RE: 727 S 11TH ST FORT PIERCE, FL 34950

Dear Sir / Madam

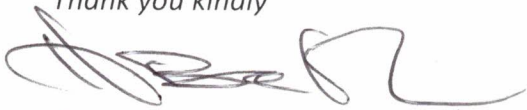

I am kindly asking for another extension to pour foundation on the above reference property.

We have done our density test and as of 12/14/2023 we have forms installed.

We are currently waiting on our form survey to be completed before we move onto the next process of underground plumbing and pouring of foundation.

We had some held back because of surveying, our surveyor went out to the property 3 times to mark the four corners and the finish floor elevation, the flags keep missing, we have to wait a week and two for reschedule every time I called. Thank you for understanding.

Thank you kindly

Herematie Beksh - President.
