1. What the State is Soliciting?

The Arizona Department of Administration, State Procurement Office (the State), as authorized under A.R.S. § 41-2501 is seeking to establish one or more “statewide” contracts to provide Uninterruptible Power Supplies and Services (UPS), which in general terms includes UPS equipment to maintain continuous power supply and related services. The Special Terms and Conditions provide a more detailed definition of Eligible Agencies, and a list of all state agencies and purchasing cooperative members is available on the State Procurement Office website at: <https://spo.az.gov/procurement-services/cooperative-procurement/state-purchasing-cooperative>.

OFFERORS SHOULD READ THE ENTIRE SOLICITATION CAREFULLY.

The State anticipates awarding contract(s) with the intent to secure service coverage statewide. Whether or not it actually enters into any contracts, how many contracts it enters into, and how the work is awarded between those contracts are all at the State’s discretion. Furthermore, the State will use any awarded contracts on an as-needed basis, with no guarantee as to its actual spending under them.

The State reserves the right to accept any item or combination of items specified in the solicitation, unless the Offeror expressly restricts an item or combination of items in its Proposal, and conditions its response on receiving all items for which it provided a proposal. In the event of such restriction, the State will evaluate if an award on such basis will result with the best value and in the best interest for the State. The State may otherwise determine at its sole discretion that such restriction is non-responsive and deem the Offeror ineligible for further evaluation.

With respect to administration or rights, remedies, obligations and duties under the Contract for a given Order, "State" means each Eligible Agency or Co-Op Buyer who has issued the Order.
- 1.18. State Indemnitees. Collectively, the State of Arizona, its departments, agencies, universities, commissions, and boards and, and their respective officers, agents, and employees.
- 1.19. Subcontractor. A.R.S. §41-2503(38), which, for convenience of reference only, is "... a person who contracts to perform Work or render service to ... [C]ontractor or to another [S]ubcontractor as a part of a contract with a state governmental unit . . ." The Contract is to be construed as "a contract with a state governmental unit" for purposes of the definition. For clarity of intent, a Person carrying out any element of the Work is a Subcontractor from the moment they first carry out that element of the Work regardless of whether or not a Subcontract exists then or subsequently.
- 1.20. Work. The totality of the Materials and the Services and all the acts of administration, creation, production, and performance necessary to fulfill and incidental to fulfilling all of Contractor's obligations and duties under the Contract in conformance with the Contract and applicable laws.

2. Contract Interpretations

2.1. Usage. Where the Contract:

- 2.1.1. assigns obligations to Contractor, any reference to “Contractor” is to be construed to be a reference to the Contractor and all Subcontractors, whether they are first-tier subcontractors, sub-subcontractors, suppliers, sub-suppliers, consultants, or sub-consultants, as well as all of Contractor’s and the Subcontractor’s respective agents, representatives, and employees in every instance unless the context plainly requires that it is a reference only to Contractor as apart from Subcontractors.
- 2.1.2. uses the permissive “may” with respect to a party’s actions, determinations, etc., the terms is to be interpreted as in A.A.C. R2-7-101(31) [Definitions]. For clarity of intent, any right given to State using “State may” or a like construction denotes discretion and freedom to act so far as any regulatory or operative constraints permit in the relevant circumstances, provided that: (a) where written “may, at its discretion,” the discretion extends to whatever is most advantageous to State; and (b) where written only as “may,” the discretion is constrained by 1. what is fair, reasonable, and as accommodating of the respective best interests of both parties as practicable under the circumstances;
- 2.1.3. uses the imperative “shall” with respect to a party’s actions, duties, etc., the term is to be interpreted as in A.A.C. R2-7-101(43) [Definitions]. Conversely, the phrase “shall not” is to be interpreted as an imperative prohibition.
- 2.1.4. uses the term “must” with respect to a requirement, criterion, etc., the term is to be interpreted as conveying compulsion or strict necessity, and is to be read as though written “*must, if [the subject] is to be entitled to have [the object] considered or credited as being compliant with, conforming to, or satisfying [the requirement, criterion, constraint, etc.], otherwise, [the object] will be considered or debited as being non-compliant, non-conforming, or unsatisfactory for its Contract-related purposes*” in every instance;
- 2.1.5. uses the term “might” with respect to an event, outcome, action, etc., the term is to be interpreted as conveying contingency or non-discretionary conditionality; and
- 2.1.6. uses the term “will” or the phrases “is to be” or “are to be” with respect to an event, outcome, action, etc., the term or phrase is to be interpreted as conveying such certainty or imperativeness that “shall” is either unnecessary or irrelevant in that instance.

2.2. Contract Order of Precedence

	Special Terms and Conditions Request for Proposal Solicitation No. BPM004328 Uninterruptible Power Supply (UPS): New Equipment, Service, and Maintenance and Support	Arizona Department of Administration State Procurement Office 100 N 15th Avenue Phoenix, AZ 85007

- 2.2.1. Complementary Documents. All of the documents forming the Contract are complementary. If certain work, requirements, obligations, or duties are set out only in one but not in another, Contractor shall carry out the Work as though the relevant Work, requirements, obligations, or duties had been fully described in all, consistent with the other documents forming the Contract and as is reasonably inferable from them as being necessary to produce complete results.
- 2.2.2. Conflicts. In case of any inconsistency, conflict, or ambiguity among the documents forming the Contract and their provisions, they are to prevail in the following order, descending from most dominate to most subordinate, provided that, among categories of documents or provisions having the same rank, the document or provision with the latest date prevails. Information being identified in one document but not in another is not to be considered a conflict or inconsistency.
- 2.2.2.1. Contract Amendments;
- 2.2.2.2. The final Solicitation Documents, in the following order:
- (1) Special Terms and Conditions;
 - (2) Exhibits to the Special Terms and Conditions;
 - (3) Uniform Terms and Conditions;
 - (4) Scope of Work;
 - (5) Exhibits to the Scope of Work;
 - (6) Pricing Document;
 - (7) Exhibits to the Pricing Document;
 - (8) Specifications; and
 - (9) Any other documents referenced or included in the Solicitation;
- 2.2.2.3. Orders, in reverse chronological order; and
- 2.2.2.4. Accepted Offer.
- 2.2.3. Attachments and Exhibits. For clarity of intent, if an item was an Attachment in the Solicitation Documents or an Offer (either Initial, Revised, Best and Final, or Accepted) and was subsequently made into an Exhibit, or its content was incorporated into one of the other Contract documents, then that Attachment no longer exists contractually as an "Attachment" since it has at that point been made

	Special Terms and Conditions Request for Proposal Solicitation No. BPM004328 Uninterruptible Power Supply (UPS): New Equipment, Service, and Maintenance and Support	Arizona Department of Administration State Procurement Office 100 N 15th Avenue Phoenix, AZ 85007
---	--	---

into some other Contract document. In every other case, an Attachment and the Offeror data therein remain part of the Accepted Offer for purposes of precedence and contractual effect.

