

**GRANT AGREEMENT FOR  
COMMERCIAL FAÇADE IMPROVEMENT**

THIS AGREEMENT (“Agreement”) made and entered into this \_\_\_\_ day of \_\_\_\_\_ 2024, (“Effective Date”) between the Fort Pierce Redevelopment Agency, a community redevelopment agency established pursuant to Florida Statutes Chapter 163 (the “FPRA”), and JETSET EVENTS, LLC, a Florida Limited Liability Company, (“Recipient”), (collectively, “Parties”).

**WITNESSETH:**

**WHEREAS**, as part of its mission to alleviate slum and blight and, in order to encourage redevelopment of the FPRA district by enhancing its visual aesthetics, the FPRA, a Dependent Special District of the City of Fort Pierce, Florida, established the Commercial Façade Grant Program; and

**WHEREAS**, the Commercial Façade Grant Program currently offers financial assistance to commercial property and business owners looking to improve the façades of commercial buildings within the FPRA community redevelopment area; and

**WHEREAS**, Recipient is the owner of property located at 207 Orange Avenue, Fort Pierce, FL (Parcel ID: 2410-507-0002-000-5) (the “Property”); and

**WHEREAS**, Recipient submitted a Commercial Façade Grant Program application, and a revised application, to the FPRA requesting a grant for the façade renovation of the Property; and

**WHEREAS**, the purpose of the intended renovations are to substantially improve the façade of the Property by adding outdoor window boxes and hurricane shutters to the upper windows; installing security cameras; and renovating the entranceway including replacing exterior flooring, removing tile, replacing the windows and replacing the front doors with ADA compliant entrances; and

**WHEREAS**, the Property is located within the FPRA district boundaries and the renovation of the Property coincides with the FPRA plan; and

**WHEREAS**, the FPRA Board desires to approve a reimbursable Commercial Façade Grant award in an amount up to one half of the approved cost of eligible improvements, not to exceed \$25,000 to Recipient for the façade renovation of the Property; and

**WHEREAS**, the Recipient desires to participate in the Commercial Façade Grant Program pursuant to the terms and provisions of this Agreement; and

**WHEREAS**, the Recipient has represented to the FPRA that it will complete the project set forth in its completed Commercial Façade Grant application package submitted to the FPRA (“Project”), and that the Project, located at 207 Orange Avenue, will further the intent of the Commercial Façade Grant Program by significantly enhancing the appearance of a building within the FPRA district.

**NOW, THEREFORE**, the Parties do hereby agree to the following:

1. **Grant of Funds.** The FPRA shall pay to the Recipient, on a reimbursement basis, an amount up to fifty percent (50%) of eligible project costs, not to exceed Twenty-Five Thousand Dollars (\$25,000.00) (“Grant”) for the Recipient’s completion of the Project. Provided the Recipient is in compliance with the terms and conditions of this Agreement, the FPRA shall make such payment within sixty (60) days after the Recipient’s request for payment of the Grant funds and submission of invoices and any other information necessary to substantiate Recipient’s compliance with this Agreement. Nothing herein shall be construed to grant the FPRA any ownership interests in the Project, and the FPRA shall have no liability whatsoever related to the Project.

