveground storage tanks (ASTs) were removed and replaced with one new 20,000-gallon AST. A Tank Closure Assessment Report (TCAR) was submitted on January 8, 2020. According to the TCAR, a small release of diesel occurred during piping removal. Visibly impacted soil was excavated using hand tools and containerized in drums for proper disposal. Confirmatory soil and groundwater samples did not exceed SCTLs or GCTLs. Based on the information reviewed, this facility does not pose a *REC* to the subject property.

8. Facility Name: **Yellow Freight Trucking**
Facility Address: I-95/Okeechobee Road
Location: 2,000 feet North/Northwest
Database Info: Responsible Party
Regulatory Info: A discharge of 125 gallons of diesel occurred on June 11, 1994 as a result of a vehicle accident along the northbound lane of I-95 approximately 100

yards north of the interchange with Okeechobee Road Initial remedial actions included removal of 48.23 tons of impacted soil. No Further Action was approved by the FDEP on August 9, 1995. Based on the file review and distance, the identified listed facility does not pose a *REC* to the subject property.

5.2 Orphan Sites

Facilities that cannot be accurately mapped due to inaccurate or missing data in the address are identified by EDR as "Orphan Sites". As part of the EDR database report review, UES attempts to geographically locate orphan sites identified by EDR.UES examined the Orphan Sites list and did not identify any nearby sites to the subject property.

5.3 Vapor Encroachment Screening

A Tier 1 Vapor Encroachment Screening (VES) for the subject property consistent with ASTM E2600-15, "*Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions"* was completed to comply with ASTM E 1527-13. The E2600-15 standard provides guidance on identifying and evaluating vapor migration at contaminated properties. Two conclusions are possible as a result of the VES: 1) A Vapor Encroachment Condition *(VEC)* exists; or 2) a *VEC* does not exist.

The purpose of a Vapor Encroachment Screening (VES) is to identify to the extent feasible pursuant to the procedures presented in the Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transaction (ASTM E2600-15). The VES is intended to be used independently or in conjunction with, but not as a replacement of, existing Practice E1527-13 Phase I ESA.

As specified in ASTM E2600-15 criteria, a records search was performed of federal and state, tribal environmental databases as a part of a Tier 1 Screening evaluation. This screening was performed to identify environmental permits, incidents, complaints, violations, response actions, contamination assessment planning and reporting, and remedial activities relating to owners, operators, and tenants on the subject property. In addition, environmental databases were reviewed for all adjoining and adjacent property addresses, and certain properties up to a third of a mile around the subject property, measured from the nearest subject property boundary.

The following table provides a summary of nearby facilities listed on searched regulatory databases to identify the area of concern as reported in the EDR report:

Standard Environmental Record Resource	Approximate Minimum Search Distance-Surrounding the site (miles)			
	Chemicals of Concern		Petroleum Hydrocarbon Chemicals of concern

Based on a review of available data, a *VEC* in connection with the subject property does not or is not likely to exist.

5.4 Additional Environmental Record Sources

No previous environmental investigation reports for the subject property were provided by the client or found in the review of regulatory agency records.

Based on all the information obtained, and the standard record sources utilized during the course of this assessment, no additional record sources were deemed necessary for the purpose of identifying *RECs* associated with the subject property.

6.0 PHYSICAL SETTING SOURCES

A preliminary review of available physical setting source information was performed that consisted of physiographic, subsurface geologic, regional groundwater information, and local well field protection maps of the subject area.

6.1 Review of USGS Topographic Map

A United States Geological Survey (USGS) 7.5-Minute Series Topographic Map FORT PIERCE NW, FL (1983) was examined to determine the geographical features at and around the subject property. The north portion of the subject property site is located at an approximate elevation of 18 feet above mean sea level (amsl). The east portion of property is depicted as cleared land. The west/southwest portions of property are depicted as vegetated. South Jenkins Road is depicted to the east. I-95 is depicted to the west. Ten Mile Creek is depicted approximately 2,000 feet to the south. No building structures, surface water bodies, marshy areas, mines, or borrow pits are depicted on the subject property.

6.2 Site Soils

The United States Department of Agriculture, Soil Conservation Service, "Soil Survey of St. Lucie County Area, Florida" (Watts and Stankey, 1980) was reviewed. Additionally, the Web Soil Survey (WSS) from the National Resource Conservation Service was reviewed. The Soil Survey identifies the predominant site soils as Ankona Sand (Map Unit 2) and Nettles Sand (Map Unit 25). Soils in these categories are described below:

Ankona Sand (Map Unit 2): This unit comprises approximately 75 percent of the subject property. This is a nearly-level, poorly drained soil on broad flatwoods. Typically, the surface layer is sand about 11 inches thick. It is black in the upper 3 inches and dark gray in the lower 8 inches. The subsurface layer contains light gray sand approximately 38 inches thick. The subsoil extends to a depth of 57 inches. It is black, moderately cemented sand in the upper 10 inches and grayish-brown sandy loam in the lower 9 inches. The substratum contains olive-gray loamy fine sand to a depth of 80 inches or more. The water table is within a depth of 10 inches for 1 to 4 months and within a depth of 10 to 40 inches for 6 to 9 months in most years. The water table recedes to a depth below 40 inches during dry periods. Permeability is rapid in the surface and subsurface layers, very slow to slow in the subsoil, and moderate to rapid in the substratum.

Nettles Sand (Map Unit 25): According to the soil survey, this unit comprises 25 percent of the subject property in the eastern one-quarter of the property. This is a nearly-level, poorly drained soil in broad flatwoods. Typically, the surface layer is 11 inches thick and contains black sand in the upper 5 inches, very dark gray sand in the next 3 inches, and dark fine-grained sand in the lower 3 inches. The subsurface layer is 22 inches thick and contains light gray sand. The subsoil extends to a depth of 90 inches or more. The upper 6 inches of the subsoil contains black to reddish brown fine sand and weakly-cemented organic matter. T next 16 inches contains dark reddish brown loamy sand. The lower part of the subsoil contains pale olive gray loamy sand. The permeability is rapid in the surface and subsurface layers and slow in the subsoil. In natural conditions, the water table is at a depth of 10 to 40 inches for 4 to 6 months. It is at a depth of less than 10 inches for 2 to 4 months.

6.3 Site Geology and Hydrogeology

Two major aquifers are located in Martin County; the non-artesian shallow aquifer and the artesian Floridan aquifer (Lichtler, 1960). The shallow aquifer is the principal source of water in Martin County. The aquifer extends from a few feet below land surface to a depth of approximately 150 feet at the coast and thins to the west. The shallow aquifer is composed of the recent Pamlico Sand formation, Pleistocene-age Anastasia Formation and the Upper-Miocene-age Tamiami Formation. The shallow aquifer is underlain by a thick section of less permeable sediments that are predominantly sandy clay, fine sand and marl, the Miocene-age Hawthorn Group. This formation forms the upper confining layer to the underlying Floridan aquifer, consisting of a thick sequence of permeable limestones of Miocene and pre-Miocene age. In Martin County, the Floridan aquifer yields brackish water and is used mainly for irrigation.

Based on previous assessment data collected in 2005 at the subject property, the average depth to the water table at the subject property is estimated to be less than 5 feet below land surface. Groundwater in the shallow water-table aquifer beneath the subject property is estimated to flow southeast. Groundwater in the shallow aquifer generally flows from areas of higher elevation towards the coast or streams where it can discharge as baseflow. Water infiltrates the aquifer from rainfall and discharges as baseflow to streams, to the coast, by evapotranspiration, and downward recharge to deeper aquifers. Local groundwater flow (flow direction and velocity) may be influenced by the proximity of water-supply wells and local surface-water management. The specific groundwater flow beneath the subject property can only be determined by field methods.

7.0 HISTORICAL USE INFORMATION ON THE SUBJECT PROPERTY

The objective of consulting historical sources is to develop a history of the previous uses of the subject property, in order to help identify the likelihood of past uses having led to *RECs* in connection with the property. Only those sources deemed reasonably ascertainable were reviewed, pursuant to the standard practice.

7.1 Fire Insurance Maps

Sanborn® Fire Insurance Maps were not available for the subject property.

7.2 City Directories

Because the property has been historically undeveloped with no known historical address, city directory listings for the subject property were not available.

7.3 Historical Topographic Maps

UES reviewed four available historical topographic maps (1950 1970, 1967, 1983, and 2012). Copies of topographic maps are provided in **Appendix E**. The following observations for the subject property are made:

The 1950 map depicts the subject property as undeveloped, mostly vegetated land. One circular-shaped low-lying wet area is depicted along the west property boundary. Another low-lying wet area is depicted just outside the northwest property corner. A landing strip (aircraft runway) for a private airport is depicted to the north. Ten Mile Creek is depicted approximately 2,000 feet to the south. The 1970 map depicts the subject property similar to the 1950 map. The 1983 map depicts the subject property similar to the previous maps. The landing strip and private airport are no longer depicted. I-95 is depicted under construction adjacent to the west. A residential development along Briargate Road is now depicted to the south/east. The 2012 map does not show individual features but does not depict significant changes. No building structures, marshy area symbols, mines, or borrow pits are depicted on the subject property in any of the topographic maps reviewed.

7.4 Historical Aerial Photograph Review

Aerial photographs dated 1944, 1950, 1958, 1969, 1980, 1992, 1994, 1999, 2007, 2010, 2013 and 2017 were obtained from EDR. An aerial photograph from 2021 was reviewed from the Google Earth website. The subject property is visible in all the photographs. Historical aerial photographs are provided in **Figures 4 through 14**. A general description of each photograph using current names and identifiers follows.

.

1944: The subject property appears as pastureland with low-growth vegetation (grass) and scattered trees. One circular-shaped, low-lying wet area is visible along the west property boundary and extending offsite to the west. Jenkins Road is visible as an unpaved roadway at its current location along the east property boundary. A drainage ditch is visible along the north property boundary.

1950: The subject property appears to be essentially unchanged from the previous photograph.

1958: The subject property appears to be essentially unchanged from the previous photograph. Small paths (possibly livestock trails) are visible on the property. A small ditch is now visible along the south boundary and turning south at the

"panhandle" portion of the property. An unidentifiable object (possibly a livestock feeder) is noted near the center of the subject property.

1969: The subject property appears to be essentially unchanged from the previous photograph.

1980: The subject property no longer appears as active pastureland. The vegetation has increased in density, especially in the west portion of the site. A few small areas with unidentifiable objects (possibly discarded debris and/or disturbed soil) is noted in the south-central portion of the property.

1992: The vegetation on the subject property has again increased in density. An unpaved trail is now visible crossing through the center of the property. An area of disturbed soil is visible at the east end of this trail near South Jenkins Road.

1994: The subject property appears to be essentially unchanged from the previous photograph.

1999: The subject property appears to be essentially unchanged from the previous photograph.

2007: The subject property appears to be essentially unchanged from the previous photograph. The vegetation has increased in density.

2010: The subject property appears to be essentially unchanged from the previous photograph. A new unpaved trail is now visible in the south "panhandle" portion of the property.

2013: The subject property appears to be essentially unchanged from the previous photograph.

2017: The subject property appears to be essentially unchanged from the previous photograph. Dense vegetation is now reclaiming the previous visible unpaved trails.

2021: This photograph was viewed on the Google Earth website. Several unpaved trails are visible crossing through the subject property. Unidentifiable objects that appear to be discarded debris are now visible in the northeast portion of the property.

7.5 Previous Environmental Investigations

No previous environmental investigation reports for the subject property were provided by the

client or found in the review of regulatory agency records.

8.0 HISTORICAL USE INFORMATION ON ADJOINING PROPERTIES

8.1 Fire Insurance Maps

Sanborn® Fire Insurance Maps were not available for the adjoining properties.

8.2 City Directories

City Directory listings for surrounding addresses in the 2900 to 3300 block of South Jenkins Road were reviewed in varying-year intervals from 1992 until 2017. St Peter Lutheran Church was identified at 2900 South Jenkins Road beginning in 2005. No listings that appear to be involved with petroleum, dry cleaning or other industrial business were reported within the address range reviewed.

8.3 Historical Topographic Maps

The 1950 map depicts the surrounding area as undeveloped, mostly vegetated land a low-lying wet area is depicted just outside the northwest property corner. A landing strip (aircraft runway) for a private airport is depicted to the north. An unpaved trail is depicted along the south property boundary. Ten Mile Creek is depicted approximately 2,000 feet to the south. The 1970 map depicts the surrounding areas similar to the 1950 map. The landing strip and private airport are no longer depicted in the 1983 map. I-95 is depicted under construction adjacent to the west. A residential development along Briargate Road is now depicted to the south/east. The 2012 map does not show individual features but does not depict significant changes. No marshy area symbols, mines, or borrow pits are depicted on the surrounding properties in any of the topographic maps reviewed.

8.4 Historical Aerial Photographs

1944: The adjacent properties to the south and west appear as pastureland with scattered trees similar to the subject property. South Jenkins Road is visible as an unpaved road at its current location along the east property boundary. The adjacent property east of South Jenkins Road appears as pastureland. A drainage ditch is visible along the north property boundary. The property north of the ditch appears as agricultural land (citrus). However, the citrus operation does not appear to be active. A semi-circular shaped low-lying area is noted adjacent to the northwest

property corner. A large area that has been cleared for row crops is noted to the north-northwest surrounding the wet area.

1950: The citrus trees to the north have been removed. East-to-west crowns and troughs are visible in the area of the former citrus trees. The row crops to the north-northwest are no longer visible. This area now appears as pastureland.

1958: A small building (possibly a house) and two tall cylindrical-shaped objects (possibly silos) are noted along South Jenkins Road adjacent to the southeast property corner. The adjacent properties still appear as pastureland, but some small ditches are now visible. A strip of grass (north-to-south) is visible on the adjacent property to the north. This was a former aircraft landing strip. It does not extend to the subject property.

1969: A road (Briargate Road) and 13 residential structures (houses) are now visible on the adjacent property to the south. The small building structure south of the southeast property corner is again visible. The two tall cylindrical-shaped objects are no longer seen. The adjacent property to the north appears as improved pastureland. The grass aircraft landing strip is no longer visible. A pond (elliptical in shape) has been constructed adjacent to the northwest property corner.

1980: Interstate 95 (I-95) and its interchange with Okeechobee Road are now visible and appear to be under construction to the west and northwest. The adjacent property to the north now appears as active row crops. Two additional houses (now a total of 15) are noted along Briargate Road to the south. South Jenkins Road now appears to be paved.

1992: The construction of I-95 and its interchange to the west and northwest appears to be completed. The adjacent property to the north again appears to be active agricultural row crops. The adjacent property to the east of South Jenkins Road now appears as woodlands. A building that appears to be a church is now visible approximately 700 feet to the southeast of the south property panhandle.

1994: The surrounding areas appear to be essentially unchanged from the previous photograph.

1999: The surrounding areas appear to be essentially unchanged from the previous photograph.

2007: The surrounding areas appear to be essentially unchanged from the previous photograph. Commercial development is noted to the west of I-95.

2010: The church to the south has expanded to the north with a new, larger building approximately 500 feet southeast of the south property panhandle. The parking lot for the church is within 150 feet of the south property panhandle. A new church

building (Grace Church) is now visible approximately 200 feet to the northeast (across South Jenkins Road).

2013: The agricultural row crop fields adjacent to the north no longer appear to be active. This area has become overgrown with dense vegetation. The remaining surrounding areas appear to be essentially unchanged.

2017: The surrounding areas appear to be essentially unchanged from the previous photograph.

2021: This photograph was viewed on the Google Earth website. A recreational vehicle (RV) park/campground (KOA) has been constructed and is now visible to the east/southeast across South Jenkins Road. A constructed large elliptical-shaped lake associated with the RV park/campground is now visible. The remaining surrounding areas appear to be essentially unchanged.

