Client shall furnish to Wrap, upon the latter's request, written evidence from such governmental authorities of all such licenses, permits, clearances, authorizations, approvals, registrations, and recordings.

These items are controlled by the U.S. Government and authorized for export only to the country of ultimate destination for use by the ultimate consignee or end-user(s) herein identified. They may not be resold, transferred, or otherwise disposed of, to any other country or to any person other than the authorized ultimate consignee or end-user(s), either in their original form or after being incorporated into other items, without first obtaining approval from the U.S. government or as otherwise authorized by U.S. law and regulations.

Re: BolaWrap® 150 Sole/Single Source Documentation

To Whom It May Concern:

Please accept this letter as confirmation that Wrap Technologies is the Sole Source Manufacturer of the non-lethal BolaWrap 150 remote restraint technology. Wrap Technologies is the owner and manufacturer of this unique solution for the worldwide law enforcement market. The BolaWrap 150 is a remote restraint device designed to be used by United States domestic and international law enforcement early in an encounter of someone suffering from a mental health crisis, narcotic induced psychosis, criminal, or other uncooperative behaviors to deescalate situations rapidly so no other force is necessary. No other manufacturers make a remote restraint device comparable to this device.

The BolaWrap 150 remote restraint is unique and is specifically focused on law enforcement use that is non-lethal and is not intended to use pain compliance to take a subject into custody. The goal of BolaWrap is to de-escalate and to safely take a subject into custody while keeping the officer and the subject safe. There are other tools that use pain compliance through electricity, probes, bean bags, chemical irritants and will likely cause pain or injury. Bola Wrap with its 7.5 foot Kevlar tether and hooks that are a unique patented design to catch into clothing have been specifically built to avoid causing injury and to not use pain as the method to gain control compliance. The BolaWrap is also designed to be capable of confining a subject's arms against their torso to prevent the subject from physical fighting with an officer or brandishing a weapon. Only BolaWrap provides these exclusive capabilities to law enforcement with its unique design and product capability.

The ATF has designated BolaWrap as an "any other weapon". The BolaWrap 150 has been designed to not look or feel like a firearm. The intention behind this unique design is to help prevent any confusion between an officer's lethal and non-lethal weapons.

Our BolaWrap product portfolio is covered by 17 patents issued in the US and 31 patents issued internationally and is currently manufactured in the United States of America in Arizona.

U.S. Patents: US11,073,363; US11,408,713; US10,036,615; 11,353,287; 11,156,432;

WO 2022/177612; WO 2022/047435; PCT/US22/45809 (and all national entries/validations based thereon)
