AMENDED CONTINUING CONTRACT FOR

PROFESSIONAL SERVICES

THIS AGREEMENT for PROFESSIONAL SERVICES (hereinafter referred to as "Agreement" or "Contract") is made and entered into this 16 day of September, 2024 by and between the City of Fort Pierce, Florida, a political subdivision of the State of Florida (hereinafter referred to as the "City") and **COTLEUR & HEARING, INC.**, whose principal address is **1934 Commerce Lane, Suite 1, Jupiter, FL 33458** (hereinafter referred to as "Consultant").

WHEREAS, pursuant to RFQ No. 2024-005 and Section 287.055, Florida Statutes, the City solicited proposals for non-exclusive continuing contracts to perform professional services; and

WHEREAS, the Consultant is qualified pursuant to Section 287.055, Florida Statutes, to provide services within the scope of practice of **professional architectural services** under a continuing contract; and

WHEREAS, at the regularly scheduled meeting on February 20, 2024, the City Commission of the City of Fort Pierce approved the negotiations of a continuing contract and authorized the execution of an agreement for Continuing Professional Services between the City and Consultant; and

WHEREAS, a previous continuing contract for professional services was executed on July 15, 2024, the terms of which have been updated, and the previously-executed contract is hereby replaced in its entirety with this Amended Continuing Contract for Professional Services; and

WHEREAS, the Consultant is willing and able to render professional services for various projects on an as-needed basis and for the compensation and on the terms hereinafter set forth.

NOW, THEREFORE, the parties hereto, in consideration of the mutual covenants, agreements, terms, and condition contained herein, do agree as follows:

1. SERVICES

The Consultant's responsibility under this Agreement is to provide professional services within the scope of practice of **professional architecture services and urban planning** (hereinafter "professional services").

Consultant represents to the City that the professional services to be performed under this Agreement shall be in accordance with the highest standards accepted and established practices and procedures recognized as such in Consultant's trade in general and that Consultant shall conform to this Agreement.

Consultant shall be responsible for the technical accuracy of its professional services and documents resulting therefrom, and City shall not be responsible for

discovering deficiencies therein. Consultant shall correct any such deficiencies without additional compensation or cost to City, except to the extent any such deficiency is directly attributable to deficiencies in City-furnished information.

Consultant shall be responsible for the completeness and accuracy of the work prepared or compiled under Consultant's obligation for each project and shall correct, at Consultant's expense, all errors or omissions therein which may be disclosed. The cost necessary to correct those errors attributable to Consultant and any damage incurred by City as a result of additional costs to City caused by such errors shall be chargeable to Consultant and shall not be considered a cost of the Work. The fact that City has reviewed or approved Consultant's work shall in no way relieve Consultant of any of its responsibilities.

2. TERM

The term of this Agreement shall be for a period of one (1) year beginning on the date first written above, with three (3) one (1) year renewal options available.

3. TECHNICAL AND PROFESSIONAL SERVICES

It shall be the responsibility of the Consultant to work with the City to provide professional services related projects for City. Each project will require a separate Specific Authorization using a form agreed to by both parties. The Specific Authorization shall set out the Scope of Work, time of performance, compensation schedule for each project, and any other necessary terms.

4. PERIOD OF SERVICE; SPECIFIC AUTHORIZATIONS

A. The Consultant will be available to begin work promptly after receipt of a fully executed copy of this Agreement. It is agreed that this Agreement shall be considered as a continuing contract and work will be initiated on an assignment-by-assignment basis through the execution of a Specific Authorization. The City reserves the right to select the respective Consultant who the City believes is in its best interest to perform the specified work.

B. If the Consultant's professional services called for under this Agreement are delayed for reasons beyond the Consultant's control, the time of performance shall be adjusted appropriately through a Change Order, and only upon agreement by the City to the adjustment and that the reasons were beyond the Consultant's control, as outlined in Paragraph 17, below.

C. Specific work assignments shall be set forth in individual Specific Authorizations, which will be issued to the Consultant. All Specific Authorizations shall be executed on behalf of the City in accordance with the City Purchasing Policy. The Specific Authorizations shall describe the scope of the work to be performed, cost to perform the work and shall set forth the schedule for completion of the work.

D. The City shall provide all criteria and full information as to City's requirements for the assignment and designate in writing a person with authority to act on City's behalf on all matters concerning this assignment.

5. TIME OF PERFORMANCE

Each project performed pursuant to this Agreement shall be performed in a timely manner without unreasonable delay within the time period identified in the Specific Authorization.

If the work is not fully completed according to the terms of the Agreement and within the time limits stipulated in the individual Specific Authorization, it is hereby acknowledged that the City will suffer damages which are not capable of ascertainment or calculation, and therefore the Consultant shall pay the City liquidated damages, a sum of which will be outlined in each individual Specific Authorization, per day for each day following the required completion date, until the date upon which actual completion occurs.

6. COMPENSATION

The Consultant shall be compensated for all services satisfactorily completed in accordance with the terms and conditions of this Agreement and each Specific Authorization. All invoices presented to the City for payment shall be on a Request for Payment form approved by the City. Payment for services performed will be processed within forty-five (45) days of receipt and approval of a proper invoice and in accordance with the applicable terms of the Local Government Prompt Payment Act, Sections 218.70-80, Florida Statutes.

7. GENERAL CONDITIONS

A. It is understood and agreed that the Consultant's services under this Agreement do not include participation, whatsoever, in any litigation. Should such services be required, a supplemental agreement may be negotiated between the City and the Consultant describing the services desired and providing a basis for compensation to the Consultant.

B. Upon the Consultant's written request, the City will furnish or cause to be furnished such reports, studies, instruments, documents, and other information as the Consultant and City mutually deem necessary; and the Consultant may rely upon same in performing the services required under this Agreement.

8. TRUTH-IN-NEGOTIATION CERTIFICATE

Execution of this Agreement by Consultant shall act as the execution of a truth-in-negotiation certificate stating that wage rates and other factual unit costs supporting the compensation of this Agreement are accurate, complete and current at the time of execution of the Agreement. The original Agreement rates and any additions thereto shall be adjusted to exclude any significant sums by which City determines the Agreement rate(s) was increased due to inaccurate, incomplete, or non-current wage rates and other factual unit costs. All such rate adjustments shall be made within one year following the end of this Agreement.

9. DEFAULT/TERMINATION

A. FOR CAUSE

If either party fails to fulfill its obligations under this Agreement in a timely and proper manner, the other party shall have the right to terminate this Agreement by giving written notice of any deficiency and by allowing the party in default seven (7) calendar days to correct the deficiency. If the defaulting party fails to correct the deficiency within this time, this Agreement shall terminate at the expiration of the seven (7) calendar day time period.

With regard to the Consultant, the following items shall be considered a default under this Agreement:

1) If the Consultant should be adjudged bankrupt, or if he, or it, should make a general assignment for the benefit of his, or its, creditors, or if a receiver should be appointed on account of his, or its, insolvency.

2) If the Consultant should persistently or repeatedly refuse or fail, except in cases for which an extension of time is provided, to provide the services contemplated by this Agreement.

3) If the Consultant disregards laws, ordinances, or the instructions of the Project Manager or otherwise is guilty of a substantial violation of the provisions of this Agreement.

In the event of termination, the Consultant shall only be entitled to receive payment for work satisfactorily completed prior to the termination date.

B. WITHOUT CAUSE

Either party may terminate the Agreement without cause at any time upon thirty (30) calendar days prior written notice to the other party. In the event of termination, the

City shall compensate the Consultant for all authorized work satisfactorily performed through the termination date.

10. SUBCONSULTANTS AND SUBCONTRACTORS

In the event the Consultant requires the services of any subconsultant, subcontractor or professional associate in connection with the services to be provided under this Agreement, Consultant shall secure the written approval of City Project Manager before engaging such subconsultant, subcontractor, or professional associate.

If a subconsultant fails to perform or make progress, as required by this Agreement, and it is necessary to replace the subconsultant to complete the work in a timely fashion, the Consultant shall promptly do so, subject to acceptance of the new subconsultant by the City. The substitution of a subcontractor shall not be adequate cause to excuse a delay in the performance of any portion of this Agreement as set forth in the Scope of Work.

The Consultant, its subconsultants, agents, servants, or employees agree to be bound by the Terms and Conditions of this Agreement and in the Consultant's agreement with the subconsultant for work to be performed for the City, the Consultant must incorporate the terms of this Agreement.

11. FEDERAL AND STATE TAX

The City is exempt from payment of Florida State Sales and Use Taxes.

The City will sign an exemption certificate submitted by the Consultant. The Consultant shall not be exempted from paying sales tax to its suppliers for materials used to fulfill contractual obligations with the City, nor is the Consultant authorized to use the City's Tax Exemption Number in securing such materials.

The Consultant shall be responsible for payment of its own and its share of its employees' payroll, payroll taxes, and benefits with respect to this Agreement.

12. INSURANCE

Consultant shall, at its own expense, procure and maintain throughout the term of this Agreement, with insurers acceptable to the City, the types and amounts of insurance conforming to the minimum requirements set forth herein.

A. EVIDENCE OF INSURANCE

Consultant shall not commence work until the required insurance is in force and evidence of insurance acceptable to the City has been provided to, and approved by, the City. The City at all times reserves the right to request such additional

documentation and evidence of insurance as in its sole discretion it may require and the Consultant hereby agrees to provide same.

With respect to the Workers' Compensation/Employer's Liability Insurance, Professional Liability and Business Auto Liability Insurance, an appropriate Certificate of Insurance (which identifies the project), and a copy of the actual notice of cancellation endorsement(s) as issued on the policy(ies), signed by an authorized representative of the insurer(s) shall be satisfactory evidence of insurance. With respect to the Commercial General Liability, an appropriate Certificate of Insurance (which identifies the project) signed by an authorized representative of the insurer, and copies of the actual additional insured and notice of cancellation endorsements as issued on the policy(ies), shall be satisfactory evidence of such insurance.

If the insurance policies expire or terminate during the term of this Agreement Consultant shall provide City with renewal or replacement evidence of the insurance, including endorsements, no less than fifteen (15) days before the expiration or termination of the insurance for which previous evidence of insurance has been provided.

Notwithstanding the prior submission of a Certificate of Insurance, copies of endorsements, or other evidence initially acceptable to City, if requested by City, Consultant shall, within thirty (30) days after receipt of a written request from City, provide City with a certified copy or certified copies of the policy or policies providing the coverage required. Consultant’s obligation to indemnify and hold harmless shall remain in effect and shall be binding upon Consultant whether such injury or damage shall accrue, or may be discovered, before or after termination of this Agreement.

Such written notification shall identify the prospective business association, interest or circumstance, the nature of work that the Consultant may undertake and request an opinion of the City as to whether the association, interest or circumstance would, in the opinion of the City, constitute a conflict of interest if entered into by the Consultant. The City agrees to notify the Consultant of its opinion by certified mail within thirty (30) days of receipt of notification by the Consultant. 18. PLEDGE OF CREDIT, ARREARS

The Consultant shall not pledge the City's credit or make it a guarantor of payment of surety for any contract, debt, obligation, judgment, lien, or any form of indebtedness. The Consultant further warrants and represents that it has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

19. OWNERSHIP OF DOCUMENTS

All original sketches, tracings, drawings, computations, details, design calculations, and other documents and plans that result from the Consultant's services under this Agreement are and remain the property of the City as instruments of service. 20. INDEPENDENT CONSULTANT RELATIONSHIP

The Consultant will provide the professional and technical services required for the successful completion of this Agreement in accordance with practices generally acceptable within the industry and good ethical standards.

The Consultant agrees that payment(s) made under this Agreement shall be subject to reduction for amounts charged thereto which are found based on audit examination not to constitute allowable costs under this Agreement. The Consultant shall refund by check payable to the City the amount of such reduction of payments. All required records shall be maintained until an audit is completed and all questions arising therefrom are resolved, or three years after completion of the project and issuance of the final certificate, or as otherwise applicable under law.

The Consultant covenants and agrees that the Consultant shall not discriminate against any employee or applicant for employment to be employed in the performance of the Agreement with respect to hiring, tenure, terms, conditions or privileges of employment, or any matter directly or indirectly related to employment because of age, sex or physical handicaps (except where based on a bona fide occupational qualification); or because of marital status, race, color, religion, national origin or ancestry.

26. ENFORCEMENT COSTS

It is understood and agreed that the Consultant's services under this Agreement do not include any participation, whatsoever, in any litigation. Proof of such licenses and approvals shall be submitted to the City's representative on an annual basis.

28. SEVERABILITY

If any term or provision of this Agreement, or the application thereof to any person or circumstances shall, to any extent, be held invalid or unenforceable, the remainder of this Agreement, or the application of such terms or provisions to persons or circumstances other than those as to which it is held invalid or unenforceable, shall not be affected, and every other term provision of this Agreement shall be deemed valid and enforceable to the extent permitted by law.

30. COMPLETE AGREEMENT

This Agreement states the entire understanding between the parties and supersedes any written or oral representations, statements, negotiations, or agreements to the contrary. The Consultant recognizes that any representations, statements or negotiations made by the City staff do not suffice to legally bind the City in a contractual relationship unless they have been reduced to writing, authorized, and signed by an authorized City representative. This Agreement shall bind the parties, their assigns, and successors in interest.

31. AMENDMENT

This Agreement may be amended only with the written approval and agreement of the parties.

Consultant shall consider all information provided by City and all drawings, reports, studies, design calculations, specifications, and other documents resulting from the Consultant's performance of the services to be proprietary unless such information is available from public sources. Consultant shall not publish or disclose proprietary information for any purpose other than the performance of the services without the prior written authorization of the City, in response to legal process, or in accordance with applicable law.

41. E-VERIFY

WHEREAS, pursuant to RFQ No. 2024-005 and Section 287.055, Florida Statutes, the City solicited proposals for non-exclusive continuing contracts to perform professional services; and

WHEREAS, the Consultant is qualified pursuant to Section 287.055, Florida Statutes, to provide services within the scope of practice of **professional engineering services** [insert one of the following: professional architecture, engineering, landscape architecture, or registered surveyor and mapper services] under a continuing contract; and

Consultant shall be responsible for the technical accuracy of its professional services and documents resulting therefrom, and City shall not be responsible for discovering deficiencies therein. Consultant shall correct any such deficiencies without

Consultant shall be responsible for the completeness and accuracy of the work prepared or compiled under Consultant's obligation for each project and shall correct, at Consultant's expense, all errors or omissions therein which may be disclosed. The cost necessary to correct those errors attributable to Consultant and any damage incurred by City as a result of additional costs to City caused by such errors shall be chargeable to Consultant and shall not be considered a cost of the Work. The fact that City has reviewed or approved Consultant's work shall in no way relieve Consultant of any of its responsibilities.

2. TERM

The term of this Agreement shall be for a period of one (1) year beginning on the date first written above, with three (3) one (1) year renewal options available.

3. TECHNICAL AND PROFESSIONAL SERVICES

It shall be the responsibility of the Consultant to work with the City to provide professional services related projects for City. B. If the Consultant's professional services called for under this Agreement are delayed for reasons beyond the Consultant's control, the time of performance shall be adjusted appropriately through a Change Order, and only upon agreement by the City to the adjustment and that the reasons were beyond the Consultant's control, as outlined in Paragraph 17, below.

C. Specific work assignments shall be set forth in individual Specific Authorizations, which will be issued to the Consultant. All Specific Authorizations shall be executed on behalf of the City in accordance with the City Purchasing Policy. The Work Assignments shall describe the scope of the work to be performed, cost to perform the work and shall set forth the schedule for completion of the work.

D. The City shall provide all criteria and full information as to City's requirements for the assignment and designate in writing a person with authority to act on City's behalf on all matters concerning this assignment.

5. TIME OF PERFORMANCE

Each project performed pursuant to this Agreement shall be performed in a timely manner without unreasonable delay within the time period identified in the Specific Authorization.

If the work is not fully completed according to the terms of the Agreement and within the time limits stipulated in the individual Specific Authorization, it is hereby acknowledged that the City will suffer damages which are not capable of ascertainment or calculation, and therefore the Consultant shall pay the City liquidated damages, a sum of which will be outlined in each individual Specific Authorization, per day for each day following the required completion date, until the date upon which actual completion occurs.

6. COMPENSATION

The Consultant shall be compensated for all services satisfactorily completed in accordance with the terms and conditions of this Agreement and each work order. All invoices presented to the City for payment shall be on a Request for Payment form approved by the City. Payment for services performed will be processed within forty-five (45) days of receipt and approval of a proper invoice and in accordance with the applicable terms of the Local Government Prompt Payment Act, Sections 218.70-80, Florida Statutes.

7. GENERAL CONDITIONS

A. It is understood and agreed that the Consultant's services under this Agreement do not include participation, whatsoever, in any litigation. Should such services be required, a supplemental agreement may be negotiated between the City and the Consultant describing the services desired and providing a basis for compensation to the Consultant.

B. Upon the Consultant's written request, the City will furnish or cause to be furnished such reports, studies, instruments, documents, and other information as the Consultant and City mutually deem necessary; and the Consultant may rely upon same in performing the services required under this Agreement.

8. TRUTH-IN-NEGOTIATION CERTIFICATE

Execution of this Agreement by Consultant shall act as the execution of as truth-in-negotiation certificate stating that wage rates and other factual unit costs supporting the compensation of this Agreement are accurate, complete and current at the time of execution of the Agreement. The original Agreement rates and any additions thereto shall be adjusted to exclude any significant sums by which City determines the Agreement rate(s) was increased due to inaccurate, incomplete, or non-current wage rates and other factual unit costs. All such rate adjustments shall be made within one year following the end of this Agreement.

9. DEFAULT/TERMINATION

A. FOR CAUSE

If either party fails to fulfill its obligations under this Agreement in a timely and proper manner, the other party shall have the right to terminate this Agreement by giving written notice of any deficiency and by allowing the party in default seven (7) calendar days to correct the deficiency. If the defaulting party fails to correct the deficiency within this time, this Agreement shall terminate at the expiration of the seven (7) calendar day time period.

With regard to the Consultant, the following items shall be considered a default under this Agreement:

1) If the Consultant should be adjudged bankrupt, or if he, or it, should make a general assignment for the benefit of his, or its, creditors, or if a receiver should be appointed on account of his, or its, insolvency.

2) If the Consultant should persistently or repeatedly refuse or fail, except in cases for which an extension of time is provided, to provide the services contemplated by this Agreement.

3) If the Consultant disregards laws, ordinances, or the instructions of the Project Manager or otherwise is guilty of a substantial violation of the provisions of this Agreement.

In the event of termination, the Consultant shall only be entitled to receive payment for work satisfactorily completed prior to the termination date.

If a subconsultant fails to perform or make progress, as required by this Agreement, and it is necessary to replace the subconsultant to complete the work in a timely fashion, the Consultant shall promptly do so, subject to acceptance of the new subconsultant by the City. The substitution of a subcontractor shall not be adequate cause to excuse a delay in the performance any portion of this Agreement as set forth in the Scope of Work.

The Consultant, its subconsultants, agents, servants, or employees agree to be bound by the Terms and Conditions of this Agreement and in the Consultant's agreement with the subconsultant for work to be performed for the City, the Consultant must incorporate the terms of this Agreement.

CONTINUING CONTRACT FOR

PROFESSIONAL SERVICES

THIS AGREEMENT for PROFESSIONAL SERVICES (hereinafter referred to as "Agreement" or "Contract") is made and entered into this 21st day of October, 2024 by and between the City of Fort Pierce, Florida, a political subdivision of the State of Florida (hereinafter referred to as the "City") and **Inspire Placemaking Collective, Inc.**, whose principal address is **4767 New Broad Street, Orlando, Florida 32814** (hereinafter referred to as "Consultant").

WHEREAS, pursuant to RFQ No. 2024-005 and Section 287.055, Florida Statutes, the City solicited proposals for non-exclusive continuing contracts to perform professional services; and

WHEREAS, the Consultant is qualified pursuant to Section 287.055, Florida Statutes, to provide services within the scope of practice of **landscape architectural services** under a continuing contract; and

WHEREAS, at the regularly scheduled meeting on February 20, 2024, the City Commission of the City of Fort Pierce approved the negotiations of a continuing contract and authorized the execution of an agreement for Continuing Professional Services between the City and Consultant; and

WHEREAS, the Consultant is willing and able to render professional services for various projects on an as-needed basis and for the compensation and on the terms hereinafter set forth.

NOW, THEREFORE, the parties hereto, in consideration of the mutual covenants, agreements, terms, and condition contained herein, do agree as follows:

1. SERVICES

The Consultant's responsibility under this Agreement is to provide professional services within the scope of practice of **landscape architectural services** (hereinafter "professional services").

Consultant represents to the City that the professional services to be performed under this Agreement shall be in accordance with the highest standards accepted and established practices and procedures recognized as such in Consultant's trade in general and that Consultant shall conform to this Agreement.

Consultant shall be responsible for the technical accuracy of its professional services and documents resulting therefrom, and City shall not be responsible for discovering deficiencies therein. Consultant shall correct any such deficiencies without additional compensation or cost to City, except to the extent any such deficiency is directly attributable to deficiencies in City-furnished information.

Consultant shall be responsible for the completeness and accuracy of the work prepared or compiled under Consultant's obligation for each project and shall correct, at Consultant's expense, all errors or omissions therein which may be disclosed. The cost necessary to correct those errors attributable to Consultant and any damage incurred by City as a result of additional costs to City caused by such errors shall be chargeable to Consultant and shall not be considered a cost of the Work. The fact that City has reviewed or approved Consultant's work shall in no way relieve Consultant of any of its responsibilities.

2. TERM

The term of this Agreement shall be for a period of one (1) year beginning on the date first written above, with three (3) one (1) year renewal options available.

3. TECHNICAL AND PROFESSIONAL SERVICES

It shall be the responsibility of the Consultant to work with the City to provide professional services related projects for City. Each project will require a separate Specific Authorization using a form agreed to by both parties. The Specific Authorization shall set out the Scope of Work, time of performance, compensation schedule for each project, and any other necessary terms.

4. PERIOD OF SERVICE; SPECIFIC AUTHORIZATIONS

A. The Consultant will be available to begin work promptly after receipt of a fully executed copy of this Agreement. It is agreed that this Agreement shall be considered as a continuing contract and work will be initiated on an assignment-by-assignment basis through the execution of a Specific Authorization. The City reserves the right to select the respective Consultant who the City believes is in its best interest to perform the specified work.

B. If the Consultant's professional services called for under this Agreement are delayed for reasons beyond the Consultant's control, the time of performance shall be adjusted appropriately through a Change Order, and only upon agreement by the City to the adjustment and that the reasons were beyond the Consultant's control, as outlined in Paragraph 17, below.

C. Specific work assignments shall be set forth in individual Specific Authorizations, which will be issued to the Consultant. All Specific Authorizations shall be executed on behalf of the City in accordance with the City Purchasing Policy. The Specific Authorizations shall describe the scope of the work to be performed, cost to perform the work and shall set forth the schedule for completion of the work.

D. The City shall provide all criteria and full information as to City's requirements for the assignment and designate in writing a person with authority to act on City's behalf on all matters concerning this assignment.

5. TIME OF PERFORMANCE

Each project performed pursuant to this Agreement shall be performed in a timely manner without unreasonable delay within the time period identified in the Specific Authorization.

If the work is not fully completed according to the terms of the Agreement and within the time limits stipulated in the individual Specific Authorization, it is hereby acknowledged that the City will suffer damages which are not capable of ascertainment or calculation, and therefore the Consultant shall pay the City liquidated damages, a sum of which will be outlined in each individual Specific Authorization, per day for each day following the required completion date, until the date upon which actual completion occurs.

6. COMPENSATION

The Consultant shall be compensated for all services satisfactorily completed in accordance with the terms and conditions of this Agreement and each Specific Authorization. All invoices presented to the City for payment shall be on a Request for Payment form approved by the City. Payment for services performed will be processed within forty-five (45) days of receipt and approval of a proper invoice and in accordance with the applicable terms of the Local Government Prompt Payment Act, Sections 218.70-80, Florida Statutes.

7. GENERAL CONDITIONS

A. It is understood and agreed that the Consultant's services under this Agreement do not include participation, whatsoever, in any litigation. Should such services be required, a supplemental agreement may be negotiated between the City and the Consultant describing the services desired and providing a basis for compensation to the Consultant.

B. Upon the Consultant's written request, the City will furnish or cause to be furnished such reports, studies, instruments, documents, and other information as the Consultant and City mutually deem necessary; and the Consultant may rely upon same in performing the services required under this Agreement.

8. TRUTH-IN-NEGOTIATION CERTIFICATE

Execution of this Agreement by Consultant shall act as the execution of a truth-in-negotiation certificate stating that wage rates and other factual unit costs supporting the compensation of this Agreement are accurate, complete and current at the time of execution of the Agreement. The original Agreement rates and any additions thereto shall be adjusted to exclude any significant sums by which City determines the Agreement

rate(s) was increased due to inaccurate, incomplete, or non-current wage rates and other factual unit costs. All such rate adjustments shall be made within one year following the end of this Agreement.

9. DEFAULT/TERMINATION

A. FOR CAUSE

If either party fails to fulfill its obligations under this Agreement in a timely and proper manner, the other party shall have the right to terminate this Agreement by giving written notice of any deficiency and by allowing the party in default seven (7) calendar days to correct the deficiency. If the defaulting party fails to correct the deficiency within this time, this Agreement shall terminate at the expiration of the seven (7) calendar day time period.

With regard to the Consultant, the following items shall be considered a default under this Agreement:

1) If the Consultant should be adjudged bankrupt, or if he, or it, should make a general assignment for the benefit of his, or its, creditors, or if a receiver should be appointed on account of his, or its, insolvency.

2) If the Consultant should persistently or repeatedly refuse or fail, except in cases for which an extension of time is provided, to provide the services contemplated by this Agreement.

3) If the Consultant disregards laws, ordinances, or the instructions of the Project Manager or otherwise is guilty of a substantial violation of the provisions of this Agreement.

In the event of termination, the Consultant shall only be entitled to receive payment for work satisfactorily completed prior to the termination date.

B. WITHOUT CAUSE

Either party may terminate the Agreement without cause at any time upon thirty (30) calendar days prior written notice to the other party. In the event of termination, the City shall compensate the Consultant for all authorized work satisfactorily performed through the termination date.

10. SUBCONSULTANTS AND SUBCONTRACTORS

In the event the Consultant requires the services of any subconsultant, subcontractor or professional associate in connection with the services to be provided under this Agreement, Consultant shall secure the written approval of City Project Manager before engaging such subconsultant, subcontractor, or professional associate.

If a subconsultant fails to perform or make progress, as required by this Agreement, and it is necessary to replace the subconsultant to complete the work in a timely fashion, the Consultant shall promptly do so, subject to acceptance of the new subconsultant by the City. The substitution of a subcontractor shall not be adequate cause to excuse a delay in the performance of any portion of this Agreement as set forth in the Scope of Work.

The Consultant, its subconsultants, agents, servants, or employees agree to be bound by the Terms and Conditions of this Agreement and in the Consultant's agreement with the subconsultant for work to be performed for the City, the Consultant must incorporate the terms of this Agreement.

11. FEDERAL AND STATE TAX

The City is exempt from payment of Florida State Sales and Use Taxes.

The City will sign an exemption certificate submitted by the Consultant. The Consultant shall not be exempted from paying sales tax to its suppliers for materials used to fulfill contractual obligations with the City, nor is the Consultant authorized to use the City's Tax Exemption Number in securing such materials.

The Consultant shall be responsible for payment of its own and its share of its employees' payroll, payroll taxes, and benefits with respect to this Agreement.

12. INSURANCE

Consultant shall, at its own expense, procure and maintain throughout the term of this Agreement, with insurers acceptable to the City, the types and amounts of insurance conforming to the minimum requirements set forth herein.

A. EVIDENCE OF INSURANCE

Consultant shall not commence work until the required insurance is in force and evidence of insurance acceptable to the City has been provided to, and approved by, the City. The City at all times reserves the right to request such additional documentation and evidence of insurance as in its sole discretion it may require and the Consultant hereby agrees to provide same.

With respect to the Workers' Compensation/Employer's Liability Insurance, Professional Liability and Business Auto Liability Insurance, an appropriate Certificate of Insurance (which identifies the project), and a copy of the actual notice of cancellation endorsement(s) as issued on the policy(ies), signed by an authorized representative of the insurer(s) shall be satisfactory evidence of insurance. With respect to the Commercial General Liability, an appropriate Certificate of Insurance (which identifies the project) signed by an authorized representative of the insurer, and copies of the actual additional

insured and notice of cancellation endorsements as issued on the policy(ies), shall be satisfactory evidence of such insurance.

If the insurance policies expire or terminate during the term of this Agreement Consultant shall provide City with renewal or replacement evidence of the insurance, including endorsements, no less than fifteen (15) days before the expiration or termination of the insurance for which previous evidence of insurance has been provided.

Notwithstanding the prior submission of a Certificate of Insurance, copies of endorsements, or other evidence initially acceptable to City, if requested by City, Consultant shall, within thirty (30) days after receipt of a written request from City, provide City with a certified copy or certified copies of the policy or policies providing the coverage required. The policy must be endorsed to waive the insurer's right to subrogate against City, and its officials, officers and employees in the manner which would result from the attachment of the NCCI Waiver of Our Right to Recover from Others Endorsement (Advisory Form WC 00 03 13) with City, and its officials, officers and employees scheduled thereon.

Consultant's obligation to indemnify and hold harmless shall remain in effect and shall be binding upon Consultant whether such injury or damage shall accrue, or may be discovered, before or after termination of this Agreement.

Consultant's failure to comply with this section's provisions shall constitute a material breach upon which the City may immediately terminate or suspend this Agreement.

The Consultant hereby acknowledges that the payments made under this Agreement include specific consideration for the indemnification herein provided. It is the specific intent of the parties hereto that the foregoing indemnification complies with Sections 725.06 and 725.08, Florida Statutes (Chapter 725).

Nothing herein shall be construed as creating any personal liability on the part of any officer or agent of any public body which may be a party hereto.

The Consultant agrees that the persons named in the Scope of Work shall provide services as described therein. The services of the person(s) so named are a substantial inducement and material consideration for this Agreement. 4. Upon completion of the Agreement, transfer, at no cost, to City all public records in possession of Consultant or keep and maintain public records required by City to perform the service. If Consultant transfers all public records to City upon completion of the Agreement, Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. The Consultant shall promptly notify the City in writing by certified mail of all potential conflicts of interest prohibited by existing state law for any prospective business association, interest or other circumstance, which may influence or appear to influence the Consultant's judgment or quality of services being provided hereunder. Such written notification shall identify the prospective business association, interest or circumstance, the nature of work that the Consultant may undertake and request an opinion of the City as to whether the association, interest or circumstance would, in the opinion of the City, constitute a conflict of interest if entered into by the Consultant. The City agrees to notify the Consultant of its opinion by certified mail within thirty (30) days of receipt of notification by the Consultant. If, in the opinion of the City, the prospective business association, interest or circumstance would not constitute a conflict of interest by the Consultant, the City shall so state in the notification and the Consultant shall, at his option, enter into said association, interest or circumstance and it shall be deemed not in conflict of interest with respect to services provided to the City by the Consultant under the terms of this Agreement. If, in the opinion of the City, the prospective business association, interest or circumstance does constitute a conflict of interest by the Consultant, the City shall so state in the notification and the Consultant shall either not enter into said association or terminate this Agreement with the City prior to entering into said association.

17. EXCUSABLE DELAYS (FORCE MAJEURE)

Provided, however, that market conditions, labor conditions, construction industry price trends and similar matters which normally affect the bidding process shall not be considered a Force Majeure. The party unable to perform as a result of force majeure promptly shall notify the other of the beginning and ending of each such period, and City shall compensate Consultant at the rates set forth herein, for the services performed by Consultant hereunder, up to the date of the beginning of such period.

18. PLEDGE OF CREDIT, ARREARS

The Consultant shall not pledge the City's credit or make it a guarantor of payment of surety for any contract, debt, obligation, judgment, lien, or any form of indebtedness. The Consultant further warrants and represents that it has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

19. OWNERSHIP OF DOCUMENTS

All original sketches, tracings, drawings, computations, details, design calculations, and other documents and plans that result from the Consultant's services under this Agreement are and remain the property of the City as instruments of service. The Consultant shall furnish copies to the City upon completion of such documents.

