

DEVELOPMENT AGREEMENT

This Development Agreement (this “Agreement”) is made and entered into effective as of the _____ day of _____, 2026 (the “Effective Date”), by and among HAYS COUNTY, TEXAS (the “County”) and Hays Commons Land Investment, LP (the “Declarant”). The County and Declarant are sometimes referred to herein as the “Parties” and individually as the “Party”.

1. Purposes, Term and Consideration

- 1.01. Declarant is developing approximately 340.88 acres of land (the “Property”), which property is more fully described on Exhibit A attached hereto and incorporated herein for all purposes. The Property is being developed by Declarant as “Hays Commons” Project in Hays County, Texas.
- 1.02. Declarant is authorized to enter into this Agreement with the County. The County is authorized to enter into this Agreement with Declarant by authority of Chapter 232 of the Texas Local Government Code, Subchapter E, and Chapter 771 of the Hays County Development Regulations (the “Development Regulations”).
- 1.03. Declarant desires to subdivide the Property as a single-family residential and commercial subdivision with uses as shown generally depicted in the concept plan (the “Concept Plan”) attached hereto and incorporated herein as Exhibit B.
- 1.04. The benefits to the Parties contained in this Agreement, which exceed the minimum requirements of state law and the Development Regulations, are good and valuable consideration for this Agreement, the sufficiency of which is hereby acknowledged by the Parties.
- 1.05. This Agreement shall be binding upon the Parties, their successors and assigns, and shall be effective for a term of ten (10) years from the Effective Date, unless otherwise terminated as elsewhere laid out in this Agreement. This Agreement may be extended for an additional ten (10) years by written agreement signed by Declarant and County at least sixty (60) days prior to expiration, and such agreement shall not be denied or delayed as long as the Declarant is actively pursuing development of the Project (herein after defined).

2. The Project

- 2.01. The “Project”, as that term is described in Chapter 245 of the Texas Local Government Code, is the master planning and subdivision platting of the Property into approximately 346 single-family residential lots, 21 parkland and/or open space lots, one (1) commercial lot, and one (1) amenity lot, as generally depicted in the Concept Plan. The Project also includes the provision of roadways, drainage/stormwater facilities, utilities, water lines, wastewater lines, and related storage facilities. The Project is subject to the Development Regulations as of the Effective Date, including fees as outlined on the Hays County Development Service’s Fee Schedule, as they exist on the Effective Date, except as otherwise modified in this Agreement.

- 2.02.** Declarant has designed and plans to develop, install, and construct the Project in multiple phases, which are included in the phasing plan (the “Phasing Plan”) attached hereto as **Exhibit C**. The Parties acknowledge and agree that the Phasing Plan is preliminary and actual development and construction may vary from the proposed timing, proposed phase boundaries, and proposed number of lots; subject to the limitations in this Agreement, as necessary to improve the overall design of the Project. If the Developer desires to alter the order of the phases or to adjust the boundaries and/or density of the phases, then the Parties agree the County may administratively modify the phases of the Project as long as the phase remain in compliance with the terms of this Agreement. However, at no point may the total number of lots for the Project vary more than ten percent (10%) of the total number of estimated lots listed in Section 2.02 of this Agreement. Additionally, no such modifications or adjustments shall reduce the total parkland or open space area. Any administrative modification authorized in this section may be memorialized by modifying the applicable exhibit hereto and incorporating such modified exhibit in an amendment to this Agreement executed by the County Director of Development Services or designee.
- 2.03.** The Project shall be served by, and Declarant agrees to obtain, water service and wastewater service from Hays Commons Municipal Utility District. Declarant agrees no structure shall be occupied until connected to an individual water supply or state-approved public water supply system. No structure shall be occupied until connected to a state-approved public sewer system or to an on-site sewage facility approved and permitted by Hays County.
- 2.04.** No construction or other development within the Project may begin in a particular phase until all Hays County Development Authorization requirements have been satisfied for said phase, except as otherwise modified by this Agreement.
- 2.05.** Declarant agrees, should these rights be assigned, to remind the eventual builder(s) of their duties and obligations under Section 233.154 of the Local Government Code to perform and submit inspection reports at issue to the County via Hays County Development Services.