- 2.3. Independent Contractor. Contractor is an independent contractor and shall act in an independent capacity in performance under the Contract. Neither party is or is to be construed as being the employee or agent of the other party, and no action, inaction, event, or circumstance will be grounds for deeming it to be so.
- 2.4. Complete Integration. The Contract, including any documents incorporated into the Contract by reference, is intended by the parties as a final and complete expression of their agreement. There are no prior, contemporaneous, or additional agreements, either oral or in writing, pertaining to the Contract.

3. Contract Administration and Operation

- 3.1. Term of Contract. The term of the Contract will commence on the date indicated on the Acceptance and continue for twenty-four (24) months unless cancelled, terminated, or permissibly extended.
- 3.2. Contract Extensions. State may at its discretion extend the initial Contract term in increments of one or more months and do so one or more times, provided that the maximum aggregate term of the Contract including extensions cannot exceed the maximum aggregate term of five (5) years.

3.3. Notices and Correspondence

- 3.3.1. To Contractor. State shall address all Contract correspondence other than formal notices to the email address indicated as "Default for Type" for "General Mailing Address" in Contractor's corresponding State's e-Procurement System Vendor Profile; and address any required notices to Contractor to the "Contact Name and Title" at the "Mailing Address" indicated on the Accepted Offer, as that address might have been amended during the term of the Contract.
- 3.3.2. To State. Contractor shall address all Contract correspondence other than format notices to the email address indicated in "Contact Instructions" in the The State's e-Procurement System Summary for State; and address any required notices to State to the Procurement Officer identified as "Purchaser" in the State's e-Procurement System Summary at the following mailing address:

- 3.3.3. Changes. State may change the designated Procurement Officer, update contact information, or change the applicable mailing address.
- 3.4. Signing of Contract Amendments. Contractor's counter-signature – or "approval" in The State's e-Procurement System, in the case of an amendment, – is not required to give effect if the Contract Amendment only covers either:
- 3.4.1. extension of the term of the Contract within the maximum aggregate term;
 - 3.4.2. revision to Procurement Officer appointment or contact information; or
 - 3.4.3. modifications of a clerical nature that have no effect on terms, conditions, price, scope, or other material aspect of the Contract.
- In every case other than those listed in (1), (2), and (3) above, both parties' signatures – or "approval" in The State's e-Procurement System, in the case of an Amendment – are required to give it effect.
- 3.5. Click Through Terms and Conditions If either party uses a web-based ordering system, an electronic purchase order system, an electronic order acknowledgement, a form of an electronic acceptance, or any software based ordering system with respect to the Contract (each an "Electronic Ordering System"), the parties acknowledge and agree that an Electronic Ordering System is for ease of administration only, and Contractor is hereby given notice that the persons using Electronic Ordering Systems on behalf of State do not have any actual or apparent authority to create legally binding obligations that vary from the terms and conditions of the Contract. Accordingly, where an authorized State user is required to "click through" or otherwise accept or be made subject to any terms and conditions in using an Electronic Ordering Systems, any such terms and conditions are deemed void upon presentation. Additionally, where an authorized State user is required to accept or be made subject to any terms and conditions in accessing or employing any Materials or Services, those terms and conditions will also be void.
- 3.6. Books and Records
- 3.6.1. Retain Records. By A.R.S. §41-2548(B), Contractor shall retain and shall contractually require each Subcontractor to retain books and records relating to any cost and pricing data submitted in satisfaction of § 41-2543 for the period specified in the statute
 - 3.6.2. Right To Audit. The retained books and records are subject to audit by State during that period. By A.R.S. §41-2548(B), Contractor shall retain and shall contractually

	Special Terms and Conditions Request for Proposal Solicitation No. BPM004328 Uninterruptible Power Supply (UPS): New Equipment, Service, and Maintenance and Support	Arizona Department of Administration State Procurement Office 100 N 15th Avenue Phoenix, AZ 85007

require each Subcontractor to retain books and records relating to performance under the Contract for the period specified in the statute and those retained books and records are subject to audit by State during that period.

- 3.6.3. Auditing. Contractor or Subcontractor shall either make all such books and records under subparagraphs 3.6.1 and 3.6.2 available to State at all reasonable times or produce the records at a designated State office on State's demand, the choice of which being at State's discretion. For the purpose of this paragraph, "reasonable times" are during normal business hours and in such a manner so as to not unreasonably interfere with normal business activities.
- 3.7. Contractor Licenses. Contractor shall maintain current federal, state and local licenses and permits required for the operation of its business in general, for its operations under the Contract, and for the Work itself.
- 3.8. Inspection and Testing. By A.R.S. §41-2547, State may at reasonable times inspect the part of Contractors' or Subcontractors' plant or places of business related to performance under the Contract. Accordingly, Contractor agrees to permit (for itself) and ensure (for Subcontractors) access for inspection at any reasonable time to its facilities, processes, and services. State may inspect or test, at its own cost, any finished goods, work-in-progress, components, or unfinished materials that are to be supplied under the Contract or that will be incorporated into something to be supplied under the Contract. If the inspection or testing shows non-conformance or defects, then Contractor will owe State reimbursement or payment of all costs it incurred in carrying out or contracting for the inspection and testing, as well as for any reinspection or retesting that might be necessary. Neither inspection of facilities nor testing of goods, work, components, or unfinished materials will of itself constitute acceptance by State of those things.
- 3.9. Ownership of Intellectual Property
- 3.9.1. Rights In Work Product. All intellectual property originated or prepared by Contractor pursuant to the Contract, including but not limited to, inventions, discoveries, intellectual copyrights, trademarks, trade names, trade secrets, technical communications, records reports, computer programs and other documentation or improvements thereto, including Contractor's administrative communications and records relating to the Contract, are considered work product and Contractor's property, provided that, State has Government Purpose Rights to that work product as and when it was delivered to State.
- 3.9.1.1. "Government Purpose Rights" are:

	Special Terms and Conditions Request for Proposal Solicitation No. BPM004328 Uninterruptible Power Supply (UPS): New Equipment, Service, and Maintenance and Support	Arizona Department of Administration State Procurement Office 100 N 15th Avenue Phoenix, AZ 85007