2. **Compliance.** The Recipient shall complete the Project and comply with all the terms and conditions of this Agreement, including but not limited to (i) complying with the Project Development Plan, which is attached hereto as Appendix A, and (ii) complying with the Recipient's completed Commercial Façade Grant Application package submitted on July 2, 2024, and revised on July 28, 2024 (collectively "Application"), that was reviewed by City staff and approved by the FPRA Board, and which is set forth in Appendix B.
3. **Appendices.** All appendices referenced in this Agreement are attached to this Agreement and made a part hereof by reference.
4. **Project Deadlines/Term.** The Recipient must receive the building permits within six months of the Effective Date and shall complete the Project within twelve months after the issuance of the building permits. This eighteen-month period shall be considered the Agreement Term (the "Term"). The FPRA shall have a right to terminate this Agreement in the event the Recipient fails to meet the Project Deadlines. During this period the Recipient shall provide evidence of building permit approval to the FPRA within six months of the Effective Date. For projects not requiring a building permit, within six months of the Effective Date, the Recipient shall notify the FPRA of when it will start the Project within the aforementioned period.
5. **Extension.** The FPRA, in its sole and absolute discretion, may authorize an extension of the Project Deadlines to allow the Recipient to complete its obligations set forth in this Agreement in a timely manner if the Recipient is in compliance with this Agreement and the Recipient is taking reasonable steps to complete its obligations set forth in this Agreement. Any authorization to extend the Project Deadlines shall be in writing and approved by the FPRA Board.
6. **Compliance with Laws.** The Recipient shall comply at all times with all federal, state, and local statutes, rules, regulations and ordinances, the federal and state constitutions, and the orders and decrees of lawful authorities having jurisdiction over the matter at issue (collectively, "Laws"), including but not limited to Florida laws regarding public records.
7. **Publicity.** Publications, press releases, media productions, etc., produced by the Recipient regarding the project shall include the following statement: *Sponsored in part by the Fort Pierce Redevelopment Agency's Commercial Façade Grant Program* from the Effective Date to six months after the date the project is completed.
8. **Progress Reports.** Upon request by the FPRA, Recipient agrees to submit written progress/status reports, including, but not limited to such reports which provide a list of activities and expenditures for the project.
9. **Records, Reports and Inspection.**
  - A. The Recipient shall maintain financial books, records, and accounting information related to this Agreement. These books, records, and information shall comply with generally accepted accounting principles. Nothing herein shall be construed to allow destruction of records that may be required to be retained longer by the statutes of the State of Florida.
  - B. The Recipient shall, at any reasonable time requested by the FPRA and as often as the FPRA may deem necessary, make available to the FPRA for examination all of its books, records and information with respect to all matters covered by this Agreement and shall permit the FPRA or its designated authorized representatives to audit and inspect all such books, records and

information, including but not limited to invoices, materials, payrolls, records of personnel, conditions of employment and other data relating to all matters covered by this Agreement.

- C. The FPRA shall have the right, at any reasonable time during the Term, to inspect the Project site and to determine that the Property use is consistent with the uses described in the Project Development Plan, in accordance with this Agreement.

**10. Default and Termination.**

- A. The FPRA may terminate this Agreement in the event of failure by the Recipient to observe or perform any term or condition of this Agreement if such failure continues for ten (10) days after written notice thereof from the FPRA to the Recipient in accordance with Paragraph 13 of this Agreement.
- B. The FPRA's liability and obligations to the Recipient or any person having a claim pursuant to this Agreement or to the completion of the Project provided by the herein described Grant funds shall be limited solely to the amount and terms and conditions of this Agreement.
- C. If this Agreement is terminated by the FPRA, the FPRA shall have no obligation to pay any of the Grant funds to the Recipient.

**11. Indemnification.** The Recipient shall defend at its expense, pay on behalf of, hold harmless and indemnify the FPRA, its officers, employees, agents, elected and appointed officials and volunteers (collectively, "Indemnified Parties") from and against any and all claims, demands, liens, liabilities, penalties, fines, fees, judgments, losses and damages (collectively, "Claims"), whether or not a lawsuit is filed, including but not limited to Claims for damage to property or bodily or personal injuries, including death at any time resulting therefrom, sustained by any persons or entities; and costs, expenses and attorneys' and experts' fees at trial and on appeal, which Claims are alleged or claimed to have arisen out of or in connection with, in whole or in part, directly or indirectly:

- A. The performance of this Agreement (including changes and amendments thereto) and any work performed on the Project by the Recipient, its employees, agents, representatives, contractors, subcontractors, or volunteers; or
- B. The failure of the Recipient, its employees, agents, representatives, contractors, subcontractors, or volunteers to comply and conform with any applicable Laws; or
- C. Any negligent act or omission of the Recipient, its employees, agents, representatives, contractors, subcontractors, or volunteers, whether or not such negligence is claimed to be either solely that of the Recipient, its employees, agents, representatives, contractors, subcontractors or volunteers or to be in conjunction with the claimed negligence of others, including that of any of the Indemnified Parties; or
- D. Any reckless or intentional wrongful act or omission of the Recipient, its employees, agents, representatives, contractors, subcontractors, or volunteers.

The provisions of this paragraph are independent of, and will not be limited by, any insurance required to be obtained by the Recipient pursuant to this Agreement or otherwise obtained by the Recipient and shall survive the expiration or earlier termination of this Agreement with respect to any Claims or liability arising in connection with any event occurring prior to such expiration or termination.

