Participation is open to eligible federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Firefighting Apparatus and Fire Service Vehicles from which Supplier was awarded a contract.

Supplier desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

A. **EFFECTIVE DATE.** This Contract is effective upon the date of the final signature below.

B. **EXPIRATION DATE AND EXTENSION.** This Contract expires February 10, 2026, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended one additional year upon the request of Sourcewell and written agreement by Supplier.

C. **SURVIVAL OF TERMS.** Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All other rights will cease upon expiration or termination of this Contract.

2. EQUIPMENT, PRODUCTS, OR SERVICES

A. **EQUIPMENT, PRODUCTS, OR SERVICES.** Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above.

Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new and the current model. Supplier may offer close-out, refurbished, or remounted Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. WARRANTY. Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. SHIPPING AND SHIPPING COSTS. All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily

apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. SALES TAX. Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;

- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcwell Price and Product Change Request Form will become an amendment to this Contract and will be incorporated by reference.

To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcwell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcwell

contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be negotiated directly between the Participating Entity and the Supplier. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased

by Participating Entities under this Contract during each calendar quarter. 21. PROVISIONS FOR NON-UNITED STATES FEDERAL ENTITY PROCUREMENTS UNDER UNITED STATES FEDERAL AWARDS OR OTHER AWARDS

Participating Entities that use United States federal grant or FEMA funds to purchase goods or services from this Contract may be subject to additional requirements including the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 C.F.R. § 200. Participating Entities may have additional requirements based on specific funding source terms or conditions. Within this Article, all references to "federal" should be interpreted to mean the United States federal government. The following list only applies when a Participating Entity accesses Supplier's Equipment, Products, or Services with United States federal funds.

A. EQUAL EMPLOYMENT OPPORTUNITY. Except as otherwise provided under 41 C.F.R. § 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. § 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. §60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 C.F.R. §, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 C.F.R. § 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor." The equal opportunity clause is incorporated herein by reference.

B. DAVIS-BACON ACT, AS AMENDED (40 U.S.C. § 3141-3148). When required by federal program legislation, all prime construction contracts in excess of \$2,000 awarded by non-federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. § 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 C.F.R. § 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-federal entity must report all suspected or reported violations to the federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations (29 C.F.R. § 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-federal entity must report all suspected or reported violations to the federal awarding agency. Supplier must be in compliance with all applicable Davis-Bacon Act provisions.

C. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT (40 U.S.C. § 3701-3708). Where applicable, all contracts awarded by the non-federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations (29 C.F.R. § 5). Under 40 U.S.C. § 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence. This provision is hereby incorporated by reference into this Contract. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

D. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

E. CLEAN AIR ACT (42 U.S.C. § 7401-7671Q.) AND THE FEDERAL WATER POLLUTION CONTROL ACT (33 U.S.C. § 1251-1387). Contracts and subgrants of amounts in excess of \$150,000 require the non-federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. § 7401- 7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. § 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA). Supplier certifies that during the term of this Contract will comply with applicable requirements as referenced above.

F. DEBARMENT AND SUSPENSION (EXECUTIVE ORDERS 12549 AND 12689). A contract award (see 2 C.F.R. § 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 C.F.R. §180 that Implement Executive Orders 12549 (3 C.F.R. § 1986 Comp., p. 189) and 12689 (3 C.F.R. § 1989 Comp., p. 235), “Debarment and Suspension.” SAM Exclusions contains the names

K. ACCESS TO RECORDS (2 C.F.R. § 200.336). Supplier agrees that duly authorized representatives of a federal agency must have access to any books, documents, papers and records of Supplier that are directly pertinent to Supplier's discharge of its obligations under this Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The right also includes timely and reasonable access to Supplier's personnel for the purpose of interview and discussion relating to such documents.

L. PROCUREMENT OF RECOVERED MATERIALS (2 C.F.R. § 200.322). A non-federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation

and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 C.F.R. § 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired during the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

Part 200). The Supplier must explain the actual or potential conflict in writing in sufficient detail so that the U.S. Office of General Services, Sourcewell, and Participating Entity are able to assess the actual or potential conflict; and provide any additional information as necessary or requested.

R. U.S. EXECUTIVE ORDER 13224. The Supplier, and its subcontractors, must comply with U.S. Executive Order 13224 and U.S. Laws that prohibit transactions with and provision of resources and support to individuals and organizations associated with terrorism.

S. PROHIBITION ON CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT. To the extent applicable, Supplier certifies that during the term of this Contract it will comply with applicable requirements of 2 C.F.R. § 200.216.

T. DOMESTIC PREFERENCES FOR PROCUREMENTS. To the extent applicable, Supplier certifies that during the term of this Contract will comply with applicable requirements of 2 C.F.R. § 200.322.

