TREE PROTECTION DETAILS

1. All trees to be planted shall be protected by a tree protection zone (TPZ) established by a certified arborist. The TPZ shall be established based on the tree's diameter at breast height (DBH) and shall be clearly marked with orange survey flags and a physical barrier.

2. The TPZ shall be maintained throughout the construction process. No excavation, grading, or other construction activities shall be permitted within the TPZ.

3. All trees within the TPZ shall be watered and mulched regularly during the construction period. The contractor shall provide a watering schedule and record.

4. Any trees that are damaged or removed during construction shall be replaced with a tree of equal or greater size and species within a specified time frame.

LANDSCAPE SPECIFICATIONS

1. All plants shall be sourced from a reputable nursery and shall be of high quality and healthy. Plants shall be delivered to the site in a timely manner and shall be inspected upon arrival.

2. All plants shall be installed in accordance with the manufacturer's instructions and the applicable landscape specifications. Plants shall be watered and mulched immediately after installation.

3. All plants shall be maintained throughout the construction period. The contractor shall provide a watering schedule and record.

4. Any plants that are damaged or removed during construction shall be replaced with a plant of equal or greater size and species within a specified time frame.
