WWW.CHOOSFORTPIERCE.COM

Newly Improved Website

We are pleased to announce the launch of the newly revamped FPRA website, now live at www.choosefortpierce.com as of June 12. This significant update brings a modernized appearance, enhanced functionality, and a mobile-friendly interface designed to elevate user experience for our valued residents, businesses, and visitors alike.

Key features of the updated website include:

- **Modern Design:** A fresh and contemporary visual style that reflects Fort Pierce's vibrant community spirit.
- **Improved Functionality:** Streamlined navigation and optimized site structure for easier access to essential information and services.
- **Mobile-Friendly:** Responsive design ensuring seamless access and usability across all devices, from desktops to smartphones.

We invite everyone to explore the new ChooseFortPierce.com and experience firsthand the improvements made to better serve our community. Your feedback is valuable as we continue to refine and enhance our online presence.

WAYFINDING

Comprehensive Sign Program

The long-anticipated Wayfinding Comprehensive Sign Program is well underway, with the majority of signage now installed throughout the FPRA district. This transformative project includes **35 wayfinding signs, 13 district brand signs, and 10 parking signs**, all aimed at improving navigation, reinforcing district identity, and enhancing the overall visitor experience.

Since the start of installation in mid-May, FPRA staff have continued close coordination with contractor Don Bell, the City Engineer, and the Public Works Director to ensure the phased rollout runs smoothly.

At this time, most wayfinding and parking signs have been successfully installed. **Remaining signs include the Lincoln Park Wayfinding signs, district brand signs, and a few additional wayfinding signs along US Highway 1, which are expected to be completed by the end of the month.**

This initiative marks a major step forward in unifying the look and feel of the FPRA district while making it easier for residents and visitors to explore everything Fort Pierce has to offer.

Keep an eye out for the new signs as they go up!

PARKING INFRASTRUCTURE

JCPenney Parking Lot

As part of the ongoing improvements to the downtown Fort Pierce parking lot, key enhancements that began in June are progressing toward completion:

- **Dumpster Enclosure Installation:** While installation of the new dumpster enclosure was scheduled to begin the first week of June, the project encountered some unexpected sizing issues. Adjustments are currently underway, and the enclosure is now expected to be completed by the end of July. Once finished, it will provide a more organized and visually cohesive waste management solution for the area.
- **Sod Installation:** As planned, sod installation began the week of June 23 and is currently being laid out. This landscaping effort will significantly improve the aesthetic appeal of the parking lot and further support the broader revitalization of the downtown district.

These improvements represent continued progress in creating a cleaner, more welcoming, and better-organized public space in the heart of Fort Pierce.

87 parking spaces and 6 ADA spaces

Delaware Ave. and 33rd

Intersection Improvements

We are pleased to announce upcoming enhancements coming to the intersection of Delaware Avenue and 33rd Street. In response to community feedback and ongoing efforts to enhance traffic flow and safety, the improvements will provide a smoother, more efficient experience for both drivers and pedestrians.

Kimley-Horn, the engineering consultant, met with the City of Fort Pierce to discuss upgrades to the traffic signal cabinet. These upgrades are currently being integrated into the 60% engineering design plans, which are anticipated for review in July 2025.

PARKING INFRASTRUCTURE

1200 Avenue D & Means Ct.

Construction of the Avenue D parking lot is nearing completion. All permeable pavers have been installed, and landscaping is in place, including the addition of two live oak trees centrally located within the lot. The only remaining items are the installation of a customized bike rack and bench.

Once finalized, this new parking lot will serve as a valuable asset to the Lincoln Park area, enhancing accessibility and convenience for visitors. Its prime location, directly in front of the Police Substation and the Highwaymen Museum, makes it especially impactful, improving the overall experience for museum guests and the surrounding community.

MARINA SQUARE

One of the first major initiatives from the Downtown Master Plan is **the transformation of Marina Square**. The goal is to develop a well-designed public space that can accommodate a variety of uses, from concerts and farmers markets to family outings and community events. Marina Square will be adaptable, functional, and designed to serve the evolving needs of downtown Fort Pierce.