9.0 SITE RECONNAISSANCE INFORMATION

9.1 Methodology and Limiting Conditions

The objective of the site reconnaissance is to obtain information indicating the likelihood of identifying *RECs* in connection with the property. UES personnel visually and physically observed the property not obstructed by bodies of water, adjacent buildings, or other obstacles, such as high-standing vegetation. Robert P. Crowell, P.G., Senior Geologist with UES performed a walk-through reconnaissance at the subject property on July 12, 2021. The subject property boundaries were based on the information provided by the Client. Photographs of the subject property taken during site reconnaissance are included as **Appendix F**.

9.2 General Site Setting

Within the scope of this Phase I ESA, UES noted the uses and conditions of the subject property, to the extent visually or physically observed during the site visit. The subject property was observed to be vacant land containing woodlands and clearings. Several unpaved trails were observed on the subject property.

9.3 Hazardous Substances in Connection with Identified Uses

No hazardous substances were observed on the subject property during site reconnaissance.

9.4 Storage Tanks

No evidence of petroleum underground storage tank systems (vent pipes, fill ports, pipelines, or access ways indicating underground storage tanks) were observed on the subject property during the site visit.

9.5 Odors

No noxious or unusual odors were detected on the property during the site reconnaissance.

9.6 Pools of Liquid

Several areas in the west part of the property containing standing surface water from recent rains were observed on the subject property.

9.7 Drums

No drums were observed on the subject property.

9.8 Hazardous Substance and Petroleum Products Containers

No hazardous waste or petroleum product containers were observed on the subject property.

9.9 Unidentified Substance Containers

No unidentified substance containers were observed on the property during the site visit.

9.10 Indications of Polychlorinated Biphenyls

No electrical transformers or other equipment that may contain polychlorinated biphenyls (PCBs) were observed on the subject property.

9.11 Indications of Pits, Ponds or Lagoons

No evidence of pits, ponds, or lagoons; stained soil or pavement; stressed vegetation; solid waste disposal, waste burial, wastewater discharges, septic systems; or potable or irrigation wells was observed on the subject property.

9.12 Indications of Solid Waste Disposal

Numerous areas of discarded trash and debris was observed on the subject property. The debris included tires, mattresses, scrap roofing materials (shingles) scrap metal, scrap concrete, wood scrap, asphalt chunks, one 250-gallon high density polyethylene (HDPE) chemical storage tank (empty with vegetation observed), several water-treatment cylinders, beverage containers and food wrappers. Some of the debris was covered by dense vegetation precluding precise inspection. This discarded trash is considered as *de minimis* but may be in violation of Florida Statues 403.413 ("Florida Litter Law").

9.13 Other Observations

A recreational vehicle (camper) and a boat on a trailer (possible squatter residence) was observed in the northwest corner of the property.

A tent (possible transient home) was observed on the subject property. Evidence of past transient resident activity was observed on the subject property.

10.0 INFORMATION FROM INTERVIEWS

10.1 Interview with Owner

No owner interviews were conducted.

10.2 Interview with Site Manager

The subject property is currently vacant.

10.3 Interviews with Local Government Officials

UES conducted a file review on the Florida Department of Environmental Protection's online OCULUS system regarding the subject property and surrounding properties identified during the records review. Information obtained during the interview is included in this report.

11.0 DATA GAPS AND FAILURE

11.1 Data Gaps

No owner interviews were conducted. Based on the historical data obtained in the records review, this data gap does not appear to be significant. Dense vegetation may have precluded precise inspection to some areas of the property. No significant data gaps were identified during the preparation of this Phase I ESA.

11.2 Data Failure

A data failure occurs when the review of historical information, does not identify the use of a property back to the first development or to 1940 (whichever is earlier). The earliest available record for the site dates back to a 1944 aerial photograph, which depicts the subject property and surrounding areas as pastureland. Based on visible observations made and a review of the available historical resources, this data failure does not pose a *REC* in connection with the subject property.

12.0 FINDINGS

UES was retained by Marshall Property Services, LLC to conduct a Phase I Environmental Site Assessment of a 27.89-acre vacant property (Parcel Number 2325-231-0001-000-4) located west of South Jenkins Road in Fort Pierce, St. Lucie County, Florida. Any limitations, exceptions, or deletions from this practice are described in this report.

12.1 *VECs*

Based on our research and site reconnaissance, no *VECs* were identified in connection with the subject property.

12.2 RECs

Based on our research and site reconnaissance, no *RECs* were identified in connection with the subject property.

12.3 Controlled Environmental Conditions

Based on our research and site reconnaissance, no *controlled RECs* were identified in connection with the subject property.

12.4 Historical Environmental Conditions

Based on our research and site reconnaissance, no *historical RECs* were identified in connection with the subject property.

12.5 *De minimis* Conditions

De minimis conditions identified in relation to the subject property include numerous areas of discarded trash/debris that was observed on the property. The trash/debris consisted of inert materials and therefore, is not considered a *REC*.

.

13.0 OPINION

It is the opinion of UES that no further assessment or investigation is necessary at this time. The discarded debris on the property should be removed for proper disposal.

14.0 CONCLUSIONS

UES has performed a Phase I Environmental Site Assessment (Phase I ESA) of a 27.89-acre vacant property (Parcel Number 2325-231-0001-000-4) located west of South Jenkins Road in Fort Pierce, St. Lucie County, Florida. The assessment was performed in general conformance with the scope and limitations of ASTM Practice E 1527-13. Any exceptions to, or deletions from, this practice are described in this report.

This assessment has revealed no evidence of *VECs* in connection with the subject property.

This assessment has revealed no *RECs* in connection with the subject property.

This assessment revealed no controlled *RECs* in connection with the subject property.

This assessment revealed no historical *RECs* in connection with the subject property.

Discarded trash/debris was observed on the property. The trash/debris consisted of inert materials and therefore, is not considered a *REC*. This may be in violation of the Florida Statutes 403.413 ("Florida Litter Law"). The discarded trash/debris should be removed for proper disposal.

15.0 DEVIATIONS

No deviations from the standard practices occurred during the Phase I ESA. No other deviations regarding budgets, due dates, or limitations were encountered during the course of this Phase I ESA.

16.0 ADDITIONAL SERVICES

The purpose of the Phase I ESA was met through the performance of four components: records review, site reconnaissance, interviews, and preparation of the Phase I ESA report. Non-scope considerations, or those issues considered to be of potential environmental concern at a property outside the scope of the ASTM E 1527-13 practice, were not addressed. More specifically, non-scope considerations which were not included within UES' Phase I ESA scope of work included, but were not limited to: asbestos containing materials, radon, lead-based paint, lead in drinking water, wetlands, regulatory compliance, cultural and historical risks, industrial hygiene, health and safety, ecological resources, endangered species, indoor air quality (with exception of vapor intrusion due to a release of hazardous substances or petroleum compounds), and high voltage power lines. In accordance with ASTM E 1527-13, Section 13.1.5, no assessment of such non-scope considerations is required for appropriate inquiry as defined in the standard practice.

16.1 Suspect Asbestos Containing Materials

No current building structures are located on the subject property. No suspected asbestos containing materials were observed on the subject property.

16.2 Lead-Based Paint

The property is vacant with no current building structures. No structures with painted surfaces were observed on the subject property.

16.3 Radon

Radon is a naturally-occurring radioactive gas generated from the decay of radium. It cannot be seen, smelled, or tasted. Indoor radon levels, which are dependent upon the construction of the building and the concentration of radon in the underlying soils, are more commonly a potential area of concern for buildings that have a basement. Based on the "Florida Statewide Radiation Study" prepared by Geomet Technologies, Inc., for the Florida Institute of Phosphate Research in November 1987, St. Lucie County has a low potential for radon. For that study, a total of 31 indoor radon samples were collected in St. Lucie County. Radon concentrations ranged from 0.2 picoCuries per liter (pCi/L) to 1.0 pCi/L. None of the 31 samples tested contained radon above the USEPA guidance concentration of 4.0 pCi/L.

The USEPA has designated St. Lucie County as a Zone 3, the lowest radon potential (EPA's Map of Radon Zones-Florida, United States Environmental Protection Agency, Office of Radiation and Indoor Air, September 1993). The predicted indoor radon concentration for Zone 3 is less than 2 pCi/L. Based on the referenced data, the potential for radon exposure, exceeding the USEPA guidance levels at the subject property is low.

16.3 Lead in Drinking Water

Fort Pierce Utilities Authority (FPUA) is anticipated for future potable water supply. According to the FPUA website, the 90th percentile lead concentration in 2019 (latest results available) was 0.7 parts per billion (ppb). This is below the Action Level (State Drinking Water Standard and Maximum Contaminant Level) of 15 ppb. Based on the referenced data, the potential for lead in drinking water exposure exceeding the Action Level at the subject property is low.

16.4 Wetlands

A wetlands determination was not performed as part of this assessment. The National Wetlands Inventory (NWI) map does not identify wetland areas on the subject property. A low-lying area was noted in historical aerial photographs and areas of standing water were noted in the west portion of the property. A wetlands determination may be prudent.

16.5 Wellfield Protection Zones

UES reviewed the City of Fort Pierce Comprehensive Plan, GOP Map 1-4 dated February 2011, "Well Locations and Wellfield Protection Zones". The subject property is not located within a wellfield protection zone.

Question		Observed During Site Visit	
1a. Is the property used for an *industrial* use?	☐Yes)	☒ No	☐ Unk
1b. Is any *adjoining property* used for an industrial use.	☐Yes	☒ No	☐ Unk
2a. Did you observe evidence or do you have any prior knowledge the *property* has been used for an industrial use in the past.	☐Yes	☒ No	☐ Unk
2b. Did you observe evidence or do you have any prior knowledge that any *adjoining property* has been used for an industrial use in the past.	☐Yes	☒ No	☐ Unk
3a. Is the *property* used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility (if applicable, identify which)?	☐Yes	☒ No	☐ Unk
3b. Is any *adjoining property* used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility (if applicable, identify which)?	☐Yes	☒ No	☐ Unk

Question	Observed During Site Visit		
4a. Did you observe evidence or do you have any prior knowledge that the *property* has been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility (if applicable, identify which)?	☐ Yes	☒ No	☐ Unk
4b. Did you observe evidence or do you have any prior knowledge that any *adjoining property* has been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility (if applicable, identify which)?	☐ Yes	☒ No	☐ Unk
5a. Are there currently any damaged or discarded automotive or industrial batteries, pesticides, paints, or other chemicals in individual containers of >5 gal (19 L) in volume or 50 gal (190 L) in the aggregate, stored on or used at the *property* or at the facility.	☐ Yes	☒ No	☐ Unk

Question	Observed During Site Visit		
5b. Did you observe evidence or do you have any prior knowledge that there have been previously any damaged or discarded automotive or industrial batteries, or pesticides, paints, or other chemicals in individual containers of >5 gal (19 L) in volume or 50 gal (190 L) in the aggregate, stored on or used at the *property* or at the facility?	☐Yes	☒ No	☐ Unk
6a. Are there currently any industrial drums (typically 55 gal (208 L) or sacks of chemicals located on the property or at the facility?	☐Yes	☒ No	☐ Unk
6b. Did you observe evidence or do you have any prior knowledge that there have been previously any industrial *drums (*typically 55 gal (208 L) or sacks of chemicals located on the property or at the facility?	☐Yes	☒ No	☐ Unk
7a. Did you observe evidence or do you have any prior knowledge that *fill dirt* has been brought onto the property that originated from a contaminated site?	☐Yes	☒ No	☐

Question	Observed During Site Visit		
7b. Did you observe evidence or do you have any prior knowledge that *fill dirt* has been brought onto the property that is of an unknown origin?	☐Yes	☒ No	☐ Unk
8a. Are there currently any *pits*, *ponds*, or *lagoons* located on the *property* in connection with waste treatment or waste disposal?	☐Yes	☒ No	☐ Unk
8b. Did you observe evidence or do you have any prior knowledge that there have been previously, any *pits, ponds*, or *lagoons* located on the property in connection with waste treatment or waste disposal.	☐Yes	☒ No	☐ Unk
9a. Is there currently any stained soil on the *property*.	☐Yes	☒ No	☐ Unk
9b. Did you observe evidence or do you have any prior knowledge that there has been previously, any stained soil on the *property*?	☐Yes	☒ No	☐ Unk
10a. Are there currently any registered or unregistered storage tanks (above or underground) located on the *property*?	☐Yes	☒ No	☐ Unk

Question	Observed During Site Visit		
10b. Did you observe evidence or do you have any prior knowledge that there have been previously, any registered or unregistered storage tanks (above or underground) located on the *property*.	☐Yes	☒ No	☐ Unk
11a. Are there currently any vent pipes, fill pipes, or access ways indicating a fill pipe protruding from the ground on the *property* or adjacent to any structure located on the *property*?	☐Yes	☒ No	☐ Unk
11b. Did you observe evidence or do you have any prior knowledge that there have been previously, any vent pipes, or access ways indicating a fill pipe protruding from the ground on the *property* or adjacent to any structure located on the *property*?	☐Yes	☒ No	☐ Unk
12a. Is there currently evidence of leaks, spills or staining by substances other than water, or foul odors, associated with any flooring, drains, walls, ceilings, or exposed grounds on the property.	☐Yes	☒ No	☐ Unk

Question	Observed During Site Visit		
12b. Did you observe evidence or do you have any prior knowledge that there have been previously any leaks, spills, or staining by substances other than water, or foul odors, associated with any flooring drains, walls, ceilings or exposed grounds on the property?	☐ Yes	☒ No	☐ Unk
13a. If the property is served by a private well or non-public water system, is there evidence or do you have prior knowledge that contaminates have been identified in the well of system that exceed guidelines applicable to the water system?	☐ Yes	☒ No	☐ Unk
13b. If the property is served by a private well or non-public water system, is there evidence or do you have prior knowledge that the well has been designated as contaminated by any government environmental / health agency?	☐ Yes	☒ No	☐ Unk

Question			
14. Does the *owner* or *occupant* of the *property* have any knowledge of environmental liens or governmental notification relating to past or recurrent violations of environmental laws with respect to the *property* or any facility located on the *property*?	☐Yes	☒ No	☐ Unk
15a. Has the owner or occupant of the property been informed of the past existence of *hazardous substances* or *petroleum products* with respect to the *property* or any facility located on the *property*?	☐Yes	☒ No	☐ Unk
15b. Has the *owner* or *occupant* of the *property* been informed of the current existence of *hazardous substances* or *petroleum products* with respect to the *property* or any facility located on the *property*?	☐Yes	☒ No	☐ Unk
15c. Has the *owner* or *occupant* of the *property* been informed of the past existence of environmental violations with respect to the *property* or any facility located on the *property*?	☐Yes	☒ No	☐ Unk

Observed During Site Visit

Question			
15d. Has the *owner* or *occupant* of the *property* been informed of the current existence of environmental violations with respect to the *property* or any facility located on the *property*?	☐Yes	☒ No	☐ Unk
16. Does the owner or *occupant* of the *property* or facility have any knowledge of any *environmental site assessment* of the *property* or facility that indicated the presence of *hazardous substances* or *petroleum products* on, or contamination of, the *property* or recommended further assessment of the *property*?	☐Yes	☒ No	☐ Unk
17. Does the *owner* or *occupant* of the *property* know of the any past, threatened, or pending lawsuits or administrative proceedings concerning a release or threatened of any *hazardous substance* or *petroleum products* involving the *property* by owner or occupant of the *property*?	☐Yes	☒ No	☐ Unk

Observed During Site Visit

Question	Observed During Site Visit		
18a. Does the *property* discharge waste water (not including sanitary waste or storm water) onto or adjacent to the property and/or into a storm water system?	☐Yes	☒ No	☐ Unk
18b.Does the *property* discharge waste water (not including sanitary waste or storm water) onto or adjacent to the property and/or into a sanitary sewer system?	☐Yes	☒ No	☐ Unk
19. Did you observe evidence or do you have any prior knowledge that any *hazardous substances* or *petroleum products,* unidentified waste materials, tires, automotive or industrial batteries, or any other waste materials have been dumped above grade, buried and/or burned on the *property?*	☐Yes	☒ No	☐ Unk
20. Is there a transformer, capacitor, or any hydraulic equipment for which there are any records indicating the presence of PCB's?	☐Yes	☒ No	☐ Unk

