Design- Restoration of the Old St. Anastasia School building update as of January 1 of 2022. Currently we are in need of a PerApp meeting with the city of Fort Pierce, FL. We have the site plan ready for approval, and we have the plans that need to be approved by historical preservation for certificate of appropriateness.

Engineering- We have got 50% of the engineering donated in a written agreement.

A fundraising gallery was planned and postponed outdoor on the property.

Due to inflation materials and workers have been a little slower moving and harder to access.

A few options are currently being reviewed by board of directors for funding sources. We have been in conversations with a redevelopment agency Capital Group Enterprises Mario Caprini with the Public Private Partnership Tax Credit. 4-5 proposals are being submitted to our board of directors.

Two local Fort Pierce banks are interested in being involved, and proving resources, presentations are being made the banks boards.

The Community Foundation of Martin/St Lucie is making recommendations for family foundations, trusts, and personal loans.

We are applying again for the State of Florida State Facility Grant in 2022 for \$500,000 matching grant.

Currently we have \$150,000 in written future pledges towards the project, we have \$125,000 in pro bono services, and \$50,000 cash in hand.

The Lindsay School of the Arts is working tirelessly on making this project come alive for our Students and our Community, we have just been hit with some very trying times, however LSA & LSAs board of directors is working to move forward and find the best option for this project. Thank you for your support.
