## THERMAL-EYE™ X200xp – Thermal Imaging Camera

**Thermal-Eye™ X200xp Camera.** The Thermal-Eye™ X200xp has advanced significantly beyond its X100xp predecessor, which has performed with accolades in both Afghanistan and Iraq. This new unit offers 50% greater stand-off-range than the previous generation's unit and can detect human activity at up to 450 meters/1,500 feet (about the length of four football fields). The X200xp also has improved image processing for best-in-class image quality. The unit's sophisticated image processing provides greater scene detail and improved clarity and sharpness. The advanced technology also offers improved vision in challenging field conditions like dust, smoke and complete darkness, all while preventing a blooming effect from nearby lights common in image intensification cameras. The 30-hertz, 30- $\mu$ m detector ensures not only a fast turn-on time, but also real-time video imaging.

### Features and Benefits:

- Enhanced DSP image processing
- On-screen battery level indicator
- Left or right hand operation with slip resistant grip
- Tactile battery loading feature
- Sealed cover for enclosing video and power jacks
- External power input and video output jacks
- Long eye relief viewfinder for use with glasses, face shield, masks, etc.
- 1/4-20 tripod mount

### Standard Equipment Includes:

- Thermal-Eye™ X200xp Thermal Imaging Camera
- Hard Protective Case
- 2 AA alkaline batteries
- Neck strap & wrist strap
- Lens cover
- Lens cleaning cloth
- Operator's Manual

### Product Benefits:

- Provides an officer the ultimate safety and security solution
- Provide an incredibly clear picture of the surrounding scene, up to 1500 feet, through the use of superior imaging software
- 30 hertz 30 $\mu$ m detector offers fast turn-on time and real-time video image
- 50% greater stand-off range than X100 predecessor to detect human activity at up to 450 meters away
- Sophisticated image processing for best-in-class image quality
- Rugged design with integral rubber eyecup can survive accidental drops and underwater submersion to 9 feet
- Pocket-sized, weighing only 13 ounces
- Operates on 2 AA lithium batteries
