Agenda Item _____

This Intergovernmental Agreement IGA FCD 2024A011 (Agreement) is entered into by and between the City of Glendale, a municipal corporation, acting by and through its City Council and City Manager, hereinafter called the CITY, and the Flood Control District of Maricopa County, a political subdivision of the State of Arizona, acting by and through its Board of Directors, hereinafter called the DISTRICT. The DISTRICT and the CITY may hereinafter individually be called a PROJECT PARTNER, or collectively called the PROJECT PARTNERS.

This Agreement shall become effective as of the date it has been executed by all PROJECT PARTNERS (the EFFECTIVE DATE).

STATUTORY AUTHORIZATION

1. The DISTRICT is empowered by Arizona Revised Statutes (A.R.S.) Section 48-3603, as revised, to enter into this Agreement and has authorized the undersigned to execute this Agreement on behalf of the DISTRICT.
2. The CITY is empowered by A.R.S. Section 11-952(A) to enter into this Agreement and has authorized the undersigned to execute this Agreement on behalf of the CITY.

BACKGROUND

3. City of Glendale (COG) contracted with Gavan & Barker, Inc. for the 51st Avenue and Bethany Home Road Drainage Study, October 2019. This study supports the two phased approach, demonstrating that constructing improvements upstream of the intersection of Grand Avenue/Bethany Home Road/51st Avenue (INTERSECTION) will mitigate not only serious flooding issues in the upstream area, but will also significantly decrease the cost of the Phase II improvements (Bethany Home Road Storm Drain 58th Avenue to 79th Avenue).
4. The Bethany Home Road Storm Drain 43rd to 51st Avenue (the PROJECT) will construct several storm drain systems between 51st Avenue and 43rd Avenue, and from Glendale Avenue to Grand Avenue in an effort to intercept and detain runoff within the PROJECT area as well as at the INTERSECTION. The storm drains will discharge into existing basins. See attached Exhibit A for details of the proposed system.

5. Drainage along Bethany Home to the west of Grand Avenue will be managed through other projects.
6. On October 7, 2020, the Board of Directors of the DISTRICT adopted Resolution FCD 98-12B (C-69-99-036-6-002) authorizing the DISTRICT to cost-share in the PROJECT, and to negotiate Intergovernmental Agreements for the design, rights-of-way acquisition, construction, construction management, and operation and maintenance of the PROJECT.

PURPOSE OF THE AGREEMENT

7. This Agreement identifies and defines the responsibilities of the DISTRICT and the CITY, for PROJECT activities related to construction, construction management, operation & maintenance.

TERMS OF AGREEMENT

8. The PROJECT, as referenced herein, is defined by paragraph 4 of this Agreement.
9. The PROJECT COST, as defined in this Section, solely encompasses the following costs directly associated with the PROJECT activities which are: costs of construction, construction management, material testing, post-design services and construction surveying support related to the PROJECT.
 - 9.1 The PROJECT COST for this agreement is estimated to be \$21,660,000. This amount is an estimate based on the best information available at the time of this Agreement. Upon recognition of anticipated costs above this estimated PROJECT COST, the PROJECT PARTNERS shall communicate these anticipated increases, and address them in the context of Paragraph 11.3.
 - 9.2 Project costs and budget limitations will require that the PROJECT be implemented in multiple phases utilizing multiple contracts. It is anticipated that at least three phases will be required as depicted in Exhibit A.
 - 9.3 CITY invoices to the DISTRICT, and DISTRICT payment of those invoices for the multiple contracts will be in accordance with Paragraphs 11.2 and 14.3.
10. The following are specifically excluded from the calculation of PROJECT COST:

11. Not later than January 1st of each year during the life of the PROJECT, the CITY shall provide to the DISTRICT a written estimate of the funds the CITY anticipates will be needed from the DISTRICT for the next fiscal year and for each of the remaining fiscal years of the PROJECT until the PROJECT is completed. The County fiscal year commences on July 1 and ends on June 30 of the following calendar year. The DISTRICT'S funding as shown in the table below is dependent on the availability of funding. The CITY should use these DISTRICT funding figures to derive its cash flow for the PROJECT. Depending on funding availability, the Parties may implement a payment plan by mutual agreement.
 - 11.1 The DISTRICT's total PROJECT funding under this IGA is estimated to be \$14,079,000.

11.2 DISTRICT funding for its cost share of the entire PROJECT is contingent on funding availability for construction and all related activities, with an overall funding limit of \$14,441,000 distributed for the DISTRICT fiscal year, as outlined in the table below:

Fiscal Year	Not to Exceed
FY 2025	\$6,127,000

14.2 Pursuant to the terms of the DESIGN IGA, the CITY hired a consultant for design related activities, which said design is at 90% completion. The City will continue to coordinate with the DISTRICT to understand its funding capabilities and timing for reimbursement of these PROJECT COSTS.

14.3 Beginning three (3) months after the award of a construction contract to a Contractor, the CITY will invoice the DISTRICT every quarter for its share of the incurred PROJECT COSTS to date as invoiced to the CITY by the Contractor.

14.4 Serve as the lead agency for the PROJECT construction, construction management, material testing, surveying, and post-design services.

14.4.1 If the construction management services are provided via CITY staff, then the construction management cost shall be assigned a value not to exceed eight percent (8%) of the actual PROJECT COSTS.

14.5 Serve as the lead agency for any PROJECT public involvement activities.

14.6 Obtain DISTRICT review and concurrence on construction change orders.

14.7 Assure the safety and appropriateness of any non-flood control uses of the PROJECT prior to offering to make or making the PROJECT available for such uses.

- 14.8 Obtain DISTRICT review and comments on the design and construction of any future modifications to the PROJECT and resolve and incorporate the DISTRICT's comments into these future PROJECT modifications.

If the CITY determines that additional time is required to correct such deficiencies, the thirty (30) day period may be mutually extended, upon DISTRICT'S consent, which may not be unreasonably withheld. If the CITY has not taken corrective action, or requested an extension, within this time, the DISTRICT reserves the right to perform the corrective action and the CITY shall reimburse the DISTRICT for the total costs incurred by the DISTRICT within thirty 30 calendar days of receipt of an invoice from the DISTRICT.
 - 14.10.3 On an annual basis, commencing on the first anniversary date of the completion and acceptance of the PROJECT, provide written notification to the DISTRICT that the PROJECT has been properly maintained by the CITY over the past year in accordance with the PROJECT design and to ensure proper hydraulic function.