12. **Insurance.** The Recipient shall maintain insurance coverage in the form and amount deemed adequate by the FPRA for all risks inherent in the functions and aspects of its operation, including but not limited to, risks of fire, casualty, automobile coverage as required by law, workers' compensation insurance as required by law, employers' liability insurance, and general liability insurance for personal injury, property damage and contractual liability under this Agreement.
13. **Notices.** Unless and to the extent otherwise provided in this Agreement, all notices, demands, requests for approvals or other communications which are required to be given by either party to the other shall be in writing and shall be deemed given and delivered on the date delivered in person to the authorized representative of the notice recipient provided below, or upon the expiration of five (5) business days following the date mailed by registered or certified mail, postage prepaid, return receipt requested to the authorized representative of the notice recipient at the address provided below, or upon the date delivered by overnight courier (signature required) to the authorized representative of the notice recipient at the address provided below.

Fort Pierce, FL 34950

Recipient:

Jetset Events, LLC  
207 Orange Avenue Suite K  
Fort Pierce, FL 34950

14. **Assignment.** The Recipient shall not assign this Agreement without the prior written consent of the FPRA. Any assignment of this Agreement contrary to this paragraph shall be void and shall confer no rights upon the assignee. The Recipient shall notify the FPRA thirty (30) days prior to any conveyance or sale, granting or transferring any real property underlying the Project or portion thereof, to any heirs, successors, assigns or grantees, including, without limitation, the conveyance of any security interest in said real property.
15. **Due Authority.** Each party to this Agreement represents and warrants to the other party that: (i) it is a duly organized, qualified and existing entity under the laws of the State of Florida; and (ii) all appropriate action has been taken so as to duly authorize the persons executing this Agreement to so execute the same and fully bind the parties on whose behalf he or she is executing.
16. **Headings.** The paragraph headings are inserted herein for convenience and reference only, and in no way define, limit, or otherwise describe the scope or intent of any provisions hereof.
17. **No Third-Party Beneficiaries.** Notwithstanding anything to the contrary contained in this Agreement, persons, or entities not a party to this Agreement may not claim any benefit hereunder or as third-party beneficiaries hereto.
18. **Entire Agreement and Modification.** This Agreement constitutes the entire agreement between the Parties pertaining to the subject matters covered herein and there are no oral representations, arrangements, or understandings between or among the Parties relating to the subject matters of this Agreement. No change to this Agreement will be valid unless made by a written amendment executed by the Parties.

19. **Waiver.** No provision of this Agreement will be deemed waived by the FPRA unless expressly waived in writing by the FPRA. No waiver shall be implied by delay or any other act or omission of the FPRA. No waiver by the FPRA of any provision of this Agreement shall be deemed a waiver of such provision with respect to any subsequent matter relating to such provision, and the FPRA's consent respecting any action by the Recipient shall not constitute waiver of the requirement for obtaining the FPRA's consent respecting any subsequent actions.
20. **Severability.** Should any paragraph or portion of any paragraph of this Agreement be rendered void, invalid, or unenforceable by any court of law, for any reason, such a determination shall not render void, invalid, or unenforceable any other section or any part of any section of this Agreement.
21. **FPRA Consent and Action.** For purposes of this Agreement, any required written permission, consent, acceptance, approval, or agreement by the FPRA means the approval of the FPRA Board or their authorized designee, unless otherwise set forth in this Agreement or unless otherwise required by the City Charter or applicable Laws.
22. **Survival.** All obligations and rights of any party arising during or attributable to the period prior to expiration or earlier termination of this Agreement, including but not limited to those obligations and rights related to indemnification, shall survive such expiration or earlier termination.
23. **Governing Law and Venue.** This Agreement and the rights of the Parties shall be governed by and construed or enforced in accordance with the laws of the State of Florida. Venue for any action arising out of this Agreement is in the courts of St. Lucie County, Florida. Any action shall be tried as a non-jury case.

(REMAINDER OF THIS PAGE INTENTIONALLY LEFT BLANK)

## APPENDIX "A"

### PROJECT DEVELOPMENT PLAN

207 ORANGE AVENUE FORT PIERCE, FL 34950

#### Project Description

This Commercial Façade Grant is awarded to Jetset Events, LLC, for the renovation of property located at 207 Orange Avenue. This grant will provide funds to assist the Recipient improve the property by adding outdoor window boxes and hurricane shutters to the upper windows; installing security cameras; and renovating the entranceway including replacing exterior flooring, removing tile, replacing the windows and replacing the front doors with ADA compliant entrances.