On **Tuesday, June 24**, Inspire Placemaking Collective presented preliminary downtown design concepts to City Department Heads, shaped by feedback gathered through community engagement and an online survey. The Department Heads provided input and suggested refinements to the concepts. A Marina Square brand logo was also selected with minor modifications. Additionally, it was decided to retain the name Marina Square, rather than changing it to Marina Park, to honor the space's existing identity.

DOWNTOWN FESTIVAL STREET

The Specific Authorization for the 2nd Street Festival Street Redevelopment Project was approved by both the FPRA Board and the City Commission at last month’s meetings. Staff is in the preliminary stages of scheduling a kick off meeting with the consultant.

As identified in the Downtown Master Plan, the redevelopment of 2nd Street is aimed at fostering community engagement, supporting local businesses, and enhancing the overall aesthetic appeal of the area. The proposed design will transform the space from a traditional roadway into a vibrant, flexible space. Key objectives of the project include:

- Designing a versatile space that supports both vehicle traffic and pedestrian-friendly events.
- Enhancing the visual appeal with landscaping, street furniture, and decorative lighting.
- Creating an inviting environment that encourages community interaction and attracts visitors.
- Ensuring accessibility and safety for all users, including pedestrians and vendors.

OLD ST. ANASTASIA

Master Plan

With approvals from both the FPRA Board and City Commission, a Specific Authorization has been executed with consultant Cotleur & Hearing to develop a comprehensive master plan for the historic building and surrounding parcels.

This next phase includes community engagement, a feasibility study, historic preservation planning, and conceptual development for three key parcels, marking a major milestone in this long-anticipated effort.

The project officially launched with a kick-off meeting on Tuesday, June 3, bringing together FPRA staff, City Department Heads, Cotleur & Hearing, and their subconsultants to align on goals and initiate the collaborative process.

As part of this work, REG Architects, a subconsultant on the team, will be conducting a detailed interior building scan of the Old St. Anastasia building over the course of two days to support historic preservation and future planning efforts.

We're thrilled to see this visionary plan take shape and move us closer to a vibrant and creative future for the Peacock Arts District!

LINCOLN PARK

Master Plan

The FPRA is currently working with the Treasure Coast Regional Planning Council (TCRPC) to establish an interlocal agreement for the development of the Lincoln Park Master Plan. The agreement is anticipated to go before the FPRA Board for consideration at its July 8 meeting.

The Lincoln Park Master Plan will be a community-driven initiative aimed at revitalizing and strengthening the Lincoln Park neighborhood. The study area is bounded by Orange Avenue to the south, 33rd Street to the west, Taylor Creek to the north, and U.S. Highway 1 to the east.

The plan will focus on neighborhood stabilization and strategic investment through infill housing, the redevelopment of vacant properties, and efforts to attract and retain local businesses. A major component of the plan will be the revitalization of Avenue D, Lincoln Park's historic business corridor, through targeted strategies to support its economic and cultural renewal.

Extensive community input will be central to the planning process, ensuring the perspectives and priorities of residents, business owners, and other stakeholders guide the plan's development.

The final master plan will include recommendations and best practices for encouraging sustainable investment that honors the neighborhood's rich history and cultural heritage. It will also build upon previous planning efforts, including the 2024 Lincoln Park Economic Analysis, the 2022 Downtown Master Plan, and the 2020 Fort Pierce Redevelopment Plan.

AVENUE O

Beautification Project

The Avenue O Beautification Project was initiated as part of the FY25 Project-Based Budget and aims to enhance the curb appeal and overall aesthetics of the Avenue O gateway into the Lincoln Park District. Recently, FPRA staff collaborated with a landscape professional to assess suitable planting areas and recommend plant species appropriate for the site conditions along the eastern end of Avenue O and US Highway 1. We are currently working with the Purchasing and Public Works departments to finalize the next steps and advance the project.

SUNRISE THEATRE MURAL

The FPRA is excited to share progress on the Call for Artists for a mural on the exterior back wall of the iconic Sunrise Theatre. Submissions were accepted through the CAFÉ (Call for Entry) platform, closing on Friday, May 16, 2025. The response was enthusiastic, with over **70 submissions** received. After reviewing all entries for eligibility, staff narrowed it down to 33 qualified artists. These submissions, including proposed designs and artist portfolios, were presented to the CRA Advisory Committee for review and evaluation.