(NYSE: REVG), a manufacturer of industry-leading specialty vehicles, today reported results for the three months ended July 31, 2021 ("third quarter 2021"). Consolidated net sales in the third quarter 2021 were \$593.3 million, representing an increase of 1.9% compared to \$582.2 million for the three months ended July 31, 2020 ("third quarter 2020"). The increase in consolidated net sales was primarily due to an increase in net sales in the Recreation and Commercial segments partially offset by a decrease in net sales in the Fire and Emergency ("F&E") segment.</p> <p>The company's third quarter 2021 net income was \$23.7 million, or \$0.36 per diluted share. Adjusted Net Income for the third quarter 2021 was \$24.5 million, or \$0.37 per diluted share, compared to Adjusted Net Income of \$6.3 million, or \$0.10 per diluted share, in the third quarter 2020. Adjusted EBITDA in the third quarter 2021 was \$41.6 million, compared to \$21.4 million in the third quarter 2020. The increase in Adjusted EBITDA during the quarter was driven by increased contribution from the F&E and Recreation segments partially offset by a decrease in the Commercial segment.</p> <p>Fire & Emergency Segment</p> <p>F&E segment net sales were \$269.5 million in the third quarter 2021, a decrease of \$37.2 million, or 12.1%, from \$306.7 million in the third quarter 2020. The decrease in net sales compared to the prior year quarter was primarily due to decreased shipments of fire apparatus and ambulances units compared to the prior year quarter related to supply chain disruption and labor constraints. F&E segment backlog at the end of the third quarter 2021 was \$1,229.5 million, an increase of \$189.8 million compared to \$1,039.7 million at the end of the third quarter 2020. The increase was primarily the result of continued strong demand and order intake for fire apparatus and ambulance units.</p> <p>F&E segment Adjusted EBITDA was \$15.8 million in the third quarter 2021, an increase of \$2.8 million, or 22.6%, from \$12.9 million in the third quarter 2020. Profitability within the segment benefited primarily from cost and efficiency improvements and lower selling, general and administrative ("SG&A") costs, partially offset by lower sales volume and inefficiencies resulting from supply chain disruptions and labor constraints.</p> <p>Working Capital, Liquidity, and Capital Allocation</p> <p>Cash and cash equivalents totaled \$9.2 million as of July 31, 2021. Net debt² was \$240.8 million, and the company had \$276.8 million available under its ABL revolving credit facility as of July 31, 2021, an increase of \$53.1 million as compared to the April 30, 2021 availability of \$223.1 million. Trade working capital³ for the company as of July 31, 2021 was \$405.5 million, compared to \$449.9 million as of July 31, 2020. The decrease was primarily due to decreased accounts receivable and decreased inventory partially offset by decreased payables. Capital expenditures in the third quarter 2021 were \$5.3 million compared to \$2.0 million in the third quarter 2020.</p> <p>Share Repurchase Program</p> <p>On September 2, 2021, the company's board of directors approved the authorization of a new share repurchase program that allows the repurchase of up to \$150.0 million of the company's outstanding common stock, effective immediately. The share repurchase authorization expires in 24 months and gives management the flexibility to determine conditions under which shares may be purchased.</p> <p>Quarterly Dividend</p> <p>The company's board of directors declared a quarterly cash dividend in the amount of \$0.05 per share of common stock, which equates to a rate of \$0.20 per share of common stock on an annualized basis, payable on October 15, 2021, to shareholders of record on September 30, 2021.</p>
<p>12</p>	<p>What is your US market share for the solutions that you are proposing?</p>	<p>REV Fire Group = 25.86% U.S, 25.39% North America</p>
<p>13</p>	<p>What is your Canadian market share for the solutions that you are proposing?</p>	<p>REV Fire Group = 20.00% Canada</p>

14	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	NO.
15	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	We are best described as a manufacturer and service provider. In most cases dealers are contracted to represent our brands in designated/agreed territories (U.S., Canada, and International locations). These territories differ in size based on each dealership's capability. Dealers then provide sales, service, and parts support. Dealers issue purchase orders for requested products/services and resell these to the end user/member. Each dealer is an independent business and each have their own employees/facilities. Where dealers are under contract to represent our brands it is our expectation the Sourcewell member will issue purchase orders directly to our authorized dealer. These dealers are listed on the dealer list for each respective brand. There are two additional scenarios: 1. In cases where there is no dealer coverage each brand provides a direct company employee to manage the sales and service of customers/members in these areas. In these cases the contract will be thru the respective brand and the Sourcewell member would issue the purchase order directly to the brand. 2. In cases where the REV Group has local facilities, these employees are company employees who provide sales, service, and parts to customers/members within their area of responsibility. The Sourcewell member would issue their purchase order to the REV RTC facility just as it were an approved dealer.
16	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	License requirements vary across North America. The REV Group and its dealer representatives are expected to adhere to all requirements be it a business license, insurance requirements, sales representative licensing, or service technician certification.
17	Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.	N/A

Table 3: Industry Recognition & Marketplace Success

Line Item	Question	Response
18	Describe any relevant industry awards or recognition that your company has received in the past five years	E-ONE currently holds a Notice of ULC and/or NFPA Audit Completion and Authorization to Apply VIP Sticker issued December 30, 2015 for both the Ocala and Hamburg facilities, is ANAB accredited for International Management Systems certificate number IMS-0020, is ISO 9001:2015 certified with a certificate valid thru July 30 2024, and holds a 2021 FAMA Certificate of Membership. Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcwell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response
25	Sales force.	The REV Fire Group have a confirmed 533 full time sales associates and another 223 part time sales associates. There were however several dealers who did not provide this additional information so the number would be higher. This accounts for all reported brands, dealers, service centers, and Spartan OEMs within the U.S. and Canada.
26	Dealer network or other distribution methods.	<p>The REV Fire Group has 36 dealers representing the E-ONE brand, 20 dealer representing the Ferrara Fire brand, 30 dealers representing the KME Fire brand, 28 dealers representing the Spartan Fire, LLC brand, and 37 OEMs representing the Spartan Chassis brand. Several dealers represent two or more brands but usually specialize in one brand over the other due to their past experience.</p> <p>The 37 OEMs will play a key part in adding Spartan chassis as a new product offering for the REV Group/REV Fire Group. Spartan chassis has never been offered on any other cooperative purchasing contract. These 37 OEMs will be able to work with members to provide chassis pricing for apparatus re-chassis, accident repairs, apparatus upgrades, or body remounts.</p> <p>See the attached dealer list/dealer survey results.</p>
27	Service force.	The REV Fire Group have a confirmed 519 Emergency Vehicle Technicians (EVTs) and another 665 non-EVT technicians. As stated above, not all dealers responded to our survey so the number is actually higher. This accounts for all reported brands, dealers, service centers, and Spartan OEMs within the U.S. and Canada.