Government Records / Historical Sources Inquiry

(See guide, Section 10)

21. Do any of the following Federal government record systems list the property or any property within the search distance noted below:

Database	Approximate Minimum Search Distance, miles (kilometers)		
Federal NPL site list	1.0 (1.6)	☐Yes	☒No
Federal Delisted NPL site list	0.5 (0.8)	☐Yes	☒No
Federal SEMS (CERCLIS) list	0.5 (0.8)	☐Yes	☒No
Federal SEMS (CERCLIS) NFRAP site list	0.5 (0.8)	☐Yes	☒No
Federal RCRA CORRACTS facilities list	1.0 (1.6)	☐Yes	☒No
Federal RCRA non-CORRACTS TSD facilities list	0.5 (0.8)	☐Yes	☒No
Federal RCRA generators list	Property and adjoining properties	☐Yes	☒No
Federal institutional control/engineering control registries	Property only	☐Yes	☒No
Federal ERNS list	Property only	☐Yes	☒No

State and tribal lists of hazardous waste sites identified for investigation or remediation:

Database	Approximate Minimum Search Distance, miles (kilometers)		
State–and tribal equivalent NPL	1.0 (1.6)	☐Yes	☒No
State–and tribal equivalent CERCLIS	0.5 (0.8)	☐Yes	☒No
State-and tribal landfill and/or solid waste disposal site lists	0.5 (0.8)	☐Yes	☒No
State-and tribal leaking storage tanks lists	0.5 (0.8)	☒Yes	☐No
State-and tribal registered storage tanks lists	0.25 (0.4)	☒Yes	☐No
State and tribal institutional control/engineering control registries	0.25 (0.4)	☐Yes	☒No
State and tribal voluntary cleanup sites	0.5 (0.8)	☐Yes	☒No
State and tribal Brownfield sites	0.5 (0.8)	☐Yes	☒No

22.	Based upon a review of fire insurance maps 10.2.3 or local street directories (10.2.3), all as specified in the guide, are any buildings or other improvements on the property or on an adjoining property identified as having been used for an industrial use or uses likely to lead to contamination of the property?	☐ Yes	☒ No	☐ Unk

USER/CLIENT QUESTIONNAIRE

(To be completed and returned to GFA International)

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability relief and Brownfields Revitalization Act of 2001 (*the "Brownfields Amendments),* the *user* must provide the following information (if available) to the *environmental professional*. Failure to provide this information could result in a determination that "*all appropriate inquiry"* is not complete.

GENERAL INFORMATION

User/Client Name(s): Marshall Property Services, LLC

Property name / address: Parcel # 2325-111-0001-000-2; 27.89 acres, West side of Jenkins Road, Fort Pierce, Florida

Property Type: Unimproved Land

Type of Property Transaction: Purchase

Reason Phase I ESA is Required: Purchase

Site Contact(s): Charles Marshall P. E. 317-800-0385

(1.)Environmental cleanup liens that are filed or recorded against the site (40 CFR 312.25). Are you aware of any environmental cleanup liens against the *property* that are filed or recorded under federal, tribal, state, or local law?

No

(2.)Activity and land use limitations (AULs) that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26). Are you aware of any AULs, such as *engineering controls*, land use restrictions or *institutional controls* that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state, or local law?

No

(3.)Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28). As the *user* of this ESA do you have any specialized knowledge or experience related to the *property* or nearby properties? For example, are you involved in the same line of business as the current or former *occupants* of the property or an adjoining *property* so that you would have specialized knowledge of the chemicals and processes used by this type of business?

No

*(4.)*Relationship of the purchase price to the fair market value of the *property* if it were not contaminated (40 CFR 312.29). Does the purchase price being paid for this *property* reasonably reflect the fair market value of the *property*? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the *property*?

Yes

*(5.)*Commonly known or reasonably ascertainable information about the property (40 CFR 312.30). Are you aware of commonly known or *reasonably ascertainable* information about the *property* that would help the *environmental professional* to identify conditions indicative of releases or threatened releases? For example, as *user,*

a. Do you know the past uses of the *property*? No

b. Do you know of specific chemicals that are present or once were present at the *property*? No

c. Do you know of spills or other chemical releases that have taken place at the *property*? No

d. Do you know of any environmental cleanups that have taken place at the *property*? No

*(6.)*The degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31). As the *user* of this *ESA,* based on your knowledge and experience related to the *property* are there any *obvious* indicators that point to the presence or likely presence of contamination at the *property*?

No

SIGNATURE

It is understood that the information presented in this form is an integral part of the Phase I ESA process. GFA International will evaluate and rely on this information in the development of the final Phase I ESA Report.

The Environmental Lien Search Report (ELS) provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering control and institutional controls.
Our in house professional abstractors / title examiners, following established procedure, use client supplied property data, such as property address, map, parcel number etc. to search for:

- parcel information and / or legal description
- search for ownership information
- research official recorded land title documents
- provide a copy of the deed
- search for environmental encumbering instrument (s) associated with the deed
- provide a copy of any environmental encumbrance (s) based upon a review of key words in the Instrument (s) (title, parties involved, and description).

Below is the property data information and Environmental Lien Search report of the subject property for a period ending July 02, 2021.

A copy of the current vesting deed is attached hereto and made a part hereof.

SPECIAL WARRANTY DEED

This Special Warranty Deed is executed effective the 16th day of July, 2019, by **LAND HOLDING, LLC**, with an address of The Tower at PNC Plaza, 300 Fifth Avenue, Pittsburgh, PA 15222-2401 (hereinafter referred to as "Grantor"), to **KIVA DEVELOPMENT, LLC**, a Florida limited liability company, with an address of 2239 Abrams Road, Eustis, Florida 32726 (hereinafter referred to as "Grantee").

Witnesseth, that the said Grantor, for and in consideration of the sum of $10.00, in hand paid by the said Grantee, the receipt whereof is hereby acknowledged, hereby grants, bargains, sells, aliens, remises, releases, conveys, and confirms unto the Grantee all of that certain real property situate in the **County of St. Lucie, State of Florida**, *to wit*:

See **Exhibit "A"** attached hereto and made a part hereof.

Together with all tenements, hereditaments, and appurtenances thereon.

Wherever used herein, the terms "Grantor" and "Grantee" shall be deemed to include the parties to this Deed, the heirs, legal representatives, and assigns of individuals, and the successors and assigns of any partnership, corporation, or limited liability company. The singular shall be deemed to include the plural, and vice versa, where the context so permits or requires.

Grantor hereby covenants with said Grantee that the Grantor is lawfully seized of said real property in fee simple; that Grantor has good right and lawful authority to sell and convey said real property; that Grantor hereby fully warrants the title to said real property and will defend the same against the lawful claims of all persons claiming by, through, or under Grantor, but no other; and that said real property is free of all encumbrances, except taxes accruing subsequent to December 31, 2018, and except the matters and restrictions of record.

In Witness Whereof, the said Grantor has signed and sealed these presents the day and year first above written.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

EXECUTIVE SUMMARY

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

State and tribal leaking storage tank lists

LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the Department of Environmental Protection's PCTO1--Petroleum Contamination Detail Report.

A review of the LUST list, as provided by EDR, and dated 01/25/2021 has revealed that there are 5

LUST sites within approximately 0.5 miles of the target property.

State and tribal registered storage tank lists

AST: Shortly after the Sept 11 event, the DEP was instructed to remove the detail about some of the storage tank facilities in the state from their reports. Federal-owned facilities and bulk storage facilities are included in that set.

A review of the AST list, as provided by EDR, has revealed that there are 2 AST sites within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
RYDER TRUCK RENTAL	3711 CROSSROADS PARK	W 1/8 - 1/4 (0.225 mi.)	D11	16
Database: AST, Date of Government Version: 01/26/2021 Facility-Site Id: 9601175 Facility Status: CLOSED Facility Status: CLOSED

Database: AST, Date of Government Version: 01/26/2021 Facility-Site Id: 9601149 Facility Status: OPEN Facility Status: OPEN				

TANKS: This listing includes storage tank facilities that do not have tank information. The tanks have either be closed or removed from the site, but the facilities were still registered at some point in history.

A review of the TANKS list, as provided by EDR, and dated 01/26/2021 has revealed that there is 1 TANKS site within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
DIAMOND R FERTILIZER Facility Status: CLOSED Facility ID: 9815714	***SOUTH JENKINS RD & E***	***SE 0 - 1/8 (0.124 mi.)***	***3***	***9***

ADDITIONAL ENVIRONMENTAL RECORDS

Records of Emergency Release Reports

HMIRS: The Hazardous Materials Incident Report System contains hazardous material spill incidents reported to the Department of Transportation. The source of this database is the U.S. EPA.

A review of the HMIRS list, as provided by EDR, and dated 03/22/2021 has revealed that there is 1 HMIRS site within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
Not reported	3711 CROSSROADS PARK	W 1/8 - 1/4 (0.225 mi.)	D12	17

Other Ascertainable Records

FINDS: The Facility Index System contains both facility information and "pointers" to other sources of information that contain more detail. These include: RCRIS; Permit Compliance System (PCS); Aerometric Information Retrieval System (AIRS); FATES (FIFRA [Federal Insecticide Fungicide Rodenticide Act] and TSCA Enforcement System, FTTS [FIFRA/TSCA Tracking System]; CERCLIS; DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes); Federal Underground Injection Control (FURS); Federal Reporting Data System (FRDS); Surface Impoundments (SIA); TSCA Chemicals in Commerce Information System (CICS); PADS; RCRA-J (medical waste transporters/disposers); TRIS; and TSCA. The source of this database is the U.S. EPA/NTIS.

A review of the FINDS list, as provided by EDR, and dated 02/03/2021 has revealed that there are 3 FINDS sites within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page

Environmental Interest/Information System:
US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 04/27/2021

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

State and tribal institutional control / engineering control registries

ENG CONTROLS: Institutional Controls Registry

The registry is a database of all contaminated sites in the state of Florida which are subject to engineering controls. Engineering Controls encompass a variety of engineered remedies to contain and/or reduce contamination, and/or physical barriers intended to limit access to property. ECs include fences, signs, guards, landfill caps, provision of potable water, slurry walls, sheet pile (vertical caps), pumping and treatment of groundwater, monitoring wells, and vapor extraction systems.

BSRA: Brownfield Site Rehabilitation Agreements Listing
The BSRA provides DEP and the public assurance that site rehabilitation will be conducted in accordance with Florida Statutes and DEP's Contaminated Site Cleanup Criteria rule. In addition, the BSRA provides limited liability protection for the voluntary responsible party. The BSRA contains various commitments by the voluntary responsible party, including milestones for completion of site rehabilitation tasks and submittal of technical reports and plans.
It also contains a commitment by DEP to review technical reports according to an agreed upon schedule. Only those brownfield sites with an executed BSRA are eligible to apply for a voluntary cleanup tax credit incentive pursuant to Section 376.30781, Florida Statutes.

BROWNFIELDS AREAS: Brownfields Areas Database
A "brownfield area" means a contiguous area of one or more brownfield sites, some of which may not be contaminated, that has been designated as such by a local government resolution. Such areas may include all or portions of community redevelopment areas, enterprise zones, empowerment zones, other such designated economically deprived communities and areas, and Environmental Protection Agency (EPA) designated brownfield pilot projects. This layer provides a polygon representation of the boundaries of these designated Brownfield Areas in Florida.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

FL Cattle Dip. Vats: Cattle Dipping Vats

From the 1910's through the 1950's, these vats were filled with an arsenic solution for the control and eradication of the cattle fever tick. Other pesticides, such as DDT, were also widely used. By State law, all cattle, horses, mules, goats, and other susceptible animals were required to be dipped every 14 days. Under certain circumstances, the arsenic and other pesticides remaining at the site may present an environmental or public health hazard.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 10/05/2020
Date Data Arrived at EDR: 02/17/2021
Date Made Active in Reports: 05/10/2021

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Northeast Map:	5656797 FORT PIERCE, FL
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

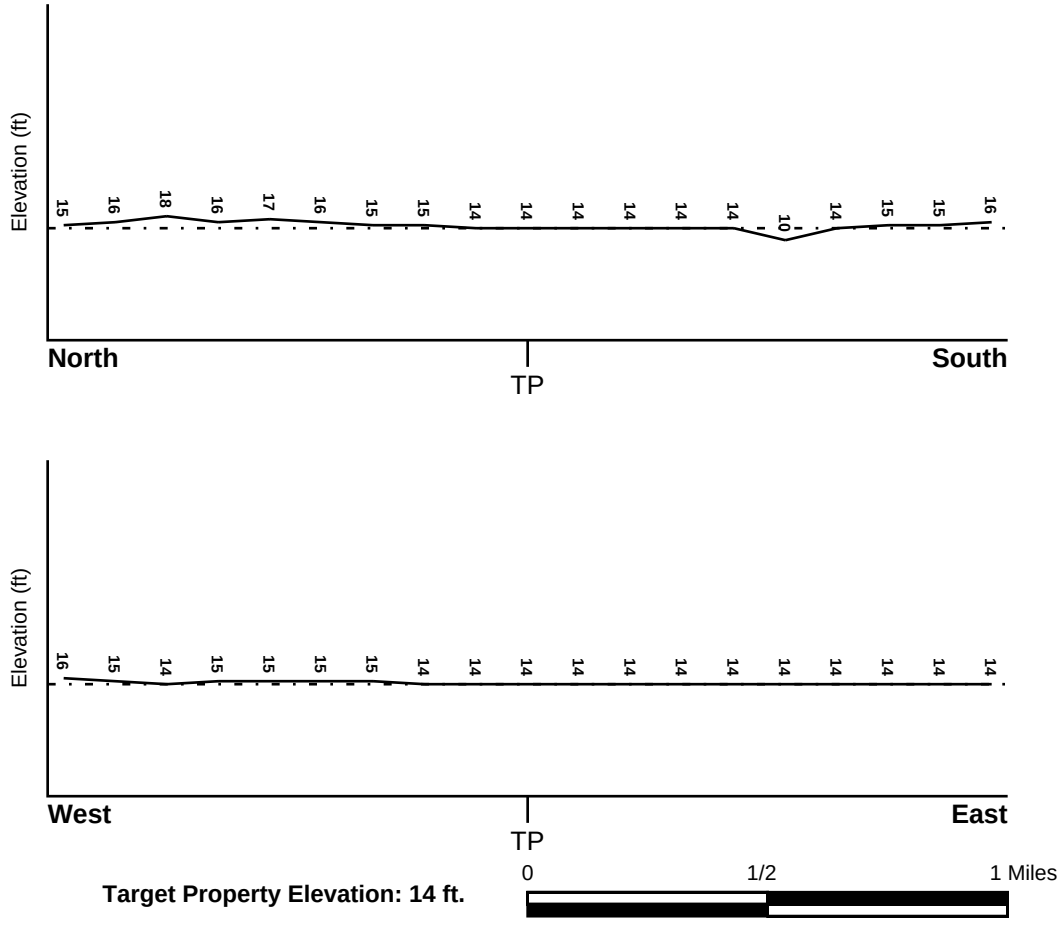

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSE

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Target Property Elevation: 14 ft.

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
12111C0167J	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
12111C0186J	FEMA FIRM Flood data

12111C0188J	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
FORT PIERCE NW	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Ankona

Soil Surface Texture: sand

Hydrologic Group: Class C/D - Drained/undrained hydrology class of soils that can be drained and classified.

Soil Drainage Class: Poorly drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 31 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	7 inches	38 inches	sand	Granular materials (35 pct. or less passing No. 200), Fine Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 5.5 Min: 3.6
2	38 inches	48 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Fine Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 5.5 Min: 3.6
3	48 inches	57 inches	sandy loam	Granular materials (35 pct. or less passing No. 200), Fine Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 5.5 Min: 3.6

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

APPENDIX G

Qualifications of Environmental Professionals

Robert P. Crowell, P.G.

