### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

What inspires you, inspires us. [eidebailly.com](http://eidebailly.com)

**Note 1 - Principal Business Activity and Significant Accounting Policies****Principal Business Activity**

Proforce Marketing, Inc. (the Company) is incorporated in the State of Arizona, and its operations consist primarily of the distribution and retail sales of firearms and accessories to law enforcement agencies and officers throughout the United States.

**Revenue Recognition**

Sales are recognized when risk of ownership and title pass to the buyer, generally upon the shipment of the product.

Commissions represent amounts earned from sales transactions between a certain supplier of the Company and customers of the Company. Commissions are recognized when ownership and title of the supplier's product passes from the supplier to the customer.

Deferred revenue consists of advance payments from one customer, in the form of cash, for revenue to be recognized in the following year.

**Shipping and Handling Costs**

Shipping and handling costs are recorded as cost of sales and amounts billed to customers for shipping and handling costs are recorded in revenue.

**Cash**

For the purpose of the statement of cash flows, cash is considered to be bank checking and savings accounts. The Company maintains its cash in bank deposit accounts, which, at times, may exceed the federally insured limits.

**Trade Receivables and Credit Policy**

Trade receivables due from customers are uncollateralized customer obligations due under normal trade terms requiring payment within 30 days from the invoice date. Trade receivables are stated at the amount billed to the customer. The Company does not charge interest on overdue customer account balances. Payments of trade receivables are allocated to the specific invoices identified on the customer's remittance advice or, if unspecified, are applied to the earliest unpaid invoices.

The Company estimates an allowance for doubtful accounts based upon an evaluation of the current status of receivables, historical experience, and other factors as necessary. It is reasonably possible that the Company's estimate of the allowance for doubtful accounts will change.

**Inventories**

As of December 1, 2017, the Company adopted Accounting Standards Update (ASU) 2015-11, *Inventory: Simplifying the Measurement of Inventory*. This update requires inventory to be measured at the lower of cost or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. Adoption of this accounting standard update is on a prospective basis.

Inventories consist principally of firearms and accessories which are stated at the lower of cost or net realizable value. Cost is determined on a weighted-average cost basis.

**Property and Equipment**

Property and equipment is recorded at cost. Expenditures for renewals and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. Expenditures for maintenance and repairs are charged to expense. When equipment is retired or sold, the cost and related accumulated depreciation are eliminated from the accounts and the resultant gain or loss is reflected in income.

Depreciation is provided using the straight-line and accelerated methods, based on the following useful lives:

	Years
Leasehold improvements	Shorter of respective lease period or useful life
Furniture and equipment	5
Vehicles	3-5
Computer hardware and software	3-5

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. Based on this assessment there was no impairment at November 30, 2019 and 2018.

**Income Taxes**

The Company, with the consent of its stockholders, has elected to be taxed under sections of federal and applicable states income tax law, which provide that, in lieu of corporate income taxes, the stockholders separately account for their pro rata share of the Company's items of income, deductions, losses, and credits. Therefore, no provision or liability for federal income taxes has been included in the financial statements. Certain specific deductions and credits flow through the Company to its stockholders.

Proforce Marketing, Inc.  
Notes to Financial Statements  
November 30, 2019 and 2018

---

The Company evaluates its tax positions that have been taken or are expected to be taken on income tax returns to determine if an accrual is necessary for uncertain tax positions. As of November 30, 2019 and 2018, the unrecognized tax benefit accrual was zero. The Company will recognize future accrued interest and penalties related to unrecognized tax benefits in income tax expense, if incurred.

#### **Sales Taxes and Fees**

Various states impose a sales tax on the Company's sales to nonexempt customers. The Company collects the sales tax from customers and remits the entire amount to each respective state. The Company's accounting policy is to exclude the tax collected and remitted to the states from revenues and cost of sales in the accompanying statements of operations.

The California Department of Justice charges a dealer record of sale (DROS) fee on each firearm sold. The Company's accounting policy is to include the DROS fees collected and remitted to the states in revenues and cost of sales. As of November 30, 2019 and 2018, DROS fees of approximately \$190,800 and \$175,200, respectively, are included in both sales and cost of sales in the accompanying statements of operations.

#### **Advertising**

The Company expenses advertising costs as incurred. Such costs approximated \$101,000 and \$99,000 for the years ended November 30, 2019 and 2018, respectively.