28	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	The typical process is for the member to work with the local brand dealer/representative to configure the apparatus to meet their mission, their design requirements, and their budget. The configuration is normally sent for review by the engineering team for approval/changes. Once the member agrees on the configuration and the quoted amount they place the order with the brand dealer/representative. The order is accepted, the member works with the brand and dealer representative to set up a date for a pre-build conference. During the pre-build conference the member can voice concerns or needed changes. The configuration is tweaked to meet any required changes. The updated configuration/price/drawings are presented to the member for his approval. A purchase order is issued by the member to the brand dealer and the dealer submits the order to the brand manufacturer. If there is no dealer involved, then the transaction would be the same except directly with the brand manufacturer/sales representative. Terms are COD when the completed apparatus leaves the manufacturer to be delivered.
29	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	For service, parts, or customer service needs the member is always encouraged to first contact their local dealer representative. Most dealers and REV Group brands are open during normal daily business hours and respond quickly. Most offer after hour customer support should the member have an issue which needs to be addressed after normal business hours. Each brand and dealer have either toll free customer service numbers or an answer service able to get the correct person to respond.
30	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	The REV Group/REV Fire Group has a distribution channel eager to service Sourcewell members anywhere in North America. Our 151 dealers/OEMs are ready and willing to work with the members to meet apparatus and apparatus support needs. With our vast array of available products, we are sure we can match our offerings to the members' wants and needs.
31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	During our last contract with Sourcewell we have eagerly supported the Canadian market by attending Canadian conferences and meeting with procurement professionals at the Ontario/Sourcewell joint conference. We support the CANOE initiative to promote Sourcewell's U.S. contracts and to adopt them as theirs. Business wise, we will need to adjust our U.S. pricing to reflect differences in currency, provide the additional testing for Canadian compliance, and collect for recycle fees imposed on batteries and tires.
32	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	While some areas can be very remote, we have always entertained answering the call where there is a need.
33	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	There are no entity sectors we will not serve and we have nothing limiting our participation in the Sourcewell contract.
34	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	We currently serve both areas. One key difference would be delivery cost when shipment of an apparatus is needed. Our estimated driveway cost is to deliver the vehicle to the port. Cost to prepare and ship the vehicle over water or via airlines is at the members' expense in addition to our normal driveway expense.

Table 7: Marketing Plan

Line Item	Question	Response
35	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	<p>The REV Fire Group recently hired Natalie Childress as Senior Director of Marketing. She will partner with REV Fire Group's Vice President of Sales, Mike Vinnig, and divisional teams to evolve brand strategy and consumer experience for the group's fire truck brands. Childress has more than nine years of marketing and brand experience, including five years of marketing and business development leadership experience.</p> <p>She most recently served as the Business Strategy Manager for Mastercraft Boat Company, driving global brand building and strategy. Prior to, Childress held progressive roles with a focus on cross-functional branding, product marketing and owners' experience within Sea Ray, part of Brunswick Corporation. She was recognized as a 40 Under 40 Marine Industry Leader this year by Boating Industry.</p> <p>She will be instrumental in leading us during our transition from a single brand within the Sourcewell contract to a multi-brand contractor. It will be important Sourcewell members understand REV Fire Groups capabilities and how each brand has responded as part of the RFP. Our goal would be for each brand to be linked from the Sourcewell awarded contract so members can view each brands product and service offerings versus only seeing an overview of all the brands as one.</p>
36	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	Social media and digital advertising will be key to communicating to Sourcewell members our capabilities, our products, our services, and our brands.
37	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	It is important Sourcewell and the REV Fire Group brands work jointly to promote our partnership to serve the needs of the member base, and to recruit new members as we go forward. We currently promote Sourcewell and encourage our dealer partners to actively discuss all the opportunities for providing products and services to their organization under a single contract umbrella.
38	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	At this time only our parts procurement system provides e-procurement. The complexity of custom designing a fire apparatus is a programmers nightmare as the number of engineering rules has to change as each option is chosen. The programming must look for multiple options being selected for the same space, components hitting each other due to their movement, and another set of complicated rules to govern operation safety.

Table 8: Value-Added Attributes

Line Item	Question	Response
39	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	<p>As part the REV Group/REV Fire Group proposal, we are offering the following solutions in addition to our fire apparatus:</p> <p>Leasing - with REV Finance, other third party leasing companies within our industry, local banks or other third party financial institutions the member wishes to pursue.</p> <p>Parts contracts.</p> <p>Service contracts.</p> <p>Accident repairs.</p> <p>Apparatus refurb/upgrades.</p> <p>Vehicle trade-ins. This could be thru REV, the local dealer, or a third party vendor willing to purchase the vehicle.</p> <p>Maintenance contracts.</p> <p>Brand specific extended warranties.</p> <p>Vendor specific extended warranties.</p> <p>Training located at the brand's facilities or remotely offered at a location designated by the member. Training can be based on maintenance of the vehicle, operation of the vehicle, or as a refresher course where maintenance, safety, and operation are covered. Three days of training is standard and required to be performed by factory trainers on all aeriels, industrial pumers, and ARFF vehicles.</p>