The City shall, at no additional expense, be furnished one (1) set of reproducible copies of any maps and/or drawings prepared for it by the Consultant. Consultant shall likewise submit copies of all field notes, calculation sheets and computer discs to the City.

20. INDEPENDENT CONSULTANT RELATIONSHIP

The relationship of the Consultant to the City will be solely that of a consultant. The Consultant is an independent consultant and is not an employee or agent of the City. Nothing in this Agreement shall be interpreted to establish any relationship other than that of an independent consultant, between the City and the Consultant, its employees, agents, subcontractors, or assigns, during or after the performance of this Agreement. The Consultant will provide the professional and technical services required for the successful completion of this Agreement in accordance with practices generally acceptable within the industry and good ethical standards.

21. ATTORNEYS' FEES AND COSTS

In the event of any dispute concerning the terms and conditions of this Agreement or in the event of any action by any party to this Agreement to judicially interpret or enforce this Agreement or any provision hereof, or in any dispute arising in any manner from this Agreement, the prevailing party shall be entitled to recover its reasonable costs, fees and expenses, including but not limited to, witness fees, expert fees, consultant fees, attorney, paralegal and legal assistant fees, costs and expenses and other professional fees, costs and expenses, whether suit be brought or not, and whether any settlement shall be entered in any declaratory action, at trial or on appeal.

24. AUDIT

The Consultant agrees that the City or any of its duly authorized representatives shall, until the expiration of at least three years, or as otherwise applicable under law, after expenditure of funds under this Agreement, have access to and the right to examine any directly pertinent books, documents, papers, and records of the Consultant involving transactions related to this Agreement. The Consultant agrees that payment(s) made under this Agreement shall be subject to reduction for amounts charged thereto which are found based on audit examination not to constitute allowable costs under this Agreement. The cost necessary to correct those errors attributable to Consultant and any damage incurred by City as a result of additional costs to City caused by such errors shall be chargeable to Consultant and shall not be considered a cost of the Work. The fact that City has reviewed or approved Consultant's work shall in no way relieve Consultant of any of its responsibilities.

2. TERM

The term of this Agreement shall be for a period of one (1) year beginning on the date first written above, with three (3) one (1) year renewal options available.

3. TECHNICAL AND PROFESSIONAL SERVICES

5. TIME OF PERFORMANCE

Each project performed pursuant to this Agreement shall be performed in a timely manner without unreasonable delay within the time period identified in the Specific Authorization.

If the work is not fully completed according to the terms of the Agreement and within the time limits stipulated in the individual Specific Authorization, it is hereby acknowledged that the City will suffer damages which are not capable of ascertainment or calculation, and therefore the Consultant shall pay the City liquidated damages, a sum of which will be outlined in each individual Specific Authorization, per day for each day following the required completion date, until the date upon which actual completion occurs.

6. COMPENSATION

The Consultant shall be compensated for all services satisfactorily completed in accordance with the terms and conditions of this Agreement and each work order. All invoices presented to the City for payment shall be on a Request for Payment form approved by the City. The original Agreement rates and any additions thereto shall be adjusted to exclude any significant sums by which City determines the Agreement rate(s) was increased due to inaccurate, incomplete, or non-current wage rates and other factual unit costs. All such rate adjustments shall be made within one year following the end of this Agreement.

A. FOR CAUSE

If either party fails to fulfill its obligations under this Agreement in a timely and proper manner, the other party shall have the right to terminate this Agreement by giving written notice of any deficiency and by allowing the party in default seven (7) calendar days to correct the deficiency. If a subconsultant fails to perform or make progress, as required by this Agreement, and it is necessary to replace the subconsultant to complete the work in a timely fashion, the Consultant shall promptly do so, subject to acceptance of the new subconsultant by the City. The substitution of a subcontractor shall not be adequate cause to excuse a delay in the performance any portion of this Agreement as set forth in the Scope of Work.

The Consultant, its subconsultants, agents, servants, or employees agree to be bound by the Terms and Conditions of this Agreement and in the Consultant's agreement with the subconsultant for work to be performed for the City, the Consultant must incorporate the terms of this Agreement.

THIS AGREEMENT for PROFESSIONAL SERVICES (hereinafter referred to as "Agreement" or "Contract") is made and entered into this 16th day of September, 2024 by and between the City of Fort Pierce, Florida, a political subdivision of the State of Florida (hereinafter referred to as the "City") and **MBV Engineering, Inc.** whose principal address is **1835 20th Street, Vero Beach, FL 32960** (hereinafter referred to as "Consultant").

WHEREAS, pursuant to RFQ No. 2024-005 and Section 287.055, Florida Statutes, the City solicited proposals for non-exclusive continuing contracts to perform professional services; and

WHEREAS, the Consultant is qualified pursuant to Section 287.055, Florida Statutes, to provide services within the scope of practice of **professional engineering** under a continuing contract; and

WHEREAS, at the regularly scheduled meeting on February 20, 2024, the City Commission of the City of Fort Pierce approved the negotiations of a continuing contract and authorized the execution of an agreement for Continuing Professional Services between the City and Consultant; and

WHEREAS, a previous continuing contract for professional services was executed on July 15, 2024, the terms of which have been updated, and the previously-executed contract is hereby replaced in its entirety with this Amended Continuing Contract for Professional Services; and

WHEREAS, the Consultant is willing and able to render professional services for various projects on an as-needed basis and for the compensation and on the terms hereinafter set forth.

NOW, THEREFORE, the parties hereto, in consideration of the mutual covenants, agreements, terms, and condition contained herein, do agree as follows:

1. SERVICES

The Consultant's responsibility under this Agreement is to provide professional services within the scope of practice of **professional engineering** (hereinafter "professional services").

Consultant represents to the City that the professional services to be performed under this Agreement shall be in accordance with the highest standards accepted and established practices and procedures recognized as such in Consultant's trade in general and that Consultant shall conform to this Agreement.

Consultant shall be responsible for the technical accuracy of its professional services and documents resulting therefrom, and City shall not be responsible for

discovering deficiencies therein. Consultant shall correct any such deficiencies without additional compensation or cost to City, except to the extent any such deficiency is directly attributable to deficiencies in City-furnished information.

Consultant shall be responsible for the completeness and accuracy of the work prepared or compiled under Consultant's obligation for each project and shall correct, at Consultant's expense, all errors or omissions therein which may be disclosed. The cost necessary to correct those errors attributable to Consultant and any damage incurred by City as a result of additional costs to City caused by such errors shall be chargeable to Consultant and shall not be considered a cost of the Work. The fact that City has reviewed or approved Consultant's work shall in no way relieve Consultant of any of its responsibilities.

2. TERM

The term of this Agreement shall be for a period of one (1) year beginning on the date first written above, with three (3) one (1) year renewal options available.

3. TECHNICAL AND PROFESSIONAL SERVICES

It shall be the responsibility of the Consultant to work with the City to provide professional services related projects for City. Each project will require a separate Specific Authorization using a form agreed to by both parties. The Specific Authorization shall set out the Scope of Work, time of performance, compensation schedule for each project, and any other necessary terms.

4. PERIOD OF SERVICE; SPECIFIC AUTHORIZATIONS

A. The Consultant will be available to begin work promptly after receipt of a fully executed copy of this Agreement. It is agreed that this Agreement shall be considered as a continuing contract and work will be initiated on an assignment-by-assignment basis through the execution of a Specific Authorization. The City reserves the right to select the respective Consultant who the City believes is in its best interest to perform the specified work.

B. If the Consultant's professional services called for under this Agreement are delayed for reasons beyond the Consultant's control, the time of performance shall be adjusted appropriately through a Change Order, and only upon agreement by the City to the adjustment and that the reasons were beyond the Consultant's control, as outlined in Paragraph 17, below.

C. Specific work assignments shall be set forth in individual Specific Authorizations, which will be issued to the Consultant. All Specific Authorizations shall be executed on behalf of the City in accordance with the City Purchasing Policy. The Specific Authorizations shall describe the scope of the work to be performed, cost to perform the work and shall set forth the schedule for completion of the work.

D. The City shall provide all criteria and full information as to City's requirements for the assignment and designate in writing a person with authority to act on City's behalf on all matters concerning this assignment.

5. TIME OF PERFORMANCE

Each project performed pursuant to this Agreement shall be performed in a timely manner without unreasonable delay within the time period identified in the Specific Authorization.

If the work is not fully completed according to the terms of the Agreement and within the time limits stipulated in the individual Specific Authorization, it is hereby acknowledged that the City will suffer damages which are not capable of ascertainment or calculation, and therefore the Consultant shall pay the City liquidated damages, a sum of which will be outlined in each individual Specific Authorization, per day for each day following the required completion date, until the date upon which actual completion occurs.

6. COMPENSATION

The Consultant shall be compensated for all services satisfactorily completed in accordance with the terms and conditions of this Agreement and each Specific Authorizations. All invoices presented to the City for payment shall be on a Request for Payment form approved by the City. Payment for services performed will be processed within forty-five (45) days of receipt and approval of a proper invoice and in accordance with the applicable terms of the Local Government Prompt Payment Act, Sections 218.70-80, Florida Statutes.

7. GENERAL CONDITIONS

A. It is understood and agreed that the Consultant's services under this Agreement do not include participation, whatsoever, in any litigation. Should such services be required, a supplemental agreement may be negotiated between the City and the Consultant describing the services desired and providing a basis for compensation to the Consultant.

B. Upon the Consultant's written request, the City will furnish or cause to be furnished such reports, studies, instruments, documents, and other information as the Consultant and City mutually deem necessary; and the Consultant may rely upon same in performing the services required under this Agreement.

8. TRUTH-IN-NEGOTIATION CERTIFICATE

Execution of this Agreement by Consultant shall act as the execution of a truth-in-negotiation certificate stating that wage rates and other factual unit costs supporting the compensation of this Agreement are accurate, complete and current at the time of execution of the Agreement. The original Agreement rates and any additions thereto shall be adjusted to exclude any significant sums by which City determines the Agreement rate(s) was increased due to inaccurate, incomplete, or non-current wage rates and other factual unit costs. All such rate adjustments shall be made within one year following the end of this Agreement.

9. DEFAULT/TERMINATION

A. FOR CAUSE

If either party fails to fulfill its obligations under this Agreement in a timely and proper manner, the other party shall have the right to terminate this Agreement by giving written notice of any deficiency and by allowing the party in default seven (7) calendar days to correct the deficiency. If the defaulting party fails to correct the deficiency within this time, this Agreement shall terminate at the expiration of the seven (7) calendar day time period.

With regard to the Consultant, the following items shall be considered a default under this Agreement:

1) If the Consultant should be adjudged bankrupt, or if he, or it, should make a general assignment for the benefit of his, or its, creditors, or if a receiver should be appointed on account of his, or its, insolvency.

2) If the Consultant should persistently or repeatedly refuse or fail, except in cases for which an extension of time is provided, to provide the services contemplated by this Agreement.

3) If the Consultant disregards laws, ordinances, or the instructions of the Project Manager or otherwise is guilty of a substantial violation of the provisions of this Agreement.

In the event of termination, the Consultant shall only be entitled to receive payment for work satisfactorily completed prior to the termination date.

B. WITHOUT CAUSE

Either party may terminate the Agreement without cause at any time upon thirty (30) calendar days prior written notice to the other party. In the event of termination, the

City shall compensate the Consultant for all authorized work satisfactorily performed through the termination date.

10. SUBCONSULTANTS AND SUBCONTRACTORS

In the event the Consultant requires the services of any subconsultant, subcontractor or professional associate in connection with the services to be provided under this Agreement, Consultant shall secure the written approval of City Project Manager before engaging such subconsultant, subcontractor, or professional associate.

If a subconsultant fails to perform or make progress, as required by this Agreement, and it is necessary to replace the subconsultant to complete the work in a timely fashion, the Consultant shall promptly do so, subject to acceptance of the new subconsultant by the City. The substitution of a subcontractor shall not be adequate cause to excuse a delay in the performance of any portion of this Agreement as set forth in the Scope of Work.

The Consultant, its subconsultants, agents, servants, or employees agree to be bound by the Terms and Conditions of this Agreement and in the Consultant's agreement with the subconsultant for work to be performed for the City, the Consultant must incorporate the terms of this Agreement.

11. FEDERAL AND STATE TAX

The City is exempt from payment of Florida State Sales and Use Taxes.

The City will sign an exemption certificate submitted by the Consultant. The Consultant shall not be exempted from paying sales tax to its suppliers for materials used to fulfill contractual obligations with the City, nor is the Consultant authorized to use the City's Tax Exemption Number in securing such materials.

The Consultant shall be responsible for payment of its own and its share of its employees' payroll, payroll taxes, and benefits with respect to this Agreement.

18. PLEDGE OF CREDIT, ARREARS

The Consultant shall not pledge the City's credit or make it a guarantor of payment of surety for any contract, debt, obligation, judgment, lien, or any form of indebtedness. The Consultant further warrants and represents that it has no obligation or indebtedness that would impair its ability to fulfill the terms of this Agreement.

19. OWNERSHIP OF DOCUMENTS

All original sketches, tracings, drawings, computations, details, design calculations, and other documents and plans that result from the Consultant's services under this Agreement are and remain the property of the City as instruments of service.    We will pay those sums that the insured becomes legally obligated to pay as damages because of "bodily injury" arising out of either the rendering of or failure to render, "First Aid" or "Good Samaritan Services" to any person. For the purposes of this coverage grant, "First Aid" or "Good Samaritan Services" will be deemed to meet the definition of "occurrence". For the purposes of determining the applicable limits of insurance, any act or omission together with all related acts or omissions in the rendering of "First Aid" or "Good Samaritan Services" to any one person will be deemed one "occurrence".

   a. "First Aid" means initial care for medical attention immediately following a "bodily injury".

   b. "Good Samaritan Services" means medical attention provided in an emergency and for which no remuneration is demanded or received.

2. The insurance provided by this provision shall be excess over any valid and collectible other insurance available to any insured whether primary, excess, contingent or any other basis, except for insurance purchased specifically by you to apply in excess of the limits of Insurance shown in the declarations for Business Liability.

AMENDED CONTINUING CONTRACT FOR

PROFESSIONAL SERVICES

THIS AGREEMENT for PROFESSIONAL SERVICES (hereinafter referred to as "Agreement" or "Contract") is made and entered into this 16 day of September, 2024 by and between the City of Fort Pierce, Florida, a political subdivision of the State of Florida (hereinafter referred to as the "City") and **EXP U.S. SERVICES, INC.** whose principal address is **2601 Westhall Lane, Maitland, FL 32751** (hereinafter referred to as "Consultant").

WHEREAS, pursuant to RFQ No. 2024-005 and Section 287.055, Florida Statutes, the City solicited proposals for non-exclusive continuing contracts to perform professional services; and

WHEREAS, the Consultant is qualified pursuant to Section 287.055, Florida Statutes, to provide services within the scope of practice of **professional architecture and professional engineering** under a continuing contract; and

WHEREAS, at the regularly scheduled meeting on February 20, 2024, the City Commission of the City of Fort Pierce approved the negotiations of a continuing contract and authorized the execution of an agreement for Continuing Professional Services between the City and Consultant; and

WHEREAS, a previous continuing contract for professional services was executed on July 15, 2024, the terms of which have been updated, and the previously-executed contract is hereby replaced in its entirety with this Amended Continuing Contract for Professional Services; and

WHEREAS, the Consultant is willing and able to render professional services for various projects on an as-needed basis and for the compensation and on the terms hereinafter set forth.

NOW, THEREFORE, the parties hereto, in consideration of the mutual covenants, agreements, terms, and condition contained herein, do agree as follows:

1. SERVICES

The Consultant's responsibility under this Agreement is to provide professional services within the scope of practice of **professional architecture and professional engineering** (hereinafter "professional services").

Consultant represents to the City that the professional services to be performed under this Agreement shall be in accordance with the highest standards accepted and established practices and procedures recognized as such in Consultant's trade in general and that Consultant shall conform to this Agreement.

Consultant shall be responsible for the technical accuracy of its professional services and documents resulting therefrom, and City shall not be responsible for

discovering deficiencies therein. Consultant shall correct any such deficiencies without additional compensation or cost to City, except to the extent any such deficiency is directly attributable to deficiencies in City-furnished information.

Consultant shall be responsible for the completeness and accuracy of the work prepared or compiled under Consultant's obligation for each project and shall correct, at Consultant's expense, all errors or omissions therein which may be disclosed. The cost necessary to correct those errors attributable to Consultant and any damage incurred by City as a result of additional costs to City caused by such errors shall be chargeable to Consultant and shall not be considered a cost of the Work. The fact that City has reviewed or approved Consultant's work shall in no way relieve Consultant of any of its responsibilities.

2. TERM

The term of this Agreement shall be for a period of one (1) year beginning on the date first written above, with three (3) one (1) year renewal options available.

3. TECHNICAL AND PROFESSIONAL SERVICES

It shall be the responsibility of the Consultant to work with the City to provide professional services related projects for City. Each project will require a separate Specific Authorization using a form agreed to by both parties. The Specific Authorization shall set out the Scope of Work, time of performance, compensation schedule for each project, and any other necessary terms.

4. PERIOD OF SERVICE; SPECIFIC AUTHORIZATIONS

A. The Consultant will be available to begin work promptly after receipt of a fully executed copy of this Agreement. It is agreed that this Agreement shall be considered as a continuing contract and work will be initiated on an assignment-by-assignment basis through the execution of a Specific Authorization. The City reserves the right to select the respective Consultant who the City believes is in its best interest to perform the specified work.

B. If the Consultant's professional services called for under this Agreement are delayed for reasons beyond the Consultant's control, the time of performance shall be adjusted appropriately through a Change Order, and only upon agreement by the City to the adjustment and that the reasons were beyond the Consultant's control, as outlined in Paragraph 17, below.

C. Specific work assignments shall be set forth in individual Specific Authorizations, which will be issued to the Consultant. All Specific Authorizations shall be executed on behalf of the City in accordance with the City Purchasing Policy. The Specific Authorizations shall describe the scope of the work to be performed, cost to perform the work and shall set forth the schedule for completion of the work.

D. The City shall provide all criteria and full information as to City's requirements for the assignment and designate in writing a person with authority to act on City's behalf on all matters concerning this assignment.

5. TIME OF PERFORMANCE

Each project performed pursuant to this Agreement shall be performed in a timely manner without unreasonable delay within the time period identified in the Specific Authorization.

If the work is not fully completed according to the terms of the Agreement and within the time limits stipulated in the individual Specific Authorization, it is hereby acknowledged that the City will suffer damages which are not capable of ascertainment or calculation, and therefore the Consultant shall pay the City liquidated damages, a sum of which will be outlined in each individual Specific Authorization, per day for each day following the required completion date, until the date upon which actual completion occurs.

6. COMPENSATION

The Consultant shall be compensated for all services satisfactorily completed in accordance with the terms and conditions of this Agreement and each Specific Authorization. All invoices presented to the City for payment shall be on a Request for Payment form approved by the City. Payment for services performed will be processed within forty-five (45) days of receipt and approval of a proper invoice and in accordance with the applicable terms of the Local Government Prompt Payment Act, Sections 218.70-80, Florida Statutes.

7. GENERAL CONDITIONS

A. It is understood and agreed that the Consultant's services under this Agreement do not include participation, whatsoever, in any litigation. Should such services be required, a supplemental agreement may be negotiated between the City and the Consultant describing the services desired and providing a basis for compensation to the Consultant.

B. Upon the Consultant's written request, the City will furnish or cause to be furnished such reports, studies, instruments, documents, and other information as the Consultant and City mutually deem necessary; and the Consultant may rely upon same in performing the services required under this Agreement.

8. TRUTH-IN-NEGOTIATION CERTIFICATE

Execution of this Agreement by Consultant shall act as the execution of a truth-in-negotiation certificate stating that wage rates and other factual unit costs supporting the compensation of this Agreement are accurate, complete and current at the time of execution of the Agreement. The original Agreement rates and any additions thereto shall be adjusted to exclude any significant sums by which City determines the Agreement rate(s) was increased due to inaccurate, incomplete, or non-current wage rates and other factual unit costs. All such rate adjustments shall be made within one year following the end of this Agreement.

9. DEFAULT/TERMINATION

A. FOR CAUSE

If either party fails to fulfill its obligations under this Agreement in a timely and proper manner, the other party shall have the right to terminate this Agreement by giving written notice of any deficiency and by allowing the party in default seven (7) calendar days to correct the deficiency. If the defaulting party fails to correct the deficiency within this time, this Agreement shall terminate at the expiration of the seven (7) calendar day time period.

With regard to the Consultant, the following items shall be considered a default under this Agreement:

1) If the Consultant should be adjudged bankrupt, or if he, or it, should make a general assignment for the benefit of his, or its, creditors, or if a receiver should be appointed on account of his, or its, insolvency.

2) If the Consultant should persistently or repeatedly refuse or fail, except in cases for which an extension of time is provided, to provide the services contemplated by this Agreement.

3) If the Consultant disregards laws, ordinances, or the instructions of the Project Manager or otherwise is guilty of a substantial violation of the provisions of this Agreement.

In the event of termination, the Consultant shall only be entitled to receive payment for work satisfactorily completed prior to the termination date.

B. WITHOUT CAUSE

Either party may terminate the Agreement without cause at any time upon thirty (30) calendar days prior written notice to the other party. In the event of termination, the

City shall compensate the Consultant for all authorized work satisfactorily performed through the termination date.

10. SUBCONSULTANTS AND SUBCONTRACTORS

In the event the Consultant requires the services of any subconsultant, subcontractor or professional associate in connection with the services to be provided under this Agreement, Consultant shall secure the written approval of City Project Manager before engaging such subconsultant, subcontractor, or professional associate.

If a subconsultant fails to perform or make progress, as required by this Agreement, and it is necessary to replace the subconsultant to complete the work in a timely fashion, the Consultant shall promptly do so, subject to acceptance of the new subconsultant by the City. The substitution of a subcontractor shall not be adequate cause to excuse a delay in the performance of any portion of this Agreement as set forth in the Scope of Work.

The Consultant, its subconsultants, agents, servants, or employees agree to be bound by the Terms and Conditions of this Agreement and in the Consultant's agreement with the subconsultant for work to be performed for the City, the Consultant must incorporate the terms of this Agreement.

11. FEDERAL AND STATE TAX

The City is exempt from payment of Florida State Sales and Use Taxes.

The City will sign an exemption certificate submitted by the Consultant. The Consultant shall not be exempted from paying sales tax to its suppliers for materials used to fulfill contractual obligations with the City, nor is the Consultant authorized to use the City's Tax Exemption Number in securing such materials.

The Consultant shall be responsible for payment of its own and its share of its employees' payroll, payroll taxes, and benefits with respect to this Agreement.

12. INSURANCE

Consultant shall, at its own expense, procure and maintain throughout the term of this Agreement, with insurers acceptable to the City, the types and amounts of insurance conforming to the minimum requirements set forth herein.

A. EVIDENCE OF INSURANCE

Consultant shall not commence work until the required insurance is in force and evidence of insurance acceptable to the City has been provided to, and approved by, the City. The City at all times reserves the right to request such additional

documentation and evidence of insurance as in its sole discretion it may require and the Consultant hereby agrees to provide same.

With respect to the Workers' Compensation/Employer's Liability Insurance, Professional Liability and Business Auto Liability Insurance, an appropriate Certificate of Insurance (which identifies the project), and a copy of the actual notice of cancellation endorsement(s) as issued on the policy(ies), signed by an authorized representative of the insurer(s) shall be satisfactory evidence of insurance. With respect to the Commercial General Liability, an appropriate Certificate of Insurance (which identifies the project) signed by an authorized representative of the insurer, and copies of the actual additional insured and notice of cancellation endorsements as issued on the policy(ies), shall be satisfactory evidence of such insurance.

If the insurance policies expire or terminate during the term of this Agreement Consultant shall provide City with renewal or replacement evidence of the insurance, including endorsements, no less than fifteen (15) days before the expiration or termination of the insurance for which previous evidence of insurance has been provided.

Notwithstanding the prior submission of a Certificate of Insurance, copies of endorsements, or other evidence initially acceptable to City, if requested by City, Consultant shall, within thirty (30) days after receipt of a written request from City, provide City with a certified copy or certified copies of the policy or policies providing the coverage required. RE: CONTRACT - NUISANCE ABATEMENT SERVICES - RFP 2024-048 (3 AWARDED)

CAO RLS FILE: 25-170

DATE: JUNE 18, 2025

I have reviewed the above Requests for Legal Services (RLS) related to RFP No. 2024-048 and the nuisance abatement vendor agreements. Per RLS 25-59, 25-60, and 25-61, the only item needing edit and review was Exhibit A – Scope of Work. I have created a separate Word document for Exhibit A with edits (see redlined copy). Please attach the clean copy of Exhibit A, which is approved as to form and correctness, to each contract. (Exhibit A is a general Scope of Work and is applicable to all three of the nuisance abatement contracts submitted.)

If you have any questions, please do not hesitate to contact this Office via phone or e-mail.

Thank you.

Re: Award of RFP No. 2024-048, Nuisance Abatement
Submitted For: Peggy Arraiz, Code Compliance Manager, Code Enforcement

---

SUBJECT:
Approve award of RFP 2024-048 - Nuisance Abatement Services to multiple vendors and authorize staff to initiate contract negotiations.

SUMMARY:
The City solicited proposals from companies to provide nuisance abatement services, abating nuisance conditions as ordered by the Special Magistrate. The Request for Proposals for Nuisance Abatement Services was issued on August 28, 2024 and specified that the City reserved the right to award multiple contracts. Three (3) proposals were received by the deadline of September 30, 2024, and a selection committee reviewed the submittals and determined that all three proposals were fully responsive to the RFP and were qualified to perform the scope of work.

Based upon the review results and considering the wide array of duties that fall under the nuisance abatement program, the evaluation committee recommends awarding the contract to all three companies:

- D & R Landscape Inc.
- Gone Fishing Landscaping & More, LLC
- Mow 4 Less, LLC

Staff's review procedures within the Code Enforcement Department exceeded beyond the expiration date noted in the bid tabulation memo and the delay in presenting to Commission for final approval was not as a result of any issues with the submitted proposers or proposals.

RECOMMENDATION:
Staff recommends that the City Commission approve awarding RFP No. 2024-048 - Nuisance Abatement Services to the three responsive and qualified companies listed below:

- D & R Landscape Inc.
- Gone Fishing Landscaping & More, LLC
- Mow 4 Less, LLC

ALTERNATIVES:

NOW, THEREFORE, in consideration of the mutual promises hereinafter contained, the Parties agree as follows:

1. Contractor Services.

1.1 Contractor will provide the services as set forth in **Exhibit A**, Scope of Work, attached hereto and incorporated for all purposes ("the Services"), to the satisfaction of the City.

1.2 Contractor will be available to begin work promptly after receipt of a fully executed copy of this Agreement. It is agreed that this Agreement shall be considered a continuing contract and work will be initiated on an assignment-by-assignment basis through a Specific Authorization. The City will notify all contractors, of which the City has entered a nuisance abatement agreement, of an assignment, and solicit from the contractors their proposed costs and time period for completion of the assignment. The City reserves the right to select the respective contractor who the City believes is in its best interest to perform the specified work. Contractor specifically acknowledges and agrees this Agreement is not a guarantee the City will select Contractor to perform any services, nor is Contractor guaranteed to receive any assignments for which Contractor will be compensated by City pursuant to this Agreement.

1.3 A Specific Authorization from the City will be provided to Contractor for each assignment awarded to Contractor. The Specific Authorization shall set out the Scope of Work for the assignment, time of performance, and any other necessary terms.

1.5 Notwithstanding any other provision of this Agreement, the Contractor's performance of the Services will (1) conform to the specifications and requirements contained in the RFP No. 2024-048 – Nuisance Abatement Services and the Contractor's Bid, attached as **Exhibit B**. To the extent that the Bid or Contractor's Bid conflict with the terms of this Agreement, the terms of this Agreement will control.

2. Compensation.

2.1 Total compensation to Contractor will not exceed $75,000 (**Seventy-Five Thousand Dollars and 00/100)** within each fiscal year (October 1 to September 30) of the Agreement. Total compensation shall include all travel and expenses. Payment for the services performed will be processed within thirty (30) days of receipt and approval of an invoice in accordance with the Florida Prompt Payment Act, Florida Statutes § 218.70-79.

2.2 Upon completion of the services and acceptance by the City, Contractor will submit invoices, along with the required documentation, as set forth in **Exhibit A**, Scope of Work.

2.3 The City will, within thirty (30) days from the date it receives an invoice and supporting documentation, approve or disapprove the amount reflected in the invoice. If the City approves the amount or any portion of the amount, the City will promptly pay to Contractor the amount approved so long as Contractor is not in default under this Agreement. If the City disapproves any invoice amount, the City will give Contractor specific reasons for its disapproval in writing.

3. Term. This Agreement is effective as of the date last signed below ("Effective Date") and will terminate two years from the effective date, unless earlier terminated in accordance with Section 8. The City will have the option, in its sole discretion, to renew this Agreement for four (4) additional one (1) year terms.

DESIGNATED CONSTRUCTION PROJECT(S) GENERAL AGGREGATE LIMIT

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Designated Construction Project(s): Lawn Care
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

A. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under Section **I** - Coverage **A,** and for all medical expenses caused by accidents under Section **I** - Coverage **C,** which can be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:

1. A separate Designated Construction Project General Aggregate Limit applies to each designated construction project, and that limit is equal to the amount of the General Aggregate Limit shown in the Declarations.

2. The Designated Construction Project General Aggregate Limit is the most we will pay for the sum of all damages under Coverage **A,** except damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard", and for medical expenses under Coverage **C** regardless of the number of:

a. Insureds;

b. Claims made or "suits" brought; or

c. Persons or organizations making claims or bringing "suits".

3. Any payments made under Coverage **A** for damages or under Coverage **C** for medical expenses shall reduce the Designated Construction Project General Aggregate Limit for that designated construction project. Such payments shall not reduce the General Aggregate Limit shown in the Declarations nor shall they reduce any other Designated Construction Project General Aggregate Limit for any other designated construction project shown in the Schedule above.

4. The limits shown in the Declarations for Each Occurrence, Damage To Premises Rented To You and Medical Expense continue to apply. However, instead of being subject to the General Aggregate Limit shown in the Declarations, such limits will be subject to the applicable Designated Construction Project General Aggregate Limit.

Copyright, Insurance Services Office, Inc., 2008

B. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under Section **I** - Coverage **A,** and for all medical expenses caused by accidents under Section **I** - Coverage **C,** which cannot be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:

1. Any payments made under Coverage **A** for damages or under Coverage **C** for medical expenses shall reduce the amount available under the General Aggregate Limit or the Products-completed Operations Aggregate Limit, whichever is applicable; and

2. Such payments shall not reduce any Designated Construction Project General Aggregate Limit.

C. When coverage for liability arising out of the "products-completed operations hazard" is provided, any payments for damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard" will reduce the Products-completed Operations Aggregate Limit, and not reduce the General Aggregate Limit nor the Designated Construction Project General Aggregate Limit.

D. If the applicable designated construction project has been abandoned, delayed, or abandoned and then restarted, or if the authorized contracting parties deviate from plans, blueprints, designs, specifications or timetables, the project will still be deemed to be the same construction project.

E. The provisions of Section **III** - Limits Of Insurance not otherwise modified by this endorsement shall continue to apply as stipulated.

Blanket Additional Insured Endorsement

This endorsement modifies insurance provided by the Commercial Auto Policy, Motor Truck Cargo Legal Liability Coverage Endorsement, and/or Commercial General Liability Coverage Endorsement, as appears on the **declarations page**. All terms and conditions of the policy apply unless modified by this endorsement.

If **you** pay the fee for this Blanket Additional Insured Endorsement, **we** agree with **you** that any person or organization with whom **you** have executed a written agreement prior to any **loss** is added as an additional **insured** with respect to such liability coverage as is afforded by the policy, but this insurance applies to such additional **insured** only as a person or organization liable for **your** operations and then only to the extent of that liability. This endorsement does not apply to acts, omissions, products, work, or operations of the additional **insured**.

Regardless of the provisions of paragraph a. and b. of the "Other Insurance" clause of this policy, if the person or organization with whom **you** have executed a written agreement has other insurance under which it is the first named **insured** and that insurance also applies, then this insurance is primary to and non-contributory with that other insurance when the written contract or agreement between **you** and that person or organization, signed and executed by **you** before the **bodily injury** or **property damage** occurs and in effect during the policy period, requires this insurance to be primary and non-contributory.