Environmental Department Manager, Port St. Lucie office

Mr. Crowell has over 30 years of experience in environmental consulting in South Florida. He has led and served as project manager for hundreds of environmental assessment and remediation projects. Mr. Crowell has performed Environmental Site Assessments (ESAs) in Florida, Georgia, Mississippi, Louisiana, California, Minnesota, Pennsylvania, West Virginia, South Carolina, and the U.S. Virgin Islands.

Education

- Bachelor of Science (B.S.) Geology, 1984, University of South Florida, Tampa, Florida

Experience

- Universal Engineering, Inc. (previously GFA International, Inc.) Port St. Lucie, FL, 2016-Present
- ARCADIS U.S., Inc. (previously Geraghty & Miller, Inc.), West Palm Beach, FL, 1991-2015.
- Roux Associates, Inc., Huntington, NY 1984-1991.

Licenses

- Professional Geologist (P.G.) , Florida (#1748) and Kentucky (#1215)
- AHERA Licensed Asbestos in Buildings Inspector
- OSHA HAZWOPER 40-Hour and Annual 8-Hour Refresher
- OSHA HAZWOPER Supervisor
- Transportation Worker Identification Credential (TWIC)

Key Project Experience:

- Served as lead Environmental Professional (EP) and Project Manager for Phase I and Phase II ESAs in accordance with ASTM E-1527 and All Appropriate Inquiry (AAI) for over five hundred (500) property transfers. Sites have included large and small manufacturing facilities, newspaper and other printing plants, citrus groves, agricultural land, oil and gas pipeline facilities, undeveloped land, automobile dealership and automotive repair facilities, airport facilities, aircraft manufacturing and aerospace facilities, marinas and boat dealerships, residential apartment and condominium complexes, commercial office buildings, medical facilities, nursing home and assisted living facilities, shopping centers, dry cleaning facilities, power generation facilities, agricultural research facilities, mining facilities, self-storage facilities, port and other maritime industry facilities, renewable energy (wind and solar) facilities, waste treatment facilities, railroad facilities, a 107-acre former County correctional facility (closed prison) and right of ways for roadway expansion. Many of the assessments were performed as part of a “portfolio” of multiple properties included in a single transaction.

- Served as Project Manager for an Underground Storage Tank (UST) Closure Assessment forremoval of two 10,000-gallon USTs at a former citrus grove in St. Lucie County, Florida in February 2016. The project consisted of field-screening of 53 soil samples for volatile organic vapors, collection and analysis of confirmatory soil samples, installation of a monitoring well and collection and collection of a groundwater sample. Mr. Crowell was involved with all aspects of the project and prepared a Tank Closure Assessment

Report, which was submitted to the Florida Department of Environmental Protection. The site achieved "No Further Action" status.

- Served as Project Manager and lead assessor for the investigation and remediation of a toluene release at a manufacturing facility in Pompano Beach, Florida. The assessment required the installation of multiple depth clustered monitoring wells for determination of the horizontal and vertical extent of groundwater impacts. A recovery well was utilized for contaminant extraction and the facility's existing air-stripping system (for its process water) was utilized for treatment of recovered groundwater. Use of the existing air-striping system resulted in significant cost savings to the Client. Coinciding with plant closing, the three toluene underground storage tanks and impacted soils in the vicinity of the tanks were excavated and removed. Hot-spot removal of groundwater using a series vacuum extraction events at one location was performed. The site achieved "No Further Action" status in following Post Active Remediation Monitoring (PARM). The monitor and recovery wells were properly abandoned.

- Served as Task Manager for the Contamination Evaluation and Screening (CSE) portion of a Project Development and Environmental (PD&E) study of the intersection of 20th Street (State Road 60) amd 43rd Avenue (County Road 611) in Vero Beach, Indian River County, Florida. The CSE evaluated every property within the proposed right of way expansion and assigned a risk ranking value to each property for its potential for contamination. The CSE was incorporated into a PD&E report which evaluated many components of the right of way improvements.

- Served as Project Manager and lead assessor for investigation and remediation of lead impacts to soil and groundwater at a former battery manufacturing facility in West Palm Beach, Florida. Remediation efforts included soil excavation and groundwater extraction-and-treatment from "hot spots". Groundwater monitoring showed that lead concentrations had stabilized and the plume had been reduced in size. A risk-based closure (No Further Action with Controls) was approved by the FDEP.

- Served as Project Manager performing contamination assessment activities for arsenic impacts to soil and groundwater at a golf course maintenance facilityin Palm Beach Gardens, Florida. Soils in the vicinity of a former washdown area were excavated and removed as part of the source removal. Groundwater monitoring showed that arsenic concentrations had stabilized and the plume had been reduced in size. A risk-based closure (No Further Action with Controls) was approved by the FDEP.

- Performed AHERA-compliant asbestos in buildings surveys at numerous sites in Florida.

- Served as Project Manager for a Site Inspection (SI) including soil and groundwater sampling of a former small-arms firing range at a former U.S. Army base in Hobe Sound, Florida. The project was completed under Formerly-Used Defense Site (FUDS) program. The project included preparing a Work Plan, Quality Assurance Plan, and Health and Safety Plan, conducting Technical Project Plan (TPP) meetings with project stakeholders, and preparing the SI report. The project was designed to utilize X-Ray Fluorescence (XRF) technology which allowed for evaluation of lead in soil samples with a sizable reduction of cost for laboratory analysis.

- Served as Project Manager for preparation and implementation of a Dewatering Plan for 100 feet of petroleum pipeline replacement in Port Everglades, Florida. The dewatering activities lasted for 24 days. A total of 589,602 gallons of water was removed for treatment and recycling. Prepared a technical report documenting the pipeline replacement and dewatering. The dewatering plan and technical reports were approved by the South Florida Water Management District and the Broward County Environmental Protection and Growth Management Department.

- Served as Project Manager for assessment and remediation of petroleum impacts at a former 4,000-acre agricultural property in St. Lucie County containing citrus groves. The initial assessment began as a Phase I and II ESA. Several Recognized Environmental Conditions (RECs) were identified and assessed as part of the Phase II ESA. Impacts to soil and groundwater were identified adjacent to two underground fuel tanks at the grove maintenance area. Served as Project Manager for implementation of a Tank Closure Assessment and a Site Assessment. The remediation was achieved by source removal/soil excavation and Post Active Remediation Monitoring (PARM). The site achieved "No Further Action" status following PARM.

- Served as Project Manager for assessment and remediation of petroleum and arsenic impacts at a former agricultural property. The initial assessment began as a Phase I and II ESA of a ±300-acre agricultural parcel for future residential development. Four separate impacted areas (three by petroleum in areas of former USTs and ASTs) and one by arsenic in the area of the former farm operations were identified. The three petroleum areas were remediated using source removal and monitoring. Each of these three areas achieved "No Further Action" status. The arsenic-impacted area was remediated by extraction of groundwater through a series of dewatering socks and soil excavation. Mr. Crowell was involved with preparation of the Dewatering Plan and permit approval, and negotiating with Palm Beach County Utilities Department for acceptance of the removed groundwater. The site achieved "No Further Action" status following PARM. The monitor wells were properly abandoned. The site has been redeveloped for residential use.

- Served as Project Manager for assessment and remediation for two separate petroleum releases at a mushroom growing facility in Zellwood, Orange County, Florida. The remediation systems for both areas consist of multi-phase extraction from recovery wells. The treated groundwater is discharged to separate on-site infiltration galleries. One of the releases was eligible for funding under the State Petroleum Cleanup Program. The second release was not eligible. Site work for both areas was scheduled to be performed during single mobilizations for cost saving purposes.

- Served as Project Manager for more than 80 wind energy projects in various states. Projects included due diligence assessments, wind farm site location, permitting, and construction. Responsibilities included conducting Phase I and II ESAs, coordinating with the Program Manager, tracking budgets, reviewing and approving client invoices.

- Served as Project Manager for closure assessment and removal of a 12,000-gallon aboveground kerosene tank and more than 4,000 linear feet of underground pipeline at

a former landscape nursery facility in Palm Beach County, Florida. The AST and underground pipeline provided fuel to heaters in numerous shadehouses located throughout the property. The assessment was designed to test soil at every location where the 20-foot lengths of pipeline connected, at every “T” or “L” connector, and every stub-up to a heater. Source removal activities were completed at each location where impacted soil was identified.

This record search is for informational purposes only and does NOT constitute a project review. This search only identifies resources recorded at the Florida Master Site File and does NOT provide project approval from the Division of Historical Resources. Contact the Compliance and Review Section of the Division of Historical Resources at CompliancePermits@dos.MyFlorida.com for project review information.

Alexis Rosenberg
Land Planner
Dunay, Miskel & Backman, LLP
14 S.E. 4th Street, Suite 36
Boca Raton, FL 33432

In response to your request on October 25, 2021, the Florida Master Site File lists no cultural resources recorded for a designated area located near I-95 and Jenkins Road; parcel control number of # 2325-111-0001-000-2., Florida

