The Honorable J.D. Salinas, III  
Hidalgo County Judge  
P.O. Box 1256  
Edinburg, Texas 78540

Re: Anzalduas Park Boat Ramp  
Project Number F-183-B

Dear Judge Salinas:

The plans and specifications for the boat ramp and boat courtesy dock improvements at Anzalduas Park have been reviewed and are approved. The County may begin construction of these improvements.

Plans and specifications must also be submitted to the Texas Department of Licensing and Regulation to assure that the finished project meets the Americans with Disabilities Act guidelines for accessible boating facilities. Please forward a copy of their approval to this office once it is obtained. No project reimbursements will be processed prior to receipt of this approval.

If you plan to utilize any force account staff to construct portions of the project, please submit a list of all employees (including base pay and fringe benefits) and a list of equipment to be used, prior to requesting reimbursement for force account work, as stated in the Instructions for Approved Projects manual. Contact Mr. Will vanWisse, Grant Auditor, at 512/389-8714 if you have questions regarding this matter.

If contract work is proposed, please submit copies of the bid advertisement, the bid tabulation, and the executed contract, when available, for our records.

For further information, call me at (512) 389-8128. Thank you for the opportunity to review these plans.

Sincerely,

Andy Goldbloom, Manager  
Boating Access Program