- 3.9.1.1.1. the unlimited, perpetual, irrevocable, royalty free, non-exclusive, worldwide right to use, modify, reproduce, release, perform, display, sublicense, disclose and create derivatives from that work product without restriction for any activity in which State is a party;
 - 3.9.1.1.2. the right to release or disclose that work product to third parties for any State government purpose; and
 - 3.9.1.1.3. the right to authorize those to whom it rightfully releases or discloses that work product to use, modify, release, create derivative works from the work product for any State government purpose; such recipients being understood to include the federal government, the governments of other states, and various local governments.
 - 3.9.1.2. "Government Purpose Rights" do not include any right to use, modify, reproduce, perform, release, display, create derivative works from, or disclose that work product for any commercial purpose or to authorize others to do so.
- 3.9.2. Joint Developments. The parties may each use equally any ideas, concepts, know-how, or techniques developed jointly during the course of the Contract, and may do so at their respective discretion, without obligation of notice or accounting to the other party.
- 3.9.3. Pre-existing Material. All pre-existing software and other materials developed or otherwise obtained by or for Contractor or its affiliates independently of the Contract or applicable Purchase Orders are not part of the work product to which rights are granted State under subparagraph 3.9.1 above, and will remain the exclusive property of Contractor, provided that:
 - 3.9.3.1. any derivative works of such pre-existing material or elements thereof that are created pursuant to the Contract are part of that work product;
 - 3.9.3.2. any elements of derivative work of such pre-existing material that was not created pursuant to the Contract are not part of that work product; and
 - 3.9.3.3. except as expressly stated otherwise, nothing in the Contract is to be construed to interfere or diminish Contractor's or its affiliates' ownership of such pre-existing materials.

---	--	---

3.9.4. Developments Outside Of Contract. Unless expressly stated otherwise in the Contract, does not preclude Contractor from developing competing materials outside the Contract, irrespective of any similarity to materials delivered or to be delivered to State hereunder.

3.10. Subcontract

3.10.1. Initial list. At the time of Contract execution, Contractor's candidate Subcontractors were identified in Attachment Proposed Subcontractors to the Accepted Offer [Proposed Subcontractors]. Agreeing to them being included in the Accepted Offer signified Procurement Officer's advance consent for Contractor to enter into a Subcontract with each candidate, which Contractor shall do as promptly as necessary to ensure its ability to carry out the Work in a timely manner.

3.10.2. Additional names. Contractor shall not enter into a Subcontract without first obtaining Procurement Officer's written consent with any prospective Subcontractor that (a) was not listed on the Attachment Proposed Subcontractors at time of Contract execution or (b) is for any Materials or Services categories other than the ones for which they were previously consented. For either case (a) or (b), Contractor shall submit a written request sufficiently in advance of the need date for those materials or services so that performance under the Contract is not impaired. Procurement Officer may request any additional information he or she determines is necessary to assess the submittal, and may withhold consent pending it.

3.10.3. Flow-down. Contractor shall incorporate the provisions, terms, and conditions of the Contract into every Subcontract by inclusion or by reference, as appropriate. When making any post-execution consent requests, Contractor shall include its warrant that it will do the same for the pending Subcontracts covered by the request. Entering into Subcontracts will not relieve Contractor of any of its obligations or duties under the Contract, including, among other things, the duty to supervise and coordinate the work of Subcontractors. Nothing contained in any Subcontract will create or is to be construed as creating any contractual relationship between State and the Subcontractor.

3.11. Orders

3.11.1. Order Sufficiency. The Contract was awarded in accordance with the Arizona Procurement Code; the transactions and procedures required by the code for competitive source selection have been met. An Order issued that cites the correct State contract number will suffice to authorize the Contractor to provide the Materials and perform the Services covered by that Order.

	Special Terms and Conditions Request for Proposal Solicitation No. BPM004328 Uninterruptible Power Supply (UPS): New Equipment, Service, and Maintenance and Support	Arizona Department of Administration State Procurement Office 100 N 15th Avenue Phoenix, AZ 85007
---	--	---

3.11.2. Order Terms. All Orders are subject to the Contract Terms and Conditions; an Order cannot modify the Contract Terms and Conditions.

3.11.3. Orders Are Obligatory. Until the expiration or earlier termination of the Contract, State may issue and Contractor shall accept Orders that make proper reference to the Contract and are permissible hereunder, provided that, Contractor is not obliged to accept any Order that is not consistent with the then-current pricing, lead times, specifications, or payment provisions of the Contract. Contractor shall fulfill and complete any Orders that are begun but not yet completed as of expiration or earlier termination of the Contract unless State instructs otherwise at the time.

3.11.4. Special Case. In the special case where both the following conditions are true, Procurement Officer's signature on the Acceptance is Contractor's authorization to perform and therefore no Order is required: (a) the Contract is identified as being a "single-agency/single-project" contract and (b) the Contract was created in The State's e-Procurement System as something other than a "Master/ Blanket" type.

3.11.5. No Minimums Or Commitments. (a) Contractor shall not impose any minimum dollar amount, item count, services volume, or services duration on Orders; (b) State makes no commitment of any kind concerning the quantity or monetary value of activity actually initiated or completed during the term of the Contract; (c) Contractor shall only deliver or perform as authorized by Orders; and (d) State is not limited as to the number of Orders it may issue for the Contract. For clarity of intent, the foregoing applies equally whether an Eligible Agency issues the Order or, if applicable, a Co-Op Buyer issues it.

3.11.6. Non-contracted Materials Or Services. Any attempt to knowingly represent for sales, marketing, or related purposes that goods or services not specifically awarded are under a State contract is a violation of the Contract and law.

3.12. The Contract is a "statewide" contract for multiple purchases, projects, or assignments, and can be purchased against by some or all Eligible Agencies and any Co Op Buyers that elect to participate. Even if only one Eligible Agency needs or elects to purchase against the Contract, it is to be construed as being a "statewide" contract hereunder.

The Contract is an indefinite delivery, indefinite quantity (ID/IQ) type of contract; it is to be construed as a "delivery order" sub type of ID/IQ contract to the extent the Work is Materials, and a "task order" sub-type to the extent the Work is Services.

