Thank  
you

Dear Building Department Staff

My family would like to thank you all for the friendly, positive and very professional help I recieved in trying to address safety concerns about construction in our Hutchinson Island Atlantic View 1 Condo. We didn't feel safe and were quite unsure how to get help. It turned out we're not "city" but we were quickly directed to correct and effective help which resulted in a stop work order that was a great relief assuring us safety in our home. It may be a regular day for ya'll but it meant a lot to us, so thank you and keep up your important work

Allyabeth Gower