In no way does this endorsement waive the "Other Insurance" clause of the policy, nor make this policy primary to third parties hired by the **insured** to perform work for the **insured** or on the **insured's** behalf.

ALL OTHER TERMS, LIMITS, AND PROVISIONS OF THE POLICY REMAIN UNCHANGED.

Form 2367 (06/10)M_CL

Blanket Waiver of Subrogation Endorsement

This endorsement modifies insurance provided by the Commercial Auto Policy, Motor Truck Cargo Legal Liability Coverage Endorsement, and/or Commercial General Liability Coverage Endorsement, as appears on the **declarations page**. All terms and conditions of the policy apply unless modified by this endorsement.

If **you** pay the fee for this Blanket Waiver of Subrogation Endorsement, **we** agree to waive any and all subrogation claims against any person or organization with whom a written waiver agreement has been executed by the named insured, as required by written contract, prior to the occurrence of any **loss**.

ALL OTHER TERMS, LIMITS AND PROVISIONS OF THE POLICY REMAIN UNCHANGED.

Meeting Date: 03/17/2025
Re: Award of RFP No. 2024-048, Nuisance Abatement
Submitted For: Peggy Arraiz, Code Compliance Manager, Code Enforcement

---

SUBJECT:
Approve award of RFP 2024-048 - Nuisance Abatement Services to multiple vendors and authorize staff to initiate contract negotiations.

SUMMARY:
The City solicited proposals from companies to provide nuisance abatement services, abating nuisance conditions as ordered by the Special Magistrate. The Request for Proposals for Nuisance Abatement Services was issued on August 28, 2024 and specified that the City reserved the right to award multiple contracts. Three (3) proposals were received by the deadline of September 30, 2024, and a selection committee reviewed the submittals and determined that all three proposals were fully responsive to the RFP and were qualified to perform the scope of work.

Based upon the review results and considering the wide array of duties that fall under the nuisance abatement program, the evaluation committee recommends awarding the contract to all three companies:

- D & R Landscape Inc.
- Gone Fishing Landscaping & More, LLC
- Mow 4 Less, LLC

Staff's review procedures within the Code Enforcement Department exceeded beyond the expiration date noted in the bid tabulation memo and the delay in presenting to Commission for final approval was not as a result of any issues with the submitted proposers or proposals.

RECOMMENDATION:
Staff recommends that the City Commission approve awarding RFP No. 2024-048 - Nuisance Abatement Services to the three responsive and qualified companies listed below:

- D & R Landscape Inc.
- Gone Fishing Landscaping & More, LLC
- Mow 4 Less, LLC

ALTERNATIVES:
Staff will act as instructed by the Commission.

RE: RELEASE AND SATISFACTION OF UNITY OF TITLE PZSUB2025-00002

CAO RLS FILE: RLS 25-273

DATE: AUGUST 21, 2025

I have reviewed the above Request for Legal Services (RLS) related to the Release of the Unity of Title ("Release") for the property at 1814 Surfside Drive. The Release was prepared by the attorney for the property owner. As drafted, the Release stated the project number for the lot split was PZSUB2405-00002. You indicated in the materials provided that the proper project number should be PZSUB2025-00002. The application approval letter for the lot split from the property owner's attorney that includes the project number as PZSUB2405-00002. In an abundance of caution, since it appears two project numbers were used for the subsequent lot split, I have included them both instead of excluding one. I have uploaded the Release in a Track Changes and Clean Copy format. The Clean Copy is approved as to form and correctness.

Please also note, the lot split approval letter indicated the lot split was on parcel number 2412-501-0123-000-7. I believe this may be in error as well, as that parcel was combined into parcel number 2412-501-0124-000-4 with the Unity of Title and is now being split back into the two separate parcels that existed before the Unity of Title. This discrepancy should be reviewed for any additional action or clarifications needed by the Planning Department to the applicant for the lot split.

If you have any questions, please do not hesitate to contact this Office via phone or e-mail.

Thank you.

RE: Support for Buell Brown Center RAD/Section 18 Blend Conversion

Dear Ms. Washington,

On behalf of the City of Fort Pierce, I am pleased to give my full support to The Housing Authority of the City of Fort Pierce, Florida (FPHA) to complete a RAD/Section 18 blend conversion of the 95 public housing units at Buell Brown Center under the U.S. Department of Housing and Urban Development (HUD)'s Rental Assistance Demonstration (RAD) program.

All 95 public housing units will be converted to Project-Based Section 8, a more stable operating subsidy than public housing funding. In addition, all units will be substantially renovated as part of the RAD/Section 18 blend conversion and restricted under the Low-Income Housing Tax Credit (LIHTC) program.

This affordability preservation strategy increases project income, which helps fund property renovations, without any increase in rent from the tenants. Additionally, this strategy improves the operating performance of the property. The combination of improved housing and enhanced operating performance ensures that these units remain in the affordable housing stock for many years to come.

We appreciate HUD's consideration of this project and fully support FPHA's efforts to move forward with this initiative.

Sincerely,

Mayor Linda Hudson
City of Fort Pierce

District Administration

Dear Florida Educator:

Dr. Jon Prince, St. Lucie County's Superintendent, is very deserving of your consideration to be 2026 Superintendent of the Year for Florida. Superintendent since 2022, Dr. Prince came to our district a decade ago as Deputy Superintendent. As Mayor for 13 years, I can attest to the benefit to our city because of improvements in our St. Lucie County Schools with Dr. Prince as Deputy and now Superintendent.

I nominate him for Florida's Superintendent of the Year not just because in 2025 he led our St. Lucie Public Schools (SLPS) to its first ever A grade; not just because we have no failing schools; not just because SLPS ranks third in Florida; not just because our graduation rate has been over 90% for nine consecutive years; and, not just because 75% of our schools are A or B schools. He should be the 2026 Superintendent of the Year because: He's rebuilding Westwood High School, serving some of my city's most economically challenged students; He's merging small elementary schools in Fort Pierce into K8 to increase student success; He's improved reading proficiency in grades 3-10 by 5%, grades 6-8 by 9%, making SLPS #2; and He's increased industry certifications to 4,368 in 37 pathways through 55 career academies.

SLPS students now number 50,000. Dr. Prince has met this rapid growth with 300 million+ dollars in new construction, expansion, and refurbishment projects benefiting students across the district, including new Legacy High School, 2025; new Western Grove K8, 2026; Fort Pierce Westwood, 2026, and C.A. Moore expansion to K8 and new gym, December 2026. Sixty-seven per cent of voters have twice approved increased taxes to fund capital, technology and facilities investment for our schools.

When I attended St. Lucie Public Schools many years ago, the Superintendent was a remote figurehead who was rarely present in schools. Dr. Jon Prince is engaged, present, dedicated and interacts comfortably with teachers and students alike. He cares and it shows. I am proud to nominate him for 2026 Superintendent of the Year, because he's that and more for our students.

Sincerely,

Mayor Linda Hudson

Re: Notice of Final Award for FSA23-VEH21.0: Heavy Trucks & Buses

Florida Sheriffs Association (FSA) has completed its 21st year of the cooperative purchasing heavy trucks and buses contract. FSA is issuing the Notice of Final Award for contract FSA23-VEH21.0: Heavy Trucks & Buses that will be effective from October 1, 2023, through September 30, 2024. This year's bid included 80 items. The contract will offer class 3-5 cab & chassis trucks and buses.

The competitive process for this award began in May 2023, when stakeholders were surveyed regarding procurement needs. Items were added based on survey results and the Fleet Advisory Committee's review of products.

An advertisement for the Invitation to Bid was published in the Florida Administrative Weekly, as well as the State of Florida's Office of Supplier Diversity and the FSA websites. On May 5, 2023, a direct notification was sent to 716 prospective bidders to participate in a voluntary bidder workshop. The ITB advertisement resulted in 81 pre-bid attendees or waivers. Of these respondents, 30 submitted bids and 29 qualified. FSA has identified intended awardees in the attached Final Award Report. The Final Award Report shows up to three lowest bidders per item, per zone.

The Florida Sheriffs Association Cooperative Purchasing Program has followed the Contract Terms and Conditions for this procurement. Bidders that become awarded vendors are governed by their manufacturer agreements and the Contract Terms and Conditions.

Contract pricing will be extended and guaranteed to the Florida Sheriffs Association, any unit of local government, political subdivision or agency of the State of Florida, or to other entities approved by manufacturers to buy from this contract, which can include out-of-state sales. Vendors that wish to extend contract pricing to entities other than those defined here are governed by their manufacturer's agreement. All purchasers are bound by state law, local ordinances, rules, and regulations for purchases made under this contract.

Contract Amendment
FSA23-VEH21.1: Heavy Trucks and Buses
Addition of Repair and Replacement Parts

The Terms and Conditions of this Contract allow for modification via contract amendment as provided for in Section 1.23. Per Contract Terms and Conditions, Section 3.04, the FSA CPP reserves the right to add or delete any items from the contract when deemed to be in the best interest of FSA and purchasers, at its discretion.

FSA is amending the original contract to add a new section to Section 3.0 – General Conditions:

3.26 – REPAIR AND REPLACEMENT PARTS

FSA authorizes awarded vendors to sell repair and replacement parts. Parts and components pricing must include the administrative fee. If a vendor wishes to offer parts under this contract, the vendor must provide a price list to FSA and offer a discount below MSRP or list price for parts and components.

Vendors may provide pricing by submitting a parts pricing sheet to cpp@flsheriffs.org. Vendors are encouraged, but not required to use the template.

Items listed below are required for the submission of the pricing sheet:

- *Description*
- *MSRP or List Price discount percentage*
- *Exceptions to discount provided*
- *Quantity discounts*

For questions regarding this contract amendment, please email cpp@flsheriffs.org

For questions regarding this contract amendment, please email Hugh Oliver at holiver@flsheriffs.org.

☑ **Yes, we wish to offer parts. Please see our completed pricing sheet.**

☐ **No, we do not wish to offer parts.**

1.02 PURPOSE

The Florida Sheriffs Association invites interested Bidders, including manufacturers and dealers or authorized representatives to submit responses in accordance with these solicitation documents. The FSA Cooperative Purchasing Program will conduct the solicitation process and administer the resulting contract. The purpose of this bid is to establish contracts with manufacturers and manufacturer's authorized dealers for contract terms specified under Section 1.03 for the purchase of items on a "no trade-in basis."

1.03 TERM OF CONTRACT

The term for Contracts FSA23-VEL31.0 Pursuit, Administrative and Other Vehicles and FSA23-VEH21.0 Heavy Trucks and Buses shall remain in effect for one year from date of contract execution by the FSA, and may be extended by mutual agreement, at the sole option and discretion of the FSA. The initial term of these contracts begins October 1, 2023, and ends September 30, 2024.

The term for Contract FSA23-EQU21.0 Equipment shall remain in effect for two years from date of contract execution by the FSA, and may be extended by mutual agreement, at the sole option and discretion of the FSA. The initial term of this contract begins October 1, 2023, and ends September 30, 2025.

Contract extensions will only be executed when the FSA determines, based on then-existing conditions, that it is in the best interest of the FSA and the purchasers to do so.

1.04 JURISDICTION

This Agreement shall be governed by and construed in accordance with the laws of the State of Florida. Venue shall lie in the appropriate court in and for Leon County, Florida.

1.05 SHERIFF AS COUNTY CONSTITUTIONAL OFFICER

The Offices of the Sheriff in the State of Florida are constitutional offices of the State of Florida. Each has the authority either individually or collectively to execute contracts for all goods and services for the proper conduct of that office. Section 30.53, Florida Statutes, exempts the sheriffs' offices from the provisions of the Florida Statute that would otherwise require sealed and competitive bidding procedures.

The Office of the Sheriff is not required by law to accept the lowest priced proposal and may reject any or all of the proposals without recourse. Bidders are solely responsible for their own bid preparation costs and nothing in this solicitation in any way obligates the participating sheriffs' offices for any payment for any activity or costs incurred by any Bidder in responding to this solicitation.

1.06 FUNDING

In the case of certain purchasers, including state agencies, funds expended for the purposes of the contract must be appropriated by the Florida Legislature, the individual participating agency or the agency's appropriating authority for each fiscal year included within the contract period. For such agencies, their performances and obligations to pay for products or services under any resulting contract, or purchase order, are contingent upon such an annual appropriation by the Legislature, individual agency or by the appropriating authority. Therefore, any contract or purchase order with such an agency shall automatically terminate without penalty or termination costs in the event of non-appropriation.

1.07 CURRENCY

All transaction amounts, bids, quotes, provisions, payments or any part of this contract relating to currency are to be made in United States Dollars.

1.08 GENERAL DEFINITIONS

The terms used in this contract are defined as the following:

B. Bid System: The online forum used for the submission of bids and review of bid results for the specifications connected to this Invitation to Bid. VendorLink is the software used for this bid.

C. Bidder: A bidder or enterprise that submits a formal bid to the Florida Sheriffs Association Cooperative Purchasing Program in accordance with the Florida Sheriffs Association Cooperative Purchasing Program Terms and Conditions. A bidder, that is not the manufacturer, must be authorized by the manufacturer to market and sell an item for which they are bidding.

D. Build sheet: A document from the Bidder that confirms that the item submitted by Bidders meets or exceeds the FSA CPP Base Specification. Build sheets include, but are not limited to, the factory options list and door data plate information for vehicles that include details such as engine size and transmission, paint codes, production date, axle code, etc.

E. Dealer: An enterprise authorized by the manufacturer to market, sell, provide, and service the items for the Florida Sheriffs Association Cooperative Purchasing Program. Dealers may be Vendor-owned and controlled, in whole or in part, or independently owned and controlled.

I. Florida Sheriffs Association Cooperative Purchasing Program (FSA CPP): The entity that administers the Invitation to Bid and contract administration functions for the resulting contract(s).

J. Invitation to Bid: A competitive solicitation and award process established through the issuance of an invitation to Bidders, vendors, dealers and manufacturers to submit a price offer on a specific product to be provided. This term shall include the Bid Specifications available to Bidders on the Bid System and references to solicitation documents. The term shall not include requests for proposals, requests for quotes, requests for letters of interest, or the solicitation of purchase orders based on oral or written quotations.

K. Manufacturer: The original producer or provider of items offered on this contract.

L. The following are acceptable sources of current MSRPs and MSRP Lists for use in submission of the bid solicitation and the resulting contract:

O. Published List Price: A standard "quantity of one" price currently available to government and educational purchasers, excluding cooperative or volume discounts.

P. Purchase Order: A request for order from a purchaser to an awarded Vendor for an item that has been awarded on this contract. Purchase Orders placed using this contract formalize the terms and conditions of this contract under which a Vendor furnishes items to a purchaser.

Q. Purchaser: A purchaser is an entity that seeks to obtain items awarded on this contract by meeting the eligible user criteria.

R. Qualification Packet: This document contains the required forms, attestations, authorizations, and organizational information needed by Bidders to submit a successful and complete bid.

Standard regulations, processes, procedures, and compliance requirements are identified herein. Bidders complete a qualification packet during the bid process indicating they agree to comply with the Terms & Conditions, and that this will serve as a contract for both parties, should the Bidder(s) receive award.

T. Third Party Supplier: Businesses external to a Bidder or Vendor that provide products and services which contribute to the overall finished item in this contract. Third Party Suppliers are contractors under the direction and responsibility of the Bidder or Vendor.

U. Vendor: The Bidder(s) that receive award, who agree to provide the contract items that meet the requirements and Base Specifications of the contract. The Vendor must agree to the Terms & Conditions, which will serve as the governing contract. If the Vendor is not the manufacturer, the Vendor must be authorized by the manufacturer to market, sell, provide, and service all awarded items.

V. Vendor Installed: A product or service provided by the Vendor or other third party; not the factory.

1.09 ELIGIBLE PURCHASERS OF CONTRACT

In addition, awarded bids can be extended and guaranteed to other entities, which can include out-of-state sales, in accordance with Vendors' individual manufacturers' agreements. Vendors that wish to extend contract pricing to entities other than those defined here are governed by their manufacturers' agreements and must agree to the Terms & Conditions.

1.10 LEGAL REQUIREMENTS

Federal, State, and local laws, ordinances, rules and regulations, including any applicable motor vehicle dealer laws, that in any manner affect the items covered herein apply. Lack of knowledge by the Bidder of applicable legal requirements will in no way be a cause for relief from responsibility.

Bidders have the option to certify that they are willing to accept purchase orders funded in whole or in part with federal funds. By opting in, Bidders certify that they are willing to comply with the requirements outlined in Appendix D upon receipt of a federally funded purchase order. This is not a requirement of the Invitation to Bid or contract. Bidders are not required to opt-in; however, they are required to indicate whether they will opt-in or opt-out of receiving federally funded purchase orders. FSA CPP has taken actions to provide and develop information, materials, and resources for Bidders, Vendors and purchasers that will assist in the use of federal funding with this

contract. It is the responsibility of the purchaser to determine compliance for each Vendor, if they wish to use federal funds for purchase or intend to request reimbursements using federal funds.

1.11 PATENTS & ROYALTIES

The Bidder/Vendor, without exception, shall indemnify and hold harmless the Florida Sheriffs Association (FSA) and its employees from liability of any nature or kind, including costs and expenses for, or on account of, any copyrighted, patented, or unpatented invention, process, or article manufactured or used in the performance of the contract, including its use by the FSA or a purchaser.

If the Bidder/Vendor uses any design, device or materials covered by letters, patent, or copyright, it is mutually understood and agreed, without exception, that the bid prices shall include all royalties or costs in any way arising, directly or indirectly, from the use of such design, device, or materials in any way involved in the work.

It is the intent of FSA CPP that all specifications herein are in full and complete compliance with all Federal and State of Florida laws, requirements, and regulations applicable to the type and class of commodities and contractual services being provided.

In addition, any applicable Federal or State legal or regulatory requirements that become effective during the term of the Terms & Conditions, regarding the items and services specifications, safety, and environmental requirements shall immediately become a part of the Terms & Conditions. The Vendor shall meet or exceed any such requirements of the laws and regulations. If an apparent conflict exists, the Vendor shall contact the FSA CPP immediately.

1.13 UNDERWRITERS' LABORATORIES

TTY users may also call the Florida Relay Service at 711.

1.15 REASONABLE ACCOMMODATION

As part of the solicitation process FSA CPP makes information publicly available to potentially qualified entities, and conducts additional outreach to qualified:

- Small businesses,
- Minority-owned small businesses,
- Women-owned small business enterprises, and
- Disadvantaged business enterprises.

FSA CPP takes necessary affirmative steps to ensure that minority businesses, women's business enterprises, and labor surplus area firms are used, when possible, as recommended by 2 C.F.R. § 200.321. FSA CPP will:

- Evaluate whether small, minority, and women's businesses are potential sources,
- Place those qualified small and minority businesses and women's business enterprises on solicitation lists, and
- Search the Small Business Administration, Minority Business Development Agency, and Labor Surplus Area reports for additional potential sources.

Bidders self-certify in the qualification packet whether they meet the state and federal definitions of a small business, minority-owned small business, women-owned small business enterprise, and disadvantaged business.

1.17 ANTI-DISCRIMINATION

The Bidder certifies that they are in compliance as applicable by federal or state law with the non-discrimination clause contained in Section 202, Executive Order 11246, as amended by Executive Order 11375, relative to equal employment opportunity for all persons without regard to race, color, religion, sex or national origin.

1.18 BEST COMMERCIAL PRACTICES

The apparent silence or omission of any description from the specifications shall be regarded as meaning that only the best commercial practices, size, and design are to be used. All workmanship is to be first quality. All interpretations of this specification shall be upon the basis of this statement.

1.19 PUBLIC ENTITY CRIMES (PEC)

In accordance with the Public Entity Crimes Act, Section 287.133, Florida Statutes, a person or affiliate who has been placed on the convicted vendor list maintained by the State of Florida Department of Management Services following a conviction for public entity crimes may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a vendor, supplier, sub-vendor, or consultant under a contract with a public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

1.20 TAX EXEMPTION

Purchasers making a purchase pursuant to the awarded bid are generally exempt from Federal Excise and State Sales Tax. It is the responsibility of the Vendor to verify that the purchaser is exempt by obtaining the purchaser's Federal Excise and State Taxes and Use Certificate Number.

The Florida Sheriffs Association is a 501(c)3 organization and is exempt from all Federal Excise and State Taxes. The FSA State Sales Tax and Use Certificate Number is 85-8012646919C-3.

1.21 ORDER OF PRECEDENCE IN THE EVENT OF CONFLICT

In the event of conflict, the conflict may be resolved in the following order of priority (highest to lowest):

- Addenda to Contract Terms & Conditions, if issued
- Contract Conditions
- General Conditions
- Addenda to Bid Specifications, if issued
- Bid Specifications
- Bidder Instructions

1.22 COMMUNICATIONS

Communications between a Bidder, lobbyist or consultant and FSA are limited to matters of process or procedure and shall be made in writing to the FSA CPP Staff.

Bidders should not rely on representations, statements, or explanations other than those made in this Invitation to Bid or in any written addendum to this Invitation to Bid, and no oral representations, statements, or explanations shall be deemed to bind the FSA or eligible users.

1.23 CLARIFICATION AND ADDENDA

Any questions or clarifications concerning the Invitation to Bid shall be submitted to FSA CPP by e-mail to CPP@flsheriffs.org with the bid title and number referenced on all correspondence. Final questions must be received by the date for Request for Clarification stated on the Bid Calendar. Questions and answers will be posted to the FSA CPP website on the date indicated on the Bid Calendar. Questions received during the cone of silence date listed on the bid calendar will not be addressed, except as provided herein.

Interpretation of the specifications or any solicitation documents will **not** be made to the Bidder verbally, and if any verbal clarifications are provided, they are without legal effect. FSA CPP will make every attempt to e-mail updates to registered Bidders. However, posting to the FSA CPP website or the Bid System constitutes proper notice of addenda.

The FSA CPP shall issue a Formal Addendum if substantial changes that impact the submission of bids are required. Any such addenda shall be binding on the Bidder and shall become a part of the solicitation document. In the event of conflict with the original specifications, addenda shall govern to the extent specified. Subsequent Formal Addenda shall govern over prior Formal Addenda only to the extent specified. The FSA will not be responsible for any explanation or interpretation made verbally or in writing except those made through the posting of a Formal Addendum.

The bid submission constitutes acknowledgment of addenda to the Bid Specifications. Bids that fail to account for the specification addenda shall be determined to be nonresponsive; however, the FSA CPP may waive this requirement when in its best interest.

After the start of the contract term, FSA CPP will notify all Vendors of any addenda and will require acknowledgement of the new terms and conditions. If the Vendor does not agree to the new terms and conditions, the Vendor's award can be removed or replaced by another Vendor or qualified responsive bidder.

1.24 SIGNED BID CONSIDERED AN OFFER

The signed bid shall be considered an offer on the part of the Bidder, which offer shall be deemed accepted upon approval by the FSA CPP. The bid submission must be signed by an authorized representative. Submission of a bid in the FSA CPP Bid System constitutes a signed bid for purposes of bid evaluation. An electronic signature may be used and shall have the same force and effect as a written signature.

1.25 ASSIGNMENT OF CONTRACT

No right or interest in this contract may be assigned, transferred, conveyed, sublet or otherwise disposed of, without prior written consent of the FSA CPP.

If the original Vendor sells or transfers all assets or the entire portion of the assets used to perform this contract, a successor-in-interest must perform all obligations under this contract. FSA CPP reserves the right to reject the acquiring entity as Vendor. A change of name agreement will not change the contractual obligations of the Vendor.

In the event a manufacturer reassigns the product line to an alternate company, the Vendor is required to notify the FSA CPP in writing of the change within 10 business days of the reassignment. If the Vendor is not already an approved FSA CPP Vendor, the alternate company is required to submit a Qualifications Packet to the FSA CPP to become an approved Vendor *prior to* conducting any qualified sales. FSA CPP may approve such assignments of existing or new vendors at its discretion. The Vendor is required to honor the contract pricing and all of the applicable Terms & Conditions throughout the remaining term of the contract.

1.26 TERMINATION OF PRODUCT LINE

If a Vendor terminates a product line (manufacturer or brand), the Vendor is required to notify the FSA CPP within 10 business days of the decision not to retain the product line. FSA CPP may remove the terminated products from the contract.

1.27 DEMONSTRATION OF COMPETENCY

Bidders must be able to demonstrate a good record of performance for a reasonable period of time, and have sufficient financial support, equipment and organization to ensure they can satisfactorily execute the services if awarded a contract under the terms and conditions herein stated.

The terms "equipment" and "organization" as used herein shall be construed to mean a fully equipped and well-established company in line with the best business practices in the industry and as determined by the FSA CPP.

The FSA CPP may consider any evidence available and may require submission of supporting documentation regarding the financial, technical and other qualifications and abilities of a Bidder, including past performance with the FSA CPP in making the award.

FSA CPP may inspect the Bidder's facility prior to the award of contract. Bids will only be considered from firms which are regularly engaged in the business of providing the goods or services described in this Invitation to Bid.

Information submitted in the bid may not be plagiarized and, except in the case of materials quoted from this solicitation or developed by the manufacturer, must be the original work of the individual or company that submits the bid for evaluation.

1.28 VENDOR ABILITY TO PERFORM

The FSA CPP may require Bidders to show proof that they have been designated as authorized representatives of a manufacturer or supplier, which is the actual source of supply. In these instances, the FSA CPP may also require information from the source of supply regarding the quality, packaging and characteristics of the products. Any conflicts between this material information provided by the source of supply and the information contained in the bid submission may render the bid nonresponsive.

During the contract period, FSA CPP may review the Vendor's record of performance and may require submission of supporting documentation to ensure that the Vendor is providing sufficient financial support, equipment and organization.

If the FSA CPP determines that the Vendor no longer possesses the financial support, equipment and organization in order to comply with this section, FSA has the authority to immediately terminate the contract.

By responding to this Invitation to Bid, the Vendor warrants that, to the best of his or her knowledge, there is no pending or threatened action, proceeding, or investigation, or any other legal or financial condition, that would in any way prohibit, restrain, or diminish the Vendor's ability to satisfy the obligations of a resulting contract. The Vendor warrants that neither it nor any affiliate is currently on the convicted vendor list maintained pursuant to section 287.133 of the Florida Statues, or on any similar list maintained by any other state or the federal government. The Vendor shall immediately notify the FSA CPP and purchaser in writing if its ability to perform is compromised in any manner during the term of the contract.

1.29 FINANCIAL RESPONSIBILITY

Bidder affirms by the submission of the bid and by signature on the contract signature form that the Bidder:

- Has fully read and understands the scope, nature, and quality of work to be performed or the services to be rendered under this bid and has adequate facilities and personnel to fulfill such requirements.
- Accepts the financial responsibility associated with this bid and declares that they have the access to capital (in the form of liquidity or credit lines) in order to meet the financial demands of such award.
- Has assessed the financial responsibility required to serve the contract as bid, including such details as the obligations to perform all items bid, zones bid, and quantities that could be ordered, as well as timing of payment from purchasers, which can be 45 calendar days from receipt of invoice.

1.30 QUALITY AND SAFETY

All materials used for the manufacture or construction of any supplies, materials or equipment covered by this bid shall be new. The items bid must be new, the latest model, of the best quality, and highest-grade workmanship that meet or exceed federal safety standards.

Items requiring certification should require certification of options in cases where non-certified options could result in the decertification of the original product or warranty. In all cases where options are not certified, the Vendor must disclose to the end user that the non-certified options are not required to be certified. All options must meet or exceed federal safety standards.

1.31 NONCONFORMANCE

Items may be tested for conformance with specifications. Items delivered that do not conform to specifications may be rejected and returned at the Vendor's expense.

Any violation of these stipulations may also result in:

- Vendor's name being removed from the awarded vendor list.
- FSA and purchasers being advised not to do business with Vendor.

1.32 GRATUITIES

Bidders shall not offer any gratuities, favors, or anything of monetary value to any official, employee, or agent of the FSA, for the purpose of influencing consideration of this bid. Bidders shall disclose in writing any conflicts of interest to FSA prior to any award, or as soon as practicable after learning of any such conflict, including any contractual or employment relationships with FSA or potential purchasers of Bidders' products or services.

1.33 TIE BIDS

FSA CPP has the right to award multiple Bidders the primary or alternate award in the event of a tie. In the event the FSA CPP desires to break tie bids, and businesses have qualifying drug-free work programs, the award will be made using the following criteria:

- Bidder within the State of Florida
- Vendors' performance record with purchasers
- Coin Toss

1.34 RIGHT TO AUDIT

Vendor shall establish and maintain a reasonable accounting system that enables FSA CPP to readily identify Vendor's sales. FSA CPP and its authorized representatives shall have the right to audit and to make copies of all related records pertaining to this contract, including all government sales and eligible user information, whether kept by or under the control of the Vendor, including, but not limited to those kept by its employees, agents, assigns, successors, sub-vendors, or third-party suppliers in whatever form they may be kept – written or electronic. Such records shall include, but not be limited to:

- Accounting records, including but not limited to purchase orders, confirmation of orders or invoices, paid vouchers, cancelled checks, deposit slips, ledgers, and bank statements;
- Written policies and procedures;
- Subcontract files (including proposals of successful and unsuccessful Bidders, bid recaps, etc.);
- Original estimates, quotes, or work sheets;
- Contract amendments and change order files;
- Insurance documents; or
- Memoranda or correspondence.

Vendor shall maintain such records during the term of this contract and for a period of three (3) years after the completion of this contract. At the Vendor's expense and upon written notice from FSA CPP, the Vendor shall provide such records for inspection and audit by FSA CPP or its authorized representatives. Such records shall be made available to FSA CPP during normal business hours within three business days of receipt of the written notice. FSA CPP may select the Vendor's place of business or offsite location for the audit. The FSA CPP may also request the Vendor provide requested records via e-mail.

Vendor shall ensure FSA has these rights with Vendor's employees, agents, assigns, successors, and third-party suppliers, and the obligations of these rights shall be explicitly included in any subcontracts or agreements formed between the Vendor and any sub-vendors to the extent that those subcontracts or agreements relate to fulfillment of the Vendor's obligations to FSA.

Professional fees, personnel costs and travel costs incurred by FSA under its authority to audit and not addressed elsewhere will be the responsibility of the FSA. However, if the audit identifies underreporting, overpricing or overcharges (of any nature) by the Vendor to FSA or a purchaser in excess of three percent (3%) of the total contract billings, the Vendor shall reimburse FSA for the total costs of the audit not to exceed $5,000. If the audit discovers substantive findings related to fraud, misrepresentation, or non-performance, FSA may recoup all the costs of the audit work from the Vendor.

Any adjustments or payments that must be made as a result of any such audit or inspection of the Vendor's invoices or records shall be made within a reasonable amount of time (not to exceed 60 calendar days) from presentation of FSA's findings to Vendor.

FSA has the right to assess damages or seek reimbursements or refunds based on audit results.

1.35 LICENSES AND PERMITS

The Bidder shall obtain and pay for all licenses, permits and inspection fees for this bid submission and any resulting contract. Where Vendors are required to enter or go onto FSA or purchaser property to deliver materials or perform work or services as a result of a bid award, the Vendor will assume the full duty, obligation and expense of obtaining all necessary licenses, permits and insurance.

The Bidder must, by the time of award, be registered to do business in the State of Florida on SunBiz.gov.

1.36 PERFORMANCE BONDS

Purchasers may request a performance bond from a Vendor. Performance bonds are recommended with pre-payment and will be at the expense of the requesting agency. Purchasers should determine the best practice in comparing performance bond expense against any prior discounts that may be available.

1.37 ELIMINATION FROM CONSIDERATION

This Invitation to Bid shall not be awarded to any person or Bidder who has outstanding debts to the FSA, whether in relation to current or previous bid awards or for other business purposes.

1.38 INDEPENDENT PREPARATION

A Bidder shall not, directly or indirectly, collude, consult, communicate or agree with any other Bidder as to any matter related to the bid each is submitting. Additionally, a Bidder shall not induce any other Bidder to modify, withdraw, submit, or not submit a bid.

Bidders or Vendors who are found to have engaged in these acts will be considered nonresponsive and will be suspended or barred from bid participation. Any contract award resulting from these acts may be terminated for

default. Further, any such acts detected by the FSA may be reported to relevant law enforcement and/or prosecutorial agencies.

Bidders may submit multiple bids without violating this provision if the bid submitted is not from the same manufacturer and product line. Dealers that share the same ownership may submit multiple bids without violating this provision if the Bidders are not in the same region featuring the same manufacturer and product line.

