Subject: Building Department - Danielle Goncalves

Dear Ms. Cox, Mayor Hudson and Commissioners,

I wanted to write to the city today to express my appreciation for the Building Department's, Permit Specialist, Danille Goncalves. As many of you know, we recently had some struggles working through the city's planning and building department processes in order to secure a permit for one of our projects.

Throughout this process, Danielle Goncalves provided excellent communication and was exceptionally helpful. She represented the absolute best in customer service and has truly been a pleasure to work with. I was so impressed with Danielle that I felt compelled to write to you. Please recognize her for her excellence and professionalism in representing the city.

Best regards,

Dave Strothmann