3. Applications and Fees

- 3.01.** All standard application, review, and inspection fees shall apply to the Project as applicable. The County will collect all applicable fees in accordance with its standard policies and procedures, including those additional fees associated with a Flood Hazard Area Permit, On-Site Sewage Facility Permit, and Driveway Permit.

4. Application Review Timelines

- 4.01.** The Parties agree that should the Declarant submit a Preliminary Plan, the County will review and provide its first round of comments to the Declarant’s Preliminary Plan Application within thirty (30) calendar days from the date of submittal by the Declarant. The Parties also agree that the County will provide a determination of the Preliminary Plan Application within sixty (60) calendar days from the initial submittal.

- 4.02. The Parties agree that the County will review and provide its first round of comments to the Declarant's Plat Application within thirty (30) calendar days from the date of submittal by the Declarant. The Parties also agree that the County will provide a determination of the Plat Application within sixty (60) calendar days from the initial submittal.
- 4.03. The Parties agree that the County will review and provide its first round of comments to the Declarant's Construction Plan Application within thirty (30) calendar days from the date of submittal by the Declarant. The Parties also agree that the County will provide a determination of the Construction Plan Application within sixty (60) calendar days from the initial submittal.
- 4.04. The Parties acknowledge that the timelines for the Plat Application and the Construction Plan may run concurrently if Declarant elects to submit both at the same time. Additionally, the Parties acknowledge that the above-mentioned timelines do not affect other review timelines, such as Flood Hazard Area Permit and application reviews, On-Site-Sewage-Facility Permit and application reviews, Driveway Permit and application reviews, etc..

5. Development Standards

- 5.01. The applicable roadway standards within the project are the roadway standards in Chapter 721 of the Development Regulations, as those regulations exist as of the Effective Date, except as modified in the Development Standards. The applicable drainage & stormwater standards within the project are those in Chapter 721, 725, 735, and those applicable in the Hays County Specifications for Paving and Drainage Improvements as those regulations exist as of the Effective Date, including the Drainage Criteria Manual, except as modified in the Development Standards. The applicable standards within the project for driveway spacing and requirements are the standards in Chapter 721 of the Development Regulations, as those regulations exist as of the Effective Date, except as modified in the Development Standards. The Development Standards ("Development Standards") are attached hereto as **Exhibit D**.
- 5.02. The Declarant shall identify the current standards and proposed standards within **Exhibit D**, including a written reason for differing standards, and any development exemptions or variances sought for the project.
- 5.03. Except as otherwise set forth in this Agreement, all streets, roadways, driveways, drainage and stormwater facilities, and other public infrastructure requirements shall be in strict compliance with the Development Regulations.
- 5.04. Declarant and County agree that before the County will accept for recording any final subdivision plat of all or a portion of the Project, Declarant shall cause to be constructed all streets, drainage facilities, and other public infrastructure to be dedicated by said final plat in accordance with all applicable County street and drainage standards, except as modified by this Agreement, or provide fiscal surety for the estimated cost to complete the construction of the remaining public infrastructure.
- 5.05. Declarant may dedicate right-of-way and additional right-of-way in excess of the County minimum right-of-way width set forth in the Development Standards and in such event,

the County may grant a license to the Declarant, a municipal utility district, or other governmental entity, to allow for the construction, installation, maintenance, repair, and operation of landscaping improvements, irrigation, lighting, monuments, or trails and related improvements within the right-of-way. Declarant acknowledges that said license agreement shall be approved by the Commissioner(s) whose precinct(s) in which the Property is located.

- 5.06.** Declarant acknowledges that the County shall not accept dedication or maintenance of sidewalks.
- 5.07.** Declarant shall dedicate to the County with each final plat of a phase of the Project all right-of-way containing roads and related drainage improvements within said final plat. Maintenance of drainage improvements outside of the right-of-way shall not be the responsibility of Hays County.
- 5.08.** Declarant agrees that all stormwater facilities including detention and retention ponds will be owned and maintained by a homeowner or property owner association, municipal utility district, or other statutory district. Detention and retention ponds shall be built in appropriate sequence and timing to capture stormwater runoff from each construction site at the beginning of each phase. The County shall not be responsible for maintenance of any stormwater treatment facilities.
- 5.09.** Streets, roads, driveways, drainage, erosion controls, water and wastewater lines and facilities, and all other infrastructure within the Project will be constructed by the Declarant to the standards as adopted in the International Fire Code by Hays County.
- 5.10.** To the extent the Hays County Transportation Department requires a Traffic Impact Analysis, that requirement is not affected or otherwise modified by the terms of this agreement.