1.39 DEFAULT

In case of default on the part of Vendor, the FSA CPP may take necessary steps to otherwise procure the products sought, including but not limited to procuring the products or services from the next highest ranked Bidder or from other sources. A defaulting Vendor may be held liable for costs incurred by the FSA in procuring replacement products.

1.40 PROTESTS AND ARBITRATION

Any person who is adversely affected by the decision or intended decision to award shall file a "Notice of Protest" in writing to the FSA CPP within three (3) business days after the posting of the Intent to Award and shall file a formal written protest within five (5) business days after filing the Notice of Protest. Failure to file both a notice of protest and a formal written protest within the above referenced timelines shall constitute a waiver of proceedings.

The burden is on the party protesting the award of the bid to establish grounds for invalidating the award(s). The formal written protest must state with particularity the facts and law upon which the protest is based. Options are for informational purposes only and will not serve as a basis for protest. Failure to do so will result in a denial of protest. Formal written protest which states with particularity the facts and law upon which the protest is based will be reviewed by FSA legal counsel for legal soundness and validity, and corrective action will be taken as needed contingent upon the validity of such claims. However, any additional time required and cost incurred by the FSA to substantiate a protesting party's claim(s) beyond the normal scope of its legal review due to the vague or inconclusive nature of the protesting party's filing will be reimbursable to the FSA and deducted from the protesting party's bond or security which must accompany their filing.

Any Bidder who files an action protesting a decision or intended decision pertaining to this contract shall post a bond, cashier's check or money order payable to the Florida Sheriffs Association in the amount equal to ten percent of the item being protested. The bond, cashier's check or money order must be filed at the time of filing the formal written protest or within the five (5) business day period allowed for filing the formal written protest. FSA CPP will provide the amount required within two (2) business days of the notice of protest received. This bond or security will be conditioned upon the payment of all costs which may be adjudged against the protesting party in a court of law and/or to reimburse the FSA for additional legal expenses incurred and required to substantiate the protesting party's claim(s). Failure to post the bond or security requirement within the time allowed for filing will result in a denial of protest. The filing of the protest shall not stay the implementation of the bid award by the Florida Sheriffs Association.

Should the unsuccessful Bidder(s) decide to appeal the decision of the FSA, they shall file a notice to FSA CPP within three (3) business days of the FSA bid protest decision regarding their intent to request arbitration. A demand for arbitration with the American Arbitration Association's (AAA) commercial panel under its rules and regulations must be made within ten (10) business days of the FSA bid protest decision. Any person who files for an arbitration with the AAA shall post with the Florida Sheriffs Association at the time of filing the formal written arbitration request, a bond, cashier's check or money order payable to the Florida Sheriffs Association in the

amount equal to ten percent of the product line being protested. This amount will be the same amount as the FSA CPP provided at the time of filing the initial protest. Failure to provide written notice to FSA CPP, file a demand for arbitration with the AAA, or failure to post the required bond and security requirement within the specified timelines shall constitute a waiver of arbitration proceedings. By responding to this procurement, the Bidder expressly agrees to the use of mandatory binding arbitration to resolve any appeals of the decision of the FSA, and any claims arising from or in any way relating to the procurement process, and expressly waives any and all rights that it may otherwise have to pursue such claims in any other forum, judicial or otherwise.

If the party filing for arbitration does not prevail, it shall pay all costs, legal expenses and attorney fees of the prevailing party incurred in connection with the arbitration. However, if the filing party prevails, the parties shall share equally the fees and expenses of the arbitration and AAA and each shall bear the cost of their own attorney fees. The filing for arbitration shall not stay the implementation of the bid award by the Florida Sheriffs Association.

1.41 NONPERFORMANCE

By virtue of the bid submission, Bidder acknowledges its obligation to sell items in all zones for which it is awarded. Upon award, failure of the Vendor to comply with these requirements may result in the imposition of liquidated damages of up to $1,000 per item, which amount the Vendor agrees is reasonable, or probation, suspension, termination or a combination thereof from current and future bids at the FSA CPP's discretion.

The Vendor shall at all times during the contract term remain responsive and responsible. In determining Vendor's responsibility, the FSA CPP shall consider all information or evidence that demonstrates the Vendor's ability or willingness to fully satisfy the requirements of the Terms & Conditions.

Vendors that are not in compliance with any of the provisions of this contract can be assessed liquidated damages, suspended or terminated from the contract. The FSA CPP at its sole discretion may remove a noncompliant Vendor from future competitive bid solicitations; or take other actions including suspension from the contract until compliance issues are resolved, limit current or future vendor participation by items or zones, or other actions as determined by FSA CPP at its sole discretion.

At FSA CPP's discretion, Vendors may be required to develop corrective action plans to address contract compliance. Failure to abide by corrective action plans will result termination from the existing contract and future competitive bid solicitations at the discretion of the FSA CPP.

In situations where there is evidence that the Vendor has engaged in egregious breaches of the contract with respect to either the FSA CPP and/or the purchaser, the contract can be terminated and the Vendor will be removed from future solicitations for a period of up to three (3) years, or a permanent ban from the bid process at the sole discretion of FSA CPP.

Specific conditions for termination include, but are not limited to; failure to perform, refusal to accept orders during the contract period while manufacturer orders are still being accepted for current model year or the new year if the vehicle is price protected by the factory, charging amounts exceeding MSRP on factory or Vendor installed items and packages, requiring the purchase of additional options over and above the base vehicle as a condition of acceptance of order, providing aftermarket options where factory options are available without the consent of the purchaser, any misrepresentation of optional equipment or service as being factory that fails to meet the definition as described in this document, and any other practice deemed to be inconsistent with the intent of the contract.

Any Vendor presented with a valid Purchase Order consistent with Vendor bid quotes or other agreed upon terms and pricing is required by this contract to accept such purchase order and deliver the product. Purchase Orders must be fulfilled whether or not the Purchase Order includes options. The Vendor must deliver this product in accordance with the Terms & Conditions – regardless of whether doing so will provide the Vendor with a profit or loss.

Failure to deliver the item may result in the purchaser seeking damages for the difference of cost to issue a new Purchase Order with another Vendor plus any legal fees and damages that may be incurred in the process to facilitate a completed order. Additionally, FSA CPP may seek damages for nonpayment of administrative fees, to which FSA CPP is entitled, according to Section 3.28, and any attorney's fees incurred in the recovery of these damages.

1.42 SEVERABILITY

In the event any provision of this contract is held to be unenforceable for any reason, the unenforceability thereof shall not affect the remainder of the contract, which shall remain in full force and effect and enforceable in accordance with its terms.

1.43 TERMINATION FOR CAUSE

If through any cause within the reasonable control of the Vendor, it shall fail to fulfill in a timely manner, or otherwise violate any of the terms of this contract, the FSA CPP shall have the right to terminate the services remaining to be performed. Written notice of the deficiencies shall be given to the Vendor and unless the deficiencies are corrected within 10 business days, the contract may be terminated for cause immediately. The right to exercise the option to terminate for cause shall be in the sole discretion of the FSA CPP, and the failure to exercise such right shall not be deemed to constitute a waiver of this right.

In the event of a termination for cause, the purchaser shall compensate the successful Bidder in accordance with the contract for all services performed by the successful Bidder prior to termination, net of any costs incurred by the purchaser and FSA as a consequence of the default.

Notwithstanding the above, the Vendor shall not be relieved of liability to the FSA for damages sustained by the FSA by virtue of any breach of the contract by the Vendor, and the FSA CPP may reasonably withhold payments to the Vendor for the purposes of offset until such time as the exact amount of damages due the FSA from the Vendor is determined.

1.44 TERMINATION WITHOUT CAUSE

The FSA CPP can terminate the contract in whole or part without cause by giving written notice to the Vendor of such termination, which shall become effective 30 calendar days following receipt by Vendor of such notice.

In the event of a termination without cause, all finished or unfinished documents and other materials shall be properly delivered to the FSA CPP.

The Vendor shall not furnish any product after it receives the notice of termination, except as necessary to complete the continued portion of the contract, if any. The Vendor shall not be entitled to recover any lost profits that the Vendor expected to earn on the balance of the contract or cancellation charges.

Any payments to the Vendor shall be only to the total extent of the purchaser liability for goods or services delivered prior to the date of notice to terminate the contract.

1.45 CONTRACT ADVERTISEMENT AND USE OF FSA LOGO

The FSA logo is an official logo of the Florida Sheriffs Association designed to promote the program. The logo may be used by Vendors in accordance with this policy. Use of the logo is limited to the original version received from the FSA. Modifications are not permitted.

Methods of use include, but are not limited to:

- Electronic mediums such as websites, digital marketing campaigns, social media and e-mail; or
- Print media such as forms, marketing campaigns, business cards, posters, banners, brochures, flyers and postcards.

Vendors may request use of the logo by contacting cpp@flsheriffs.org, and should include a brief description of how the Vendor intends to use the logo. The official FSA sheriff's star and wreath logo may not be used without prior written permission.

The sufficiency of the Warranty Service Plan may be evaluated by the FSA CPP. The FSA CPP reserves the right to request additional information from a Bidder regarding the facility during the solicitation and the term of the contract, if awarded. The FSA CPP may also exercise discretion in examining such facility as deemed necessary.

2.03 INSURANCE AND INDEMNIFICATION

Bidder/Vendor shall be fully liable for the actions of its agents, employees, partners, or third party suppliers and shall fully indemnify, defend, and hold harmless the Florida Sheriffs Association, the participating agencies, and their officers, agents, and employees from suits, actions, damages, and costs of every name and description, including legal counsels' fees, arising from or relating to personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by Bidder/Vendor, its agents, employees, partners, or third party suppliers; provided, however, that the Bidder/Vendor shall not indemnify for that portion of any loss or damages resulting directly from the negligent acts or omissions of the Florida Sheriffs Association and participating agencies or proximately caused by intentional wrongful acts or omissions of the Florida Sheriffs Association and participating agencies.

The Florida Sheriffs Association and/or participating agencies shall give the Bidder/Vendor (2) the opportunity to take over and settle or defend any such action at Bidder's/Vendor's sole expense. When reasonable, the Florida Sheriffs Association will give the Bidder/Vendor written notice of an action or threatened action. Bidder/Vendor shall not be liable for any unreasonable cost, expense or compromise incurred by the Florida Sheriffs Association, or participating agencies, in any legal action without Bidder's prior written consent, which consent shall not be unreasonably withheld, conditioned, or delayed.

The Insurance Checklist summarizes the Bidder's/Vendor's insurance coverage obligations, if awarded. Certificates of Insurance, evidencing such coverages and endorsements as required herein, shall be provided no later than five (5) business days prior to the contract award date. The Vendor may not begin performance under the contract until such Certificates have been approved by the FSA CPP.

The certificate must state Bid Number and Title. FSA must be named as an additional insured for the duration of the contract.

The Vendor shall maintain comprehensive general liability insurance and general aggregate insurance in the amount and coverage levels specified on the Insurance Checklist.

The Vendor shall specifically and distinctly assume, and does so assume, all risks of damage or injury to property or persons used or employed on or in connection with the work and of all damage or injury to any person or property wherever located, resulting from any action or operation under the contract or in connection with the work. It is understood and agreed that at all times the Vendor is acting as an independent contractor. The Vendor shall be responsible for the work and every part thereof, and for all materials, tools, appliances and property of every description, used in connection with this particular contract. The Vendor at all times during the full duration of work under this contract, including extra work in connection with this contract, shall meet the requirements of this section.

The Vendor shall maintain automobile liability insurance including property damage covering all owned, non-owned, hired and scheduled automobiles, when used in connection with the delivery or service of this contract.

The Vendor shall maintain insurance to cover garage operations in the amount specified on the Insurance Checklist when the garage is used to complete work on this contract.

All insurance policies shall be issued by companies authorized to do business under the laws of the State of Florida and these companies must have a rating of B+ or better per the AM Best Rating.

FSA CPP required insurance coverages must be maintained through the duration of the contract. Upon expiration of the required insurance, the Vendor must email updated certificates of insurance for as long a period as any work is still in progress. No change or cancellation in insurance shall be made without 30 calendar days written notice to the FSA CPP.

It is understood and agreed that all policies of insurance provided by the Vendor are primary coverage to any insurance or self-insurance the FSA possesses that may apply to a loss resulting from the work performed in this contract. All policies issued to cover the insurance requirements herein shall provide full coverage from the first dollar of exposure.

The liability insurance coverage shall extend to and include the following contractual indemnity and hold harmless agreement:

> *The Vendor hereby agrees to indemnify and hold harmless the FSA, a 501(c)3, its officers, agents, and employees from all claims for bodily injuries to the public and for all damages to the property per the insurance requirement under the specifications including costs of investigation, all expenses of litigation, including reasonable legal counsel fees and the cost of appeals arising out of any such claims or suits because of any and all acts of omission or commission of any by the Vendor, his agents, servants, or employees, or through the mere existence of the project under contract.*

The foregoing indemnity agreement shall apply to any and all claims and suits other than claims and suits arising out of the sole and exclusive negligence of the FSA, its officers, agents, and employees, as determined by a court of competent jurisdiction.

The Vendor will notify the insurance agent without delay of the existence of the Hold Harmless Agreement contained within this contract and furnish a copy of the Hold Harmless Agreement to the insurance agent and carrier.

The Vendor will obtain and maintain contractual liability insurance in adequate limits for the sole purpose of protecting the FSA under the Hold Harmless Agreement from any and all claims arising out of this contractual operation.

The Vendor will secure and maintain policies of third-party suppliers. All policies shall be made available to the FSA upon demand. Compliance by the Vendor and all third-party suppliers with the foregoing requirements as to carrying insurance and furnishing copies of the insurance policies shall not relieve the Vendor and all third-party suppliers of their liabilities and obligations under any section or provisions of this contract. Vendor shall be as fully responsible to the FSA for the acts and omissions of the third-party suppliers and of persons employed by them as they are for acts and omissions of persons directly employed by the Vendor.

The FSA can request, and the Vendor shall furnish proof of insurance within seven (7) calendar days of receipt of the written request from FSA. Should the Vendor fail to provide acceptable evidence of current insurance during the contract term, the FSA CPP shall have the right to consider the contract breached and justifying the

termination thereof. If Bidder does not meet the insurance requirements; the FSA may consider alternate insurance coverage.

2.04 SPECIFICATIONS

All items covered by this Invitation to Bid and any resulting contract, and the specifications shall be the manufacturer's current basic production model, and shall, as a minimum, be equipped with all standard factory equipment in accordance with the manufacturer's latest literature unless otherwise noted in the Bid System or FSA CPP item group specification.

The Base Item Specifications are contained in the FSA CPP Bid System, may be requested from FSA CPP, and are retained within FSA CPP's archive. As part of the bid submission, Bidders will be required to provide confirmation that the item bid meets the FSA CPP Base Specification. FSA CPP may reject bids that fail to provide confirmation that the item(s) bid meet the FSA CPP Bid Specifications.

FSA CPP develops the specifications with subject matter experts and publicly available information. However, FSA CPP does not have access to full details from the manufacturer and relies on Bidders to assist in this process. Bidders should immediately notify the FSA CPP of any inaccuracies in the specifications. All notifications of inaccuracies must be in writing.

If awarded a contract, Vendor(s) must offer and supply an item that either meets or exceeds all the requirements included in the applicable Bid Specifications, unless a purchaser specifically issues a Purchase Order for a base item and Option that differs from the Base Specifications. Failure of a Bidder to comply with these provisions will result in Bidders being held responsible for all costs required to bring the item into compliance with the contract specifications.

2.05 SEALED BIDS

For purposes of this solicitation, a sealed bid is considered a bid submitted using the FSA CPP Bid System.

2.06 MISTAKES

Bidders are expected to examine the Base Item specifications, delivery schedules, bid prices and all information pertaining to servicing this contract before submitting a bid. Failure to do so will be at the Bidder's risk.

2.07 EXCEPTIONS

Any requested exceptions, deviations, or contingencies a Bidder may have to the Terms & Conditions must be documented in Bidder's submission. Exceptions to the Base Specifications at the time of the bid submission shall reference the item number, make and model. FSA CPP has the discretion to grant or deny, in whole or in part, the Bidder's requested exception, deviation or contingency to the specifications or Terms &Conditions. Bidder acknowledges that the bid may be disqualified if FSA CPP rejects the proposed exceptions.

2.08 EQUIVALENTS

Prior to the opening of the Bid System, Bidders may request item equivalents. The Bidder must submit the manufacturer name and model number (or product identifier) of each equivalent requested to FSA CPP. Complete,

descriptive, technical literature should demonstrate that the equivalent conforms with specification. If a bid uses equivalents without prior approval, the bid may be disqualified.

2.09 MANDATORY PRE-BID MEETING

Prospective Bidders are required to attend or participate in the **mandatory** Pre-Bid Meeting. The Pre-Bid Meeting is designed for vendors, the Fleet Advisory Committee and the FSA CPP to clarify questions on the Terms & Conditions and to confirm all Base Item specifications. Questions relating to the items, specifications, the bid process, or award can be asked at the Pre-Bid Meeting. Bidders have the opportunity to suggest technical modifications or corrections before the Base Item specifications are finalized.

FSA CPP reserves the right to grant attendance exceptions to the mandatory meeting if the Bidder has requested authorization, agrees in writing to meet all the Terms & Conditions without exception and further waives their right to protest the bid process in its entirety or any portion thereof.

2.10 PRICES QUOTED – HEAVY TRUCKS AND BUSES AND EQUIPMENT INVITATIONS TO BID

Items and options should reflect the most complete price and be below MSRP and at a minimum should cover the cost of the item or option bid.

Prices quoted in the bid submission should reflect the final amount the Bidder can expect to receive for payment for the items bid for the duration of the contract, unless otherwise provided in the contract. Prices submitted as indicated in the sealed bid are final. Bidders acknowledge that prices quoted will be valid for a period of sixty (60) calendar days from the date of bid opening.

Each item, make, and model must be priced and bid separately. Prices must be inclusive of all the components included in the Base Specification.

Prices bid must include the administrative fee FSA CPP charges to administer the contract, as outlined in these Terms & Conditions. The administrative fee is three quarters of one percent (.0075).

Prices bid must be at least cost, be Free On Board (FOB) destination, and must include delivery to the purchaser.

Upon award, the Vendor has the authority to offer additional discounts based on prompt payment, quantity, as well as additional manufacturer or vendor discounts.

2.11 PRICES QUOTED – PURSUIT, ADMINISTRATIVE AND OTHER VEHICLES INVITATION TO BID

Due to the changing market conditions, the FSA CPP has temporarily moved to a percent above cost, or "cost-plus", model for the Pursuit, Administrative and Other Vehicles Contract. The cost-plus model allows for Vendors to sell items immediately when order windows open up for next year's model, when the manufacturer changes price during the contract term, or when new items come to market.

Bidders shall provide a Bid Price and a Percent for each item bid. The Bid Price will be used to evaluate the lowest, responsive and responsible Bidder for each item and zone. The Percent will be used under an awarded contract to determine the cost-plus pricing for new year's models, when the manufacturer changes price during the contract

term, or when new items come to market. The FSA CPP will use the percent feature of the Bid System as the field to capture the percent above cost that the Vendor can expect to receive from the purchaser for the purchase of an awarded item.

The FSA CPP has the discretion to disqualify Bidders if the proposed Percent is excessive. In order to determine if Percent is excessive, FSA will compare the Percents proposed by Bidders for each item in each zone.

Prices and Percents bid for items and options should reflect the most complete item price, be below MSRP, and at a minimum should at least cover the cost of the item or option bid.

Prices and Percents bid must be at least "Item Cost", be Free On Board (FOB) destination, and must include delivery to the purchaser.

As used in this provision, “Item Cost” is defined as the factory invoice price for the item, the Original Equipment Manufacturer (OEM) destination and delivery to dealer, and the FSA Administrative fee, minus the OEM government pricing concessions specific to this bid, all manufacturer incentives, discounts, rebates, concessions and holdbacks.

As used in this provision, “Total Cost” is defined as the Item Cost, plus costs of dealer’s floorplan estimated operational expense, and costs of dealer for preparation, cleaning, and assembling, gas, and delivery to zone.

As used in this provision, “Bid Price” is defined as the Total Cost and profit.

As used in this provision, “Percent” is defined as the markup over Item Cost.

Bid Prices will be used as the initial publish pricing for awarded items. As windows open up for next year’s model, the manufacturer changes price during the contract term, or as new items come to market, FSA CPP will work with Vendors to update the published pricing for such items based on the awarded Percent, within a reasonable period of time. Vendors may accept Purchase Orders for such items in accordance with these Terms & Conditions before submitting updated published pricing to FSA CPP.

2.12 PURSUIT, ADMINISTRATIVE, AND OTHER VEHICLES CONTRACT COST-PLUS-PERCENT PRICING

Due to the changing market conditions, the FSA CPP has temporarily moved to a percent above cost, or “cost-plus”, model for the Pursuit, Administrative and Other Vehicles Contract. The cost-plus model allows for Vendors to sell items immediately when order windows open up for next year’s model, when the manufacturer changes price during the contract term, or when new items come to market.

The Bid System provides each Vendors’ percent above cost at which the Vendor will sell such items. The Percent provided in the Bid System does not provide a percent discount for items bid.

If Vendor fulfills a Purchase Order at other than published pricing, at purchasers’ request, Vendor must provide documentation substantiating the Item Cost, as defined in section 2.11.

2.13 OPTION PRICING – EQUIPMENT INVITATION TO BID

The Bidder shall offer discount below Manufacturer's Standard Retail Pricing (MSRP) or manufacturers published list price for any factory options included in the bid submission and quotes to purchasers, if awarded. FSA CPP requests Vendors include most frequently purchased scheduled, factory and aftermarket options in the bid.

Options are intended to add or delete equipment or features from the Base Specification. Options can provide an upgrade or downgrade to a manufacturer's model, such as a slightly different engine size or horsepower, and should not be made available for purchase separate from the base vehicle or equipment. Options may only provide a downgrade to a manufacturer's model when specifically requested in a Purchase Order issued in accordance with the Terms & Conditions by a purchaser. Bidders shall NOT use options to create equipment that is entirely different than the FSA CPP Base Specification or are available as another specification bid on this Invitation to Bid.

Bidder must use proper factory codes for all factory options. Options available through the factory may be bid and supplied to purchaser as "factory" options, unless otherwise requested in writing by the purchaser.

The FSA CPP has the discretion to disqualify Bidders if the option pricing is excessive or if options listed are not available for the item bid. In order to determine if pricing is excessive, Bidders agree to provide documentation to FSA CPP to verify cost at any time during the solicitation process or during the contract term. This information is for comparison purposes only when determining if pricing is excessive and will not be published.

Option pricing will include all costs of labor associated with the option and cost of labor should not be listed separately within the bid. For purposes of this bid, Emergency Lights and Sirens will require a separate pricing sheet upload in the Bid System. Section 2.15 contains specific instructions and exceptions for Emergency Lights and Sirens.

If a Bidder will offer registration and title services as a fee for service, the Bidder must include the administrative fee as a separate option (i.e., line item) for each item bid. *See* Section 3.21 for additional details. Government imposed fees should not be included in this option pricing.

No other additional charges or fees are admissible.

If options are not available as a stand-alone option, the Bidder must indicate in their bid submission any option requiring the purchase of other options, and also indicate options that are a part or dependent of another option. Factory package options are allowable under this contract. Factory package options must be included in the options within the bid document and detailed specifically as to what components the package includes.

When calculating the price for a manufacturer's option requested in this bid that is not listed as an option in the manufacturer's order guide (i.e., model or engine upgrade), the Bidder must calculate the option price as the net difference between vendor cost on the representative base vehicle and the total MSRP of the requested option modifying the vehicle. A Bidder may bid less than this price, but at no time charge more than the calculation provided here.

The use of options to facilitate the sale of an alternate manufacturer's product which is outside the scope of the written Base Specification will be determined nonresponsive and the bid will be rejected in whole or part by the FSA CPP.

Example: Bidder CANNOT include option upgrades that result in the selling of a vehicle or truck on one specification that is offered as a separate specification in

the Invitation to Bid. For example, a Vendor who is awarded the bid for 25,500 lb. GVWR Cab & Chassis cannot upgrade this item through an add option to a 30,000 lb. GVWR Cab & Chassis in order to circumvent the bid award winner for the 30,000 lb. GVWR Cab & Chassis.

Purchasers are encouraged to negotiate option pricing with Vendors. Discounts can be provided beyond option prices listed in the contract. The additional discounts for each add option shall be decided by the Vendor.

The options will correspond to the specification or item number. Multiple options may be listed for each specification or item number bid. Therefore, Bidders that do not indicate the correct item number with the option information bid will not have options displayed for the item bid. If option pricing is not uploaded correctly, FSA CPP may require Bidders to correct the formatting of the options, but pricing may not be modified. Failure of the Bidder to make corrections may cause the bid to be rejected.

If the Bidder wishes to offer credit to the purchaser for an option that is standard on the FSA CPP Base Specification, the Bidder should include the word "Credit" at the beginning of the description and continue to describe the option being credited. For example, "Credit: one key fob" that corresponds with the price the Bidder will credit the purchaser.

Loose Equipment can be bid as an option and made available to purchasers for items originally purchased from this contract. For purposes of this provision, "Loose Equipment" is any item of equipment that attaches to the heavy equipment item(s) included in the awarded bid, such as different sized blades. Loose Equipment does not include accessories, such as additional keys.

2.14 OPTION PRICING – HEAVY TRUCKS AND BUSES AND PURSUIT, ADMINISTRATIVE AND OTHER VEHICLES INVITATIONS TO BID

FSA CPP requests Bidders include most frequently purchased options in the Bid System. Option pricing must include the administrative fee. Bidders must provide a price for each option in addition to a percent below MSRP for factory-installed options or a percent above cost for other options.

The FSA CPP has the discretion to disqualify Bidders if the option pricing is excessive. In order to determine if pricing is excessive, Bidders agree to provide documentation to FSA CPP to verify cost at any time during the solicitation process or during the contract term. This information is for comparison purposes and will not be published.

Options are intended to add or delete equipment or features from the Base Specification. Options can provide an upgrade or downgrade to a manufacturer's model, such as a slightly different engine size or horsepower, and should not be made available for purchase separate from the base vehicle or equipment. Options may only provide a downgrade to a manufacturer's model when specifically requested in a Purchase Order issued in accordance with the Terms & Conditions by a purchaser. Bidders shall NOT use options to create an item that is available as another item bid on this Invitation to Bid. The use of options to facilitate the sale of an alternate manufacturer's product which is outside the scope of the Base Specification will be determined nonresponsive and the bid will be rejected in whole or part by the FSA CPP. Bidders must disclose which options require the purchase of other options or are dependent on another option in their bid submission. Option pricing will include all costs of labor associated with the option and cost of labor should not be listed separately.

Bidder must use proper manufacturer codes for factory options. Options available through the factory should be bid and supplied to purchaser as factory options, unless otherwise requested in writing by the purchaser. Factory

package options are permitted under this contract. Factory package options included in the bid submission must detail what components the package includes.

If a Bidder will offer registration and title services as a fee for service, government-imposed fees should be listed at the exact cost and shall not include the FSA administrative fee.

If the Bidder wishes to offer credit to the purchaser for an option that is standard on the FSA CPP Base Specification, the Bidder should include the word "Credit" at the beginning of the description field and continue to describe the option being credited. For example, "Credit: one key fob" and enter the price the Bidder will credit the purchaser.

For purposes of this bid, Emergency Lights and Sirens will require a separate pricing sheet and option upload in the Bid System. Section 2.15 contains specific instructions and exceptions for Emergency Lights and Sirens.

2.15 EMERGENCY LIGHTS AND SIRENS

Under Florida Statute 316.003(1), authorized emergency vehicles are defined as:

> Vehicles of the fire department (fire patrol), police vehicles, and such ambulances and emergency vehicles of municipal departments, public service corporations operated by private corporations, the Fish and Wildlife Conservation Commission, the Department of Environmental Protection, the Department of Health, the Department of Transportation, and the Department of Corrections as are designated or authorized by their respective departments or the chief of police of an incorporated city or any sheriff of any of the various counties.

Bidders that will provide or contract to provide emergency light and siren installation must only use installers that possess a current Emergency Vehicle Technician Certification, or an approved equivalent. FSA CPP may request certificates for a Vendor's installers at any time during the contract term. Labor may be charged for the installation of emergency lights and sirens. Labor rates must be disclosed as part of the bid submission. Bidders may not charge for labor for vehicles that are manufactured with emergency lights and sirens, including motorcycles. Prices submitted for emergency lights and sirens shall include all applicable government-imposed fees.

Bidders that install emergency lights and sirens are required to provide and install products that are Society of Automotive Engineers (SAE) certified. SAE Certifications must include Class 1, Class 2 and Class 3 in order to be eligible for participation in the contract. If a lighting or siren product installed on an emergency vehicle is not SAE Certified, the Vendor can be found in default of the contract.

<u>Bid Submission of Emergency Lights and Sirens</u>
If offering emergency lights and sirens, Bidders will be asked to provide pricing by submitting a pricing sheet. An emergency vehicle lights and siren option pricing template is offered in the Bid System. Bidders are encouraged, but not required to use the template. If item or specification group is helpful to display light and siren options, Bidders may categorize the pricing sheet by item group.

Items listed below are required for the submission of the pricing sheet:

- Order code
- Description
- Price (part only)

- Estimated labor hours
- Labor cost per hour

2.16 BID SUBMISSION

Bidders must submit a bid electronically using the Bid System. Bid submissions include a price for each item and option bid in accordance with Section 2.10, 2.11, 2.13, 2.14, and 2.15. Each Bidder must submit a qualifications package for each bid. The bid must be received by the date and time specified on the Bid Calendar in Appendix B. Failure to meet all submission requirements by the date indicated on the Bid Calendar will result in rejection of the bid.

Bid System: VendorLink
The Bid System is located at https://www.myvendorlink.com. Bidders are encouraged to participate in training provided. Usernames and passwords will be issued to Bidders after registering in the Bid System. Contact VendorLink at support@evendorlink.com if technical issues arise during bid submission.

Prices are to be rounded to the nearest whole dollar. If a Bidder submits bid pricing using cents, the following formula will be applied to round the bid pricing to the nearest whole dollar: $.01-.49 will be rounded down to the dollar bid (e.g., $50.49 = $50) and $.50-.99 will be rounded to the next dollar (e.g., $50.50 =$51).

Each option sheet should include a header to identify the FSA CPP contract title and number, the Bidder name, item number, make and model. Each option sheet should include:

- Option
- Description
- Manufacturer order code or identifying code
- Price

For the Heavy Trucks and Buses and Pursuit, Administrative, and Other Vehicles Invitations to Bid, the option sheet should also include:

- Cost plus percent for all items not installed at the factory
- Percent below MSRP for factory installed options

FSA CPP may ask awarded Bidders to supply one hard copy set with digital signatures and original compliance forms, prior to the contract execution. Hard copy bids should not be submitted unless specifically requested by FSA CPP. FSA is not responsible for Bidder's improper use of the Bid System. Exceptions will be granted to this section should any Bid System malfunctions occur.

2.17 ZONE BIDDING

Bidders may bid in one or more geographic zones. Bidders must submit pricing for each zone they wish to be evaluated. The zone map is included in Appendix A. The geographic zones are in place to assist Bidders in estimating costs of delivery, which must be included in the price bid and quoted to the purchaser. For the Pursuit, Administrative and Other Vehicles Contract, the cost of delivery must be included in the Percent.

2.18 EXECUTION OF BID

By submitting a response to this Invitation to Bid, the Bidder agrees to the Terms & Conditions and to be bound by such Terms & Conditions if selected for award. The Bidder must submit the Contract Signature Form with the signature of an authorized representative no later than the bid submittal due date. All Terms & Conditions are applicable throughout the term of the awarded contract and are not specific to any given year, make or model.

2.19 MODIFICATION OR WITHDRAWALS OF BIDS

A Bidder may submit a modified bid to replace all or any portion of a previously submitted bid until the due date and time of the bid submission listed in the Bid Calendar. Modifications received after the bid due date and time will not be considered.

Bids can be withdrawn in writing prior to the contract award. If a Bidder must withdraw the bid, the Bidder must contact FSA CPP immediately. Bid withdrawals are handled on a case-by-case basis and can result in a limitation of participation in future bids.

