Shay,

Per your request, the Union's position is the Dues Deduction language in Article 15 is currently suspended because it has been determined that it does not conform with applicable State law. Therefore, the union doesn't expect dues to be remitted through payroll deduction unless such law overturned or changed. However, it is important to maintain the language in case the law is overturned through current litigation or if the law is changed back to allow such deduction.

The current language states that the authorization to be valid shall conform to State and Federal law. See below:

- A. The City agrees to deduct monthly, from the earnings of the employees who have so authorized in writing, membership dues and initiation fees and remit same to the Union in an amount certified by the Union. Such authorization to be valid shall conform to applicable State and Federal law.

Good afternoon Steve!

We've gotten this past legal review yesterday. Please see the attached for your signature and that of the union steward and witness's signature and return please.

Thnx