The Recipient will provide to the FPRA a Final Report documenting all construction costs incurred in association with the improvements included in the Application (Appendix "B") prior to receiving reimbursement payment(s). Recipient must include:

- A. Completed W-9, as required by law, for the Recipient of the grant funds.
- B. Copies of all required closed permits.
- C. Copies of all invoices
- D. Proof of payment (Cancelled checks or bank statements)
- E. Photographs of the work undertaken
- F. Releases of liens (if applicable)
- G. Occupancy certificates (if applicable)

**Maximum FPRA Grant Award** : Fifty percent (50%) of eligible costs, not to exceed Twenty-Five Thousand Dollars (\$25,000.00).

#### Project Timelines

1. The Recipient must receive the building permits within six months of the Effective Date. During this time period, the Recipient shall provide evidence of the building permit approval to the FPRA.
2. The Recipient shall complete the Project within twelve months after the issuance of the building permits.
3. For projects not requiring a building permit, within six months of the Effective Date, the Recipient shall notify the FPRA of when it will start the Project within the aforementioned period.
4. The Recipient must provide written progress updates upon request by the FPRA.
5. Requests for payment to the FPRA, shall include the Final Report documentation itemized above.
6. Completion and/or occupancy and full operation of the services described in this Agreement shall be achieved by March 10, 2026.

These reports/request can be sent electronic or by postal mail:

Personally funded

### Design & Creativity

Our Building was used in the picture on the cover of the Grant's Overview paperwork, so that says something. :) On serious note - we have done a lot of research on our building (back to the days before it housed Western Union & Montgomery Wards Sales Order Office) & are keeping it as original as possible while bringing the front entrances up to ADA compliance & current building codes. We also are using design elements found on other buildings to keep it cohesive with neighboring downtown buildings. Some improvements, like properly draining the courtyard & bigger/more gutters, will help prevent/fix flooding during heavy rains (we are downhill of other properties). Repairing the fence wall, replacing the fence & repairing gate, along with new landscaping in the courtyard will not only be more attractive (vs blight), but then our tenants & their clients can enjoy it more so. Plus it will be safer ie help keep the homeless (& others) from coming in to sleep there at night. By doing the repairs and improvements, the building will become more energy efficient since the front is the plate glass & the windows & doors are from 30+ years ago, providing no insulation and are not safe, nor up to code. All of the projects will help with the longevity of the building - our building is in relatively great shape because of the care we put into it & properly maintain it. We are constantly updating it and only use quality materials. These projects will help with the building's overall longevity.

Provide a narrative of how your project will accomplish the following:

- Innovative and visually appealing facade design
- Compatibility with neighborhood's architectural style
- Sustainability and longevity of proposed improvements

### Community Impact/Public Benefit

Lower Level Commercial spaces' entrances will be ADA complaint. Courtyard will not be blighted/eye sore. Tenants will have more space to "entertain" their clients. Not a lot of salons in downtown, if any, (our current clients) have outdoor spaces they can use for clients. The building will look "fresh" while maintaining it's historic character, only adding beauty to the downtown.

Narrative describing how the funded project will generate meaningful positive impacts for the community and the general public.

Narrative describing how this project will address the priorities of the FPRA as outlined in the Redevelopment Plan. This narrative shall identify community benefits resulting from the project.\*

- 1) Our building is shown on page 37-39 of the FPRA's Redevelopment Plan.
- 2) Historic Preservation (pg 90) - our building is on the local historic registry & is one of the "structures that exemplify Fort Pierce's historical significance." This grant will allow us to continue to preserve the building so it will be around for many, many more years to come, plus, with it having ADA compliant entrances, more people will be able to enjoy the building & more potential clients for our current & future tenants.

From Questions on pg 103:

#9's answer - 5. Improve community aesthetics (e.g. landscaping, façade, architecture, etc.)

Below are excerpts from the FPRA Plan that our project incorporates/addresses.

GOAL The Fort Pierce Redevelopment Agency shall celebrate and support historic preservation and cultural heritage activities within the Redevelopment Area.

GOAL The Fort Pierce Redevelopment Agency shall support the City's efforts to address stormwater issues and localized flooding within the Community Redevelopment Area.