3.12.1. Contractor shall verify if an ordering entity is a bona fide Co-Op Buyer before selling Materials to or providing Services for them under the Contract. The current list of Co Op Buyers is available on the State Procurement Office website:

	Special Terms and Conditions Request for Proposal Solicitation No. BPM004328 Uninterruptible Power Supply (UPS): New Equipment, Service, and Maintenance and Support	Arizona Department of Administration State Procurement Office 100 N 15th Avenue Phoenix, AZ 85007
---	--	---

<https://spo.az.gov/programs/cooperative>

- 3.12.2. Contractor shall sell to Co-Op Buyers at the same price and on the same lead times and other terms and conditions under which it sells to Eligible Agencies, with the sole exception of any legitimately additional costs for extraordinary shipping or delivery requirements if the Co-Op Buyer is having Materials delivered or installed or Services performed at locations not contemplated in the contracted pricing (e.g. delivery to a location outside Arizona).
- 3.12.3. Contractor shall pay State an administrative fee against all Contract sales to Co Op Buyers, as provided for under A.R.S. § 41 2633. The fee rate is one (1%) percent. Failure to remit the administrative fees is a material breach of contract, and will entitle the State to its remedies under Article 8 and its right to terminate for default under Article 9. Method of calculation, payment procedures, and other details are provided on the State Procurement Office website:

<https://spo.az.gov/suppliers/usage-reporting>

- 3.12.4. Contractor shall submit to State a quarterly usage report documenting all Contract sales to both Eligible Agencies and Co Op Buyers, itemized separately. Contractor shall further itemize divisions, groups or areas within a given Eligible Agency if they place Orders independently of each other. Failure to submit the report is a material breach of contract, and will entitle the State to its remedies under Article 8 and its right to terminate for default under Article 9. Contractor shall submit the report using the forms and following the instructions on the State Procurement Office website:

<https://spo.az.gov/suppliers/usage-reporting>

- 3.12.5. Contractor shall acknowledge each Order from Eligible Agencies within 1 (one) business day after receipt by either: (a) "approving" the Order electronically in The State's e-Procurement System, which will indicate Contractor's unqualified acceptance of the Order as issued; or (b) "rejecting" the Order electronically in The State's e-Procurement System, with a concurrent explanation by email to relevant originator as to the reason for rejecting it. By way of reminder, the only grounds on which the Contractor may reject or refuse an Order are those set out in subparagraph 3.11.3 [*Orders are Obligatory*]. Unless and until Contractor has approved the Order in The State's e-Procurement System, it will have no effect under the Contract and will not oblige either State or Contractor. If the relevant Eligible Agency explicitly instructs at the time that a verbal acceptance is sufficient because of urgency or other unusual circumstances and Contractor duly gives its verbal acceptance, then Contractor will be deemed to have accepted the Order

	Special Terms and Conditions Request for Proposal Solicitation No. BPM004328 Uninterruptible Power Supply (UPS): New Equipment, Service, and Maintenance and Support	Arizona Department of Administration State Procurement Office 100 N 15th Avenue Phoenix, AZ 85007
---	--	---

immediately upon commencing performance, provided that, Contractor must follow-up its verbal acceptance by accepting the Purchase Order electronically in The State's e-Procurement System within 3 (three) business days. Contractor shall thereafter be barred from subsequently rejecting the Order in The State's e-Procurement System and if it does so the rejection will be void.

- 3.12.6. Contractor shall acknowledge each Order from Co Op Buyers in conformance with each buyer's instructions given at the time of ordering or in any supplemental participating agreement Contractor might have with them. Orders from Co Op Buyers create no obligation on State's part, since they are entirely between the Co-Op Buyer and Contractor. That notwithstanding, Contractor's obligation under the Contract is to service Co-Op Buyers commercially as though they were with an Eligible Agency, and Contractor's refusal to do so would be a material breach of the Contract.
- 3.13. Multiple-Use Provisions. Eligible Agencies may issue Orders for Services in several forms, all of which become final and effective by a "Release Purchase Order" in The State's e-Procurement System. Orders issued by Co-Op Buyers will be in whatever form the Co-Op Buyer normally uses. Regardless of origin, Orders must cite the State contract number to be valid. State may, at its discretion in each instance, determine the scope, schedule, and price for each Order in any of the following ways:
 - 3.13.1. By choosing some or all of the Materials or Services items covered by the Contract for which a price is established in the Pricing Document, then preparing an Order using those prices (e.g., filling out an order form), and sending it to the Contractor.
 - 3.13.2. By instructing Contractor to provide a comprehensive proposal of item quantities, combinations, etc., or services hours, personnel, etc., for a defined scope using those established prices as a basis, then validating and negotiating the proposal with Contractor and issuing an Order if and when reaching agreement.
 - 3.13.3. As described in (2) above but requesting the proposal from both Contractor and other vendors who are contracted within the applicable scope categories and locations, either sequentially or concurrently, then selecting the proposal or proposals combination that is most advantageous to State.
 - 3.13.4. As described in (3) above but introducing ad-hoc commercial competition by making the selection and ordering conditional on obtaining more favorable prices than the contractually-established ones.
- 3.14. Other Contractors. State may undertake with its own forces or award other contracts to the same or other vendors for additional or related work. In such cases, Contractor shall cooperate fully with State's employees and such other vendors and carefully coordinate, fit, connect, accommodate, adjust, or sequence its work to the related work by others. Where

	Special Terms and Conditions Request for Proposal Solicitation No. BPM004328 Uninterruptible Power Supply (UPS): New Equipment, Service, and Maintenance and Support	Arizona Department of Administration State Procurement Office 100 N 15th Avenue Phoenix, AZ 85007

the Contract requires handing-off Contractor's work to others, Contractor shall cooperate as State instructs regarding the necessary transfer of its work product, services, or records to State or the other vendors. Contractor shall not commit or permit any act that interferes with the State's or other vendors' performance of their work, provided that, State shall enforce the foregoing section equitably among all its vendors so as not to impose an unreasonable burden on any one of them.

3.15. Work on State Premises

3.15.1. **Compliance With Rules.** Contractor is responsible for ensuring that its personnel comply with State's rules, regulations, policies, documented practices, and documented operating procedures while delivering or installing Materials or performing Services on State's grounds or in its facilities. For clarity of intent, the foregoing means that if Contractor is required to comply with certain security requirements in order to deliver, install, or perform at that particular location, then it shall do so nonetheless and without entitlement to any additional compensation or additional time for performance if those particular requirements are not expressly stated in the Contract. Contractor is reminded that violation of the prohibition under A.R.S. § 13-1502 against possession of weapons on State's property by anyone for whom Contractor is responsible is a material breach of contract and grounds for termination for default.

