**12. Project Maintenance**

After the Project has been completed, the Local Government shall accept full ownership, and operate and maintain the facilities authorized by this Agreement for the benefit of and at no charge of toll to the public. This covenant shall survive the completion of construction under this Agreement.

**13. Local Project Sources and Uses of Funds**

- a. A Project Cost Estimate is provided in Attachment D, "Estimate of Direct Costs".
- b. Attachment D provides a source of funds estimate as well as the estimated direct preliminary engineering, construction engineering, and construction costs for the Project in total and by the Local Government.
- c. The required Local Government participation is based solely upon the State's estimate of the eligible work at the time this Agreement is executed and will not be adjusted during construction except as needed to include any Project cost item or portion of a cost item ineligible for state or federal participation. In addition to its share of estimated direct engineering and construction costs, the Local Government is responsible for the direct cost of any project cost item or portion of a cost item that is not eligible for federal participation under the federal HBRRP.

The Local Government is also responsible for any cost resulting from changes made at the request of the Local Government.

- d. After execution of this Agreement, but thirty (30) days prior to the performance of any work by the State, the Local Government will remit a check or warrant made payable to the "Texas Department of Transportation" in the amount specified in Attachment D for the Local Government's contribution for preliminary engineering. The Local Government will pay at a minimum its funding share for this estimated cost of preliminary engineering.
- e. Forty-five (45) days prior to the date set for receipt of the construction bids, the Local Government shall remit its remaining financial share for the State's estimated construction oversight and construction costs and any other costs owing.
- f. If at the completion or termination of the Project the State determines that additional funding is required by the Local Government, the State shall notify the Local Government in writing. The Local Government shall make payment to the State within thirty (30) days from receipt of the State's written notification.
- g. Upon completion of the Project, the State will perform an audit of the Project costs. Any funds due to the Local Government, the State, or the Federal Government will be promptly paid by the owing party.
- h. The State will not pay interest on any funds provided by the Local Government.
- i. The Local Government funding participation responsibilities include Project direct costs only, except when the Project is terminated before completion at the request of the Local Government as addressed in the Termination provision of this Agreement.
- j. If the Project has been approved for a "fixed price" or an "incremental payment" non-standard funding or payment arrangement under 43 TAC §15.52, this Agreement will clearly state the amount of the fixed price or the incremental payment schedule.

- k. Under the provisions of Texas Transportation Code Section 222.053 certain counties qualify as Economically Disadvantaged Counties (EDC) in comparison to other counties in the state as below average per capita property value, and below average per capita income, and above average unemployment, for certain years. If applicable, in consideration of such EDC status that may be applicable for the Project, the required local match fund participation has been adjusted to 7.2% percent.
- l. The State will not execute the contract for the construction of a Project until the required funding has been made available by the Local Government in accordance with this Agreement.
- m. The state auditor may conduct an audit or investigation of any entity receiving funds from the state directly under the contract or indirectly through a subcontract under the contract. Acceptance of funds directly under the contract or indirectly through a subcontract under this contract acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds.

An entity that is the subject of an audit or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.

**14. Performance by Local Government of Equivalent-Match Projects (EMPs) in Return for Waiver of Local Match Participation Funding on Participation-Waived Projects (PWP)**

- a. Applicability. If a request for waiver has been received and approved by the State's District Engineer, then the required ten percent matching fund participation or percent as adjusted for EDC consideration, as shown in Attachment D, "Estimate of Direct Costs", but excluding ineligible costs under the bridge program, is waived. This waiver is based on the commitment of the Local Government to spend an equivalent amount of funds for structural or safety improvement on "other" bridge structures and other conditions as specified in 43 TAC Section 15.55(d). If a waiver has been granted, the Project shall be defined to be a Participation-Waived Project (PWP) and the work on the "other" bridge structures that will be improved by the Local Government shall be defined to be the Equivalent-Match Project(s) (EMP). Attachment C to this Agreement shows a list of EMP(s) under this Agreement.
- b. Project Cost Estimate for PWP. Attachment D to this Agreement shows the estimated direct preliminary engineering, construction engineering and construction costs for the PWP in total and local match fund participation being waived, or partially waived.
- c. Credit against EMP Work. Any local match fund participation that has already been paid, or which the Local Government is agreeable to paying to the State, will be credited against EMP work to be performed by the Local Government. If applicable, this credit(s) will be reflected in Attachment D to this Agreement.
- d. Responsibilities of the Local Government on EMP(s).

- (1) The Local Government shall be responsible for all engineering and construction, and related costs thereto, and complying with all applicable state and federal environmental regulations and permitting requirements.
- (2) The structural or safety improvement work on the EMP(s) shall be performed subsequent to the final execution of this Agreement but within three (3) calendar years after the earliest contract award of the related PWP(s).
- (3) Written documentation, suitable for audit, of the structural or safety improvement work completed on the EMP(s) shall be kept on file by the Local Government for four (4) years after completion of work or claims, lawsuits, or audits related thereto, whichever is longer. A notice of completion of work on the EMP(s) shall be delivered to the State's District Engineer no later than thirty (30) calendar days after work is completed on the EMP(s).
- (4) Failure by the Local Government to adequately complete the EMP(s) within the stated three-year period shall result in the Local Government being excluded from receiving such waivers for a minimum of five (5) years.

e. Funding of Ineligible or Additional Work Not Waived. Regardless of any waiver of eligible program costs, the Local Government shall pay the State 100 percent of the cost of any PWP item or portion of a cost item that is not eligible for federal or state participation, and 100 percent of the costs resulting from additional work on the PWP performed solely at the request of the Local Government. If the ineligible or additional work is preliminary engineering, the payment shall be made at least thirty (30) days prior to the beginning of preliminary engineering work on the PWP.

If the ineligible or additional work is for construction or construction engineering, the payment shall be made at least forty-five (45) days prior to the date set for receipt of bids for construction of the PWP.
