Subject: Feedback

Mr. Voss,

I have been trying get my house built since July 2021 and have had many obstacles holding it up. I have been working with Sue since we started and wanted to let you know she has been very helpful in getting information I have needed to push my builder along.

I know a lot of people want to blame the permit office for a lot of delays but that definitely is not the case with Sue and your office.

My wife, Brenda, and I appreciate all her help.