<p>40</p>	<p>Describe any technological advances that your proposed products or services offer.</p>	<p>As part of the REV Group our other divisions are making great strides in electric vehicle (EV). The Smart Reach control console provides real-time data, and its electric and hydraulic aerial controls offer the ultimate in smooth operation. It also offers Advance Rung Lighting, a series of RGB LED light strips that can have customized patterns running the length of the ladder. 2. Smart Flo™: This integrated pressure governor system for fire apparatus allows control of both water flow and foam from one location. It features a one-button pump shift for ease of operation, automatic pump protection and a camera display of the officer's side, offering firefighters total control at any fire scene. 3. ECO IDLE-TEC™: This idle reduction system specifically designed for fire apparatus shuts off the main engine during EMS and rescue calls, eliminating loud diesel engine noise and exhaust while maintaining power for lighting, air conditioning and more. This reduces operating costs, protects the environment, and improves driver safety and comfort. 4. Active Air Purification System: Designed with advanced Photohydrolyzation® (PHI Cell) and UV technology, these units kill 99 percent of pathogens, including the virus which causes COVID-19, in the air and on surfaces delivering better air quality and a safer cab environment for your crew. <p>This technology has been recently expanded with the introduction of E-ONE's newest product, the industry's first all electric fire truck. <p>41</p>	<p>Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.</p>	<p>The REV Group is a leader in providing new products and technology which contribute to the green footprint needed to protect our environment. We promote recycling of all that is possible. REV recently released an occupant air purification and filtration systems to help reduce risk to toxins and viruses. This can be retrofitted to any vehicle manufactured. It removes 99% of impurities and treats the air for bacteria such as Covid 19.</p>
<p>42</p>	<p>Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.</p>	<p>We do not have any 3rd party issued eco-labels. We do not see much of this in our industry even though you may provide the latest in technology such as our all electric fire truck.</p>
<p>43</p>	<p>Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.</p>	<p>We do not track this. We do however look to do business with those companies which provide value for our customers. REV Group rewards women for doing a great job by promoting them as managers. REV Group honors our vets by having yearly luncheons and acknowledging their service to our country.</p>

44	What unique attributes does your company, your products, or your services offer to Sourcswell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcswell participating entities?	I think we have the best cradle to grave offering for your members. With the REV Group/REV Fire Group providing options from 7 fire apparatus brands, we are sure your members can find what they need. As custom builders we pride ourselves in exceeding the members expectations. Our total solutions include parts contracts, service contracts, training, accident repairs, apparatus refurb, upgrades, and remount. The addition of adding the Spartan chassis separately from a complete apparatus should provide your members one additional solution if they are looking to extend the life expectancy of their current vehicles.

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response
45	Do your warranties cover all products, parts, and labor?	Yes with limited time periods
46	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	Since warranty is a legal document with legal responsibilities, we do provide specifics related to lack of maintenance, abuse, neglect, misuse, and/or failure to notify. In some cases there may be certain inspections which must be performed to keep the warranty in force.
47	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Yes
48	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcswell participating entities in these regions be provided service for warranty repair?	Typically the selling dealer will service their sales territories. Each brand does support the distribution channel with factory based technicians. In cases where a problem is hard to remedy, both the dealer and the manufacture will team up to resolve the issue.
49	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	It depends on the severity and the approval extended by the supplier. We prefer to be a one stop shop for the member if he has a problem. In many cases the supplier requires the failure to be repaired by their technicians at their location.
50	What are your proposed exchange and return programs and policies?	Please see the attached document for this section.
51	Describe any service contract options for the items included in your proposal.	Service contract will normally be between the member and the selling dealer. In some cases service contracts can be thru the manufacturer. This scenario could be an option where there is a highly technical component of the apparatus the dealer may not have the expertise to correct. We offer extended warranties, drive train warranties, vendor component extended warranties, and third party extended warranties.

Table 10: Payment Terms and Financing Options

Line Item	Question	Response
52	Describe your payment terms and accepted payment methods.	Payment terms are COD at the time the apparatus leaves the plant for delivery to the customer. The selling dealer however may provide additional times based on the contract with the member. This could range from COD to 30+ days.
53	Describe any leasing or financing options available for use by educational or governmental entities.	The REV Group has our own internal finance company. We also use third part providers when asked to provide leasing quotes. We also recommend the member check with local lending institutions to make sure they are taking advantage of all resources to obtain the most competitive rates.
54	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	All brands would provide a quote to the member based on their custom configured apparatus. There would be contract between the selling dealer/manufacture and the member. Worksheets are typically used to calculate the agreed discount and the customer should receive a customer summary sheet if requested.
55	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcswell participating entities for using this process?	Most of our brands do accept P cards with no additional cost involved. We do however have some brands who do not.

