EXPIRATION DATE AND EXTENSION. This Contract expires December 28, 2027, unless it is cancelled sooner pursuant to Article 22. This Contract allows up to three additional one-year extensions upon the request of Sourcewell and written agreement by Supplier. Sourcewell retains the right to consider additional extensions beyond seven years as required under exceptional circumstances.

B. **SURVIVAL OF TERMS.** Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. WARRANTY. Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

C. **HOT LIST PRICING.** At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

Typically, a Participating Entity will issue an order directly to Supplier or its authorized

subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted

price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcwell Price and Product Change Request Form.

Line Item	Question	Response *
28	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcwell discounted price) on all of the items that you want Sourcwell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Labrie's pricing model will include line item pricing that includes the Sourcwell member specific discount. Labrie will be providing United States and Canadian Price List to cover its vast Sourcwell members. Both price lists will be uploaded in the documents section in the Sourcwell Portal.

31	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Labrie will continue to work with our distributor network and utilize our vast industry relationships to provide the Sourcwell member competitively priced open market options. Examples of these items may include auxiliary axle installations, driveline retarders, member specific nonstandard options.
32	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Depending on the Sourcwell members need and familiarity with Labrie products some elements not included in to total acquisition cost include operator and service training, pre-delivery inspections, and local freight charges. Depending on the Sourcwell members need and locations these charges would range from \$2,000 - \$4,000.

Line Item	Question	Response *
40	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	We produce all Sourcewell quotes at the factory so proper pricing is ensured. This process is managed by the Sourcewell contract administrator and also Labrie's Corporate Controller. We feel this process has gone very smoothly over the last eight years we have had the contract.
41	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Labrie internally will continue to track Sourcewell contract success in a monthly and quarterly sales review meeting based on previous years contract results. Labrie will also continue to hold quarterly meetings with Sourcewell Account Managers to ensure success of contract.
42	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Labrie is proposing a 1.5% administrative fee exclusive of freight, local delivery service, and pre delivery inspection.

Table 11: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcewell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *
50	Sales force.	Labrie's factory sales force consists of 8 experienced Regional Sales Managers and a VP of Sales. The RSMs work remote to cover their geographic area and assist the distributors with all facets of their business with Labrie. Additionally, there are Product Specialists located in the Quebec and Georgia facilities to assist with application and quoting of product. See the uploaded location map.
51	Dealer network or other distribution methods.	Labrie's distribution network covers all 50 states and each of the Canadian Provinces, with the exception of Quebec which is covered factory direct. Each distributor has significant sales and service resources dedicated to Labrie. See uploaded map.
52	Service force.	Our distribution network invests heavily in parts inventory and in mechanics to service our equipment. Many offer mobile service or truck pick-up. Supporting that network is Labrie factory service team consisting of 6 field-based Field Service Representatives that each support a group of distributors. We also have a factory based tech service group to provide support over the phone. See uploaded map.
53	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	Quotes for Sourcewell customers are produced internally by Labrie customer service to ensure that the proper pricing and fees are applied. The finished quote is then delivered by the local Labrie Distributor to the Sourcewell customer. Order will then be placed with the local distributor, who will in turn submit it to Labrie customer service for processing. Then the distributor will be responsible for delivering the finished unit.
54	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	Labrie customer service has access to all of the details of the Sourcewell contract and what is required to process those quotes and orders. We will generally turn Sourcewell requests into a delivered quote within 48 hours. Delivered unit times vary with type of equipment but are typically 120 days form receipt of chassis. We also have a factory stocking program that can greatly reduce that time.
55	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	Labrie feels that Sourcewell is a very valued platform and partner for us to market our products. We think we have proven that over the last 8 years with multiple hundred successful unit deliveries to Sourcewell entities.
56	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	We are fully willing to work with the Sourcewell/ Canoe platform in Canada. We have created a Canoe specific Canadian price list and our team there is trained and ready. This will be uploaded in the pricing section.
57	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	Labrie will have full coverage in the US and Canada
58	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	We will fully service all Sourcewell entities. We have full geographic coverage and no restrictions.
59	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	We deliver units to Hawaii, Alaska and the Caribbean on a regular basis. There are no real restrictions other than added freight cost and logistical timing with ocean traffic. Our logistics group is very familiar with the requirements.

