RE: *Hidalgo County Levee Rehabilitation Project*
Typographical Error on WA #7

Dear Ms. Briones:

L&G Engineering Laboratory was contracted by the Hidalgo County Drainage District #1 to perform a geotechnical investigation for the Hidalgo County Levee Rehabilitation Project. This project included approximately 17.3 miles of levee rehabilitation and reconstruction from Penitas, Texas to the Hidalgo Common Levee Loop Dam. This project was further divided into three phases (later called Phase I, Phase II, and Phase III). Each phase was assigned a separate Work Authorization by HCDD #1 to L&G. Phase I was assigned WA #5, Phase II was assigned WA #7, and Phase III was assigned WA #10. A separate geotechnical report was submitted for each phase.

Work Authorization #7, issued to L&G by HCDD#1, had a typographical error in "PART 1. Scope of Work". The third paragraph of PART 1 reads "***Scope of Services to be Provided by the Laboratory for Phase I*** (only) attached hereto." It should read "***Phase II*** (only)". We apologize for our error and hope that this letter brings clarification to this issue. If you have any questions or comments feel free to contact our office at (956) 565-0760. Thank you for your continued patience.

Regards,

Marisela G. Marin
Comptroller, L&G Engineering Laboratory