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response
56	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Our pricing model discounts are based off MSRP minus a percentage or a flat discount on certain market specific products where discount are not normally offered. The pricing includes up to \$5,000 for driveway, PDI, and dealer delivery and training. Taxes, trips, pre-pay discounts, multiple quantity discounts, and trade-ins are not included in these prices but will change the price to the member if part of the order.
57	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Pricing discounts range from 3% to 20% depending on the brand and the product offered. In some cases a flat fee discount is offered which ranges from \$5,000 to \$15,000.
58	Describe any quantity or volume discounts or rebate programs that you offer.	Depending on the model of the apparatus and the overall deal, multiple unit discounts could be offered starting at around 1% more per unit. This would be affected by the mix and the quantity of the apparatus purchased.
59	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	If the sourced items are items supplied by the brand, these would be treated as a part of the apparatus and the same discount would apply based on the model of the apparatus. For items purchased as loose equipment or customer requested items, these would be provide at cost with a 30% or less markup.
60	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Driveway up to \$5,000 is included and will be adjusted up or down based on the actual cost plus a \$200 admin fee. For shipments where the apparatus has to be shipped or flown to it's destination, these additional cost over and above getting the vehicle to the port would be the responsibility of the member. Pre-build and inspection trips are not included. Taxes are not included. NFPA requires we provide 3 days of training on all aeriels, industrial pumpers, and ARFFs which is include in the quote. All other training is provided by the selling dealer.
61	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	As stated above, we have included up to \$5,000 allowance for delivery on each unit. If the actual price to deliver is less, the member will receive a credit. If the actual price is more, the member will be responsible for the added expense. This is also true for PDI and Dealer Delivery and training. We have included values within the quote for different models but the member could be billed more or provided a credit depending on the actual cost.
62	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	As stated above, our standard quote includes delivering the apparatus to the port. Cost associated with completing the delivery is on a case by case basis depending on the additional requirements set by the member. We would provide a quote for their approval.
63	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Nothing unique. We provide delivery of the vehicle as requested by the end user. If the apparatus is being shipped on a boat, the member might request the apparatus be wrapped and/or loaded in a container. The expense for these items would be based on a case by case basis and would differ based on the type vehicle, weight, size, and market price at the time of the shipment.

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is:	Comments
64	b. the same as the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	While we must be competitive on all cooperative procurement contracts, ultimately the market and the competition drive our pricing to your members. The key is which contract you use, its simplicity, and the support from the management team with the respective contract. Sourcewell is our go to contract.

Table 13: Audit and Administrative Fee

Line Item	Question	Response
65	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	We use a self audit spreadsheet which gives the selling dealer a go/no go visual indicator of their compliance to the contract. The goal of the spreadsheet was to communicate how the numbers were calculated and to show the customer we met or exceeded the contracted discounts within the RFP.
66	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	We track sales proposed as Sourcewell contracted business versus actual booked business. Currently this information can be sorted by quote number, truck number, customer, state/province, apparatus model, date sold, delivered/not delivered, and/or selling dealer.
67	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	.75% of the contracted amount with admin fee ceilings based on the following: All commercial chassis products (except aeriels) = \$1500.00 max All custom chassis products (except aeriels) = \$1750.00 max All aeriels = \$2000.00 max All apparatus accident repairs/re-chassis/body remount, apparatus upgrades, and Spartan chassis quotes = \$1750.00 max Combinations of multiple apparatus purchased via the same purchase order = \$2000.00 max. The above admin fees were chosen to compete with the many other cooperative contracts the member would have at their disposal. If you use a straight percentage of 1% the admin fee will be too high and the member will move to the more competitive contract. Thus, the purchase will not be booked thru Sourcewell. Parts and service programs/contracts as per the following:

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response
68	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	<p>As it relates to fire apparatus: The REV Group and its multiple fire apparatus brands (REV Fire Group) offer Sourcewell members a wide variety of models. These include brush trucks, urban interface units, crew haulers, air and light units, light rescues, medium rescues, heavy rescues, combo rescues, walk-in/walk around rescues, command vehicles, hazmat vehicles, pumpers, rescue pumpers, wet side tankers, dry side tankers, vacuum tankers, elliptical tankers, aerial booms, aerial ladders, aerial platforms, ARFF units, ARFF foam testing units, and Rhino turrets. In addition to apparatus, we offer service/maintenance, parts, training, refurbishment/upgrades, accident repair services, and any other new/product or service agreed upon by the member and fits within the scope of the RFP.</p> <p>As it relates to Spartan Chassis - these chassis' are offered by many fire apparatus manufacturers which are not part of the REV GROUP/REV Fire Group. In most cases they are competitors of the REV Fire Group. That said, within the scope of the RFP, we wanted to provide our dealer partners and Spartan Chassis' OEMs the option to offer chassis upgrades, re-chassis options, wreck repairs, and body remounts on a new Spartan chassis via the Sourcewell contract, thus eliminate the requirement of going out to bid.. The agreed discount and admin fee would only be based on the chassis quote. All other expenses, labor, parts, and loose equipment would be listed separately from the chassis line item quote, must be approved by the Sourcewell member, and fit within the scope of the RFP.</p>
69	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	<p>For fire apparatus - we offer leasing, trade-ins, pre-pay discounts, and multiple unit discounts. For leasing this would be handled thru REV Leasing, one of many third party leasing companies within the industry, or through local institutions agreed upon by the member and fits within the scope of the RFP.</p> <p>For service/parts purchases - these would brand specific new parts, vendor supplied parts, brand/dealer supplied parts/loose equipment, brand/dealer supplied PPE/fire fighting support equipment, services (other-TBD) where the need expressed by the member fits within the scope of the RFP, and any volume discounts which may apply.</p> <p>For Product Life Cycle Extension Services - these would include wreck repairs, apparatus upgrades, apparatus refurbes, dealer/third party annual aerial inspection/certification, dealer/third party annual pump testing, and dealer/third party contracted services (other-TBD) where the need expressed by the member fits within the scope of the RFP.</p> <p>For Extended Warranties - these would included warranties offered specifically by the brand (base warranty extensions and/or bumper to bumper warranties, third party drivetrain warranties, vendor supplied extended warranties, or additional warranties requested by the member and falls within the scope of the RFP.</p> <p>Contract Services - these would be brand provided service contracts, training offered by each brand, service contracts negotiated with our dealer partners, parts contracts negotiated with our dealer partners, training services negotiated with our dealer partners, or any added contract services agreed upon by the member and fits within the scope of the RFP.</p>

I. ABOUT SOURCEWELL

A. SOURCEWELL

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that facilitates a competitive public solicitation and contract award process for the benefit of its 50,000+ participating entities across the United States and Canada. Sourcewell's solicitation process complies with State of Minnesota law and policies, conforms to Canadian trade agreements, and results in cooperative purchasing solutions from which Sourcewell's Participating Entities procure equipment, products, and services.

