Subject: Re: Commercial Facade Application

Hi Miriam, Of course I'm disappointed to receive this but am also grateful that you considered my application. With your help I was able to paint the entire building within the last 18 months which motivated me to do more. I then removed and replaced every window with high grade hurricane protective glass on the 2nd floor just 6 months after the buildings new paint job was completed. Soon after, with your help, I have a sign on the building "The Royal Poinciana Office Suites and Apartments". Miriam, you have been so helpful and thoughtful and welcoming to me that I can't thank you enough.....Thanks again for considering my application. Have a great weekend, Jim Goertler
