FACILITY CONTEXT AND AREA MAP

OCTOBER 10, 2020, REV 02-04-2021

Petition to Support Rezoning

We, the undersigned, as legal residents of the PebbleCreek community, do hereby support the rezoning of approximately 6 acres of land (located at 165th Ave. and Fairmount Ave.) which Mr. Robson is gifting to the PCHOA to be added to the existing PAD (Planned Area Development). A portion of this acreage will be developed into **16 new pickleball courts, a community multi-use ramada, and public recreation areas**, all of which we support. The rezoning of this land will be extremely beneficial to PCHOA as there is no other parcel of vacant land available that can be incorporated for such use here within PebbleCreek. The proposed development and improvements will provide active, healthy, socially-engaged opportunities for residents that far exceed what currently exists. This allows for equal use and enjoyment by all members of our PebbleCreek community.

Petition to Support Rezoning

We, the undersigned, as legal residents of the PebbleCreek community, do hereby support the rezoning of approximately 6 acres of land located at 165th Ave. and Fairmount Ave. This parcel is being gifted to the PebbleCreek Homeowners Association (PCHOA) by Mr. Robson and will be added to the existing Planned Area Development documentation. A portion of this acreage will be developed into **16 new pickleball courts, a community multi-use ramada, and public recreation areas**, all of which we support. The rezoning of this land will be extremely beneficial to the PCHOA as there is no other parcel of vacant land available that can be incorporated for said use within PebbleCreek. The proposed development and improvements will provide active, healthy, socially-engaged opportunities for residents that far exceed what currently exists. This allows for equal use and enjoyment by all residents of our PebbleCreek community.

Petition to Support Rezoning

We, the undersigned, as legal residents of the PebbleCreek community, do hereby support the rezoning of approximately 6 acres of land located at 165th Ave. and Fairmount Ave. This parcel is being gifted to the PebbleCreek Homeowners Association (PCHOA) by Mr. Robson and will be added to the existing Planned Area Development documentation. A portion of this acreage will be developed into **16 new pickleball courts, a community multi-use ramada, and public recreation areas**, all of which we support. The rezoning of this land will be extremely beneficial to the PCHOA as there is no other parcel of vacant land available that can be incorporated for said use within PebbleCreek. The proposed development and improvements will provide active, healthy, socially-engaged opportunities for residents that far exceed what currently exists. This allows for equal use and enjoyment by all residents of our PebbleCreek community.

Petition to Support Rezoning

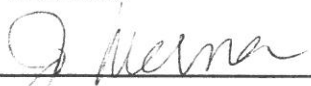

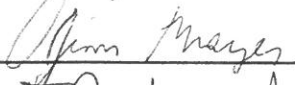

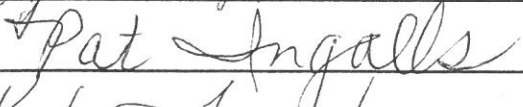

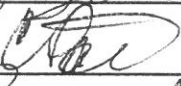

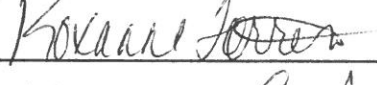

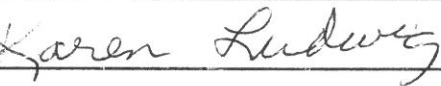

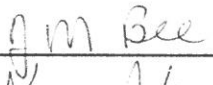

We, the undersigned, as legal residents of the PebbleCreek community, do hereby support the rezoning of approximately 6 acres of land (located at 165th Ave. and Fairmount Ave.) which Mr. Robson is gifting to the PCHOA to be added to the existing PAD (Planned Area Development). A portion of this acreage will be developed into **16 new pickleball courts, a community multi-use ramada, and public recreation areas**, all of which we support. The rezoning of this land will be extremely beneficial to PCHOA as there is no other parcel of vacant land available that can be incorporated for such use here within PebbleCreek. The proposed development and improvements will provide active, healthy, socially-engaged opportunities for residents that far exceed what currently exists. This allows for equal use and enjoyment by all members of our PebbleCreek community.