Cooperative purchasing provides participating entities and suppliers increased administrative efficiencies and the power of combined purchasing volume that result in overall cost savings. At times, Sourcewell also partners with other purchasing cooperatives to combine the purchasing volume of their membership into a single solicitation and contract expanding the reach of contracted suppliers' potential pool of end users.

Sourcewell uses a website-based platform, the Sourcewell Procurement Portal, through which all proposals to this RFP must be submitted.

B. USE OF RESULTING CONTRACTS

In the United States, Sourcewell's contracts are available for use by:

- Federal and state government entities¹;
- Cities, towns, and counties/parishes;
- Education service cooperatives;

RMA Participants may include all not-for-profit agencies for Canadian provinces and territories.

For a listing of current United States and Canadian Participating Entities visit Sourcewell's website (note: there is a tab for each country): <https://www.sourcewell-mn.gov/sourcewell-for-vendors/agency-locator>.

Participating Entities typically access contracted equipment, products, or services through a purchase order issued directly to the contracted supplier. A Participating Entity may request additional terms or conditions related to a purchase. Use of Sourcewell contracts is voluntary and Participating Entities retain the right to obtain similar equipment, products, or services from other sources.

To meet Participating Entities' needs, Sourcewell broadly publishes public notice of all solicitation opportunities, including this RFP. In the United States each state-level procurement department receives notice for possible re-posting.

Proof of publication will be available at the conclusion of the solicitation process.

II. SOLICITATION DETAILS

A. SOLUTIONS-BASED SOLICITATION

This RFP and contract award process is a solutions-based solicitation; meaning that Sourcewell is seeking equipment, products, or services that meet the general requirements of the scope of this RFP and that are commonly desired or are required by law or industry standards.

B. REQUESTED EQUIPMENT, PRODUCTS, OR SERVICES

It is expected that proposers will offer a wide array of equipment, products, or services at lower prices and with better value than what they would ordinarily offer to a single government entity, a school district, or a regional cooperative.

1. Sourcewell is seeking proposals for Firefighting Apparatus and Fire Service Vehicles, including:

- a. New, remount, or refurbished:
 - i. Firefighting apparatus and service vehicles, of all types, such as: pumper/engine, initial attack, mobile water supply, aerial, quint, special service, mobile foam, command and communications, and purpose-built firefighting or rescue trailers;
 - ii. Wildland fire apparatus, of all types, such as: fire suppression equipment, mobile water supply, and crew carriers; and,
 - iii. Aircraft rescue and firefighting vehicles.
- b. Purpose-built chassis and vehicle components for firefighting apparatus and fire service vehicles;
- c. Equipment, options, accessories, and supplies complementary or incidental to the purchase of a turnkey or complete unit of the types described in Sections 1. a. i. – iii. above.
- d. Services related to the offering of the solutions described in Sections 1. a. - c. above, including installation, customization, remount, refurbishment, inspection, repair, maintenance, training, and support.

2. This solicitation does not include those equipment, products, or services covered under categories included in contracts currently maintained by Sourcewell:

- a. Health & Safety, Medical, Surgical, and First Aid Related Equipment, Supplies, Accessories, and Services (RFP #061417);
- b. Trailers with Related Equipment, Accessories, and Services (RFP #121918), with the limited exception of the purpose-built firefighting or rescue trailers identified in Section 1. a. i. above;
- c. Firefighting Personal Protective Equipment, Apparel, and Accessories, with Related Cleaning and Maintenance Equipment (RFP #032620);

- d. **Firefighting Equipment and Rescue Tools with Related Supplies and Accessories (RFP #040220)**, with the limited exception of the equipment, options, accessories, and supplies identified in Section 1. c. above;
- e. **Class 4-8 Chassis with Related Equipment, Accessories, and Services (RFP #060920)**, with the limited exception of the purpose-built chassis identified in Section 1. b. above;
- f. **Public Safety Communications Technology and Hardware Solutions (RFP #042021)**;
- g. **Automobiles, SUVs, Vans, and Light Trucks with Related Equipment and Accessories (RFP #091521)**; and,
- h. **Ambulance and Emergency Medical Service Vehicles (RFP #110921)**.

Generally, the solutions for Participating Entities are turn-key solutions, providing a combination of equipment, products and services, delivery, and installation to a properly operating status. However, equipment or products only solutions may be appropriate for situations where Participating Entities possess the ability, either in-house or through local third-party contractors, to properly install and bring to operation the equipment or products being proposed.

Sourcewell prefers suppliers that provide a sole source of responsibility for the equipment, products, and services provided under a resulting contract. If proposer is including the equipment, products, and services of its subsidiary entities, the proposer must also identify all included subsidiaries in its proposal. If proposer requires the use of distributors, dealers, resellers, or subcontractors to provide the equipment, products, or services, the proposal must address how the equipment, products or services will be provided to Participating Entities, and describe the network of distributors, dealers, resellers, and/or subcontractors that will be available to serve Participating Entities under a resulting contract.

Sourcewell desires the broadest possible selection of equipment, products, and services being proposed over the largest possible geographic area and to the largest possible cross-section of Sourcewell current and future Participating Entities.

C. REQUIREMENTS

It is expected that proposers have knowledge of all applicable industry standards, laws, and regulations and possess an ability to market and distribute the equipment, products, or services to Participating Entities.