2.20 LATE BIDS

The responsibility for submitting a bid before the due date and time on the bid calendar is solely and strictly the responsibility of the Bidder. The FSA is not responsible for delays caused by technical problems, any internet outages or delays incurred by electronic delivery, or any other occurrence. Any reference to time will be based on Eastern Time.

2.21 BID OPENING

Bids shall be opened on the date and time specified on the Bid Calendar. The bid opening may occur at the Florida Sheriffs Association, 2617 Mahan Drive, Tallahassee, Florida, or may be offered online.

FSA CPP will provide a bid inspection period for Bidders following the bid opening. The date, time and duration will be announced prior to the bid opening.

2.22 DETERMINATION OF RESPONSIVENESS

Determination of responsiveness will take place at the time of bid opening and evaluation. In order to be deemed a responsive bidder, the bid must conform in all material respects to the requirements stated in the Invitation to Bid. As set forth in Section 2.26, FSA CPP reserves the right to waive or allow a Bidder to correct minor irregularities.

2.23 RESPONSIBLE BIDDER CRITERIA

Bids will be evaluated to determine if qualifications and contract requirements are met. Responses that do not meet all requirements of this Invitation to Bid or fail to provide all required information, documents or materials may be rejected as nonresponsive. The FSA CPP will not request documentation or consider a Bidder's social, political or ideological interests in determining if the Bidder is a responsible bidder. FSA CPP will not give preference to a Bidder based on the Bidder's social, political, or ideological interests.

Bidders whose responses, past performance, or current status do not reflect the capability, integrity, or reliability to fully and in good faith perform the requirements of the contract may be rejected as non-responsible. In determining a responsible Bidder, the following factors may be considered:

- Adequacy of facilities, staffing, and financial resources;
- Previous experience with FSA contract or other similar government contracts;
- Ability to provide excellent customer service, including on previous FSA contracts; and
- Any other information relevant to the responsibility of a Bidder of which FSA CPP is aware.

In addition to the requirements set forth by these Terms & Conditions, FSA CPP reserves the right to request staffing, performance and financial information from any Bidder during the evaluation process.

FSA CPP reserves the right to determine which responses meet the requirements, specifications, Terms & Conditions of the solicitation, and which Bidders are responsive and responsible.

FSA CPP further reserves the right to limit participation of Bidders who, in FSA CPP's sole discretion, are determined to present responsibility concerns that call into question the Bidder's ability to perform but that do not rise to the level of requiring rejection of the Bidder as non-responsible.

2.24 BASIS FOR AWARD

For the Heavy Trucks and Buses, and Equipment Invitations to Bid, the FSA CPP shall make awards to the qualified, responsive and responsible Bidder(s) who submitted the lowest priced bid by item, manufacturer, and zone. Awards may also be made to subsequent lowest responsive and responsible Bidders by item, manufacturer, and zone, when determined to be in the best interest of the FSA and the purchaser(s). FSA CPP has the discretion to consider option pricing in making the award and to disqualify Bidders for proposing excessive option pricing.

For the Pursuit, Administrative and Other Vehicles Invitation to Bid, the FSA CPP shall make award to the qualified, responsive and responsible Bidder(s) who submitted the lowest Bid Price by item, manufacturer, and zone. Awards may also be made to subsequent lowest responsive and responsible Bidders by item, manufacturer, and zone, when determined to be in the best interest of the FSA and the purchaser(s). FSA CPP has the discretion to consider Percent and option pricing in making the award and to disqualify bidders for proposing excessive Percent(s) or option pricing.

Awards will not be given to any parties listed on the government wide exclusion in the System for Award Management.

FSA CPP reserves the right to accept or reject any and all bids, and to waive any minor irregularity, technicality or omission if it determines that doing so will serve the purchaser's best interest. FSA CPP reserves the right to make multiple awards for each item, if determined to be in the best interest of the FSA and the purchasers.

Awards will be posted on the FSA CPP website according to the date posted in the bid calendar.

2.25 BID TABULATIONS

The Bid Tabulation report will be posted on the FSA CPP website after the bid submission closes.

If there is a delay in posting the bid tabulation results, FSA CPP will post a notice of the delay and a revised date for posting of results.

2.26 MINOR IRREGULARITIES/RIGHT TO REJECT

The FSA CPP has the right to accept or reject any and all bids, or separate portions thereof, and to waive any minor irregularity, technicality or omission if the FSA CPP determines that doing so will serve its best interest or the best interest of the purchasers. A minor irregularity is a variation from the Terms & Conditions of this procurement that does not affect the price of the bid or give the Bidder a substantial advantage over other Bidders and thereby restrict or stifle competition and does not adversely impact the interests of the FSA or the purchasers. At its option, the FSA CPP may allow a Bidder to correct minor irregularities but is under no obligation to do so. In doing so, the FSA CPP may request a Bidder to provide clarifying information or additional materials to correct the irregularity. However, the FSA CPP will not request, and a Bidder may not provide the FSA CPP with additional materials that affect the price of the bid or give the Bidder an advantage or benefit not enjoyed by other Bidders.

The FSA CPP may also reject any bids not submitted in the manner specified in this document.

2.27 CONE OF SILENCE

This Invitation to Bid is subject to the Cone of Silence that begins the date the bid submission opens through the intent to award date as indicated in the Bid Calendar. During this period, all communications regarding this solicitation between FSA and Bidder will cease, except for procedural questions, questions regarding problems incurred in the use of the Bid System, or communications initiated by the FSA CPP. All permitted communications during this period shall be made in writing to the contacts identified in Section 1.01 of this Invitation to Bid.

3.0 CONTRACT CONDITIONS

3.01 GENERAL REQUIREMENTS

Once the bid has been awarded, the terms and conditions of this document become the contract between the FSA CPP and the awarded Vendor. The Terms & Conditions apply to all items purchased from this contract.

3.02 STATEMENT OF AUTHORITY

Each person signing the contract warrants that they are duly authorized to do so and binds the respective party to the contract.

3.03 VENDOR CONTACT INFORMATION

The Vendor shall maintain current contact information with FSA CPP at all times for sales and submission of purchase orders, quarterly reports and administrative fee payments. If a change occurs during the contract, the Vendor must notify FSA CPP immediately.

3.04 ADDITIONS OR DELETIONS

FSA CPP reserves the right to add or delete any items from this bid or resulting contract when deemed to be in the best interest of FSA and purchasers, at its discretion. This decision to take action may be based upon and not limited to few or no sales, product recalls and other safety issues, Vendor or manufacturer performance, or the product's lack of relevance.

For items that come to market during the contract term, FSA CPP may authorize qualified and awarded Vendors to offer the new item under the existing contract terms and conditions, if the manufacturer authorizes a Vendor to sell the item. FSA CPP will request awarded Vendors submit pricing and will evaluate the responses prior to authorizing awarded Vendors to offer the new item.

3.05 CONTRACT EXTENSION

Contract Extension
The contract may be extended by mutual agreement for up to two (2) additional years, on a year-to-year basis. FSA CPP reserves the right to execute a contract extension or to allow the contract to fully or partially terminate and readvertise for bids, whichever is in the best interest of FSA.

The Vendor may request price adjustments for contract extensions as provided for herein. If no request is received from the Vendor, the FSA CPP will assume that the Vendor has agreed that the optional term may be exercised without a price adjustment. Any adjustment request received after the execution of an extension may not be considered unless otherwise provided for in this contract.

Month-to-Month Continuation
In the event a new contract is not active at the time of this contract's expiration, this contract's terms and conditions shall extend on a month-to-month basis and shall not constitute an implied extension of the contract. Such a month-to-month continuation shall be upon the compensation and payment provided herein.

3.06 PRICE ADJUSTMENT

In addition to the cost-plus-percent pricing adjustments available for the Pursuit, Administrative, and Other Vehicles contract, the Terms & Conditions provide the following options for price adjustments:

- Annual Price Adjustments
- Changes to Manufacturer Production or Design
- Manufacturer Certified Adjustments
- Equitable Adjustments

Price adjustment requests must clearly substantiate a need to increase or decrease the price. Price adjustments will not be considered if Vendors are delinquent on administrative fee payments or have outstanding quarterly reports.

Annual Price Adjustment

The FSA CPP may consider annual price adjustments due to:

- Changes in the Producer Price Index (PPI) as published by the U.S. Department of Labor, Bureau of Labor Statistics (BLS); or
- As a result of changes to national or state standards that require substantial price adjustments.

FSA CPP may consider other documentation related to the change to national or state standards but is not obligated to grant price changes without literature from the manufacturer. The FSA CPP will consider the request and will make a final determination on the change in price.

Changes to Manufacturer Production or Design

Significant changes by the manufacturer to the production of and specification design may initiate a price adjustment request. FSA CPP will consider order dates, production factors, model year, or other conditions, as well as the replacement or complete redesign of items. Vendors must provide documentation from the manufacturer.

Manufacturer Certified Adjustments

Vendors must provide documentation from the manufacturer to FSA CPP that shows the additional costs or price adjustments imposed by the manufacturer and substantiate the need for a related price adjustment for this contract.

Equitable Adjustments

The FSA CPP may make an equitable adjustment to the contract terms or pricing at its discretion.

3.07 CONDITIONS

It is understood and agreed that any item offered or shipped as a result of this contract shall be the most current model offered.

3.08 PRODUCTION CUTOFF

Vendors shall notify the FSA CPP in writing no less than sixty (60) calendar days prior to the close of final order date by the manufacturer when the final order date is during the term of the contract. Purchase Orders received by the Vendor ten (10) business days prior to the final order date must be accepted and entered into the order system with the manufacturer. Purchase Orders issued and received after the production cutoff date will be subject to availability. In this case, the Vendor and manufacturer have the discretion whether to choose to provide next year's model at current year's prices until the end of the contract term. If the manufacturer cutoff date is during the term of the contract and will affect the purchaser's ability to obtain the items, FSA CPP may consider substitutions from the same manufacturer.

3.09 FACILITIES

The FSA CPP reserves the right to inspect the Vendor's facilities at any time with prior notice.

3.10 PURSUIT RATED VEHICLES & MOTORCYCLES

Vehicles in this category have been reviewed by one or more of the nationally recognized authorities on Police Vehicle Testing Program/Evaluation. These evaluations are not designed to recommend a particular product, but to serve as a resource for vehicles which are currently being offered for law enforcement service. 3.12 CAB AND CHASSIS PURCHASES

Vendors performing upfitting of cab and chassis should be licensed and certified to perform such work. Vendors are responsible for tag and title work if the chassis is completed by the Vendor or the Vendor's contracted third-party supplier. The requirements of Florida Statute 319.21 related to the manufacturer statement of origin apply to cab and chassis purchases.

Cab and chassis may be purchased from the Vendor without any required additional upfitting by the Vendor. Vendors are not responsible for tag and title if an incomplete chassis is requested and sold to the purchaser.

3.13 FACTORY-INSTALLED OPTIONS

All options specified as factory-installed are to be installed on the item at the primary site of assembly and are to

be the manufacturer's standard assembly-line product. Aftermarket and vendor-installed equipment will not be accepted as factory-installed. Vendors found supplying aftermarket or vendor-installed equipment where factory-installed are specified shall be required to retrieve all delivered items and supply new items meeting the specifications.

All vendor-installed options must be manufactured by an established manufacturer of the product provided. Vendors are required to disclose make and model of product being offered, design, and model must be approved by the purchaser prior to installation. Prior to any purchase, the Vendor must also disclose the warranty of any accessory, equipment or option that is less than or exceeds the factory or equipment warranty coverage. 3.16 FORCE MAJEURE

A Vendor shall not be penalized for a delay resulting from the Vendor's failure to comply with delivery requirements if neither the fault nor the negligence of the Vendor or its employees contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond the Vendor's control, or for any of the foregoing that third party suppliers if no alternate source of supply is available to the Vendor.

To initiate a purchase, a purchase order must be issued to the Vendor, which includes:

- FSA CPP contract title and number;
- FSA CPP item number, and the make and model or item description; and
- Purchaser name, phone number and email address.

The Vendor's acceptance of a purchaser's order will indicate that the Vendor agrees to deliver an awarded item that will be fully compatible with all of its options. Production schedules and delivery dates should be discussed at the time the quote is provided to the purchaser, or if no quote is provided, when the purchase order is delivered to the Vendor. Vendor shall place the order with the manufacturer within 10 business days of receipt of the purchase order. The Vendor shall assure that all orders are placed in full compliance with the specifications and the terms and conditions of the contract and the purchase order. Any changes that are required to bring an item into compliance with the various options due to an incorrect order will be accomplished at the Vendor's expense.

A Confirmation of Order form shall be completed by the Vendor and provided to the purchaser and FSA CPP fifteen (15) calendar days from receipt of purchase order without request by the purchaser. Any additional information needed to complete this form should be obtained by the Vendor from the purchaser.

While it is recommended that an agency purchase from the zone which is closest to their location, it is not mandatory to do so. If the purchaser determines that a Vendor in another zone can better serve the purchaser's needs, the purchaser may order from a Vendor in another zone. Vendors that provide awarded items outside of an awarded zone may upon mutual agreement between the Vendor and the purchaser charge a delivery fee.

If a Vendor receives a purchase order for an item for which they were not awarded, the Vendor must notify the purchaser and return the purchase order to the purchaser within three (3) business days.

The Vendor must submit electronic copies of Purchase Orders within fifteen (15) calendar days of the Purchase Order issue date. Emails shall be sent to coop@flsheriffs.org. - FSA CPP contract title and number,
- Item number,

- Estimated delivery date.

Purchase orders vary in format and information provided. If a purchase order does not include the required information, the Vendor must submit supplemental documentation to FSA CPP at the same time the purchase order is due. Such information may be in bid quotes, equipment proposals, confirmation of orders, or other documents. If a purchaser does not use purchase orders, written communication from the purchaser to the Vendor will be provided to FSA CPP.

3.18 REGISTRATION, TAG, AND TITLE

Title items shall be the responsibility of the Vendor. If the purchaser is a government agency, the purchaser has the right to choose to register and title the item. Costs of registration, tag and title shall not exceed the statutory rates. FSA administrative fee does not apply to the cost of registration, tag and title.

Delivery shall be within the normal working hours of the user, Monday through Friday, excluding holidays. Delivery schedules shall be agreed to by the purchaser and the Vendor. The purchaser has the option to reject a vehicle with more than 350 odometer miles or may deduct $0.51 cents per mile in excess of 350 miles from the invoice, unless distance above 350 miles was previously approved by the purchaser. Deliveries of less than 350 miles may be accomplished by driving the vehicle. Any delivery accomplished by driving the vehicle must be supervised and the driver must comply with manufacturer's break-in requirements and all applicable traffic laws. Any delivery accomplished by driving a pursuit-rated vehicle must use an "OUT OF SERVICE" cover on light bars. Deliveries in excess of 350 miles shall be made by transport, or otherwise approved by the purchaser, however, this requirement shall not apply to incomplete chassis.

When items require service or adjustments upon delivery, the Vendor shall either remedy the defect, or be responsible for reimbursing the manufacturer's local authorized representative or other service provider to remedy the defect. Such service or adjustments shall be initiated by the Vendor within 48 hours after notification by a purchaser, not to include weekends and holidays. Delivery will not be considered complete until all services or adjustments are satisfactory, and the item is redelivered or repaired. The cost of any transportation required to address the defect shall be the responsibility of the Vendor until the items are satisfactory and accepted by the purchaser.

3.20 INSPECTION AND ACCEPTANCE

Final acceptance shall be given only after the purchaser inspects or confirms the item meets contract specifications. Delivery of an item to a purchaser does not constitute acceptance for the purpose of payment. Inspection and acceptance will be at the purchaser's destination unless otherwise previously agreed upon location was provided in the purchase order. Should the delivered items differ in any respect from the Base Item specifications, payment can be withheld until such time as the Vendor completes the necessary corrective action.

3.21 INVOICING AND PAYMENTS

Invoicing and payments shall be the responsibility of the Vendor and purchaser placing orders using this contract. Vendors must invoice each purchaser independently. The Vendor shall be paid upon submission of invoices to the purchaser after satisfactory delivery and acceptance of the items. While the Local Government Prompt Payment

Act applies to ensure timely payment of Vendor invoices, the FSA CPP encourages purchasers to make payment within 30 days of acceptance of the item. The Local Government Prompt Payment Act is defined in Sections 218.70–218.79 of Florida Statutes.

3.22 WARRANTY

All warranties shall begin at the time of delivery and final acceptance by the purchaser. The purchaser's warranty should not be active for incomplete items and items delivered to a third-party supplier before final delivery.

3.23 QUARTERLY REPORTS

Quarterly reports are the contractual responsibility of each Vendor. Quarterly reports must be completed and submitted electronically. All quarterly reports shall be sent to reports@flsheriffs.org. The quarterly report template shall be submitted using an Excel workbook provided by FSA CPP. Quarterly reports which do not adhere to the required format or are not complete of all purchase orders received and/or deliveries made during the quarter will be returned to the reporting Vendor for correction.

Quarterly reports are due no later than the 15th day of the month following the end of the quarter. Quarterly reports shall follow the schedule below for the duration of the contract. If a contract extension is executed, the quarterly reports will maintain the same schedule for future reporting periods.

Year 1 Quarter 4:	July 1 – September 30	Q4 Report Due:	October 15

Quarterly reports must be submitted even if there are no sales or no deliveries in a quarter. If a Vendor has no sales within a quarter, the Vendor shall indicate "No sales this quarter" on the top row of the sales worksheet. If the Vendor has no deliveries in a given quarter, the Vendor shall indicate "No deliveries this quarter" on the top row of the delivery worksheet.

FSA CPP reserves the right to modify the procedure for submitting quarterly reports during the term of the contract. Such a change shall not materially modify the substance of the information to be reported but may change the method by which future quarterly reports are to be submitted. In the event of such a change, FSA CPP will provide written notice to all Vendors of the method by which future quarterly reports are to be submitted.

3.24 ADMINISTRATIVE FEE

The FSA CPP charges three quarters of one percent (.0075) to procure, process and administer the contract. The administrative fees are the contractual responsibility of each awarded Vendor.

After receipt of payment from contract purchases, the Vendor shall remit all administrative fees to the FSA CPP no later than 15 calendar days after the end of each quarter. All fees payable to the FSA CPP during any given quarter will be accompanied and supported by a quarterly report.

The administrative fee will remain payable to FSA CPP and no relief from payment of the administrative fee, nor any additional charge to recoup the administrative fee, will be permitted if a Vendor fails to incorporate the administrative fee in its bid pricing. The administrative fee should never be listed as a separate line item on any purchase order or invoice.

The administrative fee is based on the total purchase order amount of new items. This fee excludes any value given to purchasers for trade-ins. Trade-ins, extended warranties and other exchanges will not reduce or impact the fee calculation.

The ACH form for electronic payment or wiring of funds is included in Appendix C. It is the preference of FSA CPP that all payments be electronically paid and submitted. If ACH is not available, checks for the administrative fee can be sent to:

Florida Sheriffs Association
Cooperative Purchasing Program
2617 Mahan Drive
Tallahassee, FL 32308

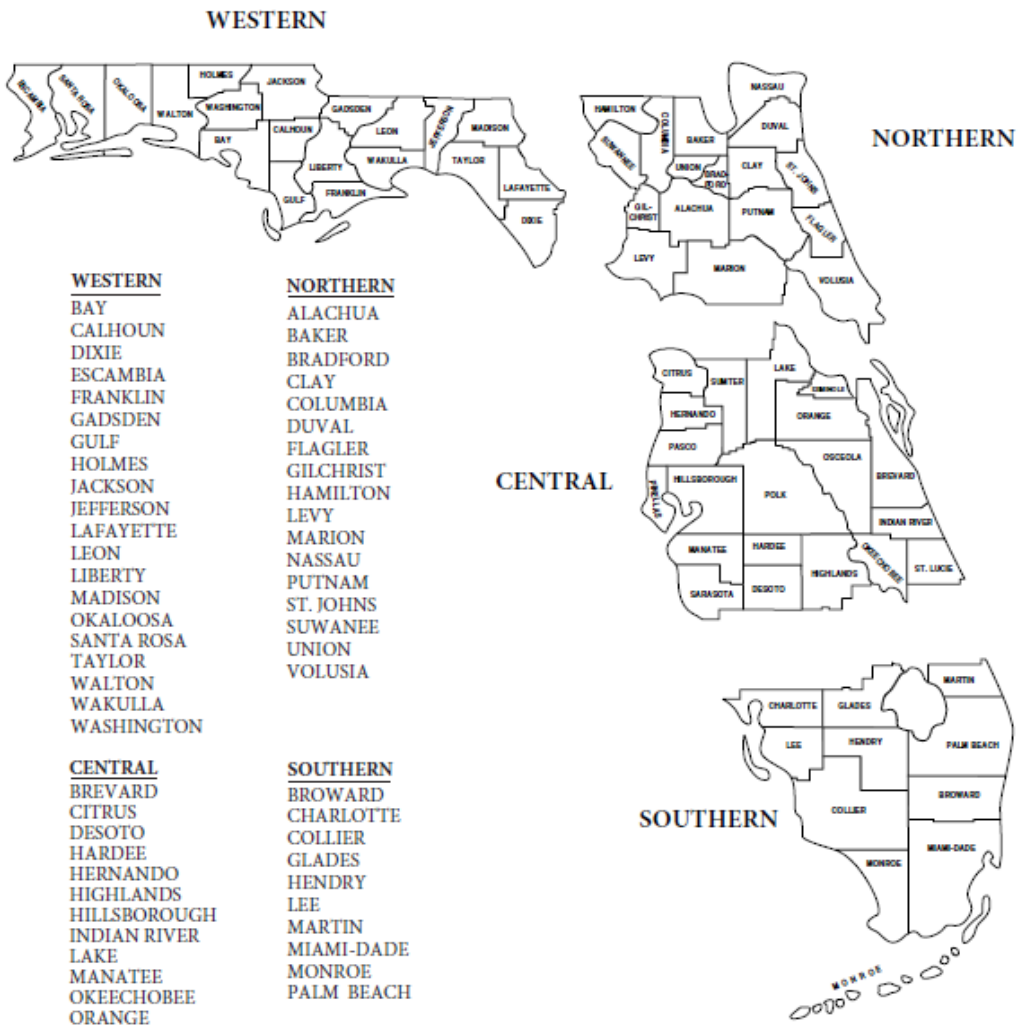
3.25 LIQUIDATED DAMAGES

The Vendor warrants that the item supplied to the purchaser shall conform in all respects to the standards set forth and the failure to comply with this condition will be considered as a breach of contract. Any liquidated damages levied because of inadequacies or failures to comply with these requirements shall be borne solely by the Vendor responsible for same.

Failure to submit the administrative fee with accompanying quarterly reports to FSA CPP within 15 calendar days following the end of each quarter may result in the imposition of liquidated damages. Vendors failing to submit administrative fees and/or quarterly reports will incur liquidated damages in the amount of $25 for each calendar day that fees and reports are past due, beginning on the 16th day following the end of the quarter.

If a civil action is initiated by the FSA to recover administrative fees or liquidated damages as set forth in this section, the prevailing party shall be entitled to its reasonable attorneys' fees and costs incurred in the litigation. The venue shall lie in the Circuit Court for the Second Judicial Circuit in and for Leon County, Florida.

When quarterly reports are late, liquidated damages are to be included in Vendor's Quarterly Report and administrative fee submission. Liquidated damages that remain unpaid beyond 45 calendar days can result in FSA CPP, at its sole discretion, implementing contract compliance actions, including but not limited to, suspension, limited participation by specifications or zones, disqualification from future solicitations, or termination for cause pursuant to the Terms & Conditions.



Schedule of Liquidated Damages

Failure to submit quarterly report on time	$25 per calendar day
Failure to submit administrative fee on time	$25 per calendar day
Failure to report a Purchase Order to FSA CPP within 15 calendar days of the purchase order issue date	$100 per Purchase Order
Failure to Report Sales	.0075 of the sales price plus 1.5% each month following the delivery date.

Vendor agrees and acknowledges that its failure to take any of the actions specified in the above schedule will result in liquidated damages to this contract. Vendor agrees and acknowledges that these liquidated damages are not intended to be and do not constitute a penalty and that these amounts are reasonably calculated to compensate the FSA for the damages that it will incur as a result of the Vendor's failure to take the specified actions.

DAVIS-BACON ACT, as amended (40 U.S.C. 3141-3148): When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. 5. **PERFORMANCE GUARANTY**

That Contractor guarantees to repair, replace or otherwise make good to the satisfaction of the County any defect in workmanship or material appearing in the Work; and further guarantees the successful performance of the Work for the service intended. Neither inspection nor payment, including final payment, by the County shall relieve the Contractor or its Surety from his or its obligations to do and complete the Work in accordance with this Contract. If the County deems it inexpedient to require the Contractor to correct deficient or defective Work, an equitable deduction from the contract price shall be

made therefore or in the alternative, if the expense incurred by the County to correct deficient or defective Work exceeds the unpaid balance on this Contract, the Contractor shall pay the difference to the County. The liability of the Contractor and its surety or sureties for such payment is joint and several.

6. **TERM/TIME OF PERFORMANCE**

Term: The term of this contract shall be for a period of one (1) year beginning on the date first written above. Upon mutual written agreement, this Contract may be extended for three (3) additional one-year renewal terms pursuant to the same terms and conditions.

Work Hours: The Contractor shall conduct those debris removal operations generating noise levels above that normally associated with routine traffic flow, during daylight hours only. Work may be performed 7 days per week. Adjustments to work hours, as local conditions may dictate, shall be coordinated between the County and the Contractor. Unless otherwise directed, the Contractor must be capable of conducting volumetric reduction operations at DMS locations on a 24 hour, 7 days a week basis. No work will be performed on recognized County holidays without prior approval of the County Debris Manager.

Time of Completion: The services shall commence upon the written notice to proceed from the County Project Manager or his designee, and the project shall be completed in accordance with the individual project schedule.

7. **DELAY DAMAGES**

It is mutually agreed between the parties hereto that time is of the essence in the performance of this Contract. In the event the Work is not completed within the time herein the County will suffer damages, the amount of which is difficult if not impossible to ascertain. It is agreed, therefore, that from the compensation otherwise to be paid to the Contractor, the County may retain the sum as follows per calendar day for each day thereafter, Sundays and holidays included, that the Work remains uncompleted and/or as indicated.

(A) The Contractor shall pay the County, as liquidated damages, **$1000.00** (one thousand and 00/100 dollars) per calendar day of delay to mobilize in the County with the resources required to begin debris removal operations, within seventy-two (72) hours of being issued Notice to Proceed.

(B) The Contractor shall pay the County, as liquidated damages, **$500.00** (five hundred and 00/100 dollars) per load of disaster debris collected in the County that is not disposed of at a County approved DMS or County approved Final Disposal Site and/or any associated fines levied by a third party. Application of liquidated damaged does not release the Contractor of all liability associated with hauling and depositing material to an unauthorized location.

(C) The Contractor shall pay the County, as liquidated damages, **$500.00** (five hundred and 00/100 dollars) per incident where the Contractor fails to repair damages that are caused by the Contractor or subcontractor(s). Application of liquidated damages does not release the Contractor from the responsibility of resolving or repairing damages

This sum shall represent the liquidated damages which the County will have sustained per calendar day from the inconvenience and expense caused to the County by the delay in the completion of the Work. This sum is not a penalty, being the liquidated damages the County will have sustained in event of such default by the Contractor. The County reserves the right to additionally recover direct job site expenses incurred during the period of any delay. The Contractor shall be liable for liquidated damages even if the Contract is terminated by the County for cause or if the Contractor abandons the Work. The liability of the Contractor and its surety or sureties for damages provided by this Article is joint and several.

A five percent (5%) retainage will be withheld from each invoice until the end of the project. In order to release the retainage, the Contractor(s) must successfully complete the project, and receive a letter of completion from the County, for all work zones. Retainage will be held until final reconciliation is complete. Portions of the retainage may be held by the County to repair damages caused by the Contractor(s) to public or private property.

The County may reject the payment request or invoice in writing within 20 calendar days after the date on which the payment request or invoice is stamped as received by the County, which shall specify the deficiency and the action necessary to correct the deficiency and to make the payment request or invoice proper. Payment of a corrected payment request or invoice, or rejection thereof, shall be made 10 business days after the date the corrected payment request or invoice is stamped as received as by the County. All applications for payment submitted by the Contractor shall reference the County's Contract number.

If a dispute between the County and the Contractor cannot be resolved by the procedure in this subsection, then the dispute must be resolved in accordance with the dispute resolution procedure set-forth in this Contract. If the County disputes a portion of the payment request or invoice, then the undisputed portion shall be paid timely in accordance with this subsection.

As a part of this Contract, if the Contractor receives payment then the Contractor must remit undisputed payment due to subcontractors and suppliers within 10 calendar days after contractor's receipt of payment. A subcontractor who receives payment must remit undisputed payment due to those subcontractors and suppliers within 7 calendar days after subcontractor's receipt of payment.

The County shall pay the Contractor through payments issued by the County Finance Department, upon receipt of the certified invoice from the County Project Manager. The parties agree, however, that

any payments withheld as liquidated damages or for any other reason allowed by this Contract, shall not be governed by the Florida Prompt Payment Act.

a. The County, or its authorized representative, will monitor, verify, and document with load tickets or unit rate tickets the completion of all work, as defined in the scope of work. The Contractor will be provided with copies of this documentation. These documents will be used by the Contractor as backup data for invoice submittals. County records are the basis of all payment approvals. Only one hundred percent (100%) accurate and complete invoices shall be forwarded by the County authorized representative to the County for payment.

d. No separate payment will be made for mobilization and demobilization operations. These costs are included in the respective unit prices bid for debris removal and will not be adjusted based on the total amount of debris actually removed in the contract.

e. The Contractor is responsible for payment to all subcontractors utilized for the services rendered within this scope of work. The Contractor shall execute release waivers with all subcontractors to release the County from payment to subcontractors directly. The release waivers for all subcontractors shall be provided to the County prior to final retainage release.

f. Payment for disposal cost incurred by the Contractor at County approved Final Disposal Sites will be made at the cost incurred by the Contractor. The County will either coordinate payment of disposal costs directly with the Final Disposal Site or require the Contractor to pay the disposal fees and then invoice the County. The Contractor shall submit a copy of all invoice(s) received by the County approved Final Disposal Site, an electronic copy tabulating all scale or load tickets issued by the County approved Final Disposal Site, and proof of Contractor payment to the County approved Final Disposal Site. The County will not render payment for disposal costs until the Contractor submits applicable disposal site permits or site information for each authorized Final Disposal Site.

g. Contractor must submit a final invoice within 30 calendar days of completion of scope of work. Completion of scope of work will be acknowledged, in writing, by the County Debris

To the extent allowed by law, the mediation process shall be confidential and the results of the mediation or any testimony or argument introduced at the mediation shall not be admissible as evidence in any subsequent proceeding concerning the disputed issue.

31. **ANTITRUST ASSIGNMENT**

The Contractor and the County and the State of Florida recognize that in actual economic practice, overcharges resulting from antitrust violations are in fact usually borne by the State of Florida and local governments. Therefore, the Contractor assigns to the State of Florida and the County any and all claims for such overcharges as to goods, materials or services purchased in connection with the Contract.

32. **INTERPRETATION; VENUE**

This Contract constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior verbal or written agreements between the parties with respect thereto. This Contract may only be amended by written document, properly authorized, executed and delivered by both parties hereto. This Contract shall be interpreted as a whole unit and section headings are for convenience only. All interpretations shall be governed by the laws of the State of Florida. In the event it is necessary for either party to initiate legal action regarding this Contract, venue shall be exclusively in the Nineteenth Judicial Circuit for St. Lucie County, Florida, for claims under state law and the Southern District of Florida for any claims which are justiciable in federal court.

33. **CONTRACTING WITH SMALL AND MINORITY BUSINESSES, WOMEN'S BUSINESS ENTERPRISES, AND LABOR SURPLUS AREA FIRMS**

If the Contractor intends to subcontract any portion of the Services covered by this Agreement, the Contractor must take all necessary affirmative steps to assure that small and minority businesses, women's business enterprises and labor surplus area firms are solicited and used when possible. Affirmative steps must include:

(1) Placing qualified small and minority businesses and women's business enterprises on solicitation lists;

(2) Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;

(3) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;

(4) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and

(5) Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

34. **DAVIS-BACON ACT**

(1) Minimum wages.