GOAL The Fort Pierce Redevelopment Agency shall Improve public safety and perception of safety within the Redevelopment Area.

Although often overlooked in redevelopment discussions, signage continues to play an important role within our communities.

## Overview

With its inset panels and classic design, the Fairfield collection is a timeless choice that will never go out of style. We use 100% high-grade polyethylene resin in the manufacturing process, making our products durable, lightweight and highly shock resistant. These Fairfield window boxes are sturdy, and provides the roots and potting mix with adequate insulation from surrounding weather conditions. These polyethylene window

- Durable window boxes: we use 100% high-grade polyethylene resin in the manufacturing process - making our products durable, lightweight and highly shock resistant
- Four season use: these 3ft window boxes are resistant to high impact, chemicals and extreme weather conditions - this product stands true to its four-season use tag with very little winter preparation
- Long lasting quality: the resin used to create our products contains built-in UV inhibitors that reduce the damaging effects of the sun - this ensures that your product doesn't fade, preserves its color and increases its overall lifespan
- Innovative design: double-wall design makes these Fairfield window boxes sturdy, and provides the roots and potting mix with adequate insulation from surrounding weather conditions
- Self-watering factor: In a self-watering window box, the planting container sits directly inside the water reservoir - the water is then pulled into the potting mix through capillary action, keeping your plants watered and happy
- The Mayne advantage: Mayne offers a 15-year residential warranty or a 5-year commercial warranty on this window box - our products are proudly designed in Canada and are made in the USA
- Weight: 13.5lbs; outside dimensions: 36in L x 11in W x 10.8in H; inside dimensions: 32.4in L x 7.4in W x 8in D; capacity: approximately 3 gallons (11.35 liters) water reservoir capacity and 6.5 gallons (24.6 liters) soil capacity

Attach a letter describing why this property should be selected to receive a grant. Please include how this project meets the goals and objectives of the FPRA Plan.\*

*Why we should be selected:*

Our Building was used in the picture on the cover of the Grant's Overview paperwork, so that says something. :) On serious note - we have done a lot of research on our building (back to the days before it housed Western Union & Montgomery Ward's Sales Order Office) & are keeping it as original as possible while bringing the front entrances up to ADA compliance & current building codes. We also are using design elements found on other buildings to keep it cohesive with neighboring downtown buildings. Some improvements, like properly draining the courtyard & bigger/more gutters, will help prevent/fix flooding during heavy rains (we are downhill of other properties). Repairing the fence wall, replacing the fence & repairing gate, along with new landscaping in the courtyard will not only be more attractive (vs blight), but then our tenants &/or their clients can enjoy it more so. Plus, it will be safer ie help keep the homeless (& others) from coming in to sleep there at night. By doing the repairs and improvements, the building will become more energy efficient since the front is the plate glass & the windows & doors are from 30+ years ago, providing no insulation and are not safe, nor up to code. All of the projects will help with the longevity of the building - our building is in relatively great shape because of the care we put into it & properly maintain it. We are constantly updating it and only use quality materials. These projects will help with the building's overall longevity.

Lower Level Commercial spaces' entrances will be ADA complaint. Courtyard will not be blighted/eye sore. Tenants will have more space to "entertain" their clients. Not a lot of downtown salons (our current clients), if any, have outdoor spaces they can use for clients. The building will look "fresh" while maintaining its historic character, only adding beauty to the downtown.

*How this project meets the goals & Objectives of the FPRA Plan*

1) Our building is shown on page 37-39 of the FPRA's Redevelopment Plan.

2) Historic Preservation (pg 90) - our building is on the local historic registry & is one of the "structures that exemplify Fort Pierce's historical significance." This grant will allow us to continue to preserve the building so it will be around for many, many more years to come, plus, with it having ADA compliant entrances, more people will be able to enjoy the building & more potential clients for our current & future tenants.

From Questions on pg 103:

#9's answer - 5. Improve community aesthetics (e.g. landscaping, façade, architecture, etc.)

Below are excerpts from the FPRA Plan that our project incorporates/addresses.

GOAL The Fort Pierce Redevelopment Agency shall celebrate and support historic preservation and cultural heritage activities within the Redevelopment Area.

GOAL The Fort Pierce Redevelopment Agency shall support the City's efforts to address stormwater issues and localized flooding within the Community Redevelopment Area.