Following their deliberation, the committee passed a motion recommending that the FPRA Board allow the community to select the final mural design through a public poll, choosing from the top three artist submissions. As part of the final design, staff requested that the selected artists modify their original concepts to incorporate the entire exterior of the back of the building, ensuring the final mural fully embraces the scale and visibility of the space.

This recommendation will be presented to the FPRA Board for consideration at the **July 8** meeting. If approved, the next phase will engage the community in selecting a design that reflects local identity and enhances the cultural presence of the Sunrise Theatre.

FPRA MURAL PROGRAM

Following the CRA Advisory Committee’s selection of the properties at 601 Atlantic Avenue and 130 N. 2nd Street for the FPRA Mural Program, a Call for Artists was issued through the CAFE platform. The response was outstanding, with over 100 submissions received across both locations.

On June 25, the CRA Advisory Committee met to review and evaluate the proposals. After careful consideration, the committee selected Jesse Jentzen for the mural at 130 N. 2nd Street (Sailfish) and Hannah Lorra for 601 Atlantic Avenue (Project Lift).

The next step is to present the CRA’s recommendation of property location and artist design to the FPRA Board for approval at the July 8 meeting, to be able to move forward with agreements. paving the way for these vibrant works of art to begin taking shape.

Both mural locations are expected to bring significant value, energy, and visual appeal to their surroundings enhancing the identity, creativity, and spirit of the community. Stay tuned for updates as the murals come to life!

Stay tuned for updates as the murals come to life!

STREETLIGHT POLE BANNER PROGRAM

Youth Banner Art Showcase

The **Youth Banner Art Showcase, opened on May 5, 2025.** This annual program invites K-12 students who reside in the City of Fort Pierce or are currently enrolled in Fort Pierce schools to participate in a community art initiative designed to celebrate creativity and local pride.

Students are encouraged to submit original banner designs inspired by one of the following themes:

- Fort Pierce Landmarks
- Arts & Culture
- Nature/Scenic Beauty

Each student may submit one entry, and selected designs will be professionally produced and installed as streetlight pole banners throughout the Fort Pierce redevelopment area. These banners will not only highlight the artistic talents of Fort Pierce's youth but will also add vibrancy and character to public spaces.

The program is fully funded by the FPRA, covering all production and installation costs. It offers young artists a meaningful opportunity to make a lasting visual impact on their community.

We look forward to celebrating the creativity of Fort Pierce's youth and enhancing the city's public spaces through their inspiring artwork.

Students and families are encouraged to scan the QR code to learn more and to apply.

DEADLINE EXTENDED:
MONDAY, JUNE 30

COMMERCIAL FACADE

Grant Program

The application deadline for the Commercial Facade Grant Program has been extended to August 1, 2025.

This program is a key initiative aimed at revitalizing commercial corridors within the FPRA District.

This program supports exterior improvements that reduce blight, enhance curb appeal, and align properties with current design standards. By investing in the appearance of buildings, the program fosters increased property values, improved tenant occupancy rates, and strengthened economic development across the district.

Eligible business and property owners may receive a reimbursable matching grant covering 50% of project costs, up to \$25,000. Qualifying improvements include façade restoration, awnings, ADA accessibility upgrades, and other highly visible enhancements.

With applications now open, property owners are encouraged to take advantage of this opportunity to transform their buildings and contribute to the continued growth and vibrancy of Fort Pierce.

Eligible applicants must be businesses located within the FPRA District.

COMMERCIAL SIGN Grant Program

The FPRA is continuing to accept applications for the Commercial Façade Sign Program!

This program provides reimbursable grants of up to \$5,000 per property to help existing businesses upgrade outdated signage with modern, visually appealing designs. These improvements not only beautify the community but also increase business visibility, helping to attract new customers and strengthen brand identity. Eligible applicants must be businesses located within the FPRA District.

The program is currently open and actively accepting applications, reflecting strong interest and engagement from local property owners. To date, seventeen (17) applications have been approved, resulting in \$69,944.30 in financial assistance awarded for signage upgrades and replacements.

