From > Martin Cepeda. Fraud Investigator
To. Mr.Armando Barrera, Tax Asessor and Collector County of Hidalgo.
Ref: Gas credit Card.

On Monday June the 23rd, I attempted to use a credit card that was loaned to me by the Tax Office while I was out of town in the San Antonio area. I had gone to a two day training and was going to fill up the County vehicle so that I could come back to the Valley and when I attempted to use it the store clerk at a Valero gas station told me that the card was no good and after several attempts by slidding it through the scanner and by in putting the personal code it still did not work.

I decided to go and try it at another location just across the street from I was at and again the same thing the card scanner read invalid card when I would put in my personal code.

I had no choice but to use my personal Valero gas credit card to gas up the vehicle.

Martin Cepeda. Fraud Investigator.