#### **Estimates**

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### **Recent Accounting Pronouncements**

In May 2014, the Financial Accounting Standards Board (FASB) amended the Accounting Standards Codification (ASC) by issuing ASC 606, Revenue from Contracts with Customers. This standard affects all entities that enter into contracts with customers to transfer goods or services. The core principle of the new standard requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Entities will apply five basic steps to transactions to determine the revenue to be recognized. The new standard will be effective for years beginning after December 15, 2018, or December 1, 2019 for the Company, with retrospective application. The adoption of the new standard is not expected to have a material effect on the Company's financial position, results of operations or cash flows.

Notes to Financial Statements

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which requires lessees to recognize leases on the balance sheet and disclose key information about leasing arrangements. The new standard establishes a right-of-use (ROU) model that requires a lessee to recognize a ROU asset and lease liability on the balance sheet for all leases with a term longer than 12 months. Leases will be classified as finance or operating, with classification affecting the pattern and classification of the expense recognition in the statement of operations. The new standard is effective for the Company beginning December 1, 2021. The Company is currently assessing the impact of the adoption of the standard.

### Subsequent Events

The Company has evaluated subsequent events through February 3, 2020, the date which the financial statements were available to be issued.

In conjunction with the loan agreement, the Company has agreed to comply with certain restrictive covenants which include, among others, requirements related to payment of distributions, tangible net worth, liabilities and earnings, and limits on the amount of annual expenditures for property and equipment.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of November 30, 2018 and 2017, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**Note 1 - Principal Business Activity and Significant Accounting Policies****Principal Business Activity**

Proforce Marketing, Inc. (the Company) is incorporated in the State of Arizona, and its operations consist primarily of the distribution and retail sales of firearms and accessories to law enforcement agencies and officers throughout the United States.

**Revenue Recognition**

Sales are recognized when risk of ownership and title pass to the buyer, generally upon the shipment of the product.

Commissions represent amounts earned from sales transactions between a certain supplier of the Company and customers of the Company. Commissions are recognized when ownership and title of the supplier's product passes from the supplier to the customer.

Deferred revenue consists of advance payments from one customer, in the form of cash, for revenue to be recognized in the following year.

**Shipping and Handling Costs**

Shipping and handling costs are recorded as cost of sales and amounts billed to customers for shipping and handling costs are recorded in revenue.

**Cash**

For the purpose of the statement of cash flows, cash is considered to be bank checking and savings accounts. The Company maintains its cash in bank deposit accounts, which, at times, may exceed the federally insured limits.

**Trade Receivables and Credit Policy**

Trade receivables due from customers are uncollateralized customer obligations due under normal trade terms requiring payment within 30 days from the invoice date. Trade receivables are stated at the amount billed to the customer. The Company does not charge interest on overdue customer account balances. Payments of trade receivables are allocated to the specific invoices identified on the customer's remittance advice or, if unspecified, are applied to the earliest unpaid invoices.

The Company estimates an allowance for doubtful accounts based upon an evaluation of the current status of receivables, historical experience, and other factors as necessary. It is reasonably possible that the Company's estimate of the allowance for doubtful accounts will change.

**Inventories**

As of December 1, 2017, the Company adopted Accounting Standards Update (ASU) 2015-11, *Inventory: Simplifying the Measurement of Inventory*. This update requires inventory to be measured at the lower of cost or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. Adoption of this accounting standard update is on a prospective basis.

Proforce Marketing, Inc.  
Notes to Financial Statements  
November 30, 2018 and 2017

---

Inventories consist principally of firearms and accessories which are stated at the lower of cost or net realizable value. Cost is determined on a weighted-average cost basis.

### Property and Equipment

Property and equipment is recorded at cost. Expenditures for renewals and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. Expenditures for maintenance and repairs are charged to expense. When equipment is retired or sold, the cost and related accumulated depreciation are eliminated from the accounts and the resultant gain or loss is reflected in income.

Depreciation is provided using the straight-line and accelerated methods, based on the following useful lives:

	<u>Years</u>
Leasehold improvements	Shorter of respective lease period or useful life
Furniture and equipment	5
Vehicles	5
Computer hardware and software	3-5

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. Based on this assessment there was no impairment at November 30, 2018 and 2017.