6. Consideration to the County

- 6.01.** These concessions, going beyond standard practices, represent Declarant's efforts to be good stewards of the land and the community. These help protect the public's access to water, foster its ecological structure, and the communal partnership that responsible development represents.
- 6.02.** Declarant agrees to commit and restrict the area depicted on **Exhibit B** ("Open Space") to the use of open space in perpetuity. The Open Space will be legally defined with the approval of a final plat but shall not substantially deviate from Exhibit B or be less than two-hundred (200) acres. The Parties agree that trails, utilities, and infrastructure necessary for the municipal utility district to serve the Project are permitted within the Open Space.

7. Assignment of Commitments and Obligations; Termination

- 7.01.** Declarant's rights and obligations under this Agreement may be assigned, in whole or in part, to one or more related entities, purchasers of all or any portion of the Property, other developer(s) of the Property or to a governmental entity. Declarant agrees to notify the

County within thirty (30) calendar days of any assignment; said notice shall include the name and contact information of the party to whom the Declarant assigns, as well as what rights and obligations have been assigned.

7.02. This Agreement and Concept Plan shall be binding on the Parties, and their respective successors and assigns, and shall be effective for the duration through the final phase of the Project listed in the Phasing Plan. However, any consideration granted to the County shall be in perpetuity and a covenant that runs with the land.

7.03. Declarant agrees, if it creates a homeowners association, property owners association, or any other governing entity or political subdivision that, in their covenants and restrictions, or other applicable founding documents, to effectuate rules that bind them to enforce and maintain the terms and requirements of this Agreement. This explicitly includes the maintenance of any consideration given to the County in this Agreement.

7.04. In the event the Declarant requests, and the City of Austin (“City”) approves, voluntary expansion of the City’s extraterritorial jurisdiction over the Property, this Agreement shall automatically terminate as of the date of approval by the City. However, all such protections and remedies ensuring the dedicated open space remains open shall survive any such termination under this section, and the County shall maintain any and all such powers and rights necessary to enforce this agreement to that effect. The Declarant (or any successor or assign) or County is authorized to record a Notice of Termination in the Official Public Records of Hays County, Texas; however, such recording shall be for notice purposes only, and the termination shall be effective regardless of whether such notice is recorded. Any and all approved plats recorded prior to the date of termination shall remain in full force and effect as a plat validly approved under the then-applicable jurisdiction. Any pending applications with the County will be jointly reviewed by the City and the County in accordance with their applicable jurisdiction authority and in compliance with applicable regulations. This Agreement will continue to satisfy the definition of “permit” as that term is described in Chapter 245 of the Texas Local Government Code after termination of this Agreement. In the event the Declarant does not start development of the Property as represented in Exhibit B within five (5) years of execution of this document, this Agreement shall automatically terminate and be null and void. The Declarant (or any successor or assign) or County is authorized to record a Notice of Termination in the Official Public Records of Hays County, Texas; however, such recording shall be for notice purposes only, and the termination shall be effective regardless of whether such notice is recorded.

8. Default

8.01. Notwithstanding anything herein to the contrary, no Party shall be deemed to be in default hereunder until the passage of thirty (30) business days after receipt by such party of written notice of default from the other Party. Upon the passage of thirty (30) business days without cure of the default, such Party shall be deemed to have defaulted for purpose of this Agreement. The non-defaulting Party may bring an action for specific performance against the defaulting Party. To the extent allowed by Texas law, the County waives immunity to suit and liability under this Agreement.

DEVELOPMENT VARIANCES

Citation and quotation of Hays County or other rule:

- Chapter 705, Subchapter 5.05, Lot Size Requirements

Variance requested:

- Allow for a minimum lot size less than 0.75 acres for lots served by a public groundwater system and public wastewater system within the Edwards Aquifer Recharge Zone.

Justification for said variance:

- The overall density of the Project will not exceed 0.75 acres per lot; the proposed Concept Plan consists of 346 single family lots on 340.88 acres which equates to an average density of 1 unit per 0.985 acres.