3.15.2. **Protection Of Grounds And Facilities.** Contractor shall deliver or install the Materials and perform the Services without damaging any State grounds or facilities. Contractor shall repair or replace any damage it does cause promptly and at its own expense, subject to whatever instructions and restrictions State needs to make to prevent inconvenience or disruption of operations. If Contractor fails to make the necessary repairs or replacements in a timely manner, State will be entitled to exercise its remedies under paragraph 8.5 of the Uniform Terms and Conditions [Right of Offset].

4. Costs and Payments

4.1. Payments

4.1.1. **Payment Deadline.** State shall make payments in compliance with Arizona Revised Statutes Titles 35 and 41. Unless and then only to the extent expressly stated otherwise in the Pricing Document, State shall make payment in full for Materials that have been delivered and accepted and Services that have been performed and accepted within the time specified in A.R.S. § 35-342 after both of the following become true: (a) all of the Materials being invoiced have been delivered or installed (as applicable) and accepted and all of the Services being invoiced have been

	Special Terms and Conditions Request for Proposal Solicitation No. BPM004328 Uninterruptible Power Supply (UPS): New Equipment, Service, and Maintenance and Support	Arizona Department of Administration State Procurement Office 100 N 15th Avenue Phoenix, AZ 85007
---	--	---

performed and accepted; and (b) Contractor has provided a complete and accurate invoice in the form and manner called for in the Pricing Document, provided that, State will not make or be liable for any payments to Contractor until Contractor has registered properly in The State's e-Procurement System and provided a current IRS Form W-9 to State unless excused by law from providing one.

- 4.1.2. **Payments Only To Contractor.** Unless compelled otherwise by operation of law or order of a court of competent jurisdiction, State will only make payment to Contractor under the federal tax identifier indicated on the Accepted Offer.

4.2. **Applicable Taxes**

- 4.2.1. **Contractor To Pay All Taxes.** State is subject to Arizona TPT. Therefore, Arizona TPT applies to all sales under the Contract and Arizona TPT is Contractor's responsibility (as seller) to remit. Contractor's failure to collect Arizona TPT or any other applicable sales or use taxes from an Eligible Agency or Co-Op Buyer (as buyer) will not relieve the Contractor of any obligation to remit sales or use taxes that are due under the Contract or laws. Unless stated otherwise in the Pricing Document, all prices therein include Arizona TPT as well as every other manner of transaction privilege or sales/use tax that is due to a municipality or another state or its political subdivisions. Contractor shall pay all federal, state, and local taxes applicable to its operations and personnel.
- 4.2.2. **Tax Indemnity.** Contractor shall hold State harmless from any responsibility for taxes or contributions, including any applicable damages and interest, that are due to federal, state, and local authorities with respect to the Work and the Contract, as well as any related costs; the foregoing expressly includes Arizona TPT, unemployment compensation insurance, social security, and workers' compensation insurance.

5. **Contract Changes**

- 5.1. **Contract Amendments** The Contract is issued for State under the authority of Procurement Officer. Only a Contract Amendment can modify the Contract, and then only if it does not change the Contract's general scope. Purported changes to the Contract by a person not expressly authorized by Procurement Officer or made unilaterally by Contractor will be void and without effect; Contractor will not be entitled to any claim made under the Contract based on any such purported changes.
- 5.2. **Assignment and Delegation.**
- 5.2.1. **In Whole.** Contractor shall not assign in whole its rights or delegate in whole its duties under the Contract without Procurement Officer's prior written consent, which

	Special Terms and Conditions Request for Proposal Solicitation No. BPM004328 Uninterruptible Power Supply (UPS): New Equipment, Service, and Maintenance and Support	Arizona Department of Administration State Procurement Office 100 N 15th Avenue Phoenix, AZ 85007
---	--	---

consent Procurement Officer may withhold at his or her discretion. If Contractor's proposed assignment or delegation stems from a split, sale, acquisition, or other non-merger change in control, then no such consent will be given in any event without the assignee or delegate giving State satisfactory and equivalent evidence or assurance of its financial soundness, competency, capacity, and qualification to perform as that which Contractor possessed when State first awarded it the Contract.

- 5.2.2. In Part. Subject to paragraph 3.10 [Subcontracts] with respect to subcontracting, Contractor may assign particular rights or delegate particular duties under the Contract, but shall obtain Procurement Officer's written consent before doing so. Procurement Officer shall not unreasonably withhold consent so long as the proposed assignment or delegation does not attempt to modify the Contract in any way or to alter or impair State's rights or remedies under the Contract or laws.

6. Risk and Liability

- 6.1. Risk of Loss. 1.2.6 Verification of Coverage Contractor shall furnish the State of Arizona with certificates of insurance (valid ACORD form or equivalent approved by the State of Arizona) evidencing that Contractor has the insurance as required by this Contract. An authorized representative of the insurer shall sign the certificates.

1.2.6.1 All such certificates of insurance and policy endorsements must be received by the State before work commences. 1.2.6.2 Each insurance policy required by this Contract must be in effect at, or prior to, commencement of work under this Contract. Failure to maintain the insurance policies as required by this Contract, or to provide evidence of renewal, is a material breach of contract.

1.2.6.3 All certificates required by this Contract shall be sent directly to the Department. 1.2.9.1 In the event the Contractor or subcontractor(s) is/are a public entity, then the Insurance Requirements shall not apply. Such public entity shall provide a certificate of self-insurance. If the Contractor or subcontractor(s) is/are a State of Arizona agency, board, commission, or university, none of the above shall apply.

6.3. Patent and Copyright Indemnification. *[CONTRACTOR/VENDOR (NOT PUBLIC AGENCY)]*. With respect to Materials or Services provided or proposed by a Contractor Indemnitor for performance under the Contract, Contractor shall indemnify, defend and hold harmless State Indemnitees against any third-party claims for liability, costs, and expenses, including, but not limited to reasonable attorneys' fees, for infringement or violation of any patent, trademark, copyright, or trade secret by the Materials and the Services. With respect to the defense and payment of claims under this subparagraph:

- 6.3.1. State shall provide reasonable and timely notification to Contractor of any claim for which Contractor may be liable under this paragraph;
- 6.3.2. Contractor, with reasonable consultation from State, shall have control of the defense of any action on an indemnified claim including all negotiations for its settlement or compromise;
- 6.3.3. State may elect to participate in such action at its own expense; and
- 6.3.4. State may approve or disapprove any settlement or compromise, provided that, (i) State shall not unreasonably withhold or delay such approval or disapproval and (ii) State shall cooperate in the defense and in any related settlement negotiations.

If Contractor is a public agency, this paragraph 6.4 does not apply.