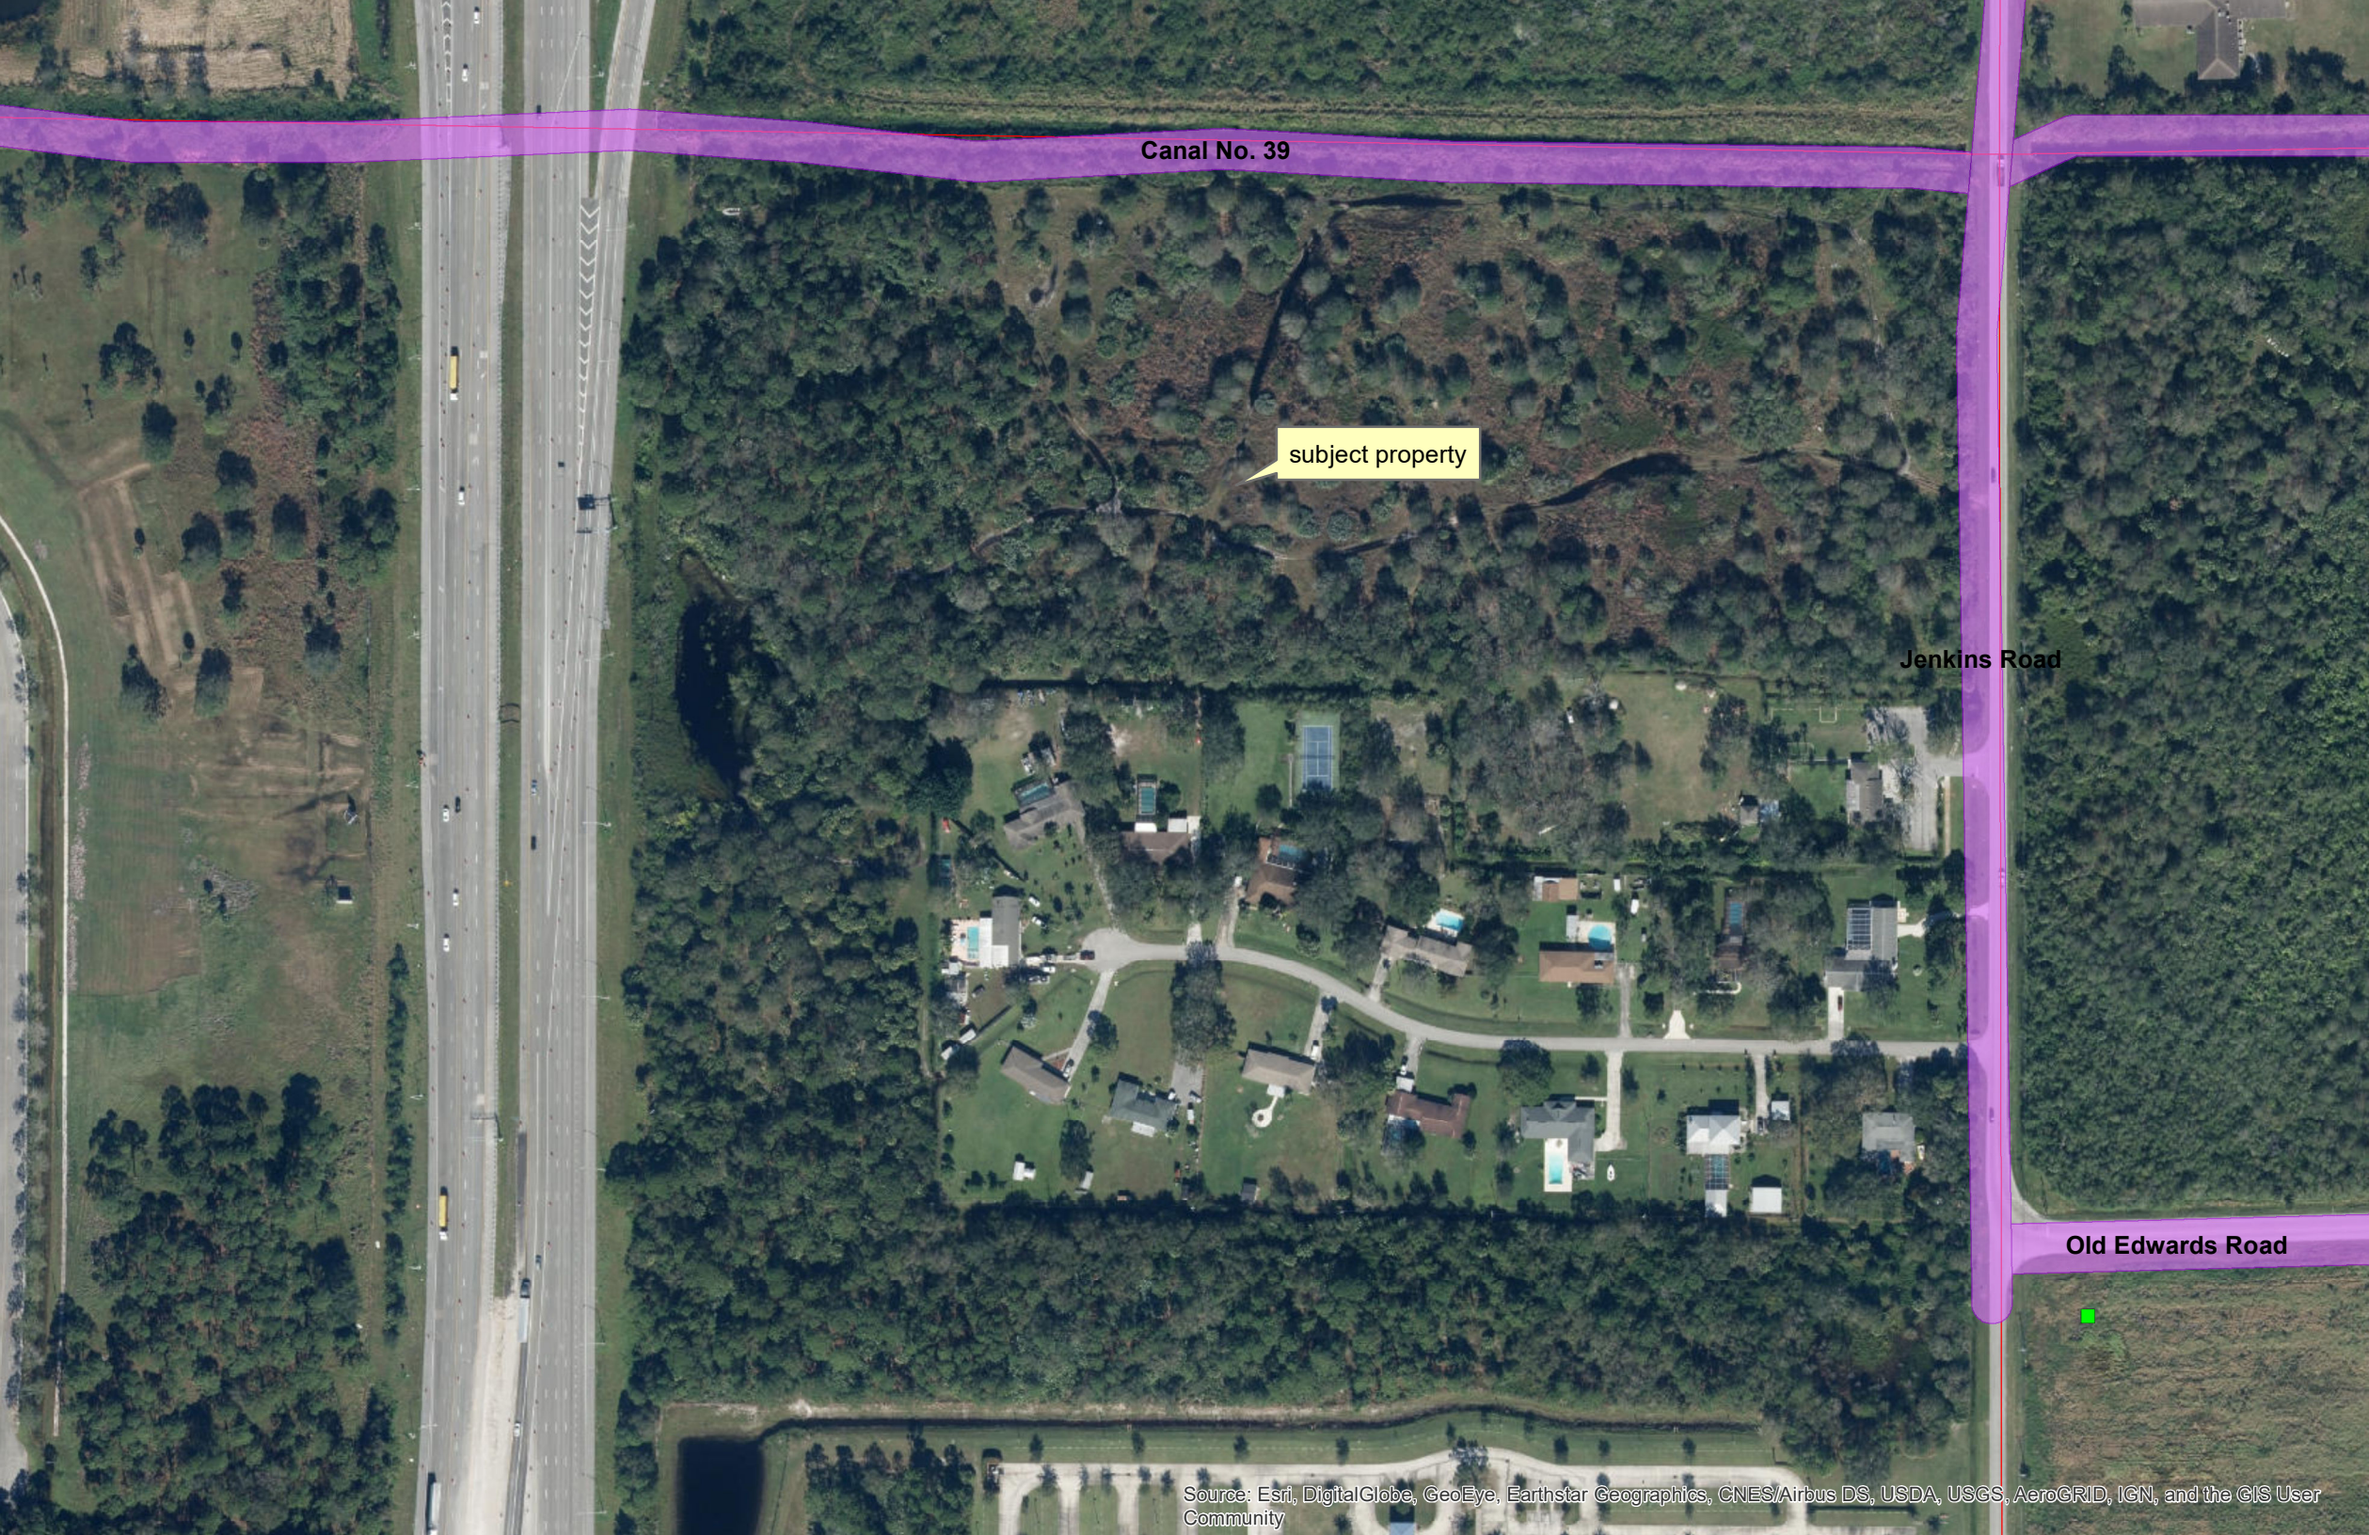

When interpreting the results of our search, please consider the following information:
#

- **This search area may contain *unrecorded* archaeological sites, historical structures or other resources even if previously surveyed for cultural resources.**
- **Because vandalism and looting are common at Florida sites, we ask that you limit the distribution of location information on archaeological sites.**
- **While many of our records document historically significant resources, the documentation of a resource at the Florida Master Site File does not necessarily mean the resource is historically significant.**
- **Federal, state and local laws require formal environmental review for most projects. This search DOES NOT constitute such a review. If your project falls under these laws, you should contact the Compliance and Review Section of the Division of Historical Resources at** CompliancePermits@dos.MyFlorida.com

Please do not hesitate to contact us if you have any questions regarding the results of this search.

Sincerely,

Eman M. Vovsi, Ph.D.

Pre-Application Meeting
Staff Comment Responses
February 18, 2022

Planning Department

1. Provide entry gate detail such as turning radii, elevation, detail, location, etc.
   Response: Please refer to the attached site plan. The proposed gate is shown, along with the provided stacking and turn-around.

2. Provide screening detail of the proposed trash compactor.
   Response: Based on staff comments, including coordination with Solid Waste, it was decided to proceed with curbside pickup.

3. Consider individual waste collection bins or multiple compactors rather than one compactor due to the number of residences and lot size. The City's Solid Waste Division will be providing comments next week.
   Response: Based on staff comments, including coordination with Solid Waste, it was decided to proceed with curbside pickup.

4. Provide service confirmation from Waste Management/Solid Waste pertaining to individual trash/recycle bins or various compactors.
   Response: Based on staff comments, including coordination with Solid Waste, it was decided to proceed with curbside pickup.

5. Revise site data to include the Proposed FLU designation.
   Response: Please refer to the proposed site plan.

6. Provide the proposed d.u of the proposed development.
   Response: Please refer to the proposed site plan.

7. Provide the proposed building to building setbacks (label as typical), setbacks from building to the property line, and setbacks from any accessory structures to the property line(s) on the site plan drawing.
   Response: Please refer to the proposed site plan.

14 S.E. 4th Street, Suite 36, Boca Raton, FL 33432 | Tel: (561) 405-3300 | Fax: (561) 409-2341 | www.dmbblaw.com

8. Confirm each of the proposed townhomes and other residential units comply with the required lot size set forth by Code Sec. 125-194 (b) (1).
   Response: The project is single ownership, therefore, not applicable.

9. Provide location of proposed mechanical equipment and pads. If the mechanical equipment is on the roof, provide roof detail.
   Response: Please refer to the proposed site plan.

10. Provide screening material/method of the proposed mechanical equipment.
    Response: Please refer to the proposed site plan.

11. Provide sidewalks throughout the entire development.
    Response: Please refer to the proposed site plan.

12. Confirm the proposed development will provide the necessary shrub and tree requirements.
    Response: Please refer to the proposed Landscape Plan.

13. Consider additional parking to accommodate potential guests/visitors.
    Response: Please refer to the proposed site plan.

14. Revise parking calculations to include parking space breakdowns such as driveway spaces and garage spaces.
    Response: Please refer to the proposed site plan, parking calcs are included.

15. Consider more amenities such as an amenity center, community pool, pocket parks at various locations, or other facilities.
    Response: Please refer to the proposed site plan. Playground, Dog Parks, Pool/Clubhouse all proposed at this time.

16. Provide elevations of a "typical" townhome, single family, and apartment.
    Response: Please refer to the architectural plans.

17. Label the proposed townhome units, single family, and apartment.
    Response: Entire facility is rental apartments and support structures.

18. As St. Lucie County does not have barrier walls with I-95, please consider moving all the units that are positioned next to the I-95 eastward and provide a landscape barrier to the west.
    Response: See the Proposed Site Plan and Landscape Plans. Additional buffering has been added.

19. Correct the zoning request on the site data. The one listed is a county designation. Additionally, provide the proposed Future Land Use amendment on the site data.
    Response: Please refer to the proposed site plan

14 S.E. 4th Street, Suite 36, Boca Raton, FL 33432 | Tel: (561) 405-3300 | Fax: (561) 409-2341 | www.dmbblaw.com

20. Please provide a detail of the 6-foot fence proposed. Please ensure it is decorative.
    Response: See attached fence detail

21. Please consider enhancing the public spaces and recreational areas by incorporating a community pool, and smaller pocket parks.
    Response: Please refer to the proposed site plan. Additional recreation and amenities have been added throughout the facility.

22. Are all of the Townhouses one-bedroom units?
    Response: Please refer to the proposed site plan. There are three different unit types (1, 2 and 3 bedrooms.)

23. What is the anticipated monthly rent?
    Response: That has not been determined, based on Market conditions at the time of opening.

24. School District may require a bus stop if this development is not age-restricted.
    Response: Acknowledged

25. Please complete an Address Request Form at the time of formal submittal. **https://www.cityoffortpierce.com/DocumentCenter/View/3281/Address-Request-**
    Response: Noted.

26. A landscape plan will be required at the time of formal submittal that includes a Tree Survey, Tree Disposition Plan, and Tree Mitigation. Please show littoral plantings for the proposed lake.
    Response: See the Proposed Landscape Plan

27. Additional comments may be provided at the Pre-Application meeting.
    Response: Acknowledged.

28. Note that all fees for advertising, mailing, and signs shall be paid upfront with the application fees. These fees can be found on the City website under the Planning Departments page under "*Public Notice Fee*".
    Response: Acknowledged

Fort Pierce Engineering Department

1. While the 10' rear setback for the units at the west end of the project meets the minimum landscape buffer requirement, it is highly suggested that a minimum 20' landscape buffer be provided as originally permitted through St. Lucie County. This would provide a greater separation between the existing single-family subdivision and this development.
   Response: A 20' buffer is proposed. Please refer to the proposed site plan

2. Continue the sidewalk at the western roadway, south side of the road.
   Response: Sidewalks provide adequate connectivity, as requested. Please refer to the proposed site plan

14 S.E. 4th Street, Suite 36, Boca Raton, FL 33432 | Tel: (561) 405-3300 | Fax: (561) 409-2341 | www.dmbblaw.com

3. Add a "T" turnaround or other means for vehicles to turnaround at the dead end situation, north part of the project.
   Response: The site plan was revised to address the dead end

4. Is this development to be gated? If so, provide the vehicle queuing capabilities between the gate and the Jenkins Road R/W.
   Response: See the Proposed site plan. The project will, include an unmanned gated access with adequate stacking and turnaround feature.

5. Provide the dimensions of all drive aisles, parking stalls, and driveways.
   Response: Please refer to the proposed site plan

6. Provide the required 5' handicapped access aisle at the handicap parking stall situated at the mail kiosk. Also, know that this perpendicular parking stall shall have the associated minimum 26' driveway aisle per Section 125.
   Response: Please refer to the proposed site plan

7. Continue the sidewalk along the rear of the two parallel parking stalls located across from the mail kiosk.
   Response: Please refer to the proposed site plan

8. Is the trash compactor open for utilization by the residents? If so, continue the sidewalk along the north side of the driveway.
   Response: The Trash compactor has been eliminated with curbside pickup proposed.

9. Provide a sidewalk along Jenkins Road or proof of payment in lieu of to SLC if mandated by the County.
   Response: Acknowledged. Payment in lieu will be proposed.

10. The applicant shall contact SLC for information pertaining to required Jenkins Road improvements and possible R/W donation.
    Response: Please refer to the proposed site plan. The needed row dedication is shown and all setbacks based on the new row line.

St. Lucie County PW/Engineering

The following comments are offered by SLC PW – Engineering:

1. A traffic report will be required for review by the County's 3rd party consultant at the cost of the applicant.
   Response: Acknowledged.

2. Jenkins Road is identified on the County's Right-of-Way protection Plan. A ROW dedication will be required along Jenkins Road. Please provide a current boundary survey to confirm the existing ROW width in this location.
   Response: Acknowledged. Based on the needed row, the site plan is drawn.

3. Gated access shall comply with section 7.10.15 of the County's land development code or the City's code regarding gated access, whichever is more stringent.
   Response: Please refer to the proposed site plan. The proposed unmanned gated access was designed per the County's Code criteria.

4. A Site Development Permit from the County will be required for the driveway connection to Jenkins Road. Please coordinate application submittals with Grant Chambers at Chambersg@stlucieco.org
   Response: Acknowledged

5. Provide written response directly to the County for review. The city does not provide.
   Response: Acknowledged

6. For discussion regarding these comments and response, please contact me at 772-462-1491, haysd@stlucieco.org or Grant Chambers at 772-462-2741, chambersg@stlucieco.org.
   Response: Acknowledged

Fort Pierce Solid Waste Division

1. This site location will need a minimum of four (4) 8 yard commercial dumpsters with enclosures to satisfy the needs of this community. Also as mentioned, SW does not think it is best to deliver resident carts to this community for several reasons:

   - Multi-Family rental community with over 100 units
   - Billing issues (every customer will be responsible to pay the ready to serve fee + the service fee which will change frequently with move in/move out residents
   - We will have to deliver multiple carts (green, blue and black carts)
   - Storage space for all residential carts
   - Concerns of multiple trucks entering the community daily which may causes an unnecessary risk to the community

Response: Acknowledged.

Florida Department of Transportation
Approval of the application would allow the location of residential development directly adjacent to Interstate 95 (less than 13 ft from the right of way line at its closest point). Truck traffic will generate additional noise as vehicles decelerate exiting I-95 at State Road 70. If not already required by existing City development regulations, the City should encourage the developer to protect residents from noise impacts. The closeness of the proposed development to a source of traffic-generated noise is a concern the developer should recognize when design and construction is undertaken. To eliminate the potential noise intrusion into new communities, proper distance relationships need to be applied between residential units and the roadway. For residences, the Department recommends a 400-foot setback from edge of pavement for a multi-lane Interstate roadway. Additionally, to minimize noise intrusion, enhancements such as double-glazed glass windows, sound absorptive insulation, and door treatments that meet HUD specifications should be encouraged.

O'ROURKE
ENGINEERING & PLANNING

October 10, 2022

Mr. Charles Marshall, P.E.
Marshall Property Services, LLC
4400 East 100 North
Shelbyville, IN 46176

Re: Jenkins Road Multifamily- LUPA

Dear Mr. Marshall:

O'Rourke Engineering & Planning has completed the analysis of the traffic impacts associated with the change in land use from General Commercial to Multi -family medium density for the 27.89 acres on Jenkins Road in Ft. Pierce, St. Lucie County. **Figure 1** illustrates the project location. The analysis is presented below.

Traffic Analysis

The proposed change in land use has to compare the trip generation associated with the worst-case traffic generator in the existing future land use to the worst- case traffic generator in the proposed future land use. The 27.89 acres has an existing future land use of General Commercial. Under commercial land use, an FAR of 1.0 is allowed. Applying the 1.0 FAR to 27.89 acres yields 1,214,888 square feet. A worst- case scenario would be retail/commercial such as shopping center.

The proposed future land use is multi- family residential. Under multi-family medium density, a maximum of 12 units per acres is allowed. At 12 units per acre, the project would yield 334 dwelling units. The actual site plan reflects fewer dwelling units. However, the Analysis for comprehensive plans requires the highest allowable density to be considered.

The trip generation associated with each of the potential uses, was calculated using ITE Trip Generation, 11th Edition. **Table 1** summarizes the trip generation and the change in trip generation.

As shown, the change in land use would result in a decrease in 28,227 daily trips, 562 AM peak hour trips and 2,596 PM peak hour trips.

Because there is a decrease in land use, additional analyses are not required.

22 SE Seminole Street I Stuart, FL 34994 I 772-781-7918
SEORourke@comcast.net

Conclusion

The trip generation analysis demonstrates that the change in land use will result in a decrease in trip generation potential on the development.

It has been a pleasure working with you.

Respectfully submitted,
O'ROURKE ENGINEERING

Susan E. O'Rourke, P.E.

