Affordability Statement

Property Address: 1118 North 16th Court, Fort Pierce, FL 34950

Affordable housing is defined as monthly rents or monthly mortgage payments including taxes, insurance, and utilities that do not exceed 30 percent of that amount which represents the percentage of the median adjusted gross annual income for the households.

According to the source:

<https://censusreporter.org/profiles/04000US12-florida/>

A median household income of \$73,888.00 in 2023 when adjusted for inflation today would equal a median household income of \$79,392.66 without accounting for any growth in the underlying median income. This equates to a monthly affordable housing budget of \$2,381.79.

With an estimated utility cost of \$275 per month, 100% of the units will be for affordable housing as both rentals at \$2,106.79 max per month, and mortgaged fee simple homes at a maximum home value of \$412,840.74 (which also makes each unit FHA 503(b) eligible). These affordable housing price ceilings are well above the current market rate for this type of housing for this neighborhood.

A detailed Affordability Analysis for the figures used above is provided separately as part of this application.

Sincerely,

Franco Prado