6.4. Force Majeure

- 6.4.1. Definition. For this paragraph, "force majeure" means an occurrence that is
 - 6.4.1.1. beyond the control of the affected party,
 - 6.4.1.2. occurred without the party's fault or negligence, and
 - 6.4.1.3. something the party was unable to prevent by exercising reasonable diligence. Without limiting the generality of the foregoing, force majeure expressly includes acts of God, acts of the public enemy, war, riots, strikes, mobilization, labor disputes, civil disorders, fire, flood, lockouts, injunctions-intervention-acts, failures or refusals to act by government authorities, and, subject to paragraph 7.6 [Performance in Public Health Emergency], declared public health emergencies. Force majeure

expressly does not include late delivery caused by congestion at a manufacturer's plant or elsewhere, an oversold condition of the market, late performance by a Subcontractor unless the delay arises out of an occurrence of force majeure, or inability of either Contractor or any Subcontractor to acquire or maintain any required insurance, bonds, licenses, or permits.

- 6.4.2. Relief From Performance. Except of sums due, the parties are not liable to each other if an occurrence of force majeure prevents its performance under the Contract. If either party is delayed at any time in the progress of their respective performance under the Contract by an occurrence of force majeure, the delayed party shall notify the other no later than the following working day after the occurrence, or as soon as it could reasonably have been expected to recognize that the occurrence had effect in cases where the effects were not readily apparent. In any event, the notice must make specific reference to this paragraph specifying the causes of the delay in the notice and, if the effects of the occurrence are on-going, provide an initial notification and thereafter the delayed party shall provide regular updates until such time as the effects are fully known. To the extent it is able, the delayed party shall cause the delay to cease promptly and notify the other party when it has done so. The parties shall extend the time of completion by Contract Amendment for a period equal to the time that the results or effects of the delay prevented the delayed party from performing.
- 6.4.3. Excusable Delay Is Not Default. Failure in performance by either party will not constitute default hereunder or give rise to any claim for damages or loss of anticipated profits if and to the extent that such failure was or is being caused by an occurrence of force majeure.
- 6.4.4. Default Diminishes Relief. Entitlement to relief from the effects of an occurrence of force majeure is diminished to the extent that the delay did or will result from the affected party's default unrelated to the occurrence, in which case and to that extent the other party's normal remedies and the affected party's obligations would apply undiminished.

7. Warranties

- 7.1. Conformity to Requirements. Contractor warrants that, unless expressly provided otherwise elsewhere in the Contract, the Materials and Services will for 1 (one) year after acceptance and in each instance: (1) conform to the requirements of the Contract, which by way of reminder include without limitation all descriptions, specifications, and drawings identified in the Scope of Work and any Contractor affirmations included as part of the Contract; (2) be free from defects of material and workmanship; (3) conform to or perform in a manner

consistent with current industry standards; and (4) be fit for the intended purpose or use described in the Contract. Mere delivery or performance does not substitute for express acceptance by the State. Where inspection, testing, or other acceptance assessment of Materials or Services cannot be done until after installation, the forgoing warranty will not begin until State's acceptance.

- 7.2. **Contractor Personnel.** Contractor warrants that its personnel will perform their duties under the Contract in a professional manner, applying the requisite skills and knowledge, consistent with industry standards, and in accordance with the requirements of the Contract. Contractor further warrants that its key personnel will maintain any certifications relevant to their work, and Contractor shall provide individual evidence of certification to State's authorized representatives upon request.
- 7.3. **Intellectual Property.** Contractor warrants that the Materials and Services do not and will not infringe or violate any patent, trademark, copyright, trade secret, or other intellectual property rights or laws, except only to the extent the Specifications do not permit use of any other product and Contractor is not and cannot reasonably be expected to be aware of the infringement or violation.
- 7.4. **Licenses and Permits** Contractor warrants that it will maintain all licenses required under paragraph 3.7 [Contractor Licenses] and all required permits valid and in force.
- 7.5. **Operational Continuity** Contractor warrants that it will perform without relief notwithstanding being sold or acquired; no such event will operate to mitigate or alter any of Contractor's duties hereunder absent a consented delegation under paragraph 5 [Assignment and Delegation] that expressly recognizes the event.
- 7.6. **Performance in Public Health Emergency** Contractor warrants that it will:
 - 7.6.1. have in effect, promptly after commencement, a plan for continuing performance in the event of a declared public health emergency that addresses, at a minimum:
 - 7.6.1.1. identification of response personnel by name;
 - 7.6.1.2. key succession and performance responses in the event of sudden and significant decrease in workforce; and
 - 7.6.1.3. alternative avenues to keep sufficient product on hand or in the supply chain;
 - 7.6.2. provide a copy of its current plan to State within 3 (three) business days after State's written request. If Contractor claims relief under paragraph 6.5 [Force Majeure] for an occurrence of force majeure that is a declared public health emergency, then that relief will be conditioned on Contractor having first implemented its plan and

exhausted all reasonable opportunity for that plan implementation to overcome the effects of that occurrence, or mitigate those effects to the extent that overcoming entirely is not practicable.

- 7.6.3. A request from the State related to this Section does not necessarily indicate that there has been an occurrence of force majeure, and the Contractor will not be entitled to any additional compensation or extension of time by virtue of having to implement a plan .
- 7.6.4. Failure to have or implement an appropriate plan will be a material breach of contract.
- 7.7. Lobbying
 - 7.7.1. Prohibition. Contractor warrants that it will not engage in lobbying activities, as defined in 40 Code of Federal Regulations (CFR) part 34 and A.R.S. § 41-1231, et seq., using monies awarded under the Contract, provided that, the foregoing does not intend to constrain Contractor's use of its own monies or property, including without limitation any net proceeds duly realized under the Contract or any value thereafter derived from those proceeds; and upon award of the Contract, it will disclose all lobbying activities to State to the extent they are an actual or potential conflict of interest or where such activities could create an appearance of impropriety. Contractor shall implement and maintain adequate controls to assure compliance with (a) above. Contractor shall obtain an equivalent warranty from all Subcontractors and shall include an equivalent no-lobbying provision in all Subcontracts.
 - 7.7.2. Exception. This paragraph does not apply to the extent that the Services are defined in the Contract as being lobbying for State's benefit or on State's behalf.
- 7.8. Survival of Warranty. All representations and warranties made by Contractor under the Contract will survive the expiration or earlier termination of the Contract.

