## Findings & Analysis

---

- There are special circumstances or conditions applicable to the property including the size, shape, topography, location, or surroundings which were not self-imposed by the owner;
- Due to special circumstances, the strict application of the Zoning Ordinance would deprive the property of privileges enjoyed by other properties in the same classification in same zoning district;

## Findings & Analysis

---

- Granting the variance will not have a detrimental effect on the property, adjoining property, the surrounding neighborhood, or the City in general.

## Recommendation

---

If the Board decides to grant the variance, it should be subject to the following stipulation:

The Accessory Dwelling Unit within the proposed accessory building shall be in accordance with Unified Development Code Section 35.3.204.A “Accessory Dwelling Unit”.