(i) All laborers and mechanics employed or working upon the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 C.F.R. part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics. Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis–Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph (a)(1)(iv) of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in § 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under paragraph (a)(1)(ii) of this section) and the Davis–Bacon poster (WH–1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

(ii)(A) The contracting officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:

(1) The work to be performed by the classification requested is not performed by a classification in the wage determination; and

(2) The classification is utilized in the area by the construction industry; and
(3) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(B) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30–day period that additional time is necessary.

(C) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30–day period that additional time is necessary.

(D) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs (a)(1)(ii)(B) or (C) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

(iii) Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

(iv) If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, Provided, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis–Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

(2) Withholding. The shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from the contractor under this contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis–Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers

and mechanics, including apprentices, trainees, and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), all or part of the wages required by the contract, the (Agency) may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

(3) Payrolls and basic records.

(i) Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work (or under the United States Housing Act of 1937, or under the Housing Act of 1949, in the construction or development of the project). Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis–Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 C.F.R. 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis–Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

(ii)(A) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the federal awarding agency if the agency is a party to the contract, but if the agency is not such a party, the contractor will submit the payrolls to the applicant, sponsor, or owner, as the case may be, for transmission to the federal awarding agency. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 C.F.R. 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals. Instead the payrolls shall only need to include an individually identifying number for each employee (e.g., the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH–347 is available for this purpose from the Wage and Hour Division Web site at http://www.dol.gov/esa/whd/forms/wh347instr.htm or its successor site. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker, and shall provide them upon request to the federal awarding agency if the agency is a party to the contract, but if the agency is not such a party, the contractor will submit them to the applicant, sponsor, or owner, as the case may be, for transmission to the federal awarding agency, the contractor, or the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of this

section for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to the sponsoring government agency (or the applicant, sponsor, or owner).

(B) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

(1) That the payroll for the payroll period contains the information required to be provided under § 5.5 (a)(3)(ii) of Regulations, 29 C.F.R. part 5, the appropriate information is being maintained under § 5.5 (a)(3)(i) of Regulations, 29 C.F.R. part 5, and that such information is correct and complete;

(2) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 C.F.R. part 3;

(3) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

(C) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH–347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph (a)(3)(ii)(B) of this section.

(D) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of title 18 and section 231 of title 31 of the United States Code.

(iii) The contractor or subcontractor shall make the records required under paragraph (a)(3)(i) of this section available for inspection, copying, or transcription by authorized representatives of the federal awarding agency or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the Federal agency may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 C.F.R. 5.12.

(4) Apprentices and trainees—

(i) Apprentices. Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program,

who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(ii) Trainees. Except as provided in 29 C.F.R. 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration. The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration. Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(iii) Equal employment opportunity. The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 C.F.R. part 30.

(5) Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 C.F.R. part 3, which are incorporated by reference in this contract.

(6) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses contained in 29 C.F.R. 5.5(a)(1) through (10) and such other clauses as the federal awarding agency may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 C.F.R. 5.5.

(7) Contract termination: debarment. A breach of the contract clauses in 29 C.F.R. 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 C.F.R. 5.12.

(8) Compliance with Davis–Bacon and Related Act requirements. All rulings and interpretations of the Davis–Bacon and Related Acts contained in 29 C.F.R. parts 1, 3, and 5 are herein incorporated by reference in this contract.

(9) Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 C.F.R. parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

(10) Certification of eligibility.

(i) By entering into this contract, the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis–Bacon Act or 29 C.F.R. 5.12(a)(1).

(ii) No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis–Bacon Act or 29 C.F.R. 5.12(a)(1).

(iii) The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. 1001.

35. **COPELAND ANTI-KICKBACK ACT**

(i) Contractor. The contractor shall comply with 18 U.S.C. § 874,40 U.S.C. § 3145, and the requirements of 29 C.F.R. Part 3 as may be applicable, which are incorporated by reference into this contract.

(ii) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as the federal awarding agency may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

(iii) Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as contractor and subcontractor as provided in 29 C.F.R. § 5.12.

36. **EQUAL EMPLOYMENT OPPORTUNITY**

During the performance of this Contract, Contractor agrees as follows:

(i) Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:
Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(ii) Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(iii) Contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the Contractor's legal duty to furnish information.

(iv) Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(v) Contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(vi) Contractor will furnish all information and reports required by Executive Order 11246 of September

24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(vii) In the event of Contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and Contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(viii) Contractor will include the portion of the sentence immediately preceding paragraph (i) and the provisions of paragraphs (i) through (viii) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. Contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, Contractor may request the United States to enter into such litigation to protect the interests of the United States. The County further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work.

The County agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of Contractor and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The County further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with Contractors debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon Contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the County agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the County under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such State; and refer the case to the Department of Justice for appropriate legal proceedings.

37. **CONTRACTING WORK HOURS AND SAFETY STANDARDS ACT**

(A) Overtime requirements. No Contractor or subcontractor contracting for any part of the Contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any work week in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(B) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (A) of this section the Contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such Contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (A) of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (A) of this section.

(C) Withholding for unpaid wages and liquidated damages. The County shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the Contractor or subcontractor under any such contract or any other Federal contract with the same prime Contractor or any other federally- assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime Contractor, such sums as may be determined to be necessary to satisfy any liabilities of such Contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (B) of this section.

D. Subcontracts. The Contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (A) through (D) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime Contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (A) through (D) of this section.

38. **RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT**

Any discovery or invention that arises during the course of the Contract shall be reported to the County. Contractor must comply with the requirements of 37 C.F.R. Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the federal awarding agency.

(ii) The Contractor agrees to report each violation to the County and understands and agrees that the County will, in turn, report each violation as required to assure notification to the State Recipient, the federal awarding agency, and the appropriate Environmental Protection Agency Regional Office.

(iii) The Contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with federal assistance provided by the Federal Government.

40. **SUSPENSION AND DEBARMENT**

Federal regulations restrict the County from contracting with parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. Accordingly, a contract or subcontract must not be made with any parties listed on the SAM Exclusions list. SAM Exclusions is the list maintained by the General Services Administration that contains the name of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under certain statutory or regulatory authority. The Contractor can verify its status and the status of its principals, affiliates, and subcontractors at www.SAM.gov.

(A) This Contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the Contractor is required to verify that none of the Contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(B) The Contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

By executing this Contract, Contractor makes the certification below, which is found at APPENDIX A, 44 C.F.R. PART 18. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certification(s) to the awarding agency.

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

2-2 ST. LUCIE COUNTY BACKGROUND

St. Lucie County is located on the Atlantic Coast of Florida between Martin County to the south and Indian River County to the north. St. Lucie County covers a total area of 688.10 square miles of which 575.5 square miles is land and 115.6 square miles is water area. The county encompasses the incorporated cities of Port St. Lucie and St. Lucie Village and the City of Ft. Pierce (county seat).

The entire county had a large growth rate over the last 50 years, growing from a population of 50,836 in 1970 to 344,041 in 2020. The population of the unincorporated areas of the County is 71,620.

2-3 PROJECT INTENT

The Scope of Work is an integrated part of the Contract Documents and as such will not stand alone if used independently. The intent of these documents is to set forth requirements of performance. It is also intended to include all labor and materials, equipment, tools and transportation necessary for the proper execution of the Work, to require new material and equipment unless otherwise indicated, and to require complete performance of the Work in spite of omission of specific reference to any minor component part and to include all items necessary for the proper execution and completion of the Work by the Contractor.

Performance by the Contractor shall be required only to the extent consistent with these documents and reasonably inferable from them as being necessary to produce the intended results.

The Scope of Work is to be used as a general guide and is not intended to be a complete list of all work necessary to complete the project. The successful Contractor shall have broad experience in the areas of providing the collection and disposal of disaster debris, and any additional or required tasks, as deemed necessary to complete the project successfully.

The scope of work performed by the Contractor shall adhere and be followed in accordance with the guidelines set forth within the most current version of FEMA's Public Assistance Program and Policy Guide, FP-104-009-2 (the "PAPPG") (as of this writing the current version is version 4.0, published June 1, 2020). The PAPPG supersedes FEMA 321 / Public Assistance Policy Digest, FEMA 322 / Public Assistance Guide, and FEMA 325 / Public Assistance Debris Management Guide, although Contractor may still consult these resources for general guidance. The collection, removal, and disposal of debris work requires that workers are performing eligible work in accordance with any public assistance guidelines including but not limited to Federal, State and Local regulations.

The purpose of this solicitation is to establish one or more contracts to provide services to remove, process, and lawfully dispose of disaster generated debris (other than hazardous materials and household putrescible garbage) from public property and public right of way in St. Lucie County, Florida in response to an emergency event such as, but not limited to, hurricane(s), tornadoes, flooding, fire or other natural or manmade disaster(s). The County is seeking proposals from highly qualified Vendor(s) with experience in the specialized management of disaster response labor for the removal of debris along with the preparation, response, recovery and mitigation phases of any emergency or disaster. Vendors must have the capability and ability to rapidly respond to wide scale debris volumes typically produced in hurricanes, tornadoes and other disaster types as well as small scale debris volumes.

The Vendor must handle debris management activities in St. Lucie County in accordance with applicable regulations of the Federal Emergency Management Agency (FEMA), Federal Highway Administration (FHWA), Florida Department of Transportation (FDOT), Florida Department of Health (FDH), Natural Resources Conservation Services (NRCS), and the Florida Department of Environmental Protection (FDEP) in conjunction with the County's needs. The Vendor shall have an excellent understanding of the documentation involved for the reimbursement from FEMA, FHWA, or Other Federal Agencies, and the State relief programs to make the process of cost recovery efficient and accurate. The processes and documentation required will be in strict compliance with FEMA, FHWA, or Other Federal Agencies, and other State relief programs regulations regarding eligibility.

Contracts must meet rules for Federal grants, as provided for in Title 2 Code of Federal Regulations (CFR) Part 200, (§ 200.317-200.327, Procurement Standards) in order to be eligible for reimbursement under the Public Assistance Program.

NOTE: This solicitation is not a request for Emergency Debris Monitoring Services. The County currently has separate contracts to provide that service. This RFP is specifically for Emergency Debris Removal Services. Vendors shall not include proposals that include Debris Monitoring Services. One or more Vendor(s) may be selected to provide differing elements or levels of scope of work in accordance with the capabilities and extent of involvement each respondent proposes. Contracts issued resulting from this RFP shall only be activated in the event of a declared emergency. There is no guarantee any contract resulting from this RFP will be activated or any work will be performed.

Scope of services under this contract includes, but is not limited to:

2-4 DELIVERY AND COMPLETION OF WORK FROM THE DATE OF THE NOTICE TO PROCEED

The County will issue the official Notice to Proceed for the services referenced in this RFP and resulting contract. The Notice to Proceed shall be sent via facsimile, mail, or email. Under no circumstances shall the County be liable for any services rendered unless the written Notice to Proceed has been sent and received by the Vendor(s). The Vendor(s) must acknowledge receipt of the written Notice to Proceed. Time for completion may be considered a factor in determining the vendor to whom a Notice to Proceed will be made.

Upon Notice to Proceed and mobilization, the Vendor shall provide the County with a reasonable time frame in which the work will be completed. The County will use the Vendor's estimate to develop a period of performance for work to be completed. This period of performance may be adjusted at the County's discretion. All work shall be performed in accordance with good commercial practice. The work schedule and completion dates shall be adhered to by the vendor(s), except in such cases where the completion date will be delayed due to acts of God, strikes, or other causes beyond the control of the vendor. In these cases, the vendor shall notify the County of the delays in advance of the original completion date so that a revised delivery schedule can be appropriately considered by the County.

Should the vendor(s) to whom the contract(s) is awarded fail to complete the work within the number of days as stated in its offer, it is hereby agreed and understood that the County reserves the authority to cancel the contract with the vendor and to secure the services of another vendor to complete the work. If the County exercises this authority, the County shall be responsible for reimbursing the vendor for work which was completed and found acceptable to the County in accordance with the contract specifications. The County may, at its option, demand payment from the vendor, through an invoice or credit memo, for any additional costs over and beyond the original contract price which were incurred by the County as a result of having to secure the services of another vendor. If the incumbent vendor fails to honor this invoice or credit memo, the County may terminate the contract for default.

2-5 PROTECTION OF PROPERTY

All existing structures, utilities, services, roads, trees, shrubbery, and property in which the County has an interest shall be protected against damage or interrupted services at all times by the vendor during the term of the contract; and the vendor shall be held responsible for repairing or replacing property to the satisfaction of the County which is damaged by reason of the vendor's operation on the property. In the event the vendor fails to comply with these requirements, the County reserves the right to secure the required services and charge the costs of such services back to the vendor.

m. **Demobilization** – Following the completion of services provided under the resulting contract, the Vendor will remove all equipment, supplies and other associated materials involved in the services provided to the County. The Vendor will leave all sites utilized clean and restored to the original state as approved by the County and verified through soil and groundwater samples.

n. **Demolition** – The act or process of reducing a structure, as defined by the State of Florida or local code, to a collapsed state. It contrasts with deconstruction, which is the taking down of a building while carefully preserving valuable elements for reuse.

o. **Designated Area** – Generally bounded by the County line and includes public property and rights-of-way within the unincorporated areas of the County that was directly affected by a debris-generating event.

p. **Disaster Specific Guidance** – Disaster Specific Guidance (DSG) is a policy statement issued in response to a specific post-event situation or need in a state or region. Each DSG is issued a number and is generally referred to, along with their numerical identification.

q. **Eligible** – Eligible means qualifying for and meeting the most current stipulated requirements (at the time written Notice to Proceed is issued and executed by the County to the Vendor) of

the Public Assistance grant program and FEMA's PAPPG and all current FEMA fact sheets, guidance documents, and disaster-specific documents. Eligible also includes meeting any changes in definition, rules or requirements regarding debris removal reimbursement as stipulated by the Federal Emergency Management Agency during the course of a debris removal project. Generally, eligible work is:

- Required as a result of the declared incident;
- Located within the designated area; and
- The legal responsibility of the County.

r. **Emergency Debris Clearance** - The initial debris clearance activity necessary to eliminate life and safety threats (i.e., clearing roads).

s. **Emergency Relief Program** – Provides for the funding of emergency roadway clearing and first pass disaster debris removal on federal aid highways.

t. **E-Waste** – End of life electronics, typically televisions, computers and related components.

u. **FEMA Public Assistance Program and Policy Guide (PAPPG)** – FEMA's comprehensive guidance regarding the policy and program administration of the Public Assistance Program, including eligibility requirements and rules related to disaster debris removal.

v. **FEMA Publication 325 Debris Management Guide** – This publication has been superseded by the PAPPG, but may still be referred to as a reference. It is specifically dedicated to the rules, regulations and policies associated with the debris cleanup process. Familiarity with this publication and any revisions, can aid a local government to limit the amount of non-reimbursable expenses.

w. **Field Inspector** – See Monitor.

x. **Garbage** – Waste that is regularly collected through the County's normal waste collection methods. Includes all putrescible or non-putrescible wastes such as but not limited to, plastics, paper, cardboard, kitchen and table food waste, and animal, vegetative, food or any organic waste that is a result or residential or commercial activities.

y. **Grinding** – Reduction of disaster-related vegetative debris through mechanical means into small pieces to be used as mulch or fuel. Grinding may also be referred to as chipping or mulching.

z. **Hangers** – A hanger is a broken limb or branch. The current eligibility requirements for removal of a hanger according to FEMA's PAPPG are:

- The limbs or branches must be greater than two inches in diameter, measured at the point of break; and

- The limbs or branches must post an immediate threat, e.g., hanging over improved property or public-use areas, such as trails, sidewalks, or playgrounds.

FEMA does not fund removal of broken limbs or branches located on private property unless:

- The limbs or branches extend over the public ROW;
- The limbs or branches pose an immediate threat; and
- The hazard is removed from the public ROW (without entering private property).

Only the minimum cut necessary to remove the hazard is eligible. For example, cutting a branch at the trunk is not eligible if the threat can be eliminated by cutting it at the closest main branch junction.

aa. **Hazardous Stump** – a tree stump that has 50% of the root-ball exposed. Removal of the stump and filling the root-ball hole is eligible. If grinding the stump in-place is less costly than extraction, grinding the stump in-place is eligible.

FEMA only reimburses contracted stump removal on a per-stump basis if:

- The stump is 2 feet or larger in diameter measured 2 feet above the ground; and
- Extraction is required as part of the removal.

The price for stump removal must include extraction, transport, disposal, and filling the root-ball hole.

bb. **Hazardous Tree** – FEMA considers incident-damaged trees to be hazardous and eligible if the tree has a diameter of 6 inches or greater measured 4.5 feet above ground level, and the tree:

- Has a split trunk;
- Has a broken canopy; or
- Is leaning at an angle greater than 30 degrees.

For trees that have 50 percent or more of the root-ball exposed, removal of the tree and root-ball and filling the root-ball hole are eligible. For contracted removal of a tree with a root-ball, FEMA will not reimburse two separate unit costs to remove the tree and its root-ball. For trees that have less than 50 percent of the root-ball exposed, FEMA only provides PA funding to flush cut the item at ground level and dispose of the cut portion based on volume or weight. Grinding any residual stump after cutting the tree is not eligible.

cc. **Hazardous Waste** – Waste with properties that make it potentially harmful to human health or the environment. Hazardous waste is regulated under the Resource Conservation and

Recovery Act (RCRA). In regulatory terms, a RCRA hazardous waste is a waste that appears on one of the four hazardous wastes lists or exhibits at least one of the following four characteristics: ignitability, corrosively, reactivity or toxicity.

dd. **Hold Harmless** – Generally, a contractual arrangement whereby one party agrees to hold the other party without responsibility for damage or other liability incurred as a result of a particular action or transaction.

ee. **Household Hazardous Waste (HHW)** –a hazardous product or material used and disposed of by residential consumers, rather than commercial or industrial consumers. HHW includes some paints, stains, varnishes, solvents, pesticides, and other products or materials containing volatile chemicals that catch fire, react, or explode under certain circumstances, or that are corrosive or toxic. HHW mixed with other debris types will contaminate the entire load, which necessitates special disposal methods. The overall cost of debris disposal can escalate quickly if HHW collection and disposal is not planned and executed with care.

The collection of commercial disaster related hazardous waste is generally not eligible for reimbursement. Commercial hazardous waste will only be collected in the County with written authorization by the County Debris Manager. The disposal of all hazardous waste must be in accordance with all rules and regulations of local, state and federal regulatory agencies.

ff. **Monitor** – Person that observes day-to-day operations of debris removal crews to ensure they are performing eligible work, meeting the County's expectations and contractual requirements and are in compliance with all applicable Federal, State and local regulations. May also be referred to as a "Field Inspector"

gg. **Recycling** – The recovery or use of wastes as a raw material for making products of the same or different nature as the original product.

hh. **Refrigerant** – Ozone depleting compound that must be removed from white goods or other refrigerant containing items prior to recycling or disposal.

ii. **Right of Entry** – As used by FEMA, the document by which a property owner confers to an eligible applicant or its Vendor or the United States Army Corps of Engineers the right to enter onto private property for a specific purpose without committing trespass.

jj. **Right-of-Way** – The portions of land over which facilities such as highways, railroads or power lines are built. It includes land on both sides of the facility up to the private property line.

kk. **Scale/Weigh Station** – A scale used to weigh trucks as they enter and leave a landfill. The difference in weight determines the tonnage dumped and a tipping fee is charged accordingly. It also may be used to determine the quantity of debris picked up and hauled.

ll. **Temporary Debris Staging and Processing Facility (TDSPF)** – Site for the staging and processing of collected debris prior to final disposal. May also be referred to as a Debris Management Site (DMS).

mm. **Temporary Debris Storage and Reduction Site (TDSR)** – Site designated by the County for the storage and reduction of disaster related debris.

nn. **Tipping Fee** – A fee charged by landfills or other waste management facilities based on the weight or volume of debris dumped.

oo. **United States Army Corps of Engineers (USACE)** – A component of the United States Army responsible for constructing and maintaining military installations and other government-owned and controlled facilities. The USACE may be used by FEMA when direct Federal assistance, issued through a mission assignment, is needed.

pp. **Vegetative Debris** – Vegetative debris includes whole trees, stumps, trunks, branches, limbs, and other leafy material. Eligible vegetative debris may include tree limbs, branches, stumps, or trees that are still in place, but damaged to the extent they pose an immediate threat. These items are not eligible if the hazard existed prior to the incident, or if the item is in a natural area and does not extend over improved property or public-use areas, such as trails, sidewalks, or playgrounds. Vegetative debris will largely consist of mounds of tree limbs and branches piled along the public ROW by residents and volunteers.

qq. **Vendor** – the term "Vendor" as used herein, refers to the vendor(s) selected to conduct debris removal operations per the terms of the contract. The term includes primary vendor(s), subcontractors, and individual crews.

rr. **White Goods** – White goods are defined as discarded household appliances such as refrigerators, freezers, air conditioners, heat pumps, ovens, ranges, washing machines, dryers, and water heaters. Many white goods contain ozone depleting refrigerants, mercury, or compressor oils. The Clean Air Act prohibits the release of refrigerants into the atmosphere and requires that certified technicians extract refrigerants from white goods before disposal or recycling. To avoid releases of refrigerants or oils, the collection of white goods should be accomplished carefully by manually placing the appliance on trucks or by using lifting equipment that will not damage the elements that contain the refrigerants or oils. The County will identify certified recycling centers that are permitted to take white goods.

Established management teams must be in place. The Vendor(s) shall have the resources to provide the equipment and personnel necessary to cover a major disaster. The Vendor(s) shall be able to assemble trucks, equipment, materials, and crews immediately following a disaster, giving the County priority status.

At a minimum of 48 hours prior to a hurricane event or immediately upon the occurrence of a debris-generating incident within the County for which there is no advance warning, a designated County employee will contact the Vendor(s) to advise them of the County's intent to activate the contract for removal and disposal of disaster debris. Before work begins, the County must issue a written Notice to Proceed. Within 8 hours of receiving the Notice to Proceed, the Vendor(s) will send a management team to report to the County Debris Manager to begin planning for the operations and mobilizing the personnel and equipment as necessary to perform the work. Mobilization by the Vendor(s) shall begin within 24 hours of notification by the County. The Vendor(s) shall provide an on-site project manager to the County. The project manager shall provide a telephone number to the County with which he or she can be reached for the duration of the project. The project manager will be expected to have daily meetings with the County Debris Manager and/or County authorized representatives Daily meeting topics will include, but are not limited to, volume of debris collected, completion progress, County coordination, and damage repairs. Frequency of meetings may be adjusted by the County Debris Manager. The Vendor(s)' project manager must be available 24 hours a day, or as required by the County Debris Manager.

2-8.6 SUPERINTENDENT SHALL BE SUPPLIED BY THE VENDOR

The Vendor shall employ a competent superintendent who shall be in attendance at all times at the project site during the progress of the work. The term "competent" includes an ability to be able to clearly communicate, orally and in writing, in English. The superintendent shall be the primary representative under this contract for the vendor. All authorized communications given to the superintendent by the County, and all contract-related decisions made by the superintendent, shall be binding to the Vendor. The superintendent shall be considered to be, at all times, an employee of the Vendor under its sole direction and not an employee or agent of the County.

2-8.7 EQUIPMENT

a. All trucks and other equipment must be in compliance with all applicable local, state, and federal rules and regulations. Any truck used to haul debris must be capable of rapidly unloading its contents without the assistance of other equipment, be equipped with a tailgate that will effectively contain the debris during transport and permit the truck to be filled to capacity.

b. Sideboards or other extensions to the bed are allowable provided they meet all applicable rules and regulations, cover the front and both sides and are constructed in a manner to withstand severe operating conditions. The sideboards are to be constructed of 2 inch by 6 inch boards or greater and not to extend more than 2 feet above the metal bedsides. Trucks or equipment certified with sideboards must maintain such sideboards and keep them in good repair. In order to ensure compliance, equipment will be inspected by the County's authorized representatives prior to its use by the Vendor(s). The County or its authorized representative may also perform periodic re-inspection of vehicles to verify the certified capacity.

c. Debris shall be reasonably compacted into the hauling vehicle. Any debris extending above the top of the bed shall be secured in place so as to prevent them from falling off. Measures must be taken to avoid the debris blowing out of the hauling vehicle during transport to a County approved DMS or a County approved Final Disposal Site. If falling debris from hauling vehicles presents an issue the County reserves the right to require the contractor to "tarp" or cover debris when hauling.

d. Trucks or equipment designated for use under this contract shall not be used for any other work. The Vendor(s) shall not solicit work from private citizens or others to be performed in the designated work area during the period of this contract. Under no circumstances will the Vendor(s) mix debris hauled for others with debris hauled under this contract. Failure to abide may result in a suspension of the violating truck, crew, or sub-contractor.

e. Equipment used under this contract shall be rubber tired and sized properly to fit loading conditions. Excessive size equipment (100 cubic yards and up) and non-rubber tired equipment must be approved for use on the road by the County Debris Manager.

f. Hand loaded vehicles are prohibited unless pre-authorized, in writing, by the County Debris Manager, following the event. All hand-loaded vehicles will receive an automatic fifty percent (50%) deduction for lack of compaction.

2-8.8 TRAFFIC CONTROL

The Vendor(s) shall mitigate the impact of their operations on local traffic to the fullest extent practical. The Vendor(s) is responsible for establishing and maintaining appropriate traffic controls in all work areas, including DMS(s) and debris collection sites. The Vendor(s) shall provide sufficient signing, flagging, and barricading to ensure the safety of vehicular and pedestrian traffic in all work areas. All work shall be done in conformity with all applicable local, state, and federal

laws, regulations, and ordinances governing personnel, equipment, and work place safety. Any notification of a deficiency in traffic control or other safety items shall be immediately corrected by the Vendor(s). No further work shall take place until the deficiency is corrected. Neither the County Debris Manager nor the authorized representative shall sign any additional load or unit rate tickets until the safety item is corrected. The expense incurred by the Vendor for traffic control is an overhead expense contemplated as part of the Vendor's compensation under the terms and conditions of scope of services.

Traffic control will conform to FDOT's most current editions of "Roadway and Traffic Design Standards" for Design, Construction, and Maintained Systems and the Federal Highway Administration (FHWA) "Manual on Uniform Traffic Control Devices (MUTCD) for Streets and Highways." These documents can be ordered from F.D.O.T, Maps and Publications Department, 605 Suwannee Street, Tallahassee, Florida, 32399-0450, Phone (904) 488-9220. The foregoing requirements are to be considered as minimum and the Vendor's compliance shall in no way relieve the Vendor of final responsibility for providing adequate traffic control devices for the protection of the public and Vendor's employees throughout the work area.

2-8.9 RAPID RESPONSE CREW

Vendor(s) shall be required to provide the County with access to one or more Rapid Response Crews (RRC) as directed by the County. The purpose of the RRC is to respond immediately to disaster related debris piles as directed by the County Debris Manager or the County's authorized representative. The RRC assists in the overall cleanup effort by responding to and collecting disaster related debris which the County deems a priority for overall County recovery.

2-8.10 HAZARDOUS MATERIALS AND HOUSEHOLD HAZARDOUS WASTE

The Vendors(s) shall set aside and reasonably protect any hazardous materials encountered during debris removal operations for collection and disposal by the County's Hazardous Materials Removal and Disposal contractor(s). The Vendor(s) shall notify the County's monitoring firm(s) of the nature and location of any such debris encountered.

The Vendor(s) and personnel must make every reasonable effort to avoid transporting hazardous materials to the DMS(s) or final disposal sites that are not specifically authorized to accept such materials. Should these materials be inadvertently transported to the aforementioned locations, the Vendor(s) shall be responsible for proper handling and storage of any hazardous materials brought by his/her workforce. The Vendor(s) shall provide a suitable area at each DMS to accommodate all hazardous materials inadvertently brought to the site.

The County or County's Hazardous Materials Removal and Disposal contractor will provide for routine service to collect and dispose of any materials inadvertently delivered to the DMS during removal operations.

2-8.11 WORK HOURS

The Vendor(s) shall conduct those debris removal operations generating noise levels above that normally associated with routine traffic flow, during daylight hours only. Work may be performed 7 days per week. Adjustments to work hours, as local conditions may dictate, shall be coordinated between the County and the Vendor(s). Unless otherwise directed, the Vendor must be capable of conducting volumetric reduction operations at DMS locations on a 24 hour, 7 days a week basis. No work will be performed on recognized County holidays without prior approval of the County Debris Manager.

2-8.12 TIME OF COMPLETION

The services shall commence upon written notice to proceed from the County manager or his designee, and the project shall be completed in accordance with the project schedule.

2-8.13 LIQUIDATED DAMAGES

Should the Vendor fail to complete requirements set forth in this scope of work, the County will suffer damage. The amount of damage suffered by the County is difficult, if not impossible to determine at this time. Therefore, the Vendor shall pay the County, as liquidated damages, the following:

a. The Vendor shall pay the County, as liquidated damages, $1,000.00 per calendar day of delay to mobilize in the County with the resources required to begin debris removal operations, within 72 hours of being issued Notice to Proceed.

b. The Vendor shall pay the County, as liquidated damages, $500.00 per load of disaster debris collected in the County that is not disposed of at a County approved DMS or County approved Final Disposal Site and/or any associated fines levied by a third party. Application of liquidated damaged does not release the Vendor of all liability associated with hauling and depositing material to an unauthorized location.

c. The Vendor shall pay the County, as liquidated damages, $500.00 per incident where the Vendor fails to repair damages that are caused by the Vendor or subcontractor(s). Application of liquidated damages does not release the Vendor from the responsibility of resolving or repairing damages.

The amounts specified above are mutually agreed upon as reasonable and proper amount of damage the County should suffer by failure of the Vendor to complete requirements set forth in the scope of work.

2-8.14 DAMAGES

All items damaged as a result of Vendor(s) or subcontractor operations, such as but not limited to, sidewalks, curbs, pipes, drains, water mains, pavement, mail boxes, and turf shall be either

repaired or replaced by the Vendor, at their expense, in a manner prescribed by and at the sole satisfaction of the County Debris Manager. Any invoices submitted to the County such as but not limited to, from utility companies, or landowners, which are determined to be the result of damage done by the Vendor, shall be the responsibility of the Vendor. Repairs, or receipt of repairs, shall be completed and submitted to the County prior to submission of the Vendor's invoice for work accomplished. If the Vendor(s) fails to repair any damaged property, the County may have the work performed and charge the Vendor(s).

The Vendor(s) shall be responsible for filling to grade with like material all surface damage, such as rutting and cracks, caused by the Vendor(s)'s equipment during debris removal. The Vendor(s) shall repair all damage to existing grade, road shoulders, trees, shrubs, and grassed areas caused by the Vendor(s)'s equipment or personnel at no additional cost to the County. If the Vendor does damage to a County sign or other property owned by the County, it shall be the responsibility of the Vendor(s) to repair the item back to the original condition. If the repair is not in accordance with County standards, the County shall repair the items and deduct the associated cost from the amount due the Vendor. The Vendor(s) shall preserve and protect all existing vegetation such as trees, shrubs, and grass on or adjacent to the area of work.

Complaints will be addressed within 48 hours and a written report submitted to the County Debris Manager outlining actions taken to correct the complaint. The Vendor shall notify the County immediately of any complaints given directly to the Vendor.

Upon written notice from the Vendor that the damage correction work is complete, the County will make a final inspection with the Vendor and will notify the Vendor in writing of any deficiencies in the project. The Vendor will correct all deficiencies before final acceptance and payment is made. If a second re-inspection is required, the County will assess an $80.00r fee to the Vendor. The $80.00 fee will be assessed for every re-inspection after the first re-inspection. The fee is assessed to offset the additional County labor costs and vehicle usage required for unnecessary inspections and the fee will be deducted from the final invoice for that release order.

No retention will be released to the Vendor(s) prior to a satisfactory damage resolution log being completed addressing all complaints and issues. Should the value of retention exceed the amount of possible outstanding damage claims, the Vendor(s) may petition the County in writing for a partial retainage release.

2-8.15 EXISTING UTILITIES

a. Some trees and debris that are to be removed under the awarded contract may be blocked or entangled with overhead power, telephone, and television cables. In this case, it shall be Vendor's responsibility to coordinate directly with the utility owners to arrange for the removal of the debris without damage to the overhead and underground utility lines (i.e. water and sewer). The Vendor(s) shall pay all such costs to the utility company for any adjustments.

b. The Vendor(s) shall be responsible for all costs incurred to repair damaged utilities that are

caused by the Vendor, as determined by the affected utility company. Payment for repairs to all municipal and privately owned utilities shall be the responsibility of the Vendor(s).