AFFIDAVIT OF PUBLICATION

CITY OF FORT PIERCE LEGALS
PO BOX 1480

FORT PIERCE, FL 34954-1480

STATE OF WISCONSIN
COUNTY OF BROWN

Before the undersigned authority personally appeared, said legal clerk, who on oath says that he/she is a legal clerk of the St Lucie News Tribune, a daily newspaper published at Fort Pierce in St. Lucie County, Florida: that the attached copy of advertisement was published in the St Lucie News Tribune in the following issues below. Affiant further says that the said St Lucie News Tribune is a newspaper published in Fort Pierce in said St. Lucie County, Florida, and that said newspaper has heretofore been continuously published in said St. Lucie County, Florida, daily and distributed in St. Lucie County, Florida, for a period of one year next preceding the first publication of the attached copy of advertisement; and affiant further says that she has neither paid or promised any person, firm or corporation any discount, rebate, commission or refund for the purpose of securing this advertisement for publication in the said newspaper. The St Lucie News Tribune has been entered as Periodical Matter at the Post Offices in Fort Pierce, St. Lucie County, Florida and has been for a period of one year next preceding the first publication of the attached copy of advertisement.
Issue(s) dated before where the dates are noted or by publication on the newspaper's website, if authorized, on :
12/04/2022

Subscribed and sworn to before on December 4, 2022:

Notary, State of WI, County of Brown

CITY OF FORT PIERCE
NOTICE OF PUBLIC HEARING

The City Commission of the City of Fort Pierce, Florida, pursuant to Section 125-37 of the Code of Ordinances of the City of Fort Pierce, and Sections 166.041 (3)(a) and 163.3187 of Florida State Statutes, will on Monday, December 19, 2022 at 5:05 p.m. and Tuesday, January 3, 2023 at 5:05 p.m., hold Public Hearings on the enactment of the proposed ordinance on first and second readings, respectively, in the City Hall Commission Chambers, 100 North U.S. #1, Fort Pierce, Florida, to consider review and approval of the following:

ORDINANCE 22-045 - AN ORDINANCE BY THE CITY COMMISSION OF THE CITY OF FORT PIERCE, FLORIDA; REZONING THE PROPERTY GENERALLY LOCATED AT OR NEAR 3037 SOUTH JENKINS ROAD, FROM C-3, GENERAL COMMERCIAL ZONE TO R-4, MEDIUM DENSITY RESIDENTIAL ZONE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR REPEAL OF ORDINANCES OR PARTS THEREOF IN CONFLICT HEREWITH; AND PROVIDING FOR AN EFFECTIVE DATE.

Subject Property: Parcel ID: 2325-111-0001-000-2

All interested parties may appear at the meeting and be heard with respect to the ordinance. Said ordinance will be available for inspection in the City Clerk's Office, City Hall, 100 North U.S. #1, Fort Pierce, Florida.

ANY PERSON SEEKING TO APPEAL THE DECISION OF THE CITY COMMISSION AS TO THE FOREGOING IS ADVISED THAT A RECORD OF PROCEEDINGS IS REQUIRED IN ANY SUCH APPEAL AND THAT SUCH PERSON MAY NEED TO ENSURE THAT A VERBATIM RECORD OF PROCEEDINGS IS MADE INCLUDING THE TESTIMONY AND EVIDENCE UPON WHICH THE APPEAL IS TO BE BASED.

In accordance with the Americans with Disabilities Act and Section 286.26, Florida Statutes, persons with disabilities needing special accommodation to participate in this meeting should contact the City Clerk's Office at (772) 467-3065 at least 48 hours prior to the meeting.

/s/ Linda W. Cox, City Clerk

City Commission Regular Meeting - 5:05 pm **13. a.**

Meeting Date: 12/19/2022

Re: AHAC

Submitted For: Linda Cox, City Clerk, City Clerk

SUBJECT:

Submission of applications to serve on the Affordable Housing Advisory Committee (AHAC).

SUMMARY:

The City Commission adopted Ordinance 22-034 on November 7, 2022 establishing the Affordable Housing Advisory Committee. Qualified individuals include, but are not limited to, representatives from the following categories with a connection to affordable housing: residential home builder; banking or mortgage industry; home building labor representatives; low-income advocates; for-profit provider of affordable housing; not-for-profit affordable housing provider; real estate professional; member of the City's planning agency; city resident; employer representative; or essential services personnel.

RECOMMENDATION:

Select members from the applications at the next City Commission meeting.

ALTERNATIVES:

Continue to seek applications.

RESPONSIBLE STAFF:

Linda W. Cox, City Clerk

COORDINATED WITH:

Communications Department

Vision:

A prosperous Florida with clean natural resources and a healthy population.

Professional

1983-2018 Memorial Healthcare System, Senior Vice President and Chief Information Officer
Located in southern Broward County, the Memorial Healthcare System is the 5th largest public healthcare system in the nation and has been nationally recognized for its community mission, quality outcomes, and advanced technology. Recently designated a teaching system, it's six hospitals and many clinics provide quality care to all of its residents without regard to insurance coverage.
Starting as an industrial engineer, Forest has held a variety of management positions at Memorial and retired as SVP and CIO. Forest has led Memorial's implementation of numerous advanced clinical, business, operational, and analytic systems with a staff of over 300 clinical and technical professionals. Forest oversaw an operating budget of over $70M annually and a capital budget ranging from $18M to $36M.
Forest retired from Memorial as of September 1, 2018.

1995 to present American Business Network / Interpoint Internet Communications, Inc.
Co-founder.

1980-1982 Price Waterhouse and Company Senior Consultant

1979 -1980 Computer Products Production Planning Supervisor

1977 - 1979 American Hospital Supply, Miami, FL Production Planner

Community:

2018-present Fort Pierce Yacht Club

Forest has been a member and officer of this non-profit club promoting boating and water activities with an emphasis on environmental preservation and community activities. Forest has served as Vice-Commodore of Buildings and Grounds, Treasurer, and is now Commodore.

2021-present Fort Pierce Yacht Club Foundation

Forest has served as Director of Trustee and is currently Treasurer of this non-profit organization. The Foundation supports environmental research and funds a summer internship at Harbor Branch Oceanographic Institute. This year the foundation has funded the internship at Harbor Branch as well as an intern and two attendees at the Stella Marie Environment Research summer eco-camp on Wesley Isle.

2021 to present: Stuart Rod and Reel Club and Fort Pierce SportFishing Club

Forest is a member of both of these fishing clubs to promote clean water and good fishing opportunities.

2000- 2006 Town Council, Southwest Ranches

Forest was elected to the first Town Council for Southwest Ranches in June, 2000. Forest was re-elected in 2002. Forest focussed on land use, the preservation of open space, and town automation. Forest retired from the Town Council in 2006 to focus on professional obligations.

1987-2000 Broward County Zoning Board, Chairman

In recognition of his interest in community land use, Forest was appointed to the Broward County Zoning Board, which reviewed and recommended disposition on all zoning and land use changes within unincorporated Broward County. Forest served as chairman for most of his tenure on the Board.

1982-1989 Southwest Ranches Homeowners Association, President

Southwest Ranches Homeowners Association was an umbrella group representing the homeowners associations in the unincorporated area west of Flamingo road between Griffin and Sheridan streets in Broward County. As president, Forest led the efforts to maintain low density agricultural zoning in Southwest Ranches and to block the construction of a new landfill in the wetlands. The group brought suit against Broward County, but was ultimately unsuccessful.

Education

1976 Stanford University, Masters in Operations Research (coterminal with BS)
1976 Stanford University, Bachelors of Science in Mathematical Sciences
1971 Fort Lauderdale High School Valedictorian
1971 National Merit Scholar

Referred by: E-mail Applicant Email Address: bab2850@verizon.net

Date: 10/24/22 Applicant's Signature Barbara G. Nizio/

My family had emigrated to the United States after fleeing from Poland in 1939 to southern France where my brother, who now resides in Vero Beach, was born. They moved to England after World War II, living in a displaced persons camp where I was born. After World War II, my family emigrated to the United States as the United Kingdom felt the burden of supporting and providing employment for all homeless Eastern Europeans became overwhelming. We travelled on the transatlantic voyage in steerage on the Queen Mary, were processed on the ship in New York Harbor, and I grew up in Newark, New Jersey.

I graduated, as a resident of New Jersey, from the University of Notre Dame of Maryland in Baltimore, Maryland with a B.A. degree in French education. I was also married at the time to a graduate of the School of Medicine of the University of Maryland located in the Harbor area of Baltimore. I did my student teaching at Frederick Douglass High School in Baltimore and also taught for one-year there.

At that time, we moved to Pittsburgh, PA, where I attended the University of Pittsburgh and completed two years studying Polish language, culture, literature, and history, becoming fluent. I also took and very much enjoyed a real estate course in Land Use at Pitt. Returning to New Jersey to be near our families, I had four children and became very involved in our parish church, (trustee: Immaculate Heart of Mary, Packanack Lake, NJ); our community (elected to our Board of Governers), and also took over my father's small manufacturing business (Alpha Tool and Mfg. in Newark, Livingston, and Kenilworth) after he was diagnosed with a very insidious brain tumor, a glioblastoma, in 1990 until I sold the business in 2000.

Shortly after Alpha Tool was sold, I began volunteering at the largest comprehensive anti-poverty agency in New Jersey, Eva's Village, a 501c3 in Paterson. I did everything from organizing files to learning how to write grants. I completed all the basic courses offered at the Foundation Center in NYC (7th Avenue and 15th Street), now known as the Grant Writing Center. I was also mentored by two members of Eva's staff, the head of the Dept. Of Human Services for Bergen County, NJ who came in once a week to oversee my progress and a regular staff member who also had done marketing, editing, and publicity for NBC-TV in NYC. and friend of our founder, Monsignor Vincent Puma. Monsignor had established "Where Hope Begins..." as our mission and motto.

I wrote grants for state, county, and municipal NOFAs, attended Bidders' conferences in Paterson and Trenton. I wrote for foundation and corporate funding monies available such as the Delta Dental Foundation, Newmans' Products, Hoffmann-LaRoche Pharmaceuticals and Diagnostics, Novartis, and Altria (formerly Philip Morris). The twelve programs at Eva's grew to twenty by the time I retired in 2018. We began expansion of our main building in Paterson with a state earmark of $980,000 I had written and submitted in 2010. We then had a full and modern Medical and Dental Clinic where daily services were provided for the clients living on site in our sheltering and addiction treatment facilities as well as for the extremely underserved poor and homeless in our surrounding community.

Our next project was working in collaboration with Monarch Housing of Cranford, NJ and the Alpert Group LLC of Fort Lee, NJ to take the next logical step to provide services for the poor in Paterson. In 2010, we also began building a 50-unit affordable housing project for the formerly chronically homeless and disabled that were housed in our temporary programs and environs. The facility was completed and opened by the beginning of 2011. I worked with all of the applicants on their HUD applications, individuals, couples, and families to fill our studio, 1-, and 2- and 3-bedroom apartments available. We left 3,000 sq. feet at the front of our building to develop a social enterprise to aid in becoming self-sustaining. My office now was located in the lobby of our new Eva's Village Apartments

I was also touring people, church groups, and companies interested in donating and volunteering in our programs. Our Kitchen fed approximately 400 people a hot sit-down lunch daily. We had twenty-five mothers and children in our Family Shelter which became the most popular opportunity for volunteering. Our Job Readiness Program was manned by many companies who helped people prepare for interviews, obtain appropriate clothing, and offered employment to clients with skills that could be further developed within those companies.

The location of Eva's Village was several blocks away from the Passaic County Administration Building (housing different Family Courts, the Dept. Of Human Services), The Passaic County Social Security Offices, The Passaic County Board of Social Services, the Paterson Clinic (medication-assisted treatment), the Sheriff of Passaic County, Catholic Charities – all agencies we collaborated with. St. Joseph's Medical Center was also within a half mile of our campus. During my last year at Eva's, our Outpatient Clinic (behavioral treatment) began one of the first opioid programs nationally with St. Joe's services.

Eva's Village also opened Eva's Culinary School in the front of our building which provided on-site vocational training for graduates of our shelters and treatment programs. The children living in the apartments were even afforded the opportunity to learn about different foods and nutrition. They participated in summer breakfast and lunch projects to supplement their school year feeding programs.

I often accompanied tenants to medical visits and school meetings to learn about existing programs and opportunities. McKinney-Vento congressional funding and TANF (Temporary Assistance for Needy Families) helped with educational needs for homeless children and those living in poverty.

I also attended monthly meetings of the Passaic County Department of Human Services and our local FQHC, to work on the County 5-year Plan including the City of Paterson, the Annual Count of Homeless on the streets, and sponsoring on-site service fairs providing distribution of donations (food and clothing) received at all the non-profits in Paterson and even services such as haircuts, washing facilities, and voter registration. One year, I actually helped to supply our name for the affordable housing we all worked on H-O-P-E: "Housing Our People Everywhere". (in Passaic Co.)

I personally felt a tremendous sense of purpose and blessing being able to participate in these activities and experiences for the last twenty years. I truly learned true trust, generosity, and peace. I grew to love many of the people I worked with. Many still keep in touch with me.

Rasmussen University
Adjunct Professor, 06/2019 – 01/2020

Leading Change, HR Data Analytics, Performance Measurement systems, Organizational Behavior adjunct professor teaching the concepts of social systems, engagement, motivation, communication, and organizational culture to M.B.A. candidates.

Montgomery County Public Schools (Performance, Evaluation, and Compliance Investigation Unit) – Rockville, MD
Human Resources Assistant Director, 11/2015–04/2016

Recruited from top district specifically to expand and build department's capacity and integration using format developed at previous employer. Strategically align policies to support student safety and academic achievement. Consult and provide guidance to executive team on resolving conflict, union grievances, disciplinary actions, employee retention and motivation, while ensuring compliance to federal and state statutes as well as district guidelines / policies. Guide transformation of previously compliance-driven unit into high-performing strategic team which touches every facet of operations for district encompassing 202 schools, 24,000 employees, and 150,000+ students.

- **Positioned organization to shorten timelines for talent acquisition processes and avoid disruptions to learning and administrative processes during position vacancies;** closed time-to-fill, job posting, and educational delivery gaps by adding defined processes, metrics, and KPIs.
- **Reduced sick leave abuse 75+% after implementing time and attendance tools;** identified problem behaviors that zeroed in on individuals taking advantage of system; informed affected persons on time and attendance processes, provided current performance level snapshots, and delivered step-by-step instruction on how to comply with regulations before disciplinary actions were taken.
- **Reduced administrative leave expenses 20%** by examining relief of duty processes and performing incident investigations which also provided consistent classroom instructional delivery.
- **Created progressive discipline training and development opportunity for leaders** to provide useful tools for handling potential misconduct situations.

Orange County Public Schools – Orlando, FL

Human Resources Employee Relations Senior Manager, 10/2011–10/2015

Recruited from Orange County Health Department to lead educational community consisting of 40 schools, 2 bus depots, and ~5,000 employees on leadership, engagement, discipline, policy, and compliance. Tasked to influence and build relationships with union leaders and principals to foster improved collaboration. Enhanced training, recruitment, and time-to-fill rates.

- **Conducted over 3000 Employee Relations investigations**
- **Decreased first-day classroom vacancy rates 40%** as part of team that developed and implemented rubric for recruiting high-performing candidates; achieved ranking near top 25% for similar sized districts.
- **Cut time-to-fill rates from 30 days to 14-17 days** by developing COPIS model of operational focus as part of inter-disciplinary team.
- **Trimmed open-to-close case times from 30 to 21 days** for internal employee misconduct investigations by working as team dedicated to fixing issue; used metrics and KPIs to maintain better time management in completing information-gathering processes.
- **Raised customer satisfaction ratings up by 18.5% and workforce satisfaction ratings 10%** after identifying key customer groups, determining their needs, then modifying processes and metrics to meet those needs.
- **Guided transformation of previously compliance-driven unit into high-performing strategic team** which touched every facet of operations for district encompassing 195 schools, 23,000 employees, and 200,000+ students; coordinated with key managers to develop win-win plan for implementation.