GOAL The Fort Pierce Redevelopment Agency shall Improve public safety and perception of safety within the Redevelopment Area.

Although often overlooked in redevelopment discussions, signage continues to play an important role within our communities.

207-209 Orange Avenue

(Updated July 28, 2024)

### Desired Improvements:

The estimates for the desired improvements to our FRONT façade & roof total over \$120,000.00, but are for multiple projects. Since the Grant is maxed to matching \$25,000, we were not exactly sure how this works/best way to approach this. We decided to list all the projects and their estimated costs to complete, then together, we can figure out the best way to complete these projects.

We would like to complete Projects 1-3 under this Grant in the allotted time, which total over \$70k, not including architectural fees. (& use Project #4 & #5 as an alternate, if that is allowed).

We are including the costs for the Roof Replacement (Project #4) & Roll Down Hurricane Screen or Shutter (Project #5), but we would rather focus on Projects 1-3, which we can complete a lot faster (especially being in hurricane season). Ie, we would not look to replace the roof until after hurricane season, most likely not until January 2025 due to our schedule. However, if for some reason Projects 1-3 (or aspects of them) are not approved, and we somehow fall under the total cost of \$50k, we would like Project # 4 & 5 to be considered. This will allow us to maximize the grant, which in turn will allow us to make the biggest impact.

**Note:** We did look into applying for the separate Paint & Sign Grants, but the Paint Grant states, "*Properties that have previously been awarded financial assistance from the FPR.A within the five years are not eligible for this program.*" (I believe the word "last" is missing.) We were not sure if this is the same for the Sign Grant. For now, we are keeping everything under the Façade Grant, but would be happy to separate our touchup painting & signage if applying for those grants would not hurt our Façade Grant Application.

Essentially, we just do not want to over commit ourselves with all 5 projects since this is a Historic Building and there are a lot of moving parts, approvals needed plus we have to coordinate with our tenants – we want to ensure we can complete the projects within the required timeframe. We also want to be fiscally responsible as well. With this being a reimbursable grant, we prefer to not to commit ourselves to spending \$100k *before* being reimbursed \$25k. While we intend to complete all the projects (& then some), we rather not tie one or two of the projects into this grant which will allow us to spend less (min \$50k) before being reimbursed the \$25k. This would also allow us to start making other necessary required improvements.

For example, we intend to make some NECESSARY improvements to the back façade and courtyard of our building starting in August 2024, which are NOT covered by this grant, and are estimated to cost an additional ~\$17k. This would include fixing the cement wall around the property (which cracked/separated on one side), replacing the wood fencing on top of the cement wall, new frame for gate, fix the drainage issue, replace 1 window, replace 3 doors & 2 locks, replace/add light fixtures by the doors, landscaping and add new security cameras. (I am including pictures of the current condition and the renderings, which were included in our original application, so you can see what our plans are. **Note:** We tabled adding the upper decking/balcony for now because we are looking into bringing our interior rear steps up to code, which could interfere with the deck).

In closing, we are excited that this grant is available because as many of you know, ADA accessibility is very important to us. We have been wanting to redo the front of our building to make it ADA compliant for a few years now, but it is an expensive capital investment where we most likely will not see a ROI until we sell the building & just could not justify the cost when we had many other necessary improvements needing to be completed. At the end of the day, these historical buildings are expensive to maintain, let alone bring up to code, and there is only so much money you can put towards these improvements when overall rental income is a little on the lower side. THANK YOU for providing this grant!! This grant will allow us to keep improving our building while maintaining affordable rents = Win-Win for patrons, tenants, our building and its future!

**P.S.** It was very flattering to see our building in the picture for the Façade Grant Overview! Hopefully we can continue to be an inspiration! 😊

*Thank you, again!*

### Project #1:

**Touch Up Painting:** Estimated Cost: \$1,300.00

- The upper part of building that faces US 1, needs to be repainted – fix issue causing rust & repaint.

### Project #2:

**Front Façade (*Part 1*)** – Estimated Cost ~\$12,867.90 (*does not include architect fees*)

#### Upper Level

- Add Flower Boxes to all 4 Windows
- Add 1 Sign Bracket (in center of building & below window boxes) for up to 2 store fronts advertise. This is not in the conceptual picture (it was hard to incorporate it with the palm tree). We did include a picture of the bracket with sketches.
- Add Hurricane Colonial Shutters on the windows
  - The outer 2 windows would have shutter on both sides & the 2 windows in the center of the building would have a slightly larger shutter on just the outside of each window, which would be a bifold, that when opened would extend across the entire window.
    - Our windows were manufactured in the 2<sup>nd</sup> quarter of 2008 (over 18 years ago). Not a very high DP for today's standards & have "ANSI Specific instruction testing and certification of safety glazing products, 2004 edition."