2-8.16 DEBRIS SITE TOWER SPECIFICATIONS

a. The Vendor(s) shall provide as many towers as designated by the County at each dumpsite for the use of County authorized representatives during their inspection of dumping operations. If ingress and egress of a DMS is of significant distance that the County or its authorized representative are unable to verify the entering and exiting trucks, then the Vendor(s) may be required to provide a second tower. The inspection platform of the tower shall be constructed at a minimum height of 10 feet from surrounding grade to finish floor level, have a minimum 8 feet by 8 feet of usable floor area, be covered by a roof with 2 feet overhangs on all sides and be provided with appropriate railings and a stairway. Platform shall be enclosed, starting from platform floor level and extending up 4 feet on all 4 sides. The expense incurred by the Vendor for the construction of towers is an overhead expense contemplated as part of the Vendor's compensation under the terms and conditions of Scope of Services.

b. Care shall be taken to place tower(s) at a sufficient distance away from any reduction/dumping operations. If necessary, dumping operations may be temporarily suspended by the County Debris Manager due to unsuitable conditions at the tower.

2-8.17 FACILITIES AT DMS LOCATIONS

The Vendor(s) shall provide as many ADA compliant portable toilets as designated by the County at each dumpsite for the use of County authorized representatives during their inspection of dumping operations. The toilet shall be provided prior to start of any dumping operations and kept in a sanitary condition by the Vendor(s) throughout the duration of dumping operations. The expense incurred by the Vendor(s) for the operation of portable toilets is an overhead expense contemplated as part of the Vendor's compensation under the terms and conditions of Scope of Services.

2-8.18 OWNERSHIP OF DEBRIS

All debris residing in the County ROW and County provided DMS(s) shall be the property of the County until final disposal at a properly permitted disposal site. The Vendor(s) shall be responsible for removal of debris up to the point where debris can only be described as light litter and additional collection can be facilitated only by sweeping and raking. In addition to debris stored on the right-of-way as the result of road clearing, the County will direct residents to place debris in segregated piles along the right-of-way, separated as to the waste category. There may be the need to perform some curbside separation of the different materials. Different waste materials will be collected in separate vehicles and may require disposal at different locations, which will be approved by the County. Any items requiring disposal at special facilities shall be required to be monitored for the collection, complete haul, and delivery at the approved special location with the monitor obtaining an original copy of the disposal ticket showing inbound and outbound collection vehicle weights.

All bagged and bundled waste and debris smaller than 2 inches in diameter and shorter than 2 feet in length are outside the scope of this contract unless specifically directed by the County. Collection of Municipal Solid Waste (MSW) is outside the scope of this contract.

2-8.19 ENVIRONMENTAL PROTECTION

a. It is recognized that construction and demolition debris might contain small amounts of asbestos, lead-based paints, treated wood, or similar materials. The Florida Department of Environmental Protection (FDEP) will issue an Emergency Final Order for the classification and disposition of all disaster related wastes. Based on the mandates of this State agency and other applicable state and federal reimbursement agencies, the determination of the character and disposal of waste streams will be decided. The Vendor(s) shall receive a copy of this letter and together with the Monitoring Firm and County; a final disposal plan will be established.

b. Any and all fluids or chemicals (work-related materials such as oil-dri, absorbents, etc.) used by the Vendor(s) must be used and disposed of in accordance with all rules and regulations of local, state, and federal regulatory agencies.

c. Vendor(s) and subcontractors shall not perform maintenance on over-the-road equipment at DMS(s). Maintenance of equipment that typically remain at the DMS (e.g., track hoes, front end loaders, grinders, etc.) may be conducted at the DMS provided best management practices are followed and all wastes are managed and disposed of in accordance with all rules and regulations of local, state, and federal regulatory agencies.

d. The Vendor(s) shall, at its own expense, ensure that noise and dust pollution is minimized to comply with all local and state ordinances and the approval of the County Debris Manager. The Vendor(s) shall comply in a timely manner with all directions of the County Debris Manager regarding the use of a water truck or other approved dust abatement measures.

e. The Vendor(s) shall comply with all laws, rules, regulations, and ordinances regarding environmental protection.

f. The Vendor(s) shall immediately report and document all incidents to the County Debris Manager or the authorized representative that affect the environmental quality of DMS(s) such as, but not limited to, hydraulic fluid leaks, oil spills, or fuel leaks.

g. The Vendor must notify the County regarding any fluid or chemical spillage so that the County or its authorized representative can review and approve of the cleanup.

2-8.20 DOCUMENTATION AND MEASUREMENT

a. Vendor is responsible for ensuring that all labor and equipment used for Emergency Debris Clearance activities is certified and that logs are kept for starting days/times, ending

days/times, and zones, areas, and streets worked.

b. All trucks used for collection and hauling of eligible debris from the County ROW to County approved DMS(s) or County approved Final Disposal Sites shall be measured (inside bed measurements) and certified for cubic yard volume by the County or County-authorized representative. The Vendor shall provide a representative to attest to the certification/measuring process. It is the Vendor's responsibility to verify the accuracy of truck certifications within 48 hours of truck certification (and notify the County of any discrepancies). Placards will be attached to both sides of each certified truck and shall clearly state the truck measurement in cubic yards, Vendor name, assigned truck number, and other pertinent information, as determined by the County Debris Manager. If a vehicle is working under multiple contracts or for multiple communities, it must be re-certified and issued a new placard by a County authorized representative each time it returns to work from other contracts or communities.

c. The Vendor(s) is responsible for ensuring that all subcontractors maintain valid driver's licenses and equipment legally fit for travel on the road.

d. Load tickets will be provided by the County or its authorized representative for recording volumes of debris removal. Unit rate tickets will be provided by the County or its authorized representative for documenting unit rate services, such as Hangers or Hazardous Tree removal. Only tickets designated and approved by the County will be authorized for use. Tickets must be completed in a clear and legible manner. Tickets that require Vendor signature will have the signature as well as name printed in a legible manner. Illegible Load & Unit Rate tickets will not be paid.

- Each ticket shall be of a type that consists of one original and five copies.

- Each ticket shall be used to document the location the disaster related debris was collected (i.e., street address) and the amount picked up, hauled, reduced and disposed of. Vendor(s) are responsible for ensuring all load and unit rate tickets capture location debris or work was completed, collection/disposal date, disposal location, percentage load call or measurement (either tons or percentage load call), and County authorized representative name and signature. No payment will be made by the County for incomplete and/or illegible load or unit rate tickets submitted for payment.

- Load tickets will be issued by an authorized representative of the County at the collection site. The County authorized representative will complete the applicable portion of the load ticket, and provide all five copies to the vehicle operator. Upon arrival at the DMS or County approved Final Disposal Site, the vehicle operator will present the five copies of the load ticket to the County authorized representative on site. Trucks with less than full capacities will be adjusted down by visual inspection. This determination will be made by the County authorized representative present at the DMS or County approved Final Disposal Site. The County authorized representative will validate, enter the estimated debris quantity and sign the load ticket. The County will keep the original copy, 2 copies

will be given back to the vehicle operator and the remaining 2 copies will be provided to the Vendor.

- Loads of processed (e.g., chipped) debris being hauled from a DMS to a County approved Final Disposal Site will follow the same load ticket procedures. A County authorized representative will initiate the load ticket at the DMS. Another County authorized representative will validate and sign the ticket at the County approved Final Disposal Site.

- The Vendor(s) shall give written notice of the location for work scheduled 24 hours in advance.

e. Scope of service items that have rates based on one-way haul mileage shall have such mileage based on "as the crow flies" distance. The radius distance from each DMS or final disposal site to the last loading location written on the load or haul-out ticket will be used to determine the mileage rate category. The County shall determine the mileage calculation method that is ultimately used. One-way mileage rates apply to the following sections within the statement of work:

- Section 2-7.2 – ROW Vegetative Debris Removal

- Section 2-7.3 – ROW C&D Debris Removal

- Section 2-7.4 – Demolition, Removal, Transport and Disposal of Non-RACM Structures

- Section 2-7.5 – Demolition, Removal, Transport and Disposal of RACM Structures

- Section 2-7.8 – Haul-out of Reduced Debris to a County Approved Final Disposal Site

2-8.21 PAYMENT

a. The County, or its authorized representative, will monitor, verify, and document with load tickets or unit rate tickets the completion of all work, as defined in the scope of work. The Vendor(s) will be provided with copies of this documentation. These documents will be used by the Vendor as backup data for invoice submittals. Work not ticketed or not authorized by the County will not be approved for payment. Additionally, any ticket submitted for payment must be legible and properly completed. Tickets missing loading address, truck number, certified capacity, collection monitor signature, disposal site, load call, or disposal monitor signature will not be paid, nor will the County be responsible for unpaid incomplete tickets.

b. If tasked with private property and FHWA-ER funded roadway debris removal operations, these will be invoiced separately from ROW collection removal operations. The County reserves the right to request additional invoice separation by debris type (C&D, vegetative debris, white goods, or other scope of service items), program (ROW collection, private property debris removal, etc.), or both.

c. Invoices shall be submitted to the County's authorized representative on a bi-weekly basis unless otherwise direct by the County. All invoices must be submitted with a hard copy of the invoice and an electronic copy (Microsoft Excel format) of the invoice detail. The invoice detail must consist of a tabular report listing all ticket information required by the County. Invoice detail submittals will be checked against County records. County records are the basis of all payment approvals. Only one hundred percent (100%) accurate and complete invoices shall be forwarded by the County authorized representative to the County for payment.

d. A 10% retainage will be withheld from each reconciled invoice until the end of the project. In order to recover the retainage, the Vendor(s) must successfully complete, and receive a letter of completion from the County, for all work zones. Retainage will be held until final reconciliation is complete. Portions of the retainage may be held by the County to repair damages caused by the Vendor(s) to public or private property.

e. No separate payment will be made for mobilization and demobilization operations. These costs are to be included in the respective unit prices bid for debris removal and will not be adjusted based on the total amount of debris actually removed in the contract.

f. The Vendor is responsible for payment to all subcontractors utilized for the services rendered within this scope of work. The Vendor shall execute release waivers with all subcontractors to release the County from payment to subcontractors directly. The release waivers for all subcontractors shall be provided to the County prior to final retainage release.

g. Payment for disposal cost incurred by the Vendor(s) at County approved Final Disposal Sites will be made at the cost incurred by the Vendor. The County will either coordinate payment of disposal costs directly with the Final Disposal Site or require the Vendor to pay the disposal fees and then invoice the County. The Vendor(s) shall submit a copy of all invoice(s) received by the County approved Final Disposal Site, an electronic copy tabulating all scale or load tickets issued by the County approved Final Disposal Site, and proof of Vendor payment to the County approved Final Disposal Site. The County will not render payment for disposal costs until the Vendor submits applicable disposal site permits or site information for each authorized Final Disposal Site.

h. Vendor(s) must submit a final invoice within 30 days of completion of scope of work. Completion of scope of work will be acknowledged, in writing, by the County Debris Manager. The final invoice must be marked "FINAL INVOICE" and no additional payments will be made after the Vendor's final invoice.

i. In the event any portion of this scope of work is to be funded by State or Federal funds, the Vendor will comply with all requirements of the state or federal government applicable to the use of the funds.

j. The Vendor will retain all records pertaining to the services and the contract for these services and make them available to the County for a period of 7 years following receipt of final payment for the services referenced herein. In the event litigation ensues or the County

challenges a decision by FEMA to disallow or de-obligate costs incurred under the contract, then Vendor shall retain all records hereunder for a period of 7 years after conclusion of the litigation or FEMA dispute, including any and all appeals.

k. Payment shall be tendered in accordance with the Florida Prompt Payment Act, Part VII, Chapter 218, and Florida Statues.

2-8.22 FHWA-ER PROGRAM CONTRACT REQUIREMENTS

The County intends to seek reimbursement from FHWA for the eligible debris removal performed on federal aid roads. Consequently, the County mandates compliance from the successful Vendor regarding the following:

b. Buy America Requirements

c. 49 CFR Part 26, Disadvantage Business Enterprise Program

d. American with Disabilities Act of 1990 (ADA)

e. Convict Labor Prohibition

FHWA-ER Program contract requirements are subject to any changes provided by FHWA during the term of the contract. Based on the current guidance, FHWA will only reimburse the County for the initial collection, hauling and tipping fee, if applicable, of eligible debris. Debris reduction operations are not eligible for reimbursement unless the debris is being reduced as part of a rolling pickup operation. As a result, the FHWA-ER eligible debris that is collected during the first pass shall be hauled to the nearest Final Disposal Site unless otherwise directed by the County.

2-8.23 FINAL PROJECT CLOSE OUT

Upon final inspection of the project by the County, the Vendor(s) shall submit a detailed description of all debris management activities, to include the total volume, by type of debris hauled and/or disposed.

Services not specifically identified in any contract derived from this RFP may be added to the contract upon mutual consent of the contracting parties.

The County reserves the right to activate more than one contractor to provide the debris services outlined in this RFP. The County may also revise the distribution of services provided or work areas (such as zones) at any time during the activation of a contract developed though this RFP.

2-8.25 COUNTY'S DEBRIS MONITORING CONSULTANT

Vendor shall be in contact and comply with the County's contracted consultant and representative for the monitoring of debris collection and removal services. The County's contracted consultant and representative shall be a separate contractor, from this solicitation and its award, who will be exclusively contracted for monitoring services. The monitoring consultant shall certify all of the vendor's loads and the safety of the vehicles in which the debris is being removed.

2-9 SUBCONTRACTORS

The County prefers that the Contractor provide all services needed to comply with the RFP. Should a Sub-Contractor be needed, the Primary Contractor will be the sole point of contact and have sole responsibility for all issues. It is the responsibility of the Primary Contractor to ensure that Sub-Contractors needed to be used during the collection and disposal of disaster debris shall comply with the scope of work initiated to support this project.

If the Contractor intends to subcontract any portion of the work covered by this Contract, the Contractor must take all necessary affirmative steps to assure that small and minority businesses, women's business enterprises and labor surplus area firms are solicited and used when possible. Affirmative steps must include:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;

2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;

3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;

4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and

5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

2-10 CONTRACT TERMS

The selected Vendor is to provide items and services listed at firm fixed rates on an as needed basis for an initial period of 1 year, renewable for three additional 1 year periods. Both the County and the vendor must mutually agree upon renewals in writing. Rates quoted will be for the first year and will not be changed based on the guidelines outlined in this solicitation.

The awarded contract will contain the required provisions at 2 C.F.R. § 200.326, Appendix II to 2

C.F.R. Part 200, and FEMA guidance, as applicable.

PART IV: SELECTION CRITERIA AND EVALUATION METHOD

4-1 GENERAL

The County shall be the sole judge of its own best interests, the proposal, and the resulting negotiated agreement. The County reserves the right to investigate the financial capability, reputation, integrity, skill, business experience, and quality of performance under similar operations of each Proposer, including stockholders and principals before making an award. Awards, if any, will be based on both an objective and subjective comparison of Proposals and Proposers. The County's decisions will be final.

The County shall evaluate the merit of the proposal based on the best value criteria listed herein. The sole objective of this evaluation is to select the vendor whose proposal is most responsive and the best value to the County's needs for a contractor to perform Emergency Debris Collection and Removal Services.

The County reserves the right to request additional information or to meet with vendors to discuss points in the Proposal before and after submission, any and all of which may be used in forming a recommendation. This is to include demonstrations of vendor's solutions.

The County reserves the right to reject any and all proposals that fail to meet the requirements of this RFP or which the County determines will not meet its needs. The County may reject the proposal of a vendor who is not, in the opinion of the County, in a position to satisfactorily perform the contract. The County reserves the right to reject any proposal if the evidence submitted by, or investigation of, such vendor fails to satisfy that such vendor is properly qualified to carry out the obligations of the contract and to complete the work contemplated therein.

The County reserves the right to accept or reject in part or in whole any proposal submitted, and to waive any technicalities or informalities for the best interest of the County. The County reserves the right to award based upon individual line items, sections, or total proposal. The County may also accept or reject any of the alternates that may be set forth in a proposal.

4-2 MINIMUM QUALIFICATIONS AND EXPERIENCE

The County is seeking proposals from vendors who are have past, proven, and positive experiences in projects of similar and same size of scope of work. Proposals shall be accepted from vendors who meet the following minimum criteria, evaluated on a pass/fail basis. The Proposer shall:

- Have at least 5 years' experience in providing services for emergency debris collection and disposal services in an emergency scenario or environment.
- Be licensed to conduct business in the State of Florida.

- Provide an organizational chart showing its ownership structure and resumes of experienced key personnel.

Proposals that do not meet these minimum qualifications will be rejected without the further evaluation outlined in Section 4-3.

4-3 EVALUATION METHOD AND SCORING CRITERIA

A Selection Committee will be appointed by the County Administrator and will be responsible for reviewing and evaluating Proposals, selecting the firm(s) that provides the best value to the County, and then negotiating a contract. The Proposers with the highest-ranked submittals may

be asked to make a detailed presentation of their product / service to the Selection Committee.

All Proposers are advised that in the event of receipt of an adequate number of Proposals which in the opinion of the Evaluation committee require no clarification and/or supplementary information, such Proposals may be evaluated without discussion. Hence, proposals should be initially submitted on the most complete and favorable terms which Proposers are capable of offering to the County.

In general, the County wishes to avoid the expense to the County and to proposers of unnecessary presentations. Therefore, the County shall make every reasonable effort to achieve the ranking using written submittals alone. If no single top-ranked firm can be clearly identified by review of the written submittals alone, then the evaluator(s) may request the Purchasing Manager to schedule the top ranked firm(s) for presentations or interviews.

The County may choose to conduct oral interviews with, or receive oral presentations from, one or more of the proposers. If the County chooses to allow oral interviews and/or presentations, such interviews or oral presentations will be open to the public. If oral presentations or interviews are held, the following guidelines will be used.

The Purchasing Manager shall establish the schedule and Proposers will be notified at least 7 calendar days in advance of the date, time and place of the presentations. The specific format of each presentation will be provided to Proposers with the notifications. The County shall allot equal time for each Proposer divided into three sequential parts: formal presentations, questions/answers, and discussion. Oral presentations will provide an opportunity for the Proposers to demonstrate their ability to use time efficiently, effectively, and economically. The times allotted are maximums and no firm will be penalized for using less than the allotted time.

After presentations, firms will be assigned a final score, with the highest ranked firm moving forward to the negotiation phase. The Selection Committee shall rank all complete written proposals and/or formal oral presentations/interviews in order of preference (scoring) and submit this final ranking as its final recommendation. No work for this project shall proceed without written authorization from the County.

The County reserves the right to enter into contract negotiations with the selected Proposer. If the County and the selected Proposer cannot negotiate a successful contract, the County may terminate such negotiations and begin negotiations with the next selected Proposer. No Proposer shall have any rights against the County arising from such negotiations.

CONTRACT PROVISIONS FOR FEMA PUBLIC ASSISTANCE

Pursuant to 2 CFR 200.327 and Appendix II to Part 200, the following federal requirements and contract provisions are incorporated herein, where applicable:

Contractor acknowledges that any subcontracts for more than the simplified acquisition threshold currently set at $250,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Contractor acknowledges that all subcontracts in excess of $10,000 must address termination for cause and for convenience by the Contractor including the manner by which it will be affected and the basis for settlement.

Contractor agrees to adhere to contract provisions (1) through (20) below where applicable:

1. **Equal Opportunity**: During the performance of this contract, the CONTRACTOR agrees as follows:
During the performance of this contract, the CONTRACTOR agrees as follows:

   (1) The CONTRACTOR will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The CONTRACTOR will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The CONTRACTOR agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

   (2) The CONTRACTOR will, in all solicitations or advertisements for employees placed by or on behalf of the CONTRACTOR, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

   (3) The CONTRACTOR will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or

applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the CONTRACTOR's legal duty to furnish information.

(4) The CONTRACTOR will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the CONTRACTOR's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The CONTRACTOR will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The CONTRACTOR will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the CONTRACTOR's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the CONTRACTOR may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The CONTRACTOR will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each sub-contractor or vendor. The CONTRACTOR will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:
Provided, however, that in the event a CONTRACTOR becomes involved in, or is threatened with, litigation with a sub-contractor or vendor as a result of such direction by the administering agency, the CONTRACTOR may request the United States to enter into such litigation to protect the interests of the United States.
The applicant further agrees that it will be bound by the above equal opportunity

clause with respect to its own employment practices when it participates in federally assisted construction work: Provided, That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and sub-contractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a CONTRACTOR debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and sub-contractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

The CONTRACTOR will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The CONTRACTOR will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The CONTRACTOR agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

2. **Davis-Bacon Act:** CONTRACTOR agrees to abide by the following (*as applicable to projects not solely funded by SLFRF funds*):

(1)

Minimum wages —

(i) *Wage rates and fringe benefits.* All laborers and mechanics employed or working upon the site of the work (or otherwise working in construction or development of the project under a development statute), will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of basic hourly wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the CONTRACTOR and such laborers and mechanics. As provided in paragraphs (d) and (e) of this section, the appropriate wage determinations are effective by operation of law even if they have not been attached to the contract. Contributions made or costs reasonably anticipated for bona fide fringe benefits under the Davis-Bacon Act (40 U.S.C. 3141(2)(B)) on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph (a)(1)(v) of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics must be paid the appropriate wage rate and fringe benefits on the wage determination for the classification(s) of work actually performed, without regard to skill, except as provided in paragraph (a)(4) of this section.

Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: *Provided,* That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classifications and wage rates conformed under paragraph (a)(1)(iii) of this section) and the Davis-Bacon poster (WH-1321) must be posted at all times by the CONTRACTOR and its sub-contractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

(ii) *Frequently recurring classifications.*

(A) In addition to wage and fringe benefit rates that have been determined to be prevailing under the procedures set forth in 29 CFR part 1, a wage determination may contain, pursuant to § 1.3(f), wage and fringe benefit rates for classifications of laborers and mechanics for which conformance requests are regularly submitted pursuant to paragraph (a)(1)(iii) of this section, provided that:

(*1*) The work performed by the classification is not performed by a classification in the wage determination for which a prevailing wage rate has been determined;

(*2*) The classification is used in the area by the construction industry; and

(*3*) The wage rate for the classification bears a reasonable relationship to the prevailing wage rates contained in the wage determination.

(B) The Administrator will establish wage rates for such classifications in accordance with paragraph (a)(1)(iii)(A)(*3*) of this section. Work performed in such a classification must be paid at no less than the wage and fringe benefit rate listed on the wage determination for such classification.

(iii) *Conformance.*

(A) The contracting officer must require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract be classified in conformance with the wage determination. Conformance of an additional classification and wage rate and fringe benefits is appropriate only when the following criteria have been met:

(*1*) The work to be performed by the classification requested is not performed by a classification in the wage determination; and

(*2*) The classification is used in the area by the construction industry; and

(*3*) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage

rates contained in the wage determination.

(B) The conformance process may not be used to split, subdivide, or otherwise avoid application of classifications listed in the wage determination.

(C) If the CONTRACTOR and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken will be sent by the contracting officer by email to *DBAconformance@dol.gov*. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(D) In the event the CONTRACTOR, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer will, by email to *DBAconformance@dol.gov,* refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(E) The contracting officer must promptly notify the CONTRACTOR of the action taken by the Wage and Hour Division under paragraphs (a)(1)(iii)(C) and (D) of this section. The CONTRACTOR must furnish a written copy of such determination to each affected worker or it must be posted as a part of the wage determination. The wage rate (including fringe benefits where appropriate) determined pursuant to paragraph (a)(1)(iii)(C) or (D) of this section must be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

(iv) *Fringe benefits not expressed as an hourly rate.* Whenever the

minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the CONTRACTOR may either pay the benefit as stated in the wage determination or may pay another bona fide fringe benefit or an hourly cash equivalent thereof.

(v)

Unfunded plans. If the CONTRACTOR does not make payments to a trustee or other third person, the CONTRACTOR may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, *Provided,* That the Secretary of Labor has found, upon the written request of the CONTRACTOR, in accordance with the criteria set forth in § 5.28, that the applicable standards of the Davis- Bacon Act have been met. The Secretary of Labor may require the CONTRACTOR to set aside in a separate account assets for the meeting of obligations under the plan or program.

(vi)

Interest. In the event of a failure to pay all or part of the wages required by the contract, the CONTRACTOR will be required to pay interest on any underpayment of wages.

(2)

Withholding —

(i)

Withholding requirements. The City of Fort Pierce may, upon its own action, or must, upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the CONTRACTOR so much of the accrued payments or advances as may be considered necessary to satisfy the liabilities of the prime CONTRACTOR or any sub-contractor for the full amount of wages and monetary relief, including interest, required by the clauses set forth in paragraph (a) of this section for violations of this contract, or to satisfy any such liabilities required by any other Federal contract, or federally assisted contract subject to Davis-Bacon labor standards, that is held by the same prime CONTRACTOR (as defined in § 5.2). The necessary funds may be withheld from the CONTRACTOR under this contract, any other Federal contract with the same prime CONTRACTOR, or any other federally assisted contract that is subject to Davis-Bacon labor standards requirements and is held by the same prime CONTRACTOR, regardless of whether the other contract was awarded or assisted by the same agency, and such funds may be used to satisfy the CONTRACTOR liability for which the funds were withheld. In the event of a CONTRACTOR's failure to pay any laborer or mechanic, including any apprentice or helper working on the site of the work (or otherwise working in construction or

development of the project under a development statute) all or part of the wages required by the contract, or upon the CONTRACTOR's failure to submit the required records as discussed in paragraph (a)(3)(iv) of this section, the City of Fort Pierce may on its own initiative and after written notice to the CONTRACTOR, sponsor, applicant, owner, or other entity, as the case may be, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

(ii)

Priority to withheld funds. The Department has priority to funds withheld or to be withheld in accordance with paragraph (a)(2)(i) or (b)(3)(i) of this section, or both, over claims to those funds by:

(A)

A CONTRACTOR's surety(ies), including without limitation performance bond sureties and payment bond sureties;

(B)

A contracting agency for its reprocurement costs;

(C)

A trustee(s) (either a court-appointed trustee or a U.S. trustee, or both) in bankruptcy of a CONTRACTOR, or a CONTRACTOR's bankruptcy estate;

(D)

A CONTRACTOR's assignee(s);

(E)

A CONTRACTOR's successor(s); or

(F)

A claim asserted under the Prompt Payment Act, 31 U.S.C. 3901-3907.

(3)

Records and certified payrolls —

(i)

Basic record requirements —

(A)

Length of record retention. All regular payrolls and other basic records must be maintained by the CONTRACTOR and any sub-contractor during the course of the work and preserved for all laborers and mechanics working at the site of the work (or otherwise working in construction or development of the project under a development statute) for a period of at least 3 years after all the work on the prime contract is completed.

(B) *Information required.* Such records must contain the name; Social Security number; last known address, telephone number, and email address of each such worker; each worker's correct classification(s) of work actually performed; hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in 40 U.S.C. 3141(2)(B) of the Davis-Bacon Act); daily and weekly number of hours actually worked in total and on each covered contract; deductions made; and actual wages paid.

(C) *Additional records relating to fringe benefits.* Whenever the Secretary of Labor has found under paragraph (a)(1)(v) of this section that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in 40 U.S.C. 3141(2)(B) of the Davis-Bacon Act, the CONTRACTOR must maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits.

(D) *Additional records relating to apprenticeship.* Contractors with apprentices working under approved programs must maintain written evidence of the registration of apprenticeship programs, the registration of the apprentices, and the ratios and wage rates prescribed in the applicable programs.

(ii) *Certified payroll requirements —*

(A) *Frequency and method of submission.* The CONTRACTOR or sub-contractor must submit weekly, for each week in which any DBA- or Related Acts-covered work is performed, certified payrolls to the U.S. Treasury if the agency is a party to the contract, but if the agency is not such a party, the CONTRACTOR will submit the certified payrolls to the applicant, sponsor, owner, or other entity, as the case may be, that maintains such records, for transmission to the City of Fort Pierce. The prime CONTRACTOR is responsible for the submission of all certified payrolls by all sub-contractors. A contracting agency or prime CONTRACTOR may permit or require contractors to submit certified payrolls through an electronic system, as long as the electronic system requires

a legally valid electronic signature; the system allows the CONTRACTOR, the contracting agency, and the Department of Labor to access the certified payrolls upon request for at least 3 years after the work on the prime contract has been completed; and the contracting agency or prime CONTRACTOR permits other methods of submission in situations where the CONTRACTOR is unable or limited in its ability to use or access the electronic system.

(B)

Information required. The certified payrolls submitted must set out accurately and completely all of the information required to be maintained under paragraph (a)(3)(i)(B) of this section, except that full Social Security numbers and last known addresses, telephone numbers, and email addresses must not be included on weekly transmittals. Instead, the certified payrolls need only include an individually identifying number for each worker (*e.g.,* the last four digits of the worker's Social Security number). The required weekly certified payroll information may be submitted using Optional Form WH-347 or in any other format desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division website at *https://www.dol.gov/sites/dolgov/files/WHD/legacy/files/wh347/.pdf* or its successor website. It is not a violation of this section for a prime CONTRACTOR to require a sub-CONTRACTOR to provide full Social Security numbers and last known addresses, telephone numbers, and email addresses to the prime CONTRACTOR for its own records, without weekly submission by the sub-contractor to the sponsoring government agency (or the applicant, sponsor, owner, or other entity, as the case may be, that maintains such records).

(C)

Statement of Compliance. Each certified payroll submitted must be accompanied by a "Statement of Compliance," signed by the CONTRACTOR or sub-contractor, or the CONTRACTOR's or sub-contractor's agent who pays or supervises the payment of the persons working on the contract, and must certify the following:

(*1*)

That the certified payroll for the payroll period contains the information required to be provided under paragraph (a)(3)(ii) of this section, the appropriate information and basic records are being maintained under paragraph (a)(3)(i) of this section, and such information and records are correct and complete;

(*2*) That each laborer or mechanic (including each helper and apprentice) working on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in 29 CFR part 3; and

(*3*) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification(s) of work actually performed, as specified in the applicable wage determination incorporated into the contract.

(D) *Use of Optional Form WH-347.* The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 will satisfy the requirement for submission of the "Statement of Compliance" required by paragraph (a)(3)(ii)(C) of this section.

(E) *Signature.* The signature by the CONTRACTOR, sub-contractor, or the CONTRACTOR's or sub-contractor's agent must be an original handwritten signature or a legally valid electronic signature.

(F) *Falsification.* The falsification of any of the above certifications may subject the CONTRACTOR or sub-contractor to civil or criminal prosecution under 18 U.S.C. 1001 and 31 U.S.C. 3729.

(G) *Length of certified payroll retention.* The CONTRACTOR or sub-contractor must preserve all certified payrolls during the course of the work and for a period of 3 years after all the work on the prime contract is completed.

(iii) *Contracts, subcontracts, and related documents.* The CONTRACTOR or sub-contractor must maintain this contract or subcontract and related documents including, without limitation, bids, proposals, amendments, modifications, and extensions. The CONTRACTOR or sub-contractor must preserve these contracts, subcontracts, and related documents during the course of the work and for a period of 3 years after all the work on the prime contract is completed.

(iv) *Required disclosures and access —*

(A) *Required record disclosures and access to workers.* The CONTRACTOR or sub-contractor must make the records required under paragraphs (a)(3)(i) through (iii) of this section, and any other documents that the City of Fort Pierce or the Department of Labor deems necessary to determine compliance with the labor standards provisions of any of the applicable statutes referenced by § 5.1, available for inspection, copying, or transcription by authorized representatives of the City of Fort Pierce or the Department of Labor, and must permit such representatives to interview workers during working hours on the job.

(B) *Sanctions for non-compliance with records and worker access requirements.* If the CONTRACTOR or sub-contractor fails to submit the required records or to make them available, or refuses to permit worker interviews during working hours on the job, the Federal agency may, after written notice to the CONTRACTOR, sponsor, applicant, owner, or other entity, as the case may be, that maintains such records or that employs such workers, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available, or to permit worker interviews during working hours on the job, may be grounds for debarment action pursuant to § 5.12. In addition, any CONTRACTOR or other person that fails to submit the required records or make those records available to WHD within the time WHD requests that the records be produced will be precluded from introducing as evidence in an administrative proceeding under 29 CFR part 6 any of the required records that were not provided or made available to WHD. WHD will take into consideration a reasonable request from the CONTRACTOR or person for an extension of the time for submission of records. WHD will determine the reasonableness of the request and may consider, among other things, the location of the records and the volume of production.