Eligible applicants must be businesses located within the FPRA District.

PAINT PROGRAM

Residential & Commercial Properties

The FPRA Paint Program was created to inspire both commercial and residential property owners to enhance the exteriors of their buildings. This initiative aims to brighten and revitalize properties within the FPRA District, contributing to a more vibrant and inviting community.

Through the program, property owners have been able to transform their spaces, fostering a sense of renewal across the district. By encouraging revitalization, the program helps create more appealing neighborhoods that attract visitors, residents, and potential homebuyers.

To date, the FPRA Paint Program has approved reimbursements for 49 properties, distributing a total of \$39,228.05. With \$10,771.95 still available in the program's budget, there's plenty of opportunity for property owners to enhance their exteriors and contribute to the district's transformation.

Of the approved properties, 22 are commercial establishments, showcasing the program's role in boosting the appeal of local businesses. Meanwhile, 27 residential properties have benefited, highlighting their success in encouraging homeowner pride and investment.

FREEBEE

Freebee's Two-Year Impact in Fort Pierce

Since launching in Fort Pierce two years ago, Freebee has quickly become a valued asset to the community, offering free, convenient, and eco-friendly transportation within the FPRA district. This on-demand electric ride service has made it easier than ever for residents, workers, and visitors to move around downtown Fort Pierce. Connecting people to shops, restaurants, community resources, events, and more.

Freebee has helped bridge transportation gaps, especially for individuals without access to a personal vehicle, enhancing mobility for seniors, families, and low-income residents. It also supports local businesses by increasing foot traffic and making it easier for customers to explore different parts of the city without worrying about parking.

Most recently, the addition of a fifth Tesla vehicle has expanded Freebee's capacity and reduced wait times for riders. Freebee will present an interim 6-month update on this new vehicle's performance and impact at the upcoming FPRA Board Meeting on July 8.

FREEBEE

Your Free Ride Around Town

Freebee has been proudly serving Fort Pierce for 2 years, offering free, on-demand rides to residents and visitors. Whether you're heading to the beach, downtown, or your favorite local restaurant, Freebee makes it easy to explore some of the best spots in town—without the hassle of parking.

SERVICE INFORMATION:

Coverage Areas: Inner Zone encompasses the commercial zone where Freebee rides can either start and/or end. Outer Zone refers to the area surrounding the inner zone where Freebee rides can travel through, rides must start or finish within the inner zone.

Accessibility Features: Freebee accommodates individuals with disabilities, ensuring comfortable and safe transportation. To request the ADA vehicle, call 855-918-3733 or request via the Freebee app.

Age Restriction: Freebee's services are exclusively available to individuals ages 18 and older.

SERVICE HOURS

Mon-Wed: 8am-6pm
Thursday: 8am-8pm
Friday: 8am-10pm
Saturday: 10am-10pm
Sunday: 10am-8pm

Freebee App Update: 211 Resource Link Added

Following a recommendation from Board Member Johnson at the May FPRA meeting, a valuable new feature has been added to the Freebee app.

As of May 20, the app now includes a direct link to 211, a vital resource that connects individuals with a wide range of community services, including housing assistance, mental health support, food programs, and more.

This addition enhances the app's utility by providing quick and easy access to essential services for those in need. Since including the 211 resource link, it has already received 418 clicks, reflecting strong community interest and engagement.

PASSENGERS & RIDES EACH MONTH

FREEBEE RIDERSHIP

PASSENGER AGE RANGE

RIDES

FREEBEE

Your Free Ride Around Town

As the Freebee service continues to grow in popularity, we want to provide an update on how vehicle scheduling works and share some recent ridership data that reflects the program's success.

Service Hours & Vehicle Rotation

Freebee operates under a contract that provides 70 hours of service per week, per vehicle, within a total service window of 78 hours. To make the most of these hours and ensure coverage during the busiest times of day, vehicles are scheduled in staggered shifts rather than all running simultaneously.

This scheduling model allows Freebee to:

- Maximize coverage during peak usage
- Maintain a consistent presence throughout the service day
- Stay within the contracted service hours while meeting demand

Service Schedule by Day

- Monday to Wednesday: 8 AM – 6 PM (10-hour shifts)
- Friday: 8 AM – 10 PM (14-hour shifts)

Drivers complete any final ride requests before ending their shifts.