Orange County Health Department –Orlando, FL

Human Resources Labor Relations Training Manager, 2/2011–10/2011

Chief Deputy Registrar of Orange County, 1/2009–2/2011

Promoted into key management positioned based on human resource leadership and experience. Designed leadership training to managers and collaborated with 5 different unions to manage their contracts. Planned and executed $1+ million budget; acted in tandem with local and state government officials. Lead multi-site offices as Chief Deputy Registrar of Orange County.

- **Decreased on-the-job workplace cases and incidents of conflict 20%** by stepping in to provide first-ever formalized conflict resolution and behavior modification trainings to managers to reduce tensions.
- **Increased sales of birth and death certificates 25%** by working with local DMV and hospitals to provide easy access, informational services at those facilities.
- **Responded to State of Florida human resources reorganization** by reducing 150 jobs and realigning 90% personnel into other health department services.
- **Provided homeless and transient populations with identification while delivering 2% net profit increase** by influencing city, local leaders, and related organizations to work with homeless coalition to pay for identifications for homeless populations.

SLCHRA Best Places to Work Committee

Re: HR Professional of the Year Nomination

To Whom It May Concern,

This letter shall serve as my nomination for Dr. Rafael Sanchez Jr for the HR professional of the year. Dr. Sanchez is the Executive Director of Human Resources for St. Lucie Public Schools. St. Lucie Public Schools is the largest employer in St. Lucie County employing over 5,000 employees that serves nearly 40,000 students. Dr. Sanchez has a Doctoral Degree in Human Resources and holds certifications in SHRM-SCP (Society of Human Resources Management – Senior Certified Professional) and HRBP (Human Resources Business Partner). Dr. Sanchez is the Legislative Director for the St. Lucie HR Association and an Adjunct Professor at Southern New Hampshire University teaching HR classes to master's degree seeking students. Dr. Sanchez has transformed our HR department from a compliance department to a strategic innovative and modern HR. His change initiatives have directly impacted our School District's ability to close education gaps over the last six years.

Dr. Sanchez has created a Retention & Recruitment model that has resulted in systemic cultural change in our School District.

9461 Brandywine Lane
Port St. Lucie, FL 34986
772.429.5544
www.stlucieschools.org

As a result of the Retention & Recruitment model change initiative, several improvements have been accomplished in our District:

- Fifty six percent increase in Time to Fill positions.
- One hundred percent First day of school teacher fill rate from 2017-2020. Ninety nine percent First day of school fill rate for 2021.
- Ninety seven percent teacher retention rate for school year 2020-2021 (Industry Average is 85%).
- Increased customer service rating from 69.4% - 94.1%.
- Employee engagement rating increased from 72.83% – 91.42%.
- Implemented a Power BI (Business Intelligence) dashboard that gives real time data about employee demographics, time off, retention, salary, attendance and turnover rates.

Dr. Sanchez's recruitment initiatives can only be described as innovative and modern and I am not aware of any other organization that recruits the way St. Lucie Public Schools recruits talent. Our talent recruitment encompasses the following:

Digital Brand Recruiting – Based on consumer marketing and tourism marketing using our St Lucie Public Schools accomplishments. This allows our organization to focus on defined geographic targeted areas and digital ads that enhance our brand awareness and recruitment pipelines utilizing the following techniques:

- Geo-Fence targeting
- Intent targeting
- Key word search targeting
- Education Networks
- CRM Emails to all certified teachers
- YouTube
- Social Media

These digital employment ads are shown to individuals all over the United States. For example, when it snows up north digital ads that state "Shovel Sand Not Snow" are displayed to teachers. When Hillsborough county laid off 2,000 educators digital ads that state "Time for a change" were shown to those teachers that lived in the Hillsborough area.

When interested applicants click on these ads, they are taken to a defined landing page that has short videos about our school district. "Why St Lucie"

772.429.5544
www.stlucieschools.org

Dr. Sanchez also implemented a Diversity Project that highlights the diversity within our school District. "Our Diversity" This diversity page does the following:

- Celebrates the diversity in our workforce.
- Highlight Historically Black and Community Universities (HBCU).
- Highlight Hispanic Serving Institutions (HSI).
- D-9 Greek Black Fraternities and Sororities.
- Distinguished Minority Educators.
- Retired Educators.
- District Diverse Leaders.
- Community Champions.

The photos and videos embedded into this diversity page will be used to target diverse applicants. When an interested applicant clicks on the photo or video it will direct them to the diversity web page where they can see people that look like them and find resources and links they need when considering moving to our county. These photos and videos are currently being shown to Historically Black Colleges and Hispanic Serving Institutions.

A paperless and wireless initiative was implemented by Dr. Sanchez in 2016. The initiative took three years to complete and was intended to ensure the HR department was completely paperless with the ability for all HR staff to provide services remotely if needed due to a hurricane or crisis. This one initiative was instrumental during COVID. The foresight and innovative initiative taken by Dr. Sanchez allowed the HR department to maintain recruiting and hiring during the pandemic while still providing customer service to all employees and departments while many school districts and organizations had to shut down. These improvements have allowed our School District to improve the quality of employee hires and our culture.

Finally, Dr. Sanchez and his team have won the Best Places to Work four years in a row (2017-2020). It is my pleasure and honor to nominate Dr. Rafael Sanchez Jr. for the HR Professional of the year.

Sincerely,

E. Wayne Gent

City Commission Regular Meeting - 5:05 pm **13. b.**

Meeting Date: 12/19/2022

Re: Resolution 22-R48

Submitted For: Shyanne Harnage, Economic Development Manager, City Manager

SUBJECT:

Resolution 22-R48 authorizing the execution of a Florida Job Growth Infrastructure Grant Agreement with the State of Florida Department of Economic Opportunity supporting Downtown Waterfront Corridor infrastructure improvements.

SUMMARY:

On August 30, 2022, Governor Ron DeSantis awarded the City of Fort Pierce a $2.7 million Florida Job Growth Grant to help fund infrastructure improvements in Downtown Fort Pierce. The critical infrastructure improvements include water, wastewater, electric, fiber, natural gas, roadway and sidewalk improvements. The infrastructure upgrades will stimulate more than $72 million of private investment on along Indian River Drive. Resolution 22-R48 authorizes the execution of the grant agreement with the Department of Economic Opportunity.

RECOMMENDATION:

Approve Resolution 22-R48.

ALTERNATIVES:

Deny or amend Resolution.

RESPONSIBLE STAFF:

Shyanne Harnage, Economic Development Manager

COORDINATED WITH:

City Attorney
City Clerk

Fiscal Impact

RESOLUTION NO. 22-R48

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF FORT PIERCE, FLORIDA, AUTHORIZING THE EXECUTION OF A FLORIDA JOB GROWTH INFRASTRUCTURE GRANT AGREEMENT WITH THE STATE OF FLORIDA DEPARTMENT OF ECONOMIC OPPORTUNITY SUPPORTING DOWNTOWN WATERFRONT CORRIDOR INFRASTRUCTURE IMPROVEMENTS; ADOPTING FINDINGS; PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City Commission wishes to enter into a Florida Job Growth Infrastructure Grant Agreement with the State of Florida Department of Economic Opportunity to support public infrastructure improvements along the Downtown Waterfront Corridor; and

WHEREAS, the City of Fort Pierce has the authority to enter into grant agreements with the State of Florida Department of Economic Opportunity for projects of this nature pursuant to Section 288.101, Florida Statutes.

NOW, THEREFORE, BE IT RESOLVED by the City Commission of Fort Pierce, Florida, as follows:

Section 1. The foregoing findings are true and correct and are hereby adopted and made a part hereof.

Section 2. The City Commission of the City of Fort Pierce does hereby approve and authorize Linda Hudson, Mayor of the City of Fort Pierce, to execute and submit to the State of Florida Department of Economic Opportunity on behalf of the City of Fort Pierce that certain Grant Agreement attached hereto as Attachment “A” and made a part hereof.

Section 3. This Resolution shall become effective upon its adoption.

IN WITNESS WHEREOF, this Resolution has been duly adopted this 19th day of December 2022.

RESOLUTION NO. 22-R49

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF FORT PIERCE, FLORIDA, SUPPORTING THE **2023 LEGISLATIVE PRIORITIES** OF THE FLORIDA LEAGUE OF CITIES; PROVIDING AN EFFECTIVE DATE; AND FOR OTHER PURPOSES.

WHEREAS, the Florida League of Cities established its 2023 Legislative Action Agenda; and

WHEREAS, the City of Fort Pierce shares the concerns and priorities of the Florida League of Cities.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF FORT PIERCE FLORIDA AS FOLLOWS:

SECTION 1: The City of Fort Pierce, Florida supports and adopts the 2023 Legislative Priorities of the Florida League of Cities as outlined in the policy statements attached hereto and made a part hereof.

SECTION 2: The City of Fort Pierce authorizes and encourages the Mayor to take all necessary actions in order to advocate on behalf of the City regarding the policy statements hereby adopted.

SECTION 3: This Resolution shall take effect immediately upon adoption.

IN WITNESS THEREOF, this Resolution has been duly adopted on this 19th day of December, 2022.

_____
Linda Hudson, Mayor Commissioner

ATTEST:

_____
Linda W. Cox, City Clerk

(SEAL)

Approved as to Form
And Correctness:

_____
Tanya M. Earley, Esq.
City Attorney

Priorities:

Enterprise Fund Transfers
The Florida League of Cities SUPPORTS the preservation of municipal authority to manage municipal revenue sources and realize a reasonable rate of return on their proprietary assets, investments and services.

Mobility Plans
The Florida League of Cities SUPPORTS legislation that defines and clarifies mobility plans in order to provide a clear and concise regulatory framework for Florida cities to acquire, construct and implement both traditional and alternative modes of transportation.

Short-Term Rentals
The Florida League of Cities SUPPORTS legislation that restores authority to local governments for the regulation of short-term rental properties as necessary for quality of life, public safety and the creation of fair lodging standards. The Florida League of Cities SUPPORTS legislation clarifying that existing, grandfathered municipal short-term rental ordinances can be amended without penalty. The Florida League of Cities OPPOSES legislation that preempts municipal authority as it relates to the regulation of short-term rental properties.

Accessible Housing
The Florida League of Cities SUPPORTS legislation that requires all money from the Sadowski State and Local Housing Trust Fund be used only for Florida's affordable housing programs that are targeted to meet the needs of workforce housing, including home ownership and rental availability.

Water Resources Planning and Comprehensive Watershed Management
The Florida League of Cities SUPPORTS legislation establishing a statewide coordinated planning and prioritization approach for water resource investments that funds Florida's current and projected water needs in an equitable manner and authorizing Comprehensive Watershed Management projects to qualify for funding under the state Water Protection and Sustainability Trust Fund.

Policy Positions:

Property Tax Protection
The Florida League of Cities SUPPORTS legislation that maintains an equitable property tax system while preserving a municipality's ability to fund public infrastructure, police, fire, emergency services and other essential services. Any further erosions and/or exemptions on

the current property tax structure will unfairly shift the tax burden to the business community, renters and others.

Residential Zoning

The Florida League of Cities SUPPORTS legislation that maintains, advances and encourages the fundamental ability for cities to tailor unique land development solutions through local decision-making, preserving the ability for cities to decide how they look and grow. Cities are strong supporters of affordable housing efforts and are best positioned to identify appropriate areas that can support high-density infill redevelopment.

Transportation Funding

The Florida League of Cities SUPPORTS legislation directing the Florida Department of Transportation to provide financial assistance and incentives to develop and implement multimodal transportation plans that optimize different modes of combined transport and are tailored to municipal transportation demands. The Florida League of Cities SUPPORTS identifying additional transportation revenue to fund innovative infrastructure (e.g., electric vehicles) and transit projects to meet the surging transportation demands driven by growth in population throughout Florida.

Water and Wastewater Plant Operator Licensure

The Florida League of Cities SUPPORTS legislation to address workforce shortages in municipal water and wastewater facilities by: one, defining facility operators as critical and essential workers; two, providing reciprocity with other states for licensure of facility operators; and three, allowing credit toward licensure for military experience and time served performing similar functions and providing flexibility for facilities to use retired or out-of-state operators in emergencies.

TABLE OF CONTENTS

3 FEATURED STORY

5 PLANNING DEPARTMENT

6 CITY PROJECT UPDATES

8 SUNRISE THEATRE

10 BUILDING DEPARTMENT

14 PUBLIC WORKS DEPARTMENT

16 INDIAN HILLS GOLF COURSE

17 FORT PIERCE CITY MARINA

FIRST RESPONDERS

Kaitlyn Ballard, Engagement and Outreach Coordinator

Being First Responders, the Public Works Department understands the important role that City facilities and amenities play in the lives of Fort Pierce residents, each day. That is why these dedicated men and women, have worked tirelessly in their storm recovery efforts throughout the City since Hurricane Nicole struck in early November.

The Public Works Team has mitigated flooding, rebuilt the Jetty, secured city structures and facilities, cleared tons of storm debris, and so much more. The Public Works Department is the backbone of the City's infrastructure and provides essential functions protecting our citizens and City that no other department can provide. Because of this, Public Works will continue to work hard until the City of Fort Pierce has been fully restored.

Here are the latest storm recovery updates:

Parks:

· The Jetty and Jetty Park - Reopened to the Public.
· Jaycee Park - Reopened to the Public.
· Jaycee Park Boat Ramps – Reopened to the Public.

Solid Waste Pickup:

Residential Bulk Junk(household) Pickup – On hold until a horticulture debris sweep of the city is completed. Please refrain from placing bulk household items at the curb until collection has resumed.

Residential Horticulture Collection - On Monday, November 14, 2022, horticulture debris piles was collected by zone throughout the city. This allowed Solid Waste to do a full sweep of the city from Hurricane Nicole. All available grapple trucks worked in one zone until completed before moving on to the next. Once all storm-related debris has been removed, regularly scheduled pickup will resume.

For Your Safety and the Safety of Others:

· Do not place storm debris in roadways or block sidewalks.

· Do not mix bulk and horticulture debris piles. Horticulture debris piles must be free of items such as metal, food waste, garbage, soil, sod, and stones. This is extremely important.

· Please do not place debris within five (5) feet of a fence, vehicle, mailbox, power line, poles, downed electrical wiring, storm drains, etc.

· Please do not place horticulture debris in a vacant lot or at a neighbor's home.

· City workers will not go onto private property to remove trees, limbs/branches, or other storm debris. Property owners should contact a private tree removal company for help if they cannot remove trees and associated debris.

Please be Patient:

The Public Work Department asks residents for their cooperation and patience in their response to storm recovery. Collecting all the storm debris and fixing all of the city facilities/amenities will take several weeks to complete. Cleanup pickup is a team effort, and your cooperation is appreciated to ensure the cleanup is as fast and efficient as possible.

For more information, please contact the Public Works Department at ***772.467.3794*** or visit ***www.cityoffortpierce.com***

CITY DEVELOPMENTS

EDGARTOWN ZONING AMENDMENT

The Historic Preservation Board will discuss a proposed amendment to the Edgartown Settlement (ES) Zoning District at its December 5th meeting at City Hall at 2:00 PM. The amendments are aimed at reorganizing the existing code and clarifying parameters for allowed indoor and outdoor entertainment activities within the community.

PLATTING PROCESS

The City Commission will discuss a proposed amendment to the City's Platting Process at its December 19th meeting at City Hall at 5:05 PM. The amendments are aimed at providing a simplified voluntary Preliminary Plat process and restating Final Plat process to align with the provisions and requirements of State Statute.