8. General Provisions for Materials

- 8.1. **Applicability.** Article 11 applies to the extent the Work is or includes Materials.
- 8.2. **Off-Contract Materials.** Contractor shall ensure that the design and/or procedures for the Materials ordering method prevents Orders for off-contract items or excluded items. Notwithstanding that State might have its own internal administrative rules regarding off-contract or excluded item ordering, and endeavors to prevent such orders from occurring, Contractor is responsible for not accepting any such Orders. State may, at its discretion, return any such items under subparagraph 11.17 or cancel any such Order under

	Special Terms and Conditions Request for Proposal Solicitation No. BPM004328 Uninterruptible Power Supply (UPS): New Equipment, Service, and Maintenance and Support	Arizona Department of Administration State Procurement Office 100 N 15th Avenue Phoenix, AZ 85007

subparagraph 11.18, in either case being without obligation and at Contractor's expense. As used above, "off-contract item" refers to any product not included in the scope of the Contract and for which no price or compensation has been established contractually, and "excluded item" refers to any product expressly stated in the Contract as being excluded from the Contract.

- 8.3. **Compensation for Late Deliveries.** Contractor shall have clear, published policies in place regarding late delivery, order cancelation, discounts, or rebates given to compensate for late deliveries, etc., and make them readily available to those Eligible Agencies, and Co-Op Buyers if applicable, that are likely to need them.
- 8.4. **Indicate Shipping Costs on Order.** Contractor shall identify and provide the required substantiating documentation for the amount it intends to add for shipping in the Order acknowledgment if shipping is additional to the contracted price or rate for an item; otherwise, Contractor shall indicate that shipping is included in the Order price (in other words, every Order must indicate clearly whether or not shipping is included in the Order price, and if not included, how much is to be added and why that amount is the correct or appropriate one)
- 8.5. **Current Products.** Contractor shall keep all products being offered under the Contract: (a) in current and ongoing production; (b) in its advertised product lines; (c) as models or types that are actively functioning in other paying customer environments; and (d) in conformance to the requirements of the Contract.
- 8.6. **Maintain Comprehensive Selection.** Contractor shall provide at all times the comprehensive selection of products for which a price is established in the Commercial Document for ordering by Eligible Agencies, and Co-Op Buyers if applicable.
- 8.7. **Additional Products.** State, at its discretion, may modify the scope of the Contract by Contract Amendment to include additional products or product categories so long as they are within the general scope of the ones originally covered by the Contract. Once the Contract Amendment has been fully executed, Contractor shall then update all applicable catalogs and price lists and make them available to all affected entities at no additional cost. Either party may make the request to add products to the Contract; regardless of who makes the request, the parties shall negotiate in good faith a fair price for any additional products, but State may elect not to add some or all of the products in question if no agreement is reached on pricing in a timely manner. Contractor's request or proposal in response to State's request must include: (a) documentation demonstrating that the additional products meet or exceed the specifications for the original products while remaining in the same product groups as the original ones; and (b) documentation demonstrating that the proposed price for the additional products is both fair and reasonable and at the same level of discount relative to market price as were the original ones. Demonstration of (b) typically requires showing how prices at which sales are currently or were last made to a significant number of

buyers compare to the prices or discounts (as applicable) being proposed for the additional products.

- 8.8. **Discontinued Products** If a product or groups of products covered by the Contract are discontinued by the manufacturer, Contractor shall notify State within 5 (five) business days after receiving the manufacturer's notification. State, at its discretion, will either allow Contractor to provide substitutes for the discontinued products or delete the products from the scope of the Contract, both of which will be accomplished by Contract Amendment. Contractor shall then update all applicable catalogs and price lists and make them available to all affected entities at no additional cost. The parties shall negotiate in good faith a fair price for any substitute product, but State may elect to delete the products from the scope of the Contract if no agreement is reached on substitute pricing in a timely manner. When notifying State of the discontinuance, Contractor shall provide: (a) manufacturer's announcement or documentation stating that the products have been discontinued, with identification by model/part number; (b) documentation demonstrating that the substitute products meet or exceed the specifications for the discontinued products while remaining in the same product groups as were the discontinued ones; and (c) documentation demonstrating that the proposed price for the substitute products is both fair and reasonable and at the same level of discount relative to market price as were the discontinued ones.
- 8.9. **Forced Substitutes.** Forced substitutions will not be permitted; Contractor shall obtain State's prior written consent before making any discretionary substitution for any product covered by the Contract.
- 8.10. **Recalls.** In the event of a recall notice, technical service bulletin, or other important notification affecting a product offered under the Contract (collectively, "recalls" hereinafter), Contractor shall send timely notice to State for each applicable Order referencing the affected Order and product. Notwithstanding whatever protection Contractor might have under A.R.S. §12-684 with respect to a manufacturer, Contractor shall handle recalls entirely and without obligation on State's part, other than to permit removal of installed products, retrieval of stored products, etc., as necessary to implement the recall.
- 8.11. **Delivery**
- 8.11.1. **PRICING.** Unless stated otherwise in the Purchase Order, all Materials prices set forth therein are Free Carrier (FCA seller's dock) Incoterms®2010, with "seller's dock" meaning the last place of manufacturing, assembly, integration, final packing, or warehousing before departure to designated point of delivery to State. For reference, the foregoing is to be construed as equivalent to "F.O.B. Origin, Contractor's Facility" under [FAR 52.247-30](#).

- 8.11.2. **LIABILITY.** Unless stated otherwise in the Purchase Order, Contractor's liability for all Materials is Delivered Duty Paid (DDP) (State-designated receiving point per Order) Incoterms®2010, but with unloading at destination included. For reference, the foregoing is to be construed as equivalent to "F.o.b. Destination, Within Consignee's Premises" under [FAR 52.247-35](#).
- 8.11.3. **PAYMENT.** Unless stated otherwise in the Purchase Order, State shall reimburse Contractor the costs of the difference between DDP (State-designated receiving point per Order) and FCA (seller's dock) with no mark-up, which Contractor shall itemize and invoice separately.
- 8.12. **Delivery Time.** Unless stated otherwise in the Purchase Order, Contractor shall make delivery within 2 (two) business days after receiving each Order.
- 8.13. **Delivery Locations.** Contractor shall offer deliveries to every location served under the scope of the Contract, specifically

