Subject: STATUS OF \$4.9 EARMARK

Amanda, please forward to all Sheriffs and contact staff.

Sheriffs:

In a telephone meeting on March 27, 2008, your Executive Committee voted to divide the money 20 ways initially for the Earmark grant that I wrote to you about on March 24, 2008.

The breakdown for the 20 is 19 counties and the Executive Director's Office.

Each of you should prepare a budget along the guidelines in the March 24 memo but with a maximum budget of **\$249,100.00 per county**.

As spending begins, those that are not using their awarded monies, will be expected to give up what is not needed to those that do need additional funding. This review will occur at 3 to 6 month intervals and the Executive Committee can make those changes.

The Executive Director's office will monitor the spending plan as we have done in the past.

The meeting was duly called by a member of the committee, waivers of notice of meeting were obtained, and six of the seven members were present by telephone. The vote was unanimous for the equal split.

Therefore, to amend the March 24 memo, we will not need your budgets **until April 24**, however, it would help if they are prepared sooner.

Please call if you have any questions.

Donald L. Reay