CITY PROJECT UPDATES

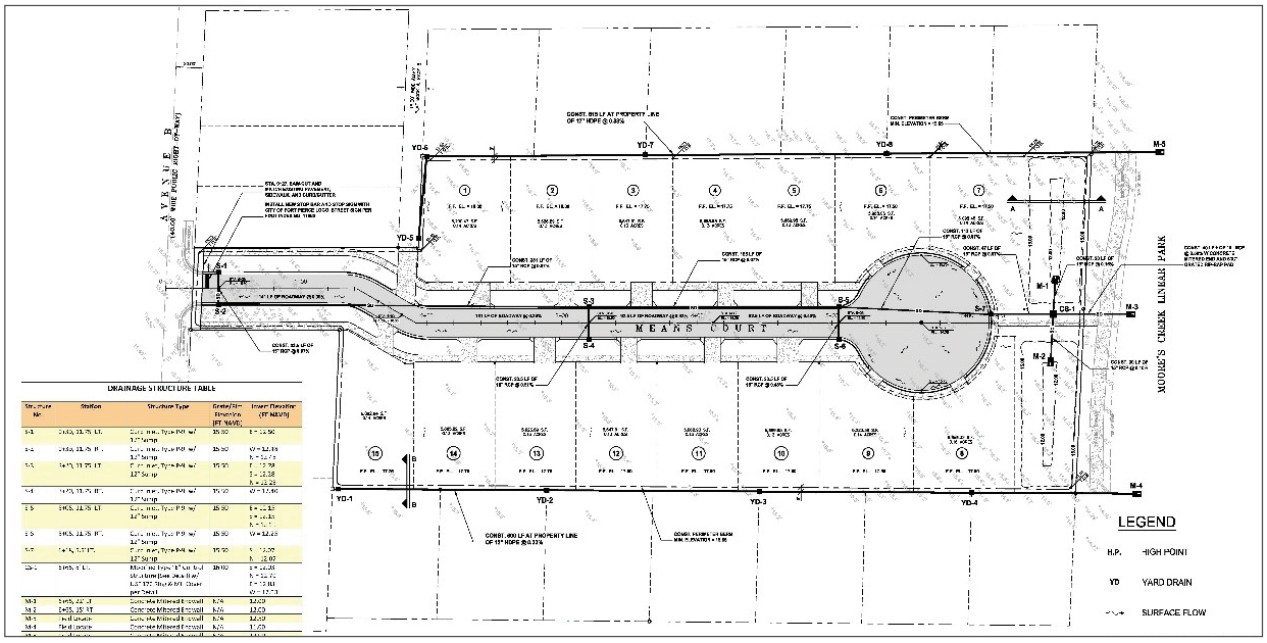

BEACH COURT

This roadway project will include a complete reconstruction of the roadway with curb and gutters, sidewalks on both sides of the road, installation of a new storm drainage system, street lighting, ADA upgrades, new potable water system, and sanitary sewer service upgrades.

Construction commenced the first week of October. The contractor has completed the installation of the new 6” water main and is currently chlorinating and flushing the system to secure FDEP clearance. The new sanitary sewer services are currently being installed as is the new storm drainage system. Construction completion scheduled for April 2023.

THE OAKS AT MOORE'S CREEK PHASE II (MEANS COURT EXTENSION):

The project includes the extension of Means Court roadway between Avenue B and Moore's Creek to support a 15-lot single-family affordable housing subdivision. Improvements include water, sewer, gas, and storm drainage facilities, along with sidewalks, curb & gutter, street lighting, landscaping, and underground electric. The project is currently out for bids and a bid opening date of 11/30/22.

GEORGIA AVENUE BASIN WATER QUALITY IMPROVEMENTS

Improvements to the 235-acre Georgia Avenue Drainage Basin will include the construction of numerous Best Management Practices (BMPs) to aid in the removal of phosphorus, nitrogen, and other harmful nutrients from stormwater discharging into the Indian River Lagoon. Improvements include:

1. The introduction of a Generation II Baffle Box to eliminate the discharge of oils and nutrients into the stormwater treatment system.

2. Installation of a control structure to control the volume of discharge from the existing treatment system thus providing additional retention time to aid in the removal of phosphorus, nitrogen, and suspended solids.

3. Construction of a bioswale which slows the conveyance of the stormwater run-off, providing more treatment time. A bioswale is a shallow swale with a wide bottom and gently sloped banks. The banks are planted with native vegetation and large boulders. The swale's bottom is lined with limestone riprap atop a 6" base of drainfield aggregate. These vegetated swales are very important systems for improving water quality and can also reduce the volume of storm flows currently entering the Indian River Lagoon by detaining stormwater allowing percolation into the ground and giving the bioswale plants time to absorb nutrients and chemicals from run-off.

The installation of an aeration fountain into the existing lake which will increase the oxygen levels in the lake which aids in the removal of organics and nitrogen.

WHAT A NIGHT.

Downtown Fort Pierce was packed with diners, Art Walk and Daniel Tosh ticketholders at the Sunrise Theatre on Friday, November 18. The Tosh performance sold out in just two days after going on sale on May 22, and a second show was added which also quickly was snapped up. The audience loved the shows and there was definitely an excitement in the vibe downtown. On Saturday, November 19 from 2-4pm, the family of John Wilkes, former Sunrise Theatre Director was honored with a Celebration of Life in the VIP Friend's Lounge at the Sunrise Theatre. John passed away peacefully on November 12 in Orlando. Soon after the renovation was complete at the Sunrise Theatre, John was hired by City Manager Dennis Beach in 2007 and continued with the city until 2018. His early years while in college in Canada, John worked to bring many performers to school events like Harry Chapin and the likes of a "young," Elton John.

Throughout his years of experience from The Van Wezel Performing Arts Hall in Sarasota, Kravis Center in West Palm Beach, John brought numerous, high profiled performers to the Sunrise stage, just because of his contacts, negotiation skills and influence in the performing arts business. John loved the Sunrise Theatre and the opportunity to promote the renovation and revitalization of the theatre was the cultural core of Fort Pierce. He will be remembered fondly for his humor and ability to connect with everyone from board members to staff members, volunteers and patrons.

Upcoming Shows:

Wednesday, December 28 at 7:30PM
The State Ballet Theatre of Ukraine
Presents Swan Lake

Go to www.sunrisetheatre.com for an up to date listing of all events or call the box office, opened Monday – Friday from 10am – 2pm at 772.461.4775 - Please call 2 hours prior to performances.

WINNERS OF THE FLORIDA CITY GOVERNMENT WEEK PHOTO CONTEST

Here are your Top 5 winners from the Florida City Government Week Photo Contest, earning bragging rights and more! In alphabetical order, congrats to Anthony Fullwood, Charles Schneider, Justo DeLeon, Marcus Murillo, and Robert Weaver. Thank you to everyone that shared amazing pictures of our beautiful city!

PROJECTS UNDER PERMITS

BLUE SKY LANDING

Windows are currently being installed in Buildings A and B of the Blue Sky Landing Community. Vertical construction has also recently begun for Buildings C and D. As shown in one of the pictures, concrete finishers are using a power trowel on one of the recently poured slabs. Construction of the clubhouse and amenity center is also ongoing as roof framing/truss placement is about to begin.

CHIPOTLE

Equipment has been mobilized in preparation of the issuance of the sitework permit for the proposed Chipotle Restaurant near the intersection of Okeechobee Rd and Jenkins Rd, directly west of Wawa (5545 Okeechobee Rd). The contractor has taken advantage of the expedited plan review service that the Building Department offers. This service provides front of the line access to plan review for an additional fee. Rates are based on the amount of time taken to perform the review. Often times, permits can be issued same day/next day when the service is provided.

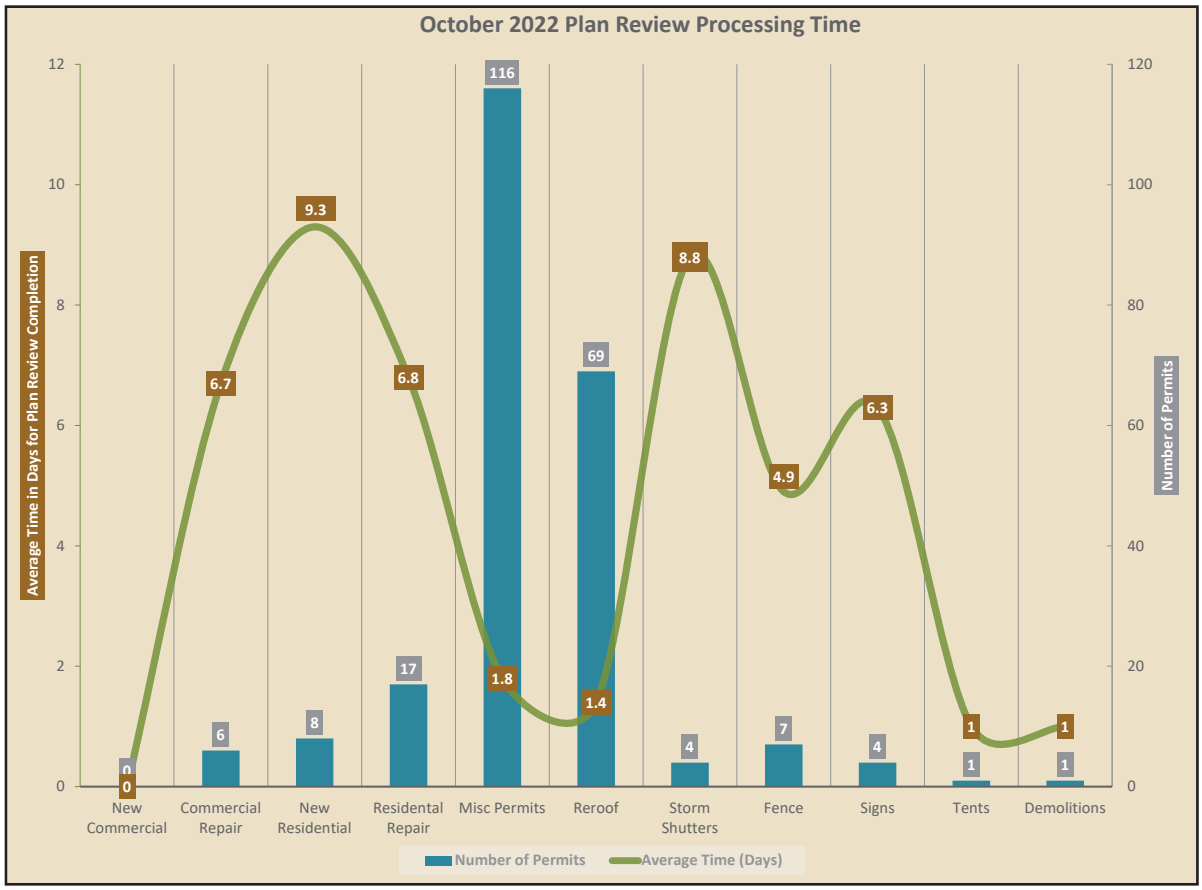

NEW WAREHOUSE

Work at this near quarter-million square foot warehouse, 3800 Crossroads Pkwy, adjacent to I-95 is quickly progressing. With the slab completed, placement of tilt-walls has begun. Tilt wall construction is done in two parts. Once the walls are cast horizontally on the ground, the walls are then lifted "tilted" with a crane and set in place. The wall panels are placed consecutively in a manner to form a wall. Due to the large size of the building, the tilt walls are being inspected in phases, with several walls already inspected.

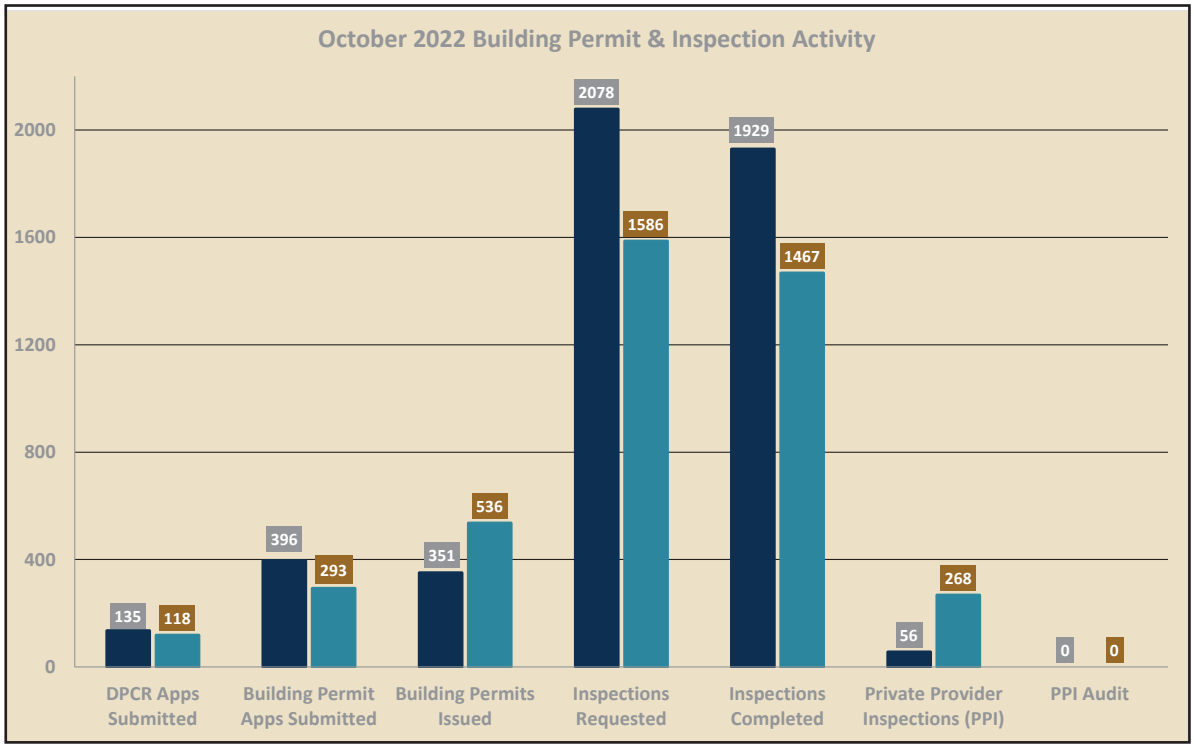

BUILDING CHART FOR OCTOBER 2022

OCTOBER 2022 PLAN REVIEW PROCESSING TIME & ACTIVITY REPORT COMBINED

For permits with 0 days, either the review was not completed within the month, or there were no reviews for the entire month.

Permit & Inspection Activity Report

ALWAYS DEDICATED

The City of Fort Pierce Public Works Department is always hard at work for the Fort Pierce Community. These dedicated men and women recently participated in the City's Annual Thanksgiving Meal Distribution with Treasure Coast Food Bank and had an amazing time. The Public Works Team assisted with setting up the event, distributing the food, and breaking down the event upon completion.

This meal distribution event was a free drive-thru that was held on Saturday, November 19, 2022, at the Percy Peek Gymnasium at 2902 Avenue D, from 8:00 AM to 12:00 PM. The Public Works Team and other local volunteers distributed 750 turkeys and holiday boxes, filled with all the fixings for a holiday meal. The Public Works Team was happy to participate and is always willing to step up and help wherever they are needed in the City of Fort Pierce and are looking forward to assisting with future community events.

For more information on city events or the Public Works Department, please visit ww.cityoffortpierce.com.

FROM 6:00 PM TO 9:00 PM IN MARINA SQUARE

RIVER WALK CENTER SALES REPORT OCTOBER 2022

CLASSES	$1,489.96
PARK PERMITS	$ 975.00
SPECIAL EVENTS	$2,630.00
FACILITY	$8,972.91
TOTAL	$14,067.87

Mother Nature has already been a huge help this Fall, with several days of unexpected rain. It would be extremely beneficial for us receive continued rain one or two nights per month as we get into the cooler winter season.

Our annual “Turkey Shootout” held on Thanksgiving morning each year was SOLD OUT again! With 104 players in attendance, everyone had a great time and collectively we raised a few hundred pounds of food and almost $300 in cash for the Treasure Coast Food Bank!!

We are also a drop site for the “Toys for Tots” program so if you’re looking to donate any toys for children this holiday season please drop off a new, unwrapped toy at the Golf Shop. With so many people struggling this time of year, any donation you can provide goes a long way to helping those in need in our community!

We thank all of our members and guests for their support and we ask that you please “Like” and “Follow Us” on Facebook or Instagram to see almost daily updates on the golf course and our ongoing maintenance projects.