### Income Taxes

The Company, with the consent of its stockholders, has elected to be taxed under sections of federal and Arizona income tax law, which provide that, in lieu of corporate income taxes, the stockholders separately account for their pro rata share of the Company's items of income, deductions, losses, and credits. Therefore, no provision or liability for federal income taxes has been included in the financial statements. Certain specific deductions and credits flow through the Company to its stockholders.

The Company evaluates its tax positions that have been taken or are expected to be taken on income tax returns to determine if an accrual is necessary for uncertain tax positions. As of November 30, 2018 and 2017, the unrecognized tax benefit accrual was zero. The Company will recognize future accrued interest and penalties related to unrecognized tax benefits in income tax expense, if incurred.

### Sales Taxes and Fees

Various states impose a sales tax on the Company's sales to nonexempt customers. The Company collects the sales tax from customers and remits the entire amount to each respective state. The Company's accounting policy is to exclude the tax collected and remitted to the states from revenues and cost of sales in the accompanying statements of operations.

Notes to Financial Statements

---

The California Department of Justice charges a dealer record of sale (DROS) fee on each firearm sold. The Company's accounting policy is to include the DROS fees collected and remitted to the states in revenues and cost of sales. As of November 30, 2018 and 2017, DROS fees of approximately \$175,200 and \$198,000, respectively, are included in both sales and cost of sales in the accompanying statements of operations.

#### **Advertising**

The Company expenses advertising costs as incurred. Such costs approximated \$99,000 and \$96,000 for the years ended November 30, 2018 and 2017, respectively.

#### **Estimates**

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### **Reclassifications**

Certain reclassifications of amounts previously reported have been made to the accompanying financial statements to maintain consistency between periods presented. The reclassifications had no impact on net income or stockholders' equity.

#### **Recent Accounting Guidance**

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*, to provide guidance on recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements, specifically differentiating between different types of leases. The core principle of ASU No. 2016-02 is that a lessee should recognize the assets and liabilities that arise from all leases. The recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee have not significantly changed from previous GAAP. There continues to be a differentiation between finance leases and operating leases. However, the principal difference from previous guidance is that the lease assets and lease liabilities arising from operating leases should be recognized in the statement of financial position. The accounting applied by a lessor is largely unchanged from that applied under previous GAAP. The amendments in this standard are effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. Early adoption is permitted. In transition, lessees and lessors are required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. The modified retrospective approach includes a number of optional practical expedients that entities may elect to apply. These practical expedients relate to the identification and classification of leases that commenced before the effective date, initial direct costs for leases that commenced before the effective date, and the ability to use hindsight in evaluating lessee options to extend or terminate a lease or to purchase the underlying asset. An entity that elects to apply the practical expedients will, in effect, continue to account for leases that commence before the effective date in accordance with previous GAAP unless the lease is modified, except that lessees are required to recognize a right-of-use asset and a lease liability for all operating leases at each reporting date based on the present value of the remaining minimum rental payments that were tracked and disclosed under previous GAAP. The Company is currently evaluating the impact of these amendments on its financial statements.

The Offeror shall provide a narrative response to each question that demonstrates their understanding of the Scope of Work requirements and describes your company's overall method of approach for providing the service stated in this solicitation. If there is a question that is not applicable to the services required by the Scope of Work, you may mark it N/A.

**Question 1: Please describe your order taking method(s)**

**Offeror Response:**

An order is placed immediately upon receipt of a purchase order or signed quote from the agency. Internal sales representatives maintain communication with the manufacturer and agency through completed delivery.

**Question 2: Please describe the delivery and warranty start period**

**Offeror Response:**

Delivery times are contingent upon the manufacturer and specific product(s). Estimated ship times are listed on the price sheets. The warranty period begins when the product arrives at the agency's ship to destination.

The manufacturer's full warranty will be available with respect to each product, and the warranty will become effective when the product is received at the end user's location. Distributor will take a leadership role in communication with the manufacturer to understand the issue, determine the best course of action, and facilitate a prompt resolution in accordance with the manufacturer warranty. In addition, if factory upgrades or improvements are implemented by the manufacturer and identified to the distributor as a recall or safety notice, distributor will again take the lead to notify the agency/department of the upgrade and determine the best course of action, and facilitate a prompt resolution in accordance with the manufacturer warranty.
