COMMERCIAL FAÇADE GRANT PROGRAM

1. OVERVIEW

The intent of the Commercial Façade Grant Program is to support the revitalization of the commercial corridors in the Fort Pierce Redevelopment Agency (FPRA) District by stimulating private investment in improvements that enhance the appearance of buildings and properties and eliminate blight and non-conforming design standards. This program is designed to encourage redevelopment of the FPRA District by enhancing its visual aesthetics which will lead to increased property values, tenant occupancy, economic development, and job creation. This program will complement other revitalization efforts to ensure the maximum leverage of resources and support local businesses.

It is the intent of this program to encourage improvements to private properties that go well beyond what is required under the City of Fort Pierce Land Development Code to enhance the form, function, and design quality of this redevelopment district.

The FPRA reserves the right to approve or deny any Commercial Façade Grant Program application and to deny payment at any time if, in its sole and absolute discretion, it determines that the business will not advance the goals and objectives established for redevelopment of the FPRA District.

2. FUNDING

The Commercial Façade Grant Program offers financial assistance in the form of a reimbursable, matching fifty percent (50%) grant up to \$25,000 to the property or business owner for eligible expenses associated with improving the external appearance of their business and to encourage businesses to invest in their operations. Grants cannot be awarded retroactively for work that has already been completed.
