Subject: punchlist items

Good afternoon Rocio,

We made a final inspection on the administration building; there were four pending items on the final punch list presented to us. All but one item was not taken care of and Williamson Construction has ordered the door. I will forward this correspondence to Williamson, so that they can get me the status as to when the door will arrive so that they can install it. If you have any questions feel free to call me.

Thank you,

Fabian Ochoa Sr.