- 8.13.2. if the Contract is for a single State agency in all its locations, then Contractor shall deliver to any of that agency's location in Arizona;
- 8.13.3. if the Contract is for statewide use but excludes certain areas, then Contractor shall deliver to any Eligible Agency or Co-Op Buyer location that is not in the excluded areas; and
- 8.13.4. if the Contract is for unrestricted statewide use, then:
- 8.13.4.1. Contractor shall deliver to any Eligible Agency or Co-Op Buyer anywhere in Arizona;
- 8.13.4.2. if a prospective Co-Op Buyer outside Arizona wishes to order against the Contract, Contractor agrees to negotiate in good faith any fair and reasonable price or lead time adjustments necessary to serve that location if practicable to do so within the scope of its normal business; and,
- 8.13.4.3. if the Purchase Order indicates defined delivery areas and prices, those always apply unless the Order expressly states otherwise and Contractor accepts it.
- 8.14. **Conditions at Delivery Location.** Contractor shall verify receiving hours and conditions (i.e. height/weight restrictions, access control, etc.) with the relevant purchaser for the

receiving site before scheduling or making a delivery. State will neither allow extra charges for wait time, comebacks, or the like nor excuse late delivery if Contractor has failed to make the verification or comply with the applicable conditions. Contractor shall make each delivery to the specific location indicated in the Order, which Contractor acknowledges might be inside an industrial building, institutional building, low-rise office building, or high-rise office building instead of a normal receiving dock. Contractor might be required to make deliveries to locations inside a secured perimeter at certain institutional facilities such as prisons where prior clearances are required for each delivery and driver individually. Contractor shall contact each such facility directly to confirm its most-current security clearance procedures, allowable hours for deliveries, visitor dress code, and other applicable rules. State will neither allow extra charges for wait time, comebacks, or the like nor excuse late delivery if Contractor has failed to make the confirmation or comply with the applicable conditions.

8.15. **Materials Acceptance.** State has the right to make acceptance of Materials subject to a complete inspection on delivery and installation, if installation is Contractor's responsibility. State may apply as acceptance criteria conformity to the Contract, workmanship and quality, correctness of constituent materials, and any other matter for which the Contract or applicable laws state a requirement, whether stated directly or by reference to another document, standard, reference specification, etc. Contractor shall remove any rejected Materials from the delivery location, or from any immediate environs to which it might have been reasonably necessary to move it, carry it off the delivery premises, and subsequently deliver an equal number or quantity of conforming items. State will not owe Contractor any payment for rejected Materials, and State may, at its discretion, withhold or make partial payment for any rejected Materials that have been returned to Contractor in those instances where State has agreed to permit repair instead of demanding replacement.

8.16. **Correcting Defects.** Contractor shall, at no additional cost and without entitlement to extension of any delivery deadline or specified time for performance, remove or exchange and replace any defective or non-conforming delivered or installed Materials

8.16.1. Contractor shall be solely responsible for the cost of any associated cutting and patching, temporary protection measures, packing and crating, hoisting and loading, transportation, unpacking, inspection, repacking, reshipping, and reinstallation if installation is within the scope of the Contract.

8.16.2. If Contractor fails to do so in a timely manner, State will be entitled to exercise its remedies under paragraph 8.5 [*Right of Offset*] of the Uniform Terms and Conditions.

8.16.3. Whether State will permit Contractor to repair in place or demands that Contractor remove and replace is at State's discretion in each instance, provided that, State shall not apply that discretion punitively if repair in place is practicable and doing

Contractor shall ensure that all its relevant personnel understand the nature of and hazards associated with, to the extent it they are Contractor’s responsibility under the Contract, the design, shipping, handling, delivery, installation, repair and maintenance of any portion of the Work that is, contains or will become upon use a hazardous material, with “hazardous material” being any material or substance that is: (1) identified now or in the future as being hazardous, toxic or dangerous under applicable laws; or (2) subject to statutory or regulatory requirement governing special handling, disposal or cleanup.

- 9.3. **Additional Services.** State at its discretion may modify the scope of the Contract by Contract Amendment to include additional services or service categories that are within the general scope of the ones originally covered by the Contract if it determines that doing so is in its best interest. Once the Contract Amendment is fully executed, Contractor shall then update all applicable price lists and make them available to all affected entities at no additional cost. Either party may make the request to add services to the Contract; regardless of who makes the request, the parties shall negotiate in good faith a fair price for any additional services, but State may elect not to add some or all of the services in question if no agreement is reached on pricing in a timely manner. Contractor’s request or proposal in response to State’s request must include documentation demonstrating that the proposed price for the additional services is both fair and reasonable and comparable to the original ones.
- 9.4. **Off-Contract Services.** Contractor shall ensure that the design and/or procedures for the Services ordering method prevents Orders for off-contract or excluded services. Notwithstanding that State might have its own internal administrative rules regarding off-contract or excluded service ordering, and endeavors to prevent such orders from occurring, Contractor is responsible for not accepting any such Orders. State may, at its discretion, cancel any such Order without obligation. As used above, “off-contract service” refers to any

- 9.5. **Removal of Personnel.** Notwithstanding that Contractor is in every circumstance responsible for hiring, assigning, directing, managing, training, disciplining, and rewarding its personnel, State may at its discretion and without the obligation to demonstrate cause instruct Contractor to remove any of its personnel from State’s facilities or from further assignment under the Contract. In such cases, Contractor shall promptly replace them with other personnel having equivalent qualifications, experience, and capabilities.
- 9.6. **Transitions.** During commencement, Contractor shall attend transition meetings with any outgoing vendors to coordinate and ease the transition so that the effect on State’s operations is kept to a minimum. State may elect to have outgoing vendors complete some or all of their work or orders in progress to ease the transition as is safest and most efficient in each instance, even if that scope is covered under the Contract. Conversely, State anticipates having a continued need for the same materials and services upon expiration or earlier termination of the Contract. Accordingly, Contractor shall work closely with any new (incoming) vendor and State to ensure as smooth and complete a transfer as is practicable. State’s representative shall coordinate all transition activities and facilitate joint development of a comprehensive transition plan by both Contractor and the incoming vendor. - 9.8. **Requirements at Services.** Contractor personnel shall perform their assigned portions of the Services at the specific location indicated in the Order (if applicable). Contractor acknowledges that the location might be inside an industrial building, institutional building, or one of various office types and classes. - 9.10. **Corrective Action Required.** Notwithstanding any other guarantees, general warranties, or particular warranties Contractor has given under the Contract, if Contractor fails to perform any material portion of the Services, including failing to complete any contractual deliverable, or if its performance fails to meet agreed-upon service levels or service standards set out in or referred to in the Contract, then Contractor shall perform a root-cause analysis to identify the source of the failure and use all commercially reasonable efforts to correct the failure and meet the Contract requirements as promptly as is practicable.

9.10.1. Contractor shall provide to State a report detailing the identified cause and setting out its detailed corrective action plan promptly after the date the failure occurred (or the date when the failure first became apparent, if it was not apparent immediately after occurrence).

9.10.2.