1. **Safety Requirements**. All items proposed must comply with current applicable safety or regulatory standards or codes.
2. **Deviation from Industry Standard**. Deviations from industry standards must be identified with an explanation of how the equipment, products, and services will provide equivalent function, coverage, performance, and/or related services.

3. **New Equipment and Products.** Proposed equipment and products must be for new, current model; however, proposer may offer certain close-out equipment or products if it is specifically noted in the Pricing proposal.
4. **Delivered and operational.** Unless clearly noted in the proposal, equipment and products must be delivered to the Participating Entity as operational.
5. **Warranty.** All equipment, products, supplies, and services must be covered by a warranty that is the industry standard or better.

D. ANTICIPATED CONTRACT TERM

Sourcewell anticipates that the term of any resulting contract(s) will be four years, with an optional one-year extension that may be offered based on the best interests of Sourcewell and its Participating Entities.

E. ESTIMATED CONTRACT VALUE AND USAGE

Based on past volume of similar contracts, the estimated annual value of all transactions from contracts resulting from this RFP are anticipated to be USD \$200 Million; therefore, proposers are expected to propose volume pricing. Sourcewell anticipates considerable activity under the contract(s) awarded from this RFP; however, sales and sales volume from any resulting contract are not guaranteed.

F. MARKETING PLAN

Proposer's sales force will be the primary source of communication with Participating Entities. The proposer's Marketing Plan should demonstrate proposer's ability to deploy a sales force or dealer network to Participating Entities, as well as proposer's sales and service capabilities. It is expected that proposer will promote and market any contract award.

G. ADDITIONAL CONSIDERATIONS

1. Contracts will be awarded to proposers able to best meet the need of Participating Entities. Proposers should submit their complete line of equipment, products, or services that are applicable to the scope of this RFP.
2. Proposers should include all relevant information in its proposal, since Sourcewell cannot consider information that is not included in the proposal. Sourcewell reserves the right to verify proposer's information and may request clarification from a proposer, including samples of the proposed equipment or products.
3. Depending upon the responses received in a given category, Sourcewell may need to organize responses into subcategories in order to provide the broadest coverage of the requested equipment, products, or services to Participating Entities. Awards may be based on a subcategory.

4. A proposer's documented negative past performance with Sourcewell or its Participating Entities occurring under a previously awarded Sourcewell contract may be considered in the evaluation of a proposal.

III. PRICING

A. REQUIREMENTS

All proposed pricing must be:

1. Either Line-Item Pricing or Percentage Discount from Catalog Pricing, or a combination of these:
 - a. **Line-Item Pricing** is pricing based on each individual product or services. Each line must indicate the proposer's published "List Price," as well as the "Contract Price."
 - b. **Percentage Discount from Catalog or Category** is based on a percentage discount from a catalog or list price, defined as a published Manufacturer's Suggested Retail Price (MSRP) for the products or services. Individualized percentage discounts can be applied to any number of defined product groupings. Proposers will be responsible for providing and maintaining current published MSRP with Sourcewell, and this pricing must be included in its proposal and provided throughout the term of any Contract resulting from this RFP.
2. The proposer's not to exceed price. A not to exceed price is the highest price for which equipment, products, or services may be billed to a Participating Entity. However, it is permissible for suppliers to sell at a price that is lower than the contracted price.
3. Stated in U.S. and Canadian dollars (as applicable).
4. Clearly understandable, complete, and fully describe the total cost of acquisition (e.g., the cost of the proposed equipment, products, and services delivered and operational for its intended purpose in the Participating Entity's location).

Proposers should clearly identify any costs that are NOT included in the proposed product or service pricing. This may include items such as installation, set up, mandatory training, or Initial Inspection. Include identification of any parties that impose such costs and their relationship to the proposer. Additionally, proposers should clearly describe any unique distribution and/or delivery methods or options offered in the proposal.

B. ADMINISTRATIVE FEES

Proposers are expected to pay to Sourcewell an administrative fee in exchange for Sourcewell facilitating the resulting contracts. The administrative fee is normally calculated as a percentage of the total sales to Participating Entities for all contracted equipment, products, or services made during a calendar quarter, and is typically one percent (1%) to two percent (2%). In some categories, a flat fee may be an acceptable alternative.

IV. CONTRACT

Proposers awarded a contract will be required to execute a contract with Sourcewell (see attached template). Only those modifications the proposer indicates in its proposal will be available for discussion. Much of the language in the Contract reflects Minnesota legal requirements and cannot be altered. Numerous and/or onerous exceptions that contradict Minnesota law may result in the proposal being disqualified from further review and evaluation.

To request a modification to the template Contract, a proposer must submit the Exceptions to Terms, Conditions, or Specifications table with its proposal. Only those exceptions noted at the time of the proposal submission will be considered.

Exceptions must:

1. Clearly identify the affected article and section.
2. Clearly note the requested modification; and as applicable, provide requested alternative language.

Unclear requests will be automatically denied.

Only those exceptions that have been accepted by Sourcewell will be included in the contract document provided to the awarded supplier for signature.

If a proposer receives a contract award resulting from this solicitation it will have up to 30 days to sign and return the contract. After that time, at Sourcewell's sole discretion, the contract award may be revoked.

V. RFP PROCESS

A. PRE-PROPOSAL CONFERENCE

Sourcewell will hold an optional, non-mandatory pre-proposal conference via webcast on the date and time noted in the Solicitation Schedule for this RFP and on the Sourcewell Procurement Portal. The purpose of this conference is to allow potential proposers to ask questions regarding this RFP and Sourcewell's competitive contracting process. Information about the webcast will be sent to all entities that have registered for this solicitation opportunity through their Sourcewell Procurement Portal Supplier Account. Pre-proposal conference attendance is optional.