Table 12: Marketing Plan

Line Item	Question	Response *
60	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	We start with advertising Sourcewell on all 4 of our websites: labriegrup.com, labrietrucks.com, leachtrucks.com and wittketrucks.com. These feature a Sourcewell page with a link out to our page on the Sourcewell site. We display Sourcewell flags and banner at the regional and national shows we participate in annually. Our distributors also display the Sourcewell logo and in some cases our contract number on their literature, web sites and at their own local trade shows. Our Regional Sales Managers train our distributors to promote Sourcewell as they sell and to set up new Sourcewell members.
61	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	We use our sales enablement platform, Showpad, to drive more digital content to our distributors and their customers, including reference to our Sourcewell contract. We rely heavily on our distributors local marketing efforts to expand our reach to the market. They are all trained to promote Sourcewell as part of those efforts.
62	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	If our contract is renewed, it will be business as usual for the last eight years. We will continue to successfully promote and utilize the platform. We enjoy the support, training and insight provided by Sourcewell as we move through the process of selling.
63	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	We go to market exclusively through our distributor network and only offer electronic ordering to them.

Table 13: Value-Added Attributes

Line Item	Question	Response *
64	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Labrie offers service, operator and maintenance training to all Sourcewell members. Depending on the members exact training requirement this can be performed by our skilled Labrie training department or also the supplying distributor. If this was a Sourcewell customer that is new to the Labrie products this would be a standard training procedure. If the member is a returning customer and familiar with our product training would be optional based on members training needs. The standard training would be at no charge to the member. Optional training would be handled as a "non standard option" and charged accordingly to the members specific training requirements.
65	Explain key designs or processes your company takes to provide and promote safe operation of your equipment.	Service and operator safety has always been a focus at Labrie. On our Wittke Front Loader and Labrie Side Loader products we have designed our products with safety in mind. One example includes the arm and body valve section being located on the side of the body to ensure the service technician is on ground level and out of traffics way for any repairs. Many of our competitors have this valve section located between the body and chassis which is very dangerous for the service technician. From an operators standpoint our products are all ergonomically designed and well labeled for operator confidence.
66	Describe how the equipment you propose simplifies the operation for end-users.	Labrie products are turn key to the end user once they take delivery of our product. These products are immediately ready for route when delivered. All products are designed and manufactured with the operator in mind for safe and efficient operation. We offer the Sourcewell member a product that can be manufactured exactly to their needs on various chassis platforms that include electric, compressed natural gas, and also diesel.
67	Describe any safety innovations on your equipment that are either exclusive or that you have introduced into the marketplace.	Operator and mechanic safety continues to be a focus at Labrie when manufacturing our products. Our exclusive Envirolink Multiplex system allows communication of cameras and monitors, diagnostic tools, safety interlocks, alerts, gps tracking, for a smart collection package. This system provides the mechanic and operator all performance and troubleshooting data at the touch of a button and staying out of harms way. Proximity switches and warning decals continue to be a manufacturing standard as well.
68	Describe any technological advances that your proposed products or services offer.	Technological advances also tie back into our proprietary Envirolink Multiplex system. A few features this system provides is onboard scale system infrastructure, collision detection systems, and gps capabilities. These features all create a smarter and more efficient product in the field.
69	Describe any "green" initiatives or Environmental, Social, and Governance (ESG) that relate to your company or to your products or services, and include a list of the certifying agency for each.	All factories utilize waste, steel and cardboard recycling programs. Recent project transitioned all paint to the electrostatic paint process that has reduced the amount of paint used by 28%. This process has also reduced our VOC content by 12%
70	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	ISO 9001 Certified Factory
71	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	Labrie currently doesn't hold any WMBE, SBE, or veteran owned certifications.
72	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	Labrie is proud to work with the most expansive and knowledgeable distributor network in the United States and Canada. Along with Labrie these distributor networks create local support to the Sourcewell member for all things parts, service and warranty. Labrie continues to invest heavily internally. With three manufacturing facilities and world class engineering we continue to provide Sourcewell members solutions that exceed expectations and remain a top refuse manufacturer in the industry.
