Advantage™
SERIES

Advantage™

Series Bottom D

Full-Width Fenders,
both front and rear, are sloped to
shed material more effectively.

Lightweight Crossbraces
tie the frame together in a way that
minimizes the flexing and twisting
that can cause cracking in critical
stress areas.

Large Air Reservoir,
with air system oiler, means longer
operating time and better control.

Oil-impregnated Bronze Bushings
at gate pivot pins ensure smooth
operation, long life and simplified
replacement.

Large 11' 6" Clam
and 64" x 99" hopper opening,
combined with nearly vertical hopper
walls, delivers complete dumping of
even the stickiest materials.

Adjustable 11-Position Gate Stop
is conveniently positioned on the side
of the hopper so the gate setting can
be adjusted without crawling under
the trailer.