B. QUESTIONS REGARDING THIS RFP AND ORAL COMMUNICATION

All questions regarding this RFP must be submitted through the Sourcewell Procurement Portal. The deadline for submission of questions is found in the Solicitation Schedule and on the Sourcewell Procurement Portal. Answers to questions will be issued through an addendum to

this RFP. Repetitive questions will be summarized into a single answer and identifying information will be removed from the submitted questions.

All questions, whether specific to a proposer or generally related to the RFP, must be submitted using this process. Do not contact individual Sourcewell staff to ask questions or request information as this may disqualify the proposer from responding to this RFP. Sourcewell will not respond to questions submitted after the deadline.

C. ADDENDA

Sourcewell may modify this RFP at any time prior to the proposal due date by issuing an addendum. Addenda issued by Sourcewell become a part of the RFP and will be delivered to potential proposers through the Sourcewell Procurement Portal. Sourcewell accepts no liability in connection with the delivery of any addenda.

Before a proposal will be accepted through the Sourcewell Procurement Portal, all addenda, if any, must be acknowledged by the proposer by checking the box for each addendum. It is the responsibility of the proposer to check for any addenda that may have been issued up to the solicitation due date and time.

If an addendum is issued after a proposer submitted its proposal, the Sourcewell Procurement Portal will WITHDRAW the submission and change the proposer's proposal status to INCOMPLETE. The proposer can view this status change in the "MY BIDS" section of the Sourcewell Procurement Portal Supplier Account. The proposer is solely responsible to check the "MY BIDS" section of the Sourcewell Procurement Portal Supplier Account periodically after submitting its proposal (and up to the Proposal Due Date). If the proposer's proposal status has changed to INCOMPLETE, the proposer is solely responsible to:

- i) make any required adjustments to its proposal;
- ii) acknowledge the addenda; and
- iii) ensure the re-submitted proposal is received through the Sourcewell Procurement Portal no later than the Proposal Due Date and time shown in the Solicitation Schedule above.

D. PROPOSAL SUBMISSION

Proposer's complete proposal must be submitted through the Sourcewell Procurement Portal no later than the date and time specified in the Solicitation Schedule. Any other form of proposal submission, whether electronic, paper, or otherwise, will not be considered by Sourcewell. **Late proposals will not be considered.** It is the proposer's sole responsibility to ensure that the proposal is received on time.

It is recommended that proposers allow sufficient time to upload the proposal and to resolve any issues that may arise. The time and date that a proposal is received by Sourcewell is solely determined by the Sourcewell Procurement Portal web clock.

In the event of problems with the Sourcewell Procurement Portal, follow the instructions for technical support posted in the portal. It may take up to 24 hours to respond to certain issues.

Upon successful submission of a proposal, the Sourcewell Procurement Portal will automatically generate a confirmation email to the proposer. If the proposer does not receive a confirmation email, contact Sourcewell's support provider at support@bidsandtenders.ca.

To ensure receipt of the latest information and updates via email regarding this solicitation, or if the proposer has obtained this solicitation document from a third party, the onus is on the proposer to create a Sourcewell Procurement Portal Supplier Account and register for this solicitation opportunity.

Within the Sourcewell Procurement Portal, all proposals must be digitally acknowledged by an authorized representative of the proposer attesting that the information contained in the proposal is true and accurate. By submitting a proposal, proposer warrants that the information provided is true, correct, and reliable for purposes of evaluation for potential contract award. The submission of inaccurate, misleading, or false information is grounds for disqualification from a contract award and may subject the proposer to remedies available by law.

E. GENERAL PROPOSAL REQUIREMENTS

Proposals must be:

- In substantial compliance with the requirements of this RFP or it will be considered nonresponsive and be rejected.
- Complete. A proposal will be rejected if it is conditional or incomplete.
- Submitted in English.
- Valid and irrevocable for 90 days following the Proposal Due Date.

Any and all costs incurred in responding to this RFP will be borne by the proposer.

F. PROPOSAL WITHDRAWAL

Prior to the proposal deadline, a proposer may withdraw its proposal.

G. OPENING

The Opening of proposals will be conducted electronically through the Sourcewell Procurement Portal. A list of all proposers will be made publicly available in the Sourcewell Procurement Portal after the Proposal Due Date, but no later than the Opening time listed in the Solicitation Schedule.

To view the list of proposers, verify that the Sourcewell Procurement Portal opportunities list search is set to "All" or "Closed." The solicitation status will automatically change to "Closed" after the Proposal Due Date and Time.

VI. EVALUATION AND AWARD

A. EVALUATION

It is the intent of Sourcewell to award one or more contracts to responsive and responsible proposers offering the best overall quality, selection of equipment, products, and services, and price that meet the commonly requested specifications of Sourcewell and its Participating Entities. Answer 8:

It is left to the discretion of each proposer to determine the information necessary to best demonstrate their marketplace success and satisfy all the requirements included in the questionnaire tables.

Proposals are evaluated based on the criteria stated in the RFP.

Question 10:

Question 13:

Can a vendor be awarded contracts from different Sourcewell RFPs?

Question 14:

In regards to table 2, Item 11: If financial statements are provided to Sourcewell for the proposal do those statements in turn become public knowledge?

Answer 14:

Refer to RFP Section VI. E. – Disposition of Proposals related to the treatment of materials submitted in response to the RFP.

Pricing is very volatile currently with component shortages. Pricing for each model and options offered within our current quoting system could significantly fluctuate by the time this proposal is reviewed.