Ridership Growth

Since launching the fifth vehicle in mid-December, the impact on ridership has been substantial. The additional vehicle has allowed Freebee to expand service availability and better meet community demand. Ridership continues to increase and increasingly valuable transportation option for Fort Pierce residents and visitors.

HIGHWAYMEN MUSEUM

A Celebration of Art and Legacy

The final four change orders for the Highwaymen Museum—which include redesigning the parking lot to ensure correct elevation and prevent water intrusion into the building, constructing a dumpster enclosure, potentially upgrading the hurricane-resistant windows, and leveling the entire second floor to eliminate trip hazards and enhance accessibility—have been added to the agenda for the July meetings of both the City Commission and the Fort Pierce Redevelopment Agency for review and consideration.

If all change orders are approved, project completion is expected by the first week of September 2025. Once exterior work is finished, mural artists will begin their installations—a process anticipated to take approximately two months. Meanwhile, the artist commissioned to create four mosaic benches for the paver garden has already begun work and expects to complete the project by July 31, 2025.

SUNRISE THEATRE

Request For Proposals

The City of Fort Pierce issued a Request for Proposals (RFP) on Tuesday, January 28, 2025, to identify and establish a partnership with a qualified concessionaire to staff, operate, and program the historic Sunrise Theatre. The deadline for submission of Request for Proposals was March 27, 2025.

More details and the RFP are available on the City's website at <https://cityoffortpierce.com/Bids.aspx?CatID=17>

This initiative reflects the City's dedication to enhancing the operations and offerings of the Sunrise Theatre while ensuring its long-term financial sustainability. By exploring the option of contracting with an external management entity, the City seeks to bring in fresh ideas, innovative programming, and expanded resources that will elevate the theatre's profile as a vibrant cultural hub.

The City envisions this collaboration introducing dynamic and diverse programming, improving the experience for patrons, and fostering stronger community engagement. The selected partner will align with the values and vision of the Sunrise Theatre, preserving its historical significance while advancing its role as a cornerstone of arts and culture in Fort Pierce.

The Evaluation Committee is currently reviewing the RFPs and conducting due diligence before moving forward with the next steps.

COMMUNITY POLICING

NORTH 25th STREET

During the month of May 2025, there were a total of 17 FPRA details worked for the North 25th area from Avenue O to Avenue M. There were 68 calls for service during the detail times. Disturbances were the top reasons for the calls.

During this time, 1 case report was completed.

SCHOOL RESOURCE OFFICERS

SRO Jorge Goz C.A. Moore

SRO Jorge Goz continues to work alongside C.A Moore K-6 Administration as he attended a meeting with school district security for improvements where he provided recommendation for campus safety. SRO Goz keeps supporting C.A Moore as they will be adding a new grade for the 2025-2026 school year as he participated and provided recommendation for next year school grade class room layouts, so all students are maintained in the main building instead of using portables allowing for a safer campus at C.A Moore K-7. SRO Goz conducted his last year meeting with C.A Moore Safety Patrol. SRO assisted and participated in the kindergarten and 5th grade moving up ceremonies. SRO Goz can not wait to return for the 2025-2026 school year in August to continue building relationships with students, staff and parents.

SRO Markeis Washington Dan McCarty Middle School

SRO Markeis Washington conducted a lock down drill at Dan McCarty for the month of May. In addition, SRO Washington had no school threat investigation for this month. May was the last month for school year 2024-2025 SRO Washington participated in the eighth grades moving up ceremony and their good-bye dance themed sneaker ball. SRO Washington took the opportunity to continue to build relationship with the students by joining them during the dance and by also taking time to speak to students in the eighth grade regarding there future. SRO Washington expressed joy for the conclusion of this school year as it was her first year as an SRO and she made a difference in our youths lives.

Both School Resource Officers (SROs) continue to strengthen the relationship between the Police Department and students—the future leaders of Fort Pierce. They also take pride in maintaining safe school campuses through a strong partnership with school staff and administration.