#### Lower Level

- Add security cameras, replace 1 ring video doorbell & add 1 new ring video doorbell for tenant's main door.
  - We have been having a lot of issues downtown, we would like to add 2 cameras facing in front of our building on orange avenue & 2 facing inside alcove, this would cover all blind spots we currently have.
    - We do not mind installing 2 more facing down orange avenue, away from our building to give even more coverage (we would need to increase camera cost). The police know we have a ring camera and come to us whenever there is an issue asking to see out footage since there is no good camera coverage currently in this section.

### Project #3:

**Front Façade (*Part 2*)** – Estimated Cost: ~\$56,136.95 (*does not include architect fees*)

#### Lower Level

##### ***Make the 3 entrances ADA Compliant***

- Replace Tile on the Ground in Alcove
- Remove all tile on store fronts, including tiles with addresses above the doors
  - The tiles with the address are not original. Originally, all 3 doors had transoms above them, which were covered up during one of the renovations. The transom above door #3 was removed many years ago to install an AC Unit in its place.
- Replace Doors with ones that are ADA Compliant
  - Doors with either be full glass or ½ - ¾ glass fronts to allow for a mail slot (since we are having issues with mailboxes being broken into & vandalized).
    - If space allows, we will add decorative molding below the glass.
      - For reference –if we do ½ - ¾ glass doors, they will be "similar style" to the doors on the building directly across the street, ie Sunrise City Café (except ours will be single) – *Picture for reference is included in packet.*
- Have transoms above all 3 doors (which were in the earliest pictures that we have of the building)
  - Add the street address #s back on the transoms

- This is how they were in the early pictures of the building, except # 209, which its # was added to the trim below the transom/above the door, due to the transom being removed to install the AC unit.
- Replace the Plate Glass – Updated from our original application - We were able to find a company that has windows that are the same size we currently have, that meet the building code & looks like we can rework the front where we can keep the same size glass and add ADA doors. If for some reason we cannot & we have to reduce the window size (to allow for wider doors & to line up properly with interior spaces), then we would go with our alternate option.
  - *Alternate Option:* Reduce overall size of windows somewhat and add a transom above. We will keep the windows as large as possible.
- Add decorative molding below windows
- Stucco/Paint/finish the alcove the same color as the columns and building trim (which is Cameo White).

#### Project #4:

**New Roof: Estimated Cost: \$28,000.00**

- This is for brand new roof, not roof repair.
- The roof was last replaced in 2004 after a hurricane ripped it off (it is 20 years old & has issues – maybe due to the urgency of replacing it). Currently, there are a lot of soft spots and when the “new additions” were added to the building on the back (I believe 1<sup>st</sup> addition was ~1953 & other section ~1963), they are lower than the main building and during extremely heavy rains, water sometimes leaks into the building where the “old” & “new” additions meet. (Several roofers have tried to identify the issue, but with all the layers/patchwork over the years, including prior to us purchasing the building in late 2017, they really can’t. The only way to resolve it is when a new roof is installed, they can fix the slopes & properly seal everything during the process).