(C) *Required information disclosures.* CONTRACTORs and sub-contractors must maintain the full Social Security number and last known address, telephone number, and email address of each covered worker, and must provide them upon request to the U.S. Treasury if the agency is a party to the contract, or to the Wage and Hour Division of the Department of Labor. If the Federal agency is not such a party to the contract, the CONTRACTOR, sub-contractor, or both, must, upon request, provide the full Social Security number and last known address,

telephone number, and email address of each covered worker to the applicant, sponsor, owner, or other entity, as the case may be, that maintains such records, for transmission to the City of Fort Pierce, the CONTRACTOR, or the Wage and Hour Division of the Department of Labor for purposes of an investigation or other compliance action.

(4)

Apprentices and equal employment opportunity —

(i)

Apprentices —

(A)

Rate of pay. Apprentices will be permitted to work at less than the predetermined rate for the work they perform when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship (OA), or with a State Apprenticeship Agency recognized by the OA. A person who is not individually registered in the program, but who has been certified by the OA or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice, will be permitted to work at less than the predetermined rate for the work they perform in the first 90 days of probationary employment as an apprentice in such a program. In the event the OA or a State Apprenticeship Agency recognized by the OA withdraws approval of an apprenticeship program, the CONTRACTOR will no longer be permitted to use apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(B)

Fringe benefits. Apprentices must be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringe benefits must be paid in accordance with that determination.

(C)

Apprenticeship ratio. The allowable ratio of apprentices to journeyworkers on the job site in any craft classification must not be greater than the ratio permitted to the CONTRACTOR as to the entire work force under the registered program or the ratio applicable to the locality of the project pursuant to

paragraph (a)(4)(i)(D) of this section. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated in paragraph (a)(4)(i)(A) of this section, must be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under this section must be paid not less than the applicable wage rate on the wage determination for the work actually performed.

(D)

Reciprocity of ratios and wage rates. Where a CONTRACTOR is performing construction on a project in a locality other than the locality in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyworker's hourly rate) applicable within the locality in which the construction is being performed must be observed. If there is no applicable ratio or wage rate for the locality of the project, the ratio and wage rate specified in the CONTRACTOR's registered program must be observed.

(ii)

Equal employment opportunity. The use of apprentices and journeyworkers under this part must be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

(5)

Compliance with Copeland Act requirements. The CONTRACTOR shall comply with 18 U.S.C. § 874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. Part 3 as may be applicable, which are incorporated by reference into this contract.

(6)

Subcontracts. The CONTRACTOR or sub-contractor must insert in any subcontracts the clauses contained in paragraphs (a)(1) through (11) of this section, along with the applicable wage determination(s) and such other clauses or contract modifications as the U.S. Treasury may by appropriate instructions require, and a clause requiring the sub-contractors to include these clauses and wage determination(s) in any lower tier subcontracts. The prime CONTRACTOR is responsible for compliance by any sub-contractor or lower tier sub-contractor with all the contract clauses in this section. In the event of any violations of these clauses, the prime CONTRACTOR and any sub-contractor(s) responsible will be liable for any unpaid wages and monetary relief, including interest from the date of the underpayment or loss, due to any workers of lower-tier sub-contractors, and may be subject to debarment, as appropriate.

(7) *Contract termination: debarment.* A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a CONTRACTOR and a sub-contractor as provided in 29 CFR 5.12.

(8) *Compliance with Davis-Bacon and Related Act requirements.* All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract.

(9) *Disputes concerning labor standards.* Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the CONTRACTOR (or any of its sub-contractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

(10) *Certification of eligibility.*

(i) By entering into this contract, the CONTRACTOR certifies that neither it nor any person or firm who has an interest in the CONTRACTOR's firm is a person or firm ineligible to be awarded Government contracts by virtue of 40 U.S.C. 3144(b) or § 5.12(a).

(ii) No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of 40 U.S.C. 3144(b) or § 5.12(a).

(iii) The penalty for making false statements is prescribed in the U.S. Code, Title 18 Crimes and Criminal Procedure, 18 U.S.C. 1001.

(11) *Anti-retaliation.* It is unlawful for any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, or to cause any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, any worker or job applicant for:

(i) Notifying any CONTRACTOR of any conduct which the worker reasonably believes constitutes a violation of the DBA, Related Acts, this part, or 29 CFR part 1 or 3;

(ii) Filing any complaint, initiating or causing to be initiated any

proceeding, or otherwise asserting or seeking to assert on behalf of themselves or others any right or protection under the DBA, Related Acts, this part, or 29 CFR part 1 or 3;

(iii) Cooperating in any investigation or other compliance action, or testifying in any proceeding under the DBA, Related Acts, this part, or 29 CFR part 1 or 3; or

(iv) Informing any other person about their rights under the DBA, Related Acts, this part, or 29 CFR part 1 or 3.

3. **Contract Work Hours and Safety Standards Act (CWHSSA):** CONTRACTOR hereby agrees to abide by the following:

(1) *Overtime requirements.* No CONTRACTOR or sub-contractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation of the clause set forth in paragraph (b)(1) of this section the CONTRACTOR and any sub-contractor responsible therefore shall be liable for the unpaid wages and interest from the date of the underpayment. In addition, such CONTRACTOR and sub-contractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchpersons and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of $33 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1).

(3) *Withholding for unpaid wages and liquidated damages —*

(i) *Withholding process.* The City of Fort Pierce may, upon its own action, or must, upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the

CONTRACTOR so much of the accrued payments or advances as may be considered necessary to satisfy the liabilities of the prime CONTRACTOR or any sub-contractor for any unpaid wages; monetary relief, including interest; and liquidated damages required by the clauses set forth in this paragraph

(b) on this contract, any other Federal contract with the same prime CONTRACTOR, or any other federally assisted contract subject to the Contract Work Hours and Safety Standards Act that is held by the same prime CONTRACTOR (as defined in § 5.2). The necessary funds may be withheld from the CONTRACTOR under this contract, any other Federal contract with the same prime CONTRACTOR, or any other federally assisted contract that is subject to the Contract Work Hours and Safety Standards Act and is held by the same prime CONTRACTOR, regardless of whether the other contract was awarded or assisted by the same agency, and such funds may be used to satisfy the CONTRACTOR liability for which the funds were withheld.

(ii)

Priority to withheld funds. The Department has priority to funds withheld or to be withheld in accordance with paragraph (a)(2)(i) or (b)(3)(i) of this section, or both, over claims to those funds by:

(A)

A CONTRACTOR's surety(ies), including without limitation performance bond sureties and payment bond sureties;

(B)

A contracting agency for its reprocurement costs;

(C)

A trustee(s) (either a court-appointed trustee or a U.S. trustee, or both) in bankruptcy of a CONTRACTOR, or a CONTRACTOR's bankruptcy estate;

(D)

A CONTRACTOR's assignee(s);

(E)

A CONTRACTOR's successor(s); or

(F)

A claim asserted under the Prompt Payment Act, 31 U.S.C. 3901-3907.

(4)

Subcontracts. The CONTRACTOR or sub-contractor must insert in any subcontracts the clauses set forth in paragraphs (b)(1) through (5) of this section and a clause requiring the sub-contractors to include these clauses in any lower tier subcontracts. The prime CONTRACTOR is

responsible for compliance by any sub-contractor or lower tier sub-contractor with the clauses set forth in paragraphs (b)(1) through (5). In the event of any violations of these clauses, the prime CONTRACTOR and any sub-contractor(s) responsible will be liable for any unpaid wages and monetary relief, including interest from the date of the underpayment or loss, due to any workers of lower-tier sub-contractors, and associated liquidated damages and may be subject to debarment, as appropriate.

(5) *Anti-retaliation.* It is unlawful for any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, or to cause any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, any worker or job applicant for:

(i) Notifying any CONTRACTOR of any conduct which the worker reasonably believes constitutes a violation of the Contract Work Hours and Safety Standards Act (CWHSSA) or its implementing regulations in this part;

(ii) Filing any complaint, initiating or causing to be initiated any proceeding, or otherwise asserting or seeking to assert on behalf of themselves or others any right or protection under CWHSSA or this part;

(iii) Cooperating in any investigation or other compliance action, or testifying in any proceeding under CWHSSA or this part; or

(iv) Informing any other person about their rights under CWHSSA or this part.

The CONTRACTOR agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with federal assistance provided by U.S. Treasury

5. **Debarment and Suspension:** This contract is a covered transaction for purposes of 2 C.F.R. Part 180 and 2 C.F.R. Part 3000. As such, the CONTRACTOR is required to verify that none of the CONTRACTOR's principals (defined at 2 C.F.R. § 180.995) or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

Part 3000, subpart C, in addition to remedies available to City of Fort Pierce, the federal government may pursue available remedies, including but not limited to suspension and/or debarment.
The bidder or proposer agrees to comply with the requirements of 2 C.F.R. Part 180, subpart C and 2 C.F.R. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certification(s) to the federal awarding agency.

7. **Procurement of Recovered Materials:** In the performance of this contract, the CONTRACTOR shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired-

a) Competitively within a timeframe providing for compliance with the contract performance schedule;

b) Meeting contract performance requirements; or

c) At a reasonable price.

Information about this requirement, along with the list of EPA-designated items, is available at Comprehensive Procurement Guideline (CPG) Program | US EPA. The CONTRACTOR also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act.

8. **Prohibition on Contracting for Covered Telecommunications Equipment or Services:** CONTRACTOR agrees to adhere to the following:

(a) *Definitions.* As used in this clause, the terms backhaul; covered foreign country; covered telecommunications equipment or services; interconnection arrangements; roaming; substantial or essential component; and telecommunications equipment or services have the meaning as defined in US TREASURY Policy 405-143-1, Prohibitions on Expending US Treasury Award Funds for Covered Telecommunications Equipment or Services, as used in this clause—

(b) *Prohibitions.*

1) Section 889(b) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019, Pub. L. No. 115-232, and 2 C.F.R. § 200.216 prohibit the head of an executive agency on or after Aug.13, 2020, from obligating or expending grant, cooperative agreement, loan, or loan guarantee funds on certain telecommunications products or from certain entities for national security reasons.

2) Unless an exception in paragraph (c) of this clause applies, the CONTRACTOR and its sub-contractors may not use grant, cooperative agreement, loan, or loan guarantee funds from the Federal Emergency Management Agency to:

2) By necessary implication and regulation, the prohibitions also do not apply to:

i. Covered telecommunications equipment or services that:

DATE: AUGUST 22, 2025

I have reviewed the above Request for Legal Services (RLS) related to the Mutual Benefit and Use Agreements (MBUA) between the City of Fort Pierce and the above-named Contractors which piggybacks on St. Lucie County's contract for emergency debris removal. Please note the following comments:

1. Each MBUA has been revised to reflect the procurement and agreement history.
2. Each MBUA has been revised to reflect the new Term Period and additional provisions. Since these contracts may require debris removal services during a declared state of emergency event, I recommend incorporating contract provisions required should the city seek federal public assistance from FEMA (Federal Emergency Management Agency). Since St. Lucie County's contract with the Contractors does not include all contract language required for federal public assistance, I have drafted an Exhibit that does contain all required provisions.
3. Each MBUA contains language related to passage of SB 180 which requires a breach of contract provision for contracts entered into, renewed, or amended on or after July 1, 2025, requiring the service provider to pay a penalty in the event the provider breaches the contract during an emergency recovery period.
4. A redlined version of the MBUA for True North Emergency Management has been included with this Memo so changes made to all the other MBUAs can be tracked.

5. A clean version of each MBUA is included with this Memo which I recommend for template use for future MBUAs.
6. All MBUAs are approved as to form and correctness.
7. Recommendation: The Department should place all MBUAs on the Commission consent Agenda for review and approval *prior* to execution.

If you have any questions, please do not hesitate to contact this Office via phone or e-mail. Thank you.

This sum shall represent the liquidated damages which the County will have sustained per calendar day from the inconvenience and expense caused to the County by the delay in the completion of the Work. This sum is not a penalty, being the liquidated damages the County will have sustained in event of such default by the Contractor. The County reserves the right to additionally recover direct job site expenses incurred during the period of any delay. The Contractor shall be liable for liquidated damages even if the Contract is terminated by the County for cause or if the Contractor abandons the Work. Retainage will be held until final reconciliation is complete. Portions of the retainage may be held by the County to repair damages caused by the Contractor(s) to public or private property.

Payment of a corrected payment request or invoice, or rejection thereof, shall be made 10 business days after the date the corrected payment request or invoice is stamped as received as by the County. All applications for payment submitted by the Contractor shall reference the County's Contract number.

If a dispute between the County and the Contractor cannot be resolved by the procedure in this subsection, then the dispute must be resolved in accordance with the dispute resolution procedure set-forth in this Contract. A subcontractor who receives payment must remit undisputed payment due to those subcontractors and suppliers within 7 calendar days after subcontractor's receipt of payment.

The County shall pay the Contractor through payments issued by the County Finance Department, upon receipt of the certified invoice from the County Project Manager. The parties agree, however, that

any payments withheld as liquidated damages or for any other reason allowed by this Contract, shall not be governed by the Florida Prompt Payment Act.

c. Invoices shall be submitted to the County's authorized representative on a bi-weekly basis unless otherwise direct by the County. All invoices must be submitted with a hard copy of the invoice and an electronic copy (Microsoft Excel format) of the invoice detail. The invoice detail must consist of a tabular report listing all ticket information required by the County. Invoice detail submittals will be checked against County records. County records are the basis of all payment approvals. Only one hundred percent (100%) accurate and complete invoices shall be forwarded by the County authorized representative to the County for payment.

d. No separate payment will be made for mobilization and demobilization operations. These costs are included in the respective unit prices bid for debris removal and will not be adjusted based on the total amount of debris actually removed in the contract.

e. The Contractor is responsible for payment to all subcontractors utilized for the services rendered within this scope of work. The Contractor shall execute release waivers with all subcontractors to release the County from payment to subcontractors directly. The release waivers for all subcontractors shall be provided to the County prior to final retainage release.

f. Payment for disposal cost incurred by the Contractor at County approved Final Disposal Sites will be made at the cost incurred by the Contractor. The County will either coordinate payment of disposal costs directly with the Final Disposal Site or require the Contractor to pay the disposal fees and then invoice the County. The Contractor shall submit a copy of all invoice(s) received by the County approved Final Disposal Site, an electronic copy tabulating all scale or load tickets issued by the County approved Final Disposal Site, and proof of Contractor payment to the County approved Final Disposal Site. The County will not render payment for disposal costs until the Contractor submits applicable disposal site permits or site information for each authorized Final Disposal Site.

g. Contractor must submit a final invoice within 30 calendar days of completion of scope of work. Completion of scope of work will be acknowledged, in writing, by the County Debris

Manager. The final invoice must be marked "FINAL INVOICE" and no additional payments will be made after the Contractor's final invoice.

h. In the event any portion of this scope of work is to be funded by State or Federal funds, the Contractor will comply with all requirements of the state or federal government applicable to the use of the funds.

i. The Contractor will retain all records pertaining to the services and the contract for these services and make them available to the County for a period of 7 years following receipt of final payment for the services referenced herein. With regard to the Contractor, the following items shall be considered a default under this Contract:

(1) If the Contractor should be adjudged bankrupt, or if he, or it, should make a general assignment for the benefit of his, or its, creditors, or if a receiver should be appointed on account of his, or its, insolvency.

(2) If the Contractor should refuse or fail, except in cases for which an extension of time is provided, to supply enough properly skilled workmen or proper material to meet the project schedule or if the Contractor should fail to make prompt payment for materials, or labor or other services entering into the Work.

(3) If the Contractor disregards laws, ordinances, or the instructions of the Project Manager or otherwise be guilty of a substantial violation of the provisions of the Contract.

(4) Fails to perform any of the terms of this Contract or performs work which fails to conform to the requirements of this Contract.

In the event of termination, the County may take possession of the premises and all materials, tools, and appliances, thereon and finish the Work by whatever method it may deem expedient. In such cases, the Contractor shall only be entitled to receive payment for Work satisfactorily completed prior to the termination date, subject to any setoffs due the County in completing the Project and for reimbursement of damages incurred. The County may take possession of and use any materials, plant, tools, equipment, and property of any kind furnished by Contractor to complete the Work. If the expense incurred by the County to finish the Work exceeds the unpaid balance on this Contract, the Contractor shall pay the difference to the County. The expense incurred by the County as herein provided, and the damage incurred through the Contractor's default, shall be certified by the Project Manager. The Contractor shall be responsible for both liquidated damages attributable to delay and for excess completion costs. The liability of the Contractor and its surety or sureties for such damages and costs is joint and several. The obligations of the Contractor and his surety with respect to the warranty and maintenance shall remain in full force and effect for the portion of the Work completed by the Contractor and shall not expire until the expiration of the prescribed time period measured from the final acceptance of the project in its entirety. These clauses shall survive the termination of this Contract. If the County makes a determination pursuant to this Contract to hold the Contractor in default and terminate the Contract for cause and it is subsequently determined that any such determination was improper, unwarranted, or wrongful, then any such termination shall be deemed for all purposes as a termination without cause as described below. The Contractor agrees that it shall be entitled to no damages, allowances or expenses of any kind other than as provided in this Agreement in connection with such termination, and does expressly waive, in the event of termination, any and all claims for consequential damages, loss of bonding capacity, destruction of business, unabsorbed home office overhead, lost profit and the like.

B. TERMINATION FOR CONVENIENCE

Either party may terminate the Contract without cause at any time upon thirty (30) calendar days prior written notice to the other party. In the event of termination, the County shall compensate the Contractor for all authorized work satisfactorily and responsibly completed through the termination date. Upon such termination, the Contractor waives any claims for damages from the termination without cause, including without limitation, any and all consequential claims as set forth above, and as the sole right and remedy of the Contractor, the County shall compensate the Contractor for all authorized Work satisfactorily and responsibly completed through the termination date.

This Contract may be terminated, in whole or in part, without cause, in accordance with the terms specified herein; or, if none specified, the County may terminate this Contract in whole or in part, for any reason, with ten days' written notice to Contractor. In the event termination is exercised under this provision, Contractor will be compensated for work performed and accepted and goods accepted by the County as of the termination date. Contractor will also be compensated for any work performed by subcontractors and goods or supplies ordered which Contractor could not reasonably terminate. In no event shall Contractor be entitled to any other compensation on a termination without cause, including any lost profits or loss of opportunity.

C. SCRUTINIZED COMPANIES TERMINATION

The County may immediately terminate the Contract without cause at any time upon ascertaining that pursuant to § 287.135, Florida Statutes, a company is ineligible to, and may not, bid on, submit a

proposal for, or enter into or renew a contract with an agency or local government entity for goods or services if at the time of bidding or submitting a proposal for a new contract or renewal of an existing contract, or at any time thereafter, the company: (1) is on the Scrutinized Companies that Boycott Israel List, created pursuant to § 215.4725, Florida Statutes, or is engaged in a boycott of Israel; (2) is on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to § 215.473, Florida Statutes; or (3) is engaged in business operations in Cuba or Syria. Furthermore, the County may immediately terminate the Contract if it is determined that the company submitted a false certification stating that it was not (1) on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel; (2) was not on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List; (3) or was not engaged in business operations in Cuba or Syria when in fact the company was engaged in such activities at the time of the bid or proposal, or at the time of entering into or renewing the Contract.

20. **NON DISCRIMINATION**

Contractor covenants and agrees that Contractor shall not discriminate against any employee or applicant for employment to be employed in the performance of the Contract with respect to hiring, tenure, terms, conditions or privileges of employment, or any matter directly or indirectly related to employment because of age, sex or physical handicaps (except where based on a bonafide occupational qualification); or because of marital status, race, color, religion, national origin or ancestry.

21. **E-VERIFY/ VERIFICATION OF EMPLOYMENT STATUS**

Effective as of January 1, 2021, as required by Section 448.095(2)(a), the Contractor and subcontractor shall register with and use the E-Verify System to verify the work authorization status of all newly hired employees. The County, Contractor, or subcontractor may not enter into a Contract unless each party to the Contract registers with and uses the E-Verify System. The Contractor shall provide documentation of their compliance of this requirement to the County upon request.

If the Contractor enters into a contract with a subcontractor, the subcontractor must provide the Contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien. The Contractor shall maintain a copy of such affidavit for the duration of this Contract.

The County will not intentionally award contracts to any contractor who knowingly employs unauthorized alien workers, constituting a violation of the employment provisions of the Immigration and Nationality Act ("INA"). The County shall consider the employment by the Contractor of unauthorized aliens a violation of 8 U.S.C. Section 1324a(e) [Section 274A(e) of the INA]. The Contractor agrees that such violation by the Contractor shall be grounds for the unilateral cancellation of this Contract by the County.

22. **PRODUCTS OR MATERIALS WITH RECYCLED CONTENT**

Contractor is required to procure products or materials with recycled content with respect to Work performed or products supplied under the contract when those products or materials are available at reasonable prices. A decision to not procure such items must be based on a determination that such procurement:

a) Is not available within a reasonable period of time; or

b) Fails to meet the performance standards set forth in the applicable specifications or fails to meet the reasonable performance standards of the agency.

Contractor shall provide the County with a written statement indicating what recycled products were used or supplied. If a decision was made not to use recycled products, Contractor shall provide County with a written statement indicating the basis for the decision using the above criteria.

23. **FLORIDA PRODUCED LUMBER**

Where applicable Contractor agrees to comply with the provisions of Section 255.20, Florida Statutes, as may be amended from time to time.

24. **ASBESTOS-FREE MATERIALS**

25. **ASSIGNMENT**

The County reserves the right to freely assign this Contract. The Contractor, however, shall not assign this Contract to any other persons or firm without first obtaining County's written approval. In addition, the Contractor shall not have the right to assign any or all of its rights and interests under this agreement to any subsidiary or parent company, or any successor to its business through merger, consolidation, voluntary sale, or transfer of substantially all of its assets without the express written consent of the County. For purposes of this paragraph, a transfer of substantially all of its assets shall be deemed to occur when the owner(s) of more than 50% of the proprietary interest in the business entity transfer, other than between themselves, their immediate families or their heirs, such proprietary interest to another person, firm, partnership, corporation or business entity. Any attempt to effect an assignment without County's prior written consent shall be deemed a default subject to the remedies provided herein.

26. **NOTICES**

27. **NON-WAIVER**

The rights of the parties under this Contract shall be cumulative and the failure of either party to exercise properly any rights given hereunder shall not operate to forfeit any of the said rights.

28. **CONFLICT OF INTEREST**

The Contractor represents that it presently has no interest and shall acquire no interest, either direct or indirect, which would conflict in any manner with the performance of services required hereunder, as provided for in Section 112.311, Florida Statutes and as may be amended from time to time. The Contractor further represents that no person having any interest shall be employed for said performance.

The Contractor shall promptly notify the County in writing by certified mail of all potential conflicts of interest prohibited by existing state law for any prospective business association, interest or other circumstance which may influence or appear to influence the Contractor's judgment or quality of services being provided hereunder. Such written notification shall identify the prospective business association, interest or circumstance, the nature of Work that the Contractor may undertake and request an opinion of the County as to whether the association, interest or circumstance would, in the opinion of the County, constitute a conflict of interest if entered into by the Contractor. The County agrees to notify the Contractor of its opinion by certified mail within thirty (30) days of receipt of notification by the Contractor. If, in the opinion of the County, the prospective business association, interest or circumstance would not constitute a conflict of interest by the Contractor, the County shall so state in the notification and the Contractor shall, at his/her option, enter into said association, interest or circumstance and it shall be deemed not in conflict of interest with respect to services provided to the County by the Contractor under the terms of this Contract.

29. **DISPUTE RESOLUTION**

Any disputes relating to interpretation of the terms of this Contact or a question of fact or arising under this Contract shall be resolved through good faith efforts upon the part of the Contractor and the County or its Project Manager. At all times, the Contractor shall carry on the work and maintain its progress schedule in accordance with the requirements of the Contract and the determination of the County or its representatives, pending a final resolution of the dispute, including, if necessary, any determination by a Court of competent jurisdiction. Any dispute which is not resolved by mutual

agreement shall be decided by the County Administrator who shall reduce the decision to writing. The decision of the County shall be final and conclusive unless determined by a court of competent jurisdiction to be fraudulent, capricious, arbitrary, so grossly erroneous as to necessarily imply bad faith, or not be supported by substantial evidence.

30. **MEDIATION**

Prior to initiating any litigation concerning this Contract, the parties agree to submit the disputed issue or issues to a mediator for non-binding mediation. The parties shall agree on a mediator chosen from a list of certified mediators available from the Clerk of Court for St. Lucie County. The fee of the mediator shall be shared equally by the parties. To the extent allowed by law, the mediation process shall be confidential and the results of the mediation or any testimony or argument introduced at the mediation shall not be admissible as evidence in any subsequent proceeding concerning the disputed issue.

31. **ANTITRUST ASSIGNMENT**

The Contractor and the County and the State of Florida recognize that in actual economic practice, overcharges resulting from antitrust violations are in fact usually borne by the State of Florida and local governments. Therefore, the Contractor assigns to the State of Florida and the County any and all claims for such overcharges as to goods, materials or services purchased in connection with the Contract.

32. **INTERPRETATION; VENUE**

This Contract constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior verbal or written agreements between the parties with respect thereto. This Contract may only be amended by written document, properly authorized, executed and delivered by both parties hereto. This Contract shall be interpreted as a whole unit and section headings are for convenience only. All interpretations shall be governed by the laws of the State of Florida. In the event it is necessary for either party to initiate legal action regarding this Contract, venue shall be exclusively in the Nineteenth Judicial Circuit for St. Lucie County, Florida, for claims under state law and the Southern District of Florida for any claims which are justiciable in federal court.

33. **CONTRACTING WITH SMALL AND MINORITY BUSINESSES, WOMEN'S BUSINESS ENTERPRISES, AND LABOR SURPLUS AREA FIRMS**

If the Contractor intends to subcontract any portion of the Services covered by this Agreement, the Contractor must take all necessary affirmative steps to assure that small and minority businesses, women's business enterprises and labor surplus area firms are solicited and used when possible. Affirmative steps must include:

(1) Placing qualified small and minority businesses and women's business enterprises on solicitation lists;

(2) Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;

(3) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;

(4) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and

(5) Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

34. **DAVIS-BACON ACT**

(1) Minimum wages.

(i) All laborers and mechanics employed or working upon the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 C.F.R. part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics. Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis–Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph (a)(1)(iv) of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in § 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under paragraph (a)(1)(ii) of this section) and the Davis–Bacon poster (WH–1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

(ii)(A) The contracting officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:

(1) The work to be performed by the classification requested is not performed by a classification in the wage determination; and

(2) The classification is utilized in the area by the construction industry; and
(3) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(B) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30–day period that additional time is necessary.

(C) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30–day period that additional time is necessary.

(D) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs (a)(1)(ii)(B) or (C) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

(iii) Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

(iv) If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, Provided, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis–Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

(2) Withholding. The shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from the contractor under this contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis–Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers

and mechanics, including apprentices, trainees, and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), all or part of the wages required by the contract, the (Agency) may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

(3) Payrolls and basic records.

(i) Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work (or under the United States Housing Act of 1937, or under the Housing Act of 1949, in the construction or development of the project). Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis–Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 C.F.R. 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis–Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

(ii)(A) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the federal awarding agency if the agency is a party to the contract, but if the agency is not such a party, the contractor will submit the payrolls to the applicant, sponsor, or owner, as the case may be, for transmission to the federal awarding agency. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 C.F.R. 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals. Instead the payrolls shall only need to include an individually identifying number for each employee (e.g., the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH–347 is available for this purpose from the Wage and Hour Division Web site at http://www.dol.gov/esa/whd/forms/wh347instr.htm or its successor site. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker, and shall provide them upon request to the federal awarding agency if the agency is a party to the contract, but if the agency is not such a party, the contractor will submit them to the applicant, sponsor, or owner, as the case may be, for transmission to the federal awarding agency, the contractor, or the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of this

section for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to the sponsoring government agency (or the applicant, sponsor, or owner).

(B) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

(1) That the payroll for the payroll period contains the information required to be provided under § 5.5 (a)(3)(ii) of Regulations, 29 C.F.R. part 5, the appropriate information is being maintained under § 5.5 (a)(3)(i) of Regulations, 29 C.F.R. part 5, and that such information is correct and complete;

(2) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 C.F.R. part 3;

(3) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

(C) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH–347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph (a)(3)(ii)(B) of this section.

(D) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of title 18 and section 231 of title 31 of the United States Code.

(iii) The contractor or subcontractor shall make the records required under paragraph (a)(3)(i) of this section available for inspection, copying, or transcription by authorized representatives of the federal awarding agency or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the Federal agency may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 C.F.R. 5.12.

(4) Apprentices and trainees—

(i) Apprentices. Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program,

who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(ii) Trainees. Except as provided in 29 C.F.R. 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration. The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration. Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(iii) Equal employment opportunity. The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 C.F.R. part 30.

(5) Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 C.F.R. part 3, which are incorporated by reference in this contract.

(6) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses contained in 29 C.F.R. 5.5(a)(1) through (10) and such other clauses as the federal awarding agency may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 C.F.R. 5.5.

(7) Contract termination: debarment. A breach of the contract clauses in 29 C.F.R. 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 C.F.R. 5.12.

(8) Compliance with Davis–Bacon and Related Act requirements. All rulings and interpretations of the Davis–Bacon and Related Acts contained in 29 C.F.R. parts 1, 3, and 5 are herein incorporated by reference in this contract.

(9) Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 C.F.R. parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

(10) Certification of eligibility.

(i) By entering into this contract, the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis–Bacon Act or 29 C.F.R. 5.12(a)(1).

(ii) No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis–Bacon Act or 29 C.F.R. 5.12(a)(1).

(iii) The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. 1001.

35. **COPELAND ANTI-KICKBACK ACT**

(i) Contractor. The contractor shall comply with 18 U.S.C. § 874,40 U.S.C. § 3145, and the requirements of 29 C.F.R. Part 3 as may be applicable, which are incorporated by reference into this contract.

(ii) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as the federal awarding agency may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

(iii) Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as contractor and subcontractor as provided in 29 C.F.R. § 5.12.

36. **EQUAL EMPLOYMENT OPPORTUNITY**

During the performance of this Contract, Contractor agrees as follows:

(i) Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:
Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(ii) Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(iii) Contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the Contractor's legal duty to furnish information.

(iv) Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(v) Contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(vi) Contractor will furnish all information and reports required by Executive Order 11246 of September

24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(vii) In the event of Contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and Contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(viii) Contractor will include the portion of the sentence immediately preceding paragraph (i) and the provisions of paragraphs (i) through (viii) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. Contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, Contractor may request the United States to enter into such litigation to protect the interests of the United States. The County further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work.

The County agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of Contractor and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The County further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with Contractors debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon Contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the County agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the County under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such State; and refer the case to the Department of Justice for appropriate legal proceedings.

37. **CONTRACTING WORK HOURS AND SAFETY STANDARDS ACT**

No Contractor or subcontractor contracting for any part of the Contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any work week in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(B) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (A) of this section the Contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. The County shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the Contractor or subcontractor under any such contract or any other Federal contract with the same prime Contractor or any other federally- assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime Contractor, such sums as may be determined to be necessary to satisfy any liabilities of such Contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (B) of this section.

D. Subcontracts. The Contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (A) through (D) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime Contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (A) through (D) of this section.

As such the Contractor is required to verify that none of the Contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

41. **BYRD ANTI-LOBBYING AMENDMENT**

By executing this Contract, Contractor makes the certification below, which is found at APPENDIX A, 44 C.F.R. PART 18. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certification(s) to the awarding agency.

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

(i) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(ii) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(iii) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

If any work performed by the Contractor fails to meet the requirements of the Contract, any other applicable standards, codes or laws, or otherwise breaches the Contract, the County may exercise any remedies provided in the original Contract to which this addendum is made a part; or, if none specified, the County may in its sole discretion:

(i) elect to have Contractor re-perform or cause to be re-performed at Contractor's sole expense, any of the work which failed to meet the requirements of the Contract;

(ii) hire another Contractor to perform the work and deduct any additional costs incurred by the County as a result of substituting Contractors from any amounts due to Contractor; or

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.

4. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.