#### Project #5:

**Front Façade (Part 3) – Estimated Cost: ~\$13,611.47 - \$15,340.60**

##### Lower Level – Install Roll Down Hurricane Screen or Shutters over Alcove

- *While we were talking with the hurricane shutter company, they recommended installing a roll down screen or shutter for the alcove area. We are still investigating this but wanted to include it as an alternative option. We are looking into the pros & cons of the screens vs shutters. The shutters are a lot more durable and cannot be cut, but we have design challenges with our center columns and the display glass to the far right where shutters might not be possible.*
- Add roll down hurricane screen or shutters to protect the Plate Glass Windows. We plan to redo the lower front façade (Project #3), but are considering putting this in 1<sup>st</sup> to help protect our windows asap since we most likely will not be able to start on the front Façade remodel until the end of the hurricane season, weather depending. The current plate glass windows are from the 1980s & will most likely not survive a strong storm. Yes, we are putting in impact windows in the remodel, but the roll down screen or shutters would give an extra layer of protection from the storms immediately (& future) PLUS prevention/deterrence from general damage/vandalism.
  - During block parties, we will be able to lower it to prevent people from coming in & sitting on our ledges/leaning against the glass, prevent glass breakage, leaving drinks behind (which they do now).
  - Deter overall damage/theft of break-ins
    - There have been several plate glass windows & doors broken downtown during events & robberies.
  - Prevent the home challenged from hanging out underneath the alcove at night.
    - There have been issues with defecation in alcoves & entry ways.
    - We do not plan to lower them every night, but we would have that option when there is a potential issue.
- Design:
  - The top would be mounted ~ 14”-16” above the alcove. That way, when the screen or shutter is rolled up, it will be flush with the bottom of the building.

- The metal for the casing along the top and the tracks down the side would be painted the same color as the building to blend in.
- We would have to remove the mailbox on the left of the building (which we own) & we really are not using it due to the break-ins.
  - The General Postmaster said even if they re-keyed it/put in new cylinders, that would not fix the issue since the Master Key would open new locks.
- The track running down both sides of the building would stick off the building ~ 4" (which is a lot shallower than the mailbox).
  - This is so when the wind blows & the screen "gives" a little, it will not blow into the display glass on the far right & both would need to clear the columns at the top.
- The screen or shutter that rolls down would be white.

### Proposed Timeline once Approved by FPRA:

We understand that the Project needs to be started within 6 months of the FPRA Board's approval and completed within 12 months of Building Permit Issuance. Below is the preliminary timeline for Project #1-5.

**Project #1 - Touch Up Painting:** – Start within 30 days of receiving FPRA's Notice of Approval since no Historical approval (COA) is needed (paint color is not changing.)

**Project #2 – Front Façade PART 1 (Upper & Lower Level) – Lower Level – (Security Cameras)** we can start right away since there are no permits or Historical Board approval required. The Upper Level will require at a minimum Historical Approval (COA) for the Shutters, Window Boxes & Signage:

- Architect's design & drawings to be completed in ~ 30 days from FPRA Approval Notice on those items that require them (this is based on our Architect's current workload)
- Once the Architect's drawings are complete, we will immediately submit them to Maria Lewicka in the Planning Department for Historical review & approval.
  - We already had a "preliminary" talk with Maria about our ideas and plan to send her our conceptual drawings and desired changes the same time we submit the FPRA Façade Grant Application so we can keep moving forward & limit any possible delays in that aspect.
    - If Maria cannot do an administrative approval & we need to go in front of the Historic Preservation Board for approval – that could take 30-45 days to be added as an Agenda Item.
- Once we are approved, whether administratively or via the Historic Board, then the plans will be immediately submitted to the Building Department for review.
  - If the Historic Board requires any changes, then that could add more time to allow the Architect to update drawings and then be added back to the Historical Board as an Agenda Item.
- Once the Building Plans are approved, then we plan to start right away.
  - We will have to wait until the plans are approved to coordinate with the Contractor & Subs to see when they can schedule our work, plus current delivery time for shutters & window boxes once approved by FPRA.

### Project #3 - Front Façade PART 2 (Lower Level) – ADA Compliance

- This will require Historical Approval (COA).
- We plan to follow essentially the same timeline as Project #2 for the Upper Façade as far as approvals.
- We will have to wait until the plans are approved by Historical & then Building Dept to coordinate with the Contractor & Subs to see when they can schedule our work, plus current delivery time for windows & supplies once all is approved.
- We will also have to coordinate with our tenants.
- But we plan to complete the projects well within the 12 months of the Building Permit Issuance. (unless any force majeure or act of God occurs, which could affect the timeline).

Timeline for alternate Project #4 & 5

**Project #4 - New Roof**

- Roofing company would submit for Building Permits ~November 2024, so we can begin work in January 2025.

**Project #5 – Front Façade PART 3 (Lower Level)**

**Roll Down Hurricane Screen or Shutters for Alcove**

- This would require Historical Approval (COA). We plan to send renderings to Maria at the same time we submit this updated FPRRA narrative to see if this would need to go in front of the Historical Board or if she can administratively approve it.
  - We are considering having this installed right away, but if it proves to be too difficult or takes too long for approval, then we will most likely table it/remove it from the Grant to allow us to focus on and allocate funds to other projects.
